SERIOUS ACCIDENT OCCURS.

I. J. Lloyd Gets Caught on the Shafting to His Well Pumping Machinery and is Painfully Injured.

From Friday's Daily:

About 10 o'clock this morning Mr. T. J. Lloyd, the well known dairyman and ice cream manufacturer, went down in the well at his factory to repair some of the machinery and in some manner his clothing got caught on the shafting that runs his water pump and he was very seriously injured. His clothing were practically torn from his body, three of his ribs were broken and he was otherwise badly bruised. Medical attention was quickly summoned and his injuries were dressed. It was first thought that he was fatally hurt, but on examination the attending physicians, said his condition was not so serious. At latest reports he was resting easily

A Lady of Experience and Judgment

Writes Cason, Monk & Co. as follows:

Rusk, Tex. Nov. 15, 1909. Cason, Monk & Co.,— Nacogdoches Texas.

Dear Sirs:—

I am very glad indeed to say that the Majestic Range is perfectly satisfactory and comes up to all the requirements of a first class range. The small amount of fuel required is remarkable. The Large Oven together with the drop doors on both the oven and warming closets I find since using to be almost indispensable. The damper is so easily managed, and with the great convenience of the dump grates over the ash pan and the advantages of heating water in the large reservoir and all the other good points, I do not think that it can be excelled.

Whoever buys one will make no mistake.

Very respectfully,
Mrs. Jno. B. Reagan.

Captain C. H. Allen of Austin, is in the city looking after some land matters.

NACOGDOCHES IS CHOSEN

This County Will, in the Future, be Headquarters For the Tobacco Industry in Texas—Otto Olsen Comes Saturday—Farm Selected.

Nacogdoches county scores the long sought point at last, and in the future will be headquarters for the tobacco industry in Texas. The word comes from Washington that Otto Olsen, who has charge of the work in this state, will leave the capitol city today for Nacogdoches and will likely arrive here Saturday. When the industry first attracted the attention of the Federal Government, most of the experimental and demonstration work was carried on here, but the past year or so, it has been centered in Anderson county. The special appropriation passed at the last session of the Texas legislature caused the Federal Government to take more notice, in that the people of this county were becoming interested in a greater degree, and determined to again make this county headquarters. Since that appropriation however, there have been a number of delays but for what reasons could not be learned. In fact as one man expressed it,—"a dead nigger in the woodpile is the way it looked." Several letters were written to the department from this section in reference to the delay, and the hopes of hurrying the matter up, and finally Otto Olsen was summoned to Washington to confer with the head of the bureau. No other news was available and nothing was heard from the conference until the message came yesterday that Mr. Olson would leave that city for Nacogdoches to take up his work in the tobacco line. The contract for a farm has long since been arranged and with the exception of some preliminary matters, everything is now in readiness for a beginning of the actual work. Five acres on North street road, portion of the F. J. Lloyd farm, has been secured, three acres of which will be used for the tobacco work and the remaining two acres in plant rotation and other demonstration features. Mr. Olsen will make this city his home, though he will spend what time is necessary in visiting other sections of the state where tobacco growing is being done. The farm selected is a most excellent one, from the stand point of location and soils, and will no doubt prove a stimulus to the industry in this section. A barn will be built right away, fence repaired and the ground cleaned off, that it may be turned and made ready for planting when the time comes. The news that Nacogdoches

county is to be made headquarters is very gratifying indeed, and it is hoped the people of this county and section will show an interest in the matter to the extent that the acreage will be increased and too, that we may get even more encouragement from the Federal and State Governments.

WOODMEN VOTE FOR CLASS.

Work Begins Today and Will Continue Till December 21—Many Lectures in County—Big Rally at Close.

On account of the inclemency of the weather, and the fact too that the Convocation meeting began last night, the lecture advertised to take place at the Methodist church, on the square, by Rev. Winston H. Vance of Center, did not materialize, but the few who gathered repaired to the Woodmen Hall where a business meeting was held, and afterwards talks by Rev. Vance and some other visiting Woodmen were heard. One candidate was initiated, the first business on the docket, and then the question of a class in Woodcraft for the county was discussed. The sentiment seemed to be pretty well divided, until the voting time came when it was almost unanimously in favor of a class to begin at once. And this being settled, Rev. Vance and his co-workers put to work at once their plans for an enthusiastic class with the hopes of creating a wide spread interest in Woodcraft in the county, and to wind up a general all day rally on the closing date, Tuesday December 21. State Deputy R. L. Milam will have in charge the class work in the county and will be assisted by Head Chaplain Winston H. Vance and R. H. Burns. A general, systematic campaign over the entire county will be made, and it is expected that in the five weeks several hundred new members will become affiliated with the order of Woodcraft. Lecturers will visit the various camps in the county top, and an effort made to build still larger all of them. Hon. Jewel P. Lightfoot has been invited to attend the big rally which is to

take place here Tuesday, December 21, and Sovereign Fraser of Dallas will likely be here too. Music and a parade and other pleasing features will occupy a prominent place in the program for the day, including addresses by prominent visitors, and at night an immense spread and banquet will be held. This is the first visit to this county, for some of the gentlemen, and it is considered that quite a distinction had been paid the fraternity by their interest in coming. At present the lectures will take place in the Woodmen Hall but later a larger building will be secured. These gentlemen come under the auspices of Liberty, Elm Camp No. 210, but all camps in the county will cooperate in the work, and will, of course, receive benefits.

Come and see the great cooking wonder at our store the week of November 29th to December 4th. You have a chance to get a souvenir set of ware free. See large advertisement in this paper. Cason, Monk & Co.

J. A. Clifton, who was carried to Lutkin Monday by Constable Matthews, having been captured in this county by local officers, was turned over to the Brenham sheriff and carried to the latter place where he is wanted on several charges of theft.

G. H. King announces that on Friday and Saturday Miss Wightman and her assistant will be at his store to demonstrate their merits of White Crest Flour. Miss Wightman will bake biscuit, cake and other pastries which will be served to those attending the demonstration. All are cordially invited to attend.

It is worth \$8.00 to you to read our advertisement in this paper. So don't overlook it. Cason, Monk & Co.

G. M. & HALTOM, Proprietors.
GILES M. HALTOM, MANAGER.

An objection now being urged by some of the more progressive to the building of good roads in Nacogdoches county is that it would retard for several years the use of flying machines as a means of travel and transportation in the county. It is not believed, however, that there is a sufficient number of citizens who take this view to defeat the good roads movement.

The papers and press dispatches continue to expound the virtues of Attorney General Davidson and predict his candidacy for Governor, but the signs point very strongly to Colquitt and Johnson only. It is to be a fight to the finish and a political hair pulling that smells of sulphur already. To attempt to learn just where Texas is, would be as useless as laborious.

It is now claimed that the alleged corn bread and grits source of the newly discovered disease, Pellagra, is a fake started by certain breakfast food manufacturers and opponents of corn meal as a human diet. Well, it don't make any difference who started the theory, nor how much truth there is in it. East Texans will never give up their "corn dodger". And why should they? Form time immemorial it has been to them the "staff of life," and on it they have fared better and lived longer than any other people since the days of Mathusalem.

