ORDINANCE NO GOOD.

According to Opinion of Attorneys City Cannot Prohibit Raffleing.

According to the opinion of attorneys, the ordinance passed a few weeks ago putting a ban on raffles, is no good. For several days this "feature" has been carried on extensively, 'tis said, and seemed to be growing rapidly as the holidays approached. A court of inquiry was held a day or so ago and several complaints were filed. It was expected that one or more of the cases would go to trial this week, in order to test the validity of the ordinance and a great deal of interest was centered around the matter. The turn in the "raffling cases" as they were termed, has put an end to speculation and the practice is running open. Whether or not an effort will be made to get a new city law covering such, and one that will "hold water," is not known.

For That Dull Feeling After Eating.

I have used Chamberlain's Stomach and Liver Tablets for some time, and can testify that they have done me more good than any tablets I have ever used. My trouble was a heavy dull feeling after eating.—David Freeman, Kempt, Nova Scotia. These tablets strengthen the stomach and improve the digestion. They also regulate the liver and bowels. They are far superior to pills but cost no more. Get a free sample at our drug store and see what a splendid medicine it is.

DIED IN HOUSTON.

Well Known Business Man Formerly of This City—Brother-in-law of R. W. Murphey.

M. C. Johnson, a well known business man and for many years a resident of this city died Sunday night at his home in Houston. R. W. Murphey, a brother-in-law of Mr. Johnson, was summoned Sunday morning and went to Houston that afternoon. The interment took place yesterday afternoon. Mr. Johnson was for several years a resident of Nacogdoches and was in the real estate business while here.

How One Doctor Successfully Treats Pneumonia.

In treating pneumonia," says Dr. W. J. Smith, of Sanders, Ala., "the only remedy I use for the lungs is Chamberlain's Cough Remedy. While, of course, I would treat other symptoms with different medicines, I have used this remedy many times in my medical practice and have yet failed to find a case where it has not controlled the trouble. I have used it myself, as has also my wife for coughs and colds repeatedly, and I most willingly and cheerfully recommend it as superior to any other cough remedy to my knowledge." Mrs. Evelyn Ford and interesting little family of Beaumont will arrive Wednesday afternoon to be the guests of Dr. Mrs. F. C. Ford for the holidays.

SAID TO BE FINE.

This Simple Home-Made Treatment Will Overcome Rheumatism.

Few people here know that you can cure that dread American disease. Rheumatism, with just common, everyday drugs found in any drug store. The prescription is so simple that any one can prepare it at home at small cost. It is made up as follows: Get from any good prescription pharmacy Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla three ounces. Mix by shaking in a bottle and take in teaspoonful doses after each meal and at bedtime. These are all simple ingredients, making an absolutely harmless home remedy at little cost.

Rheumatism, as everyone knows, is a symptom of deranged kidneys. It is a condition produced by the failure of the kidneys to properly filter or strain from the blood the uric acid and other matter, which, if not eradicated, either in the uric or through the skin pores, remains in the blood, decomposes and forms about the joints and muscles, causing the untold suffering and deformity of rheumatism.

This prescription is said to be a splendid healing, cleansing and invigorating tonic to the kidneys, and gives almost immediate relief in all forms of bladder and urinary troubles and backache.

Married at Joaquin.

Rev. T. W. Fowler returned from Logansport on the noon train today where he went to perform the ceremony at the Holmes-Hanson marriage which took place in the Baptist church of Joaquin, Texas, last Sunday at 8:30 p. m.

When seen by a reporter Rev. Fowler said, "we gave Mr. Holmes one of the fairest and loveliest flowers that ever bloomed on Texas soil. Miss Hanson was beautifully gowned in white satin, brides veil carried a beautiful bouquet of orange blossoms.

The happy couple left on the night train for San Antonio and other Texas points where they will be for a couple of months on a trip of joy."

For a Lame Back.

When you have pains or lameness in the back bathe the parts with Chamberlain's Liniment twice a day, massaging with the palm of the hands for five minutes at each application. Then dampen a piece of flannel slightly with this liniment and bind it on over the seat of pain, and you may be surprised to see how quickly the lameness disappears. CLASS IS ORGANIZED.

Mr. and Mrs. W. N. Wiggins, State Sunday School Workers, Visit Nacogdoches—Some Good Results Expected.

Nacogdoches has just had a visit from Mr. William Nehemiah Wiggins of Dallas, the general secretary of the Texas Sunday School association. He was accompanied by Mrs. Wiggins who is also a field worker. A meeting was conducted in the Baptist church Friday night and Saturday morning and quite a number of workers were present. Mr. Wiggins spoke of the three great needs in Sunday school work in Texas, ingathering, soul winning and training for service. With only 14 of the every 100 of the population in Texas attending the Sunday school there is great need for the ingathering. Then he spoke of the fact that while 85 out of every hundred people who join the church come through the Sunday school, unless they are reached and taught God's word, they are limited in the opportunity.

Another point made was, only 20 out of every 100 population are members of the churches of all denominations. This presents a need for soul-winning, and that too at a time when they can be more easily reached. The Sunday school offers to the pastor his greatest harvest field. The third point was the need for teacher training and training for service in the other departments of the church.

At the conclusion of the address, a fine training class was organized in the Baptist church, which will study the course prepared by the Southern Baptist Convention and while the Methodist church already has a class taking the advanced course, another class will be organized to take the first course prepared by the M. E. Church South.

Cradle rolls were also started for those schools which had none already. The Texas Sunday School association which these workers represent is an aggressive, co-operative interdenominational organization; of all denominations for the purpose of bringing a state of better efficiency and equipment to all Sunday school workers in their Bible teaching and soul-winning service. It is called the clearing house for the Sunday school world and is a part of the great world movement in which all denominations co-operate. In fact it is said to exist solely for the denominations. All of the denominational field workers are members of the State Executive Committee. Rev. Geo. W. Truett, D. D., of Dallas is International vice president for America. Rev. V. A. Goddard, D. D., of Austin is state president. Rev. H. Coleman,

Ill Health is More Expensive Than Any Cure.

This country is now filled with people who migrate across the continent in all directions seeking that which gold cannot buy. Nine-tenths of them are suffering from throat and lung trouble or chronic catarrh resulting from neglected colds, and spending fortunes vainly trying to regain lost health. Could every sufferer but undo the past and cure that first neglected cold, all this sorrow, pain, anxiety and expense could have been avoided. Chamberlain's Cough Remedy is famous for its cures of colds, and can always be depended upon. Use it and the more serious diseases may be avoided. For Sale by Stripling, Haselwood & Co. w

MARRIED AT BANITA.

Miss Nettie Garrett of This City and C. B. Simpson of San Antonio Wed This Morning.

A pretty "at home" wedding took place this morning at 11 o'clock at the Banita hotel the culmination of a long time love affair, the principals being Miss Nettie Garrett of this city and C. B. Simpson of San Antonio formerly of Shreveport, La. Miss Garrett has been in this city since September 1st as head milliner for Miss Lena Justice, and during her stay here has made many friends. Mr. Simpson was, until recently, a resident of Shreveport, but is now traveling for the San Antonio Drug Co., with that city his headquarters. The ceremony was performed by Rev. J. W. Mills, only a few intimate friends being present. Mrs. Robert Lindsey played the wedding march. Miss Garrett was dressed in a grey tailored, traveling suit, hat and gloves to match, the groom wearing a grey business suit. After the ceremony the wedding party repaired to the dining room where a wedding dinner was served. The bride and groom left on the noon train for Houston and tomorrow will go to San Antonio, their future home.

