What About That Clock?

Cold weather is here and no doubt your clock has already shown signs of being a little cranky. Everybody knows that cold weather causes the old oil in clocks to gum and get sticky, many times stopping them.

Now is the time to have that faithful old clock cleaned and oiled. Phone us and we will call and get it, put it in first class shape and return to you in a very few days, guaranteed for one year.

Mr. Schmidt Begins his Lectures.

Jno. Schmidt began a series of lectures Tuesday morning to be delivered to the school children at the High School Auditorium.

There will be five of these, the subject matter being "Eugenics" for the future generations.

They are lectures by Dr. Culp, a man of national reputation.

The first of these was "Civics and Health", "School of Eugenics."

These addresses from Mr. Schmidt will be a personal inspiration to our boys and girls, besides the value the lectures will hold for them.

The first of this series and the foundation of the others to follow, was delivered Tuesday morning. The importance of healthy bodies to insure strong morals and minds was insisted upon.

Statistics from other schools were given and the results to prove the absolute necessity.

Several of the business men, and several ladies were present all enjoyed the words from this citizen who is interested in helping make a nation that can build up rather than tear down.

An invitation is extended every one to attend.

I have received another car of genuine red rust proof seed oats and I have seed rye in stock and am looking every day for barley and wheat. Come, write or phone your orders. G. H. King. 1tw

McLemore Wins.

Upon receipt of advices from Galveston that the first court of civil appeals has dismissed the Lane-McLemore contest for want of jurisdiction Colonel Wolters of the firm of Lane, Wolters and Story representing Mr. McLemore, wired to Judge W. F. Ramsey at Austin, advising him that, in accordance with the agreement entered into between them he was prepared to mail out notice to the county clerks of the various counties of the state advising them to put Mr. McLemore's name on the ticket.

Judge Ramsey gracefully acknowledged defeat in the following words:

"Austin, Texas, Oct. 12.—Regret decision is not on the merits of the case. At the same time, I recognize your right to mail out notices in accordance with our agreement which, in perfect good faith, I am bound to respect."

A. B. Martindale's Idea.
Cushing, Texas, Oct. 8th 1914.
To The Sentinel:

As all the financial Doctors have made a diagnosis of our financial troubles, and as no two of them agree as to either causes or remedies, I wish to make a few suggestions along these lines.

When Texas and some other states a few years ago, passed laws insuring bank deposits, they created conditions making idle money in banks worth more than in circulation. They made it worth one hundred cents on the dollar, and absolutely safe, every other character of enterprise being attended with more or less risk, the consequences has been, that while every character of industry languishes, there has been a steady flow of money into the banks, where it is so secure that but little collateral that can be offered can bring it into circulation, nor are the banks wholly responsible for these conditions, they are only protecting the interests of their depositors under the law, as they ought to do.

Then where is the remedy? Let the Legislature repeal the law insuring bank deposits, this making money in bank no safer than in business. Then the millions of idle dollars now in bank vaults, will largely be withdrawn and be put into various business enterprises, and in this way get into circulation. But some will say that the repeal of insurance of bank deposits will bust some of the banks. All right, let some of them bust, then all the surplus millions now hoarded in them be withdrawn, and be invested in other channels of business, to the welfare of all concerned.

By the reports of the banks themselves, there is nearly one million idle money in the banks of Nacogdoches county. This means money enough to pay for twenty thousand bales of cotton at ten cents a pound. Why not repeal a law that permits such conditions?

Yours truly,
A. B. Martindale.

Women of Tyler have issued a decree—and in this day have the backing of the school board—to the effect that no fancy dresses, silk hose, high-heeled shoes, and red face paint shall be worn by the girls of the high school in the future. The idea is to prevent the poor girl from embarrassment because she can not dress as well as those more fortunately situated. The idea is a sane one. Would that more women and school boards would get together along similar lines.—Waco News.

Up at Denison they are pushing a buy a bat movement. Some ten pounds of cotton are put up for quilting and other household uses and offered to people who cannot buy a bale. Any old way to have the cotton taken off the market.

BIG MEETING HELD FRIDAY.

One of the Largest Gatherings in History of County Held at Courthouse.

