Another Up-to-Date Machine.

Last week we noticed the arrival in the city of a new touring car equipped with all the latest improvements that go with the up-to-date machine. This was the car of O. E. Hubbard.

Now we report another car equally as well equipped with the latest in everything that goes with the new models,

such as electric starter, electric lights, and the like. This is the new car of R. W. Haselwood. It is a Studebaker 85, fully equipped and is a very handsome machine.

That Bollweevil.

Division Superintendent W. L. Cox, of the T. & N. O., was in the city yesterday to consult with our citizens and to get their views with reference to the discontinuing of the boll weevil train between this city and Jacksonville, which would give us only one train a day between here and Dallas.

We are not advised as to just exactly what expressions he heard from our citizens, but it is safe to say that the proposition was not looked upon with favor.

Mr. Cox is a pleasant affable gentleman and talks very pleasantly, and seems to wish to treat Nacogdoches and her people right; but at the same time he wants to give the railroad company the big end of the proposition so far as passenger traffic is concerned, not taking into consideration the fact that by reason of the freight business out of this town we are entitled to some consideration even if at this time the passenger traffic is not a money maker.

It is well known that when the first night train was put on the H. E. & W. T. it consisted of only one coach attached to the regular through

freight. The business gradually picked up until other coaches were added, and finally a full passenger train was hung on behind the freight train. The business continued to increase, until now the E. W. has put on a regular first class passenger train. It is quite likely that the boll weevil train would in time prove as profitable on the T. & N. O., but instead of giving it a test the company seems inclined to pull it off. One reason why this train has not proved more successful is possibly due to the fact that it only made two stops between here and Jacksonville, which of course cut it off from all business at other points along the route, and at the same time made it of less benefit to Nacogdoches.

The fact that on the south end of the road, from Rockland to Beaumont, a distance of 75 miles they have two trains daily, and on the north end, from Jacksonville to Dallas, a distance of some 125 miles, and also from a competing point with other roads, they have two trains daily, looks very much like the railroad is discriminating against Nacogdoches in favor of Beaumont and Dallas. Houston and Shreveport are served by a double daily train service on the H. E. & W. T.

Fire Last Night.

A fire broke out last night in the hay warehouse of John Finley situated just back of Simon Mintz's store across the alley and adjoining Bob Burrows' garage, and for a time it looked as though a bad fire was inevitable; but the fire boys got on the scene and in a few minutes had the fire beat down to where the danger to other property was slight, but it required an hour or more to put the fire out which was burning although the hay piled in the barn.

There was perhaps \$200 worth of hay in the house, and this was all so badly damaged by smoke and water that it is a total loss, and the building in which it was stored was also a total loss. No insurance on either building or hay.

As soon as the fire was discovered Jimmie Lum removed all the automobiles out of the garage so that should the fire get from under control they would not be damaged.

The origin of the fire is not known, but is supposed to have been from spontaneous combustion.

Gov. Johnson Puts His Name To Alien Bill.

Sacramento, Cal., May 19---Governor Johnson signed today the alien land bill, against which Japan protests and which the California legislature passed by an overwhelming majority over the remonstrances of President Wilson and Secretary Bryan. The act will go into effect 90 days from date, or August 17.

Rounded Up Crap Shooters.

The sheriff's department was out on a raid last Saturday night and bagged quite a number of crap shooters. It had come to the sheriff's office that the game was being played pretty strong, and the players were not much afraid of the law, so he determined to make a haul.

At Redfield seven of the boys were picked up, and at Mayo nineteen were caught. All but two were released on bond and these two were placed in the jail. It is reported that three of the negroes gave the officers the wrong name and now they are hunting for them. One was caught in town yesterday afternoon, and the sheriff has a weather eye out for the other two.

Arrested for Bootlegging.

Sheriff Rich this morning arrested Dude Butler, colored, and lodged him in the county jail on a charge of violating the prohibition laws.

Defendant is charged in five counts with illegally selling intoxicating liquors.

The commissioners court of Shelby county have granted the petition of the citizens of the Timpson precinct asking for a \$200,000 bond election for good roads, conditioned that the attorney general's department decides as to the legality of the bond issue, since the entire county is now levying a 15 cent special road tax.

TIMPSON has discovered that the incorporation of that town, twenty years or more ago, was not legal and that it has been a country town all the time. They got busy and have asked commissioners court to order an election to reincorporate, and the court has granted the request. Timpson belongs to be a city find those fellows over there are determined that it shall be.

THE Jacksonville people had D. Ward King, the Missouri Road Expert and Split Log Drag man to visit their town and address the people and demonstrate the split log drag, and the result is that they are very much pleased with the drag and will try it out on the city streets. The Progress thinks the effects of Mr. King's visit will be better appreciated when the people have demonstrated the wisdom of his suggestions.

Our people are very favorably impressed with the split log drag, and we feel sure there will be many of them in operation in this section before the summer is over. A number of Jacksonville people met last night and decided to place an order for six drags to be used in dragging the streets of Jacksonville. This order will no doubt be supplemented several times after they see what the use of the drag really means for the improvement of the streets and roads.—Jacksonville Progress.

Every man should strive to own his own home. It is a lofty ambition and one that can be soon realized if the proper management is pursued. We must spend money for necessities; we should spend it for investment; we may spend it for a home we spend it for all three.—Grape-land Messenger.

