

Fillies To Regional Meet

TWO POINTS--Judy Strawn, in dark uniform at right, is shown dropping in a close shot with 6:50 remaining in the fourth quarter. This shot brought the Fillies within two points of the lead, 41-43. Lynn Looney is No. 51.

Edge Cotton Center In Playoff Contest

Playing like a sextet of Cinderellas in the final quarter, Coach Milt Fitz' Bovina Fillies downed Cotton Center, 51-48, with a come-from-behind effort Monday night at Littlefield. The win in the first round game of regional play earned the Bovina lassies the right to compete in the regional tournament this weekend at Canyon.

The bi-district tilt was played before a near-full house in the

1200-capacity Littlefield High gym.

Sporting brand-new uniforms for the playoff contest, the District 5-B champions were visibly nervous early in the game, but they never lost their composure.

Though they trailed during some 24 minutes of the game's

(Continued on page 3)

STRATEGY SESSION--Bovina's Fillies are shown "talking things over" during a time-out in the first quarter of the bi-district game Monday night.

Play In Canyon Friday At 3 p.m.

Fillies' first game in the regional tournament, which is scheduled for West Texas State College Fieldhouse at Canyon Friday and Saturday, is slated for 3 p.m. Friday.

The opponent will be the winner of the

Estelline-Samnorwood bi-district game which was played Tuesday night at Clarendon.

The Bovina game will be the first played during the afternoon. The other three

WEDNESDAY, MARCH 3, 1965

Bovina, Texas

VOL. IX NO. 35

WHITTLIN'

BY DOLPH MOTEN

In case you haven't noticed lately, Bovina's newest housing area, Ridgelea, is rapidly filling up with new brick homes.

Pictures in this week's issue of The Blade show a pair of new homes under construction. Plans are on the drawing boards for others and construction on them will, no doubt, get underway soon.

Seems from here that the area has developed rapidly and the end isn't in sight.

The day is approaching, we think, when Ridgelea will be filled and the town will need a new residential development. Maybe that day isn't too far away. We don't mean to try to tend to other people's business, but Ridgelea would be a lot more convenient to drive through and look at if a paved street provided smooth traveling out of the Southwest corner of the development to Eighth Street.

As it is now, you're driving along in Bovina's best part of town and the first thing you know you're off the pavement and onto native grass and little or no road at all.

Understand, the developers have never invited us to come up and drive around so we really don't have a lot of gripe coming. Nonetheless, we think just a few blocks of paving where we mentioned would be worth a lot to the area.

Friends of ours who are fans of the Texas Tech Red Raider basketball team have urgently requested that we refrain from commenting about the fact that their favorite team has withdrawn itself from the Southwest Conference because of the ineligibility of one of their star players.

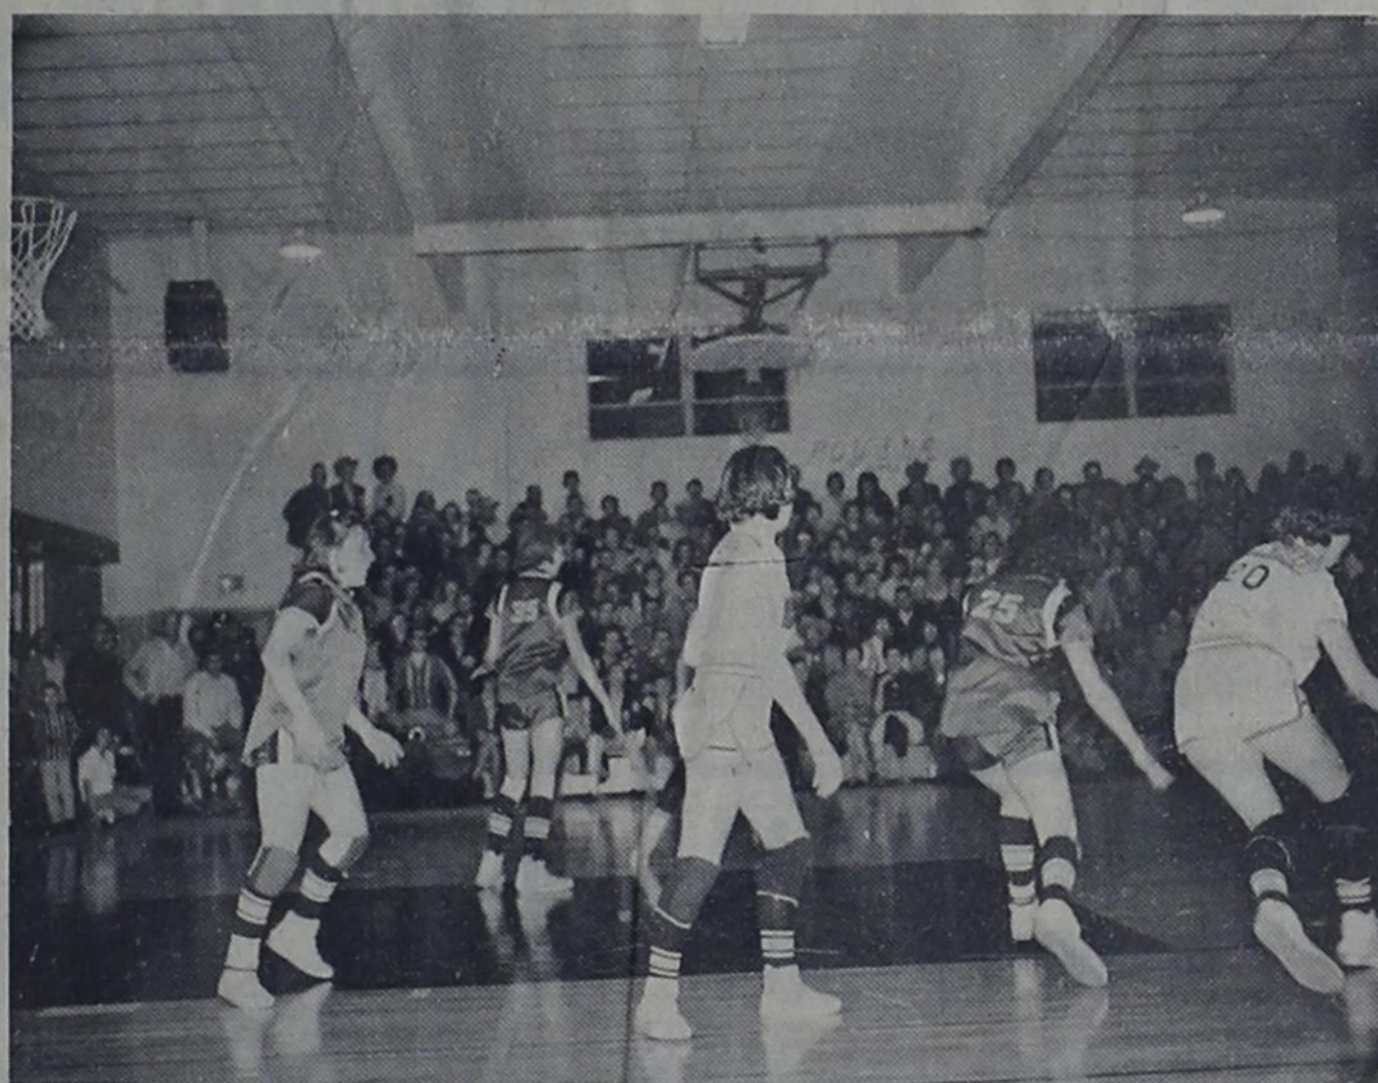

And this withdrawal came about, of course, when the Double T team was all but a cinch to win the Conference championship. "This was a terrible thing to have to happen," is the attitude our TT friends have about the situation.

And we agree; it was. While trying not to bring up old grudges, we can't help but remember that back in the '50's when the Fightin' Texas Aggies didn't go exactly by the Conference book and were given a similar treatment, some of the Texas Tech fans weren't as sympathetic, we thought, as they could have been.

Now that the shoe is on the other foot, we've worked up all the sympathy for them that we possibly can . . . and that's dang'd little!

In spite of the fact that he "laid out" on us last week be-

(Continued on page 2)

GUARDS AT WORK--Bovina's guards are shown keeping Cotton Center forwards well back from the basket during the fourth quarter of Monday night's games. Bovina fans are in the background.

FILING DEADLINE SATURDAY --

Isaac, Trimble In City Race

Two candidates have been petitioned for two places on Bovina's city council.

They are Edward Isaac and C. E. Trimble.

Petitions bearing their names have been submitted at the city hall.

Isaac is owner-manager of Bovina Dry Goods and Trimble is a farmer.

Signers of the petitions for each of the candidates were Alfred L. Moody, John Wilson, Bobby Englant, Kathryn Johnston, A. E. Crump, Doris Wilson and A. L. Kerby.

Isaac has also been petitioned as a school board candidate.

They are seeking election to positions on the six-man council now held by Jim Russell and H. J. Charles. Russell and Charles are completing their first two-year terms.

Weather by Willie

This March will be wetter than usual. Yearly average for March is only .83 of an inch over the past 72 years. In 1922, we got 4.06 inches of moisture. Not likely that much this month.

No other comment for this week.

2-Inch Snow Falls Monday

Ignoring the fact that March is the first month of Spring, Winter weather dumped the area's largest amount of snow of the year Monday, the first day of the month.

The two-inch snow was preceded Sunday night by a small amount of rain.

Temperatures were slightly above freezing Monday morning, but dropped below the 32 degree mark during the day.

Snow stopped Monday afternoon, but the temperature continued to drop and was near the 15 degree mark Tuesday morning.

The snow was of the wettest variety received here this winter and coupled with the rain which it followed brought an appreciable amount of moisture.

IN STORE'S HISTORY --

Wilson's Event Most Successful

"The most successful in our 18 years in business" was the report from Wilson's Super Market in regard to the firm's 18th anniversary celebration Thursday, Friday and Saturday.

Saturday was the big day of the three-day event with samples of various grocery products being given to shoppers.

Eighteen baskets of groceries, valued at \$25 each, were awarded to lucky shoppers dur-

PETITION ONE MORE--

Nine Seek Posts On School Board

Today (Wednesday) is the deadline for school board candidates to file for next month's election.

Total number of candidates presently stands at nine with one being petitioned since last week.

Edward Isaac, owner-manager of Bovina Dry Goods, is the latest candidate in the race for three of seven school board positions. Isaac has also been petitioned as a candidate to the city council.

The other eight candidates are Johnnie Horn, present presi-

dent of the board, and Vernon Estes, who are seeking re-election; Leon Grissom, Billy Marshall, Lloyd Gober, Paul Jones, Leslie McCain and Eddie G. Steeman.

Isaac's petition was signed by Doris Wilson, Charles E. Trimble, Don Sides, Kate Queen, Otis White and Emmett Tabor.

The election will be Saturday, April 3.

J.W. Harris is the other trustee whose term expires. He is not seeking re-election.

Mrs. Pearl Dodson, school tax assessor-collector, reminds that candidates must sign a loyalty oath prior to being certified as candidates. This

Mrs. W. J. Parker Funeral Saturday

Funeral services were conducted Saturday afternoon at 3 p.m. at Bovina Church of Christ for Mrs. Orpha Jane Parker. Mrs. Parker, 80, passed away Thursday morning at Southwest Convalescent Center in Amarillo, where she had lived the past several months.

