CANNON DISCHARGED.

In Habeas Corpus Hearing at Rusk Judge Guinn Orders Cannon Released From Penitentiary.

In the district court yesterday at Rusk, in the case of Ex Parte O. D. Cannon, No. 6465, habeas corpus, Judge L. D. Guinn held that Cannon was being illegally deprived of his liberty and ordered that he be released from the penitentiary.

In his opinion the court rehearses the case in detail, as regards the proceedings held with reference to the pardon as issued by acting governor Mayes, its reception by the clerk of criminal records at the penitentiary, and the answer by the warden at Rusk, claiming that he was being held by virtue of a conviction for murder. The court held that the pardon was delivered to Cannon, see Thos. Rosen, vs State, 28 Tex. App. p 287, Ex Parte Thos. Rosen, 24 Apps. p 226, even though he did not sign his name to the conditions of said pardon, for the evidence showed that the conditions in said pardon were that Cannon would obey the laws and would not use intoxicating liquors nor narcotic

wish for our many friends and customers.

Hearts Hospitality.

Miss Annie Lou Summer's heart hospitality Saturday afternoon for Miss Kate Hall a bride-elect of this month, was enjoyed by ten tables of guests. The home was made attractive with graceful ferns and evergreens and vines.

On the dining room table a large fern rested in the center of the cluny lace cloth

each corner bearing a cluny doily upon which were placed cut glass napies holding mints. The honoree was given a Parisian Ivory hair receiver. A delicious and daintily appointed course with coffee was served after the games.

Mrs. Williams of Lufkin and Miss Hall of Henderson were pleasing out of town guests.

drugs, and also showed that Cannon agreed to said conditions and would have consented to obey them. That the governor had done all that the governor had to do in regard to the pardon, and that Cannon would have agreed to the conditions, if he had been permitted to do so, and that the signing of his name are not the only way of consenting to the conditions. A conditional pardon cannot be set aside by the governor, without the conditions have been violated see Ex Parte D. R. Rice, Opinion delivered June 18th, 1913, not yet published.

Lieutenant Governor Mayes was present at the hearing and testified in the case.

W. B. Pearson left yesterday afternoon for Waco, to assume his duties as Grand Secretary of the Masonic lodge. Quite a large crowd went to the depot to see Mr. Pearson off and to wish him success. Mr. Pearson has a host of friends here who while congratulating him on receiving the honor of election as Grand Secretary for the Masonic lodge, regret exceedingly to see him leave this city.

Our public square is now about ready for the new federal building, and we hope to see work begun on it in the near future. It seems though that the matter of the government accepting the site is again in a bad muddle, and there is no telling when it will be straightened up.

Attention Truck Growers.

It was decided at the meeting which was held in Nacogdoches, Saturday Dec. 20th, to meet again Wednesday, Dec. 31st at 2 p. m. at the City Hall. We believe that you will have a successful and profitable meeting and extend an invitation to all truck growers in the neighborhood of Nacogdoches to meet, also to those who are remotely situated if they see fit.

At this writing I am communicating with the Truck Growers Association of Jacksonville, as per request. All information obtained from this association relative to handling and shipping etc. will be reported at the meeting the 31 inst.

Mr. James D. Greer and probably Mr. H. M. Mayo, will be present and discuss shipping.

If you expect to grow truck, and would appreciate having it handled in a way that would be remunerative to you, decide what you want to grow and how much. Then you can talk business at this meeting. Remember the date.

A. L. Harris.

Inspection Knights Templar.

On January 1st, 1914, a special Conclave will be held by Nacogdoches Commandery No. 55, at which time the commandery will be inspected by an officer from the Grand Lodge. All Sir Knights are expected to be present in full uniform, promptly at 7:30 p. m.

Nacogdoches Has Splendid Opportunity.

We are in receipt of a letter from Jas. D. Greer, Agricultural Director Sunset Central line, in which he calls our attention to the Truck Growers meeting which is scheduled to be held here Dec. 31st, at 2 p. m.

Mr. Greer says that he will try and have Mr. Mayo and Mr. Young the agricultural and development men of the Sunset here, and they will address the meeting. It is earnestly desired that as many farmers as can will be present.

Mr. Greer says that Nacogdoches has the greatest opportunity it has ever had to get first class accommodations in quick shipments, cheap rates and buyers for their produce at top prices. The railroad men will give full details and facts in the matter.

Mrs. Dr. William is having her old blacksmith shop torn down and moved from her lot on East Main street, at one corner of the wagon yard. This shop has been occupied for some time by Walters Bros., black-smiths, but since they have purchased the Gramling shop on Church street, they have vacated this shop, and as the building was only suited for a blacksmith shop it is being removed.

The bad weather has so far interfered with the parties, receptions, etc., which are usually the program for Christmas week with the young people; but with a bright day or two, things will be quite lively in society.

Publicity is our great remedy for the iniquities in our system of taxation—as it is indeed a remedy for perhaps most other iniquities. Certainly in the case of land the county should be required to publish the price per acre at which every tract is assessed. Such a procedure would place in the light on many dark places—**The Progressive Farmer**

The county political situation seems to attract attention rather early this year and it seems that quite a number will have announced their intention of offering for the several county offices by the first of January.

There are thirteen candidates for Governor, and yet you find many men looking for a "big man" for this job.—**Cameron Herald**.

We gain from the perusal of the county papers of the East Texas country that the entire East Texas country came up nicely with regard to sending aid to the flood sufferers of the stricken section of Texas. It may not have occurred to you, but it's a fact just the same, that East Texas was settled originally by a big hearted, sympathetic people, and their children retain the same traits of character. The best people in the world.

It has been suggested that arrangements be made with the railroad company to run an excursion to either Cleveland or Houston sometime before the holidays, the train to be known as the "booze special" and if it is put on, and thoroughly advertised over the country, it is thought that the same will have to be run in sections, for there will be many who will want to go, and it is safe to say that it will out-class in numbers any Galveston excursion ever put on.—**Lufkin News**.

