MAN WHO HADN'T SPOKE IN 31 YEARS, DIES

Always Responded to Questions With Motions of His Head or Hands.

Marshall, Texas, Nov. 30.—Jas. Eastridge, the silent hermit of Harrison county, died yesterday at his home between Washkom and Jonesville. He had not spoken to any human being since his mother died thirty-one years ago. He was a faith doctor and his body was found on his bed by negroes who went there for treatment.

Eastridge always responded to questions or any kind of conversation with motions of his head or hands.

PIONEER MINISTER DEAD.

The information is gained from the Jasper News that Rev. J. L. Dawson, a pioneer minister of East Texas, died at the home of his son, Rev. W. D. Dawson, at Jasper last Friday morning.

Bro. Dawson served the church at Jefferson as pastor last year, superannuating at the recent conference on account of bad health. Previous to his service at Jefferson he served the church at Garrison, in this county, three years, and expected to return to Garrison to make his home.

Bro. Dawson has been preaching for different churches in east Texas for more than a quarter of a century and was one of the most consecrated, purest and the writer ever knew. Under many ministers, Bro. Dawson was a friend to everybody, and could appeal to the good instincts of the most debased, raising them to higher planes of living. He made no big pretensions—in fact, he made no pretensions at all, content with rendering some good service in the cause of his master and the uplift of fallen humanity.

He is survived by his widow, a charming daughter who is teaching music in the Garrison High school, and several sons, all following the footsteps of their illustrious father.

FAIR GROUNDS SUFFERS FROM THE HIGH WIND

The wind last Thursday blew down a big part of the fencing and some of the buildings at the fair grounds.

VILLA REPORTED TO HAVE DISAPPEARED

Rodriguez, Who Eluded Trap at Cananea, Gained Possession of Railroad to Nacozari.

Nogales, Ariz., Nov. 30.—His forces defeated and scattered by the Carranza army of Gen. Manuel Dieguez at Hermosillo, Francisco Villa, the insurgent leader, has disappeared, according to reports received here today by Gen. Alvaro Obregon, the Carranza military chief. The report was based apparently on statements of prisoners.

Gen. Dieguez's victory at Hermosillo is said to have been complete. Three hundred Villa soldiers were found wounded after the battle, six hundred were said to have surrendered south of Magdalena, while 200 more gave up their arms today at Llanos.

The remainder of Villa's forces, excepting those commanded by Jose Rodriguez, are declared to be demoralized and surrendering in small groups. Their trains, with two locomotives, were reported to have been abandoned at Magdalena, fifty-four miles south of Nogales, and 122 miles north of Hermosillo.

GENERAL CARRANZA LEAVES FOR SOUTH

Matamoros, Mexico, Nov. 30.—Gen. Carranza, head of the Mexican de facto government, left here suddenly this afternoon for Monterey. It previously had been announced he would remain in Matamoros until tomorrow. Authorities here state that the first chief, after visiting several interior cities, plans to enter Mexico City about Jan. 1.

MRS. W. M. IMBODEN DEAD.

Mrs. W. M. Imboden died at Rusk last night after an illness of several months.

Mrs. Imboden had been living in Rusk many years and was well liked by the entire citizenship of that city and will be greatly missed by her many friends. She leaves a husband and one son to mourn her death.

The Daily Progress joins the entire county in extending sympathy to the bereaved relatives.

Her remains were laid to rest in the Rusk cemetery today.—Jacksonville Daily Progress.

ANOTHER OLD MOTHER ANSWERS FINAL CALL

Mrs. M. Mast of Melrose Died This Morning—Funeral This Afternoon.

From Tuesday's Daily:

Mrs. M. Mast, widow of the late Capt. M. Mast of Melrose, died this morning at 4 o'clock and her remains will be laid to rest in the Mast burial grounds at 4 o'clock this afternoon.

Mrs. Mast is survived by three sons and two daughters, Messrs. Baxter and Branch Mast of this county and Guy Mast of California and Messrs. C. E. Patton and J. W. Mast. She also had two brothers and one sister living and an aunt of Messrs. Hollis, Blum and Henry and Adlai Mast of this city. Her husband has been dead some eight years.

Those who knew this sainted old mother best concur in the statement that she was one of the purest, sweetest, noblest Christian characters they ever knew and was loved and admired by all. Having been spared the allotted term of human life, she was patiently awaiting the summons of her Maker and a reunion with loved ones on the other shore.

Rev. Mr. Hotchkiss, pastor of the Methodist church of this city, will go out and conduct the funeral, and will be accompanied by a number of relatives and friends of the lady who reside in this city.

AN OLD LADY WAS SEVERELY BURNED

Mrs. Bunny Jones Victim of a Painful Accident Yesterday Afternoon.

Late yesterday afternoon Mrs. L. W. Smith of this city received a message bearing the sad news that her mother, Mrs. Bunny Jones, of the Eden community, happened to the misfortune to get severely burned, and was in a very dangerous condition.

From the best information the Sentinel could get this morning, Mrs. Jones was stirring up the fire in the fireplace when her clothing ignited and the flames spread over her body.

Considerable apprehension was felt about her condition last night.

Mrs. Jones is the widow of the late Bunny Jones and is said to be about 60 years of age. She is said to be a most estimable lady and has a host of friends over the county who will deeply sympathize with her in her great misfortune.

FARMERS' SHORT COURSE.

On account of the failure of the speakers to come in as previously planned, the Farmers' Short Course, which has been in session yesterday and today, has not aroused the interest it should, but Messrs. McNess and Greer have been faithful and did what they could to keep up the interest.

Very few farmers have attended but those who came have manifested interest and the meeting has been profitable to them.

Messrs. Greer and McNess both have delivered some valuable addresses, and made explanation of soil and climatic conditions, crop rotation, etc., and some good exhibits have been present at the meeting.

John T. Nagle of Woden was registered in the city last night.

For Your Land's Sake

AN AVERY REVERSIBLE DISC HARROW is the "thing." Study the illustration. Can't you see that it is the simplest in construction and easiest in adjustment of any Disc Harrow made?

Can be reversed in three (3) minutes and without the use of any wrench—there is not a nut to be removed in reversing the disc.

A separate "angling lever" for each set of discs gives you a wide range of adjustments that can be made without leaving your seat. By loosening just one nut on each side the discs can be made any distance apart that you will ever want.

There are a whole lot of other good things we could say about the AVERY REVERSIBLE DISC HARROW, but then we want YOU to come in and see for yourself. Just come in and say that you want to see "one of those Avery Disc Harrows." We will be glad to show you.

Cason, Monk & Co.

EVERYTHING IN HARDWARE AND FARM SUPPLIES.

A WILD ANIMAL AT LARGE IN CITY

Has Been Eating Chickens, Turkeys, Puppies and Other Things.

The topic of conversation on the streets for the past several mornings has been about the depredations committed over the city by something that seems to be a wild animal of some kind at large. Great numbers of turkeys and chickens have been eaten at different places; at another place three puppies were eaten, over at another place a yearling is reported to have been torn up and partly eaten and the depredations are becoming so numerous that considerable uneasiness has been aroused with the inhabitants.

It is said that no dog will resist the animal, rather, beating a hasty retreat with the approach of the intruder, which is causing the idea to prevail that a black Mexican lion has strayed into the community where he is finding good "pickings" without molestation.

The alarm has become so general that the hardware stores are finding increased activity in the sale of buckshot shells, and many doors are now locked up for the night.

With so much depredation, something should be done to run to earth whatever it is, and here is an opportunity for the hunters to find some real sport. By organizing with good packs of dogs and surrounding the city after nightfall, a well-organized posse should be able to get a line on the animal and run it down.

In the meantime it would be well for the small boys to remain close to the parental roof after nightfall.

Prof. Hale of Woden was in the city today.

OFFICIALS LOCKED IN VAULT AFTER ROBBERY

Several Thousand Dollars Taken by Three White Men and One Negro.

Muskogee, Okla., Nov. 29.—Three white men and one negro rode into Fort Gibson eight miles from Muskogee, this afternoon and robbed the Farmers National bank of several thousand dollars.

The bank cashier and bookkeeper were held up at the point of guns, marched into the vault, and locked in while the three white outlaws took all the money in sight. The negro stood guard on the outside.

After the robbery the four men hastily rode out of town. None was recognized.

Hastily organized posses are in pursuit.

State Senator Sid Garrett is president of the Farmers National bank.

H. F. MARR FREE.

Leon Brantley of this city is in receipt of a telegram from H. F. Marr, dated at Corsicana at 12:01 today, which reads:

"Three years suspended sentence. Am free. Tell our friends."

Mr. Marr was once engaged in the newspaper business in this city, in which he had a brilliant career and has many friends here and elsewhere over East Texas who will rejoice to learn that he is now free from the trouble which has been hanging over him for some months.

We have for sale a number of choice registered Jerseys, both male and female, and we take this method of giving the people of Nacogdoches county an opportunity to purchase before disposing of them elsewhere. Nacogdoches County Jersey Breeders' Association, W. S. Beeson, secretary.

RE-ELECTED KERN AS FLOOR LEADER

Organization for Opening of Congress Among Democrats Well Under Way.

Washington, Nov. 29.—Democrats of both houses of congress today got their work of organization for the coming session well under way. The senate conference unanimously re-elected Senator John W. Kern of Indiana as chairman and floor leader, and the house ways and means committee began the puzzling task of assigning members to committees.

The senators adjourned until Wednesday, when they will hear the report of the special committee on revision of the rules and select the vice chairman of the conference and the nominee for president pro tempore of the senate. Opposition has developed to the re-election of Senator Clarke as president pro tempore because of his fight against the ship purchase bill at the last session.

FERGUSON TO MEET PRESIDENT WILSON

Texas Governor Has Date With the President for Next Tuesday.

Washington, Nov. 30.—Gov. Ferguson of Texas will confer with President Wilson next Tuesday. The governor has been in communication with the President frequently regarding the trouble along the Mexican border, and is expected to discuss the situation with the President. He saw Gen. Carranza recently.

TO THE PUBLIC.

I will gin and wrap cotton for \$2 per bale; gin on Saturdays only. J. P. Clevenger. 27-d3w3 24-4w2

O. M. GIBBS, Editor

The next step is Christmas. "Do your shopping early."

Don't forget that poll tax receipt. Next year is election year with the promise of a most interesting campaign.

The Longview Times-Clarion is boosting the idea of a munitions factory for Longview. Give us a street car line from the depot up town and Longview can have the munition factory and the whole European war if she wants it.

Yesterday a woman by the name of Mrs. Hugh Perry of Oak Cliff was found dead on a secluded lot in the city of Dallas. She had been missing from home since Nov. 15, and gave evidence of having been choked to death. If Dallas keeps up this record she will vie with New York in mysterious murders.

In these days you can't make a man out of a monkey and neither can you make a respectable member of society out of a brainless bird who gapes around on street corners and makes vulgar remarks about every woman who passes. Feeble minded degenerates should be in asylums for imbeciles, where they belong.

We just feel it in our old bones that the boys will walk right up and hand us all of that delinquent subscription money before old Christmas gets around again. And because of our sublime faith in the boys we are going to place an advance order for a whole turkey for our Christmas dinner.

Plant in advance boys, and thank again when you fork over.

"Giant oaks from small acorns grow." But acorns won't sprout in the winter time. We have planted the "acorn" for a street car line from the depot up town, which we hope will "sprout" next spring and grow into a living reality—and, having planted it, we shall let the matter rest until the "budding season" arrives. If, however, any capitalist should get in a hurry we will be pleased to help in the process of "incubation."

The dispatches in the big papers indicate that business was halted all over the United States yesterday in celebration of Thanksgiving, and that in many quarters prayers were offered up for world-wide peace. At the same time many "peace" messages were sent to the White House imploring President Wilson and his cabinet to do what they could in restoring peace to the belligerent nations who are now clutching at each other's throat in a death struggle.