Mrs. Parker was born in Garrison, Dec. 22, 1884. She married W.J. Parker in 1902 and they moved to this area in 1914 and to this community in 1919.

Mr. Parker preceded his wife in death on July 30 of last year.

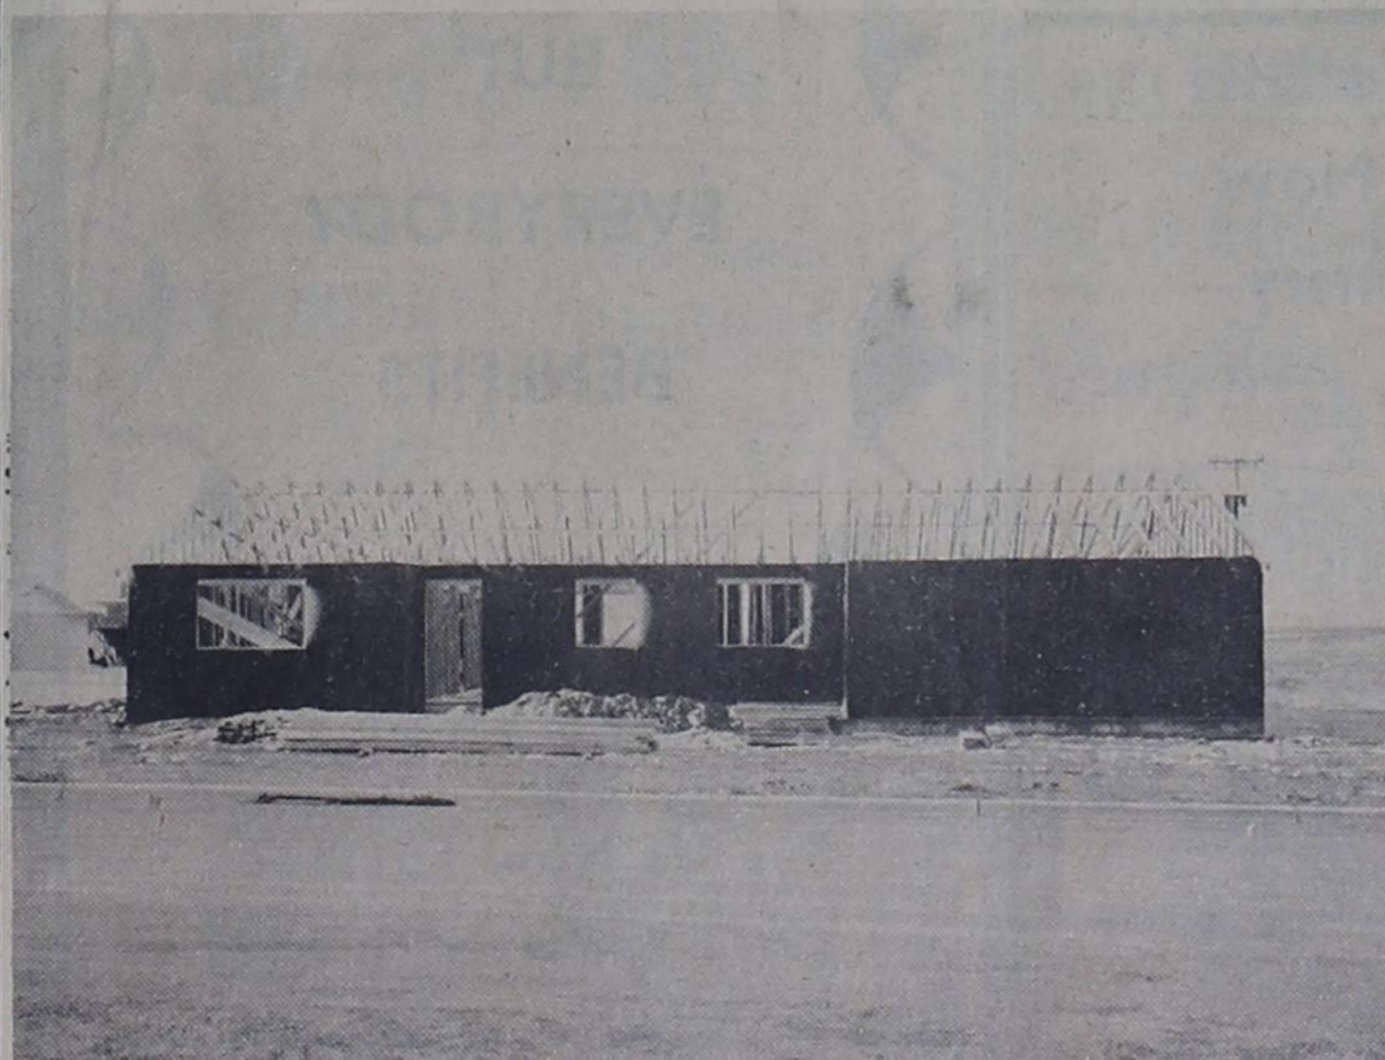

She was a member of Bovina Church of Christ.

Don Stone, minister of the

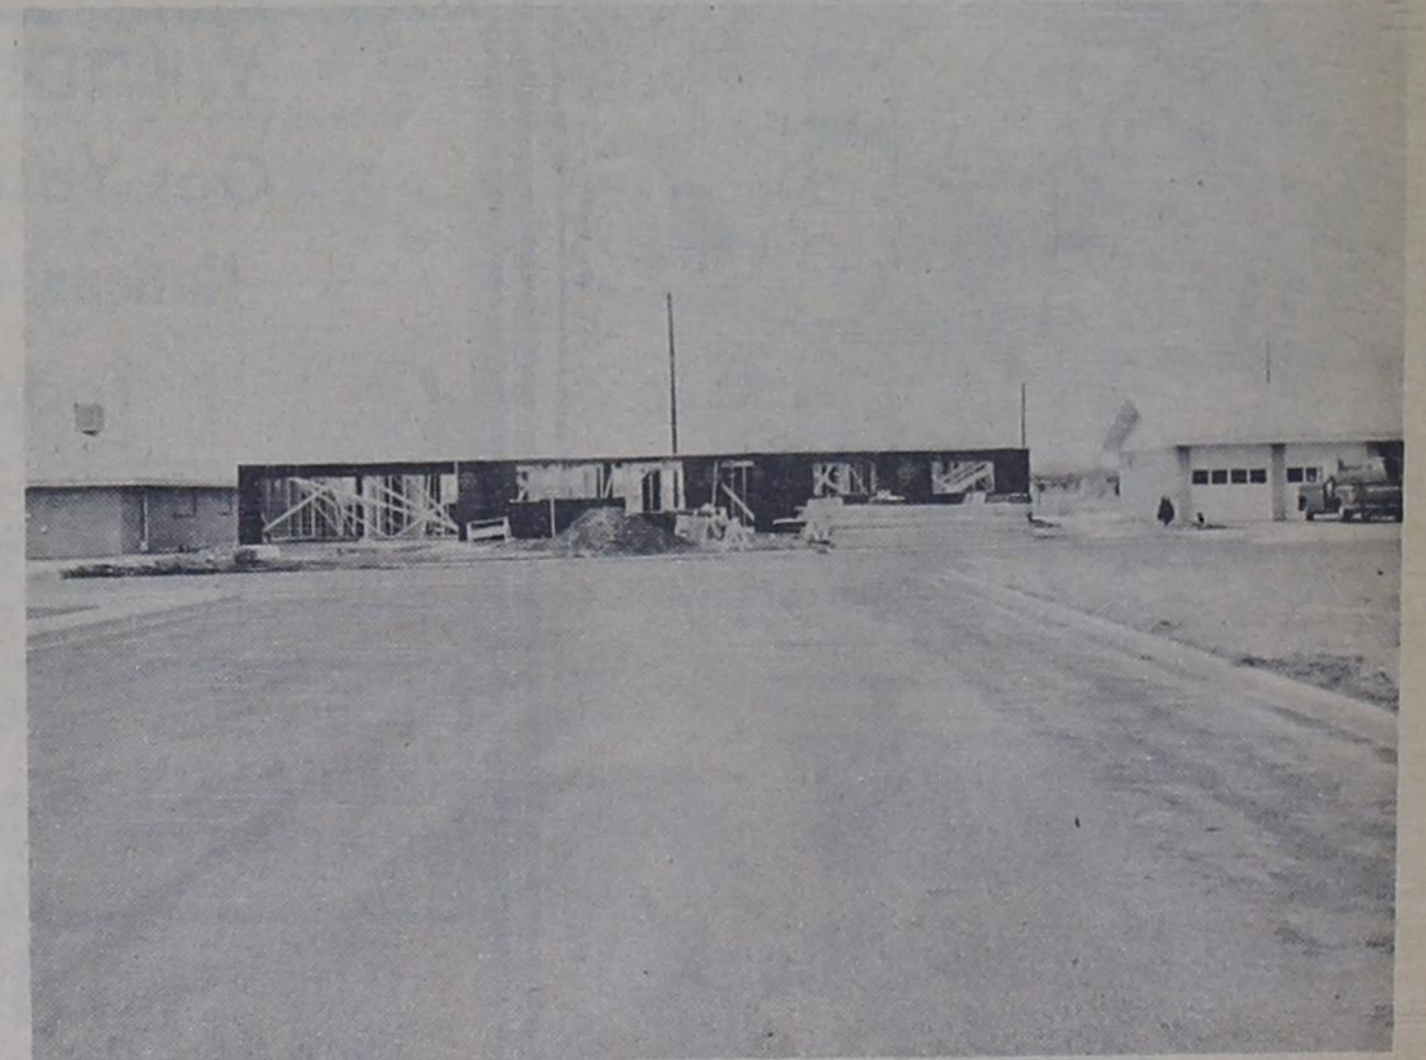

Church, officiated. He was assisted by Bob Monk, instructor at McMurray College in Abilene. Interment was in Bovina Cemetery under the direction of Claborn Funeral Home of Friona.

Survivors are three sons; Oscar and Ell D. of Amarillo and Billy of Holbrook, Arizona; one daughter, Mrs. Jewell Wilson of Atwater, California; four grandchildren and eight great-grandchildren. Also a sister, Mrs. J.C. Ingram, of Garrison, survives.

Serving as pallbearers were J.E. Sherrill, Robert Read, Marlin Ferguson, Rex Beardain, Joe Pinner and Bill Denney.

RIDGELEA'S A BUILDING -- Two new brick homes now under construction in Bovina's newest housing area, Ridgelea Addition, are shown here. At left, with the rafters just in place, is the

home of Mr. and Mrs. J. E. Sherrill, located in the Southwest portion of the development. At right is the new home of Mr. and Mrs. Oakley Stevenson.

NEWSLETTER
 From U. S. Senator
RALPH W. YARBOROUGH

Six Years Ago
 March 4, 1959
 Bovina Fillies won the bi-district game over Cotton Center, 52-45, and will now play in the regional tourney at Canyon. The Mustangs lost a heart breaker in the first round of regional play at Canyon to Hedley, 35-32.
 Funeral Services were held at the First Baptist Church Friday, for Mrs. Don Garrett, 28, who passed away Wednesday following a short illness.

