Commissioners Court.

The county commissioners court has been grinding away this week, looking after the business of the county, and from the orders made by the court it would appear that the new administration is going to be strictly a business administration, and the county is going to get the most for the least money that is possible.

The several commissioners have been appointed road superintendents in their respective precincts, each commissioner has been required to give a \$1000 bond and the road money of the county will be divided between the several precincts and the commissioners will have supervision over the expenditure.

The county treasurers salary has been fixed at 1 1/2 per cent each way, the total commissions not to exceed \$12,000 a year. The treasurer will also be required to register all script before it is paid and in this way keep an exact account.

The sheriff will be paid \$500 a year as a salary, and will be allowed 50 cents per day for feeding prisoners.

The county judges salary was fixed at \$1000 a year.

The old jail fixtures which it was supposed would answer for the new jail proving to be valueless, have been sold to the company who furnished the new fixtures that were bought for the upstairs part of the jail and the amount applied on the purchase of the new fixtures for the lower floor, which will be a duplicate of the up stairs furnishings. Forty days were allowed the jail people in which to have the new cages here. This will make it about the middle of March before the

cages for the lower floor will be put up.

Temporary wooden steps have been constructed in the jail for use until the new cages are put in, when the steel steps will be installed.

FOR HOW LONG?

Nacogdoches Raises a Pertinent Question.

When a neighbor tells us that he has recovered from a serious illness, the first question that naturally arises is, "How long will he keep well?" Temporary relief is one thing, but a lasting cure is altogether different. There is nothing temporary about the work of Doan's Kidney Pills as the following Nacogdoches evidence proves beyond a doubt.

Mrs. H. M. Reid, 412 S North St., Nacogdoches, Texas, says: "I suffered for several years from severe pains in the small of my back, so intense at times that I was unable to sleep or rest. I tried nearly every so-called kidney remedy but got no relief until I used Doan's Kidney Pills, procured Mast Bros. & Smith's Drug Store (now Swift Bros. & Smith's Drug Store.) They completely cured me and the cure has been permanent. I can endorse this remedy in the highest terms."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other

Card of Thanks.

The children and grandchildren of Capt. F. L. McKnight, lately deceased, wish to tender to those friends who so kindly and lovingly administered to their needs and to the necessities of their father during his last illness, their sincere thanks. Such gratuitous services rendered by loving hands and hearts make the bright places in one's life that are never forgotten and should it ever be so that we can tender to these, our loved friends who have so

kindly ministered to us, our services we shall be more than glad to do so. His bereaved wife, Mrs. Cora McKnight, heartily joins her children and grandchildren in this card of thanks and says she cannot express in words her feelings to her friends who have been so lovingly kind to her in this sad hour.

Respectfully,
His widow, children and grandchildren.

GILES M. HALTOM, Manager.

EL PASO has recently voted a \$390,000 bond issue for good roads, and the proposition carried by a vote of 10 to 1. The money will be expended in building good roads in the county.

FROM the large orders the railroads of Texas are placing for box cars, engines and other equipment, it would seem that they expect Texas to keep on growing big crops and expanding generally.

THERE are no propositions to be submitted to the people this year that have been announced so far, but it is almost a certainty that there will be before the year is over. You had better pay that poll tax so that you can have a say in the matter.

It is given out by an authority that ought to know, that the Houston, East & West Texas railroad company will expend something like \$95,000 beautifying the grounds around the depot. They will, we understand, put in culverts where they are needed, place crushed rock about the tracts, pave around the depot and in other ways fix things up in good shape. The E. W. people claim to think a good deal of Nacogdoches and are going to show it in this way—and others.

THE visit of the railroad officials to the several points on their lines, to get acquainted with the people and let the people get acquainted with them, is by no means a bad business move. We need the railroads and the railroads need us, and the more friendly terms existing the better everything will be. A railroad official is not necessarily a bad fellow, and if you get on friendly terms with him the chances are that you will like him splendidly. The visit of the railroad men to this city this week was, we believe, appreciated by the business men of the city.

The home loving mother when chided by a neighbor for allowing her husband and children to "clutter up" things about the house so much is said to have made the following beautiful reply: "The marks of little muddy feet upon the floor can be more easily removed than the stain when those feet go down into the highways of evil. The print of the little fingers upon the window panes cannot shut out the sunlight half so much as the shadow that darkens the mother's heart through coming years. And if John finds his home a refuge from care and trouble, and his greatest happiness within its four walls, he can put his boots in the rocking chair and hang his coat on the floor any day in the week. And if I can stand it and he enjoys it, I cannot see that it is anybody's business." — Tyler Courier.

Cleburne—A movement is on foot here to consolidate the Board of Trade and the Young Men's Business League.

Better Social Conditions Object of Austin Confer

GOV. O. B. COLQUITT.

Austin, Texas, January.—Under the auspices of the State Conference of Charities and Corrections, a meeting will be held in this city on Tuesday and Wednesday, January 28th and 29th, for the purpose of discussing legislation looking to the improvement of social conditions in Texas. Governor Colquitt has issued the call for the meeting, and leading social, commercial and industrial organizations throughout the State, as well as heads of State institutions, have been invited to attend or send representatives.

Among the subjects to be discussed at the meeting are State and County Institutions, Public Health and Sanitation, Welfare of Children, Industrial Welfare of Women, Labor Legislation (social aspects) and other general and miscellaneous subjects.

The object of the movement is the uplifting and betterment of social conditions of all classes in the State and especially the industrial or working class.

The Guaranty Bank is one of the first homes institution to realize the importance of a great highway between Lufkin and Nacogdoches and announces that they are ready to give \$100 toward the project. Enough public spirited men who feel this way about the proposition—and the road will be built. Think it over, and make it know what you are willing to give.—Lufkin News.

This sounds good, and we would like to hear of others from both ends of the line. If the Lufkin News editor will chip in a quater we will do likewise, and by dint a careful canvass the required amount of funds will soon be raised. Joking aside, though, the highway is going to be built, for there are too many progressive citizens in both these towns to let it go by. Now, every body, push!

The News has just learned that one of its good friends in Nacogdoches has recently happened to a very painful accident, and while the injuries are not of a permanent nature still several day will be required for the wounds to heal. The name of the unfortunate is withheld, but the nature of the accident might as well be given. He merely fell off of the "water wagon".—Lufkin News.

We are not guilty for we never climbed up. Tom Andrews wouldnt let us.

Walt Mason.

When women vote there'll be an end of trouble, vice grief and tears will all be done away; success and joy will then be trotting double, we'll drop our work and all run out and play. Ah, then, my friends, there'll be an end of sighing, in all the world there'll be no hint of woe, while overhead the pigs are dextly flying, and roosters cluck, and hens rear up and crow. When women vote the toilers and the tillers, no more will be the slaves of plutocrats; the social scheme will find them its chief pillars and cats will live in peace with mice and rats. No winter storms or cold will be permitted, our lives will then be cast in pleasant Junes; and they'll campaign who lately sat and knitted, and wives will wear their husbands' pantaloons. When women vote the crooks will leave their perches, there'll be no drink more fierce than lemonade; we'll all set forth a-building schools and churches, where late the Rum Holes cast their baleful shade.

Newspaper Errors.

