Confederate Dinner.

Yesterday was the 88th birthday of E. M. Weeks, Sr., who is one of the twenty-one survivors of the 116 men belonging to the company of Capt. B. F. Benton, which went to Virginia in 1861.

An elaborate dinner was prepared at the home of his son, J. M. Weeks, to which his surviving comrades were invited. As many live at a great distance they were not all able to come.

The old soldiers present were as follows: E. M. Weeks, Sr., Turnersville; George W. Menefee and J. C. Fall of Nacogdoches; J. N. Wilson of Melrose; H. V. Fall of Chireno and R. T. Nobles of Logansport, heroes who lost all in the wreck of war except honor and appetite.

After dinner they grouped themselves before the camera and were snapped a time or two, without fear or trembling. Then on the vine clad veranda they and their gathered friends listened to the scholarly and patriotic address of the Hon. Eugene H. Blount, president of the Young Men's Business Club, whose Texas ancestry of soldiers and statesmen began be-

Mrs. W. G. Ratcliff and daughter, Florence, came home yesterday from Denton where they have been attending the schools of that city for the past two terms.

Justice H. V. Fall of the Chireno precinct came in this morning and is here to attend the dinner given to old Confederates at the residence of J. M. Weeks.

How the Trouble Starts.

Constipation is the cause of many ailments and disorders that make life miserable. Take Chamberlain's Tablets, keep your bowels regular and you will avoid these diseases. For sale by all dealers. dw

J. D. Irwin, merchant of Cushing, was in the city today on business.

Annual Clearance Sale of Summer Merchandise

For many successive seasons we have announced these Clearing sales. With each year have these sales grown in popularity and importance, demonstrating the ever increasing confidence in our advertisements and in the fine quality merchandise supplied to our customers.

All we ask is to pay us a visit during this sale. See for yourself the unusual bargains we are offering.

fore the birth of the Republic at San Jacinto. Judge H. V. Fall responded with words of warm appreciation of the address, and recited a few trying incidents of the war.

The day was devoted to picturing the scenes of the past, dashed with good cheer and anecdotes. In spite of grey locks, they somehow seem to us as young as in reality they were when they faced the storms of war fifty years ago.

The pleasures of the day were rounded off with an automobile ride over the city.

A Sample of Grapes.

James D. Greer was in the city yesterday afternoon and handed us only a sample of some grapes grown by his sister-in-law, Mrs. Geo Greer, six miles north of the city. Mr. Greer had a paper sack full of large luscious bunches of these grapes, but they had been promised to some one else and we could only talk him out of a piece of a bunch. The grapes are of good size, the bunches were large, and the flavor of the fruit was exceedingly pleasing.

Mrs. Greer has put up several jars of these grapes, made some wine and has been eating from the vine since they began to ripen. She has only one vine three years old, and it has not been specially cultivated.

Mr. Greer says there are thousands of acres of land in this county that would grow these grapes to perfection.

Dr. W. I. M. Smith of Houston, is in the city on a business visit.

Greer's Mammoth.

In the show window of Swift Bros. & Smith's drug store has been hanging for a day or two now two ears of white corn which have been attracting considerable attention. One of the ears is 11 1/2 inches long, over full round fat grains, and the other is 14 inches long. The shorter ear is thick and heavy while the other is rather on the slim order.

The corn was grown after the demonstration plans given out by James D. Greer, agricultural agent, and was grown by Wade Selman on Tom Muckelroy's place. Aside from the size and shape of the ears, there is one feature which makes the corn more interesting. This corn was originated by James D. Greer and named Greer's Mammoth. Mr. Greer gave the seed to Mr. Selman and has watched the growth of the corn.

Two Negroes are Ready to Hang.

Fort Worth, Tex., Aug. 5. —Paul Fowler and Ernest Harrison, young negroes less than 20 years of age, wept this morning as they abandoned their last hope of life. They will be hanged Thursday. This morning they made up their mind that Gov. Colquitt would not interfere and that they must go to the gallows. They murdered Robert Knetsch a year ago while trying to hold him up.

"We'll tell all we have to say to God," the condemned negroes say in resisting efforts to get a confession.

A Mammoth Turnip

W. A. Barry of the Linn Flat community, sent us word this morning that he had the biggest turnip in the country, but never sent the turnip, so we are compelled to take James D. Greer's word for the size of it, and of course Mr. Greer would not tell anything except the truth in reporting anything pertaining to agriculture.

Mr. Greer says that he saw the turnip measured as far as could be without pulling it out of the ground. About six inches of the turnip is protruding from the ground and a tape line passed around just at the ground showed a circumference of 26 inches. Digging a little under the surface it appears that the turnip is at least six inches in the ground which would make it twelve inches long. The turnip is still growing and the tops are crisp and green. We didn't get the weight, for there was no way of ascertaining it.

Would Consolidate School Districts.

Superintendent W. B. Hargis is in receipt of a petition from the Union Springs and the Linn Flat school districts, and is advised that a similar petition from the Owensville district has been mailed to him, asking that these three districts be consolidated for high school purposes.

These districts are near enough together to take advantage of the rural high school law, and the citizens wish to avail themselves of its advantages.

Cason, Monk & Co. are going to put on a big show at their store in a short time. Look for their complete announcement which will appear in the next weeks issue of this paper.

No chance to be dissatisfied. We want all our readers to avail themselves of the splendid opportunity which they will offer. They have never done things by "halves" and don't expect to begin now. There will be something for the Children as well as the grown folks.

Huerta's deft to the world, in which he states that he will not resign nor will he brook interference by any foreign nation, has complicated matters just a little. Huerta says his honor is at stake in the matter, and he must establish peace in Mexico.

Official Washington is some what exercised just now over a report that Great Britain will establish a great naval base in the Bermudas. Such action on the part of Great Britain would, it is believed, involve the very life of the Monroe doctrine.

The nerve of the Amarillo Commercial club is something phenomenal, they are now sending advertising matter into East Texas recommending their country as a summer and winter resort. And Amarillo is the coldest place in Texas in the winter and the hottest in the summer, while East Texas is just right the year round.

A writer in the Houston Post seems to think that it will be a picnic job for the Houston Elks base ball boys to clean Nacogdoches, and remarks that it is only necessary now to wait and get the box score to tell how sad it will be. Nacogdoches believes that the Houston bunch has about as much chance to beat us as a sheep has to kill a butcher. The only chance for Houston is for the Nacogdoches boys to drop dead or break their arms.

The Lutkin News has discovered a new thing with reference to the silo, which it thinks will make them very popular in the dry counties. According to the News, after the silo is filled and fermentation begins, a very fair quality of alcohol settles at the bottom, which can be drawn off by boring holes at the bottom of the silo. The News promises more information as soon as the same can be gotten together.

Many people start out to do good things but are deterred by criticism. They see the good that can be done but the selfishness of others causes them to lose heart. The man worth while is the man with courage to persevere. The life worth living is the life of service. Small men will always be criticizing the strong men but it will not hurt. The purposes are right and the courage necessary to go through is all that is needed. What matters it if there is criticism? It is the things you are striving for are for the general uplift keep a stiff heart and unflinching faith. Everything worth while promised by strong men is opposed by the weak. Everything done that is worth doing is opposed by narrow minded men. It is only the small, narrow men who see selfish purposes in every proposition. They really do not count. The thing that counts is the inside of your own heart.—Lawrence Kansas Journal World.

