The Place Where You get What You Want

Accidental Shooting

Last Saturday night Mrs. G. A. Matthews of Me'rose was shot in the arm at the home of her father Jeff Blakey.

The family were seated at the supper table when Mrs. Matthews was struck in the arm by a stray shot. The shot passed through the hair of another member of the family sitting across the table.

Three negroes were found in a difficulty at a nearby house and it is thought the shot came from one of the target rifles used by them.

Wilson Non-Committal

Washington, July 6.—When President Wilson was asked today to comment on yesterday's election in Mexico he laughed and said:

"I hardly think any comment from me necessary."

When asked if he knew anything of Gen. Huerta's plans for leaving Mexico, he smiled again and said:

"I am afraid I am not in his confidence."

The president refused to discuss mediation saying the

Work On Star Avenue.

Editor Sentinel:

I have a crew of hands at work on Star Avenue. This is a road leading into the Logansport road. There is not a hand on it, but the county has to keep it up. I am going to do a good job, and if any of the citizens will help in anyway I will appreciate it, and see that the money is spent in a JUDICIOUS way.

Picnic at Walnut Grove

Every one is invited to come to Walnut Grove July 17th, and bring dinner for benefit of the graveyard. Every one interested is urged to help. Special invitation to Old Harp singers and all the new book singers. A full program will be arranged. We will have several speeches from county candidates.

Committee

Picnics

All candidates and friends of the following communities will be interested in the following picnic dates.

Simpson Camp Ground July 10th, Walnut Grove, July 17th, Red Oak—Needmore, July 17th, Lone Pine July 18th, Shady Grove July 23rd.

There will be something to eat and a jolly good time for all.

Come and bring some one with you.

New Steel Bridge.

Commissioner M. S. Mucleroy informs us that the steel bridge for Looney creek on the Appleby road has arrived and will be put in right away. This is the place where the two bridges are right together on the two prongs of the creek. The new bridge will be put in just below the old ones and will take the place of both of the old bridges.

Big Picnic At Lone Pine

There will be a picnic at Lone Pine, on Saturday, July the 18th.

Every one is invited to attend, and bring a well filled basket.

The program will consist of political speaking, with vocal and instrumental music.

Judge V. E. Middlebrook will represent the candidacy of Jas. E. Ferguson and Hon. Beeman Strong will speak in behalf of the candidacy of Thos. H. Ball.

The district and county candidates will be afforded an opportunity to speak.

We, in this immediate vicinity, were disappointed as to a good rain yesterday but our neighbors at Spring Hill about 15 miles east of here, got a good one, with also considerable wind.

The top of Joe Harris' barn was blown off and other slight damages were done.

Huerta Re-elected Mexican President.

Mexico City, July 6.—Victoriana Huerta was elected president of Mexico, according to reports received here. Huerta's name was on the official ballot and he has repeatedly asserted he would not serve as president of the Mexican republic.

Lascurain, who was the choice of Huerta for the presidency, will be selected by congress as the successor to Huerta. It is announced that Huerta will call an extra session of the congress within the next ten days. He will declare the election null and void.

This is, according to the announcement, "unless he changes his mind."

Philippine Independence

Washington, July 6.—President Wilson and house leaders have agreed substantially on a bill granting a larger measure of self government to the Filipinos. The president told callers today that he approved the bill introduced by Representative Jones of Virginia and modified by the house insular affairs committee, but made it clear that he did not expect the bill to be passed by congress during the present session.

County visitors Tuesday were T. P. Knox, Chas Runnels of Woden, Jno. G. Holloway of Chireno, A. N. Stone of Melrose, Guy Stoker from Stoker, J. P. Birdwell, Tra-wick and Bailey Moore of Chireno.

The minimum wage for girls suggested by the wage commission of Massachusetts is \$8.71 a week. The girls are at a loss to know whether the price is marked down four cents are marked up one.

Colonel Roosevelt, whose two-term reign came to a close in a panic, calls the present administration a colossal failure—the greatest discovery he has made since his return from the River of Doubt.

John M. Mathis of Brenham, former law partner of Congressman Buchanan, says: "Washington county will go about 7 to 1 in favor of Ferguson, and we may by a little work increase this ratio."

Dr. Frank Crane says: "The theater ought to be a part of the general educational system of the state. All the more so because it is essentially amusement. For amusement is the most potent form of education."

Chas. B. White would not stay in the race for comptroller and divide the pro vote. If the governor's race could be cleared of a similar encumbrance Ferguson's majority would be increased a vote or two.

Americans drank less whiskey during the past year but consumed more beer, which no doubt affords gratification to the German philosopher who said: "Too much viskey is too much viskey, but too much beer is schoost right."

Dr. Frank Crane says: "The new patriotism does not advertise for men willing to die for their country, but to work, think and act for their country. It covets no other man's land. It sends ships and soldiers to Mexico not to kill but to help."

Tom Finty of the Dallas Evening Journal says his choice for governor is Mrs. Percy V. Pennybacker who has been twice elected president of the Women's Federated Club of the United States. What a charming governor she would be!

Charles B. White announces his withdrawal as a candidate for comptroller, leaving J. L. Franklin and H. B. Terrell in the race, the former a pro and the latter an anti. He realizes that with two pros in the race Mr. Terrell will be elected by a big majority but with only one pro in the race the majority will not be so large.

The Cherokee Sun says that Hon. C. C. McDonald spoke at the courts house in the town of Rusk a few days ago in the interest of J. E. Ferguson for governor, and that his talk was listened to with much interest, and the paper went on to say that Mr. McDonald was one of the best speakers in the field at present and gets a large audience wherever he goes—Lufkin News.

It is true that most of the Texas newspapers are supporting Ball. When Ross and Swain were candidates for governor most of the newspapers supported Swain and Ross was elected by a large majority. A newspaper is as likely to oppose the winner as to favor him.

Mr. Ferguson has promised to devote the machinery of the state government to the management of the state's business to the end that we will have a good business administration and resultant statewide prosperity. The legislature will not spend all of the time regulating one thing.—Temple Telegram.

When a business man becomes governor and business legislation takes the place of liquor agitation the people of Texas—

"Will bid farewell to every fear
And wipe their weeping eyes"
—and continue in a democratic way to run the saloons out of Texas precinct by precinct and county by county.

On July 1 Ferguson spoke at Ballinger, county seat of Runnels county. The Waco News correspondent guesses that the county will go for Ball by at least one hundred majority. The San Antonio Express correspondent guesses that the county will go for Ferguson by more than two hundred majority and that practically the whole of West Texas will return majorities in his favor in the July primaries.