It is not a question of whether or not you believe in the payment of a tax as a necessary qualification of suffrage, but whether or not you want to exercise all the rights, privileges and duties of a full-fledged citizen of the United States. The proper thing for you to do is to meet the requirements that have been made and arm yourself with a poll tax receipt right away, and then you are privileged to talk and vote as you please without being legally called into question by any one. There is but one thing that now places all citizens of Texas on an equal footing—and that is this aforesaid Poll Tax Receipt!

It is possible from the strides in that direction now being made that science will soon declare that man would live always but for the germs of death that he takes into his system through what he eats and drinks and the air he breathes. But in some of their more recent strokes they are taking from man most of the things that make life worth living, and he won't care to stay here always. For instance, these scientists are now asserting that the newly discovered and "awful" disease of Pellagra is caused by eating corn bread and grits. Now who would want to remain in this "vale of tears" forever if denied a daily feast of "corn dodger"? It would be like heaven with all the milk and honey taken out.

IS IT GOING TO FIND OUT?

(From the Rusk Press-Journal.)

Is the penitentiary Investigating Committee going to find out why the iron industry has been closed down for two years, and why the Rusk prison has been discriminated against?

Is it going to find out whether there is any truth in the report that culvert pipe was sold to the State Railroad at a much lower price than it could have been sold to other parties at the same time?

Is it going to investigate whether or not there is any truth in the report that the mules and scrapers that were used to build the State railroad were bought and charged to the iron industry, and "loaned" to the State railroad, and whether or not the iron industry has ever received a credit for same?

Is it going to find out what method was used or what hypnotic influence was brought to bear in the instantaneous conversion of the former Financial Agent from an enthusiastic supporter of the iron industry to its most deadly enemy in the course of a few days trip to Birmingham, Ala?

Is it going to find out whether or not there is any truth in the report that the former Financial Agent drew \$45,000 from the State Treasury and deposited same in his own bank, and immediately put "the lid on," refusing to pay it out for the current expenses at the Rusk prison? Gov. Campbell told this writer that the report was not true, that he (the Governor) was a stockholder in said bank, and that he would not allow such a thing to go on, saying that the Financial Agent did not keep the money three days; that it was paid out for railroad iron, for an engine and for groceries. If the Governor was correct in this statement it is nothing but justice to the former financial agent that said report be corrected, for it is muchly believed around this section.

The people of Texas are not vengeful, but the move just started to raise a popular subscription to be used in employing special counsel for the defense of Sergeant Manley, who cruelly murdered Deputy County Clerk Louis Reichenstein of Dallas county, at the State Fair on Taft day, will hardly receive much response from them. While the appeal is being directed more especially to the members of the National Guard of the state, it will, nevertheless, be almost unanimously ignored, for the reasons that the boys who belong to the militia of Texas have been taught the great fundamental democratic idea of local self-government, and the supremacy of the civil to the military authority, and they do not believe that there was any just cause for the assassination of Reichenstein. The whole affair is of course lamentable, but the effort to turn the militia of Texas against the punishment of Manley will only make bad matters worse.

The Nacogdoches Sentinel finds food for thought and remarks to the extent of a col-

umn and a half in the subject of "Texas Politics." There is plenty more that could be said—but Texas is too hopelessly democratic; too much bound to her political machine, for it to do more than ruffle a few feathers just now. —Port Arthur News.

Is it going to find out whether or not the iron industry lost \$144,000 during the first eight months of its operation under the present administration, as was reported by the former Financial Agent?

Is it going to find out why the ore bed railroad was torn up from the furnace to the ore beds on the mountain, a distance of three miles?

Is it going to find out whether or not the blast furnace was making one hundred tons of pig iron per day when the present administration took hold of it, and after a lapse of two years it has taken more than \$50,000 to put it in a condition to bring the same results?

Is it going to find out whether or not the State railroad is indebted to the iron industry to the amount of more than \$100,000? In this connection is it going to find out for what purpose the said road was built? If it finds that it was built as a resource to the iron industry then will it please find out why it was taken away from said industry and given to Huntsville?

Is it going to find out why the Rusk prison has been converted from a busy, money-making institution with 800 convicts, down to a bat den with only sixty invalid prisoners?

Is it going to find out why the furniture factory was torn down and moved to Huntsville and stored, when said furniture factory cost more than \$100,000, and was a paying investment?

Is a continuation of the present policy to be pursued, that one administration can spend \$100,000 of the people's money to establish an industry, and the next administration tear it down?

Is it going to find out who is responsible for and why such conditions exist. And when it makes these findings what is the Governor going to do about it? The people would like to know.

PERSISTENT rumors and allegations to the effect that Attorney-General Davidson will be in the race for governor of Texas next year are appearing in the papers daily just now, and the matter is causing so-called politicians to sit up and take notice. That his candidacy will greatly complicate the gubernatorial contest is recognized by all; but no one seems to know just what its import would be—whether it would militate against the Pro or Anti candidate. While Mr. Davidson is not a Prohibitionist, he is not an uncompromising Anti, and has many strong supporters among the most radical enemies of the "Rum Demon" in the state. If he does run for governor it will take a full count of the votes to decide who is to fill that chair after Campbell.

CENSUS COTTON REPORT.

Over One Million Bales Short of Last Year—Figures for Nacogdoches County.

The government cotton report was issued yesterday and showed that 7,012,317 bales had been ginned up to Nov. 1, against 8,191,557 bales to same date last year. This shows that the 1909 crop is so far more than a million bales short of the 1908 crop.

The figures for Nacogdoches county are 10,423 bales ginned up to the first of this month. Figures for the same date last year are not available. The total crop for last year, however, was 12,159, and the estimate for the total yield this year is 11,500. But when 500 pound bales are considered the proportionate yield for this year as compared with last will not reach this amount. While the total bales ginned in the county last year amounted to 12,159, when figured as 500 pound bales it is estimated that the yield in the county this year will hardly pass 10,000 bales.

For the past five years the yield of cotton in the county according to the government census report has been as follows: 1904, 14,665, or 14,227 500 pound bales; 1905, 5,455, or 5,182 500 pound bales; 1906, 9,895, or 9,807 500 pound bales; 1907, 5,090, or 4,859 500 pound bales; 1908, 12,159, or 14,227 500 pound bales. This makes a rather interesting comparison. It shows that the yield for 1904 was heavier than any year since, and that the turnout for last year was the best of any of the five years, and far ahead of this year.

When the price at which the staple and the seed have sold this season is considered, however, there is no doubt that the crop will bring the growers more money than any ever before raised in the county.

We are in receipt of a card from Edwin Waller, stating that he will be a candidate for Comptroller at the coming election. The wind has been blowing in Waller's direction for some time and the breeze become so stiff that he could not resist the temptation. George T. McNess returned yesterday at noon from a tobacco buying trip, including the little cities of Crockett, Palestine and Willis. He reports having purchased almost the entire crops of those places and will have the product shipped here for curing and packing. Mr. McNess went into Houston Thursday night and came back home from there yesterday.