Recognition Out of the Question.

President Wilson has made it clear to all who have discussed the situation with him that he has not changed in the least with reference to the recognition of the Huerta government in Mexico, even though Ambassador Wilson argued strongly in favor of such a move. He let it be known that his analysis of conditions from official and non official sources and his judgment of what should be done had not been altered by the ambassador's statements. The president is formulating a policy, which he told callers involved nothing but what is entirely friendly to Mexico.

Chairman Bacon, chairman of the Committee on Foreign Relations, is of the opinion, so it is stated, that to recognize the Huerta government would be putting a premium on revolution in Mexico. He believes that it would be an incentive to every revolutionary leader to assassinate the head of the nation with the full expectation that his act would receive the approval and official recognition of other nations.

The Lutkin News of this week contains quite a lengthy article with reference to the Armour Company establishing a cold storage plant for the East Texas country, and dwells at some length on Lutkin as the logical point at which to locate this plant, intimating that the company had not yet determined definitely as to the place for locating it. The deed records of Nacogdoches county show that in April last Armour & Co. purchased a lot on West Main street, this city, 60x90 feet and just across the street from the passenger depot. The minutes of the city council of this city show that Armour & Co. have been granted permission to cross Main street with their tracks to this lot, and we are advised by the local manager of the company that arrangements have been made with the railroad to extend their switch across this street and to the lot mentioned. We don't suppose Armour & Co. would have purchased this lot and arranged these other details if they had not finally decided as to where their cold storage plant for East Texas would be located.

To Correct Wrong Impression

Editor Sentinel:
As there has been said through your paper that the work done on the Patton hill on the Melrose and Nacogdoches road is the best ever done in the county, I wish to state that I have it from Mr. Jim Stalling that over \$200 worth of labor has been donated by himself, Mr. Patton and others, and the work done is very fine. I also learned that there was some talk going the rounds that they were receiving pay for their work. This is a mistake. These people have never intimated to me that they wanted any pay, and I don't think you can find any member of the court but who will tell you the same.

Melrose News.

Misses Rosalee and Lilla Mast entertained delightfully last Friday evening with a lawn party. The beautiful lawn was arranged tastefully with benches and swings, and beautiful ferns were placed at different places about the lawn to add to the beauty of it. Progressive conversation was the diversion and a jolly good time was the result. Delicious punch was served throughout the evening.

Mrs. H. A. Hardeon has returned from a pleasant visit to Houston and Galveston.

Miss Christie Patton is entertaining a house party this week.

Benton Wilson and family have returned to their home in Nacogdoches after a pleasant visit to their parents, Rev. Jno. N. Wilson and Mrs. L. T. Barrett.

The Timpson Times is boosting the East Texas Fair. Much obliged, Bro. Times, we appreciate your efforts.—Nacogdoches Sentinel.

You are quite welcome, Mut. Now, if we can just get the other Nacogdoches people to appreciate our efforts to give them a good show to attend here this fall, we'll be satisfied. We feel sure all Nacogdoches will come over, and we know they will appreciate seeing a real East Texas Fair, after the "side show," which will be pulled off at Nacogdoches just before our great fair.—Timpson Times.

We are surprised at the Times; we thought it was too good a sport to knock on any East Texas enterprise. There will be glory enough for us all, it matters not which is the "real" East Texas fair or which is the "side show."

It used to be that people would just drop in a store, the first one they came to, and buy what they needed, but such is not the case now. They, at least the majority, go to the store that is wide awake and progressive, and the best way to distinguish an up to date, live, wide awake store is to see if they carry an ad in the paper.—Timpson Times.

The Thrifty Foreigner.

Our census reports show that fifty-eight per cent of our foreign-born citizen own their homes. This is a splendid average and speaks volumes in favor of foreign immigration.

The foreigners who desire to dig wealth from Mother Earth can do no better than leave the agricultural prisons of the old world and buy a home in Texas where there is room for all to sit at the table of life's opportunity.

We need more of these sturdy foreigners to settle our fertile lands and dot our valleys with homes.

She had only a little flower to offer, but it was tended in such a gracious manner accompanied by a most winning smile. The smile direct from the soul, and its source being pure, its charm was irresistible. Only the heart that is soiled and sodden can withstand the appeal of a little child, a fragrant flower in her chubby hand, her face wreathed in smiles. If one doubted all other evidence of God, this alone should be sufficient to convince him that God does exist, and that his heart is laden with love manifest in the flesh and the flowers. Oh, little girl with the sunny smile, what would this old world be without you?—Brenham Banner.

The Banner has not wasted any space talking about a fair to be held in Jacksonville this fall, as we realized from the start that there was no probability of such an enterprise succeeding. It takes money, and a lot of it, to get up a fair, and our people have shown no disposition to put up the needful. There will be no fair, and as a matter of fact, there has never been any prospect of having one this year.—Jacksonville Banner.

Success sometimes depends upon the ability to smile and then smile some more.

FOSTER'S WEATHER BULLETIN

Copyrighted 1913 by W. T. Foster

Washington, D. C., Aug. 2.—Last bulletin gave forecasts of disturbance to cross continent August 3 to 7, warm wave 2 to 6, cool wave 5 to 9. This storm will be of greater than usual force, very cool about three days preceding its arrival and very warm about three days after it has gone by. Not much rain. Bad weather or corn, good weather for spring wheat where rainfall was sufficient in July.

Next disturbance will reach Pacific coast about August 7, cross Pacific slope by close of 8, great central valleys 9 to 11, eastern sections 12. Warm wave will cross Pacific slope about August 7, great central valleys 9, eastern sections 11. Cool wave will cross Pacific slope about August 10, great central valleys 12, eastern sections 14.

Unusually hot and dry weather will prevail while this disturbance is passing and the corn and cotton crops will be injured thereby. Storms will not be of great force and general weather will be favorable to those who wish to take

their summer outings. Good spring wheat weather will continue to prevail where July rains were sufficient.

It must be noted that our July rainfall forecasts, in a general way were good. Those rains had the effect to lower prices of grain. We now expect the August drought to put grain and cotton higher and we still advise not to sell the new crops of cotton and grain.

Third storm wave of August will reach Pacific coast about 12, cross Pacific slope by close of 13, great central valleys 14 to 16, eastern sections 17. Warm wave will cross Pacific slope about August 12, great central valleys 14, eastern sections 17. Cool wave will cross Pacific slope about August 15, great central valleys 17, eastern sections 19.

Not much to be said for this disturbance. Generally hot and dry. A crop weather scare is probable for corn and cotton about that time and we advise no selling of grain or cotton till the effects of August weather are definitely known. Last half of August promises unusually hot and dry weather. A few showers are expected during the week centering on August 18.

W. O. W.
Important and Interesting Meeting Representing the Camps of Nacogdoches County.

Responding to call issued last week the executive committee of W. O. W. Camps of Nacogdoches county, met in the Woodmen Hall at Nacogdoches, Saturday, August 2, at 1:30 o'clock p.m. Eighteen out of the twenty-two camps in the county were represented by delegates and proxies.

