NEGRO BRAKEMAN KILLED

Constable J. L. Burrows Put Under Bond.

Wednesday morning about 1 o'clock a negro brakeman by the name of Abe Ivery was killed just north of the water tank near the H. E. & W. T. railroad. Ivery was deboarding his way on No. 11 which was a through freight out of Shreveport and was shot while the train was stopped to take water at the tank. One shot took effect striking him in lower part of the back and coming out in front. He was picked up by the crew of the southbound passenger train and taken to the depot where he was sent to the sanitarium for treatment but died about three hours afterward.

Constable J. L. Burrows is charged with the killing and has been placed under bond.

Nashville, Tenn., June 22. —Rev. S. M. Cherry, aged 79, for 55 years an active minister of the Southern Methodist Church, died yesterday in Sumner County. He was a Confederate chaplain during the Civil War.

Wagons Wagons Wagons

A wagon is a thing that you don't have to buy every year. It costs quite a bit of money and is expected to satisfactory service for a number of years.

You should, therefore, be VERY VERY CAREFUL in the selection of the Wagon that you buy. The BEST is CHEAPEST in the long run. It will pay you to investigate the

First Steam Saw and Flouring Mill in Nacogdoches.

Just a few hundred yards north of where the town now stands, the first steam saw mill in Nacogdoches county was erected in March 1858 by J. W. Murph. In 1860 he added to his plant a complete flouring mill with smutter, bolter, etc.

The machinery for this mill was purchased in New Orleans and shipped down the Mississippi river to its mouth, thence on the Gulf of Mexico to the mouth of the Neches river where it was transferred to smaller boats and shipped up the Neches and Angelina rivers to Plattsburgh where it was unloaded and hauled overland on wagons to its destination.

Bran, chops and first and second grades of flour were turned out by this mill in large quantities.

Squire Murph says that there was a great deal of wheat raised in this county in those days, it being one of the principal crops raised and averaged about 20 bushels per acre.

Thousands of bushels of wheat and corn were taken to this mill, many people coming for many miles in ox wagons bringing large quantities of corn and wheat to be ground into meal and flour.

Times have changed. There is scarcely a trace of the old mill left. Wheat is no longer grown in the county and only a few of the old pioneers are left to tell of the days of long ago. Among them, however,

is Squire Murph who is still hale and hearty and who ever delights in telling of the reminiscences of those old old days.

Pet Coon.

Something had been catching B. M. Hall's chickens so he thought he would set a trap and catch that 'Possum(?)

The first time he set the trap he caught some one's pet coon or at least it seemed to have been one, it had a collar on.

But he kept losing chickens. He lost eight nice fryers and the marauder had chicken until he holdly left two partly devoured in the yard.

Mr. Hall in his desperation set the trap early one evening baited it with nice fat tempting bait.

This was before the chickens had gone to roost so a few minutes later he happened by the trap and there lay the nice fat rooster of his neighbor Mr. Golub. The old rooster had taken a peck at the bait and the trap cut off his head.

Mr. Hall went over, paid Mr. Golub for the chicken, invited his friends in and had chicken for dinner.

If you have the itch, don't scratch. It does not cure the trouble and makes the skin bleed. Apply Ballard's Snow Liniment. Rub it in gently on the affected parts. It relieves itching instantly and a few applications removes the cause thus performing a permanent cure. Price 25c, 50c and \$1.00 per bottle. Sold by all dealers.

Religious Debate.

A debate on Bible differences is to begin at 7:30 o'clock p. m. July 2nd, 1914, at the New Home Baptist Church, 3 miles east of Appleby. The second session will be held 9:30 a. m. on the 3rd. The third session will be held at 7:30 p. m. on the 3rd. The fourth session will held at 9:30 a. m. on the 4th.

The debators are Rev. A. L. Eaves (Missionary Baptist) of Cumby, Texas and W. P. Brown (of the Watch Tower B. and T. Societies faith). The subjects to be discussed are as follows:

Prop. 1 The scriptures teach that the soul or conscious entity of man does not die when his fleshy body dies. A. L. Eaves, affirms, W. P. Brown denies.

Prop. 2 The scriptures teach that the finally unsaved will not suffer conscious pain in hell forever. W. P. Brown, affirms, A. L. Eaves, denies.

Prop. 3 The scriptures teach that in this life only will any of Adams race have an opportunity for salvation. A. L. Eaves affirms, W. P. Brown denies.

Prop. 4 The scriptures teach that none of Adam's fallen race will have eternal life actually, until their being is raised from the dead in the resurrection. W. P. Brown affirms, A. L. Eaves denies.

All are invited. Bring pencil and paper to take down scriptures. W. L. Hetlin.

So th-

newst of Tyler at the
Fergus rally in Dallas said:
"Smith county can be safely
put in the Ferguson column.
The farmers are solid in their
support of Ferguson."

The Timpson Times, not
to be scooped by any of its
contemporaries, published this
news paragraph Wednesday:
"Jake Wolters is supporting
Jim Ferguson for governor."

It is a fight between the
colonels and the troglodites
on the one side and the labor-
ing man on the other. Good
prophets see a hundred thous-
and majority.

Dave Dinks who has jus-
returned from Logansport
says every Saturday evening
he longs to see the little fel-
low who used to carry a
blacking box and brush and
holler, "Shine, five cents."

S. M. King and V. A. Col-
lins meet in joint debate at
Port Arthur about July 10.
If Mr. Collins is not a debater
of the first class he will
suffer in the hands of Mr.
King.

Leopold Morris asseverate
the second time that he in-
tends to hang around until
the melon is cut late in July
It is certain he will not get a
slice, and there "aint gwine
to be no rine."

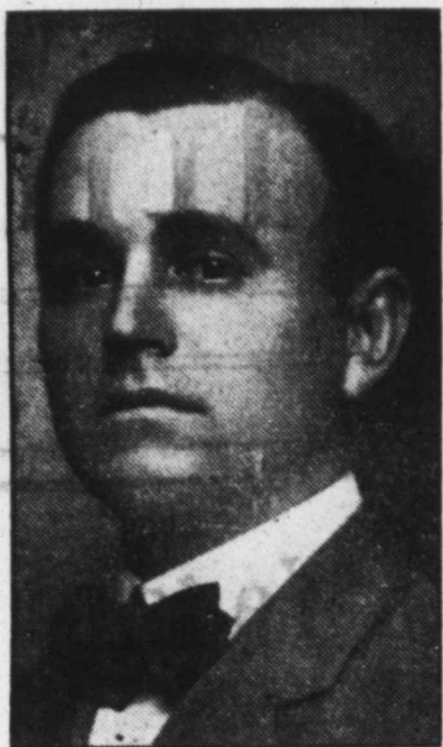

Another colonel announces
in favor of Ball—Col. J. H.
Stephens, congressman, who
served with Mr. Ball six years
in congress. The fellow feel-
ing that makes us wondrous
kind makes the congressmen
and colonels hang together.

The Temple Telegram, is
opposed to waging war against
the Mexican people. It says:
"Instead of receiving a plat
of land three by six feet the
Mexican peon should be
given and taught to cultivate
a plat three by six acres."

Farmers contend that they
pay more tax and get less
benefit from government
than any other class of citizens
and that the Agricultural
Department is entitled to
first consideration by the
Legislature in making appro-
priations.

It is claimed that Bexar
county including the city of
San Antonio will give Fergus-
son a majority of ten thou-
sand. The opposition consists
principally of colonels and
preachers with a few troglod-
ites who "don't know big
wood from limbs."

Arthur A. Seale addressed
the people of Cleveland Wed-
nesday in behalf of Stephen
M. King, whose candidacy for
State Senator is drawing
splendid support from every
part of the district. It was
an able speech delivered by
an able speaker in the inter-
est of an able man.

