The Legislature

The lawmakers of Texas, now in session in Austin, have before them for consideration, quite a number of prodigious problems.

One very important proposition is to consolidate the two big state schools, viz: the University and the A. & M. College. Big brains are on both sides. "When doctors disagree, who can decide." When educators differ, others are not adequate to the necessity. What is the necessity, one way or the other, joint or separate. It would seem to an ordinary mind that if two or more schools be state schools, they ought all to be governed by one board of directors. This has one serious objection, that is the number of shady jobs might be reduced. Some men would be left out.

Another problem before the legislature, a very important problem, is the division of the state of Texas. How to do this, it to be done, is not easy to say. The same interests are present in this matter, and far greater, are weighing in the balances, that is to say, more offices are to be created by division. Each new state

HOW MUCH DOES IT COST TO FARM?

It all depends. With "paid hired help" it costs much, but with fast working IMPROVED FARM TOOLS it is less. WHICH WAY IS YOUR WAY?

must have a new governor and a new family of pie eaters, all to be fed. It may be better for the people to do this than to feed but one greedy set. Three or four governors etc. may be better, but how can such things be.

Then again such problems as the Texas Co., and other mammoth financial trusts, so called, are to be handled. And these big interests are beyond the caliber of ordinary minds.

Like equal suffrage and many other similar problems they must be studied, debated and figured out. They cannot be turned off with a breath.

Villa Troops Captured

Brownsville, Tex., Feb. 8.—Three trainloads of Villaista troops, which were attempting to escape from Monterey to Saltillo, were captured Sunday south of Monterey by constitutionalists, according to a message received from Gen. Pablo Gonzales by his brother, Domingo Gonzales, of Matamoros, Mex.

The constitutionalists also claim to have captured at the steel mill, in the suburbs of Monterey, almost the entire complement of field artillery of the Villaistas. The constitutionalists claim to have Monterey completely surrounded.

Driven From Queretaro.

Vera Cruz, Feb. 9.—Advices from Mexico City state the Villista forces that have occupied Queretaro are in full retreat, owing to the advance of the constitutionalists from Mexico City. This gives the latter control of the republic north as far as Aguas Calientes and San Luis Potosi. Fighting still continues in the streets of Monterey and constitutionalists expect to complete the occupation of the city today.

New State Favored

Austin, Texas, Feb. 6.—By a vote of 4 to 2, the Senate committee on constitutional amendments today reported favorably the joint resolution by Senator Johnson, amending the constitution so as to create the state of Jefferson out of the Panhandle section of Texas. Senator Hall withdrew his resolution for the creation of three states, North Texas, South Texas and West Texas, explaining that he will offer it on the floor of the Senate as a substitute for the Johnson resolution.

Jim Fore was brought in last night by Constable Ben Grimes of Melrose. The Sentinel did not get correct details of the killing yesterday. The man killed was a white man named Ben Brown who was a tie maker and laborer, and whose father was buried here a few months ago by the Odd Fellows being brought from Houston where he died. Ben and his wife had a fifteen year old girl living with them, whom they had raised. Fore had conditionally procured license to marry her. Brown objected and as a result the two men went to John Fore's to arrive at an understanding. There the shooting occurred.

Would Divide Texas.

Austin, Feb. 4.—There seems to be an intense desire by several of the members of the upper branch of the legislature to carve Texas into several pieces and create new states. The resolution introduced a few days ago by Senator Johnson of Hall county to create the state of Jefferson out of the Panhandle portion of Texas created a flurry and gained some supporters; now comes Senator Hall who would divide the Lone Star state into three parts and do away with the state of Texas altogether. His plan is to create North Texas, with a capital at Palestine, South Texas, with the seat of government at Austin, and West Texas with a capital at Abilene in Taylor county. As to the state of Jefferson Senator Johnson has compiled figures showing the area of the proposed new state which discloses that the state of Jefferson would embrace 142,479 square miles, the remainder of Texas would contain 123,617 square miles. Under the Hall resolution the state of North Texas would embrace senatorial districts one to ten inclusive, 13, 14, 30 and 31; South Texas, 11, 12, 16 to 23 inclusive and 27, while West Texas would be composed of senatorial districts 25, 26, 28 and 29.

Texas And Woman's Suffrage.

Miss Helen Todd of California, now a guest of Texas, to advance the cause of woman's suffrage, gives us the interesting information that the campaign now in operation is of national significance. That is to say, the contest in Texas is a "test" of democratic attitude toward the general issue. And she tells us, unless the amendment to the constitution be submitted, the women voters in the suffrage States will vote against the democratic party next year.

Of course, we cannot believe that Miss Todd and her fellow suffragists of other States would attempt coercion, but that is the effect of her declaration, and it is in a spirit of kindness and hospitality that we inform her that such considerations are utterly out of place.

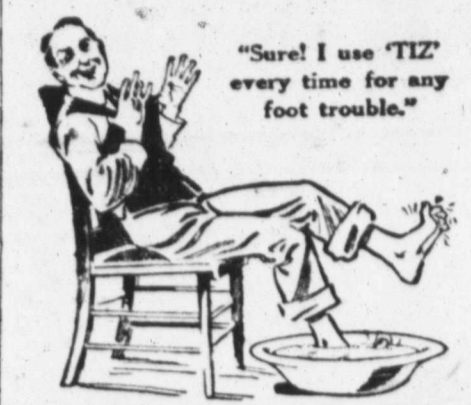

So far as Texas is concerned, men of common sense will consider the issue solely as it affects Texas. If the women voters of Illinois were to permit the verdict in this State to determine their party affiliations it would prove but one thing, viz., that the women of Illinois had been enfranchised before they were prepared for such responsibility. —Houston Post.

In his speech to the United States Chamber of Commerce, President Wilson made this significant remark: "There is a shortage of food in the world now, and that shortage will be more serious a few months from now than it is now."

That statement is entirely true and it is well enough for farmers in the United States to take notice of it.

CAN'T BEAT "TIZ" WHEN FEET HURT

"TIZ" for sore, tired, puffed-up, aching, calloused feet or corns.

"Sure! I use 'TIZ' every time for any foot trouble."

You can be happy-footed just like me. Use "TIZ" and never suffer with tender, raw, burning, blistered, swollen, tired, smelly feet. "TIZ" and only "TIZ" takes the pain and soreness out of corns, callouses and bunions.

As soon as you put your feet in a "TIZ" bath, you just feel the happiness soaking in. How good your poor, old feet feel. They want to dance for joy. "TIZ" is grand. "TIZ" instantly draws out all the poisonous excretions which puff up your feet and cause sore, inflamed, aching, sweaty, smelly feet.

