Correct Time All the Time

Europe, Mexico and Wars
War is war and always bad. It is worse than words can reveal. It is the same in all instances, being measured by environments only.

In Mexico at present, there is more hope of an end of the war, because the two opposing armies are nearly concentrated so that a defeat may end it. The knockout out may come any day. Besides this, they have probably tired of the contest, and of its misery and damages. They may consent to come to terms.

In Europe there is no end in sight, no sign of it, except that all of the contestants appear to be appalled at the awful, horrible situation, and would probably welcome peace, on any reasonable terms. But the carnage rages. Humanity stands aghast. Yet the battles grow greater, greater in numerical vastness of ranks and in general activity and casualties. Human mind can scarcely comprehend the enormity of the European war and its evils, nor discover its expected benefits, in any point of view.

Greer Orton and family are going to spend a few days at Fern Lake.

Big Change in Prices

Prices on all wire and wire products have gone up from 15 to 25 per cent during the past few weeks.

We had about 3 big car loads of Field Fence on hand when the rise came and have not advanced our prices on this material yet but must do so in a few days.

If you are going to "do any fencing" soon then buy your wire "right now" and we will sell it to you at the old price. Do not wait too long for we must advance our prices in a few days. See us at once and you will save money on your wire. Don't wait too long.

Cason, Monk & Co.

Conscience Uneasy

Washington, July 20.—Ten thousand dollars in currency, the second largest contribution to the "conscience fund" ever received by the government, reached the treasury department today in a plain envelope mailed yesterday at New York, accompanied by an unsigned letter saying: "The sender has paid dou-

ble to the United States the amount he stole and still conscience is not satisfied. Here is another payment."

County Court.

The following cases were tried this week.

CIVIL CASES.

Nacogdoches Gro. Co. vs. W. Chapman. Judgement for plaintiff.

Nacogdoches Gro. Co. vs. V. Crump.

CRIMINAL CASES.

Odie Alvis, for assault and battery. Found guilty. Fined \$100.

Walker Smith, for assault and battery. Found guilty. Fined \$25.

F. Loopie, unlawful carrying pistol. Fined \$100.

State of Texas vs. Dewitt Peterson, assault and battery. Guilty. Fined \$25.

Horace Rogers aggravated assault. Not guilty.

Lamar Ikner, unlawful carrying pistol. Fined \$100.

State of Texas vs. Jno. Mezzio, charged with drunkenness. Verdict not guilty.

Thanks, Stone Fort Bakery.

Patin & Spies:
We wish to thank you for the complimentary cake which was awarded to us for suggesting a name for the new bakery, "Stone Fort."

The cake was an Angel Food Cake, very delicious and beautifully decorated. We wish the Stone Fort Bakery success.

Mrs. W. H. Campbell.
Mrs. R. W. Murphey.

(The Sentinel would guess that Dr. Campbell got the biggest slice of that cake, from his reputation as a cake eater.)

Time of Duty Now

CONTRIBUTED

As the days continue to pass by, so unthoughtful are we, drifting to despair, day by day, failing to do our duty.

Many tongues are confused; Many unhappy days have been unnecessarily spent, just because we would shun the little word—

Our state and conduct is what we make it. Here tofore might have been time for tarry, as its a thing of the past. Now is the time for the people to open their eyes to what they shall make the future life, whether it be uplifting or not.

V. J. Jones.

Trawick, Texas.

State Taxes

Austin, Tex., July 19.—Fifty-four and six-tenths cents per one hundred dollars valuation will be the tax rate announced by the automatic tax board of the state when it meets to set the rate for the next fiscal year.

Dallas county is the richest county of the state, according to tax estimates submitted to the Comptroller's Department. Figures show Dallas \$142,185,630; Harris, \$135,000,000; Bexar, \$109,869,686; Tarrant, \$100,000,000; McLennan, \$55,870,310, and Jefferson, \$52,453,025.

There are several new Reo cars in town. The owners are R. W. Hazelwood, Bob Lindsey and E. H. Blount.

Ministers Wife Conducted Service.

Corpus Christi, Tex., July 19.—Rev. T. F. Sessions, presiding elder of this district of the Methodist Church, has been filling the pulpit at the local church during the absence of the pastor from the city.

Saturday night he received an urgent message calling him elsewhere to a conference. It was necessary for him to go, but in doing so it would leave the pulpit of his church vacant. He was in a quandary for some time, but finally Mrs. Sessions, his wife, made the suggestion that she hold the services.

It was agreed on, and Sunday the preacher's wife held two services and preached two sermons to a large congregation, add received high praise for her act.

56,800 Morphine Tablets are Stole.

New Orleans, July 19.—Theft of 56,800 morphine tablets was reported to the police today by a local whole sale drug firm. The robbery occurred between Saturday night and this morning and the police believe the robbers were persons either addicted to the drugs or engaged in illicit drug traffic since nothing else was taken by the thieves.

The crops all over the State are reported good. Some points have needed more rain, and this cuts the corn back, but not seriously. It is almost too late for rain to help corn. East Texas is now very dry, and rains would help much.

The South and East Texas Development League Meeting.

J. CUM & HALTOM, Proprietors. GILMAN M. HALTOM, Manager.

Genus Will Be Applied to Perfect U.S. Defense

West Orange, N. J., July 13.—Plans for a naval defense for the United States, the scope of which was yesterday only a dream, today are a realization following the offer of Thos. A. Edison, the famous inventor, to devote his time to perfecting improvements in the navy.

The offer of Mr. Edison follows an invitation from Secretary Josephus Daniels.

M. R. S. Hutchison, personal representative of Mr. Edison, called on Secretary Daniels today and informed him of Mr. Edison's acceptance.

"What we want to do in this matter," said Secretary Daniels, "is to appeal to the American inventive genius to work for the navy and to study what is to do. We want the advice of genius as to new lines.

"I believe there will be as much revolution in naval construction in the future as there has been since the Monitor. The proposed board must grow and work out its own developments.

When a large list of names of Americans prominent in various lines of science and invention was mentioned to Secretary Daniels today, he refused to be drawn into any discussion of probable selections.

Among the names mentioned were Alexander Graham Bell, Orville Wright, John Hays Hammond, Jr., Hudson Maxim and Henry Ford.

Mr. Hammond has conducted several successful experiments with high explosive and with a device for controlling the course of torpedoes and even ships by wireless.

Talk About Sudan Grass

Dr. J. E. Mayfield, City,

Dear Sir:—I was at our farm on Monday and Tuesday. Our manager hauled in the Sudan Grass, well cured, off of 2 1-2 acres. A full sized two and three-quarter wagon bed was tramped in full and piled on as long as it would carry, fourteen loads.

Our manager estimates that we had 700 lbs. to the load, or aggregate of five tons, or two tons per acre.

Stock eat it in preference to any other hay. It is my judgment that this is by far the most valuable forage crop that has ever been introduced into this country, and that it will revolutionize the hay business in East Texas, that every farmer can with ease grow his own hay.

This is from a feed man. Yours truly, W. T. Wilson.

Those who suffer in silence usually have a lot to say about it later.

Held at Nacogdoches, Friday, July 16th, 1915, Was of Extraordinary Interest to all. Large Delegation From Timpson.

The Farmer Wants the Business Man to Join Him in Building Roads, Marketing Crops and to Act the Partner and Friend in Building Up East Texas.

The Convention of the South and East Texas Development League held here in Nacogdoches Friday afternoon at the Courthouse was a meeting long to be remembered. There were no long winded speeches, no time was wasted in introductions or empty talk.

The men and women present were representative of the very best of East Texas citizenship, and there was evidence everywhere throughout the audience that it was a get together, stay together, do together band of team workers, in line for the development of East Texas.

Determination to make this movement ago was photographed upon every face. The banker and farmer, the wholesaler and stockman joined with the dairyman and demonstration experts in agriculture, to say things that would count.

Robert Lindsey the Nacogdoches member of the Executive committee at large opened the meeting with a gracious talk in which the visitors were made welcome and after a brief description of the organization he introduced Mr. Tom Richardson of Houston the secretary of league who followed with a speech of explanation that put the organization before the audience in a way that gave them the conviction that a great accomplishment was possible, but that it meant unceasing work.

He said in part, "this league is a result of the decision of the Houston Chamber of Commerce to help build up an organization that will have for its purpose the betterment of all of South and East Texas. This convocation was formed at Houston on June 4th after forty advance meetings had gathered at cities and towns throughout South and East Texas. One of these meetings was held here and Nacogdoches sent to Houston a big representative delegation and was chosen among six other cities as the home place of one of the members of an executive committee at large and Robt. Lindsey is our member of this committee. The league embraces fifty six counties, each with a vice president. John Schmidt, all around business man, and a big part of Nacogdoches is the vice president for Nacogdoches county.

It is unnecessary to say that both of these men have determined that they will do all they can to have East Texas set South Texas an example of loyalty to the cause of development and energy in carrying out the program of advancement.

Mr. Richardson told of the good feeling elsewhere in the state, said that the business man and the farmer must get together. That the Commercial bodies should let the city do its own growing and put their best licks on the country. The country can be built safely, the city is large enough at least for the present.

Richardson told a story about President Fish formerly of the Illinois Central railroad advising him that whenever he made a speech to farmers on the subject of good roads to tell them to remember that the freight commenced at the farm and not at the station.

Mr. Richardson spoke very highly of the relations of our public schools with other institutions of learning throughout the country and impressed on his hearers the necessity of the co-operation of the agricultural and business interests with the Agricultural & Mechanical College, which is doing a great work among the farmers of the state. He also spoke of the many people who have come south and been made the victims of the land sharks in one way or another.

He also showed his hearers that almost anything that grows can be grown in South and East Texas, it being one of the most fertile spots on the face of the earth. He also discourages the use of the credit system, says it is bad for all and causes many hardships to the farmer and business man that would not happen if it were not for the credit system.

He impressed on his hearers the importance of economy and careful marketing. Spoke of the importance of the creamery to this section of Texas and what the possibilities of one in each county in East and South Texas would be.

Also spoke of the necessity of good roads and drainage as the connecting of one section to another. He spoke of many other things that space will not permit us to mention. The main thing of the meeting was co-operation.

A few short speeches were made by some of the visitors and our own people who were loud in their praise of the work being done.

Jas. D. Greer made a few remarks in regard to local conditions. Said that it was up to the people to wake up and grasp the opportunities that were staring them in the face. Showed the importance of housing crops, terracing, drainage, etc. He made it plain that the possibilities of Nacogdoches county were the best of any in East Texas

if the people would take advantage of them.

Dr. J. E. Fruit of Timpson made a few remarks and said that Shelby county stood ready to join in any movement for the better development of East Texas.

Geo. T. McNess of the Experimental farm made a short talk on the necessity of the man of the country and the man of the town getting into closer relation with one another. Said that the station comes in as a connecting link between the farmer and the business man and was not receiving the attention that it should from either source. Said that more visitors were wanted and that everything there was for the betterment of the farmer and the business man.

R. B. Walthall of Garrison spoke a few words in behalf of the League and said that the people of his section stood ready to join in any movement for the betterment of conditions in East Texas.

J. J. Greve, local agent for the Southern Pacific, made a few remarks and explained the relation of the farmer and business man with the railroad. His remarks were well received.

Eugene H. Blount spoke heartily in favor of the development of East Texas and stood ready to aid in the work in any way he could. He spoke of the need of good barns, houses to store feed stuffs, etc. He said that while the plan had not been definitely formulated yet he and his associates in the Commercial Guaranty State Bank were working on the details of an arrangement by which they could sell at actual cost to boys and young men of the county some pure bred hogs. The details he said would be published in the near future.

Mrs. Mary L. Wright, who is president of City Federation of Women's Clubs of Fort Worth, said that the women of the state were interested in good schools, good roads and any thing that was being done for the up building of the different community in which they reside. She impressed on her hearers the necessity of securing the co-operation of the women in this great work of developing our state. Mrs. Wright concluded her remarks with the following poem:

They talk about a woman's sphere, And tho it had a limit. There's not a place in earth or heaven. There's not a task of mankind given. There's not a blessing or a woe. There's not a whispered yes or no. There's not a life or death or birth. That has a feather's weight of worth Without a woman in it.