Hon. S. M. King

S. M. King, Nacogdoches
county's candidate for the
State Senate, who is spending
a few days at home in a state-
ment to a Sentinel reporter
today says: "I am just back
home for a few days, attend-
ing to some urgent business
matters, but will again take
the stump the early part of
the coming week. I have
made speeches in San Augus-
tine, Sabine, Jasper, Newton
and Liberty counties, and
have been favorably received
wherever I have been. I
have made about fifteen
speeches in the above named
counties, and have spoken to
big crowds."

"I have been making my
campaign upon my own mer-
its, and have not in a single
speech referred to my oppo-
nent, and I propose to present
my candidacy to the people
of this district upon a high
plane."

"The people throughout
the district think well of the
idea of giving the north end
of the district the Senator-
ship this time, and, as a gen-
tleman remarked in the lower
end of the district a few days
ago: No state Senator has
been elected who residen north
of Jasper county for over-
thirty-five years, and this
man is heartily in favor of
passing the honor around to
the north end of the district."

"I am highly gratified at
the support being given me
throughout the district and
especially do I appreciate the
almost unanimous support
of my home county. I
believe that I will be nomi-
nated by the biggest ma-
jority that has ever been
recorded in this district."

One of our big evening
papers Wednesday had the
prediction from a San Angelo
man that Nolan county, of
which Sweet Water is the
county seat will go heavily
for Ball. The Sentinel has
the prediction from T. Ward
Woodruff who lives in Sweet
Water that Ferguson will re-
ceive two-thirds of the vote of
Nolan county.

All bets are at big odds on
Tom Ball for governor in
spite of the fact that Fergus-
son is the candidate of the
"sports."—Carthage Register.

Where are the bets and
what are the odds? The Fer-
guson men in these parts
would be "excessively re-
joiced" if they could even
find even money. If Carthage
has any Ball spondulux let it
be sent to any one of our
three banks and it will be
covered dollar for dollar
quicker than a mad woman
can say "Sea."

Sunday was the longest day
of the year and the beginning
of summer, astronomically
speaking.

John D. Rockefeller's in-
come has been estimated by
the American income tax offi-
cials at \$100,000,000 a year.
His tax on this will be \$6,-
000,000.

Introducing Ferguson Sat-
urday night to an audience
of 3000, Mayor Fisher of
Galveston declared that "or-
ganized labor is solidly sup-
porting Ferguson."

The supporters of S. M.
King have no objection to
the speech making of V. A.
Collins in behalf of F. H.
Ball. Lovers of good sport
would suggest that "he shun-
ny on his own side" and try to
save his on shins.

One of the 33 speakers who
will take the stump Saturday
for Thomas H. Ball is V. A.
Collins, candidate for state
senator, who is scheduled for
Geneva at 2:30 p. m. From
all indications, Senator Collins
already has on hand as much
as one man ought to try to
handle.

We take pride in develop-
ing our farms, our livestock,
our commerce, etc., but the
most important part of the
country is its men and women.
When a worthy home man
is in pursuit of a laudible
ambition he should have the
support of his home people, re-
gardless of petty politics and
factional feeling.

A man named Watis swore
before a notary public that
he heard John M. White,
chairman of the Hill county
Ferguson Club, concede Hill
county to Ball by 1500. Now
comes a man named Cum-
mings of Hillsboro who says
that Hill county has been
polled and that Ferguson will
carry it by 1000 majority.

The 33 speakers, mostly
colonels, who will take the
stump for Ball in various
parts of the state and more to
be chosen show that great
alarm exists in the Ball camp.
In the meantime comes the
shout to the ear of Ferguson
from the large-lunged labor-
ing man: "We are coming
Father Abraham, three hun-
dred thousand strong."

We are not supporting Mr.
Ferguson for governor be-
cause he is an anti-prohibi-
tionist, but because his can-
didacy is not dominated by
the bossess. If he is elected
governor he will not owe any
political debts to the leaders
of any faction, and his admin-
istration will be an exempli-
fication of the rule of the peo-
ple.—Lockhart Register.

Will A. Hobby of Beau-
mont, has announced as a
candidate for Lieutenant Gov-
ernor. Mr. Hobby is a most
excellent man and qualified
in every way to serve the
State well. He is a son of
Judge Hobby, a former dis-
trict judge of this district—
your father's and my father's
friend—and it would be a de-
serving compliment for Lib-
erty county to give Mr. Hob-
by a unanimous vote.—Liber-
ty Vindicator.

An Announcement From the Executive
Committee.

We are all justly proud of
the historic dignity of Nacog-
doches, and its importance
in the evolution of Texas; and
our library ought to become
a veritable treasury of matter
relating, not only to Nacogdo-
ches, but to the whole Lone
Star State. With this end in
view, the Executive Commit-
tee is starting a collection of
histories of Texas, books about
Texans, and books by Texans
—of everything, in short,
which has a local or historic
interest for Texans.

This collection was definite-
ly started the other day by
the contribution of "Writers
and Writings of Texas" by
Davis Foote Ergleton, Pro-
fessor of English at Austin
College, Sherman. It is a
new book just off the press.
We would ask everybody—
and our older citizens espe-
cially—to look among their
books and documents and
see if they cannot find some
treasure to contribute to this
collection, which must become
invaluable to our students, in-
teresting to visitors and in-
quiring strangers, and a
source of just pride to all who
call Nacogdoches "Home."

At last the Houston Post
has found one thing to com-
mend Senator Sheppard for.
We refer to his fight in at-
tempting to have the mileage
of senators and congressmen
reduced from 20 cents to 5
cents per mile. The Post
says this species of graft
ought to be stopped, and it
wishes Mr. Sheppard well in
his fight. The Houston paper
is correct in this matter. The
mileage graft is one of the
biggest grafts of the day, and
it ought to be stopped. It is
ridiculous to allow a senator
or congressman 20 cents per
mile while going to and com-
ing from Washington, when
three cents is all he has to
pay.—Tyler Courier Times.

Thousands of farmers and
scientists add their testimony
and proclaim positively that
the silo pays for itself in one
year, that it doubles or even
quadruples the value of the
feed crop. An acre of good
silage will keep a cow or steer
one year.—Exchange.

Crop Reports.

Reports from various parts
of the county indicate that
splendid rains have fallen in
all parts of the county during
this week. In the vicinity of
Cushing, Linn Flat, Caro,
Appleby and Garrison local
showers have been abundant,
while heavy rains have fallen
in Shady Grove and Melrose
communities and all points
east to the Attoyac river.

Though crops are later than
usual, there were never more
favorable conditions, as a
whole, for a good corn crop
and cotton is showing up ex-
ceedingly well for the time of
year.

For the past three weeks
there was never more work
done on the farms in Nacog-
doches county in the length
of time and everything bids
fair for an abundant harvest
during the full season.

Several hundred acres of
tomatoes were planted in the
county. The crop is rather
short on account of the black
rot and boring worm, yet
splendid prices are being re-
ceived for those that are be-
ing shipped.

Several hundred bushels of
potatoes are being harvested
and good prices are being re-
ceived by all who have seen
fit to ship to the various mar-
kets or sell through the
Truck Growers Association.

The oat crop was rather
short this year but most of
those who had crops of this
kind took advantage of the
fine weather two weeks ago
to harvest them.

The tendency on the part
of the farmers of the county
to diversify is encouraging
and the future holds many
good things in store for the
tillers of the soil.