Any young man who is finding it difficult to save will do well to buy a home. It will be an incentive to set aside a part of the income every payday. In fact, it will make that very thing necessary. There are two kinds of debts that may be contracted by any man. One is the current bills—and it is a bad sort of indebtedness to carry. The other is an investment that requires regular payments. This is the best of a proposition and will lead to a competency. Any young man who is married will do well to get a home. Get it on the payment plan. The stimulus that will thus be afforded toward frugal habits will be the best sort of business training, as well as the beginning of a fortune. By all means, buy a home.—Galveston News.

Billy Sunday, Once a Player, in Slang Tells Bible Story.

Evangelist "Billy" Sunday, who has been conducting a series of revival meetings in Wilkesbarre, Pa., recently gave his version of the encounter between David and Goliath as follows:

Saul and all of his sons except David went off to war; they left David at home because he was only a kid. After a while David's ma got worried. She wondered what had become of his brothers, because they hadn't telephoned to her sent word. So she said to David, "Dave, you go right down there and see whether they are all right."

So David pikes off to where the war is, and the first morning he was there out comes this big Goliath, a big, strapping fellow about 11 feet tall, who commenced to shoot off his mouth as to what he was going to do.

"Who's that big stiff putting up that game of talk?" asked David of his brothers.

"Oh, he's the whole works; he's the head cheese of the Philistines. He does that little stunt every day."

"Say," said David, "you guys make me sick? Why don't some of you go out and soak that guy? You let him get away with that stuff?" He decided to go out and tell Goliath where to head in.

So Saul said: "You'd better take my armor and sword." David put them on, but felt like a fellow with a hand-me-down suit about four times too big for him, so he shook them off and went down to the brook and picked up half a dozen stones. He put one of them in his sling, threw it and soaked Goliath in the coco between the lamps, and he went down for the count. David drew his sword and chopped off his block and the rest of the gang skiddoed.

Special for Reunion

Nacogdoches, 5-16-1918. The Nacogdoches Sentinel;

A letter just received from Mr. J. R. Morrow, Traveling Passenger Agent for the Queen & Crescent R. R. states that a special train will leave Ft Worth and Dallas next Sat. night the 24th inst for Chattanooga, Tenn., and will leave Shreveport on Sunday morning the 25th, at 7:15 a. m., and will arrive at Vicksburg, at 2 p. m. and stop over for three hours, giving the Veterans a chance to see the city, and visit Military Park.

This special train will leave Vicksburg at 5 p. m. the 25th Sunday, and will arrive at Chattanooga at 7 o'clock a. m. Monday morning, the 26th. The special will contain chair cars pullman and tourist sleeping cars, with a diner. Any one wishing to donate funds for the benefit of the Veterans will please hand them in as early as possible so that we can calculate how many will attend. Do not wait until Saturday, for on that date the tickets will have to be purchased.

Baking Powder Biscuits

Light as a Feather
By Mrs. Janet McKenzie Hill, Editor of the Boston Cooking School Magazine

K C Baking Powder Biscuits
Three cups flour; 1/4 to 1/2 cup shortening; 3 level teaspoons K. C. Baking Powder; about 1 cup milk or water; 1 teaspoonful salt.

Sift three times, the flour, salt and baking powder. Work into the flour the shortening, using lard or butter for shortening. Then mix to a very soft dough with the milk. The softer the biscuit enters the oven, the lighter it comes out. Never knead baking powder biscuits; press the dough into shape and roll lightly. Cut in small shapes and bake on a sheet or very shallow pan in a hot oven. In placing biscuits in the pans place well apart, not allowing edges to touch. Small biscuits are better than large ones. Large biscuits do not have the proper amount of time to raise and bake.

Have you seen the new K C Cook's Book? Brimful of appetizing recipes that simply must be successful every time if the few simple directions are carefully followed. You would gladly pay 50 cents for this valuable book, yet we send it absolutely free upon receipt of the colored certificate packed in every 25-cent can of K C Baking Powder. Jacobs Mfg. Co., Chicago. Small cans do not have Cook's Book certificates.

Nacogdoches county is in better shape just now than it has been in many years, in that the farmers are all well up with their work, and the crops are in fine condition. The early freezes did not do nearly so much damage as was at first thought and the fruit crop will be ample for all purposes at home and there will be some to spare, it is thought, and besides the quality will be much better. Another thing that is noticeable is the fact that more feed stuffs have been planted, and quite a number have gone into the raising of more hogs.

After all, perhaps, no occupation is more satisfactory than the cultivation of the soil. Unlike the learned professions the farmer enjoys a degree of independence unknown to the lawyer, doctor and merchant. He is the promoter of his own fields and the builder of his own prosperity. In partnership with his God—he sows in the morning and in the evening witholds not his hand. The consuming world waits with anxious solicitude his seeding time and approaching harvest. His handiwork on the bosom of nature reveals great bags of cotton and golden fields of grain and corn. A co-worker with the Maker and Builder of all things for the sustenance of man, he easily stands the first promoter of happy homes and a benefactor of all mankind.—Sulphur Springs Gazette.

The Salid Pea.

Julious Mora brought to the office today a sample of the Salid Pea he is growing from seed secured away from here, he had forgotten where. The pea resembles the ordinary English pea in shape and has a heavy pulpy hull the same as the English pea, and is filled with large round peas, and instead of shelling to be cooked, the pods are "snapped" the same as a snap bean and the whole business cooked.