Many of the delegates reported progress of their camps some reporting that camps to which they belonged and represented were not yet very active in the campaign, but that interest was being manifested, and that by the first of Sept. applications would begin to come in fast. There has been already written during the campaign 110 applications in the county; with more than two months remaining in which to secure applications. It was decided to begin the initiation of candidates immediately after the races at the fair grounds or about 5 o'clock p.m. There will be no request made upon the fair management for reduced rates, but the fair association will be asked to contribute some amount to defray advertising expenses of the campaign which will be done for the purpose of bringing many people here on that day.

Judge V. E. Middlebrook will be appointed general marshal of the day. He conducted the crowd in such an orderly manner during the Woodmen picnic on August 31, last year, it was decided that he was the proper person to again have charge of the parade, etc. Other committees will be appointed later, so that the crowd will be easily handled.

The executive committee, composed of the following representatives of the camps of the county, will be expected to be present on Wednesday evening, October 9. This committee will act as reception committee, and will have full charge of the program. The committee is as follows: Arthur A. Seale, Nacogdoches camp; O. M. Gibbs, Garrison camp; W. D. Burrows, Appleby camp; W. M. Pybus, Red Oak camp; J. H. Hewett, Caro camp; W. S. Kerss, Trawick camp; B. F. Creel, Cushing camp; Eugene Burk, Sacul camp; George Raney, Lilbert camp; E. V. Handle Factory to Move.
J. E. Miller, who has been manager for the Gates Handle Factory here since it was first put in, and who has been looking after the plant since it was closed down early in the summer, has received instructions from headquarters directing him to begin at once the packing of the machinery stocks, etc., for shipment to the mill at Beaumont.

In conversation with a Sentinel man last night Mr. Miller stated that in his judgment the reason for discontinuing the plant here is that the timber they are able to get varies so much in quality and the working of it gives too great a per cent of low grade stock, which of course cuts down the profit on the plant, as the same price is paid for timber by the cord and it is impossible to grade it before it gets into the mill.

The handle factory can sell all the handles they can possibly make, but the percentage of high grade handles is too small to make the plant here pay sufficiently.

After tearing out the plant here Mr. Miller will go to Gates City, Va., where the company has a big handle factory.

During his stay here Mr. Miller has made many friends who will regret that he is to leave Nacogdoches. He says that he likes Nacogdoches and her citizens, and regrets that he will have to go elsewhere, but that this is the penalty of a single man—the company can send them anywhere, and never think but that one place will be as acceptable as another.

Shooting at Cushing.
A party of citizens of near Cushing, according to reports from there, pulled off a little shooting scrape last Friday afternoon, three parties figuring in the excitement.

It is claimed that neighbors had been at outs for some months, and quite recently they fell out anew over a cross fence, and this falling out resulted in the shooting Friday. One of the parties is alleged to have fired on the other with a shoot gun, but missed, thereupon the other returned the fire, also with a shoot gun and sprinkled two, who were sitting in a wagon at the time, quite severely with bird shot. It seems that both parties were shooting bird shot.

Mart Mason, V. N. Matesson and a Mr. Luna appeared before the justice of the peace and made bond to await the action of the grand jury.

NO REASON FOR IT.

When Nacogdoches Citizens Show a Way.

There can be no reason why any reader of this who suffer the tortures of an aching back, the annoyance of urinary disorders, the pains and dangers of kidney ills will fail to heed the words of a neighbor who has found relief. Read what a Nacogdoches citizen says:

B. L. Hetlin, Nacogdoches, Texas, says: "I was a constant sufferer from kidney trouble for over six years. If I attempted to stoop or do any lifting, it really seemed as if my back would break. The kidney secretions were at times highly colored and painful in passage and caused me much distress. Doan's Kidney Pills, which I procured at Mast Bros. & Smith's drug Store (now Swift Bros. & Smith's Drug Store), proved of more benefit to me than any other medicine I had ever tried. After taking half a box, I felt a different man, and am now able to stoop or lift without any trouble."

CHILLS

You Have the Symptoms and If You Do Not Do Something You Will Surely Have the Disease.

HERBINE

IS THE REMEDY YOU NEED.

It is a medicine of marvelous power in ridding the system of Malarial germs. It acts promptly; the first dose brings improvement, a few days use drives out the disease completely. As a Chills remedy, Herbine is vastly superior to the old style syrups which sicken the stomach. It contains no quinine or poisonous ingredients. Its anti-periodic effect is derived purely from herbs which destroy the germs that have found their way into the system, and through the admirable purgative effect of the medicine, they are driven out of the body.

In all Malarial disorders the Liver is the starting point. It is torpid, and as a result the system is full of bilious impurities—a condition in which the malarial germ thrives. Under the influence of Herbine the Liver becomes active again, the system is cleansed of disease germs, bile and impurities, the digestion is strengthened and the bowels regulated. When the vital organs are purified and working freely there can be no Chills, Malaria, Low Spirits or Sallowness. The body is full of overflowing with a fine feeling of vigor, strength and cheerfulness.

We have been informed by parties living in that section of the county, that Commissioner J. V. Birdwell has for some time back been at work on the Logansport road from the Carena Creek toward the Shelby county line, and has a number of teams and men engaged in the work and is putting up a splendid job and the people are very much pleased with it.

It is stated that this is the first time in about 20 years that this road has been worked, and the people out there had about decided that the road could not be benefited, or that the county did not care to do anything on it. Commissioners Birdwell and Muckleroy have done more good work on the roads in this part of the county than has been done almost since the roads were first laid out.

Some of our exchanges are complaining at the president for the appointment of a negro of Oklahoma as registra of the treasury, and calling him all sorts of names. They do not seem to understand that the appointment was made at the instance of leading politicians and men of affairs in the party, not only in Oklahoma, but at other points in the United States. The protest being filed by a number of Southern Democrats will likely result in the appointment being called in.

Burglary Sunday Night

Sunday night after supper Mr. M. F. Gillett and family went across the street to spend a short while visiting with Mr. and Mrs. C. W. Butt, and were away from home probably not more than an hour. When they returned they found that someone had been through the house and had taken from a drawer in Mr. Gillett's desk cash to the amount of about \$25.00.

A telephone message was immediately sent to Sheriff Rich, but as the sheriff has no dogs it was impossible to do anything toward running down the burglar.

Mr. Rich went out early Monday morning and made an examination of the premises and tried to locate some clue on which to work, but could find nothing. The party who entered the house pulled a tin box in which Mr. Gillett stores his papers from under the desk and left it in the middle of the floor the drawer in which the money had been kept was left standing open, nothing else was disturbed in the room. It is believed that the burglar must have heard Mr. and Mrs. Gillett returning and made an exit out the back way.

Keep your vital organs in good condition if you would have health through the malarial season. Prickly Ash Bitters cleanses and strengthens the stomach, liver bowels and helps the system to resist disease germs.—Stripling Haselwood & Co. Special Agents.

