Watch Repairing

Mr. Man, you know that a good watch is the only satisfactory time-piece to carry, and---

That a good watch cannot be bought "cheap." Now then, isn't it reasonable to assume that good first class repair work cannot be bought "cheap" or that cheap work will not give satisfaction. We are in a position and have the tools and ability to give you first class work at a price that is very reasonable, quality considered.

Give us a trial.

Hon. B. A. Calhoun Dead.

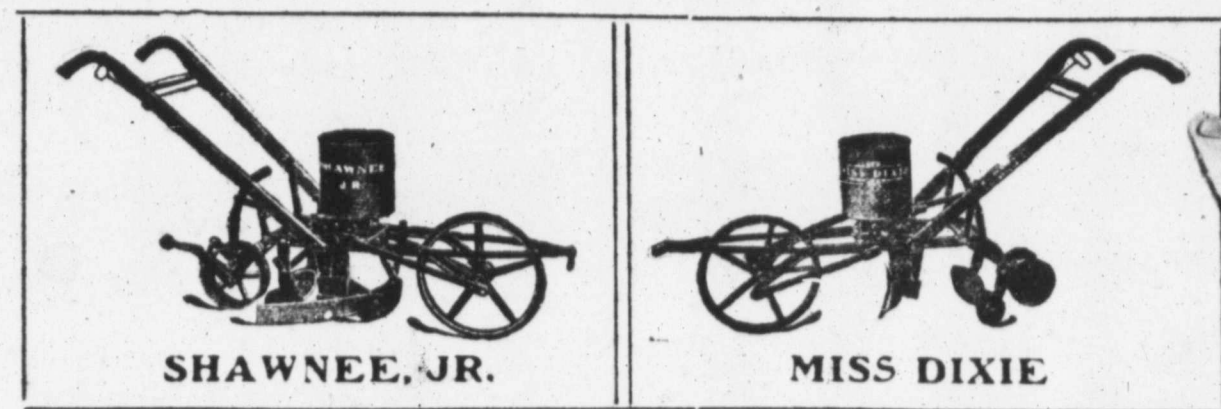

The sad news of the death of Hon. Ben A. Calhoun, which occurred at his home in Lufkin last night at 8:30 come to this town as a great surprise. He was taken sick at Austin last week and came home last Friday accompanied by his friend Hon. A. T. Russell. They were members of the legislature. He had a complication of diseases, and was unconscious from soon after arrival at home till his death.

Mr. Calhoun was born and educated at Atlanta, Ga., and was the only survivor of eighteen children. He came to Texas about 1870, and lived many years at Chireno where he married Miss Josephine Tucker, a sister of Mrs. J. F. Summers of this city. She died Jan. 31, 1914. They had nine children.

Mr. Calhoun was a minister of the Christian church. He was an architect and builder. He served as a member of the legislature from this county, and later from Angelina county.

He was of a most kindly and lovable character and amiable disposition.

His remains will be interred

THE LATEST IMPROVED PERFECT FORCE DROP LIGHT RUNNING Avery Planters

The lateness of planting and the scarcity of seed necessitates the use of perfect economical force drop Planters. It is cheaper to buy a "Locomotive drive," perfect force drop AVERY planter than it is to buy seed to "pour through" that old worn out "seed waster" planter that you have been running.

Seed are expensive this year and a few bushels wasted will cost more than a good Planter.

You must get a "good stand" from the first planting ---there will be no skids or skips if you use an AVERY.

We want you to see the AVERY. It is the best planter we ever saw and we know that you can save money by its use.

Come to our store for what you want in Farm Supplies. We have the biggest and best stock in East Texas and will make you as low price as any one. WE NEED YOU—YOU NEED US.

Intervention Costly.

Chicago, March 16.—It will cost a vast price, both in blood and in treasure, for the United States to intervene in Mexico, declared Vice President Marshall, who is here today on his way to represent President Wilson at the Panama-Pacific exposition. He said intervention would mean taking over the coun-

try, and the United States afterwards might not want it, as in the case of the Philippines, and it would be difficult to dispose of Mexico.

Fifty Years Ago

Editor Sentinel:
Long remembered tonight fifty years ago I made my escape from the yanks after being in prison nineteen months at Aikin landing on the bay, walking and swimming every thing from there to Montgomery, Alabama. There I got transportation within twenty miles of home, making it the 5th day of June, making me twenty-three years of age.

J. M. Cole.

The fate of the fruit crop is now a leading topic and a very important one to middle and northeast Texas. There is no positive conclusion as to whether fruit is totally destroyed or not, but the preponderance of opinion is that nearly all the peach crop is a loss. This is hard luck here.

W. H. Crouch returned from San Antonio Sunday.

From Woden.

The health of the community is not as good as usual.

The farmers are making preparations to plant their crops those that have not already planted.

Our school is progressing nicely, every one seems to be taking an interest in school an trying to do their best.

I think we have got as good a teacher as the county affords.

Miss Nuel McCoy and Miss Lula Parish were visitors at the school Friday afternoon.

The sad news came to Woden today that the baby of Mr. and Mrs. Bob Pike is dead which the community regrets.

Mrs. Dedie Hill is on the sick list at this writing but is better now than has been.

The community met at Simpson camp ground church Sunday afternoon and organized a Sunday school which we hope most success.

Little Armor King was the guest of Mr. and Mrs. J. R. Hobbs Saturday afternoon.

Miss Zeffie Daniels was the guest of Mr. and Mrs. E. H. Hobbs Saturday afternoon.

Mr. Virgil Daniels was the guest of Mr. J. S. Daniels of Melrose Sunday.

Success to the Sentinel and its many readers.

Candidates For Aldermen.

The city needs three good aldermen. They should have character, ability and energy, without a hobby or an "axe to grind". There are plenty of them here, but they are loath to make the personal sacrifice necessary for the public good.

Among the names mentioned are the following: Wm. G. Reid, Geo. H. Meisenheimer, W. Frank Summers, Charles Perkins, Chas. E. Richardson, T. E. Baker. Other suitable men could be named.

This is one of the instances in which she office seeks the man.

The Sentinel suggests that the matter requires general discussion without personal interests.

It was thru the efforts of the Experiment station system that Sudan grass was popularized not only in Texas but thruout the nation, and Mr. Youngblood says that more promising hay and fargo crops will be tested.

Marriage Licenses.

The following marriage licenses have been issued since the last report:

J. Burch and Miss Zuby Mackey.

Carroll Finley and Miss Mary McTeer.

W. M. Petty and Miss Stella Christopher.

A. C. Cordova and Miss Emily Whitton.

Dave Blacksher and Miss Myrtle Bass.

Aldermen Wanted

The daily Sentinel of 18th inst. published a solicitation by a large number of the best citizens of the town for Chas. Hoya, Giles M. Haltom and J. R. McKinney to become candidates for aldermen at the election to be held Apr. 6, for three aldermen. Mr. Haltom and Mr. Hoya have declined through the same columns. Their reasons are given and are plausible.

Now, it behooves the voters to find other candidates. These offices are not profitable, and they have been filled by men who were solicited in the spirit of public benefit or utility, and who accepted in that spirit, as a duty to their fellow townsmen and to the general public.