What Would You Do?
In case of a burn or scald what would you do to relieve the pain? Such injuries are liable to occur in any family and every one should be prepared for them. Chamberlain's Salve applied on a soft cloth will relieve the pain almost instantly, and unless the injury is a severe one, will cause the parts to heal without leaving a scar. "We could hardly do without Chamberlain's Cough Remedy," says Mrs. Flora Despain of Bloyd, Ky. "I found it to be so good for the croup and have used it for years. I can heartily recommend it for coughs, colds and croup in children and grown folks, too." The above shows the implicit confidence that many mothers place in Chamberlain's Cough Remedy, a confidence based on many years' experience in the use of it. No one need hesitate to use this remedy for it contains no chloroform, opium or other narcotics and may be given to a child as confidently as to an adult. For sale by Stripling, Haselwood & Co. w

Robert Lindsey returned to Houston yesterday, having come to Nacogdoches the day previous in response to a message calling him here on business. He met a party from Southwest Texas, the visitors being interested in this section. It is quite probable they will decide to locate in Nacogdoches too, and if so it will prove a splendid thing. There are five families interested.

OWES HER LIFE TO

Lydia E. Pinkham's Vegetable Compound

Vienna, W. Va. — "I feel that I owe the last ten years of my life to Lydia E. Pinkham's Vegetable Compound. Eleven years ago I was a walking shadow. I had been under the doctor's care but got no relief. My husband persuaded me to try Lydia E. Pinkham's Vegetable Compound and it worked like a charm. It relieved all my pains and misery. I advise all suffering women to take Lydia E. Pinkham's Vegetable Compound." — Mrs. EMMA WHEATON, Vienna, W. Va.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs, and to-day holds the record for the largest number of actual cures of female diseases of any similar medicine in the country, and thousands of voluntary testimonials are on file in the Pinkham laboratory at Lynn, Mass., from women who have been cured from almost every form of female complaints, inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, indigestion and nervous prostration. Every such suffering woman owes it to herself to give Lydia E. Pinkham's Vegetable Compound a trial. If you would like special advice about your case write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.

DESPERADOES DECAMPED.

The Huntington Gang of Robbers Clears for Parts Unknown Before Officers Get Them.

Sheriff Spradley returned this morning from the Huntington section where he went the first of the week to assist in capturing a gang of robbers and highwaymen that were terrorizing that vicinity. He says that the band, if such existed, decamped before he got there, and though he and his posse thoroughly scoured all that country no trace of them could be found. Who they were or from where they came is as much a mystery as ever. They were well dressed and each of them sported more or less jewelry.

The only crimes committed by them was the hold up of Mezler, mention of which has already been made in this paper, and the robbery of the store at the stove mill. One of the band in some manner secured a key to this building and among other things took from it a sum of money aggregating \$14. The population of this stove camp are foreigners who cannot speak English, and this rendered securing information about the robbers and their depredations rather difficult. These people were so badly frightened by the depredations of the gang that they moved out almost in a body from their camps.

It is not now believed that Gardenhire is with this gang.

ADJOURNS TILL DECEMBER.

Commissioners Could Not Complete Their Work and Agree to Meet Again in Three Weeks—McMillin Re-Appointed.

The county commissioners, after a session of just one week, adjourned this morning to meet again Monday, December 6th, the first Monday in the month. This week has been an exceptionally busy one with the court and while a deal of business has been transacted, the volume to be handled yet is rather large. Work was begun this morning on revising the road matters, that overseers can be appointed at the adjourned meeting, but only a few of the reports were considered on account of the limited time. Among the business attended to during the week was "new road petitions," many of which were received and filed for consideration at a future date, W. E. McMillin, present county road superintendent, was re-appointed to the position for the ensuing year. He has proven a splendid fellow in the place and is intimately acquainted with road conditions in the county. A committee was appointed to inspect and figure on a site for the district clerks office, the report to be made to the court at the meeting in December.

November 29th, to December 4th, will be Majestic week. Something of interest. Come and bring your wife. Cason, Monk & Co.

Why Syrup Pepsin is Free

For more years probably than the age of the person reading this, Dr. W. B. Caldwell, of Monticello, Ill., has practiced medicine, and the one thing that forced itself on his mind was the urgent need of the human body for something that would scientifically regulate the digestive organs—the stomach, liver and bowels.

These years of study developed Dr. Caldwell's Syrup Pepsin, now recognized as the national safeguard of health in thousands of good American homes. For twenty years it has been giving friends, for it is today, as it always has been, the best laxative tonic for women, children and old folks, for those especially need a gentle, safe laxative tonic that is sure in results and does not gripe.

It is because the doctor has watched its good work for all these years and believes in the merit of his remedy that he offers to send a free trial bottle at his own expense to anyone who writes him. You have simply to send your name and address. On the strength of what these free trial bottles have done, and thousands have given away—Dr. Caldwell's Syrup Pepsin is today more widely used than any other American remedy for constipation, liver trouble, flatulency, biliousness, indigestion, sour stomach, dyspepsia, heartburn and similar disorders of the stomach, liver and bowels. It can be obtained of any druggist at 50 cents and \$1 a bottle, and a bottle will do you a hundred times the amount of good it costs you.

People like Mrs. M. L. Graves, 412 Oakwood Ave., Toledo, O.; G. B. Houston, Bossier, Ala.; William Redd, Goodman, Miss., once sent for a free trial bottle and now have their entire family using it as needed.

If there is anything about your ailment that you don't understand, or if you want any medical advice, write to the doctor, and he will answer you fully. There is no charge for this service. The address is Dr. W. B. Caldwell, 513 Caldwell Bldg., Monticello, Ill.

Ask Messrs. Eph Muckleroy, Tom Lee, Nat Sisco, John Muckleroy, Mrs. Batson, or Dr. Ford how they like the Reversible Disc plow. We sell them.

Disk and drag harrows, stalk cutters, disc plows, in fact every implement wanted can be had at Cason, Monk & Co. Their goods and prices are right.

Mrs. Amanda Buchanan, who has been quite sick for several days, is reported much improved today.

To all persons subject to Bilious Attacks, Sour Stomach, Indigestion, Constipation, Headache, Dizziness, Heartburn, Vertigo (blind staggers), Foul-Breath, Sallow Complexion, or other symptoms of a Torpid Liver, WE SAY

TAKE

HERBINE

It is the Surest, the Safest, the most Speedy and Complete Liver Tonic and Regulator in the Whole Field of Medicine.

It is a marvelous remedy. Its invigorating effects on a Torpid Liver is little less than miraculous. It acts instantly. The first dose brings improvement, a few days use cures the most obstinate case. Tired, weak, despondent victims of a Torpid Liver are restored almost in a day.

A BRILLIANT RECORD IN MALARIA It cures Malaria, Chills and Ague by destroying the disease germs in the system and driving them out of the body. Where Malaria is prevalent it is a faithful guardian of the health. It puts the Stomach, Liver and Bowels in such fine condition that the malarial germ cannot exist.

Every home should have a bottle of this great Liver Tonic and Regulator. It stands for health of the whole family. The chill season is here and all those who are Constipated, who have a Torpid Liver or Digestive Disorders, will surely have trouble with that arch enemy of the race. **BE PREPARED!!** Get in condition at once by taking HERBINE and you can defy the disease.