Mr. Mora says the salid pea is a very fine table vegetable and that he intends to save a lot of seed for planting next year.

The silo is the farm barometer of progress.

Nacogdoches Prepares
Nacogdoches Sentinel: The East Texas Fair Association is going ahead with arrangements for the fair this fall, and are determined to pull off the best ever, despite the fact that other fair associations are doing their best, and circuits are being arranged that will work a hardship on the several fairs of the East Texas country. You can depend upon it that the Nacogdoches fair will be a success from every point of view, so make your arrangements accordingly.

Nacogdoches has the material from which to build a fair and exposition that ought to be a potent argument for further development of that country and for building up the old town that has so long been one of the charming places of East Texas. The people of that county have resources at their command that may be developed into a showing such as will cause any other community to give up in despair.—Galveston News.

Compliments Our Fellow Townsman.

The Garrison News in reporting the commencement exercises of their high school, in its issue of May 9th, pays the following neat and deserved compliment to our fellow townsman, Mr. Eugene Blount, who had been invited by the high school faculty to deliver an address on that occasion:

"Hon. Eugene Blount of Nacogdoches, who might be termed the 'silver tongued orator' of East Texas, delivered the literary address, and it was a message of rich historical lore clothed in the rhetorical beauty for which the speaker is so gitted. Mr. Blount has traveled much in his life, visited all the places of interest in the old world and has always been a close student of history, equipping him with the data and this, together with his natural eloquence, was all combined in the delivery of one of the most classical and enjoyable addresses ever listened to in Garrison."

Parcel Post Business Huge.

Washington, May 15.—Reports received at the postoffice department indicate that 59,500,000 parcel post packages were sent through the mails during April, approximately 44 per cent more than was handled in January, the first month of the system's operation. Chicago, with 6,897,692 parcels, led all other cities in the amount of parcel post business in April, while New York, with 6,252,378 parcels, was second, Boston third, Philadelphia fourth Cleveland fifth and St. Louis sixth.

Stillwell—Two car loads of homeseekers arrived in this section recently to investigate the irrigated lands of the Victor Irrigation Company. Over one hundred German farmers have purchased land in this section this year.

Charged With Carrying a Pistol.

This morning about 1:00 o'clock constable J. L. Burrows arrested Carl Butler and placed him in jail and filed a charge against him of carrying a pistol and of aggravated assault.

Butler was arrested the night before on similar charge and gave bond for appearance and was released.

It is charged that Butler caused a disturbance a night or two ago and cleaned out a negro restaurant, and struck a party over the head with a gun, and last night he is charged with carrying a pistol and striking a party with it. In all there are now five charged against him.

Happenings at Electra.

Daily Sentinel. Sometime ago in ordering the Sentinel, which comes regularly and I enjoy reading very much, I promised to write you soon of the town and oil fields at this place.

Allow me to beg pardon for not keeping that promise. A good deal of my time has been taken up in church going as Bro. Atchler, the evangelist, was holding a meeting here; following that was the commencement (the program of which I'm sending you.) I thought the most noteworthy feature of the commencement was this: In the awarding of diplomas Supt. Corder made some very appropriate and highly appreciated remarks, ending with the very unusual scene of the oldest of thirteen children awarding diplomas to the youngest.

Next came "Mothers Day" on May 13th.

I attended the thirty eighth annual convention of the State Fireman Association at Wichita Falls.

Commencing Wednesday May 14th, was the sermon by Rev. Chas. Mundell the seventeen year old evangelist assisted by his singer Herbert Reynolds of Dallas. Bro. Mundell's sermons are wonderful. He says he preached his first sermon on his 15th birthday.

Accompanied by my son we made frequent visits to the oil fields. On one occasion we went to see two oil tanks burn that were struck by lightning during an electric storm, said to contain 25,000 barrels of oil each.

We went to the fields two different times; to see the gushers come in. There has come in six gushers since I came here. 'Tis estimated fifteen hundred wells in the oil field here. 'Tis quite interesting to have some one that knows carry you over the fields and give you any information you may ask for concerning them, this my son does for me.

I met Roy Ramey, formerly of Nacogdoches and Mr. Witherspoon, the nurseryman that visits our town, (Nacogdoches) so often, in Wichita Falls the other day.

Best wishes for Nacogdoches,

After Long Suffering

Women Are Constantly Being Restored to Health by Lydia E. Pinkham's Vegetable Compound.

"Worth mountains of gold," says one woman. Another says, "I would not give Lydia E. Pinkham's Vegetable Compound for all the other medicines for women in the world." Still another writes, "I should like to have the merits of Lydia E. Pinkham's Vegetable Compound thrown on the sky with a searchlight so that all suffering women could read and be convinced that there is a remedy for their ills."

We could fill a newspaper ten times the size of this with such quotations taken from the letters we have received from grateful women whose health has been restored and suffering banished by Lydia E. Pinkham's Vegetable Compound.

Why has Lydia E. Pinkham's Vegetable Compound accomplished such a universal success? Why has it lived and thrived and kept on doing its glorious work among the sick women of the world for more than 50 years?

Simply and surely because of its sterling worth. The reason no other medicine has ever approached its success is plainly and simply because there is no other medicine so good for women's ills.