Mr Haltom refers to duties or burdens that are already on him, as being all that he can assume, and Mr. Hoya refers to his own age.

These are important points in the qualifications requisite, namely, the time and the ability, as well as the will. The town needs active, intelligent business men for these places, men who have the time to devote to the duties, and also the vigor as well as other qualifications.

The voters and others interested should again get busy and initiate candidates of the kind needed by all, and head off any candidates with axes to grind. Individual choices are often public evils.

What About This?

A month or two ago there was a man calling himself E. M. Chamberlain appeared on our streets exhibiting a sample of Sudan grass, and taking orders for seed, to gether with a subscription for a publication called "The Truth About Texas." He represented that he was employed by a Lubbock company, who were handling certified Sudan seed. His showing was fair in every way. A number of farmers here bought seed or gave orders and paid \$1.00 a pound. But, alas, the goods have not been delivered, nor even heard from. Mr. Chamberlain had taken orders at Jacksonville before he came here. No information from there has been received here as to what followed.

In Egypt there is a war spirit and an uprising, that seems to have been included in the spread of the general craze. Sudan is a big part of Egypt. Texas got Sudan grass just in the nick of time, but still there are Texas farmers with "cold feet." They shy off from Sudan grass. They don't know a good thing when they see it.

It is reported that former United States Senator Bailey is to be in Austin during the extra session of the Legislature in the latter part of April. Representative Dayton of Gainesville, Senator Bailey's home, received a letter today to that effect.

GIVES MIDNIGHT ALARM

Farmer Stout was awakened from a sound sleep by the ringing of his telephone bell. The barn of his neighbor, three miles down the turnpike, had been broken into and a driving horse stolen. The horse thieves were headed toward the Stout farm. Calling his hands he armed his forces, lined them upon the turnpike, captured the thieves and held them until the arrival of the Sheriff.

H. E. & W. T. Is Only Texas Road Making A Profit

Dallas, March 17.—Profits of all Texas railways were uncovered at the state railway commission hearing today for an application of an increase in freight rates of 15 per cent. While other lines have been uniformly unprofitable, the Houston, East and West Texas railway, one of the Harriman lines, was shown to be making a profit. However, the improvements contemplated would require a higher freight rate Auditor Cottingham testified.

Where Money Doesn't Count

A new story in yesterday's Telegram tells of the griet-stricken oil king, mourning for the death of his wife, keeping the body out of the grave at his home.

There, in the quiet of the death room, John D. Rockefeller sits beside the coffin of the woman who has been his companion for so many years. One of the most bitterly criticised men of the world, and most of the criticism was deserved—John D. Rockefeller today has the sincere sympathy of the nation his enemies included.

He has met the enemy which could not be bought. He is in a position where money doesn't count.—Houston Telegram.

The peach crop is thought to be uninjured by the frosts, as yet, and there is but little danger ahead. George T. McNess, the superintendent of the state experiment station, has watched closely, and has decided that the fruit crop has thus far escaped injury by the frosts.—Nacogdoches Sentinel.

Hurrah for the fruit crop. If it has escaped damage from frost it has proved to be more sturdy than was supposed. Our friends in the western part of the state declare that Elberta is still with us, for which we give thanks.—Temple Telegram.

Governor Ferguson has signed the 54 hour law for females. That means 9 hours a day. Long labor on foot, no seat or rest, no ventilation no fires, and almost no food, is too much for delicate women.

Hospitality.

I hate to eat at a friend's abode—he makes me carry too big a load. He keeps close tab, and he has a fit, if I show a sign that I'd like to quit. "You do not eat as a host could wish—pray, try some more of the deviled fish. Do put some vinegar on your greens, and take some of the boneless beans, and have a slice of the rich, red beet, and here's a chunk of the potted meat. We'll think our cooking has failed to please, if you don't eat more of the Lima peas, of the stringless squash and the graham rolls, and the doughnuts crisp, with their large round holes. You are no good with the forks and spoons—do try a dish of our home grown prunes!" I eat and eat, at my friend's behest, till the buttons fly from my creaking vest. I stagger home when the meal is o'er, and nightmares come when I sleep and snore; and long thereafter my stomach wails, as though I'd swallowed a keg of nails. Be wise, be kind to the cherished guest, and let him quit when he wants to rest! Don't make him eat through the bill of fare, when you see he's full of a dumb despair!—Walt Mason.

Chas. Hoya Declines.

Nacogdoches, Texas, March 19, 1915.

To the Mayor and others: I read the petition signed by you, published in the Daily Sentinel of the 17th inst., requesting me and Messrs. J. R. McKinney, and G. M. Haltom to become candidates for the office of Aldermen at the ensuing election.

Two years ago at the request of my friends and many of the business men of the city of Nacogdoches, who urged me so persistently to run for Alderman, I consented and was elected. I stated at the time that I would not hold the office for more than two years. There are quite a number of men, much younger than I am, who I believe would make good Aldermen. I assure you, one and all, that I heartily appreciate the confidence you have expressed in me by soliciting me to be a candidate for re-election to the office of Alderman, but owing to my age, and my present business affairs, I must decline to be a candidate for the office.

With many thanks for the kindnesses and favors you have conferred upon me in the past, I am,

Most respectfully,
Chas. Hoya.

Nacogdoches, Texas, March 18, 1915

To Mayor Matthews, and others:

Returning to your petition in yesterday's issue of the Sentinel I see that you solicited Messrs. Chas. Hoya, J. R. McKinney and myself to become candidates for alderman at the coming election. I most sincerely appreciate your confidence and solicitation, but I could not accept this honor. A great deal of my time is already taken up for things of public interest and I can not afford to spare more

"TIZ" GLADDENS SORE, TIRED FEET

No puffed-up, burning, tender, aching feet—no corns or callouses.

"TIZ" makes sore, burning, tired feet fairly dance with delight. Away go the aches and pains, the corns, callouses, blisters, bunions and chilblains. "TIZ" draws out the acids and poisons that puff up your feet. No matter how hard you work, how long you dance, how far you walk, or how long you remain on your feet, "TIZ" brings restful foot comfort. "TIZ" is magical, grand, wonderful for tired, aching, swollen, smarting feet. Ah! how comfortable, how happy you feel. Your feet just tingle for joy; shoes never hurt or seem tight. Get a 25-cent box of "TIZ" now from any drugist or department store. End foot torture forever—wear smaller shoes, keep your feet fresh, sweet and happy. Just think! A whole year's foot comfort for only 25 cents.

of it from my personal business affairs. I am at all times ready and willing to do what I can for the betterment of Nacogdoches and her business interests and never expect to let up in this respect but I could not afford to comply with your request.

Respectfully,
Giles M. Haltom.

Old Bob Fitz Now To Marry Young Woman.

Newark, N. J., March 17.—Robert Fitzsimmons, formerly heavyweight champion, applied for a marriage license here yesterday, announcing that on Saturday he intended to marry Mrs. Temo Slmomin, divorced wife of Henry Slmomin of Portland, Oregon. As Fitzsimmons did not have a certificate of his own divorce, the clerk refused to grant the license until it was produced. Fitzsimmons said he would return with the evidence later. He was accompanied by a young woman Fitzsimmons lives in Dunellen, N. J. He is 58 years old and his fiancee is 28.