SOUVENIR

Set of Majestic Ware **FREE**

If you will call at our store during Majestic Demonstration Week and allow us to show you the many advantages and superior qualities of the Great and Grand Majestic Range, and will purchase one at the regular price, we will give you Free the beautiful and useful Souvenir Set of Ware illustrated in this advertisement. This ware is made to match the quality of the Majestic Ranges, and we know all ladies will see the beauty and utility of this set, especially the first three pieces, which are entirely new and cannot be had alone by purchase except at a very high price. The prices of Majestic Ranges are the same, but we give the set Free with each Majestic Range bought during demonstration week only.

REASONS WHY YOU SHOULD BUY THE GREAT MAJESTIC

- 1st. It has the reputation of being the best range money can buy.
- 2nd. It not only has the reputation, but is the best range made, and we will prove this to you if you will let us.
- 3rd. It is constructed of Malleable Iron (material you can't beat) and of Charcoal Iron (material that resists rust 300% greater than steel), is riveted together air-tight. No heat escapes or cold air enters range, thus uses very little fuel to do perfect work.
- 4th. The reservoir alone is worth the price of the range over any other reservoir made. It boils 15 gallons of water; is heated like a tea kettle, with pocket against left-hand lining, and is removable, and sets on a frame, hence cannot wear out. When water gets too hot it can be moved away from fire.

MAJESTIC RANGES use less fuel; heat more water---and heat it hotter; cost practically nothing for repairs; last three times as long; bake better; easier to keep clean and give better satisfaction than any other rang on the market. If you knew positively that the above statements were true, wouldn't you buy a Majestic AT ONCE? COME IN DURING DEMONSTRATION WEEK AND WE WILL PROVE IT TO YOU.

NACOGDOCHES, TEXAS

Stock Law Election for Spring Hill School District.

Whereas, a petition, signed by the requisite number of freeholders, was presented to the commissioners court of Nacogdoches county, Texas, at its regular November term, 1909, praying for an election to be held in the Spring Hill common school district, No. 81, in Nacogdoches county Texas, the boundaries of which district are fully set out on page 117, Book H, of the minutes of the Commissioners Court of Nacogdoches county, for a full description of which territory reference to said Book and page is hereby made, and whereas, the said Commissioners Court of said county and state duly granted said petition as prayed for. Now, therefore, I, F. P. Marshall, in my official capacity as county judge, do hereby order an election to be held at Spring Hill school house, in said school district in said county and state, on Monday December 20, 1909, to deter-

mine whether or not hogs, sheep and goats shall be permitted to run at large within the boundaries of said Spring Hill school district.

All persons qualified to vote under the constitution and laws of this state and who are freeholders resident within said territory are entitled to vote in said election.

W. H. Green is hereby appointed to hold said election, with authority to select such assistants as the law directs.

Within ten days after said election due returns thereof shall be made to the county judge of Nacogdoches county, Texas.

In testimony hereof, witness my official signature at Nacogdoches, Texas, this November 15, 1909.

F. P. Marshall,
County Judge of Nacogdoches county, Texas.

Stock Law Election for Linn Flat and Trawick School Districts.

Whereas there was presented to the Commissioners Court of Nacogdoches county,

Texas, at the regular November term, 1909, a petition signed by the requisite number of freeholders of the Linn Flat common school district and of the Trawick common school district, praying for an election in said districts to determine by a majority vote of the legally qualified voters to be cast at said election whether or not hogs, sheep and goats shall be permitted to run at large within the boundaries of said school districts, and whereas the Commissioners Court of said county and state duly granted the petition. Now, therefore, I, F. P. Marshall, in my official capacity as county judge of Nacogdoches county, Texas, do hereby order that an election be held at Linn Flat, within said common school districts in Nacogdoches county, Texas, on Monday December 20, 1909, for the purpose of determining whether or not hogs, sheep, and goats shall be permitted to run at large within the boundaries

of the said Linn Flat common school district and the Trawick common school district, which boundaries are fully described in Book H, pages 122 and 442 minutes of Commissioners Court of Nacogdoches county, Texas, to which reference is hereby made for full description.

All persons qualified to vote under the constitution and laws of this state and who are also resident freeholders within said school districts are entitled to vote in said election.

H. M. Weatherly and D. E. Paine are hereby appointed to hold said election, with authority to select such assistants as the law directs.

Within ten days after said election due returns thereof shall be made to the county judge of Nacogdoches county, Texas.

In testimony hereof, witness my official signature at Nacogdoches, Texas, this 15th day of November, 1909.

F. P. Marshall,

County Judge of Nacogdoches county, Texas.

Woden Stock Law Election.

Whereas, a petition, signed by the requisite number of qualified voters, was presented to the commissioners court of Nacogdoches county, Texas, at the regular November term, 1909, praying for a stock law election for the Woden voting precinct in Nacogdoches county, Texas, to determine whether or not hogs, sheep and goats shall be permitted to run at large within the said Woden voting precinct, the boundaries of which are fully described in Book H, pages 252 and 253, minutes of the Commissioners court of Nacogdoches county, Texas, reference being hereby made for said description of territory, and whereas the Commissioners court of said county and state duly granted said petition as prayed for, now, therefore, I, F. P. Marshall, acting in my official capacity as county judge of Nacogdoches county, Texas, do

hereby order that an election be held at Woden in said voting precinct in Nacogdoches county, Texas, on Monday December 20, 1909, to determine whether hogs, sheep and goats shall be permitted to run at large within the boundaries of said Woden precinct.

All persons qualified to vote under the constitution and laws of this state and who are resident freeholders within said territory are entitled to vote in said election.

R. J. King is hereby appointed to hold said election, with authority to select such assistants as the law directs.

Within ten days after said election due returns thereof shall be made to the county judge of Nacogdoches county, Texas.

In testimony hereof, witness my official signature at Nacogdoches, Texas, this November 15, 1909.

F. P. Marshall,
County Judge of Nacogdoches County, Texas.

It is stated that the road near Melrose is being surveyed and ditch lines run that the force of road hands may get busy. They will not get to that portion of the county for some time however, as they go to the Tuetsch place next week to complete the sand hill work. All property owners along the Melrose road are requested to look into the matter there and assist in every way possible in straightening it out.

Rest and Sleep.

Few escape those miseries of winter—a bad cold, a distressing cough. Many remedies are recommended, but the one quickest and best of all is Simmon's Cough Syrup. Soothing and healing to the lungs and bronchial passages, it stops the cough at once and gives you welcome rest and peaceful sleep.

Mrs. Sadie Harris from the Jamesville school, near Melrose, was a visitor in Nacogdoches today.

A Hair's Breath's Escape.

Do you know that every time you have a cough or cold and let it run on thing it will just cure itself you are inviting pneumonia, consumption or some other pulmonary trouble? Don't risk it. Put your lungs back in perfect health and stop that cough with Ballard's Horehound Syrup. Sold by Mast Bros. & Smith. Price 25c, 50c and \$1.00 per bottle.

Don't Do It.

Should you have a cough, cold or sore chest, do not rely on time and nature to cure. They may do so—they may not. Use Simmon's Cough Syrup. It is a balm for sore lungs and will cure you at once.

Arthur Marshall left today for a several days visit to San Antonio.