J. J. Harris of Timpson invited a meeting of the League to be held at Timpson in the near future. He said that Timpson and Shelby county would have been represented at the meeting held at Houston, but were not there and did not realize the importance of the organization until now and that his people were now

Budweiser THE DRINK OF YOUR FOREFATHERS THREE generations of Americans have pronounced Budweiser the king of all bottled beers. Its reputation is international. It sparkles with life—has a brilliant glow—seethes and bubbles with nutriment—is snappy, mild and inviting to the taste—the combined soul of American Barley and Saazer Hops—the cream of the harvest fields. Budweiser sales exceed any other beer by millions of bottles. ANHEUSER-BUSCH ST. LOUIS - U. S. A. Will be Pleased to supply name of nearest dealer on application.

all heartily in favor of the League and would do all the could to help in the movement.

Dr. J. E. Fruit was recommended as vice president for Shelby county.

Center was not represented at the meeting here but the following telegram shows the sentiment of that hustling and wide awake city:

Center Tex., July 16, 1915. Hon. Tom Richardson: Here's wishing the South and East Texas Development League a great meeting. Our heart is with you, but we are so busy getting ready to build good roads in Shelby county, that we cannot spare a single live wire citizen today. When can you and yours come over.

Geo. K. Gibbs.

The city of Timpson, true to her general reputation of having the big delegation of at all conventions, came to Nacogdoches with six automobiles filled to capacity. They carried the look of winners, they have the habit of doing things. They didn't allow Nacogdoches to overlook for a minute that they were here to put themselves in line for the South & East Texas Development League, and they wanted an early meeting, and they also told Secretary Richardson that they were in earnest and demanded a quick reply and would put the invitation in writing as soon as they got home and would insure a big audience. Then they got a promise from Nacogdoches to be there with a real delegation at the Timpson meeting. The delegation from Timpson was a splendid representation and was composed of the following ladies and gentlemen: Harda Smith, A. N. Smith, Frank Bussey, J. J. Harris, Dr. J. E. Fruit, J. B. Langhorn, Stroud Kelley, Tom Malloy, W. J. Walker, Troy Whiteside, Dick Whit-

son, T. P. Rutherford, J. E. Blankenship, Mrs. J. E. Fruit, Mrs. Dr. M. H. E. Whiteside, Mrs. McDowell, Mrs. Harda Smith, and Miss Lois Smith. H. V. Fall, Horace Mettauer and Miss Genevieve Tucker, represented Chireno and R. B. Walthall represented Garrison. The entire delegation was wide awake and full of the spirit necessary to develop and build up any section of the country.

If the Nacogdoches meeting is a fair indication of the spirit of other gatherings of the South and East Texas Development League, there is no telling what will be accomplished in a years campaign. We have accepted Houston as in earnest. The East Texas country has a clean bill of health in her real estate record. She has good lands at moderate prices. Two of the most forceful men in Nacogdoches county have been chosen as members of the Executive Committee and Vice President for Nacogdoches County. Our people are behind them without exception. The co-operation of the forceful and capable business men of Houston working with the same kind of men of smaller cities will assure results. This decision of Houston through her Chamber of Commerce means a new era in South and East Texas. Close co-operation with state and national agricultural aid on the part of Texas business men and farmers is a union that would command success.

To do all this, there must be no halting. There must be no holidays and no discord between city and country. Nacogdoches is in this league to stay.

Chills and fever is prepared especially for MALARIA or CHILLS & FEVER. Two or six doses will break any case, and taken often as a tonic the Fever will not return. It acts on the liver better than Calomel and does not gripe or sicken. 25c

HAVE YOU WEAK LUNGS?

Do colds settle on your chest or in your bronchial tubes? Do coughs hang on, or are you subject to throat troubles?

Such troubles should have immediate treatment with the strengthening powers of Scott's Emulsion to guard against consumption which so easily follows.

Scott's Emulsion contains pure cod liver oil which peculiarly strengthens the respiratory tract and improves the quality of the blood; the glycerine in it soothes and heals the tender membranes of the throat.

Scott's is prescribed by the best specialists. You can get it at any drug store.

Scott & Bowser, Bloomfield, N. J.

Bob Shadden of Mayo is in the city today.

D. C. Mast of Melrose, was in the city Monday.

Jim Dorsey of Cushing, was in the city Sunday.

M. J. King of Woden was in town today, Friday.

Ellis Ivey is spending a few days of his vacation in Dallas.

Born—To Mr. and Mrs. W. D. McCormick July 16th, a son.

Oscar Justice and wife of Martinsville are in the city today.

Harry Fall of Chireno, was a visitor in the city Wednesday.

Fred Carricker and cousin of Cushing were in the city yesterday.

B. F. Spruill and daughter, of Melrose, were in the city Monday.

Collie Brown and Belton Latimer of Garrison are visitors in the city.

Horace Mettauer of Chireno was a business visitor in the city Friday.

Mr. and Mrs. Wilton Blakey and baby are spending this week in Melrose.

Our venerable friend W. A. Skillern, of Lanana was in town today, Saturday.

Miss Annie Mast of Melrose, is the guest of Misses Caroline and Rosalyn Strippling.

Jim Faulkner and son of Attoyac, are in the city attending the Farmer's Short Course.

Miss Stella Harris of Melrose was a pleasant caller at the Sentinel office Thursday morning.

Miss Lilly Skillern and father, with Miss Hudson, from LaNana are in the city shopping today, Saturday.

Miss Era Petty returned Sunday from New Salem and Mahl when she has been visiting for the past two weeks.

Miss Mollie Turner, who has been visiting in Houston, spent Sunday in the city, before returning to her home in Cushing.

Joe Harris and W. B. Smith of Melrose, passed through our city Monday, on their way to Tyler. They are witnesses in the Pear Sorrel case.

Miss Lonnie Dee Power returned from Cushing Sunday, after a pleasant visit with her aunt, Mrs. Walter Daniels. They came through in Mrs. Daniels' car.

The Sentinel's status is not exactly fitted for what is known as poetry or doggerel. Can't always some times generally print poetry much.

Mrs. Roy R. Morris and baby Thelma came in Saturday from Livingston to be the guest of her husband's sisters, the Mrs. Chadwicks' and Miss

About Nacogdoches County

Beaumont Tex., July 14.—

I want to tell you that in my opinion Nacogdoches is one of the most favorably located towns for a great agricultural development that has come to my knowledge in Texas. To the north and east are the rich Orangeburg loams, the celebrated redlands of East Texas; to the west south are stretches of pine lands that are capable of being built to great fertility. It is not a question of what they can grow there, but of the detail work necessary to profitable growing. Nacogdoches and its territory have the whole range of products produced in Texas. My idea of a prosperous farm community is the balanced farm, one established on true economic and efficiency lines, with sufficient livestock to keep up the fertility with the aid of legumes—raising everything needed by man or beast on the farm save the few luxuries like coffee, tea, white flour and sugar. Farms run upon this principle are a success wherever found, and leave the owner free to raise a side crop which may be in the nature of a hobby. The list of specialties that can come to Nacogdoches is so great that it would take too long to detail them, however I understand that the old town used in the past to be the seat of quite a milling industry. Why not revive this and manufacture corn and oat meal, graham and white flour, grits etc. All or any of these will give the foundation for a great growing agricultural development. I recall one old eastern town where the milling business retrogrades as the wheat mills moved to the west, that revived it milling industry along specialty lines and is now the center of a great milling industry, buying not only from nearby farmers, but in the open markets of the world, so great has its business become.

Then there are the fruit and truck crops: The canning factory, the vinegar plant, the desiccating plant, peanut oil and butter factory, and a dozen other industries along this line offer opportunities to start development that would be felt all through East Texas as the ripples from the pebble in the wayside pool.

G. W. S.

Texas About to Get \$259,000 for Ranger Service Years Ago

San Antonio, Texas, July 14.—The sum of \$259,000 owed by the national government to the state of Texas for range service along the Mexican border during the years just preceding the civil war, is about to be paid, according to Congressman John N. Garner. Mr. Garner said that he understood the money will be used in conjunction with a state appropriation for the erection of a large state tuberculosis sanitarium to be located probably at Fort Clark, Texas.

Wars may come and wars may go, but Old Greed and Old Envy will continue to fight each other to a finish.

Pensions Are Cut \$3 Lower.

Austin, Texas, July 14.—

Confederate pensions for the quarter ending August 31, 1915, will amount to only \$10 for indigent pensioners and \$25 for totally disabled pensioners. The allowance for indigent pensioners is three dollars less than for the last quarter and was made necessary because of the slow collection of taxes to be deposited to the pension account in the treasury.

Recently the management of Confederate home in Austin announced that it was within ten of a record attendance and that during the last quarter when the amount had been reduced to \$13 that many pensioners had given up their pensions and had come to the home to be cared for.

The announcement of \$10 for the quarter ending August 31 is expected to cause some trouble at the home. Many of the pensioners are coming to Austin without making preliminary application for membership.

Judge Hall May Enter Appeals Race.

Judge Walker Hall, at the present time a member of the Seventh Court of Civil Appeals here, may become a candidate for the Court of Criminal Appeals at the July primaries next year.

It is understood that Judge Hall is considering entering the race. For several weeks he has been receiving letters from all over the state urging that he get into the race against A. J. Harper.

Judge Hall was recently elected to the Court of Civil Appeals for a six year term. He had no opposition. For many years he has been regarded as one of the foremost jurists of Northwest Texas.—The Daily Panhandle.

Judge Hall's many Panola county friends will read the above with delight, and should he enter the race Panola will do her part for Judge Hall—Panola Watchman.