If the people of Nacogdoches want a real progressive daily newspaper, up to the minute with other afternoon papers of the state, they are invited to put the business to it. We are putting everything into it that we can possibly afford—in fact, we could not give you the paper are doing were it not for the combination of the weekly and job office, each bearing a share of the expense. With more business we could add a local reporter and a limited press service which would enable us to give you all the home news and the most important of the world's news each afternoon. In patronizing an enterprise of this character, you are not contributing something to charity, or merely to help a good cause along, but you are investing in an enterprise that will build new business for you individually, and make your town grow as well.

QUESTIONS FOR THE MAIL-ORDER MAN.

Here are some very pertinent questions for the retail dealer to turn over to his local friend who had had prices on merchandise from a mail-order house.

Just ask the mail-order peddler the following questions, but don't blame us for what he will answer:

Ask him if he will extend you credit for the house bill, charge stuff to you on a book, loan you cash when you are in a tight place.

Ask him how much cash tax he is going to pay for the roads you will have to drive over to get his stuff at the station.

Ask him if he will help pay the schooling of your children or send any flowers for a bouquet when your loved ones die.

Ask him if he will help build up your town, or consume any of the potatoes, chickens, eggs, cabbage or other stuff you produce.

Ask him how much money he will give for your churches or your poor.

Ask him how much interest he takes in your community—not from it—or in your individual self, except to saddle off on you a range which will warp, blister, pit, scale, rust and deteriorate, for cash in advance.

Ask him "57" other questions—but while you are asking—keep the money in your own community.

Fertilize your own soil if you would get results.

You can buy good goods at home and your local dealer is behind those goods.

He eats your products.

He laughs with you.

He cries with you.

He is a—Gulf Coast Lumberman.

If that street car line, which The Sentinel has been trying to promote, had been in operation today, thousands of people would have taken a ride while they were enjoying the holiday, and the prospective builder has forever lost this revenue.

It is just as impossible to please everybody in the publication of a newspaper as it is any other line of public service. What pleases one man displeases another, and that in which one man finds merit another finds demerit. Some people are not big and broad enough to understand that a newspaper man is human and likely to make errors just like other people, and are prone to look upon everything he does, that does not please them, as something malicious. But what's the use. The true newspaper man consults with nothing but his conscience and understanding of what he conceives to be right and wrong in the conduct of his business, and lets it go at that.

The fellow who has never visited Nacogdoches and has gathered the idea from history that it is an "ancient old place with stone forts, adobe houses and tottering mansions" will be very agreeably surprised when he sees the town. Where once stood the old town so rich with historical lore, now will be found pretty, well-kept brick business houses, paved streets, an electric "white-way," and many other modern improvements which go to make up a metropolitan little city. Not only is this true but in the residence section more pretty, modern, well-kept homes will be found than can be seen in any town its size in the state. Added to this we will soon have the best school facilities in the way of building and equipment in a town its size to be found in the state, and to go with this, we have churches of the different denominations that meet all requirements. Come on to Nacogdoches where we have past and present inviting the blessings of a gleaming future.

ENLIGHTENING THE LIGHTER.

It was a happy coincidence that the announcement of a Nobel prize award to Thomas A. Edison should come at a time when the inventor was being received at the Western exposition with honors that touched him deeply, drawing out signs of emotion rarely exhibited by this man of marvels. Mr. Edison has concentrated his mind for most of a long lifetime on various material applications of science to the uses of mankind. The amazing results have made him one of the few living world-figures of our period. Other nations may point to greater men in various fields—music, philosophy, and the like. In his own field Edison is unsurpassed.

It is not strange that Americans should feel a national pride in this exemplar of Yankee ingenuity. And the pride has been mingled with affection, growing stronger through the years of his untiring service. The man himself appeared to be unaware of this feeling. When his friends brought him evidences of it he turned away with good-humored skepticism. He wasn't working for popularity but for love of the work itself. The incentives of luxury and ease that spur some natures offered no appeal to him. With Gallic swiftness of perception joined to an almost Chinese patience he has worked and worked and worked. Sleep and food have had a fighting chance in his life; no more.

But something happened to Edison out in California, from whence he has just returned. His Western hosts refused to let the visitor walk in darkness. The lights he invented whitened his path for miles. And there was a light in the faces of the children when he went through the schools—a light such as can be produced by no laboratory process. The boys that aspire to be President have been reduced to a hopeless minority. Most of 'em want to be Edisons.

The great man has at last begun to wake up to the situation. Now he knows, and the knowledge is pleasant. The nation has established with him, as it long ago established with Mark Twain, that peculiar bond of comradeship, at once respectful and intimate, that is given to few men in a generation. Long may Edison live to enjoy the new consciousness of this honor.—New York Evening Sun.

HOSPITALITY OF CHIRENO.

If there's any man who thinks there are more bad people in the world than good ones, we invite him to discussion with our representative who has just returned from a trip to Chireno and other points down the line. Here's the way he puts it:

"There never was a better settlement of people than lives in Nacogdoches county. To receive the hospitality I received in Chireno and the other little towns down the line makes a fellow feel like picking up his trunk and moving down. When you get in their midst they come at you with a big broad smile and a friendly welcome that makes you feel at home. Its hard to make up your mind to leave such people and it wouldn't take very much more to hold me with 'em."

It is indeed gratifying to The Sentinel publishers to have our representative treated so hospitably when out among our friends, and it only inspires us to greater effort in serving them. Just such people as our representative came in contact with on this trip live throughout the county and East Texas generally, and we would not be much surprised upon his return from his next trip through the county that he will have "greater things yet than these to tell."

ADVICE FROM YOUNG MIL-LIONAIRE.

Michael Cudahy is 29 years old and rich. But he knows what it is to punch the time clock daily. He has gone to the bottom of the work ladder in the Cudahy Packing Co. and learned the business by working up. Now he is the head of the business turned over to him by his father, Patrick Cudahy.

At 29 years of age he is at the head of an immense concern. He knows something about success, and has his ideas how to achieve it. He expressed some of these ideas to a newspaper correspondent.

"Work while you work, and play while you play; but get as much legitimate play as possible out of your work."

"Don't be afraid to bend at the bottom. Climbing is a more fascinating game than skidding. Besides, it's better over is and a better developer."

"A man with a mind and the ability to make decisions clearly and quickly is one of the greatest factors in any sort of business."

"Beware of becoming too much the victim of any specialty. Life is too big to be lived all in one groove."

"It's a good idea for a man to have some hobby entirely unrelated to his business. It may be sports, or philosophy; but it ought to be something."

"A man can't tango all night six nights in the week and expect to compete with the brains of the fellows who hit the feathers at 10 p. m."

"The fellow who can't see fun in anything except fluffing around in the bright lights—well, I don't understand him."

"I'd rather be alive now than in any age past or future, and the young man who doesn't realize his possibilities for organization and for success, and for doing a little good here and there, must be asleep."

"I don't think it is necessarily a disadvantage to be a rich man's son. A man doesn't have to be an ass, you know."

HELPING THE CAUSE.

If every large employer of labor in the country would follow the example set by John Wanamaker the cry of "unpreparedness" would not be heard much longer. The employees of his Philadelphia store have organized a machine gun company, which has been enrolled in the Second regiment of the Pennsylvania National Guard, and now the young men in the New York store have begun to enlist a similar company, to be attached to the seventy-first regiment. It is more than likely that a sufficient number will enlist to make up a second company.

The expenses of the organization of these companies are met by Mr. Wanamaker, and every encouragement is offered to the young men in his employ not only to join these detachments but other branches of the National Guard as well. One of the chief stumbling blocks to keeping the militia regiments recruited up to full strength has been the attitude assumed by many employers who have refused their men time off from business to attend to National Guard affairs. Mr. Wanamaker has shown true patriotism in thus placing his duty to his country above his own individual interests. It is to be hoped that others will not be slow to follow his lead.—New York Globe.

WELL, WHY NOT?

Dear Luke: I found an old envelope the other day and this is the way it is addressed: Miss Haza Turnipseed, Whynot, Miss. —Temple Telegram.

THE APOTHEOSIS OF THE PRIVATE.

Brave men without number there have been in every war that ever was fought; daring generals, gallant captains, faithful men at arms and musketeers and gunners. But never in the history of the world's sanguinary progress has there been a war in which the pawns counted at once for so much and so little; the intermediate pieces for so nearly nothing.

When one reads that "the German trenches were filled with dead," or that "whole French battalions were annihilated," "the Russians repeatedly attacked with heavy losses," "the British charge broke to pieces on our wire entanglements, with heavy casualties," or any other of those brief tributes to an intrepid enemy contained in official communiqués, one must feel that the dominant figures in this great conflict are the humble men in the ranks.

The high command, of course, is more scientific than ever before in the history of warfare. The intermediate officers, between the ranks and the general staff, are brave and skillful, but the real heroes of the war are the private soldiers, the men who really turn the scale by mere weight of human effort and risk.

The famous Tenth Legion of Caesar was no braver than the Prussian guard; the pikemen of Gustavus Adolphus no more intrepid than the soldier of the vast citizen army of France; Wellington's squares at Waterloo are ably represented by their descendants who held the Ypres salient. And so with all the other nations in this great conflict.

Against new and horrible engines of war—the terrors of the H. E. shells, the pervading death of poisonous gases; the sudden fate that strikes men in the steel compartments of the great ships—the valor of the tradesmen and peasants and miners and mechanics of Europe has stood out as brilliantly as ever did that of the Swiss guard of the French Louis. That is the all-impressing item in the vast collection of war news that every day crowds the wires and fills the printed page.

It is the development of valor in bulk that has made this war the fiercest that ever was fought, that has dragged its course for more than a year with neither side able to administer a decisive blow. The spirit of man, as ever, towers above the monsters of death that he has created.—Columbia (S. C.) State.

GREECE YIELDS.

The Associated Press summarizes the war situation as follows:

Greece has at last removed the uncertainty which surrounded her attitude toward the entente powers by sending a reply to the joint note of the powers, which, according to an Athens dispatch, "is couched in very friendly terms and gives satisfaction of the demands of the entente powers and all guarantees considered essential."

While the details of the document have not yet been made public the answer is accepted as meaning that the entente allies will continue unhampered their landing of forces at Saloniki and transferring them across Greek territory to the Serbian front and also that in the event British, French and Serb troops are forced back into Greece they will not be disarmed and interned.

Every town has its "knockers" who seize upon every little opportunity to discourage some person or enterprise who is trying to do something, but we suppose they are necessary to try one's metal. The rose has its thorn.

THE HUMAN SIDE OF A RAILROAD.

The plan of the Southern Pacific Railroad Co. to furnish school houses to the children of its employes not only proves that even a great railway system has a soul, but is evidence of the fact that large corporations and business institutions are learning that their own interest depends largely on the convenience and well-being of their employes.

Out on the desert in Southern California and Arizona, where the railroad company has to depend almost entirely upon Mexican labor for track forces, the Southern Pacific is furnishing school accommodations for the children of its employes. Disabled box cars have been converted into temporary school houses where every child of scholastic age may have the privilege of school facilities the same as the child of the cities.

While the schools are patronized mostly by Mexican children, since the inauguration of this educational plan, the desert has lost many of its terrors to the man of a family, and many Americans are now living in the sections formerly occupied entirely by the Mexican race.—Brenham Banner.

SUSPENDED SENTENCE.

The Dallas Times-Herald complains that lawlessness is rampant in Dallas. It says there is a continuous performance of hold-ups, sandbagging, murderous assaults and the like. The Times-Herald acquits the police of responsibility for the wave of crime which afflicts that city. It declares that the Texas "suspended sentence" law is the chief cause of prevailing conditions. The effect of this law, it declares, has been to make Texas a paradise for criminals who must be convicted twice before they are punished.