Interesting Archives and Records.

In the offices of County Clerk and District Clerk, in Nacogdoches County, there are many very interesting documents and records, interesting on account of their dates, if not more so on account of their contents.

Some of these records and archives reach back to about the year 1790, or 1798, when Capt. Gil Ybarbo first landed here, and found an empty town which he and his colonists adopted for their permanent domicile. They are here yet by descent. They had formerly lived at Ais, now San Augustine.

In moving the District Clerk's office into the new court house, C. C. Watson, the clerk, discovered numerous, old letters to former clerks, and he brought a lot of them to the Sentinel editor, for personal interest. One of these letters is published below, because of its ancient date and its reference to prominent families whose descendents are here and are well known:

Melrose, Texas, November, 22nd, 1860.
W. E. C. Mayfield, Esq. District Clerk,

Nacogdoches, Texas.

Dear Sir and Friend: I received your note a few days since requesting me to see B. M. Hall for you. I have been so busily engaged working the road this week, I have not seen him, but one of his sons is here today and I shall send him your letter which I presume will do.

Respectfully your friend,
B. Hardeman, Jr.

New Court Bill Passes

Austin, Texas, March 18.—By a vote of 82 to 25, the house today passed finally the King senate bill creating the Ninth Judicial District, with the court located at Beaumont. The measure did not receive enough votes to put it into immediate effect, but will be in effect in three months after the adjournment of the present session. The bill was engrossed in the closing hours of yesterday's session in the small hours of this morning.

Beard of Harris made a heated speech against the passage of the measure, and declared that the people of Houston do not want to create the court at Beaumont. Haxthausen of Harris advocated the passage of the measure, and said that the district needs relief, and since Houston failed to get the court, as provided in another bill which was killed recently, he was willing to create a new court to be located at Beaumont, that the people of the district may get relief.

McDowell and Bruce also advocated the passage of the measure. The district created by the present bill contains the counties of Shelby, Nacogdoches, Angelina, San Jacinto, Montgomery, Liberty, Jefferson, Orange, Hardin, Newton, Jasper, Tyler, Polk, Sabine, Panola and San Augustine.

The Shelby Daily Optimist, of Center, Texas, requests friends to report the news, but to omit trivial cases of sickness which may give the town a black eye. Grover Cleveland said tell the truth.

Russ Reservists in U. S. Are Called.

Seattle, Wash., March 16.—Russian reservists in Washington, Oregon, Idaho, Wyoming, Montana, and Alaska have been instructed to join the colors in an order issued by Nicolas Bogioavlensky, Russian consul general here. At the consulate today it was said 25,000 men would be affected.

It is expected a Russian steamer will be chartered to carry the reservists from that consular district to Vladivostok. The order is said to be the first issued by the Russian consul general since the European war began. The reservists must report to their commands not later than April 13 under penalty of being declared deserters.

A Wonderful Healing Influence In Kidney Troubles.

A year and a half ago I was taken with a severe attack of Kidney trouble that pained me to such an extent that morphine had to be given me. Was attended by a doctor who pronounced me Stone in the Bladder and prescribed Lithia Water. I took Lithia Water and Tablets for some time and received no relief from them. I stopped taking medicines for some time, later having some Swamp-Root in the house I decided to try it and felt much relieved. While taking the second bottle commenced to pass Gravel in urine until I had passed in all at least a half dozen or more and have not suffered the slightest since—and in all have taken one bottle and a half and feel very grateful to Swamp-Root.

You are very truly,

Nacogdoches Oil Fields

Editor Sentinel:

Your complimentary reference to the return of Mr. Henry H. Sawyer, to the field of his former operations south of Melrose, 28 years ago, is a well deserved tribute to a very worthy gentleman, and whose acquaintance was a great pleasure to every one with whom he came in contact. His capacity for scientific development of the oil field so long idle and undeveloped was in those days hampered by, not alone the character of the machinery then in use, known as the "Drop drill;" now superceded by the "Hydraulic Rotary," which can penetrate quick sand as well as other formations, but also by the heads of the companies.

Mr. Sawyer was the only operator in the field that kept a log showing the depth of the varying character of stratifications that the drill encountered. Unfortunately all those who had capitalistic control of the operation, were obsessed with the idea that the oil pools lay near the surface and limited the drilling to shallow exploitations. This fatuity was caused by bringing in a flowing well at a depth of 72 feet, about 100 yards above the oil Springs. It veilded together with other shallow borings—as few failed, to pass small veins,—about 2500 barrels of natural lubricating oil of very high viscosity, sure of a market at a price five times greater than the ordinary crude oil that is developed at greater depth but not as profitable in yield.

Since that period, oil has been developed for 150 miles along the Red River Valley, above and below Shreveport, and the field is being extended in all directions; enriching many a land owner who would now be bankrupt, but for its boon which has come like manna from heaven, whether upside down or any magnetic angle, the earth shows to the North Star.

Some enterprising exploiters have appeared in the field from time to time. Some have appeared to be decoys, and some with not enough pocket change to buy a post hole digger in comparison to the capital required.

Nacogdoches land owners do not doubt enjoying a blissful sleep; at least those who have signed leases with the clause, boring on the land will begin two years after oil is developed on the adjoining territory," or words to that effect. I have no knowledge of the area or acreage thus tied up by such vague and tricky leases.

However there must be a good deal, as some leases of that kind were mailed here for my signature from time to time, and from different points, but failed to ensnare me. Of course the day a gusher is brought in, hundreds of derricks of 80 foot standard heights, each capable of handling pipe and casing enough to go down to the pools from whence comes the pressure filling the veins that shallow borings plainly prove to exist over a very wide area. All attempts at development in Nacogdoches with very few

exceptions, seem to be enveloped in mystery. Elsewhere when oil is discovered, the standard Oil Co. fix the price, buy it, and pipe it to market. This billion dollar company has not found it necessary apparently, to engage in developing known fields until recently; chemical science has found new elements that can be commercialized profitably, hence the occasional fluctuations in price that occur, may arise from outside speculations.

Should the people of Nacogdoches care to get together and pledge enough capital to bore a well, a real well, the town would soon fill with visitors and its wealth in land would rise a hundred fold, as it is my firm conviction, it has as great a quantity of oil and gas underlying, its surface as any field that has been developed up to date between Kansas and the Gulf, and one honest well brought in well will unlock the whole county. Five cents per acre in cash subscription, covering 150,000 acres would be enough. My share is ready.

Yours truly,
A. Currie.

The aforesaid "Old San Antonio Road," or King's High Way, from old Natchitoches, La., via old Nacogdoches, Texas and San Antonio, Texas, to Laredo and other Mexican points, is, not so live a topic today as it was a short time since. It needs boosters. To get at its beginning, which was in the times when France and Spain both claimed it, and really both marked it out by adventurous explorers, France from the East and Spain from the west, is no small task. To mark the trail or trace of its original course as it crossed the unexplored and unwritten land, is no easy undertaking. It can be done only by arduous and more or less expensive efforts.