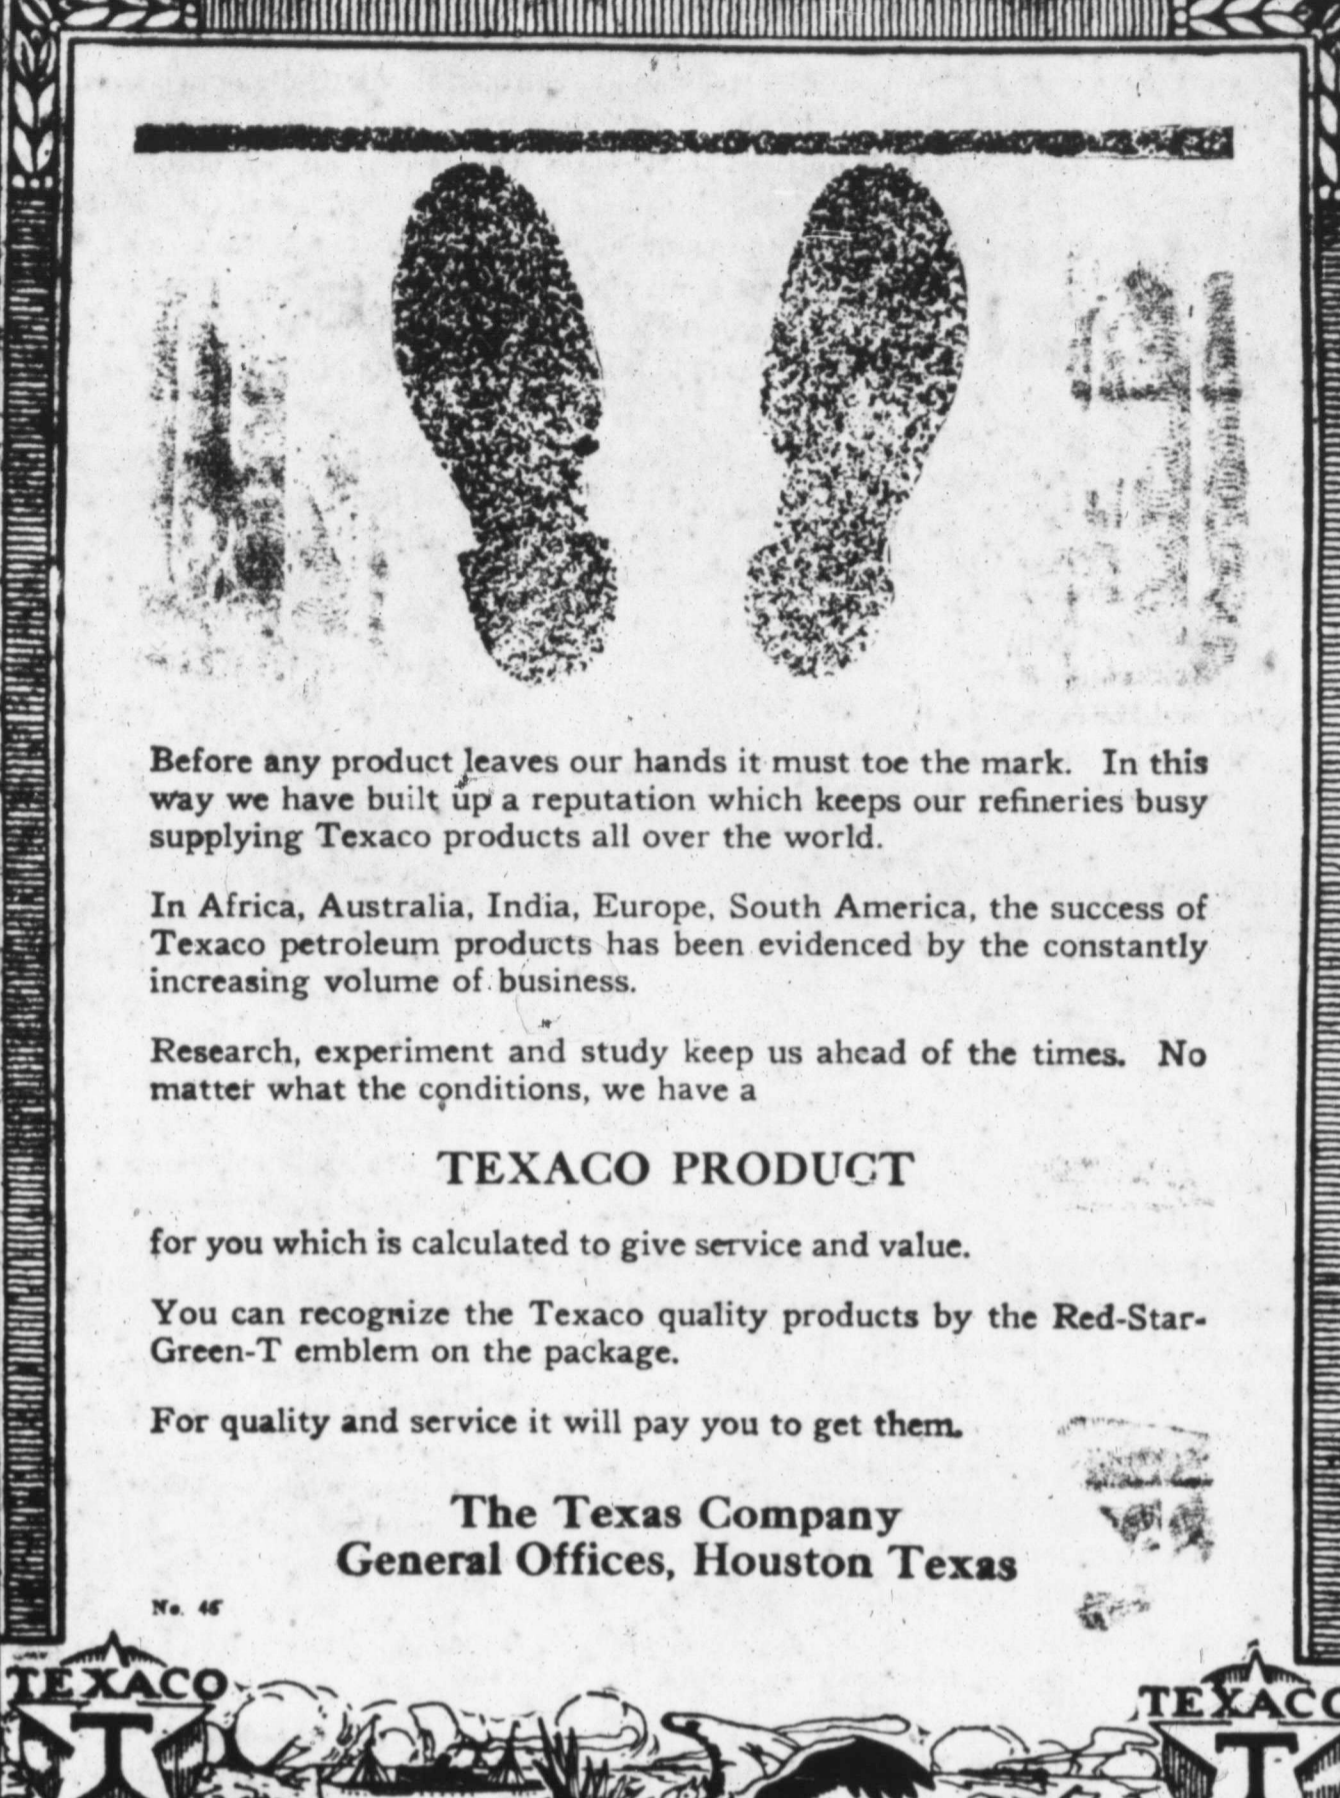

Walker Hall was reared in Henderson, was admitted to the bar and practiced law here for several years prior to his moving to the Panhandle, and has thousands of friends through this section, who will be strong advocates for his promotion should he become a candidate.—Rusk County News.

Nacogdoches is in line for Judge Hall. His reputation has long been appreciated here, where he has relatives and friends.

Tax Surplus Lands

From the Southland Farmer, of La Porte, Texas, the following is a closing paragraph of a lengthy letter:

Let us keep at this matter of shifting taxes from productive labor to land monopoly, and make the tax higher and higher the bigger the land monopolist. This will bring relief and change an increasing percentage of tenantry in the state to a decreasing one. I am glad to see the able editorials on this line in the Farmer, and such educational work as you are doing along this line is bound to tell. Keep it up.—J. C. Monroe, Nacogdoches, Texas.

Before any product leaves our hands it must toe the mark. In this way we have built up a reputation which keeps our refineries busy supplying Texaco products all over the world.

In Africa, Australia, India, Europe, South America, the success of Texaco petroleum products has been evidenced by the constantly increasing volume of business.

Research, experiment and study keep us ahead of the times. No matter what the conditions, we have a

TEXACO PRODUCT

for you which is calculated to give service and value.

You can recognize the Texaco quality products by the Red-Star-Green-T emblem on the package.

For quality and service it will pay you to get them.

The Texas Company
General Offices, Houston Texas

Harry Kinsey Polk.

Our city was shocked, Friday, by news of the death of Harry Polk at his home in San Augustine. He was a most excellent and well liked man at home, and he had many warm friends here. His family connections were numerous some of his relatives living here, and he was in every sense, highly esteemed. He was county judge when he died, and had filled the office before.

He was born in San Augustine fifty five years ago and always lived there. The Polk family were prominent early pioneers. His death was sudden, and was probably from heart failure. His funeral was at 4 p. m. at San Augustine Saturday.

The Germany Fuss.

The Sentinel does not pose as a prophet or instructor, in the quibbles between Uncle Sam and the Kaiser, but would bet its boots against a goat skin that there will be no war between Germany and the United States. Neither side wants a war, nor wants to oppress or run over the other. Disputes can be settled peacefully.

Huerta Sends For Family

New York, July 13.—General Victoriano Huerta, now in custody at Fort Bliss, Tex., has telegraphed his family here to come to El Paso, Mrs. Huerta and the members of her household, eleven in number, expect to depart for the border city Friday. It was said at the office of General Huerta's business associates here that the general intends making El Paso his home.

Within Sixty Days There Will Be Work For All Says Clark.

San Francisco, July 15.—Immediate and country-wide prosperity was proclaimed here today by Champ Clark, speaker of the house of representatives, in an address before the Commercial club of San Francisco.

"I predict that within sixty days every person in America desiring to work will find employment at a fair wage," he said. "Nobody will ever be able to estimate the damage done to American business by the European-Asiatic-African war, but business is rapidly righting itself and I believe we are on the verge of a long era of prosperity."

"We are beginning to harvest the biggest all-around crop that ever grew out of the ground."

Mrs. H. S. Connor, daughter of Mrs. J. J. Lilly, who has been for some time in the Nacogdoches Surgical Hospital for treatment, leaves this afternoon for her home in Tyler. Mrs. Connor has many friends here, who are glad to know she has fully recovered.

Bring Home a Bottle of **FOLEY'S HONEY and TAR** for **Willie's Cold**.

Spanish Peanuts

Nacogdoches county has this year the largest feed crop ever planted in the history of the county, and a large part of this crop is Spanish peanuts. The soil and climatic conditions are adapted for the growing of this crop, and up to this year they have been mostly grown for home consumption either as a hay crop or for fattening hogs. This year several thousand acres have been planted and the crop has taken its place as a commercial or money crop for the grower.

These conditions have been brought about by the necessity of having other crops besides cotton which the farmer can turn into ready money and by the introduction of thrashers in the county and the opening up of a local market for peanuts.

In growing peanuts for the market it is very important that the nuts should be well matured before they are harvested. A good many growers make the mistake of harvesting their peanuts before they reach this stage with the result that their crops contain a large percentage of faulty nuts which are of no value to the manufacturer of peanut butter and other products made from the peanut.

We have a ready market for this product in Nacogdoches and in order to obtain the best prices, and also to build up the industry, it is of the highest importance that every grower who expects to sell his peanuts on the local market should see that his crops are not harvested before the nuts are well matured.

If you produce low quality goods you must not expect to receive the highest market price, and in fact shriveled peanuts such as have been found in some of our crops of recent years are unsalable for manufacturing purposes. If you cannot or will not let your crop mature, rather than offer it for sale you had better use it as hog feed.

Geo. T. McNess,
Texas Experiment Station
No. 11.

Mexico

Appearances now indicate that the Constitutional forces under General Carranza and his subordinates are in the lead. General Villa is making all efforts to resist, and he may get ahead again. He has shown an inclination to make peace.

Carranza regards Villa as he did Huerta, that is as a military usurper, and not worthy of official respect, but deserving to be ousted.

The operations of the many factions are very much on the style of bandits, and every thing is fair in war means raise all the howls possible.

The cruelties and deviltries of Mexico are shocking, but they are far short of such doings in Europe in vastness and in individuality and brutality.

England and our Cotton

These frequent forecasts that the United States is to become immensely wealthy as a result of the war in Europe are little short of nonsense. It is only in odd cases that anyone makes money out of disaster, and then it is most frequently a temporary sort of gain that will be paid for indirectly through some unsuspected channel.

Briefly, the effect of the war is to overstimulate in the United States certain industries which are forced to attain an unnatural growth that will not be sustained after the war. At the same time the general trade which made the entire Nation more and more wealthy year after year is severely crippled so that a few companies are prospering at the expense of the general prosperity, and the total gains they make do not offset the total losses of the Nation.—Austin Statesman.

Woman in Kansas To Run For Congress

Topeka, Kan., July 16.—Dr. Eva Harding of Topeka today announced her candidacy for the democratic nomination for congress in the First district next year. She is said to be the first woman to seek a national office on the democratic ticket in Kansas since women were given suffrage.

Dr. Harding was one of the first women admitted to practice medicine in Kansas, her certificate being issued in 1882.

Two other Kansas women last year entered the congressional race. Mrs. Eva Morley Murphey was a candidate for congress in the Sixth district on the progressive ticket and Mrs. Emma Grover was a prohibition candidate for congress in the third district.

