Eight Ships Sunk, One Torpedoed, Six Missing—Causes Concern at Washington

Hold our Ambassador.

Copenhagen, Feb. 6, via London, Feb. 7 (2:35 a. m.)—It is officially stated that James W. Gerard, the American ambassador to Germany, will not be allowed to leave Berlin until the German government is satisfied as to the treatment of Count von Bernstorff, the retired ambassador at Washington, by the British government.

Submarine Activity.

Germany's submarine warfare apparently is growing in intensity. Tuesday's reports show that underwater boats have probably accounted for 15 additional vessels, seven neutrals and eight belligerents—of 46,763 tons. Eight of them as known to have been sunk, one is reported to have been "torpedoed" and the others are "believed" to have been sent to the bottom.

Of the known sunken vessels, six were British, one Spanish and one Swedish; of those supposed to have been sunk, four were Norwegian, one British and one Russian. The vessel reported merely as torpedoed and which is not known positively to have been sunk is a Norwegian ship.

Among the British steamers

LOUISIANA STANDS BY THE PRESIDENT

New Orleans, La., Feb. 5.—Gov. Ruffin G. Pleasant, who went through the Spanish-American war in command of a Louisiana regiment, in a message to the people of Louisiana today, prays for peace, but says "Stand by the president." After summing up the causes leading up to the crisis and declaring

that President Wilson could not have done otherwise than break with Germany, Governor Pleasant said:

"The people of Louisiana are earnestly praying that our country will not be compelled to enter the war, but it is certain that they will support the president in his determination to maintain the rights and dignity of the United States."

February Silk Sale

Begins Monday, February 12th

During this sale we have on display for your selection an assortment of high-grade, stylish Silks at special prices

Silk Poplins, all colors, 40 inches wide, regular \$1.25 and \$1.50, special 75c

Colored Taffetas --- That are going to be exceedingly good this season. We offer our \$1.50 quality in all the wanted solid shades, 36 inches wide, at \$1.35

Regular \$2.00 plain colored Taffeta, 36 inches wide, per yard \$1.79

Black Taffeta Special--- Notwithstanding its scarcity we offer 36 inch, black Taffeta, \$1.50 value, at \$1.25
\$1.59 value at \$1.39

Crepe de Chine -- Excellent quality for street and reception dresses, 40 inches wide, \$1.75 quality, per yard \$1.45

Fancy Silks --- Beautiful stripes and plain Silks we will place on sale during this sale only.

\$1.50 Fancy Silks \$1.29
\$2.00 Fancy Silks \$1.65
\$2.25 Fancy Silks \$1.89
\$2.50 Fancy Silks \$2.19

Aledo Silk -- All colors, special 39c

500 yards plain colored Messaline, worth 89c at 65c
Fancy washable 36 inch Silk, in stripes and plaids regular 75c, per yard 59c

Special Showing of New Silks

Rajah Silks, 36 inches wide, per yard \$1.50
New Jersey Silks, 36 inch, plain and fancy \$2.00, \$2.25
New Washable Silks in pretty designs at \$1.50, \$1.75
Beautiful Foulards, 36 inch, in new patterns, \$1.95, \$2.50

sunk was the Fort Adelaide. Ninety-six persons from her, including members of the crew, have been landed.

Cabinet Discusses Crisis.

Washington, Feb. 6.—Every phase of the situation which at any hour may bring the United States at war with Germany was discussed by President Wilson and his advisors at today's cabinet meeting. The faint hope that Germany might, after all, modify her new submarine campaign so as not to make an active enemy out of America was touched upon, as was the probable position of other neutrals. But most of the cabinet's attention was given to reports by each member of the energetic efforts of his department to prepare for war if it is to come.

In some quarters here the statement given by Foreign Minister Zimmerman in Berlin, expressing friendly feeling toward the United States, was viewed as a favorable sign. Little weight was attached to it by the cabinet, however, for the foreign minister's remark that he hoped the American government would understand Germany's reasons for inaugurating unrestricted warfare on the sea was construed as meaning that no change of course was to be expected.

LAST SURVIVOR OF SAN JACINTO DEAD

The following report of the death of the last survivor of the battle of San Jacinto is taken from yesterday's issue of the Lufkin Daily News:

"Dr. John Pickering, the oldest man in the county, and the last survivor of the battle of San Jacinto, fought during the Mexican war, died Sunday afternoon at 2 o'clock, at the residence of

his son-in-law, Johnnie Williams, near Zavalla, in the eastern portion of this county, and was admired by all who knew him for his honorable, upright living and fidelity to his friends and neighbors, and in earlier times dispensed charity freely wherever it was deserving."

Mr. Julius Eichel, one of Nacogdoches' most progressive dry goods merchants, will leave Saturday or Sunday for New York where he will spend several weeks in the markets buying spring goods for his house.

Mrs. Bertha Gray passed through the city today returning to her home at Chireno from a visit to the markets where she went to purchase spring stock of millinery. She was met here by her husband, Mr. Cecil Gray, and carried home in an automobile.

 W. L. HALTOM, Manager
 M. GIBBS, Editor

Every acre of new land put into cultivation adds materially to the industrial and commercial resources of the county. Let the slogan be: "Clear more land."

With the thermometer down to fifteen this morning, the present freeze has been the hardest of the winter, but with the balmy sunshine following today much of its "sting" has been relieved.

A barn stocked with corn, peanuts, meat, lard, syrup, canned fruits and vegetables would make the owner secure against any "hard times" a war scare could throw into the country. Fill the barn first, folks.

One or two large potato curing plants, a new saw mill of 25000 feet capacity, a large commission warehouse, and possibly a large country produce house are among the probabilities for Nacogdoches this year. Come to Nacogdoches.

The Sentinel fears that one of those mad dogs has already got in his work on the associate editor of the Lufkin News. An article from his pen reproduced in today's paper would indicate that something was radically wrong with the gentleman.

Much is being said now in favor of clearing up and putting into cultivation the "cut-over lands" of South-east Texas. It is a good agitation, and will contribute more than any other one agency to the industrial and commercial supremacy of grand old Texas.

In a short editorial review of America's two foremost statesmen, the Carthage Register makes the observation that "President Wilson favors a league of nations to prevent war by physical force." In the light of recent experience, it seems it will take a "league of nations" to handle the matter.

The Sentinel failed to receive both the Lufkin News and the Timpson Times this morning, and just how we shall get through the day in the absence of these spicy visitors we cannot forecast at the present writing. If they have the "grip," we pray for their speedy deliverance.

S. R. Whitley, the original owner and founder of the paper, has taken over the interest of his brother, George Whitley, in the Jacksonville Progress, and is again sole owner and publisher. Bro. Whitley is a hard worker and a good newspaper man who will do his part in putting East Texas on the map. We wait felicitations.

The Tenaha Messenger comes to us this week with John McLendon's name at the masthead, and this is equivalent to admission that it was read with much interest. Mr. McLendon is one of East Texas' most talented and spicy writers, and The Sentinel sincerely hopes that the good little town of Tenaha will sustain him in the good service he will render.

You will find honesty among thieves, truth among fools, but you never find a spark of manhood, womanhood or principle in a meddler. The thief may chronicle the truth by mistake, the fool may say wise things by accident, but the man who noses around and mixes up in other people's affairs will ever re-

main the same unprincipled de-coction of human nature.—Bogata News.

With the present example of how a little bad war news causes the bottom to fall out of cotton prices, the wise farmer will give first consideration to raising a living at home. If he has the necessities of life stored away in his smokehouse, a war or any other adverse condition would have but little effect upon him, but if he lacks those things conditions could arise whereby he could not provide them at all.

This from the Carthage Register is consoling: "This, February 2nd, is Ground Hog Day. But what difference does that make where there are no ground hogs. In the groundhog country the groundhog sign is of interest, whether or not there is any truth in it, but however bright the sun may shine no groundhog will see his shadow in Texas."

If there is anything in the "Ground Hog" theory, we are up against it for six weeks more bad weather, for if the little scoundrel ventured forth today there was plenty of sunshine with which to make his shadow. Buy some more fuel and prepare for the worst.

The war news breaking in today's papers looks mighty bad to the layman at this distance. With utter disregard of all rules of warfare, converting the high seas into a mass of mines, torpedoes and other implements of warfare for the destruction of everything that passes, all lines of business will be paralyzed, which will work a great hardship on the neutral nations both in export and import business. Added to this is the great probability that the United States will become actually involved in the great struggle. We have an abiding faith in the president and congress to handle the situation as far as it can be handled, but dealing with mad nations is similar to dealing with mad people: diplomacy sometimes loses its virtue, leaving the battle to the strong. In the meantime those of us at this distance can only watch results and "take our medicine" if a "treatment" is to be administered.

One always speaks better from the voice of experience. After reading the following, taken from yesterday's issue of the Lufkin Daily News, we have no doubt that our contemporary has suffered a genuine case of the malady: "Don't become alarmed concerning your physical condition; everything will turn out for the best. Were it not so, the writer would not have lived to tell this tale. Dismiss your family physician, tell the undertaker to go on about his business, get the members of the family around you and have them to understand that you are going to remain with them awhile and pay the bills as they come pouring in. Among these bills there will no doubt be requisition for frills, flounces and furbelows; there will be spring hats charged to your account, hats that you never dreamed of; there will be new house furnishing charged that will be a mystery to you where it can be placed in the building; the plumber will have been called upon during your illness, and you will come to find out that your house was in the most unsanitary condition ever known. Even the lawn will have been mowed by some transient, when you did not know that there was a sprig of green grass in the yard. All of this and more will happen; but after all, you will know that you are getting well of the "grip," and that is enough compensation for any man. Arise from thy bed and walk."

KEEPING A SECRET.

An experienced editor, who knows his business and is made of the right kind of material, never violates any confidence reposed in him. He learns that he must have the confidence of the people of his community if he succeeds in his work, and then, too, he loves his work which in turn causes him to love the people with whom he is thrown in contact, and it is his ambition to be of service rather than receive the empty praises of being "smart." Proof of this may be had in the fact that there are several good enterprises being formed in Nacogdoches right now of which The Sentinel is advised, but the promoters desire to work out their plans before giving the matter publicity, and we have respected their wishes, desiring to co-operate with them instead of doing anything that would hinder, even though the reports may lose much of their news value through the delay.

The whole relation of the true reporter to the public is best expressed in the following comment on the matter which we take from the American Press, a journal published in the interest of newspaper men and advertisers:

"There is no one in the world who can and does keep a secret better than the average newspaper reporter. Good reporters are always taken into the confidence of the leading business men of a town or city. They also have the confidence of many lawyers. They know, frequently, many days in advance, that this or that story is going to break such and such a day.

There is not one reported in a hundred who would betray one of these confidences under any circumstances. He knows if he did, that that particular source of information is forever closed to him. For uprightness, honesty and integrity the newspaper reporter is or should be known.

"To illustrate, let us relate one experience. The prosecuting attorney in a certain county told of an indictment of quite a prominent man on a criminal charge. The lawyer promised to send the case to the grand jury immediately after the noon recess. The reporter wrote his story, told of the indictment and gave many details. After his paper was out he visited the courtroom and gave the judge a copy of the paper containing the report. The judge was amazed and said that the story was false. But the reporter hurriedly asked the prosecuting attorney to send in the indictment. He did so at once, and all was well.

"His paper scored a big beat, but had not this reporter been in the confidence of that lawyer he never would have got it."

The writer has never failed to vote any kind of prohibition ticket that was offered, and will continue to do so in the future. But while the country is so agitated with wars and rumors of wars, demanding the best brains of the country to preserve our resources against the ever changing conditions, we shall not suffer much disappointment if the legislature spares us the campaign now being sought by the more radical. The day is not far distant when the whole world will be "bone dry," and the sooner the better, but it would not be the part of wisdom, as we see it, to attempt to carry the issue when the country is disturbed with other matters.