FOR Indigestion AND Dyspepsia USE Kodol

When your stomach cannot properly digest food, of itself, it needs a little assistance—and this assistance is readily supplied by Kodol. Kodol soothes the stomach, by temporarily digesting all of the food in the stomach, so that the stomach may rest and recuperate.

Our Guarantee. Get a dollar bottle of Kodol. If you are not benefited—the druggist will at once return your money. Don't hesitate; any druggist will sell you Kodol on these terms. ALMOST A MILLION.

The Nacogdoches County Cotton Crop Brings a Large Sum of Money.

As the present cotton season, which has been one of the most unusual in the history of the growth of the plant in this country, begins to draw to a close so far as the grower is concerned, it is interesting to cast up the net results to the Nacogdoches county raisers and people. While the crop is by no means as large as this county ordinarily produces, it will doubtless bring more money to the county than any other crop ever before grown here.

Conservative estimates place the yield at 11,500 bales. Counting the extraordinary high price at which both seed and lint have sold, and which is more than likely to be maintained until all the crop has been disposed of, and leaving out the seed that will be held by the growers for their own use, it is within the bounds of conservatism to figure that these 11,500 bales will average \$70, or a total for the entire 1908 crop of \$805,000. This means almost \$30 per capita for every man, woman and child in the county from the cotton crop alone. It has done more to put the people of the county on "easy street"—if there be any such street—for people who live by toil—than any other thing that has ever happened. It also serves to prove the contention that high prices for farm products benefits more people than high prices for any other of the world's commodities.

In years past the county produced crops almost twice as large as this one that did not bring the growers one-half as much money as this crop will bring them, though the expense of gathering and handling the larger crop was of course much greater.

With this great amount of money brought to the people by high prices for cotton and cotton seed they can pay the unprecedented high prices for their supplies and yet have more cash left in their pockets than ever before. This means that there will be more homes built in Nacogdoches county next year and other improvements made than for many long years. In fact the general financial conditions of the county are as good if not better than ever before in its history. But think—what a different picture five, six, seven or even eight cent cotton and \$10 or \$12 seed would have painted for the county.

Now is the time to use stalk cutters and Disc plows. We have the Avery 7 kinte cutter and the Avery two horse Disc plow. It is reversible. Cason Monk & Co.

Jack Banks, trustee of the Red Oak school, was in the city today looking after some business in connection with things in that district. Red Oak has recently voted a maintenance tax of twenty-five cents per hundred dollars and proposes to extend their school term several months. The people are also discussing the proposition of voting a bond issue to put up a new building and to purchase seats etc.

A PHYSICIAN'S DIAGNOSIS OF KIDNEY TROUBLE.

A Seemingly Common Disease which Becomes Fatal through Neglect and which May Be Readily Cured by Prompt Attention.

More than two-thirds of the annual death rate, physicians claim, is directly traceable to kidney disorders.

Interested by this remarkable assertion and desiring to acquire a better understanding of the origin of the disease, a prominent physician was recently interviewed as to the symptoms of such troubles.

"To what do you attribute the great destructiveness of kidney disease?" was asked.

"The hold which the disease gains in the body before the victim becomes aware of his true condition, and the rapidity with which it eats its way into the vital organs."

"Would not the proverbial 'ounce of prevention' check the progress of the disease?"

"There is no doubt of it. The trouble is that victims of this disease mistake the symptoms for some trifling ailment in the stomach or bowels; therefore they do nothing to arrest the course of the disease until it is well advanced."

"What is the origin of kidney trouble?"

"Almost invariably bad digestion, followed by torpid liver and a constipated habit."

"What are the symptoms?"

"Headache, dizzy spells, sluggish brain, restless nights, pale or sallow skin, bad breath, lack of appetite, heartburn, sour belching, backache or tenderness over the kidneys, nervous weakness, dark rings around the eyes, tired feeling, too much or too little urine, and sediment in urine."

ITS EFFECT ON THE HEART.

"In what way is the heart affected from kidney trouble?"

"In all cases the heart is disturbed, though in many instances the palpitation does not become alarming until the disease has advanced to a serious point. A severe heart throbbing and nervous trembling is noticeable, especially after a little bodily exercise; the victim frequently imagines he has heart disease."

HOW TO CURE IT.

"What is the proper course of treatment for kidney disease?"

"First, to get rid of uric acid and other poisons in the system. This can be done by stimulating the bladder and bowels so that they will act more freely. The suffering kidneys must be strengthened, the liver and stomach toned up and the digestion improved."

Prickly Ash Bitters is a remedy that answers these requirements completely. It is not only a system tonic and regulator, but its healing and restorative influence will build up the weakened kidneys and urge them to a better performance of their duties. It gives strength and tone to the liver, stomach and heart and promotes harmony of action throughout the body.

M. W. Burr, village blacksmith and respected citizen of Starks, La., says: "I was troubled with kidney and liver disorder for 18 years. I was in continual misery until I began taking Prickly Ash Bitters which has entirely cured me, and I am now a strong, healthy and hearty man. I give it to my wife and four children and they are in the best of health, too. I feel that Prickly Ash Bitters is the best remedy on earth and that everybody should keep a bottle at home."

LISTEN!

We want to make our sales for the next six weeks the largest in the history of our business. In order to do this we are willing to cut down our profits. We have the largest and most complete stock of goods that we have ever carried. We are not going to offer you 25 pounds of sugar for a dollar, nor 12 pounds of soda for 25c and then "do you" on something that you are not so familiar with, to make make double as much as we lose on the sugar and soda. Beware of the man who offers you some staple article for less than he can buy it for. In such cases there is a bug under the chip, and some time the bug will bite you real hard.

Lamps

We have a big lot of Lamps. Some to suit everybody and their pocket books. Prices range from 15c to \$3.00

Tin and Granite Ware

We carry a full and complete line of Tin and Granite Ware. No fancy prices charged either.

Crockery

Our plain and decorated Crockery you will say is the cheapest in price you have ever seen.

SHOES! SHOES! SHOES!

To appreciate how cheap we will sell you a good pair of shoes, you must come in and let us show you.

One article in this line we must mention before we leave it, as it is very special. We have a few dozen pair of sportsmen's boots or booties that are usually sold for \$3.00 a pair. Some people get \$3.50 for them. While they last we are going to sell them for **\$2.25** We have cut one of these shoes open so that you can see every piece of leather that is in the shoe. Nothing hid from you. This is not the only special bargain in this line, and when you want a shoe of any description, you will find our goods and prices just right.

We might sit and talk to you all day and then forget to tell you of all that we have to offer you. People often remark that they believe we have more different kinds of things in our store than they have ever seen in one store in all their lives, and they are about right, too.

If you want anything, drop in and ask us about it, and if it's a steam engine or a lady's hat—that costs just about as much—we will tell you that we do not carry these lines, but will call your attention to hundreds of other things that we can sell you cheap.

Our 5c and 10c Counters

We have on our 5c and 10c counters about three thousand useful and ornamental articles, out of which you can find something for every room in the house, from the kitchen to the parlor.

Dolls

We have a beautiful line of Dolls from 5c to \$1.00

Christmas Goods

We have a line of articles suitable for Christmas presents, that you can get a fit for every member of the family, from the smallest tot to grandpa and grandpa.

