State and County Taxes.

Tax Assessor Bob Sullivan today finished making out the Tax Collectors Receipt from the footings of the several rolls of the county, and will present it to the commissioners court next Monday for their approval. After approval one receipt will be forwarded to the comptroller, one will be held by the tax collector and one by the assessor.

This receipt is a recapitulation of the several tax rolls with the amount of taxes collectable figured according to the tax rate of the state and county.

The total taxable value of the county, as shown by the rolls is \$9,228,490.00. The total tax, state, county and school, \$118,909.99.

The tax rate this year is State 45 cents, county 58 cents.

Last year the rate was State, 26 2-3 cents, county 48 cents.

Nacogdoches county will this year contribute to the Confederate pension fund \$4,764.24.

Advices the Road Drag at Once.

Mr. Editor:

It looks like the fall rains have come. And now is the time to commence dragging the county roads. Commence in time, don't wait until the roads are ruined, and then curse the commissioners.

We will have to depend a good deal on the people donating the work as the county road and bridge funds are about out.

L. A. Leggs of Leggs store was in the city today on business and to see how things were coming along at the county seat.

M. G. Hasel returned yesterday from a visit of several weeks to Hot Springs, Ark., Mr. Hasel was at Hot Spring during the big fire of last week, and says that it was the biggest fire he ever saw, and a most wonderful sight, the flames and smoke rolling to such an extent that it was impossible to see beyond them and the roar of the fire engines accompanied with the rattle of the flames and cries of the fire fighters as they gave direction created an awful din. The only chance the fireman had against the flames was to dynamite buildings in its path and get them out of the way so that it would burn itself out.

Ed I. Rice, the "main push" of the Nacogdoches County Poultry Association, is kept busy these days sending out advertising matter to poultry raisers and answering correspondence with reference to the show that will be put on at the East Texas Fair next month. Last year the poultry exhibit at the fair was one of the most attractive exhibits of the whole business, and this year the Poultry Association believes that a bigger and better exhibit will be on hand.

Thaw's Trial May Drag Years.

Ottawa, Ontario, Sept. 8.—Dominion officials here foresee a delay of possibly two years before final decision in the Thaw case. The litigation, in their opinion, undoubtedly will be carried through the dominion courts to the privy council in England, where the final verdict will be written.

Until this verdict is given the immigration officials believe the court will not permit the deportation of Thaw and he will remain on Canadian soil.

The journey through the privy courts is a long one.

Drawing Plans for New School.

R. R. Loy, one of the trustees of the Nat school district, was in the city today, and with Superintendent W. B. Hargis, drew the plans for the new school building which will be built there.

The plans contemplate a modern four room school building with accordion doors and the requirements for ventilation and lighting exacted by the school laws rigidly complied with. When completed it will be one of the best in the county and the patrons of the school should feel proud of it.

An unprecedented attendance of freshmen at the Texas A. & M. College is expected when the school term opens September 23. Applications for enrollment are much heavier than in previous years, and Registrar Frelley says that there will be at least four hundred and fifty freshmen enrolled.

There is a ladies rest room in the second story of the new court house in the front corner. When the court house was built this rest room was provided, and equipped with every necessary convenience, and it was intended for the use of the ladies. We call attention to the fact so that ladies who wish to go to a rest room may know that such a room is provided and is for their use exclusively.

According to a bulletin issued by the American Medical Association our fourth of July celebration in 1913 cost the several states of the Union the lives of 32 and the injury of 1131 not fatality. This compares very favorably with the years 1903, the first year of the period covered by the bulletin in which there were 466 deaths and 3983 injuries not fatal. For the eleven years covered between 1903 and 1913 there were 1792 deaths and 39488 injuries not fatal. This is quite a heavy price to pay for our fourth of July celebrations, and is a strong argument in favor of a safe and sane fourth of July.

Nearly every day now the farmers of the country are inquiring with reference to the premium lists for the East Texas fair, and the management are handing out a lot of these premium lists. It begins to look very much like the interest in the fair is growing to such an extent that by next year the fair association will have to enlarge their premium lists to include a number of crops that have heretofore not been grown in this county, but which are now attracting attention. The premium list this year includes nearly everything that this section has been growing and the premiums are the most liberal the association has ever offered.

Future of Liquor Trade in the Hands of Dealers

In a statement given out today Bill Gray, attorney, says the liquor business in Texas will be of short duration if the county and city officials of the state do not regulate the traffic. Gray is a strong anti-prohibitionist, but he says he can see the handwriting on the wall; the rising tide of prohibition if all liquor dealers and anti advocates do not co-operate to stave it off by enforcing the law. His statement is as follows:

"From the Greenville Evening Banner of Aug. 21, we quote the following: 'A Houston liquor dealer who was put out of business by Criminal District Attorney R. C. Maury of Houston, has filed several charges against Mr. Maury, only one of which is a felony under the law. The sheriff was with Maury when the crime is alleged to have been committed and he did not hear the challenge to a duel. Men who fight the liquor evils must prepare for a battle all along the line.'

"The Greenville Evening Banner is one of the largest among possibly 500 prohibition papers in Texas which are skeptical about the regulation of the liquor traffic, and such occurrences as the one mentioned furnish these papers ample material in support of the prohibition argument which they are not slow to take advantage of.