One of the largest meetings ever held in Nacogdoches county in the interest of the business men and farmers was held Friday afternoon in the county court room to hear the addresses of Senator Hebron of Mississippi and Hon. E. B. Alford of Henderson. Mr. Alford made a short address on the conditions existing in Texas and urged his hearers on the necessity of curtailing the acreage in Texas for the 1915 crop. Mr. Alford was followed by Senator Hebron, who is speaking under the auspices of the Southern Cotton Association, who made one of the best addresses ever heard here on the cotton situation. His subject was "A Total Elimination of the Cotton Crop for 1915."

Senator Hebron talk was well received by his hearers and at the conclusion of his address the meeting as a whole voted to endorse in every way possible the cutting down of the acreage of cotton for the season of 1915.

Jno. N. Gilbert was temporary secretary of the meeting and was instructed by the meeting to write to Governor Colquitt to submit some plan or law to the legislature looking to the curtailment of the cotton crop next year.

It was regretted that word could not have been gotten to more farmers throughout the county than there was, but the speaking was only advertised for one day and the committee was well satisfied with crowd of representative farmers and business men present.

The lumber for the construction of the big warehouse for the Nacogdoches Grocery company has been placed on the grounds, and no doubt work will be commenced on its erection at once. This is the warehouse for cotton, mention of which was made a few issues back, and will accommodate about three thousand bales. It is being, or will be, built on the E. & W. grounds, close to the turn table, and west of the Lutkin Bottling Works, and will occupy almost all of that plot of ground. With this warehouse on one side of the road, two big oil concerns and the inflammable stock carried by each on the other, and the opera house and Barth hotel, both big frame buildings, just a few feet further on, the insurance companies carrying these policies aren't a bit choice about the risks they assume. This is evidently no great fire risk attached to the location of the warehouse at this point, or it would not be built, and we trust our farmers will see fit to separate Mr. Schmidt from a portion of that \$3,000,000.00, and see that his warehouse is filled as quickly as possible with the fleecy staple, even if they have to take considerably less than 10 cents per pound they have been anticipating.—Lutkin News.

For our part, we don't understand how any man can relish sardines and then claim that tobacco makes him sick.

Punctuality.

The punctual man is a bird; he always is true to his word; he knows that the skate who is ten minutes late is trifling and van and absurd. He says, "I'll be with you at four;" though torrents may ruthlessly pour, you know when the clock strikes the hour he will knock with his punctual fist at your door. And you say, "He is surely a trump! I haven't much use for the chump who is ever more late, making other men wait—the place for that gent is the dump." The punctual man is a peach; he sticks to his dates like a leech; it's a pity, alas, that he hasn't a class of boneheaded sluggards to teach. He's welcome wherever he wends; the country is full of his friends; he goes by the watch and he ne'er makes a botch of his time, so he never offends. If he says he'll get married at nine, you can bet he'll be standing in line with his beautiful bride, and the knot will be tied ere the clock is done making the sign. If he says he'll have cashed in at five, at that hour he will not be alive; you can order his shroud and assemble a crowd, clear out to the boneyard to drive. The punctual man is a joy! He is grand and sublime, he is always on time, not late by ten minutes or so.

Walt Mason.

S. J. Blount, of Anderson county, known throughout Texas as the "alarm clock statesman," died last week at his home near Palestine. Blount, while a member of the legislature, grew tired of the long winded speeches which were being made. There was a rule limiting speeches to five minutes, but the rule was constantly ignored. Blount secured a cheap alarm clock, and when one of the members started speaking, wound up the clock and set it to go off in five minutes. When the bells began to jingle, Blount sprang to his feet and held the clock aloft in his hand, crying at the same time: "His time is up, Mr. Speaker." The affair created much merriment and gave the Anderson county man considerable notoriety. He was afterwards induced to announce that he would run for United States Senator, and later for Governor, but the people laughed him out of it.—Cherokee County Banner.

Apples To Waco

Rising Star, Tex., Oct. 8.—A carload of apples has been shipped to Waco by the apple growers of Rising Star. Most of the crop, which is the largest in the history of the industry here, is being shipped west. Though the cotton crop is short this year, the large peanut, apple and sweet potato crops will keep the farmers busy for some time.

How To Give Quinine To Children.

FERRILINE is the trade-mark name given to an improved Quinine. It is a Tasteless Syrup, pleasant to take and does not disturb the stomach. Children take it and never know it is Quinine. Also especially adapted to adults who cannot take ordinary Quinine. Does not cause nausea or cause nervousness nor ringing in the head. Try it the next time you need Quinine for any purpose. Ask for Ferriline original package. The name FERRILINE is blown in bottle. 25 cents.