Dear Fellow Texan:
 On the day before the Senate passed the Economic Opportunity Act of 1964, I said "as we declare war on poverty, we dedicate ourselves to the blasting away of these last remaining barriers to the economic advancement of the economically lowest one-fifth of our Nation."
 Since that time, this act has already begun to undermine the causes of poverty by providing the poor with education, training and job opportunities.

Two additional names were added to the slate for city commissioner election. They are Bedford Caldwell and I. W. Quikkel.
 Barbara Rea was named Gold Star Girl for the county in 4-H work. She was presented a gold pin for her achievement.
 A car belonging to F. O. Turner was stolen from his home near Bovina. The thief was arrested in Plainview and the car was recovered before Turner was aware that it was missing.
 Lee Terry was named winner of the Intermediate division of Bovina Science Fair with his electro-magnetic crane.
 Scooter Queen purchased the five and dime store from Mrs. Alice Moore.

The impact of "hope for the future" has already been felt in Texas. For instance, last month, a loan to an elderly low income farmer in Long Branch saved his farm from foreclosure.
 Under the Job Corps program, young people who are largely unemployable because they lack education and job skills are given training and basic work experience so that they are able to get a job.
 The Gary Center in San Marcos, has been authorized more than 1 1/2 million dollars for the operation of such a Job Corps Center. More than \$780,000 worth of excess equipment and supplies has been acquired from Federal surpluses for the preparation of this center. By March 1, over 300 youths will begin training, and in a year the number should reach 2,000.
 Still in the planning stage is a proposal for a 100-man Job Corps Conservation Center at Big Bend National Park. This was proposed by the National Park Service and would include development of water facilities for wildlife; trail and road construction; surveying and marking boundaries; forestation, and other conservation projects.

Three Years Ago
 February 28, 1962
 The city commission has been petitioned to call an election to change the form of city government for Bovina. They will vote on changing to alderman. This would increase the number of elected officials and would give better representation.
 A petition naming the three incumbents as candidates for re-election to the school board has been filed. It bears the names of Tom Caldwell, Thomas Beauchamp and Dean McCallum. No other candidates have filed. A petition naming three other candidates will be ignored since signatures on the petition have been disqualified as forgeries.

Another facet of the program provides employment and investment incentives through a relaxation of credit criteria by the Small Business Administration. During last December alone, this agency approved loans for 75 Texas companies, amounting to more than \$1 1/2 million, and affecting more than 600 employees.

Three couples gathered to help celebrate the 52nd wedding anniversary of Mr. and Mrs. D. W. Carpenter. Each of the other three couples have celebrated their 50th anniversary. They were Mr. and Mrs. A. T. Kersey, Mr. and Mrs. Fred Kepley and Mr. and Mrs. E. W. McGuire.

Under other programs of the Act, Texas has been appropriated \$1,411,483 for basic Adult Education. In addition, the Corpus Christi Independent School District has been given a grant of \$135,000 for a neighborhood Youth Corps.

Funeral services were held Wednesday for Joe Paul, 92, long time area resident. He was the father of Miss Grace Paul, Bovina Junior high teacher.

One of the most important parts of the Act is the "Community Action Program," where projects proposed by a rural or urban community that will help the needy obtain jobs or improve their education and living conditions are supported. So far, Texas has received a technical assistance grant of \$70,000, and another grant of \$295,000 has been given to the Community Committee of Youth Education and Job Opportunity in Corpus Christi.

A small crowd of only 20 people were present for the annual general membership meeting of Bovina Chamber and Agriculture. Checks were awarded to Charlie Owen for the first bale of cotton and Joe Pinner for the first load of milo.

In San Antonio there are twelve volunteers who will work under the supervision of Action for Community Development. Under this program, called VISTA, these volunteers are used in projects in furtherance of state and local programs combating poverty.

With these programs, we are already striking at poverty's roots in Texas by making a systematic effort in eliminating the complex problems of poverty.

If your wooden salad bowls are dry and rough from continued washing, here's a simple remedy. Rub a little salad oil into the grain of the wood, repeating until bowls regain some of their glossy finish.

City Race --

(Continued from page 1)

Deadline for candidates to file or to have their names petitioned on the ballot is Saturday -- March 6 -- 30 days prior to the election which is slated for Tuesday, April 6.
 Candidates may file with, or petitions may be submitted to, Mrs. Mary Ruth Martin, city secretary, at the city hall.

Bowling was introduced to the United States in 1611 when settlers bowled on the streets of Jamestown, Va.

Wilson's Event --

(Continued from page 1)

Barraza, Edna Kunselman, Mrs. James Clayton, Pearl Moore, Ben Alonzo, Mildred Davies and Otis Spears.

Elsie doll winners were Charles Gilbreath, Dale Merrill, Ina Quintana, Jesus Cano, Flossie Rhinehart and LaJuana Hastings.

"The wonderful response of our customers to our birthday celebration was greatly appreciated," says A. M. Wilson, store owner.

The vent was advertised exclusively in The Bovina Blade.

G.S.P.A. Meeting Tuesday

Election of officers will highlight annual meeting of Farmer County Grain Sorghum Producers Association which is to be Tuesday night at 8 in Bovina school cafeteria.

Announcement of the meeting has been by Tom Caldwell, Oklahoma Lane farmer, who is president of the association. Dub Anthony, Jr., Friona farmer and vice president, will be the speaker.

Directors of the association, other than Caldwell and Anthony, are Ellis Tatum of Black, Elmer Hargrove of Farwell, J.D. Kirkpatrick of Bovina and Gene Smith of Lazbuddie. Caldwell urges all grain sorghum producers in the county to attend the annual session.
 Coffee and Spudnuts will be served.

Schedule Ticket Campaign

Ticket sales campaign for fifth annual banquet of Bovina Chamber of Commerce and Agriculture will be launched at a directors meeting tomorrow (Thursday) at noon in Bovina Restaurant.

The banquet is scheduled for Thursday, March 18. Tom Lavin, a professional after-dinner speaker from Atlanta, will be guest speaker.

Tickets will be sold for \$2.50 each. They will be available from directors and at various business places in town.

Today (Wednesday) is the deadline for chamber members to cast their ballots by mail for seven new directors, announces Jack McCracken, manager-secretary of the chamber.

cause of illness, Willie the Weatherman continues to be about the best forecaster of what's to come weatherwise in the business.

Last month, two or three week's ago, Willie pointed out that the area's biggest snow would come in March.

What happens the first day of March? We get the largest snow of the season.

You just can't beat weather forecasting accuracy like that!

Jack McCracken got out the annual chamber newsletter last week, outlining the accomplishments of the chamber during the past year.

He did his usual good job in compiling the report and it makes you proud of your community and its primary supporting organization. If you're interested in Bovina, the letter makes interesting reading, as usual.

People who knock the chamber, and they're few, thank goodness, are in effect knocking themselves and their community. There isn't any group

or organization here more interested in this community, and that alone, than is the chamber of commerce and agriculture.

Needless to say, it won't ever have the support of everyone in the community, but certainly it deserves it, if anything does.

We throw in those few kind words for the chamber for several reasons, one of which is that it's time right now, today, to pay 1965 dues.

We don't know of a better investment in your community for this year than paying your chamber dues.

The chamber's projects aren't all successful, but Abraham Lincoln was not successful in all his political endeavors, either.

School Board --
 (Continued from page 1)

may be done at the school tax office.

Absentee voting begins March 15 and continues through March 30, she announces.

Other members of the board of trustees are Grady Sorley and Don Murphy, who have one year remaining on their present terms; and Robert Read and Durwood Bell, who have two years to serve.

Keith McCutchan also competed in the scramble.

The boys were accompanied to Houston by John Paul Jones, chapter advisor.

In the calf scramble, 20 boys attempted to catch and halter 10 calves and return them to the finish line. Carson was the second of the 10 successful boys to get his calf back across the line, Jones says.

Sponsor of Carson's calf is Houston Agricultural Credit Association.

Edge Cotton Center-- (Continued from page 1)

32, they refused to give up and battled on for the win over the Cotton Center girls, who came into the playoff with a gaudy 29-5 record.

Lynn Looney put the game on ice for the Fillies with 0:23 remaining to be played. Bovina had a one-point, 49-48 lead at that point, when she went in for a lay-up and was fouled. She made both free throws to give the Maroon-and-White a three-point spread which would have been almost impossible for Cotton Center to overcome in the remaining few seconds. As it was, the CC girls threw the ball out of bounds and the Fillies were in possession as their thrilled and excited fans counted off the final 10 seconds on the scoreboard clock.

Judy Strawn made 21 points for Bovina as did Looney. Sandra Patterson contributed nine for Bovina's total of 51. Sherri Burnett, who made 21 points in the first half for Cotton Center, was high for the losers with that total. She didn't score in the last two quarters.

The Fillies drew first blood and held a scant lead through midway of the first period. But the sharp-eyed, long-shooting CC forwards took over at that point and kept their team in control of the game until Bovina got the lead back with 2:15 left to play in the game.

Cotton Center had compiled a four-point, 14-10 lead at the end of the first eight minutes. They had a comfortable margin of six points, 32-26, when the teams took their halftime break. Coach Flitts' girls tied the score briefly at 21-21 with 3:50 remaining in the second period.

At the three-quarters mark, The Fillies still trailed by five, 41-36, and Bovina's hopes weren't bright.

They dropped seven points behind early in the fourth period before beginning the climb to overtake the lead.

Cotton Center went into a semi-stall with slightly less than four minutes to play and many fans thought this proved to be the losers' undoing.

Patterson hit a pair of jump shots to keep the Fillies within one-point striking distance of the lead with more than three minutes to go. The lead changed hands with 2:15 to play on a two-pointer by Looney.

A violation by Cotton Center with 1:42 remaining gave Bovina possession, but the ball was quickly lost at the center line and this looked as if it might be the break which would give Cotton Center the victory.

They missed two long shots, however, before losing the rebound. That's when Bovina's hustling guards fired the ball to the offensive end of the court and Looney was fouled on the lay-up with 0:23 remaining.

Coach Flitts stayed with his starting six girls throughout the game. The guards were Linda Estes, Tonya Ivy and Kathy Mlynen.

Bovina scoring:

	FG	FT	TOTAL
Looney	7	7	21
Strawn	9	3	21
Patterson	3	3	9
			51

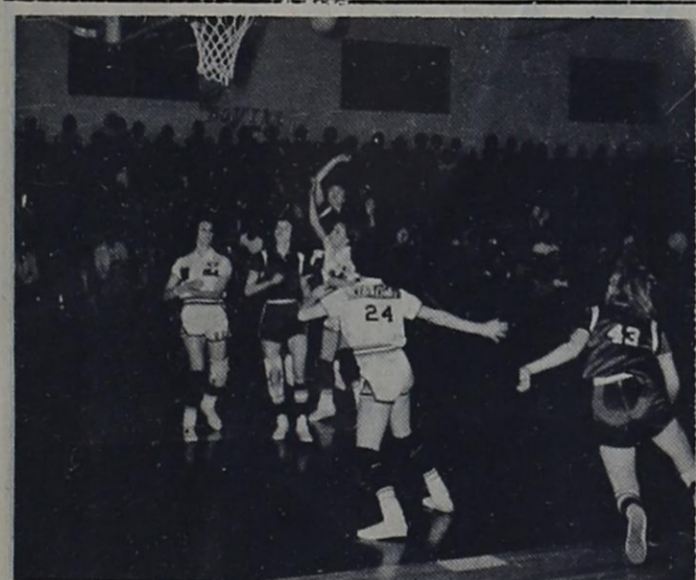

Play Friday-- (Continued from page 1)

opening round tournament games begin at 4:15, 7 and 8 p.m.