"Strict regulation of the liquor traffic against prohibition has always been the doctrine of anti-prohibitionist. The violent opposition of a great number of those in the liquor traffic to any regulation whatever and the lawless violation of regulatory measures account for the failure of the strict regulation argument to produce the effect it should have—stopping the fast rising tide in favor of prohibition."

"Nothing would allay the prohibition agitation quicker than strict regulation sincerely accepted and strict compliance with the law by those engaged in the liquor traffic. So long as there is a lawless element, however, permitted to remain in the business and the law abiding element remains acquiescent, the prohibition idea will continue to gain ground and will come to be considered more favorably by the law-abiding class who are not interested in the business.

"The liquor question is a practical problem, not one of theory, so far as the business and the men engaged in it are concerned, and the law-abiding element in it must see to it that the business is purged of the element who are bringing upon this liberty loving country the curse of prohibition.

"It is to be hoped that the officials of this city and county will drive from its borders the lawless element in the liquor business and redeem the argument of anti-prohibition that strict regulation is better than statewide prohibition.

"It is also to be hoped that in this work they will receive the support and encourage-

ment of the law-abiding liquor dealers, whose tenure in business is limited to a very short time, if strict regulation does not become a sincere reality." — Houston Press.

The Lutkin Metropolis thus moralizes:

"Those of us who remember the familiar sound of the old church bell on Sunday mornings have never become used to their stillness now as a result of the new order of things. We loved to hear the old bell, the first peal announcing that it was time to prepare for Sunday school."

Still, there are those, particularly in cities, who are no longer charmed by the sound of the church bell. The great amount of noise made tends to prejudice the city dweller against any sounds that may distract the mind and spoil the early morning nap, and in most cities there is a sentiment in favor of cutting out whistles, bells and all other sounds that are not absolutely essential to business. This is a commercial age, and regardless of the sentiments of we old timers, it looks as if the church bell is doomed.—San Antonio Express.

Don't Try to Educate Old People.

In an article entitled, "Making Old People Happy," in the October Woman's Home Companion, appears the following:

"Don't attempt to reason any old person out of principles inculcated in youth. You cannot teach them that drafts are not dangerous, nor that there is nothing intrinsically deadly in night air. In general, modern hygiene may be relaxed for the old. A body which has thriven for eighty years or so upon scandalously unhygienic principles of eating, exercise, and ventilation may well go on thriving to the end of the chapter. An amazing quantity of sweets may often be taken without harm. The same principle of non-interference, with the notions of a lifetime, may wisely be applied to less material things. Modern views, whether on higher criticism or the hygienic neglect of babies, had better not be forced on the attention of old minds, being merely unsettling and painful."

The Silo a Diversifier.

Farmer Radford has given some splendid reasons why the farmers of Texas should build silos, and one of the most important is its influence upon diversification. Farming is a business and the apostles of diversification should not lose sight of this fact. The cotton crop last season brought \$27.19 per acre, corn \$16.40 which was its nearest rival. Will a farmer cultivate land at \$16.40 per acre when he can get \$27.19? Will a laborer work for \$1.60 per day when he can get \$2.70?

Farmer Radford has suggested the silo and the feeding of livestock as a means of taking up the difference and bringing corn up to the productive value of cotton per acre.

Profit is the most powerful agency for diversification.

Home.

Home is the place where our thoughts return in the hour of loneliness. Its memory seems to cling to us more in the time of need than in the moments of pleasure. We look upon home as a shelter where we find safety in times of distress, as a ship finds a calm sea behind the breakwater, when the waves roll high. Home is where we find a love worth while—a mother's love. Childhood days and the thoughts of home fill the hearts of the lowly as well as the lordly. We all love home but sometimes our thoughts are prone to other things that for the moment command attention and seem more pressing. The awakening sometimes comes too late—after loved ones have departed or furious elements have done their work—but it is inevitable as life and death. Home is the natural haven of rest.—Mrs. E. P. Turner, Chairman, Rural Homes Commission.

Waco Cotton Palace Has Unique Educational Feature.

Waco, Texas, September 4, The school children of Texas are invited to enroll their names as contestants for the cash prizestor the best models made in cotton to be exhibited at the Texas Cotton Palace at Waco this fall, November 1st to 16th. Mrs. John B. Coober, Waco Texas will be glad to receive the enrollment of all contestants from the entire state and communications addressed as above will receive prompt attention. Full set of rules will be forwarded and a list of the cash prizes given.

Marshall a Flyless Town.

Marshall has laid claim to being a flyless town and the modern fly-catching devices which have made good in that city verify the statement that "there are no flies on Marshall."

Scientists who have studied the housefly for years unite in saying that it is the most dangerous insect on earth and Marshall has put herself well within the health zone in exterminating the fly.

The clean-up days which were so common in commercial club work in Texas have been extended throughout the entire year, and the city of Marshall stands out boldly as a shining example of community sanitation. Kill the fly!

That innoculation for alfalfa is absolutely unnecessary in Texas, is the statement of B. Youngblood, director of experiment stations at A. & M. College. "When alfalfa fails as a crop that failure is due to lack of sufficient moisture, lack of proper soil fertility or some other deficiency, and not to need for innoculation. In Texas nature furnishes all the innoculation that is necessary."

Quit spending money on roads. Try to invest it.