Some time ago the Regis-
ter published the statute giv-
ing the municipal govern-
ments the power to compel
the owners of the abutting
property to pave the streets.
A test case was made at Nacog-
doches and the Sentinel tells
the result as follows: "The
case of Robert Lindsey et al
vs. City of Nacogdoches, in-
volving the validity of the
city paving ordinances was
affirmed Thursday by the
court of civil appeals. More
than twenty citizens filed
suit in the district court
against the city alleging that
the paving ordinances are
void, and on losing before
Judge Guinn appealed the
case, which was decided in
in-favor of the city, as above
shown."—Carthage Register.

It is said that once upon a
time a man who lived in
Honey Grove and had been
married for fifteen years came
home and put his arms around
his wife and said: "Kiss me
Sweetheart. I miss you so
much when I am away from
you." And his wife went
upstairs, selected a soft spot
on the floor and threw nine
fits.—Bonham Favorite.

I wish I was a rock, a settin'
on a hill,
A doin' nothin' all day long,
but just a-settin' still.
I wouldn't eat, I wouldn't
sleep, I wouldn't even
wash,
I'd jest set still a thousand
years and rest myself, be-gosh.

MRS. WINN'S
ADVICE TO WOMEN

Take Lydia E. Pinkham's Veg-
etable Compound and be
Restored to Health.

Kansas City, Mo.—"The doctors told
me I would never be a mother. Every
month the pains
were so bad that I
could not bear my
weight on one foot.
I began taking Ly-
dia E. Pinkham's
Vegetable Compound
and had not
finished the first bot-
tle when I felt
greatly relieved and
I took it until it
made me sound and
well, and I now have two fine baby
girls. I cannot praise Lydia E. Pink-
ham's Vegetable Compound too highly
for what it has done for me. I always
speak a word in favor of your medicine
to other women who suffer when I have
an opportunity."—Mrs. H. T. WINN,
1225 Fremont Ave., Kansas City, Mo.

Read What Another Woman says:
Cumming, Ga.—"I tell some suffer-
ing woman every day of Lydia E. Pink-
ham's Vegetable Compound and what it
has done for me. I could not eat or
sleep, had a bad stomach and was in
misery all the time. I could not do my
housework or walk any distance without
suffering great pain. I tried doctors'
medicines and different patent medi-
cines but failed to get relief. My hus-
band brought home your Vegetable Com-
pound and in two weeks I could eat any-
thing, could sleep like a healthy baby,
and walk a long distance without feeling
tired. I can highly recommend your
Vegetable Compound to women who
suffer as I did, and you are at liberty to
use this letter."—Mrs. CHARLIE BAG-
LEY, R. 3, Cumming, Ga.

Crushed 1,156,063 Tons.
Washington, D. C. June—
The United States Census
Bureau reports that in 1913,
the 228 mills of Texas crush-
ed 1,146,056 tons of cotton-
seed; obtaining 174,846 bales
of lint. This was some-
thing more than one-fourth
of all the seed crushed in the
United States. Ranking next
to Texas, the 156 mills of
Georgia crushed 861,574 tons;
obtaining 110,367 bales of
linters.

Man Shoots Wife to Death.
Athens, Tex., June 17.—
Officers at Athens received
word from Payne Springs, in
the trans-Cedar country, that
Belton Harris, a white man,
had shot and killed his wife.
The report was that Harris
and his wife had been sepa-
rated for about a month
and that Harris had gone to
where she was at work in the
field and had shot her with a
single-barrel shotgun, loaded
with buckshot. Twenty-
three of the shot took effect.

THIS KIDNEY REMEDY
A GREAT HEALER

For a number of years I was troubled
with my kidneys; condition so serious
that part of the time I was unable
to work. I tried several remedies, also
different physicians without relief. A
sample of Dr. Kilmer's Swamp-Root was
left at my house. I commenced to take
it and continued it until I had taken
several bottles and am now cured. Am
sixty-two years of age and able to work
every day. I attribute my cure to the
use of your Swamp-Root.
My wife also was cured by Dr.
Kilmer's Swamp-Root. Symptoms were
very serious, including hemorrhages,
great pain and distress. I commenced
giving her Swamp-Root and it was just
as healing in her case. We can heartily
recommend your Swamp-Root to all
kidney sufferers.
Very truly yours,
H. C. GRIFFITH,
Moria, Texas.

Subscribed and sworn to before me, a
Notary Public, this 8th day of April

Ship of Chief Sam Anchors At Galveston

Galveston, Texas, June 18.—The steamship Libria, upon which Alfred C. Sam, the leader of the "back to Africa" movement among negroes in this country, proposes to take several hundred persons to the gold coast of Africa, arrived today from Norfolk. She will not be able to dock until late this afternoon because of dredging operations in the harbor channel, but her arrival was the occasion for much rejoicing among the several hundred followers of "Chief" Sam, who has been here since early in March. It is not known when the Libria sails for Africa. It is understood that "Chief" Sam is on board.

Cough and Colds Weaken the System

Continued Coughs, Colds and Bronchial troubles are depressing and weaken the system. Loss of weight and appetite generally follow. Get a 50c. bottle of Dr. King's New Discovery to-day. It will stop your cough. The first dose helps. The best medicine for Stubborn Coughs, Colds and all Throat and Lung Troubles. Mr. O. H. Brown, Muscatine, Ala., writes: "My wife was sick during the hot summer months and I honestly believe Dr. King's New Discovery saved her life." Good for children. 50c. and \$1.00, at your Druggist. dw

Cures Stubborn, Itchy Skin Troubles

"I could scratch myself to pieces" is often heard from sufferers of Eczema, Tetter, Itch and similar Skin Eruptions. Don't Scratch—stop the itching at once with Dr. Hobson's Eczema Ointment. Its first application starts healing; the Red Rough, Scaly Itching Skin is soothed by the Healing and Cooling Medicines. Mrs. C. A. Einfeldt, Rock Island, Ill., after using Dr. Hobson's Eczema Ointment, writes: "This is the first time in nine years I have been free from the dreadful ailment." Guaranteed. 50c. at your Druggist. dw

A. cepts Collins' Challenge

Beaumont, Texas, June 17. Hon. S. M. King of Nacogdoches, candidate for the State senate, and an opponent of Senator V. A. Collins, said today he would gladly accept the challenge issued by Senator Collins to hold a joint debate.

Mr. King said: "I am adverse to joint debates of this kind, but under the circumstances I will accept Mr. Collins' challenge and will meet him at Port Arthur about July 10. I will write him the exact date when I return home.

"I have delivered about 15 speeches during my present campaign, but not one time have I mentioned Mr. Collins' name or alluded to his legislative record."

2 Women Are Beheaded in Germany.

Berlin, June 17.—Two women in Germany today paid the life penalty on the headsman's block.

At Strassburg, Magdalene Wendel, 41, was beheaded, while in a faint, together with H. Wirth. Both were convicted of poisoning the woman's husband.

At Grauden, Frau M. Hass also died by the ax, likewise for the murder of her husband by poison that she might marry her lover.

In both cases, as is the custom, the headsman wore full dress clothes.

Sore Nipples.

Any mother who has had experience with this distressing ailment will be pleased to know that a cure may be effected by applying Chamberlain's Salve as soon as the child is done nursing. \$37,000 Cattle Deal.

San Antonio, Texas, June 17.—A cattle deal involving a consideration of \$37,000 has been closed here by which Colonel Ike T. Prior of San Antonio buys 2000 head of steers from Edward C. Lasater of Falturias, Texas. The price paid, which was at the rate of \$35 per head, is a high mark for South Texas cattle reported here this season.

Get Rid of Your Rheumatism.

Now is the time to get rid of your rheumatism. You can do it if you apply Chamberlain's Liniment. W. A. Lockhart, Homer City, N. By using one bottle of it I was entirely cured." For sale by all dealers. dw

Head Cut Off By The Train.