Get a 25 cent box of "TIZ" at any drug store or department store. Get instant foot relief. Laugh at foot sufferers who complain. Because your feet are never, never going to bother or make you limp any more.

Nothing Is Evil

There's no use finding fault, my friends, it grief seems broken loose; no matter what Dame Fortune sends, she has a good excuse. I suffered with four kinds of gout, and raised a bitter wail, until a neighbor pointed out that druggists got my kale; the druggist is a worthy gent, whose store is span and spic; and could he pay his tax and rent if some one wasn't sick? The snow that's in my whiskerines, that cripples up my feet, should have a welcome, for it means salvation to the wheat. The rain keeps slopping down all day, and spoils our peace and glee, but it will cause new bales of hay to grow on every tree. The toothache gives my jaw a jar, but if no toothache came, the dentist could not keep his car—he'd have to pawn the same. It's foolishness to make a fuss, if things seem gone awry; the grief that makes you paw and cuss, to some one else is pie. Just think of that when you're inclined to read the riot act; it's worth while keeping it in mind, because it is a fact. There's no such thing as un-mixed woe, though life seems out of plumb; and all the gunk old winds that blow, bring happiness to some.

Walt Mason.

The man who succeeds this year on his farm will be the man who buckles right down to hard work and determines to make his own way by growing such things as will contribute to his living at home, and give him a surplus to sell on the market. And the man who really tries will be surprised at the many things he can do that will assist him in living at home. Good advice should be appreciated, but after all is told personal effort will be the means of making success. —Palestine Herald.

Gossips.

Though great be your virtue, the gossips will hurt you, or struggle like blitzen to do it, alas! Your conduct is shocking! The neighbors are talking, they whisper together whenever you pass! Though you may endeavor to shun them and never give gossips a chance to indulge in their game, yet, waking or sleeping, they still will be keeping their tab on all your doings, to injure your fame. But heed not the neighbors and smile at the labors of insolent gossips whose tongues never rest; they still would be talking and jeering and mocking, if you had descended from realms of the blest. I'm earnestly striving, while yet I'm surviving, to do the right thing, when the right thing I know; each day I am trying to comfort the sighing, to keep a clean slate and pay what I owe. So little I'm caring how gossips are taring, or what they may say as I gambol along, a stranger to worry. I jaunt in my surrey, I'm chipper and cheertul, my soul's full of song. The critters who handle their job lots of scandal, are woebegone people, a gloom ridden host; and they might be smiling, and find life beguiling, if they would just copy the fellows they roast.

The Light of the House

When The Texas Company first introduced its illuminating oil into the Northern States and other parts of the country, the value of this high quality oil was unknown.

Today the distributing facilities of The Texas Company and its agents are carrying this light into the homes of the people of many lands, and all over the world the quality is known and the service appreciated.

It is, in fact, preeminently "the light of the home," burning with a clear, white light which is easy to read or work by. Burning just as brightly with the last drop as the first.

TEXACO ILLUMINATING OIL is one of the products manufactured in Texas which has carried the Red-Star-Green-T trade-mark in its remarkable growth; a growth made possible by unvarying QUALITY AND SERVICE policy.

Our Penitentiaries Faree.

The Austin Statesman published the report of the committee sent by the legislature to investigate the penitentiaries, and the Press Journal at Rusk reprinted it. That is to bring the matter home. The Huntsville Item may have done likewise. It looks like stepping on somebody's sore toe. The report certainly made a departure in not whitewashing the whole dirty lot. It gives them what they deserve, a true show down. It turns on the calcium, and behold the movies are in view. Bet a million that Governor Ferguson changes it up. The movies must move out. It may be remembered, too, that eight out of twelve poor devils of convicts were smothered to death last year on a river farm in an air tight den for a prison while they screamed and cried for breath, in hearing of the guard.

Equal Suffrage Resolution.

The following resolution is self explanatory. The vote was almost unanimous.

"We, the people of Nacogdoches, in mass meeting assembled at the court house, February, 4, 1915, do resolve that the principles of democracy require the submission to the people of the equal suffrage amendment to the constitution of Texas; and our senator, Hon. S. M. King, is earnestly requested to assist in the maintenance of these fundamental principles of democracy by working and voting for said amendment; and do further resolve that a copy of these resolutions be at once transmitted to the Hon. S. M. King."

Woman's Suffrage Certain Says Bryan

Indianapolis, Ind., Feb. 4.—Declaring that the democratic party can not afford to stand with the brewer and saloon keeper against woman's suffrage, Secretary of State Bryan in a speech at the banquet of the democratic editors here tonight severely denounced the liquor traffic and also said that woman's suffrage was sure to come.

"I want to tell you democratic editors," Secretary Bryan said, "that the democratic party can not afford to stand with the brewer and saloon keeper as against woman's suffrage. A man is known by the company he keeps, and I want to tell you now that the man who prefers the saloon keepers' company to that of his wife will not be in the democratic party long."

"If we are going to favor woman's suffrage we might as well go the whole hog and put the saloon out of politics."

Secretary Bryan referred to the majority vote in congress for a national prohibition amendment to the constitution, and expressed the hope that Indiana democrats will be found leading in the movement.

Earlier in his speech Mr. Bryan praised President Wilson's administration and commended Governor Ralston's determination for an anti-lobby law.

Tenant Farmer Bill Introduced

Austin, Texas, Feb. 3.—The first platform demand to reach the legislature—the tenant farmer bill—has been introduced in the senate by Senator McGregor of Austin, and in the house by Representatives Reeves and Bagby. Governor Ferguson approved the bill before it was sent to the legislature. It would provide that any landlord who charges more than one-third of the value of the grain or more than one-fourth of the value of cotton raised on rented land would be subject to heavy penalties, and such contract with tenants become null and void. Under the proposed law landlords would be allowed preference liens on crops for rents, value of farm implements and such animals as he may furnish tenants. There is prospect of a fight over the bill in the house.

The Hay Crop For Nacogdoches County.

The growing of Sudan grass for hay will be planted quite extensively in the county this year, and on account of its early and large yields of palatable forage, no better selection of a crop for this purpose could be decided upon by our farmers.