The editor of an exchange doesn't want anyone to send him any more copies of his paper in which they have found mistakes. If they find a perfect copy, however, he offers a big price for it. Same with us, says the editor of the Crystal Falls (Mich.) Drill. If the tool critic who hunts for mistakes in the newspapers would find them all he would be kept busy. We will be pleased to buy copies of any paper which can be proven entirely free from errors, either typography or in statements of fact. We will be pleased to find a merchant who never made a mistake in putting up an order; a lawyer who never lost a case through his errors, a doctor who never wrongly diagnosed a case, a druggist who never made a mistake, a post office official who never put mail into the wrong box, a woman who never forgot to put in the salt while cooking or to put the tea in the teapot before putting in the water. Bring on some of your mistakeless paragons who find it so easy to criticize the papers and we'll give them the chance of their lives to find out whether they are really human.—Jacksonville Daily.

Serve A Purpose.

Palestine is a thriving little city, but we understand that she is afflicted with the Sons of Rest. That must be some thing awful, and we hope the Hamilton boys will soon rid the town of the trouble.—Jacksonville Progress.

The Herald fears the Jacksonville neighbor does not fully appreciate the Palestine Sons of Rest. It is true they toil not nor do they labor, but they are an amusing rot of cusses, and afford the workers some amusement. In short, they are the vaudeville actors of the town. And then, too, they serve as horrible examples to the busy ones, and make them more earnest in their good works.—Palestine Herald.

Sociability of Industries.

Many industries have lived next door neighbors for centuries without becoming acquainted or at best acquiring only a cursing knowledge of each other. They have often glared at each other over stone walls of misunderstanding and many times each has been stung by the indifference or blighted by the envy of the other. In such an atmosphere anarchy thrives and demagoguery reigns supreme.

Cooperation is the biggest and most vital problem which confronts the industries of Texas today and one which the Farm Life Commission is destined to solve.

Measuring Men.

The people should have correct standards by which to weigh the ability of those whom they authorize to shape their destinies and the citizenship should be able to distinguish a holy zeal in the cause of humanity from a selfish thirst for power.

The plow and hammer are a pretty good yardstick for measuring the deeds of those to whom we delegate power and the representative who cannot point to the upturned soil, a smokestack or an industrial enterprise as a part of his achievements, falls short of his high calling.

Advertise.

When Mark Twain was editor of a Missouri paper, a subscriber wrote to him saying that he had found a spider in his paper, and asking whether it was a sign of good luck or bad.

This was Twain's answer: "Finding a spider in your paper was neither good luck nor bad for you. The spider was merely looking over your paper to see which merchant is not advertising, so that he can go to hot spots, spin his web across the door and lead a life of undisturbed peace ever afterwards."—Brains.

Same Bailey of Lorimer Fame.

It was the same Bailey who from the same seat in the senate two years ago oratorically defended Lorimer and Lorimerism.

It was the same Bailey who stood as the recognized representative and ally of Aldrich on the democratic side of the chamber.

It was the same Bailey who always has been the exponent of reaction.—Chicago Tribune.

The agricultural department at Washington has issued an appeal to American farmers to go in for the cultivation of the sugar beet. There are two million short tons of sugar beets now imported annually which the department thinks should be raised at home. The average American consumes 82 pounds of sugar each year, according to the department's statement, and only ten pounds of this is produced in this country. This money should be kept at home.

"BLOOD IS THICKER THAN WATER"

Without good red blood a man has a weak heart and poor nerves. Thinness of the blood, or anemia, is common in young folks as well as old. Especially is it the case with those who work in ill ventilated factories—or those who are shut up indoors in winter time with a coal stove burning up the oxygen or emitting carbonic oxide gas. This blood, or blood which lacks the red blood corpuscles, in anemic people may have been caused by lack of good fresh air breathed into lungs, or by poor digestion or indigestion. Sometimes people suffer intense pain over the heart which is not heart disease at all, but caused by indigestion. Whatever the cause, there's just one remedy that you can turn to—knowing that it has given satisfaction for over 40 years.

Texas Has Many Varieties of Fowls.

Washington, D. C. Jan. 4.—The Thirteenth Federal Census reports which are now being compiled contain many interesting and unique features showing that many different varieties of fowls are found on the farms of Texas. The returns from the Lone Star State show that there were 786 peafowls valued at \$1,919 on 218 different farms, when the data were collected. Two other farms report 20 pheasants valued at \$130 while another farm reports 6 wild geese with a value of \$1.17 each. There is also an ostrich farm located in that state that reports 12 of the big birds with a total value of \$6,000. Three hundred and fifty seven turkeys or 85 per cent of all the turkeys of that state report poultry of various kinds numbering 13,699,645 which has a total value of \$4,806,642.

How we pity the man that is so little as to read his home paper thinking probably he will find something he does not endorse or can get mad at the editor, reporter or someone of the force about. Even the Bible is rather plain and hits some hard licks. If you were to get mad and burn up your Bible, the hundreds of presses would still go on printing them. Call the editor all sort of names, criticize every line in the paper and just the same the paper will be published. And what is more you sneak around and borrow a copy from your neighbor. It is much better to keep your vest pulled down and your subscription paid up.—Ex.

Some of our business men are certainly starting the new year right (?). They have cut out their ads to "cut down" expenses. When the parcels post gets to working and the mail order house gets the business that belongs to them, they will doubtless wish they had got on the job early and stayed late. Some people can't learn anything only in the school of experience.—Grapeland Messenger.

High School News.

It grieved the students greatly to see the basket ball boys return to school Monday wearing bandages after Saturday's contest with the Cushing team. However we were glad that they could remove them before the morning recess. Although the playing was far better than the score indicated the game was rather disappointing. But the Cushing boys are yet to meet their defeat at the hands of the N. H. S. team.

This week has been a very hard one because of the monthly examinations. Everyone is glad indeed that it is over.

During the freeze the ice-covered walks caused some severe falls. The assistance of a doctor was necessary on one occasion.

The seniors furnished an entertaining program for chapel exercises Friday morning. Two excellent piano numbers were rendered by Misses Sallie T. Summers and Chaelie Stinson. Mr. Davis gave a very appreciated talk on the third number.

The literary society was reorganized Friday afternoon. Officers were elected as follows:

- Eugene Thompson, Pres.
- Edna Munsell, V-Pres.
- Mintie Price, Sec'y.
- Ida Monk, Treas.

Beaumont—Work on the Sabine-Neches canal which has been under way for some time is progressing nicely. Two large dredges are at work deepening the canal from Port Arthur to the mouth of the Sabine-Neches rivers. The channel is being deepened 25 feet and it will require three years to complete the job. The work is progressing at the rate of one-half mile per month. When completed, this will give Beaumont and Orange a direct water course to the gulf.

The Lufkin Chronicle which suspended publication a few months ago, has been taken over by W. H. Bonner, who is now editor and proprietor. Editor Bonner is assisted by W. H. Harris, formerly of Nacogdoches and we are confident that the Chronicle will be "bigger and better" than ever and that Lufkin will have another good paper.—Barnhart Book.

YOU NEED S.S.S.