Two tobacco packing houses in 1909? Nacogdoches will come into her own rights yet.

AGRICULTURAL development is the builder of towns and cities. What we need is more farmers.

THE Christmas spirit is coming—no doubt some of it will be in jugs and maybe later will be "jugged."

NOTWITHSTANDING all talk to the contrary, it's a plain, unvarnished truth that Nacogdoches needs street crossings.

THE Garrison Gleaner says their calaboose has been moved uptown and made habitable. Must be expecting some roomers during Christmas.

ABOUT 300 feet of street crossings in the business portion of the city would make more than a half mile that a person could go without having to wade mud elbow deep.

THE Timpson Times is enjoying a fine advertising patronage these days and has doubled its former size to meet the merchants demands. It pays to advertise.

PAY your poll tax so you will have a vote next year. Do it now—before Christmas—and get it off your mind. Get ready—there may be something doing in 1909.

TOM LARKIN has gone to Beaumont under a three years contract, as secretary of the Chamber of Commerce. Beaumont is one of the progressives.

HAVE you thought about the empty stockings? Have you thought about giving presents to those who may not get any without such help? It's a worthy cause. Talk to your neighbors and friends about the matter.

HOGS can be raised in East Texas as cheaply as anywhere in the world. Not only should East Texas raise hogs for her own consumption, but should be shipping a pork supply into other sections of the state—and other states of the union.

HERE'S hoping "terrible Teddy" will not take an Associated Press correspondent with him to Africa. The American people are so deuced tired of his rantings, they are entitled to a long rest.

PORT ARTHUR and Beaumont are scrapping over the "channel." The idea of two towns fussing over water, when there are lots of water holes in this old city that are landmarks, and people pay no attention to them.

No matter how good or how sorry a pistol, it's a \$100 fine and the trimmings, if you are caught with the artillery. Seems as if that ought to put a stop to the practice but evidently it doesn't. A compulsory jail sentence might help matters some.

If the man who stands or sits around snapping and snarling and growling about hard times, will just put forth half that energy in trying to do something of worth, he wouldn't know that such a thing as "hard times" ever existed.

NACOGDOCHES merchants have the finest and largest stocks of Christmas goods ever shown in this section. The person who is in search of old Santa couldn't do better any where in the world. Come to Nacogdoches to trade.

If "Uncle Sam" knew the condition of the roads in some of the East Texas counties, we fear the farmers would be deprived of the rural mail delivery they so much enjoy. And yet there are people who think good roads an extravagance.

THE man with the plow and the hoe has the best opportunity in the world right here in Nacogdoches county. A climate unexcelled and a soil that will grow anything from peanuts to tobacco, makes this section the choice for a thrifty farmer. Lets get more tillers of the soil to come.

TO THE citizen who feels that Christmas spirit; who is joyful and wants to contribute something that will be a present to everybody including self, we suggest the immediate building of a nice concrete side walk in front of his home. Nothing of more value could be done.

"THE lid on in old San Tone" sounds queer, though it is said a lid has been on several times during the past twenty years. Governor Campbell seems determined to close the joints Sundays and it is probable that the "tamaleites" will find themselves in an awful way for wetness if they don't remain shut up. Poor old San Tone, dry old San Tone—ain't it awful Ferdinand

It is announced that Governor Campbell declines to lease the Rusk Iron Works to private parties, an action that will certainly meet with the approval of most Texas citizens. Governor Campbell can be depended on to do the proper thing at the proper time despite the fact that "some" would like him to make a serious mistake so they might make a "point" against him. The Rusk Iron works have paid the state and why not now?

DIRTY, filthy talk and smutty yarns are anything in the wide world but elevating. A man or set of men who will stoop to such stuff may not be surprised to find themselves some day just a poison bunch of human flesh, a weakling in mind and body, if they happen to have sense enough to realize. Lots of times such can be heard on the streets and the perpetrators seem to have no regard for even the gentle sex. A pitiable condition it is when a person's mind becomes so foul that he will stand or sit around and rip out the vilest thinkings of an underworld—a human scavenger—and not above the despised scandal monger.

ONE thousand acres of tobacco; two packing houses; greater acreage of cotton, corn and truck, some more good roads; street crossings; side walks; free city mail delivery; a new court house; a federal building; a city hall and the livest Commercial club in Texas. That's the program for 1909. Watch Nacogdoches county and Nacogdoches city grow.

THE paper mill at Orange, Texas—the only one in the world that is making paper of pine slabs, shavings, etc.—is to treble its capacity the coming year. To do such will require an outlay of \$150,000 and the plant will employ about 50 additional men. The daily output will then be something like 25 tons as against eight now. All of that means a longer pay roll, and pay rolls help build cities.

THE Orange Tribune man struck a happy view somehow, somewhere in that old town. Listen to the song—and its logic too. 'If you want to get to Happytown take the direction of the laughing road past Smiling creek. Keep on the right side all the time and if you happen to meet a woman, whether rich or poor, with a basket, carry it for her. In meeting a man, say "Howdy!" and if you stub your toe, whistle and when it rains croon a melody. When you are cold, run some and think of something that will make your heart glow. And, if the road is long, recall how you trudged Sunday nights up to your best girl's home and never fatigued. When a dog barks at you, don't throw a rock or brick at him. Snap your fingers and repeat "Good Towser!" When you feel like crying, laugh. When you can't do all this, you'll arrive at Happytown, all right—and that's about the only way one will ever get there."

THE Country Life Commission, sent out by Pres. Roosevelt and recently in Texas for a few days, is performing a great work and one that, without a doubt, will result in untold benefits to the ruralists. The movement will mean more good farms and farmers; more comfortable homes, additional conveniences and better crops. Give the people good roads and all else will come as naturally as water runs down hill. Let "bad roads" remain—and we will continue to have some bad farmers and poor farms; unimproved homes, small crops and single crop ideas; sorry stock, few comforts and practically a non-progressive, uneducated people. One good deed begets another; one progressive step calls for another—and usually gets it. Good roads are the initiative, the beginning, the very foundation of all the other things; is conducive of all else. How any man can oppose in any degree, the building of better highways, is a nut that is hard to crack. Nacogdoches county is in the balance; it's good roads or no roads. It is forward or backward; there is no stand still. Let's be alive, progressive; make it good roads and in every section of Nacogdoches county.

THIS thing of locating the T. & N. O. shops and round house at Huntington may be "all talk"—and then it may not. Lots of folks take it pretty seriously, and it may not be pleasant to others always. Don't blame those Huntington folks if they get wide awake and do something. Just be consoled by the fact that a "peaceful sleep was long undisturbed."

DENTON is determined to have no fireworks shooting this Christmas, the officials having declared such emphatically. Denton has heretofore had fire works and if it doesn't come off this year—it will be the first time. The crackers, rockets and candles are in stock, the "small boy" is propitious, and if the two get together—listen.