Luke McLuke says that the woman who spends two hours at home peeling potatoes for the family dinner is doing more for the country than the dame who spends a whole day on a soap box yelling for equal suffrage. He also says that if a man's dog strays he spends two dollars in offering a reward for its return, but if his wife strays he spends two dollars in warning the people that he does not want her back.

Read the interesting letter of R. H. Carraway published in this paper concerning the only picture of the Thomas J. Rusk home known to exist. R. H. Carraway, better known to us as Henry, is the son of Thomas J. Carraway, who was for years owner and editor of the Nacogdoches Star-News. Henry is owner and editor of the Caddo Herald in the great and growing young state of Oklahoma.

Commenting on the injunction suit against the Business Men's Association, B. B. Cain, president of the Association, denies that any funds were used for political purposes. He claims that it is a part of the Farmer's Union plan to get men into the legislature who would carry out the plans for their market system and that Radford and Lewis had decided they could not get the desire legislation adopted as long as the prohibition question is before the people.

In continental United States the gainful workers number 38,167,336, which is 41 per cent of the total population of 91,972,266, according to the last census. One-third of all gainful workers are engaged in agriculture, forestry and animal industry and more than one-fourth (28 per cent) are engaged in manufacturing and mechanical industries.

Leopold Morris, who is trying his best to run for governor, hits one nail on the head when he says: "Attorney General Looney seems to have been careful to include in the suit many of the big corporations that are believed to be supporting Mr. Ferguson and to exclude those that are believed to favor Mr. Ball, such, for instance, as the Kirby Lumber Company, the Magnolia Petroleum Company and the Frisco lines. But I suppose that was merely an oversight on his part."

The Washington Herald has the cards badly mixed. Mr. Onion lives in San Antonio, Mr. Turnips-ed lives in Dallas County. Mr. Wheat lives in Dallas, Mr. Rice lives in Houston, the Cotton family is represented in Houston, Dallas and Waco, Mr. Egg is sheriff of Jackson County. The list might be lengthened, but we dare say Washington is more interested in that distinguished Maryland statesman who has lived so long. His name is Mudd.—George Bailey in The Houston Post.

Speaking of the congressional campaign in the second district the Nacogdoches Sentinel says: "Mr. Dies has 'real opposition' in the person of J. Martin Jones, one of the sons of toil unadorned with the trappings of a tin soldier. The country would be better off if congress contained a majority of the J. Martin Jones kind." More wonderful things than the defeat of Dies by Jones have happened. It would be difficult to find two men with more strikingly contrasted characters, and sometimes the people go from one extreme to the other.—Carthage Register.

It is in the least expected places that we run across those things which serve to tide us over the brink, when we are just upon the verge of despair. In the issue of the 30th the Nacogdoches Sentinel carries the item which brushes dull care away. It reads this way: "If your brain won't work right and you miss the snap, vim and energy that was once yours, you should take Prickly Ash Bitters. It cleanses the system and invigorates both body and brain." From here on out we are going to fall for Prickly Ash Bitters, and we thank the Sentinel for furnishing us with the information.—Lufkin News.

Getting over

The Fortune Teller.

BY WALT MASON.

A gypsy maiden, strangely wise, with dusky hair and midnight eyes, my future life unveiled; she said she'd read the lines of fate for many another trusting skate, and never yet had failed. She was a maid of savage charms; great brazen rings were on her arms, and she had strings of beads; with trinkets she was loaded down; the noisy colors of her gown recalled no widow's weeds. She told me I would live to be as rich as Andy or John D., my dreams would all come true; I'd have a palace on a hill, and vassals near to do my will, a yacht to sail the blue. And as she told what blessings fine what great rewards and gifts were mine, in low and dulcet tones, her nimble fingers, ne'er at rest, got closer to my checked vest, and lifted seven bones. She touched me for my meagre roll, that poor misguided, heathen soul, but her victim smiles; she gave me dreams for half a day and took me with her to Cathay and the enchanted isles. Her glamor caused me to forget a little while the strife and sweat, the city's bricks and stones; she took my toilworn soul abroad, and she is welcome to my wad—I still have seven bones.

Ten Health Commandments

- 1 Keep windows open day and night.
- 2 Do not spit.
- 3 Breathe through the nose by keeping the mouth shut.
- 4 Drink pure water.
- 5 Eat slowly, take well cooked meals, and cultivate regular habits.
- 6 Wear loose clothing of seasonable material.
- 7 Take regular open air exercises in sunshine if possible.
- 8 Wash whole body at least once a week.
- 9 Work, but do not worry.
- 10 Get house drains certified by sanitary authority.

Lest We Forget.
In 1900, six years after he ceased to be an office holder, Governor James S. Hogg, seeing that there was to be no early relief from the State Legislature against some great and growing public evils, formulated certain proposed amendments to the State Constitution, had these amendments published and went before the people, paying his own expenses, in a canvass of the State to secure a plank in the next State Democratic platform favoring their adoption and he made speeches on the subject throughout Texas. A bitter fight was made upon him and upon his amendments by all the powers and influences which it was sought to cure, and before the convention met at Waco there was a deep and mighty conspiracy formed to destroy both his amendments and his political prestige by a combined and thoroughly organized personal and political attack upon him in the convention.

In pursuance of such plot that convention was packed against him by the lavish issuance of free passes over railroads to all who would go there, either as delegates or clackers, to engage in the work of overwhelming him. Speakers of great ability were selected by the combine, with reticence both to their powers and their personal dislike and bitterness toward Governor Hogg. The leading speaker thus selected was Thomas H. Ball of Houston.

So well was the work done of manipulating delegates that when the convention met, out of the thirty-one members of the committee on platform only two favored the Hogg amendments. A majority report was made against them and the two members referred to made a minority report recommending their adoption. Lee Walker of Terrell and myself had the honor to be that minority and to make that report. Then the fight opened on the floor of the convention, and the speakers chosen by the intriguers made a most merciless and ferocious onslaught on the amendments and on Governor Hogg personally.

They were backed by the most infamous gang of political heelers and corporation hirelings, both on the floor of the convention and crowded into the lobbies and galleries, who ever disgraced a public assembly. The closest attention was given to those opposing Governor Hogg in debate, but when he came to speak the mob—for it was no less—undertook to howl him down, flinging epithet and insult at him from all parts of the house. For thirty minutes the rioting continued, and it seemed impossible that he would be allowed to be heard, but held the platform unmoved and grand in his contempt for the miserable tools who were denying him a hearing.