The winning team in the regional tournament will advance to the state tournament in Austin the following weekend.

If the Fillies win their opening round game, they will play in the semi-finals Saturday morning at 10. Finals are scheduled for Saturday at 7 p.m.

Superintendent Otis Spears says that school will be dismissed Friday afternoon so students may attend the game. Exact time that classes will close will be announced at school, he says.

JUMP SHOT--Sandra Patterson is getting away a jump shot in the Cotton Center game as Lynn Looney, dark uniform left, and Judy Strawn, No. 43, prepare to rebound.

Young Farmers Group Started In Friona

Twenty-six persons were made charter members at an organizational meeting of the Friona Young Farmers Association chapter last Thursday at the school cafeteria.

Next meeting of the organization will be Thursday, March 18. Anyone joining by that date will still be considered a charter member, it was announced.

While the chapter has adapted the name of "Friona," it was pointed out that any young farmer or anyone else interested in agriculture in the county, up to age 35, may join the group. Those over 35 may become associate members.

Jarrell Wright was elected president at the organizational meeting. Jimmy Mabry was named vice president, Dwain Menefee is secretary, Larry Fairchild treasurer and Warren Conner publicity chairman.

Of Interest To THE WOMEN

Cast of the opera "Soffa Pillio" presented Sunday night at First Baptist Church were, left to right, Al Shamblin, Ronnie Glasscock, Billy Minter, Larry Dendy, Richard Carson and Scotty Rundell.

Pizza Party Has Opera

Highlighting a Pizza party Sunday night at First Baptist Church was the presentation of a tragic opera, "Soffa Pillio." Starring in the roll of Miss Pillio was Billy Minter. The supporting cast was made up of the two maids, Miss Sweep Upio and Miss Soapallo, played by Larry Dendy and Al Shamblin; her suitor, Rudebagio, Richard Carson; and her rejected lover, Spaghetti, Scotty Rundell.

Parish Women Attend Retreat

Twenty women of St. Ann's Parish attended a special retreat recently at St. Anthony's Church in Hereford. Leader of the retreat was Rev. Alexander Beaton, assistant pastor of St. Anthony's.

Variety Club Meets In Roberts Home

Oklahoma Lane Variety Club met recently in the home of Mrs. W. M. Roberts in Farwell. The ladies spent the afternoon visiting and embroidering cup towels for the hostess.

Class Party Held At Gym

Friendship Class of Bovina Methodist Church had a social Saturday night at the school gym. They played games of volleyball and ping-pong and visited. Each family brought a sack supper and David Gamble and Mr. and Mrs. John Gamble furnished cokes and coffee.

Club Has Two New Members

Good Neighbor Club met recently in the home of Mrs. Grady Hall. The ladies visited and did handwork during the afternoon.

Bridge Hosted By Mrs. McMeans

Mrs. Bob McMeans hosted a bridge luncheon in her home Wednesday for the Young Women's club. The group brought sack lunches and the hostess served pie, cake, spiced tea, coffee and cokes.

Shower For Mrs. Brumit Tomorrow

Mrs. Jim Brumit will be honored at a pink and blue shower tomorrow (Thursday) at 3 p.m. at Fellowship Hall of First Baptist Church.

Party Honors Nine Year Old

Margaret Ann Minter, daughter of Mr. and Mrs. Henry Minter, was honored recently with a birthday party at her home. She was nine years old. The valentine theme was carried out in the decorations and games. The birthday cake was red and white and was in the form of two hearts entwined, topped with candles and "Happy Birthday Sissy". It was served with heart shaped sandwiches and Cokes.

Shower For Mrs. Brumit Tomorrow

Mrs. Jim Brumit will be honored at a pink and blue shower tomorrow (Thursday) at 3 p.m. at Fellowship Hall of First Baptist Church.

Party Honors Nine Year Old

Margaret Ann Minter, daughter of Mr. and Mrs. Henry Minter, was honored recently with a birthday party at her home. She was nine years old. The valentine theme was carried out in the decorations and games. The birthday cake was red and white and was in the form of two hearts entwined, topped with candles and "Happy Birthday Sissy". It was served with heart shaped sandwiches and Cokes.

Visiting in the home of Mr. and Mrs. Bob Williford Sunday were his nephew and wife, Mr. and Mrs. Afton Williford of Lubbock and Mr. and Mrs. Hal Ferguson of Littlefield.

Dinner Honors Mrs. Free

Mrs. Ola Free, long-time Bovina resident, was honored Sunday by members of the Pentecostal Holiness Church with a birthday dinner.

4-H Meet Postponed

Regular monthly meeting of Bovina 4-H Clubs scheduled for Monday night was postponed due to the weather and the conflict with the basketball game at Littlefield.

JACK BOGGS

Voice Lessons Available Here

Jack Boggs, minister of music and education of Bovina Baptist Church, has announced that he is available for private voice instruction. Boggs is a graduate of Hardin-Simmons University with a major in voice. He was a soloist for the College Choir during his college days and was also a member of the College Male Quartet. He has sung professionally on a TV show in El Paso and has done recording work with an organization called the "Singing Churchmen."

You are invited to help celebrate the eighty-eighth birthday of Granny Gaines Sunday, March 7, 1965 in her home

Lunch will be served from 12:30 to 3 p. m. Open house between the hours 3 and 5 p. m.

Granny Gaines To Be Honored On 88th Birthday

Mrs. J. Sam (Granny) Gaines will celebrate her eighty-eighth birthday, Sunday, March 7. Lunch will be served from 12:30 to 3 p.m., and open house will be held from 3 to 5 p.m. Friends are cordially invited to attend and bring a covered dish to the birthday celebration which is hosted by Granny Gaines' daughter, Mrs. Lady Armstrong.

Star Righters Elect Officers

The Star Righters square dance club met Friday night at the Legion Hall for a dance and called meeting. During the business session officers were re-elected and plans were discussed for a fund raising dance to be held this spring. Officers re-elected include Bobby Fillpot, president; Dorothy Ware, secretary-treasurer and Pat Hawkins, publicity chairman.

March 9. The lessons will cover a ten-week period at a maximum charge of \$25 per couple. If 16 or more couples enroll the charge will be less. Joe Greer, caller from Littlefield, will be the instructor. Greer also instructed the previous series of lessons and is presently serving as caller for the club. Couples interested may contact club members or be present March 9 at 8 p.m. at the Legion Hall.

WMU Plans Week Of Prayer

WMU of Bovina First Baptist Church will have its week of prayer program for Home Missions March 7-14. Study for the week will be "Our Land Shall Own Thee Lord." The week of prayer is held throughout the Southern Baptist Convention and the Annie Armstrong offering for Home Missions will be taken during the week. The goal for the Convention is \$3,690,000.

Squaredancers To Convention In El Paso

Mr. and Mrs. Tom Ware, Mr. and Mrs. Glendon Suddarth, Mr. and Mrs. Joe Bob Jones, Mr. and Mrs. Erith A. Hawkins, and Mr. and Mrs. Donald Rucker are going to El Paso this week-end to attend the state square dance festival. The festival will be held at the Coliseum with some nationally known callers attending. Between 3500 and 4000 dancers from over the state of Texas are expected to be present.

Parish Women Attend Retreat

Twenty women of St. Ann's Parish attended a special retreat recently at St. Anthony's Church in Hereford. Leader of the retreat was Rev. Alexander Beaton, assistant pastor of St. Anthony's.

Blade Banter

By Jeanne Kerby

After writing our column last week, we did see an advertisement for Ovaltine in the current Reader's Digest. However, I guess they have decided, if you can't fight 'em, join 'em. The advertisement now declares it to be a filling and nutritious drink for between meals to cut down your appetite and help you stay slim and trim. I guess there just isn't any hope for those persons who would like to gain some weight.

A friend of ours, who had beautiful roses, told me several years ago that you should prune them either in November or February. I never get it done in November, so I rushed out last Friday afternoon to get them pruned before February was gone. They had already started to leaf out and several bushes had small full leaves on them. Some of the fruit trees are also trying to bud out. Even though I wish it were Spring, I'm afraid there are going to be a lot of plants killed before the weather warms to stay.

Congratulations are again in order for the Fillies and Coach Fitts. We want to wish them the best of luck at Canyon this week-end.

I hope everyone will support our girls at Canyon (and I'm sure they will). All the fans who missed the game Monday night missed a thriller as the Fillies fought back to win in the closing minutes of the game.

We saw several of the girls at the game who were on the 1950 Fillie team, who also defeated Cotton Center, in bidistrict, and went on to take second in state. They were reminiscing about their ball playing days and the memories the game had brought back.

We hope the 1965 Fillies can also go to Austin and the "big one." We haven't been to Austin since '59 and it's time we went back to see how the town is coming along.

Did you notice the icicles Tuesday morning? The wind was blowing hard enough when they were freezing that they were hanging at quite an angle. It made them look most unusual.

This Week's DEVOTIONAL

TWO FATHERS

Two men and a lad are before your eyes. All are strangers to you. Which is the father? This could be very difficult to decide. If the lad had never been associated with his father, he too, could be mistaken. Many things could govern the boy's guess. The eyes, the mouth, color of hair, or the man's size, or even a soft voice could mislead the boy's guess. Jesus knew his father and he also knew that God was not the father of the Jews that sought to kill him. He went so far to tell them face to face that the Devil was their father. (John 8:44) Did these Jews have a chance to become a child of God? Yes, they could be born of God. Hatred is gone and our lives are filled with the class of love referred to in I Corinthians 13.

Until people have this new birth, they have neither part nor a lot in the kingdom of God.
Don't guess whether God is your Father.
As a warning Jesus said, "Many are called, but few are chosen." But, if we live in the spirit, we know we are the children of God. Rom. 8; 16.

Archie Cooper, Pastor
Bovina Pentecostal
Holiness Church

BIBLE QUIZ

...by Don Stone

We are postponing the announcement of the winner for the month of February until next week, because we had entries all the way from Georgia!

This month's high scorer will win: MORE THAN CONQUERORS, an interpretation of the Book of Revelation, by Dr. William Hendriksen (\$3.50 retail value).

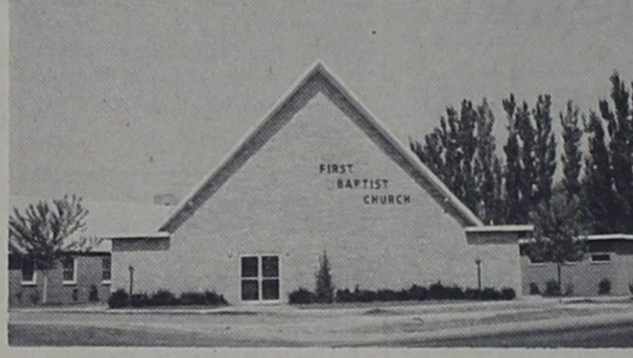

Mail your completed quiz to: Box 422, Bovina.