Wilson Endorsed And Roosevelt Smashed Spelled By The Maine Returns

The significance of the Maine election is not that the Democrats have apparently elected their governor, captured the Legislature and re-elected their one Congressman. The important thing is that nearly two-thirds of the Bull Moose vote has evaporated, and that the Wilson administration receives unexpectedly strong endorsement. The simple fact is that a State only a few years ago Republican by some 40,006 is now more strongly Democratic than it was in the Presidential election, two years ago. Then the combined Tatt and Roosevelt vote was 75,088. This year it is apparently somewhat less than that, while the Democratic vote shows a gain of 18 per cent.

In the 18 per cent Democratic increase there must have been a considerable accession from real Progressives. Maine, it is also to be remembered, is a state where attack was particularly strong on the Democratic tariff policy for free food-stuffs and where large shipbuildings interest for the coastwise trade were ugly, on account of the Panama tolls question. Republican campaigning made the utmost of these factors, and of course, of the business dullness. But they found that the voters were not to be fooled.—The Worcester (Mass.) Post.

Held For Grand Jury.

Luis Antonio Hernandez, captor of United States Consul John R. Silliman, when he was a prisoner in Saltillo several months ago, was arrested Saturday by Deputy United States Marshal Dibrell on a charge of smuggling a diamond into this country from Mexico. The arrest was made by Deputy Dibrell on Main plaza, a description of the man having been furnished by Mr. Silliman. At a hearing before Commissioner Edwards, Hernandez waived preliminary examination and was held to await the action of the grand jury at the December term of court. His bail was fixed at \$1000.

Wilson Looks Forward to Visit of Ferguson.

Washington, Oct. 6.—President Wilson is expecting a visit with James E. Ferguson, Democratic nominee for Governor of Texas, who is soon to be in Washington, and to whom the President wrote a short time ago and expressed a desire to see him should he visit Washington. The President and other Administration leaders think well of Mr. Ferguson as a nominee for a high State office, and the Executive is familiar with the cordial expressions given by the candidate concerning the Administration shortly after his nomination in the Texas primary election.

Sick Women Attention

Is it possible there is a woman in this country who continues to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial after all the evidence that is continually being published, which proves beyond contradiction that this grand old medicine has relieved more suffering among women than any other one medicine in the world? We have published in the newspapers of the United States more genuine testimonial letters than have ever been published in the interest of any other medicine for women—and every year we publish many new testimonials, all genuine and true. Here are three never before published:

From Mrs. S. T. Richmond, Providence, R. I.

PROVIDENCE, R. I.—"For the benefit of women who suffer as I have done I wish to state what Lydia E. Pinkham's Vegetable Compound has done for me. I did some heavy lifting and the doctor said it caused a displacement. I have always been weak and I overworked after my baby was born and inflammation set in, then nervous prostration, from which I did not recover until I had taken Lydia E. Pinkham's Vegetable Compound. The Compound is my best friend and when I hear of a woman with troubles like mine I try to induce her to take your medicine."—Mrs. S. T. RICHMOND, 199 Waldo Street, Providence, R. I.

A Minister's Wife Writes:

CLOQUET, MINN.—"I have suffered very much with irregularities, pain and inflammation, but your wonderful medicine, Lydia E. Pinkham's Vegetable Compound, has made me well and I can recommend the same to all that are troubled with these complaints."—Mrs. ANNE AKERMAN, c/o Rev. K. AKERMAN, Cloquet, Minnesota.

From Mrs. J. D. Murdoch, Quincy, Mass.

SOUTH QUINCY, MASS.—"The doctor said that I had organic trouble and he doctored me for a long time and I did not get any relief. I saw Lydia E. Pinkham's Vegetable Compound advertised and I tried it and found relief before I had finished the first bottle. I continued taking it all through middle life and am now a strong, healthy woman and earn my own living."—Mrs. JANE D. MURDOCH, 25 Gordon St., South Quincy, Mass.

Write to LYDIA E. PINKHAM MEDICINE CO. (CONFIDENTIAL) LYNN, MASS., for advice. Your letter will be opened, read and answered by a woman and held in strict confidence.

Painted Faces.