It makes no difference if you have wordly goods to fill a barn, or haven't anything but a weekly wage, you can be progressive. It is not always those who are most able that are the best builders. The poor man oft times has ideas that the rich man may carry out to a mutual advantage. Both classes are necessary and can do much when working in harmony. Without co-operation neither is of much import. But progressiveness is not always a case of dollars and cents.

"THINK seriously a few moments about beautifying the playgrounds of the school children, and if you favor the move, speak out. If opposed to such an exhibition of home pride, keep quiet," was the advise given by The Abilene Reporter a few days ago. These words are supplemented with the following truths and timely suggestions by the Fort Worth Record: "The cost of beautifying school grounds is so small that any community can afford the investment. Young trees are cheap, and when planted the teachers and children will care for them. The surroundings of many school houses in Texas are a positive disgrace to the patrons and school trustees and would not be tolerated for a moment about the homes of the people who send children to school. Trees, grass plots and flowers should abound for the education as well as the comfort and pleasure of our children."

THE rumor to the effect that the T. & N. O. is to erect a round house and shops at Huntington, may never amount to anything more than a rumor. There are some men, and business men too—who believe that such improvements will be made. But then; that's neither here nor there. The point we desire to emphasize is, "that Nacogdoches ought to investigate with the view of showing the rail road folks just why these improvements should come to this city." The past is neither here nor there. It is the future that needs looking out for. It would not be amiss for our Commercial Club to take the matter up at once; if there is nothing to it—no harm has been done; if there is something to it—put forth an effort to get the T. & N. O. in-

terested. Nacogdoches is the logical point for the round house and shops. Water in abundance and room a plenty for the buildings are two strong points in our favor. The suggestion that something should be done is not made blindly to the knowledge of some things that don't set exactly well, but with the belief that business is business, regardless of sore spots and blisters. There is no room for argument in favor of letting the matter pass, excepting the fact that "Nacogdoches has been here always, and the railroad knows where the town is, if she wants to bring any improvements here."

PROGRESSIVENESS.

WE are unqualifiedly in favor of good roads; are just as strong an advocate of nice streets, sidewalks and street crossings and firmly believe in all kinds of county and municipal improvements. Good roads are town builders; they are avenues by which a prosperity travels and by which a people are brought closer together; they are promoters of a mutuality that should be and is necessary for success. Good roads are the most prominent assets of the agriculturists and are very valuable ones for the merchants. Good roads are essential. The same about street crossings, side walks and all other civic improvements. The idea of being submerged with debt in order to accomplish all of these things may be foolish and wholly unwise, yet a debt created for the purpose of supplying conveniences and comforts, especially when these things pay for themselves in time, is not extravagance nor is it contrary to ethics of good business. The extension of good roads would incur debt but it would prove one of the greatest factors in the development of our county that can be conceived. It would create enough additional business and save the farmers more than enough each year to overtop the annual expenditure. The arguments against the expense for building good roads in this county are misplaced; the people who are opposed to such methods are standing in their own light and in the way of their fellowmen. Debt for good roads is not extravagance, but is money well invested; just as a merchant can display his stock to a better advantage and attract more custom in a nice, modern building than in an old shack, so will good roads create. Good roads are what the farmers need and are what the merchants need. People of the city are in just as great need of street crossings and sidewalks. It is only progressiveness—that thing that distinguishes the really good towns from the pitifully slow towns. Whether or not Nacogdoches would have to incur debt to build street crossings, we know not, but it is believed that \$500 put into seven or eight crossings would meet with the approval of the citizens. Nacogdoches has a splendid opportunity to grow—if the people will let her grow and help her grow.

MT. PLEASANT has suffered the ravages of fire, putting a number of merchants out of business, temporarily, and entailing a total loss of some \$30,000 or \$40,000. They say "we are coming again" and already the re-building of the houses has begun.

EMPTY stockings? There may be some but lets hope not. Christmas, the event so dear to childish heart and so full of promise to the little prattling boy and girl, comes, —yes—so long apart. To them it is more than words can express. Empty stockings—let's make it no!

A NEWS item states that many of the people of the black land counties are disposing of their farms at from \$75 to \$120 per acre and are going west to buy cheaper soil. In West Texas land is selling from \$10 to \$30 an acre, in the raw state, none of which can compare with East Texas soils in yielding crops. There is no reason why some of those black land farmers should not come to this section and they no doubt would if sufficiently urged. East Texas needs an awful big dose of real systematic, judicial advertising.

A writer who can write a prose poem on any subject says of the hog: "The hog is a machine that oils itself, puts ten bushels of feed in less space than a bushel measure, and in so doing doubles the value, then in so doing can carry it to the market on its back. Corn, barley, oats, grass, rape, clover, or any of the by-products of these, loaned to a well-bred, thrifty hog, is money at a big interest. In fact, it is a mint, the grain and grasses are bullion which, put into the hog, is transmuted into coin. It is an honest mint and gives sixteen ounces avoirdupois of edible meat. Properly bred, fed and intelligently handled this automatic porker will pay off our debts, furnish the money to improve the farm, place a piano in the home, a carriage at the door, as well as means to educate our boys at the Agricultural College.

VINDICTIVENESS doesn't pay in any shape or form. 'Tis better to overlook a slur than to resent one, for such comes from unnatural minds. Thoughts spoken in words that bite do the author the greatest harm and poisoned arrows are not made for human hearts. Your most bitter enemy may some day be your truest friend; faults oft times prove a key to ardent affection. 'Tis better to forgive. 'Tis nicer to meet each and every man or woman with pleasantness, on any and all occasions, and if ranklings do exist, relegate them to the cob webbed crevices of forgetfulness. Broadness of mind and strength of courage are two of the greatest virtues of a people and void of such would mean no loftier than the plane of glutinous swine. No person is bigger than he actually is; no person is stronger than his weakest point and no person is higher than his own mind.

COURT WELL PLEASD.

New Commissioners Visit Poor Farm For Inspection—"Good Roads" Policy.

The new commissioners court, after being in session less than two days, adjourned Tuesday afternoon. The object of this call session was more to get acquainted and acquaint the court with several matters with which the members will have to deal during their term of office. Several accounts were allowed and W. E. McMillan was re-appointed as superintendent for the farm for the ensuing twelve months. The court visited the farm Tuesday morning for the purpose of making an inspection. The members are well pleased with the property and the conditions that exist. It was known that it had become a question whether or not it would be wisdom to continue the farm, but after the trip, it was no longer such, for all were agreeably surprised. The land is said to be much better than it was previously thought, the improvements are fairly good and everything seems to be running along smoothly on the "plantation." It was decided by the court that the land be cultivated and extra efforts put forth to make it self sustaining—or as much so as possible. To do this it is proposed that all labor shall be convict and which will take the hands from the roads. Of course when there is nothing to do on the farm, the labor can, and probably will, be put on the roads. However this policy with reference to depending on overseers and hands to keep the roads in condition, is the subject of much comment, for the reason that it is believed more benefits will be derived by working the convicts on the roads. Some time ago it was said that the labor was to be put on the highways in preference to all else—a policy that seemed to meet with the approval of many citizens. The reverse decision made by the court is causing a deal of speculation as to the condition the roads will be in, in a twelve months. It is known too that the "experiment road" came in for a deal of criticism at the hands of the new court, the opinion being that it was "money unwisely spent." And while no direct assertions were made, the trend had an air of "no more expense." This status was relieved when it was known that no action was taken, the matter being left open and placed at the discretion of the commissioner of this precinct. This is considered a liberal policy on the part of the court and is taken to be in favor of keeping the experiment road in tip top shape until the good or bad of it is proven beyond all doubt.

