Colquitt to Take Stamp For Ferguson.

Austin, Texas, June 16.—“I am going to take the stamp for Ferguson just as soon as it is possible for me to arrange an itinerary. I will start through the southwest section of the state.” Governor Colquitt affirmed his previous statements of this morning. He is working on an itinerary that will mean at least two weeks of speeches through the country.

Otto Wahrmond, of San Antonio, a member of the governor's staff, who was in the capital on business today, says that Ferguson is running unusually strong in San Antonio and Bexar county and that there will be some badly surprised Ball people when the votes are counted in July.

Farmer Killed.

Henderson, Texas, June 16.—J. W. Johns, a well-to-do white farmer, living seven miles south of this place, was accidentally shot by a negro tenant, dying in two hours. The negro was in difficulty with two negro women when Mr. Johns arrived on the scene, and in attempting to settle the trouble a gun was accidentally discharged.

The Houston Telegram published Monday that Arch Spradley “has done good work while he has been in plain clothes and undoubtedly will be the next detective chosen, it is believed.” Arch is the son of Dunk Spradley who lives near this city, and has many friends in the county who are glad to hear of his successful career in the city of Houston.

Rev. S. S. McKenney left yesterday for Georgetown to attend commencement exercises of the Southwestern University. This is Rev. and Mrs. McKenney's Alma Mater and they meet many of their schoolmates at these exercises. Mrs. McKenney and boys will return with him. They have been there some time visiting her father Rev. Nelms

For the Civic Pride of Nacogdoches.

The principal street of our town which first meets the gaze of the visitor entering it, is one half paved from the depot to the intersection of North and Main streets; the other half, is an eye sore to every citizen of the city who would like to make a creditable showing to the “stranger within our gates.” It seems that a long time will elapse before we can require the property owners along this street (“the splendid county of Nacogdoches included”) to finish the paving of this important street from the depot to the business portion of the city. Now, I want to organize a one day Civic Club in the city, to be composed of the business men, the bankers, the ministers, the lawyers, the doctors, the carpenters, the blacksmiths, the tanners, the plumbers, and every other able bodied man in Nacogdoches, to devote that day towards the spading and hauling of dirt, gravel, etc., and fill up this unsightly hole, which is dangerous to the safety of the citizens, and an obstruction and hindrance to the free passage of the use of the street by those who daily have to come over it, and a disgrace to what each one of us ought to feel “the leading city of East Texas.”

Now, I will don my overalls take a spade, hoe or drive a team, for the one day required to fill and gravel this street, and do as much manual labor towards it as any other man in the city, no

more accustomed to hard work in the sun than I am.

Let me know how many of you will respond by donating horse, wagon, mule or your own muscle for this day by sending your name to the Sentinel, to be published each day, and if enough encouragement is offered, we will set the day, and make this the street of streets, by just a little fun and effort.

Now, I am not going to slight the dear ladies in this important event. These weary laborers will need something in the way of a lunch at the noon hour, to aid and support them in carrying on their arduous labors until the six o'clock whistle blows, and I want to know how many of you will contribute to this noon-day meal.

Very respectfully,
Geo. H. Matthews, Mayor.

New Fire System.

The City Council has purchased a Gamewell fire alarm. This system is used in 97 percent of the cities in the United States, having fire alarms. This alone is good recommendation of the efficiency of such a system. It can be installed in any size town and be added to with the growth of the town. This system is recognized by fire insurance companies to be the safest and surest.

The town will be districted and the alarm will give location of fire.

This action of the council will meet the approval of every thinking citizen for it is something the city has long needed.

O. E. M. HALTOM, Manager.

It is estimated that American farmers pay 500 million dollars of interest every year.

Leopold Morris and candidates for lower state offices will have to do something else if they hope to attract any attention.

The Texas cities which have adopted the commission form of government are Austin, Dallas, El Paso, Fort Worth, Galveston and Houston.

All railroads have a rate of one and one tenth, round trip fare to the monster rally of the Ferguson followers to be held in Dallas June 13.

An Iowa man ate 210 spring onions to win a wager, but when he finished he could not get close enough to the loser to collect his bet.—Houston Telegram.

The Center Champion comes squarely out for Ferguson this week, which dispels all doubt about Ferguson's tremendous majority in the July primaries.

Governor Colquitt and Jake Wolters predict that Ferguson will be nominated by a hundred thousand majority, but the pros refuse to say how large Ball's majority will be.

Only 5 per cent of American automobiles at recent shows lacked self starting mechanism, while in the English and French shows only about 5 per cent of the cars had such features.

Repeal of Panama canal tolls exemption passed the senate Thursday night by the decisive vote of 50 to 35 which puts an end to that "piece of rascality" and scores another victory for President Wilson.

While 25 states have at one time or another put statewide laws into effect, only 9 at present have statewide prohibition. The others, after one or two trials, have abandoned the system in favor of local option.

A resolution condemning prohibition was adopted by the seventh annual convention of the Texas Federation of Labor in session at El Paso. Several hundred delegates are in attendance and more than 90 per cent of them are for Ferguson.

Leopold Morris, whose candidacy is ignored by the press and the people of Texas, said early this week to the editor of the Waco News, the official organ of the pros: "I believe I will be nominated by a large majority. I think Ferguson will be a poor second and Ball close behind him."

Several of the farmers in town last Saturday said the cotton crop never looked better than it does at the present time. While it is some later than last year, the stand is much better and this year it will be a late crop, but some bigger than last year is their prediction.—Houston County Herald.

The attitude of Ferguson toward the business interests of the state, toward the laboring man, toward the tenant farmer, the most helpless of all God's creatures, makes him a favorite with all those who believe the best man in the world is the man who works.

A man who was afraid of thunder crawled into a hollow log during a storm. The rain fell in torrents and the log swelled till the poor fellow was wedged in so tight he could not get out. His past sins began passing before him. He remembered he was not a subscriber to the Nacogdoches Sentinel and he felt so small he crawled out without difficulty.

