THE FAIR PROPOSITION.

James D. Greer Will Canvass The County For Stock Subscriptions—Permanent Organization July 3d.

The county fair proposition is assuming more definite shape after all, and it is quite likely that a permanent organization will be formed and a meeting held this Autumn. The meeting held Saturday afternoon was a better attended one than the former, and considerable more interest was shown in the matter. J. Thomas Hall presided, G. M. Haltom acting as secretary. The committee appointed to secure a location reported that no place had as yet been gotten, and asked for more time. After some discussion of the stock feature, James D. Greer was appointed to canvass the county and solicit stock and interest in the enterprise. Robert Lindsey was appointed to raise the necessary funds to pay Mr. Greer's expense while going over the county. Judge F. P. Marshall, Hollis T. Mast and Homer A. Dotson were named

THE BASE BALL SCHEDULE.

Missionaries Have Twenty Seven Games Already and Negotiations Pending For More — Team Being Strengthened.

The regular line up for the Missionaries will be seen this week, and afterwards there will be no changes, and no players will be switched to other positions. That is the substance of the decision reached by Manager Guy Blount, and practice will begin this afternoon with every man in his position. There are now four pitchers, all right handers, but it is quite likely that a south paw will be annexed in the next few weeks. The regular twirling staff consists of Griffin, Chase, Smith and Wade. The latter came in yesterday from the State University, and where he pitched the college season. John Rusche and Orin Simpkins will be the catching personnel. Simpkins is practicing law at Corsicana, but will come in this week to coach, and to receive when necessary. He was a student Sewanee five years, and was captain of both the football and base ball teams for those five years. He made the All-Southern League those five years, and held Southern championship for athletics also. He and Manager Blount were college mates, and for this reason Mr. Simpkins is coming. He has received some flattering offers to play professional ball, but declined, and comes to Nacogdoches to coach, being one of the best in the South. Monk Johns has been signed for the rest of the season and will be found at short stop, all the time. J. D. Sanders will hold down the keystone, with Erle Rusche doing the right thing at second and Ross Crawford playing star ball at third. John Henry Richardson will remain at the left field and "McGraw" Akey at center. One of the pitchers will play right. A schedule of twenty-seven games has been made up, and there are yet a number of open dates. After this week the boys will play six games a week, half at home and half abroad. The schedule begins with Thursday, when Longview Cannibals come for a three-series: June 10, 11, 12 Longview here. June 14, 15, 16 at Longview. June 17, 18, 20, open park at Lufkin. June 21, 22, 23 Lufkin here. June 24, 25, 26 Grand Saline here. July 6, 7, 8 at Tyler. July 9, 10, 11 at Lufkin. July 12, 13, 14 Lufkin here. July 26, 27, 28 Lufkin here. July 30, 31, August 1, at Lufkin.

We Will Give You \$1.00 in Cash

If you will buy a new Buggy, Surrey or Trap during this month or next from any other person or firm, except ourselves, if you will before making your purchase come into our store, ask for our manager and spend 30 minutes in our Buggy department telling him frankly just what you are going to buy.

This is a positive, clear cut proposition that we make deliberately and mean all that we say.

Our reason for such an offer is that with our present stock and with other goods that we have bought we know that no concern in Texas or out of it can sell you good vehicles at a less price than we can and we know that the people of this section of Texas are always willing to spend their money at home if goods and prices merit it. There may be a very few exceptions and to this few we will gladly give the

if they will let us put our goods before them.

STEALS A DIAMOND RING.

Howard Sharpe, Sixteen Year Old White Boy, Jailed on The Charge, and Later Confesses—Ring is Found.

Howard Sharpe, a white boy about sixteen years old, and who has been delivering groceries for a firm here in town, was arrested this morning on the charge of having stolen a diamond ring, at the value of eighty-five dollars, at the home of George B. Engledow while making a grocery delivery. Mrs. Engledow had just hung the ring on a nail preparatory to doing her house work, when she was called to the front door by the arrival of a neighbor. In the meantime some groceries had been delivered and when she returned to the other part of the house, the diamond ring was missing. She searched the place, thinking she had mislaid it, but on failing to find the piece of jewelry, telephoned Mr. Engledow. The officers were notified and in a short time had the boy in the lockup. He denied any and all knowledge of the affair, until just about noon, when confronted with some pretty strong questions, finally agreed to show the officers where the property was, it let out of jail. This was agreed to, and Sharpe immediately carried them to the house and got the diamond ring and turned it over to them. What disposition will be made of the matter is not known.

Street Naming Nearly Completed.

The statement is made that the work of putting up name plates, for the streets and numbering the houses is almost complete and this week will probably see the entire matter finished. There are only a few more than a hundred numbers to be put up. Some difficulty however, has been experienced in getting every thing straight, on account of the arrangements of some of the streets, long and short blocks, cross streets, triangles etc. The committee is still at work and is making pretty fair progress despite these inconveniences.

Delegates Meet Saturday

All of the delegates elected by the various literary societies of the county will meet in this city next Saturday, for the purpose of discussing the program for the meeting in July, and at which time medals for oratory will be given. It is stated that Appleby will likely be selected as the place for the picnic and general gathering, the date to be about July 15th. Just how many entrees there will be in the medal contest is not yet known.

We will give you a United States silver dollar if you will meet the conditions ask for particulars.

FOR STATUTORY PROHIBITION

Hon. Gus Shaw, of Texarkana, Candidate For Governor, Would Not Veto Over Legislative Enactment—Let Supreme Court Decide.

The following letter from Hon. N. A. Shaw, known to Texas mostly as Hon. Gus, in reference to his candidacy for the executive's chair, has been received by Rev. J. H. Thorn of this city. The letter is here given and is self explanatory:

Texarkana, Tex., June 6, '09.
Rev. J. H. Thorn,
Nacogdoches, Texas.
My Dear Friend:—Yours of the 4th received, and I thank you very much for writing me, as it gives me an opportunity to relieve you of any doubt. I would not veto statutory prohibition. To be more explicit, I will copy

your exact question and answer you.

"In case the 32d Legislature should by a majority vote of both houses, pass statutory prohibition, if you were governor, would you approve the bill and pass its constitutionality up to the Supreme Court?" Yes sir, I would approve the bill and let the Supreme Court decide upon its constitutionality. Thanking you for your support, etc, I am
Yours truly,
N. A. Shaw.

HALTOM & HALTOM, Proprietors.
GILES M. HALTOM, Manager.

ARE you doing your part by your own town,—or depending on your neighbor to do yours and his both? If you fail to help a town grow, you can't be classed with the progressive.

School is out,—to the great delight of the small boys et al of the gentler sex. Fishing holes and corner lot base ball games, with the old familiar swimming hole, will now occupy the attention of the young Americas.

THE tobacco growers of Nacogdoches county are sleeping on their rights. They are failing to take advantage of an opportunity that will mean a great deal to them,—and all future growers. Wake up and show an interest. Come to the meeting Saturday and say how you shall spend the money that has been given you by the State.

THE meadowlark will chirp and sing, and the bumblebee will bumble, the colt will do a Hiland fling, and the tumble bug will tumble; the calt will buck and jump for joy of simply being loose, the droll grasshoppers sit around and spit tobacco juice, the luckless tramp resumes his march and the bulldogs chase and bite him, and the horseflies irritate the mule, and soad infinitum.

A NUMBER of papers in the state and individuals too, are very much exercised over the welfare of Governor Campbell, and are issuing advice by the bushel "to not offer for a third term". These same papers and persons need not have so much concern over the executive however, as he is working to making his administration a good one for the people and the state, regardless of superfluous talk, and he is doing it. The very persons, or some of them—in a few years from now will realize that Governor Tom had the best administration since the immortal Hogg's time, with the possible exception of Culberson's time.

NUMBERLESS men, alleged to be hurt by overwork, do not work half enough. Their trouble comes from superabundance of leisure and activity. They yawn through three or four hours in the office or counting room; are too indolent to walk up town; eat too heavy and rich a dinner; go out afterwards to see merchants, bankers and the like, and join boon companions who walk around billiard tables or sit at cards, and keep very thirsty until the drowsy steeples toll two and three. This is overwork, but overwork in the wrong direction, and of a very different kind from that supposed. Overwork covers a multitude of bad habits; it is made a scapegoat for countless transgressions, it is very often a shallow pretense, a miserable sham. While there are far too many who overwork, there are a great many that break down and kill themselves by laziness, self indulgence and dissipation. Very decidedly, overwork is overdone.—Ex.

THE CREAMERY OF TEXAS.