Preparing For Original Turkey Trot.
Cuero, Texas, August 5.—Elaborate preparations have been made here for the Second Annual Turkey Trot which will start November 18th, lasting through the 21st. The program committee has completed its work of arranging details for the event and many special features have been added this year. It was planned to have 2,000 live turkeys in the parade but from present indications this number will be materially increased. The 3rd. United States Cavalry Band, stationed at San Antonio will head the parade and will be followed by decorated floats and other attractions. Governor Colquitt will be in attendance and will deliver an address. Additional entertainment includes horse races, carnival, grand ball, and foot ball game between A. & M. College and some worthy opponent. It is expected that several thousand people will be in attendance.

A Valuable Suggestion to Our Young People, Concentrate.

Don't spatter a pint of brains over the vast field of art, science and literature. Don't think that a smattering of Greek and Latin, analytics and college yells make one a learned man or fits him for business, and don't hitch a business brain to a Greek lexicon. Many a man becomes nothing by trying to become all. The shot gun uses much more ammunition than the rifle, but it isn't half as effective except on little game.

The professions are all over crowded; it requires half a life time for one to succeed in them, and half a fortune to begin success. With business it is not so.

Get busy; do things; life's too short for business men to spend effort on dead languages and other things two thousand years old, when living issues and golden opportunities are calling them on.

The things that business men want you to know are not taught in a university. They must be learned in a practical business training school like the Tyler Commercial College of Tyler, Texas. A school that has for years studied the demands of the business world, and with its own special prepared text books and "learn to do by doing" methods of teaching, are meeting them.

Their courses of business administration and finance, bookkeeping, shorthand and telegraphy are thorough and complete and meet the demands of the business office. Young friends, there is no walk of life that you can pursue as successfully without a business training as with it.

Next week this paper will publish statements from many of America's greatest statesmen and business men as to the value of a business training.

Whether You Use Calomel or Not

You Will Realize How Much Better for You This Safe Vegetable Remedy Will Be.

The liver is such a delicate organ that most people have learned from experience the danger of flogging it into action with the dangerous drug—calomel. Stripling, Haselwood & Co. drug store sells and recommends Dodson's Liver Tone, a pleasant tasting, harmless vegetable liquid that encourages the liver, relieves constipation and biliousness without restriction of habit or diet.

There are no bad after effects from taking Dodson's Liver Tone. It does just what it is intended to do and no more. Dodson's Liver Tone cannot harm either children or grown-ups and is an excellent preventive of chronic liver troubles.

Stripling, Haselwood & Co. drug store sells Dodson's Liver Tone for 50 cents per bottle and every bottle sold is guaranteed to give satisfaction, and you get your money back without a question if it fails you. Some remedies are sold in imitation of Dodson's Liver Tone—look out for them. Remember the guarantee.

So Many People Die of Blood Poison

A little scratch on the hand a splinter, or small abrasion of the skin is often fatal because the poisonous germs start the infection. That's where Hunt's Lightning Oil comes in handy as an application on the abrasion, kills all germs which may have lodged there, thereby preventing infection and death. It pays to keep this remedy in the home, especially where there are children. All drug stores in 25c and 50c bottles.

Corn advanced in the Chicago market seven cents per bushel this week, and there is every indication that it will still go higher. Drouth conditions over a large portion of the corn growing sections of the country is given as one cause for the advance; a number of states that produce a large amount of corn ordinarily will this year not produce enough for their own use.

Scratching For Fun.

We would have great sympathy for those who have to scratch continually, if there wasn't a remedy for the trouble, but as Hunt's Cure is Guaranteed to cure or money refunded, it would seem that those who scratch do so just for the fun of it. It's a special remedy for Itch, Eczema, tetter, ringworm, etc.

FOSTER'S WEATHER BULLETIN

Copyrighted 1913 by W. T. Foster

Washington, D. C., Aug. 6.—Last bulletin gave forecasts of disturbances to cross

continent 8 to 12 and 13 to 17; warm waves 7 to 11 and 12 to 16; cool waves 10 to 14 and 15 19. Great extremes of temperatures will result very warm near August 8 and unusually cool near 12. These being the dates that the warm wave and cool wave will cross meridian 90 eastward bound.

Here is where the corn crop will find its test and the result is in doubt. Dry, hot weather has the right of way and the final result is problematical. Friends of this weather bureau have been advised to buy and hold grain and cotton, particularly oats and cotton, because we believed that crop weather of 1913 would cause these farm products to go to higher prices.

We continue to advise farmers not to sell and advise those who have bought to hold, at least till the end of August because we believe

Friendship Votes Tax.

A letter from Rev. G. W. C. Selt to the county superintendent gives the information that the school district of Friendship on last Saturday voted a special tax of not to exceed 50 cents on the \$100 valuation for school purposes. The election was carried by a vote of 20 of the tax and 7 against the tax.

Mr. Selt was very active in support of this tax for the schools and feels very much elated over the result.

August weather will make higher prices.

Next disturbance will reach Pacific coast about August 17, cross Pacific slope by close of 18, great central valleys 19 to 21, eastern sections 22. Warm wave will cross Pacific slope about August 17, great central valleys 19, eastern sections 21. Cool wave will cross Pacific slope about August 20, great central valleys 22, eastern sections 24.

With this disturbance the temperatures will turn upward following the comparatively cool weather that followed the last disturbance and the last half of August is expected to be unusually warm and dry.

Not far from August 12 showers may be expected.

The most severe storms of August will come with this last described storm wave but no very destructive storms are expected. These storms may be expected along parallel of latitude 40.

Automobile Exports 40 Million Dollars

Washington, D. C., August 1.—According to figures just compiled by the Bureau of Foreign and Domestic Commerce, Department of Commerce 40 million dollars worth of automobiles and parts thereof were sent out of continental United States in the fiscal year 1913, against about 1 million dollars worth in 1903, a decade earlier. These figures of 1913 include: 26 million dollars worth of finished automobiles sent to foreign countries, about 2 1/2 million dollars' worth to Hawaii and Porto Rico, 4 million dollars' worth of tires, 2 million dollars' worth of automobiles engines, and five and one fourth million dollars' worth of parts other than tires and engines. It was only in 1902 that the exports of automobiles became sufficient to justify a separate record of this class of merchandise, the

figures for that year, including the separate parts, being less than 1 million dollars. In 1907, five years later, they were but \$6 million and in 1910, approximately 12 million dollars in value.

The Tyler precinct has voted a \$300,000 bond issue for good roads. That shows progressiveness in those things which count for much gain for the people who have to foot the bills. The adoption of a policy which means the construction of good roads is the expression of intelligence uninfluenced by either political or sectarian considerations, though at the same time it evidences both good politics and good religion.—Houston Post.

All States Will Shine at the Panama-Pacific International Exposition at San Francisco In 1915

UNITED STATES' GREAT PANAMA CANAL CELEBRATION WILL BE MARKET PLACE OF WORLD.

Texas Leads Union In Agricultural Production and Can Make Vast Exhibit of Its Wonderful Resources.

In what measure and to how great an extent is the state of Texas to benefit from the opening of the Panama canal?

Figures and statistics will be used to tell at this date the state of Texas the inevitable result of the opening of the Panama canal. It is a fact that Texas must accept the opening of the Panama canal with a contented heart, for the opening of the Panama canal will be the ultimate good that has ever come from the canal.