Here are two letters that just came to the writer's desk—only two of thousands, but both tell a comforting story to every suffering woman who will read them—and be guided by them.

FROM MRS. D. H. BROWN.

Iola, Kansas—"During the Change of Life I was sick for two years. Before I took your medicine I could not bear the weight of my clothes and was bloated very badly. I doctored with three doctors but they did me no good. They said nature must have its way. My sister advised me to take Lydia E. Pinkham's Vegetable Compound and I purchased a bottle. Before it was gone the bloating left me and I was not so sore. I continued taking it until I had taken 12 bottles. Now I am stronger than I have been for years and can do all my work, even the washing. Your medicine is worth its weight in gold. I cannot praise it enough. If more women would take your medicine there would be more healthy women. You may use this letter for the good of others." Mrs. D. H. Brown, 809 North Walnut Street, Iola, Kan.

MRS. WILLIAMS SAYS:

Elkhart, Ind.—"I suffered for 14 years from organic inflammation, female weakness, pain and irregularities. The pains in my sides were increased by walking or standing on my feet and I had such a fearful bearing down feeling, was depressed in spirits and became thin and pale with dull, heavy eyes. I had six doctors from whom I received only temporary relief. I decided to give Lydia E. Pinkham's Vegetable Compound a fair trial and also the Sensitive Wash. I have now used the remedies for four months and cannot express my thanks for what they have done for me.—Mrs. SADIE WILLIAMS, 455 James Street, Elkhart, Indiana.

Best Medicine for Colds.

When a druggist recommends a remedy for colds, throat and lung troubles, you can feel sure that he knows what he is talking about. C. Lower, Druggist, of Marion, Ohio, writes of Dr. King's New Discovery: "I know Dr. King's New Discovery is the best throat and lung medicine I sell. It cured my wife of a severe bronchial cold after all other remedies failed." It will do the same for you if you are suffering with a cold or any bronchial, throat or lung cough. Keep a bottle on hand all the time for everyone in the family to use. It is a home doctor. Price 50c and \$1.00. Guaranteed by Stripling Haselwood & Co.

Jim Greer, the agricultural agent for this county, was in the city today, and was of course talking farming. He says that now all the farmers are busy and that the crops are growing and everything looking good. Mr. Greer is very much interested with reference to the premiums to be offered at the fair this fall to

the Boys Corn club and the other agricultural clubs of the county; he thinks that as many premiums should be offered as possible, so as to give every fellow a chance to land one of them, rather than to have only first, second and third premiums, as is ordinarily the case.

Wonderful Skin Salve.

Bucklen's Arnica Salve is known everywhere as the best remedy made for all diseases of the skin, and also for burns, bruises and boils. Reduces inflammation and is soothing and healing. J. T. Sossaman, publisher of News, of Cornelius, N. C. writes that one box helped his serious skin ailment after other remedies failed. Only 25c. Recommended by Stripling Haselwood & Co.

Geo. T. McNess has rented a room in the court house building, and yesterday moved the remnants of his stock of packed tobacco into this room where it will be stored until such time as he sells it. Mr. McNess will not engage in the packing of tobacco this year, as he is too busy looking after the matters pertaining to the experimental station.

Plano—Farmers in this vicinity, most of whom each raised over 5,000 bales of cotton last season, have organized the Farmers' Gin Company with a capital stock of \$15,000. The new concern expects to begin operation Sept. 1.

All Skin Remedies Fail?

Have you tried all the advertised skin remedies without success? Have you sought medical treatment in vain? And you still suffer from that irritating itch, that horrible, unsightly skin disease? Do not despair. Come to our store and we will GUARANTEE YOU INSTANT RELIEF. We will let you have a full size bottle of the D.D.D. Prescription for Eczema, a simple, antiseptic wash, on our positive guarantee that unless it stops the itch AT ONCE it will cost

you not a cent. You owe it to yourself to take advantage of this offer. We are confident it will succeed or we could not afford to make the offer. D.D.D. is a penetrating liquid that kills and washes away disease germs, leaving the skin smooth and healthy. A 50c bottle is enough to start the cure of the most obstinate cases of Eczema, Psoriasis and allied diseases. D.D.D. soap is a valuable aid. Ask us about it. Stripling, Haselwood & Co.

For Cheaper Good Roads.

Good roads advocates are urging on Congress the importance of removing the present tariff on asphalt as a means of reducing the cost of highway construction. Before the pending tariff bill reaches final form it is hoped that asphalt will be added to the list. About all the existing duties of \$3 a ton on refined asphalt and \$1.50 on crude have done is to add these amounts to the taxpayer's bill for improved roads and streets.

Some kind of bituminous "binder" to hold the stone in place is used in most roads in these days of heavy traffic. To make roads of this kind as cheap as possible the good roads forces contend that Congress should make bitumens duty free. This is claimed to be all the more important because the tariff tax is not only added to the price of the imported products; it also makes it impossible for the producers of similar products to increase their charges without coming into price competition with the imported asphalt.

The saving that would result from the removal of the tariff would not go to the asphalt people. They have promised to reduce their price by the amount of the tariff if it is cut off. The saving would go to the taxpayers, who can spend the money for additional construction that they could not otherwise afford, or they can keep the money in their pocket.

The Promotion of Tom Randolph.