Kind Nature gave my Cousin Mary a face that's a delight, with lips as red as any cherry, and brow of snowy white. Her cheeks resemble cream and roses—or so one poet wrote, when Mary's face and queenly poses had robbed him of his goat. She should be proud of her complexion, so radiant and rich, and yet she keeps a big collection of powders, paints and such. And when she's fixed up for a killing, some Lochinvar to chase, blind men might see that she's been spilling such stuff upon her face. "Ah, Cousin Mary, you are silly," quite frequently I scold; "why should you try to paint the lilly, or gild the perfect gold? Just leave your face as nature made it, and you'll be slick as cream, but all this dope you use will fade it, and make you look a scream. When you have reached the age of thirty, or maybe, thirty-three, your face will wrinkled be and dirty, a frightful thing to see."

But what's the use? Ten million maidens are painting every day; they laugh to scorn our mild unbraiding and go their foolish way.

Funeral of L. S. Ross

Waco, Texas, Oct. 8.—The funeral of L. S. Ross, son of the late Gov. L. S. Ross, who died in Houston early today as a result of paralysis, with which he was stricken while on a train from Mineral Wells to Houston yesterday, will take place here tomorrow afternoon.

Mr. Ross, who lived at Harlingen, was about forty years old. He is survived by his widow, three brothers and two sisters.

Belton Harris Given The Death Penalty

Athens, Texas, October 8.—Belton Harris was convicted of murder and given the death penalty here today. Harris was convicted of killing his wife early this spring in the north end of the county.

He and his wife had been separated for some time, and he had been out of the county several week prior to the killing. On his return he is said to have gone to the field where she and her children were at work and endeavored to get her to come back to him. On her refusal he grabbed one of the children and started for his horse. The woman followed him, begging him to go away and leave them alone. When he reached his horse he got his shotgun and fired a load of slugs into her body at close range.

Tokio, Oct. 7.—The blief was expressed at the war office today that the German cruiser Cormoran and two other German gunboats had been sunk in Kiao Chow bay.

Important to all women

Readers of this Paper. Thousands upon thousands of women have kidney or bladder trouble and never suspect it. Women's complaints often prove to be nothing else but kidney trouble, or the results of kidney or bladder disease. If the kidneys are not in a healthy condition, they may cause the other organs to become diseased. You may suffer a great deal with pain in the back, bearing-down feelings, headache and loss of ambition. Poor health makes you nervous, irritable and may be dependent; it makes any one so. But hundreds of women claim that Dr. Kimer's Swamp-Root, by restoring health to the kidneys, proved to be just the remedy needed to overcome such conditions. A good kidney medicine, possessing real healing and curative value, should be a blessing to thousands of nervous, over-worked women. Many send for a sample bottle to see what Swamp-Root, the great Kidney, Liver and Bladder Remedy will do for them. Every reader of this paper, who has not already tried it, by enclosing ten cents to Dr. Kimer & Co., Binghamton, N. Y., may receive sample size bottle by Parcel Post. You can purchase the regular fifty-cent and one-dollar size bottles at all drug stores.

CONSUMPTION TAKES 350 PEOPLE DAILY

Over 350 people succumb to consumption every day in the United States. Science proves that the germs only thrive when the system is weakened from colds or sickness, overwork, confining duties or when general weakness exists. The best physicians point out that during changing seasons the blood should be made rich and pure and active by taking Scott's Emulsion after meals. The cod liver oil in Scott's Emulsion warms the body by enriching the blood; it peculiarly strengthens the lungs and throat, while it upholds the resistive forces of the body to avoid colds and prevent consumption. If you work indoors, tire easily, feel languid or nervous, Scott's Emulsion is the most strengthening food-medicine known. It is totally free from alcohol or any stupefying drug. Avoid substitutes. 14-42 Scott & Bowne, Bloomfield, N. J.

Mrs. Pennybacker Says Pray And Buy Cotton

New York, Oct. 2.—An appeal to the one and a half million members of the General Federation of Women's Clubs to buy, Oct. 5 to 8, cotton material made in the United States was issued today by Mrs. Percy V. Pennybacker, president of the federation. She also urges members to observe "Prayer Sunday."

"Our duty does not end with prayer, however," she declared. "Want and suffering threaten our land from the two million workers thrown out of employment. We women can help the situation. We must have cotton goods sooner or later in the home."

"After a Sabbath of prayer let us everyone go forth on Monday, Tuesday, Wednesday or Thursday, Oct. 5 to 8, and buy as generously as we can afford of cotton material made in the United States."