A MOTHER'S GRATITUDE.

Many a Mother in Nacogdoches Will Appreciate the Following.

Many a strong man and many a healthy woman has much for which to thank mother. The care taken during their childhood brought them past the danger point and made them healthy men and women. Children are generally bothered at some period with incontinence of urine, and inability to retain it is ofttimes called a habit. It is not the children's fault—the difficulty lies with the kidneys, and can be readily righted if taken in the proper way. A Nacogdoches mother shows you.

J. F. Floyd, Alderman, living in Nacogdoches, Texas, says: "My daughter, eleven years old, was troubled with a weakness of the kidneys for some time. This was a very annoying complaint and caused her considerable uneasiness. I procured Doan's Kidney Pills at Mast Bros. & Smith's drug store, and they relieved her. I give all the credit for the improvement in her health to this reliable remedy and do not hesitate to advise anyone in need of a kidney remedy to give Doan's Kidney Pills a trial."

Wedding Next Sunday.

Cards have been received announcing the marriage of Miss Eliza Hamson of Joaquin to Mr. Louis T. Holmes of Logansport, La., at the Baptist church of Joaquin Sunday at 8:30 o'clock p. m. Dec. 20th, Rev. T. W. Fowler of this city officiating.

Mr. Holmes is one of the most substantial men of his community, with large land interests in many places in Texas. He is numbered with the best of men, and ranks high among his associates as a man of sterling worth, while the bride of his choice is one of the loveliest of young women and is admired and loved by all who know her. Rev. Fowler her pastor, when asked concerning her said; "Miss Liza is one of my best girls and our church loves her muchly."

Mrs. McRaney's Experience

Mrs. M. McRaney, Prentiss, Miss., writes: "I was confined to my bed for three months with kidney and bladder trouble, and was treated by two physicians but failed to get relief. No human tongue can tell how I suffered and I had given up hope of ever getting well until I began taking Foley's Kidney Remedy. After taking two bottles I felt like a new person and feel it my duty to tell suffering women what Foley's Kidney Remedy did for me." Mast Bros. & Smith.

ARRESTED FOR ASSAULT.

Tom Hubbard Charged With a Serious Offense—Fourteen Year Old Daughter Makes Complaint.

Tom Hubbard, some forty years of age, and who is well known in some sections of this county, was arrested Tuesday near Etoile and brought to this city and placed in jail. The complaint was made by the fourteen year old daughter and charges mistreatment. The girl related a terrible story, and which, it is said, was fully corroborated by neighbors. The daughter left home and went to her grandmother's and reported the affair, showing marks and bruises as if she had been severely whipped or beaten. Hubbard is a widower, he and the daughter being camped near Etoile where he was making ties. The date for an examining trial has not yet been set.

Painting the Depot.

Hugh McLarty, with a crew of painters, is giving the passenger depot—a new dress this week. The work, when completed, will add much to the appearance of the building.

Do You Open Your Mouth Like a young bird and gulp down whatever food or medicine may be offered you? Or do you want to know something of the composition and character of that which you take into your stomach whether as food or medicine?

Most intelligent and sensible people now-a-days insist on knowing what they employ whether as food or as medicine. Dr. Pierce believes they have a perfect right to insist upon such knowledge. Some publishers, broadcast and on each bottle of medicine, what the ingredients are made of, and besides, they say, "The ingredients of which his medicines are made are studied and understood, and more will be their superior quality."

For the cure of woman's peculiar weaknesses, irregularities and derangements, giving rise to frequent headaches, backache, dragging-down pain or distress in lower abdominal or pelvic region, becoming painful, oftentimes, with a debilitating, pelvic, catarrhal drain and kindred symptoms of weakness, Dr. Pierce's Favorite Prescription is a most efficient remedy. It is equally effective in curing painful periods, in giving strength to nursing mothers and in preparing the system of the expectant mother for baby's coming, thus rendering childbirth safe and comparatively painless. The "Favorite Prescription" is a most potent, strengthening tonic to the general system and to the organs, especially feminine in particular. It is also a soothing and invigorating, nerve and nerve-cures nervous exhaustion, nervous prostration, neuralgia, hysteria, nervousness, nervousness, nervousness, other distressing nervous symptoms attendant upon functional and organic diseases of the distinctly feminine organs.

A host of medical authorities of all the several schools of practice, recommend each of the several ingredients of which "Favorite Prescription" is made for the cure of the diseases for which it is claimed to be a cure. You may read what they say for yourself by sending a postal card request for a free booklet of extracts from the leading authorities, to Dr. R. V. Pierce, Medical Director, and Surgical Institute, Buffalo, N. Y., and it will come to you by return post.

Little Son Injured.

The three year old son of Mr. and Mrs. George Meisenheimer, who was injured a few days ago, is reported to be getting along fine. He was playing a few nights ago and ran against a broken key that was sticking in a door, dislocating the pupil of an eye. A physician was called and put the pupil back in place. The little fellow did not even complain when the injury was done.

Another car of salt received today, also a lot of Red Rust proof seed oats.

Judge Peyton F. Edwards and wife arrived yesterday and are at the home of Mr. and Mrs. Geo. F. Ingraham on North street.

Now in San Augustine.

Mr. B. F. Nugent, formerly of Nacogdoches county, who moved to Broadus (this county) about a year ago, came in Tuesday and informed us that he had brought in a negro by the name of Joe Reed, 12 years old, for horse theft. It will be remembered that Mr. Nugent also arrested and brought in the Mexican who killed a negro at White City some time ago. He has since his residence at Broadus established a record of which every law-abiding citizen could be proud. He is now constable of Broadus precinct, and it is due to his efforts that the most lawless quietude now prevails.—San Augustine Vidette.

Habitual Constipation

May be permanently overcome by proper personal efforts with the assistance of the one truly beneficial laxative remedy, Syrup of Figs and Elixir of Senna, which enables one to form regular habits daily so that assistance in nature may be gradually dispensed with when no longer needed as the best of remedies, when required, are to assist nature and not to supplant the natural functions, which must depend ultimately upon proper nourishment, proper efforts, and right living generally. To get its beneficial effects, always buy the genuine Syrup of Figs and Elixir of Senna manufactured by the CALIFORNIA FIG SYRUP CO. ONLY.

Get it only, for your price 50c per bottle.

Frail Women Aided Free

The woman who is by nature not robust cannot be too careful of her health. The foundation of all health is in the stomach. Without good digestion the body is not nourished, and then soon becomes feeble and weak. In order to have good digestion, regular bowel movement is absolutely necessary, and it is at this point that so many women neglect themselves.

In any of these conditions you can do better than to take Dr. Caldwell's Syrup Pepsin, the remedy that thousands of delicate women are using. It is the great family laxative, and in addition to its wonderful power to cure constipation, it cleanses and strengthens the stomach, and gives the system the strength to work naturally again without the aid of medicine.