Facts in Nature

FOR centuries it has been known that Nature's most valuable health giving agents for the cure of disease are found in our American forests. Over forty years ago Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute at Buffalo, N.Y., used the powdered extracts as well as the liquid extracts of native medicinal plants, such as Bloodroot and Queen's root, Golden Seal and Stone root, Cherry bark and Mandrake, for the cure of blood diseases. This prescription as put up in liquid form was called

DR. PIERCE'S Golden Medical Discovery

and has enjoyed a large sale for all these years in every drug store in the land. You can now obtain the powdered extract in sugar-coated tablet form of your medicine dealer, or send 50c in one-cent postage stamps for trial box to Dr. Pierce's Invalids' Hotel, Buffalo, N.Y., and tablets will be mailed, postage prepaid.

The "Golden Medical Discovery" makes rich, red blood, invigorates the stomach, liver and bowels and through them the whole system. Skin affections, blotches, boils, pimples and eruptions—result of bad blood—are eradicated by this alterative extract—as thousands have testified.

FOSTER'S WEATHER BULLETIN

Copyrighted 1913 by W. T. Foster

Washington, D. C., Sept. 6. September 12 to 20 will bring the equinoctial disturbances to cross continent August 4 to 8 and 10 to 14, warm waves 3 to 7 and 9 to 13, cool waves 6 to 10 and 12 to 16. Temperatures of these two disturbances, covering first half of September will average warmer and drier than usual and the storm forces will be of less intensity than usual except about and week following September 13.

Next disturbance will reach Pacific coast about September 14, cross Pacific slope by close of 15, great central valleys 16 to 18, eastern sections 19. Warm wave will cross Pacific slope about September 15, great central valleys 17, eastern sections 19. Cool wave will cross Pacific slope about September 17, great central valleys 19, eastern sections 31.

Temperatures of this disturbance will average above normal but will not average so high as the previous and following disturbances. It will bring the most dangerous storms of the month and altho we are not expecting such great catastrophes as occurred earlier in the year, we advise that no risks be taken. It is not difficult to find places of safety during a storm and we generally arrange our affairs so as to avoid dangerous

places. September 12 to 20 will bring the equinoctial storms this year and to warn people of danger periods is a part of our duty. Locating these dangerous storms is not an easy matter. The best we can do is to locate them 300 to 500 miles southeast of the center of the lows. We give the dates on which the warm waves are to cross the continent and these dates will not be far wrong. Watch the progress of the warm waves as the dangerous storms occur in them. The warm waves and the dangerous storms forms southeast of the lows. September 12 to 18 our danger signals will hang out and we hope they will save much suffering and destruction of property. No one denies that the moon is the principal cause of the tides and their locations. Just as surely the moon locates our rains and snows. This feature of our weather forecast system is not yet fully worked out, but in a general way the indications are that September will bring heavier than usual rains from Gulf of Mexico along our southwestern borders with moderate rains on New England coasts and dry elsewhere on this continent and in South America.

Live At Home.

The maritime news columns of the press announce that a large vessel loaded with canned goods at Baltimore has sailed for Galveston, to supply the Texas trade with canned goods, and the incident serves to forcibly remind us that we are not buying at home.

It is the old, old story of carrying coal to New Castle when we ship our fruits to the East and buy back the canned products; or worse still, to permit our vegetables and fruits to rot on the ground for want of canneries to use them. There is nothing that so builds a country as turning waste into profit, and there are many Texas products that have golden opportunities along this line.

The farmers of Texas are no longer villagers but are cosmopolitan citizens.

Baking Powder Biscuits

Light as a Feather

By Mrs. Janet McKenzie Hill, Editor of the Boston Cooking School Magazine

Baking Powder Biscuits made by this recipe are so far ahead of ordinary baking powder biscuits that, if once tried, you will never use any other recipe. Try it the next time you run short of bread. Save this recipe.

K C Baking Powder Biscuits

Three cups flour, 1/2 cup shortening, 3 level teaspoons K. C. Baking Powder, about 1 cup milk or water, 1/2 teaspoon salt.

Sift three times, the flour, salt and baking powder. Work into the flour the shortening, using lard or butter for shortening. Then mix to a very soft dough with the milk. The softer the biscuit enters the oven, the lighter it comes out. Never knead baking powder biscuits; press the dough into shape and roll lightly. Cut in small shapes and bake on a sheet or very shallow pan in a hot oven. In placing biscuits in the pans place well apart, not allowing edges to touch. Small biscuits are better than large ones. Large biscuits do not have the proper amount of time to rise and bake.

Have you seen the new K C Cook's Book? Brimful of appetizing recipes that simply must be successful every time if the few simple directions are carefully followed. You would gladly pay \$1.00 for this valuable book, yet we send it absolutely free upon receipt of the colored certificate packed in every 25-cent can of K C Baking Powder. Jacobs Bros. Co., Chicago. Small cans do not have Cook's Book certificates.

NO LOOKING BACK IN NACOGDOCHES

New Evidence Constantly Being Published.

Since the long success of Nacogdoches reports were first published in the local press there has been no looking back. Nacogdoches evidence continues to pour in and—better still—those whose reports were first published many years ago, verify all they said in a most hearty and unmistakable way. Read the experience of Mr. W. H. Wood, farmer, says Mr. Wood:

"It was about six years ago that I was first troubled by a dull ache across the small of my back. I never thought for a moment that my kidneys were out of order until a short time ago when the kidney secretions became scanty in passage. I tried many remedies without finding relief. Hearing about Doan's Kidney Pills and the benefit they had brought others, I decided to try them and procured a box at Mast Bros. & Smith's Drug Store (now Swift Bros. & Smith's Drug Store). They did me a world of good. I am still recommending Doan's Kidney Pills at every opportunity. The benefit they brought me has been lasting."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other. Geo. W. Morton, one of the prominent and prosperous farmers of the Etowah country, was in the city Friday and purchased a bran new wagon with which to harvest and carry to market his crop. He had the wagon shipped out over the N. & S. E., and also went out home this morning riding in the new coach just put on by the railroad.