It is proposed to mark this oldest of Texas roads, as it originally was begun and used, from Red River to the Rio Grande, by placing stone markers of certain size and shape along its course at every mile point. Each county is expected to attend to the work within its boundaries. The State is expected to appropriate half the needed funds. It is said that Nacogdoches county will require 28 monuments or markers. The route can be located through this county almost beyond question. There are men here now 75 years old who were born here, and who know the traditions of the early days of Texas. But delay is dangerous.

There are a number of patriotic Texas ladies who have become active in this worthy and sacred work, and who should be encouraged and backed up in it. Among these ladies are Mrs. Lipscomb Norvell, Mrs. Rosine Ryan, and Mrs. George Barham.

The move attracts great sympathy from old time Texans and from all who are Texan patriots. The feet of many pioneer patriots trod this old trail, and among the first were the Catholic Missionaries in quest of heathen souls. But speculators and adventurers of various types assisted. Texas was a fascinating land to many fortune hunters, and this was the road to Texas. The name of Texas originated in Nacogdoches county. Here was Texas first.

San Diego, Cal. March 18.—Distressed parents who are shy one or two children have solved the mystery of finding them. They simply stroll to the upper end of the Plaza de Panama and discover the young hopefuls spending their nickles on grain to feed a few of the 2,000 pigeons that depend on the visitors for their meals. Their confidence is well placed, for the birds are getting so fat they have trouble in flying. On a single day last week the guards report fully 7,000 photographs were made in that section of the grounds, tourists taking pictures of each other with pigeons alighting on the heads and shoulders of those who looked generous.

Mass Meeting Held.

From Monday's Daily: The mass meeting of citizens held at the city hall at 10 a. m. today to consider the means of getting the proposed Stephen F. Austin Normal School for East Texas located at Nacogdoches, was truly a hummer, and no question. There were 63 leading business men of the town present, and each and every one voted himself a committee to promote the work.

Nacogdoches is out after that plum, and you need not doubt that she will get it. Reasons:

Because Nacogdoches is the original and undisputed capital of East Texas.

Nacogdoches is the mother of all Texas, and the true geographical center of East Texas.

Nacogdoches has everything necessary in the way of local advantages, of any and all classes.

Nacogdoches is directly accessible by railroads from all directions.

Nacogdoches is right "on the map." Look at the map—put your pencil down in the very center of East Texas, and there is Nacogdoches, exactly halfway from north to south and from east to west.

All of these points and many others were clearly shown up and thrashed out at the mass meeting this morning.

Adequate committees were appointed and their duties elaborately defined.

The loudest thanks were voted to the committee who reported their recent action at Austin, and due praise was given our members of the legislature. The following committee for general purposes was appointed:

Prof. R. F. Davis, Judge V. E. Middlebrook, Judge S. W. Blount, Hon. S. M. King, Hon. A. T. Russell, Robert Lindsey, W. T. Wilson, D. K. Cason, H. T. Mast, Charles Perkins, E. H. Blount, S. B. Hayter, and John Schmidt, chairman.

When such men as these start after anything they get it.

The Chicago Fiasco

The Philadelphia Telegraph says:

"Chicago women could have overcome the vote of corrupt classes controlled by unscrupulous ward leaders. They had a striking chance to line up sharply with the forces of decency in the Democratic primary. They could have shown the whole nation that the best womanhood of America's second city is intelligently arrayed on the side of clean politics. In this test they failed completely. Their help in defeating Carter H. Harrison was not an astounding thing. It was simply the mediocre, the stale and ordinary thing, which it was fondly hoped the women would rise above."

It would not be fair to allege that Chicago gets a worse city administration under women voters than it would have had with only male suffrage; merely that it does not get a better one. It is not fair to draw as a lesson that women's influence at the

polls is necessarily for municipal bad government, but only that in this case it was not the reverse. Those who looked to see equal suffrage put an end to Chicago's political evils need not be especially shocked, but merely disappointed.—San Antonio Light.

Hog Sense.

"If a hog is kept in a dry lot and fed corn only, he will lose the feeder money every time. It a hog is given all the skim milk he can drink, with an ear of corn each day, or half an ear when he is small, he will grow fast and make the feeder money. If the pig is allowed at the same time, to run in a pasture where he can get bermuda grass, peanuts, cowpeas or alfalfa he will grow fast and at very little expense. He will need little else except a bone-producing food like charcoal or a mixture of one part iron sulphate, one part salt, two parts lime and four parts wood ashes in a box where he can help himself.

"The hog should be given a chance to keep himself clean. A scratching place with a gunny sack dipped in kerosene nailed on it will serve to rid him of dirt and most of the vermin. The sleeping places and troughs should be kept clean, the former sprayed with kerosens and the latter washed out frequently.

"It a hog is fattened on peanuts remember to feed him the last two weeks on corn without peanuts, or the fat will be too oily and soft. But be sure to get a good hog. Don't use a mongrel or cross-breed. The good hog grows the fat in the right places on the body; the razorback will grow mostly to snout, bone, speed and squeal, none of which are of much value to man."

Peanuts.

The peanut is beginning to receive the attention it deserves. It is a machine planted, machine harvested crop, requiring much less labor than cotton, and much more profitable. A contestant of the Texas Industrial Congress for the 1914 prizes realized 1,200 pounds of pork from an acre of peanuts, which at 8½ cents a pound amounts to \$102. The hogs gathered the nuts, so there was no harvesting expense.

The same care should be used in selecting peanut seed as in choosing seed corn. Take the best shaped pods from the most perfect plants producing the largest number of matured pods, cure them properly, and keep them dry through the winter months. The man who chooses his seed with care should, after two or three years, produce almost twice as many bushels per acre as the man who pays no attention to seed selection.

There are several varieties, but most of the nuts grown in Texas are of Spanish variety, used for feed. Nuts grown for the trade are the Virginia Runner, the Virginia Bunch and the African, or North Carolina.

The peanut grows best on a sandy loam soil, well drained and warm, with a clay subsoil. However, loamy black lands will produce good yields, and the darkened color of the shells does not injure the nuts for stock feeding or affect their plant-producing power. Soils that are poorly drained, or sour are not suited to the peanut. If the soil is acid, drain well and supply plenty of lime well harrowed in and plant next year. The Spanish peanut will mature in ninety days under favorable conditions, but one hundred ten to one hundred twenty days should be allowed. The large-podded varieties will require a longer time for best results.

Thrall is a New City.

Georgetown, Tex., March 18.—Since the Rountree Oil gusher was brought in on the Fretz Fuchs farm at Thrall three weeks ago, 225 oil leases have been filed in Williamson County it tracts from 10,725 acres, aggregating 25,000 acres of land. The leases run from \$2 to \$175 per acre and one-eighth royalty on oil and extend from Milam County line to Bastrop and Travis Counties. About \$250,000 has changed hands on land sales and leases in the Thrall country.

A new townsite costing \$50,000 has been laid out at Thrall and a newspaper has been started there. There were only a few houses there three weeks ago.