The creamery matter is causing some talk and the farmers are enthusiastic for such an institution. A little push, lots of co-operation—and the thing is landed.—Nacogdoches Sentinel.

The creamery is easily the leader in South Texas at present. Several plants have been installed during the past three months, some are being built and others are being discussed. The creamery is a splendid institution for any community, if it has been organized properly and is managed properly. With an experienced man in charge of the business and the co-operation of the farmers pledged there is no reason why such an institution could not prove a great blessing to Nacogdoches.—Galveston News.

It should be remembered that the creamery uses the products of the cows as a raw material, and without this raw material at hand in reasonable quantities and convenient to the factory the factory cannot run. The creamery as an institution is a recent innovation. It is less than a quarter of a century since the cream of the best dairy districts of the country was manufactured into butter on the farm, and less than a half century since the cheese was made in the farm pentry. The first creameries were established in sections where every 360 acres kept from thirty to forty cows—cows that had been bred for many generations as milk givers.

This must all be considered in connection with the creamery in Texas. Beaumont today is buying its butter in the north, its dairy cows are ranging the pastures from Kansas to Illinois. It brings in many carloads of butter in the course of a year and would furnish an excellent market for a creamery, but the dairy cows are not here in sufficient number, nor do the farmers give sufficient attention to keeping up and feeding such stock as they have to make the keeping of dairy cows a profitable undertaking. There are but two months in the year that the northern farmer does not have to feed heavily. This would not be so necessary here, but the farmer must, however, resolve to add to the sustenance the cow may pick up in pasture, even in the Spring months.

Taken all around the keeping of dairy cows and the operation of a creamery would be more profitable here than in the north, owing to climatic conditions and the fact the cows may run in the pasture from one year's end to the other, but that does not absolve the farmer from work, nor from giving extra and milk-producing feed.—Beaumont Enterprise.

EAST TEXAS PROSPERITY.

That East Texas promises to be prosperous this year may be seen from the country papers printed throughout the section. All of them are optimistic and all tell of abundant crops and an increased acreage. When the lumber mills throughout East Texas shut down a year ago

there was a general movement back to the farm of many men who had been at work in the mills, and they became again producers instead of consumers, with the result that it is estimated that the cultivated area in East Texas has been increased this year more than 10 per cent.

There are evidences, too, of a better class of farming, the agitation of the newspapers for more intensive cultivation and a greater variety of crops having its effects, and as a result crops have been more thoroughly worked than in years before and there is a greater effort being made to make a better living on the farm. This will all count in the years to come and it is to be hoped that it will continue until East Texas comes into its own again. What East Texas needs more than more people is a more effectual effort for development on the part of the people who are already here. Beaumont Enterprise.

WHAT CREAMERIES MEAN.

Now that it is an assured fact that the creamery will be established, it is time for the public to sit up and take notice. Did you ever stop to think what it will mean to the farmer? It has been demonstrated that a good cow will pay her owner above all expenses a net profit of \$50 a year, with proper care and attention. Now suppose the average farmer keeps ten cows, selling the cream to the creamery, where there will be a market the whole year round, there is a profit of \$500 per year with but very little work. At what can you beat it? We know of one farmer who is selling in McKinney seven pounds of butter every week from one cow. Now suppose he was milking ten such cows. At an average price of 25c per pound for his butter fat, it would bring him close to \$1000 per year, and it would not cost him over one-third of that amount to pay for all their feed. In fact, he would raise most of it

ing to accomplish, that of establishing a creamery. Bonham people are fast becoming interested in the proposition, and the Favorite feels safe in saying that Bonham will soon be the home of the best creamery in the State. The only thing now in the way is the guarantee of enough cows to operate one.—Bonham Favorite.

Beyond the beautiful rippling stream, just over the grassy knoll, there blossoms a rare and richly tinted flower. They tell us that it is so rarely beautiful that it may have blushed to life at the touch of an angel's kiss, and caught its rosy flush from a burning star.

Beyond the pathless mountains that lift their blue peaks in the fading distance they tell us there is a charming valley that drinks the diamond dew of the morning and bathes in the liquid sunbeam clad in a verdure of everlasting green and dotted all over with flowers of every hue and shade.

Beyond the blue waves of the pathless ocean they tell us there is a clime from which the mellow sunlight of the spring never departs, that is laden with songs of birds of note and plumage, and peace, ease and plenty.

Beyond the curtain of darkness that hangs over the gloomy night there dwells a picture of morning, a picture of fresh new life that means to wake and move and breathe away the mists, and they tell us its foreground is hope and its background is pleasure.

Beyond the aches and struggles, the fears, the disappointments, the bitter trials and the wavering labors of time we are taught is an eternity whose highest possibilities gives promise of calmer hours and sweeter rest.—Exchange.

The weeds are growing fast these days, and in many places they have already assumed charge of sidewalks. The weeds are mighty good things to spoil the looks of premises and walks, and increase much the chances for sickness. Some of the people who have lots of property, rent houses etc, are chief among the owners of weed wildernesses. And they ought to cut the weeds.

A Friend To The Dog.

"Give the poor dog a chance for he is the rich man's guardian and the poor man's friend; the only creature faithful to the end. He is ever ready to share your joys or your sorrows. He has an abiding faith in his master, be he prince or pauper, and with commendable fidelity will follow him through all the vicissitude of life. In storm or sunshine, in sickness or in health in poverty or wealth, he is the same, unflinching friend. He bears no malice towards his enemies, and is always ready to forgive those who abuse him. He does not slander his neighbors, nor does he try to rob a man of his good name." The following lines are a just tribute to the dog who committed suicide rather than be deprived of his liberty:

"Perhaps my little Trilby will appear again
For dogs to that privilege may attain,
For tell me where 'tis written, if you can,
That dogs are much inferior to man.
Or tell me where 'tis writ by the most wise,
That dogs have no reward beyond the skies."
The Preacher wrote that man is as the beast;
He also states when writing of the race:
"That man and best go unto one place,
And from his saying we also must learn
That all are dust, to dust all must return."
If faith and worth give title to the prize,
The dogs may hear the summons to arise.
When the same summons bids all to advance,
The poor dog may then have an equal chance.
And when all beings are brought face to face
We then may find that dogs have won the race.
—Dallas Times Herald.

The tobacco crops in Nacogdoches are the best ever this year and unless something comes along to change things, the folks who are growing the weed will reap dollars this harvest. It pays to grow tobacco,—as well as it pays to grow lots of things in old East Texas.

The Implement Man

SAN ANTONIO, jealous hearted Santone, the home of the strongest politician in Texas, —Onion,—and also the staying place of the awful Mose Harris, must keep in the limelight and to do so has gone Liberty County one better. The Tamale City shipped six hundred and forty-two pounds of rattlesnakes to New York this week, and promises more of the commodity later. Snakes by the pound may be all right but they are not near worth the price of Nacogdoches tobacco going to the same center,—\$1.10 per.—Nacogdoches Sentinel.

San Antonio's supply of snakes is entirely contingent upon the ebb and flow of visitors from Prohibition precincts. On occasions of heavy influx, the snake market, as a rule, becomes glutted; upon normal occasions, the supply generally equals the demand. Shipment referred to by the esteemed Sentinel must have been made immediately following the recent Carnival.—Texas Republic.

on the farm, and would thus realize a handsome profit on his feedstuff as well. Then he would have all his skim milk at home to feed to young calves, pigs and poultry, thus adding another sum of considerable magnitude to his account. By selling his cream to the creamery, he does away with all the work and worry of churning and marketing his butter, having to take a small price for his butter a great part of the year, when the creamery will take all he can produce the year round at a profitable figure. Another item is that he can get more out of his cream than he could if he churned it himself, as under the old plan he could not get all the butter out of the milk, while the creamery process gets it all and he gets the benefit of the price. There is nothing like it for this country, and we hope our creamery will be able to start off with not less than a thousand cows furnishing cream. It pays, and pays big.—McKinney Courier-Gazette.

CRSOSSES OF HONOR

Presented to Confederate Veterans By U. D. C.

On Thursday, June 2d, one of the most touching ceremonies was conducted at the Presbyterian church by the United Daughters of the Confederacy. This was the presentation of crosses of honor to all ex-Confederate soldiers who filed their application with the president of the organization.

This body of noble women have banded together to perpetuate the memory of the brave and heroic deeds of their fathers and kindred during the dark days of the early sixties when the war cloud cast its sombre mantles over our southland. These ladies have been assiduous in their efforts to befittingly recognize the valiant services of the weaver of the gray, and in this delicate manner they have reached our hearts and gained our life long gratitude for their untiring efforts to show their appreciation.