Finally his lion spirit arose in righteous anger, and he began to point out here and call the names of free pass packers and corporation tools who were leading the tumult,

to give back in kind the language which was being used toward him, and to threaten the donors with the vengeance of the people. His superb courage and just indignation simply awed the whole assembly into silence, and he then went on and made the greatest speech of his life—arguing the legal questions connected with his amendments with unsurpassed ability, and warning the convention that they were demanded by the people, and that if they were not made a part of the platform every delegate who voted against them would be branded as a traitor. He won. At the close of the debate the convention by a large majority adopted his amendment as a platform demand, and the Democrats of Texas rejoiced in this step toward conquest over the corporations and trusts.—John M. Duncan.

Fast Texas Man For Lieutenant Governor

William P. Hobby was born in Polk county March 26, 1878. His father was Judge Edwin Hobby who sat on the district court bench for many years and was widely known throughout East Texas. Early in life W. P. Hobby began his newspaper career as correspondent for the Houston Post. Afterwards he became a reporter and staff writer and subsequently became managing editor of the Post when position he retained until he moved to Beaumont and aided in the reorganization of the Enterprise company. He has been manager and editor of the Enterprise for about six years and is the largest stockholder.

He has always taken a deep interest in public matters, both local, state and national. He served one term as secretary of the State Democratic Executive committee and has always been a consistent democrat and an earnest worker for the party. Since coming to southeast Texas he has devoted his energy and the influence of his newspaper to upbuilding Beaumont and all southeast Texas. He served a year as president of the Beaumont Chamber of Commerce and has been intimately identified with all movements looking to the development of the state's resources and the prospering of all commercial and business enterprises. Prosperity of business, vigorous development of the state's resources and industrial progress are dominating factors in his life and in his campaign for lieutenant governor.

How To Give Quinine To Children.
FERRILIN is the trade-mark name given to an improved Quinine. It is a Tasteless Syrup, pleasant to take and does not disturb the stomach. Children take it and never know it is Quinine. Also especially adapted to adults who cannot take ordinary Quinine. Does not produce the usual nervousness now rampant in the South. Try it the next time you need Quinine for any purpose. Ask for Ferriline original package. The name FERRILIN is blown in bottles. 25 cents.

WHEN YOU ARE NERVOUS

you have the first symptom of a run-down system, and nervous people too often conceal their aches and pains and suffer in silence, while, if neglected, this condition often foreruns more serious trouble.

If those so afflicted would stop taking medicine containing alcohol or drugs which menace the foundations of health, and just take the pure, strengthening nourishment in Scott's Emulsion, it would create new blood to pulsate through the organs, refresh their bodies and build up the whole nervous system. It is rich, sustaining nourishment, free from wines, alcohol or drugs. Shun substitutes.

Quarantine Stays On

Austin, Texas, July 1.—State Health Officer Steiner asserted that he does not intend to lift or modify the quarantine imposed against New Orleans on account of the appearance there of bubonic plague. He has received several requests for a modification of the embargo, which applies on all Texas ports, but before taking any action he intends to wait for the report of Assistant State Health Officer M. H. Boerner, who left last night for New Orleans to look over the situation personally.

Pleased by White's Withdrawal

Dallas, Tex., July 2.—Senator H. B. Terrell of McLennan County, candidate for Controller, is confident that his majority over his only opponent, J. L. Franklin, of Collin County, will be close to 50,000 votes, since Charles B. White of Fannin County has withdrawn from the race. Mr. Terrell returned yesterday from a trip through North Texas.

In an interview Mr. Terrell pointed out that he will receive a large percentage of votes from Whites's friends.

Cotton Area is Smaller

Washington, July 1.—A total area of 36,960,000 acres of cotton is in cultivation in the United States according to the preliminary estimate of the department of agriculture announced today. This compares with 67,458,000 acres, the revised estimate of acreage in cultivation a year ago, 37,089,000 acres picked last year, 34,283,000 in 1912, and 36,045,000 acres in 1911.

The condition of the growing crop on June 25 was 79.6 per cent of a normal, as compared with 74.3 per cent on May 25, this year, 81.8 per cent on June 25 last year, and 80.7 per cent the ten year average on June 24.

Picture of the Rusk Home

Caddo, Okla. June 30, 1914. Editor Sentinel:

In the last issue of the Sentinel you ask any one having a picture of the Rusk old home to communicate with you. I have among my collection of kodak pictures a picture of the Rusk home (Wade place) and if you want to use it you are welcome. All that I ask is that the picture be returned to me when you are through with it. Your article causes me to wonder if that historic old house has been razed. I fear that the Nacogdoches I used to know has passed away and in its stead a modern city has risen, with paved streets, ornamental street lights, and no place in this busy mart for antiquated buildings even though they do have historic connections with pioneer days.

6000 Rat Traps Doing Duty in New Orleans.

New Orleans, July 2.—Six thousand rat traps, temporarily baited, did silent duty in the infected section of this city today. They had been placed there by direction of the health officers in their vigorous campaign for the eradication of bubonic plague. Two hundred employees of the city engaged in the war of extermination against rodents manned the traps, rat proofed residences and business houses and kept a general surveillance of the prescribed area.

Texas Building at San Francisco.

The Panama-Pacific Exposition Commission of Texas, at a recent meeting in San Antonio, adopted plans for the Texas building. It is to be 150 feet long by 60 feet wide, and is a replica of the State Capitol at Austin. The exterior of the massive granite capitol building will be carried out in stucco, and the building will be reduced to a scale of approximately one-eighth its present size. The interior will be arranged for exhibits and rest rooms for visitors.

It is sincerely to be hoped that the people of Texas will respond generously, and assist the Texas Commission in a financial way, to the end that our Texas building and exhibits will be a credit to the State. Army of Children Under Sixteen Work in Philadelphia

Philadelphia, June 30.—Approximately 25,875 children less than 16 years of age are now at work in stores, factories and other commercial establishments in Philadelphia.

This is shown by the report of a statistical investigation conducted recently by the bureau of compulsory education and made public yesterday. Of the 25,875 little workers, 11,718 are girls.

The report shows that of these children the greater number terminated their education in the sixth grade. Under the compulsory law, children cannot be employed in Pennsylvania until they have attained their fourteenth birthday, but street traders, such as selling newspapers and shining shoes, are excepted.

3,000,000 Acres of Land Ready For Home-Stealers

Austin, Texas, July 4.—Land Commissioner Robinson announced today that he has for free distribution a complete list of public lands coming on the market during July and August which approximates 3,000,000 acres, nearly all of which is in the extreme western part of the state.

The list shows the acreage in each tract, minimum price classification and block and section description, also date the land will first be for sale and whether or not settlement is required in the purchase of same.

A large amount of this land is purchaseable without settlement but the greatest bulk of it requires three years residence in order to gain title. While some of it is restricted requirement most of it can be purchased up to eight sections. This last is true in arid western countries where the land is for sale as in Brewster, Culberson, Edwards, El Paso, Jeff Davis, Kinney, Pecos, Presidio, Sutton, Terrell, and Valverde.

