Cotton Situation in Farmers Hands.

To the farmers:—

With a crop prospect of 18,800,000 maximum and a world's requirement of 14,875,000 you are up against a forced sale of a commodity which the world is absolutely obliged to have and yet you rush your cotton in every season as if the United States Provost Marshall was after you and you were afraid he would seize it.

There is absolutely no reason why the low grades should be at such an enormous discount except that you are forcing it on the market faster than it can be absorbed.

You lose sight of the fact that this is an unusual year and that the world must adjust itself to the new conditions created by the violent change in the grades.

As a matter of course this cotton is low in price when there are only a few export houses that are able to handle it instead of the many as is the case when the conditions are normal.

You are getting a lesson and it is a severe one and will be even more so if you continue to follow your suicidal policy of rushing in your cotton.

There is absolutely but one solution to the matter and that solution is entirely in your hands. Keep your cotton at home for 20 to 30 days with a concerted effort on the part of every farmer in Texas by refusing to sell at these differences that are offered and you will see an immediate change for the better.

Should it be demonstrated to the spinners that you are going to dictate the price instead of them and stick to it you will win.

The market may decline to a low point but if you will sit tight in the saddle you are bound to win.

Remember that the world is up against a cotton shortage and must have what you

have to keep the spindles at work.

Why is it that the larger Dailies and Semi-Weeklies of the South have not already given this matter attention and publicity.

Goes With Dallas News.

E. R. Smith, vice-president of the Record and one of the best known newspaper men in this section of the State has accepted a position with the Dallas News and he and his family have gone there to reside. Mr. Smith is a good newspaper man, and one who makes good where ever he goes. The Dallas News is the best paper in the South and Mr. Smith is fortunate in securing a good place with this great daily. He will be in the advertising department. Mr. Smith still retains his interest in the Record and will represent this paper in Dallas in the advertising field which is getting to be an important one.—Palestine Record.

Village Has Ornamental Street Lights.

The village of Keewatin, Minn., with a population of but seven hundred, has one of the handsomest systems of ornamental street lighting to be found anywhere. It is believed that this is the smallest installation of ornamental street lighting. The progressive spirit in this little town as evidenced by the installation of a Great White Way in its business section is to be heartily commended. Twenty powerful lamps, of the ornamental luminous arc type, have been installed on alternate sides of the main street, making that thoroughfare almost as light as day.

Rev. Thos. Morehead, pastor of Grace Methodist church, will leave Monday for Nacogdoches to attend the annual conference of the Methodist church, which convenes there next Wednesday. He has been appointed on some important committees, and will have to be there two days before the convention opens.—Palestine Record.

METHODIST CONFERENCE IN SESSION

First Session of Annual Conference Met This Morning. A Host of Visitors in the City.

The first session of the Annual Conference was called to order this morning by Bishop E. D. Mouzon, and the work of organizing was at once gone into. The Bishop and his cabinet held a preliminary session yesterday afternoon in advance of the opening, when business matters pertaining to the conference were arranged. The conference will be in session every morning from now until probably next Monday when the session will close, after the reading of the appointments of the ministers for the next year.

Twenty-one years ago, the 13th of next month, Nacogdoches had the honor of entertaining a Methodist conference. At that time the conference was large and was represented by some of the strongest men as the church has ever known, but the conference was not nearly so large as it is today. The conference was presided over by Bishop Hargroves, and was called to order in the church which has since been destroyed by fire which stood on the same lot of the present magnificent building. The old church was a wooden structure, and some years before the conference met an addition had been erected, enlarging it. When the conference met this section was in the throes of a terrific rain storm and the north wind was bitter cold.

The first service of the conference was held last night, when Rev. Glenn Flynn of Bryan, preached the opening sermon. The large auditorium of the church was well filled, every available space being occupied, including the Sunday school rooms, and with chairs placed at convenient places along the aisles. After the sermon, which was a masterly effort, and very much enjoyed by the large audience, the bishop and his presiding elders officiated in administering the sacrament of the Lord's supper.

The seventy-fourth annual conference was called to order by Bishop E. H. Mouzon at 9 o'clock, the vast auditorium of the Methodist church being crowded to its capacity with delegates and visitors. In his opening address the bishop took for his subject "Prayer" and gave a strong exposition of the place of prayer in the christian life.

The roll showed that practically all delegates both clerical and lay were present and that the work of the conference would go through without hindrance from absentees.

Hon. Beeman Strong delivered the address of welcome, declaring that he felt constrained to express the honor

that Nacogdoches felt in having this body of men in her midst, rather than to speak a welcome. Rev. T. C. Mahan, pastor of the Baptist Church, welcomed the conference on behalf of the other churches of Nacogdoches. He was followed by Judge Geo. F. Ingraham, who spoke for the Methodists of Nacogdoches. Bishop Mouzon responded briefly, saying that the welcome the preachers were receiving was after the manner of the "Old South."

A feature of the morning session was the reception of thirteen preachers into the conference. They were, Harold G. Cook, Walter F. Cannon, Preston Florence, John Mitchel Cochran, Jesse C. Thompson, Richard S. Marshall, O. O. Gaston, Marvin J. Biggers, S. A. Weimer, J. A. Moore, A. G. Coleman, Robert B. Jones, A. Marvin Fuller. Several preachers were received by transfer from other conferences.

Reports by the presiding elders showed that the past year had been a very prosperous one.

The regular standing conference committees were announced just before the noon recess.

The paving contractors began again this morning pouring concrete on the street for the paving. The big concrete mixer and the number of men and mules required to handle the output, is attracting considerable attention. The way they use up gravel and cement is something wonderful.

Were Friends in Boyhood.

Among the arrivals yesterday to attend the Methodist conference, was Rev. E. W. Solomon, presiding elder of the Beaumont district, one of the old time ministers of the church. As soon almost as Rev. Solomon landed at the depot here he began inquiring for "Jack" Doughtie, a friend of boyhood days, and soon located him.

Mr. Doughtie states that he and Rev. Solomon were boys together in Lawrence, Alabama, away back in the 50's and went to school together and occupied the same desk. The first sermon Mr. Doughtie ever remembers to have heard was delivered by Rev. Jno. W. Solomon, father of Rev. E. W. Solomon.

These old gentlemen have met several times since the war, but at long intervals, and it is needless to state that their meeting here yesterday was pleasing to each of them.

As an evidence of the demand for rent houses in this city we need only to call attention to an incident which happened only last week. Mrs. J. M. Spradley telephoned a little notice to the Sentinel, "Nice house to rent", and before noon the next day Mr. Spradley had received at least a dozen applications and of course the house was rented. The notice was ordered to run three times, but Mr. Spradley says "take it out", they are worrying me inquiring about that house.

HALTOM & HALTOM, PROPRIETORS.
GILLES M. HALTOM, MANAGER.

A bunch of Mexicans have sent to Governor Colquitt a curt note declaring they will seek vengeance upon the State if the "persecution" of the Mexican smugglers who were captured last September is not stopped. The note is signed by 125 Mexicans, and it is now quite probable that all of them will be prosecuted for conspiracy should any act of violence emanate from Mexicans by reason of the threat. These fellows evidently think they are in Mexico and can start a revolution any time they want to.