The editor of the News appears to be well informed on the wishes and habits of his home people.—**Tyler Courier Times**.

One of our boy friends is puzzled about a little proposition, and thinks that his girl is "kidding" him. The other evening they were discussing Christmas, and he remarked that if she would hang up her stocking Christmas eve night he would put something beautiful in it, and she remarked, that that was nothing, she did that every morning.

Xmas is at hand. The editor would appreciate a remembrance in your prayers, more especially if your prayers are of the substantial kind that make us know we are remembered. Apropos of prayer, we are told of a church which met one night to pray for a needy widow. A "publitan" in the town declined to attend, but sent a big box, which he said contained his prayers. The box contained provisions for the needy widow. Who shall say the "publitan's" prayers were unanswered?—**Hemphill Citizen**.

Street Paving

Editor Sentinel:—

The failure of the commissioners court of Nacogdoches county to approve the six hundred dollar paving claim assessed by the city, is a disappointment and an embarrassment to nearly every one of the thirty thousand people living in the county. The assessment amounts to about two cents a piece to each of them, on an average, and the action of the court deprives them of easy access to the magnificent property that cost them three dollars a piece, on the average.

By a great majority, in sentiment at least, the people asked for bread and were given a stone—or rather a puddle of mud, which is easier to chew.

The court claimed that the tax is illegal, in full view of the decisions of the highest courts, state and federal, which hold exactly to the contrary. If by reason of some technicality the cases now pending should be reversed, nothing would be proved but an irregularity, which sometimes happens in the best of families. If it were possible for the appellants to win in the end, they would be greater losers than if they were not to win. Their property would depreciate to such an extent that occupants would leave, as soon as respectable places, could be found. They are now entitled to a substantial reduction of rent because of the mud and water before the doors, where prospective customers will not walk, ride or drive. Just why property owners were influenced to oppose the majority on a well established business proposition, approved by the highest courts, is one of the wonders of our modern democracy. Those who are so prompt to obey the voice of the majority in politics would do well to apply the same rule to the administration of public affairs.

The court says that it is a city and not a county improvement, and says it with as much ease as if the county did not own ninety thousand dollars worth of property abutting the streets and throngs of its people did not pass over it day and night. It is plain even to the "kicking few" that the entire county is benefited by paving the streets of the county seat, and if it were left to a vote of the county the claim for the improvement would be approved by an immense majority.

Nacogdoches has never done anything that pleases the people of the county as much as paving the streets pleases them. The most of them come to town in buggies, wagons and other vehicles, and use the street more than the town people, who seldom get off the sidewalk. It is a convenience and delight to every one and to no one more than the countryman who drives a tired team out of the mud on to a surface level and mudless as a marble floor, and leaves it high and dry.

The county people are entitled to the best that can

be given them, for it is their labor that builds cities and keeps the wheels of progress moving. The plat of ground the town of Nacogdoches stands on would become a farm contributing to the support of some other town if the country people were to withdraw their support from it.

It would have been a graceful act if, amid the jars that rend us locally, the court had promptly approved the improvement and ordered one or two ornamental street lamps, as strong and as pretty as any in the city, to flood with light the county property and the streets running by its doors.

The city is paying about \$4000.00 a year on the pavement bonds, and ought to have been out of the mud several weeks ago.

It was suggested that I write this article which attempts in a general way to describe the situation as the public sees it.

Business is good along all lines in Angelina county; even the doctors are enjoying a fairly good practice. Now let the Nacogdoches Sentinel say something about that.—**Lufkin News**.

We don't doubt the above statement in the least, for the number of patients coming from Lufkin to our two sanitariums for special treatment or surgical operations, indicates very clearly that the Lufkin doctors are at work, enjoying a fairly good practice.—**Nacogdoches Sentinel**.

The News never thought about those two blooming sanitariums at the time, but it is too everlastingly late now. Come to Texas.—**Lufkin News**.

- Curtis M. Ballenger, Lubbock, dental appliance.
- Geo H. Cleveland, San Antonio, railway script.
- Marcos De La Garza, El Paso, solar heating apparatus.
- S. E. Driscoll, Shiro, window-sash fastener, assigned L. Driscoll & A. B. Furriss.
- Joshua Gibbs, Furrh wagon brake.

Clayton F. Holmes, Beaumont, smoke separator, assigned J. Friebes.

Wm. C. Kennedy, Matador, collar.

Clyde A. Lake, Dallas, brick mason's steel trig.

Douglas B. McCall, Rogers, knee protector.

John F. Milton, Texarkana, valve.

Wm. F. Moss, Richmond, fountain brush.

Sidney Quayle, Hillsboro, remedial appliance.

Ora Spencer, Cuero, foot accelerator.

Adolph Stavinoha, Engle, harrow and cultivator.

Warren Wagner, Burkburnett, under-reamer.

The high cost of living should not worry the farmers. In fact, they are the people who should be glad to see the cost of living high. Every thing the farmer has to sell is bringing a good price. Right now is the time for the farmer to cut down the cotton acreage and raise more stuff for people to eat and get a good price for it, and in the meantime help boost the price of what cotton he does raise. The Kilgore country needs more farmers who will diversify.—**Kilgore Chronicle**.

There was a serious wreck on the Sante Fe about three miles north of here last Tuesday morning which caused much inconvenience to the traveling public, delaying traffic for about 15 hours. Several box cars loaded with ties were telescoped, and the track badly damaged, but no one was hurt.—**Bronson Light**.

"Our Governor" has declared that he will not call an extraordinary session of the legislature unless a majority of the members will pledge themselves to enact such legislation as he recommends. Why a legislature, if they are an humble bunch of weaklings that will submit to dictations from any one man? Why not "Huer taize" the legislature anyway?—**Bronson Light**.