"We should go a step farther. During our fall and winter shopping is it not our duty to ask always for goods made in America, insisting that the quality of these goods be the best, thus spurring our artists and workmen to their highest creative power and their best craftsmanship?"

What Would You Do.

There are many times when one man questions another's actions and motives. Men act differently under different circumstances. The question is, what would you do right now if you had a severe cold? Could you do better than to take Chamberlain's Cough Remedy? It is highly recommended by people who have used it for years and know its value. Mrs. O. E. Sargent, Peru, Ind., says, "Chamberlain's Cough Remedy is worth its weight in gold and I take pleasure in recommending it." For sale by all dealers. dw

Waiter—Are you the feller that ordered a soft boiled egg and a few kind words?

Guest—I am.

Waiter—Well, here's the egg, and the kindest words I can say to you is don't try to eat it.

Why Not Publish It.

When you want a fact to become generally known, the right way is to publish it. Mrs. Joseph Kallans, Peru, Ind. was troubled with belching, sour stomach and frequent headaches. She writes, "I feel it my duty to tell others what Chamberlain's Tablets have done for me. They have helped my digestion and regulated my bowels. Since using them I have been entirely well." A Correction

A Reply to Mr. Martindale's Letter.

We have read the letter of Mr. Martindale in Friday's Sentinel, and we are surprised that he would write such a letter and that you would print the same as his statements are so much at variance with the actual facts, that there is no excuse for their publication as facts.

Mr. Martindale could easily have had access to your newspaper wherein we have made sworn statements as to each and every item of our resources and liabilities, these statements being published therein at least four times each year, and had he not cared to refer to these papers for this information, any bank in this county would have been pleased to have furnished him a copy of their sworn statement of condition.

The facts with reference to his statement in his letter that there was now in the banks of this county more than one million dollars of idle money is as follows:

There is deposits in all in all banks in this county \$42,000.00 There is loaned out by the banks of this county \$782,000.00. The banks of the county have loaned in the county \$140,000.00 more than the people in the county have deposited therein. To enable these same banks to grant requests for loans, they have borrowed approximately \$100,000.00 from banks in the larger cities of this and other states. This certainly does not look as if there was a million in idle funds here. Take a total of the deposits, and of the capital stock, surplus and profits only make \$974,000.00, and we are still short of Mr. Martindale's million. He should know if he does not, that the laws both state and national require that 25 per cent of all deposits must be held in cash to meet the requirements of their depositors, and if he will take the trouble to look over their sworn statements he will find that the banks are complying with this law, and if he will go over these statements carefully he will soon learn that there is no idle money in this county at the present time, in other words Mr. Martindale's statement is in error just to the amount of one million dollars, some error we think.

As to his statement that the guaranty of deposits should be discontinued, we think this is so foolish that it needs no answer. The banks consider this the best law ever passed regarding the banking business, both for the banker and the depositor, but far more so for the depositor than the bank and notwithstanding Mr. Martindale's desire that this law be repealed, we have not the slightest idea that it will be done. The people know the security of it, and the banks believe in it, and are perfectly willing to pay what it costs to protect every dollar on deposit in the banks. No, Mr. Editor there is nothing in Mr. Martindale's letter,

except he seems to have a grudge against the banks.

Respectfully,

More Than Enough is Too Much.

To maintain health, a mature man or woman needs just enough food to repair the waste and supply energy and body heat. The habitual consumption of more food than is necessary for these purposes is the prime cause of stomach troubles, rheumatism and disorders of the kidneys. If troubled with indigestion, revise your diet, let reason and not appetite control and take a few doses of Chamberlain's Tablets and you will soon be all right again. For sale by all dealers. dw

Cotton Table

A most unique way of storing cotton has been thought out by some of the prominent women of the state. They are using it for a library table in their homes. Silliman Departs For Mexico

New Orleans, La., Oct. 10.—John R. Silliman, special representative of the United States state department, accompanied by Mrs. Silliman, sailed from here today for Havana.

He said he would sail from there immediately to the City of Mexico, where he expected to remain some time. Mr. Silliman while here maintained his reticence concerning Mexican affairs.—Ex.

Readers of the Sentinel may not know that John R. Silliman was formerly for many years a resident of Tyler, Texas. He was a student at Princeton under Woodrow Wilson, and has ever since been an admirer and enjoyed the full confidence of President Wilson. His wife is a daughter of the late E. C. Cotton and Cotton Seed Oil Now Being Shipped.