The Eagle Lake Headlight rebukes those writers on city papers who ridicule the persons and the items of local interest in country papers. No real, practical newspaper man sees anything ridiculous in such items. It is these that give the weekly paper its chief value and makes it distinctive in the newspaper field. We frequently read these in our exchanges with interest, though knowing nothing of the circumstances or the persons discussed. How much more eagerly, then, do the people familiar with both read them? A good many city fellows would make a distressing failure on a country weekly. —San Antonio Express.

The Dallas News, commenting on a recent speech of President Wilson, says: "It is agreeable to contemplate a president whose sentiments toward public service are reflected in such hopeful words as these." Here is what the president said: "We die but once, and we die without distinction if we are not willing to die the death of sacrifice. Do you covet honor? You will never get it by serving yourself. Do you covet distinction? You will get it only as the servant of mankind. You are not here merely to prepare to make a living. You are here to enrich the world, and you impoverish yourselves if you forget the errand."

The Center Champion says that the people of Shelby county forgot all about Wednesday and Thursday being good roads days, but that this winter when the roads get muddy and business dull they will wake up and all go out and build the roads and then resume business. It further says that Center and Shelby county will come across at the proper time. Admitting that the first statement of the Champion is correct, we would like to know how it is that the brother arrives at the latter conclusion. The proper time, it seems to us, was good roads days. Here in Nacogdoches county we are not sure whether our people forgot about good roads days, or every fellow was expecting his neighbor to do the work that he himself should do. In any event we didn't work the roads, and we are not prepared to say that we will come across at the "proper time".

The Blasted Hope Of A Small Boy.

We saw a little boy crying as if his heart would break Saturday because the circus was rained out and couldn't show. Talk about blasted hopes and golden fruit" turning to ashes on the lips, the failure of a promising cotton crop, the wreck of a fashionable spring bonnet or the postponement of a wedding isn't to be compared to the bitter disappointment of a small boy when a circus is rained. For weeks the little fellow has stood entranced in front of the flaming show posters, and in his dreams he had seen the elephants and the ponies and the spotted clown, but right at the hour of the street parade to move the old world is filled with sorrow and disappointments clear through the stretch of years from the cradle to the grave, but from pink toes to tottering age there isn't a deeper sorrow than the missing of a circus by the lad of tender years. —Honey Grove Signal.

What a Chinese Student Thinks.

Dr Yung Wing, the first Chinese to be educated in America, formerly imperial Chinese commissioner of education and the man who worked out the first plan for educating young Chinamen in this country, said recently: "No one familiar with the work the American missionaries have done in China will do other than praise it. They have done more to educate and uplift the people than any other class. In all my travels in China, along the coast and inland, I have never failed to see improvement and higher standards wherever the American missionary has been at work."

Honest Merchandise.

Is the pure food and drugs act to be so extended that it will pertain also in the case of general merchandise? Advice from Washington have it that President Wilson has let it be known that he is heartily in favor of extending the pure food and drugs act to include general merchandise, especially clothing, so that it will be unlawful to transmit in interstate commerce any article that is not correctly labeled as to quality, weight and measure. Representative Barkley, as chairman of subcommittee of the House Committee on Interstate and Foreign Commerce, is preparing a bill for this purpose. Public hearings will be granted on the measure late in the fall and have it ready for the House early in the regular session. —Modern Grocer.

The death of Rev. Father Thomas Hennessy, pastor of the Church of the Annunciation of Houston, which occurred at the Parish home Wednesday of this week at 1 o'clock, will be sad news to many in Nacogdoches, who in years past have known this good man, as a friend and also as a pastor, for it was at the missionary post of Nacogdoches that he began his ministry fifty years ago. He has been a resident of Houston for a number of years where he was greatly loved by all the people.

Good Roads.

Poor highways lessen the profit of labor; increase the cost of living; burden the enterprise of the people; dull the morality of our citizenship and hold down the educational advancement of the country.

Economists preach conservation of our resources, social activities in rural districts, scientific farming and better marketing facilities, but none of these can be fully realized until there is a very material improvement upon our public highways.

In prison sentences reform, not revenge, should be the incentive. The dignity of the law and the respect for it which the sentence contemplates cannot be attained in the present method of the treatment of convicts in Texas. The state authorities can profit much in this direction by a study of the methods employed by Warden Tynan of Colorado, who has one thousand state convicts upon the public highways in his state. The results he is attaining can be duplicated in the Lone Star State. —Homer D. Wade.

Allison Law Will Be Tested.

Austin, Texas, Nov. 21—The constitutionality of the so-called Allison liquor law of the Thirty-third legislature. In so far as it affects interstate shipment of intoxicating liquors for personal use in the dry territory, is to be tested in the courts of Texas, according to announcement made today by General Keeling.

He said that he received a message from a liquor house of an other state advising that they will continue shipments in Texas, despite the law, and the state will prosecute the concern and thereby test the act.

The attorney today received a message from the attorney general of Ohio, T. S. Hogan, in which he wants to know if the state will attempt to enforce the law before a test is made of its validity.

The department replies that it will, and advised General Hogan that transportation should not be made pending the determination of the litigation.

American life needs kindness and tenderness more than it needs new mechanical devices or commercial charts. There is more power in tenderness and sympathy than there is in a dynamo. It is of such a different kind that perhaps no comparison is possible, but if the two can be in any way compared, the difference is all in favor of the power of kindness. When the last words have been said for the mighty energies of the physical universe, the story of the worth and strength of tenderness has only just been begun. Mercy is mighty with the power of the ancient stars, and eternity is in league with it for the conquest of the world. —Selected.

Texas Sailor Boy Is Killed.

Tyler, Texas, Nov. 19.—Mrs. Lee McFadden received a cablegram from the war department last evening announcing that her son, Stanley R. Taylor, who was serving an enlistment in the United States navy as seaman, had been accidentally killed while out hunting in China.

Young Taylor was born and reared in Tyler and was a very popular young man, being only 19 years of age at the time of his death. He enlisted in the navy at Dallas, Texas.

The remains were ordered shipped to Tyler, where interment will be had. It is stated it will take 18 or 20 days for the body to reach Tyler.

Bavaria has deposed her mad king whose previous sin was building castles and burdening the people with expense. We have many leaders in this country whose political castles have weighed heavily upon the people and they are still building them. There is scarcely a day passes that some one with a dream for a headlight does not offer to pilot us to the land of plenty. Men who never conquered a business problem or filled a pay envelope have no hesitancy in submitting plans for revolutionizing the affairs of industry. The present status of our industrial affairs makes the highest call upon our intelligence and demands ripe and powerful minds to counsel and direct us.

A Current Fallacy.

We hope that something worthwhile will come from the proposed investigation into the benefits of price-fixing by manufacturers. The producers are getting really interested in what Secretary Redfield of the Department of Commerce has had to say on the subject and if the investigation is made along the lines as suggested by his recent speech in Lansing, Michigan, it certainly ought to show the fallacy of allowing price-cutters to ruin business for everybody as well as cheating the consumer. —Interstate Grocer.

S. P. Industrial Department.

The Sunset Central lines were pretty well represented here yesterday by their agricultural and industrial departments, and the managers of the fair association were very glad indeed to note the interest the railroad is taking in this section of the country.