Upon cotton Texas looks for much hope. She is the greatest producer of that necessity in the world. Her exports are largely to the orient and to the west coast of South America, where are the greatest consumers of cotton cloth. The Panama canal will bring those customers of Texas nearer by several days' time and by leagues of distance, thereby creating a quicker and more expeditious supply to a demand that is continually increasing. The rich corn and the full crops of wheat, the multifarious fruits and the ever widening supply of cattle which Texas is producing year by year—these, in addition to its command of the cotton industry, are commodities for which the Lone Star State will find new markets upon the opening of the Panama canal. The demand will be brought into closer touch with the supply. But how is Texas to secure that demand to herself?

She must find the opportunity that will present her products to the new markets and emphasize them before the old markets.

Such an opportunity will be provided by the Panama-Pacific International Exposition, which will be held at San Francisco in 1915.

This gigantic festival of commerce is by decree of the United States government the official celebration of the completion of the Panama canal. The Exposition has a purpose which reaches even higher than a national assertion of a nation's success in establishing a means of revolutionizing the commerce of the world. The purpose of the Exposition is to bring the nations of the world together, that all may see what all have done in their industries and in their commercial enterprises, that one may compare with the other and so determine upon the best sellers and the best buyers.

To put the situation even more practically, the Panama-Pacific International Exposition is to be the shop window of the world in 1915. It is to be the general department store, the universal bazaar of a new era. And to that department store or bazaar every buyer and seller in the world will come to look upon the newest product, the most modern means of manufacturing the product into the salable article and to learn the reason why one thing is better than another and why one way is more advantageous to the benefit of the consumer, to the credit of the producer and to the welfare of the community.

Briefly, then, that is the boon that the Panama-Pacific Exposition offers to those who participate. It proposes to establish sounder trade between states, between countries and among the peoples of the world. The Exposition is a peace movement of the most definite compass. Its compass is the binding of nations, because commerce is the surest tie of friendship.

And the one tremendously moving principle of the Exposition is that the participants in this international festival shall reap its benefits practically for the mere asking. The space for exhibits is extensive, but is nevertheless limited. Those who come first are the first served. It is not a question of who pays the biggest price. It depends upon who grasps the opportunity most firmly. The race is to the swift. The battle is to the strong. If Texas runs Texas will win; if Texas strains and strives Texas will be the victor.

It costs nothing to win. There is no charge to the victor. Exhibit space is absolutely free to all exhibitors at the Panama-Pacific International Exposition. All the capital which has been put into the great Exposition and all the millions who will attend are at the disposal of the exhibitor, without any cost whatever to him, except the cost of transportation, installation and maintenance.

There are those who are in the race already—those who have caught the meaning of the opening of the Panama

canal and understood the expression of that meaning in the Panama-Pacific International Exposition.

Many of the nations of Europe and China and Japan in the orient already have officially accepted the invitation of the president of the United States to take part in the United States celebration of the nation's grandest achievement. A more complete representation of the Latin-American in an Exposition has never before been made. Of the western countries which have realized that they will find markets at the Exposition are Bolivia, Chile, Costa Rica, Ecuador, Guatemala, Mexico, Nicaragua, Panama, Peru and Salvador. All of these countries will be at the Exposition, represented by exhibits of their resources, displayed in a manner that will impress and convince, assuring other countries of the world of their natural and industrial power.

Half the advantage of a good shop window is the manner in which the goods are set out. A well arranged store will always sell more than a store which is a jumble of effects thrown together in unmethodical profusion. America has determined that the universal department store of 1915 shall be the best looking store that has ever been opened to the world.

It is costing \$80,000,000 to complete California, chosen as manager of the store by national approval, has devoted \$17,500,000 in hard cash to the equipment of the Exposition, and her total investment, when the appropriations of the countries are considered, will exceed the magnificent sum of \$20,000,000. So that the Panama-Pacific International Exposition is not going to be an ordinary exposition. It celebrates an event which is very much above the ordinary. The opening of the canal is an event of supreme significance. The Exposition which celebrates the completion of the canal will be of such an extraordinary kind that it will fittingly express that tremendous significance.

San Francisco is making ready for the reception of the nations of the world which will visit the great bazaar in 1915. She has begun to build. The site of the Exposition at Harbor View, San Francisco, where the waters of the bay of San Francisco narrow down to the channel of the Golden Gate, is now taking shape rapidly. Giant structures of truly massive grandeur are being erected.

In all there are fourteen palaces of exhibits to be erected by the Exposition Company in the middle section of the World's Fair. The other two sections are to be occupied on the west by pavilions of foreign nations, of which twenty-four have accepted the invitation to participate, and on the east by an aggregation of amusement concessions which are to be of the most novel and entertaining kind.

The fourteen main exhibit palaces will house the displays of eleven departments, which have been classified into 156 groups, subdivided into 800 classes. The departments consist of the following: Fine Arts, Education, Social Economy, Liberal Arts, Manufactures and Varied Industries, Machinery, Transportation, Agriculture, Live Stock, Horticulture and Mines and Metallurgy.

Texas will find its particular appeal in the palaces of Manufactures and Varied Industries, Agriculture, Live Stock, Horticulture and Mines. In those palaces will be found the competitors of Texas in the industries there represented. All the great cotton growing states will have their exhibits to show to the world, while the countries which want cotton to manufacture into cloths and textures will visit those displays and choose their markets.

The palaces in which the displays will be arranged are of an unprecedented beauty, set in a picture which no previous Exposition has had for its natural surroundings. California's climate permits of floral extravagance if there ever could be such a joy as a superfluity of charm. The Exposition will be a garden in which the efforts of man will stand among the results of nature's own working.

America is the hostess of the world in 1915, and she wants to see that her own household is properly represented at the International "at home." Not to be fully represented is to offer a slight to the guests who are going to be there in their best clothes.

Texas has much to show. She has much to smile for. She has much to give, but infinitely more to receive. And she receives with no outlay whatever.

LET'S SHOW 'EM WHAT WE HAVE.

STATES ARE HUSTLING---EXHIBIT SPACE FREE.

Exhibit space is absolutely free to all exhibitors at the Panama-Pacific International Exposition in San Francisco in 1915.

All the capital that is being put into the great Exposition and all the benefits to be derived from the millions of visitors who will view the exhibits are at the disposal of the exhibitor without any cost whatever to him, except the cost of transportation, installation and maintenance.

Every state in the United States will be represented at the Exposition. In most of the states the legislatures have made direct appropriations for participation. In the few that have not done so commercial interests are co-operating to raise large sums in order to have their states represented. This is being done in Iowa, Oklahoma and other commonwealths which feel that as they bore a part of the expense of building the Panama canal their citizens should participate in the Exposition that is to celebrate the canal's completion.

THOUSANDS WILL VISIT TEXAS ON WAY TO THE GREATEST OF WORLD'S EXPOSITIONS.

Huge Agricultural and Live Stock Displays a Part of Marvelous Universal Exposition in 1915

THE whole world is interested in the United States' great Panama Canal Exposition, the Panama-Pacific International Exposition, to be held in San Francisco in 1915. More than a year and a half before its opening the Exposition is assured as the greatest celebration in the history of the American people.