Who is to Blame.

Foreign Secretary Sir Edward Grey, of London, said "Last July, before the outbreak of war, France, Italy and Russia were ready to accept a conference. Germany refused every suggestion made for settling the dispute in this way, and on her must rest now and for all time the appalling responsibility of having plunged Europe into this war."

Industrial School Site Selected

Since Mrs. Fall as president of the State Federation is a member of the board, and since women's organizations throughout the state, as well as individuals, have donated to the fund, it is the matter of statewide interest to hear the committee who is working towards the establishment of the industrial school for wayward girls of Texas. The board met in Austin and there among other things, located at Gainesville. The next step was to reconvene at Gainesville to see the site. Accordingly, last Monday found them there in consultation with architects. The drive out to the site found every member of the board delighted with the choice. Gainesville made a handsome donation. The location has space, attractive landscape, is convenient to Gainesville and is so far improved as to have three orchards under way. This means much toward a canning club and other employment for the inmates of the school.

It was decided to use the cottage plan. Accordingly several cottages will be erected immediately. By the "cottage" plan the girls of the several grades discipline can be housed together. In advanced industrial schools the promotion for good behavior system prevails. Each cottage will have a matron. In addition a general supervisor will be installed.—Ex.

Worth Money.

Folks often say of Jasper Hunks, "That man is worth a million plunks." Which means he has a mighty hoard in some sly place of safety stored. His value, though, to fellow gents, would not amount to fifty cents. He never helped a human soul since he acquired his bulging roll; he never lets a dime get loose, on pretext or excuse, unless he knows that it will return. He judges all men by their wads; the millionaires rank with the gods, and men who have no pile of kale to Jasper seem both cheap and stale. He kicks at every forward move; he hates to see the town improve, because he fears that better times may tax him for his sacred dimes. He never thinks of aught but cash; all other things to him seem trash; the only books he reads are those which tell how fortune grows; the only pictures which appeal to his old heart of rusty steel, are those which on banknotes are seen—which decorate the good long green. He's worth a million, so they say. Ods bodikins! Alackaday! I wouldn't give ten cents a throw for fifty Jaspers in a row!—Walt Mason.

February and March Worst Months For This Trouble—How to Remove Easily.

There's a reason why nearly everybody freckles in February and March but happily there is also a remedy for these ugly blemishes, and no one need stay freckled.

Simply get an ounce of othine, double strength, from your druggist and apply a little of it, night and morning, and in a few days you should see that even the worst freckles have begun to disappear, while the light ones have vanished entirely. Now is the time to rid yourself of freckles, for if not removed now they may stay all summer, and spoil an otherwise beautiful complexion. Your money back if othine fails.

Soil Erosion.

Terracing, the use of cover crops, and deep plowing will unquestionably greatly diminish the loss from erosion. It is also unquestionable, according to the investigators, that it will pay to do this. On moderate slopes in the Piedmont region of North Carolina the decrease in crop values alone, due to erosion, has been estimated at \$3 an acre yearly, making a total annual loss of over \$2,000,000. The fact that there are many hilly farms where erosion has been stopped, indicates both that that loss, is in a measure, unnecessary and that in certain areas it must amount at present to far more than the \$3 an acre already mentioned as an average.

Red Ink is High

Trade papers say that all printers inks are up and liable to go higher, because Germany, which heretofore has supplied most of the color stuff, needs the basic materials for the manufacture of explosive. There has been only a slight advance in the price of black ink, but all of the colors, particularly red, are as high as a cat's back. The prospect is that prices will go still higher if the war continues, for Germany will make dye-stuffs rather than dye-stuffs.

But "tis an ill wind." We shall be spared the red banner lines. Our war news will be handed out to us appropriately, in black.—Dallas Journal.

Stamford Motor Company

Stamford, Texas 16/25/14.

The Texas Company,
Stamford, Texas.

Gentlemen:-

The more I have to do with Texaco Motor Oil the more I become convinced of its superiority over other oils. Last year we sold about one hundred cars and tried all the leading brands of Lubricating oils and Gasoline but finally centered on TEXACO. It's good enough for us.

I have in mind one car in particular which has used Texaco Motor Oil and Texaco Auto Gasoline exclusively. This car has been in use seventeen months and has traveled 8000 miles. Yesterday we took the spark plugs out for the first time just to see what condition they were in; finding them remarkably clean, they were replaced without any cleaning. The condition of this motor more than anything else prompts me to write this letter. Most of this car's service has been slow running, which all Automobile people know to be harder on a motor than the country roads.

If all the TEXACO products come up to the high standard set by MOTOR OIL and AUTO GASOLINE you should have no trouble in winning the trade.

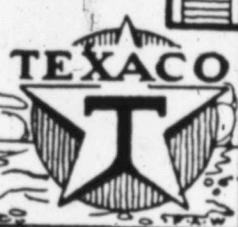

Yours truly,

H. M. Haskins

Mount Lassen Volcano

Redding, Cal., March 20.—The most violent eruption of Mount Lassen, the California volcano, since that mountain began its activities last spring is in progress tonight. At 6 o'clock the volcano had been pouring smoke and ashes into the air for twelve hours with no sign of cessation. This is the eighty-second eruption and is the longest that has been recorded by the volcano.

For the first time persons in Redding, 42 miles from the mountain, were able this afternoon to see the smoke cloud over the volcano.

Rome, via Paris, March 21.—Germans and Austrians who reside in Italy have been advised by their respective consuls to leave the country as quickly as possible.

Wasting Words

"The Dallas Council of Mothers extend greetings and congratulations to the senior classes of the Dallas high schools and begs leave to suggest that they be patriotic and loyal Texans and that the slogan, 'Wear Cotton,' be adopted for their graduation costumes.

We also suggest simplicity in lines and trimming, and that dresses be a uniform distance from the floor, probably three inches, and also ask tue classes to remember that in youth beauty unadorned adorns the most."

There is a whole lot of common sense embodied in this resolution and we hope the girls will heed it. By so doing they can not only lend some impetus to the "Wear Cotton" movement, but they can set an example for economy that is much needed at the present time. We need to get back to some of the old standards which demanded beauty in conduct rather than in dress and refinement in manners rather than mere finery in clothes. The mothers spoke truly when they reminded their daughters that, "In youth beauty unadorned adorns the most," and this same lesson might be picked up by other mothers and impressed upon their daughters while the latter are yet at school and in a receptive mood.—Waco Morning News.

Local Short Course in Agriculture for Farmers.

An effort is being made by the citizens of Nacogdoches to locate one of the new State Normal Schools in our city. This is a worthy object and if secured will mean that Nacogdoches would be the center of higher education in East Texas, and it should be the desire of every citizen of the county that the efforts put forth to secure this school may be rewarded.