Every sufferer of Rheumatism needs S. S. S. because this great blood purifier is a certain cure for the painful disease. Rheumatism is caused by an excess accumulation of uric acid and other corrosive, irritating impurities in the blood, which has gotten into the circulation because of a torpid or sluggish condition of the eliminative members. As these impurities are carried through the circulation to the different portions of the system, the acid matter coats the nerves, muscles and joints with a fine, caustic deposit, and the sharp cutting pains or dull, constant aches are produced. The blood being overburdened with uric acid, continues to grow weaker, more acid and poorer in nourishing qualities, and Rheumatism becomes a chronic and dangerous disease. S. S. S. cures Rheumatism because it is a perfect blood purifier. It goes into the blood, neutralizes the acids, and dissolves the irritating particles and forces them out of the system through the natural excretory channels. Then all inflammation and swelling subside, the pains and aches cease, and not only is Rheumatism permanently cured, but under the tonic effects of S. S. S. the entire health is benefited and built up. S. S. S. reaches inherited cases as well as those which have been acquired, and good results always follow its use. S. S. S. is an absolutely safe remedy because it contains no strong minerals to damage the system. It is made entirely of roots, herbs and barks. If you are troubled with Rheumatism, try S. S. S. Book on Rheumatism and medical advice free to all who write and request same.

OUR PRESIDENT.

For twelve years now we've struggled
And with our limited means,
Have made most earnest endeavors
To keep the Cemetery clean.
But scarce would have succeeded
Had not our president
From day to day been vigilant
And kept watch o'er every grave.
She has stood at her post of duty
And never a call did shirk,
But all the time was waiting
And ready for Cemetery work.
Twelve times at elections for president
Have we put up Mrs. Peevey's name.
And in spite of protests and resignations.
We elected her—just the same.
'T would be hard to find another president
More willing their time to give.
So may she ever be happy.
Long may Mrs. Peevey live.

A Girl's Wild Midnight Ride.

To warn people of a fearful forest fire in the Catskills a young girl rode horseback at midnight and saved many lives. Her deed was glorious but lives are often saved by Dr. King's New Discovery in curing lung trouble, coughs and colds, which might have ended in consumption or pneumonia. "It cured me of a dreadful cough and lung disease," writes W. R. Patterson, Wellington, Tex., "after four in our family had died with consumption, and I gained 87 pounds." Nothing so sure and safe for all throat and lung troubles. Price 50c and \$1.00. Trial bottle free. Guaranteed by Stripling Hazelwood & Co. dw

Never again will there be a response at roll call for the name of one who is very dear to us all, for God has taken her to Himself to answer the "Call up Yonder."

Merely to say "we miss her," would be a very faint expression indeed for she was one of the best.

She was the second charter member to leave us, dear Grandma Ingraham having preceded her many months ago.

In the early days of our organization when all efforts were directed toward gaining a firm financial basis to maintain the work of the cemetery, Mrs. Crain was one of our staunchest supporters, ever ready and willing to assist. For years a regular attendant at the meetings, taking an active interest in all proceedings of the hour she made an invaluable member, whose place will be hard to fill.

Patient and gentle, kind and tender always thinking of others, her life of self sacrifice will be an inspiration for others to try and be like her.

To show our love for her, we will try to do the things we know would have given her pleasure when she was among the living.

Claud Barrett, who has been holding down the Claim desk at the freight depot, has resigned his position with the railroad company and accepted a position with the W. T. Wilson Grain Co. The late traffic rulings require that a number of records be kept in the line of business transacted by the grain company, where shipments of carload lots are made with mill in transit privileges and it is necessary to have a man on the job who is familiar with railroad work. Mr. Barrett went to work this morning.

In examining the title to the Dotson place, which was recently purchased by Mr. Hiram Buchanan, Judge S. W. Blount came upon the original application of Gen. Sam Houston and the grant to him for the 300 acre tract, of which grant this place is a part. We made an effort to see Mr. Buchanan and get a copy of the instrument, but failed to find him.

The announcement in the paper last Saturday to the effect that Congressman Dies had decided to endorse A. Y. Donegan for postmaster, has served to put the other candidates on their mettle and they are all, as busy as bees now working for their own interest. No one of the candidates for the position seem in any way disposed to give up the fight, and are in it until the thing is settled.

An interstate bridge company with a capital stock of \$30,000 was organized at a meeting of good roads promoters for the propose of building a model steel bridge across the Red River near the town of Charlie. This bridge will form the connecting link between the Texas and Oklahoma division of the Interstate Good Roads Association's highway.

An Old Citizen Gone.

Capt. F. L. McKnight died early Sunday morning at his home on Irion Hill after an illness of several weeks from weeks from a complication of diseases, lagripp and pneumonia, and was buried in Oak Grove cemetery this afternoon.

Capt. McKnight was one of the oldest citizens of the East Texas country, being 82 years of age. He came to Texas with his parents when he was quite young and settled near Alto in Cherokee county, where he lived until he reached manhood's estate. He was married to Miss Cora Cluth 57 years ago and they moved to Douglass and resided there continuously until about eight years ago when they moved to Nacogdoches and have resided here since. To their union were born nine children, five boys and four girls, all of whom are now living. Mrs. Kate Sanders of Nacogdoches, Mrs. Mariah Murphey of Nacogdoches, Mrs. Lizzie Weaver of Dodge, in Walker county, and Mrs. Laura Coats of Big Springs; John, Jim Felix and Arch McKnight all of Oklahoma, and Frank McKnight of San Francisco, Cal. All of his children have been here during his illness, except Frank, though some of them were compelled to return to their homes, Felix was with him when he died.

Capt. McKnight was an old Confederate soldier, and went to the war from this county along with the first companies that went to the front and served until the close of the war. He was made captain in his company after reaching the front and distinguished himself for his bravery on the field of battle.

While living at Douglass he conducted a hotel for a number of years, at the same time being interested in farming and conducting a large farm. He was a life-long member of the Cumberland Presbyterian church, a good

Women Avoid Operations

When a woman suffering from some form of feminine disorder is told that an operation is necessary, it of course frightens her.

The very thought of the hospital operating table and the surgeon's knife strikes terror to her heart, and no wonder. It is quite true that some of these troubles may reach a stage where an operation is the only resource, but thousands of women have avoided the necessity of an operation by taking Lydia E. Pinkham's Vegetable Compound. This fact is attested by the grateful letters they write to us after their health has been restored.

These Two Women Prove Our Claim.

Cary, Maine.—"I feel it a duty I owe to all suffering women to tell what Lydia E. Pinkham's Vegetable Compound did for me. One year ago I found myself a terrible sufferer.

I had pains in both sides and such a soreness I could scarcely straighten up at times. My back ached, I had no appetite and was so nervous I could not sleep, then I would be so tired mornings that I could scarcely get around. It seemed almost impossible to move or do a bit of work and I thought I never would be any better until I submitted to an operation. I commenced taking Lydia E. Pinkham's Vegetable Compound and soon felt like a new woman. I had no pains, slept well, had good appetite and was fat and could do almost

all my own work for a family of four. I shall always feel that I owe my good health to your medicine."
—Mrs. HAYWARD SOWERS, Cary, Me.

Charlotte, N. C.—"I was in bad health for two years, with pains in both sides and was very nervous. If I even lifted a chair it would cause a hemorrhage. I had a growth which the doctor said was a tumor and I never would get well unless I had an operation. A friend advised me to take Lydia E. Pinkham's Vegetable Compound, and I gladly say that I am now enjoying fine health and am the mother of a nice baby girl. You can use this letter to help other suffering women."
—Mrs. ROSA SIMS, 16 Wyona St., Charlotte, N. C.

Now answer this question if you can. Why should a woman submit to a surgical operation without first giving Lydia E. Pinkham's Vegetable Compound a trial? You know that it has saved many others—why should it fail in your case?

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No one sick with woman's ailments does justice to herself if she does not try this famous medicine made from roots and herbs. It has restored so many suffering women to health.
Write to LYDIA E. PINKHAM MEDICINE CO. (CONFIDENTIAL) LYNN, MASS., for advice. Your letter will be opened, read and answered by a woman and held in strict confidence.

man and a splendid citizen, and his death will be much regretted by all who knew him.