An unknown man about 40 years of age, about five feet tall, in height, of light complexion with blue eyes and a sandy mustache, was killed in the Rock Island yards between Harvey and Hudson streets at 1:30 this afternoon when he fell between box cars on a west-bound freight. The top of the man's head was cut off by the wheels of the train and his right leg was mangled from the knees to the ankle.

A search of the man's pockets by Coroner Hawkins and Motorcycle Officer E. J. Helm revealed nothing but an Ingersol watch, a package of tobacco and a Wells Fargo express receipt for \$3 paid on goods sent from Nacogdoches, Tex., to Jackson, Miss. The receipt was number 722,240 and bore the date of April 16, 1914.

A black derby hat he was wearing bore the brand of Mayer & Schmidt, Nacogdoches, Tex. These are the only clues the officers have to the man's identity.

The unknown man wore a blue serge coat, blue shirt with collar attached, black striped cotton trousers, red socks and black button Douglas shoes.

The body was taken to the Street & Draper morgue to await identification. It is supposed he was going to the harvest fields, though no employment ticket was found in his clothes.—Oklahoma City Times.

The above was published June 16 in the Oklahoma City Times. At the Wells Fargo office in Nacogdoches it is learned that the name of the deceased was R. A. Vining.—Editor.

Indigestion and Constipation.

"About five years ago I began taking Chamberlain's Tablets after suffering from indigestion and constipation for years without finding anything to relieve me. Chamberlain's Tablets helped me at once and by using them for several weeks I was cured of the complaint," writes Mrs. Mary E. McMullen, Phelps, N. Y. For sale by all dealers.

Capt. Cooper has added in connection with his creamery the making of ice cream.

It is electrically frozen and to every gallon of cream is added a pound of butter fat. This combination makes a most deliciously rich velvety cream.

Almost noticeable fact is the absence of flies about this establishment, where every product handled is one that attracts flies.

The entire place bespeaks sanitation, the concrete walks, the brick building, concrete finished and the large concrete storage.

Capt. Cooper has a concrete basin in the front of his grounds that he is stocking with fish. He has a few now and they are beautiful. There are also some flowers and evergreens that add so much to the civic attractiveness of this enterprise so modern in every detail.

Jacob L. Daniell Blown to Pieces.

Beaumont, June 2.—Jacob Lewis Daniell, aged 22 years, was torn into an unrecognizable mass of flesh at 4 o'clock yesterday afternoon by the explosion of fifty pounds of dynamite which he was carrying in his arms. Daniell, was employed by the Lake Arthur Dredging company, which is engaged in dredging the intake for the waterworks canal, and the explosion occurred near this company's dredge boat, which is now working only a short distance from the country club.

No one was with Daniell when he lost his life, but a negro some distance away saw him carrying the dynamite in his arms, presumably to a place of safety some distance from the boat. The negro saw Daniell slip and fall and the explosion followed. The young man's body was thrown about fifty feet by the explosion, and every particle of clothing was blown off and his body was horribly mangled.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflammation of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

Lighting Hits Four Oil Tanks.

Beaumont, Texas, June 18.—A loss of \$200,000 resulted from a fire which last night destroyed four 55,000-barrel oil tanks, fifteen miles south of here, belonging to the Gulf Pipe Line Company. The fire was started by lightning, which struck all four tanks at once. It is estimated about 157,000 barrels of oil was burned. Several hundred barrels were saved by pumping.

From The Young Chronicle Country.

story of the young of Dr. Gordon Adams who died in the Houston jail Saturday. He was jailed for drunkenness and died a victim of the drug habit.

The funeral took place Saturday morning with the young wife, who sold her diamonds in a fruitless effort to cure her husband of this pernicious habit as the only manner.

There were three people present, the wife, the minister and the undertaker's assistant.

Dr. Adams was a great nephew of General John Gordon.

Mrs. Adams reached Houston Saturday morning. She is a clerk in a department store in Waco and lived with her two sons.

Her story was a pathetic one as told by her.

"Yesterday," she said, "my youngest boy, 16 years old, was injured. The doctor tears his spine is affected. My oldest boy, 20 years old in the last stages of tuberculosis. I am alone in the world. We have lived on my salary and the salary of my youngest boy. When I was handed the telegram announcing my husband's death I was helpless. I had no money. I showed it my employer. He took me to the station in his automobile and his firm is burying my husband.

"The doctor and I had been married ten years," she said. "I did everything in my power to cure him of the drug habit. Finally I had to leave him. I was given my divorce at Waco in April of last year, and in July remarried him, leaving him again in October. We had no children. When the doctor was normal he was the finest man on earth, but he became addicted to drugs eight years ago."

Dr. Adams lived in Nacogdoches a few years ago and was well known by a number of our citizens. He was a man of great ability having taken seven past graduate courses and had a high ranking in the medical profession. While here he made several wonderful cures.

According to Col. L. P. Featherstone of Longview, well known expert, steel rails are selling in Texas at \$35 per ton and can be manufactured in Texas for \$22 per ton.

Dr. Frank Crane says: "Life will look different when every human being is given a chance, and the good things are not reserved for the fatted calves of wealth and privilege."

Statewide law which forces prohibition on the people of a county cannot force them to enforce it. The Sentinel opposes the liquor traffic and favors local option as the best weapon to combat it.

Many a man who drinks is a pro; many a man who drinks not is an anti. The practice of either has nothing to do with the merits of the issue, which should be settled on the basis of the greatest good to greatest number.

Another report from Nolan county, of which Sweetwater is the county seat, is from W. Kimbrough, cotton man, who says: "Nolan county will go two to one for Ferguson, despite the fact that it is a pro county two to one."

Every ball that goes up continues to come down including connon, high, base and some other kinds. The Ferguson majority is now estimated at a hundred thousand.—San Augustine Tribune.

The Fifth Annual Farmers' Short Course will be held at the Agricultural and Mechanical College of Texas, July 20th to 25th, inclusive. The Course will be preceded by the Farmers' Institute, July 17th and 18th, and followed by the Farmers' Congress, July 27th, 28th and 29th, 1914.

The most effective way to curb the strong drink traffic is to carry the states county by county, moulding public sentiment and enforcing the law as you go. If prohibition is forced by a statewide law upon a large city, its bootlegging fraternity, charging two dollars a quart for seventy-cent liquor, would corrupt every county in Texas within the radius of its influence.

These alleged facts, if true, constitute a strong argument in favor of the single tax, which means a tax on land only: "A tax on personal property catches the poor man, because he has so little he can only hide a small percentage of it from the tax assessor. Not so as to the rich man. The most drastic laws ever framed have failed to put upon assessment roles ten per cent of personal property owned by millionaires."

"The voters should see that men selected are not under obligations to the railroads, for every official who deals with Special Interests is in the attitude of a judge or juror. He cannot be impartial, either by general bias or because of some particular relation, he is connected with those in charge of the railroads."—W. J. Bryan.

It is officially ascertained that Jno. D. Rocketteller's income is 100 million dollars a year, every dollar of which is dug out of the ground by the laboring man at the rate of about a dollar a day. A dollar represents the net profits per day of the average laborer, and as money is made only by labor the conclusion that the sum of 100 million dollars is the proceeds of 100 million days of labor is inevitable.

N. E. Beavers, one of the best farmers and pecan growers of the Cushing country was here Wednesday attending to business affairs. Mr. Beavers has one hundred pecan trees 22 years old that are bearing the finest quality of pecans every year and he hardly gets them gathered before they are sold. Why not plant a pecan tree everywhere a shade tree is desired. They make the finest of shade trees besides the fruit they produce.