"More women are needed in office in Kansas," Dr. Harding said tonight. "Men tell us we should not run for office because we have had the ballot such a short time. The fact that we have had to wait for it so long and have had it such a short time seems to me a good reason why we should be in a hurry to exercise our rights."

The Lutkin News of the

20th copies the Sentinel's letter from W. T. Wilson on Sudan grass, with elaborate and appropriate comments, emphasizing the great value of this hay as a suitable feed product for East Texas for market and for home use. The Sentinel has worn out several lead pencils writing this kind of editorials, and has largely succeeded in attracting farmers attention. Sudan grass for hay and for pasture is truly a wonder.

Priest Left Estate of About \$20,000

Chicago, Ill., July 16.—Archbishop James Edward Quigley left an estate, it was revealed today when his will was read, consisting of \$15,000 in cash and \$5000 in life insurance. It is understood it will be distributed among the dead prelate's brothers and sisters.

Farmers Short Course

The Farmers Short Course, being conducted hereby the Extension Department of the A. M. College of Texas, held its opening session Monday with an enrollment of 287 students, and it is believed that before the school closes the school auditorium will be filled to its capacity.

The first lecture was given by Prof. Thomas on Dairying. The principal point in this lecture was to point out the difference between a good and poor dairy animal. At the conclusion of the lecture a number of questions were asked Prof. Thomas by the dairymen present.

By vote of the students it was decided to hold joint sessions of the men and women, so Mrs. Marshall followed next with her lecture on Poultry Feeding, giving her experience as a practical poultry raiser. This was a very instructive talk and a good deal of interest was shown by the ladies present.

Prof. Burk, of the Animal Husbandry Department of the college, gave a very interesting lecture and demonstration on horse judging. After the lecture in the building, school repaired to the campus where the various good and bad points about a horse were shown. A thoroughbred and two draft mares and a draft colt were used in this demonstration. Prof. Burk is a very capable man in his line of work, having charge of the College Stock.

The afternoon session was taken up by a practical lecture by Mr. Evans on pecan budding, giving actual demonstrations of the method used in ring budding and top working trees, and it is hoped that through this lecture the growing of pecans will be stimulated in our county. Prof. Orms followed Mr. Evans with a good talk on the needs of the soil of Nacogdoches county. Prof. Orms brought out the fact that our farmers must practice deep fall plowing and turning under of green manure crops in order to maintain the fertility of the soil. The closing lecture was given by Miss Ruby Fincher, a graduate in Domestic Science of the school of Industrial Arts of Denton, the best woman's college in the State of Texas, one of whose duties is to manufacture wives for Texas farmers, who are able to make farm life worth living. Miss Fincher demonstrated the making of sponge cake, and from the demand of the audience for a sample after the cake was baked and the relish with it was eaten, showed that the demonstration was a success, and that Miss Fincher is capable of presiding over any household in our grand old State.

At 8:30 a reception was held in the Elks Hall to the Teaching force which was well attended and an enjoyable evening was spent.

Farmers Short Course

The second day of the Short Course showed a large increase in the attendance. The first lecture was given by Prof. Burk on selecting hogs, and

after his talk quite a number of questions were asked him by those interested in the hog industry.

Mr. McNess, of the Experiment Station, took Mr. Orms place, and spoke on Crop Rotations, as conducted upon the Station. He also gave the farmers some good advice regarding care of farm implements and methods of plowing. Mr. McNess was followed by Prof. Elliott, of College Station, who spoke upon co-operation. This was a very interesting lecture and the audience seemed deeply interested in all the Prof. spoke about. In the afternoon session, Mr. Thomas spoke upon butter making, and if his advice is followed there will be a better quality of butter made on the farms of the county than has been in the past.

Miss Fincher gave a good lecture on canning fruit and vegetables, which she followed up by a demonstration, by canning tomatoes both in cans and glass jars. This closed the days exercises with the exception of a good and practical talk by Mr. Paul Whipprecht of the State Department of Agriculture at Austin.

G. T. M.

Farmers Short Course Closes in Glorious Day

Wednesday was the third and last day of the local short course. The first lecture was by Prof. Burk on judging dairy and beef cattle. The judging ring was held under the splendid oaks on the campus. About 14 animals were in the ring, and the good and bad points were pointed out on each animal. Quite a number of questions were asked, and a good deal of interest was shown in this phase of the work.

Before repairing to the school building, a photograph was taken of the teachers and student body, as well as the animals used in the contest.

Mrs. Marshall, in her winning way, gave a very interesting talk on egg circles, and it is hoped that an egg circle will be formed in Nacogdoches county.

Prof. Elliott followed with a good talk on co-operative societies, rural credits and the warehouse law. This was greatly interesting to all present, both to the farmers and the merchants, and, as an outcome of this lecture, there will be a meeting in Nacogdoches on August 21, to form a co-operative selling society for Nacogdoches. Prof. Elliott has promised to return for that meeting.

The afternoon session was begun with a good lecture by Prof. Burk, on feeding farm animals, and the value of the various feeds. He showed that peanut hay was a most valuable hay and superior to alfalfa as a feed for all stock.

Mr. Greer spoke on corn selection, pertaining to his work in the county, and was followed by Miss Ruby Fincher, who again demonstrated her ability as a good housekeeper, by preparing a good roast by means of the fireless cooker.

Mr. Olsen's lecture was given at the Ideal theatre, so that lantern slides could be

used. This lecture was very instructive.

One hour was given up for talks by the students, Mr. D. K. Cason taking the place as chairman. He called upon quite a number of our farmers and citizens who made good talks. Mrs. Day of Appleby made an excellent talk. By a standing vote of the student body, it was carried that a short course be held in our city next year.

After the school closed about 200 of the students and the instructors were brought out to the Texas Experiment Station in autos kindly furnished by citizens for the occasion. After being shown the various experiments being conducted for their benefit, everybody repaired to the lawn, and under the shade of the world famed East Texas Elberta peach tree, everybody was treated to a watermelon feast. 104 large melons were cut for the occasion, and it was the general expression by every person present that the Short Course of 1915 was the largest thing that has ever come to Nacogdoches county.

Everybody is to be congratulated, the committee and their able chairman, Mr. Cason and Sect. Capt. Cooper, for the excellent arrangements made for conducting the school, and to Prof. Davis and the schoolboard for the loan and care of the school building, and to Mr. Greer and the Supt. of the Experiment Station for the interest they have taken in the work, not forgetting the corps of instructors and the interested student body.

G. T. M.

P. S. The Sentinel hereby throws a big and beautiful bouquet to Mr. Geo. T. McNess, the affable and active Superintendent of the State Experiment Station, for the above and previous reports of the meeting. His own efforts and the assistance of other public spirited citizens, made the affair a howling success. More than 800 people attended. Forty-five automobiles and many other vehicles carried nearly 200 people out to the farms, gardens and dairies on North Street and road.

Attorney Farmers Short Course: James D Greer, the active and efficient agricultural instructor, will hold a three days Farmers Short Course school at Attoyac, 20 miles east of Nacogdoches, beginning on Aug. 4. Every body is invited to attend, male and female, and every body is urged to boost the work. It will surprise and please all that come.

Mrs. I. N. Buckner, of Chireno, passed through town Wednesday on her way to Kaufman where she will visit her niece Mrs. A. M. Morrow. Mrs. Buckner is an aunt of our townsman John N. Gilbert and she stopped over to see him. They had a dispute as to whether it has been 37 years or 47 years since she had visited Mrs. Morrow who has only been gone from Chireno about 27 years.

A lazy man makes much ado about nothing.

Singing School at Campbell School House

On Monday, July, 26, 1915, Prof. Joe R. Day will begin a ten days singing school at Campbell school house. Tuition for the ten days will be \$1.00 per student.

We invite all from adjoining communities who are interested in vocal music to attend and take part with us.

W. D. Burrows,
W. M. Mellwaine,
Committee.

Saturday only, 7 bars Crystal White soap 25c. Lee V. Society Store of course. 22-12t-w4

I am prepared to do all kinds of boiler repairing. Phone Frost-Johnson Lmbr. Co. Ambrose Kelly. 22-w2

Triplets

Born to Berry Pettus and wife, colored, at their home two miles east of Nacogdoches, Texas, on Saturday, July 17, at 5:30 p. m. two sons and one daughter. The three little pickininnies are now three days old and bid fair to live long lives.

Seven children preceded these three, the last two being twins, now two years old—making five children in two years for one woman.

There was a bad accident on the rail road from Lutkin across this county to San Augustine, last Sunday. A motor car was derailed on a trussel by running over a hog. A man named Treadway, well known here, was dangerously hurt. Several others were badly broken up.

Postoffice Inspectors Recover Stolen \$13,000.

San Francisco, Cal., July 16.—Thirteen thousand dollars of approximately \$20,000 stolen from the Wallace, Idaho, postoffice in December, 1913, is in the possession today of Federal postal inspectors and Clarence McDaniels, a former clerk in the office, is under arrest here, having confessed the theft.

The confession clears up what the inspectors declared today was one of the most puzzling postal robberies in recent years. Suspicion only recently attached to McDaniels.

Leo Frank May Live

Dispatches from the Georgia penitentiary are quite gratifying as to the chances of recovery of the unfortunate Leo Frank, who is unjustly imprisoned for life, and whose throat was cut by another life convict who is probably insane. Poor Frank, it seems that the fates are against him. If "truth" is a good occasion for its manifestation.

The clouds in Mexico are not so dark. It looks like clear weather and Carranza, which means constitutional government.

Flattery is sweeter than honey and the honey comb, and there is plenty of it for all suckers.

Freckle-Face

Sun and Wind Bring Out Ugly Spots
How to Remove Easily

Here's a chance, Miss Freckle-face, to try a remedy for freckles with the guarantee of a reliable dealer that it will not cost you a penny to remove the freckles; if it does give you a clear complexion the expense is trifling.

Simply get an ounce of othine—double strength—from any druggist and a few applications should show you how easy it is to rid yourself of the homely freckles and get a beautiful complexion. Rarely is more than one ounce needed for the worst case.

Be sure to ask the druggist for the double strength othine as this is the prescription sold under guarantee of money back if it fails to remove freckles.

Edison Objects

Thomas A. Edison declares against the European plan of preparation for war—large standing armies and compulsory service. He contends that the proper plan is the equipment of various arsenals in this country with enough arms and ammunition to check the first move that may be made against the United States, to build trenching machines that will enable the regular army of something like 100,000 men to check the first onslaught and to maintain a navy which can adequately guard our coasts. The plan that the great inventor proposes would mean no such taxation as has been Europe's lot for the last fifty years, and Mr. Edison declares that it would be entirely adequate. And most of us are inclined to side with him when he declares the European system of preparedness, as exemplified in the large standing armies and constant maneuvers, is all wrong.—Galveston Tribune.

Open Bids Would Win

The following clip shows the spirit of grafting that often kills the goose that lays a golden egg. The price of ground is raised by greedy graft, whereas there are good locations that would be given freely with a premium. Why should Austin have it:

"According to Austin dispatches it seems there is a probability that Austin may lose the blind institute. The board appointed by the legislature to select a site for the new building states that Austin real estate prices are excessive, and if a material reduction is not made in the prices of the sites offered the institute may go elsewhere. If this should transpire it will not be the first time the goose that lays the golden egg has been the victim of over zealous pot hunters."

The Sentinel is thankful for a fine watermelon presented by W. B. Boozer of Dorr creek, four miles south east of town. He brought in a wagon load and gave the Sentinel the pick.

HAVE HAD THE PROOF.

Could You Do The Work And Command
Th: Pay If You Were To Take A
Course With Us

Here are a few extracts from letters of prominent business men who have had the proof as to the ability of our graduates:

"I think your institution the best of its kind in this country."

"We have had six of your graduates in the past few years; they were all good; send us another."

"There is such a scarcity of business colleges who fit their students for real business that we cannot refrain from writing and endorsing your college, since several of your students have proven competent in our office."

"I am always glad to recommend your Cotton Classing Dept. It has been of great benefit to me and my employer is highly pleased with my work."