Dave Dinks says his idea of an easy job is being the third vice-president of a literary society in a small town like Lufkin.—Nacogdoches Sentinel.

Dave Dinks can secure the job, if he can prove by his past record that he has ever lived in any community, by reason of which his literary experience would fit him for the position.—Lufkin News.

The case of Robert Lindsey et al vs. City of Nacogdoches, involving the validity of the city paving ordinances was affirmed Thursday by the Court of Civil Appeals. More than twenty citizens filed suit in the district court against the city alleging that the paving ordinances are void, and on losing before Judge Guinn appealed the case which was decided in favor of the city, as above shown.

Lufkin had the honor and the pleasure Wednesday afternoon of entertaining quite a number of the prominent citizens and business men of our neighboring city, Nacogdoches. These friendly visits are helpful from every standpoint and should be indulged in more frequently. A further mention of their trip to this city will be found in another place.—Lufkin News.

By a majority of more than three to one, Jones county remains in the dry column. It is one of the few counties in the state where a saloon has never existed and it is the boast of the county that many men have grown to maturity there without having seen a saloon. It is only a matter of time when the same boast can be made all over the state.—Waco News.

And the pretty part about local option is that when a county goes dry it has a majority to enforce the law.

A monster rally of the Ferguson followers will be held in Dallas June 13th, and the prospects are that it will be the greatest gathering in the political history of Texas since the days of Jim Hogg. Nacogdoches Sentinel.

We have a notion that a number of people will begin to realize on or about that date that the Temple man is making a campaign that will land him in the governor's chair at Austin.—Temple Telegram.

Fair Directors Visit Lufkin

Wednesday afternoon fifteen of our busiest men paid Lufkin a visit in the interest of LUFKIN AND ANGELINA COUNTY DAY at our Fair, and their splendid report is most encouraging. It is an old, old story that Lufkin never does anything by halves, it is whole hog or nothing with that pull-together, wide awake bunch, and this truth was fully demonstrated in the very cordial reception tendered our boys.

Upon their arrival in Lufkin they were met by a committee led by Mr. T. Cross, Secretary of the Angelina County Progressive League, after which things began to pop open. First the entire business section of the city was visited, and to hear Bob Lindsey tell about what he saw in the many well appointed dry good stores, shoe stores, drug stores, gents furnishing stores, grocery and supply stores, banks, hardware and implement stores, picture shows, bakery, ice cream plant, bottling works, immense power plant, machine shops, toundry, mattress factory, wagon factory, and many other fine business enterprises, would make any live person sit up and take notice.

Lufkin is indeed blooming out into a fair little city and with their public spirit and pull together enterprise so much in evidence there at the present time, she richly deserves every good thing.

After buttoning the collar of Mayor Matthews and calling out the fire department to assist in separating our beloved B. M. Isaacs from a Switzer sandwich our boys were hurried into automobiles for a ride over the city. Many beautiful new homes recently completed and a number of others under construction were to be seen in every part of the city, giving conclusive evidence of growth and prosperity.

Immediately after supper our committee was escorted to the elegant quarters of the Elks Club where an informal reception was held. In a few well chosen words Secretary Cross welcomed our boys in behalf of the City of Lufkin, and to which Mayor Matthews responded, concluding his remarks by introducing Robert Lindsey, President of the Nacogdoches County Fair Association. Mr. Lindsey briefly outlined the program of our coming four days Fair, laying special stress on the importance and lasting benefit of a big agricultural Fair to the farmers of this section in particular and the county generally. Mr. Lindsey stated that we had arranged to make our second day, LUFKIN AND ANGELINA COUNTY DAY, and that the object of the visit at this time was to invite the entire City of Lufkin and Angelina County to visit us each day of our Fair, and especially on Lufkin and Angelina County Day, see our City, enjoy our hospitality to our mutual pleasure and good fellowship thereby making our Fair pleasant memory and a joy forever.

THE Southwestern Telegraph and Telephone Co. DALLAS, TEXAS

I. D. Fairchild, Wm. Humason, Dr. Bledsoe, and other prominent citizens present addressed the meeting in warm warm words of welcome and encouragement, all assuring us that the people of Lufkin appreciate the honor bestowed and would go the limit in making LUFKIN AND ANGELINA COUNTY DAY at the Nacogdoches Fair the banner day.

Our boys were delighted with their trip and speak in the highest praise of the many courtesies shown them while in Lufkin. Secretary Cross won the hearts and lasting gratitude of the entire committee by his pleasing personality and round of entertainment.

Steve King For State Senator

Hon. Steve King of Nacogdoches is a candidate for State Senator from his district, which includes Beaumont, the home of the Hon. V. A. Collins, the district's present Senator and who is a candidate for re-election as a Prohibitionist. Mr. King is a young man of splendid attainments, is Democratic from the sole of his feet to the crown of his head, and believes there are other issues beside the one of prohibition that should deserve the attention of a State Senator. In fact, Mr. King is thoroughly convinced that enough harm has already been done the State by prohibition agitation, and should he be elected he will devote his talents and time in an effort to represent his people in a manner that will be alike creditable to them and to himself.—State Topics.

Helping the Farmer

Hillsboro, Texas, June 10:—With the streets absolutely deserted and practically every business house in the city displaying the "closed" sign, Hillsboro today wears the aspect of a dull Sunday. More than four hundred business men are today working in the cotton field in a radius of five miles of the city, their services being free to the farmers, and even dinners and hoes having been taken by the laborers.

Virginians Oppose State-Wide Prohibition

Two thousand citizens of Richmond, Va., men foremost in the professional and commercial life of the city, assembled in mass meeting on May 14th, and formed "a Local Self-Government League." The organization adopted resolutions declaring its allegiance to the principles of local self-government enunciated by Jefferson and reaffirmed by President Wilson, and its hostility to State-wide prohibition, which threatens to nullify that principle. The opening paragraph of the platform adopted is as follows:

"We stand on the fundamental principle of local self-government, and we believe that as the State is the unit in the Federal system, so the counties and cities should stand in a similar relation to the State. Reaffirming our faith in the Declaration of Independence, that the just powers of the government are derived from the consent of the governed, we concede to every county and to every city in the State the right to regulate its own internal affairs in the manner best suited to its needs, being firmly convinced that no people will be happy and prosperous where one section forces upon another section laws which are not supported by the preponderant public sentiment of such section."