The Texas law authorizing a suspension of sentence upon conviction of offenders for their transgressions of laws named in the act, including all denounced by the penal code, barring murder, rape, arson and other like heinous crimes, is by far the most discreditable piece of legislation which has proven a reproach to the state. That a person of previous good character should be licensed by the state to commit his first crime without reasonable prospect of punishment can not be defended by sound argument fortified by justice, reason, decency or common sense. It provides protection for the criminal from punishment for his first offense, but no protection for his victim injured in property or person in consequence. It is a pioneer law in that system of criminal jurisprudence which maudlin emotionalists and silly mollycoddles advocate for the reformation of criminals at the expense of society, which is made of punishment which should be inflicted upon the criminal of Austin American.

Harmony is too often the cessation of hostilities. —New York American.

It is easier to compose a letter than to get the world to sleep.—New York American.

TAKES OFF DANDRUFF, HAIR STOPS FALLING

Save your Hair! Get a 25 cent bottle of Danderrine right now—Also stops itching scalp.

This, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scourge. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and the life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair to shrink, loosen and die—then hair falls out fast. A little Danderrine tonight—now—any time—will save your hair.

Get a 25 cent bottle of Keweenaw Danderrine from any drug store. It surely can have beautiful hair and if it if you will just try a little Danderrine. Save your hair! Try

TAX COLLECTORS' NOTICE.

I will be at the following places and dates given for the purpose of collecting Taxes for the year 1915:

Chireno, Monday and Tuesday, Dec. 6 and 7.
 Melrose, Wednesday, Dec. 8.
 Appleby, Thursday, December 9.
 Cushing, Monday and Tuesday Dec. 13 and 14.
 Sacul, Wednesday, December 15.
 Linn Flat, Thursday, December 16.
 Trawick, Friday, December 17.
 Garrison, Monday and Tuesday, Dec. 27 and 28.

GEO. F. RAINBOLT,
 Tax Collector, Nacogdoches County.

RECEIVED IRON CROSS.

Henry P. Schmidt, of the firm of Mayer & Schmidt of this city, is in receipt of a letter from his father, who lives in Europe, informing him that his brother (Henry's) Jacob Schmidt, had just been awarded an iron cross for brilliant service in the German army.

This is a very high honor in the German army and is never conferred except for some brilliant service or heroism worthy of the superior distinction.

The gentleman receiving the iron cross has been wounded three times while in the service, some of which were very serious, but each time upon recovery has returned to the ranks, and is again at the front fighting for his country.

CHIRENO LADY DEAD.

News has been received in the city that Miss Annie Stubblefield of Chireno died at Galveston yesterday following an operation. Her remains are being brought back and will be laid to rest at Chireno this afternoon.

Miss Stubblefield is said to have been a most estimable lady who enjoyed a large circle of friends, with whom The Sentinel unites in sympathy.

INFANT DIED.

The four-days-old infant of Mr. and Mrs. Wilse Tindall, living out some four miles from the city, died last night. The remains will be laid to rest in the Maroney grave-yard.

The little one proved too frail

for the afflictions of this world, and budded on earth to bloom in heaven.

The Sentinel joins friends of the sorrowing parents in sympathy.

A SUNDAY FIRE.

About 1:30 Sunday afternoon a fire broke out in the roof of the residence of Mr. John Weeks, up North street, and but for its timely discovery and prompt response and good work of the fire department, the house would have soon been consumed with the flames.

The fire broke out in the roof, near a stack chimney, and the supposition is that it caught from a falling spark. A large portion of the roof was soon enveloped in the flames which were fanned with a brisk north breeze, but, being on the top, it was easily extinguished when a stream of water was brought into play.

A good portion of the roof will have to be replaced, and some damage was done by the water going through into the upper story.

COTTON STATISTICS FOR NACOGDOCHES.

The tabulation of the separate returns from the ginner's report to Nov. 14 shows that there were 11,794 bales of cotton, counting round as half bales, ginned in Nacogdoches county from the crop of 1915 prior to Nov. 14, 1915, as compared with 12,461 bales ginned prior to Nov. 14, 1914.

CHARLEY SHINDLER VICTIM OF ACCIDENT.

While loading some timbers Saturday afternoon, which were being taken from an old house that was being torn away, Charley Shindler was caught in a very painful accident, as a result of which he suffered some severe bruises about the face.

In throwing a big piece of timber on the wagon one end of it flew up and struck the gentleman in the face, inflicting injuries upon one cheek and upon the nose.

FALLS INTO CREEK AND BREAKS HER ARM.

Late yesterday afternoon while Mrs. J. J. Coker was endeavoring to cross the Banita creek on a plank walk she lost her balance and fell into the creek, breaking both bones of one of her arms, just above the wrist, in the fall.

She was given immediate surgical attention and is reported to be doing nicely this morning.

W. N. Turner and family of Garrison were in the city yesterday, coming down in Mr. Turner's car. They came to bring Mrs. Turner's mother, Mrs. Humphreys, who took passage on the T. & N. O. for Ponta in response to a message announcing the serious illness of her brother.

Messrs. Ben and W. C. Strickland, Shade Shipp and S. King, good farmers from the Attoyac community, in the northeastern part of the county, were visitors to the city today.

OLD LAND MARKS OF NACOGDOCHES.

To say that this is a historic old town is a mere matter of course. Its real origin is veiled in mystery; its settling by civilized people is not clearly told in history. Doubts are in the way of every theory.

But we have history and romance abounding here, and we are not always attentive, if, indeed, we are even aware of such facts, in our own home. For instance, how few are the residents of our present city who ever think, when they observe our venerable townsman, David Lee, that he has had a remarkable career as a resident? We often see the aged form as he totters along, or stands upon the streets, with the evidences of age showing plainly, but do we observe him with a reflective eye or a sentiment of veneration? Do we think of "flowers for the living?" Do we realize that he will soon be gone; or more, that he is in constant expectation of his final rest? He will tell you that he does not expect to live another year. Next May he will reach 88. He was born near New Market, which is in North Alabama, about sixteen miles from Huntsville.

David Lee came to Nacogdoches a young man in 1854, when 26 years old. He settled down to the quiet realities of life here and was content to dwell in this land of adventure, in an uneventful or unventuresome mode. He simply worked, watched, waited and lived out his time in a most moderate and successful routine. Has he been a success? Or, to make the point clearer, has he made a failure of life? Who can say that he has not made the best of it? Who has done better?

One of the most interesting phases of the life of this now decrepit man is the fact that he has never owned or occupied but the one home—the home where he now spends his closing days; where he has twice been a bridegroom and where he has raised two sets of children; the home that he bought and entered in 1858, which was fifty-seven log years ago, then an old-fashioned double-log house, located on the very corner where he now lives. This original house stood nearer the corner than does his present dwelling and it had an open hall, or "passage," between the two big front rooms and it had an overhead apartment. The logs and timbers were hewed out in the woods. He lived in this edifice ten years, and then, with his own hands and very little help, he built his present home. The weather-boarding, flooring and all the sawed lumber so used was dressed mostly by himself with hand planes.

It is interesting besides to state that this place had long been the Millard home, and that Mr. Lee bought it from the heirs of Henry Millard, who was one of a large family raised in Maryland and who was himself one of the immortal San Jacinto heroes. In fact, the history of this Millard family, from whom our two well-known citizens, Jesse and Henry Millard, descended was one of more than ordinary interest.

Old landmarks! Who does not venerate and regard them sacredly? That old, old Millard place is almost beyond the memories of the past. It has become the Lee old place. And the Lees are nearly all gone from it and their memories will soon be our legacy. Peace be unto them! "Flowers for the living!" And there are other such instances around us—individuals, landmarks, histories of fascinating romance and adventure.

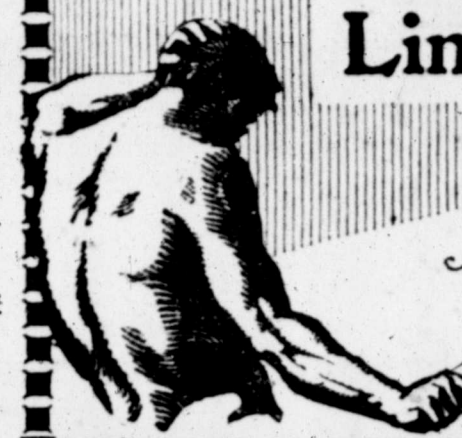

G. M. Hall of Appleby was in the city today. Mr. Hall has recently returned from a visit to Beaumont and Port Arthur.

War upon Pain!

Pain is a visitor to every home and usually it comes quite unexpectedly. But you are prepared for every emergency if you keep a small bottle of Sloan's Liniment handy. It is the greatest pain killer ever discovered.

Simply laid on the skin—no rubbing required—It drives the pain away instantly. It is really wonderful.

 SORE MUSCLES

AN INTERESTING CHARACTER

Living about four miles from Chireno, in this county, is a most interesting character in the person of Horace Metcalf.

When quite a small boy Horace had the misfortune of losing the sight of one eye. Then, again, about four years ago, ill luck came his way. When he discharged a rifle the plunger blew out striking him in the other eye and rendering him totally blind. But Horace is one of those fellows that won't give up. He was not going to permit the pleasures of this life all escape him because of his inability to see. So he just kept right on through life the same. When he wishes to go to town he just goes to the stable and saddles his horse, mounts and gallops off—sometimes very rapidly. The road to town is in poor condition, there being several ridges not any too safe for people with two good eyes, but residents say he has less trouble getting over the road than some of them who can see.

When Horace could see he was a great hunter. Nothing was so thrilling to him as a merry chase behind a pack of hounds at night. Not long after Horace lost his eyesight he decided to try another fox chase. He could not understand why eyes were necessary for one who hunted on the darkest of nights when no one could see anyway. All that he could believe eyes would serve for was to locate false objects to cause one to be dodging all the time. One night he saddled his horse and gave his horn a blast or two, assembling the boys and dogs and rode off. How great was the surprise to all when they found that Horace knew the woods better than any and could lead the bunch in any direction he chose. His companions say when all become lost in the rough cut-over lands where all roads and trails look alike, all they have to do is inform Horace of the direction of the moon or some certain star, or perhaps of the nature of the surrounding ground, or some peculiar permanent object, and he will quickly carry them out.

Horace is one of those great big overgrown boys full of life and fun. He's one of those fellows who can keep a lot of fun going in a mighty dull crowd; and it's good clean fun, too. What a pity more fellows who have two good eyes can't see like Horace!

DISTINGUISHED VISITORS IN THE CITY LAST WEEK

The officials of the Frost-Johnson Lumber Co. were in the city last Friday and Saturday on a trip of inspection of the property. In the party were E. A. Frost, president; T. F. Whited and Geo. S. Prestridge, vice presidents, all of Shreveport; and Geo. Kelley, a director, of Pineburg.

The gentlemen departed from the city Saturday afternoon, and will return in three to be present at the annual meeting of the stockholders and directors to be held in this city next Thursday.

The mills and railroad of the Frost-Johnson Lumber Co., is our biggest industrial enterprise, and is managed by an elegant patriotic lot of gentlemen who enjoy mutual friendship with the town and surrounding country.

Dr. J. K. Castleberry and son, J. K., Jr., of Sacul, Nacogdoches county, were here last Wednesday and Thursday. They came over in their car, Dr. Castleberry being on a business mission. He owns some farms in this county and comes over once a year to look after them.—Center Champion.

Tucker Glenn, cashier of the Sacul State bank, has been in the city a day or two attending county court and looking after some business interests for his bank. Mr. Glenn is a young gentleman of excellent bearing, and proof of his business ability is that he has made his bank tide over the dull times of the past eighteen months.

Dr. and Mrs. J. M. Rogers of Attoyac were in the city yesterday afternoon, the doctor coming up to look after some business interests. Dr. Rogers says sickness is giving away in his community and that he is not rushed so tightly with his work now.