"As you all know, I have had a number of your students in my office. I take this opportunity of saying that every student that I have had from your school shows superiority of training over students that I have had from other schools."

"I have given your graduates a thorough test, and have found them to be accurate and quick with their work. The thorough and practical training you give, fits them for any kind of a position."

"We have one of your graduates as stenographer in our legal Dept. at a handsome salary giving entire satisfaction. The work is extremely difficult, requiring the greatest skill and accuracy, reads her notes like print. We wish to commend your school for turning out such excellent graduates"

"If all of your graduates are as proficient as the three young men we have in our office, you are certainly doing a great work for not only the young people but the business men as well."

A large firm of Cotton Buyers of east Texas says:

"We predict much success for your Cotton Classing Dept. It is thorough and up to date and is in charge of capable instructors."

"It is indeed a pleasure to use one of your stenotype-writing operators. He takes dictation so easily and when called upon to read back he does it with perfect ease because it was print and not crooked marks."

Write for catalogue containing hundreds of endorsements together with name and address of business men who pay our graduates good salaries. With our modern systems, we can give you a better course of Bookkeeping, Shorthand, Cotton Grading, Business Administration and Finance or Telegraphy in half the time and at half the expense of any other school teaching other systems.

Address Tyler Commercial College, Tyler, Texas.

"Full crew" does not mean today what the same words meant twenty-five or thirty years ago.

Rainmakers

In Europe they are still bombarding and piling up the slain; and over here both field and gardening are ruined by the rain. Throughout the spring the western prairies have sodden been and baked; and wheat and corn and huckleberries are swamped and drowned and choked. I view my patch of watermelons, my bosom filled with pain, and knock the kings and other felons who keep on making rain. Some days the armies, spent and weary, are resting on their arms; and then the sun shines, bright and cheery, and starts to dry our farms. We take our rusty cultivators hope stirring in each heart, and try to plow our sweet potatoes, in rows four feet apart. And then the soldiers start a-shooting, afar on Europe's shore, and down the rain comes, callyhooting, for days, and then some more. Upon the roof the raindrops rattle, they spoil our hay and beans, and when we go to feed the cattle, we go in submarines, Oh, cut it out, ye kings and kaisers, and monarchs high and low! Our spuds and other early raisers don't have decent show!

Walt Mason.

Fatal Accident

Crockett, Tex., July 14.—Mrs. Robert Wheeler of Dallas was accidentally killed this morning at the home of her father, Martin Sims, near Latexo, where she was visiting. Her brother, Culberson Sims, it is said was shooting at a bird, not knowing she was in range. The ball entered her brain just above the ear.

Following are the names of parties here from the Extension Department of the Agricultural and Mechanical College at Bryan and other parties here to work in the Farmer's Short course beginning here today and lasting three days:

Mrs. Beulah A. Marshall, Dallas.

J. C. Olsen, College Station.

L. B. Burk, College Station.

J. L. Thomas, College Station.

J. A. Evans, Fort Worth.

J. V. Brooker, Temple.

G. W. Orms, Mineola.

As registered at hotel.

Mr. R. Louis Routt is here for a few days, and arrangements are being perfected for him to deliver this lecture there next Sunday afternoon at the moving picture theatre. The subject will be "Will There Be Worlds Peace?" Mr. Routt has studied the causes of this present great conflict of Europe and is amply qualified to speak upon this question. He has had access to some of the greatest libraries of this country and years of experience in the lecture field.

There is to be held at Austin, July 27 to 30 a most important Farmer's Institute. It is promoted by the University and by other institutions, and will be a big thing and a good thing.

Texas Home Industry Magazine.

Vol. 1, No. 1 of the above entitled periodical has reached the Sentinel, and is here by extended a warm fraternal greeting. Among the names of the editorial staff is Robert A. Higgins, formerly an able editor of the Nacogdoches Sentinel, and its appreciated friend for ever.

The magazine is published at Temple, Texas, by an incorporated company. Its purposes and features are of highest grade.

Following is a clipping from it:

Over in East Texas there is a red-land belt that grows the finest tobacco in America and a product that equals that of Sumatra. The strip of land runs through a number of counties, chiefly Anderson, Nacogdoches and San Augustine. Cigars made from the Texas tobacco are regarded by government experts as being as good as any that can be made from tobacco grown in any part of the world, both as to filler and wrapper. Tobacco is a money crop, too. Some of these days the smokers of choice cigars are going to become addicted to the pleasant habit of calling for "Texas-Made-Cigars" and there are lots of them made, too.

From Palacios.

To the Sentinel:
Nacogdoches is well represented here, as before written. We are having a most enjoyable trip, spiritually, well as socially. Train leaves at 7 a. m. and it rushes us to write letters in the morning. Fishing here is very fine and so many nice little boats and ships. Crowd going to the gulf this morning by water for 75 cents round trip and return this afternoon at six o'clock.

We have had Bros. George Truitt, J. B. Gambrell, Bro. Scarbrough and other splendid preacher with us and it has been a spiritual feast to listen to them all. Dr. Lockett, who has been doing mission work in Africa, has given us some splendid talks on that country. We do not let our bathing conflict with the services in any way and all are enjoying to the fullest extent.

Best wishes to the Sentinel.
Z.

Tom Ball says he is in favor of the amendment to allow voting away from home, under certain restrictions, and he says he and Governor Ferguson both advocated it in the canvass for governor. John M. Duncan, who now seems to reside in San Antonio, is also strongly in favor of it. All this is quite plausible reason for favoring it by others, because these are worthy and capable leaders to be followed.

The official census gives San Antonio's population as 119,447, Dallas 116,604, Houston 96,526, and Beaumont 31,585.

Every man ought to be at least permitted to take care of himself according to law.

Yet blockheads are not the kind that produce the burning thoughts.

The Fire Alarm

At 10 o'clock this, Monday, morning, the fire alarm bell rang 46. Giles Parmelty's house had caught from a fire place where some ironing was being done. No great damage resulted. The fire company landed and so did the neighbors.

It was the original old H. C. Hale place on the North street.

On next Friday night at the Crown, Robert Warwick will star in "Alias Jimmy Valentine." Since the film version of this play, which scored such a success on the stage, is proving so popular, and since part of the proceeds will go to help pay for the new ceiling fan which now makes the library reading room so comfortable, everybody should be there. Prices 10 and 20 cents.

Miss Blanche Cox and Teddy Pierce entertained Friday evening at the home of Mr. and Mrs. W. M. Cox, in honor of Clarence Rudisill of Cushing. Forty-two and many other games too numerous to mention furnished the young people amusement during the evening. Refreshments of iced water melons, ice cream and cake were served at the close of the evening.

Mrs. Prestridge, mother of Geo. S. Prestridge, vice-president of the Frost-Johnson Lumber Co., and grandmother of Mrs. E. D. Smith, of this place, died at Shreveport yesterday afternoon. All of the Frost-Johnson mills will close down this afternoon at 4:00 o'clock for 15 minutes out of respect for Mrs. Prestridge. Mr. and Mrs. Smith left yesterday for Shreveport to attend the funeral, which is to be this afternoon.

Seventh Day Adventists observe Saturday as the biblical Sabbath day, and are opposed to legal Sunday laws, which they say is contrary to religious liberty, which should be left to each person's own privilege.

Women do not like new wrinkles any more than they do old ones.

But it is better to quarrel over trifles than over something of real importance.

Opportunity never troubles a man if there is nothing in him.

The individual who ponders continually over his or her own happiness hereafter is too selfish for much use.

The man who says he is glad he is married is either an optimist or a liar.

The size of Parcel Post packages have been raised from seventy-two to eighty-four inches.

It is getting so that good advice is considered an insult even by young boys with pips.

Carl Means, the book farmer of Appleby has brought to town samples of Egyptian wheat that he raised. He thinks it wonderful and valuable.

A Good Household Salve.
Ordinary ailments and injuries are not of themselves serious, but infection or low vitality may make them dangerous. Don't neglect a cut, sore, bruise or hurt because it's small. Blood Poison has resulted from a pin-prick or scratch. For all such ailments Bucklen's Arnica Salve is excellent. It protects and heals the hurt; is antiseptic, kills infection and prevents dangerous complications. Good for all Skin Blemishes, Pimples, Salt Rheum, Eczema. Get an original 2-ounce 25c. box from your Druggist.

Don't make any mistake in saying that Uncle Dave Lee has bought an automobile. He really did buy a Ford, and he has been flying around in it before he reached 87 years of age. He can't fly that way forever, so better now than never.

A Cough Remedy That Relieves.
It's prepared from the healing Pine Balsam, Tar and Honey—all mixed in a pleasant, soothing Cough Syrup called Dr. Bell's Pine-Tar-Honey. Thousands have benefited by its use—no need of your enduring that annoying Cough or risking a dangerous Cold. Go to your dealer, ask for a 25c original bottle Dr. Bell's Pine-Tar-Honey, start using at once and get rid of your Cough and Cold.

Sam W. Reid, of the Snady Grove vicinity, is in town, visiting his son George Reid. Uncle Sam is 88 years old. He came to Texas in 1836 and was in the noted runaway scrape, when every body here fled to Louisiana at the time Santa Anna invaded Texas and was captured at the battle of San Jacinto.

An Easy, Pleasant Laxative.
One or two Dr King's New Life Pills with a tumbler of water at night. No bad, nauseating taste; no belching gas. Go right to bed. Wake up in the morning; enjoy a free, easy bowel movement and feel fine all day. Dr. King's New Life Pills are sold by all Druggists, 36 in an original package, for 25c. Get a bottle today—enjoy this easy, pleasant laxative.

Byron Price, who is attending the A. M. College at Bryan, and is a Nacogdoches county boy, is spending his

vacation on the Tatt ranch in west Texas preparing 25 head of Berkshire hogs and 25 head of Jersey cattle for an exhibit at the State Fair at Dallas. He is hoping that he will take first prize on all of them.

Tired, Aching Muscles Relieved.
Hard work, over-exertion, an stiff, sore muscles Sloan's Liniment lightly applied, a little quiet, and your soreness disappears like magic. "Nothing ever helped like your Sloan's Liniment. I can never thank you enough," writes one grateful user. Stops suffering, aches and pains. An excellent counter-irritant, better and cleaner than mustard. All Druggists 25c. Get a bottle to-day. Penetrates without rubbing.

"P. C." don't you know, P. C. Richardson, the hermit. He was asked, yesterday when he first came to Nacogdoches. He replied that he arrived here Aug. 17, 1874, and then in a thinking manner, he said, next Friday will be 41 years. How came it and how did you come and whence and where did you stop, and what did you do, and how did you keep doing. These questions were not raised, but they bring up memories that would surprise the younger set if recited clearly—of a fated life and an eventful career.

For Hay fever or Asthma
Many persons dread July on account of hay fever. Foley's Honey and Tar Compound is recognized as the ideal remedy for hay fever and asthma. It heals and soothes the raw rasping throat and eases the choking sensation. It allays inflammation and irritation and brings easy, natural breathing. Swift Bros. & Smith.

Sam Sapp, of Shelby county, was in town last Saturday. He used to live here and he was gay and jolly then. He says he will never get old, but the fact is that it has been long since he was a little boy at Sapps store, where the old settlers of the four corners of the adjoining counties of Shelby, Rusk, San Augustine and Nacogdoches came together for Saturday evening sports, which would be hard to imitate or describe.

Summer Aches and Pains.
A backache that cannot be explained by having "sat in a dratt" is more than likely the result of disordered kidneys. Foley Kidney Pills promptly relieved backache, sore or stiff muscles and joints, rheumatism, and sleep disturbing bladder ailments. They put the kidneys in sound, healthy condition. Swift Bros. & Smith.

Watermelon to the Sentinel.
There are several big hearted farmers around here that have always befriended the Sentinel in various ways. They show their kindly remembrances every year by complimenting the Sentinel with a liberal specimen of their products. Such courtesies are very gratifying and encouraging.