In order to make a success and to obtain the largest yields per acre a few important matters connected with its culture must be taken into consideration. Sudan grass must be planted upon well drained soil, and from the experiments conducted for the past three years on this Station, produces larger yields of hay when grown upon upland and fertilized with cotton seed meal and acid phosphate in amounts according to the fertility of the soil upon which it is planted. The largest yields have been obtained when planted in 18 inch rows and cultivated, but in order to give the crop better cultivation a 24 inch row will give the best results. Cultivation should be given with small sweeps, especially when the grass is small, but after it reaches the height of about three feet cultivation does not appear necessary. It should, however, be worked cut after each cutting. On account of the amount of sugar it contains it is freely eaten by all stock, in preference to other hays. Tests have been made at College Station, and also by the U. S. Dept. of Agriculture, as to its palatability in comparison with other forage crops, and in every test the stock have eaten the hay from this grass with relish, when the crop had been cut in the right stage of its growth for hay. In one case only have I found stock leave it for other forage, and that was in a co-operative experiment for seed, that was conducted by this station on the old Murphey farm on North street. After the seed had been harvested the overripe and woody straw was fed to stock in connection with other forage, and the result was, what would be expected under such conditions, the stock naturally ate the good hay in preference to the overripe Sudan straw. Every farmer should know the difference between straw and hay, for it is evident that mules and horses can tell the difference. I bring out this fact to impress upon all future growers the importance of harvesting Sudan grass at the right stage of its growth, which for hay is between the full boot and blooming stage of its growth.

Sudan grass is an annual, and must be planted each year from the seed, therefore it is not a pasture grass. Its place is in a crop rotation, the same as sorghum and millet. Not only for its high yields is it to be preferred to sorghum and millet for hay, but also for the reason that it is easy to cure and there is no danger from mould or rot, which is apt to occur in hays made from sorghum and cowpeas unless great care is taken in their curing. Seed can be purchased in Nacogdoches at reasonable prices and when planted in twenty-four inch rows 2 1/2 pounds of seed are ample for an acre.

In feeding Sudan hay with a grain ration we find 14 pounds a day ample for a horse or mule undergoing heavy work. This grass can be planted after danger of frost is over and can be cut several times during the season, and when too late in the year to produce another cutting of hay can be grazed until frost in the fall kills it.

Recognized Advantages.

You will find that Chamberlain's Cough Remedy has recognized advantages over most medicines in use for coughs and colds. It does not suppress a cough but loosens and relieves it. It aids expectoration and opens the secretions, which enables the system to throw off a cold. It counteracts any tendency of a cold to result in pneumonia. It contains no opium or other narcotic, and may be given to a child as confidently as to an adult. For sale by all dealers. dw

Reception For Miss Todd

REPORTED The reception in honor of Miss Helen Todd, at the home of Mrs. F. C. Ford, last Friday morning, was largely attended by representative women of Nacogdoches. Several members of the local league assisted the hostess in receiving. In the beautiful dining-room Mesdames Deal and Johnson presided over an exquisite tea-table, and were assisted in serving by Misses Ruby Miller, Helena Matthews, and Lillian Davidson. At intervals through the morning, Mr. Jim Summers, Miss Matthews and Mr. Holland Smith furnished delightful music.

At the close of the morning's festivities Miss Todd made a brief address an intimate, informal talk which was quite different from her more public speeches before crowded audiences, but quite as effective. She dealt simply with the purposes which are common to all earnest women in all walks of life—regardless of temperament, creed, or social position, and her little audience listened with their hearts in their faces.

A gratifying feature of this occasion was the presence of several friends of the cause who had overcome unusual obstacles to attend. One had come six miles over the indescribable roads of last week to meet Miss Todd. They expressed themselves as amply rewarded—and their presence was certainly greatly appreciated by the hostess and her helpers.

Our worthy state senator, Hon. S. M. King, is making quite a record for himself over at Austin. Like the fearless statesman that he is, he has the courage of his convictions, and when he sees fit to oppose a measure, endorse one, or introduce one of his own, he does not get behind a curtain to do so. Among the measures he has introduced, and which bids fair to become a law, is a bill requiring an officer holding a judicial or railroad commission, attorney general and other positions in the state service to resign before becoming a candidate for another office. It has been the custom many years for judges, and other state officers to draw full pay for the year's work and devote their time in an effort to get a higher office, an act that would not be tolerated in private business, and it is time to call a halt. Mr. King has also been placed on a number of the most important committees in which he is doing good work.—Garrison News.

"Pape's Cold Compound" is the quickest, surest relief known and costs only 25 cents at drug stores.

Reception For Miss Todd

REPORTED

At the close of the morning's festivities Miss Todd made a brief address an intimate, informal talk which was quite different from her more public speeches before crowded audiences, but quite as effective. She dealt simply with the purposes which are common to all earnest women in all walks of life—regardless of temperament, creed, or social position, and her little audience listened with their hearts in their faces.

A gratifying feature of this occasion was the presence of several friends of the cause who had overcome unusual obstacles to attend. One had come six miles over the indescribable roads of last week to meet Miss Todd. They expressed themselves as amply rewarded—and their presence was certainly greatly appreciated by the hostess and her helpers.

Our worthy state senator, Hon. S. M. King, is making quite a record for himself over at Austin. Like the fearless statesman that he is, he has the courage of his convictions, and when he sees fit to oppose a measure, endorse one, or introduce one of his own, he does not get behind a curtain to do so. Among the measures he has introduced, and which bids fair to become a law, is a bill requiring an officer holding a judicial or railroad commission, attorney general and other positions in the state service to resign before becoming a candidate for another office. It has been the custom many years for judges, and other state officers to draw full pay for the year's work and devote their time in an effort to get a higher office, an act that would not be tolerated in private business, and it is time to call a halt. Mr. King has also been placed on a number of the most important committees in which he is doing good work.—Garrison News.

Knitting In Society A Chicago young lady, who recently arrived in Waco for a visit, expresses as her first surprise in Texas life, that she does not see the society girls with their knitting needles. The Waco morning News quotes the young lady thus: "Up in Chicago these little bags accompany the girls to the tea rooms, the theatre box, even to the bridge table for a few stitches while acting 'dummy.'" Miss Kate Fried of the Waco News puts the interrogation, "What is the matter with the Waco girls? They are not usually so behind and surely some Tommie Atkins would wear with delight a pair of wristbands knit by a Texas girl."—Jacksonville Progress.

A Blunder Exposed

The Houston Telegram does a laudable act in the following words:

"Life," an alleged funny paper representing, or pretending to represent the best thought of the North, has sent The Telegram a marked copy of a recent number. In this number of Life, the paragraph marked deals with the race question, and in the opinion of Life, settles that grave problem with justice to all.

Says Life:

Our friends down South, being sure that the negroes are inferior, deny them advantages and provide inferior schools for negro children in order that they will continue to be inferior and thus prove the correctness of the contention of the scientists and sentimentalist that the negro is inferior. After all, there is nothing quite so satisfying as the feeling that you have got things fixed so that you will always have an inferior race in your midst.