Dr. Caldwell will send you a bottle for the price of 10 cents, through persons who have used the remedy before and know what it is like. Mrs. Anna M. Brown, of Alton, Va., who is 65 and feeble, uses it regularly and speaks in the highest praise of it. Another woman writes: "I have used this wonderful remedy and it has done for me what I thought would never be done. I had the fortune to tell the whole world about it. Both these ladies, as well as hundreds of others, would name first become acquainted with Dr. Caldwell's Syrup Pepsin through the doctor's offer to send any sufferer a free test bottle direct to the home."

He will send you or any other sufferer a sample bottle free of charge on receipt of your name and address. It is wonderfully effective in the stomach troubles of children and babies, girls entering the period of menstruation and old folks, all of whom need a gentle laxative.

If there is anything about your ailment that you don't understand, or if you want any medical advice, write to the doctor, and he will answer you fully. There is no charge for this service. The address is Dr. W. B. Caldwell, 515 Caldwell Bldg., Monticello, Ill.

What's the use of pulling a thorn when you could pluck a flower? What's the advantage of climbing rocky paths when you could travel smoother roads? What's the excuse of stumbling along, hesitatingly on account of trivial troubles, when a little energy would put you beyond such? What's the logic for being a knocker when you could be a booster? Pessimism never made a may, won a battle nor built a town. Pessimism is an unnatural state, the malady of a diseased mind. There is beauty in the world and happiness for those who seek it. Trials, real or imaginary, should find no lodgment with the true man or woman. The sun is shining brightly today; the air is laden with the perfume of a world of living, breathing, pretty flowers; there is love and hope and ambition all around us and there should be contentment within us.—Nacogdoches Sentinel.

After all our trial and troubles and disappointments, our joys, our happiness and our contentment—after they are all considered carefully we shall find that life is pretty much what we make it. We can make it sad, gloomy and disappointing, or we can make it bright and cheerful.—Bonham News.

We can sell you a scholarship in the Tyler Commercial College for less than you can buy one direct. See us if you want to take a business course. Haltom & Haltom.

FINE Christmas weather ain't it? Cool and clear and breezing, it's ideal; a characteristic of old East Texas.

EVERY little bit added to what you have already bought makes just a little bit more—but it's Christmas.

AREN'T you thankful that you did your Christmas shopping early? You have many reasons for so being and one of them is—ah, mud.

JUST think, if those pulsating, palpitating, perambulating Panhandle folks were in East Texas, how much better they could enjoy Christmas.

There is no question but what it pays, and pays well, to advertise. The thing is getting some folks to try it long enough to find out for themselves.

SEVEN fools with six shooters and one more than that many victims, is the record for one day. And we shout sane and safe and great old Texas! It's to laugh.

THE rain of the past two days has made things rather disagreeable but it will prove a mighty fine thing for the agriculturists. A good winter season means a lot for the farmer.

THE Sentinel acknowledges receipt of the handsome holiday number of the Abilene Daily Reporter. It's a hummer, chuck full of advertising, good reading matter and is an excellent specimen of the art of printing.

JOSEPH PULITZER, editor of the New York World, has gone to Panama to investigate the "alleged canal scandal." President T. R. had best make it convenient to leave earlier for Africa, something might happen.

THOSE Panhandle editors who are always pitching a prong into East Texas, certainly don't realize that they are talking about the magnificent country that is furnishing a living while the "Westerners" are experimenting.

In your rounds, Christmas shopping, enjoying the pretty things and mixing and mingling with the jolly crowds, don't forget the little children that "may not have any Santa." It would be the right Christmas spirit to remember them in a substantial way too.

CARL F. DRAKE, former editor of the Jacksonville Reformer, is now associate editor of the Lufkin Daily News. Drake is a good newspaper man, a forceful writer and for him we predict much success in the "new capacity." Here's "top o the morning" to the versatile pencil pusher and former official booster for the terrible turnip and tomato country.

THE EMPTY STOCKING.

San Antonio Gazette.

We wish we could spread over our whole front page the Inland Printer's picture, published five years ago, called "The Empty Stocking." It is a very simple picture and yet has more in it that appeals to the heart than have acres of canvas in the great art galleries.

It shows a little girl, clad in her gown, lying face down on the side of a bed, an empty stocking under her arm. Early daylight reveals enough of the room to disclose that it is bare and cheerless, a bed room of the poor, and in the despairing posture of the child we can read the story. She had heard of Santa Claus. She had heard of the poor Child of the Manger. She had heard that it was the time when men's hearts opened and good will reigned toward all. In the cold of early Christmas day she arose and, shivering, but hopeful, crept to where she had hung her stocking. It was empty. She had come back to her scantily covered bed and thrown her self down to weep, alone.

Ah, there can be no greater misery than the despair of a little child who is alone in the world without love. Maybe the peals of the Christmas bells come in at the window of this poor room. Maybe this child can bear the happy shouts of other children whose stockings were filled. But, she is alone, forgotten, her faith in the best and sweetest beauties of childhood gone, perhaps her whole future written in the piteous emptiness of that little stocking.

We would like to give our whole front page to this picture. We would like to condense and put elsewhere the Gould divorces, the Haines crimes, the society gossip, the launching of battleships, the prizefighters, the White House recipes that are going to keep President Taft feeling filled. But, while we haven't got the picture, we can ask the reader this:

Do you know of any little stocking that bids fair to be empty Christmas morning?

For just a minute, stop your day's work, stop worrying about what you'll get your own kids or your friends, stop gloating over the splendid present you are to give somebody, stop speculating on what you are going to receive—stop, and think up some little stocking that will quite likely be empty! Stop, and resolve that there shall be something in that stocking!

Oh! it doesn't matter much what you put in. A wad of candy will not represent glucose only. A china doll will not stand for plaything alone. You can put in a good deed that will better you. You will teach a young soul that not all is gloom, friendlessness, neglect, but that there is abroad in the world a spirit of love and good will—old Santa Claus (May heaven confound his traducers.)

Give! Give not the thing but of the spirit. Much of the giving is debilitating, wasteful, harmful. A 5-cent rag doll in the heel of the stocking of that child in the

picture would have meant some love, some joy, some hope and a different world to her.

If there be no comforting Santa Claus glow in the souls of the children what of them when they are older?

You can not sow neglect, lovelessness and inhumanity and reap from such sowing generosity, gratitude, goodness and other things that make a people truly great.

Keep the picture of "The Empty Stocking" in your heart, and take your heart with you to the bargain counters.

HERE'S SARCASM FOR YOU.

Congressman Cooper of Texas wants a law passed that will exclude all newspapers from the mails that do not publish the names of their owners, editors and all other responsible directly or indirectly for said publication. By all means, let's have the law, notwithstanding the paper famine that looms just ahead. The editor uncovers himself, the reporter should uncover himself, the reported should carry a brass band around with him; the printer man, who sets the type, the "make-up," the stereotyper—all, including the janitor and the "newsies" should have their names read by all men. It's a grave responsibility—and if the paper fails to dot an "i" or cross a "t" the vile wretch responsible for the omission ought to be made to pay libel and banished to the torrid and barren wastes of Yuberdam. The president of the United States has pointed the way—the papers are a blooming nuisance and should be put on the hog, and their editors confined in jail. —Dallas Times Herald.