Musical Instruments

Weekly Sentinel

HALTOM & GIBBS, Proprietors
G. M. HALTOM, Manager
O. M. GIBBS, Editor

The Beaumont Evening Journal is out with a most creditable special edition exploiting the interests of Beaumont and South-east Texas.

It is hard to get people interested in a street car line with such pretty weather as we are having—but the time is coming when the need of it will be felt. Mark the prediction.

Ford, of automobile fame, is optimistic in the belief that the great European war will soon end. With his millions we could be optimistic on this or any other condition.

English naval vessels given corrugated hulls for experimental purposes are said to be economical of fuel, to have more cargo room, to be stronger and to be less sensitive to wave motion.

Texas now has a real live newspaper man in the governor's chair. Lieut.-Gov. W. P. Hobby of the Beaumont Enterprise having been exalted to the chair during Gov. Ferguson's absence from the state.

Another Sunday approaches. Read the church columns.—Nacogdoches Sentinel.

Goodness! we nearly had heart failure. We thought it was another William.—Denton Record-Chronicle.

Good schools, good churches and good newspapers are the best index to the moral and progressive life of a town. Nacogdoches is particularly blessed with the former and her newspapers are going their best and are on the way.

A dispatch from El Paso in today's paper recounts the sad spectacle of a man dying with tuberculosis, and so weak that he could not go to the rescue, having to watch his two small children burn to death while the mother was downtown looking after some errand for the family.

Residents of Nacogdoches had better read the notice from the city marshal appearing elsewhere in today's paper. He complains that many have fallen into the practice of raking leaves and other trash into the ditches, streets and alleys of the city and vows that he is going to "pull" every one guilty of the practice in future.

We love the new Methodist minister sent to Nacogdoches already. He came in to see us this morning and said he believed in printers' ink and printers, and made himself so generally agreeable and pleasant that we felt like we had known him always. Bro. Hotchkiss is one of the most distinguished members of the conference and Nacogdoches has captured a prize in his assignment to us.

A smile and a word of encouragement will help a drooping spirit. And it will help you. There comes a time in the lives of all men when the weight of responsibility or ill health will produce a drooping, gloomy spirit, and if there ever was a time when you need the encouragement of your friend it is at such time. If he fails you then, you can never have the same confidence in human nature again. And if you fail him at this time you have neglected a sacred duty.

There would be nothing poetical about the scent of new-mown hay if it was called grass.—New York American.

RECIPROCITY.

How many of our good citizens realize that this town is dependent to a considerable degree upon the good will and patronage of the farming community surrounding us? And how many ever give a second thought to the comfort of the farmer and his wife and children when they come to town?

If we have never done any thinking along this line before it is not too late to begin now. Let's begin.

We can not do everything at once, but we can make a start in the right direction by selecting a convenient site and build sheds where the farmers can leave their rigs and hitch their horses and feel safe in their minds that their teams will not be frightened by the innumerable automobiles that are constantly whizzing by.

Some may argue that there are livery barns and feed sheds where the farmer can stable his team for a price.

True, there are. But when a man from town drives out into the country and stops at a farm house does the farmer charge him a quarter or a half dollar for a place for his team to stand? Not a bit of it. That team is put right in the barn, or hitched in a safe place away from the road, and there is no price attached.

And if the town man is thus taken care of in the country why shouldn't the farmer be shown equal courtesy when he comes to town and spends his money here?

If we want the farmer's trade we will have to treat him right when he comes to see us. If we don't he will find other places to go and no one will have just reason to complain.

This is but one of the items in the count. Let's dispose of it and then tackle the others.

DIAGNOSE YOURSELF.

There is a peculiar germ which men quickly discover in others, but seldom in themselves.

Its name is Fault.

"He is lifeless who is faultless," says an old proverb; meaning the only perfect men are dead men.

There are many kinds of Fault germs. Chief among them, constant nagging, cruelty, fault-finding and selfishness.

These make disagreeable men, and disagreeable men make a disagreeable world.

Life is what you make it and you make it as you think it.

To a man with a smile the earth is a circus—to the dismal man who lacks cheer the earth is a "sea of troubles."

He who meets others with growls in youth will be greeted with growls in old age.

The man who selfishly refuses aid to the needy should not look for aid when in need.

The first symptom of Fault infection is to be unaware of its presence.

Cheerfulness, ambition, sincerity and brotherly feelings are the best medicines—and surest cures.

Lucky the man who knows his Faults—happy the man who labors against them.

Be your own physician—diagnose yourself carefully—seek out your Fault germs ruthlessly—do not rest until you kill them.—Shreveport Times.

EXPOSITION PROFITS REACH TOTAL OF \$1,041,550

San Francisco, Nov. 30.—A complete financial statement of the Panama-Pacific exposition, made public tonight by Robert S. Durkee, controller of the exposition, indicated that when the fair closed there would remain a cash balance of \$1,041,550. The total cost for construction was \$18,365,193.69.

BRITISH LOSSES SO FAR AROUND 600,000

Casualties During Month of November Aggregated Over 46,000 in Total.

London, Nov. 30.—British casualty lists published during November total 1,232 officers and 45,184 noncommissioned officers and men in all fields of war, bringing the total since the beginning of hostilities up to approximately 600,000.

Heavy as were the losses in killed, wounded and missing for the present month, they were much lighter than in October, when the names of 3,110 officers and 71,187 noncommissioned officers and men were included in the lists.

A statement issued in London Oct. 29 gave the British casualties from the beginning of the war to Oct. 9 as 493,294. The total among officers in that period was 21,293, and among other ranks 472,001.

BECOMING REMINISCENT.

"Dock" Lively, the talented and fluent editor of the Lufkin Daily News, thinks he is putting one "over" The Sentinel in some choice reminiscences he has gathered from the old Nacogdoches Chronicle—but it so happens that we have some copies of the same paper. Perusing the files of one of them we find the following advertisement which will be of much interest to the old settlers, and surviving members of the family:

"Property for Sale for Confederate Bonds—5,000 acres in Angelina county; 2,000 acres in Nacogdoches county; 1,151 acres in Wood county; 2,214 acres in Palo Pinto county; 480 acres in Jack county; corner lots east of Stone Fort, having on them commodious store houses and warehouses, one formerly occupied by J. E. Boykin in the drug business, and the other being now used by M. G. Whitaker in the dry goods business. My residence and five acres of land. I will also take Confederate bonds in payment of notes and accounts due me. Jesse H. Muckleroy."

There are many other items in the paper that would be of local interest, some of which we will use from time to time as the demand seems to warrant. Among these items we note the muster roll of the Linn Flat company, organized with J. A. Lewelling, captain; C. C. Grayson, first lieutenant; J. W. Murph, second lieutenant; E. G. Grayson, third lieutenant; Sam M. Weaver, orderly, for service in the Confederacy.

We, too, have a copy of a paper more than "one hundred years old," the Ulster County Gazette (presumably a reprint) published in Ulster county, New York, Jan. 4, 1800, in which we find a report of the death of Gen. George Washington, the address of President John Adams to the house and senate (in the manner President Wilson has adopted) and many other items of national interest at that time.

We have many other old papers and citizens living who have been here so long that the memory of man runneth not to the contrary—so "keep the record straight," Bro. Lively; you are treading on dangerous ground if you dare make deductions or speculations in your reminiscences. But in extending this bit of caution we would not discourage you; the rich historical lore of this and other East Texas points should be written while we have living witnesses, landmarks and souvenirs to verify the report.

The Philadelphia bureau of agriculture has begun a thorough study of the banana, botanically and commercially, and has collected banana plants from all over the world.

Catarrh and Colds To Be Rid of Relieved of Catarrh

Is a great achievement. Most people would be well and happy were it not for catarrh. It is worth ten years of any one's life to learn how to get rid of catarrh.

PE-RU-NA

will show you, much quicker than any one could tell you, how to get rid of catarrh.

THE PERUNA CO., Columbus, Ohio

Mrs. Emma Gannon, 107 E. South St., Kewanee, Ill., writes: "For fifteen years I had catarrh of the head and stomach. I could hardly walk. My attention was called to 'The Ills of Life.' I read it through. Then I bought a bottle of Peruna. I am entirely well now."

PROSPERITY IN SOUTH SHOWN BY "EASY" MONEY

Restoration of Cotton to a Solid Foundation Declared to Be Leading Factor.

Washington, Nov. 30.—Prosperity prevailing in the Southern states was reflected today in reports of business conditions from all the population centers. Heavy early buying presages fuller Christmas stockings than in several years at the close of an autumn season during which regular trade has been unusually heavy.

A sure index of the wonderfully improved business conditions is the remarkable bank clearings of the larger cities. For last week Memphis reported the high water gain in clearings, an increase of 63.9 per cent over the same week last year. Atlanta reported an increase of 47.2 per cent, while every city which reported from the South showed gains of almost similar proportions.

The restoration of cotton to a solid price foundation, more diversified crops and economy in production are declared by business men to be leading factors in the improved conditions. More foodstuffs were raised by Southern planters than ever before and thus much of the money which went elsewhere for necessities of life in other years was kept at home.

Although no such freight congestion is reported as exists in and around New York, the terminal facilities of Southern ports are said to be taxed to capacity by the heavy coastwise and export trade.

4 TONS OF POWDER EXPLODES, KILLING 31

Du Pont Plant Shattered and Bodies Are Thrown for a Quarter of Mile.

Wilmington, Del., Nov. 30.—Thirty workmen were killed and seven injured today in an explosion of about four tons of black powder at the upper Hagley yard of the Du Pont Powder Co. It was the worst accident that has occurred in any of the company's plants in a quarter of a century.

Lewis Booker, one of the injured, died tonight, making 31 dead.

The cause of the blast is not known. According to a statement issued by the company the origin "probably always will remain a mystery." Nevertheless, a most searching investigation has been instituted.

There was the usual rumor afloat that some outside agency may have caused the explosion, but officials of the plant said tonight there was no evidence to support such a theory.

Nearly all the victims of the blast were young men between 16 and 21 years of age. The greater number of them lived in and about Wilmington.

To the amateur hunter every man looks like a rabbit.—New York American.

CARRANZA PROMISES TO PROTECT BORDER

Assures Colonel Blockson There Would Be No Further Acts of Violence.

Brownsville, Texas, Nov. 30.—Gen. Venustiano Carranza, at the Mexico-United States boundary monument on the international bridge here at noon today, met and conferred twenty minutes with Col. Augustus P. Blockson of the Third United States cavalry, commander of the United States cavalry patrol on this frontier.

Gen. Carranza himself broached the subject of the recent border troubles and assured Col. Blockson there would be no further acts of violence that might be attributed to sources on the Mexican side. He said if any untoward act occurs, it will be because Mexican officials have no knowledge of it and any such will be rectified as quickly as possible. Both commanders expressed regret that owing to army regulations, American officers cannot visit Matamoros and take part in the festivities attendant upon the visit of Gen. Carranza.

Gen. Carranza sent a message to Col. Blockson that he would be pleased to meet American army officers at the boundary and left Col. Blockson the designation of a time. Besides Col. Blockson Col. E. E. Hatch and Lieut.-Col. John P. Finley of the Fourth infantry were present, as were also more than a dozen officers of the Fourth infantry and Third cavalry.

With Gen. Carranza were Lieut.-Col. Herriberto Barron, chief of staff; Maj.-Gen. Alfredo Ricaut, newly appointed Mexican commander of the frontier from the gulf coast to Piedras-Negras, and Gen. E. P. Nafarrate.

Gen. Carranza is expected to leave Wednesday, for the interior.