This Monday morning our good friend, David Burrows, according to the Burrows family record of hospitality, brought the Sentinel a great big fine watermelon. It is of the species called Halbert Honey. It weighed 43 pounds and measured in transverse circumference, that is to say around the waist, 28 inches, and its longitudinal circumference was 58 inches. It was about the same size all its length, the stem end and the bloom end very much alike.

And Dave said "If it is not good let me know and I'll make it good." That was good for him and good for us. And so it was goodness all round and around.

Besides the big watermelon, Mr. Burrows also brought in and gave to the Sentinel a large and beautiful mushroom, or whatever it may be called. It looks good too, and will be thankfully tried out.

Are You Feeling Fit?
Do you envy the man or woman of untiring energy, strong body and happy disposition? All these depend on good health, and good health is impossible when the kidneys are diseased. Foley Kidney Pills help the kidneys cast out poisons that cause backache, rheumatism, and other symptoms of dangerous kidney and bladder troubles. Swift Bros. & Smith.

A dispatch from Austin announces that the Confederate Pensions have been again reduced, this time going down to \$10 per quarter. This is truly hard news for many old veterans who are feeble and helpless now, and who shed their blood and risked their lives for their country. They can't see why their pensions are not as certain as taxes.

They Write Every Day
Every day Foley & Co. receive letters from grateful men and women telling how Foley Kidney Pills cured them of backache, sore muscles, stiff joints and other kidney and bladder troubles. Is very quick and to relieve lumbago and rheumatism due to kidney trouble. No other remedy has a longer record of cures. Swift Bros. & Smith.

CITROLAX
Best thing for constipation, sour stomach, lazy liver and sluggish bowels. Stops a sick headache almost at once. Gives a most thorough and satisfactory flushing—no pain no nausea. Keeps your system cleansed, sweet and whole some. Ask for Citrolax. Swift Bros. & Smith.

W. D. Slay, and four of his neighbor men, all living in the vicinity of Appleby, passed through town Monday morning, bright and early, on the way down to the Shawnee crossing on the Angelina

WITHIN THE REACH of every woman—health and strength. They're brought to you by Dr. Pierce's Favorite Prescription. Take this medicine, and there's a safe and certain cure for all the chronic weaknesses, derangements, and diseases peculiar to the sex. It will build up, strengthen, and invigorate every "run-down" or delicate woman. It regulates and assists all the natural functions. At some period in her life, a woman requires a special tonic and nerve.

If you're a tired or afflicted woman turn to "Favorite Prescription," you will find it never fails to benefit. Sold in tablet or liquid form. Mrs. LUCY E. YOUNG, of 2322 Clinton Avenue, Fort Worth, Texas, says: "I was in such bad health and so despondent at times that I couldn't do my work. Tried everything I could hear of. Doctors treated me but I only got relief for a short time until I tried Dr. Pierce's wonderful medicine. Have been in much better health since using 'Favorite Prescription' and 'Golden Medical Discovery'. I weighed 107 at that time now I am well and hearty and weigh 130 pounds."

river They had driven ten miles in a two horse wagon, and they had ten miles more to drive. They started at 3 a. m. and all this is just for the fun of fishing and foolishness. The same act done for business purposes would have brought out a different tune.

Wanted Now.
Right now, when hay fever is attacking its victims and when asthma is causing so much distress, there is a demand for Foley's Honey and Tar Compound—the remedy that brought relief to thousands in previous years. Don't continue to suffer. It will help you. Contains no opiates. Swift Bros. & Smith.

Graveyard Working
There will be a graveyard working at Dorr Creek Friday, July 30th.

All who are interested are urged to come and bring their rakes, hoes and wheel barrows. Those who live at a distance and wish to help may come or send a contribution to help in this worthy cause.

Don't forget to bring your lunch. Come prepared to stay all day. We need you. Committee.

Keep your system in perfect order and you will have health, even in the most sickly seasons. The occasional use of Prickly Ash Bitters will insure vigor and regularity in all the vital organs. Stripling, Haselwood & Co. Special Agents.

"Misery Loves Company"
The thermometer at Juneau, Alaska, is running up to above 90, even to 100. That surprises a Texan, but does not hurt him.

In warm weather Prickly Ash Bitters helps your staying qualities. Workers who use it occasionally stand the heat better and are less fatigued at night. Stripling, Haselwood & Co. Special Agents.

Married, Saturday July 17, 1915, at 7:30 p. m. by Rev. H. C. Willis at the Methodist parsonage, Mr. Ben Goodwin of Bessmay, and Mrs. Mary Morris.

If you have no appetite for your meals something is wrong with your digestion, liver or bowels. Prickly Ash Bitters cleanses and strengthens the stomach, purifies the bowels and creates appetite, vigor and cheerfulness. Stripling, Haselwood & Co. Special Agents.

The verdict of the jury, and the judgement of the court was that Harry K. Thaw is sane, but the States Attorney will appeal, and cause much more useless trouble.

Men, like pins, are no good if they lose their heads.

ALL WRONG
The Mistake is Made by Many Nacogdoches Citizens.

Look for the cause of backache. To be cured you must know the cause.

It's weak kidneys you must set the kidneys working right.

A Nacogdoches resident tells you how. Mrs. John H. Cox, merchant and farmer, N. Fredonia St., Nacogdoches, says: "Lagrippe left my kidneys in a bad fix. I had a dull ache in my back until I was almost exhausted. I used Doan's Kidney Pills only a short time before I got fine results. I steadily became better and haven't had to use them since. Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Cox had. Foster-Milburn Co., Props., Buffalo, N. Y."

Clark For Woman Suffrage
San Francisco, July 15.—Champ Clark faced a band of suffragists here today and pledged allegiance to their general cause. "I expect to see Missouri added to the suffrage states soon and I am going to help," he said. The speaker is here to participate in exercises in connection with the liberty bell which will arrive tomorrow night.

Ford Company Will Refund \$15,000,000
Detroit, July 15.—The Ford Automobile company this afternoon announced a refund of approximately \$15,000,000 to owners of Ford automobiles who have purchased their machines since Aug. 1, 1914. On Aug. 1, 1914, the company announced that if 300,000 machines were sold within a year, each purchaser would receive a refund of from \$40 to \$60. The 300,000 mark was reached this afternoon. The company said the refund was strictly in accordance with the profit distribution policy of the company.

The press of Texas is highly gratified at the honors bestowed upon two Texas news paper men by the National Editorial Press Association at San Francisco. Lee J. Rountree, editor of the Georgetown Commercial, was elected president of the Association and Sam P. Harben, editor of the Richardson Echo, was elected a member of the executive committee.

"Name it and take it" is a old gag that fits a new condition. Here it is: The German armies in the north made a lunge at Warsaw, and captured Przasnyz, whatever you may call it. Name it, take it, as the Germans did. Appropos to taking this, another old gag comes in place thus: the German armies take every thing they can get to, and then some.

How's This?
We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. F. J. Cheney & Co., Toledo, Ohio. We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by him. Wholesale Druggists, Toledo, O. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Take Hall's Family Pills for Constipation. Sold by Druggists. Price 75c per bottle.

The famous electrician, Thomas A. Edison, has agreed to get busy as an aid to Uncle Sam's military agencies. He can shoot lightning, and what it he cuts out gun powder.

LIV-VER-LAX
All the Effectiveness, Not the Effect of Calomel.

LIV-VER-LAX is one of the most important medical discoveries of recent years. For a long time medical experts, realizing the harmful effects of calomel, have been striving to find a liver cleanser that would be just as effective as calomel, and yet be absolutely harmless in its action. Recently this remedy was actually put forth by L. K. Grigsby, in his LIV-VER-LAX.

LIV-VER-LAX is a harmless vegetable compound, designed solely for the treatment of liver complaints. The immediate favor it has met with in thousands of homes is proof positive of its real value.

If you feel worn out, tongue coated, and skin sallow, don't delay until it becomes dangerous, nip the trouble in the bud with LIV-VER-LAX. Insist on the genuine, bearing the signature and likeness of L. K. Grigsby, which is guaranteed to give satisfaction or money refunded. For sale by Stripling, Haselwood & Co.

For Sale
Three log wagons, three yoke of cattle, four mules and four horses now located near Chireno, Texas. See me at Frost-Johnson Mill. W. V. Green, Nacogdoches, Texas.

Hides Wanted.
Hides are in good demand and are bringing good prices, and it is worth while to handle them right. In skinning try not to cut or score the hide. Spread it out, flesh side up, and give it a heavy shower of salt. This is absolutely necessary at this time of the year. Fold it up and put it in a sack. Write your full name and address on two tags. Put one inside of the sack, and one outside. Ship by express to A. Golenternek & Co., Tyler, Texas.

Until further notice we will pay 18 cents per pound for hides handled according to the above instructions. We remit the same day that we receive the shipment and we also furnish shipping tags. Horse hides bring from \$1.50 to \$3.00 each, according to the size. We also handle wool.

Farm for Sale.
160 acres of fine red and bottom land. Situated about nine miles east of Nacogdoches and about two miles of Melrose. Has two sets of four room houses. Ninety-five acres in cultivation, balance in pasture. As fine piece of red land property as there is in the county. Made seven hundred gallons of ribbon cane syrup, twenty five bales of cotton and six hundred bushels of corn last year. Bottom does not overflow. Who wants it? See J. J. Halton or call at the Sentinel office. 7-d8-wtt

THOUGHT SHE COULD NOT LIVE

Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Unionville, Mo.—"I suffered from a female trouble and I got so weak that I could hardly walk across the floor without holding on to something. I had nervous spells and my fingers would cramp and my face would draw, and I could not speak, nor sleep to do any good, had no appetite, and everyone thought I would not live."

Some one advised me to take Lydia E. Pinkham's Vegetable Compound. I had taken so much medicine and my doctor said he could do me no good so I told my husband he might get me a bottle and I would try it. By the time I had taken it I felt better. I continued its use, and now I am well and strong.

"I have always recommended your medicine ever since I was so wonderfully benefited by it and I hope this letter will be the means of saving some other poor woman from suffering."—Mrs. MARTHA SEAVEY, Box 1144, Unionville, Missouri.

The makers of Lydia E. Pinkham's Vegetable Compound have thousands of such letters as that above—they tell the truth, else they could not have been obtained for love or money. This medicine is no stranger—it has stood the test for years.

If there are any complications you do not understand write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

Capt. Martindale Questions the Sentinel.

Cushing, Tex., July 14, 1915.
Editor Sentinel:

In your issue of July 10th I find the following item: "In the list of fourth class Texas Postmasters newly appointed appears the name of William B. McCrary at Cushing, Nacogdoches County, this will be pleasing to the numerous friends of Mr. McCrary, and will be satisfactory to all interested. The Sentinel congratulates him and his patrons."

The Sentinel possibly is not aware that this is the same Bill McCrary that was Chairman of the Republican Executive Committee of this the 2nd Congressional District in the campaign of 1912. Ask Eason or Cooper, they know. They might also be able to tell it Bill has changed his politics since then, if he has his neighbors are not aware of it.

The Sentinel probably is not aware that four stalwart young Democrats were applicants for this position, either one of whom were competent. And either one would have been satisfactory to the patrons of the office, and neither of whose Democracy has ever been questioned.

I think under the circumstances that the congratulations of the Sentinel are out of harmony with its usual political alignments.

A. B. Martindale.

It takes a good sport, Captain, to congratulate the victor or to eat a nice dish of crow.

Cattle in East Texas.

The San Augustine Tribune wonders why cattle raising is not practiced to a greater extent in east Texas, and in this the Tribune is not alone. During the last few months, the Tribune says, "several thousand head of cattle have been bought up and shipped from this place alone, yet they had to go to the western grazing land before they are ready for the market. This all means that the raiser of the cattle had to sell at a low price, and it means heavy expense to the buyer before he can realize on his purchase."

It also means that the grower, in putting an unfinished product on the market, is losing the real profit of the cattle growing industry. East Texas cattle are shipped to west Texas and put on grass. But even when they leave the grass they are not ready for the butcher, for in order to get the best results they must be fed for a time before being slaughtered.