This land may be purchased on forty years time one-tenth being paid upon securing the necessary papers and the execution of an obligation to pay 3 per cent per annum on the deferred payments.

Tango Car Planned By the Denver Road

Denver, Colo., July 2.—The tango railway car is the latest. It will be operated next year by the Denver and Rio Grande in connection with a new St. Louis and San Francisco train, if the plans of the officials of that road are carried out. It is proposed to have a car which can be used for library and observation purposes during the day and for tangoing at night. A disc phonograph will provide plenty of dance music.

Railroad men say the train's motion will not interfere with the enjoyment of the dancing.

Holds Ice is Food.

Austin, Tex., July 1.—Pure Food Commissioner Yates holds in a ruling that ice is food and consequently the question of inspecting ice factories in the state comes under the jurisdiction of the pure food department. This ruling was made by Commissioner Yates in answer to questions propounded by several ice manufacturers. Before enforcing the ruling, however, or acting upon it, the commissioner has put the question up to the attorney general's department to see if he is correct.

Twelve Lives Given in Honor to Fourth

Chicago, Ill., July 4.—Formerly terror of parents, fire insurance companies and others having at heart the preservation of life and property, is rapidly losing its "teeth" as the sane and safe idea spreads over the country. Incomplete returns from practically the entire country up to 11 o'clock tonight place the total dead at twelve and the injured at approximately 200, although these figures will be raised as minor accidents are reported. The total fire loss up to 11 o'clock was estimated at \$120,000.

An Awful Menace Exposed.

The nub of the legislation which Wilson is asking Congress to pass now, before summer adjournment, is this: Declaring unfair competition in commerce unlawful, and creating a commission to drag it into the open. That's all there is to this awful threatened interference with prosperity.

Can you think of a single good reason why honest business should object to such a law and try by might and main to obstruct its enactment? Neither can we.

As a matter of fact, we doubt that the obstruction originates with honest business.

He whose skirts are clean needn't fear the spotlight.—St. Paul News.

San Marcos Loses Heavily

San Marcos, Tex., July 4.—Fire losses this morning on Timmerman's livery stable and S. R. Kone's carriage and saddlery establishment will total fully \$40,000. Timmerman's loss is estimated at \$20,000, with \$9,000 insurance. Kone's losses are between \$20,000 and \$25,000, with only \$5,000 insurance.

One thousand dollars reward has been offered for the apprehension of the person who fired the city hall and fire station exactly one week ago.

20 Men Save Their Lives By Taking Drink

Williamson, W. Va., July 1.—Hope was abandoned at 10 o'clock this morning for five miners trapped in an entry of the Sycamore coal mine near here, when fire spread from a fan house to the place in which they were working. Twenty other miners usually in the same shaft escaped by staying out to drink barrels at the closing of West Virginia saloons.

According to Col. John L. Clem, assistant quartermaster general of the United States army, American soldiers are the best fed in the world at a cost of 21 cents a day.

Manager John G. McKay of the Ferguson campaign committee states that if nothing endangers Ferguson's success any more than Bell county his majority will amount to 150,000.

There is no disposition to hold Colonel Ball personally responsible for the disgusting fight waged on Ferguson by a few men in Bell county, who have been the recipient of favors at his hands in the past, but inasmuch as this fight is being conducted in Colonel Ball's interest, he will be the one to feel its bad effects. Ferguson will carry Bell county by 1,000 majority.—Houston Telegram.

In Dallas on July 6 Jas. E. Ferguson said: "Ball can not carry a single large city. He will not be able to get a majority of 1000 in any Texas county. Cooke, Ellis and Hill counties are beyond his reach. I doubt if he will carry Hunt and he is struggling for Rockwall. I shall carry South Texas by a majority of 60,000 and West Texas by 20,000. Every place I speak I am cordially welcomed."

Dr. Frank Crane says: "The new patriotism sees that the nation is more in danger of rotting within than of invasion from without. It is more agitated over the army of the unemployed that besieges the cities in Winter than it is over the forces of Carranza or the fleets of Europe"

The Sentinel is trying to keep the record straight, but finds it hard to do. Concerning the Fourth of July Ball rally at Midway, Bell county, the Waco News declares that "more than 10 000 people" were in attendance. The San Antonio Express estimates the crowd at "between 5000 and 6000 people," more than half of which was composed of women and children. Col. Ball spoke in morning and afternoon.

The good prices quoted on the markets for the things that the farmer produces threaten to wreck the hopes of a good many aspiring republicans who have been expecting to ride into office by showing the farmer how hard he has been hit by the removal or reduction of the tariff on farm products. It will require some high and lofty juggling to get the statistics to fit the republican congressional candidates' case.—Bryan's Commoner.

At the Ball rally in Dallas he was charged by a pompous speaker, presumably a college graduate, that Ferguson is not a college graduate and that he is unable to make 45 in an examination on English history. The hypocritical and hypocritical asseveration was applauded vociferously by the smarter-than-thou, holier-than-thou band of scribes and Pharisees, five per cent of whom are also unable to make a grade of 45 in English history. Without long and careful study in advance not one per cent of the adult population of Texas or of the United States can make it, and not ten per cent of our college graduates. The walls of the church in which the rally was held reverberated with applause that followed the profound statement.

It was a nice day's work that the citizens of Nacogdoches did the other day, headed by their mayor, when they turned out and filled up the many holes in the pavement, which were left on account of some of the property holders objection to their part of the paving, and such contests now being in the courts. The holes were filled in with sand and gravel nicely packed and the streets now present a far better appearance. It is presumed that there were no objections from any source about the latter improvement on the part of the citizens at large who believe in the civic attractiveness of their little city. When Lufkin and Angelina county get the good road built to the river, it will afford everybody over this way an opportunity to visit that town more often and get better acquainted with its people and the business relations that will spring up will enure to the benefit of all.—Lufkin News.

FIRE PREVENTION.

By S. W. English, State Fire Marshal.

It has been declared that an ounce of prevention is worth a pound of cure. It is equally true that an ounce of fire prevention is worth ten pounds of fire fighting.

The man who is constantly on the alert to ward off fire has a faith that is far stronger than has the man who is careless with his property and who depends upon the zeal of the fire fighting company or water pressure maintained by the waterworks.

Keep your premises free from filth. Keep them free from trash. Keep them insured against destruction by your care rather than to trust solely to your insurance policy and to the powers of fire men and their fire fighting machinery.

A pall of smoke ascending from your property as it goes to feed the maw of the fire-god can have no silver lining. It is a black cloud and in nine cases out of ten leaves a black mark on your conscience.