I have always been an anti-prohibitionist, but I respect your right to be a prohibitionist if you want to be. If you want the liquor question agitated for four years more vote for Tom Ball. If you want the agitation stopped, vote for me. If you elect me these agitators on both sides of the question will take to the brush and the legislature will have a chance to enact laws that will be beneficial to the state. The time has come when we should put aside this prohibition agitation and give attention to the education of our children and other things of vital concern.—Jas. E. Ferguson.

Ferguson was born and reared in Bell county. Ball was born and reared in Walker county and was for years mayor of Huntsville. A poll of a Bell county precinct shows a Ball majority. A poll of a Walker county precinct shows a Ferguson majority. About all the big daily papers speak of Ball's majority in the Bell county precinct, but are silent as to Ferguson's majority in the Walker county precinct. The reason why this is thus is because the big newspapers, as well as the big colonels and other non-producers, are supporting the corporation Colonel for governor.

We invite attention to the professional card of Dr. J. E. Mayfield, which appears elsewhere. Dr. Mayfield is a new arrival in Crystal City and purposes making this his permanent home, devoting his entire time to the practice of his profession. Letter From R. C. Monk.
Editor Sentinel:

I am constrained to say one or two things which I trust you will give space to in your paper. It is unusual for me to ask this privilege, but because of a clipping which appeared in your issue of the 2nd inst. I am doing the unusual. Here is what appeared: "We think a ministerial clause should be written in the present constitution and suitable legislation enacted, rigidly regulating the conduct of political preachers; making it a penal offence for a preacher or a combination of preachers to seek to manipulate political conventions or endeavor to distribute patronage, and legislation should also be enacted preserving the sanctity of the pulpit from political vandalism.—Lewis and Radford."

What I may say will surely be said in the very kindest spirit, for the present owner and manager is held in the very highest esteem by me, furthermore I have been a regular subscriber since the birth of The Sentinel, not only that but have supported it liberally in an advertising way also. I am really surprised that you would allow such a clipping to be published about a class of men who I think are engaged in the highest calling that man could enter. Such sentiment as is contained in this clipping is rot of the rankest sort, and I'm sure that I am not mistaken when I say that the same feeling that I express is shared in not only by the majority of the christian people, but many who make no pretensions along that line, and I'm persuaded that had you given this a second thought you would not have allowed this error to occur, I regret that in the campaign that is now on for Governor there should be such intemperate speech used as this clipping is a fair sample of.

You surely have the right to publish any thing you see fit to, but I trust that it will not be necessary for you to fill your valuable paper with such utterances again.

Yours very truly,
R. C. Monk.

Note—The item referred to was published solely as an item going the rounds of the papers and being published as syndicated matter. It in no wise is the policy of this paper or the opinion of the management, in fact the Sentinel does not agree with Messrs. Lewis and Radford in such sentiment, but we think the public should be informed on such expressions and allowed to know that they are being advocated—it matters not who the advocates are—and it will be noticed that the paragraph referred to was duly credited to the authors.

COL. BALL'S CHALLENGE ACCEPTED

Farmers' Union Officials Will Defend Their Organization and Suggest Joint Debate.

Statement Issued Showing Relation of Farmers' Union With Texas Business Men's Association.

Fort Worth, Texas.—We notice from the press that Col. Thos. H. Ball, prohibition candidate for governor, has charged the Farmers' Union with receiving funds from improper sources and making improper application of the funds.

We will accept his challenge against the honesty and integrity of the Farmers' Union and will meet him in twenty joint debates and defend our organization from his charges and insinuations. We will, of course, expect Col. Ball to answer a few questions which we will propound to him during the debates.

We want it distinctly understood that the Farmers' Union is non-partisan and this position must be protected in the proposed debate, as we will, under no circumstances, be drawn into a discussion in which the political fortunes of any candidate are involved. Our only purpose is to defend the Farmers' Union against adroit attacks made upon it by Col. Ball and his political associates.

We, as the authorized representatives of that vast body of men who bare their backs to the summer sun and who feed and clothe the world, ask that Col. Ball at least give us an opportunity to correct his misrepresentation before his own audiences and to answer the charges that he and his authorized representatives have made against the organized farmers during the past few months.

We hope that Col. Ball will not insist on sending a hired hand to substitute for him in this discussion, as the charges have been made by him personally and he should personally meet the issue, or apologize and discontinue slandering our organization.

Too Much Free Advice. We have been receiving with patience and long-suffering a large volume of advice from political experts telling us how to run the Farmers' Union. Our constitution forbids any one belonging to the Farmers' Union except those who follow the plow and, certainly, we could not accept counsel from politicians who have been dodging the plow handles all their lives. We want to say that the Farmers' Union is an organization of farmers and is being run by farmers in the interest of the farmers, and we will not wear the brass collar of the political bosses.

Col. Ball has recently taken extraordinary interest in the welfare of the Union and has been giving considerable FREE advice to our organization—a very unusual thing for a lawyer to do—but the farmers of this State have learned by bitter experience to avoid a corporation attorney as they would a leper and, in any event, when we want advice we will select our own counsel. We are duly authorized to act for the Farmers' Union, understand its constitution and by-laws and likewise understand the farmer and his needs, and we will run the job.

Why is it Col. Ball wants to keep the farmers' organization out of politics and the church organization in politics? If he is as much a stranger to the cross as he is to the plow handles we do not believe he is competent to direct their affairs.

Beware of Campaign Slanderers. We want to warn the farmers against campaign liars. Any person who wants to circulate a campaign lie should be compelled to take out a license and be properly tagged. We think this State is suffering as much from liars as it is from drunkards. We believe the man who lies when he talks is as dangerous to society as a man who staggers when he walks. We think honesty is as much a virtue as sobriety and we want the youths of Texas saved from a liar's hell as well as from a drunkard's grave. There is no more pitiful sight in civilization than an innocent preacher circulating a campaign falsehood, and there is no more disgusting spectacle on earth

than a preacher-writer wilfully misrepresenting facts. The Farmers' Union stands for truth, sobriety and progress, but not for any one of these virtues at the expense of all others.

The Wisdom of Peace. Much has been said about the Farmers' Union asking for a temporary cessation of liquor strife and that seems to be the bone of contention in this campaign, but we point to the present state of the public mind as proof of the soundness of our position in contending that agricultural legislation can not receive proper consideration while the liquor question is in the way, and as forcibly demonstrating a condition that will exist at the state capital next January if the legislature deals with this matter, for there can be no simpler form of handling the subject than to vote yes or no to a liquor controversy as now presented to the public. We wish there were some way whereby the liquor warriors could fight it out without disturbing those who desire to engage in peaceful pursuits, but that seems impossible.

It shall not be our policy, as a rule, to reply to enemies of the Farmers' Union, or to make explanations to political critics. We have no authority and no desire to report to anyone except those who have commissioned us to act. Our work is open and above board and there will be no change in the course we are now pursuing. We are carrying out the instructions of the State Convention of the Farmers' Union and we will continue to perform the task assigned to us with such ability as we possess.

We are receiving funds for the work from sources regularly authorized by the Union and from no other channels and in no greater amounts this year than last; we are spending it for identically the same purposes, employing the same methods and insofar as we are able to do so, the same men. The time of the undersigned is devoted exclusively to the cause of the Farmers' Union and not a moment is given to any other cause, industry or interest.

The minutes of all meetings and the books of the Union are open for inspection to all members of the Farmers' Union in good standing, and at our annual meeting in August the usual reports will be made, and we will give a full accounting of our stewardship.

Relation With Texas Business Men's Association Explained.