Dr. Jim McKnight, an older brother of Capt. McKnight, and the last survivor of the old family he being 84 years of age, was here from his home in Pollok during the illness of his brother and spent several days.

To the aged wife and sorrowing sons and daughters, who are left to mourn the loss of a father, we extend hearty sympathy.

G. S. King left today for Washington, D. C., where he goes to do a little legging for the post office appropriation, or rather for the federal building, and also to try and get the government to accept the public square site with the streets of equal width all around—let the lot be in the middle of the square. The lot as suggested by the government, and the ordinance passed by the city setting aside the lot to the government, called for a 70 foot street on the north and a 50 foot street on the other sides. To this proposition a number of the abutting property owners objected and refused to sign a release deed to the government.

J. A. Spears returned yesterday from Texarkana, where he went to go before the board of legal examiners. Mr. Spears passed the examination making a splendid average, and is now in possession of the necessary credentials to practice law in the courts of the state.

Will Return Home on the Nineteenth.

We are in receipt of the following letter from Agricultural Agent James D. Greer, who is now attending the short course for agents at the A. & M. College.

Dear Sentinel:—Will you say to your readers that I cannot get home before Jan. 19th, but will be home as soon as the course here for the agents is over. I will get busy and see the people who are on the work, or those who wish to be on the work, as quickly as possible.

I hope that both the demonstration and the corn club boys will push right on with their work. I feel sure that we will win some of the first prizes at the state fair this fall. If we will only put forth our best efforts we can win Grand Sweepstakes on corn and besides a number of other prizes, and I say let us do it.

The short course here is very good, but they are making us get up and hump. We work from early morn till late at night. We are right from one demonstration or lecture to another, and I am trying to get everything. I shall continue to try to take home as much knowledge and good for my home people as anyone in attendance.

I have just called on Messrs. Paul Perkins and Homer Loden who are here from Nacogdoches and in school. I must say that both of them are very studious and are doing good work.

Yours very truly,
James D. Greer.

A Municipal Dividend.

The city of Fargo, North Dakota, has declared a dividend of ten thousand dollars, which is to be distributed to its citizens on March 1, 1913. If every man, woman and child in the town received a share it would mean about sixty-five cents apiece; but, properly enough, only the tax payers will benefit by the distribution.

It appears among the factors that have made possible this dividend or rebate, are the taxing of public service corporations on their real valuation, and the collection of license-fees from peddlers and places of amusement. The large reason, however, and the one with the greatest significance, is the fact that business methods have been introduced into the administration of Fargo's civic affairs. Not only has the city a surplus in its treasury, but it is in better condition than ever before. Its streets have had improved pavements, the police force has been increased, and the whole municipal machinery, is in good working order, producing the best results at the least cost.

This Fargo episode, while involving only a small sum of money, has a useful lesson for every American community. A city which not many decades ago was the abode of the Indian and the grazing ground of the Buffalo, has set a constructive and economic example well worth heeding by its older and larger sisters. If Fargo can save money, then other cities can. The German cities are notable examples of municipal efficiency and economy, and some of them have frequently declared dividends. This means that they are conducted as large business concerns, by men who regard government as a profession. There is no reason why we should not do the same thing.—Munsey.

Systematic Farming Near Beaumont Brings Good Results.

Beaumont, Texas, Jan., 12.—The Beaumont country, which in the past has been given over principally to the production of rice, oil and lumber, is now making a strong effort to encourage the growing of corn and cotton and other staple crops. That the efforts are meeting with much success is evinced by the recent demonstration work which has been carried on by agricultural experts, under the direction of the government demonstrator. In 1911, the highest number of bushels of corn raised to one acre was 42 and the second highest 40. Last year a yield of nearly 64 bushels to one acre was reported from a farm, and another raised 59 showing an increase of 23 bushels to the acre. The first corn raised in Jefferson county was in 1909. Out of 135 farmers who were working under the direction of the demonstrator an average yield of 41 1-2 bushels to the acre, was produced.

Some men try to realize on their opportunities before they arrive.

Money is Tied Up.

With reference to the question in the paper on yesterday, as to what the city intended to do with the street improvement or paving and when they would begin, we are advised that the city stands ready to begin on the work at once, and is only awaiting the final decision of the law suit in which the Nacogdoches Light & Power company, by injunction, and subsequent appeals to the higher courts have tied up the money derived from the sale of the bonds.

The statement that the city has used part of this money with which to pay for the new bridges, is declared incorrect, but that the city has borrowed the money with which these bridges were paid for, and an overdraft is now carried in the bank.

The city has everything in readiness, have in hand estimates as to the cost of the different paving materials, and also applications from several civil engineers for the work, but cannot make a move until the law suit is disposed of.

True Loyalty.

Jenkins, a newly wedded suburbanite, kissed his wife good-bye the other morning and telling her he would be at home at six o'clock that evening, got into his auto and started for town.

At six o'clock no hubby had appeared and the little wife began to get nervous. When the hour of midnight arrived she could bear the suspense no longer, so she aroused her father and sent him off to the telegraph office with six telegrams to as many brother Elks living in town, asking each if her husband was stopping with him over night.

Morning came, and the frantic wife had received no intelligence of the missing man. As dawn appeared, a farm wagon containing a farmer and the derelect husband drove up to the house, while behind the wagon trailed the broken-down auto. Almost simultaneously came a messenger boy with an answer to one of the telegrams, follows at intervals by five others. All of them read: "Yes, John is spending the night with me."

Alaska's Two Climates.

Official reports indicate that the coast region of Alaska has much rain and snow, but an equable temperature, and that the winter at Sitka is no colder than at Washington. The snowfall at Valdez has reached sixty feet and the rainfall at Sitka 111 inches in a season. The Yukon basin on the other hand has a continental climate, very cold in the winter, although the summer temperature may reach 90 degrees in the shade. The rainfall is small. The soil is permanently frozen for several yards below the surface, but a thin surface layer thaws out every summer. — Harper's Weekly.

MacVeagh on Panics.

No more striking demand for banking reform has been made recently than that voiced in Secretary of the Treasury MacVeagh's annual message to Congress. Our monetary system is directly responsible for our disastrous recurring panics, he says. He calls it "unfit and wholly insufficient," "unreasoned and unscientific."

"A panic is as unnecessary and as avoidable as an epidemic of smallpox," the Secretary says. He charges that the Government is directly responsible for the suffering and ruin they bring. These are his words: "As long as the Federal laws remain unchanged and unreformed, the Government will be exclusive by responsible for the commercial, industrial and social disasters which flow from panics."

Mr. MacVeagh's record in office is proof of his authority on this subject. His indictment of our present antiquated system, while not new, is so severe as to bring home afresh the imperative need for revision of our monetary laws.

Improvements at Timpson.

Timpson, Texas, Jan. 11.—The city council met Thursday and put in almost the entire day in discussing and passing on things of interest to the town. The council has many good improvements for the city planned this year in the shape of better sidewalks and streets. Among the many improvements to be made here this summer, is the erection of several new brick buildings. New residences are going up in different parts of the city and pretty soon Timpson will be called the city of beautiful homes.

J. C. Whiteside & Son, one of the oldest firms of the city, has retired from business. G. W. Trammell Jr., bought their entire stock.