WAS WISER THAN THEY THOUGHT

Senator Hoke Smith of Georgia is full of excellent stories of the old-time statesmen of Georgia. Here is one of them:

"Just after the war John B. Gordon was, of course, the hero and idol of the Southern people. He even outclassed in politics the great men of the ante bellum period. When Gen. Gordon ran for the senate he beat before the legislature the great triumvirate of Georgia—Toombs, Stephens and Hill, all of whom opposed him. None of the three ever forgave him. They looked upon Gordon as a political interloper, without training or equipment and regarded his victory merely upon a war record, as an outrage upon all political precedent. Toombs was particularly bitter and as usual outspoken. Neither he nor Hill nor Stephens credited Gordon with brains. In the preliminary campaign Toombs attacked him savagely. Toombs, who was only a short time in the war and was sent to the Confederate senate, said in a public speech:

"Who is this Gordon who poses as a statesman ready for the American senate? What has he done to qualify for this high honor? He may be a good soldier, but he has no claim to be a statesman. If he did not have that scar on his cheek he would have no chance. If that scar had been on his back instead of his cheek he would never be heard of!"

"When Gordon rose to speak he recited Toombs' last remark and said:

"If Gen. Toombs had been where I was when this scar was received, in all probability it would have been on his back and not on his cheek!"

"After which the great Georgia triumvirate concluded that Gen. John B. Gordon had more brains and much more wit than they thought he had."—New York American.

WHEN YOU ARE CONSTIPATED

Don't paralyze the bowels with a harsh, drastic cathartic that gripes and binds you up tighter after its effect is gone. Take

PRICKLY ASH BITTERS

It does the work just as thoroughly as the strong cathartics. Yet it acts mildly and naturally, and what is still better, it leaves the bowels in a healthy state, promoting regularity in the bowel movements.

Price \$1.00 per bottle

Prickly Ash Bitters Co. Proprietors, St. Louis, Mo.

Stripling, Haselwood & Co. Special Agents.

WITH ALL HIS FAULTS.

My pa gets wages by the week because he helps to run a store; Ma says if he was not so meek his pay would be a whole lot more; She tells him he was never meant to be a leader in the strife; Sometimes she's full of discontent and can't find any joy in life.

Because the price of livin's high we have to skimp and worry through, And never can afford to buy the costly things our neighbors do;

Most all the time ma wants a lot of things she gets along without; Pa thanks the Lord for what we've got, but ma is often full of doubt.

I wish my pa could find some way to get to be a millionaire, Or earn a whole lot higher pay so ma could have fine things to wear; She says he's just a mere machine—I know she wouldn't trade him, though, For any pa we've ever seen, because she's often told me so.—S. E. Kiser, in New York American.

A FORTY-SEVENTH WEDDING ANNIVERSARY

Today is the forty-seventh wedding anniversary of Capt. and Mrs. John S. Doughtie of this city—and a singular feature of the matter is that it comes on the same day of the week in which they were married.

Capt. and Mrs. Doughtie were both born in Georgia, but Capt. Doughtie was reared in Alabama. Mrs. Doughtie's maiden name was Annie Amelia Wash, and they were married on the Amelia plantation in Georgia forty-seven years ago. They came to Texas thirty-nine years ago, settling in Nacogdoches thirty-one years ago, and have resided here continuously since. To this union seven children were born, four of whom are now living; J. E. Doughtie of Monroe, La.; E. T. Doughtie of Helena, Ark.; Eugene S. Doughtie of Memphis, Tenn., and Mrs. Coke Murphey of Lufkin.

Throughout their long residence with us, Capt. and Mrs. Doughtie have made the community good citizens, which the best that can be said of an one, and in this, the evening of their lives, they are still blessed with good health and the promise of many years more of usefulness.

MEET US FACE TO FACE

PLANT WINTER CROPS AND IMPROVE LAND

"Farm-the-Year-Round" the Advice of Mr. McNess, Agricultural Expert.

In order to make a farm produce its maximum amount of crops it is necessary that all tillable land should be cropped the year round, yet how few of our farmers consider it necessary to keep their soil producing, their teams and labor busy from the first of the year to the last day in December. In riding through the county this early winter I have found very little land planted down to winter grain, yet from the look of the stock that I have seen attempting to make a living upon frost-bitten cotton stalks it struck me that a large portion of our farmers would be benefited if they were to plant a few acres of their land either in oats or rye as a winter pasture for their stock. One of the hardest propositions of the South is to make our people see the necessity to keep the farming business running the year around and those of our farmers who do conduct their business twelve months in the year are the prosperous farmers of the country. The man who runs his farm for six months and spends the remaining six months loafing around town is the man who has everything mortgaged and always complaining of hard times. Oats, rye, vetch and Essex rape are all winter crops that can be grown to advantage in Nacogdoches county and they might be called lazy man's crops, because they need no cultivation during their growth, and when planted on fairly good soil, pay a handsome profit upon the amount of labor expended upon their planting and harvesting, besides, the benefit to the stock allowed to graze upon them during the winter months when pasture is short, and the improvement to the soil upon which they are grown.

This six-months farming system, along with the single-crop system of farming, is the cause of the wearing out as people call it of our rich Southern soils. It is a miracle to me that our soils produce the crops they do with the abuse they receive at the hands of some of our farmers. Under a proper system of farming, such as the experiment station is attempting to teach through the medium of the local press, our lands will increase in fertility, they will produce larger crops each year, and, instead of the new ground producing the largest crops, as is now the case, the older the soil under a right treatment of tillage, will be the heaviest producing soils. Take, for instance, the old agricultural countries of Europe, whose soil have been in cultivation for about 2,000 years, and they are producing today more of all crops to the acre than we are—and more than they did two hundred years ago to the acre. The secret of their successful farming is that they follow crop rotation, diversify and keep their land busy the year round; while we, with better soil and climatic conditions, are allowing our soil to wash away and the humus to be burnt up by our foolish one-crop system and indifference of the people who till the soil. I hope those farmers of this county who read this article will study over the facts stated and make up their minds this winter to plant some part of their farm to winter crops. It will cost you only a little time and money, and

Will arrive sometime before sunrise Saturday of this week. All day long he will be in his post-office at Lee Variety Store.

Bring your letters and give them to him yourself Then you know he has received it This is the only time he will be in Nacogdoches before the final trip of Christmas Eve, so be sure to come any time between eight o'clock in the morning until six o'clock at night on Saturday, December 4, 1915.

the satisfaction you will get out of it; in seeing your work stock improve, your cows give more milk, and your farm look something better than a weed patch, will be ample reward for your efforts. GEO. T. McNESS, Texas Experimental Station No. 11.

COUNTY COURT.

The following business has been disposed of by the present term of county court:

State of Texas vs. W. C. Hilliard, charged with assault; plea of guilty and fine \$10.

State of Texas vs. DeWitt Gresham; tried by jury and acquitted.

State of Texas vs. Mansfield Fly, charged with violating local option law (two cases); fined \$25 and twenty days in jail in each case.

State of Texas vs. Tom Edmunds, charged with violating local option law; tried by jury, fined \$25 and twenty days in jail.

Tucker-Hayter & Co. vs. Walter Thurston; dismissed at cost of defendant.

J. L. Williams vs. H. E. & W. T. Railway Co.; dismissed at cost of defendant.

S. B. Hayter vs. Nacogdoches Cotton Compress Co.; judgment for plaintiff in sum of \$165.75.

Commercial Guaranty State Bank vs. J. R. Jordan et al.; judgment for plaintiff.

Stripling, Tetts & Co., vs. Watkins & Campbell; mistrial.

Purify the sewers of the body and stimulate the digestive organs to maintain health, energy and strength. Prickly Ash Bitters is a tonic for the kidneys, liver, stomach and bowels. Stripling, Hazelwood & Co., special agents.

No one ever seems to have any admiration for the good winner. —New York American.

TWO GEOLOGISTS HERE.

Two geologists from Oklahoma, whose names we have not yet been able to learn, arrived in the city at noon and will spend a few days looking at formations and other conditions that might be of interest to them.

They came through the country from Timpson in an automobile with Ward Johnson of that city driving.

Recent talk of oil development doubtless attracted these gentlemen to this section and we hope that they will become sufficiently interested to make a report that will interest capitalists to invest in further development.

A coated tongue, foul breath and clogged condition in the bowels suggest the use of Prickly Ash Bitters. It is just suited for such ailments. Stripling, Hazelwood & Co., special agents. It is well to be kind to your enemies; but don't forget your friends in the meantime.—New York American.

TIMPSON MASONS VISIT THE APPELBY LODGE

The following Timpson Masons attended a meeting of Appleby Masons Saturday night: Dr. V. E. Wratten, A. J. Wigley, J. R. Nichols, B. W. Johns, M. L. Green, M. E. Oden, Rev. A. T. Walker, S. Winfrey, J. A. Moses, J. C. Black, E. J. Carroll, H. R. Forry, Y. O. Corley, J. G. Ellington, G. T. Branch, W. J. McLeroy and J. C. Bogard. An excellent supper was prepared for the visitors and a good time is reported.—Timpson Times.

Don't forget to use a little Prickly Ash Bitters whenever the stomach or bowels are disordered. It quickly corrects such troubles and makes you feel bright and cheerful. Stripling, Hazelwood & Co., special agents.

RESIGNS AT TIMPSON; COMING TO NACOGDOCHES

We take the following report of the resignation of Rev. E. L. Thompson as pastor of the First Christian church at Timpson to accept similar work in Nacogdoches from Monday's issue of the Timpson Times:

Rev. E. L. Thompson preached his "farewell" sermon yesterday as pastor of the Christian church of this city. He will leave for Nacogdoches Thursday, where he will take up his new work as pastor of the Christian church of that city. It was with great reluctance that the church at this place gave him up, as he has been the instrument in building up a large membership for the Timpson church. Bro. Thompson has endeared himself not only to his congregation but the people of Timpson as well, and he will carry with him to his new location the best wishes of the Timpson people. Rev. Thompson came to Timpson about three years ago and since then has succeeded in accomplishing many good things in his church work. He is a true Christian, energetic and is a great worker among the young people, as well as the older ones.

Rev. J. T. Bradbury of Logansport succeeds Rev. Thompson here, and a sketch of the new pastor appears elsewhere in today's paper.

Here and there a strong character defiant as to custom and precedent appears. But most of us take the two lumps of sugar in our coffee which convention prescribes.

EUCALINE

You will not have the best if you fail to get EUCALINE for Malaria, Chills and Fever. It acts on the liver and bowels and relieves the system of the cause, pleasant to take. FIFTY CENTS, YOUR DRUGGIST Stripling, Hazelwood & Co.

FAIRVIEW LOCALS.

Special Correspondence.

We are glad to report the health of the community very good, with a few cases of minor illness.

We are glad to report Mrs. Joe Allen, who has just returned from the Tucker hospital, where she underwent a serious operation under treatment of Dr. Barham, to be doing nicely. Her many friends are glad to have her home again.

Mrs. Doyle Harrel of Lufkin is visiting her mother, Mrs. Mattie Skillern.

Mr. and Mrs. Chas. Smith have purchased Mr. John Haltom's place and will move to it this week.

The people of this community regret very much having to give up Bro. Campbell, our former pastor, who was transferred to the Arkansas conference. Bro. Helpinstill comes to us instead, and we are glad to learn that he is highly recommended. He will preach for us the second Sunday at 1 a. m., and everybody is invited to come out and hear him. We especially invite the Christians of all denominations to lend us a helping hand in making this next year one of the best year's work of the circuit.

We are sorry to report that on account of some sickness in the past Sunday school has not done very much, but we are expecting to revive it, and have one of the best Sunday schools we have ever had. Bro. O. T. Hotchkiss and Mr. Lee of Nacogdoches have promised to be with us the second Sunday at 3 p. m. We are glad to have such men come to our Sunday school and we want both young and old to come out and hear these men, feeling that it will be of great benefit to them. We ask and beg the parents to come to Sunday school and bring your children. If it is impossible for you all to come, send the children where they can learn the true stories about the Bible. Let's all put our shoulders to the wheel and each try to do his part in helping the superintendent make it a success, feeling that we all have a part to do. The Sunday school meets promptly at 3 in the afternoon.