We are still giving premium tickets that are good for valuable and useful articles. Any of our old tickets are good for presents, so don't throw them away but bring them in. That's all.

HALTOM & HALTOM, PROPRIETORS.
GILES M. HALTOM, MANAGER.

SEVERAL new buildings are said to be in the "incubator" and if the plans talked pan out alright, considerable additional structures will be erected in Nacogdoches in the near future. Among those spoken of are residences though business houses are also included.

Good roads are getting to be the habit in every section of Texas these days, and even the larger cities and more densely populated counties are showing more interest in those matters. The latest is in Tarrant and Dallas counties, where special demonstration roads will be constructed under Federal supervision. These two counties already have among the best highways in Texas, but know the value of such and want more.

THE penitentiary investigation committee has been, and is still, uncovering things of a nature calculated to make the people of this state blush with shame. There is another side of course, and it may be that the stories have been overdrawn greatly, but even if they have, the result is the same. Texans know that the farms and prisons are not conducted as they should be, and the candidates who are parading the big commonwealth expounding wisdom by the barrel, ought to get closer to the people and advocate things that really concern. The man

with a poll tax receipt is the man with the power, and a change of state government and its various departments cannot come too early.

POLITICS are being discussed pretty much these days, and the stirrings of the candidates are being closely watched by the people. The pot is merely simmering now, but after the holidays have passed and things become settled, the fire will be replenished and the old familiar sounds will again be heard. Politics in Texas promise to be warm.

R. V. DAVIDSON has set political Texas agog by his announcement for the high position of Governor of the great state. Many folks had eliminated the idea of his running and were endeavoring to choose between Colquitt and Johnson, but the thunderbolt from the Attorney General's office has no doubt caused a change of heart in many a man's bosom. The prediction that Texas will have politics in all its phases was not amiss.

THE word comes from Washington that Nacogdoches will henceforth be headquarters for the tobacco industry in Texas. This has long been expected, and of course has always been the logical point for such, but for some reason Nacogdoches has not been the possessor of her own. The farmers and others of this section may justly be proud of the distinction, and will do well to get in closer touch with the station to be established here. It will profit much.

THE CHIRENO-LUFKIN RAILROAD

Meeting of Representatives From two Towns at Track-End is Enthusiastic and Results in Proposition—Material for Bridge.

According to press dispatches and the talk of people at the end of the proposed line in this county, Chireno will have a railroad within another twelve months. This proposition has been discussed for some weeks and several meetings have been held in reference to such, but no definite action was decided, until recently when a gathering took place at the track-end on the Angelina river. An account of the meeting is here given, taken from the state dailies and sent in from Lutkin. The meeting referred to was held last Thursday. The account is:

Meeting at the present track's end on the banks of the Angelina River, about six miles from Chireno, the committees from this town and Chireno met yesterday for a long and final discussion of the Lutkin-Chireno Railroad proposition. Enthusiasm was the order of the day, and it did not take long for the men who composed the committees to decide upon the offer which they should make to the Angelina County Lumber Company, present owners of the road. What this proposition was has not yet been made public, but it is thought that within the next two or three days it will either be accepted

or a counter one made. The track, as stated, is already finished to the river, and the materials for the \$15,000 bridge are already on the ground for carrying the road into Nacogdoches county as soon as final settlement has been made and the right of way secured. R. H. Fall, T. J. Carl, W. H. Gray, B. F. Moore, H. V. Fall, Dr. Ellis Mast and E. M. Weeks were the Chireno men present, and D. A. Singleton, C. L. Shless and W. M. Glenn, with J. S. Moore, the contractor, were the representatives of Lutkin. All these men are of the opinion that the road will be in operation by this time next fall.

Agricultural Year Book.

Beaumont, Tex., Oct. 15, '09.
My Dear Sir:

There has been placed to my credit a large number of Agricultural Yearbooks of 1908 for distribution among the people of this district. The Yearbook is probably the most valuable work on the subject of agriculture obtainable, and I am anxious to send it to those who will appreciate it. Hence I take this method of notifying all the people that as long as the supply lasts the book can be had by dropping me a postal card or writing me a letter. The Yearbook of 1908 has just been published and is a neat, well bound, handsomely illustrated volume, which not only contains a world of useful information for the farming class, but will be a valuable

addition to the library of all classes.

I also have left a few volumes of a valuable work on the diseases of cattle which will be sent you on application while the supply lasts. I have small numbers of a great variety of books on different subjects, all of which are for distribution.

I am encouraged to send out this circular letter by the results obtained from my former letter with regard to Farmer's Bulletins. In response to that letter I mailed out to the people of the district nearly ten thousand of the Farmer's Bulletins, and while this method of notifying the people incurs my expenses and adds to my labor, I am amply repaid with the knowledge that it gives everybody an equal chance to get what they want in the way of free publications.

And in this connection you can do me a favor. My mailing lists are taken from the poll tax lists of 1908, and are therefore incomplete. It has also been impossible for me to secure the names of citizens over 60 years of age, whose names for that reason do not appear on the poll tax lists. I will thank you to send me the name of any worthy citizen of your community, who will receive one of these circulars, in order that I may place his name on my mailing list.

Very truly yours,
Martin Dies.

Campbell-Skeeters.

Mr. Oliver Skeeters of Appleby, and Miss Alma Campbell, were married at the home of the bride's parents, Mr. and Mrs. D. L. Campbell, near Appleby Sunday night at eight o'clock, Rev. J. W. Mills of this city officiating. The home was prettily decorated, a large arch occupying a prominent corner of the parlor and beneath which stood the young couple. The maids were Misses Emily Brooks and May Melton, and grooms Messrs. Ed Graves and Oliver C. Faulkner. Mr. Skeeters is one of the most prominent young business men of Appleby and is associated with his father, W. T. Skeeters, in business there. The bride is a very prominent young lady of that vicinity, popular among both the young people and the older ones, and has a host of friends there and abroad. An elegant supper was served the wedding party after the nuptials. Mr. and Mrs. Skeeters will reside in Appleby.

If We Could See You Face to Face.

If we could see you face to face, we could prove to you beyond the shadow of a doubt the advantages of the famous Bryne Practical Bookkeeping, Business Training, and Simplified Shorthand, also our practical course of Telegraphy and Railroad work; we could show you clearly how it is that we can turn out a better stenographer or bookkeeper and do it in three months less time than when we used to teach the systems that are now being used in other schools. This saying of three months time means much to the prospective student; at a conservative salary of \$50 per month, the three months time would amount to \$150, three months board at \$12 would amount to \$36, or a total of saving of \$180, to say nothing of the fact that the student of our school gets three months practical experience, while the

student of the other school is just finishing his course and has no experience. We own and occupy two large buildings, containing more floor space than is used by any other commercial school in the world. We employ 20 of the very best teachers. We have \$19,000 invested in furniture and equipment. We have thousands of graduates holding the very best positions to be found in larger cities. We have more calls for our graduates of bookkeeping and shorthand and telegraphy than we are able to supply. You may enter with us at any time; our work is practically all individual instruction. Thorough preparatory work in English branches is given free with all our courses. Write for catalogue; make your arrangements to enter at once, so that we may soon have the pleasure of placing you in a good position. Address Tyler Commercial College, Tyler, Texas.