Texas has long been considered a great cattle state, but it is great in this respect only as regards the number of cattle produced. Texas sells her cattle in an unfinished state, and at the same time she has millions of acres of uncultivated land that would raise the feedstuff to put these cattle in a finished condition for the market. The growing of more corn, more alfalfa and the other feeds that may be used to fatten cattle, the building of a few thousand silos and feed lots would work wonders toward bringing about more prosperous conditions in Texas, and no small part of the profit would be the returning to the soil of the fertilizer that will insure more bountiful crops. It has often been said that Texas has more cattle and less meat, more cows and less butter, than any other state in the union and this is perhaps not far from the truth.—Beaumont Enterprise.

There Are Others

To the Sentinel:

In referring to the Old San Antonio road, "El Camino Del Rey," from Nacogdoches to Natchitoches, you named three men over 70 years old who were born here, and are still living here. There are at least two other men living in this town now who were born here, over 72 years ago. Their names are F. H. Hoyas, and L. S. Taylor. There may be others. And Uncle Charley Sterne, of Palestine was born here over 80 years ago. So also was his sister, Mrs. E. Barret. Elisha Rob-

eris, is one of the names you intended to give, not Felix. Show us the good old way.

From Palacios, Texas.

Palacios, Texas,
July 14, 1915.

Editor Sentinel:

A few of your friends and neighbors are having a very enjoyable time here attending the B. Y. P. U. encampment. Among those present from Nacogdoches to date are: Mr. Jno. Orton, Mr. and Mrs. Barnett and son, Jno. Lacy, Misses Pearl and Sallie T. Summers, Misses Louise and Virginia Perkins, Mesdames Robt. Lindsey, Will Perkins, Zula Cariker and little daughters Zula and Nell Mrs. Howard Smith at one time a resident of Nacogdoches, is also in the crowd and welcomed by all. It is like being on the coast at Galveston to be here, only one has more room comforts etc., and much cheaper. The encampment grounds are decorated with pretty palms, oleanders, cape jasmynes, arbor-vitae, vines of various kinds and china berry trees principally. Plenty of nice cottages at different prices to suit the convenience of the poor as well as the rich and every thing close in. Most of us have rooms less than twenty yards from the water. Bath house is open at certain hours morning and evening. On entering the encampment grounds you are furnished with a button that costs you one dollar, which you are to wear and entitles you to all privileges on the grounds. Ice wsgons, melons, etc., came to our doors each morning. Nice large restaurant on the waters edge that could accommodate many more. A stiff breeze is blowing all the time, and cover feels good every night.

The crowds grow each year and the B. Y. P. U. is doing a great work towards up lifting the cause of Christ. Let those who feel interested in the progress now going on, help to make each year better and more profitable to all who will attend. Our best wishes to the Sentinel.

The faster married people live the quicker they get a divorce.

To Summit of Pikes Peak by Automobile.

More than a century ago, Lieutenant Zebulon Montgomery Pike discovered the mountain known as Pikes Peak, and, accompanied by his little band, made a determined effort to reach the summit. After a laborious ascent which brought him only to the crest of one of the nearby mountains, he was forced to give up the attempt, predicting in his diary, that no human would ever scale its rocky heights. Yet since that time an easier approach has been found and modern engineering has conquered the mountain that baffled the intrepid explorer. More people probably have stood on the top of Pikes Peak than any other mountain in the world, and now comes the supreme conquest of this mighty mountain.

It is announced that by the first of August of this year, an automobile road to the summit of Pikes Peak will be a reality. Rights-of-way have been granted by the federal government through portions of the Pike National Forest, and construction work is rapidly nearing completion. The new auto highway connects with the Pikes Peak Ocean-to-Ocean Highway at Cascade, in historic Ute Pass, just west of Colorado Springs and Manitou, and follows the general route of the old carriage road built in 1888, which was pronounced by General William T. Sherman, to be the most wonderful example of mountain road building he had ever seen.

From Cascade to the summit of Pikes Peak, 14,107 feet above sea level, the road will be 17 miles long. It will be 20 feet wide all the way, with comparatively easy grades; the maximum being only 10 per cent, or 529 feet to the mile, and so safeguarded that anyone may drive their car to summit with perfect safety. This will be, in fact, the world's highest highway, and will afford a ride of wonderful scenic effect, culminating in a view from the top of the peak covering more than 90,000 square miles of mountain and plain—4,000 square miles greater than the State of Illinois—and a downward view of greater depth than the Grand Canyon of the Colorado in Arizona.

The World War

The great war in Europe grows more furious and more extensive. The combatants, like two boys wrestling, began in fun but have become angry. In fact they have become insanely infuriated. And they are practicing the silly doctrine that all is fair in war. They are fighting upon the waters, in the air above, and beneath the waters. Soon it will be war under ground, and war at long range.

As to results in the way of deciding or ending the disputes, nothing is accomplished. Battles rage and rage, and

Will cure your Rheumatism, Neuralgia, Headaches, Cramps, Colic, Sprains, Bruises, Cuts and Burns, Old Sores, Stings of Insects, etc. Antiseptic Anodyne, used internally and externally. Price 25c.

STOMACH TROUBLE FOR FIVE YEARS

Majority of Friends Thought Mr. Hughes Would Die, But One Helped Him to Recovery.

Pomeroyton, Ky.—In interesting advices from this place, Mr. A. J. Hughes writes as follows: "I was down with stomach trouble for five (5) years, and would have sick headache so bad, at times, that I thought surely I would die. I tried different treatments, but they did not seem to do me any good. I got so bad, I could not eat or sleep, and all my friends, except one, thought I would die. He advised me to try Thedford's Black-Draught, and quit

taking other medicines. I decided to take his advice, although I did not have any confidence in it.

I have now been taking Black-Draught for three months, and it has cured me—haven't had those awful sick headaches since I began using it.

I am so thankful for what Black-Draught has done for me."

Thedford's Black-Draught has been found a very valuable medicine for derangements of the stomach and liver. It is composed of pure, vegetable herbs, contains no dangerous ingredients, and acts gently, yet surely. It can be freely used by young and old, and should be kept in every family chest.

losses and gains are like a see saw, up and down.

Combats can not end this war. The only way to reach an end is by conference, magnanimity and counsel, moral bravery, and unambitions and humanitarian patriotism.

San Diego, July.—A mere slip of a girl, who has just passed sixteen, electrified visitors at the San Diego Exposition during the July 4 celebration when she leaped from an aeroplane at an altitude of 3000 feet. This intrepid girl is Miss Tiny Broadwick, daughter of Charles Broadwick, inventor of an aerial life preserver. Broadwick is interesting the United States government in his invention and his daughter made the demonstration at the Exposition to prove its reliability. The test, which was first performed here for Brigadier General Scriven, was witnessed by a great number of army and navy officers who are interested in aviation. The preserver, which is made of silk, folds into a small light package which an aviator carries on his back. Should the machine fall in a flight the preserver automatically unfolds, allowing the aviator to drop slowly to the earth and make a landing in safety. Already several of the European powers have supplied their aviation corps with the life preserver.

Morman Heirs

A morman district judge has decided, in a suit between mormans, that the children of plural marriages cannot be legally recognized as heirs to their father's estate, unless the father recognized them in some way as his children.

UGH! CALOMEL MAKES YOU SICK. DON'T STAY BILIOUS, CONSTIPATED

"Dodson's Liver Tone" Will Clean Your Sluggish Liver Better Than Calomel and Can Not Salivate.

Calomel makes you sick; you lose a day's work. Calomel is quicksilver and it salivates; calomel injures your liver. If you are bilious; feel lazy, sluggish and all knocked out, if your bowels are constipated and your head aches or stomach is sour, just take a spoonful of harmless Dodson's Liver Tone instead of using sickening, salivating calomel. Dodson's Liver Tone is real liver medicine. You'll know it next morning because you will wake up feeling fine, your liver will be working, your head-ache and dizziness gone, your stomach will be sweet and bowels regular. You will feel like working. You'll be cheerful; full of energy, vigor and ambition.

Your druggist or dealer sells you a 50 cent bottle of Dodson's Liver Tone under my personal guarantee that it will clean your sluggish liver better than nasty calomel; it won't make you sick and you can eat anything you want without being salivated. Your druggist guarantees that each spoonful will start your liver, clean your bowels and straighten you up by morning or you get your money back. Children gladly take Dodson's Liver Tone because it is pleasant tasting and doesn't grip or cramp or make them sick.

I am selling millions of bottles of Dodson's Liver Tone to people who have found that this pleasant, vegetable, liver medicine takes the place of dangerous calomel. Buy one bottle on my sound, reliable guarantee. Ask your druggist about it.

Miss Jessie Emmons is visiting in Timpson.

Prof. Jno. Stripling left Sunday for Cushing.

Mrs. Joe Ivey is in Tucker's Sanatorium to be operated on for appendicitis.

Miss Christie Patton of Melrose is spending the week with Miss Alma Cavin.

W. U. Perkin is again a school boy, attending the Farmer's Short course.

Isadore Roos, who has been in Louisville, Ky., for the past week, returned home Monday.

Miss Zillah Langley chaperoned a small crowd on a picnic, out at Reid's Pond Monday evening.

E. M. Decker and Mr. Berryman are visitors from Alto, who are attending the ball games.

Mrs. Oscar McLain and children left Tuesday night for Jackson, Miss. to visit friends and relatives.

Harrison Wortham left yesterday for Dallas, to attend the North American Insurance Convention.

Mr. and Mrs. W. G. Hillen-camp and small children, Alton and Evelyn are vacationing in North Texas this week.

Dr. H. A. Hardeman and Rev. John N. Wilson of Melrose, attended the Farmer's Short course, and spoke of it in terms of high praise.

Mrs. Helene Sprong of Houston and Miss Fanny Benefield of Jefferson, who have been the guests of Mrs. L. B. Mast, will leave for their homes today.

Dr. M. W. P'Pool has rented a home in the western suburbs of town on the Durst lakes road. He offices yet over Stripling, Haselwood & Co.

A new Reo automobile was seen on the street yesterday in front of the office of the Nacogdoches Land Company. And there are others, total number about 200.

The Sentinel has one of the best equipped job printing plants in East Texas. Work promptly executed. Phone 94 and representative will call and figure on any size job—none too large for us to handle.

Mr. Blohm, of San Augustine, is in the city.

Sam H. Watkin, of Linn Flat was in town Wednesday.

V. E. Simpson of Oak Ridge was in town Tuesday.

Miss Gertrude Pommer of Lincoln, Neb., is the guest of Miss Ruth Lee.

Miss Ada Petty returned Sunday from a weeks visit to Appleby.

Mr. and Mrs. Earle Douglass of Houston spent Sunday with Mrs. J. J. Hayter.

Holloway Muller and Fayette Bell went to Timpson Sunday.

Walter Mast gun man of Melrose was in the city Tuesday.

Richard McKinney left Sunday for La Grange, where he will visit his grand mother.

Mrs. R. P. Johnson of Cushing, is visiting at the home of Mrs. Sam Stripling.

Joseph C. Lee of Lincoln, Neb., is the guest of his parents Mr. and Mrs. Chas. F. Lee.

J. D. Sanders and wife, of Doucette, are visiting Mr. Sanders' mother, Mrs. Will Sanders.

Mrs. J. E. Dodson, of Vernon, who has been the guest of Mrs. J. J. Hayter, will leave today for her home.

Dr. Bruce left Monday for a months vacation to the mountains of Colorado and will return to resume practice about the middle of August.

Miss Geneva Harris and Louise Garrison spent the week end with Mrs. Harry Kiley in Mayotown.

Dr. and Mrs. Holt, Mr. and Mrs. Floyd Matthews, Cates Burrows and Fmory Monk, left Sunday for Shawnee, to spend the week fishing.

Ansel Wright of Henderson, who has been visiting his sister, Mrs. Sam Stripling for the past few days, left Sunday for his home.