Not only does the paragraph show Life's prejudices against Southerners, but it also shows the stupendous ignorance and silliness of the man who wrote the paragraph.

The Telegram says much more in a forcible way, to show the prejudice and malice of the articles against the South. It refers to such prevaricates in the words "negro loving." They are not lovers of negroes, but haters of the white Southerners, who are truly friends to the negro, and more helpful to the race than the Northern people.

As a proof in Texas and many other states of the south, the whites pay the bulk of the taxes, being the owners of the property, while the negro owns but little and pays but little. And the negro schools and children receive exactly the same school benefits as the whites who make the laws and foot the bill.

Breathe fresh air and none other, night and day, fresh air, that has not before been breathed by any living being. Why? Because the unbreathed air contains the needed gas, oxygen, which supports life as a food does, and air which has been breathed has lost this oxygen. In order to not breath air over and over again this exhausted air should be carried away. A breeze and an opening are necessary to this ventilation. A closed tent prevents this. So, do not shut up closely, day or night. Get the outside air into the lungs.

The Sentinel was called down this morning for a mistake yesterday in saying that Mrs. E. M. Barret, of Austin who was appointed to lecture as stated, is a daughter of Adolphus Sterne, an early pioneer Texan patriot whose home was in Nacogdoches. The names are similar, but our Mrs. Barret now lives in Houston, and is not the one lecture.

President One Day

March 4, 1849, fell on Sunday. The offices of President Polk and Vice-President Dallas having expired at midnight Saturday, and Zachary Taylor, the newly elected president, having failed to reach Washington in time for the private administration of the oath, David R. Atchison, United States senator from Missouri, was legal president for a single day by reason of the fact that he was president protem of the senate. Under provisions of the succession law of 1792, which was then in effect, the president of the senate became the chief executive of the nation when for any reason it happen that the president and vice-president were incapacitated for duty. The law was changed in 1886, so that the succession falls first upon the secretary of state and other cabinet officers in the order determined by the law. No act of any kind occurred March 4, 1849, to perpetuate Senator Atchison's memory in the capacity of the chief executive. He did not sign his name as president, but he claimed and rightfully so, he was president for the shortest term, was the only president who was not elected and the only president from a state west of the Mississippi.

An Accurate Historian.

No public document of the year will be more widely read than the address of President Wilson yesterday at Indianapolis. It is an advantage which the President possesses that he delivers addresses which read as well in cold type as they sound. He is never heavy nor pedantic, no matter what he discusses, but puts his views into such human forms of expression that they are always attractive. This insures him a much larger audience than if he were less gifted.

His description of the Republican party as an organization without a new idea for thirty years is accurate. Even its own members will admit that the Republican party has spent the last three decades fighting new ideas. It is made up of leaders who in large measure oppose whatever is now merely because it is new.—Hartford Post.

New York, Feb. 6.—Several passengers were injured and a near-panic followed a collision on the Ninth avenue elevated at Fiftieth street today during the rush hour.

An express, southbound, ran into another train. Half a dozen cars were hashed.

This is the third serious elevated wreck here recently.

The cars caught fire from a short circuit on the rail and firemen were hastily called to extinguish the blaze.

The article in today's Sentinel by Geo. T. McNess is certainly timely. It throws light on the hay question that surely is needed. The amount of stock feed shipped to Nacogdoches from other places and bought by farmers and others who should buy home raised feed is simply enormous. This county can feed itself and have some to spare.

D. L. Campbell of Appleby, Texas.

Captured First Prize Again.

Nacogdoches County has come to the front again this year as a Corn Growing Country. Mr. D. L. Campbell, living near Appleby, one of the most successful farmers in this county who does not altogether believe in raising cotton, was again awarded the special size cup for the best corn grown in East Texas at the meeting of the Texas Corn Growers Association (Mid-Winter Session) held at Waxahachie, Texas, in January, 1915.

Mr. Campbell was also awarded the first premium for White Corn for East Texas, and also first premium for Champion White Corn for the whole state. The large cup in the illustration above shows the cup Mr. Campbell retains for the coming year.

Mr. Campbell says he is going to try again for the prizes in both the Texas Corn Growers Association and National Corn Growers Association, and will show the world what Nacogdoches County can do in the way of raising corn and other products. Let more farmers in Nacogdoches County follow the example of Mr. Campbell and raise more corn and more hogs, and less cotton. It will help Nacogdoches county if more farmers would compete for the prizes offered for various farm products raised by them. We have the best land in Texas to grow almost anything named. Come to Nacogdoches County—one of the best counties in Texas.

Mexico.

Washington, Feb. 8.—Zapatista forces again are gradually closing in on Mexico City, today's official dispatches so report, and apprehension is growing more acute.

Virtually all foreign diplomatic representatives there have asked their home governments for instructions as to what they should do in certain contingencies, and are hoping to be permitted to use their discretion as to abandoning their legations.

Demonstrations continue by the populace, which has been affected by the nullification by Carranza authorities of paper currency issued by previous administrations, and the scarcity of food is causing grave anxiety. An official summary of other conditions issued by the state department today follows:

"The department is informed that the banks and principal stores in the City of Mexico remain closed on account of the order nullifying the Villa currency. Gen. Carranza is reported to have telegraphed that relief will be furnished the poor, but there are no indications that this relief will apply to the middle class and to commerce generally. There is a continued scarcity of bread in the city. It is said that the constitutionalists have confiscated a number of horses. According to the department's advices the Carranza administration is shipping its own supplies out of the city and articles of prime necessity are getting scarcer daily.

The department is advised that Felicitas Villareal is still in prison in Mexico City.

St. Valentine will have to arrive a day early this year on account of the post office being closed on that date, it being Sunday and it would not do to be late.

If it is no harm to use the word dammed in a polite manner the Sentinel will say that Pat Murphey politely sent a big nigger around to drain that dammed mudhole in the street at our front door. He cut the dam and all the water flowed away, except just enough to keep the mud soft. The Sentinel held its gun over him just nine minutes and he only lacked one minute of being done the job when he left it. It is still dammed bad. It may dry up next summer.

Party to Garrison.

The following party went to Garrison at noon, to accept the invitation of Mrs. N. M. Raines to dinner at the Wiley Hotel tonight:

Mr. and Mrs. W. F. Price, Mr. and Mrs. Geo. Fewel, Dr. and Mrs. R. P. Lockey, Mr. and Mrs. E. H. Blount, Mr. and Mrs. Zeno Cox, Mr. and Mrs. Bolivar Williams, Mr. and Mrs. Oscar Matthews.

The occasion is the celebration of Mr. Raines birthday.

Homeless.