Thousands of visitors from all parts of the earth will attend the Exposition. Each one of the eight transcontinental railroads terminating upon the

The sum of \$175,000 has been appropriated by the exposition management for prizes and premiums in live stock, and \$225,000 has been set aside for harness racing. An unusual feature of the live stock exhibit is that the cattle will be on exhibition during the entire course of the Exposition from Feb. 20 to Dec. 4, 1915.

The Panama-Pacific International Exposition will represent an expenditure of many millions. According to a recent statement gathered from the comptroller of the Exposition, the total outlay for the big show on the day of its opening will be \$80,000,000, and this will not represent the enormous amount represented in the exhibits of the world. Some of the exhibits will represent outlays of \$250,000 to \$300,000.

The exhibit buildings will be grouped along San Francisco bay not far from the famous Golden Gate, the entrance to the superb harbor of San Francisco. Indeed, the buildings may be seen to best advantage by any one entering the Golden Gate. Even now a splendid idea of how the complete Exposition will appear at a distance may be gained from a view of some of the palaces now arising.

The tallest structure at Harbor View, the Exposition site, will be 425 feet. Around this will be grouped huge domes, minarets and towers, which from a distance of four or five miles

Pacific coast will issue low round trip rates. Undoubtedly hundreds of thousands of travelers will see Texas for the first time, and great numbers of them will take advantage of stopover privileges to see Texas either on their way to the Exposition or else upon the return trip.

From foreign lands will come multitudes to America for the first time. Twenty-seven of the world's great nations are preparing to make governmental displays, and from each foreign country delegates will attend to see the part their native land is taking at America's Panama exhibition.

The opening of the Panama canal marks a new epoch in the world's trade. The shifting of trade routes that have endured for centuries and the opening of new fields of commercial expansion to the nations of the earth are anticipated in every financial center in the world. Many of the greatest manufacturers of the world will bring their wares and display them upon an elaborate scale at San Francisco.

The United States is shortening the sea voyage between the Pacific and Atlantic coasts by 8,000 miles. It is providing markets for hundreds of thousands of farms, ranches, factories and great industrial plants in the United States. It is opening up to the profitable commerce of the European nations the Pacific coasts of North and South America and is rendering possible direct commerce between the orient and the Atlantic coasts of North, South and Central America. Every state, territory and colonial possession of the United States will share in our increased national prosperity. Every country in the world will profit. The nations of the world are preparing to participate in the Exposition upon a vast scale.

The Panama-Pacific International Exposition will be unlike any great world's exposition ever held. In the first place, it will not commemorate a past achievement, but one that is making history today and which holds out almost unlimited possibilities for the future. As the Exposition will be educational, all exhibits will be shown in action wherever practicable. It is planned among other exhibits to present the greatest displays ever made of the processes of cotton manufacture. The most modern cotton gins ever shown will be exhibited. The heaviest exhibits in the world will unload directly on the Exposition grounds from the ferry slips and thence be carried by train into the exhibit palaces.

Of particular interest to the citizens of Texas will be the wonderful live stock displays. These will, it is now known, surpass any ever made at the greatest of world's expositions. They will indeed be comparable to a tremendous state fair at which are shown the most valuable prize winners from half a hundred states as well as from dozens of great foreign countries. Prize live stock from Holland, Belgium, England, the Argentine, China, France and other lands will be shown side by side with the greatest live stock animals of America. Texas, with its vast herds of range cattle and its thousands of head of high grade dairy stock, is in position to make a showing that will rival that of any part of the world.

will seem like the great domes of Constantinople, only upon a far greater and more impressive scale.

The center of the Exposition grounds will be devoted to the huge exhibit palaces in which exhibits from all parts of the world will be displayed. There will be about fourteen exhibit palaces covering a hundred acres. A single building, Machinery hall, will be 967 feet long, 367 feet wide and 135 feet high. This gives an idea of the huge size of the structures.

To the west of the main exhibit buildings and immediately adjoining them will be the vast space reserved on the picturesque Presidio reservation for the foreign nations and by the different states. It seems certain that every state will be at the exposition, more than \$2,000,000 having already been set aside for state exhibits.

LIGHTNING STRIKES CHURCH

The Spire on the Methodist Church has Several Planks Knocked Off. Light Fuses Burned.

From Saturday's Daily:
During the rain and thunder storm just after 1 o'clock today the spire on the Methodist church was struck by a bolt of lightning and several planks knocked off. The bolt seems to have gone downward and burned out the light fuses inside the church near the front entrance to the building.

Parties standing on the street were startled by a sharp report, as of a cap or pistol shot, followed by the roar of thunder, and every one knew that lightning had struck some where near. An alarm was turned in to the fire station and as the fire bell rang a general rush was made toward the Methodist church, and quite a number went to the church to make an examination.

Near the top of the spire several planks were knocked off down to the windows, the bolt seems to have jumped the window and tore off more planks further down and near the base of the spire. Over the windows are two smoked places which look as though the bolt had made an exit there. The fire alarm was turned in on account of considerable smoke issuing out of the torn places in the structure.

On the inside of the church and near the front entrance the electric light fuses were burned out and the sockets melted.

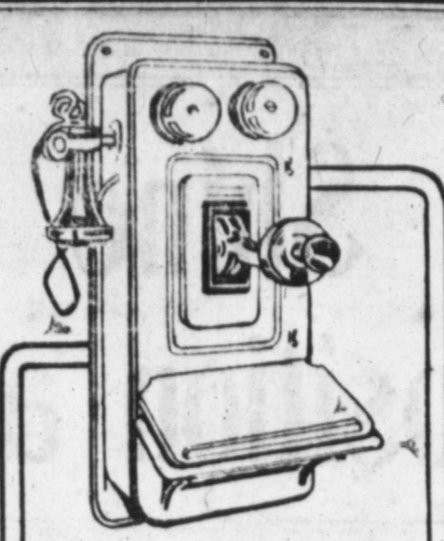

The damage done is slight. It seems that the same bolt of lightning must have continued on down the street as the corner of Will Pressler's residence was struck and a lot of boards knocked off and thrown into the street. The damage done to this residence will possibly reach \$20.

Kidney Trouble began with a lame Back.

J. L. Hackl, 915 Eight St., Lincoln, Ill., was recently cured of a bad case of kidney trouble that started with a lame back, and says: "I am certainly thankful of getting a cure of my kidney trouble by using Foley Kidney Pills." Try them yourself. Swift Bros & Smith. eod

Married Wednesday.

Walter Youngblood and Miss Delia Dunn of the Henning community, drove to the home of Judge Abernathy Wednesday and were quietly married, the Judge officiating. The happy couple are well known and have many friends in the community in which they reside with whom The News unites in congratulations and good wishes.—Garrison News.

Sometimes the symptoms of kidney and bladder trouble are so plain no one can mistake them. Backache, weak and lame back with soreness over the kidneys, sharp pains, rheumatism, dull headache, and disturbed sleep, are all indications of a trouble that Foley Kidney Pills will relieve quickly and permanently. Try them. Swift Bros & Smith. eod

The Clement Grain Company shipped from Waco recently a solid trainload of oats, consisting of thirty cars. This is the largest shipment of Scotch grain ever forwarded from there.