With best wishes to the dear old Sentinel.

FOR SALE—Two good hacks to be sold in front of court house, Monday, Dec. 6, to highest bidder. J. L. Burrows. 2-d1w1

GOOD NEWS.

Many Nacogdoches Readers Have Heard of It and Profited Thereby.

"Good news travels fast," and the many bad back sufferers in Nacogdoches are glad to learn where relief may be found. Many a lame, weak and aching back is bad no more, thanks to Doan's Kidney Pills. Our citizens are telling the good news of their experience with this tested remedy. Here is an example worth reading:

Mrs. J. Roquemore, N. Fredonia street, Nacogdoches, says: "For a year I had been seriously troubled by kidney weakness. I had dizzy headaches and my kidneys were irregular in action. My bladder was inflamed and the kidney secretions pained in passage. The pains ran up through my sides from my kidneys and caused me to suffer intensely. I used three boxes of Doan's Kidney Pills in all and they surely did give me fine results."

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Roquemore had. Foster-Milburn Co., Props, Buffalo, N. Y.

R. E. King and family went to Center yesterday where they will spend a couple of weeks while Mr. King does some abstract work and the family will visit with relatives and friends. Mr. King's brother, James E. King, is at the head of the big abstract office of the Pickering Lumber Co. in Center, and is enjoying a big rush of work in his line.

I AM AGENT FOR INEEDA LAUNDRY OF BEAUMONT AND WILL APPRECIATE YOUR LAUNDRY WORK. CALL AND LEAVE YOUR BUNDLE WITH ME AT THE SCOTCH WOOLEN MILLS. LUTHER NELSON.

STORM HITS HOUSTON; MANY SLIGHTLY HURT

Roofs Razed in Downtown District—Street Car System Out of Commission.

We take the following report of the storm in Houston from last evening's Houston Chronicle:

Thousands of dollars' worth of damage was done late Thursday evening when a terrific wind storm hit Houston, followed by a heavy rain.

Roofs were taken off of buildings in the downtown section, windows were blown out of business houses, many persons were hit with flying glass and frantic pedestrians were chased into places of safety.

The street car system was put out of commission for half an hour, the telephone system was badly crippled, electric lights went out in portions of the city. For about three minutes the storm promised to equal the August blow.

The Houston Electric Co. was hit hard. Trolley wires went down on a number of its lines, and it was half an hour before service could be resumed. A statement was made by officials of the company that no serious damage was suffered beyond the stopping of traffic.

It was reported that at the railroad crossing at Houston avenue a street car hit a hand car and three automobiles were caught in the jam, but no one was reported injured.

Several ambulance calls were answered to various sections of the city. One woman was reported hurt with flying glass at Congress and Travis. P. W. Kitrell, manager of the Texas Artistic Limb Co., was hit with flying glass in front of the Kiam building.

Tops were taken off of automobiles in all parts of the downtown section of the city. Six machines were thus bereft of their tops in front of the Prince theatre.

Windows were broken in many buildings and a portion of the roof of the Columbia Store, on Travis street, was taken off.

The wind blew a terrific gale for nearly ten minutes and some hail fell.

The weather bureau prediction is for clear and cold tonight.

JAS. R. TAYLOR KILLED WHEN AUTO PLUNGES

John Everhart and Neal Abernathy Are Injured in Accident at Bonham.

Bonham, Texas, Nov. 25.—Jas. R. Taylor was killed and Neal Abernathy and John Everhart seriously injured when an automobile in which they were riding plunged from a high embankment near the city park on Center street last night. Jas. Hancock, the other occupant of the car, escaped practically unhurt. Taylor was crushed beneath the car and lived but a short while after the accident. Abernathy, the more seriously injured of the other two, was removed to the Allen Memorial hospital, while Everhart was carried to his home.

IF YOUR CHILD IS CROSS, FEVERISH, CONSTIPATED

Look Mother! If tongue is coated, cleanse little bowels with "California Syrup of Figs."

Mothers can rest easy after giving "California Syrup of Figs," because in a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels, and you have a well, playful child again.

Sick children needn't be coaxed to take this harmless "fruit laxative." Millions of mothers keep it handy because they know its action on the stomach, liver and bowels is prompt and sure.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which contains directions for babies, children of all ages and for grown-ups.

58 MEXICANS FIRED ON U. S. SOLDIERS

Detachment Quickly Reinforced and Several Mexicans Killed by Soldiers.

Nogales, Nov. 25.—Fifty-eight Mexican soldiers crossing into the United States at Harrison's ranch, east of here, fired on six American troopers of the Tenth cavalry today. Twenty-five other troopers of the Tenth cavalry, who were on reserve post, opened fire on the Mexicans, killing a number, according to a report, and bringing one wounded prisoner into camp.

Vicente Terrans, a civil official of Nogales, Sonora, was executed today by order of Gen. Acosta for having exceeded his authority in ordering the death of a Mexican who participated in the riots in the Mexican town last night.

Sentiment among Villa adherents apparently was growing against Americans today. The military authorities on this side of the boundary were very vigilant.

GIRL THROWN BY HORSE IS KILLED

Horse Becomes Frightened and Throws Miss Josie Langford Near Davisville.

Lufkin, Texas, Nov. 25.—At Davisville, near here, last night, while a party of young people were returning from a school entertainment, Miss Josie Langford, the daughter of Levi Langford, was thrown from the horse she was riding and instantly killed. The young lady was about 20 years old.

JAIL DELIVERY AT HEMPHILL

White Man and Negro Prize Off Bars and Break in Door of Jail and Escape.

Friday night a little after dark, B. M. Holt, a white man recently convicted of burglary, and Norman Green, a negro, escaped from jail. They broke through the lower story and went out with very little trouble. Green came back but Holt is still at large at this writing—Monday morning.

The prisoners were not locked in their cells upstairs and neither of the officers were in town. Escape was an easy matter, as all that needed to be done was to prize up the flimsy bars between the entry hall and the store room, cut a panel out of a thin pine door leading into the toilet and walk out. Green tried to find an officer and finally roused two citizens, who made a fruitless search for Holt. Holt is suspected of being implicated in most of the numerous burglaries which disturbed the county in the spring.—Hemphill Citizen.

YOUNG COUPLE MARRIED

Esquire Frank Huston officiated in the ceremony which united Louis Martinez and Miss Neenah Gonzales, a Mexican couple, in matrimony yesterday afternoon. Judge Huston says the couple was very young and accompanied by one of their parents.

Prof. E. B. Brackett of Timpson was in the city yesterday afternoon, taking passage on the T. & N. O. for Tyler, at which place he will purchase an automobile and make a trip through the Panhandle country. Mr. Brackett has been engaged in the sale of school supplies the past several years, previous to which time he served as superintendent of some good schools at different places in the state.

Mrs. A. W. Grimes of Jacksonville is visiting with friends and relatives in the city.

WOMAN'S BODY WAS FOUND IN RAVINE

Wife of Prominent Business Man Had Been Missing From Her Home Two Weeks.

Dallas, Texas, Nov. 25.—The body of Mrs. Hugh Perry, wife of a well-to-do Dallas business man, was found today bearing marks of strangulation, in a ravine a short distance outside of Oak Cliff, a city suburb. Although Mrs. Perry disappeared Nov. 15 the police and an undertaker said she had not been dead more than 48 hours. Her disappearance had been kept secret by the police, who have been searching for her, without finding any clues, for ten days.

On the theory that murder was committed, Sheriff W. K. Reynold tonight ordered a formal autopsy of the body tomorrow, with the removal of the stomach. This will be done to ascertain whether Mrs. Perry took poison, or was given poison to cause her death.

CONSPIRACY MAY BRING IN PROMINENT MEN

Case of the Hamburg-American Officials to Be Resumed Tomorrow.

New York, Nov. 25.—A broadening of the scope of the inquiry to include prominent people not heretofore mentioned may mark the trial of the Hamburg-American officials, charged with conspiracy, when the sessions are resumed tomorrow.

BELGIAN ASSESSMENT NOW \$8,000,000 MONTHLY

City of Brussels Forced to Provide \$5,400,000 of Amount to Germans.

Rotterdam, Nov. 25.—The first year of the collection of monetary levies from that part of Belgium occupied by the Germans expired Nov. 10. A new law continuing the cash requisitions merely specifies that monthly payments of \$8,000,000 will be forced.

The city of Brussels, it is said, will be compelled to provide \$5,400,000 of the monthly total. This, it is considered, shows that the provincial communes are now so short of resources that banking centers must bear the chief burden.

BELL COUNTY TO CLOSE SALOONS CHRISTMAS

Official Majority Was 417 in Local Option Election Held November 13.

Temple, Texas, Nov. 25.—Saloons of Bell county will close on Christmas Day, the announcement having been made following a meeting of the commissioners court to canvass the returns and declare the resolution to be published beginning Nov. 27, for four weeks. The official majority was 417 in local option election held in Bell county Nov. 13.

WOMAN'S LIFE TERM UPHELD BY COURT

The Evidence Against the Woman Was Purely Circumstantial.

Austin, Texas, Nov. 24.—Murder cases had the right of way today in the court of criminal appeals, and several were decided and three submitted. The court affirmed the case of Kate Wilganski from Falls county, who was convicted of killing her husband at Marlin and given a life term in the penitentiary. The evidence against the woman was circumstantial.

The man who exercises his jawbone and not his backbone will soon have nothing but jawbone left.

Sufferers from Backache, Rheumatism, Lumbago and Kidney Trouble.

Before an Insurance Company will take a risk on your life the examining physician will test the urine and report whether you are a good risk. When your kidneys get sluggish and close, you suffer from backache, sick-headache, dizzy spells, or the twinges and pains of lumbago, rheumatism and gout. The urine is often cloudy, full of sediment; channels often get sore and sleep is disturbed two or three times a night. This is the time when you should consult some physician of wide experience—such as Dr. Pierce, of the Invalids' Hotel and Surgical Institute, Buffalo, N. Y. Send him 10 cents for a large trial package of his new discovery—"Anurie." Write him your symptoms and send a sample of urine for test. Experience has taught Dr. Pierce that "Anurie" is the most potent agent in dissolving uric acid, as hot water melts sugar. 50c. at druggists.

WILSON GETS 3,000 "PEACE MESSAGES"

Telegram From All Parts of Country Urge Him to Take Part in Conference.

Washington, Nov. 25.—More than 3,000 telegrams were heaped on a desk at the White House today, all urging President Wilson to have the United States participate in a peace conference of neutral nations. The messages were sent from all parts of the country at the instance of the woman's peace party.

The President has been informed that the conference will be held whether the American government takes any action or not, but a verbal appeal will be made to him tomorrow by a committee headed by Miss Jane Addams of Chicago.

Why not try Oxidine at Stripling, Haselwood & Co.

GOVERNOR WILL TALK IN CHICAGO

To Deliver an Address at National Conference on Marketing and Farm Credits.

Austin, Texas, Nov. 26.—Gov. Ferguson leaves Sunday night at 11 o'clock for Chicago, and is scheduled to reach his destination on the night of Nov. 30. The governor will be out of Texas for about a week or ten days, and Lieut.-Gov. W. P. Hobby will preside over the destinies of the state during the absence of the governor.

The governor will deliver an address at the national conference on marketing and farm credits, which meets on Nov. 29 for a four-day session. The governor's subject is "The Need of Outside Capital for Turning Landless Men of Texas Into Home Owning Farmers."

400 YOUTHS ARRIVE FOR BOYS' MEETING

Attendance at Austin Conference Is Expected to Reach 600. Leaders at Austin.

Austin, Nov. 25.—Upward of 400 delegates to the Texas Older Boys' Conference to be held here Friday, Saturday and Sunday, under the auspices of the Y. M. C. A., have registered, and indications are the attendance will exceed 600.