H. M. Mayo, manager of the Industrial and Advertising department of the Sunset Central, was in the city and was accompanied by, or rather met two of his able lieutenants here. Messrs. W. P. Young, agricultural agent, and Jas. D. Greer, industrial agent.

Mr. Young was here because he likes this section and has spent some very pleasant times at our fair, even though we always work him in on the judging of the farm exhibits; and Jim Greer just couldn't stay away for this is his home. Mr. Mayo was in the judges stand at the races yesterday afternoon, and watched some of the fastest and cleanest races that were ever pulled off on any track in Texas.

We are always glad to see these gentlemen, and the fact that they are kindly disposed to this section, and especially Nacogdoches county, is gratifying to all those who have our advancement at heart.

\$100,000 Fire at Joaquin.

Joaquin, Texas, Nov. 21.—This town suffered a conflagration last night. Twelve structures were destroyed at an aggregate loss of \$100,000. The entire East Side, with its many stores, is now smoldering embers and ashes.

The following business houses were burned with the stocks: Carroll Mercantile Company, G. W. Chambers, Crawford & Co., general merchandise, each with a stock of about \$20,000; Ramsey Drug Company, Friddell & Hanson, L. Geno. grocer; the post office including some mail and stamps; a barber shop and the telephone exchange.

The people who need more religion: The man who lets his horse stand all day in the rain without a blanket; the man who growls like a beast with a sore head when his wife asks him for money; the woman who whispers it around that someone else is not just what she ought to be; the preacher who is always looking for an easier place and higher salary; the man who walks the streets with his hands in his pockets while his wife carries the baby; and the man who keeps a dog and says he can't afford the home newspaper. —Longview Times Clarion.

Gen. Huerta continues to disregard the request of the United States, and avers that he is ready to resist any attempt at intervention. The United States goes right ahead saying nothing, but maintaining a financial blockade with the assistance of the other world powers, but never intimates that intervention is a remote possibility. Without money the Huerta government can hardly expect to maintain itself against the constitutionalists, much less resist intervention from the United States.

AFTER SICKNESS OR OPERATION

It is a pathetic mistake to accept drugs or alcoholic mixtures when nature craves nourishment to repair the wasted body, and restore the vigor of health.

For forty years the best physicians have relied on the wholesome predigestion in Scott's Emulsion which is totally free from alcohol or opiates. Scott's Emulsion sharpens the appetite—renews blood—nourishes nerves—strengthens bones and restores the courage of health to make life bright. Scott's Emulsion sets in action the very forces that promote health; it is pure, rich strength.

Joaquin Journal Did Not Burn

Times was misinformed yesterday when we offered words of condolence to our good friend Editor Padon of Joaquin, in the supposed loss of his newspaper plant, during the fire Thursday night. A letter from Mr. Padon this morning states that the Journal is very much alive, and doing business at the same old stand. May the paper grow and grow, and as new brick buildings take place of the old frame buildings destroyed by fire, we feel sure, the Journal will be rewarded for its battle when things were other than bright. —Timpson Times.

Sunday was Home-Coming day at the Methodist church, the home coming planned for some weeks ago having been postponed on account of the bad weather. In reality it was the last Sunday of the conference year. None of the former pastors were here yesterday, because they had to be with their own churches on the closing Sunday of the year, but the presiding elder, Rev. J. W. Mills, was here and occupied the pulpit at the morning hour, preaching a splendid sermon. After the sermon a collection was taken for the purpose of lifting the debt on the new church, so that during the conference the church could be dedicated. The required amount, \$5,500 or about that amount, was pledged and now the Methodist people are proud of their magnificent church with no debt hanging over it.

Many a man is so impolite that he won't bow to the inevitable.

A VALUABLE SUGGESTION

IMPORTANT TO EVERYONE

It is now conceded by physicians that the kidneys should have more attention as they control the other organs to a remarkable degree and do a tremendous amount of work in removing the poisons and waste matter from the system by filtering the blood.

During the winter months especially, when we live an indoor life, the kidneys should receive some assistance when needed, as we take less exercise, drink less water and often eat more rich heavy food, thereby forcing the kidneys to do more work than Nature intended. Evidence of kidney trouble, such as lame back, annoying bladder troubles, smarting or burning, brick-dust or sediment, sallow complexion, rheumatism, may be weak or irregular heart action, warns you that your kidneys require help immediately to avoid more serious trouble.

Many physicians claim that an herbal medicine containing no minerals or opiates has the most healing influence. An ideal herbal compound that has had most remarkable success as a kidney and bladder remedy is Dr. Kilmer's Swamp-Root. You may receive a sample bottle of Swamp-Root by Postal Note. Address Dr. Kilmer & Co., Binghamton, N. Y., and enclose ten cents; also mention the Nacogdoches Weekly Sentinel.

THREE WOMEN TESTIFY

To the Merit of Lydia E. Pinkham's Vegetable Compound during Change of Life.

Streator, Ill.—"I shall always praise Lydia E. Pinkham's Vegetable Compound wherever I go. It has done me so much good at Change of Life, and it has also helped my daughter. It is one of the greatest medicines for women that can be bought. I shall try to induce others to try it."—Mrs. J. H. CAMPBELL, 206 N. Second St., W. S., Streator, Illinois.

Philadelphia, Pa.—"It was at the 'Change of Life' that I turned to Lydia E. Pinkham's Vegetable Compound, using it as a tonic to build up my system, with beneficial results."—Mrs. SARA HAYWARD, 1925 W. Valencia St., (Olga) Phila., Pa.

San Francisco, Cal.—"I have taken Lydia E. Pinkham's Vegetable Compound for many years whenever I would feel better. I have gone through the Change of Life without any troubles and thank the Compound for it. I recommend it to young girls and to women of all ages."—Mrs. C. BARRIE, 3032 25th St., San Francisco, Cal.

The success of Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, is unparalleled.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

Texas Corn Crop Larger Than Expected.

Washington, D. C., November 20.—The crop reporting board of the United States Department of Agriculture has just completed its estimate of the 1913 corn crop, and the total production for Texas is 169,944,000 bushels, which is several thousand bushels above the preliminary estimate made thirty days ago. Compared with the production of 1912, this year's yield shows an increase of 16,640,000 bushels and is the largest crop produced in Texas since 1908, when 201,848,000 bushels were raised. The yield per acre in 1913 was 24 bushels, 21 bushels for 1912 and the ten year average is 20.8 Texas took fourth rank in total production in 1913, but held eighth place during the previous year.

A Night of Terror.

Few nights are more terrible than that of a mother looking on her child choking and gasping for breath during an attack of croup, and nothing in the house to relieve it. Many mothers have passed nights of terror in this situation. A little forethought will enable you to avoid all this. Chamberlain's Cough Remedy is a certain cure for croup and has never been known to fail. Keep it at hand. For sale by all dealers.

Wins Bunch of Premiums.

In the Berkshire department of the hog show at the fair Dr. R. P. Lockey was awarded the following on his Berkshire entries, of which he had fifteen individuals:

1st and 2nd boar, and age; 1st and 2nd sow, any age; 1st and 2nd boar, six months; 1st and 2nd sow six months; 2nd boar any breed any age; 1st and 2nd sow, any breed any age; 1st and 2nd pair farrowed in 1913.