Postmaster Antonie Deloria Gardner, Michigan, speaks for the guidance of those troubled with kidney and bladder irregularities, and says "From my own experience I can recommend Foley Kidney Pills. My father was also cured of kidney disease, and many neighbors were cured by Foley Kidney Pills. Swift Bros. & Smith eod

JUMPED FROM TRAIN.

Young Man is Badly Injured from Fall. Jaw Broken and Head Fractured.

from Monday's Daily:
Saturday night Hubert Isabell of Garrison was brought to Dr. Tucker's sanitarium for treatment of injuries received in jumping from a train near Redfield. The young man is in a very critical condition.

It seems from the best report we can get that last Friday night young Isabell got on the east bound passenger train here to go to his home in Garrison. He not having a ticket the conductor told him that he must get off. When the train passed Redfield it is believed that he jumped from the train or fell off. It is stated that the train slowed up a little, but resumed its way. Saturday afternoon the section foreman passed the young man laying near the tracks and picked him up and carried him to Appleby on the motor car, and brought him from there to Nacogdoches early Saturday night. At the sanitarium an examination developed that the young man's under jaw was shattered badly, his nose broken and the skull fractured near the edge of the hair on his forehead.

It is believed that when the young man fell off the train he was rendered unconscious, and that he lay in that condition all day Saturday until the rain in the afternoon revived him, and then he wandered about for a time trying to get relief.

The daughter of A. Mitchell, Bagdad, Ky., had a bad case of kidney trouble and they feared her health was permanently impaired. Mr. Mitchell says, "She was in terrible shape but I got her to take Foley Kidney Pills and now she is completely cured." Rheumatic Blood is Whole Story

Wonderful Specific for Sciatica, Lumbago, and a Cure for Dreaded Articular Rheumatism.

There is a host of pills, powders, tablets and what-not for rheumatism, but they all lack the first essential to being a natural medicine. To begin with, rheumatism is simply a name given to designate a variety of pains, and can only be reached by irrigating the entire blood supply with a naturally assimilative antidote. True, the pains may be eased with narcotics or the acids may be neutralized for the time being with other acids. But these merely temporize and do not even lead to a cure. There is but one standard rheumatism remedy, and it reflects the best thought of the day. It is prepared in the great Swift Laboratory in Atlanta, Ga., and sold in all drug stores under the name of S. S. S. at \$1.00 a bottle.

Starvation has been advocated by many as a cure for rheumatism, and yet S. S. S. accomplishes in fact what fastidists proclaim in theory and without the punishment of starvation. Hot springs and sweating are often recommended, but S. S. S. does all that is expected of these expensive and weakening methods. The recoveries of all these types of rheumatism by the use of S. S. S. is a wonderful tribute to the natural efficacy of this remarkable medicine, for it is assimilated just as naturally, just as specifically, and just as well ordained as the most acceptable, most palatable and most readily digested food. Do not fail to get a bottle of S. S. S. to-day. You will be astonished at the results. If your rheumatism is of such a nature that you would like to consult a great specialist confidentially, write to The Swift Specific Co., 127 Swift Bldg., Atlanta, Ga.

Don't Look Old Before Your Time

That headache, so common among women, brings with it the sunken chest, the headache, tired muscles, crow's-feet, and soon the youthful body is no more youthful in appearance—and all because of lack of attention.

There is no reason why you should be so unfortunate, when you have at your disposal a remedy such as Dr. Pierce's Favorite Prescription—recommended for over 40 years as a remedy for ailments peculiar to women. We have thousands upon thousands of testimonials on file—the accumulation of 40 years—testifying to its effectiveness. Neither narcotics nor alcohol are to be found in this famous prescription. It regulates irregularities, corrects displacements, overcomes painful periods, tones up nerves. Brings about perfect health. Sold by dealers in medicines, in liquid or tablet form.

Dr. Pierce's Favorite Prescription

Dr. Pierce's Medical Adviser, newly revised up-to-date edition, answers hosts of delicate questions about which every woman, single or married ought to know.

WOMAN'S delicate system requires more than ordinary care and attention—more care and attention than it is given by the average woman.

Neglect it and ills soon creep in, and the look of old age, sometimes quickly, sometimes gradually follows.

Bankruptcy Court Sale.

In the District Court of the United States for the Eastern District of Texas.

In the matter of Garrison Brick & Tile Co., bankrupt. In Bankruptcy No. 1727.

At Tyler, in said district this 11th day of July, A. D. 1913.

The petition for the sale of all the property of the bankrupt, the Garrison Brick & Tile Company, coming on to be heard and it appearing to the court that due and legal notice to all parties and all creditors had been given, now after hearing the bankrupt and various creditors in favor of said petition; and after hearing L. C. Christian, trustee of the estate of E. F. Brown, bankrupt, of Houston, Texas, in opposition to the making of an order for the sale of said property; and it appearing to the court after due consideration of the law and the facts that said property should be sold freed from all liens and incumbrances;

It is therefore ordered, adjudged and decreed by the court that the following described property be sold by Thos. D. Bonner, trustee, on the premises of the Garrison Brick & Tile Company in the town of Garrison, Nacogdoches County, Texas, on Monday, the 11th day of August, A. D. 1913, to the highest bidder for cash; said property to be sold freed from the liens of the Houston National Exchange Bank of Houston, Texas, H. S. Fox, Jr., of Houston, Texas, L. C. Christian, trustee of the estate of E. F. Brown, bankrupt, of Houston, Texas, and all other lien holders, said property being described as follows, to-wit:

(1) 320 acres of land in Nacogdoches County, Texas, out of 640 acres granted to Joseph Coody, Patent No. 268 Vol. 8.

(2) All that certain tract of land in Nacogdoches and Rusk Counties, Texas, being a part of the Salazan Headright known as Block No. 3 in the division of said headright, containing 129-1/2 acres of land more or less.

(3) 56 25-100 acres of land out of the above described Salazan headright in Nacogdoches and Rusk Counties Texas; all of which said land was conveyed to the Henderson, Texas; all of which said land was conveyed to the Henderson Brick & Construction Company by S. W. Henderson, who received the same from the Garrison Paving Brick Company by deed dated May 25th, 1903, to which deed and the record thereof reference is here made for a

further description of said land, and to the Garrison Paving Brick Company about August 27th, 1896, by C. F. Arnold, M. G. Howe, A. P. Root, W. M. Read, W. H. Mitchell, H. W. Garow and J. F. O'Connor, by deed recorded in Vol. 83, pp. 617-621 of the Deed Records of Nacogdoches County, Texas, in which said last named deed the above lands are fully described, and to which deed reference is also made for a description.

(4) Also that certain tract of land in Nacogdoches and Rusk Counties, Texas, containing 40 1-3 acres situated about twenty miles northeast from the town of Nacogdoches and is a part of the J. J. Acosta League, being the same land as was conveyed by Jules Belmont and others on Nov. 1, 1897, to the Garrison Paving Brick Company, by deed recorded in Vol. 35, p. 324, of the deed records of Nacogdoches County, Texas, to which deed and the record thereof reference is here made for a more complete description of said 40 1-3 acres.