The information is gleaned from the Lufkin News that Lufkin has a new postmaster in the person of Mr. W. E. Boykin, succeeding Dr. C. Campbell, who has held the position for a number of years.

CATTLE DIPPING BEGINS EARLY

The following communication comes from the Office of Information, Department of Agriculture, at Washington, D. C.:

The dipping of cattle in the tick-infested areas will begin earlier than usual this year, it is announced. There are now 14,247 vats in commission and it will be possible with these to dip over a million cattle each month. It is planned to begin the work as soon as possible after March 1 in order to catch the first generation of ticks hatched in the spring before they have had time to lay eggs. In this way, it is hoped to release much territory early in the fall.

There is indeed reason to believe that 1917 will see more territory freed from the pest than any year since systematic tick eradication was begun. Each county released from quarantine is an object lesson to its neighbors, and in recent years popular interest in the movement has been growing.

One evidence of this is the action of the people in Mississippi in making eradication a state instead of a county matter. Under this law systematic dipping will be conducted this season in each of the thirty counties in the state under Federal quarantine. In this area there are approximately 450,000 cattle and 2,700 vats will be operated. In addition, dipping will be carried on in those counties which have been freed as a whole but in which some herds have not been cleaned and are still under local quarantine.

The work in Mississippi, it is pointed out, will drive a wedge of tick-free area right down to the Gulf. The army of ticks will be cut in half—to be destroyed piecemeal hereafter—and a highroad for cattle from the freed areas will be opened to the markets of the North.

In the other States east of the Mississippi the campaign of eradication is to be pushed vigorously by counties. In South Carolina only ten counties remain infested and in all of these it is planned to commence systematic dipping on March 1. Five hundred vats will be in operation and approximately one hundred thousand cattle will be dipped regularly. About five thousand square miles should be freed at the end of the season.

In Georgia it is planned to add 5,134 square miles to the 16,563 already released. Fifty-six counties are now free, and work will be carried on this season in thirty-three others. It is expected that 147,500 cattle will be dipped in 1,320 vats.

In Alabama systematic work in fifteen counties should set free 300,000 cattle and about 11,000 square miles of territory. Twenty-eight counties already have been released from quarantine, and about 500 pure-bred bulls have been imported into them. The grade of cattle, it is said, is being distinctly improved.

North Carolina still has twenty-five counties under quarantine. Eight of these it is hoped to clean up by active work this season; in the others, vats will be built and preparations made for active work in 1918.

The situation in Florida is somewhat different from that in the other infested States because as yet there is no provision for extending State aid to the counties in their work of eradication. Consequently progress is largely dependent upon the amount of voluntary support received from associations of stockmen, dairymen, bankers, and other business men. An area of 3,800 square miles has, however, already been cleaned, and into this high-class beef and dairy cattle are being imported with satisfactory results. In

You simply can't go wrong on Luzianne. Ask for profit-sharing catalog.

another county systematic work is being carried on which should result in release from quarantine at the end of this year, seven counties have appropriated money for the construction of vats, and similar action is looked for on the part of a number of others.

West of the Mississippi the problems of eradication in Louisiana, Arkansas, Oklahoma, and Texas will be discussed at a conference to be held at the end of January in Dallas, Texas. Louisiana, like Mississippi, has made eradication a State matter. In the other States the work will be carried on by counties.

These facts indicate that throughout the entire South there is a determination to be rid of the tick and that quickly. It is many years since there was any question of the feasibility of total eradication; the chief difficulty has been to convince the people that it was really worth their while to take up the work. Today so much territory has been freed that the benefits are plainly apparent and this difficulty has, therefore, to a great extent been removed. In the last three years more than 110,000 square miles have been released from quarantine, leaving 419,000 in the entire country still infested. Much of this area, however, is in Texas, where the problem is somewhat different than in the States east of the Mississippi. In the latter

section it is reasonable to suppose that in a few years the tick will be a thing of the past.

Here, get this: One lady in Lufkin carried eleven hens to a poultry car standing on the sidetrack in Lufkin this morning, and secured \$9.20 for the lot. Being so highly elated over the price received, she at once hurried home and caught every hen on the place and rushed back to the car with them. Her husband remarked to a News reporter that he never expected to see another piece of friend chicken on his table. Sympathy for him is in order.—Lufkin News.

A smooth speech is sometimes hoped poison. Beware of the stranger with nothing but a smooth speech to commend him.—Nacogdoches Sentinel.

We will have our chemist thoroughly analyze the speech of the next "honeyed poison" exponent who comes around our way. The steno will be pleased to jot down some of smooth speech and we'll run our hand across it.—Port Arthur Record.

Beware that you do not get "analyzed" first while the "steno" elopes with the sweet-tongued visitor.

V. E. McLemore sold another car of hogs this week, which were shipped to the Fort Worth market by Douglas Patton of Nacogdoches.—Hemphill Reporter.

**U. S. AND GERMANY
SEVER RELATIONS**

Wilson Dismisses German Ambassador and Recalls American Ambassador.

Big things happened at Washington Saturday, the report of which was not received in time for Saturday's Sentinel, in which the long looked-for break with Germany became a reality.

Most of the readers of this paper have already heard the news, but to keep the record straight we reproduce the following section of a dispatch from Washington, dated Saturday, which tells, in a brief way, the whole story:

"President Wilson has broken off diplomatic relations with Germany and warned the kaiser that ruthless sacrifice of American lives and rights means war.

Similar action is waiting for Austria when she notifies this government that she joins in the campaign of unrestricted submarine warfare.

"The president made formal announcement of his action to the country and the world today at a joint session of congress.

"Passports have been handed to Count von Bernstorff, Ambassador Gerard with all his staff and all American consuls have been ordered out of Germany. Consuls in the United States are expected to withdraw, that the severance of relations may be complete.

"American diplomatic interests in Berlin have been turned over to Spain; German diplomatic interests in the United States have been taken over by Switzerland. Foreign diplomatic interests which the United States had in charge in Germany have been turned over to various neutrals.

"Two years of diplomatic negotiations marked with frequent crises and attended with the loss of more than 200 American lives on the high seas have culminated with an act which in all the history of all the world has always led to war.

"Every agency of the American government has been set in motion to protect the country against acts of German sympathizers. These motives are of necessity being kept secret.

**NATION SPENDS
DAY IN SUSPENSE**

Washington, Feb. 4.—The United States and a large part of the world today entered a period of suspense, not knowing what the German-American rupture may bring forth.

All agencies of the government turned to the problems of defense against possible hostilities, while officials and leaders of many classes and interests in this country expressed earnest hope that war would not grow out of the break of diplomatic relations yesterday.

In Berlin, American Ambassador Gerard was preparing to hasten home with his staff and all American consuls now stationed in Germany; in Washington, German Ambassador von Bernstorff had his passports. He will leave the country as soon

as arrangements can be made.

Break With Austria Threatened
A similar break with Austria threatens if she announces her concurrence in Germany's plans for unrestricted warfare.

Spain will assume American diplomatic interests in Germany and Switzerland will represent Germany here.

Officials agree that the first overt act of Germany in violation of what the United States maintains are her rights on the seas can hardly fail to lead to war, and the details of the sinking of the American steamer Housatonic, in the new submarine war zone, yesterday were sought anxiously to ascertain whether she had been sunk without warning or American lives had been lost.

Unless either of these conditions is found to exist, however, it is not likely that the case may lead to more serious relations between the two nations.

Word from other neutrals is awaited with keen interest in response to the United States' open invitation for them to join in resisting Germany's aggression if they feel their rights are violated. The Spanish ambassador at Berlin will represent the United States in continuing the demand, presented shortly before the breaking of relations, for the release of 60 Americans taken by the German raider from British vessels in the South Atlantic and now held prisoners in Germany.

To Combat Germany Sympathizers.

To combat German sympathizers in this country, whose depredations are forecast, it is believed, by a number of petty acts reported in the last 24 hours congress has set to work to frame new laws covering such conspiracies, and other government forces are taking secret action to shadow suspected persons.

National Guardsmen may be used extensively to guard manufacturing plants, bridges and public buildings, it is said.

Movements of navy vessels, published daily until yesterday, now are not divulged and orders have been issued by the war and navy departments to bar visitors from all military reservations and navy yards where damage might be done or secret information obtained.

Watching German Ships.

German ships which took refuge in American ports at the outbreak of the war are being watched with special zest since receipt of reports that the crews of several have attempted to damage and make them useless.

The question of arming American merchant ships or of conveying them through the submarine blockade zone is before government officials and a decision may be expected before long.

Issuance of passports for travel to Germany has been suspended by the state department.

There was considerable talk in Washington today of the possibility of abandoning plans for elaborate inaugural ceremonies for the president and vice president and it was thought the functions may be limited to the simple administering of the oaths one month from today.

**RESIDENCE DESTROYED
BY FIRE YESTERDAY**

The residence occupied by Marshall Hutson, on the Billy King place, several miles from town, was destroyed by fire yesterday afternoon. Mr. Hutson had the misfortune to lose all his household effects in the fire, and his neighbors and friends are contributing to help him replenish.

**PRESIDENT HAS PLAN
TO END THE WAR**

Invites All Neutral Nations to Join With Him in Great Move, Which Looks Good

Washington, Feb. — Beside breaking off diplomatic relations with Germany, President Wilson has made a bold strike to range the moral force of all other neutral countries along with that of the United States in the interest of peace.

The president has suggested to all the other neutrals that they break off diplomatic relations with Germany, as the United States has done, and has instructed all American diplomats in those countries to report immediately how the suggestion is received.

Opinion in diplomatic quarters here is that European neutrals, at the very doorstep of Germany, threatened by her military, will hesitate to take such a step. The effect of the suggestion in other countries is being awaited. This was the only known development of first importance which came out of a day of tense waiting which followed the actual announcement yesterday of the break with Germany.

Still hopeful that Germany will not ruthlessly sacrifice American lives or rights, the administration is awaiting developments, but leaving undone nothing to prepare the country for the eventuality of war.

The situation as to Austria is tonight unchanged. There is no doubt, however, that diplomatic relations will be broken with Austria when she announces her intention to adhere to Germany's course.

The president's invitation to neutrals to follow his action was contained in instructions to American diplomats to announce the break with Germany to governments to which they are accredited.

**SHIPS WILL SAIL
AT THEIR OWN RISK**

New York, Feb. 1.—After being sealed all night by a cordon of destroyers and coast guard patrol boats, the port of New York was today opened by the customs authorities to all incoming and outgoing shipping. The stand taken by the collector of the port was that ships could sail at their own risk. They were permitted to clear as usual.

In the offices of British and French liners here today it was said that there would be no interruption in the sailing from American ports of ships carrying the flags of the entente allies. To meet just such an emergency as this the British government has assembled, it was said, a large fleet of small, fast cruisers to be used as submarine chasers. These vessels, aid to number 4000 will be available to keep the sea lanes clear of raiders and submarines and act as convoys.

Shipping men pointed out that the most obvious effect of the German declaration would be the reduction in the tonnage which the freight ships of the European neutral lines could carry on account of the increased space which would have to be sacrificed to carry coal and provisions for one continuous voyage from American ports to neutral ports. Hitherto neutral ships have relied largely upon British ports to renew their supplies.

No shipping of any kind was permitted to leave the port of New York last night. The harbor was closed by Dudley Field Malone collector of the port, who has full authority to act upon his own initiative in case of emergency.

A QUIET MARRIAGE.

Joe Gibbs and Miss Elaine Hattom stole a march on their friends Saturday evening by repairing to the manse of the minister of the First Presbyterian church and getting married, Bro Cunningham officiating.