- One of the Gospels is built around seven "signs" of Jesus. It is _____.
- The prophet who foretold that "a virgin shall conceive" the Christ child was: () Isaiah, () Micah, () Daniel, () Joel.
- When the risen Christ met Saul the persecutor, he was on his way to _____.
- The cause of the division of the kingdom of Israel was the foolishness of its king, _____.
- A prophet whose book falls into two natural divisions with the first comprising the number of chapters that there are books in the Old Testament and the second the number found in the New is _____ . Clue: There is a total of 66 chapters in his writings.

Only complete answers are correct. In case of a tie, a drawing will determine the winner.

The first five runners-up will be listed along with the winner in the first week of the following month. Midnight of the last day of the month will be the deadline.

Bible Course Begins

Don Stone, minister of Bovina Church of Christ, announces that a course is being

offered on the book of Revelation. The course is community-wide and inter-denominational.

An enrollment period for the course was held Thursday night at Bovina Church of Christ with 12 people enrolling. There was a good representation from all churches in the city, according to Stone. The enrollment will be held open for a maximum of 18 members.

Complete Church Census

The community-wide church census which was taken recently has been completed and the information compiled, according to Don Stone, one of the ministers taking part.

The census covered the town and surrounding community and was sponsored by all churches in Bovina.

Rev. Ralph Aday and Jack Boggs of First Baptist Church, Rev. Harold Morris of Bovina Methodist Church, Rev. Archie Cooper of Bovina Pentecostal Holiness Church and Stone, minister of Bovina Church of Christ, met Monday at Bovina Church of Christ to compile the data.

A 23 page compendium plus a country section was compiled and printed by the group. There were 12 copies printed, with four copies to be placed in the office of each church.

Efforts of the combined churches were quoted as being "highly successful" by the group.

Mr. and Mrs. Dick Martin and girls of Odessa visited over the weekend with their parents, Mr. and Mrs. Lester Rhinehart and Mrs. Mary Ruth Martin. Also visiting in the Rhinehart home Sunday were Mr. and Mrs. Ben Mayes of Amarillo, who are former Bovina residents.

Funeral Friday For Mrs. Kepley

Funeral services were conducted Friday afternoon at 2 p.m. at the Oklahoma Lane Methodist Church for Mrs. Flora Foote Kepley.

Mrs. Kepley, 73, passed away at 2 a.m. Wednesday at Retirement Ranch at Clovis. She had been a resident of this area for the past 45 years.

Services were conducted by Rev. Vernon Willard of Happy and Rev. Douglas Gossett, pastor of the Oklahoma Lane Methodist Church. Interment was in Bally County Memorial Park under the direction of Claborn Funeral Home of Friona.

Mrs. Kepley was the last survivor of a family of 12 children. She had been in ill health for several years.

She was a charter member of the Oklahoma Lane Methodist Church, a member of the Bovina Chapter of Eastern Star and a member of the Daughters of the American Revolution.

Survivors are the husband, Fred Kepley; three daughters, Mrs. Ora Smith of Clovis, Mrs. Bonnie Jean Paine of Farwell, and Mrs. Gloria Herington of the West Camp community; eight grandchildren and three great-grandchildren. Pallbearers were Leon Billingsley, R.E. Blankenship, Earl Routon, Wendol Christian, Myron Hillock, Tom Paine and Harold Carpenter.

Organize Youth Choir

First Baptist Church of Bovina has recently organized a Youth Choir under the direction of Jack Boggs, minister of music.

Officers of the new organization include Scotty Rundell, president; Tonya Ivy, vice-president; Patsy Lloyd, secretary - treasurer; Patricia Crook, robe chairman; and section leader for the boys, Lyn Murphy, and for the girls, Judy Dendy.

Last Sunday night the 28 voice choir filled the choir loft and presented the special music. Choir rehearsals are held each Wednesday at 6:30 p.m. at the church. An invitation is extended to any young people in the community to come and take part in the choir if they would like to do so.

Father Of Local Man Dies In Okla.

John Thomas Rhodes of Duncan, Oklahoma, passed away Saturday morning. Funeral services were held in Duncan Monday afternoon.

Mr. Rhodes is the father of Tom Rhodes of Bovina. Mr. and Mrs. Tom Rhodes were in Duncan at the time of his death. Also attending the services were Mr. and Mrs. Thomas Rhodes and Mr. and Mrs. Buck Ellison.

Club Meets In Charles Home

Thursday afternoon Bridge Club met last week in the home of Mrs. Jimmie Charles. Mrs. Bob Wilson won high for the afternoon with Mrs. Jimmy Ware winning low and Mrs. Vernon Estes winning traveling.

Refreshments of cherry pie, coffee and tea were served. Members present were Mrs. Ware, Mrs. Wilson, Mrs. Vernon Willard, Mrs. J. E. Sherrill, Mrs. A. M. Wilson, Mrs. Dean McCallum, Mrs. Jim Hemke, Mrs. Bedford Caldwell, Mrs. Don Sides and the hostess, Guests were Mrs. Bob Estes and Mrs. Vernon Estes.

On The Farm In Parmer County

By JOE VAN ZANDT
County Agent

As I write this column (on Monday morning) it sure is nice to see some snow falling without much wind. However, we sure hope we don't have any snow as you read this because the Parmer County Junior Livestock Show is being held Thursday, Friday, and Saturday in Friona.

This is a big event for many of our 4-H and FFA members in the county. The show expects to have about 34 fat steers, 27 commercial steers, 150 barrows and 55 lambs entered.

Pigs and lambs must arrive between 1 and 6:00 p.m. Thursday. The lambs show at 10:00 a.m. Friday and the pigs at 1:00 p.m. Friday.

Steers must arrive before 8:00 a.m. Saturday as the fat steers will be sifted at this time. Following the sifting the pens of commercial steers will be graded. Then at 9:00 a.m. the steers will be shown.

The judge for the show is Paul Gross, Gaines County Assistant Agent.

The auction sale of the top animals will start around 1:00 p.m. Saturday. The show is sponsored by the Friona Lions Club and everyone is invited to any and all of the show events.

WEED CONTROL

If you missed the Chemical Weed Control meeting we had about three weeks ago and don't have a copy of the recommendations on weed control in sorghum and cotton, please drop me a card and I will be glad to send you Dr. Wieser's recommendations for use of chemicals in our Panhandle area.

As he stated in the meeting, with most chemicals we need smaller amounts in this area. If you are going to use chemicals this year, you need to read what Wise has to say.

FARM MANAGEMENT

Have you noticed your pocket book getting pinched a little more each year? Probably so I would venture to guess.

Let me say right here that I don't have any magic formula for increasing net income. But, if you are interested in receiving some farm management help on ways or things you

might do to help improve your income drop me a card or come by for a visit.

I really believe that the best time a farmer can spend is that spent pushing a pencil doing some figuring on ways or alternatives that might increase net income.

Our water is the most valuable asset we have and we must get the most return out of it. We can't afford to waste it or use it on something that will give us a small return. Have you ever stopped to think what this county will be like in 25 years? I would say we will either be better or worse off in a financial way, depending on how we manage our water and farm businesses.

CATTLE LICE

It costs money to feed cattle lice. These parasites, are among the most damaging to beef cattle.

Cattle infested with lice spend a lot of time rubbing against fences, posts or other objects due to the annoyance caused by the insects. Cattle on feed do not gain as they should and require more feed for a pound of gain when infested.

Infested cows lose weight and their calves become prime targets for the pests. Reduced weaning weights of calves is one spot that really hits the pocket-book hard.

Cattle lice are common over the entire state and their populations build up rapidly after cool weather arrives in the fall, and include both biting and sucking types.

Many chemicals are available for controlling lice as well as other external parasites of farm livestock, says the County Agent. Because of restrictions and safety suggestions which apply to the use of the control measures, I invite stockmen to come by the office for a copy of MP-691, "Texas Guide for Controlling External Parasites of Livestock and Poultry."

FEEDING COWS CAKE

If you are feeding cottonseed cake to your beef cows, how often do you feed them?

Feeding twice per week has proved to be as satisfactory as more frequent feeding. This results in savings of about 60 per cent in labor and travel as compared with daily feeding.

At the end of a four year experiment cows fed twice weekly showed a slight advantage in weight and in per cent calf crop weaned. They also tended to graze more widely over the pasture without waiting for supplemental feed when compared to those fed more frequently.

At Home In Parmer County

By CRICKET B. TAYLOR
County HD Agent

Alterations of Ready Made Dresses, - is the subject for Workshops and study of the County Home Demonstration Clubs in the County this month.

Each member will wear or bring a badly fitted dress or one that has a problem in fitting. All members will share in discussing and demonstrations in the proper method of alterations.

How many of you have bought a dress, that was not really large enough, but hoping it would be an incentive for losing weight? Some buy on impulse, with regrets later. Problems in alterations naturally follows.

Whether you do alterations yourself or have someone do it for you, it is important to know how clothes should fit. What is a good fit? This will be one important question answered at these meetings. Even the most expensive clothes can never have a quality look, unless they fit well. Clothes that fit properly are comfortable. Really too tight nor too loose. Really comfort and freedom are highlights of today's fashions.

Another reason for learning alterations at home is cost of alterations continues to increase. Even hem lengths cost from \$2.00 to \$4.00. Naturally prices vary with different stores and sections of the country.

Suggests Planting Pecans

If you plan to plant trees this spring, Texas' state tree, the pecan, might be a wise choice.

One of the most widely adapted trees in Texas, the pecan serves a dual purpose. Not only is it a stately shade tree, but if properly cared for, it can produce good, edible nuts, says B.G. Hancock, Extension horticulturist at Texas A&M University.

"One of the most important decisions to make is the selection of a proper variety," says Hancock. "Hundreds of varieties are available but only a few are specifically adapted to given areas and interests."

Mahan and Stuart varieties are most widely used for shade purposes because of their strength and desirable habit of growth.

Mahan is the most widely distributed variety. It can be grown in practically every area of the state. Stuart is best adapted to the Gulf Coast and Eastern and Central Texas.

THE ART OF BEING WELL DRESSED

Here are a few points to remember in developing the art of being well dressed:

"Good Taste in dress is not a question of money, but rather a question of knowledge."
 "It is an expression of personal style to suit your own physical proportions, your personality, and your way of life."
 "Taste is what you choose (with knowledge of what is appropriate and harmonious for you). STYLE is how you wear it. Together, they make elegance in you."
 "No amount of wealth can buy style."

"Too often the word 'casual' becomes too casual. An example of this is the number of tourists who visit the Nation's Capitol in shorts and slacks. This choice of clothes is really no compliment to a public building nor the person wearing them."
 "It's not alone just what you wear, but where you wear it."
 "Appearing on city streets in flat shoes, head scarfs, high skirts, strapless dresses or with your hair in pin curls is really no compliment to your visual proof of taste."

"A ladylike appearance may be the nicest adjective you can merit."
 "If modern fashion dictates a style that is not right for you—ignore it. Remember use fashion instead of fashioning."
 commended will prevent motion sickness for as much as 8 hours. Some dogs insist on hanging their heads out of the window while riding. The experts at the Purina Pet Care Center advise you never to permit this. Bits of grit may easily be driven into his eyes. Or, your dog may get nasal and eye inflammation just from the wind. Either make him keep his place in the car or close the window most of the way.