Our constitution announces co-operation as one of the fundamental principles of the Farmers' Union and we have solicited and received the co-operation of the business interests in promoting the welfare of the farmers. With their assistance we have for two seasons been able to finance distress cotton at six per cent, which is more than all the politicians of Texas ever did for the farmers. We are planning to build warehouses, to provide money through rural credits to build homes and to better marketing methods. In order to carry on this work in a comprehensive manner, organization is essential and legislation necessary. The Texas Business Men's Association is helping us bear the burden of organization work, and we hope they will assist us in securing the proper legislation. That organization has never requested or suggested that we support any measure in the legislature or before the people, or any candidate for office, and the platform of principles adopted at our annual meeting is the Farmers' Union's own document. The Farmers' Union at its State meeting last January adopted a resolution requesting farmers and other business men to run for the legislature and many patriotic citizens have responded heartily to our call.

We are proud of our associations with two of the most honorable and influential organizations, composed of upright, progressive and religious men of this State, viz., the Farmers' Union and Texas Business Men's Association. It is through the work of these two organizations that the farmers and the city business men must look for results.

The farmers of this State are tired of listening to platitudes and denunciations of politicians and we shall look to co-operation with the business men for relief and let the demagogues howl. We await Colonel Ball's reply with interest.

Prohibition in Kansas.

When the present drink bill of the nation is \$30 a year, that of Kansas is \$1.25 which is pretty good evidence that Prohibition does prohibit. As that state has a population of 1,600,000, a little figuring shows that Kansas is saving on her drink bill alone, \$45,200,000 a year. On the basis of this figuring the Kansas City Star makes this computation:

Clay county is one of the good counties of the state. Its total value in real and personal property is \$30,000,000. Prohibition means to Kansas, in a financial way, the saving in one year for use in legitimate channels nearly the total value of a county and a half such as Clay. Let us look at it from another viewpoint. We are said to be very extravagant. Maybe we are. And thank the Lord, we can afford to be. There are 33,000 automobiles in Kansas. As a lot of them are Fords, we will say they cost \$1,000 each. So Kansas has invested \$33,000,000 in automobiles. Well, what of it? In one year the saving through Prohibition will pay for all the automobiles in the state and leave a balance of \$12,200,000 to buy flying machines."

We do not half appreciate what Prohibition does for us. In an economic way it is the greatest thing on earth. But add to that the greater efficiency of the man, the moral and material gain to the family and you may as well quit figuring. The arithmetic does not go that far. Drop your pencil and get down on your knees and thank God for Prohibition.—Christian Home.

The above clipping is published at the request of our good friend Rev. J. N. Wilson of Melrose. It is apparent to us that some of the figures are far from the facts. Instead of \$30 per capita the drink bill of the nation is only \$10 or thereabouts, which amounts to the enormous sum of a billion dollars. In agricultural states like Kansas, it wet, the drink bill would probably be less than half the average. As strong drink is clandestinely sold in prohibition territory it is difficult to see how the \$1.25 per capita is determined. If that much comes to light, how much remains in the dark no one can ever know. In the local option county of Nacogdoches the drink bill will probably not exceed 25 cents per capita, but there is no way to find out what it is, nor is there any way to know that the drink bill of Kansas is only \$1.25.

Our good friend Jim Stallings, one of the thorough bred, thorough going progressive farmers from the Melrose community was an appreciated caller at the Sentinel office Saturday. He reports that they had the heaviest rains Thursday that they have had since the June flood. He says corn crops are fairly good and cotton is looking fairly well though it is late.

Get Rid of the Torment of Rheumatism

Remember how spry and active you were before you had rheumatism, backache, swollen, aching joints and stiff painful muscles? Want to feel that way again? You can—just take Foley Kidney Pills. For they quickly clear the blood of the poisons that cause your pain, misery and tormenting rheumatism. Swift Bros. & Smith. eod.

Dies of Hydrophobia.

Longview Junction, Texas, June 18.—Dr. Louis Van Swearingen who was bitten by his dog about six weeks ago, died this morning at 5 o'clock at his home in this city of hydrophobia.

Bladder irritations, kidney troubles, dull headaches, weariness, pain in back and sides, all show the kidneys need to be toned up, strengthened, their regular action restored. Foley Kidney Pills will do it surely and quickly. They give good health, freedom from pain, a return of appetite and sound sleep. Try them. Swift Bros. & Smith. eod.

Little Clarence—Pa. that man going yonder can't hear it thunder. Mr. Callipers—Is he deaf? Little Clarence—No, sir; it isn't thundering.

At Bremen, Ga., W. M. Golden, of the Equitable Life Assurance Society, says he found Foley Kidney Pills to be the best remedy for kidney and bladder troubles, also for rheumatism. He says, "Any person having kidney trouble, backache, or rheumatism should be very glad to find such a wonderful remedy." Sold by Swift Bros. & Smith.

DON'T WAIT

Take Advantage of a Nacogdoches Citizen's Experience

When the back begins to ache.

Don't wait until backache becomes chronic;

Till kidney troubles develop;

Till urinary troubles destroy night's rest.

Profit by a Nacogdoches citizen's experience.

Mrs. H. M. Reid, 412 S. North St., Nacogdoches, Texas, says: "I suffered for several years from severe pains in the small of my back. At times I was unable to sleep. I tried nearly everything, but got no relief until I used Doan's Kidney Pills, procured at Mast Bros. & Smith's Drug Store, (now Swift Bros. & Smith's Drug Store). They cured me and the cure has been permanent."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Poison Kills Woman.

Gainesville, Texas, June 18.—Mrs. Allie Peers, 42, wife of a local merchant, died suddenly last night, as a result of swallowing, accidentally, a large dose of poison.

Don't Lose Sleep Coughing at Night

Take Foley's Honey and Tar Compound. It glides down your throat and spreads a healing, soothing coating over the inflamed tickling surface. That's immediate relief. It loosens up the tightness in your chest, stops stuffy wheezy breathing, eases distressing, racking, tearing coughs. Children love it. Refuse any substitutes. Contains no opiates. Swift Bros. & Smith. eod.

Boy of 18 is Sentenced to Electric Chair

Ironton, Ohio, June 17.—Harley Beard, aged 18, youthful, confessed murderer of the Massie family at Greasy Ridge on May 13, was today taken to the State prison at Columbus, where he will be electrocuted Oct. 22.

He was convicted yesterday in one of the shortest trials on record. The youth, a defective, is practically emotionless.

Comforting To Stout People.

Foley Cathartic Tablets are a specially good little regulator that keeps your system in perfect working order. No biliousness, no constipation, no distress after eating, no greasy, gassy taste. A stout person who uses them constantly will really feel thinned out and more comfortable as a result of their use. Sold by Swift Bros. & Smith. eod.

All were trapped in the flimsy structure and many perished in a wild flight to reach the totally inadequate exits.

Whenever You Need a General Tonic Take Groves'

The Old Standard Groves' Tasteless Chill Tonic is equally valuable as a General Tonic because it contains the well known tonic properties of QUININE and IRON. It acts on the Liver, Drives out Malaria, Enriches the Blood and Builds up the Whole System. 50 cents.

Mimic War in Air Ends in Tragedy

Vienna, June 20.—Nine burned and mutilated bodies the splintered fragments of an aeroplane and the charred remnants of a big dirigible balloon are the mute records of one of the most tragic, certainly the most sensational disasters which have occurred since man learned to fly. The catastrophe which resulted in the death of all concerned, nine officers and men, followed a mimic attack today by the aeroplane on the dirigible at a great height during the Austrian maneuvers and served to show more than any previous accidents to flying machine have done, the horrors that would be likely to attend aerial warfare.