The young man is the eldest son of the editor of The Sentinel, and is the linotype operator of the paper, while his fair bride is the only daughter of the business manager of the same publication. With this combination of circumstances, the editor is up against it to suitably report the event. For one time in his life it would seem that he might tell the unvarnished truth in a writeup of this kind, but the young man is back on the job and would break the machine before he would let anything get by that did not suit him in this particular article. Then too, there are two new mothers-in-law in town who have never entirely surrendered the reins in the domestic affairs of their homes that we must take into consideration before they call us to account.

So much in levity. With pardonable pride we can commend the happy couple to the standard of the worthy we have been reporting in our long newspaper service. Joe has the advantage of a good education, he has mastered his trade as a linotype operator and printer, is sober, industrious and ambitious and we have an abiding faith in him doing all in his power to suitably care for the girl who will share his joys and his sorrows through life. Elaine has had all the advantages of education and good society, is of affectionate and loving disposition, and possesses all the sweet traits of character that go to make up the most lovable type of young womanhood.

The writer feels that she will make a gracious queen for the home of his cherished son, and with this modest intrusion into the public print, reserved for the public and seldom used in personal reference, acknowledges the cordial welcome of the new relationship.

**IMMIGRATION BILL
REPASSED BY HOUSE**

Washington, Feb. 1.—President Wilson's veto of the immigration bill because of its illiteracy test feature, was overridden in the house tonight by a vote of 286 to 106. Party lines were ignored in the fight. Republicans and Democrats being almost equally divided on either side.

Tomorrow the action of the house will be reported to the senate, where the bill passed originally by 64 to 7. An effort to override the veto will be made there without delay and advocates of the measure say it is certain to be successful.

For twenty years there has been a fight to establish a literacy test as a restriction upon immigration. Four times such a provision has run the gauntlet of congress and been vetoed at the White House.

President Cleveland first disapproved a bill of this character and congress sustained his objection. President Taft was the next to reject it. On that occasion the senate voted to over-

WITHIN THE REACH of every woman—health and strength. They're brought to you by Dr. Pierce's Favorite Prescription. Take this medicine, and there's a safe and certain cure for all the chronic weaknesses, derangements, and diseases peculiar to the sex. It will build up, strengthen, and invigorate every "run-down" or delicate woman. It regulates and assists all the natural functions. At some period in her life, a woman requires a special tonic and nourishment. If you're a tired or afflicted woman, turn to "Favorite Prescription," you will find it never fails to benefit.

Sold in tablet or liquid form.

Wm. Lewis E. Young, of 222 Clinton Avenue, Fort Worth, Texas, says: "I was in such bad health and so dependent on times that I couldn't do my work. Tried everything I could hear of. Doctors treated me but I only got relief for a short time until I tried Dr. Pierce's wonderful medicine. It has done more for my health than any other. 'Favorite Prescription' and Golden Medical Discovery. I weighed 117 at that time now I am well and hearty and weigh 142 pounds."

NACOGDOCHES GROCERY CO

NACOGDOCHES GROCERY CO

ride the veto but the house failed to give the two-thirds majority by nine votes. In 1915 President Wilson refused to permit a bill to become law with the literacy test incorporated. The house lacked only four votes to override his action then and the senate did not consider the veto message.

Tonight the house had twenty-five votes more than the necessary two-thirds majority. Republican Leader Mann and Democratic Leader Kitchin voted together against the president.

**SOUTH AMERICA
BACKS WILSON**

Buenos Aires, Feb. 4.—Tremendous excitement followed news of a German-American break here yesterday.

Bombs, which newspaper offices exploded from their roofs to call attention to the news posted on their bulletin boards, called a big crowd together. This great gathering made practically no distinction between the diplomatic break announced by Washington and a declaration of war. Being enthusiastically pro-ally and pro-American, they cheered the announcement enthusiastically.

Buenos Aires newspapers do not issue "extras." They blow whistles or fire off bombs on the roofs of their buildings to call the public's attention to big news posted on the bulletin boards. There was a perfect fusillade of bombs and noises calling attention to various news bulletins.

All for America.

It was evident the people of Argentine felt the most intense interest in the decision reached by President Wilson. The same crowds and cheers about newspaper offices—varying according to local sympathies—were reported from Rio De Janeiro, Santiago, Chili, Valparaiso, and other South American cities. Nowhere, it was significantly noted, was there apparent any sign of hostility against America for her course, even in cities where there is an unusually large German population.

A dispatch from Rio De Janeiro received last night quoted Deputy Souza Silva as declaring the situation may force Brazil to modify her neutrality and support the United States in anything President Wilson may determine upon. The Brazilian foreign minister Souza Dantas, refused to comment.

The newspaper Gazette of Rio came out editorially yesterday demanding that Brazil seize German property there in sufficient amount to compensate the

nation for whatever damage she suffered from Germany and Germany's new sea war.

**SPAIN JOINS IN PROTEST
AGAINST GERMAN POLICY**

Madrid, Feb. 4, via London—The Imparcial says it understands that reply by the Spanish government to the German note regarding unrestricted submarine warfare will be made public tomorrow and that it would be in the form of a strong protest.

The contention of Spain is understood by this newspaper to be that the torpedoing of neutral steamers in the manner threatened is not authorized by international law.

**FORTIFICATIONS BILL
PASSED BY SENATE**

Washington, Feb. 1.—The annual bill carrying \$51,000,000, passed by the house Monday, passed the senate today unamended. The usual objections to the large coast defense items were lacking in the brief debate, the only senators who suggested changes expressing concern as to whether the amount would be sufficient in view of the situation with Germany.

The agricultural bill, the sixth of the big annual supply measures to come over from the house, was favorably reported from committee today and will be debated tomorrow.

DUMAS SIMPSON MARRIED.

The family of Mr. V. E. Simpson received a telegram Saturday announcing that Mr. A. D. Simpson was married to Miss Gussie McAnear at Paris, Texas, and the happy couple was leaving for New Orleans where they will spend the honeymoon.

Mr. Simpson is a brother of Mr. V. E. Simpson and was reared in this city. He was connected with the light plant here under the former management, going from here to Clarksville where he is engaged in similar business. He is an ambitious young man of sterling worth and has a great host of friends in this vicinity who will wait good wishes. His bride is a charming young lady, belonging to one of the good families of Clarksville.

**HEAD AND NOSTRILS
STUFFED FROM COLD**

Don't say stuffiness! Get blowing and snuffing! A dose of "Pope's Cold Compound" takes every two hours until three doses are taken will end grippe misery and break up a severe cold either in the head, chest, body or limbs.

It promptly opens clogged-up nostrils and air passages; stops nasty discharge or sore running; relieves sick headache, dizziness, fever, nausea, sore throat, sneezing, soreness and stiffness.

"Pope's Cold Compound" is the quickest, surest relief known. Just one only 25 cents at drug stores.

**Foley's
Honey
and Tar
for This!**

Stops La Grippe Coughs!

The quickest and simplest way to stop an ugly, hard, la grippe cough is to take **Foley's Honey and Tar** is it, you get the curative influence of the pine balsam (so beneficial for inflamed bronchial tubes and sore chest) and other healing ingredients, together with the mollifying laxative action of honey.

It covers and soothes the inflamed surfaces of the throat, puts an end to the hard, racking cough, stops tickling and hoarseness.

Sold by J. B. Farrow, Jr., Two bottles of **Foley's Honey and Tar** send one of a severe cough following an attack of la grippe.

M. GIBBS, Editor

OUR WAR CLOUDS.

The average country newspaper man, to which class this writer belongs, is incapable of a deep discussion of the war clouds that now hover over the United States. Many will attempt it but, like the "tenderfoot" at a society luncheon, we prefer to watch the other fellow partake before making a break.

The dispatches announce that President Wilson has severed diplomatic relations with Germany, and advise that he will go before congress for authority to declare war if adversary carries out her threat of destroying ocean-going vessels indiscriminately, and makes further intrusion upon American rights. Today's reports are to the effect that the president is asking all neutral nations to join him in bringing the war to an end, which, it is reasoned, can be done with this co-operation. If the latter results, it would seem to the layman at this distance to be the biggest piece of statesmanship in the history of the world, and all American people will join in the sincere wish that our chief executive may succeed. The indications are also favorable for this great move, South American republics and other neutral nations having already given endorsement to the president's withdrawal of diplomatic relations. If, however, this plan fails, the subject grows too deep for our forecast. The only thing of which we can be certain is that the people of the country will have to foot the bill in the end; that there will be a temporary disturbance of business, and that the whole country will be in a state of unrest until the matter is settled.

Some wise head pulls this one. Hoy do you like it? "It is all a mistake about women not being able to take a joke. Just look at the things some of them marry!"—Lufkin News.

The children of both first and second childhood, and the youth between the two extremities in the span of time, are having a great time with Charlie Chaplin at the Crown Theatre today.

The fruit men of East Texas who engage in the industry on a commercial scale are delighted with the late cold weather we are having, and are now optimistic with the outlook for a big crop.

The dispatches from different places announce that foreigners who have not previously identified themselves with the American government are now rushing for naturalization papers, by which they will become legal citizens. This condition is both encouraging and complimentary to our government.

Bro. Lively of the Lufkin News avers that he is not yet a victim of the rabies, but says: "Anything else you might have mentioned would have been readily acknowledged to." The statement is respectfully referred to the county judge of Angelina county with the admonition that he do his duty.

The old settlers of this community, first in settlement, first in history and doubtless the first home of the little animal, agree in the statement and aver that today, Feb. 7th, is Ground Hog Day. Our good friend, Mr. F. M. Hall, says that the "signs" of this day have never failed in the last half century, and there are many other old settlers who agree with him. This, together with the fact that today has

been cloudy throughout with no "shadow," is sufficient, and we join the hosts in the proclamation. If Lufkin, and other interior points want some other day, they can have it, but Feb. 7th is the official day in Nacogdoches, and it is so recorded.

The Shreveport Times makes the discovery and comment: "Hobos are to aid the United States health service in fighting germs. Thus do our cherished fables perish."—Nacogdoches Sentinel.

Hobos have been unconsciously aiding the health service to destroy germs before the Times came into existence, without harboring any false sentiments of patriotism. A lard can and "boil up" on the bank of a creek explains the scientific mystery.—Athens Review.

There are no new developments in the war situation breaking with the news being received today. The administration at Washington is going ahead with preparations for eventualities, while Germany is equally obstinate, announcing with regrets that she must go ahead with her original intentions. In the meantime, the populace is pursuing the policy of "watchful waiting" but ready with unstinted co-operation for any service that they can render in upholding the honor and integrity of the glorious nation.

Texas farmers will do well not to sell a single turkey egg. For turkeys are scarce articles in this state and there are going to be all too few when the holidays come around again. And then, too, the Texas farmer who knows his business will want a turkey for every acre of his cotton field. The department of agriculture says we are going to have more boll weevils this year than before in a long time—and the turkey esteems the weevil highly as an article of food. The fact is the high cost of living bothers no Tom Turkey who is allowed to roam at will over a cotton patch, and he gives a guarantee written in pounds of live weight that he will not let the weevils greatly injure any cotton with whose care he is entrusted.—Houston Post.