A WOMAN'S WORK

sometimes reduces her strength to the depths of weakness—her devotion to household cares prevents sufficient rest and recreation. Thousands of women in this condition find Scott's Emulsion exactly what they need; it is predigested body-food so medically perfected that every drop yields direct returns in strengthening the organs and tissues and in making healthy, life-sustaining blood. Scott's Emulsion is devoid of alcohol or any harmful drugs, and overcomes tiredness and nervousness in a marvelous way.

Novel Way to Suicide.

Tuesday of this week at Dalmont, twelve or fifteen miles north of this city, Dave Mackleroy, colored, committed suicide in a novel manner and was buried Wednesday.

It is alleged that about a year or more ago Mackleroy killed a negro from Louisiana and that his case was to come up for trial soon and that he had been brooding over the matter considerably fearing that he would be sent to the penitentiary or worse, and last Monday he purchased a box of American sardines from the commissary, opened the box and filled it with strong vinegar and set it away for several hours. He then ate the sardines and died from ptomaine poisoning before a doctor could be summoned.

Yes Paint

May be high next year, so much work has been put off and more will be.

Men don't know that it costs more money to wait than to paint; it cost about 10 per cent to wait, and not over 5 for the extra price.

What is 5? About \$2.50 on the average job (3000 square feet); 10 gallons Devoe, 15 of average paint, yes 20 of some.

Suppose there's plenty of oil next year, won't paint go down? Yes, a little; there can't be plenty of oil; the demand settles that. Halt the work of last year and this is waiting; so stupid we are.

DEVOE

Swift Bros. & Smith sell it.

Held on Suspicion.

Sunday afternoon the sheriff's department placed under arrest and lodged in the county jail Aus Curl on suspicion of being connected with the killing of Ed Lee whose dead body was found in the woods last Friday morning.

The suspicion is based, so we understand, on a story told by a little colored boy.

The officers are still working on the case.

Don't Let Baby Suffer with Eczema and Skin Eruptions.

Babies need a perfect skin covering. Skin eruptions cause them not only intense suffering, but hinder their growth. Dr. Hobson's Eczema Ointment can be relied on for relief and permanent cure of suffering babies whose skin eruptions have made their life miserable. "Our baby was afflicted with breaking out of the skin all over the face and scalp. Doctors and skin specialists failed to help. We tried Dr. Hobson's Eczema Ointment and were overjoyed to see baby completely cured before one box was used" writes Mrs. Strubler, Dubuque, Iowa. All druggist, or by mail, 50c. New Coach on N. & S. E.

The Nacogdoches & South-eastern railway has secured a bran new passenger coach No. 417, and it went into service this morning making its initial trip. The coach is a first class, two compartment, day coach, modern in construction and equipment and sixty feet long. For quite a little while the road has been in need of a coach, by reason of their increased passenger business, and the public will be glad that the road has put this coach in the service.

Strengthen Weak Kidneys.

Don't suffer longer with weak kidneys. You can get prompt relief by taking Electric Bitters, that wonderful remedy praised by women everywhere. Start with a bottle today, you will soon feel like a new woman with ambition to work, without fear of pain. Mr. John Dowling of San Francisco, writes: "Gratitude for the wonderful effect of Electric Bitters prompt me to write. It cured my wife when all else failed." Good for the liver as well. Nothing better for indigestion or biliousness. Price 50c and \$1.00, at Stripling, Haselwood & Co.

Mr. and Mrs. I. J. Roberts returned this week from an extended visit in the west. While away they visited Hubbard City, Waco, Brownwood, San Saba and other western towns and had a very enjoyable trip. Mr. Roberts mixed his pleasure trip with business and during the months of July and August his sales placed him at the head with his house and won for him the prize as the best salesman on the road those two months.

J. W. Sims and A. J. Modessett, two prosperous and progressive farmers of Angelina county, were in the city yesterday with cotton, having come to town over the new bridge at the Spradley ferry and over the good roads. This is not the first time these gentlemen have brought cotton to this market this season, and they state that it will not be the last. They will bring all their crop here.

Safest Laxative for Women.

Placing Material on the Ground.

The Nacogdoches & South-eastern railway began this morning placing the material on the ground for their new depot on South Fredonia street.

In a very short time now the workmen will be busy putting up the depot, and with the track men at work filling in the grades and laying the terminal tracks, things will begin to look quite business like in this section of the city.

Take a dose of Prickly Ash Bitters at night when you go to bed and you will feel bright and vigorous next morning. It will insure you a copious and healthy passage of the bowels, improved appetite and digestion and increased energy of body and brain. Stripling, Haselwood & Co.

GRUESOME FIND NEAR TOWN.

Partly Decomposed Body of Ed Lee, Colored, is Found Near the Trail in the Woods This Morning.

From Friday's Daily:

HEAD WAS PRACTICALLY SHOT AWAY.