Compressed cotton is now beginning to move from Nacogdoches. Four or five hundred bales will be shipped today (Friday) and while the movement is not as brisk as it was last year at this time it is beginning to look brighter to the cotton buyers.

There is quite a large number of bales of cotton being shipped through Nacogdoches at the present time and from the railroad point of view business has begun to pick up.

A carload of cotton seed oil was also shipped today by the Nacogdoches Oil Mill. The oil mill is now running day and night and a large crew is working.

Cotton seed is now being shipped from nearby points to the oil mill here.

College Station, Texas.

October 10 1914.—Preparations for an instructive and representative exhibit at the Dallas Fair are being made by A. & M. College and the Texas Experiment Station. The exhibits of both the College and the Station will be such as to give a general idea of the other hand to convey actual information along the lines of agriculture and engineering to the fair visitors. Displays representing the work of students in all departments of the College and typical work of each of the sub-stations and also the main station will be included in these exhibits. Members of Boys and Girls corn clubs also will enter contests for the best canned fruits and vegetables. Prizes aggregating \$1,800.00 in value have been offered and members of these clubs are eagerly preparing to exhibit their products. This work is under the joint direction of the Agricultural and Mechanical College and the United States Department of Agriculture.

Funeral of E. A. Blount.

From Monday's Daily: The prominence of the late E. A. Blount was evidenced throughout the day yesterday when out of town friends arrived on every train and by scores of automobiles to attend the funeral. The funeral cortege was led by that magnificent body of Knight Templars who with the honorary pall bearers, J. W. Porcher, F. A. Burrows, Willie Sharp of San Augustine, Tom J. Curl of Chireno, Bob Jordan, Ben Tucker, and Frank Sharp of this city were honor escorts. The honorary pall bearers were former employees of Mr. Blount, except Mr. Sharp, who after several years secretaryship is still in that capacity.

The active pall bearers were T. J. Lloyd, Tom E. Baker, Jno. Schmidt, Beeman Strong, Luther Swift and Hal Tucker.

Before one of the largest circles of friends ever gathered in the city, Rev. Swann, the Episcopal minister began the service. Rev. G. L. Crockett of San Augustine, (honored life time friend and brother-in-masonry of the deceased) was acting Worshipful Master for Milam Lodge, which body conducted the Masonic funeral service. According to the burial rites of this revered body of sorrowing brothers, the mortal remains, of their late brother, E. A. Blount, was tenderly put to rest.

The numerous beautiful floral offerings were also another deep expression of the honored places, held by deceased and the deeply grieved family.

Canada Is Ready to Furnish Great Britain 500,000 Men.

New York, Oct. 7.—Canada will furnish 500,000 picked men to fight against Germany if the British government needs them, according to Colonel Sam Hughes, Canadian minister of militia, who sailed for England today on the steamer Cedric. Colonel Hughes follows in the wake of the Canadian contingent, which left for England two weeks ago. He said he expected to return to Canada in a few weeks.

Killed A Mexican.

The T. & N. O. local freight killed a Mexican at LaRue this morning. The train stopped at a section house beyond LaRue to put off something. While there the Mexican boarded the train. The train came on through LaRue without stopping and the Mexican jumped off the train and was killed thereby. An inquest was held by Justice of the Peace Taylor of Poynor.—Athens Review.

In Memoriam.

Contributed.

In joy and in sorrow, in sickness and in health, in life and in death, flowers have ever been the gentlest and purest symbol of affection. They spring up at our side when others have deserted us and watch over our graves when those who would cherish it are gone.

It was indeed fitting that a life so beautiful, so noble as Mr. Blount's should close with kindred sweetness about it, that flowers and music, earnest words and tears should consecrate his last hours amongst us.

And when yesterday myriads of flowers rested over the stilled heart of our beloved friend as he lay "in the majestic dignity of death," every leaf and every petal was gemmed with the tears wrung from the hearts of those who loved him living and mourned him dead.

In Mr. Blount was embodied a virility of character, a strength of will, a bigness of brain, which combined with an infinite tenderness and a far reaching human sympathy made him respected, revered and deeply loved. He was not only a devoted husband and loving father, he was also a loyal friend, an able man of affairs, a public spirited citizen, a man, "sans peur et sans reproche."

But, "kind hearts are more than coronets," and though his very name is a synonym for honor, integrity, ability, achievement in the last analysis, when we think of Mr. Blount, we will think of him as the gentle adviser, the courteous gentleman, the kind, loving, sympathetic friend.