"Truth crushed to earth will rise again." It now develops that the train wreck occurring near this city a few mornings ago, the blame for which was charged against a poor, defenseless dog with a log chain about his neck, was caused by the "jitzney" snuff car of our fellow-townsmen, Mr. A. D. Parnell, the particulars of which, as near as we can get them, being about as follows: Mr. Parnell, who is a snuff jobber by occupation, calling on the various merchants of the country and booking their orders, travels in a single-seated Ford car, and carries with him a quantity of sample boxes. On this particular occasion the gentleman raced with the train for the crossing, and in going over the railroad tracks at such a lively clip the case of sample snuff was thrown directly in front of the train with a great jolt, which caused the lids of the little boxes to come off and the contents immediately fill the air. The fireman and engineer arrived at the psychological moment to get their eyes, noses and ears filled with the flying tobacco dust which so crazed them that the engineer threw on his breaks and reverse with such a sudden jerk that it jarred three cars off the track. By the time the engineer sufficiently recovered his vision to look for the cause of the trouble Mr. Parnell was so far in the distance that his jitzney looked as small as a "log chain," and hence the first report that it was caused by a dog with a log chain.

CANNING CLUB WORK IN DIFFERENT COUNTIES

A statement of interest in Nacogdoches county, because of Nacogdoches' interest in the county canning club and tomato club, comes from the College of Industrial Arts at Denton, and follows:

"With the average attendance from Texas counties at the college of Industrial Arts—where there are 1,050 students and 195 Texas counties represented—at five students per county, it is interesting to note that the twenty-six canning club counties represented preserve an average of eight students apiece. This does not include the biggest canning club county—Denton—which alone has some 250 students. Denton is omitted because of the fact that the C. I. A. is located in the city of Denton, and probably 150 of the girls board at home and are at no extra expense in attending the C. I. A.

"The exceptional average attendance from the Canning Club counties—meaning counties where there is a county agent for the girls' clubs—many of which are in distant parts of the state, seems to indicate that the club work directed by the girls' county agents has a well defined tendency to awaken ambition among the ranks of club members as well as other girls in the counties.

"The young women from these counties take the usual courses at C. I. A.—Household Arts, Literary, Fine Arts, etc. A great many of them, however, are taking special courses in rural arts and other studies allied with farm life, and expect to enter the county agent or some such work later."

Nacogdoches falls below the canning club average, with but six girls in C. I. A.

A barn stocked with corn, peanuts, meat, lard, syrup, canned fruits and vegetables would make the owner secure against any "hard times" a war scare could throw into the country. Fill the barns first folks.—Nacogdoches Sentinel.

It is imperative that the pockets be filled before the barn is filled. After the barn is filled, then the stummick.—Port Arthur Record.

Your reasoning is from the town man's standpoint, brother, and it is apparent that you know but little about the domestic economy of farm life. The farmer is, or should be, a producer of those things that fill the barn. If he fills his barn with the products of his farm, his "stummick" will be taken care of, alright, as will the pocket book. Come to Nacogdoches.

The route to success and fame has always been through the professions of law, medicine, theology and the like, and ambitious young men have invariably traveled that route. Colleges and universities have been equipped especially to train young men for those positions. We now have what is termed industrial education, a system of learning that is ordained to fit young men for civil, mechanical, electrical and architectural engineering, agriculture, and other industrial pursuits. Only a small per cent of the young men of the largest ability have been persuaded to take up those subjects, though the demand for men in every part of the world trained in technical pursuits is so large that their salaries are out of proportion to the scant living of the men engaged in the old professions. Thoroughly equipped young men to teach agriculture in our agricultural colleges are not available, and thousands of places created by Congress in agricultural work are filled by men in many instances who have had very little

training for the work. Just why the bright boys of the country fail to see the opportunity and avail themselves of it is rather hard to comprehend. It is doubtless due to the fact that these opportunities have come so suddenly that public sentiments has not been able to grasp them—Col. Milner in Rusk County News.

CAUGHT AGAIN

The Sentinel editor is about ready to resign his job this morning, and go on the warpath, seeking whom he would devour. We have long understood the rule that all classes of public service was subject to criticism, and for any criticism we receive in this line we submit with all meekness, but some of our neighbors persist in carrying matters too far and encroach upon our "personal liberty." If we have a chill, la grippe or other humiliating ailment, or get blowed up with gasoline, there is some tale-bearer in the community who carries the news across the creek to a certain tantalizing contemporary who breaks into print with it, and we can have no peace of mind. When everything would otherwise be running smoothly we are threatened with this hated individual—and if anything happens, by jings, we are exposed. It is an awful condition, intolerable for a man who has all the burdens he can bear, and we do not feel that we can longer stand for the conspiracies and intrigues of the jealous heartless bunch who persist in such devilment.

A few days ago when the municipal authorities of Lufkin decreed that all dogs should be promptly executed, Doc Lively of the News sent his canine to the editor of the Sentinel with the request that we care for it until the lid was raised. In perfect generosity and innocence we have endeavored to take care of it, and now you can imagine our chagrin, when we read the following report in the Lufkin News, which is the limit of human endurance:

"Yesterday as the E. & W. 'Red Ball' freight train, running between Houston and Shreveport, passed through the town of Nacogdoches it was derailed, due to a dog crossing the tracks, several cars leaving the rails, but fortunately there was no damage done to the track, the equipment, or the dog.

"While we are muzzling and shooting our dogs, Nacogdoches is trying the block and chain remedy for keeping their canines under control, and this particular dog which caused the wreck, while being "in the clear" himself, failed to get all of his six-foot log chain across the track in time to prevent the accident.

"His dogship, realizing what he had done and not being on very friendly terms with the railway company either, merely tucked his tail and 'lit out' for home. He is now gnawing on a bone, and the trains are running just the same; but every engineer on the line is now keeping an eagle eye out for all such animals with chains around their necks, and hereafter will back up instead of going forward when one is seen anywhere near the right-of-way. Come to Lufkin."

"Later—(Special wireless to The News.)—Latest rumors as to the offending dog's identity intimate that the canine was the property of Editor Gibbs of the Nacogdoches Sentinel, but these rumors will not be given credence until further reports reach Lufkin."

Mrs. E. S. Doughtie and little daughter, Annie Elizabeth, came up from Lufkin yesterday, and are again guests at the home of Capt. and Mrs. Jno. S. Doughtie.

NACOGDOCHES TRADITIONS

The battle of Nacogdoches, which occurred on the 2nd day of August, 1832, was an event that caused a great change in the affairs of Texas, and was quite sensational.

Mexico had separated from the Spanish kingdom and, in 1824, had adopted a constitution as a republic. Santa Anna was the champion of freedom, and was elected president.

But there was strong public sentiment in opposition to this change, especially by officials who held under Spain, and desired to retain their jobs.

Coahuila and Texas composed one state, and Saltillo was the capitol, under the new government.

Nacogdoches was an official post, with an alcalde or local military ruler, named Encarnacion Chiripo, and a commander, Col. Jose de los Piedras. These and other officials, namely, Juan Mora, Antonio Menchaca, Charles S. Taylor and Augustus Hotchkiss, composed a kind of local court, called Ayuutamiento.

Piedras became so tyrannical and objectionable that the east Texans entered into a plan to displace him. They organized and elected Col. James W. Bullock as commander. James Bowie joined them just after the battle. On the day before the battle the Texans marching in from the east camped on the Egg Nog branch, about a mile from town, and sent a committee of three to ask Piedras to join their side, surrender or fight. These were Isaac W. Burton, Philip Sublett and Henry Augustine. Piedras politely but firmly refused to give up. This forced the fight and was followed by maneuvers and hostilities next day.

The Spanish or Mexicans occupied the town, with the old stone fort and other defences. The Texans used strategy and came down the Orton hill on the north extreme, entering the town in the vicinity of the mounds where our college now stands. There were about 300 men. They did not rush hastily or rashly, but used caution and discretion. There was a band of about 60 Cherokee Indians, lead by the famous chief Bowles, a white man, who were on the side of Piedras. The Texans won them over by persuasion, and they retired.

Then began a kind of skirmishing between sides. The Texans were mounted and got to about where our present catholic church now stands, when a squad of Piedras men on horses charged upon them, attempting to make them stampede. The Alcalde, Chirino, was shot dead on the spot, supposed by some enemy on his own side. Then they retreated, and were followed by Col. Bullock's men, who advanced to the stone fort, owned then by John S. Roberts and operated as a hotel. No opposition was made there.

Piedras lived in a house on the space in the rear of our present Masonic lodge, and his forces assembled there, and watched for chances to shoot. The fighting began in this way, about 2 p. m., and gradually increased, ending at night, both sides being in town and at close range.

When morning came the Texans were surprised to find Piedras and his forces gone. A rushing pursuit was made to the Angelina river. The Texans got there first and crossed over and when the Piedras men came up and were watering their horses the ambushing Texans opened fire. This created a sudden panic and surrender. This was at the point known now as Spanish Bluff.

Col. Piedras was taken as a prisoner to San Felipe and paroled and sent to Tampico by Col. John Austin. His follow-

ers were discharged under promise of good behavior.

Col. Bullock's official report gave the casualties as three Texans killed and five wounded, and 47 Mexicans killed, and as many more wounded. The number of prisoners is not given.

The localities in East Texas that participated, were Ayis, or San Augustine, Tenaha, Neches and Bevilis, being leading settlements.

J. E. M.

INDUSTRIAL CO-OPERATION

In Europe, industrial co-operation among rural people is highly successful. In America, it thus far proven well-nigh impracticable. The co-operative creameries, cheese factories, packeries, and marketing associations of Denmark are scarcely to be found in America.

What is the difference? In its ultimate stimulation and training given to the social instincts in the countries. In Europe, the peasant people spend much of their time together. In fact, they live together in small villages. They meet, talk, and advise with each other during their leisure hours every day. Their ideas are collective rather than individual. They think in terms as big as the whole community. The whole environment has a socializing tendency. But in America the case is quite the reverse. The American farm is an independent and self-sufficient unit. It tends to isolation and individualism. It fosters a feeling that is just the opposite of the true spirit of co-operation.

This always has been and will continue to be for some time to come the greatest barrier to successful co-operation among the rural folks of this country. Co-operate comes from "co" and "operate." "Co" means to come together, and "operate" to work. Before we can ever hope for anything like successful co-operation, our country people must "co" or assemble together oftener than has been true heretofore. With better means of social intercourse, and a more intimate acquaintance with each other and the affairs of common concern in the neighborhood, the real, unalloyed, co-operative idea will naturally and inevitably take hold of the minds of our people. Until this has been done, we may hope for nothing better than the half-hearted lack of confidence in the other fellow, failure-at-the-end, sort of team work that has characterized most of the co-operative industrial undertakings in the United States for the past fifty years.

The American farmers are still great strangers to each other. One American community desirous of forming a social center organization adopted this very appropriate slogan, "Come out and get acquainted with your neighbor. You may like him." Many rural communities in Texas might adopt this invitation with equal property. If the rural schools of America would supply this missing social link in American society, it would subjugate selfishness and build up true community feeling. Out of this oneness of feeling, industrial educational, and civic co-operation would follow as a logical consequence.—Division of School Interests, University of Texas.

SUBMISSION TO GET THIRD TRIAL

Austin, Texas, Feb. 6.—It was announced today that submission would be called up again on Friday morning in the house for vote on final passage. A "bone dry" resolution is being supported by many former strong submissionists, and a new "bone dry" resolution is expected during the week. Many former supporters of the committee resolution are now opposed.

The house concurred in the senate resolution endorsing President Wilson.

BURNED TO DEATH AT TIMPSON MONDAY

London, Feb. 5.—The British steamer Isle of Arran, of 1,978 tons, has been sunk by a submarine, two of her crew being injured by shell fire, Lloyds Shipping Agency announced today.

The British steamer Eaves, of 1,791 tons, also has been sunk and the captain and three of the crew killed, says an announcement.

Officially announced that Wallace, an American belonging to Baltimore, was in the shelling of the ship which left the sinking steamer.

Official statement says survivors of the Eaves were landed today, recaptured their ship was sunk by a German submarine, the crew abandoned the vessel, and that they then shelled the boats they took refuge, killing the captain and three seamen, and severely wounding the second mate.