We have received the last issue of the West Times. It has sold out to the News and in future the News will be the only paper published in the city of West. For twenty-five years the Times has been published in that city, in fact it sprang into existence with the town and grown with it. Two papers in a town the size of West was too much and the Times made a proposition to the News to buy or sell and the News bought. Here's luck to the News.

Those who are pushing the claims of Rienzi Johnson before the legislature, do not claim that he would be worth a damn to Texas, but, listen, he has served the democracy of the state so long [in her factional fight, not fight for the existence of the party], that he deserves the compliment. God for sooth! Is the great office of United States Senator to be tossed around just to compliment some politician for service to a political ring. Lets hope the peoples' government has not gone so far from them that such can be perpetrated on them. — West Times.

Resolutions of Respect.

Whereas, on Dec. 9, 1912, our dear friend and co-worker, Mrs. Giles B. Crain finished her earthly career and the Master said, "Well done, thou good and faithful servant, enter thou into the joy of thy Lord"

Whereas, Mrs. Crain was a charter member of the Parsonage and Home Mission Society.

All through the struggles of this little band, she was a leading spirit, faithful in work and "Instant in prayer."

In later years increasing cares and physical frailness prevented her from being active in attendance at church or the society, yet her occasional presence was always an inspiration to a better life.

Be it resolved therefore by the members of the Woman's Home Mission Society 1st That the church has lost one of its most valiant members. Her lovely Christian character was an example to those now carrying on the work of the Master.

2nd. That although she has joined in a better land, the ones "she loved long since and lost awhile" and though she has passed from our earthly vision, yet her memory is enshrined in the heart of every member of the Home Mission Society as a lasting benediction.

3rd That sincere words, gentle hands and loving sympathy be extended to the sister and children, who grieve for her, whose life was the embodiment of "I will fear no evil, for thou art with me; thy rod and thy staff, they comfort me."

4th That a copy of these resolutions be spread on the minutes of the Woman's Home Mission Society, one presented to the family and one sent to the Sentinel for publication.

Mrs. J. H. E. Bham,
Mrs. W. F. Price,
Committee.

The San Augustin Tribune has this good word to say about the demonstration farms, which teach farmers what to do and how to do it:

Taking into consideration the unfavorable cotton weather of the past season, the large crop raised in East Texas generally goes to show that different farming is being done here than was the custom a number of years ago. Many causes are responsible for the change, not the least of which are the information and demonstrations given by the department of agriculture both national and state.

J. W. Buchanan who recently purchased the Dotson place is stopping at the Redlands hotel with his father and mother waiting for some repairs to be made on their new home before moving in. Their household effects have arrived and in a few days hope to be able to get into their home. Mr. Buchanan has in mind the improvement of this place so as to make it one of the prettiest and most convenient and homelike to be found anywhere. He will also improve the ground and put in a lake for a fish pond.

Financing The Farmer.

It is singular that the United States has been so long in awakening to the tremendous importance of farming as an industry, and to our inadequate provision for financing the farmer. Agricultural credit societies are now a leading topic of discussion, and occupy page after page of the newspapers and magazines. The organizations abroad are being studied with a view to adapting them to American conditions. And the fact has been brought forcefully home that each of the agricultural credit societies abroad is buttressed by a scientific banking system. Not one could do extensive good without such support. Before we can finance the farmer as he deserves, our unscientific banking system must be reformed.

Oil Killing Fish.

At the bridge over Banita creek, near the compress, this morning it was noticed that a great number of dead fish had drifted up against a pile of trash, and still other dead fish were noticed at other points. The whole surface of the water is covered with oil, which is floating down stream. It is quite evident that unless something is done with reference to the oil in the creek all the little fish will be killed. It is not known where the oil comes from unless there is a leak in the pipeline north of the city, or near the loading racks.

Writes Dr. Hartman About Kidney Disease.

A gentleman writes me: "I was greatly interested in your article describing the Kauffman case of serious disease of the kidneys. The description of his case exactly outlines my condition. I am sure if Peruna cured him as you say, it would cure me also. I am losing flesh rapidly and the doctors say I have every symptom of Bright's disease of the kidneys. If you think I would be benefited by Peruna I will certainly try some as the doctors have practically given me up, the same as they did him."

In reply I wish to say, first, that I never make any promises as to what Peruna will cure. No physician can make positive statements of that sort. I can say this much, however, if I were in your place I should certainly give Peruna a trial. I know of no other remedy that would be so likely to be of use to you in your present condition as Peruna. Take a tablespoonful before each meal and at bedtime. Continue this for two or three weeks and then if there is anything you wish to ask me further write me and I will give your letter prompt attention.

If I find that the Peruna is not helping you I will be perfectly frank and tell you so, for I would not have you take Peruna unless it was really helping you. But it has rescued so many cases of kidney disease that I am quite confident you will find it exactly suited to your case.

Kidney disease begins with catarrh of the kidneys. Peruna is a catarrh remedy. Unless the destruction of the kidneys is already too great Peruna relieves the catarrh and the cause of the kidney disease is removed.

I shall anxiously await a report of your case. Remember, all letters are sacredly confidential. I never use any one's name or address without his written consent. My correspondence is absolutely private. PERUNA IS FOR SALE AT ALL DRUG STORES.

LEASING OF LATERALS URGED BY TRUMBULL.

England's Example Cited—Separate Management Required For Each Line.

Houston, Texas.—When the railroad industry of Texas is built up to the high standard we all so much covet, it will be done by railroad men, and their views on our transportation problems are, therefore, instructive. We may, if we choose, differ from them, but it is well for the public to listen to what they say. Recognizing the importance of their co-operation in our industrial progress, the chairman of the Texas Welfare Commission invited the leading railroad men of the nation to appear before it; when asked for his views on consolidation of lines, Mr. Frank Trumbull, executive head of the Katy system, said:

"I think that consolidation of end-to-end lines or lateral lines, or the leasing of them not only ought to be permitted but ought to be encouraged. They go much further in England; they encourage working agreements between competitive lines and the amalgamation of them, as they call it. I don't think you need go that far; I don't see any more objection to a railroad acquiring an end-to-end line by consolidation than it is to a man buying an adjoining farm, and it is in the interest of public service that that should be done. Having to form a different corporation every time you build a few miles of railroad perfects the holding company proposition, not only encourages it, but it forces it. You have three or four staffs of men when one ought to suffice; you can't get the unification of service, of standard; you cannot get locomotives and cars because when they are under the same ownership there will be petty competition."

Mr. E. P. Ripley, president of the Santa Fe, also gave his experience with the present law:

"We have twenty-six miles of railroad running from the New Mexico state line to El Paso; it is our little dead end on which we reach El Paso. Under the laws of the State of Texas we have to maintain a full force of officers and a separate organization for the twenty-six miles of railroad at El Paso. We have also the Texas & Gulf over here and the Gulf, Beaumont & Kansas City and the Gulf and Interstate. We have to maintain separate organizations; they are all parts of one system and they are all end-to-end."

In after years it may come to pass that a spendthrift hasn't the cents he was born with.

Going After Deep Water.

A party of live wires from Logansport, La., spent a few hours in the city today en route to Orange, where they go to attend the Rivers Improvement Convention which convenes in that city tomorrow. In the party or J. N. Heard, mayor of Logansport; J. C. Stubblefield, Rev. J. C. Heard, T. S. Ruddell, Geo. K. Gibbs, editor of the Interstate Newsboy (a brother of our O. M. Gibbs of the Garrison News); F. R. Alston, R. W. Calaway, vice president of the Logansport bank; T. T. Calhoun assistant cashier of the Logansport bank and Chesley Price.