If Rover is driving out of the country with you, don't forget to check health requirements. Canada requires a health certificate and a rabies vaccination certificate. Or, if you and your dog travel down Mexico way, your dog must have been vaccinated against rabies within the past year. A few precautions will make it a happier trip for both of you.

"When the going seems easy, check to make sure you are not going downhill."

THE HIGH PLAINS FARM AND HOME

DRILLING STATISTICS FOR JANUARY

During the month of January 116 new wells were drilled within the High Plains Water District; 12 replacement wells were drilled; and 5 wells were drilled that were either dry or non-productive for some other reason. The County Committees issued 439 new drilling permits.

Listed below by counties are permits issued and wells completed for the month of January:

County	Permits Issued	New Wells Drilled	Replacement Wells Drilled	Dry Holes
Armstrong	0	0	0	0
Bailey	11	8	1	0
Castro	20	7	3	0
Cochran	23	3	0	0

Beef Output From Texas Feedlots Increases

During the past calendar year, 1964, 969 thousand head of cattle and calves were marketed from Texas feedlots, says Edward Uvacek, Extension livestock marketing specialist and assistant professor at Texas A&M University.

"This is a 227 per cent increase over the number of cattle marketed in 1958," Uvacek says.

Uvacek explains that most of the increase has been in the feedlots of over 1,000 head capacity. And at the present time, slightly over 90 per cent of all

Texas cattle on feed are in these larger feedlots, he adds. Uvacek points out that the majority of the large feedlots are in the Panhandle and Gulf Coast areas of the state.

"Of course, the Panhandle area still has the greater percentage of large feedlots, but the Gulf Coast region is increasing rapidly, both in the number of head on feed and in the number of large feedlots," Uvacek reveals.

He said that in 1958 the Gulf Coast area had 13 large feedlots, while at the present time there are 42 such feedlots located in that area.

"While the number of large feedlots is increasing, the smaller operations are holding fairly stable in the numbers of cattle and calves fed," Uvacek states.

4-H Favorite Food Show To Be Held March 6

The County 4-H Food Show will be held at the Hub Community Center, March 6, starting at 1:00 p.m., according to Cricket B. Taylor, Parmer County Extension Agent.

4-H participants are to arrive early enough to have their exhibits ready for judging at 1:00 p.m.

More than 70 4-H boys and girls are enrolled in Food & Nutrition project work and will be eligible to participate in the County wide 4-H Food Show. The Show is an educational activity for members, showing results of the project work.

The two highest scoring participants in the County Show, (Junior and Senior division), will participate in the District Favorite Food. Other appropriate awards will also be presented for this honor in the County. Ribbons will be awarded to those scoring in the blue, red and white ribbon classes. Completion certificates will also be awarded each participant.

Contestants must be enrolled, actively participating, in a 4-H Club and a Food & Nutrition subject matter group, conducted by adult project leaders during the current year.

Contestants will be judged on the following points: (1.) Knowledge of Food & Nutrition, which includes steps in preparation, why main nutrient in food is needed in the body & relative cost of food, (2.) Appearance, Quality & Flavor, (3.) The Exhibit—appropriate table appointments, color scheme & table decoration, (4.) The recipe and (5.) The Days Menu - as to pleasing combinations, balance in color and feature.

The following 4-H Adult leaders will assist with the Show: Mesdames T. A. Mills, Jimmy Charles, Bovina; Leon Billingsley, Johnnie Rundell, Melborn Jones, Oklahoma Lane; L. C. Herrington, Hurshel Harding, Farwell; Carl Schlenker, Friona and Mrs. Freeman Davis, Lazbuddie.

The public is invited to see the Show which will be open for visitors at 4:00 p.m. according to Mrs. Taylor.

DOGTALES

By Dr. C. E. FANCY, Purina Pet Care Center

Riding With Rover

Some dogs just don't like to ride in cars and others get car sick. Either type will make a miserable passenger. However, you might be able to lessen or even eliminate the situation. Your dog's unhappiness might be caused by static electricity. A static belt hung from the axle and touching the pavement has cured many dogs of car sickness. It has also made riding pleasant for other dogs.

Veterinarians now have calming drugs for excited dogs. If your dog actually gets motion sick consult the veterinarian for a remedy. Usually the drug re-

THE BIB-FRONT OVERBLOUSE

Easy-care seersucker in new-season checks... used in a lighthearted overblouse and slender skirt. Stitching detail outlines the bias-check bib front. The overblouse may be worn with or without its easy tie belt and is finished with simple round neckline.

SIZES: 8-18
COLORS: Grey, Brown, Green.

A Taxing Situation

APRIL 15 IS NEARING - This young lady is one of the 25 million women who work, and who must file single or joint income tax returns by April 15. If you are one of these, cope with this taxing situation with the "Female Taxpayer's Survival Kit," which includes a pot of strong coffee, adding machine (unless you're a mathematical whiz), a large bottle of aspirin, a good supply of pencils and paper, a simply worded tax guide—and an appointment at the beauty shop the next day to cheer you up after a horrible night!

USA COUNTS
HIBERNATING WEEVILS
 The Texas High Plains region "stuck out like a sore thumb" in a recent report from the U.S. Department of Agriculture on the number of hibernating weevils across seven cotton-belt states. The High Plains area revealed that the number of weevils in hibernation declined by 89.2 percent below the number recorded last year, while all but two of the seven states showed substantial increases.

Other things being equal, the number of weevils hibernating in the Winter gives an indication of the degree to which growing crops will be infested in the Spring. The survey in Louisiana and Tennessee found fewer hibernating weevils, but the Carolinas, Mississippi, Alabama and Texas (over the whole state) yielded increases ranging up to over 850 per cent. This phenomenal increase was recorded in four Central Texas counties, a jump from 517 to 4,406 weevils per acre.

The reduction of hibernating weevils in the Plains area just below the Caprock without doubt is the result of the diapause control program carried out last Fall, and the 89.2 percent reduction is in close agreement with estimates made by entomologists evaluating the percentage of kill during spraying. Trash examinations this Winter are also being carried out by the South Plains Research and Extension Center, and preliminary indications are that these weevil counts will also show about 90 per cent reduction in hibernating weevils. And, according to W.L. Owen, SPREC Associate Entomologist, there will also be

additional mortality among these weevils between now and Spring. The mortality rate between January and the latter part of March of 1963 was about 70 per cent, and "we are hoping" for at least this percentage of deaths this year, Owen said.

This high reduction in hibernating weevils is especially noteworthy in light of the fact that in late summer last year the High Plains area below the Caprock registered the highest weevil populations ever recorded anywhere in the U.S. It would appear that the High Plains Boll Weevil Program is achieving success and also was begun just in the nick of time.

FARM LABOR DEVELOPMENTS

There is still hope in some quarters that all is not yet lost to farmers in the controversy over whether the Secretary of Labor will permit the importation of supplemental farm workers when citizen labor is not available and willing to do the job.

The National Council of Agricultural Employers, of which Plains Cotton Growers is cofounder and charter member, reports from Washington that on February 18 a group of bipartisan Senators severely criticized the Department of Labor's farm labor policies from the Senate floor. Chairman of the Senate Agriculture Committee, Senator Allen J. Ellender of Louisiana opened the debate with a statement reviewing the recent hearings held by his committee. He said the Secretaries of Labor and Agriculture had heavy responsibilities to protect the interest of all concerned, and called on them to "make it plain and certain to growers that if, as, and when, crops that are to be planted become mature for harvest a sufficient number of stoop laborers will be able to come into the country should it be necessary to have those people do the work".

Senator Spessard Holland of Florida, whose constituents this year reportedly have suffered losses for lack of labor to harvest citrus crops, held the Senate floor for over three hours. He said between \$4 and \$6

Food Facts And Fancies

FAD DIETS
 So-called short cuts to weight control have long been one of America's most popular delusions. Consider, for instance, the "Hay Diet" of the 1930's. Because of its name, many a dieter was convinced that a regular diet of hay was the key to slim, svelte figures.

Not too long ago, cider vinegar, taken in water at every meal, was believed to shed pounds magically. Vinegar was guzzled by the gallon—but overeaters remained just as plump as before.

A current fad is artificial sweeteners and low-calorie foods. According to nutritional experts, they have little or no influence on body weight, and they deprive the body of sugar, an indispensable part of the normal diet. Want to lose weight? Eat sensibly. Eat less. Exercise more. It's the most dependable formula yet.

Certificate Of Appreciation Presented To Joe VanZandt

A certificate of appreciation has been presented to Joe VanZandt, Farmer County Agricultural Agent, for his active support of the screwworm eradication program. The presentation was made by Jack McCracken chairman of the county screwworm eradication committee.

McCracken commended VanZandt and Deryl Coker, former County Agent for devoting many long hours to the popular eradication project. He noted that the agent has been the key man in the county concerned with screwworm eradication activities, serving as an important link between program officials and local farmers and ranchers. Along with keeping stockmen informed on all aspects of the program and cooperating with eradication workers in carrying out control activities within the county, the agent also served as advisor to the committee which coordinated local participation in the successful drive to raise more than \$3 million from the livestock industry to

get the campaign started nearly three years ago.

"The screwworm eradication program could not have attained its present high level of success if it had not had the whole-hearted cooperation and assistance of the local county agricultural agent," McCracken said.

Dolph Briscoe Jr., of Uvalde, president of the Southwestern Animal Health Research Foundation which spearheaded the Southwest-wide fund drive, recently presented a plaque to all the county agricultural agents in Texas at the State Conference of the Texas Agricultural Extension Service at Texas A&M University.

"Never before in the history of the livestock industry have the producers of this state been so indebted to such a small group," Briscoe said, in pointing out the contributions county agents have made toward success of the eradication program.

PRESCRIPTION FOR A SAFE TRIP

Rx Drive Carefully
Observe All Traffic Rules
Use Seat Belts
Top-Condition Tires
Perfect Brakes
Functioning Windshield Wipers
Check Steering
Turning Signals in Order

BE SCARED — STAY ALIVE

The purpose of this editorial is to scare the living daylights out of you; to frighten you to the point that you will not only drive carefully but rigidly observe every safety precaution.

Consider these 1964 facts:

- 48,000 persons were killed in traffic accidents, more than in any previous year, and within 5,000 of all the American servicemen killed in battle in World War I.
- 587 men, women and children lost their lives in automobile accidents over the Christmas weekend, an all-time record that brought sorrow and misery to their loved ones at a time that should be given over to joyfulness.
- Two million persons were injured in automobile mishaps and the cost of the damage hit \$8 billion.

If these stark figures do not have any effect on you, if they do not make you vow to adhere to every safety measure in the book, then nothing will. You know all the things you are supposed to do to insure a safe trip—whether you are going a few blocks or a few thousand miles. Things like driving carefully, observing all traffic rules, keeping tires in top condition, using seat belts, having brakes and steering apparatus regularly checked, seeing that signal lights are in order and having functioning windshield wipers.

One little slip from prudent roadway practice and you may be one of the fatal statistics that other people will read about—in editorials like this one.

Wildlife and fishing on Texas farms and ranches brought 20,472 landowners more than \$12 million in 1964, according to reports of Texas Agricultural Extension Service agents. This includes only money paid directly to landowners. Total amount spent by hunters and fishermen is estimated at \$383 million, Extension agents held 250 meetings and field days on farm pond management and 10,000 individual pond management problems.