There is another worthy object along similar lines which would add another laurel to our city and its people, and that is to secure one of the local short courses in agriculture which are now being offered by the A. & M. College of Texas, through it extension department, and in which the Experiment Station co-operates. The benefits to be derived by our farmers attending such a school for a week in our city would extend its results over the entire county and lead to better farming in all its forms, and the final result would be increased prosperity, not only to the tiller of the soil, but to the business men of the city as well. Closer co-operation between the farmer and the man of the city is badly needed, and the lack of this community spirit in our county is one of the reasons why less favored sections are leaving us behind in the race for progressive prosperity. What encouragement has the city given to the truck growers, the cattle raiser, and the man who wishes to get away from the one farming system of cotton, and attempt to improve his conditions by diversified farming. From observation very little. It is not always financial support that is needed, but moral support at the right time, which will do more to increase the bond of friendship that should exist in any community.

Ignorance of the principles of agriculture is the main cause for so many failures amongst our farmers, and those of us who have had advantages of training for our lives work, should be willing to put forth some effort to secure for our fellow man that which will make the life of the tiller of the soil more pleasant and profitable. When our farmers learn soils, fertilizers, tillage, crop rotations, balanced rations for farm stock and apply this knowledge to their daily occupations, then Nacogdoches county will blossom as the rose, and mortgages and poor crops will be a thing of the past.

The expense to the city to secure this weeks schooling for our brothers on the farm would be slight in contrast to the benefits received. As a rule four instructors are at every school each an expert in his line and during the greater part of the year are engaged in teaching the various branches of agriculture at the A. & M. College. These professors are paid by the college and all the city would have to do, would be to pay their hotel bills and provide a suitable place to hold the school.

Our people should get to-

Delicious "Fruit Laxative" can't harm tender little stomach, liver and bowels.

Look at the tongue, mother! If coated, your little one's stomach, liver and bowels need cleansing at once. When peevish, cross, listless, doesn't sleep, eat or act naturally, or is feverish, stomach sour, breath bad; has sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which contains full directions for babies, children of all ages and for grown-ups.

The weather is the all absorbing untimely topic of our section of the earth. The phenomenal continuance of frosts beyond the usual date is a great surprise, and the consequent delay of Spring a severe disappointment. And the fruit crop is a solicous question. Frosts have appeared successively for several days. This morning the thermometer went down to the remarkable degree of 21, this the 22nd day of March 1915. As to the fate of the fruit it will require several days to decide.

A good treatment for a cold settled in the lungs is a Herrick's Red Pepper Porous Plaster applied to the chest to draw out inflammation, and Ballard's Horehound Syrup to relax tightness. You get the two remedies for the price of one by buying the dollar size Horehound Syrup; there is a porous plaster free with each bottle. Sold by all druggists. tts

Rotation For East Texas.

Commenting upon the fact that the sandy soils of East Texas are usually deficient in plant food and humus, Dr. J. O. Morgan, Professor of Agronomy at the Agricultural and Mechanical College of Texas suggests the following rotation of crops, as a remedy to supply the necessary vegetable material to the soil:—

First Crop—Corn.
Second Crop—Cowpeas or Soy Beans.

Third Crop—Cotton.
"This may seem like a very expensive manner of getting organic material into the soil" states Dr. Morgan, "but it should be remembered that cowpeas or soy beans may be grown in the form of catch crops, following the maturing of the main crops in the rotation, thus leaving the land ready in the spring for cash crops."

A pain in the side or back that catches you when you straighten up calls for a rubbing application of Ballard's Snow Liniment. It relaxes the contracted muscles and permits ordinary bodily motion without suffering or inconvenience. Price 25c, 50c and \$1.00 per bottle. Sold by all druggists. tts

At Troup a pet dog bit Roy Pope, the little son of C. M. Pope. The head of the dog was examined at Austin and signs of rabies found. The child is now there for treatment, which requires 21 days.

W. T. Azbell, ex-postmaster of Edwardsport, Ind., writes: "I suffered from severe trouble with my kidneys and back. First bottle of Foley Kidney Pills gave me relief." Thousands testify that backache, rheumatism, sore muscles, aching joints and bladder weakness vanished when Foley Kidney Pills were taken. Swift Bros. & Smith. eod

If you find something or lose something get the Sentinel to advertise it. The owner will gladly pay a few cents for the benefit.

J. S. (Uncle Dock) Skelton Dead.

J. S. Skelton, familiarly known to almost everyone in the county as Uncle Dock, died Sunday afternoon at 2 o'clock at the residence of Mr. and Mrs. N. T. Sisco, on the upper Melrose road about six miles east of town. Mr. Skelton was 55 years old and left no family.

The cause of Mr. Skelton's death was due to an accident. About two weeks ago he was plowing, and the plow struck a stump and the handle hit him in the stomach, which caused inflammation to set up, from the effects of which he died. He will be buried at Fairview cemetery Monday afternoon at 2 o'clock.

CALOMEL WHEN BILIOUS? NO! STOP! MAKES YOU SICK AND SALIVATES

"Dodson's Liver Tone" is Harmless To Clean Your Sluggish Liver and Bowels.

Ugh! Calomel makes you sick. It's horrible! Take a dose of the dangerous drug tonight and tomorrow you may lose a day's work. Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel, when it comes into contact with sour bile crashes into it, breaking it up. This is when you feel that awful nausea and cramping. If you are sluggish and "all knocked out," if your liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour, just try a spoonful of harmless Dodson's Liver Tone tonight on my guarantee.

Here's my guarantee—Go to any drug store and get a 50-cent bottle of Dodson's Liver Tone. Take a spoonful and if it doesn't straighten you right up and make you feel fine and vigorous I want you to go back to the store and get your money. Dodson's Liver Tone is destroying the sale of calomel because it is real liver medicine; entirely vegetable, therefore it can not salivate or make you sick. I guarantee that one spoonful of Dodson's Liver Tone will put your sluggish liver to work and clean your bowels of that sour bile and constipated waste which is clogging your system and making you feel miserable. I guarantee that a bottle of Dodson's Liver Tone will keep your entire family feeling fine for months. Give it to your children. It is harmless; doesn't gripe and they like its pleasant taste.

A Message To Women

Those of Middle Age Especially.

When you have found no remedy for the horrors that oppress you during change of life, when through the long hours of the day it seems as though your back would break, when your head aches constantly, you are nervous, depressed and suffer from those dreadful bearing down pains, don't forget that Lydia E. Pinkham's Vegetable Compound is the safest and surest remedy, and has carried hundreds of women safely through this critical period.

Read what these three women say:

From Mrs. Hornung, Buffalo, N. Y.

BUFFALO, N. Y.—"I am writing to let you know how much your medicine has done for me. I failed terribly during the last winter and summer and every one remarked about my appearance. I suffered from a female trouble and always had pains in my back, no appetite and at times was very weak.

"I was visiting at a friend's house one day and she thought I needed Lydia E. Pinkham's Vegetable Compound. I took it and have gained eight pounds, have a good appetite and am feeling better every day. Everybody is asking me what I am doing and I recommend Lydia E. Pinkham's Vegetable Compound. You may publish this letter if you wish and I hope others who have the same complaint will see it and get health from your medicine as I did."—Mrs. A. HORNUNG, 91 Stanton St., Buffalo, N. Y.

Made Me Well and Strong.