Are you dull and stupid? Do you miss the snap, vim and energy that was once yours? You need a few doses of that great system regulator, Prickly Ash Bitters, for reviving strength and energy, increasing the capacity of the body for work, it is a remedy of the highest order. Villa and Carranza Agree

El Paso, Texas, June 18.—The breach between Villa and Carranza has been healed suddenly. Reports say that the healing has been due to General Villa's desire to end the friction between his worshippers and the followers of Carranza by replacing the latter with Villa adherents.

General Villa apparently had his way. He is now going to take charge of the siege of Zacatecas.

WHEN THE BOWELS DON'T MOVE

Beautiful, Soft, Fluffy Hair An Aid to Beauty

Who does not love a head of pretty hair? Some women think it is a gift of nature and envy their more fortunate sisters. If your hair is not fluffy, soft and lustrous; is falling out, streaked, faded brittle, or full of dandruff and if the scalp itches, do not think it must always be that way, for pretty hair is only a matter of care and proper nourishment of the hair roots. Hair is something like a plant—it neglected it soon withers and dies, while with a little attention it keeps fresh and beautiful.

Parisian Sage is a scientific preparation that supplies just the elements needed to invigorate the hair roots and stimulate the hair to grow long, thick, fluffy, soft and lustrous. It removes dandruff with one application and quickly stops itching head and falling hair. Stripling Haselwood & Co. or any druggist can supply you with Parisian Sage—it is inexpensive. You cannot be disappointed with this delightful and helpful hair tonic for the first few days' use will give the hair the beauty and charm of youth.

Several crates of tomatoes have been shipped out this place, going to various places, most of them being shipped to A. Y. Shoemaker at Jacksonville to be loaded on cars. Mr. A. M. Williamson was sent down the first of the week by Mr. Shoemaker to inspect each crate that goes to him, leaving all tomatoes out that are not marketable. He expects to be able to load a car by the first of next week.—Cushing Enterprise.

How To Give Quinine To Children.
FEBRILINE is the trade-mark name given to an improved Quinine. It is a Tasteless Syrup, pleasant to take and does not disturb the stomach. Children take it and never know it is Quinine. Also especially adapted to adults who cannot take ordinary Quinine. Does not nauseate nor cause nervousness nor ringing in the head. Try it the next time you need Quinine for any purpose. Ask for 2-ounce original package. The name FEBRILINE is blown in bottle. 25 cents.

Citation
The State of Texas,
To the Sheriff or any Constable of Nacogdoches County, Greeting:
You are hereby commanded to summon Quincy Maddox by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, to appear at the next regular term of the District Court of Nacogdoches county, on the 1st Monday in September A. D. 1914, the same being the 7th day of September A. D. 1914, then and there to answer a petition filed in said court on the 30th day of September, A. D. 1913, in a suit, numbered on the docket of said court No. 280, wherein Ollie Maddox is plaintiff, and Quincy Maddox is defendant, and said petition alleging in substance:
That the plaintiff and defendant were lawfully married to each other on or about the 1st day of November, 1911, and lived together as husband and wife until on or about the 1st day of November, 1912, at which time plaintiff was compelled to abandon defendant because of his harsh, cruel, unkind and tyrannical treatment.
Defendant did not provide raiment, food nor the necessities which she should have had. That he often left her at night by herself, telling her when he came in that he had been out with the boys.
After they had lived together plaintiff became enceinte and that her father sent her money with which to go to her father's home and that defendant took all of the money except railroad fare and 50 cts.
Plaintiff says that during their marriage relations there was born to them a boy, named George, she asks that she be given the custody of said boy, and that her maiden name be restored to her Ollie McLemore.
Plaintiff says that defendant's actions are such that it renders their living together insupportable.
Wherefore plaintiff prays that citation issue and that hearing hereof she have judgement for divorce, cost of suit and such other and further relief which she may be entitled to, both in law and in equity.
Herein fail not, but have, before said court, at its aforesaid next regular term, this writ, with your return thereon, showing how you have executed the same.
Witness, C. C. Watson, clerk of the district court of Nacogdoches county.
Given under my hand and the seal of said court, at office in Nacogdoches this 30th day of May A. D. 1914

New Equipment Almost Ready.
Work on the new telephone plant of the Southwestern Telegraph and Telephone Company in this city is rapidly nearing completion, says Geo. J. Todd, District Commercial Manager of that Company, who is here today from Beaumont. Practically all the old poles and wire have been removed from the streets and replaced by new poles and cables. The removal of these old poles was a dangerous task, which has caused some delay in the work, but July 1st will find the outside plant in first class shape. All houses and business ouseshaveh been rewired and protected from lightning damage to telephone apparatus, which has been a source of annoyance heretofore.

The installation of the switchboard and other apparatus has been started by a force of expert electricians from the big shops of the Western Electric Company at Hawthorne, Ill. and will be completed about August 1st, at which time all subscribers' lines will be transferred to the new switchboards and the old office on Fredonia street will be abandoned.

The new exchange covers the entire second floor of the P. M. Sanders building on Main street and nothing is being left undone to make the building comfortable for the company's patrons and employees. A rest room with all modern conveniences, including a library, is being arranged for the young ladies that operate the switchboard, where these faithful "Protectors of the Public" can enjoy a few hours rest each day.

As soon as all work is completed and the move made the Company will set aside an afternoon and evening for the public inspection of a telephone exchange second to none in the state.

President Will Not Back Down.
Washington, June 19.—President Wilson stands squarely on the statement given out at Niagara Falls by the American delegates and will accept no settlement of the Mexican problem which is not based on the principles outlined therein.

This was made clear today by officials after the president had an early conference with Secretary Bryan.

If mediation fails the president plans to issue a statement fully informing the public of the position of the administration and outlining his future course.

The president has no plans for going before congress with any phase of the Mexican question and all talk of further armed intervention is groundless at the present time, according to officials in close touch with the situation. The same, they say, may be said of reports that the United States plans to recognize General Carranza, General Villa or any other faction in Mexico.

Almost at the hour of Mr. Naon's arrival a long message was received at the White House from the American delegates.

June 17th Fishing Club.
Chas. E. Davis returned home last night after several days fishing trip with the Sentinel force and other friends. When Mr. Davis was one of the printers of the Sentinel force here several years ago, the force adopted the rule that every June 17th they would take a day off and "Go-a-fishing". So this June 17th coming on the day, Mr. Davis who now lives in San Antonio came to keep this well established rule.

The first of these trips was spent on Poe Lake in 1908 just eleven years ago, the next on the Moral 1908, and this year 1914 on Poe Lake again. According to the original rule these gentlemen will not enjoy a trip like this again until 1925, just eleven years hence.

They have decided this too long to wait so at the last meeting they adopted some by-laws in which they can make an exception to this rule and they will no doubt enjoy several trips in the next eleven years and be prepared with many a fish story for 1925.

The original members of this club were: G. M. Haltom, C. E. Davis, G. B. Engledow, Maury, Haltom W. G. Ratcliff and A. W. Grimes.

Linn Flat Singing.
Sunday June 21st, was a day long to be remembered by those whose good fortune it was to participate in the hospitalities of the good people of Linn Flat on this day and date.

For several weeks it has been circulated throughout the country that there was to be an all day singing with "dinner on the ground" June the 21st. It is a well known fact that when the people of this old and substantial community decide to do a thing they never do it by halves.

At an early hour on Sunday morning hundreds of people from all sections of the country were wending their way toward the historical spot where genuine southern hospitality reigns supreme and welcome is expressed on every face.

By ten o'clock the little church was filled to overflowing with those who reveled in sweet songs of praise and the singing was pronounced par-excellent by every one.