To Automobile Owners

Several things have been said lately through the columns of your daily and weekly paper relative to the organization of an automobile association at Nacogdoches.

From my own knowledge of the benefits arising from such an organization I will say that nothing of an ordinary character can be of such value to the county and to the automobilists and motorists. It is perfectly easy to secure and maintain first class roads which induces the farmers to bring their cotton etc; to Nacogdoches rather than to other towns of the country; also I will add, that when the roads are made good all over the county, there is then nothing in the way of the consolidated school system, which is the most efficient system known.

The benefits to the members of the Association individually are: first, concert of action secured by co-operation; protection against any unjust legislation by city or state; a perfect understanding between teamsters and motorists and a kindly feeling every where. I have seen these results from such organizations.

Yours
H. P. Eastman.

A school boy wrote the following terse narrative about Elijah:

"There was a man named Elijah. He had some bears and he lived in a cave. Some boys tormented him. He said: 'If you keep on throwing stones at me, I'll turn the bears on you, and they'll eat you up.' And they did and he did and the bears did."

HOW WOMEN AVOID OPERATIONS

By Taking Lydia E. Pinkham's Vegetable Compound.

Cleveland, Ohio.—"My left side pained me so for several years that I expected to have to undergo an operation, but the first bottle I took of Lydia E. Pinkham's Vegetable Compound relieved me of the pains in my side and I continued its use until I became regular and free from pains. I had asked several doctors if there was anything I could take to help me and they said there was nothing that they knew of. I am thankful for such a good medicine and will always give it the highest praise."
—Mrs. C. H. GRIFFITH, 7306 Madison Ave., Cleveland, Ohio.

Hanover, Pa.—"I suffered from female trouble and the pains were so bad at times that I could not sit down. The doctor advised a severe operation but my husband got me Lydia E. Pinkham's Vegetable Compound and I experienced great relief in a short time. Now I feel like a new person and can do a hard day's work and not mind it. What joy and happiness it is to be well once more. I am always ready and willing to speak a good word for the Compound."
—Mrs. ADA WILT, 196 Stock St., Hanover, Pa.

If there are any complications you do not understand write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

Waco Business Men Favor Ferguson By 114 to 70.

Waco, Texas, June 12.—James E. Ferguson of Temple apparently is a strong favorite among the business men of Waco in the gubernatorial race. During the trade trip of the Young Men's Business League to Brenham yesterday a straw vote was taken to ascertain the popularity of the candidates.

One hundred and eighty-four votes were polled, 114 for Mr. Ferguson and 70 for Colonel Thomas H. Ball.

Ferguson is gaining strength rapidly in this section of Texas. This is largely attributed to a more serious land plank on the part of both farmers and business men and the desire for a rest from the constant liquor agitation.

Another big influence which is contributing to the Ferguson strength here is the reaction which set in following the withdrawal of Sam Sparks from the race, and his attempt to throw his strength to Ball. Mr. Sparks would have carried this section. His withdrawal would have helped Colonel Ball except for the fact that Mr. Sparks attempted to take his friends with him into the Ball band wagon.

Hon. S. M. King in Newton

Newton, Tex., June 11, '14.

Editor Sentinel:

Newton received Hon. S. M. King of Nacogdoches, candidate for State Senator, last night with open hands at the Electric Theatre. The Hall was crowded until there was not standing room, besides a large number of enthusiastic listeners who stood on the out side. From the comments on the streets today he will receive a good vote here on July 25th.

Piles Cured in 6 to 14 Days
Your druggist will refund money if PINK OINTMENT fails to cure any case of itching, smarting, bleeding or protruding Piles in 6 to 14 days. The first application gives relief and pain.

HOW TO GET STRENGTH

after any sickness is purely a matter of nourishment, whether the attack was an ordinary cold or severe illness; the weakened forces cannot repulse disease germs, and this is why a relapse is so often fatal or why chronic weakness often follows sickness.

Restoring strength to millions of people for forty years has proven the real need for taking Scott's Emulsion after any sickness; nothing equals it—nothing compares with it. Its pure, medicinal nourishment, free from alcohol or opiates, promptly creates rich blood, strengthens the nerves and lungs to avert tuberculosis.

Truck Growers

A write up of the meeting last Saturday of the Truck Growers Association was promised us, but, failed to reach this office. The meeting was fairly well attended by business men and farmers, and by W. P. Young, M. J. Dooley and J. J. Greve for the railroads. These gentlemen offered to furnish cars to be loaded here or partly loaded and finished at Appleby and routed to the most desirable points. The spirit of co-operation among all parties interested was marked and it is safe to say that the best plan will be pursued to handle this year's products.

Sore Nipples.

Any mother who has had experience with this distressing ailment will be pleased to know that a cure may be effected by applying Chamberlain's Salve as soon as the child is done nursing. Wipe it off with a soft cloth before allowing the babe to nurse. Many trained nurses use this salve with best results. For sale by all dealers. dw

A. & M. College of Texas.

College Station, Texas, June 11, 1914.—At a meeting of the Board of Directors of the A. & M. College last night permission was granted to Cotton Students to board at the College Mess Hall and room in one of the dormitories for \$4.90 per week. Those taking advantage of this will have to furnish their own pillow, pillow cases, sheets, and towels.

The above includes rooms equipped with running water, lights, and shower baths.

Get Rid of Your Rheumatism.

Now is the time to get rid of your rheumatism. You can do it if you apply Chamberlain's Liniment. W. A. Lockhart, Homer City, N. Took Two Islands

Athens, June 13.—Greece formally annexed two Turkish Islands today. Diplomats fear the action may force a crisis between the two countries.