The promotion of Tom Randolph to the presidency of the National Bank of Commerce of St. Louis brings into prominence and financial power another noted Texan. In fact we are supplying the Nation with its great men and a try-out in Texas is one of the qualifications for men who occupy positions of gigantic responsibilities.

There is scarcely a mile post along the industrial thoroughfare of the Nation that has not the name of some enterprising Texan carved upon it, but what a pity that so many of our brightest minds must leave the State in order to find room for their abilities to expand. We have great area and greater possibilities yet we produce men who outgrow them and there is no drain so great upon a country as the loss of intellect—Commercial Secretaries.

Where the Penalty Lies.

As we understand the law in Texas on the pistol question it is this: If you merely tote a pistol the fine is \$200, with a long jail sentence if judge and jury see fit to tack it on. But if you seize your pistol gracefully, work the trigger perfectly and shoot the daylight out of somebody, you go as free as the wind blows. The penalty is on the unused pistol not the one that does the work.—Honey Grove Signal.

START YOUR LIVER, DON'T STOP WORK

Dodson's Liver Tonic Acts Mildly, but Surely. Liven Up the Liver and You Stay on Your Feet.

It is the experience of calomel users that if they take enough of the drug to have the desired effect, it seriously interferes with their work the day after. But this is the least important item, for calomel is often a dangerous drug and acts on the system violently.

Don't take chances with calomel. Get a bottle of the pleasant, safe and perfectly harmless Dodson's Liver Tonic, guaranteed to take the place of calomel. Instead of making you feel worse the next day it makes you feel better—and you actually are better, for no remedy in the whole world liven up the liver, regulates the bowels and really rejuvenates the system any better than this dose.

You are the sole judge of its merits. Stripling, Haselwood & Co. is fully authorized to hand you back your money without question if it fails to please you—and relieve you.

Remember, if you feel constipated and bilious, what you need is Dodson's Liver Tonic. A large bottle and a good guarantee for 50 cents from Stripling, Haselwood & Co.

FOR BENEFIT OF RURAL SCHOOL.

State Superintendent Bralley and Several Assistants to Lecture in this County.

Several weeks ago County Superintendent W. B. Hargis made a visit to Austin in connection with some of the school bond elections recently passed, and while there arranged with State Superintendent Bralley for a lecturing tour over this county, for the benefit of the rural schools. The tour will embrace an entire week and a program will be arranged so as to make each and every meeting as pleasant and profitable as possible.

With Prof. Bralley will be Dr. Ellis of the State University, and Miss Staltz and Rich, who will each have a prominent part on the program. It is hoped to pull off this lecturing tour about Nov. 15th.

The program will likely comprise the following, according to the best information which Prof. Hargis now has at hand:

Superintendent Bralley will address the schools on the line of general school work occupying about an hour's time. Dr. Ellis will deliver an address along the line of rural high schools. Miss Rich will talk on domestic science and sanitary matters, and Miss Staltz will discuss sanitary cooking. She carries a stove and cooking vessels, and during the lecture she will prepare the several dishes, cook them and pass them to the audience. The entire program will occupy about two hours.

The State pays the expenses of these people to the county seat; but the expense of getting them to the several schools and their entertainment must be paid for by either the schools or Prof. Hargis.

Several sections of Texas have been visited by such a committee, who have rendered a program along these same lines, and at each place they have been the community have been highly pleased, and it is believed much good was accomplished. As this is the first time they have ever visited this county, it is believed that their visit will be highly beneficial and will also be appreciated.

Old Settlers Passes Away.

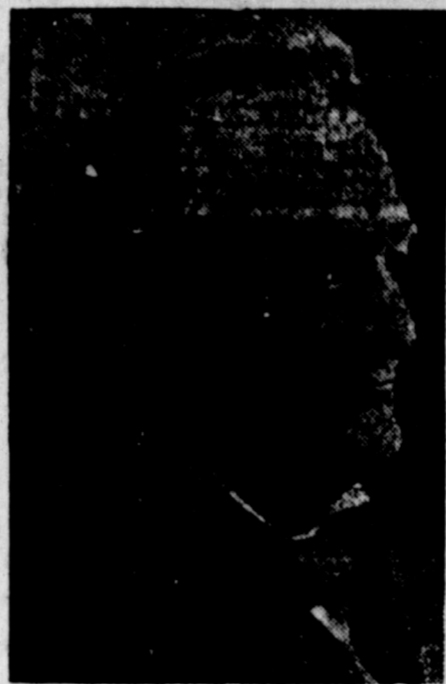

H. H. Hargis died Monday of this week at his home near Black Jack, after an illness extending over 10 or 15 years, and was buried Tuesday afternoon in Black Jack grave yard, a large concourse of sorrowing friends and relatives attending the funeral.

Mr. Hargis came to Nacogdoches county from his native state Louisiana just after the war. He was 73 years old at the time of his death and had been an invalid for about 15 years, suffering from a stroke of paralysis.

He leaves four children to mourn his loss, all grown, W. H. Hargis of Sacul; John and Nim Hargis of Black Jack, and Mrs. A. C. Briley of Chireno.

Since early manhood he had been a consistent Christian and a communicant in

Religion and Medicine

S. B. HARTMAN, M. D.

Is there any intimate relation between religion and medicine? Yes, there is. The old-time healer was also the priest. Theology and medicine have not maintained a separate existence very long. They are used to be one. Yes, there is an intimate relation between religion and medicine. It is well known of a person who sits with unthankfulness and ill-natured spirit, that his food will not have the same effect as if he were in a kindly mood. The same is true of a medicine. If a person swallows a medicine with suspicion, has no faith in its action, is more or less afraid of the one who gives him the medicine, it cannot do him as much good as if he had unwavering faith in it.