MACEDON, N. Y.—"I was all run down and very thin in flesh, nervous, no appetite, could not sleep and was weak, and felt badly all the time. The doctors said I had poor blood and what I had was turning to water. I took different medicines which did not help me, but Lydia E. Pinkham's Vegetable Compound made me well and strong, and I am recommending it to my friends."—Mrs. FRED CHACE, R. No. 2, Macedon, N. Y.

The Change of Life.

BELTSVILLE, MD.—"By the use of Lydia E. Pinkham's Vegetable Compound I have successfully passed through a most trying time, the Change of Life. I suffered with a weakness, and had to stay in bed three days at a time. Lydia E. Pinkham's Vegetable Compound restored me to perfect health, and I am praising it for the benefit of other women who suffer as I did."—Mrs. W. S. DUVALL, Route No. 1, Beltsville, Md.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No one sick with woman's ailments does justice to herself if she does not try this famous medicine made from roots and herbs, it has restored so many suffering women to health. Write to LYDIA E. PINKHAM MEDICINE CO. (CONFIDENTIAL) LYNN, MASS., for advice. Your letter will be opened, read and answered by a woman and held in strict confidence.

Harry K. Thaw

New York, March 16—Harry K. Thaw will not be sent back to New Hampshire by the state of New York, as his counsel demanded, but must be returned to Matteawan asylum "unless legal papers calling for his detention in New York county are served on the warden of Tombs prison." Such was Supreme Court Justice Page's decision today in disposing of the formal motion to have Thaw returned to New England.

In the meantime counsel for Thaw, as it anticipating just such a decision, had obtained from Supreme Court Justice Bijur a writ of habeas corpus, which will keep Thaw in Tombs prison till next Friday, when he must be produced in court, when he will have an opportunity to prove his sanity.

TRICK, GLOSSY HAIR FREE FROM DANDRUFF

Girls! Try it! Hair gets soft, fluffy and beautiful—Get a 25 cent bottle of Danderine.

If you care for heavy hair that glitters with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine. Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff. You can not have nice heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots fatten, loosen and die; then the hair falls out fast. Surely get a 25-cent bottle of Danderine's Dandruff from any drug store and just try it.

Pope's Prayer For Peace.

Appalled by the horrors of war into which peoples and nations have been plunged to their ruins, we seek refuge in your heart. O Jesus, as the only place of safety.

From you, O merciful God, we implore a cessation of this immense and cruel hecatomb. From you, O king of peace, we desire a place to which we may hasten with our woes.

From your divine heart you irradiated charity on earth in order that every dissention might be removed, and that only peace should reign among men.

When on earth, you had throbs of the tenderest compassion for human misfortune.

May your heart be moved once more in this hour so grave for us; replete with hatreds so fatal and carnage so horrible.

Have pity on so many mothers in agony over the fate of their children—on unfortunate Europe, over which such a calamity impends. Inspire, O Jesus, the rulers of people with counsels of tenderness to settle the dissensions which are lacerating nations, so that once more men will exchange the kiss of peace.

We appeal to you, who at the price of your blood made them brothers; as one day at the imploring cry of "Save us, Lord, or we are lost!" you answered by calming the gale, so may you answer to our confiding prayer today by restoring peace and tranquility in the world.

You, too, most Holy Virgin, as in other trying times, help us, protect us, save us.

10 CENT "CASCARETS" IF BILIOUS OR COSTIVE

For Sick Headache, Sour Stomach, Sluggish Liver and Bowels—They work while you sleep.

Furred Tongue, Bad Taste, Indigestion, Sallow Skin and Miserable Headaches come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a swill barrel. That's the first step to untold misery—Indigestion, foul gases, bad breath, yellow skin, mental fears, everything that is horrible and nauseating. A Cascaret to-night will give your constipated bowels a thorough cleansing and straighten you out by morning. They work while you sleep—a 10-cent box from your druggist will keep you feeling good for months.

Resolutions of Respect

Nacogdoches, Texas, March, 16, 1915. To the Officers and Members of La Nana Lodge No. 106, K. of P.

Whereas, on the 5th day of March A. D. 1915, The Divine Commander of all Nature, removed from this world to other Life, all that was mortal of James H. Thomas, an exemplary member of La Nana Lodge No. 106, K. of P. Therefore be it resolved by this Lodge in regular meeting:

1st. That in the death of Brother Thomas our lodge has lost a member who has served many years in the most faithful and efficient manner. 2nd. That Brother Thomas deserved and enjoyed the esteem of every member of this Lodge, being exceptionally useful and active from the beginning to the end of his service, and never shirking or in any way evading a duty, and being above every shade of dereliction. 3rd. That in every walk of life under every ordeal, his conduct was a shining example to his fellow men, the pride of his fraternity and the delight of his family. 4th. That this Lodge tenders its sincere condolence to the sorrowing family of our beloved and esteemed brother. 5th. That a copy of these resolutions be spread upon the minutes of our Lodge, a copy be furnished to the family of Brother Thomas, and a copy be furnished the Sentinel for publication.

Jim Fore Got Two Years.

The jury got the case of the State of Texas vs. Jim Fore about 5 o'clock Friday afternoon, and at 9:20 p. m. brought in a verdict of guilty, and assessed the penalty at two years confinement in the penitentiary. It is expected that the defendant will appeal the case.

The offence was the shooting of a man named Brown at the residence of John Fore about seven miles below Melrose, about the 8th day of last September. The trouble arose over the question of Jim Fore wanting to marry an adopted daughter of Brown, which was opposed by Brown. A shot gun loaded with squirrel shot was used, and Brown was instantly killed. Fore never evaded arrest.

The Jacksonville Progress says this, to be memorized.

If you fail to get the Progress regularly we would like for you to let us know about it so we can correct whatever trouble may be the cause of the irregularity. Without the information we cannot tell whether you are getting your paper or not. You do us an injustice if you fail to notify us when you fail to get the paper, but complain when we ask you to pay for the paper.

STOMACH TROUBLE FOR FIVE YEARS

Majority of Friends Thought Mr. Hughes Would Die, But One Helped Him to Recovery.

Pomeroyton, Ky.—In interesting advices from this place, Mr. A. J. Hughes writes as follows: "I was down with stomach trouble for five (5) years, and would have sick headache so bad, at times, that I thought surely I would die. I tried different treatments, but they did not seem to do me any good. I got so bad, I could not eat or sleep, and all my friends, except one, thought I would die. He advised me to try Theford's Black-Draught, and quit

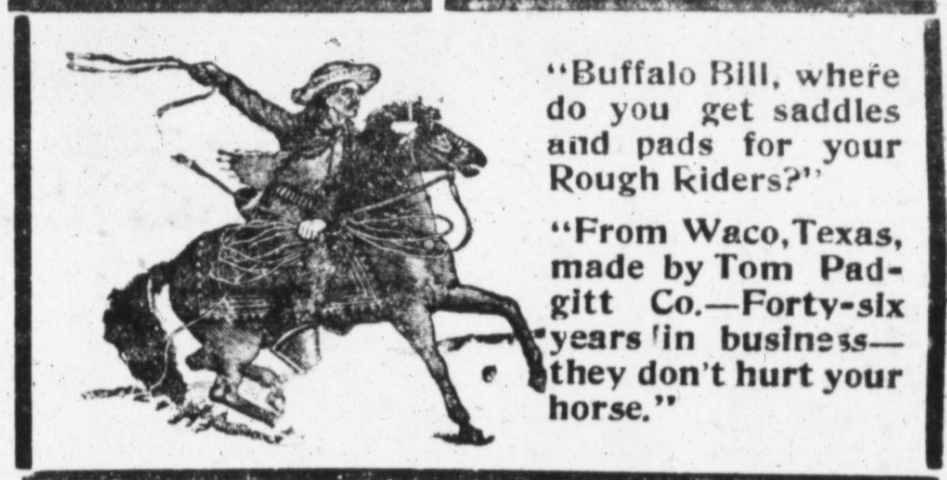

taking other medicine. I decided to take his advice, although I did not have any confidence in it.