When the wind blows shrill, with a deadly chill, and we sit by the cheerful blaze, do we ever think of the homeless gink, a-going his weary ways? The daylight's gone and we sit and yawn, and comfort is all around; do we care a whoop for the dismal troop adrift on the frozen ground? You eat and drink and count your chink as you sit in your easy chair; and you've grown hog-fat, and beneath your hat there's hardly a sign of care. Do you never pause, as you ply your jaws, devouring the oyster stew, to heave a sigh for the waits who lie outdoors, all the long night through? It was good of Fate that she paid the freight, and planted you here at ease, while the other lads, who are shy of seads, must sit in the park and treeze. But she may repent ere your days are spent, and juggle things all around, and the bo may sleep on your mattress deep, and you on the frozen ground!—Walt Mason.

For City Marshal.

To the Voters of the City of Nacogdoches:—

At the solicitations of some of my friends, and in obedience to my own inclination I have decided to submit my name to the voters of this city, as a candidate for the office of City Marshal. In doing this I realize that it is a position that demands practically all the time and attention of a person to be devoted thereto.

This is an important position, and one I covet, for the reason, that I not only will take pleasure in giving the city my best efforts, but at the same time it will afford me a means of livelihood.

I have no promises to make any living man, only that I will do my duty, looking ever to the city's interest and the welfare of its citizens.

I sincerely believe that the salary of the marshal (\$1.00) per month, is very inadequate, and I think the people of this city will demand that a moderate salary be allowed the marshal, a salary that will enable him to get results and of all most important, will make him a living.

If elected to this position, I will endeavor to put into the city treasury far in excess of what my salary will amount to, and devote all the energy I possess towards maintaining order and peace.

Any favors shown me in this race, will be gratefully appreciated, and I assure all who vote for me that they will never have cause to regret the vote they cast.

Respectfully,
G. W. L. Woodland.

Arkansas Is The Sixteenth.

Arkansas is the sixteenth state with a statewide prohibition law among its statutes, it was said today at the national headquarters of the Prohibition party here. John A. Shields, headquarters secretary, said the Arkansas law, as he understood it, provided for complete prohibition by January 1, 1916. Some of the other states will not be "dry" until July 1, 1916.

Only Negro City.

Independence Heights, the only negro municipality in Texas, now has a perfectly legal mayor and two commissioners, to say nothing of the commission form of government.

Mayor G. O. Burgess and Commissioners S. C. Lamothe and A. N. McCullough were inaugurated on Monday night. The occasion was appropriately celebrated, and the children of Independence Heights negro school rendered a program.

The mayor addressed his constituents and urged co-operation. — Houston Telegram.

Mud Holes in The Streets.

There is a bad mud hole right across in the street in front of the Sentinel office. It is along side of the store in the old opera house on Church street, and when wagons drive along there, which they often do, to load or unload, they are in the red mud and water nearly up to the hub. A man with a hoe could drain it dry in twenty minutes, but it has been there ever since the workmen stopped the drainage by a bank of dirt when they built the addition a month ago. Pat Murphy had it open, but they filled it up, so that the water is held back. In fact, this was a nicely graveled street until it was thus spoiled. But now it is a disgrace. Pat will have to come again. Such bad places could be easily improved, but are often neglected.

To All Interested.

The following ordinance of the City of Nacogdoches will be strictly enforced. A compliance may save trouble to some owners:

"Art. 152. If any person, being the owner or controller of a proud bitch, shall suffer such animal to go at large up on the public streets of this city, he shall be fined in any sum not exceeding \$10.00."

Reduction No. 3

On Goodyear Tires

Making Total Reductions 45 Per Cent in Two Years

To Give Always the Most for the Money

We are glad again—for the third time in two years—to announce a big reduction on Goodyear tires, effective February 1st.

Goodyear policy on price is to give the utmost in a tire at the lowest possible profit. Our reductions are made to that end, without ever reducing the quality.

That always means, with our matchless output, more for the money than any other maker can give.

As rubber came down our prices came down. As our output multiplied, reduced factory cost, our prices came down with it. In two years our reductions—including the present—have totaled 45 per cent.

Last year we increased our output 26.6 per cent. A few days ago the embargo on rubber was modified so that supplies seem assured. The market price for rubber seems for a time established. Fabric costs less than last year. So, under our minimum profit policy, we announce this new reduction.

Only Fair Basis

We consider profit margin on a tire the only fair price basis. We keep that margin just as low as our line allows.

While we do that, Goodyear tires will always under sell any tires that compare with them. That is

because we have the largest output. We have a new factory, modernly equipped. And we have world-wide facilities for buying rubber, of our extra grade, at the lowest market price.

For a long, long time most tires have sold much above Goodyear prices. Some have sold one-third higher. A few have sold lower, as some always will, because of less rubber, less quality. But we can and do, under all conditions, give more for the money than any rival tire can offer.

The Best We Know

Goodyear Fortified Tires offer the best we know. They are built to give you the lowest cost per mile. They minimize tire trouble in five costly ways employed by no other maker. And they are always the same, regardless of price reductions.

Most tires will always sell higher, because of smaller output. Some tires will always sell lower because of lower standards. But we promise you that none will ever give better than Goodyear value.

This policy has made Goodyears the largest-selling tires in the world. It will make them more so as more men find them out.

Ask your Goodyear dealer for our new price on the size you buy.

Given Terms in U. S. Penitentiary

The jury in the Federal court in the case of Ben Frankfort and Rufus Easterwood, charged with concealing goods from the referee in bankruptcy, returned a verdict of guilty in both cases.

The case went to the jury just after dinner, and a verdict was reached at 4:30.

This morning Judge Russell assessed the penalty. He gave Frankfort two years in each count, there being two counts. Easterwood was given one year and one day in each count, there being two counts in this case also. The sentences are cumulative.

Frankfort gave notice of appeal. He is now in the jail here. Easterwood, who are informed will be carried to the United States Penitentiary at Leavenworth, Kansas.

Mrs. Frankfort was in court when the verdict of the jury was reached and was visibly affected by it. The father and mother of Easterwood came over from Athens yesterday and talked with their son. Their heads are bowed with grief at the conviction of their son.

Judge Russell today sentenced Leo Powers, a 15 year old negro boy, convicted some days ago, of robbing the post-office at Nacogdoches. He was given 30 days in jail.

Auto Plunges Over Galveston Sea Wall

Galveston, Texas, Feb. 6.— Miscalculating a turn while driving in his five-passenger automobile this morning, D. H. L. Hunter, a retired business man of this city, shot over the edge of Seawall Boulevard and dropped seventeen feet to the granite riprap on the beach below.