NACOGDOCHES has been the recipient of many bouquets of late on account of the tobacco industry. This city and county is the admitted center of that great crop in this state and the probability of two packing houses (one assured) is cause for pride on the part of our people. The prestige attained already is worthy but there should be no resting on the oars. If you are a merchant, boost tobacco and if you are a farmer, plant tobacco. It means much to East Texas, this county and this city.

THE big crowds in town today are pretty strong evidences of prosperity in old Nacogdoches county. Lots of trade has been going on too and the merchants are wearing the "out loud" smiles.

THE mere fact that Christmas is near at hand, with all its joys and presents and shouting and cannon crackers and right observance and fireworks and small boys with toy shooting irons and turkey dinners and what nots and Santa Claus and all other embellishments, annexes, prefixes, etc and et cetera, is no excuse for not building street crossings and boosting sidewalks. Gentlemen, they are needed.

FROM THE TRAWICK MAN.

Urges People to Read More Newspapers—Roads Are Bad.

Trawick, Texas, Dec. 22. Editor Sentinel.

As some of the other carriers are writing, I thought I would try to write a short letter with hopes that it may interest some one. I am carrier No. 1 from this place, the only route we have.

My route is 23 5-8 miles long; I have about 50 boxes, but deliver mail to a hundred families or more; I have four and five families getting mail out of some of the boxes; some of them take papers to read, others depend on their neighbors and some don't take any at all. Some get a story paper once a month and think they have enough reading matter for a family of five or six. I agree with carrier Power's about reading more, every family should have at least two or three good papers to read.

If one needs a doctor he wants one that is well read. If he wants to hear a man speak or preach, he wants to hear a man that knows something. If he has a farm to rent he wants a man that knows how to farm; and I believe the ones that are making the best livings, are the ones that read most. While of course there are exceptions, as some get along fairly well and never read a line, reading good papers and magazines will help educate children. If a boy sees his father plow or cut wood, he likewise will want to plow or cut wood, as his father does, and if a girl sees her mother sew or wash dishes she will want to do as her mother did. Again, if parents read, their children will want to read, but we should be careful about what they read, take something that will learn you and your children something.

Reading newspapers all alone will not make you a living but if a man hustles something to read he will work some. The fellow that does not do anything is the one that sits around somewhere, most of his time whittling and telling yarns and if you approach him about a good paper or reading matter he will tell you he is not able to raise enough to get reading matter for the family. The next you hear of this fellow he hasn't anything only a yarn to tell you. I would like someone to suggest a plan to get people to read more. Nearly any man spends enough foolishly to get the family reading matter.

The roads are bad at present, some of them are not worked, some of them are scarce of hands, while some parts are cut up with lumber wagons.

I have a very good set of patrons, some take an interest in the service, they help keep up the roads, while others do not seem to care and are little concerned.

Mr. H. M. Crawford has sold his place to W. L. Paine, and will move to Pamona, Cal. He and family left Sunday for Frost, Tex., where

The Elks Uniforms Arrive.

The new uniforms for the Elks Band came in yesterday and the members of the organization are today "trying them" and taking them out. The uniforms are handsome to say the least, beautiful black cloth and a finely finished stuff. The coat and pantaloons are braided with black and on the collar of the coat the inscription in gold, "Elks Band." The cap is gold braided with "Nacogdoches 1017" inscribed. The style of the new suits is the very latest for band organizations, are well made, pretty to look at and are expensive, yet reasonable too, for the extra quality of cloth. The boys have been the recipients of many word bouquets for their taste in selecting the uniforms and for their hustling proclivities in "getting right up to now" and fine suits. This is probably the only Elks Band in the state and considering everything deserves much praise for what has been done. The new uniforms cost nearly \$500 but it is expected that they will receive the support of the "Elks Lodge" and citizens of the city, lightening the burden of the band boys considerably.

Mr. Steel is Here.

Mr. J. Tom Steel came in with Rev. Fowler on the noon train yesterday and is visiting him while here.

Mr. Steel was here a few days since and was so well pleased that he has returned for the purpose of settling on a location for the mercantile business of Steel Bros.

Nacogdoches will be glad to welcome these young men and their families to this city.

It is rumored that Nacogdoches, Jacksonville, Rusk, and a few East Texas villages contemplate organizing a base ball league, leaving the city of Lufkin out of it. Go ahead neighbors and organize your league, get your practice and for real up-to-now drubbing send the entire league to Lovely Lufkin.—Lufkin News.

The fellow who penned the above was evidently misinformed and takes pleasure seemingly, in getting his bristles cross wise over the matter. There is talk of organizing an East Texas League alright, and such is very probable, but even the idea of leaving out Lovely Lufkin, the village across the creek, is absurd. Nacogdoches is very anxious that a League be formed and that Lovely, Loose-talking Lufkin have the same team of "home boys" this season as last. It is hoped that the little village will yet consent to come in!

Lost.

INSTITUTE CLOSED TODAY.

Meeting Has Been a Good One—Farmers Session This Morning.

The most successful meeting in the history of the Teachers of Nacogdoches county came to a close this afternoon at two o'clock. The attendance, to begin with, was unusually large, every teacher in the county being enrolled. The last day or so, however, sickness has caused a number of them to drop out. From a point of benefit, the sessions have gone beyond expectations, much to the delight of all, and especially those in charge. From eleven to twelve today, the farmers were given right of way for a session and many excellent talks were made and some good things brought out. Messrs. Proctor of Tyler, Orms of Timpson and Greer of this county, all government agricultural agents, were present and made addresses. A large number of farmers were present and enjoyed the session splendidly. A nice exhibit of corn and other farm products was on display, which added much to the meeting. Last night's meeting at the college auditorium was one of the "treats" of the week. Prof. J. E. Rosser of this city, delighted a large audience with a fifty minutes talk on "Why we Laugh." The feature was a most enjoyed one and as well as being "wholesomely witty," was a gem from the abstract point of view. The teachers who have been here this week have spent a most profitable time, nor has the social side of the Institute been neglected, and all are wished much real good as a result of their stay in the city.

THE Orange Leader came out with a beautiful Christmas edition in Magazine form. It is printed on fine, coated paper, in colors and is one of the prettiest we have seen this season. Write ups of that busy little city and her hustling merchants with illustrations, is an attractive feature, while the ad patronage is also good. The business men of Orange evidently appreciate the Leader.

EVERY once and awhile they come back. Just can't help it; bound to wander back home; to the garden spot of this old universe. By so doing they show good judgment and good sense. We welcome them and will extend the right hand of fellowship to any and all others who may come—and there are lots of them that will, eventually. The west is a great country but how it dwindles into smallness when compared to the wonderful old East Texas, the land of corn and cotton and cane; of pork and potatoes and possums; of wood and water and wonderfulness. Garden truck? fruit? yes, and everything else including tobacco. How our sympathies go out to the West Texas folks.

Mr. Huggins has returned from San Augustine where he has been at work. He and Mrs. Huggins will go to Jacksonville to spend the holidays.

The Symphony Club.

"What music expresses is eternal and ideal." —Wagner.

The Symphony club met at the home of Mrs. Robert Lindsey on the afternoon of the 15th inst. for the last time for 1908, with a most flattering attendance.

The lesson being on the opera of Tannhauser was preceded by roll call on characters from this opera and being followed by numbers from the same opera, it can be truly said that the opera was exhaustively and carefully treated.