L. A. Coulter, state secretary of the Y. M. C. A.; John Hunter, boys' work secretary, and other leading workers have arrived. Dallas has sent a large delegation, and a delegation from Bay City is also here accompanied by a band.

R. H. Fall, a prominent citizen of Chireno, was a business visitor to the city today.

A WORD FOR MOTHERS

It is a grave mistake for mothers to neglect their aches and pains and suffer in silence—this only leads to chronic sickness and often shortens life.

If your work is tiring, if your nerves are excited, if you feel languid, weary or depressed, you should know that Scott's Emulsion overcomes just such conditions.

It possesses in concentrated form the very elements to invigorate the blood, strengthen the tissues, nourish the nerves and build strength.

WILSON WORKING ON HIS MESSAGE TO CONGRESS

Printers Waiting at Government Plant to Turn Out First Copies.

Washington, Nov. 25.—So that his message on national preparedness may be read in Europe the day it is delivered to congress, President Wilson locked himself in his study today and let Thanksgiving Day plans take care of themselves. If the message is to get away on a boat reaching Europe before Dec. 7, the President had found, it had to be printed today.

So while plans for the big dinner were changed from time to time to meet the occasion, the work of completing the final draft of the message went steadily forward. At the government printing plant enough printers to turn out the document in an hour after received were kept ready. It appeared certain that the message will be in New York by tomorrow morning.

Friends of the President saw in his driving work of today confirmation of their belief that the message will prove the most important President Wilson has delivered since elected.

The doctrine of preparedness, it is understood, has reached in the President's mind a scope far beyond that of a mere army and navy increase. Conservation and other domestic problems will be discussed with the point of view that a nation with every resource harbored is best ready to meet any emergency, and that individual and industrial well being is a great factor in the preparation of a united front against danger.

FOR SALE CHEAP—Several two and four-room boxed saw- mill houses at Dalmont, Texas, between Cushing and Trawick on T. & N. O. railroad. For further information call on me at Dal- mont, Texas. J. H. Crenshaw.

Oxidine for chills and fever at Stripling, Haselwood & Co. tf

KILLING AT FORT WORTH, TEXAS

Two North Texas Men Are Dead. Girl Stenographer Witnesses Affair.

Fort Worth, Nov. 24.—H. O. Ledgerwood, prominent attorney, and J. N. Whisenant of Dallas are dead, following a shooting in Ledgerwood's office this morning. Whisenant is said to have killed the lawyer and then himself. The Dallas man was recently indicted here for fraudulent use of the mails in connection with a bankruptcy case.

Miss Mary Melton, stenographer in Ledgerwood's office, was the only eye-witness. She said Whisenant entered the office about 9 o'clock and walked straight over to Ledgerwood's desk. As he got there, according to Miss Melton, he said: "You've done me dirt!" and fired.

Miss Melton declared Ledgerwood gave no answer.

Miss Melton was standing by her desk, and turned and started to run toward the door. Just about the time she reached it, she said, she heard a second shot, and after she reached the hall, a third one.

Ledgerwood started to rise from his chair just as the shooting occurred, according to the girl.

W. J. Gilvin was the first man to enter the office after the shooting, and he found Whisenant, still alive, clutching a .45 calibre pistol in his hand. In one of Ledgerwood's pockets also was a small automatic.

Ledgerwood was dead, and Whisenant was so nearly dead he could make no statement.

SONORA LOST BY VILLA TO CARRANZA FORCES

Seventh and Twentieth Regiments of U. S. Infantry Ordered to Nogales.

Nogales, Ariz., Nov. 26.—The Carranza forces have taken Nogales, Sonora. A courier sent to advise Col. Sage, commanding the American troops, was shot in the wrist and fell from his horse.

Desultory firing just south of Nogales, Sonora, early today indicated that Gen. Villa's troops, which started to evacuate the Mexican town last night, had come in contact with the army of Gen. Obregon.

Two of Villa's troop trains were reported stalled a few miles south of Nogales.

American troops drove crowds two blocks north of the street that forms the boundary between Nogales, Ariz., and Nogales, Sonora.

All the stores in Nogales, Sonora, were looted last night. The Villa general, Acosta, came to the American side at the same time that Villa wounded were brought over the line to a hospital conducted by Catholic nuns.

One battery of the Sixth United States field artillery arrived here this morning from Douglas. Another battery is coming, and the Seventh and Twentieth regiments of United States infantry have been ordered here.

Feeling chilly and grippy? Take Oxidine. 50c bottle at Stripling, Haselwood & Co. tf

THE FARMER'S CHANCE.

THE SPUR FARM LANDS in Dickens, Kent, Crosby and Garza counties, Texas, offer the farmer his best opportunity to secure productive farms at low prices and on easy terms. Several hundred farmers have already bought from this remarkable body of agricultural lands, and are rapidly paying for the same from the products thereof—in many cases paying notes before they are due. NO BOLL WEEVIL ever known. NO MALARIA. Altitude 2,200 to 2,600 feet. Wonderful cotton and feed crops are grown. For illustrated booklet, address Chas. A. Jones, manager for S. M. Swenson & Sons, Spur, Dickens County, Texas.

Fresh Oxidine at Stripling, Haselwood & Co. tf

Farm For Sale.

160 acres of fine red and bottom land. Situated about nine miles east of Nacogdoches and about two miles of Melrose. Has two sets of four-room houses. Ninety-five acres in cultivation, balance in pasture. As fine piece of redland property as there is in the country. Made seven hundred gallons of ribbon cane syrup, twenty-five bales of cotton and six hundred bushels of corn last year. Bottom does not overflow. Who wants it? See J. J. Haltom or call at The Sentinel office. 7-3dwtf

Once used it is afterward a household remedy. Oxidine at Stripling, Haselwood & Co. tf

Cow Hides Wanted.

Hides are in good demand and are bringing good prices, and it is worth while to handle them right. In skinning try not to cut or score the hide. Spread it out, flesh side up, and give it a heavy shower of salt. This is absolutely necessary at this time of the year. Fold it up and put it in a sack. Write your full name and address on two tags. Put one inside of the sack, and one outside. Ship by express to A. Golenternek & Co., Tyler, Texas.

Until further notice we will pay 13 cents per pound for hides handled according to the above instructions. We remit the same day that we receive the shipment and we also furnish shipping tags. Horse hides bring from \$1.50 to \$3 each, according to the size. We also handle wool. A. Golenternek & Co., Tyler, Texas.

Bottle Oxidine is guaranteed to cure chills and fever. Stripling, Haselwood & Co. tf

Budweiser

ONE OF NATURE'S BEST GIFTS TO MAN

THOSE who are truly temperate know that a mild and honest brew like Budweiser, of American Barley and Bohemian Saazer Hops, makes for the temperance of nations. Budweiser delights the palate and aids the digestion of food. Health, strength and vigor glow and sparkle in every glass. It is pre-eminently the home drink of the American people. Its sales exceed any other beer by millions of bottles.

Visitors to St. Louis are courteously invited to inspect our plant—covers 141 acres.

CARO LOCALS.

Sentinel Correspondence.

The health of this community seems to be good at present.

We have a large and well-attended Sunday school, with Mr. W. T. Whiteman as superintendent.

Our literary school is progressing nicely under the able management of Miss Pittman of Cushing and Miss King of Douglas.

The Caro branch of the East Texas Fruit and Truck Growers' association met at the school building last Saturday and organized for next year. Officers elected were: J. W. Sealbach, president; John Chaney, vice president; Hugh Hamlin, secretary-treasurer.

The T. & N. O. Railroad Co. put up a good loading shed here last summer and we hope to have the co-operation of the farmers of Mahl, Trawick and Linn Flat in loading cars for the market.

We think The Sentinel is a great local paper and that all the people of the county, of all occupations and professions, should subscribe for it, read it and profit by its good advice.

Norman B. Hall, a former citizen of Nacogdoches who is now making his home at Appleby, was in the city yesterday shaking hands with old friends. Mr. Hall says he will make his announcement for district clerk of Nacogdoches county soon after the holidays.

10 CENT "CASCARETS" FOR LIVER AND BOWELS

Cure Sick Headache, Constipation, Biliousness, Sour Stomach, Bad Breath—Candy Cathartic.

No odds how bad your liver, stomach or bowels; how much your head aches, how miserable you are from constipation, indigestion, biliousness and sluggish bowels—you always get relief with Cascarets. They immediately cleanse and regulate the stomach, remove the sour, fermenting food and foul masses; take the excess bile from the liver and carry off the concentrated waste matter and poison from the intestines and bowels. A 10-cent box from your druggist will keep your liver and bowels clean; stomach sweet and head clear for months. They work while you sleep.

LONE PINE LOCALS.

Sentinel Correspondence.

Mrs. Leanders, who has been very ill, is improving.

A few cases of chills have been reported in this community.

Rev. John Matlock filled his regular appointment at Union Springs Sunday.

Mr. and Mrs. John Wilburn are the proud parents of a fine baby girl.

Mrs. Vawter of Mayotown visited her grandmother, Mrs. Leanders, who has been sick, last week.

Muller & Morrow are putting in a new edger at their sawmill.

Mrs. Langford will soon have his mill ready to run.

Several of our farmers have killed some good hogs lately.

Frank Lollar and family of Rusk county visited here Sunday.

A GENTLE REMINDER TO THE TEACHERS

Come to think of it, have you paid that dollar and had your school made a member of the Interscholastic League? The boys and girls of your school could be spending some profitable hours now studying debate, declamation, spelling and composition preparing for the county contests and incidentally enlivening your school and preparing themselves for life. How do you know there is not a boy in your school capable of great things? Perhaps you are standing between him and victory in the county meet and ultimate success in life. Suppose we give him a chance at something near his life's work. Yours truly,
GEO. E. ADAMS,
Director of Public Speaking,
Nacogdoches County.

News comes from Appleby that "Uncle" Mich Weatherly, a time-honored citizen of that community, is quite sick. "Uncle" Mich is one of the oldest surviving citizens of the county and has friends all over the county who will feel a deep personal interest in his condition and wish for him a speedy recovery.

DEMOCRATS ARE NOW THE DOMINANT PARTY

W. F. McCombs, Chairman, Expects a Full Meeting of the National Committee.

New York, Nov. 24.—Democratic sentiment, judging from reports received by William F. McCombs, chairman of the national committee, favors an early national convention. Mr. McCombs said today that from what he had gathered from the members of his committee, it was likely that the convention would be held during the first two weeks of June.

"We are the dominant party now," said the chairman, "and usually the party in power holds its convention first. I believe we are all open-minded as to where the convention should be held."

He hinted that the selection of a convention city for 1916 would not have the same political significance as in 1912, when he led the party to Baltimore because it was convenient to the state from which his candidate was to come. Bids for the convention have been received from Chicago, St. Louis, Dallas and San Francisco.

Mr. McCombs expects a full meeting of the national committee in Washington on Dec. 7 when an attempt will be made to fix the time and place of the convention.

APPOINTED WARDEN AT THE RUSK PEN.

Mr. Ellis Will Resign as a Member of the Legislature to Assume His Duties.

Rusk, Texas, Nov. 24.—W. M. Ellis, representative of Cherokee county, has been appointed as warden of the Rusk penitentiary. He will assume his duties tomorrow. He has appointed J. H. Meeks as assistant warden. Mr. Ellis will resign as a member of the legislature.

FROM J. V. HOWERTON.

The Sentinel has a letter from J. V. Howerton of Abilene, inquiring about his subscription to the paper.

Mr. Howerton is a native of Nacogdoches county, having been reared in the Linn Flat community, and is among the county's sons who have gone out into the world and made good. Recognizing his superior business acumen, he was engaged as inspector of loans with the First State Bank and Trust Co. of Abilene and through his work in this line the bank has prospered and is taking its place with the leading financial institutions of the country. In the course of his letter Mr. Howerton says that his bank has loaned over \$100,000 on land and cattle since last August, which will give the reader some idea of the magnitude of the business transacted by the bank.