Don't save all your energy to fight fires with; use some of it to prevent fires.

Estimates of Half of Texas Counties Indicate Increase.

Austin, Texas, July 6.—Preliminary estimates of the assessed values of about half of the counties of the state have been received by the comptroller and indicate that there will be a large increase in the assessed valuation of property in Texas. The total valuation last year was \$2,675,978,915. These preliminary reports are to be used by the state automatic tax board and come from the county tax assessors. All estimates are supposed to be filed not later than July 15, the date on which the tax board meets to fix the tax rates for the ensuing year. The tax rates last year were: Ad valorem, 23 cents; state school 17 cents.

While many requests have come to the comptroller for an increase in the state school tax, the governor proposes to materially reduce the ad valorem tax, while the pension tax of five cents on each \$100 of valuation is fixed by the constitution and inflexible. At this time there is over \$400,000 to the credit of the pension fund and the pensioners are receiving much larger amounts than ever before under the state pension system. It appears that they will receive even greater amounts as the tax values increase and produce more pension money on the five cent basis.

The misery of man appears like childish petulance, when we explore the steady and prodigal provision that has been made for his support and delight on this green ball which floats him through the heavens.—Emerson.

Expert At Galveston To Kill 100,000 Rats

Galveston, Texas, July 7.—"There are 100,000 rats in Galveston and I'm out to catch 'em," was the way J. E. Stratford, professional rat catcher and health campaign expert, put it Monday afternoon after making an inspection of the water front.

Mr. Stratford's plan of campaign is the setting of about 500 traps properly baited and maintained at all times of the day and night. Traps will be furnished by the various dock, elevator and wharf owners and turned over to Mr. Stratford. After conferring with many of the owners the new official declared that he was surprised and gratified with the spirit of co-operation shown him. Two hundred traps were subscribed during the afternoon Mr. Stratford continued his inspection this morning and expects to visit all property owners in the course of the day.

Hugh Peak in Eruption.

Red Bluff, Cal., July 1.—After less than twenty-four hours of quiescence, Lassen peak burst forth early today in a stupendous eruption—the fourteenth in the series that began May 8. No flames were seen, but the vast plume of blackened steam from the crater waved a mile high in the sky and volcanic ash fell at Macomber Flats, thirteen miles distant.

For a little less than half an hour the inverted cone of soaring gases maintained, sharply defined, the well known volcanic outline. First from the mouth of the crater stood a vertical shaft of jet black ash. As the shaft rose, it mushroomed outward, keeping at its heart the black core of ash.

Grave apprehension existed today for the safety of a party of observers who left Warm Springs yesterday to visit the crater on Mount Sassen. No word has been received from them since the new outburst of the peak.

Hon. Beeman Strong, former district attorney of this district, who refused to run any more, was in the city of Lufkin yesterday. He even called at the News office and whiled away a few moments in pleasant conversation. He is a very distinctive personage, and is easily considered one of the very best men in Eastern Texas, and when you cover that territory you might as well say the state. He has friends scattered throughout this district who would support him for any office within the gift of the people, and it might be said of him that he is the only man who measures arms with the present officials in the national halls of congress today from this district. Just why he has put this matter off as long as he has is more than the writer can understand.—Lufkin News.

Differs With Mr. Jones.

Dear Bro. J. A. Jones:

I know you are a brother by the way you quote scripture and as your profound and logical sermon appeared in the Sentinel of July 2nd, you will excuse me for comment on same through the same channel. We differ with as to the first pro sermon being preached by the devil and claim that God preached it to Adam and Eve when he put them in the garden.

"But of the tree of the knowledge of good and evil thou shalt not eat of it." Not only did God preach it, but it carried by a large majority and then came into existence the first prohibition law. Can't you see it that way, Brother Jones?

Your next three sentences are only utterances of yours, without any proof behind them, and to answer with proof to refute your assertions would consume too much time.

Your next Bible stunt which says, "The pros tried to prohibit the apostles from preaching the gospel of Christ," is equally as erroneous as your first.

If that was the case all the world at that time was pro. For the Bible tells at Jerusalem at that time were dwelling men out of nation under heaven and only about 500 disciples gathered. So according to your own statement prohibition was not so unpopular as you would lead people to believe. Bringing it closer to home, who is it that says Tom Ball is a wine bibber and glutton. Pro or anti, don't you see now who it was who said, "These men are full of new wine." They have lived and some of them are with us to this day. They love darkness rather than light for their deeds are evil.

Now brother are you a friend in deed and truth to "justice and truth?" Read this scripture, "Woe unto him that giveth his neighbor drink, that putteth thy bottle to him and maketh him drunken also." In the day of our King the princes have made him sick with bottles of wine; he stretched out his hand with scorn. Oh! Brother Jones won't you for the sake of your souls salvation come out from among them.

Yours for better government.

Mahl, Texas.

Milam County People Fight Over Campaign.

Cameron, Tex., July 7.—Political excitement is keener in this town than at any point the gubernatorial candidates have reached so far in the campaign, for within the last few days there have been over a half dozen fights in Cameron over the gubernatorial race.

Col. Thomas H. Ball is being given an enthusiastic reception here today, and his supporters and those of Mr. Ferguson are keyed to the highest pitch over the situation. The race is said to be very close in Milam County, and while some parts of the State have seemed to be rather apathetic, it may be stated with entire accuracy that interest in this section is at fever heat.

As in the Long Ago

Take me back to Nacogdoches
Where the roses nod and glow,
Where the sweet Magnolia blossoms

And the pines wave to and fro.

Let me hear the gentle murmur

Of the brook beneath the hill,
That soothed my troubled heart to rest.

With a whispered "peace be still."

Take me back to Nacogdoches
Where the hill tops are so high;

They remind you of the steeples

Of the city in the sky.

Take me out into the country
On the old familiar road.

Let me see the farm hand's mowing

And the hay rake dump its load;

Let me smell again the clover
In the meadow by the brook;

Let me see the little cottage
With its cozy little nook;

Let me rest upon the door steps

Where we sat to count the stars

And make wishes to the new moon

Over cross the pasture bars;
Let me hear the sweetest whispers

Of the gentle voices low

And let the loved ones love me now

As in the days of long ago.

Democrat Caucus Called For Today.

Washington, July 1.—Definite and final notice to business and the country generally that congress will not adjourn without action on the administration anti-trust legislation program was the primary object of a caucus of senate Democrats called for today with President Wilson's approval.

A party agreement to pass the trade commission bill, the amended omnibus trust bill and the railroad securities bill was discussed at the White House today in conference with administration leaders who returned to the capitol with the word that the plan carried the backing of the president.