U. S. farmers use more petroleum than does other single industry, according to information from the Bureau of the Census. Petroleum products are used not only to power and lubricate machinery but also to control weeds and grass, insect pests on both crops and livestock and for hundreds of other uses.

Here's how to determine the approximate number of calories used daily by a moderately active adult: Multiply one's ideal weight by 18 for a woman, or 21 for a man.

million dollars had been lost from insufficient harvest labor and that there is also grave danger of sugar cane losses attributable to the same cause. The Senator termed arguments that Congress intended to end foreign supplemental labor programs as "completely inaccurate, completely false and is shown to be such by the debate (on Public Law 78) in numerous places." Senator Holland expressed sharp disagreement with the Secretary of Labor's assumption of authority to set wages and hours of farm workers, and pointed out that the farm labor was one affecting major areas of the country.

Other Senators — Democrats and Republicans alike — from Texas, California, Michigan, Wyoming, Colorado, Ohio, Tennessee, Arizona and Oregon expressed similar criticism of the Secretary of Labor's current farm labor policies. And, following this lashing from the Senate, a group of House members took the Labor Secretary to task on February 19.

Still, Secretary Wirtz continues to refuse to certify foreign supplemental workers. His view remains that sufficient domestic labor is now and will be available to meet growers' requirements.

On this point, Senator George Smathers of Florida, said: "It appears to me that the Secretary of Agriculture, who agrees with us on one side, and the Secretary of Labor, who does not agree with us on the other side, the eventual solution of the problem will probably come through our making an appointment, en masse perhaps, with

WHO IS DR. AMBERSON?

Readers of Dr. Tom Dooley's book, "Deliver Us From Evil," will remember Dr. Amberson as the dedicated American medical officer who supervised the flight of over 1 million refugees from Communist controlled Vietnam. Dr. Amberson's medical practice over the last 35 years has taken him to virtually every corner of the world.

OUR HEALTH

by J. M. Amberson, M.D.

The Flu

"I had a touch of the 'flu," is an expression we hear quite often and leads many people to believe that the 'flu (influenza) is simply a bad cold.

It's not. Influenza is a potentially dangerous disease and must be recognized as such. During the 1963 influenza epidemic, 50,000 more Americans died than would have been expected under normal conditions. More than 20 million people died during the worldwide epidemic in 1918.

Symptoms
 The symptoms usually develop quite rapidly. These include chills, fever (101-103) headache, generalized weakness and discomfort, muscular aches, and loss of appetite. The nose and throat may feel mildly irritated causing the patient to cough occasionally. Because pneumonia is a frequent complication of influenza, this disease should not be taken lightly. If symptoms that suggest influenza occur, it is wise to consult your physician. Flu vaccines have been developed which give protection against the common strains of flu viruses. As a precaution, ask your doctor if you should have a flu shot this year. Last year the U.S. Surgeon General advised that pregnant women, those with chronic diseases, and people over 65 be vaccinated before the beginning of the flu season. A similar warning probably will be issued this year.

New Medication
 There is good news for victims of minor sore throats—an illness quite common at this time of year. Chlorasptic, a non-prescription, anesthetic and antiseptic oral solution has been found to relieve the pain of minor sore throat, usually within seconds, according to clinical studies. Chlorasptic can be applied to irritated throat tissue by spraying or gargling.

Buy packaged cereals and other packaged foods by weight rather than by the size of the package, say A&M Extension home economists.

MOTOR MILESTONES

BRIGHT IDEAS

FOR GROWING HOUSE PLANTS

Biggest problem for amateur plant growers and hobbyists during the short days of winter, or with out-of-season flowers, is to provide a steady supply of the sun's red and blue radiant energy, essential for plant growth.

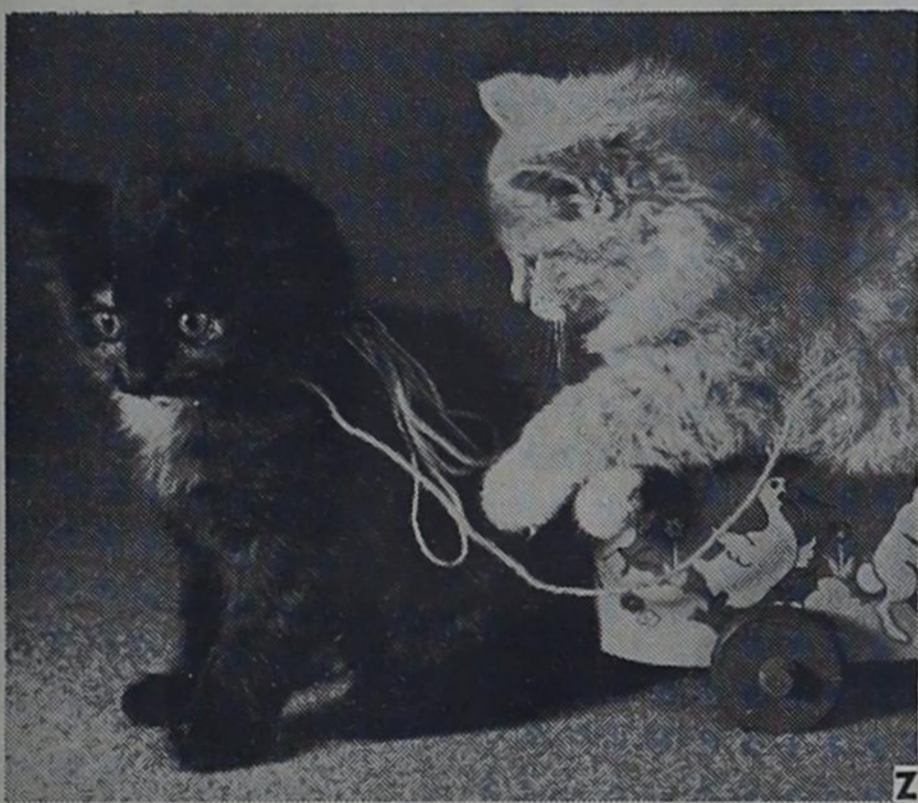

You can now grow more beautiful plants than ever before with Sylvania Gro-Lux fluorescent lamps. They supply the correct light to stimulate growth, yet use no more electricity than standard fluorescents. Gro-Lux units come ready-made, or you can create charming, decorative touches by building them into storage walls, room dividers, bookcases, hutch cabinets, or dry sinks.

For a particularly novel and dramatic effect, use the special lamps for lighting wall-recessed or free-standing aquariums. Either way, studies show that Gro-Lux is beneficial to water plants and enhances the color of both fish and plants.

It's Always Playtime

For your inquisitive, adventuresome cat, anytime is playtime. And, cats are easily pleased with simple toys: empty tins, spoons, a ping-pong or catnip ball, a catnip or rubber mouse. Cats love to get inside paper bags and fight their way out against imaginary enemies. They adore boxes for play and napping. One playtime caution from the experts at the Purina Pet Care Center: as a kitten stalks and attacks, it's a great temptation to let him attack you, a make-believe enemy. While the kitten is tiny, no damage is done. But as the kitten's teeth and claws get sharper, you'll find these imaginary attacks leaves scratches and bites on your hands and arms. To avoid trouble in the future, do not accidentally train your kitten to be wild. Then he will grow into a gentle cat. Remember—keep playtime simple and both you and your cat will enjoy it.

Study Grocery Ads For Good Buys

Supermarkets are featuring a number of good buys at present, so study grocery ads and make shopping lists accordingly, recommends Mrs. Gwen Clyatt, Extension consumer marketing specialist.

At retail meat counters, look for best beef values on ground beef, short ribs, arm and blade pot roasts, sirloin, T-bone, round steaks and beef liver. Look for more emphasis on marketing the rib and loin cuts during the next several weeks. Consider stew meat for variety in menu planning and to help stretch the budget as well.

Pork values include pork loins, picnics, hams, shoulder roasts and steaks. Pork supplies are below those of a year ago, however some markets are featuring specials on roll sausage, Boston butt roasts and chops.

Frying chicken continues to represent a good value, and the fryers are weighing about 2 1/2 to 3 pounds, giving more meat in proportion to the bone. The Grade A large eggs offer food shoppers the most economy and quality for their money.

Plentiful supplies of dairy products are also available, and there's no price change here. Cheese is one of the valuable protein foods and is versatile.

Bananas highlighted most fruit counters, so use them generously while they are available at attractive prices. Several varieties of apples are plentiful. Just appearing on the markets in limited supply are pineapples, rhubarb, strawberries and honeydew melons. Red tart cherries and pears highlight the canned goods department.

Best vegetable buys include head lettuce, celery, cabbage, carrots, cauliflower, broccoli, green peppers, radishes and green onions. Potatoes are available at relatively higher prices since supplies are down considerably.

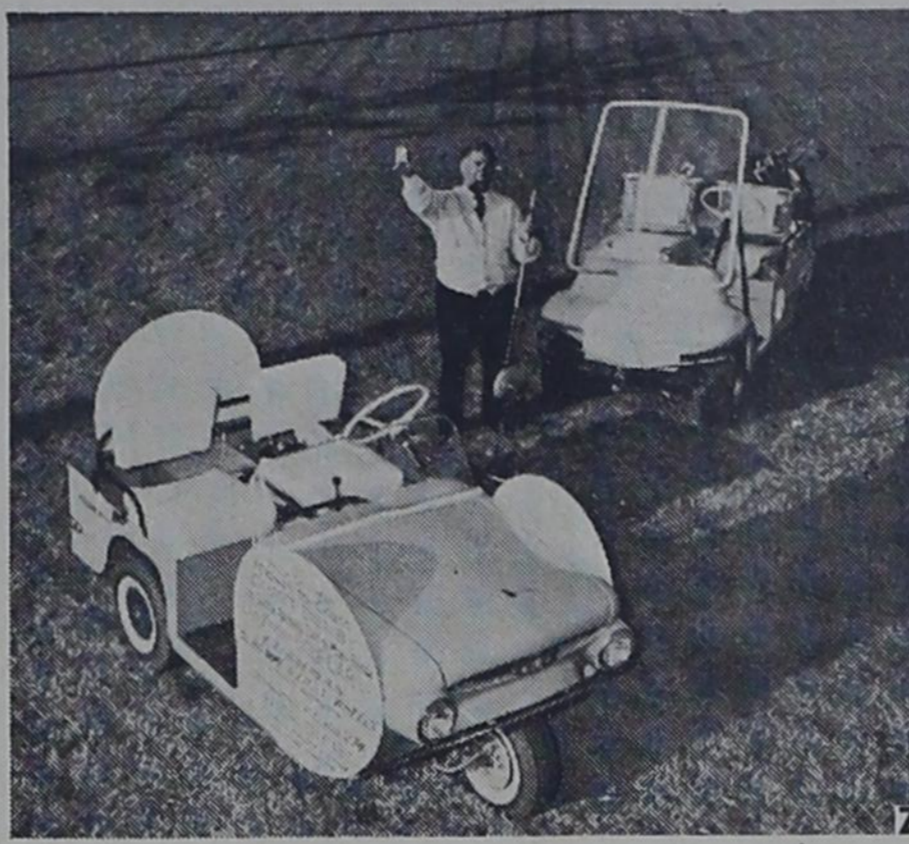

Nylon In The Kitchen

The growing group of greaseless, stickless cooking enthusiasts include creative cooks who detest scouring pans, modernists with a zest for the up-to-date, people who love fried foods but in the past have had to resist for health reasons, and anyone who's ever fried a sunny-side-up egg and tried to live up to the full-color illustrations in women's magazines. All sing the praises of Teflon-coated frying pans.