I have now been taking Black-Draught for three months, and it has cured me—haven't had those awful sick headaches since I began using it.

I am so thankful for what Black-Draught has done for me."

Theford's Black-Draught has been found a very valuable medicine for derangements of the stomach and liver. It is composed of pure, vegetable herbs, contains no dangerous ingredients, and acts gently, yet surely. It can be freely used by young and old, and should be kept in every family chest.

BACK FROM THE FIRING LINE.

First Aid to the Wounded.

Paris, March 24th: At almost every station on the railroads you will see men shattered and wrecked for life, men who must face the future horribly mutilated, and yet they accept their fate without a murmur of complaint or bitterness. It is the same in England, in France and, I suppose, in Russia, that all soldiers are bearing their sufferings with the greatest of fortitude.

The best aid these men have is within themselves. The human body will best resist infection from bullets when it is healthy, strong, active and with all of its functions fully alive and working. The best aid to this condition is a vegetable tonic and alterative that will first put the stomach and blood right, for these are dependent on one another. Good stomach means good blood, and likewise good blood means good stomach.

Dr. Pierce's Golden Medical Discovery helps the stomach to do its work naturally and properly, stimulates the liver. The system is freed from poisons. The blood is purified. Every organ is rejuvenated. This "Medical Discovery" of Dr. Pierce, is free from alcohol or narcotics. It is made from the roots and barks of American forest plants with triple refined glycerine, and is the best blood purifier, because it banishes from the blood all poison and impure matter. It dissolves impure deposits and carries them out, as it does all impurities through the bowels, kidneys and skin. If you have indigestion, sluggish liver, catarrh, unsteady nerves, or a pimply skin, get Dr. Pierce's Golden Medical Discovery today and start at once to replace your impure blood with the kind that puts energy and ambition into you and brings back youth and vigor.

From Melrose

We are having a very cold equinoctial gale, and hope as the sun has crossed over he will send us the bright warm spring sunshine. The farmers have their corn planted and seem to be working with greater interest than ever before. Sometimes it takes the horrors of war to teach us the lessons we should know, but we must remember that behind every dark cloud there is a bright star, it we will only look and find it.

Bob Pike's baby died Sunday night and was buried at Jacobs Old Chappel Cemetery Monday evening at 4 o'clock.

Benton Wilson from Nacogdoches, made us a short call last week.

Bro. Tinsley spent the noon hour with us today, enroute to Nacogdoches.

Helen Hardeman is convalescent.

Willie Eva Barret is still on the sick list.

Bro. Campbell preached us a splendid sermon Sunday in the afternoon at 3 o'clock. His subject was Heaven.

broken hearted over the sad death of Coleman Risinger at the home play Saturday night the 18th. The young people had gone through the rain, in the cold and with loss of sleep, practicing their play until they had it perfect, their young hearts were so bouyant and gay, when in the twinkling of an eye, one of the bravest and best of leaders was in the throes of death by an innocent accident with a pistol. Mr. Risinger was an exemplary young man, loved by every one that knew him. We all feel that the sad accident was for a purpose, which we will never know until the judgment. The bible tells us to shun the very appearance of evil, and the sight of a pistol is evil. Am sure the young men in that play have learned a lesson that will go with them while the years

When Anybody Finds a Cure He Is Generally Willing To Tell His Neighbor

¶ The willingness of one neighbor to tell another neighbor in a private way of the benefit received from Peruna, explains the popularity of Peruna more than all the advertising that has been done.

¶ The fear of the publicity undoubtedly prevents the majority of such people from writing a testimonial to be used in the newspaper. But in spite of that we are receiving fine testimonials continually.

ANEMIA—Mrs. F. A. DeWitt, Marengo, Ohio, says: "I believe Peruna to be the best tonic. I recommend it for any run-down condition of the system."

SPRING COLDS—Mrs. Rhoda Stufflebeam, Bunch, Iowa: "A spring cold I took settled on my lungs. Coughed. Could not sleep. We feared consumption. Thanks to Peruna, I am a well woman today."

CATARRH—Mrs. Sadie Allen, Joseph, Oregon: "My little boy is entirely cured of catarrh of the ears by Peruna. Am thankful for your good advice."

SPRING TONIC—Mrs. Wm. McRoberts, Brown Valley, Minn.: "Taken in spring Peruna tones up the system, acts as a tonic. I consider Peruna a whole family medicine chest."

¶ How did they hear of Peruna?

¶ Simply because one neighbor is always willing to tell another one he has found a cure. Neighborly conversation of grateful patients has done more for Peruna than advertising. Much more.

roll on. If we would obey God, all would be well with us. The bereaved family have the sympathy of all who knew them and also Mr. Buckner's family. Time alone can efface it from our minds. None of us know what tomorrow will bring, and we do know that the only sure thing in life is death, and God can and will make it all right with those that love and serve him. L. W.

Womans Home Mission Meeting.

The Woman's Home Mission Society of the Methodist church met yesterday afternoon in open meeting at the residence of Mrs. R. W. Haltom. After the general routine of business was over refreshment were served. Mrs. Haltom, the hostess, was assisted by Mrs. C. C. Pierce and Mrs. Lee Wilkerson.

Quite a large crowd were present at the meeting and all repaired to their homes late in the afternoon well pleased with the afternoons meeting.

Miss Marion Eason, assisted at the piano by Mrs. W. J. Teamer sang one of her beautiful solos, which was enjoyed by all present.

Marshall Smith, of Houston, was here yesterday.

Society Women Will See Fight.

Havana, Cuba, March 20.—Cuban and Spanish society women have taken to boxing just as they do to all forms of sports and amusements, and no less than 200 women of the very best class attended the bouts held in the stadium last week. At first the Cuban and Spanish women were loath to take up the new sport but after a number of American women visiting the island attended, they began to realize that the sport was one that they would like, and now it is the fashion to organize box parties for the fights.

So far more than 500 women have reserved seats for the Willard-Johnson battle, scheduled for the race tract in Havana on April 4.

To Miss Cecelia Wright, the charming English girl now visiting in Havana, belongs the greater part of the credit for getting the Havana women interested in the sport. Miss Wright, who is one of the headline attractions of the Keith vaudeville circuit, sang the requiem over the dead in the battleship Maine when that vessel was raised from Havana harbor.