Have you paid that poll tax yet? If not you had better save out a little from you Christmas shopping. You are going to need that poll tax mighty bad this year.

Letter From Judge Ingraham, Nacogdoches Texas, Dec. 20, 1913.

Editor of Sentinel:

Dear Sir:—The paving company want \$669.12 for paving streets adjoining the Court house.

Of this \$669.12 I will pay \$55.76 provided any or of all the citizens of the city, and county, will pay the balance of \$613.36 making the sum of \$669.12. The money for this purpose, to be deposited in any bank in the city, to pay this particular \$669.12.

In addition, if the above \$669.12 is paid as above, I will pay \$25.00 more, to have a light placed in the little square, fronting the court house, similar to the ones suggested by Mr. E.A. Blount, along Main street, Please publish.

Respectfully,
Geo. F. Ingraham.

Many Were Disappointed.

Several days ago a report became current on the streets to the effect that the H. E. & W. T. railroad would give excursion rates, good on their regular trains, Thursday or Friday of this week, to Cleveland and Houston, to provide a means for the fellows to "go and get" a supply of the joy water for the Christmas morning. So persistent was this rumor, that quite a few were making arrangements to go on the excursion, and we hear that several suit cases were cleaned out and brushed up.

The whole business was a fake, and there was no excursion contemplated by the railroad. The disappointment was something awful to the fellows who are specially dry just at this season.

Mr. Floyd Matthews advised us that he had been called over the telephone by no less than two hundred people, some of the calls were from neighboring towns—Caro, Cushing and others.

The Siege Of The Mud Hole.

The war against the mud hole is being waged in earnest in Texas and the ballot has proved a mighty weapon in combating this destructive evil. The issuance of a million and a quarter dollars in road and bridge bonds last month was a decided victory for the cause highways and one which will be recorded in the archives of great achievements.

Jupiter Pluvius has sent a multitude of volunteers to the ranks of the road builders during the past thirty days and some of the bond issue's most bitter enemies are now clamoring for better roads at any cost. Thirty more battles of the ballot will be waged in this State at an early date, when issues to the amount of \$6,560,000 will be decided.—**Commercial Secretaries**.

Mudholes are produced on public roads and streets by confining the rain-water on them. Where it has the opportunity to get off the road, there is no mudhole. It is therefore a waste of money to build streets or roads unless provision is made for the rain to pass off as it falls.—**Tyler Courier Times**.

WE NEED SETTLERS.

How Every Progressive Citizen Can Help.

This is an era of advertising. If we have something we want the rest of the world to know, we put it in the newspaper or book and send it out to them.

We have here one of the most productive sections of Texas. Lands are fertile, and easy to purchase on good time.

Crops are practically sure; climate fine; rainfall adequate; transportation facilities good, and social, educational and religious opportunities excellent.

What we now need is a more rapid settlement of our cheap lands and a development of our magnificent resources. We must reach the land hungry people of other states and show them what we have to offer. How?

One way is to have the reader of this article furnish the editor of this paper with a list of his friends and relatives in his home section or state, who might be interested in Texas and who might be induced by truthful representations, to come and settle among us. We will be glad to send copies of this paper to the person so listed and will arrange with the Industrial & Immigration Bureau of the Sunset-Central Lines to also forward attractive literature to each individual, advertising our section.

Get up the lists; we need new settlers; we must have them, and only by initiative, energy advertising can we get them. Send in the names, bearing in mind we want only good material—men and women who will succeed and be a credit to this community and state.

A FRIEND TO THE WORKING MAN

Five years ago I was so troubled with kidney trouble and inflammation of the bladder that I had to cease working my farm. Life looked dark to me until I heard of Dr. Kilmer's Swamp-Root through a cured friend. I tried a bottle and began to feel better at once. After using five or six bottles I felt fine and have continued to work as I had before my affliction.

I want to state that Dr. Kilmer's Swamp-Root is a kidney medicine that will cure and I owe my good work during the past five or six years to it.

Yours very truly,

"Young Beel" Was Leader in Assault on H. T. Tyler at Shreveport.

Pat Murphey, alias R. R. Page, A. Behm, known as "Young Beel," and Harry Barry, three white men, held in connection with the assault on H. T. Tyler, who was sandbagged and robbed a few nights ago, were transferred to the parish jail to await an investigation by the grand jury. Murphey, it was reported, will be a witness for the State.

The investigation conducted by the police has revealed how the assault was made. The three men, it was said, were in the near beer joint and they determined to get hi money. They waited outside the place and slugged him as he came out of the door. Young Beel, it is charged knocking him down as he walked out. While he was unconscious the three rifed his pockets and left him in an alley. After he had been knocked down he was tapped with a brass knucks, according to the police version, and injured so that a trip to the Charity Hospital was necessary. Tyler left that institution.

Part of his money, his watch and a railroad ticket to Nacogdoches, his home, were found in the possession of the three men when they were searched at police headquarters.—Shreveport Times.

With all the county roads in a fearful condition on account of the continued rains, it would seem that everybody would be in favor of improving the county roads at any cost. Still you will find a few who think that it is some one else's business to build good roads and will try to switch the conversation to other lines. These same few will drive out of their way to get on a good road almost every time.

The foundation of all good farming is the upbuilding of the soil. The man who makes his land poorer is a poor farmer, no matter what else he may be doing; and our whole system of farming has been a soil-robbing system. It is time for a change. True, the change is being made but much more slowly than it should be. Naturally, such change can only be made by individuals, and until the unknown number of individual farmers who farm for the future exceeds the number of those who think not of their land, but only of what they can get out of it, we shall be on the wrong track.—The Progressive Farmer.

Free Wool.

The new tariff law which went into effect December first placed raw wool on the free list, and fleece produced in foreign countries is now permitted to compete in prices with the native product on our home market. The first day the law was in force more than a million dollars worth of Australian fibre entered the United States duty free.