Permit me to say in behalf of my comrades that modesty forbids us to recount the deeds of valor, the hardships endured, without a murmur, for all of this is history and is familiar to all sons and daughters of the brave men who participated in the most remarkable warfare the world has ever known. Remarkable from the fact that a mere handful of men and boys, half armed, ill clad and poorly armed, carved out a bit of history that made the world stand still with awe and wonder. And for these deeds the noble band of women have on this day bestowed upon the old her tribute of honor and appreciation an object of but small intrinsic value, but the significance conveyed by this cross makes it of priceless value to the recipient intitled to wear it. So much for the old soldier.

Permit me to say that there is another class of soldiers to whom no crosses have been presented. These soldiers bore no arms and their only weapons were the tearful prayers registered on high for the safety of their dear ones and the success of our cause.

These noble women, when the first bugle blast of south called together her sons to defend our homes from the invaders opened their arms and heroically gave up their cherished sons, husbands and fathers to their country's call. With tears in their hearts and smiles on their lips these brave, noble, patriotic women offered at their country's altar the treasures of their heart. When the sun rose in the morning silently they knelt in prayer for the safety of their dear ones and their county, and when twilight approached they listened for news from afar, with that dread borne by the constant danger surrounding their soldier boy.

From the dark hours of war she turns to the stern reality of her desitute condition, and the responsibility devolving upon her as a bread winner to appease the hunger of the helpless women and

children, thrown upon their own resources.

These were days testing the metal of our mothers and sisters, and the writer, like many of my comrades, can testify that our trust in their nobleness and sacrifices, were not misplaced. While we fought the battles in the front, these noble women were fighting the battles at home and conquering.

Wiping the tears from their eyes and wrapping the dear absent ones in their hearts they firmly and courageously grasped the reality and the wheels of commerce began to revolve at the touch of feminine hands, the plow, the wagon, the hoe and the ax felt the gentle but determined touch of the delicate, unused hand, and as though inspired by the noble undertaking the fields began to acknowledge this new influence and gave up its treasures in recognition of heroic deeds.

There are volumes of unwritten history where our daughters were the heroes, and in some befitting manner she, too, is entitled to a cross of honor. For it was she who bore all the sorrow, the dreadful expectancy of the reverses of the fortunes of war.

Listening to the echo of the battle afar, waiting in suspense for news of their dear ones, not knowing whether they were numbered the dead or not. Heroes they were, and in their self-sacrificing disposition then as now they crown us with glory and they themselves remain unrecognized. If we deserve crosses of honor made of bronze, they deserve crosses of honor made of gold.

The Daughters of the Confederacy are follows in the foot-steps of their mothers in their efforts to show their appreciation of the soldiers in gray and their untiring efforts with this end in view has been marked with the same patriotic zeal that was characteristic of the women of the Confederacy in '61-'65.

Of those noble women enough cannot be said of their heroism and self-sacrifices too little is known, for their reward too little has been accomplished.

The blood of those remarkable women today flow through the hearts of their daughters, and they but close the last episode but the final one of the old soldier bowed by age and infirmities, they but end the task taken up by their mothers forty-six years ago.

To these noble ladies who perpetuate and keep green the memories of the past. I, like my comrades, bow to you and worship at your pathotic shrine, and may you never know the hardships anguish and heart burst of your mother in the dark and war swept days of '61-'65 and when the muffled drum gives warning that another veteran has answered the last noble call, we feel that from you, our daughters, a silent prayer will go up from your hearts in

Get at the cause—cure the kidneys. Doan's Kidney Pills will work the cure.

They're for the kidneys only— Have made great cures in Nacogdoches.

Mrs. Josie Weaver, living on North Fredonia street, Nacogdoches, Texas, says: "For a long time a friend of mine had been troubled by a pain in the back and I was sure that it was all due to a disordered condition of the kidneys. At night sleep was out of the question on account of a dull aching across the loins and kidneys. Hearing so many people speak in favor of Doan's Kidney Pills, I procured a box and advised their use. Beneficial results were obtained from the first, and a continued use proved most satisfactory. I am pleased to recommend Doan's Kidney Pills to other sufferers of kidney complaint. They were procured at Mast Bros. & Smith's drug store."

THE TOBACCO SITUATION.

W. M. Hinson, Chief of Government Bureau, and Sam H. Dixon of Agriculture Department at Austin Here—Meeting For Saturday.

It is up to the tobacco growers of this county to get strenuously busy, or lose out in the appropriation matter. At least this is the way things are looking at present, and all on account of apathy on the part of the farmers who are trying to grow tobacco. The tobacco business in this county has been, and is yet an uphill business, and for no other reason than that the people who till the soil, and attempt to raise the valuable weed, do not show the interest and cooperate as they should. This is plain with the bark off—but the truth, and expressed in just as strong language by folks who are interested in the matter and who have zealously labored for the success of the industry ever way. W. M. Hinson, chief of the Bureau of Plant Industry for the government, and Sam H. Dixon, chief clerk in the Department of Agriculture, at Austin, and Inspector of Orchards for Texas, are in the city today, for the purpose of getting an insight into conditions and finding out just what the people of this county want. The appropriation of \$2000 recently made by the state is yet out of use. At first it was delayed on account of the government end, but now, that is straightened, and the further delay is because the tobacco growers of the county are talking no interest and no one knows what is wanted. The Association has endeavored to have meeting the past few months, but the attendance has been so light, that important matters had to be passed by without action. Mr. Hinson will be in the city all the week, and maybe Mr. Dixon, and Saturday afternoon a meeting will be held in an effort to get the tobacco growers together and discuss the situation. The members of the Tobacco Growers Association of this county are urged to be on hand, and thus show some interest in the affair. Prof. H. H. Harrington of the A. & M. College, and possibly Ed R. Kone, Commissioner of Agriculture for the State, will be here Saturday to attend the meeting and meet the people with the view of learning what disposition is desired of the appropriation.

A Misleading Statement Corrected.

One of the Draughton Colleges, after struggling for an existence in Tyler, Texas for three years, closed its doors for lack of patronage. After it closed, the management sent out a card headed, "Tyler College Moved to Dallas." In the body of the card they stated "We have moved our Tyler College to Dallas." From these statements, people who were not familiar with the ownership of the Tyler Commercial College, which is now the largest school of Bookkeeping, Business Training, Shorthand, Typewriting and Telegraphy in America, thought that perhaps Draughton owned it and had moved it to Dallas. This is not the case. H. E. Byrne and F. A. Glenn are the sole owners of the Tyler Commercial College, own the two large buildings it occupies, and would not think of moving such a successful school out of a beautiful, healthful and moral city like Tyler. The absence of saloons and their accompanying evils, the fact that Tyler is located in the center of the fruit and vegetable regions of East Texas, which enables good board to be served to its students at a less rate than it can be had anywhere else in the state, makes Tyler the most desirable location for America's Largest Commercial College.

Mild Laxative for Baby Free

The child of today is the parent of the future, and whether it grows up healthy and strong, or puny and weak, depends upon the intelligence of its parents; for most children are born into the world healthy, but thousands become future weaklings, because of birth and the age of ten, when the parents are still in greatest control. The prime cause of trouble is in the stomach. A baby that is digesting its food seldom cries and always looks clean and bright. The little child whose stomach is troubled grows pale and never smiles, the growing child turns wall at a bowl and is eager for food if the food is clear and the stomach light, and that means if it has no constipation.

The best and safest way to cure any irregularity of the stomach and bowels in children is by the use of Dr. Caldwell's Syrup Pepsin. This is a mild laxative, wonderful in its effect as Mrs. John W. Dunham, Apple Creek, O., Mrs. H. L. Collins, Fairville, Ind., and numerous others can testify who give it to their children with extraordinary results.

A bottle only costs 50 cents or 75 cents, according to the size you want, and even one 50-cent bottle will do a wonderful amount of good in a family. It can be given to any member of the family in constipation, sour stomach, indigestion, torpid liver, dyspepsia, heartburn, sick headache and similar digestive troubles. It never grips or strangles like purgatives, salts and powders, which should not be given to children, women or old folks.

If you have a child or other member of the family who needs but a never used of this mild laxative tonic, send your name and address to the doctor and a free trial bottle will be sent to your home. In this way you can find out what it will do without personal expense.

If there is anything about your ailment that you don't understand, or if you want any medical advice, write to the doctor and he will answer you fully. There is no charge for this service. The address is Dr. W. B. Caldwell, 211 Chestnut St., Monticello, Ill.