While Teflon takes the bows for revolutionizing America's frying, cooking and pot-washing habits, gentle nylon works quietly in the wings doing its part to help Teflon keep its no-stick promises.

Nylon spoons and spatulas (usually sold with Teflon cookware) have a soft, soapy-like texture that will not scrape the delicate Teflon finish.

Coast-To-Coast "Fairway"

Ever think how long it would take to drive a golf ball across the United States? Golfer Floyd Rood recently found out when he returned from his cross-country Divot Derby starting in Santa Barbara, California and ending in Miami, Florida.

It took Rood 57 weeks to complete the par 200,001 "course." In the process of making the herculean journey, he lost 3,511 balls and registered 3,397.7 miles on his Cushman Golfster golf car. Best of all, he set a record that may stand for years—he was more than 85,000 strokes under par when he drove the last ball into the ocean at Miami Beach.

The purpose of Rood's trip is to inform people of his plan to start training schools and playgrounds for underprivileged children. His first playground will be located in Arizona City, Arizona and Rood hopes it will be dedicated by President Johnson or one of his deputies. Starting in June, Rood swings into the second part of his golfing marathon or, as he calls it, the "back nine" from Seattle, Washington to Miami Beach, Florida. Among the high points of this trip will be the drive that hooks or slices over the corners of four states—Arizona, New Mexico, Colorado and Utah.

Making the trip possible for Rood will be the new Cushman Trophy golf car he will be driving. It's one of the first four-wheel golf cars—from its headlights to its sideview mirror, a deluxe machine in every way. The "back nine" figures to take Rood about nine months. He'll be out to beat his 24 miles-per-gallon average the first time around and with his kind of determination he probably will.

All in all, it will have been two well-traveled golf years for Rood. Use a narrow strip of cellophane tape to secure the remaining threads of a loose button on a jacket or coat, if you cannot re-sew it immediately. The tape should hold the threads in place until you can re-sew it.

New Loan Program Announced By FHA

A new loan program recently announced by the Farmers Home Administration, is designed to help rural families finance enterprises that will improve their incomes, according to County Agricultural Agent, Joe VanZandt. The FHA County Supervisor, Bill Boling, has informed Van-

Zandt that the new loans are a part of the Economic Opportunity Act of 1964. They can provide up to \$2,500 for up to 15 years at a 4 1/8 per cent interest rate. Rural residents can get the loans on the basis of their ability and character.

According to Boling, the loans are for people who know a good way to increase their income, but who cannot readily get financing through regular credit channels.

The county agent said farmers can borrow for improvements, land, equipment, livestock, machinery, buildings or other items that will add to their income from farming.

Non-farm rural residents can use the same plan to finance a small business, trade or service. This includes loans to set-up such things as small repair shops.

Another provision of the new FHA program provides loans to establish cooperatives for processing, marketing and other services of benefit to farmers.

Anyone interested in additional information about the new loans should contact their county FHA supervisor, located at Farwell, or their county agricultural agent.

Spring-Timed Sportswear

A lightweight long-sleeve shirt distinctly Pendleton sparks this season's comfort-in-action line. Available in plaids and stripes, the Sir Pendleton shirt is paired with tapered self-belted slacks. Sunweight fabrics and fresh vital colors combined with the natural values of 100% virgin wool to span the seasons. A flair for trim traditional styling accents such pacesetters as the new suede-paneled jacket and the popular Eagle River cardigan jackets. Front runner in the collection is that exemplary elbow-bar, the short-sleeved button-down shirt. All Pendletons—including six sweaters and more shirt, jacket and slacks styles—color-mix with ease. Spring-timed Pendletons are available in America's quality stores.

My Neighbors

Nylon spatulas are heat resistant and will withstand temperatures up to 430°. The skillets are rarely heated over 400°. (By comparison, water boils at 212°.) The spatulas are lightweight and easy to hold. They are white in color, and look as fresh and clean as milk pouring from a pitcher. Two companies that manufacture nylon spatulas are Flambeau of Baraboo, Wisconsin and Blissercraft of Hollywood, California.

Since the unanimous acceptance of the spoons and spatulas, other nylon items for the kitchen have been introduced.

Selecting Landscape Trees

Home grounds that are developed tastefully not only add comfort and convenience to daily living but increases the dollar value—this information comes from A. F. DeWerth, Head of the Floriculture Section, A&M University.

The selection of the proper trees for landscape developments is not an easy task and in most landscape situations it requires considerable thought. The first consideration is to determine exactly what function each tree will be required to perform in the landscape development. The functions performed by trees are wide and varied and must be carefully considered before the trees are selected. These functions are: providing shade, serving as a windbreak, producing a screen, or dominating either a large or small garden area.

When the function that is to be provided is decided upon, the next step is to carefully study the other characteristics of the tree must have to satisfy this requirement. The size, both in height and spread, must be determined, and the period of time that will be allowed for the tree selected to attain that size. The cultural requirements, winter hardiness and whether a deciduous or evergreen tree would be most desirable, and the relationship of the tree selected to the particular environment and the other plants in the landscape planting are also factors that require careful consideration.

Perhaps the two most important decisions involved in the selection of landscape trees are the height the tree will ultimately reach at maturity and how long it will take for it to reach that height. Present day homesites as a general rule are much smaller than many of those developed years ago and the size of trees selected to landscape these properties is most important. The selection of fast growing trees that will reach 50 feet or over in a relatively few years should be made with careful thought, since the impatience with which a new home owner approaches the need for large trees often leads to disappointment and unsatisfactory results.

Many properties are not large enough to support a 50 foot tree and it is almost impossible to keep such a tree to a height of 20 feet with any degree of success. Such fast, tall growing trees will get too large for small properties in a very short period of time.

Many trees with these growth characteristics also have shallow root systems that invade drainage and sewer lines as well as all growing areas on a small property. They have brittle

wood that is easily broken in the wind. It is always very difficult to grow other plants successfully in close proximity to such trees.

When the size of the property will permit the use of large shade trees, the ideal tree for this purpose is one that will have a canopy high enough to allow sufficient light to penetrate beneath it for the growth of a strong lawn. It should also possess a growth rate that is rapid enough to provide some shade in the second or third year after it is planted. Few trees will be found, however, that have all the desirable characteristics to make them ideal for each landscape use.

Medium or small shade trees should be clean, well formed trees that produce a minimum amount of litter during the entire growing season. They must maintain their ultimate size well and should provide shade without dominating the entire garden. They should be large enough to walk under without a great deal of pruning to produce this type of structure. Today, the smaller the requirements of the tree, the larger the availability of kinds to choose from.

Trees must also be selected for the landscape functions of screening properties from sun and wind as well as for privacy. For this purpose, trees that have a tendency to branch low, or that produce a weeping effect should be selected, rather than those that naturally grow with clean trunks. For windbreaks, the screen should have a height of twelve feet or more, and it will function best for this purpose if it filters, rather than blocks the wind.

The County Extension Agents office in the Courthouse in Farwell, has available information and help to assist with the development of good landscape plans—a bulletin, for those planning their landscape is entitled—"A Planning Guide for Home Landscaping" is free for the asking, also information on trees suitable for this area.

For Better Pictures

Every boatman's camera should have a medium yellow filter to darken the sky and help enhance clouds and water texture.

Filters may be of the screw-on or slip-on type. Adapter rings are available to fit most any camera lens.

Small Motor Convenient

If you own an outboard motor sufficiently portable to carry in the trunk of your car, it will pay you to take it along on vacation. It will cost you \$5 to \$15 per day to rent a fishing motor. Some places won't rent motors at any price.

Boats, on the other hand are plentiful and normally rent for \$2 to \$5 per day. So, take along your motor.

Air Mattress Handy

On small boats, the soft spot for sleeping is atop an air mattress. It offers considerable comfort. Furthermore, when deflated and rolled up, it doesn't require much storage space. Before leaving on a cruise, check the mattress for leaks. There's nothing more disgusting than a mattress that runs out of air in the middle of the night.

"Bisque a la Outboard"

Here's an easy-to-fix, delectable dish for cruise-campers. It's appropriately dubbed "Bisque a la Outboard": Mix one can each of condensed tomato soup, cream of celery soup and condensed milk, as

He should make sure there is ample gas aboard, as well as life preservers and emergency gear.

Also he should check to be doubly certain that steering controls and fuel lines are properly connected... points often overlooked.

Beaching the Boat

If you ordinarily run your

boat onto a beach when you come in from boating, lay an old auto tire flat on the sand with half of it in the water. Dig a depression in the beach and sink the tire to half its thickness. Then fill it with sand. This gives you a firmly anchored rubber "landing field" and prevents scratching well as one can of either crab meat, shrimp or lobster. Combine all ingredients in the top of a double boiler. Then heat, stirring occasionally. Season to your taste.

It will serve three.

Photos Help Police

If you haven't a recent photograph of your outboard rig, better have one taken. In the event your boat and motor are stolen, you'll have something to show police that will help them considerably in tracking down your rig.

Carlights in Camp

Trying to erect a tent after dark is an irritating business which the veteran camper avoids like poison ivy. But it happens to the best woodsman once in awhile. If you find yourself in the predicament of setting up camp after nightfall, don't fumble around doing the job by lantern light. Use your car's headlights to illuminate the area.

Safety in Shoes

Leather-soled shoes slip very easily on boat decks, wet rocks and the pine needles and leaves that fall on forest floors.

Outfit everyone on your camping cruise with a good pair of rubber-soled boat shoes.

Check and Double Check

Before casting off, a wise skipper makes a careful inspection of his rig.

Freeze-Dried Foods On The Way

Tomorrow's housewife may well purchase dry, packaged foods from a shelf, store in the pantry and, when mealtime comes, just add water and a meal is ready—of such foods as scrambled eggs, steak, vegetables and cottage cheese!

At least that's what researchers at Texas A&M University believe, after experimenting with their new machines—the Freeze-Drier.

This \$20,000 machine, manufactured by the American Sterilizer Co., removes practically all the moisture from foods by the process of lyophilization, or freeze-drying.

The product can already be frozen or may be frozen after being placed in a vacuum chamber in the machine. Then the temperature is raised and a vacuum draws the moisture from the product until it is almost completely dry. The dried product must then be stored in an air-tight container to prevent moisture from entering.

Freeze-dried foods may be cooked or left uncooked. There

is little spoilage since few bacteria can live without moisture. To restore to the original condition one must only add water.

Wish I'd Said THAT

"If you want something done at once, ask the busiest person you know."—Virginia Gaskill, Pensburg (Pa.) Town and Country.

"Demand is always on the threshold of change. The most successful of all merchants are those who anticipate a change in demand and use advertising to claim a fresh market."—S. S. Talbert, King County (Mo.) Tri-County News.

"One good way to save face is to keep the lower end of it closed."—Lee Mildon, Salinas (Calif.) Monterey

The Old Timer

"Parents are people who bear infants, bore teenagers and board newly-weds."

County News.

"A politician never buries the hatchet unless he has an axe to grind."—Robert G. Campbell, Lititz (Pa.) Record-Express.