The mind has a wonderful influence over the body. Those who believe that

a loving Father controls the destiny of mankind are a great deal better prepared to meet the vicissitudes of life and to overcome disease than the one who has no such faith. A truly religious man makes a better patient than an irreligious man.

In using the word religion I am not referring to any particular kind of religion. The Jew and the gentile, the Catholic and the Protestant, each have a religion in which they believe. They also agree in the essentials.

A religious man may believe that it is necessary for him to use every means in his power to get well. He may believe that it is perfectly proper for him to employ doctors and take medicines. But he also believes that when he has done the best he can there is a higher power that has charge of his affairs, that absolute justice will be done him, that no evil thing can befall a good man. He goes forward with confidence, sick or well, rich or poor, and gets a great deal more comfort out of life than the man who has no religion.

I have found myself saying many times to people who have a chronic ailment, "You need religion as well as medicine. You need faith in an overruling providence that guides everything to wise ends; that the affliction of disease teaches a lesson that every one should strive to learn."

This does not mean that sick people are to sit down and trust that an overruling providence will do everything. Nothing of the sort. He is to use remedies guided by his best judgment, but in the use of them he can believe that all things are well and that in the end all things will come out right. Any medicine has a better chance to cure a man who holds such a faith.

Some men are so faithless and unbelieving, so restless and desperate, their minds so unsettled, that even the best of medicine has little chance to do them any good. Therefore I say that religion is often quite as necessary

as medicine, that the want of religion frequently defeats the action of the best medicine.

Many a chronic invalid has searched in vain for a physical remedy simply because he has lost his grip on vital religion, the religion that not only provides salvation in the world to come, but soundness of body and mind in the world that is.

Yes, there is a most intimate relation between medicine and religion. Other things being equal, the irreligious man stands a poor chance of getting well when he is sick, while the religious man frequently gets well in the most astonishing way after the doctors have all given him up to die. With a firm faith in a rational religion and an obedient use of the right remedy a great many hopeless invalids could be restored to perfect health.

Well, you have made it clear as to what you mean by religion. But what is the remedy you would recommend?

Of course I would recommend different remedies for different conditions. But the particular remedy that I am interested in at this time, the remedy that meets more chronic ailments than any other remedy I know of, is Peruna. Peruna is a remedy for that multitudinous group of ailments that are dependent upon catarrhal derangements.

I am furnishing a book on catarrhal diseases which I send to any person free. In this book I explain quite fully the uses of Peruna. Those who do not care to wait to send for the booklet at this time will find information and instruction as to the general uses of Peruna explained within the wrapper of each bottle. PERUNA IS FOR SALE AT ALL DRUG STORES.

SPECIAL NOTICE—Many persons are making inquiries for the old-time Peruna, such as would say, "this formula is now put out under the name of KA-TAR-NO, manufactured by KA-TAR-NO Company, Columbus, Ohio. Write them and they will be pleased to send you a free booklet."

Four Rules of Life.

First: If possible, be well and have a good appetite. If these conditions are yours, the battle is already half won. Many soul and heart troubles arise really in the stomach, though it may seem strange to you.

Second: Be busy. Fill the hours so full of useful and interesting work that there shall be no time for dwelling on your troubles, that the day shall dawn full of expectation, the night full of repose.

Third: Forget yourself. You never will be happy if your thoughts constantly dwell upon yourself, your own imperfections your shortcomings, what people think of you and so on.

Fourth: Trust in God. Believe that God is, that He really knows what is best for you; believe this truly, and the bitterness is gone from life.—The Australian Farm Journal.

Cascarine, "The Liquid Liver Tonic" Has Taken the Place of Calomel.

A great many people have quit taking Calomel, as they have found the Liquid Liver Tonic, MORRIS' CASCARINE, will stimulate the Liver and cleanse the entire system just as well or better than calomel, but does not nauseate, gripe or sicken as Calomel usually does.

CASCARINE is pleasant to take, sure and gentle in effect, and leaves the system in perfect condition so that nature will take up and perform its functions regularly.

VICTIM OF ACCIDENT.

Shreveport Girl Shoots Herself at Ft. Smith, Ark.

Fort Smith, Ark., May 19.—Miss Dollie Sorrels, aged 19 years, of Shreveport, La., probably fatally shot herself in trying to kill a snake at the home of her aunt, Mrs. B. L. Weindall, of Thibaut Palace, this afternoon.

Miss Sorrels discovered a snake in the yard several days ago and had made frequent unsuccessful attempts to kill the reptile. When she discovered the snake today she armed herself with a .38 automatic revolver. The reptile upon her approach sought refuge in a hole. Cocking the weapon, Miss Sorrels placed the revolver in her lap and stooped over the hole. While she was in this position the revolver was discharged.

The City Board of Equalization adjourned Saturday until the 28th of May, at which time the body will meet to hear complaints and explanations from those whose property renditions have been raised.

Rheumatic Blood is Whole Story

Wonderful Specific for Sciatica, Lumbago, and a Cure for Dreaded Arterial Rheumatism.