Cause of Insomnia.

The most common cause of insomnia is disorders of the stomach and constipation. Chamberlain's Tablets correct these disorders and enable you to sleep. For sale by all dealers.

DARK PLACES ON NORTH STREET.

Two Vehicles Meet Head on, and Another Comes Near Running into Them.

On North street, where the street makes a slight bend near the residence of W. U. Perkins, we understand, the street lights are so widely separated that at this point they are of absolutely no use at all and in fact it is very dark here, except on moonlight nights, and the wonder is that some accident has not happened before. Of course there is no danger as regards automobiles for they carry head lights but with buggies it is different.

Last Saturday night a little while after supper Messrs. T. W. Blair and Taylor Nichols were driving out North street in a buggy and at a very moderate gait when they crashed into the buggy of I. W. Bulware, neither party being able to see the other until they met. The wheels of the two vehicles were locked, and a wheel on each vehicle was broken and the occupants thrown out. Before they could disengage the vehicles, a vehicle coming in from the north came very near running into them, and would have done so but for the fact that all hands called to the approaching party, and then only succeeded in stopping him in time to prevent another wreck, as he was in about two feet of them before he stopped. Fortunately no one was seriously bruised by the accident.

Declare War on Colds

A crusade of education which "aims that common colds may become uncommon within the next generation has been begun by prominent New York physicians. Here is a list of the "don'ts" which the doctors say will prevent the annual visitation of the cold:

"Don't sit in a draughty car."
 "Don't sleep in hot rooms."
 "Don't avoid the fresh air."
 "Don't stuff yourself at meal time. Over-eating reduces your resistance."
 To which we would add—when you take a cold get rid of it as quickly as possible. To accomplish that you will find Chamberlain's Cough Remedy most excellent. Sold by all Dealers.

No War, Says Daniels.

Omaha, Neb., Nov. 18.—In an interview today Secretary of the Navy Daniel said:

"There will be no war with Mexico. The administration has no fear of any such trouble. The knot will be untangled in an amicable way and all the war talk is jingoism."

What Would You Do?

In case of a burn or scald what would you do to relieve the pain? Such injuries are liable to occur in any family and everyone should be prepared for them. Chamberlain's Salve applied on a soft cloth will relieve the pain almost instantly, and unless the injury is a very severe one, will cause the parts to heal without leaving a scar. For sale by all dealers.

Miss Wilson Gets Congress Gifts.

Washington, Nov. 20.—Miss Jessie Wilson, the White House bride-elect, received her \$2000 present from the house today. The sparkling diamond pendent, resting in a satin-lined jewel box with a tiny key dangling from its heart shaped lock, was taken to the White House by a member of the Washington jewelry firm which has been preparing the gift.

The sentiment inscribed upon parchment paper accompanying the present read: "The representatives of the people in congress send this gift to Miss Jessie Woodrow Wilson with their sincerest and best wishes as an evidence of the tender interest and hearty good will of all the people on the happy occasion of her marriage to Mr. Francis Bowes Sayre November 25, 1913.

The names of the committee of the house signed to this parchment paper, identical with that on which congress prints its legislative work, were Speaker Clark, Democratic Leaders Underwood Republican Leader Mann Progressive Leader Murdock and Representatives Cooper of Wisconsin, Henry of Texas, Campbell of North Carolina, Johnson of Kentucky, Palmer of Pennsylvania, Austin of Tennessee, Townsend of New Jersey, Fowler of Illinois and Chandler of New York.

A Consumptive Cough.

A cough that bothers you continually is one of the danger signals which warns of consumption. Dr. King's New Discovery stops the cough, loosens the chest, banish fever and let you sleep peacefully. The first dose checks the symptoms and gives prompt relief. Mrs. A. F. Mertz, of Glen Ellyn, Iowa, writes: "Dr. King's New Discovery cured a stubborn cough after six weeks' doctoring failed to help." Try it, as it will do the same for you. Best medicine for coughs, colds, throat and lungs troubles. Money back if it fails. Price 50c. & \$1.00. All druggists, by mail, H. E. Bucklen & Co. Philadelphia or St. Louis.

J. T. Anderson of Douglas, was in the city this morning on business and brought a sack of turnips to the Sentinel. There were only four turnips in the sack, but they were so large that there were sufficient for a "mess" all around. Not a turnip in the lot but was as large as a man's head. When asked as to the variety he stated that he did not know, but that he had several varieties and that they all grew to an immense size.

Sayed His Foot

H. D. Ely of Bantam, O., suffered from horrible ulcer on his foot for four years. Doctor advised amputation, but he refused and reluctantly tried Bucklen's Arnica Salve as a last resort. He then wrote: "I used your salve and my foot was soon completely cured." Best remedy for burns, cuts, bruises and eczema. Get a box to-day. Only 25c. All druggist or by mail, H. E. Bucklen & Co., Philadelphia or St. Louis.

Woodmen Day at the Fair.

One of the Biggest Days of the Fair. A splendid Program both Day and Night.

From Saturday's Daily: Yesterday was Woodmen Day at the East Texas Fair, and was one of the best days of the fair, taken from every viewpoint.

The excursion trains early in the morning began arriving and unloading an enormous crowd of visitors from every section of the county, and by the time the parade was to form the streets and sidewalks of the business section of the city was crowded until it was difficult to get past.

On account of the streets being closed by the paving operations the parade, which formed on the square near Woodman headquarters, had to go by a back street to the fairgrounds. The Woodmen float, the band, the automobile section with the Woodmen Circle, the Boy Scouts all went to make up a very interesting and attractive demonstration.

At the fair grounds the program called for addresses by several prominent Woodmen but on account of their inability to get here there were one or two numbers which had to be left off. The crowd was addressed by Hon. Jerome Cochran of Houston; Hon R. H. McDill of Dallas, and Cyclone Davis. The addresses of each of these gentlemen was heartily enjoyed and the crowd evidenced their appreciation by the rounds of applause given. After the program was completed the visitors put in their time examining the exhibits in the main exhibit hall, the poultry tent and at the live stock pens.

In the afternoon from 2 to 8 o'clock, at the Woodmen Hall the initiation of a class of candidates was taken up. This feature occupied the attention of quite a good many of the visitors, the Garrison Degree team assisting in the initiations.

The race program in the afternoon attracted the largest crowd of any afternoon so far, and the card was the best and fastest yet seen on this track. It included two harness races and three running races.

First race, free for all trot, half mile, best 3 in 5 heats. Loomup won, Eva Moore second Patsy third. Time 1:05 1/2.

Second race, 2:17 pace, half mile, best 3 in 5 heats. Gold Film won in three straight heats, Geo. Foraker second, Maud Arnold third. Time 1:06.

Third race, seven eights mile running, Country Boy, won, Regards second, Billy Possum third. Time 1:28.

Fourth race, one fourth mile running, John Hurst won, Dan Lee second, Mamie third. Time :24 1/2.

Fifth race, one half mile running, Dan Carson won, Country Boy second, Edward Flower, third. Time 51.

Triple Killing Near Crockett.