These gentlemen were expecting a delegation from Nacogdoches to go along with them to the convention and expressed disappointment when they learned that none were going.

The citizens of the towns along the Sabine river have had a survey made of the river, but for lack of interest in the proposition an appropriation for the deepening of the river was turned down by the Rivers and Harbors Committee. An effort was made to have the proposition reopened, which was successful, and a hearing will be had before the committee in April next. The object of the convention is to organize the citizens of the different counties most interested and to create an interest in the matter, the lack of which caused the appropriation to be reported unfavorably before.

A report that a perfect woman has been found at Cornell University prompts the Waco Morning News to express the opinion that the average married man will be careful to not mention the fact to his wife as a late discovery. The average man discovered a perfect woman very early in life, a woman whose splendid character shines brighter as each year goes by, and the like of which has never been seen. God pity the man who does not know that no purgative, holier, better person ever lived than she who heard his first cry, who ministered to his first want and who, through whatever came to him in life, was ever his steadfast friend.—West Times.

Beauty is only skin deep but many a woman is deeper than she looks.

"Learn While You Earn."

Abraham Lincoln would split rails all day in the forest and then after his day's work was finished, would walk five miles to borrow a book to study and improve himself. It is said of George Washington that in answer to a question of his mother as to why he studied so late at night, replied that he was working out the destiny of his country.

There are hundreds of young people today who are desirous of gaining a practical education, but for one reason or another they cannot leave home to secure it, so they drag along from one year to the next in the same old rut. There are hundreds of others that are availing themselves of the opportunity offered by the correspondence department of our college, saving their leisure moments and investing them in an education that will mean thousands of dollars to them in the coming years.

You may say that you are not able to take a course, but the person who can least afford it is the one who needs it most and should have it by all means at any sacrifice; it don't cost much.

Young friend, why not take advantage of this opportunity and gain a business education by using your moments that would otherwise be wasted? Why not spent an hour of the long winter evenings after nightfall qualifying yourself with a knowledge of the famous Byrne Simplified Shorthand, Practical Bookkeeping, Typewriting, Arithmetic, Grammar, Writing, and Telegraphy, for which the business world will pay cash?

Stockholders Meeting.

The Stone Fort National bank held its regular annual stockholders meeting yesterday in their banking rooms. A full attendance was present and the years business was gone over. The business of the bank last year was very satisfactory.

The following officers and directors were elected for the next year, which however, is the same as last year:

Officers, I. L. Sturdevant, president, W. U. Perkins, vice-president; F. B. Sublett, Cashier.

Directors, I. L. Sturdevant, W. U. Perkins, Chas. Hoya, D. K. Cason, S. B. Hayter, S. H. Watkins, F. B. Sublett.

LIVER GETTING LAZY? DON'T STOP WORKING

Take Dodson's Liver Tone and Go About Your Business. It Will Liven Up Your Liver Without Harm.

A bilious attack or constipation can be relieved in a short while by a spoonful of Dodson's Liver Tone—the mild, vegetable remedy that every druggist guarantees.

Just ask Stripling, Haselwood & Co. about Dodson's Liver Tone. They know that it is a harmless preparation that starts the liver without violence and puts you into shape without interfering with your habits. This store guarantees it to be all that, and will give you your money back if you don't find Dodson's Liver Tone gives you quick, easy relief.

Dodson's Liver Tone is for both grown-ups and children. It has a pleasant taste, and is safe and reliable. The price is 50 cents for a large bottle, and your 50 cents back to you if you tell Stripling, Haselwood & Co. that it hasn't been a benefit to you.

Don't take calomel and don't buy imitations of Dodson's Liver Tone—you may run into danger if you do.

Buy Dodson's—the medicine that Stripling, Haselwood & Co. recommends and guarantees.

TEXAS DRAWS HEAVY GREEK IMMIGRATION.

Sons of Greece Prosper in Lone Star State—Race May Again Climb Pinnacle of Power.

The report of our Federal Immigration department shows that 37,000 Greeks came to the United States last year to find homes and Texas is the state most favored by Greek immigration. The per cent of Greeks departing from the United States is less than that of any other nationality. Their occupations show that they do the chores of industry rather than manage its affairs or rule in the professions, yet notable exceptions encourage the hope that this fallen race may again climb to the pinnacles of power.

They are the descendants of men who spoke with the tongues of angels whose nation lifted civilization to its most towering heights and whose citizenship gave the world the most polished and powerful products of the human race. Out here from the source of their inspiration, they have lost their way in civilization and while we study with profound reverence the marvellous works of their founders, the present generation blinks our shores, sells us popcorn and runs our errands.

There is no better location on the globe for these people to regain their lost prestige than in Texas; we are fast being recognized as the nursery of art, science, literature and industry, and society is laden with healing beams that will revive stunned races and invigorate subdued mankind.

The history of the Greek race affords a most fertile field for the study of government, society and man. As a nation their statesmen struck the solid rock of wisdom and a stream of inspiration gushed forth filling the world with power, ambition and beauty. Watered by the fountains of government, society yielded its golden fruit and fired by an ambition to serve mankind its people made civilization quiver with poems, tremble with eloquence, charmed with art and mastered with philosophy.

This gun of nations when touched by the light of dissemination in government and fully in leadership withered and faded away. There is no greater force in human life than government and to wield its powers intelligently is the highest function of man.

E. F. U. Meeting.

A jolly bunch of the E. F. U. Friends met last night at the home of Mr. and Mrs. J. D. Edmonds. After the regular routine of business was over the new officers for 1913 were installed. Mrs. Edmonds assisted by her sister, Miss Joe Myatt, served the "Bunch" with delicious boullion and sandwiches.

You missed a treat if you were not there.

The next meeting will be with Mr. and Mrs. W. G. Davis Jan. 27, when Mr. Lenard, the state manager and Miss Elsie Smith, the local deputy will be with us. All Friends come and meet them 'twill do you good.

Henry Schmidt left yesterday for Ledbetter, Texas, where we will attend the wedding of his sister-in-law, Miss Pauline Schoenberg, tomorrow. From Ledbetter Mr. Schmidt will go to New York to purchase the spring stocks for Mayer & Schmidt, Inc. Mrs. Henry Schmidt went to Ledbetter the first of the week to be at the wedding.

In conversation with Jon. S. Doughtie this morning we learn that 86 years ago today he landed in Texas, and settled at San Augustine. He remained there seven years and a half and then moved to Nacogdoches, where he has lived continuously since. Mr. Doughtie has seen many changes wrought in this East Texas country and can tell interesting stories of the years that have passed.

Bishop Kinsolving Here Sunday.

Rt. Rev. Bishop G. H. Kinsolving of this Episcopal diocese will visit this city next Sunday, January 19th and will preach at 10:30. The bishop will have to leave on the 11:55 train, hence the early hour for the service.

Mr. Hoya has put a force of men to work cleaning out the building on the west side of the square, which was recently damaged by fire, and will have it put back in good repair. The Utopian tailoring shop fixtures were practically ruined by the fire and the stock of J. Bright, the grocer, was also badly damaged. The Bright stock is being sold out and the business is still conducted in the room while the repairs are being made.

The Eason home on Church street, which was recently damaged by fire, has been repaired. The workmen turned it over the latter part of last week, and early Monday morning Mrs. Eason began moving back into the house. Quite a number of additions and improvements have been made to the building and now it is much more comfortable and convenient than before the fire.