Just what effect the removal of the protective tariff will have on the wool-producing business of the United States has not yet been determined. Sheep raisers around San Angelo report one of the largest fall clips in recent years, and numerous shipments of the downy fibre are being made to Boston markets, and are securing the usual top notch prices from willing buyers.

The experimental station authorities have secured the seed for their patch and planting will commence immediately.

The Picture Of A Reactionary

New Orleans Daily States.

The reactionary stands on the street corner and weeps over "government interference in private business," and then ships a package by parcel post because the rate is cheaper than that of the express company.

We would like to have the calendar clerk, or whoever the matter might properly come before, to change Christmas to the Fourth of July, the 19th of June, or any of the summer months when there is not much likelihood of rain interfering with the festivities. This rain business is getting to be something fierce.

It has been suggested by several of the newspapers in dry territory that the railroads could make a bunch of money running excursion trains on reduced rates into the wet sections from now until Christmas. And if reports we hear are correct some of the railroads are going to avail themselves of the opportunity. Just at this particular time, it seems that an excursion from dry territory into an irrigating district, would beat an excursion to a circus all to pieces. It is strange that so many think they cannot celebrate Christmas properly without getting soused.

Resolution of Respect.

To the officers and Companions of Nacogdoches Chapter No. 13, Royal Arch Masons:—

We, your committee, appointed to draft resolutions upon the death of our beloved companion, T. J. Hill, beg leave to submit the following:

Resolved 1st, That in death of companion, T. J. Hill, the chapter has lost one of its most valued and beloved companions. He lived a long and useful life, was a patriot, shown by his long and willing service to his country, when it needed men. Was a first grade citizen, shown by his service in public capacities. Was a kind father, a loving husband and was essentially a man among men, who "by the will of God served his generation" and then fell asleep.

Resolved 2nd, That we tender to his bereaved wife and son our best and most tender sympathies and that the Secretary furnish the family of our deceased companion a copy of these resolutions.

Resolved 3rd, A copy hereof be furnished each of the newspapers in the city of Nacogdoches with a request that they be published.

Resolved, 4th, That in the coming years, the chapter by the rarest chance, may find someone to occupy the place filled by him among the companions, in our judgement his place will long remain vacant, and while the places that knew him shall see him no more, the recollection of what he was among us shall long be treasured as one of the gems of memory.

IMPORTANT COURT DECISION.

U. S. Supreme Court Upholds Cities Rights to Assess For Cost of Paving.

The right of a city to assess paving costs on land owners, according to the frontage on streets improved, was today upheld by the Supreme court in the case of *Elkins, W. Va.* Similar questions were pending in other cities.—Associated Press Report from Washington, December 15th.

The above paragraph is taken from the Associated Press report in the Houston Chronicle of Tuesday, Dec. 16, under a Washington date line, and appeared along with several other decisions of not handed down by the highest court of the country. We wish that we were able to publish the entire text of the decision, but this is not given. This statement of the decision will be of interest in Nacogdoches, from the fact that just now we have the paving of our streets in hand and are meeting with objections from the property owners "on streets improved," and have been compelled in some instances to leave property out of the paving because of suits filed against same which are now pending in the courts.

The decision of the Supreme Court of the United States, it would seem to us, clearly indicates the final outcome of these cases pending, but whether or not those bringing them will dismiss them and fall in line is not known. It may be of course that the cases will be prosecuted through the courts thus delaying the paving work as long as possible, possibly for a year or two until the several appeals can be heard; but the final outcome will be that the city is upheld, the paving will have to be put down, and at the additional cost to the property owner of 10 per cent for having the paving people return to do the work, the cost of the suits and attorney's fees.

Heretofore the Sentinel has been compelled to discuss the paving matter from the standpoint of civic pride, convenience of the public, the effect it would have upon the outside world as indicating a live progressive city with an up to date, progressive citizenship, etc., but now our discussions will not admit of argument from either these or a legal standpoint.

RADFORD'S PLATFORM

Ex-President of the Farmer's Union Outlines Legislative Needs of Farmers.

MARKETING AND HELPING THE TENANT FARMER THE PARAMOUNT ISSUES.

Fort Worth, Texas.—Replying to many requests to run for Governor, Peter Radford gave out the following statement:

"My duties with the National and State Farmers' Union, I consider, present a wider field for rendering public service than that afforded by the Governorship of Texas. Many things are possible through mutual co-operation that can not be accomplished through legislation and I consider it my duty to work in this broader field.

"Our government has been run by city men and agriculturists whose knowledge of farming has been acquired by looking through the windows of Pullman cars and while the farmer bears the brunt of taxation, owns the larger per cent of property and seventy-six per cent of our population lives in rural territory, he has little voice and receives comparatively small benefits from government. The farmer asks no favors, but he is entitled to the same consideration from government that is accorded other lines of business.

"I follow the plow for a living and my views are gathered from actual contact with the soil and are acquired from association with the great body of organized farmers of this State, and I think fairly represent the consensus of opinion of the farmers of Texas as a whole and embody the elements of constructive legislation needed in Texas today.

Agricultural Legislation Needed.

"The laws of Texas relating to business are wholly unsuited to the transactions of the farmer. While primarily based and admirably adapted to the needs of commerce and industry, they work a hardship upon agriculture. We must give the same care and consideration to a system of co-operative laws extending to the farmer the facilities adapted to his business that is now afforded corporations. We need to enter vigorously this unoccupied and fruitful field of legislative activity and install the legal machinery adapted to permitting and encouraging co-operative business concerns and facilitating co-operation between different lines of industry.