Crockett, Tex., Nov. 19.—Henry L. Christie and his two sons, Jewel and DeWitt, twins, were shot and killed twenty-six miles southeast of this place in the woods near Trinity County line yesterday afternoon. They were on their way from Ratcliff to Druso. They had been in the former town selling cotton. A boy about 16 years old has been placed under arrest. He was taken to Crockett.

Sheriff Phillips was summoned to Ratcliff and Officers English, Crowe and Green were soon at the scene of the killing.

Two guns were used, a shotgun and a rifle. Christie was shot through the heart with the shotgun. His team ran away and his body was taken almost to Diboll Camp.

Jewel's body was found in the road. His head had been almost torn away and he had been shot through the chest at close range.

DeWitt was shot two or three times in the body from the front and twice from the back as he was running from the road. His body was found about 100 yards away.

Two Irishmen were working on the roof of a building one day when one made a mis-step and fell to the ground. The other leaned over and called:

"Are yez dead or alive, Mike."

"Oi'm alive," said Mike feebly.

"Sure you're such a liar Oi don't know whether to believe yez or not."

"Well, then, Oi must be dead," said Mike, "for yez would never dare to call me a liar if Oi wor aloive."—Philadelphia Record.

Sick Headache.

This distressing results from a disordered condition of the stomach, and can be cured by taking Chamberlain's Tablets. For sale by all dealers.

Editor C. A. Ricks of the Huntington Herald, came up from Lutkin Saturday afternoon to take in the East Texas Fair, and remained over until Sunday afternoon before returning home. Bro. Ricks remarked that it didn't look very much like business to spend \$5.00 to get to use a 50 cent fair ticket; but that he just wanted to see the fair so came along from Lutkin, where had been to make a speech to those fellows the night before. We believe Bro. Ricks likes our town and our fair; too, for we understand that he has engaged a room for himself and wife for the whole week of the fair next year.

What We Pay for Toys

Nearly two million dollars worth of toys were imported into the United States during September of the current year and for the full calendar year 1918 the total value of toys imported will approximate nine million dollars. The domestic manufacture of toys is considerably greater than the imports and will probably approximate eleven million dollars for the current year, bringing the total year's toy supply up to about twenty million dollars. This valuation of twenty million dollars worth of toys supplied for consumption in the United States during the calendar year 1918 is based, in the case of imports upon the stated wholesale value in the countries from which imported and in the case of the domestic product, upon the stated value at the factory in which manufactured, and therefore does not represent the values at which they will be sold.

Hold Third Road Bond Election.

Belton, Texas, November 25.—December 20th is the date set aside by the commissioners of Bell County to vote on a good roads bond election in the sum of \$30,000. The election will be held in Justice Precinct No. 3 and the proceeds will be used to construct several miles of graveled and other kinds of highways. During the current year two road bond elections have been held and carried in this county to the amount of \$200,000 and it is the consensus of opinion here that the third project will carry by an overwhelming majority.

Quite frequently now adays we are asked, "Why don't you roast" so and so. Our reply whether expressed or implied has always been to the effect that we had no more right to "roast" any citizen than has any other man, and that our duty as a newspaper did not demand that we "roast" any body. Of course we regret as much as any the fact that in the paving of the streets there are to be skipped places which will detract from the general appearance greatly, and we might wish to be rich enough to step in and pay for the paving at these points, just for the looks of the city, but such is not the case, and there is nothing we can do in the matter. We might remark, however, that where these skips occur the owner of the property cannot make claim to being progressive or public spirited, and make the claim "stand up."

Ninety-five business men of Lutkin worked the public road to the cemetery last Wednesday. Quite appropriate for Lutkin.—Nacogdoches Sentinel.

Haltom, you quit knocking Lutkin. It keeps them so busy staying a few laps ahead of Nacogdoches to make sure of being the best little city in East Texas that they get very tired and want an easy ride on their last journey at life's end to the prettiest cemetery in the south.—Huntington Herald.

Basted Hopes

A popular doctor was not long ago much pleased with a certain aerated water, and by his assiduous recommendations procured for it a celebrity it justly deserved. The doctor acted solely in the interests of humanity generally and expected no return. To his surprise there came one morning an effusive letter from the company, saying that his recommendations had done them so much good that they "ventured to send him a hundred—". Here the page came to an end.

"This will never do," said the doctor; it is very kind, but I could not think of accepting anything." Then he turned the page and found the sentence ran, "of our circulars for distribution."

Homeless Children.

Rev. I. Z. T. Morris, State Superintendent of the Texas Children's Home Society, headquarters at Ft. Worth, is in attendance at the Central Texas Conference in this city. He was a member of this Conference up to the time of his election to his present place, fifteen years ago.

The Society is a benevolent work. The mission is to find homeless children and find Christian homes for them. Rev. Morris devotes his entire time to this work. During the fifteen years engaged in this work he has placed over seven hundred children.

If any of our citizens know of a child needing a home or of a home wanting a child, if they will see him where he can explain in detail the nature of the work.

In the mornings you will find him at the Conference, in the afternoons at the residence of J. S. Jenkins, 820 Fredonia St., where he is making his home while here.

Among the more prominent visitors at the conference is Dr. Geo. A. Sexton, secretary of the Washington City National church commission. Dr. Sexton is a member of the Texas Conference, but for the past four years has been engaged in raising a fund for building a great Southern Methodist church in the nation's capital, which will be representative in every respect of Southern Methodism. He has succeeded in raising \$300,000, and the contract for the erection of the building will be let very soon. The building will stand on a prominent corner in the hotel and business district of Washington. Dr. Sexton is being mentioned by friends as a probable delegate to the general conference.

A subscriber who comes in these days and pays the printer, is blessed, and in the kingdom to come he will be given a place a little higher than the angels. His name will be written at the top of the column next to the reading matter and nothing in the house will be too good for him. He will get comps to all the harp recitals and have a reserved seat beside the editors, while all the delinquent subscribers will have to carry water for the performers and sit up in the gallery.—Longview Clarion.

Discovers Cave-in.

After supper last night Pat Murphy, having discovered a small caved place in the street near the Farmers & Merchants State bank corner, turned a fire hose into the ground in several places along where the leads to the trap sewer had been placed. The effect of the flooding was to cause the whole length of the excavation to cave in.

When the excavation for the storm sewer was made several weeks ago, it required digging a ditch some six or eight feet deep. After the connections for the sewer had been made the dirt was filled in and packed, but it seems was not flooded sufficiently to cause the dirt to pack clear to the bottom, hence the cave in last night.

This discovery will be of value to the city and also to the paving company, for it can be fixed, the dirt packed so that it can never cave again, and when the paving is placed it will stay there until it wears out.

In today's Sentinel we publish an article to the farmers under the head "Cotton Situation in Farmers Hands." This article was handed in by a business man who has studied the situation, and who is not a cotton buyer, though more or less interested in the welfare of the farmer. In this article a condition is noted that every farmer should carefully study there is much food for thought in the suggestion made. When only a few of the foreign houses are making offerings for this low grade cotton there is no hope for it ever advancing; but with a brisk demand for cotton in the world's market for they are bound to have the cotton, even the lower grades will demand a bet-price.