Mrs. E. A. Blount has been appointed as one of the out of town patrons for the Grand Opera company to be in Dallas February 28th and a diagram of the seating arrangement of the Coliseum with prices, may be seen at the Commercial National Bank.

**DON'T BE
CONSTIPATED**

Everyone knows when he is constipated, and every one should know the risk he is running when he fails to promptly correct it.

PRICKLY ASH BITTERS

Is a Bowel Tonic and Regulator.

It empties the bowels just as thoroughly as the harsh, griping cathartics and does it mildly, comfortably, pleasantly. Moreover, it leaves a beneficial influence behind it because the bowels remain healthy and regular thus there is no return to constipated conditions.

Returns on Longstaple Cotton.
J. Thomas Hall dropped in to the office today on a little business matter, and while here informed us that he had just received the returns from his two bales of long staple cotton which he shipped to New Orleans some time ago. The two bales brought Mr. Hall 17 cents net. The cotton was raised on his farm north of town known as Rose Lake.

Lame back may come from over work, cold settled in the muscles of the back, or from disease. In the two former cases the right remedy is BALLARD'S SNOW LINIMENT. It should be rubbed in thoroughly over the affected part, the relief will be prompt and satisfactory. Price 25c, 50c and \$1.00 per bottle. Sold by Swift, Bros. & Smith.

Texas Winter Vegetable Harvest Began.
Kansas City, Mo., Jan. 7—A car of lettuce was received here this week from Kingsville Texas and brought nearly sixteen hundred dollars when sold to local produce merchants. Cabbage from Texas points is beginning to reach the local market and is bringing as high as sixty dollars per ton. The first cars of winter cabbage that arrived here were from Corpus Christi Texas.

Lumbago, Rheumatism and Chills
There is nothing that gives so quick benefit as Hunt's Lightning Oil. The very minute it is rubbed on the improvement is noticed. For over thirty years this Liniment has been acknowledged to be the best for these troubles. Every druggist will recommend it. Price 25c and 50c bottle.

A good way to have all the friends you need is not to need any.

Pneumonia and Pleurisy
For over thirty years Hunt's Lightning Oil has been acknowledged to be a very quick relief when rubbed well on the chest. Many hundred letters testify to the benefit it has given others why not try it? All druggists. 25c and 50c bottles.

Houston—Nearly \$1,500,000 was spent in Harris county during 1912 on motor vehicles, according to an estimate made from the automobile book in the county clerk's office. Nearly 900 licenses were issued during the year to automobile and motor cycle owners, bringing the total number of motor vehicles in the county up to 3,200.

A Pretty Home Wedding.
At the residence of the brides parents, Mr. and Mrs. J. L. Burrows, on Virginia Avenue, Sunday night at 7:00 o'clock, Miss Mattie Burrows was united in marriage to Mr. Wyman Windham. Rev. S. S. McKinney, pastor of the Methodist church officiating. The wedding was a very pretty home affair, only the immediate family of the contracting parties and a few intimate friends being present.

Mr. Windham is a member of one of the substantial families of the county, and is himself a stewart young farmer with bright prospects for the future. He is a young man of industrial habits and good business ideas. His bride is the daughter Constable J. L. Burrows, and is a young lady of a sweet and amiable disposition, and is highly esteemed by everyone with whom she is acquainted. Mr. Windham is to be congratulated in winning such a mate for the journey through life. The Sentinel joins with the many friends of Mr. and Mrs. Windham in wishing them a long and happy life.

The groom is a prosperous young farmer of Cherokee county and is a brother of the Methodist minister. His bride is a very estimable young lady who resides in the North church community.

Cut the High Cost of Living.
W. H. Chapman, Winnebago, Neb., tells how he did it. "My two children had a very bad cough and the doctors did them no good. I got a bottle of Foley's Honey and Tar Compound and before it was all used the children were free and cured of their cough. I saved a doctor's bill for one 25c bottle of Foley's Honey and Tar Compound. No opiates. Swift Bros & Smith. eod

Escaped After Fifteen Years.
W. P. Broyles made a successful escape after fifteen years of suffering from kidney and bladder troubles. Foley's Kidney Pills released him and will do just the same for others. He says: "They cured a most severe backache with painful bladder irregularities, and they do all you claim for them." Refuse substitutes. Swift Bros & Smith. eod

The approaching session of the Texas Legislature is regarded with less apprehension in business circles than any for many year. The public impression is general that we are to have an era of peace and purely constructive policies.—Fort Worth Record.

W. R. Fox, 195 W. Washington St., Noblesville, Ind., says: "After suffering many months with kidney trouble, after trying other remedies and prescriptions, I purchased a box of Foley's Kidney Pills which not only did me more good than any other remedies I ever used, but have positively set my kidneys right. Other members of my family have used them with similar results." Take at the first sign of kidney trouble. Swift Bros. & Smith. eod

Pains All Over!

"You are welcome," says Mrs. Nora Guffey, of Broken Arrow, Okla., "to use my letter in any way you want to, if it will induce some suffering woman to try Cardui. I had pains all over, and suffered with an abscess. Three physicians failed to relieve me. Since taking Cardui, I am in better health than ever before, and that means much to me, because I suffered many years with womanly troubles, of different kinds. What other treatments I tried, helped me for a few days only."

**TAKE
CARDUI
The
Woman's Tonic**

Don't wait, until you are taken down sick, before taking care of yourself. The small aches and pains, and other symptoms of womanly weakness and disease, always mean worse to follow, unless given quick treatment. You would always keep Cardui handy, if you know what quick and permanent relief it gives, where weakness and disease of the womanly system makes life seem hard to bear. Cardui has helped over a million women. Try it.

Muffins

By Mrs. Janet McKenzie Hill, Editor of the Boston Cooking School Magazine.

When muffins are on the breakfast table, nobody cares for meat or eggs and they would be served more often if this meal were not prepared so hurriedly that there is no time to make them. If K. C. the double-raise baking powder is used, the batter may be stirred up the night before, put in the pan ready for baking and nothing to do in the morning but bake them.

One-Egg Muffins

2 cups flour; 2 slightly rounded teaspoonfuls K. C. Baking Powder; 1 teaspoonful salt; 1/2 cup sugar; 1/2 cup melted butter or lard; 1 egg; 1 cup water or milk.

Sift dry ingredients together three times. Add to this the unbeaten egg, melted shortening and water or milk. Then beat all together until perfectly smooth. Oil muffin or gem pans and have oven slow until the muffins come to the top of the pan then increase the heat to bake and brown the muffins. This recipe makes 12 large muffins. Raisins or currants may be added if desired.

Graham Muffins

1 cup graham flour; 1 cup pastry flour; 2 level teaspoonfuls K. C. Baking Powder; 1 to 2 level tablespoonfuls sugar; 1/2 teaspoonful salt; 1 egg; 1/2 cup milk or water; 2 to 3 tablespoonfuls melted butter; mix and bake as One-Egg Muffins.

Graham batter should always be quite soft to insure light and moist muffins.

To get 88 other recipes as good as these, send us the certificate packed in every 25-cent tin of K. C. Baking Powder, and we will send you "The Cook's Book" by Mrs. Janet McKenzie Hill. Handsomely illustrated. Jaques Mfg. Co., Chicago.

The Value Of Co Operation

The farmer of Texas can learn lessons in marketing from rice growers of the Coast Country. Thirty Third Business Man's Legislature.