Habitual Constipation

May be permanently overcome by proper personal efforts with the assistance of the one truly beneficial laxative remedy, Syrup of Figs & Laxative of Senna which enables one to form regular habits daily so that assistance to nature may be gradually dispensed with when no longer needed, as the best of remedies when required are to assist nature and not to supplant the natural functions which must depend ultimately upon proper nourishment, proper efforts, and right living generally. It is the beneficial effect always by the genuine.

TYLER is going to do the right thing at their home coming in July. The folks up the way are getting to be a lively bunch anyway.

SMITH county went dry by about 950 votes. The campaign was a hot one, and not altogether void of personalities. Smith county is a mighty important county to fall out with herself.

WE are all selfish to a certain extent—very great extent. That's human and no one falls out about it. But there are several kinds of selfishness—a real selfish, niggardly selfishness for instance. It's a bad article.

SOME people seem to be born with a tired feeling, and never out live it. No matter what may come along,—oh well let it alone. It was that way when I first came to Texas, and it ought to suit you. But such attitudes very seldom do much in the town building line.

SOME of the "tater ridge" sidewalks in the city are becoming very conspicuous on account of the absence of work and attention. Trails may do as well as anything else to walk on, but sidewalks,—well built, well kept ones,—would add materially to the appearance, convenience and comfort.

TRUCKING in East Texas is profitable if the people make it so. There is more dependent on the man at the throttle than anybody else,—including the market. The worlds supply is not greater than the demand, it placed right. And therefore trucking could be made to pay big dividends here same as other sections, if the people will.

The Belton Democrat comes this week as "a home trade" edition. It is a hummer and contains some excellent write-ups and splendid views of that good old school town. Belton has placed herself very conspicuously on the map the past few years, and among other big things has won the distinction of being the best cotton market in the state. And it might be stated that Belton has a real live commercial club.

THE prize fight at Austin, in which one of the men was killed,—the affair being witnessed by the sheriff, deputy, chief of police, rangers, and goodness knows who else, was one of the most disgraceful things that has ever blotted the fair name of Texas. It every one of those officials are not ousted from office, and then not prosecuted to the fullest extent of the law,—it will be another "dirty shame" on Texas. It's up to the Lone Star state to get right.

MORE CREAMERY TALK.

The creamery matter is causing some talk and the farmers are enthusiastic for such an institution. A little push, lots of co-operation, and the thing is landed.—Nacogdoches Sentinel.

The creamery is easily the leader in South Texas at present. Several plants have been installed during the past three months, some are being built and others are being discussed. The creamery is a splendid institution for any community, if it has been organized properly and is managed properly. With an experienced man in charge of the business and the co-operation of the farmers pledged there is no reason why such an institution should not prove a great blessing to Nacogdoches, and numerous other towns. — Galveston News.

From the above it will be seen that East Texas is being awakened to another important industry, and the people of this section would do well to get in line while the opportunity is so inviting.

A creamery could be established and put into operation with an investment of \$5000, and there is always a ready demand for its product, which would insure it to pay good dividends on the investment. Added to this good feature it would give a market for all the surplus milk of the country, and stimulate the production of more, thus adding another industrial enterprise to the community which would bring a blessing to the business people and the people of the country alike.

Let's build a creamery.—Center News.

THE agitation which was started some weeks ago for a reorganization of the East Texas Press Association, is meeting with much favor, and papers in every section are urging such. Nacogdoches may rightfully lay claim to the first meeting, but for various reasons has said nothing about it. In the meantime Tyler and Port Arthur and Pittsburg are howling themselves hoarse, and report says the former is arranging to entertain the pencil pushers. This is merely report though,—despite the fact that report also says that "invitations" have been sent out. Unless a vote is taken on the proposition, how can any place be chosen as "agreeable", and unless there is some show for a good attendance, what's the use of attempting a reorganization? Something besides a mere meeting comes first it looks.

WE are in receipt of a copy of the Velasco Courier, special edition, one of the best gotten up and most attractively arranged paper noticed for some time. The edition ought to prove a splendid thing for the people of that section, as an advertiser.

Excursion.

The first excursion of the season will be to Galveston and Houston on Saturday, round trip ticket \$2.80 from Nacogdoches. Tickets on sale here Saturday and Saturday night.

A SUIT FOR MILLIONS.

Litigation in Missouri Courts Involving Big Amount of St. Louis Property—Frank B. Sublett Interested.

Frank B. Sublett, cashier of the Stone Fort National Bank, who returned from a three weeks stay in St. Louis recently, is interested in an immense litigation now pending. The following from the St. Louis Republic is in reference to it, and is about correct, according to Mr. Sublett. The amount of land however is 308 instead of 306 acres, and is worth from \$22 to \$50 a foot, making the value several times as much as is stated in the article. The Republic says:

The right of Miss Mary Morgan Fullerton, reputed as St. Louis' richest girl, who tomorrow will become the bride of Paul Bakewell, Jr., is the ownership of seventeen acres of land in the vicinity of "Dago Hill," and is not likely to be disturbed for some years.

The trial of the suit contesting the title to the property, set for hearing June 7 in division No. 4 of the Circuit Court, is expected to be further delayed by the resignation of Judge Matt G. Reynolds. It has been hanging fire in the courts for a dozen years.

The litigation, to which Miss Fullerton is a party, involves 306 acres of land near Cheltenham, otherwise known as "Dago Hill." It lies between Kingshighway boulevard on the east and Sublett avenue on the west, with Bishop and Columbia avenues on the south, and extends nearly to the Manchester road on the north.

The heirs of Solomon P. Sublett, a fur trader, who died in 1857, are claiming the property. Sublett owned 206 acres of the tract, and his wife, Frances Hereford Sublett, the remaining 100 acres. The land is valued at \$1,500,000. Miss Fullerton is the largest individual owner of the disputed ground.

Sublett's will was not offered for probate until fifty years after his death, and his estate was settled as though he had died intestate. His wife died a few months after he did, and their only child, a daughter, Francis, died on her ninth birthday in 1861.

The heirs of Sublett and his wife are now engaging in a three-corner litigation with those who now hold the property.

Corporations, churches, the Board of Education, numerous individuals, including Miss Fullerton and Archbishop Glennon, are among the 475 defendants in the case.

HARD TO GET JUDGE

Difficulty has been experienced in the past in finding a Judge to try the suits who had not, before going to the bench, been consulted regarding one or more phases of the case. The resignation of Judge Reynolds will cause the search for a qualified jurist to be continued.

The case formerly was in Division No. 1. When Judge

Hugo Muench took the bench in that court, two years ago, the suit was transferred to Judge Renold's court, because Judge Muench had previously been engaged in the case.

Former City Counselor Benjamin Schnurmacher, who has been asked by Governor Hadley to succeed Judge Reynolds, is one of the thirty-five attorneys employed by the defense. If Mr. Schnurmacher accepts the judgeship, the case again will be transferred, with the consequent delay.

Should Mr. Schnurmacher not accept, it is possible Judge Reynold's successor, whoever he may be, will be disqualified, as there are few lawyers of note in the city who have not been connected with the case at some time or other.

The Board of Education is interested through the Vashon School, which is on part of the ground in controversy. Archbishop J. J. Glennon is a defendant, as trustee for St. Ambrosius Catholic church, at No. 2100 Cooper street. The German Evangelical church, the Pattison Avenue Baptist church, and the church of the Bethlehem Congregation also are on the tract. Among the corporations interested are the Hydraulic Press Brick Company, and the Evans & Howard Fire Brick Company, who own plants on the tract. The National Lead Company, Anheuser-Busch Brewing Association, and St. Louis Brewing Association are said to be interested, either directly or indirectly.

MANY LAWYERS EMPLOYED.

Among the lawyers retained to defend the case are: Boyle & Priest attorneys for the United Railways Company; Rasseur & Schnurmacher, Nagel & Kirby; Stewart, Elliott, Chaplin & Blayney, and John F. Lee, H. W. Femmer, of St. Louis, and Barnett & Barnett, of Sedalia, Mo., where most of the plaintiffs live, represent the plaintiffs, of whom Robert S. Peniston is taking a leading part in the suit. Femmer is now taking depositions in the case in Pocatello, Idaho, T. F. Chaplin representing the other side.

Semi-Annual Election.

The Maccabees of this city are preparing to have a kind of reunion next Wednesday night June 16th, in this city, and at which time the semi-annual election of officers will take place. In addition to the business program, refreshments of cream and cake, and an after course of cigars will be served. The members in the country as well as the city are urged to attend this meeting, and a good time is assured all. The meeting will be held at the hall, from eight till eleven.