The car struck on its side and Hunter was pinned beneath it. He was taken out by spectators.

At the hospital, it was said his injuries are not serious. The car was bent and broken as to fenders, windshield and top, but otherwise was not badly damaged.

CALOMEL DYNAMITES YOUR LIVER! MAKES YOU SICK AND SALIVATES

"Dodson's Liver Tone" Starts Your Liver Better Than Calomel and You Don't Lose a Day's Work

Live up your sluggish liver! Feel fine and cheerful; make your work a pleasure; be vigorous and full of ambition. But take no nasty, dangerous calomel because it makes you sick and you may lose a day's work.

Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel crashes into your bile like dynamite, breaking it up. That's when you feel that awful nausea and cramping; Listen to me! If you want to enjoy the nicest, gentlest liver and bowel cleansing you ever experienced just take a spoonful of harmless Dodson's Liver

Tone tonight. Your druggist or dealer sells you a 50 cent bottle of Dodson's Liver Tone under my personal money-back guarantee that each spoonful will clean your sluggish liver better than a dose of nasty calomel and that it won't make you sick.

Dodson's Liver Tone is real liver medicine. You'll know it next morning because you will wake up feeling fine, your liver will be working; headache and dizziness gone; stomach will be sweet and bowels regular.

Dodson's Liver Tone is entirely vegetable, therefore harmless and can not salivate. Give it to your children. Millions of people are using Dodson's Liver Tone instead of dangerous calomel now. Your druggist will tell you that the sale of Calomel is almost stopped entirely here.

The Belled Buzzard Again.

Rev. J. B. Morrison, evangelist of the Church of God, called on the Sentinel this morning. He told that in 1893 his two sons Dee and Lafayette about 12 and 14 years of age, belled and released a buzzard near Greenville in Hunt county. They tied the bell around the buzzard's body and to its wings.

There is a story among some of the colored people here that about that time a man-shot and killed a belled buzzard about five miles south of here, and a note was found in the bell, and was brought to town. These are all important questions and the facts should be revealed. Who did it, when and where, and what followed. Let the records be straight.

THIS WOMAN'S SICKNESS

Quickly Yielded To Lydia E. Pinkham's Vegetable Compound.

Bridgeton, N.J.—"I want to thank a thousand times for the wonderful good Lydia E. Pinkham's Vegetable Compound has done for me. I suffered very much from a female trouble. I had bearing down pains, was irregular and at times could hardly walk across the room. I was unable to do my housework or attend to my baby I was so weak. Lydia E. Pinkham's Vegetable Compound did me a world of good, and now I am strong and healthy, can do my work and tend my baby. I advise all suffering women to take it and get well as I did."—Mrs. FANNIE COOPER, R. F. D., Bridgeton, N.J.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, and to-day holds the record of being the most successful remedy for female ills we know of, and thousands of voluntary testimonials on file in the Pinkham laboratory at Lynn, Mass., seem to prove this fact.

For thirty years it has been the standard remedy for female ills, and has restored the health of thousands of women who have been troubled with such ailments as displacements, inflammation, ulceration, tumors, irregularities, etc.

If you want special advice write to Lydia E. Pinkham Medicine Co., (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

Steals Bread, Killed

Cleveland, Ohio, Feb. 2.—Caught stealing a loaf of bread, Dominick Margold Jr., youth, was shot and killed today by Joseph Findurn, University Road grocer.

The body was picked up with the bread clasped tightly to the lad's breast.

The grocer also fired at a companion of Margold Jr., but he escaped.

The dead youth's home had been quarantined because of diphtheria and his raid on the grocery store was for food.

The grocer lived above the store.

Chicago, Feb. 3.—Chicago, which has given \$120,000 for relief of Belgian war sufferers was asked today to contribute \$100,000 more by the Chicago Belgian food relief committee.

America has sent to Belgium about \$20,000,000 in food and money, it was announced, yet the situation there is that "1,400,000 persons do not know where they are going to get their next meal," the committee's official report says.

Effect of Great Kidney Remedy is Soon Realized.

I feel it my duty to let you know what Swamp-Root did for me. I was bothered with my back for over twenty years and at times I could hardly get out of bed. I read your advertisement and decided to try Swamp-Root. Used five bottles, and it has been five years since I used it, and I have never been bothered a day since I took the last bottle of it. I am thoroughly convinced that Dr. Kilmer's Swamp-Root cured me and would recommend it to others suffering as I did. My husband was troubled with kidney and bladder troubles and he took your Swamp-Root and it cured him. This was about five years ago. You may publish this letter if you choose.

Very truly yours,

Feed Stuffs. The Champion, (Center Tex.) has a front page illustrated write up of Feta, a new feed product. This is called forth in considering diversification of crops to leave out cotton. Some few months ago the Champion had up the subject of Sudan grass, which is in the line of diversification, and was advocated by the late Judge Tom C. Davis, who had a small trial patch of the grass at his home and invited everybody to come and see it. He was very enthusiastic over it, and he tried to interest others. It seemed to be the salvation crop for the farmers of Texas, in their present hour of need.

The Lubbock Avalanche, which is on the south plains, or south part of the Panhandle, says, "The Lubbock county farmer is strictly in the swim." "There is, at present, a strong demand for feed stuffs." "In all probability the price of maize, Kafir etc. will go away above etc." It also states that the yield was immense, from 50 to 75 bushels per acre, and corn also was good, and the price is about \$20 per ton.

Cotton was also good, but they don't place any importance on it. But the way they praise Sudan grass for hay, for seed, for silage and for pasturing is a plenty. They think it will head the list of profitable crops. The farmers here should take notice, and heed the words of the wise.

10 CENT "CASCARETS" IF BILIOUS OR COSTIVE

For Sick Headache, Sour Stomach, Sluggish Liver and Bowels—They work while you sleep.

Furred Tongue, Bad Taste, Indigestion, Sallow Skin and Miserable Headaches come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a still barrel. That's the first step to untold misery—indigestion, foul gases, bad breath, yellow skin, mental fogginess, everything that is horrible and nauseating. A Cascareset to-night will give your constipated bowels a thorough cleansing and straighten you out by morning. They work while you sleep—a 10-cent box from your druggist will keep you feeling good for months.

State Road Has New Gen'l Manager

Announcement is made of the appointment of C. H. Huddleston as general manager of the Texas State Railroad, the line between Palestine and Rusk. Mr. Huddleston has taken charge, with headquarters in Rusk. He is said to be a good railroad man.

The Herald understands that it may be possible that the headquarters of this road will be brought to Palestine, and it is understood that favorable action on the part of the local business people might secure this change. The Herald has no official authority for saying it, but a report is current that the state road would be appreciative at this time of patronage on the part of the local people.