THAT BAD BACK.

Do you have a dull, steady ache in the small of the back—sharp, stabbing twinges when stooping or lifting—distressing kidney and bladder disorders? For bad back and weakened kidneys Nacogdoches residents recommend Doan's Kidney Pills. Read this Nacogdoches woman's statement.

Mrs. J. J. Coker, S. North st., Nacogdoches, says: "I felt miserable all the time, had no life and lacked energy. Back was weak and seldom let up paining. Dizzy spells and headaches constantly annoyed me and kept me feeling all out of sorts. Doan's Kidney Pills eased the pain across my back and strengthened my kidneys. My health also improved."

50c. at all dealers. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

ARMY OF 506,000 MEN TO BE PROVIDED FOR

Philadelphia, Feb. 5.—The Schuykill arsenal has been authorized to purchase materials for an army of 506,000 men, according to Colonel George H. Penrose, commanding officer at the arsenal. In the past, he said, the arsenal had been called upon to supply but 200,000.

Colonel Penrose said that more than 50 factory owners in the New England States and as far west as Oregon, had volunteered to turn their plants over to him for the use of the United States government in case of necessity. At the present time, he added, there is not enough stock on hand in arsenals to meet an emergency.

Sever Cold Quickly Cured.

"On December first I had a very severe cold or attack of the grip as it may be, and was nearly down sick in bed," writes O. J. Metcalf, Weatherly, Mo., "I bought two bottle of Chamberlain's Cough Remedy and it was only a few days until I was completely restored to health. I firmly believe that Chamberlain's Cough Remedy is one of the very best medicines and will know what to do when I have another cold." Obtainable everywhere. dw

OFFERS CONGRATULATIONS.

Mr. Joe Gibbs and Miss Elaine Haltom of Nacogdoches were married Saturday evening in that city. The young man is the son of one of the proprietors of the Nacogdoches Sentinel and the young lady is the daughter of the other proprietor of the same paper. The News extends congratulations.—Lufkin News.

18 MILLION MALES OF MILITARY AGE

New York, Feb. 5.—In a serious emergency nearly 18,000,000 men are available for military service in the United States, according to an estimate made by the executive committee of Mayor Mitchell's committee on national defense. There are now physically fit for service in the field, it was said, 10,539,940 men between the ages of 18 and 45 years.

Upon the basis of actual experience of other countries, where universal military service prevails, the committee has calculated that out of 900,000 men, annually reaching military age in the United States, 690,000 are fit for military service according to the French standard of 1910, and 459,000 according to the German standard of that year.

Mr. and Mrs. Larson had just moved here from Center, Texas, about two weeks ago and are just getting nicely settled in their new home. They appreciate to the fullest extent the kindness, tenderness and sympathy tendered them in their trial and sorrow by the good people of Timpson who came to their assistance.

Lingering Coughs are Dangerous

Get rid of that tickling cough that keeps you awake at night and drains your vitality and energy. Dr. King's New Discovery is a pleasant balsam remedy, antiseptic, laxative and promptly effective. I soothes the irritated membrane and kills the cold germs; your cough is soon relieved. Delay is dangerous—get Dr. King's New Discovery at once. For nearly fifty years it has been the favorite remedy for grippe, croup, coughs and colds. Get a bottle today at your Druggist, 50c. dw

RAILROADS MAKE FIGHT.

Austin, Texas, Feb. 5.—All afternoon and until a late hour tonight the senate setting in a body with its committee on civil jurisprudence heard argument for and against the passage of the Hudspeh-Bailey-Lattimore bill which has for its purpose the outlawing of railroad corporations that violate orders of the Texas railroad commission in matters relating to interstate traffic. Judge E. B. Perkins, attorney for the Cotton Belt and Judge H. M. Garwood, attorney for the Southern Pacific, spoke against the bill. It was defended by Railroad Commissioner E. B. Mayfield, Attorney General Luther Nichols. A report recommending the passage of the bill was adopted by the committee. Hall of Wharton gave notice that he would file an unfavorable minority report.

Something Good

Those who hate nasty medicine should try Chamberlain's Tablets for constipation. They are pleasant to take and their effect is so agreeable and so natural that you will not realize that it has been produced by a medicine. Obtainable everywhere. dw

FIGHT FOR WOMAN SUFFRAGE TODAY

Austin, Texas, Feb. 5.—Woman suffrage will be fought out in the house of representatives Tuesday. The house joint resolution proposing a woman suffrage amendment be submitted to the people will be defeated. It must receive 95 votes, whereas the suffragists will be lucky if a bare majority of the house favor their cause.

Last week the antisuffragists claimed 74 votes, but it is being talked around that several of the votes have been switched. Just how many it is hard to say. But at least three of them must be switched in order to give a majority to the woman suffrage amendment resolution which has been so carefully written by Representative Baker of Hood county and others. dw

NACOGDOCHES MERCHANT RETURNS FROM MARKET

The Sentinel reporter had the pleasure of an interview with Mr. Henry P. Schmidt, manager of the big store of Mayer & Schmidt, yesterday afternoon, in which we gathered some information that will be of interest to the patrons of that store and friends of the gentleman.

Mr. Schmidt has just returned from a four weeks sojourn in the markets of New York, where he informs us, that he purchased a most representative stock of new goods for the East Texas trade. On this trip Mr. Schmidt gave special attention to novelties in ladies ready-to-wear garments such as coat-suits made of kahki kool and Youson silks, dresses of Georgette crepe, dainty organdy, Madaria voile, and Georgette crepe blouses. He also made extensive purchases of Jersey silks and solid colors. Handsome silks of all descriptions will soon be on display at the dry goods counters. Buella embroidery packages containing underwear sets, as well as children's and infants dresses. Finished models of these pieces will also be on display.

Sick Liver Causes Dizziness

Headache, biliousness, chronic constipation and muddy complexion are signs that your overworked liver needs Po-Do-Lax to take up a part of the burden. Po-Do-Lax is Nature's remedy, a liquid laxative derived from the May-apple, a gentle liver stimulant that increases the flow of bile and by its mildly laxative quality carries off the impurities that have clogged the intestines and aids Nature to clear the blood. Get a bottle today. At all Druggists, 50c.

BUILDING COLLAPSES AT CARTHAGE, TEXAS

Carthage, Texas, Feb. 4.—Maxey Thomas was severely bruised but not seriously injured when the second floor of the Odd Fellows building here fell in Friday afternoon, and Paul Redditt saved himself from injury by catching some protruding timbers and climbing out through a window and to the ground. Thomas was covered by falling brick and timber. He was unconscious when taken out, but the doctors said he had no broken bones.

The Odd Fellows building is one of the four which have been under construction here for the past two months, to replace the buildings destroyed by fire four or five months ago. Damage caused by the collapse represents a loss of about \$250 or \$300.

The Best Recommendation.

The strongest recommendation any article may receive is a favorable word from the user. It is the recommendations of those who have used it that makes Chamberlain's Cough Remedy so popular. Mrs. Amanda Gierhart, Waynesfield, Ohio, writes, "Chamberlain's Cough Remedy has been used in my family off and on for twenty years and it has never failed to cure a cough or cold." Obtainable everywhere. dw

COUNTY SCHOOL BILL IS KILLED

Austin, Texas, Feb. 5.—The house late this afternoon killed the house bill providing for the election of county superintendents of public instruction by the boards of county school trustees, striking out the enacting clause by a vote of 61 to 60.

Stiff, Sore Muscles Relieved.

Cramped muscles or soreness following a cold or case of grippe are eased and relieved by an application of Sloan's Liniment. Name _____
Address _____

The Sentinel reporter had the pleasure of an interview with Mr. Henry P. Schmidt, manager of the big store of Mayer & Schmidt, yesterday afternoon, in which we gathered some information that will be of interest to the patrons of that store and friends of the gentleman.

Mr. Schmidt has just returned from a four weeks sojourn in the markets of New York, where he informs us, that he purchased a most representative stock of new goods for the East Texas trade. On this trip Mr. Schmidt gave special attention to novelties in ladies ready-to-wear garments such as coat-suits made of kahki kool and Youson silks, dresses of Georgette crepe, dainty organdy, Madaria voile, and Georgette crepe blouses. He also made extensive purchases of Jersey silks and solid colors. Handsome silks of all descriptions will soon be on display at the dry goods counters. Buella embroidery packages containing underwear sets, as well as children's and infants dresses. Finished models of these pieces will also be on display.

Mr. Schmidt has had the foresight of making purchases early, by which he says he is getting the best novelties for his trade in town and out-of-town customers.

Miss Ann Jones, head milliner of the establishment is still in New York making selections for her department of chic chapeaux (Easter bonnets.) Mr. Schmidt says the sport hat will be much in demand, and the big store will have a great variety on display by the end of this week.

Mr. Schmidt returns with much optimism over the outlook for this year's business, feeling that it will be the greatest year in the history of his house and the country. He finds the idea prevailing in the commercial centers, with which he heartily concurs that the break in diplomatic relations with Germany will cause only temporary lull in business if, indeed, there is any interruption at all, and that we will go forward with a better year than we enjoyed last.

Neglected Colds Grow Worse.

A cough that racks and irritates the throat may lead to a serious chronic cough, if neglected. The healing pine balsams in Dr. Bell's Pine Tar Honey—Nature's own remedy—will soothe and relieve the irritation, breathing will be easier, and the antiseptic properties will kill the germ which retarded healing. Have it handy for croup, sore throat and chronic bronchial affections. Get a bottle today. Pleasant to take. At all Druggists, 25c. dw

TROOP MOVEMENT ORDERED HALTED

San Antonio, Texas, Feb. 5.—Orders for the homeward movement of the Second Wisconsin Infantry at San Antonio and the Fifth Maryland Infantry at Eagle Pass have been cancelled. Whether the approaching movements of other National Guard organizations scheduled to leave the border will also be halted could not be ascertained at department headquarters today.

General Funston declined to discuss the matter.

The Maryland regiment was to have left Eagle Pass today for Baltimore. The order cancelling the movement was received as that organization was in the act of entraining. Most of the regimental equipment had already been placed aboard trains.

The Second Wisconsin infantry at Camp Wilson was to have left tomorrow for Fort Sheridan to be mustered out of federal service. When orders reached camp today for the regiment to remain here, the men, 40 per

cent of whom are of German descent, turned out and gave a patriotic demonstration, pledging themselves to any service for which the United States government might call.

SENATE OF TEXAS ENDORSES WILSON

Austin, Texas, Feb. 5.—By a rising vote the senate today adopted a concurrent resolution introduced by Senator Buchanan of Scurry County, that the Texas legislature "does here now express its utmost confidence in the high purpose, integrity and ability of President Wilson, and does hereby endorse and approve the acts of the president in severing diplomatic relations with the imperial German government."

The resolution also pledges the president the support of the State of Texas in all things the president may feel impelled to do in the impending crisis. The resolution will be sent to the house for action, and a copy sent to the president and one to congress.

The United States flag today supplanted the Texas flag on the state house. This was done as an endorsement of President Wilson in dealing with the German crisis.

For a Bilious Attack.

When you have a severe headache, accompanied by a coated tongue, loathing of food, constipation, torpid liver, vomiting of partly digested food and then bile, you may know that you have a bilious attack. While you may be quite sick there is much consolation in knowing that relief may be obtained by taking three of Chamberlain's Tablets. They are prompt and effectual. Obtainable everywhere. dw

HOUSE REFUSES WOMEN BALLOT

Austin, Texas, Feb. 6.—Equal suffrage in Texas is dead for two years more. At 5:30 this evening the house voted on the Baker resolution submitting the amendment to a vote of the people, and while the resolution was engrossed by a vote of 76 to 56, it fell 19 votes short of a sufficient number to insure its final passage.