Cruelty Charged To A Hypnotist

Gary, Ind., June 13.—Arthur Tracey, 18, who spent twenty-four hours waving his weary legs in the air in the belief that he was pedaling a bicycle, was to appear in court today to testify against W. B. Griffiths, traveling hypnotist, who put him to sleep and refused to release him until threatened with imprisonment by Mayor Johnson.

Griffiths hypnotized the boy at an exhibition Thursday night, and spectators were so amused that the hypnotist removed Tracey to a show window, where he lay on his back pedaling all day yesterday, despite protests by officers of the Gary women's clubs.

The hypnotist released Tracey at midnight, after charges of cruelty to children and causing a street blockade were placed against.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars and book. F. J. CHENEY & CO., Toledo, O. Sold by druggists. Take Hall's Family Pills for constipation.

Sunday School Picnic at Reid's Pond.

On Tuesday evening the pupils and teachers of the Union Sunday School of South Fredonia Hill met at Reid's Pond and enjoyed most delightfully the hours from five p. m. to nine-thirty.

A beautiful place situated near the spring was selected as the site for the picnic and here games in which the old and young participated were merrily played. At the conclusion of these cake and cream were beautifully served to every one and at 9:30 o'clock with many expressions of appreciation for the good time spent a tired but happy throng wended their separate ways homeward.

To Mr. Frank Adams is due, not only a vote of thanks from the children for his unceasing effort to make the evening a happy and long-to-be-remembered one to them, but also from the committee on selection and preparation of grounds thanks are due him for his able assistance.

To Mr. Locke also is due, in a large measure, credit for the evening's pleasure, since it was he who dispensed with a lavish hand ice cream cones not once, nor twice nor thrice in many cases but evermore to happy but thirsty children.

Last but by no means least thanks are due and unstintedly given by the entire Sunday School body to Mr. Reid, in recognition of his kindness for extending to the body the use of his grounds.

Death Claims William Wiess of Beaumont

Beaumont, Texas, June 12.—William Wiess aged 72, one of the city's wealthiest citizens, prominent lumber manufacturer and Confederate veteran, died today.

He was a resident here his entire life. He died at 12:30 this afternoon after an illness of several months. He leaves a wife and four children. He will probably be buried Sunday. He was a Confederate veteran.

Beat Wave Fatalities.

Pittsburg, Pa., June 11.—Sixteen deaths, due directly to heat prostration and four to drowning, was the toll of Western Pennsylvania early today to the torrid wave.

Eight of the score were reported for the twelve hours ending at 8 o'clock this morning.

A comparatively cool night brought some relief, but the mercury began a rapid ascension with the rising of the sun. Temperatures of 90 or above were looked for.

Big Contract For Oil

Fort Worth, Texas, June 13.—The City Commission today entered into a contract with the Texas Company for the purchase of not more than 128,000 barrels of fuel oil and not less than 22,000 barrels during the next two years at 75c a barrel. It is the purpose of the Commission to use oil instead of coal at all of the water pumping plants.

"What prompted you to marry Miss Brown?" "Miss Brown."

Waller Farmers For Ferguson

In three of the precincts of Waller county, having 500 qualified voters, Ferguson clubs have been organized by 414 farmers of those precincts. The remaining precincts are preparing to organize Ferguson clubs and it is said the indications are that the percentage of the voters for Ferguson in such latter precincts will be approximately the same as in the three that have completed organization of Ferguson clubs.

One of the election precincts of the country has 57 qualified voters in it, and 56 of them have joined the Ferguson club. It is claimed to be the banner Ferguson precinct in the state.

Heavy rains and river floods have not served to dampen the ardor or quench the zeal which the farmers of this county have for Ferguson. They recognize in him a man who will stand for their rights as against the rapacious greed of the corporations and captains of industry, as no other man now before the people can be expected to do.

If all the counties of the state give majorities for Ferguson in the same proportion as this county does, Mr. Ball, the corporation candidate, by the unterrified yeomeny of the state, will be eliminated more effectually than were Lane and Mayes by the coterie of eliminators at Fort Worth.

W. H. Wheeler, Waller County Farmer.

More Jobs Than Men.

Washington, June 12.—Predicting that within a month there would be more jobs in the United States than men, Secretary of Labor Wilson today hoped to solve the problem of getting men to fill the places. His forecast was on the bumper wheat crop, revival of business in the iron trade, in mining and in the textile industry.

The secretary already has received requests for more than 80,000 laborers in the wheat belt of the west and south and he plans to arrange with the railroads special excursions from the east to get men to the fields.

Kirk Perry, who for some time has been conducting a general electrical business in this city, left today for Nacogdoches where he will make his future home. Prior to engaging in the electrical supply business, Mr. Perry was superintendent of the electric light company. In fact, up to a few months ago Mr. Perry had been superintendent of the plant for a quarter of a century. He is one of the best electrical men in the county, and the citizens of Nacogdoches should be proud of having him as a citizen of their thriving little city. The best wishes of all the friends of this good family will follow them to their new home at Nacogdoches.

Mr. Perry has sold his business in Tyler to John Durst, a notice of which appeared in another column of this paper.—Tyler Courier Times.

Wheat Harvesters

The fad among the college boys to join the laborers in the wheat fields every vacation has become a regular business. Thousands of boys who have been in school all year and finished work about the season wheat harvesters are most in demand join the laborers and do hard field work from early sunrise until the evening hour.

Frank Jordan son of Mr. Mrs. Robt. Jordan who has been in school at A. & M. the past year has joined this field of laborers. In this work the great demand for laborers is partially met and these brain worked men live an outdoor life that tends to make them strong, healthy young men. Kansas is the main starting place point and they work North into Canada as the crops ripen.

The Canada crops being much later on account of the cold.