GIVE "SYRUP OF FIGS" TO CONSTIPATED CHILD

Delicious "Fruit Laxative" can't harm tender little Stomach, liver and bowels.

Look at the tongue, mother! If coated, your little one's stomach, liver and bowels need cleansing at once. When peevish, cross, listless, doesn't sleep, eat or act naturally, or is feverish, stomach sour, breath bad; has sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which contains full directions for babies, children of all ages and for grown-ups.

Wheat Still Goes Upward.

Chicago, Feb. 4.—Although the opening of the wheat market today was the steadiest in some time it was not long before prices increased. May rose to \$1.63, as against \$1.59 1/4 last night, and July to \$1.41 1/2, compared with \$1.38 5/8.

President Wilson's speech calling attention to the prospect that the United States would be called upon heavily for wheat had much influence toward encouraging buyers. Besides, there appeared to be evidence of renewed foreign demand here and of export sales over night. Despite heavy margins, trading was lively.

Shakespeare Meeting

The Shakespeare Class met in regular weekly session on Friday afternoon with Misses Nettie and Berta Lewis. The play, Julius Ceasar which has been the subject for study during the winter term, was furnished under the able leadership of Miss Nettie Lewis, who brought out many fine points in the characters delineated in the play, also the historical bearing of the play, and comparison of the present with the past in many different lessons to be gleaned there, from Mr. J. H. Barham, as a visitor for the afternoon, was welcomed most heartily. A dainty two course refreshment was served.

Only By Russians.

Washington, Feb. 3.—Russia today informed the United States that the distribution of food, money and clothing to German and Austrian prisoners in Siberia would be permitted only by the Russian military authorities, declining to give foreign relief expeditions that privilege. An American expedition had started from Peking.

Berlin Newspapers Criticize Wilson.

Berlin, Feb. 4.—A news dispatch has been received here from Washington saying that President Wilson has consented to an amendment of the ship purchase bill which provides that no vessel is to be bought by the United States if such purchase would lead to conflict with any one of the belligerent powers.

Nearly all the German papers criticize this course sharply. They virtually unite in calling it a backdown before Great Britain on the part of President Wilson. The Kreuz Zeitung says: "This tender consideration for Great Britain is the more remarkable in so much as it injures America herself."

Courage in the War is Common.

London, Feb. 11.—Every Englishman knows how to die bravely. The Irish, Scotch and English soldiers face the bayonets, the machine guns as though out on dress parade. It is the men who sicken and die in the trenches, or at home after an arduous campaign that our sympathy goes out to most. There are thousands of such men behind the battle lines who went to the front without the strong constitution and good pure blood to withstand the deprivations, the hardships of the campaign in Belgium and France. It's a warning that we should pay strict attention to our stomach liver and blood. If one is all out of sorts he should take an invigorating tonic and alternative, such as Dr. Pierce's Golden Medical Discovery, which cures diseases of the stomach and organs of digestion and nutrition. It eliminates from the blood disease breeding poisons. It makes the blood rich and pure, and furnishes a foundation for sound, physical health. Fifty years ago, Dr. Pierce, of the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., found that certain barks and roots manufactured by using glycerine without the use of alcohol or opiates, made into a concentrated extract, which he called Dr. Pierce's Golden Medical Discovery, made a stimulating tonic for the simulation of the food and eradicated stomach, helped the digestion and aspoisons from the blood. This is a nature's cure for indigestion, and by correcting the stomach, and thereby feeding the blood on pure materials, the red blood corpuscles are increased and the body established in a healthy state. No one suffers from catarrh who has plenty of red blood corpuscles and a good digestion. Catarrh in all its forms is a stagnation of the blood. Introduce pure red blood into the system by taking the "Medical Discovery" and health is assured.

Do you know that the roads are worse and worse? This is said to be a fact by all who travel around.

El Paso Texas, Feb. 3.—Following their defeat at San Luis Potosi the Carranza troops again were routed yesterday south of that place, according to official Villa advices received here today. It was stated that the Villa column under Gen. Banda utterly routed the retreating Carranza force of Gen. Benavides, capturing all their artillery and supply trains and many prisoners.

THICK, GLOSSY HAIR FREE FROM DANDRUFF

Girls! Try It! Hair gets soft, fluffy and beautiful—Get a 25 cent bottle of Danderine.

If you care for heavy hair that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine. Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff. You can not have nice heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots flamb, loosen and die; then the hair falls out fast. Surely get a 25-cent bottle of Knowlton's Danderine from any drug store and just try it.

You Need a Tonic

There are times in every woman's life when she needs a tonic to help her over the hard places. When that time comes to you, you know what tonic to take—Cardui, the woman's tonic. WHICH SHAL I'Y BE?

Which Will You Do, Win Your Independence or Marry a Two-bit Man?

You are at the cross roads of life. There are two paths open to you. One leads to your independence, the other to dependency. You are to choose, not next month, but now, which of these roads you prefer to travel. One requires effort, the other indifference. To travel one, you must have a real back bone and determination, the other, a string for a back bone, and indifference will do. Some girls say, "The lion is in the way." These girls lack gumption, get-up-and-get, they reason that it so-and-so and such-and-such a thing had not have happened they could have made a great success. The lion is in the way. Fear and indifference has entered into their daily life and robbed them of their vim and courage. Young people need our help. It's our life work, to train peopls to determine to get up and do things, develop their late talents, quicken their preception that they may lead a higher and more useful life. Our thorough practical training in book-keeping, business methods, shorthand, typewriting, telegraphy, business english, business law, business arithmetic, spelling, business writing, rapid calculation, money and credit, corporation and finance, taxation and public finance, private secretaryship, salesman ship, advertising, real estate, commercial history. Higher accouning, economics, parliamentary law and manager-ship, together with the use of the most modern office appliances, gets the lion out of the way, gives the girl her independence, places her where she can make an honorable living, in any city in the land and command the respect of men worthy of her attention. If in after life, she is left a widow with plenty of money or property she knows how to care for it. If upon the other hand, she is left and has to support herself she can do so by accepting a good salaried position in some nice commercial or county or state office.

Girls who graduate from our institution are not only carefully looked after, while in school, but the place where we secure them a position, through our employment department is carefully investigated as to the moral surroundings, and in the larger cities we have arranged for appropriate boarding places in private homes. No mother need fear her daughter will not have the proper care and attention while in our school and in making her start into the business office.

Young women, select the road that leads to your independence. Don't be always dependent on others. Thousands have won their independence with us, why not you? Lone Star News

To The Sentinel:

The health of our community is good at present.