It was hoped that by outlining a definite program there would be less difficulty in securing a quorum and in transacting business. Once congress knows that a definite program is to be enacted before adjournment, the president believes that the work will be quickly finished.

It was said at the White House today that the president would send no message to the caucus and that he had had nothing to do, directly, with the calling of the meeting.

Wilson Plans a Trip.

Washington, July 6.—President Wilson is planning a trip on the presidential yacht Mayflower later in the summer, probably in August. Arrangements for the cruise will depend largely upon the adjournment of congress.

Jury Gives Freight Conductor \$75,000

Chicago, July 6.—A jury today awarded James B. Wilson, former freight conductor on the Baltimore and Ohio railroad \$75,000 for injuries received last year, according to testimony, after he had been forced to work six or seven hours out of seventy-two.

Propped up in a wheel chair Wilson told the jurors he had been made to work three days and nights with only nine hours off for rest. He said that while switching a freight car to a side track at Peninsula, Pa., on the third day, he fell exhausted between the car and engine, his right arm was crushed and his spine injured.

\$100,000 Packing Plant Completed.

Sugarland, Texas, July 7.—The plant of the Home Packing company, one of the most complete of the smaller packing plants of the southwest, has been thoroughly installed and equipped and turned over to its owner, W. T. Eldridge of the Imperial Sugar company and other interests in this city. The plant probably will begin operations next week. It is estimated the plant will cost more than \$100,000.

Mr. Eldridge now is practically the sole owner, but it is said he will sell some of the stock to his associates if they desire to buy. He will retain the controlling interest and will be the president of the company.

This concern will feed its own live stock. It owns 14,000 acres on which the cattle, sheep and hogs will be kept.

Houston, Texas, July 6.—Mrs. Frank Firth who was accidentally shot by her son Sunday evening died this afternoon. According to the story of both mother and son, the boy picked up a revolver from beneath the pillow, his mother playfully tried to take it away from him and in the scuffle the gun was discharged and the bullet entered the woman's side, piercing the left lung. The boy was exonerated by District Attorney Kendall.

Some one said to a little girl, "If you don't stop sucking your thumb, you'll swell up and burst." The next day a famous man of more than ample proportions dined at her home. When he came into the sitting room she sidled up to him and said in a reproachful voice, "You suck your thumb, don't you."

THE SECRET OF SUCCESS

Genuine Merit Required to win the People's Confidence

Have you ever stopped to reason why it is that so many products that are extensively advertised, all at once drop out of sight and are soon forgotten? The reason is plain—the article did not fulfill the promise of the manufacturer. This applies more particularly to a medicine. A medicinal preparation that has real curative value almost sells itself, as like an endless chain system the remedy is recommended by those who have been benefited, to those who are in need of it. A prominent druggist says "Take for example Dr. Kilmer's Swamp-Root, a preparation I have sold for many years and never hesitated to recommend, for in almost every case it shows excellent results, as many of my customers testify. No other kidney remedy that I know of has so large a sale. According to sworn statements and verified testimony of thousands who have used the preparation, the success of Dr. Kilmer's Swamp-Root is due to the fact that it fulfills almost every wish in overcoming kidney, liver and bladder diseases, corrects urinary troubles and neutralizes the uric acid which causes rheumatism. You may receive a sample bottle of Swamp-Root by Parcels Post. Address Dr. Kilmer & Co., Binghamton, N. Y., and enclose ten cents; also mention the Nacogdoches Weekly Sentinel.

80,000 May Strike on Railroads

Chicago, Ill., July 7.—Eighty thousand railway employes, through their representatives, went on record today as determined to strike if they do not get the railroads to change the working day from ten to eight hours, without reduction of pay.

The sentiment for a strike was reported to be overwhelming throughout the entire West.

The roads involved are sixty-seven trunk lines and subsidiaries west of Chicago.

Regarding Free Delivery

Several people have asked me recently what was necessary to obtain free mail delivery for the city of Nacogdoches. My understanding is that any city whose post-office receipts amounts to \$10,000 annually, and whose sidewalks and street crossings are acceptable to the Post-office Department, is entitled to free delivery. The Post-office receipts at the Post-office in Nacogdoches are sufficient, and I think the only thing in the way of free delivery is the betterment of our sidewalks and street crossings.

Respectfully,

A. Y. Donegan, Postmaster

NOTE—Regarding the above communication it will be seen that Nacogdoches is entitled to free mail delivery and with a little effort on the part of some of the citizens we can have free mail delivery in a short while.

Progress of the United States

In the basic elements of economic progress the United States ranks high among the nations of the world, being one of the five countries only which have an area in excess of 3 million square miles, and the only nation of the western world (except Russia) having a population of over 100 million. In the interchange of products among its own people it leads the world, its home trade at the present time being estimated at nearly 40 billion dollars, or equal to the international exchanges of the world and approximately 10 times the value of our own foreign trade now valued at 4 billion dollars.

Other comparative tables in the "Statistical Abstract" further emphasize the commercial power of the United States and its strong international position. In railway mileage, for example, we possess one-third of the world's total, our 258,000 miles being ten times as much as the mileage of the United Kingdom and six times that of Germany. One company alone has 238,000 miles of telegraph lines, or double the total in Russia, next in order. More than one-third of the world's mail service is performed upon routes located in the United States, while our public debt of one billion dollars is smaller than that of Italy, Austria-Aungary, Spain, Germany, Australia, Japan, British India, or Great Britain, and is less than one-sixth that of France, and one-fourth that of Russia.

The foundations of this growth are laid deep in the soil and natural resources of our county and in character of our people. Thus the American Union, from 13 states having 325 thousand square miles and 1 million people, has expanded to 48 states and the territories of Alaska, Porto Rico, and Hawaii, with an area of 2,233 million square miles and 100 million people. In the period since 1870 the value of our farm products has risen from 2 billion to about 10 billion dollars a year; the output of coal from less than 30 to nearly 500 million long tons; copper from 12 1/2 thousand to over one-half million tons; pig iron from 2 to 31 million tons; petroleum from 221 million to 9 1/4 billion gallons; and manufactures from 4 billion to over 20 billion dollars.

There will be a picnic at Fairview Wednesday July 15th. Every body come and bring a big basket. All candidates especially invited.

New Orleans' Rats Figured At 400,000.

New Orleans, July 6.—The bubonic plague situation in New Orleans today was practically unchanged. No new cases had developed and Dr. Rupert Blue, surgeon general of the federal health service who took full charge today of the eradication work declared there was no cause for alarm.

"There is no human plague epidemic in New Orleans," said Dr. Blue, "and we must seek to remove the only means to such an epidemic—the bubonic plague among rats."