2 Children Lost in Mountains.

San Angelo, Tex., June 13.—Many cowboys are searching King Mountain in Upton County for two lost children, who have been missing two days and nights from the W. W. Miller ranch.

It is believed they fell off a precipice or were killed by wild animals.

Both children belong to W. W. Miller.

Fine Showing For the Rice Institute

Houston, Tex., June 12.—The annual financial statement of the William M. Rice institute endowed by the late William M. Rice shows assets \$10,670,327.69 with last years revenues at \$126,706.58. Dr. Stewart Axson, brother of Mrs. Woodrow Wilson, is a member of the faculty and since coming to Houston he has been prominently identified with the city's intellectual and industrial growth.

Rebel Ship Sunk

San Diego, Cal., June 13.—Advices received here today from Mazatlan said that the Mexican troop ship Guerrero engaged in battle with the constitutionalist armed steamer Culiacan near Guaymas last night and succeeded in sinking the rebel ship. The number of casualties, if any, was not given. A shell from a constitutionalist battery burst in a hospital in Mazatlan. Whether there was any killed or wounded is not known.

Dan Ferguson and his sister Miss Anna Belle returned Sunday from Austin where they attended the University of Texas the past year. Dan is taking the law course and to a large extent is paying his own way by work at odd times and during vacation. He desires a place this summer. Miss Anna Belle has a four years teacher's certificate and desires a position as teacher. These are worthy young people and are capable of rendering efficient service in most any capacity.

She—No, thank you; I've been skating all the afternoon and I'm tired of sitting down.

Woman's Missionary Society.

Despite the warm weather the Woman's Missionary Society of the Methodist Church has been having interesting meetings. This organization wishes for an unusually successful summer and in order to accomplish this result each member should be found in her place. The President and other officers are giving their best to the work and if you are a Methodist woman join in and help bring about great things. Don't get careless as the heated term approaches but make an effort to aid in any way your gifts permit.

The First Monday in the month is "business day." The "King's business" demands that no time be lost and no talent wasted hence "every member present" should be the slogan of this meeting. The second and third Monday are given to Bible Study. The first requisite of an education is a knowledge of Holy Writ and never will the store of Biblical learning be exhausted.

How can any member afford to miss this feature of the Missionary Society? "All work and no play makes Jack a dull boy" is no less true of grown people than of children. The social feature of the final coming together of the month gives opportunity for cultivating acquaintance and getting closer together. Don't miss any of these occasions. Each one has a message for you and is helpful in some special line. Be at the Methodist Church next Monday at four p. m.

Mayer & Schmidt's Force Outing.

"All work and no play makes Jack a dull boy" and 'tis a good business man who knows this.

Yesterday the force from Mayer & Schmidt, with wives and other relatives spent a delightful day on Naconiche creek, a beautiful stream five miles this side of Garrison.

A good rain the day before cooled the atmosphere and here this force of twenty five spent a most congenial day.

The auto trip was no small feature of the occasion.

There were six passenger auto's and Mayer & Schmidt's auto truck to take supplies.

They motored to Garrison in the late afternoon, thus "coming to the end of a perfect day" at the beautiful springs of that city.

Women Endorse Suffrage By Big Vote.

Chicago, June 13.—The Federation of Women's Clubs endorsed the principle of suffrage by a big viva voce majority today, breaking down the Federation's constitutional barrier to political subjects which has stood for twenty years.

The whole operation was done in less than five minutes. A resolution had been presented.

One suffragist exclaimed "I don't see why there should be any discussion. Eight million women are waiting for us."

Jim Ferguson has gone directly before the people—the people who produce the wealth of this state and upon the shoulders of whom the burden of taxation rests most heavily. He proposes to look after the business of the state and the interests of the people and not cater to the dictates of political bosses or the growling of politician preachers. These are a few of the reasons we are for Ferguson and we hope and believe that he will be the next governor of Texas.—Hollands Progress.

President Wilson has recently advised the Democratic party in Congress to postpone the consideration of the proposed prohibition amendment to the Constitution of the United States on the ground that it would obstruct all other legislation. The President has taken identically the same position in a national way that the Farmer Union has occupied in the State campaign.—Lewis and Radford.

One of our three exchanges that are supporting Ferguson complains bitterly because Leopold Morris persists in running for governor. By what authority does he claim the field for his favorite? Hasn't Morris as good a right as Ferguson?—Carthage Register.

About the only interest shown in the candidacy of Mr. Morris is by prohibition papers which desire a division of the opposition. When Mr. Morris completed his short tour in North Texas, he rushed to the Waco News, the biggest pro paper in the state, and announced that his election is sure, with Ferguson next and Ball a close third. No other big paper in the state published the fake prophecy.

The future historian will refer to Huerta as a Mexican ruler of the second decade of the twentieth century who throughout the world was known to have the disposition to "hang on and growl".

Cottle county, Jones county and Walker county have recently adopted prohibition by large majorities, and with the same majorities will enforce the law. If a county has not a majority to enforce the law wherewith will it be enforced?

The request from Rev. S. F. Baucom that the Sentinel publish the reply of Colonel Ball to charges made against him cannot be complied with, principally because it would fill to the brim three columns of our paper, and we have not that space to spare for any kind of campaign matter.

The prohibition editors who adopted Monday in Dallas a resolution condemning the activity of the Farmers' Union in favor of a business administration and the cessation of liquor agitation will not probably result in a stampede of farmers to the colonel-filled band wagon of Houston's great corporation lawyer.

Austin is now finishing a large power dam three miles above the city. This dam is sixty-five feet high and nearly 1200 feet long. It is costing the city \$1,720,000—mostly in annual installments without interest. The lake formed by this dam will be twenty-eight miles long, and will be amongst the mountains and amidst the beautiful meadows of the Colorado River. For beauty and recreation, few spots in America will be more charming than will be Lake Austin.—Austin Statesman.