When the lesson had been discussed Mrs. E. C. Branch as chairman of the committee to arrange for an entertainment to be given by the club some time in January, reported that it had been decided to give an operetta in that month, the talent to be drawn from the best in the city as well as from the club membership.

Other matters of business having been disposed of, the following splendid program, all the numbers of which were from the Opera of Tannhauser, was rendered:

Vocal, Elisabeths Prayer—Miss Holt.

Piano, Pilgrim's Chorus—Mrs. Strong.

Piano, Oh, Thou Sublime Sweet Loving Star—Mrs. Lindsey.

Vocal, Dich Theme Halli—Mrs. Dooley.

Piano Duett, March and Chorus from Tannhauser—Miss Zeve, Miss Wadlington.

Every number was accorded close attention and generous applause and evidenced careful effort on the part of the performers, and the program was charmingly supplemented by a couple of back numbers rendered most effectively by Miss Zirletta Matthews and Mrs. I. J. Roberts, Ganoud's "Sing, Smile, Slumber," and Mendelsohn's Spring Song respectively. The club will not hold another meeting until Jan. 12th, 1909.

The Mothers Club.

Will have an open meeting at the High school auditorium tomorrow afternoon, the 22nd inst., promptly at 2:30 when the friends of the club are cordially invited to be present. The visiting teachers are especially asked to meet with the club, as the following timely program has been arranged:

Song—America. Prayer.

Roll Call—Mothers of the Bible.

Minutes of last meeting.

Reading—Mrs. Luther Swift.

Piano Duett—Mesdames Strong and Summers.

Paper—Miss Wadlington.

Piano Solo—Miss Barham.

Discussion—on "Should Corporal Punishment be Abolished by Public Schools," Led by Mrs. P. C. Meador.

There was no meeting of the Shakespeare Class on last Friday, the fascinating study of Richard III will be resumed Friday, Jan. 8th, 1909.

EVEN the "shavings crossings" beat wading mud, don't you think?

The Bridge Club.

Had its last meeting for the year 1908 at the home of Mrs. B. M. Isaacs last Friday afternoon, with three tables of players present. Holly festoons and branches gave a festive air to the pretty rooms, which were further beautified with palms and ferns and fragrant violets were there in pretty holders. Several interesting rubbers were played with zest and was followed by a beautifully served two course luncheon of lobster salad, waters, pickles, coffee followed by maple parfait, white cake, stuffed dates and figs which the hostess was assisted in serving by Misses Rachael and Bell Zeve. The ladies present were, Mesdames Barnett, Dooley, Locky, E. C. Branch, Kellogg, E. H. Blount, L. C. Cash, F. C. Ford, Misses Zeve and Miss Margaret Kellogg, who though the "littlest" guest was by no means the least important, coming in for a great deal of attention.

The next meeting of the club will be with Mrs. F. C. Ford on January 8th, 1909.

The Cum Concilio Club.

The Cum Concilio club had its weekly meeting Thursday afternoon with Mrs. Neil Ingraham. Mrs. George F. Ingraham and her guest, Mrs. Peyton Edwards of El Paso, were appreciated visitors on this occasion.

Roll call was responded to with quotations concerning German scientists. The business session consumed quite a good deal of time, after which the program was taken up, which consisted of a poem, "Walter Vonder Vogelurid" read by Mrs. C. W. Butt. This poem tells of the thoughtfulness and kind heartedness of this German Minnesinger. Mrs. J. R. McKinney read a well prepared and much enjoyed paper on the life of one of Germany's great scientists, Alexander Von Humbelt. Mrs. Dotson read a selection from Longfellow's "Wayside Inn" tales, a story of Charlemagne, and Mrs. Price gave a unique reading from Lessing, entitled "The Three Kingdoms of Nature." Mrs. Marcus Smith gave a much enjoyed piano selection which closed the program. The hostess served chicken salad, salted Almonds, coffee and waters, and for a second course mousse and fruit cake. The club will not hold another business session until Jan. 7, when they meet with Mrs. Neese.

Cor. Sec.

Many are the hearts and homes in Nacogdoches that are gladdened this week by the arrival of the students from the various colleges in the state and out. Misses Janie Wilson, Louise Perkins from the State University, Miss Margaret Harris from the Kid Key college of Sherman, Miss Mamie Ethel Blount from Vassar College, New York, and Miss Alice Harrington of the convent of Dallas, have already arrived. Messrs. Joe Dooley, Willie Wade and Miss Alma Houston of the State University; Misses Mintie and Mamie Blount of St. Mary's College at Dallas will arrive tomorrow.

Sewing Circle.

Miss Genevieve Jones was hostess to the Sewing Circle last Wednesday afternoon with a large proportion of the membership present, and was supplemented by the following out of town guests, Mrs. L. C. Haley of Abilene, Miss March of San Angelo, and Miss Decker of Magnolia, Ark.

The Jones home is well and favorably known in matters culinary and its reputation was sustained in the delicious two course luncheon of chicken croquettes, potato chips, wafers, pickles, followed by wine and lady fingers, which was served by Miss Genevieve at the close of the afternoon's pleasant session with needle and tongue. The next meeting will be the first Wednesday in January, 1909, with Miss Verna Holt.

The Girls Circle Entertained

At the reception rooms of the First Baptist church last Friday night, which decorated with holly, mistletoe, southern smilax wore a festive and holiday appearance. Quite a large number responded to the cordial invitations issued by the young ladies of the "Circle" who were each privileged to invite three guests, and were well repaid by the welcome accorded them and the pleasant time spent.

There was good music to charm the ear, a violin duet by Miss Helena Matthews and Mr. Sam Perkins, a vocal number by Mr. J. H. Williams some excellent readings by Miss Greta White who gave a very numerous telephone selection, and as an encore that tender little gem of Riley's "seeing things at night." Perhaps the feature of the evening was the vocal selections of Miss Margaret Harris, who just returned from Sherman where she has been studying music, both instrumental and vocal under the very best masters, has developed a fine voice, which gives promise of really great things.

In Honor of Misses March and Decker.

"And the night shall be filled with Music,
And the cares that infest the day,
Shall fold their tents like the Arabs
And as silently steal away."

The event of the season so far was the delightful dance given Wednesday evening by Mr. and Mrs. J. J. Hayter in their beautiful semi-suburban home in compliment to their own charming guest, Miss March of San Angelo (who left last Friday many newly made friends behind) and Miss Decker, the equally charming guest of Mr. and Mrs. G. A. Blount. Golden crysanthemums were most effectively used in the dining room, while the parlor and library were fragrant and beautiful with the spicy carnation.

The music was excellent, to which the hours passed with "flying feet" for the happy young guests and honorees, and for those who did not care for the pleasures of dancing, the less strenuous "Bridge" was arranged.

Mrs. W. W. Perry and Mr. Ted Bay also added to the pleasure of the evening with their beautiful voices in some fine vocal selections and when the dainty refreshments of chicken salad, waters, olives, and lemon ice were served, it can truly be said that every sense had been appealed to and appeased, making the evening one that will remain a delightful memory with those present.

Mr. and Mrs. Hayter were assisted in receiving and entertaining by their daughter Mrs. G. A. Blount.

How To Gain Flesh

Persons have been known to gain a pound a day by taking an ounce of Scott's Emulsion. It is strange, but it often happens.