As was expected the suffragists polled a smaller vote than they did two years ago, when Frank Burmeister mustered 85 votes for the measure.

The closing argument against the resolution was made by Mr. Bagby and Mr. Thomason of El Paso closed in favor of it, both delivering the most masterful arguments of the six-hour debate.

Bright's Disease is more

dreaded by physicians than any of the serious disorders with which they have to deal, because of its insidious and malignant character. If prompt action were taken when headaches, urinary disorders, digestive troubles first appear, much suffering and sorrow would be averted. Prickly Ash Bitters will quickly stop the spread of the disease, quiet the inflammation, heal the kidneys and bladder, strengthen and regulate the liver, and drive poisons and impurities out of the system. Stripling, Haselwood & Co., Special Agents.

SENATE RE-PASSES IMMIGRATION BILL

Washington, Feb. 5.—The senate late today, by a vote of 62 to 19, re-passed the immigration bill over the veto of the president, despite a warning from the state department that the Asiatic exclusion section might result in disturbing amicable relations with Japan. The measure, containing the literacy test, fought over for 20 years, and vetoed by three presidents, now becomes a law.

New objections from Japan to the language of the Asiatic exclusion section of the vetoed immigration bill were disclosed in the senate when Senator Reed, fighting the proposal to re-pass the bill over the president's veto, announced he had been authorized by the state department to say that the Japanese embassy had called attention to the provision. The bill, as finally passed, was thought to meet all objections.

CLOSES MINISTRY.

From Monday's Daily.
Rev. E. L. Thompson preached his farewell sermon at the Christian church last night, and will leave Thursday for his new field of labor.

As previously noted in this paper, the church has had a prosperous year under the ministry of this talented and able young man. Some sixty-eight members have been added to the congregation, and the whole membership greatly strengthened in spiritual zeal; about \$4500 has been collected and expended in the work of building a house of worship and sustaining the service, and the minister leaves everything in good shape for his successor.

The church is negotiating for a new minister, and among those who are desirable to take up the work where Bro. Thompson leaves off is Rev. T. F. Weaver, the minister, who spent several weeks here financing the building fund. He has proven a successful minister at each of the places he has served, and the official board has offered him the place here, with some hope that he will accept. He is at present located at Dallas, and a communication goes forward to him today. If negotiations with him do not culminate in his immediate employment, some other minister will be engaged at once, and the work will go forward without interruption, as the church is much more able now to go forward than it was a year ago.

Mrs. Lizzie Witt, who is now making her home in New Caney, is visiting with relatives and friends in the city.

Beware of Ointments for Catarrh that Contain Mercury.

Mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by Druggists, Price 75c per bottle. Take Hall's Family Film for constipation.

WHEN YOUR BACK ACHES
It is a sure sign that something is wrong with your kidneys, you should take

INTERESTING EXHIBIT.

Mr. E. L. Shumway, Jr., who recently moved to this city from Brownsville, had on display quite an interesting, yet uncanny exhibit at the county treasurer's office this morning in the way of a rattlesnake hide eight feet long, and another seven feet long, together with the stingers and bones of other animals and reptiles of that section.

Mr. Shumway says that the snakes were killed with a pitchfork, but one of us East Texans, not familiar with reptiles of such gigantic proportions, would want a standard size center-meter if we had to do battle with a rattler of such dimensions.

A Seventy-Year Old Couple.
Mr. and Mrs. T. B. Carpenter, Harrisburg, Pa., suffered from kidney trouble but have been entirely cured by Foley Kidney Pills. He says: "Altho' we are both in the seventies, we are as vigorous as we were thirty years ago." Foley Kidney Pills stop sleep disturbing, bladder weakness, backache, rheumatism. Stripling, Haselwood & Co. dw1

INVESTIGATION OF COTTON EXCHANGE

Washington, Feb. 2.—The senate today passed the resolution of Senator Smith of South Carolina directing the attorney general to investigate buying and selling operations of the New York Cotton Exchange to ascertain if the methods employed were in restraint of trade. There was no debate.

A child that has intestinal worms is handicapped in its growth. A few doses of WHITE'S CREAM VERMIFUGE destroys and expels worms; the child immediately improves and thrives wonderfully. Price 25c per bottle. Sold by Stripling, Haselwood & Co. eodw

AGED TEXAN A BENEDICT AT 105

Lampassas, Texas, Feb. 2.—J. A. Russell and Mrs. Mary Bowers were married at the court house here Wednesday morning, Judge J. Tom Higgins officiating. The bridegroom is 105 years old and the bride is just a few years younger. Mr. Russell is the oldest man ever married in this county. He could easily pass for a man of 75 years.

10 CENT "CASCARETS" FOR LIVER AND BOWELS

Cure Sick Headache, Constipation, Biliousness, Sour Stomach, Bad Breath—Candy Cathartic.

No odds how bad your liver, stomach or bowels; how much your head aches, how miserable you are from constipation, indigestion, biliousness and such bowels—you always get relief with Cascares. They instantly cleanse and regulate the stomach, remove the sour, fermenting food which causes the excess bile, and take the excess bile out of the system and carry off the poisonous matter and poison from the liver and bowels. A little Cascares will clean your bowels clean; your head clear for your work while you sleep.

FARMERS INSTITUTE.

The Sentinel has a communication from the Department of Agriculture, announcing that Mr. J. O. Allen, assistant organizer of Farmers Institutes, will hold an Institute in Nacogdoches February 9th, at 2:00 p. m.

Mr. Allen has visited this section before and is well known to many of our people. He is a most competent man in his line of work, and will bring a message worth hearing by all farmers.

When the bowels become irregular you are uncomfortable and the longer this condition exists the worse you feel. You can get rid of this misery quickly by using HERBINE. Take a dose on going to bed and see how fine you feel next day. Price 50c. Sold by Stripling, Haselwood & Co. eodw

The Sentinel is in receipt of a remittance from its good friend, Mr. J. W. Murph, of the Linn Flat community, making settlement for his paper for all arrears and some time in advance. Mr. Murph has been a constant reader of this paper throughout its entire existence, and one of those substantial kind who keeps ahead with his account, living up to the motto he expresses in the letter, "I want to do as I wish to be done by." The Sentinel dearly loves this grand old gentleman, both for his loyalty to the paper and for his sterling worth as a citizen.

Felt Like 90, Now Like 21.

Like a weak link in a chain, a weak organ enfeebls the whole body. Weak kidneys lower vitality. A. W. Morgan, Angola, La., writes: "I suffered with pains in the back. I am 43 years old, but I felt like a man of 90. Since I took Foley Kidney Pills I feel like I did when I was 21." 50c and \$1.00 sizes, Stripling, Haselwood & Co. dw1

A CENTER PIONEER WITH THE DEAD

The information is gleaned from the Center Champion of the death of Capt. E. B. Wheeler, a pioneer of Center, which sad event occurred at his home in Center Wednesday morning.

Capt. Wheeler was a lawyer by profession, and before being weighted down with the infirmities of old age, practiced in all the courts of East Texas. He moved to Center from Angelina county when the town was first established, and throughout his long citizenship was one of the town's most prominent and useful citizens. He was past eighty years of age at the time of his death, and enjoyed fairly good health and was able to get about and look after his business affairs up to a few days ago.

GINNERS REPORT.

The ginners report for Nacogdoches county shows 12654 bales of cotton ginned up to Jan. 15, 1917, as compared with 12,555 up to the same date last year, making a gain of eighty-nine bales for this season.

LEGISLATURE ENDORSES PRESIDENT WILSON

Austin, Texas, Feb. 1.—A resolution ordering an expression of the confidence of the Texas legislature in the ability of President Wilson in the impending crisis, and assuring him that Texas stands behind him in everything, was adopted by the house of representatives today.

A single dissenting vote was registered. O'Brien moved to table the resolution, but was cried down. The house did not debate the matter at length, but the temper of the membership was unmistakable. It was felt by leaders that some official expression from Texas would not be out of place at this time, when the country apparently stands at the breaking of relations with Germany.

A Letter That May Interest You

N. W. McConnell, Riverside, Ga., writes: "Foley Cathartic Tablets absolutely cleanse my system thoroughly, and never a gripe, and no nausea." An ideal physic, invigorating and strengthening the bowel action and having a good effect on the stomach and liver. Give stout persons a light and free feeling. Stripling, Haselwood & Co. dw1

LEAK PROBE OFF.

On account of the international crisis the New York hearings in the "leak" inquiry will close with today's session. The investigation will be resumed in Washington tomorrow afternoon at 1 o'clock.

A heavy cold in the lungs that was expected to cure itself has been the starting point in many cases of disease that ended fatally. The sensible course is to take frequent doses of BALLARD'S HOREHOUND SYRUP. It checks the progress of the disorder and assists nature to restore normal conditions. Price 25c, 50c and \$1.00 per bottle. Sold by Stripling, Haselwood & Co.

In commenting on the death of Mr. H. A. Fuller, which occurred in this city yesterday morning, the Lufkin News says, among other things: "He had been residing here for a number of years, and leaves a wife and several children to mourn his untimely demise, besides countless friends. He was engaged in the sawmill business, near town, and was looked upon as a splendid business man."

A Woman's Experience With Grippe.

When a cough or cold hangs on, and you have aches and pains that are hard to define, it is likely that grippe is taking hold of your system. Mrs. J. A. Rodgers, Switzer, S. C., says: "I am susceptible to colds, often ending in grippe. In this case I have found Foley's Honey and Tar to prevent doctor bills." Stripling, Haselwood & Co. dw1

TEXT BOOK BILL FULLY EXPLAINED

Austin, Texas, Feb. 4.—Of the bill designed to broaden the scope of the school text book act, written and introduced by Alderice, Bee and Decherd in the senate last week, Senator Alderice today said:

"In preparing and introducing this measure we were actuated by a desire to effect an obvious and very substantial saving to the school patrons of Texas by accentuating the wisdom of retaining in schools of Texas those books which the textbook committee and board of revision shall, after careful inquiry and due deliberation, adjudge to be generally satisfactory. Our bill is not designed to perpetuate the use of any book for which a better book

There are thousands of children who are bright but frail—not sick but underdeveloped—they play with their food—they catch colds easily and do not thrive—they only need the pure, rich liquid food in

SCOTT'S EMULSION

to start them growing and keep them going. Children relish SCOTT'S and it carries rare nutritive qualities to their blood streams and gives them flesh, food, bone-food and strength-food. Nothing harmful in SCOTT'S.

may be substituted, the cost of the change to be taken into consideration.

This—and Five Cents! DON'T MISS THIS. Cut out this slip, enclose five cents to Foley & Co., 2835 Sheffield Ave., Chicago, Ill., writing your name and address clearly. You will receive in return a trial package containing Foley's Honey and Tar Compound for coughs, colds and croup; Foley Kidney Pills, and Foley Cathartic Tablets. Stripling, Haselwood & Co. eodw

Clark Gramling came in last night from Rochester, N. Y., for a visit to his parents and other relatives and friends. This is the first time Mr. Gramling has been home in eight years, and the homefolks are having a most happy re-union with him.

For Croup, Coughs and Colds.

A Baxter, Wheeler, Wisc., says: "For ten years we have used Foley's Honey and Tar in our family and consider it the best cough medicine on the market, especially for children, as they like to take it." Contains no opiates; safe for babes; effective for adults. Checks Croup, stops coughs; relieves colds. Stripling, Haselwood & Co. dw1

Mr. W. H. Doss, mention of whose arrival to the city was made in yesterday's paper, is a boyhood friend and chum of Mr. Carter MagBee of this city, and this is the first time they have seen each other since the fall of 1865 when they separated at the close of the war. They served in the 19th Alabama Regiment. The gentlemen made this office a pleasant call at noon today.