Another splendid thing which is destined to grow out of the visit of the Nacogdoches visitors last week will be the building of a good road from Lutkin to the Angelina river. This topic is not a new one by any means, but still it has never been built, but the enthusiasm for the same was never greater than now, and the News confidently believes that it will be built sometime this year. While it would cost considerable money to undertake a thing of this character, still it is the desirable things which cost money in this life, and there is no question but that this would be one of the very best investments that the town of Lutkin and the county of Angelina could make. Already there is a good road, as the News understands it, from the dividing river to the city of Nacogdoches, and

Facts On Temperance

Our prohibition friends are fond of saying that the world would be far better off if the "curse of drink" were wiped out of existence.

We agree with them. But the "curse of drink" means intemperance—drunkenness.

Beer is not conducive to drunkenness, although the association of ideas is so close in the minds of some people that they make no discrimination whatever and, either ignorantly or thoughtlessly, they hold beer fully as responsible for drunkenness as anything else. The fallacy and injustice of this assumption are at once apparent to any fair minded person who considers these facts: Beer is essentially a drink of temperate people and is the best friend of true temperance. It contains so small a percentage of alcohol as to render it absolutely harmless if taken in moderation. Many eminent divines who have made a close investigation of saloon conditions and the liquor question in general, declare that the moderate use of beer and light wines should be encouraged rather than discouraged, because they recognize the great truth that moderate indulgence is the only way by which true temperance can be promoted and lastingly maintained.

Rev. Dr. Parkhurst of New York, says:

"I am decidedly of the opinion that the more wine and beer there is produced in this country and the more freely it is transported from state to state, the less whiskey will be used and the smaller the amount of drunkenness."

Can, then, any right thinking person suppose that a light beer—a truly, healthful, mild and harmless beverage—is an enemy to mankind—that it can in any way be construed as the "curse of drink"? Yet the prohibitionists assert that it is and they would, therefore, abolish it. But in so doing they would but magnify the evil, drunkenness, they are trying to suppress.—Paid Advertisement.

if the thoroughfare for the balance of the way is put into good shape the same would prove a pleasure and a convenience to hundreds of people who under present conditions never contemplate an overland trip between the two towns. The News is heartily in favor of the road at any cost, which will prove cheap enough in the long run.—Lutkin News.

A well known medical man recently told the following amusing story: An enterprising tradesman sent him a box of cigars, which had not been ordered, together with a bill for 25 shillings. The accompanying letter stated that "I have ventured to send these on my own initiative, being convinced that you will appreciate their exquisite flavor." In due course the doctor replied: "You asked me for a consultation, but I venture to send you five prescriptions, being convinced that you will be quite satisfied with them as I am with your cigars. As my charge for a prescription is 5 shillings, that makes us quits."

FARMERS' UNION PLATFORM A CAMPAIGN ISSUE

President Wilson's Attitude Pointed Out as Corroborating Position of Farmers' Union on Liquor Question.

PLEA FOR CO-OPERATION

Ft. Worth, Texas.—The politicians have been putting the farmers upon their platform ever since there was a politician and a farmer, but in this campaign we are going to reverse the arrangement by making our own platform and inviting the statesmen to endorse it.

For the information of the farmers and the friends of agriculture, we are going to publish the names of all legislative candidates who endorse the Farmers' Union platform. We have had many requests for this information from both the cities and the farms, and as soon as we complete the canvass we will make the results public. We have solicited many of them by correspondence and others by personal interviews, and candidates who may have been missed by either of these methods will please consider this article as a request on our part for them to give us their views so they can be properly classed, and we also ask that they publicly announce their position to their constituents. We want men who will stand squarely and publicly on our platform. We will leave the gum-shoe work to the political henchmen.

The Farmers' Union for twelve long years has been listening to the siren song of the politicians. There has been absolutely no uniformity in either thought or action on the part of the friends of agriculture and certainly no authoritative plan of procedure. Many of these campaign promises made by candidates, if fulfilled, would destroy agriculture. Some splendid efforts have been lost through lack of co-operation and proper comprehension, and the platforms of candidates who genuinely desire to help the farmer have been, in many instances, antagonistic to each other. These various platforms patched together looked like Joseph's coat, and all were lost in the scuffle between factional leaders in the legislature. Many times we have been compelled to sit down and watch important agricultural measures go up in the smoke of political strife. We shall no longer resign our destinies to such folly.

Liquor Issue An Obstruction.

This condition rendered it imperative that the farmers adopt a platform which would comprehend in an authoritative way the agricultural needs of the State, and in order to avoid becoming involved in factional controversies, we have gone direct to the people in the July primary. This platform deals with almost all economic problems because they are all a part of the business of farming. It handles the liquor question as an obstruction, for as such it has prevented much important agricultural legislation and has never failed to strike terror to all other bills on the legislative calendar, regardless of their merit. We had as well talk about plowing a battle field during a fight as to think of securing agricultural legislation when the liquor warriors pitch battle in the legislative halls over liquor issues in any of its disguises.

President Wilson has recently advised the Democratic party in Congress to postpone the consideration of the proposed prohibition amendment to the Constitution of the United States on the ground that it would obstruct all other legislation. The president has taken identically the same position in a national way that the Farmers' Union has occupied in the State campaign. We do not

know of any better authority on Democracy than President Wilson and in any event we would prefer to keep company with him in public issues than with some of these "prohibitionists-for-revenue" politicians, who are willing to block agricultural legislation with liquor measures.

Agriculture is Not a Special Interest.

No agricultural legislation fundamental in its character can be considered as class legislation, for agriculture is a universal occupation and the farmer cannot help himself without helping others. The farmer is a ruler and all other occupations are in his employ and their welfare is indispensable to his business. He cannot successfully promote his own interests without providing for the welfare of his servants.

We realize that no platform of principles can please everybody. The Union faced the necessity of taking a definite stand on all important subjects and on many of them there has always been, and always will be, a wide difference of opinion, but all subjects were carefully considered and the interests of the farmer protected to the extent of our ability. The platform was unanimously adopted at the State convention of the Farmers' Union at Fort Worth on January 14-15 with over 600 delegates present and it is the official utterance of the Union and the authoritative voice of agriculture and as such the platform is submitted to all candidates for approval and to all voters for support.