Early this morning a telephone call from the residence of Mr. Ferguson, east of town, to the sheriff department brought the news of the finding of the dead body of Ed Lee, an albino negro, in the bushes near the trail leading from the Frost Johnson mill to the lower Melrose road. Sheriff Rich, County Attorney Moss Adams, Justice Perriette and Josh Henson went out immediately to make an investigation, and were accompanied by one or two other gentlemen.

Ed Lee had been missing for about ten days, but no one thought anything about it, as when last seen he was arranging to go on a fish; but for several days past parties passing along this trail going and returning from the mill had noticed a bad odor near this point, and this morning three negro women who were going over to Mr. Ferguson's to pick cotton, decided that they would see what the cause was. They had a dog with them and he took the scent and directed them, and just as they got off the trail a little they found a watch on the ground and picked it up; this led them to believe that it was a person, and they continued their search until they came upon the body in the bushes several yards from the trail. They immediately reported the find to Mr. Ferguson who telephoned the officers.

There are several trails through the woods between the mill and the big road and negroes use these trails frequently. It appears that this negro was passing along the trail when he was shot from ambush with a load of buck shot which took effect in the cheek, tearing away almost half of the head. A single-barrel shotgun was found near the body, which had evidently been pitched over to the negro, for the barrel was filled with dirt for several inches, and evidences on the ground pointed to the fact that the body had fallen in the trail and had been dragged out into the bushes.

The body was so badly decomposed that the officers made no attempt to move it; this will have to be attended to at once and the remains buried.

Ed Lee was about thirty years old and was single. Being an albino he could see but poorly in the day time, and hence did most of his traveling at night when he could see better, and this fact seems to indicate that he was shot at night.

Marries at Crockett.

SUFFERED AWFUL PAINS

For Sixteen Years. Restored To Health by Lydia E. Pinkham's Vegetable Compound.

Moretown, Vermont.—"I was troubled with pains and irregularities for sixteen years, and was thin, weak and nervous. When I would lie down it would seem as if I was going right down into some dark hole, and the window curtains had faces that would peek out at me, and when I was out of doors it would seem as if something was going to happen. My blood was poor, my circulation was so bad I would be like a dead person at times. I had female weakness badly, my abdomen was sore and I had awful pains."

"I took Lydia E. Pinkham's Vegetable Compound and used the Sanative Wash and they certainly did wonders for me. My troubles disappeared and I am able to work hard every day."—Mrs. W. F. SAWYER, River View Farm, Moretown, Vermont.

Another Case. Gifford, Iowa.—"I was troubled with female weakness, also with displacement. I had very severe and steady headache, also pain in back and was very thin and tired all the time. I commenced taking Lydia E. Pinkham's Vegetable Compound and I am cured of these troubles. I cannot praise your medicine too highly."—Mrs. IMA MILL-SIAGLE, Gifford, Iowa.

Smith here in Nacogdoches where she is known to almost everyone will be pleased to hear this bit of news, and will join in extending congratulations and best wishes to the newly married couple.

Cascarine, "The Liquid Liver Tonic" Has Taken the Place of Calomel.

A great many people have quit taking Calomel, as they have found the Liquid Liver Tonic, MORRIS' CASCARINE, will stimulate the liver and cleanse the entire system just as well or better than calomel, but does not nauseate, gripe or sicken as Calomel usually does.

CASCARINE is pleasant to take, sure and gentle in effect, and leaves the system in perfect condition so that nature will take up and perform its functions regularly.

CASCARINE is not a Cure-all as some remedies are claimed to be, but it will positively relieve all diseases arising from a disordered condition of the Liver, Stomach or Bowels.

CASCARINE is sold under a guarantee by Weatherly Bros. Appleby, Texas, who will be glad to refund your money if you are not satisfied. 50c per bottle.

The death of the eight convicts in a dark cell at the Harlem State Farm near Richmond, from suffocation, is causing a great deal of criticism of the methods adopted in the handling of convicts. That there should be some way in which to deal with convicts who refuse to work, is evident; but such disregard for the safety of their lives is condemned severely by all thinking people.

A peculiarity of the material of which our roads are constructed is that when wet the dirt picks up on the wheels of vehicles in very wet or low places and is shaken off at other points where the road is harder or drier. This causes the roads to work into holes and makes them very rough. The split log drag and the careful filling in of low or wet places will remedy this condition, and while the roads are wet is the time to do the work. Don't wait until the roads dry, for then the drag will not fill in these rough places as easily or as well.

Succumbs After Long Illness.

TEACHERS' INSTITUTE MEETING.

By Geo. E. Adams, Institute Reporter.

Nacogdoches county white Teachers' Institute convened Monday morning at the Nacogdoches High School building at 9 o'clock with an attendance of 128 teachers.

After the invocation by Rev. Mahan, the institute was heartily welcomed in Nacogdoches by Supt. Davis of the Nacogdoches schools, which welcome was responded to by Supt. Day of Garrison in a few well chosen words.

The teachers enjoyed an address by Rev. McKenney of the Methodist church delivered in that manner in which only he knows how to address a body of teachers.

A short rest was taken following Bro. McKenney's address, after which the institute settled down to work as a body of students and teachers for what promises to be a most successful week's work, both from the viewpoint of teachers in our county and from that of the children and patrons of the county schools.

The institute is divided into sections, primary, intermediate and high school, and each division is discussing problems pertaining to the work to be done by the teachers of the respective departments. This plan has many advantages over the old plan of a general institute, which no one appreciates more than the teacher. A primary teacher is not interested in high school problems for example.