Bishop E. D. Mouzon president of the conference, is being entertained in the home of Capt. I. L. Sturdevant. The bishop is the busiest man in the conference but he is taking time to meet his many friends and admirers. Bishop Mouzon was a member of the Texas Conference as a boy preacher and for many years afterward, and there is a strong affection for him upon the part of the members of the conference. Practically his whole career as a preacher has been in Texas. This is his third year in succession as president of this conference.

Rev. J. W. Mills, presiding elder of this district, is busy assisting Rev. S. S. McKenney as host of the conference, as well as attending to his duties in the cabinet. No man in the conference is held in higher esteem by the preachers than is Bro. Mills, and his name is mentioned on every hand as a delegate to the general conference.

Mr. Dave Lee who has been very sick with pneumonia for about a couple of weeks, was reported as resting very well today, though his condition is not what could be termed as better. His son Dave Lee of Mississippi is here with him, as is also other relatives.

S. MINTZ

THE FARMERS FRIEND

"Without Fear, Without Pity."

A great deal of very bad advice has been and is being given the administration, much of which is based on the notion that the Mexicans are like us, only more sunburnt.

One difference must be insisted upon. Grant that the Mexicans are proud, courteous, loyal, dignified and all the rest of it, yet the fact remains that our political notions center about the idea of law, while theirs center about the idea of force. Our popular leader is the great lawgiver; theirs is the successful soldier. And they have a most grim and trenchant proverb to the effect that the true soldier "must be without fear and without pity."

In the acceptance of that satanic ideal lies the key to much of Mexico's misery—the fiendish betrayals, vengeance and all the rest of the devilish chaos with which that unhappy land is now tormented.—Collier's Weekly.

G. B. Whitley has sold the Italy News-Herald and associated himself with his brother S. R. Whitley, in the publication of the Jacksonville Daily Progress and Reformer. C. B. was raised in east Texas, but three years ago migrated into the black land belt of Central Texas. He was never comfortable after he washed the sand from between his toes and had to sop imitations of ribbon cane lasses, so he yielded to the pleadings of Tom Lusk to give him back his first love and forthwith liked back to the piney woods, where he can not see the train until it rounds the bend and issues forth from the tall timber. Thus two souls are made happy and nobody is hurt.—McGregor Mirror.

Mr. Banks, the curb and gutter man, who has been at work on the preliminaries to the paving of the streets, advises us that by the end of the week, if he has good weather, he expects to be through with the gutters, and will then turn his attention to the erection of sidewalks, quite a number of citizens having spoken to him with reference to putting them in.

Mr. Hasel has already put down a very nice brick sidewalk in front of this new building which is appreciated by all the citizens in that part of the city who have to use this sidewalk going to and from their homes to their places of business.

The Sentinel is in receipt of a letter from Miss Viola Black, at Russellville, Ark., ordering the Sentinel sent to her address. Miss Black says they think of Nacogdoches and her people with kind regards, and wishes to hear from them. Miss Black's friends here will be glad to know that she is well pleased with her new home and thinks that the move was to their advantage.

Opening Night of Fat Stock Show.

Fort Worth, Texas, November 15.—A troupe of imperial Russian dancers, who will come direct from an engagement in New York City, will be one of the many features surrounding the coronation of the Queen of the Horse Show Pageant on opening night of the National Feeders and Breeders Show, which is the 22nd of this month. These famous dancers will give Russian folk dances and also the dances of Hungary and Spam. They are the most noted performers in the United States. In addition to this there will be extracts from grand opera furnished by singers who will come direct from New York and Boston. A yodler of national renown and who compares favorably with Al. H. Wilson has also been secured.

S. M. Lesesne staff reporter for the Galveston-Dallas News arrived in the city today, and is here to report the proceedings of the annual conference of the Methodist church. Mr. Lesesne has been doing this work for the News for several years, knows all the preachers, understands the working of the conference, and his reports are considered the most accurate and dependable of any sent out. The ministers at several conferences have requested the News to send him as their reporter.

Rev. L. B. Elrod of Marshall, is another distinguished member of the conference who is taking part in the sessions.

In preparation for putting down more concrete base for the paving the contractors were this morning laying material with which to block out such property as will be skipped in the paving. The skipped places will certainly look bad in the pavement, but we suppose there is nothing left for the contractors or the city to do. It may be that before the job is completed that these property owners will decide to have the paving done in front of their property, and if they do it will add much to the appearance of the street as well as to the value of the property.

Leading Drug Store Will Give Money Back Should There Ever Be a Case Where Dodson's Liver Tonic Fails

Dodson's Liver Tonic is a mild vegetable Liver Tonic which operates so successfully in cases of constipation, torpid liver or biliousness that it has practically taken the place of calomel—the drug which is so often dangerous. Stripling Haselwood & Co. who sell Dodson's Liver Tonic, recommends it as a reliever of constipation, sour stomach, biliousness and sluggish liver. It works gently, surely and harmlessly. If a bottle should ever fail to give satisfaction Stripling Haselwood & Co. will refund the price paid without question.

The price of Dodson's Liver Tonic is 50 cts. per bottle. Be sure you get Dodson's Liver Tonic and not some medicine put up in imitation that is not backed up by a guarantee and that may contain harmful drugs.

The Social Side of School.

Social companionship moulds the future destiny of our boys and girls so far as character and intelligence are concerned. Manhood and womanhood are the outcome of human socialibility. The policy of the average school during the past has been an open feud with the social hunger of its students, but social life has ever been the strongest motive power in shaping the progress of civilization.

A social department should be established in every rural school in Texas and should be equipped thoroughly as the social center of the community. It should be the headquarters for all social, civic and athletic movements. It should be the headquarters for all the community art clubs, music guilds, literary societies, dramatic clubs and social organizations. There should be reception rooms, music halls, auditoriums, and any other feature in current social use should be provided. —Mrs. E. P. Turner.

HAVE YOU A LIVER?

If so Use Liv-Ver-Lax

Read following statement from prominent Nacogdoches Druggist:

We have recently received a large shipment of Grigsby's Liv-Ver-Lax, the liver medicine which we recommend above all others. When troubled with constipation, or a disordered liver, do not take calomel or other harsh physics to derange the system but let us supply you with a bottle of Liv-Ver-Lax on our personal guarantee, that is, if it does not do all that we claim for it, and if you are not perfectly satisfied we will cheerfully refund your money. A sluggish and inactive liver is the cause of most all diseases. Keep your bowels open and liver regulated with Liv-Ver-Lax and you will not be sick. Liv-Ver-Lax is purely vegetable, is pleasant, safe and effective, and is good for grown ups and children all alike. We have unbounded confidence in Liv-Ver-Lax, is why we recommend it so highly. We believe Liv-Ver-Lax has given more universal satisfaction than any other liver medicine we have ever sold.

Stripling Haselwood & Co.

Quit Calomel; it is dangerous. Try Grigsby's Liv-Ver-Lax, that vegetable liver syrup guaranteed to produce even better results than calomel. It is absolutely harmless and pleasant to take. Any child can take it with safety. Ask Stripling, Haselwood & Co.