"In glancing over our statutes I find that most of our laws are aimed at the punishment of individual and corporate criminals and while approving the wisdom and applauding the efficiency of these laws, I do not believe government can hope to fully perform its duty toward all the people by addressing itself to the suppression of crime alone. I want to plead for the able and law-abiding citizen that consideration from government that is now accorded the incompetent and criminal classes. We must not relax for a moment our efforts to restrain the avaricious and protect the weak, but let us extend the functions of government into developing new regions of agricultural, industrial and commercial activities for the honest, energetic and law-abiding citizens. There should be breathed into our statutes the spirit of the builder and hope and encouragement for the conscientious and ambitious should abound in our laws. New areas of opportunity should be opened up for the home-owner, the laborer and the investor. Legislation should be based upon the needs of that large body of intelligent and progressive farmers that constitute the great bulk of agricultural population as well as assisting the incompetent.

Co-operation the Remedy.

"To meet the expectations and necessities of the farmers we must develop a co-operative system of rural credits that will make money, at reasonable rates of interest, constantly and easily available to maintain and expand their business. Farm tenancy is the greatest menace now confronting the State and can only be checked by affording the tenant and the laborer facilities for acquiring property and by reducing the high rates of interest which are now sapping the vitality of agriculture.

The curse of farm peasantry now confronts us and our farmers are fast becoming agricultural gypsies, wandering from farm to farm. We now have 319,575 farms in this State operated by tenants which is fifty-three per cent of the total and the tenant farmers have made a net gain over the farm owners of thirty per cent during the past decade. At the present rate of gain in tenant farming, the home owner will entirely disappear in thirty-four years. Our homes are the cornerstone of government and legislation that con-

tains building material should be provided for the tenant farmer. This should be the paramount issue during the present campaign as the safety of the nation lies in the preservation of its homes.

"Our methods of preparing cotton for the market are wasteful and our holding plans inadequate to meet the imperative needs of the farmer. Legislative facilities should be provided for co-operative ownership and operation of cotton gins; the establishment of a warehouse system and securing funds on storage cotton. Every movement and transaction from the field to the spinner should be carefully studied and methods of co-operation and assistance extended.

"The marketing of farm products should receive the diligent attention of the legislature. A marketing bureau should be established under the department of agriculture and marketing given equal attention to that of production. The bureau should be properly equipped for providing information and studying and assisting in the solution of the many intricate problems connected with the business of farming.

Anti-Trust Law Needs Strengthening.

"The farmers have felt the iron heel of the trusts and illegal combines and the vigilance of our state officials in policing industry is to be commended, but the benefit of these laws has so far been confined principally to lawyers, conmen and politicians with inordinate ambitions. While we should hold all we have I favor extending the benefits of these laws to the producer and consumer and increasing their efficiency to a point where the trusts can not collect their fines from the farmers through increasing the price of their products.

"The combination of capital is universally recognized as necessary to develop the commerce and industry of the country and when properly managed, large business concerns are conducive to efficiency and economy and all conscientious and law-abiding capital should be encouraged to do business in Texas.

"The trust evil can be reduced by legislation, but it must be finally overcome by organization and co-operation of the farmers. These powerful corporate organizations dealing with the individual producer and consumer, place the farmer at their mercy and to satisfactorily cope with present conditions the farmers must acquire power through organization.

Railroads.

"Our railroad facilities should be improved and our mileage increased and I favor such amendments to our laws as in the wisdom of the railroad commission may hasten these results. I believe that all power conveyed to the railroad commission should be exercised exclusively by them and that neither the legislature nor the Attorney General should take the initiative in any matters within the control of the Railroad Commission. I consider dual jurisdictions confusing and unbusiness-like.

"The Railroad Commission, the railroads and the farmers should cooperate in moving farm products and especially waste products. Certainly our mutual interest and combined intelligence can evolve a plan for moving the tons of fruit, vegetables and semi-staple crops that rot on the ground each year. The loss of a crop is, I think, a tragedy of sufficient importance to justify the consideration of State government and the common carrier.

"The service of the common carrier fulfills every need of the merchant and manufacturer and our transportation system is built around them. They are shrewd traders with facilities for locating the best market, controlling its supply and presenting convincing arguments for rates that will move the traffic, but the requirements of the producer are vastly different from those of the trader and the business of farming will never adapt itself satisfactorily to their necessities. The farmer must have a co-operative system of business that extends the usefulness and utilizes latent powers of the carrier in assisting in the marketing of products.

"The problem is a monumental one, but probably no greater than the many difficulties that have been surmounted in handling the business of the merchants and manufacturers and I ask for the producer the same thoughtful consideration to his requirements that has been given other lines of business.

Opposed to Woman's Suffrage.

"It is the hand that shuffles the cards rather than the one that rocks the cradle that wants to cast the ballot. The home is the great contribution of women to the world and the hearthstone is her throne. Our social structure is built around her and social righteousness is in her

charge. Her beautiful life lights the skies of hope and her refinement is the charm of twentieth century civilization. Her graces and her power are the cumulative products of generations of queenly conquest and her crown of exalted womanhood is jeweled with the wisdom of saintly mothers. She has been a great factor in the glory of our country and her noble achievements should not be marred or her hallowed influence blighted by the coarser duties of citizenship. Southern chivalry should never permit her to bear the burdens of defending and maintaining government, but should preserve her unscathed from the allied influences of politics; and protect her from the weighty responsibilities of the sordid affairs of life that will crush her ideals and lower her standards. The motherhood of the farm is our inspiration, she is the guardian of our domestic welfare and a guide to a higher life, but directing the affairs of government is not within woman's sphere and political gossip would cause her to neglect the home, forget to mend our clothes and burn the biscuits.

No Liquor Legislation Needed.

"I am a state-wide prohibitionist, have always voted against the saloon and do not use liquor in any form and I will always remain a life-long enemy to the liquor business. The home of the farmer is the hearthstone of morality and the fountain-head of all that is pure and noble in life and the farmer should ever stand for civic righteousness and the reduction of all forms of vice to the minimum. Not more than twenty-five per cent of our population ever tastes liquor and less than one per cent drink to excess. The delinquents we will always have with us, but the liquor habit affects so small a per cent of our population that I do not think it should be considered to the exclusion of important problems that affect the welfare of all the people. Where liquor sends one man staggering home to his family, our system of marketing and of rural credits sends thousands of families reeling down the thoroughfares of poverty.