A scald burn, or severe cut heals slowly if neglected. The family that keeps a bottle of BALLARD'S SNOW LINIMENT on hand is always prepared for such accidents. Price 25c, 50c, and \$1.00 per bottle. Sold by Stripling, Haselwood & Co. eodw

Mr. Henry Schmidt arrived home yesterday from New York where he went to purchase spring goods for the big house of Mayer & Schmidt. Mr. Schmidt visits the markets each season and makes selection of his goods in person, by which he gets good bargains and knows what he is getting when he makes purchase.

TAKES OFF DANDRUFF, HAIR STOPS FALLING

Save your Hair! Get a 25 cent bottle of Danderine right now—Also stops itching scalp.

This, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—any time—will surely save your hair.

Get a 25 cent bottle of Knowlton's Danderine from any drug store. You surely can have beautiful hair and lots of it if you will just try a little Danderine. Save your hair! Try it!

charged under prom- behavior. ks official

MRS. NED JACK SEVEN MONTHS

Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Aurora, Ill.—"For seven long months I suffered from a female trouble, with severe pains in my back and sides until I became so weak I could hardly walk from chair to chair, and got so nervous I would jump at the slightest noise. I was entirely unfit to do my housework, I was giving up hope of ever being well, when my sister asked me to try Lydia E. Pinkham's Vegetable Compound. I took six bottles and today I am a healthy woman able to do my own housework. I wish every suffering woman would try Lydia E. Pinkham's Vegetable Compound, and find out for themselves how good it is."—Mrs. CARL SASSO, 596 North Ave., Aurora, Ill.

The great number of unsolicited testimonials on file at the Pinkham Laboratory, many of which are from time to time published by permission, are proof of the value of Lydia E. Pinkham's Vegetable Compound, in the treatment of female ills.

Every ailing woman in the United States is cordially invited to write to the Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass., for special advice. It is free, will bring you health and may save your life.

SPANELL ACQUITTED FOR KILLING WIFE

San Angelo, Texas, Feb. 1.—A verdict of not guilty was returned after less than two hours' deliberation today by the jury trying Harry J. Spanell of Alpine in connection with the killing of his wife, Crystal Holland Spanell, last July.

A special venire had been ordered in the District Court here today in the case in which Spanell is charged with the killing of Lieutenant Colonel M. C. Butler, but was excused yesterday.

The jury deliberated about 30 minutes before asking the sheriff to send for Judge Duboise. The verdict was announced at 2:10 p. m. The defendant was not brought in to hear the verdict.

That Spanell was not in court to hear the jury give him freedom was due to a suggestion by Judge Duboise.

When the verdict was announced many of the spectators hurried from the court room into the street and cheered loudly.

The decision in the Butler case will not be announced until tomorrow, but it is stated reliably that it will not be tried here.

Spanell broke down when the verdict was given to him in his cell. He sobbed, "Crystal! Oh, Crystal!"

Visitors besieged the jail, but because of Spanell's condition, they were not allowed to see him.

Spanell Now Free.
San Angelo, Texas, Feb. 1.—Judge Duboise, in District Court late today, released Harry J. Spanell in \$5000 bond in the case charging him with the killing of lieutenant Colonel M. C. Butler and granted a change of venue to Coleman, Coleman County, Texas. The case probably will be called at the May term of court.

UGH! CALOMEL MAKES YOU DEATHLY SICK

Stop using dangerous drug before it salivates you! It's horrible!

You're bilious, sluggish, constipated and believe you need vile, dangerous calomel to start your liver and clean your bowels.

Here's my guarantee! Ask your druggist for a 50-cent bottle of Doan's Liver Tonic and take a spoonful tonight. If it doesn't start your liver and straighten you right up better than calomel and without griping or making you sick I want you to go back to the store and get your money.

Take calomel today and tomorrow you will feel weak and sick and nauseated. Don't lose a day's work. Take a spoonful of harmless, vegetable Doan's Liver Tonic tonight and wake up feeling great. It's perfectly harmless so give it to your children any time. It can't salivate, so don't eat anything afterwards.

COUNTY ATTORNEY SUES THE EXPRESS COMPANY

Charges Wells-Fargo & Co With Delivering Whiskey to Bootleggers—Fines \$35000.

County Attorney W. A. Wade has filed suit in the district court in seven counts of \$500 in each count, against the Wells-Fargo & Company for delivering whiskey to alleged bootleggers.

The law makes it a penalty for the express company to deliver whiskey to bootleggers, in a fine of \$500 in each case, and in this petition the county attorney complains that the company has made seven illegal deliveries.

The suits will be watched with much interest and doubtless be closely contested on both sides.

In passing, it is due the local agents of public carriers to state that they are put to a great hardship in distinguishing between the bootlegger and the legitimate purchaser. Very few, if any, local agents would intentionally violate the law, and when they do so, as a rule it is for lack of sufficient help to make needed investigations, or a better arrangement whereby they can protect themselves and the company they represent. On the other hand, if the law is being violated as charged, the county attorney is doing his duty in prosecuting the company which will cause it, if derelict, to exercise greater care in the matter in the future, and furnish whatever help, means or restrictions necessary to avoid further violation of the law.

SUBMISSION LOSES IN HOUSE YESTERDAY

Austin, Tex., Feb. 2.—Submission was defeated in the house late this evening, the final vote being 89 for submission and 47 against. Two members declined to vote and four others were absent. Total vote cast today, 136.

Passage of the submission amendment would have required 95 votes, or a two-thirds majority of the house's membership, which is 142.

Austin, Texas, Feb. 2.—The house, after an all-day consideration of the submission question, in the course of which heated speeches were made, wrangled for an hour this evening as to whether it should remain under call until the absent members were brought in, which meant all night, or take some sort of test vote. It stood at ease for 20 minutes to enable the pros to decide on what course to pursue. While they were conferring the antis were singing "We Won't Go Home Until Monday Comes," "When The Roll is Called We'll Be There" and "How Dry I Am."

The house was called to order at 6 o'clock this evening and Mr. Bagby, in order to force a test vote on the other side, moved to strike out the enacting clause of a resolution, and the roll call was ordered.

The Bagby motion was lost by a vote of 47 to 88. Canales and Dunham declined to vote and it was stated they would not vote on the final passage of the resolution. This meant, that, with all present, submission would be defeated.

An agreement between the antis and the pros was made to take the vote on the resolution and spread it on the journal in order to avoid holding the house under call.

The vote was 39 for submission to 47 against. Canales and Dunham refusing to vote and there being four others absent.

An eight-pound daughter was born to Mr. and Mrs. Thos. B. Floyd Sunday evening at 6:45. Mother and babe are reported to be doing fine.

A School House

without a telephone would seem strangely isolated in these days of general telephone communication.

When the weather is doubtful and the roads bad call the school house. If school is closed today, why send little Mary or Bobbie on a useless trip?

Bell Telephone serves in all emergencies.

14 TEXANS OPPOSE.

Washington, Feb. 2.—Fourteen Texas congressmen voted with the successful majority late yesterday to pass the immigration bill over President Wilson's veto, while but three, Representatives Buchanan, Burgess and Hardy, voted to sustain the veto. Those who differed from the president were Representatives Plack, Callaway, Davis, Dies, Eagle, Garner, Gregg, McLemore, Rayburn, Slayden, Smith, Stephens, Summers and Young. Representative Henry was absent, although he would have voted against the president had he been present. Sixteen Texans, including Representative Dies, voted for the revenue bill, Callaway being the only Texan to oppose the measure. Representative Dies who announced he would vote against the bill, voted for it, although he declared to the house, "it gruels like hell to vote for this bill." He added it was a "bitter pill."

A FURTHER DROP IN COTTON PRICES

New Orleans, Feb. 2.—The rumor that Americans had been warned out of Germany, coming on top of other unfavorable influences, caused heavy selling of cotton in this market today, which put prices late in the season to a loss of over 100 points, compared to yesterday's last prices. The close was on an easy tone with prices showing a loss of 35 to 105 points. At the lowest the weakest months were more than \$5 a bale down. The market carried over from yesterday an unsettled and nervous tone, but had a few brief periods of steadiness on good spot accounts which put prices at their best 5 to 10 points over yesterday's final quotations.

From the highest to the lowest there was a drop of 100 to 106 points and at the lowest the market stood 90 to 104 points under yesterday's close.

IF YOUR CHILD IS CROSS, FEBERISH, CONSTIPATED

Look Mother! If tongue is coated, cleanse little bowels with "California Syrup of Figs."

Mother can rest easy after giving "California Syrup of Figs," because in a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels, and you have a well, playful child again.

Sick children need to be coaxed to take this harmless "fruit laxative." Millions of mothers keep it handy because they know its action on the stomach, liver and bowels is prompt and sure.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which contains directions for babies, children of all ages and for grown-ups.

FORMER CITIZEN WAS SCALDED TO DEATH

Frank Seale Fell Into Vat Boiling Water at Neches Yesterday—Died Instantly

From Friday's Daily. Relatives in this city have received a message bearing the news of the horrible death suffered by Frank Seale, a native of this county, who was scalded to death in a vat of boiling water at a box factory at Neches yesterday afternoon.

The young man's father, Dr. T. Seale, and he owned and operated a box factory at Neches in connection with other interests and enterprises they have at that section. To give the reader who is not familiar with the details of enterprises of this kind a more intelligent understanding of the report, we will explain that the timbers, after being squared, are put into a vat of boiling water, a process necessary in working them into the finished product. While working about or looking after the affairs of the enterprise the young man in some way lost his balance and fell into one of these vats of boiling water, and was so badly scalded that he died instantly.

The unfortunate young man is a son of Dr. J. T. Seale, who formerly lived in Melrose, in county, moving away some nineteen years ago. Dr. Seale is brother of Mr. Allan Seale and Mrs. June C. Harris of this city. Mrs. Dr. Link of Palestine, and a half brother of Arthur A. Seale of this city. The family is affectionately remembered by all the older settlers, whose hearts will be sad with this news.

The deceased was about thirty-one years of age, and is survived by his widow and two children.

DISPUTED RATE CASE REOPENED

Washington, Feb. 2.—Reopening the Shreveport rate case was ordered by the interstate commerce commission today upon petition of the attorney general of Texas, the Texas railway commission and others, but in doing so the commission left in effect its order of last July, prescribing new rates on commodities between Shreveport and points in Texas.

"Our order was made after careful consideration, upon the basis of a voluminous record," says the commission's decision. "To vacate this order might have the effect of reinstating many of the discriminations formerly existing which have been shown to be real and material and of long standing. Argument has been had since that order was entered, but no further evidence, in the strict sense of the word, has been submitted.

"In the absence of a showing of error in our report and order, we are of the opinion that the order should stand, pending the further proceedings now contemplated.

COMMISSION PROBE OF CATTLE TRADE

Washington, Feb. 2.—The federal trade commission today, following a conference with Representatives Garner of Texas, Borland of Missouri and Kent of California, agreed to make a thorough and sweeping investigation of the live stock industry. The commission has written a letter to Secretary of the Treasury McAdoo asking that he submit a deficiency appropriation request to congress for \$140,000 with which to conduct the probe.

Garner, Borland and Kent have been endeavoring for the past 18 months to have such an

Saved Girl's Life

"I want to tell you what wonderful benefit I have received from the use of Theford's Black-Draught," writes Mrs. S. Woods, of Clifton Mills, Ky.

"It is only has no equal for a gripe, bad colds, liver and stomach troubles. I firmly believe Black-Draught saved my little girl's life. When she had the measles, they went in on her, but one good dose of Theford's Black-Draught made them break out, and she has had no more trouble. I shall never be without

THEDFORD'S BLACK-DRAUGHT

In my home." For constipation, indigestion, headache, dizziness, malaria, chills and fever, biliousness, and all similar ailments, Theford's Black-Draught has proved itself a safe, reliable, gentle and valuable remedy.