There is a host of pills, powders, tablets and what-not for rheumatism, but they all lack the first essential to being a natural medicine. To begin with, rheumatism is simply a name given to designate a variety of pains, and can only be reached by irrigating the entire blood supply with a naturally assimilative antidote. True, the pains may be eased with narcotics or the acids may be neutralized for the time being with other acids. But these merely temporize and do not even lead to a cure. There is but one standard rheumatism remedy, and it reflects the best thought of the day. It is prepared in the great Swift Laboratory in Atlanta, Ga., and sold in all drug stores under the name of S. S. S. at \$1.00 a bottle.

Starvation has been advocated by many as a cure for rheumatism, and yet S. S. S. accomplishes in fact what fastidists proclaim in theory and without the punishment of starvation. Hot springs and sweating are often recommended, but S. S. S. does all that is expected of these expensive and weakening methods. The recovery of all these types of rheumatism is the result of nerve depression; in still others it is the effect of some scrofulous blood condition, having been treated with mercury, iodides, arsenic and other poisonous mineral drugs. The recovery of all these types of rheumatism by the use of S. S. S. is a wonderful tribute to the natural efficacy of this remarkable medicine, for it is assimilated just as naturally, just as speedily, and just as well ordered as the most acceptable, most palatable and most readily digested food. Do not fall to get a bottle of S. S. S. to-day. You will be astonished at the results. If your rheumatism is of such a nature that you would like to consult a great specialist confidentially, write to The Swift Specific Co., 127 Swift Bldg., Atlanta, Ga.

A. and M. College this summer. Nearly three thousand Texas farmers are expected to attend the Farmers' Short Term Course, July 21-27; the Farmers' Congress July 28-30, and the Farmers' Institute, July 31 and August 1.

The great calamity in Omaha was quickly overshadowed by the terribly disastrous floods in Ohio. Great suffering and sickness from colds and exposure resulted. D. The First to Contribute.

The first person to contribute to a fund to assist the old Confederates to attend the Reunion at Chattanooga, was Mr. Wm. Stewart, who lives four miles south of the city, and who is an ex-Federal soldier. He contributed \$1.00.

County Attorney Moss Adams was the second to hand in a contribution. His was for \$15.00.

Adjutant Jno. S. Doughtie has placed these amounts in the bank to the credit of the camp fund.

A slight cold in a child or a grown person holds possibilities of a grave nature. Croup may come on suddenly, bronchitis or pneumonia may develop severe catarrhal troubles and consumption are possible results. Foley's Honey and Tar Compound nips a cold at the outset, cures croup quickly, checks a deep-seated cough, and heals inflamed membranes. Swift Bros. & Smith.

The colored citizens met at Zion Hill Baptist church Thursday night for the purpose of considering the celebration of the 19th of June.

The meeting first went into organization, so as to get everything on a business basis and determine on just how to put on the celebration in the best style so that no discord or failure would occur.

R. H. Scott was elected temporary chairman, and Arthur Johnson was elected secretary. Rev. P. M. Rhodes offered prayer, after which the meeting was announced ready for business.

On motion the temporary organization was made permanent, and the other permanent officers and committees were elected. J. H. Roe was elected vice-president, T. H. Latham second vice-president, and W. M. Bonapart assistant secretary. J. W. Porter was elected treasurer.

Committees. Finance, J. H. Roe, H. C. Cleaver, E. J. Campbell, J. A. Moore, N. B. Metcalf, L. Sleet, R. H. Scott. Arrangement, Rev. Porter, R. H. Scott, Rev. P. M. Rhodes, J. Power, J. A. Moore, S. H. Latham, A. Johnson, C. Balkey, Rev. McDonald.

Program and Printing, E. J. Campbell, J. Power, W. M. Bonapart, P. M. Phodes, H. Talbert, Rev. Porter, Rev. McDonald.

Amusement, M. Benton, J. M. McKnight, W. M. Lewis. The meeting adjourned to meet again on next Tuesday night at the C. M. E. church, May 22 at 8 p. m.

R. H. Scott, President. A. Johnson, Secretary.

The spring months often find a woman tired out with pain in back, hips and head, nervous and sleepless. Foley Kidney Pills will quickly prove their worth and value as a healer of all kidney and bladder ailments and irregularities. They are a splendid remedy for rheumatism, clearing the uric acid from the joints and system. Try them. Swift Bros. & Smith.

Mr. E. E. Hesser of Rosenberg, is in the city and is the guest of her brother, R. F. Davis. Mrs. Hesser is returning home from Center where she attended the wedding of her sister, Miss Winnie Davis, which occurred in that city on the afternoon of May 11th.

A man living at Auburn, New York, had a severe attack of kidney and bladder trouble. Being a working man, not wanting to lose time, he cured himself completely by using Foley Kidney Pills. A year later he says: "It is a pleasure to report that the cure was permanent." His name is J. A. Farmer. Swift Bros. & Smith.

The rains of a few days ago has kept the farmers out of their fields and in consequence there was quite a large crowd in the city Saturday.

Why be CONSTIPATED when you can buy LIV-VER-LAX at Stripling Hazelwood & Co's!

Couldn't Walk!

"I used to be troubled with a weakness peculiar to women," writes Mrs. Anna Jones, of Kenny, Ill. "For nearly a year, I could not walk, without holding my sides. I tried several different doctors, but I grew worse. Finally, our druggist advised Cardui for my complaint. I was so thin, my weight was 115. Now, I weigh 163, and I am never sick. I ride horseback as good as ever. I am in fine health at 52 years."