"Each year 2,400 farmers become victims of an inadequate and brutal system of credits, cover their hearthstone with the ashes of failure and as many mothers, drenching the family altar with the tears of despair, cry aloud for help as they close forever the door of the home. Let us turn our attention temporarily from the delinquents and incorrigibles to the worthy and ambitious citizen struggling to feed and clothe his family, educate his children and own his home. Let government assist those who plead for opportunity rather than consume all our energies upon those who scorn the privileges of manhood. Experience has proved that when legislatures become involved in prohibition discussions much important legislation is abandoned and the business affairs of government neglected.

"I favor the rigid enforcement of all liquor laws now on the statute books, but am opposed to any statewide legislation of any character on this subject by the next legislature.

Education.

"I favor compulsory education extending over the entire school term. Our rural school system is inadequate to meet the requirements of properly educating the children of tenant farmers who move from farm to farm; is readily apparent. No matter which way we turn in dealing with the problems in our rural districts, we are confronted with the condition that one-half the population of the country is a floating one. The home and the school are closely allied and their success interdependent.

"Our system of education from rural school to university should receive the careful consideration of the legislature and efficiency and economy instituted wherever possible.

Labor.

"Labor is honorable whether performed by male or female. Skill and ingenuity should be rewarded, but no class of labor that uses energy, practices economy and lives a moral, upright life, should receive a lesser wage for their services than would enable them to lay up for a rainy day, for old age, to educate their children and place them in society to the best advantage to advance the citizenship and improve the same in the community in which they live. The farmer's family, as a rule, is the poorest paid of any laborer in proportion to the service they render for the general welfare.

"I favor conducting government on a strictly business basis and the proper care for our wards, humane treatment and character building of our convicts, encouraging road-building and the full performance of all the functions of government."

Exports and Imports of Cotton Manufactures.

The value of cotton goods of domestic manufacture exported during the fiscal year 1913 amounted to \$53,743,977 the largest amount for any year in the history of the country. More than one-half of this amount is accounted for by the exports of cotton cloth, which amounted to 444,729,241 square yards, valued at \$30,668,234. The value of cotton goods imported during the year amounted to \$63,985,983. The United Kingdom, Germany, France, and Switzerland, in the order named, contributed the largest amounts, these four countries furnishing 95 per cent of the total. Laces, edgings, embroideries, and the like formed the most important class, the value of these goods imported amounting to \$35,776,301, of which Switzerland furnished almost one-third.

Hunts Lightning Oil.

This is the liniment which has caused so much talk. So many people are telling how it has relieved them of pain that one can no longer doubt that it is truly a wonderful remedy. Every druggist handles it.

Some people seem to think that truth is like rubber; that they can make it go farther by stretching it. — Youths Companion.

Something Fine For Headaches.

If you know how quickly the pain is eased with Hunt's Lightning Oil, you would always have it on hand. It is also splendid for Rheumatism, Neuralgia, Cuts, Burns, Sprains. Ask Your Druggist.

The street paving people began pouring concrete on the west side of the square this morning, beginning near the south corner where the paving has been completed. If weather conditions will permit it is quite likely that the entire square will be paved before the first of January, and then the work will be started toward the depot.

A man in British West Indies writes: Where ever I am, I find Hunt's Lightning Oil indispensable. It is truly a wonderful remedy for pains. In cases of Rheumatism, Neuralgia, Headaches, Sprains, etc you should just try it and be convinced. Your druggist sells it.

Miss Willie Cason and Mr. Robert Cason returned from Georgetown last night, where they have been attending Southwestern University, and will spend the holidays with home folks.

Not Beyond Help At 87

Sleep-disturbing bladder weakness, stiffness in joints, weak, inactive kidney action and rheumatic pains, are all evidence of kidney trouble. Mrs. Mary A. Dean, 47 E. Walnut St., Taunton, Mass., writes: "I have passed my 87th birthday, and thought I was beyond the reach of medicine, but Foley Kidney Pills have proved most beneficial in my case." Swift Bros. & Smith.

Succumbs After Long Illness.

Knox Peterson died last night at the home of his mother at Melrose, after an illness extending over several months, and was buried this afternoon at 3 o'clock in the cemetery at Melrose.

Several weeks ago Mr. Peterson was brought to this city to the sanitarium for treatment, but every effort of the physicians failed to give him relief, and when it seemed apparent that he could not recover he was taken back home.

Mr. Peterson was about 30 years of age and single. He was a quiet steady, hard working citizen, a good man and his death is very much regretted. He was a member of the Knights of Pythias lodge of this city, and a member of the Woodmen lodge at Melrose.

Young Women, Number Supprisin-

The number of young women who suffer with weak back, dizzy and nervous spells, dull headache and weariness is surprising. Kidney and bladder ills cause these troubles, but if Foley Kidney Pills are taken as directed relief follows promptly, and the ills disappear. Contain no habit forming drugs. Swift Bros. & Smith.

Mr. Jas. D. Greer, agricultural agent for the Sunset Central Lines, is in town today, in the interest of his department. He states that his road was making a determined effort to get settlers into East Texas, and prospects were good for all of the East Texas trunk lines to unite in an effort to get home seekers into the East Texas territory. —Timpson Times.

The Man Who Neglects Himself.

When his condition point to kidney trouble takes an unwise risk. Backache, pain and soreness over the kidneys, nervous or dizzy spells, poor sleep, are all symptoms that will disappear with the regular use of Foley's Kidney Pills. They put the kidneys and bladder in a clean, strong and healthy condition. Swift Bros. & Smith.

Henry Tucker came in last night from Georgetown, where he has been attending Georgetown University, and will be at home during the holidays.

Guarding Against Croup.