A Maker of Health.
A good honest medicine like Foley Kidney Pills gives health to many families. Mrs. O. Palmer, 635 Willow St., Green Bay, Wis. was seriously ill with kidney and bladder trouble. Mr. Palmer writes: "My wife is rapidly recovering her health and strength due solely to the use of Foley Kidney Pills." Swift Bros. & Smith. eod

Married Thursday Everything.
Thursday evening at the Methodist parsonage, Rev. S. S. McKenney performed the ceremony uniting in marriage Mr. Eugene Reese and Miss Lillian Crawford. The young couple are both from the Melrose community where they have a host of warm friends who will wish them a happy prosperous life.

More Bottles Sold Each Year.
It is easy to understand why an increasing number of bottles of Foley's Honey and Tar Compound is sold yearly. Thos. Verran, 286 Edward Street, Houghton, Mich., gives an excellent reason when he writes: "Foley's Honey and Tar Compound has always proven an effective remedy, quickly relieving tickling in the throat, and stopping the cough with no bad after effects." Swift Bros. & Smith.

Progress waits upon the heels of education and constructive development upon both.

For Children there is Nothing Better
A cough medicine for children must help their coughs and colds without bad effects on their little stomachs and bowels. Foley's Honey and Tar exactly fills this need. No opiates, no sour stomach, no constipation follows its use. Stuffy colds, wheezy breathing, coughs and croup are all quickly helped. Swift Bros. & Smith. eod.

Entertainment at the Auditorium.
From Saturday's Daily:
The entertainment at the Auditorium of the high school last night, which was the closing feature of Woodmen Day, was one of the most enjoyable events of the entire day.

On account of a heavy rain just after supper the crowd was smaller than was expected, though quite a representative crowd was present, and each feature of the program was heartily enjoyed.

The first number on the program was the Old Fiddlers Contest. There were four contestants in this, and there was some real music dispensed. J. H. Haltom, 79 years of age, and who lives several miles east of the city, won first prize; J. W. Bell, aged 70 years, and who lives at Garrison, won the second prize; W. R. Baker, aged 72 years, and resides in this city, received the third prize. S. A. Daniels, aged 68 years, was the fourth contestant.

Miss Helena Matthews, with Miss Myrta Perkins, of Rusk, as accompanist, rendered a very beautiful violin solo, which was heartily enjoyed.

After the musical feature of the program was finished the audience listened to addresses by Cyclone Davis, and W. A. Fraser, Sovereign Advisor of the Woodmen of the World.

Pain in Back and Rheumatism
Torment thousands of people daily. Don't be one of these sufferers when for so little cost you can get well rid of the cause. Foley Kidney Pills begin their good work from the very first dose. HERBINE

For the Bowels

A Cure for Chronic Constipation, Torpid Liver and Irregular Bowel Movements.

Constipation is the most common disorder of the bowels. It affects both sexes and all ages but is more prevalent among women because their duties in the household require less physical exercise than the occupations of men; therefore women suffer most from its baneful effect.

A constipated person is an easy victim when exposed to any serious disease—Pneumonia, Typhoid Fever, Malaria, Rheumatism, Small Pox, Yellow Fever and Bright's Disease gather their annual harvest of death among those who are habitually constipated. Even though they escape these diseases, such persons are always ailing more or less. They have headaches, bad digestion, dizziness, vertigo (blind staggers), sallow complexion, flatulence, loss of strength; and no energy at all. Herbine has a most admirable effect in the bowels; it is cooling, purifying and regulating. It puts a prompt check on biliousness, wind in the bowels, nervousness, heartburn, bad breath, low spirits, drowsiness in the daytime and nervous wakefulness at night.

To Utilize Cotton Bolls and Stalks.
Leming, Texas, November 15—It is understood here that parties are planning to erect at this place a factory having for its purpose the manufacturing of all waste emanating from cotton gins and cotton oil mills into paper stock. They also propose to buy and utilize all cotton stalks and bolls in the manufacture of their paper products, which now go to waste. The promotion of this new enterprise will be the first of its kind in the world.

ANGEROUS CATARRH STOPPED BY HYOMEI.

Just as long as you have catarrh, your head will be stopped up, your nose will itch, your breath will be foul, you will hawk and snifle, you will have dropping in the throat and that choked up feeling in the morning. The "germs" catarrh have you in their power; they are continually irritating the membrane of your nose and throat.

You must kill these loathsome germs or their desperate assaults will in time leave you a physical wreck. There is one remedy sold by Stripling, Haselwood & Co., that is guaranteed to kill the germs and stop catarrh, or money back. It is Hyomei—you breathe it. The complete outfit costs \$1.00. There is none just as good or that gives such quick sure and effective relief.

Some communities have had tomb-stones erected over them when they were simply indulging in care free repose. The line of demarcation between death and inactivity is but faintly defined.

There is not a medicine for any purpose more carefully made than S. S. S. It represents the highest type of medicine. Its medical properties are just as essential to well balanced health, if the blood is sick, as are the nourishing elements of meats, grains, fats and sugars of our daily food. S. S. S. is prepared direct from native botanical material. Not a drop of drugs is added. Not a drop of minerals is used. This is one of the most important things to know and to remember when your blood needs attention. It is the most effective, the purest, the quickest and most reliable medicine known for poisoned blood, rheumatism, catarrhal infection, malaria, skin disease, old sores and all ailments that show in the blood, skin, joints and muscles. An interesting book on the blood is mailed to those who write. Get a bottle of S. S. S. today. It is the world's greatest medicine. Insist upon the dealer handing you S. S. Texas Industrial Congress To Discuss Marketing.

The program of the fifth annual convention of the Texas Industrial Congress to be held at Dallas, December 13, will include a discussion of the marketing of farm products as one of its principal features. Professor Charles B. Austin of the Extension Department of the State University; a well known authority on the subject, will address the convention on "The Marketing of Agricultural Products," and the Hon. Clarence Cusley, of Fort Worth, will discuss "The Elimination of Waste in Marketing." Mr. Cusley handled this subject before the Southern Commercial Congress at Mobile this fall. These addresses upon the subject of marketing, which is so important to the business of Texas, are sufficient in themselves to make the convention a notable one.

The prizes offered by the Congress, to be distributed at this convention; are not for the largest production per

acre; as is generally supposed; but for the largest net profit per acre. Inasmuch as the Congress is really a school in farm profits, marketing, wherein the farmer capitalizes on his work, is a question of greatest concern.

A rate of one and one-third fares for the round trip has been made.

Admission Required
Supt. R. F. Davis of the city schools, in receipt of a letter from J. L. Henderson, member of the Southern Commission of Accredited Schools, conveying the information that the Nacogdoches high school has again been placed on the list of accredited schools of the South at the recent meeting of the Commission of Accredited Schools of the Southern States which was held in Knoxville, Tenn.

We publish below the full letter, which explains more fully the advantages accruing to this school by reason of this recognition.

Austin, Texas, Nov. 17.
Supt. R. F. Davis,
Nacogdoches.

Dear Sir:—The Commission on Accredited Schools of the Southern States met at Knoxville, Tennessee, November 5, and selected one hundred and forty-two schools in ten Southern States. Of this number thirty-two schools are located in Texas. I am glad to report to you that the Nacogdoches High School was placed on the list. When the fact is considered that the one hundred and forty-two Southern high schools selected are among the best secondary schools in the South, the distinction accorded your school becomes evident. I congratulate you upon the recognition accorded to your school by the Southern Commission.