The surgeon general estimated the rat population of New Orleans at 400,000. To exterminate these, a minimum of six months will be required. A wholesale trapping campaign will be instituted when twelve rat catchers arrive from San Francisco within the next few days. These will be assisted by a hundred or more men furnished by the city.

It was announced that the new company headed by Edward Dickerson as president, will assume full management and will begin the work of extending the road from Wichita to Kansas City.

A Message of Hope.

The only cure for cancer is to remove every vestige of the disease.

The only sure way to do this is by a surgical operation.

If taken at the beginning, the majority of cases of cancer are curable.

All cases will end in death if let alone.

Records of our best hospitals prove that the chances of cure are very high with early operation, and that these chances decrease with every day of delay.

Early diagnosis is therefore all-important—American Society for the Control of Cancer.

The patient was the farmer's son, who was lying on the bed in much pain. The young medico threw out his chest and said: "This should cause you no alarm. It is nothing but a crustified exegesis antispasmodically emanating from the physical refrigerator, producing a prolific source of irritability in the pericranial epidermis."

The farmer looked at him and replied: "Just what I said; but his mother thought it was the stomach ache."—The Continent.

Of course, the Colonel was speaking paregorically when he referred to "government by convulsion."—Dallas Journal.

IT HAPPENED IN NACOGDOCHES

And is Happening to People Every Week

The case told below is not an uncommon thing. The same occurs frequently and will continue to happen as long as folks have kidneys and overtax the kidneys.

B. L. Hetlin, farmer, Nacogdoches, Texas, says: "I was a constant sufferer from kidney trouble for over six years. I tried many remedies and doctored but to no avail. If I attempted to stoop or lift, it seemed as if my back would break. The kidney secretions were at times highly colored, and painful in passage and caused me much distress. I got Doan's Kidney Pills at Mast Bros. & Smith's Drug Store, (now Swift Bros. & Smith's Drug Store) and after taking half a box, I felt like a different man. I am now able to stoop or lift without any trouble."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

She looked at him doubtfully after the proposal. "The man I marry," said she, "must be both brave and brainy."

"Well," he declared, "I think I can lay claim to being both."

"I admit you are brave," she responded, "for you saved my life when our boat upset; but that wasn't brainy, was it?"

"It certainly was," retorted "I upset the boat on purpose."

Germans Are in Flight From City of Mexico.

Vera Cruz, July 2.—Sharing the apprehension felt by most of the foreigners in Mexico City, several Germans arrived at Vera Cruz today from the capital. They said the German minister, Admiral Paul von Heintze, on Tuesday advised his countrymen to purchase foodstuffs sufficient to last at least eight days and to store them in a concentration house far from the center of the city.

In the same house, there are a number of Japanese whose government has provided them with rifles and machine guns and in case of necessity they will join the Germans in defense.

Anticipating an early disturbance of the peace in the capital, five American nuns, who have been attached to the school of the Sacred Heart as instructors, also arrived here today.

Hair Made Beautiful

Beautiful hair, thick, fluffy, lustrous and absolutely free from dandruff is not so much a gift of nature as a matter of care and proper nourishment. Hair is like a plant—it will not grow healthy and beautiful unless it has attention and proper nutriment.

Parisian Sage, daintily perfumed and easily applied, tones up and invigorates the roots of the hair, and furnishes the necessary nourishment to not only save and beautify the hair, but also stimulate it to grow long, heavy, soft, fluffy and radiant with life.

When used frequently and rubbed into the scalp, it will simply work wonders. Just one application stops itching head, removes dandruff and cleanses the hair of all dust and excessive oil.

Since Parisian Sage, which can be obtained from Strippling, Haselwood & Co., or any drug store, never disappoints, it is no longer necessary for any woman to be humiliated because of thin, streaky, faded, lifeless or unattractive hair.

50 Men Were Near to Death

Baltimore, Md., July 2.—Fifty men employed in constructing a tunnel narrowly escaped being drowned here early today when the cofferdam at the mouth of the tunnel gave way under the pressure of high water. Million Dollars at Stake in Suit for 5,000,000 Acres

El Paso, Tex., June 30.—A suit aggregating \$1,000,000 in which the Guaranty Trust & Safe Deposit Company of Philadelphia, Pa., is plaintiff and the American Land & Cattle Company is defendant, was filed today in the Thirty-fourth District court. The purpose of the suit is to foreclose a deed of trust lien on the Pecos River Ranch in Tom Green county, tracts of land in Cameron and Hidalgo counties, and Padre Island, in Corpus Christi Bay, aggregating upwards of 5,000,000 acres in extent all in Texas.

Don't Stop Cultivating The Corn and Cotton

In the county correspondent of the press of the State the statement is becoming frequent that "the farmers are almost ready to lay by their corn and cotton." Texas has had an unusually wet spring, which very probably indicates a dry summer, and it is a well known fact that plants do not root so deeply in the wet springs. Therefore, if there has ever been a time when the crops should receive frequent shallow cultivation up to the time of making the ear or the opening of the boll that time is now. Maintaining the soil much by cultivation will keep all the moisture in the ground, moisture that will be greatly needed if there should be a drought. Two or three late plowings of corn have been known to make a difference of from five to twenty per cent in the yields, and this difference expressed in dollars and cents will mean a good deal. Later on Farmers should not be too ready to "lay by" since keeping at it will make the crops more profitable.

Arm Pulled From Sockets

Burlington, Iowa, July 2.—Clifford Johnson, aged 25 years, was killed in an automobile accident today while riding with two girl companions, both of whom, it is said were asleep. As the car passed over a bridge, Johnson stood up and raised his arm in the air. It caught in the bridge girders whisking him from the car. When his absence was discovered a few minutes later the car was run back and Johnson was found dead, his arm pulled from the socket and he had bled to death.

\$1,000,000.000 Taxed at New York.

New York, July 1.—Estimates made today based upon total amount of income assessments paid into the office of Charles W. Anderson, internal tax collector, indicate that in this one district, which includes the Wall street financial houses, 15,000 persons have a total income exceeding \$1,000,000.000.

The section of the city in which all this money was received is about two miles square. Adjoining the district, which, it is said, the income tax figures will show to be the richest in the United States, lies the most populous filled by 600,000 persons, few of whom pay an income tax.

The final rush yesterday to pay the income tax before the 5 per cent penalty is added, resulted in the biggest day's receipts at the office of Collector Anderson since the internal revenue department was established. The amount was estimated at \$5,000,000, Between \$3,500,000 and \$4,000,000, was taken in Monday and nearly \$1,000,000 had come in earlier.

This makes about \$10,000,000 and it is estimated that in the final cleanup the receipts will reach at least \$15,000,000.

Conditions of Cotton Crop.

New Orleans, La., July 3, 1914.