Among the attractive features of the institute work so far was the interesting opening program rendered on Tuesday morning under the direction of Mr. Earl Huffor of the Nacogdoches High School. Worthy of particular mention among the numbers of the program were the piano solo, an address by Alton Thomason, Central East Texas representative in the 1913 University declamation contest, and a reading by Mr. H. P. Eastman, principal of the Nacogdoches High School.

The earnestness with which the teachers of the county are doing the work of the week's institute is very noticeable. Of course the work of an institute cannot be as extensive as some seem to think it should, but the quality of work being done at the present Nacogdoches County Institute will be of more real value to the school children of the county than possibly any month of the school work of the year will be. The cost to the schools of an institute is insignificant compared with the results.

Found Dead in Bed at Hotel.

Sheriff H. C. Rich received a telegram from Houston this morning announcing that Dr. L. W. Smith of Sacul, was found dead in his room in a Houston hotel this morning. No particulars were given. Dr. Smith was well known to quite a number of this city and his death will be regretted.

ADVISES MAKING GIN BOXES STANDARD SIZE.

Government Unable to Prevent Extra Freight Charge.

Washington, D. C., Sept. 8.—(Dallas News Special).—Cotton growers who face the early prospect of being penalized \$1 per bale by steamship lines because the gins in their sections turn out bales of larger dimensions than 27x54 inches have flooded the Department of Agriculture with appeals for relief from prospective burden. The department is advising its correspondents that it is helpless in the matter and advising them to insist on the ginners reducing the size of the gin boxes to the dimensions required by the ocean carriers. This can be done, says the department, at a cost of from \$5 to \$10 for each gin, and the saving will be hundreds of thousands of dollars to the farmers.

A short time ago the Interstate Commerce Commission received an appeal from the Seima, Ala., Cotton Exchange on this subject, and while there was nothing before the commission on which it could take formal notice of the matter, the commission did in an informal way take up the subject with the steamship lines with the result that the commission understands that thirty days of grace will be given the cotton growers to enable the ginners to change the size of their gin boxes. This has already been done in many sections, but in a large area of the country the cotton growers stand to suffer this penalty unless the ginners at once change their gin boxes to conform to the prescribed standard.

Married at One O'clock.

At the residence of the brides parents, Mr. and Mrs. Henry Holbrook on S. North street, at one o'clock today Miss Addie C. Holbrook was married to Mr. J. W. Kirksey of New Mexico, Rev. S. S. McKenney officiating.

The newly married couple left on the afternoon T. & N. O. for their home in New Mexico.

MR. LEWIS A. RIFFLE tells his experience with coughs and colds that lead to nervousness and debility.

Colds are often aggravated during the summer because inactive bowels and a stomach out of order are prime causes in keeping a cold from getting well.

Pe-ru-na has very beneficial laxative qualities that neutralize such conditions. Its tonic ingredients tone up the system, and thus invigorate the stomach's functions to normal activity.

Mr. Riffle's experience is especially interesting at this time of the year because it shows the close relationship there is between a nervous breakdown and a neglected cold.

Pe-ru-na should be kept in the home at all times, that a cold upon its first appearance may be treated promptly and successfully. This often saves money and time, and what is more important, a great deal of vitality.

Mr. Riffle, of 758 Gautenbein Ave., Portland, Ore., writes: "I have found Pe-ru-na a most remarkable medicine for building up the system and for curing coughs and colds."

"I took it for four weeks a few months ago when I was all run down, nervous and debilitated, and it quickly restored my health."

"I always keep it on hand, as a few doses will cure a cold if taken in time."

People who object to liquid medicines can now obtain Pe-ru-na Tablets.

HERBINE
Puts the Liver, Stomach and Bowels in Fine Vigorous Condition.

It is a liver medicine first of all. Its effect upon a Torpid Liver is truly remarkable. Old chronic cases, of long standing, involving the kidneys and blood, yield promptly to its powerful cleansing and restorative effect. It is a strengthening tonic for the disordered stomach, stimulates digestion and helps the assimilation of food. In the bowels it exercises a helpful influence that is far reaching and effective. Every particle of fermented matter or impurity is expelled, leaving the bowels cool, clean and regulated. If the chills have already commenced, Herbine is the only thing needed; it is a positive anti-periodic medicine that destroys the disease germs and drives them out of the blood. Try it this year.

Adenoids are a Menace to Children
Adenoids result from a succession of colds in babies and young children. They spoil the mental and physical life of a child. The condition that causes them may easily be avoided by careful parents. Quickly and thoroughly cure all colds and throat irritations by the use of Foley's Honey and Tar Compound, and adenoids will not develop. eod

City Wins Injunction Suit.

The case of Robt. Lindsey et al. vs. The City of Nacogdoches, an injunction suit brought by quite a number seeking to enjoin the city from doing the paving on the streets of Nacogdoches, was called in the district court this morning, and occupied the morning session until noon, when Judge Guinn took the matter under advisement, stating that he would render his decision later. At the afternoon session of the court Judge Guinn announced his decision, finding in favor of the city of Nacogdoches and denying the injunction.

Facing a Serious Proposition.
The man or woman who has kidney trouble is facing a serious proposition, where grave complications readily follow neglect. Foley Kidney Pills are an honest curative medicine that once taken into your system mean restored kidney and bladder action, and a return of health and strength. eod

T. W. Chestnut, a prominent farmer of the Attoyac country, was here Monday attending court and looking after other business matter.