Somehow the ounce produces the pound; it seems to start the digestive machinery going properly, so that the patient is able to digest and absorb his ordinary food which he could not do before, and that is the way the gain is made.

A certain amount of flesh is necessary for health; if you have not got it you can get it by taking

Two Japanese Kimonos.

Two elaborate Japanese Kimonos, just from the land of flowers and bearing the dainty handiworks of those tasty little women, are the objects of many eyes today and have proven a strong drawing card for the Mayer & Schmidt store. The garments were received Wednesday by Miss Nora Evans, head milliner, and were sent her by a cousin, Lee Kelly who lives in Brooklyn, N. Y. He has recently returned from Japan where he purchased the kimonos. The purchase was made from a Japanese merchant, K. Shieno, of Yorkahoma and Kobe, the prices paid being very expensive. They are of crepe de chine, exquisitely hand embroidered with silk, one design being chrysanthemums, the other cherry blossoms, the national flower of Japan. One of the Kimonos is pink, the other blue. Both are very fine and have been the cause of many admiring visitors since they have been on exhibition.

Tribute of Respect
We, the members of the Chireno Baptist Sunday school, deeply mourn the irreparable loss of our much loved teacher, Mrs. Susan Y. Gunning, whom God called to her Heavenly inheritance, Nov. 27, 1908.

Where in loving kindness, God has claimed his own.

Therefore, be it Resolved,
1st. That while we grieve with those so sadly bereft and miss her bright and cheerful presence in our Sabbath school, we know that though the body is peacefully sleeping in the tomb her gentle spirit survives and is still a living factor in our Sabbath school.

That her long and consecrated Christian-life so beautiful in character and in service shall ever be an inspiration to us. That when we are sad hearted and depressed with difficulties which seem almost insurmountable let us remember, the radiance of her face which was ever bright in the midst of the most exasperating trials, cares and disappointments.

Let us ever remember how invincible she was in the right. How inflexible her faith.

2nd. That we place this wreath of evergreens where she, so often knelt in prayer as an emblem that her memory and influence shall ever live in the hearts of this, her church and Sabbath school.

3rd. That a copy of this tribute be placed upon the minutes of the Sabbath school a copy, also be sent the Sentinel for publication.

Bro. Anderson, the Baptist minister preached a fine sermon last Sunday on the Holy Spirit, to a full house, despite the gloomy day.

Christmas will soon be here and all things should be done in honor of the Christ that was born. We sincerely implore that there will be no sorrowful homes on account of

the great evil of the egg nog drinks which is the main source of beginning trouble. Our enlightened nation should keep the day holy.

The corpse of a lady was brought in from San Antonio and will be interred in the Wood Lawn Cemetery. The grave of a friend may be the gateway to heaven. We are wonderfully blessed in this

great country of ours and we realize that true happiness is in service, it diverts the mind from the ills of life, keeps the spirit young and buoyant, the thought of old age is often rendered gloomy because it associates with it, the idea of being pushed aside and left with nothing to do, as much as some of us may resent it. We are growing old the most of our life is behind us, we are turning down the western hill side and the valley is not so far away. Praise the Lord we are ready.

S.S.S. FOR BAD BLOOD

The most important part of the human system is the blood. Every muscle, nerve, tissue, bone and sinew is dependent on this vital fluid for nourishment and strength necessary to maintain them in health and enable each to perform the different duties nature requires. Even the heart, the very "engine" of life, receives its vigor and motive power from the blood. Since so much is dependent on this vital fluid it can very readily be seen how necessary it is to have it pure and uncontaminated if we would enjoy the blessing of good health. Bad blood is responsible for most of the ailments of mankind; when from any cause it becomes infected with impurities, humors or poisons, disease in some form is sure to follow. Muddy, sallow complexion, eruptions, pimples, etc., show that the blood is infected with unhealthy humors which have changed it from a pure, fresh stream to a sour, acrid fluid, which forces out its impurities through the pores and glands of the skin. A very common evidence of bad blood is sores or ulcers, which break out on the flesh, often from a very insignificant bruise or even scratch or abrasion. If the blood was pure and healthy the place would heal at once, but being loaded with impurities, which are discharged into the wound, irritation and inflammation are set up and the sore continues. Bad blood is also responsible for Anemia, Boils, Malaria, etc.; the weak, polluted circulation cannot furnish the nourishment and strength required to sustain the body, and a general run-down condition of health results: S. S. S. is nature's blood purifier and tonic; made entirely of healing, cleansing roots and herbs. It goes down into the circulation and removes every particle of impurity, humor or poison that may be there, restores lost vitality, and steadily tones up the entire system. It adds to the blood the healthful properties it is in need of, and in every way assists in the cure of disease. S. S. S. neutralizes any excess of acid in the blood, making it fresh and pure, and permanently cures Eczema, Acne, Tetter, and all other skin diseases and eruptions. S. S. S. cures Rheumatism, Catarrh, Sores and Ulcers, Malaria, and all other diseases or disorders arising from bad blood. Book on the blood and any medical advice desired free to all who write.

Your S. S. S., in my opinion, is as good a medicine as can be had; it simply cannot be improved upon as a remedy to purify and enrich the blood and to invigorate and tone up the system. This spring my blood was bad and I was run down in health, and having seen your medicine highly advertised I commenced its use. Today my blood is in fine condition and my general health is of the best. Am filling position as fireman for a large concern here, and if I was not in good physical condition it would be impossible for me to fill the place. Your S. S. S. has been of great service to me and I do not hesitate to give it the credit it deserves.

A MOTHER'S GRATITUDE.

Many a Mother in Nacogdoches Will Appreciate the Following.

Many a strong man and many a healthy woman has much for which to thank mother. The care taken during their childhood brought them past the danger point and made them healthy men and women. Children are generally bothered at some period with incontinence of urine, and inability to retain it is oftentimes called a habit. It is not the children's fault—the difficulty lies with the kidneys; and can be readily righted if taken in the proper way. A Nacogdoches mother shows you.

J. F. Floyd, Alderman, living in Nacogdoches, Texas, says: "My daughter, eleven years old, was troubled with a weakness of the kidneys for some time. This was a very annoying complaint, and caused her considerable uneasiness. I procured Doan's Kidney Pills at Mast Bros. & Smith's drug store, and they relieved her. I give all the credit for the improvement in her health to this reliable remedy and do not hesitate to advise anyone in need of a kidney remedy to give Doan's Kidney Pills a trial."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

"Many extensively advertised remedies are failures when put to the test. Hunt's Lightning Oil is an exception. Confidence in it is never misplaced—disappointment never follows its use. It is surely the grandest emergency remedy now obtainable. For cuts, burns, sprains, aches and pains, I know no equal.—George E. Paddock, Doniphan, Mo. w

Might Have Been.

When Shakespeare said: "Aye, there's the rub," we do not know for certain he was thinking of the itch. But one thing we do know—and know it twenty years worth—Hunt's Cure will absolutely infallibly and immediately cure any itching trouble that ever happened to the human cuticle. It's guaranteed. w

Don't be Hopeless.

About yourself when you're crippled with rheumatism or stiff joints—of course you've tried lots of things and they failed. Try Ballard's Snow Liniment—it will drive away all aches, pains and stiffness and leave you as well as you ever were. Sold by Mast Bros. & Smith. w