The entire list of schools will be published widely throughout the South and will be used largely in the admission of students to college by higher institutions of learning in other states.

Yours Sincerely,
J. L. Henderson,
Member of Southern Commission on Accredited Schools.

The paving contractor has received during the past several days, sixteen or seventeen cars of material for the paving, and now you may expect to see something doing along the paving line. We were asking Mr. Nichols as to when he would begin to lay the blocks on the streets where the concrete had already been placed, and he advised us that he would begin this work just as soon as the condition of the concrete would permit, for as the blocks had to be rolled with a steam roller, it was necessary to give the concrete ample time to thoroughly set before this was done, so as not to crack the concrete.

Stagnation is a most dangerous disease and one that has caused the death of many communities.

Melrose Notes
The fair is over and comes the Methodist conference with the bishop, preachers, wives and delegates. Years have passed since Nacogdoches has been blessed with such a delegation of Christian workers. If a cyclone were to come at that time I believe God would spare the town to save his appointed people, and trust everyone will feel the great benediction the conference will be on that town. If we move out with a cheerful willingness to duties assigned us we always come not victorious.

The preacher in charge with the committee of arrangements and entertainment have a great burden upon them, and will have until the close of the conference, and also the good mothers and sisters who have opened their hearts and nice homes to those consecrated people. I am an outsider and yet a heart worker with you in the interest of such important matters. Am a housewife and know full well the many petty trials and cares of the home. Would you please let me suggest an idea. Lay aside the ceremonies, prepare good wholesome food, let there be a loving, plain homelike atmosphere around you—for Christ was an old timer, ate fish broiled on the coles—attend every service you can, get all the good out of it there is, and the conference will prove a great blessing to you. The visitors will go home from there, telling that they have been with their own real people, and ready to take up with its responsibilities anew.

The poor preachers wife who has been at home all the year, most of the time alone with the care of the family resting on her shoulders with its routine of labor, saving managing to make both ends meet, will also go home with renewed energy with confidence to be more submissive to Gods will.

Am sure the good people of Nacogdoches will do their best. We look forward with pleasure to several days attendance at that conference.

Am writing these lines hoping some one will be helped to press on and receive the blessing in store for them always at the end of a cheerful duty. for the toils of the road will seem nothing when we get to the end of the way.

COULD SCARCELY WALK ABOUT

And For Three Summers Mrs. Vincent Was Unable to Attend to Any of Her Housework.

Pleasant Hill, N. C.—"I suffered for three summers," writes Mrs. Walter Vincent, of this town, "and the third and last time, was my worst."

I had dreadful nervous headaches and prostration, and was scarcely able to walk about. Could not do any of my housework.

I also had dreadful pains in my back and sides and when one of those weak, sinking spells would come on me, I would have to give up and lie down, until it wore off.

I was certainly in a dreadful state of health, when I finally decided to try Cardui, the woman's tonic, and I firmly

believe I would have died if I hadn't taken it.

After I began taking Cardui, I was greatly helped, and all three bottles relieved me entirely.

I fattened up, and grew so much stronger in three months, I felt like another person altogether."

Cardui is purely vegetable and gentle-acting. Its ingredients have a mild, tonic effect, on the womanly constitution.

Cardui makes for increased strength, improves the appetite, tones up the nervous system, and helps to make pale, sallow cheeks, fresh and rosy.

Cardui has helped more than a million weak women, during the past 50 years. It will surely do for you, what it has done for them. Try Cardui today.

Dr. Geo. C. Rankin, editor of the Texas Christian Advocate, is attending the conference and mingling with the Methodist hosts. Dr. Rankin visited Nacogdoches during the past summer and preached here, and his many friends are welcoming him back again.

Rev. M. L. Lindsev, who has served as Pastor of the Methodist church in this city the past three years, left this morning for Nacogdoches, where he goes to attend the Annual Conference. Bro. Lindsey carries to conference the best report that has ever been made from this church. His many friends trust he will be returned to this place.—Timpson Times.

PARISIAN SAGE FOR THE HAIR.

If your hair is too dry—brittle—colorless—thin—stringy—or falling out—use Parisian Sage—now—at once.

It stops itching scalp, cleanses the hair of dust and excessive oils, removes dandruff with one application, and makes the hair doubly beautiful—soft—fluffy—abundant. Try a 50c. bottle to day.

It will not only save your hair and make it grow, but give it the beauty you desire. Stripling Haselwood & Co.

Old Warriors Here.

Among the visitors to the annual conference, there are no more prominent personalities than some of the old warriors of the church who have been in the fight for more than a half century, who are here to attend this conference. These old heroes of Methodism are receiving every consideration and courtesy from the younger men, and apparently they are enjoying the services as much as in years gone by. Among those in attendance we notice the following:

"Uncle" Caleb Smith of Tyler, who is 90 years of age.

Rev. John Stephens of Houston, 83 years of age.

Dr. Jno. Adams of Tyler, 85 years of age.

Dr. Isaac Alexander, of Bryan, 82 years of age.

Rev. W. W. Graham, who is now living out west, but who has seen years of service in the church. He is still hale and hearty and would not like to be called an old man.

H. L. Millis staff reporter for the Houston Post, arrived in the city yesterday and is here to report the Methodist conference for his paper. Mr. Millis has been with the Post several years as staff reporter, and has done the Methodist conference several times before. He is a Methodist, knows the working of the body, also knows all the ministers, and hands in a report to his paper which is accurate and complete in detail. He also is editor of the church page on the Post every Monday morning.

How to Use Peruna for Coughs and Colds

If Peruna were used at the beginning of every cold, coughs would generally be prevented.

After the cough begins Peruna will generally stop it just as quickly as it ought to be stopped. To stop a cough before all of the expectoration has been removed is to do great injury. After the expectoration has been properly removed the cough will stop itself. That is the only proper way to stop a cough.

Occasionally a cough depends upon an irritable condition of the larynx or bronchial tubes, in which there is little or no expectoration.

The problem of stopping such a cough is a slightly different one. Even in those cases Peruna ought to be taken, but sometimes it is necessary that local treatment be added.

Every one who has a troublesome cough or a lingering cold should write the Peruna Company, Columbus, Ohio, for a free copy of the "Tills of Life." There is no free pamphlet distributed to-day of more real value to the sick and afflicted than the new "Tills of Life." It is filled from cover to cover with actual cases of coughs, colds and other climatic diseases in all stages and complications. You could scarcely fail to find your case exactly described in this book.

To neglect to do everything possible to get rid of a stubborn cold or chronic cough is very unwise indeed. Peruna has enjoyed a great reputation as a remedy in such cases for thirty or forty years. As a rule, a person who uses one bottle of it is always afterwards an enthusiastic advocate of Peruna. Peruna itself is a means of selling more Peruna than all advertisements put together.

Those who object to liquid medicines can now obtain Peruna Tablets.

Quite a number of the preachers, who are here to attend the Methodist conference, met in the district court room this morning for the purpose of working out details for the conference and to arrange for meetings of the several committees.