The healing demulcent qualities of Foley's Honey and Tar Compound are not duplicated in any other medicine for coughs and colds. Any substitute offered you is an inferior article. Refuse to accept it for it can not produce the healing and soothing effect of Foley's Honey and Tar Compound. Insist upon the genuine, which contains no opiates. Swift Bros. & Smith.

J. M. Schoffner of Nat, one of the prominent citizens of that section of the county, was in the city Monday on business and to attend the district court.

Foley Kidney Pills cure obstinate cases of kidney and bladder trouble, rheumatism and lumbago, because they remove the cause. You can not take this honest curative medicine into your system without getting the right results. Try them.—Swift Bros. & Smith. eod

Good Roads.
Improved highways increase the size of the load, but it decreases everything else.

The question of public highways is one that affects the fireside as well as the counting room.

I have not fully made up my mind as to what is meant by the unpardonable sin, but I am inclined to the idea that it is opposition to good roads.

A lie will make good headway over any kind of a road, but truth, if it goes to the mark, must have a straight and smooth road over which to travel.

The essence of false economy is to mire in the mud, when permanent roads can be joined, the high cost of living reduced and travel be rendered a pride and a joy forever.

Preachers are prone to put heaven and hell too far away. Like the poor, we have both with us at all times. This condition will obtain, as long as we have good and bad roads. Solve the good road question, and the hell on earth will be reduced to the minimum.

The owner of an automobile enjoys a smooth and permanent road, but what is joy to him is a real saving to the man who markets his crop, and since wealth is an ambition of many, the man who hauls his products over good roads will have joy as well as economy.—Homer D. Wade.

Get Rid of Torment of Rheumatism

That you can do by ridding yourself of the cause. Weak and inactive kidneys allow uric acid poisons to remain in the blood and rheumatic pains swollen and aching joints follow. Take Foley Kidney Pills to ease you of the pain and torment. They will positively and permanently build up the kidneys, restore their normal action and keep the uric acid crystals out of the blood and body. Try them. eod

Dock McBee, four miles east of the city, was in the city this morning and had in charge his son, I. D., and Nolen Muckelroy, whom he was taking to Rusk to place in the Rusk Academy for the next term of the school.

Cant Afford to Have Kidney Trouble

No man with a family to support can afford to have kidney trouble, nor need he fear it with such a remedy at hand as Foley Kidney Pills. An honest medicine, safe and reliable, costing little but doing much good. Foley Kidney Pills eliminate backache and rheumatism' tone up the system and restore normal action of kidneys and bladder. eod

Cow Hides Wanted

Nacogdoches county farmers and butchers, we are again open for the hide business. The demand and prices are good. Until further notice we will pay 11 cents per pound for green hides, which means from three to five dollars for an ordinary hide. Please follow our directions how to handle them: 1st, try not to cut the hide; 2nd, spread it out flesh side up, give it a good shower of salt and fold the hide up and put it in a sack; 3rd, write your name and postoffice on shipping tag so we will know to whom to remit and ship by express to A. Golenternek & Co., Tyler, Texas.

Wan, Weary and Worn Out

If You Feel Fagged to a Finish and Utterly Used Up Here is Quick Relief.

Don't Be Chained to the Hitching Post of Wearyland.

Half the people you meet complain of weary muscles, stagnant brain, jangled nerves, and a mournful desire to lay down and just quit. Most of these people have been using nervines that spasmodically flare up the nerves only to die down again, as die they must. Avoid nerve stimulants. Bear in mind that this worn out feeling is due to poor blood, to bacteria in the water you drink; to the multiplying of destructive germs in the blood faster than they can be overcome by the white corpuscles; and to what is known as auto-toxemia, that condition where the venous or impure blood accumulates faster than it can be replaced by the red arterial blood.

If you feel played out go to any drug store and ask for a bottle of S. S. S. Swift's Sure Specific. Here is a remedy that gets at work in a twinkling; it just naturally rushes right into your blood, scatters germs right and left, up and down and sideways.

You feel better at once, not from a stimulant, not from the action of drugs, but from the rational effect of a natural medicine just as active and just as timely as to a man who has been lost in the mountains, is about starved and comes across a settler just cooking a savory meal of good honest beef. Do not neglect to get a bottle of S. S. S. today. It will make you feel better in just a few minutes. It is prepared only in the laboratory of The Swift Specific Co., 127 Swift Bldg., Atlanta, Ga. THE meteors, which passed over the city Thursday afternoon, notice of which appeared in the Sentinel yesterday afternoon, must have been traveling at a great distance from the earth though they appeared low down to those who viewed them here. This idea is born out from the fact that these celestial flyers were seen at a great many places and they appeared in the same direction from each place. A report from Lutkin is to the effect that they passed over that town, and another report from Rusk is that they passed over that city. And from Shreveport the same report comes. When last reported the meteors were still traveling a little to the north of west.

Bureau of Markets Commended.
Salina, Kansas, September 4.—Declaring that much of the work of the Federal Department of Agriculture was impracticable and asking for increased appropriation for the Marketing Bureau, the farmers in session here today passed a resolution recommending the establishment of a National Marketing Bureau through which their problems could be solved.
The Bulletin service was criticised and proposed surveys condemned.
The convention was attended by 1500 delegates from thirty states. The session will adjourn Saturday.

More than four inches of rain are reported to have fallen in Houston yesterday afternoon in the course of only a few hours. According to the Houston Post this breaks the record in Houston since the weather bureau has had a station in that city.