During the early part of the week, temperatures in the Eastern belt continued to rule considerably above normal. Private reports, however, failed to record any damage to the crop from the high temperatures prevailing during the month of June, on the contrary, fair growth was reported, and the fields were said to be absolutely clean and well cultivated. Serious damage from high temperatures in June, is unusual, as the crop is generally not fruiting to any extent in that month. The Government condition figure of 79.6 against 74.8 last month, and 81.8 last year and a ten year average of 80.7 proved to be several points better than expected and induced general selling.

Charles B. White Out Of Comptroller Race.

Austin, Tex., June 30.—Charles B. White today announced his withdrawal as a candidate for comptroller. In his statement he explains that his friends have been unable to bring about the withdrawal of J. L. Franklin, that with two prohibition candidates it is inevitable that an anti-prohibitionist shall be elected and therefore he withdraws for the good of the cause to spend his time hereafter "trying to increase the majority of Thomas H. Ball for governor" after which he will return to the farm.

Naval Anti Liqueur Order Now in Force

Washington, July 1.—Secretary Daniels' issued orders banishing intoxicants from the navy went into effect today. It not only abolishes the traditional "wine mess" of the officers, but bars all alcoholic liquors from every ship and shore station of the navy.

Beginning today, any officer found in possession of alcoholic liquor on board ship or any naval station will be guilty of misconduct. Commanding officers will be held directly responsible for the enforcement of the "dry edict."

From Jim Shipp

To the Voters of Nacogdoches County:

I take this method of addressing you with an open letter in the interest of my candidacy for Sheriff of your county.

While I have been making a pretty close canvass of the county, I find that it will be impossible for me to see every voter between now and the primary, and to those I will say that I have made an effort to see you, and hope that you will not charge the failure up to my candidacy, or think that I did not value your support.

For the benefit of those whom I have not been able to discuss the matter personally, and as a reminder to all, I will state that I was born and reared in this county, and my life has been an open book, to which I invite investigation. I have heretofore made my living by the sweat of my face, and have tried to live that I could always meet my obligations, individually and collectively with my neighbors in matters of community interest, and while I would not boast, I feel that if any care to make an investigation they will find no cause for complaint in my citizenship of the community in which I have spent my life.

I will appreciate all support given to my candidacy, and in return if I am elected I pledge myself to a faithful discharge of every duty incumbent upon the position. I am in the prime of manhood, physically able to stand any hardships that may accrue with the service, and as your sheriff I will lead in the work giving every item of business my individual attention, and being personally responsible for every transaction.

I want the office because I feel that it affords an opportunity for me to render a service to my county, and in return make a livelihood for myself and family, and if you honor me with it the ambition of my life will be to render service that will be acceptable.

Thanking one and all for all favors shown me in this campaign, and earnestly soliciting a continuance of your good favor, I am,
Yours obediently,
J. C. Shipp.

Base Ball Game At Beaumont.

The local Elks journeyed to Beaumont Saturday morning to play a game of ball with the Elks of Beaumont, and were defeated by a score of 9 to 8 by the Beaumont team. Drewry and Rults were the batteries for the Nacogdoches Elks, and Elstner, Ellis and Ward were the batteries for the Beaumont Elks. Montzingo for the locals started the fire works in the 8th with a home run, and it was an even match until the 10th inning, when Beaumont scored the winning run.

The same two teams played a game last year and the score was the same, a so the same number of innings were played. The box score was handed in to the Sentinel for publication but was crowded out today. The local Elks were royally entertained after the game by the Beaumont Elks.

The Nacogdoches Elks will leave Saturday night to play a game with the Shreveport Elks on Sunday. It is hoped that a large number of our citizens will accompany them to see the game, as it will be one of the fastest games to be played this year. All members of the locals are requested to practice every evening this week.

All ex-confederates who expect to attend the reunion at Greenville, Hunt county, Texas, July 30-31, will please let me know by postal or otherwise by July 25.

J. C. Fall, Commander.

Sid Burns and Miss Lillian Beasley from Conister Front near Douglass were united in matrimony at the court house this morning at 8 o'clock by Judge J. F. Perritte.

Notice to Road Overseers in Precinct No. 1.

It is to hot and dry now to undertake to work in general way. Just a waste of time and money. I will keep the graders running where I can. If you have any sand clay roads that need patching up now is the time to do it. I will help you every way I can.

A card from H. T. Mast and Merton Blackburn reports a most successful trip. They spent two days at Clear Lake and enjoyed plenty of fish with 100 other guests. They have only suffered one or two punctures in the way of auto misfortunes and none otherwise. In comparing the time made for distance covered they say the roads in Louisiana are better than in Texas and on their return they will be ready to take up the "Better Roads" question in the "Auto Association" which is better than "book learning"—"Experience."

N. G. Hargis of Attoyac was in the city Monday on business.

Little Folks Give \$6 to Library.

On last Thursday afternoon representatives of the boys' and girls' clubs of Mrs. Eastman's room met at the library for the purpose of presenting to the executive committee a sum of money which these little folks had earned to "help the library." Little Miss Avelyn Davis made the formal presentation, after which Mrs. Eastman explained how the little workers had spent the "nickels" taken in as club dues for ice cream, which— together with the cake donated by their kind mothers—they had sold for the benefit of the library, netting the creditable sum of \$6.00. In a speech of acceptance on behalf of the committee, Mr. E. H. Blount tendered the thanks of the library association to Mrs. Eastman and her wide-awake little pupils for their contribution and for their spirit of active co-operation in the work of the library.

This welcome donation will be used for the purchase of childrens' books.

Mrs. T. E. Baker,
For the committee.

FRECKLE-FACE

Sun and Wind Bring Out Ugly Spots
How to Remove Easily

Here's a chance Miss Freckle-face, to try a remedy for freckles with the guarantee of a reliable dealer that it will not cost you a penny unless it removes the freckles; while if it does give you a clear complexion the expense is trifling.

Simply get an ounce of othine—double strength from any druggist and a few applications should show you how easy it is to rid yourself of the homely freckles and get a beautiful complexion. Rarely is more than one ounce needed for the worst case.

Be sure to ask the druggist for the double strength othine as this is the prescription sold under guarantee of money back if it fails to remove freckles.

Danger in Firearms.

A practice being indulged in by some small boys discharging firearms within the city limits should be stopped, and stopped at once. It is dangerous for citizens to walk on some of the streets near the Banita creek as there is an occasional shot fired that may do some damage accidentally.

The officers should see to this at once before some one gets hurt. This is also true in the woodland along Mound street.

Warner Linthicum, a prosperous and progressive farmer of the Martinsville community, was in the city Wednesday. He reports that his section is needing rain and that Ferguson will carry that country by a good majority.