Mr. Howerton has been a constant reader of The Sentinel since he left old Nacogdoches county and still has a live interest in the affairs of this section.

Quite often the teachings of experience are not as lasting as one might expect.—New York American.

END STOMACH TROUBLE, GASES OR DYSPEPSIA

"Pape's Diapepsin" makes Sick, Sour, Gassy Stomachs surely feel fine in five minutes.

If what you just ate is souring on your stomach or lies like a lump of lead, refusing to digest, or you belch gas and eructate sour, undigested food, or have a feeling of dizziness, heartburn, fullness, nausea, bad taste in mouth and stomach-headache, you can get blessed relief in five minutes. Put an end to stomach trouble forever by getting a large fifty-cent case of Pape's Diapepsin from any drug store. You realize in five minutes how needless it is to suffer from indigestion, dyspepsia or any stomach disorder. It's the quickest, surest stomach doctor in the world. It's wonderful.

SUBS INADEQUATE FOR COAST DEFENSE

Recent Maneuvers of Atlantic Fleet Showed Underwater Craft Useless.

Washington, Nov. 24.—Abandonment of the present coast defense type submarine in favor of larger seagoing submarines may be recommended by the navy department as a result of lessons learned during the recent maneuvers of the Atlantic fleet and unofficial information concerning the size of submarines now in service in Europe.

There are indications, it was said today, that the United States is lagging behind in submarine development, even with the 1,000-ton submersible nearing completion and two of 1,300 tons soon to be ordered. Navy officials have been particularly impressed by the apparent probability that a submarine of approximately 1,500 tons and measuring 250 feet in length has been engaged in the warfare against allied merchantmen.

Reports of the fleet maneuvers, it has just become known, tell graphic stories of the difficulties encountered by the twelve little submarines attached to the "Blue" force commanded by Admiral Fletcher and defending the coast against a theoretical enemy. The boats were at sea several days and encountered continuous rough weather. While no unexpected mechanical troubles were encountered the crews of the vessels suffered extremely from seasickness, air, improper food and the continual buffeting they received in the pitching and rolling.

To impairment of the efficiency of the crews by seasickness alone many minor mishaps to the boats are said to be attributed.

The maneuvers included the first attempt to employ the submarines, all of the coast defense type and none displacing more than 800 tons, at nearly 1,000 miles off shore, the zone within which coast submarines should be able to operate in any weather.

One of the twelve boats was unable to reach its station, as it would not steer properly in the rough weather. The other eleven, battened down tight for days at a time and with water pouring over them day and night, carried out their orders. Later the "Blue" commander discovered that his "Red" enemy was sweeping southward. He ordered the submarines south to intercept the fleet. All indication of the troubles encountered is given in the fact that it took six hours to convey this order to one of the submersibles. The flotilla was able to make less than half the speed required to bring it to its appointed station on time. Navigation was accomplished only by dead reckoning, for with their vessels closed up tight and tumbling about in the water the officers could not verify their positions. They were fifty miles or more out of position at the conclusion of the trip and the "Red" transports and convoys swept through the breach they left to land an army on American soil.

While no definite recommendations have been made, the question of the value of a submarine as small as the present type for coast defense work is being seriously considered.

FORMER CITIZEN DEAD.

News has been received that Joe Jacobs died several days ago at his home at Silsbee, where he has been residing the past ten years.

Mr. Jacobs was reared at Chireno and is a brother of Mrs. R. H. Fall of that place and a nephew of G. H. King of this city. He was about 35 years of age and is survived by a widow.

The deceased had many friends in this county who will be pained to hear of his death.

Saved Girl's Life

"I want to tell you what wonderful benefit I have received from the use of Thedford's Black-Draught," writes Mrs. Sylvania Woods, of Clifton Mills, Ky.

"It certainly has no equal for la grippe, bad colds, liver and stomach troubles. I firmly believe Black-Draught saved my little girl's life. When she had the measles, they went in on her, but one good dose of Thedford's Black-Draught made them break out, and she has had no more trouble. I shall never be without

THEDFORD'S BLACK-DRAUGHT

in my home." For constipation, indigestion, headache, dizziness, malaria, chills and fever, biliousness, and all similar ailments, Thedford's Black-Draught has proved itself a safe, reliable, gentle and valuable remedy.

If you suffer from any of these complaints, try Black-Draught. It is a medicine of known merit. Seventy-five years of splendid success proves its value. Good for young and old. For sale everywhere. Price 25 cents.

NEW ATTACK BEGUN BY THE VILLA ARMY

Telegraphic Communication Has Been Suspended With Cumpas.

Douglas, Ariz., Nov. 24.—An unconfirmed rumor reached here today that Villa troops appeared late yesterday at Agua de Honda, twelve miles south of Nacozari. Carranza officials are investigating the report.

Gen. Obregon left for Naco, announcing that he would proceed to Santa Cruz, on the Del Rio and Nogales branch of the Southern Pacific railroad, and lead the advance of his forces upon Nogales.

All telegraphic communication with Cumpas, near Nacozari, was cut last night, it was officially reported.

The man who has never had his appendix taken out can get some pleasure telling of his visits to the dentist.—New York American.

YOURS FOR EARLY SHOPPING
Stripling, Haselwood & Co.
THE REXALL STORE.

El Cardova of Harmony was here today.

H. M. Wilson of Maytown was registered in the city last night.

Guy Muckleroy, who spent the fall months in Oklahoma picking cotton, has returned home.

R. L. Dickson of the Melrose community was a pleasant caller at The Sentinel office yesterday.

Mrs. Ann Willis returned to her home in Timpon today after a visit with relatives in the city.

W. L. McBride, a good citizen of the Cove Springs community, was in the city trading yesterday.

Messrs. J. B. Bussey and Mike Byrne, prominent citizens of Timpon, were business visitors to the city Saturday.

Jesse Lee stopped off for a little visit with relatives in the city last Friday while en route from Bryan to Beaumont.

J. T. Gregory, a business man and good citizen of Sacul, was a pleasant caller at The Sentinel office this morning.

Geo. King, an expert stenographer from Garrison, came down last night and will spend several days in the city doing stenographic work for Hon. C. A. Hodges.

Mrs. Milton Rudy and baby of Shreveport arrived in the city yesterday to join Mr. Rudy. Mr. Rudy is superintendent of the works on the new school building.

A. C. Irwin and wife of Garrison and Will Irwin and wife of Grapeland were visitors to relatives and friends in the city yesterday, coming down in the former's car.

Mrs. T. L. Cornelius, who has been confined in the sanitarium for several weeks past, was able to leave today and will return to Garrison within a few days, where she has received much benefit from the mineral waters.

W. D. Wilson, a good citizen of Garrison, has bought the S. N. Houston place two miles out on the Rusk road, the consideration being \$6,500. There are ninety-seven acres in this tract and it is one of the best farms in this country. In disposing of this property, Mr. Houston has no intention of moving from among us and desires it to be known that he is in the market for another.—Alto Herald.

AN IMPRESSIVE FUNERAL.

The funeral of Mrs. M. Mast at Melrose yesterday afternoon is said to have been one of the most beautiful and impressive events of its kind in the history of that community, where a great host of sorrowing relatives and friends gathered to pay the last tribute of respect to one they loved and admired.

A great crowd of friends and relatives went out from Nacogdoches, among whom we have been able to gather the following names: Capt. I. L. Sturdevant, J. W. Christian, A. A. Seale, H. T. Wilson, Tom Baker, G. F. Rainbolt, E. H. Blount, John Schmidt, V. E. Simpson, W. A. Wade, Audley Harris, Mr. and Mrs. D. K. Cason, S. M. Adams, W. G. Reid, A. H. Smith, Benton Wilson, Mrs. W. F. Price, Mr. and Mrs. H. T. Mast, Mr. and Mrs. Henry Mast, Blum Mast, Mr. and Mrs. Luther Swift, Mrs. Ella Swift, Bernice Trawick, R. E. Barham, Alma Cavin and Rev. O. T. Hotchkiss, the officiating minister.

MARRIED AT COURT HOUSE.

Rufus S. Burns and Mrs. Eugenia Duncan, from the Walnut Grove community, were married at the court house yesterday afternoon, Judge J. F. Perritte officiating.

Mr. and Mrs. Burns left last night for New Mexico, where they will make their future home.

Coughs and Colds Are Dangerous

Few of us realize the danger of Coughs and Colds. We consider them common and harmless ailments. However statistics tell us every third person dies of a lung ailment. Dangerous bronchial and lung diseases follow a neglected cold. As your body struggles against cold germs, no better aid can be had than Dr. King's New Discovery. Its merit has been tested by old and young. In use over 45 years. Get a bottle today. Avoid the risk of serious lung ailments. At druggists.

I am in the market for cottonseed. Will pay market price. See me before you sell. J. P. Clevenger. 1-d1-w3

Mrs. C. C. Watson, who underwent an operation at the Nacogdoches Surgical hospital some eighteen days ago, was able to return to her home yesterday afternoon and is reported to be doing nicely.

Messrs. M. F. Witherspoon and Felix Dixon, well known nurserymen of Tenaha, were in the city today.

John G. Ross, postmaster of Garrison, was in the city last evening, coming down to meet his father, Capt. J. P. Ross, who was here on a business mission. The Ross family belong to the prominent pioneer families of East Texas who have helped blaze the way, and who are still in the service of all that goes to make up good citizenship.

Colds Need Attention.

Internal throat and chest troubles produce inflammation, irritation, swelling or soreness and unless checked at once, are likely to lead to serious trouble. Caught in time Dr. Bell's Pine-Tar-Honey loosens the phlegm and destroys the germs which have settled in the throat or nose. It is soothing and healing. Pine is antiseptic; honey is soothing—both together possess excellent medicinal qualities for fighting cold germs. Insist on Dr. Bell's Pine-Tar-Honey. 25c; druggists.

J. E. Teutsch, who is now holding a position in a store at Chimento, was in the city this morning shaking hands with his many friends. He went up to Garrison where some friends are insisting that he give them some information as to whether or not he will make the race for tax collector in the coming campaign. To The Sentinel representative, Mr. Teutsch says that his present intentions are to make the race, and that his formal announcement will follow soon after the holidays.

War Upon Pain!

Pain is a visitor to every home and usually it comes quite unexpectedly. But you are prepared for every emergency if you keep a small bottle of Sloan's Liniment handy. It is the greatest pain killer ever discovered. Simply laid on the skin—no rubbing required—it drives the pain away. It is really wonderful.

Mervin H. Soister, Berkeley, Cal. writes: "Last Saturday, after tramping around the Panama exposition with wet feet, I came home with my neck so stiff that I couldn't turn. I applied Sloan's Liniment freely and went to bed. To my surprise, next morning the stiffness had almost disappeared, four hours after the second application I was as good as new." March, 1915. At druggists, 25c.

There were several out-of-town visitors to county court yesterday; among them being Hon. Lee G. Carter of Jacksonville, Hon. Martin Feagan of Lufkin, Mack Jones of Huntington, Tony Roberts, Tom Wallace and J. A. Spears of Cushing, and H. V. Sitton of Alto.

Sure Signs of a Torpid Liver.

If you have spells of dizziness, headache, biliousness or constipation, look to your liver for the cause. You can get relief by taking Po-Do-Lax. It acts quickly on the liver, helps it to discharge the poison and tone up the system. Helps the stomach too. Only 50c at druggists.

B. S. Shirley of Cushing was in the city today shaking hands with old friends and looking after some business interests.

\$100—REWARD—\$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address F. J. CHENEY & CO., Toledo, O.
Sold by all Druggists, 75c.
Take Hall's Family Pills for constipation.