Slump in Texas Construction.
Fort Worth, Texas, September 6.—Construction work in Texas during August was at a low ebb judging from the amount of building permits issued and the number of miles of highways constructed. Progress on the steam line and interurban projects was also retarded owing to a scarcity of labor. The cotton fields are drawing on other lines of industry for unskilled labor, and the result of the labor shortage is clearly reflected in the August building activities of Texas. The total amount of building permits issued in the principal cities during August was the smallest for any month in the year.

To Cure a Cold in One Day
Take LAXATIVE BROMO QUININE. It stops the Cough and Headache and works off the Cold. Druggists refund money if it fails to cure. E. W. GROVE'S signature on each box. 25c.

Commissioner J. C. Birdwell of Martinsville, was in the city this morning to attend the district court. Mr. Birdwell says that his section has received only light rains the past few days, and that on last Friday they had quite a heavy wind, but very little rain, and only a light rain Sunday. From three miles this side of Martinsville clear into town there was a good rain yesterday afternoon.

Cures Old Sores, Other Remedies Won't Cure.
The worst cases, no matter how long standing, are cured by the wonderful, old reliable Dr. Porter's Antiseptic Healing Oil. It relieves Pain and Heals at the same time. 25c, 50c, \$1.00.

An editor in a western town believed in telling the truth and also believed in running things of a like nature under a heading of their own, so he ran his society news under the head of "Society Slobber," and put all obituary notices under the head "Over the Coals." His political stuff was placed under "Resume of Rascality," and the doings of the town council and school board were bunched under the heading "Business of the Boneheads." He did a phenomenal business for just one week and when last heard from was headed for Florida afoot and alone and in a hurry.—Beeville Bee.

The editor of the San Antonio Express is a gentleman of information and experience. His paragraphs are always entertaining. He says that: "Those California men who are wearing slit trousers needn't imagine they originated the fashion, even if their style is slightly different from that worn by the old-time boy who used to slide down the roof of the smoke-house."—Tyler Courier Times.

Palestine's Reason for Not Having a Fair.

President Green of the Palestine Fair Association gives a reason in the Palestine Herald why they will not have a fair this fall, and the Herald adds another reason, both of which seem good and sufficient.

President Green's reason is that Palestine has no street car system, and to locate a fair two or three miles out of the city and try to handle from three to four thousand people a day without transportation facilities, is too big a job and does not appeal to the association. The Herald's reason is that there is no demand either from the citizens in the town or county for such a show; that the people of the county or the city had not shown any great interest in such a movement.

To Prevent Blood Poisoning
Apply at once the wonderful old reliable DR. PORTER'S ANTISEPTIC HEALING OIL, a surgical dressing that relieves pain and heals at the same time. Not a liniment. 25c, 50c, \$1.00.

Little Boy Still Suffering.

The little son of John W. Bird, who last Sunday afternoon came so near being dragged to death by a mule, is suffering some from the bruises, but is up and playing about the yard.

Little Maxie and his brother had gone to the pasture with the mules and the tie rope on the mule this young man was riding had a loop in the end and as he slipped off of the mule his foot caught in this loop. The mule walked off and dragged the little boy about quite a good deal before his brother could catch it and release the foot. Had the mule become frightened or ran the little boy would certainly have been dragged to death.

For Weakness and Loss of Appetite
The Old Standard general strengthening tonic, GROVE'S TASTELSS CHILL TONIC, drives out Malaria and builds up the system. A true tonic and sure Appetizer. For adults and children. 50c.

It will do no harm to repeat it, although we have said it many times before: If you want to make livestock profitable, the thing to do is to join in with the more progressive of your neighbors; select a breed of hogs, or cattle, or poultry; all of you get the same breed and then stick to it until you give your community a reputation for the production of good stock of that particular breed. It will take only a few years to do this if you go at it in earnest, and the result will be a steady increase in the prosperity of the community.—The Progressive Farmer.

It is now given out that Gen. Huerta was going to resign the presidency of Mexico on account of his failing eyesight. Probably the general could not see how he was going to get around the failure of the United States to recognize his government. Wonder if his successor can see any better than the general.

Harry K. Thaw was released from jail under writ of habeas corpus and immediately seized by immigration authorities and will likely be deported from Canada as an undesirable alien.

Some political prognosticators state that the people will have to choose between Campbell and Colquitt in the senatorial race.

STOMACH TROUBLE FOR FIVE YEARS

Majority of Friends Thought Mr. Hughes Would Die, But One Helped Him to Recovery.

Pomeroyton, Ky.—In interesting advices from this place, Mr. A. J. Hughes writes as follows: "I was down with stomach trouble for five (5) years, and would have sick headache so bad, at times, that I thought surely I would die. I tried different treatments, but they did not seem to do me any good. I got so bad, I could not eat or sleep, and all my friends, except one, thought I would die. He advised me to try Thedford's Black-Draught, and quit

taking other medicines. I decided to take his advice, although I did not have any confidence in it. I have now been taking Black-Draught for three months, and it has cured me—haven't had those awful sick headaches since I began using it. I am so thankful for what Black-Draught has done for me." Thedford's Black-Draught has been found a very valuable medicine for derangements of the stomach and liver. It is composed of pure, vegetable herbs, contains no dangerous ingredients, and acts gently, yet surely. It can be freely used by young and old, and should be kept in every family chest. Get a package today. Only a quarter.