Libby News.

Plowing cotton and corn is the order of the day as the farmers have had plenty of rain and the grass is growing faster than the crops.

Health is not very good in this community at present.

Mr. Gus Simpson has closed down his mill for a short while.

The young people enjoyed a play party last Friday night at Mr. Ed Strongs.

Mr. Hardy Williamson gave an ice cream supper last Saturday night which was enjoyed by all that attended.

Mr. Luther Beckham and family has moved to Stockman.

Mr. Summer Holmes has returned to his home at Simpson.

Messrs. Ben and Fred Stripling of Swift, attended the cream supper Saturday night.

Mr. John Patterson and family passed through Libby, moving to Grigsby where they will make their future home.

Messrs. Frank Lewis and Chester Hazen, of Press, visited Libby last week.

Misses Sallie Fountain and Beulah Miller, of Waterman, visited relatives here Saturday night and Sunday.

Mrs. Josephine Fountain is visiting her daughter, Mrs. Ova Patterson, at Grigsby.

Mr. Lum Chandler has moved to Stockman. We regret losing our good neighbors.

Messrs. Hubbard Hart and B. S. Williams, of Garrison, was seen down in this community last week buying cattle.

The roads of this part of the country are sure bad and if we didn't have the best mail carrier we people would have to go to the office for our mail.

The big Waterman mill has started up and will afford employment for a lot of people.

Waterman ball team played Libby team last Sunday but did not play long on the account of rain. They will play at Waterman next Sunday afternoon.

There was a birthday dinner at the home of Mr. Zile Voughts Tuesday, which was enjoyed by all that attended.

Will ask all correspondents to come often.

Well, as news is scarce and time is too, will bid you all adieu. E. M. V.

Ask Cason Monk & Co. about that dollar—they have one for you.

Neyland-Rulf.

Sunday morning at high noon, at the home of the bride's parents, Mr. and Mrs. D. Rulf, occurred the marriage of Miss Mary Magdalen Rulf to Mr. Junius Charley Neyland, Rev. J. W. Davies, officiating.

There were present only the immediate relatives of the contracting parties.

The home presented a lovely floral adornment, each room having its chosen blossoms, white and green being the color motif throughout. The parlor where the ceremony was performed was made beautiful with jasmines and the delicate sprengari, potted plants, ferns and palms, making the background. The dining room where after the ceremony a delicious luncheon was served, had for its floral decorations, the fragrant white geraniums which with the lovely feathery ferns gave the bridal note of white and green.

The bride was married in a handsome tailored going away gown of gray cloth, and wore a modish hat to match, her gloves and shoes also harmonizing with her costume. The young couple left on the noon train for their home in Alexandria, La., immediately after the bridal luncheon which followed the ceremony, taking with them the good wishes of a large number of friends.

Miss Mary Rulf was reared in Nacogdoches, and numbers her friends by the score, who love and admire her for her fine, womanly qualities, of both mind and heart. Mr. Neyland is not unknown here and is a splendid young business man of Alexandria, La., where he represents the Armour Packing Company, and in every way worthy of the fine young woman he has won for his bride. They will go to housekeeping at once, where a dear little home has been prepared for the young wife.

INDIVIDUAL RECORDS OF PLAYERS

Batting and Fielding Averages For the First Eighteen Games of the Season 1909—Missionaries Have Won 13 Out of 18 Games, Making a Per Centage of 72.3.

The information below given is for eighteen games, covering the season of 1909 to date.—beginning with the game between Jacksonville and Nacogdoches here April 27 and ending with the game between the same teams here last Saturday, June 5th. An incomplete record however of the six first games is only available, but the averages are pretty near correct, and will enable all who wish to do so, to keep such complete from now on. We intend to furnish the average for the team members etc., about every three or four weeks,—after eighteen games as we are doing now. In the percentage are included the correct records as shown by the official score for the last twelve games. It will be noticed too some who only played a very few games have a much higher average than some who

have been in all the games,—but in considering this, don't allow the idea that their averages would necessarily have been high in all the games, same as atew. They might—and they might not—have been. Talking the record as a whole it compare well with any average any where and at any time. The League players can show no better work. A batting per centage of 100 means the player gets one hit out of every ten times up,—that is about one hit for every two games played. A pretty good average, too, and when that is raised to a point around 250 or 300, it is indeed excellent. The fielding averages are not exact any more than the batting record, and for the same reason,—but the figures given are very nearly so. The list is given with reference to the games played, largest number first etc.

Nacogdoches—Missionaries have played eighteen games, losing five, making a percentage of 72.3.

Has been shut out twice, once by Jacksonville and once by Longview.

Has shut out opposing team five times.

In the eighteen games has made eighty four scores and the opposing teams have made fifty four scores.

Chase has pitched six games, losing two.

Griffin has pitched five games, losing two.

Smith has pitched six game, losing one.

Graboski has pitched one game, losing none.

J. Rusche has caught sixteen games.

Richardson has caught two games.

SOME DIAMOND DOPE

"Snip" Monzingo reports at Lutkin tomorrow. He will take the right field, his old familiar stamping ground.

"Rube" Smith says he was merely on a little "layoff," and has come back to beat Longview to it. His arm is in fine shape.

The regular lineup takes

place this afternoon,—and henceforth it will be so. The bunch is already fast,—but is going to be faster.

"Kid" Chase has signed with Lutkin, but may come back to Nacogdoches yet. The "Shreveport kid" is a fine box artist and will make good anywhere.

Griffin will pitch one of the games against Longview, and will likely go to Tennessee to break into faster company—that is faster on paper and a pay roll. He has a splendid offer by the South Atlantic League and expects to make good. Nacogdoches fans like Griffin's work.

Roberts of Jacksonville has also signed with Lutkin, and Monk Johns comes here to take short.—badly crippling the tomato bunch. Jacksonville promises some new additions soon.

Negotiation for a southpaw are reported in fandom circles. Wiley seems to be the fellow wanted, he is reported to be a dead shot—a College twirler.

Jacksville shut Grand Saline out Monday by a score of three to—something wanted. Grand Saline (the salty folks) comes here the 24, 25 and 26.

Longview hasn't lost a game since their take down by Nacogdoches. Beat Marshall Blues 39 to 2,—close game indeed. Also walked around Gilmer for a few.

"Mugsy" Akey, the long, tall short center fielder, has good per cent on his out door work, and promises to slug 'em in the future. Batting average to be up—up—up. League teams play no bet-

ter ball than amateurs,—at least that is the way things are going this season. East Texas will furnish some swift League boys in another season.

Longview tomorrow, game called at four o'clock. Nacogdoches Missionaries will begin to do the summer campmeeting stunt right away, teaching the visitors the real art of real base ball. Longview has a per centage of 961.

WHUR YOU GWINE, NIGG AR?

"You's Out Sah," And Bunch of Local Ebony Hues Wrest Two Victories From Tomato Town Contingent—Good Circus Side Show.

Nacogdoches won two victories yesterday, and today the local aggregation of Ham's progeny are making merry among themselves, and telling each other over and over again, just how it happened. Somebody, somewhere, sometime, told the Jacksonville bunch of ebones that it was "easy" to get some scalps here, and they came down a once, forthwith, and immediately. The double header yesterday afternoon exploded the stuff, and the locals won both games,—the first by 2 to 0, and the last 2 to 2 in the tenth inning, with the game called on account of darkness, —though it was an hour till night. Stag, the black southpaw, with an arm for throwing bullets or bricks, pitched the first game for Nacogdoches, while the ginger colored contortionist did the stunt behind the batters. A rather sedate looking individual, with a starched collar and a new pair of red shoes called matters, and was pretty near correct, though not all of his decisions counted—unless the opposing team was willing. The grand stand represented the reserved seats at a circus side show, and lots more fun was gotten out of the double header than can usually be arranged with a fat man or a three horned cow's department.

The grandstand was some hundred yards too close, as far as hearing the decision was concerned, for the "you's out sah," could be audibly understood for long ways away. The Jacksonville first baseman had a mouth most as large as a pet rhinoceros, and when he squalled "whur you gwine nigger," as he most invariably did when he tagged a runner, the planks on the grandstand, and the board fence rattled. He got 'em though, gwine an' conin'. Base runners was in great danger when near the initial bag, and black as midnight

always stood in a receiving mood and position ready to "stop dat nigger goin' some." The first game of the two, was played in about one hour and thirty minutes, barring time taken up with rag chewing and squabbling, and the score board looked like an empty chicken roost after a

culud camp-meeting. The Jacksonville "Reds" couldn't help it, and the score keeper just writ' it thusly—2 to 0.