TAKE The CARDUI Woman's Tonic

We have thousands of such letters, and more are arriving daily. Such earnest testimony from those who have tried it, surely proves the great value of this vegetable, tonic medicine, for women. Cardui relieves women's sufferings, and builds weak women up to health and strength. If you are a woman, give it a trial. It should help you, for it has helped a million others. It is made from pure, harmless, herb ingredients, which act promptly and surely on the womanly organs. It is a good tonic. Try it! Your druggist sells it.

LIV-VER-LAX FOR SICK HEADACHE.

It is Your Inactive Liver and Clogged Bowels—LIV-VER-LAX is the Panacea for all Liver Troubles and Constipation.

You are bilious, your thirty feet of bowels become clogged up, poisonous gasses are generated in the bowels and thrown out in the system, your head aches, you have chills and fever, you are nervous and ill-tempered, your system is full of bile not properly passed off. Your disordered stomach and biliousness cannot be regulated until you remove the cause. It is not your stomach's fault. Your stomach is as good as any.

Try LIV-VER-LAX, it is purely vegetable. Do not resort to harsh physics and Calomel which ruins the system and softens the bones.

LIV-VER-LAX acts gently yet positively on the liver, stomach and bowels, is pleasant to take and does not gripe or sicken. It is recommended for grown-ups and babies all alike.

You will be suprised at the amount of bile a bottle of LIV-VER-LAX will clean out of your system. Buy a regular 50c or \$1.00 bottle at Stripling Hazelwood & Co on our guarantee and be convinced.

Regret Loss of Dogs.

Several citizens living in the northern part of the city on North street and also on Mound street, are very much incensed over the loss recently of several fine dogs, which have gotten poison.

Robt. Jordan lost a very fine dog about a month ago from this cause. A. A. Seale lost his fine bird dog, Dr. Geo. Barham lost a fine dog, and Giles Parmelly lost a dog. Dr. Tucker's dog got a bait, but was saved by treatment, as the doctor discovered that the dog was sick before it was to late to relieve him.

The malicious poisoning of dogs, or any domestic animal is a violation of the law and punishable by a heavy fine. The promiscuous poisoning of such animals is also against the law and the reckless putting out of poison for rodents without safeguarding the poison from other animals

might also be a violation of the law. The owners of the dogs have determined to make a rigid investigation of this matter and it possible determine where the blame is and what remedy can be applied.

It is known that in several sections of the city the rates are very bad and are deprecat- ing on the chicken yards, killing young chicks and in some instances grown chick- ens, and it is possible that the poison has been put out for the rats. If this is true, parties putting out poison for rats should be very careful to protect the baits against dogs.

The June Woman's Home Companion.

The June Woman's Home Companion contains a further account of the fight for "Better Babies" which is now being carried on all over the United States. A number of photographs of prize winning children are reproduced with this month's report. The Companion is offering prizes for children who receive the highest markings at baby shows of the new kind—baby shows where children are judged not according to their physical beauty but according to their health. The campaign is a great educational movement, inasmuch as it is promulgating the best available ideas in the scientific care of children.

Other valuable articles are: "How To Take Your Vacation," "The World's Greatest Lovers;" "Not One Minute to Lose," an article in which the author tells about the great work done by the National Consumers' League toward convincing the public not to buy goods made in sweatshops; "Fit for Company," an article in which the author shows the absurdity of the idea that extravagance and foolish preparations must be made for "company;" and the "Mother's Part," an article in which the author makes many practical suggestions to mothers in connection with the training of daughters.

Nacogdoches Has a Kick Coming.

It has just come to our ears a rumor that the officials of the T. & N. O. are contemplating discontinuing the night train between here and Jacksonville. In fact it is stated that the matter has been freely discussed by the aforesaid officials. Should they determine to discontinue this train there will be no accommodation train substituted as was the case when the boll weevil was first put on.

Nacogdoches made a strong fight for this night train and finally secured a mixed train; this train was changed to a regular passenger train, but now it seems that both trains are to be discontinued. The railroad people declare that the freight business on this run is worth more to the road than the passenger business, and for a while it was thought that this freight business would justify the mixed train, but the inconvenience of running on schedule and maintaining a passenger train, and the expense does not justify, when the freight business can be handled on regular or through trains.

The Young Men's Business club should look into this matter at once and see if the railroad company cannot be induced to continue the train.

Studebaker

"The wagon that stands up like the reputation of its makers"

When you buy a Studebaker wagon you buy a wagon that will last until you turn the farm over to your son and he turns it over to his son.

One of the first Studebaker wagons ever made saw constant service for thirty years, and we will gladly send you the names of farmers who have in their possession wagons that have been in constant use anywhere from 17 to 48 years—and there are thousands of them. We are building the same kind of wagons today.

A Studebaker wagon is an investment that will give you full return for your outlay. It is built on honor. Iron, steel, wood, paint and varnish used in its construction are tested and retested to make sure each is the best.

For work, business or pleasure—for town or country use—there is a Studebaker vehicle to fit your requirements.

Farm wagons, dump carts, trucks, buggies, surreys, runabouts, pony carriages, business vehicles of every description—with harness of the same high standard.