(5) Also all other land in which the Garrison Brick & Tile Company may have an interest by virtue of a certain deed executed by E. F. Brown to the Brown Brick & Tile Co., of which the Garrison Brick & Tile Co., is the successor, which deed is dated January 11, 1910, recorded in Vol. 72 p. 508, of the deed records of Nacogdoches County, Texas, by which deed the said Brown conveyed all interest he had in lands transferred to him by the Henderson Brick & Construction Company on the 15th day of December, 1909.

(6) Also the entire brick plant, consisting of boilers, engines, machinery and all personal property owned by the Garrison Brick & Tile Co., of whatever nature pertaining to the operation of the brick plant at Garrison, Texas, formerly known as the Garrison Paving Brick Co., and described in a certain deed hereinbefore referred to from the Henderson Brick & Construction Co., to E. F. Brown, and also described in a certain deed of trust executed by the Brown Brick & Tile Co., to E. F. Brown on February 2, 1912, to secure certain notes described therein, which deed of trust is recorded in Vol. 6, p. 48, of the deed of trust records of Nacogdoches County, Texas.

The said Thos. D. Bonner of Tyler, trustee herein, is ordered and directed to sell the above described property together with all machinery situated thereon for manufacturing brick, all tools and

implements and improvements of all kinds, and to sell the same by sealed bids to the highest bidder for cash, subject to the approval and confirmation of this court, and all the said above described assets and property of the Garrison Brick & Tile Company is hereby ordered to be sold freed from all liens on the premises of the bankrupt in the town of Garrison, Nacogdoches County, Texas, on Monday the 11th day of August, A. D. 1913.

And it is further ordered that there be publication of the notice of this sale once a week for four weeks prior to such sale in the Sentinel, a newspaper published at Nacogdoches, Nacogdoches County, Texas, and in the Telegram, a newspaper published at Overton, of the notice of this sale once a week for four weeks prior to such sale in the Sentinel, a newspaper published at Nacogdoches, Nacogdoches County, Texas, and in the Telegram, a newspaper published at Overton, Rusk County, Texas.

It is further ordered that the funds derived from the sale of this said real estate shall be held in trust, pending the determination and validity of any and all existing liens—that is to say, this property is ordered to be sold clear and free of liens and the liens transferred to the funds arising from the sale of said property on which said liens exist.

It is further ordered that notice by mail be, and the same is, this day given the bankrupt, all scheduled creditors, all attorneys of record and all other parties at interest.

(Signed) Hampson Gary, Referee in Bankruptcy.

In pursuance of the above order, I will sell at Garrison, Texas, on Monday, the 11th day of August, A. D. 1913, all of the property of the Garrison Brick & Tile Company, Bankrupt. Said property to be sold freed from all liens, according to directions given in the above order.

For further information, apply to Thos. D. Bonner, Trustee, 4tw Tyler, Texas.

The Council Meets.

The city council met yesterday afternoon in regular monthly session, Mayor Matthews presiding and all aldermen being present.

The business of the meeting was mainly of a routine nature, the examining and filing of the monthly reports of the several officers and the paying of current accounts.

Considerable time was spent in discussing matters of interest to the city, but as no action was taken no notation was made on the minutes of the council.

An ordinance was passed requiring that citizens within 150 feet of any of the sanitary sewers of the city make connection with such sewer.

H. T. Mast presented a proposition to the council, in which he proposed to furnish a team if the council would furnish two hands for working that section of North Fredonia street near the northwest corner of the college campus and extending north to the end of the street, and also the street running east and west across Fredonia. The council seemed very favorable to the proposition, and will take steps to avail themselves of the offer of Mr. Mast. This will be of great advantage to this street, which has heretofore been somewhat neglected.

Auto and Motor Car Run Together.

At Joaquin last Sunday afternoon an automobile and a railroad motor car ran together at the crossing right in the heart of the city; both of the machines were pretty badly damaged, the automobile suffering most, and several of the men were more or less hurt, none seriously.

It seems that both the parties were out for a Sunday afternoon run, and when approaching the crossing both machines expected the other to wait at the crossing for the other to pass, but each figured wrong and they crashed into each other. Reports are to the effect that for a time the air was filled with men and machinery.

The motor car belonged to the railroad and was occupied by five passengers and the automobile was driven by a gentleman by the name of McKee and he was accompanied by two others.

B. P. O. E. 151 Will Play Lodge of that City—Stude's Stalwarts Undefeated.

Captain Henry Stude and Manager of B. P. O. E. 151's ball club had begun to believe that running an undefeated club was nosinecure by any manner of means. It was all true enough that the team had beaten every one they had played and that it boasted a batting average of about 1000 plus, but these things in the long run were handicaps. For vainly the manager wrote long letters and tore his hair. Vainly the gallant captain got his team out for practice. All the other Elk lodges had taken to the high grass and refused to play. The terrible example of Beaumont and Galveston was enough, not to mention Corpus Christi.

Now, however, all is bright once more. The Nacogdoches lodge has consented to become a victim, and B. P. O. E. 151 will sally to that burg Friday for another feast on gore.

Con Lucid will coach the team all this week and chaperone them to Nacogdoches. The full quota of 12 men will be carried.

B. P. O. E. 151, team and rooters, will leave Houston Friday morning in a special Pullman and arrive in Nacogdoches at 2 o'clock, if the Lord and the train schedule are kind. They will leave Nacogdoches Friday night and return to the Bayou City Saturday.

Wilson's Resignation Accepted.

Washington, D. C., Aug. 4.—President Wilson today took the first steps in the policy through which he proposes to deal with the Mexican situation. He formally accepted the resignation of Ambassador Henry Lane Wilson to take effect on October 14, and sent to Mexico City as his personal representative, but not accredited to the Huerta government, former Governor John Lind of Minnesota, a lifelong friend of Secretary Bryan. The understanding is that when a stable government is established in Mexico, Mr. Lind will be formally named as ambassador.

Storm at National Capital.

A fierce wind, rain and hail storm visited Washington yesterday, causing great property damage, besides the killing of three people and the wounding of a score of others. A three story office building was wrecked, roofs blown from buildings, trees broken and sometimes uprooted. Congress was in session at the time and business had to be suspended until after the storm had subsided. The wind reached the velocity of seventy miles, and the thermometer which registered 100 before the storm broke fell to between 60 and 70.

Costly Treatment.

"I was troubled with constipation and indigestion and spent hundreds of dollars for medicine and treatment," writes C. H. Hines, of Whitlow, Ark. "I went to a St. Louis hospital, also to a hospital in New Orleans, but no cure was effected. On returning home I began taking Chamberlain's Tablets, and worked right along. I used them for some time and am now all right." Sold by all dealers. dw

Remarkable Cure for Dysentery.

"I was attacked with dysentery about July 15th, and used the doctor's medicine and other remedies with no relief, only getting worse all the time. I was unable to do anything and my weight dropped from 145 to 125 pounds. I suffered for about two months when I was advised to use Chamberlain's Colic, Cholera and Diarrhoea Remedy. I used two bottles of it and it gave me permanent relief," writes B. W. Hill of Snow Hill, N. C. For sale by all dealers.