The farmers have heretofore, as a rule, divided about evenly on most all public questions, leaving the balance of power in the hands of a minority, controlled in the main, by machine politicians. The inability of the farmers to stand together makes machine rule common and corruption possible. The farmers can never hope to become a factor in public affairs unless they work through organized channels and certainly we had as well settle our differences in our own conventions as to turn them over to the politicians to settle in theirs.

Rally 'Round the Union.

The questions for the individual farmer to determine are, whether loyalty to his occupation is stronger than popular prejudice, whether fidelity to his interests is greater than sentiment, whether he has more confidence in those authorized to act for him in convention than he has in the politicians who endeavor to destroy the Union; whether our public servants shall play politics or transact business; whether he will follow the Union or follow the politician.

We want to disclaim any intention of permitting the Farmers' Union to become in any way involved in partisan politics. Our organization, at its annual meeting in Fort Worth last January, made certain legislative demands which we have submitted to all candidates alike and we have listed those whom we consider most favorable to our demands and the opportunity is afforded all candidates at all times to endorse our platform in its entirety. In pursuing this course the Farmers' Union is simply following a precedent of long standing of all organizations of whatever character that desire legislation. The Farmers' Union will stand for principles, never for men, but we must depend upon men to write our principles into law.

The Union has had a larger increase in members during the past six months than during the previous six years and the spirit of unity and co-operation was never greater. A few self-appointed guardians of the Farmers' Union have been publicly warning the Union to keep out of politics. When we want the counsel of politicians we will apply officially for their views.

In our next article we will give a list of legislative candidates who are on the Farmers' Union platform and if that be politics, make the most of it.

Letter From Rev. S. F. Baucom.

Houston, Texas, May 16, 1914.

Dear Gents:

Believing you are willing that the people should be able to vote intelligently at the coming primary I enclose you clipping from the Houston Post. Mr. Ball's answer to some of the slanderous lies that are being circulated to encompass his defeat you will please publish, as many of your readers are prohibitionists and also this letter, and say that I shall be in Nacogdoches county 'in the interest of The Baptist Sanitarium of this city the latter part of this week and if any one wants to deny I affirm that the present campaign for James E. Ferguson as governor of this state is the same old campaign of the whiskey crowd to control Texas. I prefer to meet any candidate for the office of State Senator or the Legislature in the district provided such candidate will subscribe to the following affidavit:

"As a worker for or against prohibition local or statewide I have never received pay directly or indirectly for any work for, or against it." I will subscribe to this affidavit and I shall require of such opponent to do the same. We will divide time equally and treat each other as gentlemen; time and places to be agreed on. Neither Mr. Ball nor any of his campaign managers know about this letter.

Yours truly,
S. F. Baucom.

27,000 Rebels Trying To Put New Ruler Out.

Vienna, June 15.—Fighting for the throne to which he was raised by the Powers, Prince William of Albania, formerly of Wied, was on the firing line today, repelling at the head of his troops constant attacks from an army of insurgent Mussulman subjects on Durazzo, the capital.

At the head of 9,000 men Prince William, it is said in dispatches received here has beaten off all day long the attacks of 27,000 insurgents who from several sides began to storm the city at 4 o'clock this morning.

So fierce were the attacks of the insurgents, however, that it was doubted if the defenders of the city could hold out until nightfall.

Mineral, Cal., June 16.—Mount Lassen was quiet today and occasional smoke was all to indicate this was the volcano which Sunday hurled smoke, steam, ashes and stone from its newly made craters.

Churches Are Burned By Rioters in Strike

Rome, June 15.—Church property suffered severely during the riots accompanying the recent general strike in Italy, according to reports presented to the pope today. These show that 14 churches were burned and 39 damaged while 28 others were looted.

"It's just right, dearest," said she husband. "It may be plebeian, but I'm awfully fond of calves' liver for breakfast."

The Methodist Church.

Sunday was a good day in the history of the Methodist Church of this city. At the morning hour a fine congregation was present when the pastor preached on "The Dwelling Places of God" after which five persons were received in membership on profession of faith and three by letter.

At night the large auditorium was comfortably filled and many were seated in the Sunday School rooms when the pastor delivered the first of the mid-summer series of sermons to young men, his subject being "The Young Man Leaving Home." It was the largest congregation to assemble in the church since the revival. The discourse dealt in a most practical way with the complex problems of modern social life. After picturing the pathetic side of the leave-taking from home the preacher emphasized at some length the more tragic scene of the home leaving of the young man, pointing out the fact that the old home with the old-fashioned mother and father and the religious atmosphere of the family altar were largely gone. The modern mothers and fathers busy with pleasure-seeking and getting gain, neglect the home and leave the young man to find in the pool and billiard halls, the card tables, and the saloons entertainment for which no provisions were made in his home. Many striking and amusing references were made to illustrate these truths in modern every-day life. In brief he showed the three causes that led the prodigal to leave home, and how the same causes are at work in the home and social life of today, viz: an alienated affection; an insubordinated will; a misguided ambition.

The choir rendered two specials, and the singing was of a high order.

The pastor left on the morning train for Georgetown where he will join his family and attend the Preacher's Theological Institute, returning late this week with his family. He will preach the second of the series next Sunday night: "The Young Man in the Far-Country."

THE MODEL RURAL SCHOOL HOUSE

South Side of Model Two-Room Rural School

It costs no more money and no more labor to build a model school house than it does to build one of the same size but of less desirable arrangement. The construction, heating, lighting and sanitation of school buildings present special problems which the general architect and even the physician are not always prepared to meet. In the home only two or three people are in one room at the same time, and these are usually moving about. If cold, they can move to the fire; if the day is dark, they can move near the window; if the sun shines brightly on their work, they can move away; if they become fatigued, they can change

Floor Plan

seats, open a window, or go out for fresh air. The people in a crowded church or hall usually remain only an hour or two, and are not kept still and at hard mental work during this period. In the school, on the contrary, each room must contain from thirty to sixty children for five hours a day; no one can move about at will; the boy farthest from the fire must be kept comfortable without overheating the boy next to the stove; every corner of the room must be lighted well on even the darkest day, and yet no direct sunlight must fall on any pupil's book; ten to twenty times the amount of fresh air needed in a dwelling room must be brought into a school room, and yet no child must be in a draft.