Mrs. B. H. Litchenstein, who has been visiting in the home of L. Zeve and family, was called home Tuesday, on account of the illness of her husband.

Cecil Hardeman who was so long a citizen of Nacogdoches but now lives at Oklahoma City was here Tuesday, on his way back from Mississippi.

Henry Hall, of Erath county, is visiting his brother B. M. Hall, in this city. He was born and raised here, near Melrose, but he has lived west since 1874.

The guests of Miss Genevieve Johnson's house party left Monday to their respective homes, with the exception of Miss Thelma March, of Mt. Enterprise, who will remain until Wednesday, and Miss Mary Johnson, who will be the guest of Miss Johnson for some time longer.

The following citizens of Douglass are here, presumably to attend the Farmer's Short Course, but possibly to attend the base ball game. Take your choice: Bradley K. King, J. D. Davis, J. D. McKnight, J. P., Turner King, Jim Tucker, Claud King, Ed Watkins, Geo. D. Webster, juror in the county court.

From Melrose.

This part of the world seems to be progressing very nicely in spite of the panic and dry weather.

We are needing rain very much, especially on the red land. The crops are looking very good though, and most of the farmers seem to be in very high spirits over their good prospects. We do not hear very much war and panic talk now.

Water melons and cantaloupes are in season now, and we sure have an abundant supply.

Rev. Smith of Temple, Texas, concluded a protracted meeting at the Christian church, last week. There were nine members added to the church, seven of which were for baptism.

Rev. Campbell has just finished holding a meeting out at Cove Springs, with an addition of four members.

The citizens of the community met and trimmed up the trees in the grove of our little town, last week.

Woden and Melrose played a matched game of base ball Friday afternoon. The score was eleven to six in favor of Melrose.

Swift and Melrose played ball Saturday afternoon. The score was twenty-four to two in favor of Melrose. Goin' some.

Mr. Benton Fuller of San Antonio is visiting relatives and friends of this place. He brought his motor cycle along that he may get as much pleasure from his vacation as possible.

Miss Pauline Kendrick of Chireno has been visiting several days at her Uncle's Mr. H. H. Kendrick's.

The summer school opened last Monday morning under the management of Prof. Joe Risinger and wife.

The school is progressing nicely; every one seems to be there for business. We have several boarders from other parts, who are attending the school. They are Misses Willie, Ada Muckelroy and Annie Holmes of Martinsville, Stella Nations of Altonia, Vesta Harris of Nacogdoches, Georgie Montgomery of Appleby and Messrs. Price and Fitzgerald of Denning.

We are glad, indeed, to have these young people with us.

Prof. and Mrs. Risinger entertained the young folks Friday night with a party given in honor of the pupils who have come from other points. Interesting games were the sources of amusement, after which refreshments were served. The time of departure came only too soon. Every one reported a delightful time.

A Pupil.

To those raising black eyed peas for the market. Please notify me, by phone or by letter or personally, about how many bushels you can thrash and bring in by the last week in this month. Don't fail to notify me, as I want to ship a car load by Aug. 1st.

Nacogdoches, Texas

Pure Water Now Assured.

Mayor Matthews informs the Sentinel, that he thinks the light and water committee, composed of W. G. Reid, Marshal Carroll Holt and The Mayor has at last solved the problem of clear pure water for the city, at all times regardless of rains. They are now at work building a short dam across the spring branch, just above and south of the old dam, to catch the water from a strong spring branch, coming down through the sand, with steep hills on each side, which, when completed, will make a reservoir of clear spring water, with no hing to muddy or pollute it. When this is completed, the supply will be from this and the Artesian well, which will afford ample water for the use of the city. They will then cut off the pond water, now used, which is always muddy after rains, and the pond be hereafter held in reserve for any emergency. This will be completed in a very few days, which they feel sure will greatly improve the water supply. It would be quite interesting to the

citizens to go and see what is being done, which they can easily do by driving to the original pumping station near the pond, with car or buggy, and walking a few yards to where the work is being done.

At Simpson Camp Ground

A methodist protracted meeting will begin next Sunday, July 25, at 11 a. m. at the Simpson old Campground, under the direction of Rev. Campbell.

The Rain

The Sentinel learns that the rain yesterday was general and ample. Alto on the west, San Augustine on the east, Garrison and Cushing and all intermediate points have reported good rains. Now if the pesty boll weevil, or some other calamity doesn't come along crops are simply fine in East Texas, and all Texas.

Gus Simpson's home and his family are here, but he is farming on Allan Seal's ranch at Dolen in Liberty county. He and Allan attended the Farmer's Short course. They want to catch on!

Begin Today

Ordering your hurry-up trips--anything that you want right away--and see just how quick we can get it to you. We are better equipped for making quick deliveries than we ever were before.

Phone us an order today, just step to the front and the FORD will be there with it.

Stripling, Haselwood & Co,

County Court.

The regular term of the county court is in session. Monday was the first day of the term. Two criminal cases were tried. One was for a drunk, and the defendant was acquitted. The other was for affray, appealed from the court of F. D. Huston, J. P. where defendant was fined \$1.00. The new trial made the fine \$25.

See "Alias Jimmy Valentine" at the Crown, Friday matinee and night, and help the Library—10 and 20 cents. 21-d4t-w1.

Calves Wanted

I will buy all the calves offered from two months to one year old. Apply to G. E. Norwood on North St. 16-d6tw1t

See "Alias Jimmy Valentine" at the Crown, Friday matinee and night and help the Library—10 and 20 cents. 21-d4t-w1

There will be a grave yard working at the Maroney Cemetery Aug. 5. Everybody interested is urged to come prepared for the work needed.

See "Alias Jimmy Valentine" at the Crown, Friday matinee and night and help the Library—10 and 20 cents. 21-d4t-w1

The Sentinel calls attention to the letter "from Melrose," published elsewhere in today's issue as a real model, and it would be amusing to many readers to compare its manuscript with some letters received from leading legal lights, as to accuracy in etymology, punctuation, etc.

When it comes to calling men from their beds, the fire bell puts it all over the church bell.

Miss Jessie Emmons is visiting in Timpson.

Prof. Jno. Stripling left Sunday for Cushing.

Mrs. Joe Ivey is in Tucker's Sanatorium to be operated on for appendicitis.

Miss Christie Patton of Melrose is spending the week with Miss Alma Cavin.

W. U. Perkin is again a school boy, attending the Farmer's Short course.

Isadore Roos, who has been in Louisville, Ky., for the past week, returned home Monday.

Miss Zillah Langley chaperoned a small crowd on a picnic, out at Reid's Pond Monday evening.

E. M. Decker and Mr. Berryman are visitors from Alto, who are attending the ball games.

Mrs. Oscar McLain and children left Tuesday night for Jackson, Miss. to visit friends and relatives.

Harrison Wortham left yesterday for Dallas, to attend the North American Insurance Convention.

Mr. and Mrs. W. G. Hillen-camp and small children, Alton and Evelyn are vacationing in North Texas this week.

Dr. H. A. Hardeman and Rev. John N. Wilson of Melrose, attended the Farmer's Short course, and spoke of it in terms of high praise.

Mrs. Helene Sprong of Houston and Miss Fanny Benefield of Jefferson, who have been the guests of Mrs. L. B. Mast, will leave for their homes today.

Dr. M. W. P'Pool has rented a home in the western suburbs of town on the Durst lakes road. He offices yet over Stripling, Haselwood & Co.

A new Reo automobile has been seen on the street yesterday in front of the office of the Nacogdoches Land Company. And there are others, total number about 200.

The Sentinel has one of the best equipped job printing plants in East Texas. Work promptly executed. Phone 94 and representative will call and figure on any size job—none too large for us to handle.

Mr. Blohm, of San Augustine, is in the city.

Sam H. Watkins, of Linn Flat was in town Wednesday.

V. E. Simpson of Oak Ridge was in town Tuesday.

Miss Gertrude Pommer of Lincoln, Neb., is the guest of Miss Ruth Lee.

Miss Ada Petty returned Sunday from a weeks visit to Appleby.

Mr. and Mrs. Earle Douglass of Houston spent Sunday with Mrs. J. J. Hayter.

Holloway Muller and Fayette Bell went to Timpson Sunday.

Walter Mast gun man of Melrose was in the city Tuesday.

Richard McKinney left Sunday for La Grange, where he will visit his grand mother.

Mrs. R. P. Johnson of Cushing, is visiting at the home of Mrs. Sam Stripling.

Joseph C. Lee of Lincoln, Neb., is the guest of his parents Mr. and Mrs. Chas. F. Lee.

J. D. Sanders and wife, of Doucette, are visiting Mr. Sanders' mother, Mrs. Will Sanders.

Mrs. J. E. Dodson, of Vernon, who has been the guest of Mrs. J. J. Hayter, will leave today for her home.

Dr. Bruce left Monday for a months vacation to the mountains of Colorado and will return to resume practice about the middle of August.

Miss Geneva Harris and Louise Garrison spent the week end with Mrs. Harry Kiley in Mayotown.

Dr. and Mrs. Holt, Mr. and Mrs. Floyd Matthews, Cates Burrows and Emory Monk, left Sunday for Shawnee, to spend the week fishing.

Ansel Wright of Henderson, who has been visiting his sister, Mrs. Sam Stripling for the past few days, left Sunday for his home.

Mrs. B. H. Litchenstein, who has been visiting in the home of L. Zeve and family, was called home Tuesday, on account of the illness of her husband.

Cecil Hardeman who was so long a citizen of Nacogdoches but now lives at Oklahoma City was here Tuesday, on his way back from Mississippi.

Henry Hall, of Erath county, is visiting his brother B. M. Hall, in this city. He was born and raised here, near Melrose, but he has lived west since 1874.

The guests of Miss Genevieve Johnson's house party left Monday to their respective homes, with the exception of Miss Thelma March, of Mt. Enterprise, who will remain until Wednesday, and Miss Mary Johnson, who will be the guest of Miss Johnson for some time longer.

The following citizens of Douglass are here, presumably to attend the Farmer's Short Course, but possibly to attend the base ball game. Take your choice: Bradley K. King, J. D. Davis, J. D. McKnight, J. P. Turner King, Jim Tucker, Claud King, Ed Watkins, Geo. D. Webster, juror in the county court.

From Melrose.

This part of the world seems to be progressing very nicely in spite of the panic and dry weather.

We are needing rain very much, especially on the red land. The crops are looking very good though, and most of the farmers seem to be in very high spirits over their good prospects. We do not hear very much war and panic talk now.

Water melons and cantaloupes are in season now, and we sure have an abundant supply.

Rev. Smith of Temple, Texas, concluded a protracted meeting at the Christian church, last week. There were nine members added to the church, seven of which were for baptism.

Rev. Campbell has just finished holding a meeting out at Cove Springs, with an addition of four members.

The citizens of the community met and trimmed up the trees in the grove of our little town, last week.

Woden and Melrose played a matched game of base ball Friday afternoon. The score was eleven to six in favor of Melrose.

Switt and Melrose played ball Saturday afternoon. The score was twenty-four to two in favor of Melrose. Goin' some.

Mr. Benton Fuller of San Antonio is visiting relatives and friends of this place. He brought his motor cycle along that he may get as much pleasure from his vacation as possible.

Miss Pauline Kendrick of Chireno has been visiting several days at her Uncle's Mr. H. H. Kendrick's.

The summer school opened last Monday morning under the management of Prof. Joe Risinger and wife.

The school is progressing nicely; every one seems to be there for business. We have several boarders from other parts, who are attending the school. They are Misses Willie Ada Muckelroy and Annie Holmes of Martinsville, Stella Nations of Altonia, Georgie Montgomery of Appleby and Messrs. Price and Fitzgerald of Denning.

We are glad, indeed, to have these young people with us.

Prof. and Mrs. Risinger entertained the young folks Friday night with a party given in honor of the pupils who have come from other points. Interesting games were the sources of amusement, after which refreshments were served. The time of departure came only too soon. Every one reported a delightful time.

A Pupil.