The best safeguard against croup is a bottle of Foley's Honey and Tar Compound in the house. P. H. Ginn, Middleton, Ga., writes: "My children are very susceptible to croup, easily catch cold. I give them Foley's Honey and Tar Compound and in every instance they get prompt relief and are soon cured. We keep it at home and prevent croup." Swift Bros. & Smith.

Miss Gladys Hardeman came in last night from Georgetown, where she has been attending the Southwestern University, and will spend the holidays at home.

A man is not necessarily boastful when he says that he is self-made. He may be making excuses. — Youths Companion.

Discovered.

Oftimes there has been a demand for the creation of a fathers' day. There are mothers' day, children's day and a day for about everybody, and now comes a smart and thoughtful Texas newspaper brother and creates a fathers' day. He names it for January second. It is the day father holds his annual reception to the bill collectors, and it is going to be a success. At least father is going to get a great deal of attention. This has been so in all the past, but no one was ever quite smart enough to designate it. The rest of the family may waltz out in front of father and be the center of attraction on other dates, but on January first and thereabouts father is certainly the big IT, and no one else will do. —Palestine Herald.

IT IS SERIOUS

Some Nacogdoches People Fail to Realize the Seriousness of a bad Back.

The constant aching of a bad back, the weariness, the tired feeling,

The pains and aches of kidney ills

May result seriously if neglected.

Dangerous urinary troubles often follow.

A Nacogdoches citizen shows you what to do.

C Heitman, shoemaker, 111 North St., Nacogdoches, Texas, says: "I was bothered for over a year by weakness and a steady aching in the small of my back. I was tired all the time, especially in the morning. I got a box of Doan's Kidney Pills at Mast Bros. & Smith's Drug Store, (now Swift Bros. & Smith's Drug Store), and they completely cured me."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Coughs That Prevent Sleep.

These coughs are wearing and if they "hang on," can run one down physically and lower the vital resistance to disease. Mr. Bob Ferguson, 319 Pine St., Green Bay, Wis., writes: "I was greatly troubled with a bad cough that kept me awake nights. Two small bottles of Foley's Honey and Tar Compound completely cured me." Swift Bros. & Smith.

Gets Right Twist On Rheumatism

Makes Short Work of Cleaning Out Your Entire System—Aches and Pains Go Fast.

In S. S. S. You Get a Twist on Rheumatism That Settles It.

Many a rheumatic sufferer has been to the drug store for a bottle of S. S. S. and been handed something claimed to be "Just as good." Truly, to ask for bread and be given a stone is still in practice. If you are troubled with rheumatism in any form be sure to use S. S. S. and note its wonderful influence.

S. S. S. has the peculiar action of soaking through the intestines directly into the blood. In five minutes its influence is at work in every artery, vein and tiny capillary. Every membrane, every organ of the body, every emunctory becomes in effect a filter to strain the blood of impurities. The stimulating properties of S. S. S. compel the skin, liver, bowels, kidneys, bladder to all work to the one end of casting out every irritating, every pain-inflicting atom of poison; it discharges by irrigation all accumulations in the joints, causes acid accretions to dissolve, renders

them neutral and scatters those peculiar formations in the nerve centers that cause such mystifying and often baffling rheumatic pains.

And best of all this remarkable remedy is welcome to the weakest stomach. If you have drugged yourself until your stomach is nearly paralyzed, you will be astonished to find that S. S. S. gives no sensation but goes right to work. This is because it is a pure vegetable infusion, is taken naturally into your blood just as pure air is inhaled naturally into your lungs.

Get a bottle of S. S. S. today, and ask for S. S. S.

You may depend upon it that the store that sells you what you ask for is a good place to trade. Write to the Swift Specific Co., 294 Swift Bldg., Atlanta, Ga., for their Book on Rheumatism.

The Result of Advertising

The editor of a certain Texas newspaper called on one of the merchants of his city for the purpose of selling him advertising space. The merchant refused and said that advertising was alright for some people, but was not adapted to his business. He furthered his argument by saying that either himself or his clerks knew every one in the city and that his store did its advertising through personal conversation. The editor inquired if every one in town traded at his store. The merchant answered in the negative and the conversation soon ended. The editor had won his point and secured a small contract. The merchant soon learned that a little newspaper advertising was alright and that more of it was still better. His newspaper ads now reach thousands of listeners where his

conversation publicity formerly had an audience of one or two. Ten customers buy where only one talked before and this merchant is convinced that publicity is the thing.—W. Holt Harris.

Let's insist on four wells on the public square. We have the best of pure water, and why not let the folks who sustain Tyler have water to drink when they come to the city. The public hydrants (drink fountains) are ornamental—that is all. They are turned off in the winter months to prevent freezing and in the summer months the water from them is so warm the people will not drink it. They are no more in demand than are marble slabs for men to sit on in freezing weather or in hot weather. We must have the wells by another season.—Tyler Courier-Times.

WHENEVER YOU NEED A GENERAL TONIC - TAKE GROVE'S

The Old Standard Grove's Tasteless chill Tonic is Equally Valuable as a General Tonic because it Acts on the Liver, Drives Out Malaria, Enriches the Blood and Builds up the Whole System. For Grown People and Children.

You know what you are taking when you take Grove's Tasteless chill Tonic as the formula is printed on every label showing that it contains the well known tonic properties of QUININE and IRON. It is as strong as the strongest bitter tonic and is in Tasteless Form. It has no equal for Malaria, Chills and Fever, Weakness, general debility and loss of appetite. Gives life and vigor to Nursing Mothers and Pale, Sickly Children. Removes Biliousness without purging. Relieves nervous depression and low spirits. Arouses the liver to action and purifies the blood. A True Tonic and Sure Appetizer. A Complete Strengthening. No family should be without it. Guaranteed by your Druggist. We mean it. 50c.

Planks From Radford's Platform.

The laws of Texas relating to business are wholly unsuited to the transactions of the farmer.

Our methods of preparing cotton for the market are wasteful and our holding plans inadequate to meet the imperative needs of the farmer.