When the noon hour arrived it was announced that dinner had been prepared for all. A long table had been previously prepared in the shape of a hollow square and was loaded down with eatables of every description. Meats of every description, pies of every character and sundries of every kind were in abundance and it anyone went away hungry, it was his or her fault and not the fault of those good people who used every endeavor to see that no one should go away dissatisfied. Large barrels of cool sparkling water were supplied.

It was estimated that there were not less than 1000 people present and every one seemed to enjoy the occasion and went away expressing appreciation for the benefits and pleasures of the day.

If Texas has a single representative in congress who ought not to be in Washington City it is Martin Dies, who hails from one of the eastern districts. But somehow the people just keep on electing him, and he has no real opposition this year.—Kosse Cyclone.

Mr. Dies has "real opposition" in the person of J. Martin Jones, one of the sons of toil unadorned with the trappings of a tin soldier. The country would be better off if congress contained a majority of J. Martin Jones kind.

It Always Helps
says Mrs. Sylvania Woods, of Clifton Mills, Ky., in writing of her experience with Cardui, the woman's tonic. She says further: "Before I began to use Cardui, my back and head would hurt so bad, I thought the pain would kill me. I was hardly able to do any of my housework. After taking three bottles of Cardui, I began to feel like a new woman. I soon gained 35 pounds, and now, I do all my housework, as well as run a big water mill.
I wish every suffering woman would give

George.
This is rather an unusual story of a dog and deserves a heading. We give it this peculiar one as it is the name of the dog. It is the eighteen month's old puppy of Lin Curl and has unusual intelligence.
Mr. Curl had given Pat Jenkins a kitten several weeks old and one morning two or three days later as Lin started to town he met George coming home tooting the cat in his mouth.
George had been charge de' affairs of the kitten and two others the same age for several weeks and when they began to take up place of abode elsewhere he felt it his duty to find them. Lin said he had been looking for the other two.

Veteran War Writer is Dead.
London, June 17.—Bennett Burleigh, the oldest and most widely known war correspondent, died here today. A Scotchman, born in Glasgow nearly 70 years ago, he joined the ranks of the Confederates in the civil war and fought through the entire campaign, being twice captured and sentenced to death by the Northern troops.

Later he turned to newspaper work and reported a number of campaigns for a news agency. In 1882 he began his connection with the London Daily Telegraph, which lasted till his death.

The first solid car of tomatoes loaded out from this place was made yesterday. This car is of an extra fine quality and the inspector, Mr. H. B. Starkey, says it is ahead of anything loaded out from the famous Jacksonville crops up to date, and he expects to see the very best price the market will stand paid for it.

Mr. Starkey has made a visit to every tomato patch in the Nacogdoches and Appleby section and says the entire crop is extra fine and really the best he has seen this season. He thinks the crop will bring the top market price all the way through and while the acreage is small there will be around ten cars to go out.

Mr. Greave is having cars iced and picked up every day to handle the local shipments along the line between Nacogdoches and Jacksonville and is keeping cars ready to handle the entire Nacogdoches and Appleby crops. It is an interesting sight to visit the loading and icing to handle these shipments and see how the whole business is handled from start to finish. It is requiring from five to ten cars per day to handle the shipment from Nacogdoches to Jacksonville.

Every one interested in truck growing should visit the depot and let Mr. Starkey show them how to select and pack their truck for shipment. It makes no difference whether you have anything to ship this season or not it will be to your interest to get a little instruction for future use.

This car of tomatoes contained 841 crates and the price received by the growers here was 75 cents per crate. The car was shipped to Pittsburg, Pa., last night. Today, Wednesday, there is another car being loaded at the depot, which will be shipped tonight.

Get a "DANDY HOME CANNER" from Cason, Monk & Co., and put up that fruit, and beans and other vegetables for the winter months.

H. A. Still of the thriving city of Livingston, who once lived in Nacogdoches, has the thanks of the Sentinel force for a crate of luscious tomatoes shipped by express to-day, from all of which it is plain that Mr. Still is very thoughtful and accommodating and the Livingston county knows how to raise excellent tomatoes.

Anybody can operate a "DANDY" Home Canner satisfactorily. Pays for itself in a season if you have any thing to can. The price is low. Cason, Monk & Co.

Rev. A. L. Duncan, who has been quite sick with a nervous breakdown for the last few days, left Wednesday afternoon for treatment in the Fort Worth Sanitarium, attended by his cousin, Dr. Holland of Itasca and Rev. T. C. Mahan.

You can make money with a "DANDY" Home Canner. We have them in different sizes to suit YOU. Come in. The price is low. 1tw Cason, Monk & Co.

Letter From Dr. Mayfield.

Crystal City, Tex. June 20. Editor Sentinel:

I am enclosing check for \$1.82 on my subscription to the Daily. It just happens. I don't mean it to keep the record straight, but to improve the shape.

This is the dad blamest town of all. More than half of the houses of all kinds are empty, and the adjacent country is more so. The lands and the houses are of fine quality, but lack people. Crops are excellent, and varied. The town of Carrizo Springs, which is in Dimmit county, twelve miles south of here is about a century older than this city, and has more supporting lands in cultivation, besides a court house, etc. I was over there last week and was surprised at the awakened aspect. They ship strawberries, cantaloupes and various trucks in car loads daily. One of the leading freights of this section is beet cattle. One contractor has just finished a shipment of 5000 head, from neighboring stations. Alfalfa and onions are important crops. The small red onion called Bermuda is a leader. Another variety larger and more costly is the White Wax, called "waxes" for short. Irish potatoes are called spuds, and cucumbers cukes. Sorghum for hay is called cane, and is extensively grown. So is milo mize and kaffier corn. Of course the usual crops of corn, cotton and other products are grown, but very little in the way of fruits. I can't see why.

An interesting enterprise a few miles from here has been undertaken by an ex-alderman of San Antonio named Boynton, viz: to dam the Neuces river and create an extensive lake to irrigate a large tract of land which he has aptly named Winter Garden. He had to divert the water into a slough by a temporary, or auxiliary dam, which was about completed when a big overflow occurred and destroyed it. The noted Medina Dam was not dammed that way. It was dammed to stay, 162 feet deep.

The thermometer has recently registered 95 here but the breezes and showers protect us. We seldom use any kind of a fan and every night we use bed cover. We are long on many peculiar things of no use, such as rattlesnakes, cactus and thorny and horny things, and we are short on many useful incidentals, one being the article found in the famous Buck Horn saloon. Say, boys, if you ever do come out here be sure to bring along some "snake-bite". They are sure bad around here and fishing is fine. Yours forever. J. E. Mayfield.

Muddy Water Made Clear

The Sentinel has a very good friend who has had quite a bit of trouble keeping water clean in his well. Recently he read the experience of a gentleman whose well was always muddy, and he finally decided to try a filtering process in his well. He put in a filtering device of his own and after having given it a trial of several years, published his experience, at the same time giving instructions as to how it should be done.

The Sentinel's friend paid us a visit and told the following story:—

"Now don't use my name in this, because I am not the originator—simply an imitator—yet it is certainly worth trying by any man who is troubled with a muddy well.

"As you know some of our seep wells are always muddy and the owners have spent a great deal of time as well as money in having their wells cleaned and curbed. I had the same trouble until I read in a farm journal a plan whereby a muddy well could be made to furnish water as pure as any artesian water you ever drank. I tried the plan and I must say that it is certainly worth one's while. I cannot repeat the exact language of the plan but will tell you how I followed it and any one doing as I did will be wonderfully surprised at results.

"First, be sure and have the well curbed five or six feet; have well thoroughly cleaned; then take large gravel or crushed rock and wash same clean, after gravel or crushed rock has been washed place a layer of same about 5 inches deep in bottom of well.

"I could not get gravel but used crushed rock using pieces about the size of marbles, and I have had no more trouble with muddy or impure water."