The farmers are very busy making preparations for another crop.

Our school is progressing nicely, and now, that we have better equipment, we shall be able to do better work.

The debate Friday night was very interesting. There was quite a large crowd present.

Harvy Dennis, of Alto, visited friends and relatives here, Saturday and Sunday.

Mr. and Mrs. Florence Parnelly, of Alto, were the guests of Mr. and Mrs. Campbell last week.

Willie Manning dined at Mr. Dorsett's last Sunday. We wish him good luck.

Rev. Nash will pastor the Lone Star Church this year. He preaches every second Sunday in the afternoon.

Fieluon Myers says, he is going to accomplish an education this year, or else matrimony.

Some of the larger pupils of Lone Star say, they hope there will be no more dances until school has closed; they don't really enjoy the lecture given them by the teacher, for going.

Best wishes to the Sentinel and its readers. W. H.

Jurors Attention.

Sheriff Spradley requests the Sentinel to state that jurors who have been summoned to be at court here tomorrow are ordered by the court not to come until Monday of the 7th week. This is due to the fact that these petit juries for civil suits will not be needed now, because the several cases of the city of Nacogdoches against individuals on the paving controversies have all been compromised and taken off of the jury trial docket.

The terms of the compromise are that the citizens who are defendants shall fill up and gravel the streets and pay the costs, under certain agreed methods or directions.

The suit by A. J. Spradley against the city for damages is also settled by agreement. Spradley is to receive \$300 net.

General satisfaction will be felt over the end of these suits.

Mrs. Hamilton, who is known by the affectionate name of Big Ma by her numerous friends here, and wherever she is known, left yesterday for Mineola, where she makes her home with her grand daughter, Mrs. W. W. Perry. She went from here first to Jacksonville, to visit Clyde Parrish and family. She spent several weeks here, with her many friends of her former home, who make a pet of her, and are always glad to show their love and appreciation.

CATARRH OF KIDNEYS AND BLADDER

Peruna Saved Me

Mrs. Powers, whose address is given below her portrait, is an ardent friend of Peruna. She says: "I am thankful to tell you that my old trouble has never bothered me any since you received my testimonial. Any one wishing to know the facts in my case, if they will write me I will be glad to answer. Your medicine has saved me, and gave me perfect health. I frequently meet friends that knew me when I was in poor health. They ask me what has made such a change in me. I always tell them that it was the nerve remedy, Peruna. I shall praise Peruna as long as I live."

Catarrh of the Internal Organs

Mrs. A. T. Powers, R. R. 7, Box 121, London, Ohio, writes: "I write to thank you for the wonderful good your Peruna has done for me. I was a sufferer from kidney and bladder trouble for twenty-two years. Two years ago I began to take Peruna, and only took about three bottles and today I can say I am a well person."

Catarrh is liable to affect any of the internal organs. This is especially true of the bladder, which is very frequently the seat of catarrh. This is sometimes called cystitis.

Mr. James M. Powell, No. 1629 W. Walnut St., Rosedale, Kansas, writes: "About four years ago I suffered with a severe catarrh of the bladder, which caused continued irritation and pain. I was miserable and could not stand up or walk for any length of time without extreme weariness and pain. I began taking Peruna and it greatly relieved me and in eleven weeks I was completely cured and felt like a new man."

Those who object to liquid medicine can now procure Peruna in Tablet form.

After the Street Corner Johnnys.

The Texarkana Four States Press brings to the attention of the Texarkana authorities a matter that needs regulating in every city when it says:

"The is still the menace of raising boys right on the street corners of Texarkana. It may be that the police are powerless to control these loafers and make them go to work or get off the streets—in which case they should be clothed with all necessary authority. A well dressed idler with a smooth tongue and an appearance of careless independence can do more harm in a given time than all our Sunday schools and churches can correct in a lifetime of conscientious effort. We try to keep the gutters and the sewers clean, and the sewers clean, and overlook the vital part of our duty."

Women Suffrage in the South.

When the woman suffragists only a few weeks ago failed to induce the House to adopt their resolution to amend the Constitution of the United States, they refused to be reconciled to the theory that the suffrage question was one with which states solely should deal in their individual capacity. In their disappointment they even professed to doubt the honesty of some of the advocates of that obstructive principle.

Being obliged to fall back on the old and approved method of fighting out the issue state by state, the suffragists now have the opportunity to profit by the unwelcome advice offered them at Washington. Even the South is relenting and shows strange signs of abandoning its traditional attitude of hostility to their cause.—St. Louis Post-Dispatch.

Free Methodists Hold Quarterly Conference.

Dallas, Feb. 6.—Quarterly conference is being held at the Free Methodist Church, Payne and McKinnon streets. The Rev. R. A. Thompson, district elder, is in charge. The conference closes with the services tomorrow night. The regular love feast of the conference will be had at 6:30 o'clock tomorrow night.

Mrs. Jno. Perkins and little daughter Alice Lee returned Sunday from an extended visit in Henderson with Mrs. Perkins parents.

Tuesday Bridge

This happy club of Bridge players spent the afternoon with Mrs. F. L. Williams at Hayward on Tuesday. The warm spring sunshine made the trip to the home an especially enjoyed pleasure, and the sun lit parlors were a joy with the sweet blooms of springs first flowers, glittering therein. An appetizing salad collation was served.

The Christian Ladie's Aid met with Mrs. Parnell at the Banita Monday afternoon. It being such a beautiful afternoon most every member took advantage of it and were present. Some good work was done outside their jolly conversations.

June C. Harris, Esq. receiver of the Carter Lumber Co., and Attoyac River Lbr. Co., has moved his offices from Houston to Nacogdoches, and has rooms on second floor of the Geo. H. Davidson building. Miss Dagma Kelly, who has been his stenographer for seven years, will be retained, and any other help needed will be selected preferably from home people.

Worthy Charity

A move was on foot among the board of trustees of the school to furnish free school books and supplies for those unable to attend and to have those wishing it and could not afford it, vaccinated. The move did not carry as to the school Board, but some of the members have made it their personal interest and a good many books and supplies have been purchased and distributed by these gentlemen. This is a worthy charity, one that helps one to help themselves.

E. M. Weatherly of Appleby, "Uncle Mitch," called on the Sentinel this morning. He is 84 years old. He expected to see his old friend and neighbor, T. H. Summers, Sr. "Uncle Tom" but found that he had gone out on a jaunt into the country. He is blind and is 89 years old.

T. J. Williams, of San Antonio, was here Monday and Tuesday. He went down to Oil Springs to see about his prospectings in the oil fields, where he is drilling. He says he is going to bring in a gusher, down there.