Letter From Prof. Harris.
Dear parents and fellow teachers.
Through the course of this life we experience many and varied battles, but there is one of which I desire to speak,—that with young and tender boys and girls. I am of the opinion that we would be more successful in the sacred work of leading the dear children if our hearts were filled with more love for the work. I have been teaching a number of years and am sincerely sorry that I haven't more checks to cash at The Bank of Laurels. Methinks I can hear the laughter and patter of feet of hundreds of innocent children following in the wake of my life. Then the question comes to me: Am I a worthy captain of the band? God help me to be worthy. That I may not fall by the way and thereby leave doubt and the life of a traitor indelibly impressed upon young minds. Thought may be mistaken.

I'm not prejudiced, but again I am of the opinion that many parents are not interested as they should be in the school house. I'm sure you say you are, but you deny it by your actions,—not visiting the schools of your respective communities; consenting for your dear children to sit in an uncomfortable room and contract diseases which will make wrecks of them and fill miserable graves, for instance. Again, I am of the opinion that many parents and teachers need the spanking instead of the children. Parents, is love reigning in your homes? It pays a divine dividend. Teachers, are we making each day at school a little life worth living? Are the children's daily visits to the school pleasant and interesting to them? Is the moral atmosphere about our own lives pure and innocent food for the precious ones entrusted in our care? If such be the case the divine seal of heaven is

stamped upon our work and happy will be our reward. I believe in many instances that the weakness of parents and teachers is unworthily charged to innocent childhood. The character of homes is carried abroad upon the faces of children, and the character of schools is handed down from generation to generation by men and women. A. L. Harris.
The many friends of Mrs. W. R. Walker, who has been in the sanitarium for some time, will be pleased to learn that she has been removed to the residence of her parents on East Main street, and is doing nicely.
J. A. Clifton, the man arrested Saturday in the eastern part of the county, on a charge of horse theft committed in Brenham, was carried to Lufkin by Constable Matthews and placed in jail there.

County Court Busy.
Several cases have been disposed of in the county court since it convened yesterday morning and the signs point to a much earlier clearance of the civil docket than at first thought. A number of cases were continued this morning, for various reasons, and two verdicts were rendered through the day. Gen. Childress, a negro, and one of the alleged noted bootleggers of this section, plead guilty this morning to selling whiskey and was given twenty days in jail and a thirty five dollar fine, W. E. McMillin carried him to the farm at once, and he will help build roads in Nacogdoches for the next few months.
Hunters Take Notice.
All hunting on my premises is absolutely prohibited and any one trespassing will be prosecuted.

S.S.S. CURES OLD SORES

Every old sore is an infected spot on the flesh, kept open by constant drainage of impure blood into the place. One of the principal constituents of blood is plasma, a healing property. Where the circulation is pure this element of the blood, which is of a glutinous or sticky nature, performs the necessary work in healing all sores, wounds and lacerations. It does this by sticking or joining the parts together, while nature causes a knitting of the tissues and solidifies the place.

This healing property is frequently destroyed by impure accumulations in the blood, and this vital fluid not only loses its power to heal, but becomes a source of irritation and disease to any open sore or ulcer on the body. Constantly it discharges its morbid matters into the place, and gradually it causes the infection to spread, and the sore enlarges. The morbid matter in the blood comes from different causes. A long spell of debilitating sickness, which breeds from the refuse matters of the body because of a sluggish condition of the eliminative members, a continued malarial state of the system, inherited bad blood, etc., are usually responsible.

CURED OF EATING SORE
Dear Sirs:—I was suffering greatly from a sore on my left breast, which had begun to eat, and at times deep, shooting pains would pass through it, and the ulcer was discharging yellow and rather offensive matter. I consulted physicians, but their treatment did not benefit me very much. My condition seemed hopeless, and I had almost despaired of getting well. I knew that the disease was hereditary in my case, as my only sister, my mother and two of her sisters had died of cancer of the breast. After I had finished the first bottle of S.S.S. I felt some better, so continued it until I was cured.
Wm. JAMES CASSELL,
Benton, Mo.

S.S.S. does not simply cause a scab to come over an old sore, but beginning at the bottom it heals the place permanently by building new tissue and filling in the place with firm, healthy flesh. Special book on Sores and Ulcers and any medical advice free. **THE SWIFT SPECIFIC CO., ATLANTA, GA.**

Broken Promises

"Yes, I would like one of your pictures ever so much."—"I haven't any of myself at present to exchange but expect to have some taken soon, and then I'll remember you."

Now be honest. To how many people have you told this old, old story? And how long ago were some of those promises made?

Count them up carefully, then come in and get enough pictures to "square" yourself.

After keeping your friends waiting so long it might be advisable to get something extra good.

We have it.

Candidate For the Legislature.

Editor Lee Carter of the Cushing Enterprise was in the city yesterday on his way to Houston, and while here informed the Sentinel and a lot of his local friends that he had fully decided to enter the race for the legislature from this county, and would soon make formal announcement of his candidacy. He says he has received solicitations from citizens of different sections of the county, and feels that he is fully justified in making the race. Mr. Carter is a fine young man and stands at the top notch among the citizens of his home town and those who know him in other parts of the county.

INVESTIGATIONS are developing the fact that notwithstanding the attempt to make it appear that the South was the home of the "hook worm" there are more in the northern than in the southern states. It is strange how a certain element are eternally trying to make it appear that the South is the only portion of this country that needs regulation and special donations and care to save it from diseases and the short-comings of man.

THE latest thing in state politics is the appointment of State Superintendent R. B. Cousins to the principalship of the new West Texas Normal at Canyon City and the appointment by Gov. Campbell of Prof. F. M. Bralley, present superintendent of the State Blind Institute to the position made vacant by the resignation of Prof. Cousins. This, it is said, makes Prof. Bralley the most formidable candidate for State Superintendent of Public Instruction, to which position he has been aspiring for some time.

Mrs. Louie Hite, 428 Out-lee St., Danville, Ill., writes, October 1st: "Foley's Kidney Pills started me on the road to health. I was treated by four doctors and took other kidney remedies but grew worse, and was unable to do my housework, and the doctor told me I only could live from two to six months. I am now so much better that I do all of my own work, and I shall be very glad to tell any one afflicted with kidney or bladder trouble the good results I received from taking Foley's Kidney Pills." A Clean Man

Outside cleanliness is less than half the battle. A man may scrub himself a dozen times a day, and still be unclean. Good health means cleanliness not only outside, but inside. It means a clean stomach, clean bowels, clean blood, a clean liver, and new, clean, healthy tissues. The man who is clean in this way will look it and act it. He will work with energy and think clean, clear, healthy thoughts.

Dr. Pierce's Golden Medical Discovery

prevents these diseases. It makes a man's insides clean and healthy. It cleans the digestive organs, makes pure, clean blood, and clean, healthy flesh.

It restores tone to the nervous system, and cures nervous exhaustion and prostration. It contains no alcohol or habit-forming drugs. Constipation is the most unclean uncleanliness. Dr. Pierce's Pleasant Pellets cure it. They never gripe. Easy to take as candy.