The second game started off a little slow, but gingered up some after the "comes" had made two scores and the home bunch said—o-n-e. This thing rocked along for nine innings just that way, and then two men went down. The contortionist knocked a two bagger. It didn't count, so he knocked another. It counted and they yelled negro run at the rate of—some fast. Stag went to the board and placed a long double baser over second, the runner scored and the fortunate coon—

"slide Kellyslide"—something like this. It saved the game. The other Nacogdoches south paw, same size, same weight, same blackness, knocked a same ball over,—but it was caught. Rules were of their own making it seemed.

Only one or two bases were allowed on balls with both sides, and none were allowed by hit balls. Several of the culud population received stunning blows, one on the north side of the head, but according to the rules in usage, it didn't count unless the fellow was hit where the appetite is,—yes, usually is. The feature of the game was the entire thing—Brilliant plays, and bullet throws were numerous as cockleburrs in a lazy man's cornfield and the strikeouts were unanimous,—that is just lots of them. The south paw first baseman for Nacogdoches cavalard, and who twirled the first game, could

not wait for the balls and met lots of them. One in particular he "div" after, feet on plate,—and he coralled it, but a picture of the feat looked like above. The Jacksonville Growlers did not relish the idea of a second beat and voted for a draw game in the tenth inning. The contest was a real "strong" one.

Mrs. Dr. M. E. Stites now in the Center community, Shelby county, Texas, cures rheumatism, dropsy, neuralgia, cancer, spinal affections, all kinds of nervousness, liver and kidney affections, female complaints, paralysis, catarrh, St. Vitas dance, consumption, (if not in the last stage) epileptic fits (if not caused from deformities or malformations of the skull.) I heal with herbs, roots and barks. I positively do not give calomel, strychnine, nor morphine. It has been reported that I treat the same as the other doctors, I positively do not. I manufacture my own medicines from herb roots, barks and flowers etc. I also give the compound medicated vapor baths, I have the full outfit to treat all and any chronic diseases. I have good testimonials of cases I have cured. Any person wishing to consult me will find me at Mr. G. W. Fords, one mile from Center, Texas, R. F. D. No. 2 on the upper Nacogdoches road, or you can address me by mail. I also treat at other places.

The Best Players in The Texas League

SOMETHING OF THE MEN WHO ARE DOING STAR BALL IN THE LONE STAR CIRCUIT THIS SEASON.

Dallas Times Herald.

Many arrangements have already been started as to who or whom are the stars of the Texas league. This season has developed to such an extent as to render some kind of a decision or an opinion in this particular line impossible. Of course, later there may be other men who will develop who have not yet shown the great game that is in them.

Bastian, the big, but graceful first baseman of the San Antonio club, looks to be the real thing. He is up in the game in every department, and hardly a day passes that one does not read where he figured in it in some way. He is a finished fielder, scooping up and taking in all sorts of wierd throws, gathering in hits of all kinds, and at all times using fine judgment. With the willow he is some pumpkins, hitting hard and timely. He bats either right or left-handed, whichever is to his liking, and bats as well from one side as the other. He is the best man in the Broncho bunch on the squeeze play, and at sacrificing and in hitting long flies to the outfield. If there is a man on third with none or one out, and Bastian comes up, it is an even money shot that the man from third will have ample opportunity to score. Bastian is always up and doing from the field and looks to be the most consistent player, in both fielding and batting, in the league. The Alamog City was fortunate in securing such a valuable man.

ABOUT LITTLE STY.

Kipp, the diminutive shortstop on the Waco team, is another boy who certainly looks to be a good one. He is fast, being able to race to the right or to the left and pick them up, and at pegging he is right there, with a true and swift aim. When it comes to picking them off at second they appear easy to the little fellow. While not a slugger, he is over the average in this league, and, like all little men should be, is hard to pitch to, making the twirlers get down to hard work. They have to look good to him before he will swing, and he does it with a vengeance.

James of Waco, who camps out in the right garden for the Navigators, is the slugger of the league. He is one of the most dangerous men in the league. While not a star at fielding, he is some. It is said he won the prize at the beauty show, but all the judges were blind.

Hoffman of the Navigators is another player who comes in for a lion's share of glory among the patrons. He is the best fielding third baseman in the league, but as a hitter he is woefully weak. He does not get a healthy swing. If he could swat them out some he would be away up. A little instruction on the part of a man like

McGraw would make him hit.

STEWART SHOULD DO WELL.

Stewart, pitcher for Houston, is one who will certainly win a majority of his games this season. He has all sorts of curves, with speed to match it, good control and fine judgment. He is a clean-cut little fellow, and at the rate he is going, will be a coner.

Among those who have performed in this league before this year, of course, the two kids, Curly Maloney and Benny Shelton, are playing good games, and bid fair to hold their own this season and several others with the bunch of talent that ambles to this league. Alexander better known as "Little Alex," is a going some; also "Pop" Leidy, who seems to be the Bronchos' star out fielder. Then Brooks, Gordon, with his cardinal curls, goes in and catches in championship form. Gordon always bats along about a 250 clip. When a man is a cipple, never being able to bear out any infield taps and bats around those figures, he is bound to be some with the hickory.

"Old Man" Short, with his gray hairs, is playing the keystone bag as good as any in the league, and as a base runner he is a ghost. Cayender and Nance, while having a whole lot of trouble with their bunch, they themselves are still playing the game and look good for several seasons yet. Their lamps are getting somewhat dim, and they do not show out in their old-time style, but they break up a good flame occasionally.

DALE GEAR BETTER.

Old Dale Gear, who always was noted for being a good hitter, seems to be playing better than he did last year. Gear started his career in the Texas league quite a few years ago with Fort Worth, and gradually went up until he reached the Nationals. He was a member of the Panther when they had such good men as Cassidy, McAlester, Steintedt, McFarland, Gettman, Isaacs, Jarvis and others. They were a lively bunch, and just entered in with the rag. Nothing was able to touch them. Nearly every member of the team was either drafted or sold.

Some of the other boys are playing good ball, but some seem to be going back, but may come later on. The weather is getting hot, and the clubs should round to very rapidly.

The race is tighter than ever. All the teams are playing good ball. Fort Worth, who is in the cellar, could easily climb to the top by a little spurt. Several clubs have been on top, notably Houston, San Antonio, Dallas and Shreveport, while most every club in the league has been second or third since the first two weeks. It is anybody's race yet.

Making Good.

There is no way of making lasting friends like "Making Good," and Doctor Pierce's medicines well exemplify this, and their friends, after more than two decades of popularity, are numbered in the hundreds of thousands. They have "made good" and they have not made drunkards.

A good, honest, square-deal medicine of known composition is Dr. Pierce's Golden Medical Discovery. It still enjoys an immense sale, while most of the preparations that have come into prominence in the earlier period of its popularity have "gone by the board" and are never more heard of. There must be some reason for this long-time popularity and that is to be found in its superior merits. When once given a fair trial for weak stomach, or for liver and blood affections, its superior curative qualities are soon manifest; hence it has survived and grown in popular favor, while scores of less meritorious articles have suddenly flashed into favor for a brief period and then been as soon forgotten.

For a torpid liver with its attendant indigestion, dyspepsia, headache, nervousness, dizziness, foul breath, coated tongue, with bitter taste, loss of appetite, with distress after eating, nervousness and debility, nothing is so good as Dr. Pierce's Golden Medical Discovery. It is an honest, square-deal medicine with all its ingredients printed on bottle-wrapper—no secret, no "locus-pocus" humbug, therefore don't accept a substitute that the dealer may possibly make a little bigger profit. Insist on your right to have what you call for.

Don't buy Dr. Pierce's Favorite Prescription expecting it to prove a "cure-all." It is only advised for women's special ailments. It makes weak women strong and sick women well. Less advertised than some preparations sold for the purpose, its sterling curative virtues still maintain its position in the front ranks, where it stood over two decades ago. As an invigorating tonic and strengthening nerve, it is unequalled. It won't satisfy those who want "boozie," for there is not a drop of alcohol in it.

Dr. Pierce's Pleasant Pellets, the original Little Liver Pills, although the first pill of their kind in the market, still lead, and when once tried are ever afterwards in favor. Easy to take as candy—one to three a dose. Much improved, not ever equalled.

First Cabbage of the Season.

The first cabbage of the season were sold here this afternoon by J. M. Avery, residing near Nacogdoches. There were 2000 pounds in all, gathered from one half acre, and the product is very fine. The cabbage were sold to the Nacogdoches Wholesale Grocery company, and at a good price. Mr. Avery stated that he had two acres more and expected to get about 4030 more pounds, besides this 2000 pounds.