- The following good features are illustrated in above cut:
1. No windows are in front of or to the right of the pupils.
 2. The windows are grouped on the left, with thin mullions between, allowing a strong light to come from the pupils' left. The windows behind the pupils are lowered, thus shutting out the light while providing ventilation.
 3. The windows are high at the bottom so that the air passes evenly over the room; there is not more breeze near the window than passes throughout the room.
 4. The windows are high at the top, allowing the air to escape from the room at the place of greatest pressure.

Any rural district of Texas that is planning to build a school house may secure, by writing to the State University at Austin, a free bulletin on one, two, or three-room school buildings. If desired, plans and specifications accompany the bulletin.

Commission Form Proposed For Louisiana

Baton Rouge, La., June 16.—What is in practical effect commission form of government for the state of Louisiana will be proposed in a bill which Senator George Wesley Smith of Richland parish has announced he will introduce in the senate this week. The bill provides for the abolition of the general assembly and the substitution thereof of a council of state of eight members, one from each congressional district. Senator Smith some day ago prepared a preliminary bill which he circulated among members of the legislature and asked for criticisms. Some of the suggestions made will be embodied in the bill as introduced. It is said the measure will have the support of a number of legislative leaders and will be seriously considered.

Bloody Work Done By Turks

Athens, Greece, June 16.—Greek refugees from Asia Minor today brought reports of the massacre by Turks, including priests, old men and children, in town of Phokia, 25 miles northwest of Smyrna.

The town, according to the official report, was invaded by a horde of armed men who looted and then set fire to all the buildings. They are said to have been assisted by the Turkish police.

The inhabitants, most of whom were Greeks, fled, leaving their property behind them, and 3800 of them have reached Saloniki. They declare that the bodies of the massacred people were thrown into wells.

The refugees, many of whom were suffering from wounds, were in a state of starvation on their arrival.

CONSTIPATION
Indigestion, Bad Breath, Dizziness, Vertigo (blind staggers), Headache, Sallow Complexion, a Tired, Discouraged Feeling are all symptoms of a Torpid Liver.

HERBINE
Is an Effective Liver Tonic and Bowel Regulator.

The powerful reviving influence in the torpid liver brings on an immediate improvement. You feel better at once. The bowels move freely so that the impurities which have clogged up the digestive organs find an outlet. When the system has been thus purified, the bilious, half sick feeling disappears, the complexion clears, the breath becomes sweet, the mind alert and cheerful and there is a fine feeling of exhilaration all through the body.

Beautiful, Soft, Fluffy Hair An Aid to Beauty

Who does not love a head of pretty hair? Some women think it is a gift of nature and envy their more fortunate sisters. If your hair is not fluffy, soft and lustrous; is falling out, streaked, faded brittle, or full of dandruff and if the scalp itches, do not think it must always be that way, for pretty hair is only a matter of care and proper nourishment of the hair roots. Hair is something like a plant—if neglected it soon withers and dies, while with a little attention it keeps fresh and beautiful.

Parisian Sage is a scientific preparation that supplies just the elements needed to invigorate the hair roots and stimulate the hair to grow long, thick, fluffy, soft and lustrous. It removes dandruff with one application and quickly stops itching head and falling hair. Stripling Haselwood & Co. or any druggist can supply you with Parisian Sage—it is inexpensive. You cannot be disappointed with this delightful and helpful hair tonic for the first few days' use will give the hair the beauty and charm of youth.

House Takes Action.
Washington, June 12.—Without the formality of a conference with the senate today, the house by a vote of 216 to 71 accepted the senate's amendment to the repeal of the Panama tolls exemption and sent the bill to President Wilson.

Bladder irritations, kidney troubles, dull headaches, weariness, pain in back and sides, all show the kidneys need to be toned up, strengthened, their regular action restored. Boy Scout News.
Nacogdoches should be proud of her Boy Scouts, and we feel sure that the boys appreciate the fine things our liberal citizens are doing for them. There is a cause. Under the leadership of the finance committee, composed of Messrs. Roland Jones, Guy Blount, H. F. Gintz and Mr. Whiteman of Caro, the citizens have provided the best field equipment to be had, consisting of a large dining tent and six patrol tents. The boys have individually secured twenty shelter tents, which brings this equipment up to twenty-seven fine tents, so that in field and forest work our boys will have ample protection in both summer and winter. It is expected that many of our larger boys will become Scouts of the first class before summer is over.

But in addition to these things the boys are brought under lasting obligation to Hon. E. A. Blount, who has given the Boy Scouts a beautiful track of woodland, located two miles west of the city, upon which the permanent camp will be established. There are five springs of clear water, plenty of timber to make the lodges and "pow wow" hall, a fine creek and good ground for athletic fields. We hope soon to have "Camp Blount" the finest recreation center in East Texas—where the boys and their friends and all good citizens may resort for their picnics and out-of-door work and play.

I have been suffering with bilious headaches and stomach trouble so bad I could hardly keep on my feet. but I was compelled to work to support my wife and family. One of my customers advised me to take GRIGSBY'S LIV-VER-LAX and it would cure me, and to my wonderful surprise it has entirely cured me. My physician would give me calomel, but heaven knows, I would be sicker than ever, and would have to lay on. I have no more headaches and feel almost a new person and I know now my trouble was my liver. I am giving it now to my children and I see a wonderful improvement. LIV-VER-LAX helped me the first day I took it, and is certainly a working man's friend.—LIV-VER-LAX is for sale by all druggists.