We must give the same care and consideration to a system of co-operative laws extending to the farmer the facilities adapted to his business that is now afforded corporations.

Legislation should be based upon the needs of that large body of intelligent and progressive farmers that constitute the great bulk of population, as well as assisting the incompetent.

Every movement and transaction of cotton from the field to the spinner should be carefully studied by the next Legislature and methods of co-operation and assistance extended to meet the necessity.

Farm tenancy is the greatest menace now confronting the State and can only be checked by affording the tenant and the laborer facilities for acquiring property and by reducing the high rates of interest which are now sapping the vitality of agriculture.

COLDS & LaGRIPPE

5 or 6 doses 666 will break any case of Chills & Fever, Colds & LaGrippe; it acts on the liver better than Calomel and does not sicken. Price 25c.

Houston to Talk to Texas Farmers.

Fort Worth, Texas, December 17.—President Lewis of the Texas Farmers' Union gave out the statement today that Mr. David Houston, Secretary of the United States Department of Agriculture, would attend the state farmers union convention January 14th and 15th. Mr. Houston will address the Texas farmers on marketing, on farm crops and will exchange ideas with them. The meeting will probably be held in the new Chamber of Commerce Auditorium, which is nearing completion.

The East Texas Fair Association held a stock holders meeting last night, but as a full attendance was not present, it was decided to have another meeting January 8th, 1914, at which time the business of last year will be examined, and arrangements made for the following year, and the fair next fall. The association intends to make each succeeding fair better than the former, until the East Texas Fair is the best in the state.

To Prevent Blood Poisoning apply at once the wonderful old reliable DR. PORTER'S ANTISEPTIC HEALING OIL. Surgical dressing that relieves pain and cleanses the wound. Not a liniment. 25c.

It will be 13 years before it is lawful to shoot the bobwhite in Colorado, four years in Michigan, four in New Mexico, five in New York and two in Ohio. Florida, Maine, Nevada, North Dakota, Oregon, South Dakota and Utah have taken him completely off the list of game birds. In most of the eastern, western and northern states the partridge, pheasant, rough grouse blue quail and the imported species have been voted protection.—Farm and Ranch.

A Most Eventful Year.

The Tyler Commercial College of Tyler, Texas, has truly had a most eventful year. A successful reunion from 10,000 former students, a T. C. C. day on the Dallas Fair program and a special train of seven coaches of students from Tyler. A new building giving almost 50,000 square feet of floor, space, 2000 enrollments for the year. A greater demand for our graduates than we can supply and the successful launching of our course of Business Administration and Finance. We have had many enrollments and splendid work was done in this new department. Business men congratulate us on our being the first institution in the South to put in this much needed course,

covering the following subjects: Money and Credit, Corporation Finance, Taxation and Public Finance, Private Secretaryship, Salesmanship, Advertising, Commercial Geography, Commercial History, Higher Accounting, Economics, Parliamentary Law and Managerialship. There is continually being created a greater demand for higher trained business men and women. The State of Texas now requires that all counties of 40,000 population and over employ an auditor at a salary of \$2,400.00 per year. Wholesale houses and banks of any size require their business to be audited once a year. The U. S. government has inaugurated a department of auditing in their Civil Service Department that pays a handsome salary. Men at the head of large corporations are wanting private secretaries and men of exceptional ability. The mastering of Law and Medicine holds out no such inducements as is held out to one who completes our course of Business Administration and Finance.

With such an eventful year just closing, it will be a big undertaking for us to do better work and accomplish more in 1914, but we have the energy and are determined to do it. Enroll with us and watch us grow. The inspiration a student gets while here is worth the cost of his course. Write for our free catalog, state the course you are mostly interested in and begin to better shape up your own future.

50 Get Pardons This Holiday.

Austin, Texas, Dec. 22.—The governor has practically completed his list of Christmas pardons, and the list this year will embrace about 50 convicts. These will be liberated in time to reach their former homes for Christmas. Practically all of those to whom executive clemency was extended are short term convicts and the pardons are conditional. There has been an average decrease of about 300 in the prison population during the past six months, the number now being 3741, while for years the number always averages a few over 4000. Included among those pardoned during the past half year are a batch granted by Lieutenant Governor Will H. Mayes.

Miss Mamie Blount is home from an extended visit to Miss Marie Everman of Dallas and during her absence she also spent several days with Mrs. Frank Anderson at Fort Worth.

Resolution of Respect

To the Worshipful Master Wardens and Brethren of Martinsville Lodge No. 678 A. F. and A. M.

Whereas: On the morning of Dec. 2nd our beloved brother, W. H. (Hosea) Green, was called from labor in our Lodge, to refreshment in the Celestial Lodge above.

And whereas: the going from us of our beloved Brother Green leaves a void in our hearts and a vacancy in our Lodge that time only can obliterate. Now, therefore: Resolved: That in the death of Bro. Green our Lodge lost one of its most valued artisans, Spring Hill Church its leading member, Nacogdoches county one of its best citizens, and the family a devoted husband and father.

Resolved further: That while we sympathize with his loved ones in their great bereavement, we weep not as one without hope "but trust that through the strong grip of the Lion of the tribe of Judah we too may be raised in the last days to sit with our dear brother in that Celestial Lodge above, where the Supreme Architect of the Universe forever presides.

Holiday Greetings

We are just drawing to the close of a very prosperous year, and a year, too, during which all our business dealings have been exceptionally pleasant, and we desire to express to our customers and friends our appreciation of their friendship and liberal patronage.

Our success we are free to admit is due solely to our friends and their liberal patronage they have given us. Our efforts have been always to deal squarely and courteously with everyone, showing no favoritism, but giving to each and every one a hundred cents in value for their every dollar. We believe our friends and the public appreciate our efforts, for the patronage they have given us attests the fact.

We wish you one and all a very Merry Christmas and a Prosperous, Happy New Year.