Indigestion Causes Catarrh of the Stomach.

For many years it has been supposed that Catarrh of the Stomach caused indigestion and dyspepsia, but the truth is exactly the opposite. Indigestion causes catarrh. Repeated attacks of indigestion inflame the mucous membranes lining the stomach and exposes the nerves of the stomach, thus causing the glands to secrete mucus instead of the juices of natural digestion. This is called Catarrh of the Stomach.

Kodol Dyspepsia Cure

relieves all inflammation of the mucous membranes lining the stomach, protects the nerves, and cures bad breath, sour risings, a sense of fullness after eating, indigestion, dyspepsia and all stomach troubles.

COMPRESS TO BE REBUILT.

Matters Have Been Thoroughly Settled, and Work Will Commence at an Early Date—Strictly Modern Outfit.

The Nacogdoches compress will be rebuilt, and work will commence on the structure at an early date. That is the substance of the announcement made a few days ago by secretary and general manager, Roland Jones. The lot is now being cleared of its debris, scraps and remains of the fire, and as soon as this work is completed, the new material will be put on the ground. The amount to be expended in the new structure is not known, but the compress will be strictly modern in every respect, and if any difference, the capacity will be increased. The plant will be ready for operation this fall. The old compress was destroyed about three months ago by fire, and with the exception of a portion of cotton, was a total loss. Since the conflagration, the company has been getting the damaged cotton in shape to dispose of, and now this feature is all finished. The actual work on the new plant will likely begin by July, as a crew of hands are already busy ridding the lot of the remains of the fire.

Aqua Vitae Park.

Gleaner editor visited Nacogdoches Tuesday, in company with B. L. Jopling, one of Garrison's pioneers. While in the hub city we visited Aqua Vitae Park and "drank freely" at the fountain of health or of the Water of Life as this mineral water is termed. There is no doubt but that this mineral water and Aqua Vitae Park will be a drawing card for Nacogdoches. People are pushing the enterprise that have the inclination and means to push it to a great success. The

TOBACCO PROSPECTS FINE.

Rains Were Very Beneficial, Plants Are Thrifty and Growing, Outlook Was Never Better—Mr. Olson Returns Home.

Otto Olsen and George T. McNess made an inspection tour of the tobacco farms east of the city yesterday, and this morning went out west for a look. In reference to the crops east and north from the city, the gentlemen stated that the prospects were never better, and with good conditions continuing, the tobacco harvest this autumn would be a splendid one, both in quality and quantity. The rains have been very beneficial, in fact came at the right time, and the plants are thrifty and growing nicely. The fields are in a good state, and are comparatively clean, but will need working out now of course. Some of the field are already dry enough to plow, and some of the farmers are at it today. No damage resulted from the recent rains and no wind of any great velocity was evident in the east and north sections. A sprinkle of rain fell Tuesday morning, but not sufficient to hurt. Reports have been coming in from the west and south to the effect that considerable damage had been done the crops and that several barns had been blown down, and the two gentlemen went out this morning to look over conditions. They returned just after noon, and Mr. Olsen left on the T. & N. O. for his home in Palestine.

AT ALL DRUG STORES

The "Denver" Service. The Fort Worth & Denver Railway Company, more commonly known throughout the South as "The Denver Road," announces the establishment of increased and much improved through train service to Colorado Resorts to become effective Sunday, June 6th, in connection with which the interests of those who may have occasion to visit points beyond, such as the Yellowstone National Park and the Alaska-Yukon-Pacific Exposition at Seattle Washington, appear to have received most creditable attention in the direction of such quickened time and close connections with other roads as may be utilized to best advantage in making either forward or return journeys.

The service of these through trains will be double-daily, leaving Fort Worth at 9:40 a. m. and 9:15 p. m., and reaching Denver at 8:15 p. m. and 7:00 a. m., respectively; and in addition to affording all of the usual features provided for modern long-distance travel, such as Pullman's Latest Drawing-Room Sleepers and other new and up-to-date equipment, will also employ for all meals a complete line of full-fledged and exquisitely appointed Dining Cars which have just been received from the shops of the Pullman Company.

With reference to tourist travel "The Denver" claims to be in a class much alone and prides itself upon the excellence of its Dining Car Service, in connection with which popular prices prevail; also the completeness of all appointments relating to its long-distance trains its success in assuring maintenance of connections with diverging lines at Fort Worth, Pueblo and Denver, in both direc-

Burbank's Thornless Cactus
The new Fruit and Fodder plant has excited more interest than anything ever before produced by Luther Burbank, who expects the cactus industry to rival that of the orange in importance. Perfected and improved fruiting varieties controlled by the Thornless Cactus Farming Co., of Los Angeles. One hundred tons of fodder to the acre is possible under favorable conditions. This may be greatly exceeded. As high as one hundred tons of fruit to the acre is not an impossible crop. Where grown as a perennial the Burbank cactus makes an astonishing reproduction. Grown as an annual (where the winters are colder than 25 above zero) the plant is an experiment, but many good judges believe it may successfully be grown in the same manner as Irish potatoes. HUMORS IN THE BLOOD

When the blood is pure and healthy the skin will be soft, smooth and free from all eruptions or disease, but when the circulation becomes infected with any unhealthy humor the effect is shown by eruptions, pimples, boils, or some more definitely marked skin disorder, such as Eczema, Acne, Tetter, Psoriasis, Salt Rheum, etc.

Humors get into the blood, usually because of an inactive or sluggish condition of those members whose duty it is to collect and carry off the waste matter and refuse of the system. This unhealthy matter is left to sour and ferment and is absorbed into the blood, and soon the circulation becomes filled with an acrid, irritating humor.

The blood then, instead of performing its natural duty of nourishing the skin, regulating its temperature and preserving its uniform softness, pliability and healthfulness, irritates and diseases the delicate tissues and fibers around the pores and glands and produces some of the various forms of skin eruption or disease.

The cause of all skin affections can be traced to some kind of humor in the blood. Healthy cuticles are only possible where the circulation is pure; and therefore the cure of any skin disease can only come from a thorough-cleansing of this vital fluid. Salves, washes, lotions, etc., cannot cure. True such treatment relieves some of the itching and discomfort, helps to reduce inflammation, and aids in keeping the affected parts clean, but it does not reach the blood, where the real cause is located, and at best can be only palliative and soothing.

S. S. S. cures skin diseases of every character and kind because it purifies and cleanses the blood. It goes down into the circulation and removes the humors that are causing the trouble, builds up the weak, acrid blood, and completely cures Eczema, Acne, Tetter, Salt Rheum, pimples, boils, and all other skin diseases and affections. S. S. S. is made entirely of roots and herbs, a safe vegetable remedy.

For six years I was severely troubled with Eczema, located principally on the shin bones, caused by a humor in the blood. The trouble would appear in the form of small yellow blisters, characterized by itching, etc. I tried arsenoparilla, so-called "bryl" purifiers, salves, ointments, lotions and treatment under a local physician, but nothing did me any good. Becoming discouraged I left off all this treatment, and seeing S. S. S. advertised one day I decided to try it, and after taking it a short while the humor was driven from my blood and I was completely and permanently cured. Some seven months have elapsed since I was cured and have had no indication of a return of the disease. G. O. RECK. 404 Freedom St., Alliance, O.

WOMANLY WISDOM.

Open the door of your heart; let in Sympathy sweet for stranger and kin. It will make the halls of the heart so fair That angels may enter unaware.

Vanity bears flowers but no fruit.

Charity always goes farther than it is sent.

Preaching and practise are twins that often get separated.

Caring for things is better than working hard to get money to buy things.

A woman without wrinkles on her brow seldom knows much of the real joys or sorrows of life.

Put your dried sweet corn through a coffee-mill before cooking. This will make it much more tender.

The side of an old berry crate cut to fit the bottom of the boiler makes a good support to set jars on when canning.

Few of us ever have all we would like. It is better for us. It is like a spoiled child that gets everything he cries for.

Cut out some of the really unnecessary household work and take some time out-of-doors with the children, and thus renew your youth.

When you go to bed at night, sweep your mind clear of everything and go to sleep. Failures, hopes, dreams—everything; let all go and rest up for the day that is coming.

Don't think it is a waste of time to rest a little while, now and then. Lie flat on the bed, or even on the floor; stretch out at full length, let go of everything and shut the eyes and rest. Most of us keep keyed up too tight; it wears us out more than the work we do.