Three Killed in Wreck

Mexico City, Oct. 8.—Three persons were killed and twenty injured in a rear-end collision on the Mexican railway near Apam, 60 miles east of here last night. A passenger train bound for Vera Cruz telescoped a troop train. Traffic was delayed for twelve hours.

Wear and Use More Cotton Goods.
Every woman who buys and uses cotton goods at this time is helping to revive American industries. She is helping the South to move its cotton crop; she is giving impetus to the mills and spinners. Cotton has a multitude of uses—it is the world's greatest staple. Today, because of the European war, it is lower in price than in many years. That means lower prices for manufactured cottons—better buying opportunities than in many a day. The stores are offering many attractive values in cotton goods as can be seen by the advertising.

Good Suggestions

Now is the time when every farmer in Nacogdoches county should be busy plowing under corn stalks and preparing his land for next years crop. It is also the best time for planting small grain, such as wheat, oats, barley, and rye. The changed conditions which we are now facing calls for a change in our methods of farming, and in order to make a success of small grain and storage farming the work must be begun in the fall of the year.

Deep plowing of the soil should be practiced at this time in order to store up the winter rains, and area to the soil which will cause the rapid decomposition of all vegetables matter and thereby increase the amount of humus in the soil which is necessary to maintain the amount of water in the soil for plant growth.

The matter of deep fall plowing is one of great importance for the above reasons and as the amount of water contained in the soil during the growth of the crop is the determining factor in the production or yield of the crop, greater care and attention should be given by our farmers to the question of fall plowing of their soil.

At the Experiment Station all of our soil is plowed in the fall and winter to a depth of ten inches and is afterwards harrowed, at this plowing all of the refuse of the previous crop is plowed under, nothing is ever taken off the land and burnt as is the practice with a lot of our farmers.

The effect of this system of farming was very marked during the dry weather of last June and July, when most of the corn on the farms had fired up on account of the lack of soil moisture the corn upon the station remained green and continued to grow, and on the particular piece of land I have in mind produced 35 bushels of corn to the acre, this yield of corn produced during a bad corn growing season was due to the deep plowing the previous fall which enabled the soil to store up the winter rains and made the plant food in the soil available to the crop.

Lane Gives Veterans Pension Instructions

Austin, Texas, Oct 12.—Comptroller Lane has prepared the following instructions to Confederate pensioners:

To the Confederate Pensioners of Texas:

Next Thursday, Oct. 15, is the time for you to make out your quarterly affidavits for your pension for the quarter ending November 30, 1914, and it you will follow the suggestions here-in made you will receive your warrants promptly at the end of the quarter.

1 Execute your affidavit promptly on the date mentioned above, or immediately thereafter, and mail same at once to George W. Kyser, commissioner of pensions.

2 See that your name and address are written plainly in the blank space provided therefor. This causes more errors on part of those issuing the warrants than any other one thing. Take particular care to see that the address is correct.

3. See that your affidavit is mailed as soon as it is executed. The following from a committee of the second called session of the 33rd legislature is self explanatory. "We also find that in many counties the county clerk or judges (or notaries public) before whom the affidavits are made hold them sometimes until they have quite a number before mailing them to the department. This causes a delay.

4. If, after sending in your affidavit, you move to another address, always leave your former postmaster so that he can forward your warrant to you as soon as it reaches his office.

If you will send your affidavit on time, you will receive your warrant as soon after the end of the quarter as the mails can get it to you. If you wait, you need not expect to get your warrants on time, as it will be from a few days to two week late. A delay on your part in sending in your affidavit will cause a corresponding delay in issuing and making out your warrant.

In nine cases out of ten, where there is a delay in mailing out pension warrants, the cause of the delay can be traced directly to the pensioner or the party taking the affidavit.

If you will always read the instructions printed on your affidavits and will follow these instructions, you will have no trouble in getting your warrants within a day or two after the end of the quarter.

A close observance of the suggestions herein contained will greatly aid the comptroller's department in getting warrants to you on time.

Yours truly,
W. P. Lane,
Comptroller.

The Fall Season Is Here

and is time of year to buy
Saddles, Harness, Collars and Bridles

We have been spending the dull summer months making the best and most complete line we have had in many seasons. Come and see them.

The prices are a little too low but we are bound to do business regardless of prices.