Austin, Tex., Jan. 7.—That the Thirty Third Legislature of Texas, when it convenes on Tuesday, January 14th, will differ in many respects from any previous legislative body that the state has ever known, is disclosed by a pamphlet containing a roster of the members of the Legislature, State Officials and Members of Congress just issued by the Texas Commercial Secretaries and Business Men's Association. The absence of lawyers from the personnel of the assembly and the large number of farmers and business men who have taken up the legislative burden is a striking feature of the body and marks a departure from established custom. In fact, there are scarcely enough lawyers on the next Legislature to give the necessary legal advice in framing the bills that will be introduced. After thirty-two sessions of this august body with lawyers usually in the majority, the Thirty-third starts life as a strictly business man's legislature and from the material selected to make our laws during the coming session will be found the man who can wield the hammer and guide the plow, as well as those proficient in legal lore.

Many newspaper men are also shown on the list of members, several prominent editors representing their districts in both bodies.

Notice.

To any Banking Corporation, Association or Individual Banker of Nacogdoches County that may desire to be selected as the depository of the funds of Nacogdoches County.

The Commissioners Court of Nacogdoches County at its February term 1913 will receive proposals from any of you desiring to be appointed County Depository. Your sealed bids must be delivered to the County Judge on or before the first day of said term, of said court, stating the rate of interest you will pay on the funds of the County from the time of your appointment until your successor is appointed and goes into office, and be accompanied by a certified check of one half of one percent of the County revenue estimated \$120,000 as a guarantee of good faith that if appointed the proper bonds will be given as required by law. If a bid is accepted and the bond not given as required by law such certified check to be the property of Nacogdoches county as liquidated damages, but in the event a bid is rejected said check to be returned.

The interest on county funds is to be calculated on the daily balances in the hands of the depository, and paid to the County Treasurer at the end of each month.

When such depository has been appointed it shall execute a bond with at least five solvent sureties of unincumbered Real Estate not exempt from execution in a sum equal to the revenues of the county for two years or such other securities as the law allows and within twenty days give a bond for the school funds in the amount of the permanent and available school fund.

The money of the County shall be paid out only upon the check of the county treasurer.

The depository shall make out under oath a detailed statement to the commissioners court at each regular term of said court showing the daily balances of the county funds of the preceding quarter.

The depository upon receiving notice from the State Superintendent of education of the amount apportioned to the county, shall at once report the same to the county superintendent, who shall immediately apportion the same to the several school districts and shall immediately notify the depository of the amount apportioned to each district.

The depository shall keep a separate account with each of said districts showing the amount apportioned to each district according to the apportionment of the county superintendent and the amount paid out to each district.

The depository will pay out school funds on the approval of the county superintendent and in no other way.

All bonds are to be conditioned as the law requires.

When a depository has been appointed and qualified the time of office extends until

HARNESS TALK

It matters not how good a team you have, it is impossible to get good service without good equipment.

Good wagon harness is as necessary as good buggy harness, good looks are not as necessary as good service. If the harness fits properly and has no weak parts the team works in comfort.

This is the kind of harness we sell every bit of it good even to the smallest strap or buckle. Bring your team and let us fit it to them.

Wagon harness Saddles, Horse Blankets any thing for the horse.

HOW OLD ARE YOU BY YOUR HAIR

You may be 30 in years, but if you are baldheaded or gray, people will surely take you to be many years older.

Dandruff is the root of all hair evils. If it were not for the little destructive germs working with a persistency worthy of a better cause there would be no baldness.

PARSIAN Sage, America's greatest hair restorer, will keep you looking young and attractive.

It is guaranteed by Stripling Haselwood & Co. to make hair grow and stop falling hair; to cure dandruff in two weeks; to stop itching of the scalp almost instantly.

PARSIAN Sage is the most invigorating, satisfying, and pleasant hair dressing made; it makes the hair soft, luxuriant and handsome; it is especially praised by women who love beautiful hair. 50 cents a bottle.

The Baptist Meeting.

The initial service of the Baptist meeting was held Monday night, but on account of Dr. Truitt's failing to get here the service was a song service, as reported yesterday. Last night was really the first service of the meeting.

Dr. Truett arrived yesterday afternoon and last night preached the first sermon of the meeting. When the hour for opening the song service arrived, 7:15, the church was comfortably well filled, and the crowds continued to come until the main auditorium was packed, and quite a number were given seats in the balcony. Mr. Jolly conducted the song service, after which Rev. J. A. Smith of Center led the opening prayer. Dr. Truett read from the scriptures, after which Rev. Mahan made the announcements, and the incidental collection was taken.

Dr. Truett, in a few remarks, expressed pleasure at being here to preach to the people, explained that he was in no way an evangelist, but was a busy pastor and could not have come here had it not been that he had several assistants in his home city. Said he would be here several days to try and help the pastor and the people.

Dr. Truitt took for his text a passage from the fourth chapter of James, second and third verses and delivered a discourse the burden of which was "Prayer", which he said was not only a privilege, but was a duty. The discourse was directed mainly to the professor, and dealt with the fundamental principles of Christian life. The power of prayer was vividly brought out during the sermon by incidents recited, as was also the disasters occasioned by neglect of prayer. Dr. Truett talked plainly, calmly and simply—there was no one in the large audience but who could follow him throughout and understand his every deduction.

Fair View News.

The people of our community met on last Sunday afternoon for the purpose of reorganizing the Sunday school. Mr. John Odell of Nacogdoches was appointed first teacher. The offices were properly filled and we feel that great interest will be taken. We will be glad to have all who can, to come and help in our Sunday school work every Sunday afternoon at 3 o'clock.

The Literary school is doing nicely. The primary pupils are glad to have their teacher, Miss Ada Stripling, with them again after an absence of two weeks on account of a severe attack of lagrippe.

Miss Emma Skillern is visiting her sister, Mrs. Doyle Harrel in Lutkin.

Mrs. David Parrish was laid to rest in Fair View cemetery last Thursday afternoon. A large crowd of relatives and friends were present to pay their last tribute of respect to this estimable lady.

Mr. G. P. Parks has been sick for the past two weeks. We hope he will soon be well again.

Obituary.

Mahl, Tex., Jan 11, 1913.—How sad it is for us to be submissive to Him who doeth all things well, and one who knows the very secret of our thought but yet we must bow in submission to His will.

Our hearts were made to weep and mourn on the account of the separation of our loved one.

On Dec. 17, 1912, death's chilly hand was laid on the sweet baby form of George, Elwin Hogan, and he was bidden to come up higher.

Elwin was born Sept. 7, 1910 died Dec. 17, 1912, age 2 years 3 months and 10 days. He leaves a fond father a loving mother three brother and two sisters and a host of relatives and friends to mourn his lost.

He has only gone home to be with his other three brothers and love ones.

But how it grieves our heart, for we miss his bright eyes and sunny smiles and the sweet prattle of his childish voice, we loved so well.

Let us so live that when

we come to press the dying pillow, it will be well with our soul, and we will meet little Elwin in the heavenly mansion up above.

His body was laid to rest in Pleasant Hill Cemetery. Bro. John Winder conducted the funeral services amid a sorrowing audience.

His Aunt.

We are frequently asked, during this bad weather when the streets are deep in mud, and the wagons have cut out holes in several places, what the city council intends to do about the paving proposition and when they will begin. To all of these question we are compelled to give the same answer: "We do not know." Wish somebody would furnish us with information, so we could tell the people.