When peas or string beans have lost some of their first freshness, the half of a very small onion cooked with them seems to bring out the flavor and make them more savory. Some cream added to the other seasoning after the water is poured off, also improves them.

Do you watch for the loads of hay as they come into the barn and have a nice pitcher of water ready for the men when the wagon is empty? The men folks appreciate that more than you know. And say, men folks, let the women know that you think them kind. Just a word will brighten a whole day.

Did you ever try to sew on a coat button with a single thread? Few folks do—they think they must have it double. But tailors never do that way, because they know how apt the thread is to draw through uneven and get tangled up. Just try it with a single thread and see if you will ever want to go back to the old way.

Does it seem to you that he isn't quite so kind and attentive to you as he used to be? Maybe that is so; but don't get sad and scold! Keep your face bright and cheery; look the very best you can, even about your work. Make up for his lack of kindness by being more so yourself. Win your loved one back again. You can do it, you will do it, too!

To make a berry pie that

will not rub over, line the tin with crust, then put in two tablespoonfuls of sugar and mix with two tablespoonfuls of flour. Fill with fruit; sweeten, sprinkle over this a few cracker crumbs. Make plenty of slashes in the crust; wet the edge of the lower crust, then put on top crust and pinch upper crust well on to the lower one.

Unconcerned

There is trouble in the Galvans; war is likely to ensue;

There may be a big upheaval, they may shape some states anew;

Men are very much excited; Sultans, Emperors and Kings

Tremble on their thrones, expecting a vast blowing up of things;

But I view the scene with calmness; I am not disturbed at all

For I'll have to keep on working, though a dozen kingdoms fall.

Men are wondering if ever we shall have a chance to fly;

Every day or two somebody gets an airship to soar high;

The inventors all are busy with balloons and aeroplanes

And the world applauds each triumph that the aviator gains;

But I'm not at all excited, for I'll have to labor still, Even if man gets to flying, with no danger of a spill.

I have neighbors who are worried, tearing Tatt may not get in,

They expect widespread disaster if the Democrats shall win;

There are others who assure me that 'mishfortune and distreet

Will be brought upon the country by Republican success;

But I am not greatly worried for, whichever way it goes,

I shall have to keep on toiling for a living, I suppose.

Something new is started, daily to keep people filled with doubt.

There is always some grave question for mankind to talk about;

Wall Street has a chill or fever, war clouds spread across the sky.

Rain destroys the crops or forests burn because it is so dry;

But there isn't any reason why I should be much concerned.

For nobody ever hands me anything I haven't earned.

The Moon In Eclipse.

A large number of people witnessed the moon in eclipse last night, and which lasted more than an hour. The eclipse was not only total here, but was visible as such all over the United States and the American continent. The Galveston Tribune in reference to this says:

The reason why the moon was not visible, as the phenomenon is explained by the astronomers, is the influence of the earth's atmosphere, which bends the sun's rays at

the edges of illuminated hemispheres of our planet and throws on the moon a faint glow, usually of a red copper hue. It results from the absorption in the atmosphere of the green, blue and violet rays in the sun's light, while the red rays pass through it. It is much the same as the sunset glow, though infinitely more faint.

The moon did not pass through the central and deeper part of the shadow, and so was not entirely lost to view at any time, although it appeared of a dull red color, and gave so little light that darkness prevailed for more than an hour, and the stars shined as brightly as on a moonless night. Were the moon to pass through the center of the earth's shadow there would be a "black" eclipse, lasting four hours, in the course of which the moon would probably disappear entirely from sight.

Mrs. Bessie Smith of Cushing came in this afternoon and will spend a day or two with her friends, the Misses Weaver.

Notice - Sheriff's Sale.

The State of Texas, County of Nacogdoches: By virtue of an alias execution, issued out of the Honorable Justice Court of El Paso County, Precinct No. 1, on the 27th day of May, A. D. 1909, by the Justice of the Peace thereof in the case of Jno. P. Davidson versus W. H. Booth, No. 4948, and to me, as Sheriff directed and delivered, I will proceed to sell for cash, within the hours prescribed by law for Sheriff's Sales, on the first Tuesday in July, A. D. 1909, it being the 6th day of said month, before the Court House door of said Nacogdoches County, in the city of Nacogdoches, the following described property, to-wit:

50 acres of land in Nacogdoches county, Texas, a part of the H. H. Starnell grant and is about 10 or 12 miles north-northeastly from the city of Nacogdoches and is the same land mentioned and fully described in a deed to W. H. Booth from W. E. Linthicum dated Dec. 10, 1903, which deed is recorded in Vol. 63 on page 201 Real Estate Records of Nacogdoches county, Texas, to which deed and the record thereof reference is here now made for a more full and complete description of the said tract of land. Levied on as the property of W. H. Booth to satisfy a judgment amounting to \$75.40 in favor of Jno. P. Davidson and costs of suit.

Given under my hand this 1st day of June, A. D. 1909.

A. J. Spradley, Sheriff.

Women who Are Enved.

Those attractive women who are lovely in face, form and temper are the envy of many; who might be like them. A weak, sickly woman will be nervous and irritable. Constipation or Kidney poisons show in pimples, blotches, skin eruptions and a wretched complexion. For all such, Electric Bitters work wonders. They regulate Stomach, Liver and Kidneys, purify the blood; give strong nerves, bright eyes, pure breath, smooth, velvet skin, lovely complexion. Many charming women owe their health and beauty to them 50c at Stripling, Haselwood & Co. w

YOUR DEPOSITS

Are not Guaranteed until after January first, 1910.--Read the following:

Nacogdoches, Tex., May 28, 1909
Hon. Thos. B. Love, Commissioner of Insurance and Banking, Austin, Texas.

You are quoted here as saying the Guaranty of Bank Deposits Law becomes effective ninety days after passage. Is it not a fact the law does not become operative till January 1st, 1910.

Nacogdoches, Texas.

Dear Sirs:

I have your letter of 28th inst., and in reply beg to say: That the message sent you by Chief Clerk Johnson seems to me to have been a direct answer to your message, for the reason that he stated that the first assessment under the new law would be made on January 1, 1910. You can very readily see that deposits would not be guaranteed until the first assessment was made and collected. No deposits are protected until after the 1st day of January, 1910. I am,

Yours very truly
THOS. B. LOVE,
Commissioner.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer One Hundred Dollars for any case it fails to cure. Send for circulars and testimonials. Address F. J. SICK HEADACHE.

Sour Stomach, Heartburn, Canker Sore Mouth Cured by Mi-o-na

Sick headaches are caused by indigestion and a general disturbed condition of the stomach.

Cure the indigestion, and the headache, nausea, heartburn, sour stomach, and that "all in" feeling will vanish.

Mi-o-na tablets will cure indigestion or any other stomach trouble. They will relieve almost instantly. Stripling Haselwood & Co. have so much faith in them that they will give your money back if they don't.

Mi-o-na cures by making the stomach strong enough to produce enough gastric juice to digest all the food you want to eat. It promptly puts new life and energy into the overworked and played-out walls of the stomach.

Use Mi-o-na for a week, and you can eat what you want any time you want it, and take pleasure in doing it.

Your blood will be richer, redder, purer after taking Mi-o-na, and it only costs 50 cents a large box.

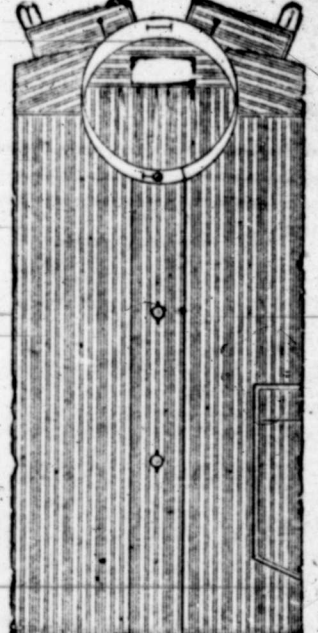

"I was speedily cured of stomach complaint by Mi-o-na. Anything I can say in favor of Mi-o-na is not too strong."—William Hess, Benton, Harber, Mich.

Of Interest to—Farmers and Mechanics.

Farmers and mechanics frequently meet with slight accidents and injuries which cause them much annoyance and loss of time. A cut or bruise may be cured in about one-third the time usually required by applying Chamberlain's Liniment as soon as the injury is received. This liniment is also valuable for sprains, soreness of the muscles and rheumatic pains. There is no danger of blood poisoning resulting from an injury when Chamberlain's Liniment is applied before the parts become inflamed and swollen. For sale by Stripling, Haselwood & Co. w