ALL opposition to the new movement for a great system of good roads in Nacogdoches county is melting away as melts the thin coating of snow before the summer's sun. And all opposition that is not thus disappearing will be passed over as the steam roller rolls unresistingly over the poor unfortunate caterpillar.

Attention, Ex-Confederates.

The Southeast Texas Fair will be held at Beaumont on the 26, 27 and 28 of this month. A general invitation has been extended by the management to all veterans of the Confederate army. Badges will be issued which will admit all old soldiers to every part of the fair free of charge. These badges can be obtained by applying to the Confederate headquarters at the fair. The 26th has been set aside as Confederate Day. Railroads will give reduced rates. The Daughters of the Confederacy will give a banquet to the old soldiers on that date. On the same day there will be an informal mass meeting held for the purpose of discussing measures pertaining to the general good of the old soldiers; for the benefit of the Soldiers Home and to insist upon the full payment of veterans' pensions, instead of as now—about one-half. It has also been suggested that a better and more efficient organization of the First Brigade be had, and arrangements perfected for an annual reunion of the brigade to be held hereafter in one of the counties composing the brigade. Camp Raguet of this county belongs to the First Brigade. Any member can present whatever he desires at the Beaumont meeting and take part in all of the discussions that may come up. Any member of Camp Raguet desiring to go can get a certificate of membership from John P. Hartman, the adjutant.

It is hoped that a greater interest will be aroused in the organization, and that patri-

otic feeling manifested that will perfect a perpetual memory of the heroes and the cause which they contended in that memorable struggle, to the end that a true history may be written for our descendants and all future generations said history untarnished by politics, unfriendliness, malice, hatred or prejudice.

Dr. Davis Locates Here.

Nacogdoches lays claim to another citizen and business man, Dr. E. W. Davis, of Saginaw, Michigan, the gentleman having already established an office in the city. Dr. Davis has been a practicing physician for thirty years, spending almost all of that time in the city from which he comes here, and has a reputation that bespeaks success in every phase. One of the business men of this city this morning received a couple of letters from the gentleman's old home, and which pay tribute to the eminent practitioner, expressing regret that he has chosen to leave that place but congratulating the people of this city on getting him as a co-worker and resident. F. Bruce Smith, editor of the Saginawian, member of the Board of Managers for the State Institute for the Blind, and a very prominent business man, writes that Dr. Davis has been there for more than a quarter of a century and has been for all that time one of the most widely known and successful physicians in that section of the state. William L. Dickinson, a practicing physician of Saginaw, also writes a very commendatory letter, and speaks of Dr. Davis as one of the very best physicians in that section. For many years he was medical advisor to Arron T. Bliss, ex-Governor of Michigan, and the family of the deceased regard him as an exception in the profession. He has taken several special courses, including one in London, England, and for the past few years has been doing only office practice and special work concerning the treatment of the eyes. Dr. Davis has established an office at Mrs. Jones on East Main street, down stairs, and will be glad to have the people who desire treatment, call and advise with him. He is well qualified, comes highly recommended as a practitioner and specialist, and as a man of sterling worth, and hopes to merit the good will of the people and a fair share of their patronage. Dr. Davis has a card in The Sentinel, and all who wish special treatment are advised to call at his office on East Main street.

We want you to call at our store during our Majestic Demonstration Week, November 29th to December 4th, and get a souvenir set of Majestic ware.

CHARGE OF HORSE THEFT.

J. A. Clifton, After Chase of Two Days, Finally Captured in Angelina Bottom and Landed in Jail Here — Officers at Brenham Notified.

A man whose name is J. A. Clifton, residing in the Western part of the state and who was traveling by private conveyance, selling lightning plants, was arrested late Saturday night in the bottom near Angelina river, near the old Marion crossing, and was brought in here Sunday and landed in jail. The word had come to the officers Thursday that the man was wanted and a description was given. That afternoon his wife drove into Lutkin in their spring-wagon, and where she shipped two trunks to this city. Sheriff Watts failed to get them there, though officers searched the surrounding country, and finally officers here took up the trail. In some way the parties, man and wife, as she had picked her husband up in the woods some where out of Lutkin, found out that officers were after them and changed their course to the East instead of coming here. Deputy Jim Derrick and Constable Matthews, latter from Lutkin, took the matter in hand and Saturday went to the Southeastern part of the county in the river country. A pretty thorough search of that section was made for the man, and finally located in the bottom where he had camped for the night. He was immediately taken in tow and brought here to jail to await instructions from officers at Brenham. The man, it is said, is wanted there and at Nvasoto on charges of horse theft, though the notification card merely states "theft." Clifton talked quite freely to officers Sunday, saying that he is not wanted anywhere for theft, but maybe wanted for embezzlement. This he did not explain. Officers at Brenham were immediately notified and will likely come after Clifton at once. The man's wife was not arrested.

Arrested—Turned Loose.

At the instance of the police department of the city this morning two able-bodied men that had been begging over the town were arrested and placed in the calaboose. Later on the mayor had them discharged from custody and told them to "hike," which it is supposed they were glad to do. They should consider themselves lucky, as it is not all parties arrested here for vagrancy that get off so luckily.

SUFFERED THREE YEARS WITH CHRONIC CATARRH

Mr. Disch, of Louisville, Gives Pearly as the Credit for His Recovery, and Recommends it to His Friends.

MR. JOSEPH F. DISCH, 454 W. Jefferson St., Louisville, Ky., writes: "I take great pleasure in recommending your valuable Peruna as a catarrh remedy."

"I have been suffering for the past three years with catarrh, and had used almost everything in the market until I read of your wonderful Peruna remedy. After using two bottles of Peruna I can cheerfully recommend it to any one having the same disease."

"I was almost compelled to give up my business, until I used your remedy, and I have never been bothered with catarrh since."

Hon. C. Slomp, Congressman from Virginia, writes: "I can cheerfully say that I have used your valuable remedy, Peruna, with beneficial results, and can unhesitatingly recommend your remedy to my friends as an invigorating tonic and an effective and permanent cure for catarrh."

People who object to liquid medicines can now secure Peruna Tablets. Sold by druggists, and manufactured by The Peruna Drug Mfg. Co., Columbus, Ohio.

Mrs. Nat Sisco Writes A Good Letter.

R. F. D. No. 3,
Nacogdoches, Nov. 15, '09.
Messrs. Cason, Monk & Co.,
Nacogdoches, Texas.

Dear Sirs:—As to the Great Majestic Range, will say that I have used one about two years. I find it very roomy—tho it takes up less room than an ordinary cast stove. I also find that it takes less fuel than the cast cooking stoves for the reason that it retains its heat. The Oven is large and roomy and very convenient and the drop over doors could not be improved upon and are very convenient when putting food into the Oven. The Drop Doors on the Warming Closets are also desirable for this reason and besides are stronger when constructed in this way.

One of the greatest conveniences of the Great Majestic is the large reservoir for heating water. I can fill same in the morning and have hot water until bed time. For canning fruit the desirability of the Majestic can not be excelled as plenty of warm water is had at all times and there is plenty of room on the Range.

To make a long story short I would not be without the Great Majestic.

Mrs. N. T. Sisco.