If you suffer from any of these complaints, try Black-Draught. It is a medicine of known merit. Seventy-five years of splendid success proves its value. Good for young and old. For sale everywhere. Price 25 cents.

action taken, the Texas Cattle Raisers' Association has twice recommended it to congress. The proposed investigation will include every phase of the cattle industry, from the ranges of Texas to the pound of beef steak in the meat market.

NACOGDOCHES COUPLE WED IN BEAUMONT

Mr. F. E. Larrence, who has been serving as the jeweler at Swift Bros. & Smith's drug store the past several months, went to Beaumont Saturday afternoon where, upon arrival, he was married to Miss Ruth Baker.

The bride is a daughter of Mr. and Mrs. Jefferson Baker, and was reared in this city. She went to Beaumont a few weeks ago to visit her sister, Mrs. Eugene Vondersmith, and will return with her husband Wednesday of this week. She is a beautiful, sweet girl, cultured and refined, and all who know her love her. During his sojourn with us, Mr. Larrence has proven himself a capable business man in his line, and is a courteous, affable gentleman, who also has a number of friends in the city.

Upon their return, Mr. and Mrs. Larrence will receive a cordial welcome to citizenship from their numerous friends, and will be attended by the good wishes of all.

Mr. W. F. Doss of Hico, La., and Mr. Bill Doss of Hempstead, Texas, arrived last night for a visit their niece, Mrs. W. P. Burrows. This is the first time Mrs. Burrows ever met her Uncle Bill, and the re-union with both is a most happy event to her.

END STOMACH TROUBLE, GASES OR DYSPEPSIA

"Pape's Diapepsin" makes Sick, Sour, Gassy Stomach surely feel fine in five minutes.

If what you just ate is souring on your stomach or lies like a lump of lead, refusing to digest, or you belch gas and eructate sour, undigested food, or have a feeling of dizziness, flatulency, fullness, nausea, bad taste in mouth and stomach-ache, you can get blessed relief in five minutes by eating a large quantity of Pape's Diapepsin from any drug store. You realize in five minutes how good it is to be sick, from indigestion, dyspepsia, or stomach trouble. It's the greatest, surest stomach doctor in the world. It's wonderful.

Service For Country People

Our country friends and patrons will always find us on the job from 6 in the morning 'till 10 at night. We work ten men all the time: Three Registered Druggists and Two Graduate Wash Makers. We have Two Telephones so that you do not have to wait when you ring us.

We fill all Mail Orders so that they can go out on next mail.

We have the goods and the prices and want your business. You can save money by trading with us. Come in when in town next time and see us. We are always glad to see you.

Stripling, Haselwood & Co

The Birthplace of Quality and Service.

SAINTED OLD MOTHER IS NOW AT REST

From Tuesday's Daily.
Mrs. T. J. Hill, whose serious illness was noted in this paper yesterday, died at her home five miles west of town last night at nine o'clock, and her remains will be laid to rest in the family burying grounds this afternoon.

Mrs. Hill is the widow of the late T. J. Hill, a well known and prominent pioneer of the community whose spirit was summoned by the Grim Reaper several years ago. All remaining of the immediate family now is one son, Tom M.

Mrs. Hill was a sainted old mother of beautiful christian character who was loved and admired by all who knew her. She was seventy-two years of age, and this weight, together with the month's illness she has suffered, doubtless made death come as a sweet relief to her.

The Sentinel joins friends of the surviving son in a feeling of profound sympathy.

NOTICE

We have a good 5-year-old work horse, and a good mule for sale. "Worth the money" for cash or credit. Stripling Haselwood & Co.

Will be ready for delivery March 1st, registered Duroc pigs, \$10 each for sows, or \$15 per pair. Lee Gaston, Nacogdoches, Texas.

MORE BAD WEATHER.

To avoid disagreeable and dangerous effects, you will have to keep your feet dry and warm. Nothing will do more to avoid these dangers than a pair of overshoes. We have a lot of them on hand and don't care to carry them over, and to close them out we will sell you a pair at cost. The women's rubbers run in size from 2's to 6's; men's from 6's to 10's, and the prices run from 30c to 80c. If you will come in and look them over, you will find them very attractive at these prices.

7-1td-1w
C. W. BUTT.

There seems to be but little if any change in the condition of Mr. R. H. Irion who suffered a relapse several days ago and has been confined to his bed since. He does not seem to suffer much, and his friends trust that he may soon rally and get out again.

Who wants to trade unimproved land for the best horse and phaeton in East Texas? See Lee Gaston at Nacogdoches, Texas.

HOUSTON WOMAN HAS GAINED 18 POUNDS

Look So Well After Taking Tanlac Her Friends Hardly Recognize Her.

"My wife gained eighteen pounds on two bottles of Tanlac and now she's the very picture of health," said J. A. McKinney, 608 Hamilton street, Houston, for several years engineer for the Industrial Cotton Oil Co.

"I can't find words," continued Mr. McKinney, "to tell you all Tanlac has done for my wife and how grateful I am over her recovery. Two years ago she began to suffer with stomach trouble and indigestion. She doctored and took medicine but kept getting worse. She lived on such food as milk and toast and fell off until she only weighed ninety-seven pounds, and was hardly more than a living skeleton. She complained of awful pains in her stomach and was very nervous. The pressure of gas on her stomach would collect around her heart and she would wake up at night suffering and gasping for breath. I was awake nearly all night every night with her.

"Tanlac has worked on her more like a miracle than a medicine. Three days after she began taking it she began to feel better. After taking two bottles she now eats hearty and sleeps as soundly as if she had never been sick a day in her life and is as happy as a lark. She now weighs one hundred and fifteen pounds—an actual gain of eighteen pounds. She has improved so much that some of our neighbors who haven't seen her for some time didn't know her on first sight. Tanlac has restored her health after everything else had failed."

Tanlac is sold in Nacogdoches by Stripling, Haselwood & Co., and Swift Bros & Smith, in Garrison by Garrison Drug Co., in Appleby by Weatherly Bros., and in Sacul by Arkan Crawford."

Mr. Andy Eddings, the gun smith, brought a gun to this office this morning which carries with it much age, and if it could give the expression, would furnish an interesting chapter for history. The gun was the property of Mr. Eddings' father, and during the war was hidden in a hollow log. In this condition a hole rusted in the barrel, and the junior Eddings put a band around it, which is still intact. He was but sixteen years of age at the time, and is sixty-six now—and is still repairing guns.

CLIP THIS AND PIN ON WIFE'S DRESSER

Cincinnati man tells how to shrivel up corns or calluses so they lift off with fingers

Ouch ! ? ? ? ! This kind of rough talk will be heard less here in town if people troubled with corns will follow the simple advice of this Cincinnati authority, who claims that a few drops of a drug called freezone when applied to a tender, aching corn or hardener callus stops soreness at once, and soon the corn or callus dries up and lifts right off without pain.

He says freezone dries immediately and never inflames or even irritates the surrounding skin. A small bottle of freezone will cost very little at any drug store but will positively remove every hard or soft corn or callus from one's feet. Millions of American women will welcome this announcement since the inauguration of the high heels. If your druggist doesn't have freezone tell him to order a bottle for you.

THE GIRL AND THE LION.

Which Will You Do, Win Your Independence or Marry a Two-bit Man?

You are at the cross roads of life. There are two paths open to you. One leads to independence, the other to dependency. You are to choose the road you will travel. One requires effort the other indifference. To travel one, you must have real backbone and determination, the other, any old thing will do. Some girls say "The lion is in the way" These girls lack gumption, get-up-and-get. They reason that if so-and-so and such-and-such a thing had not happened they could have made a great success. The lion is in the way. Fear and indifference have entered into their daily lives and robbed them of their vim and courage. It's our life work to train people to determine to get up and do things, develop their latent talents, quicken their perception that they may lead a higher and more useful life. Our thorough practical training in Bookkeeping, Business Methods, Shorthand, Steno-typewriting, Telegraphy, Business Writing, Business English, Business Law, Business Arithmetic, Spelling, Rapid Calculation, Money and Banking, Corporation Finance, Taxation and Public Finance, Private Secretaryship, Salesmanship, Advertising, Real Estate, Commercial History, Higher accounting, Economics, Parliamentary Law and Managership, together with the use of the most modern office appliances, gets the lion out of the way, gives the girl her independence, places her where she can make an honorable living in any city in the land; command the respect of the very best people. If in after life, she is left a widow with plenty of money or property she knows how to care for it. If upon the other hand, she is left to support herself she can do so by accepting a good-salaried position or go into business for herself.

Girls who attend our institution are not only carefully looked after while in school, but assisted by our employment department after leaving it. No mother need fear her daughter will not have the proper care and attention while in our school and in making her start into the business office.

Young woman, select the road that leads to your independence. Don't be always dependent on others. It is an unsatisfactory life. Thousands have won their independence with us, why not you? For our large catalogue, explaining the workings of America's largest commercial training institution and endorsements from parents and lady graduates, fill in your name and address and mail today.

CARD OF THANKS.

We take this method of returning our thanks and giving assurance of our appreciation to our neighbors and friends for help during the sickness of father in his last hours, and also thank our neighbors and friends in assisting in taking the remains of our grand-father that has been laid to rest in the Curl graveyard twenty-four years ago and moving both father and grand-father to San Augustine where the remains of both were laid to rest in the family graveyard.

Should similar grief ever visit any of you, may you find the same loving, tender friends, is our wish and prayer.

COMING MASQUERADE VALENTINE PARTY

As has previously been announced, Nacogdoches High School will promote a Masquerade Valentine party at the Old Stone Fort next Friday night, and it promises to be one of the most enjoyable social occasions of the season.

The purpose of this entertainment is to raise funds for the support of the Athletic Association of the school, and a general admission fee of ten cents will be charged. Candies, cakes and valentines will also be on sale.

A valentine postoffice will be conducted at the Fort where valentines may be mailed and received, and this promises to be one of the enjoyable features of the evening.

The general public is invited to come and support this enterprise, with the assurance that all will be well entertained.

ADDITIONAL BELGIAN SUBSCRIPTION.

I desire to acknowledge the following additions to the fund for the relief of Belgian children. Twelve dollars representing the care of one child for one year.

Charles Perkins \$12.00
D. K. Cason 12.00
Roland Jones 12.00

Instead of one, as printed in the former list, Christ Church Sunday School subscribed \$36.00 or three units, and I have received a remittance of \$12.00 for one child from one who signs himself John Bull.

I am anxious to send this money forward as soon as possible, so if there are others in Nacogdoches who desire a part in this splendid relief enterprise, they will kindly make it known at once.

Signed,
CHARLES D. ATWELL.

TAFT DENOUNCES GERMAN POLICY

Concord, N. H., Feb. 1.—A grossly unwarranted extension of the right of blockade was the characterization of the new German policy of unrestricted warfare, made by former President William H. Taft, who addressed the state legislature today. He said in part:

"The dangerous crisis in our relations with Germany forced by her declared intention to sink neutral vessels engaged in trade with France and England, their crews and passengers without warning, by submarine warfare, is a grossly unwarranted extension of the right of blockade which belligerents have in international law against neutrals."

It greatly emphasizes the necessity for hastening adequate military and naval preparedness against unjust aggression."

Elsewhere in today's paper will be found the copy of an ordinance just passed by the city council which should be read by every one. It provides that when a fire alarm is sounded that every one driving any kind of vehicle shall drive to the right side of the street or road and bring his vehicle to a standstill, should the fire department be coming over the street in which he is driving at the time. This is the only method by which the lives of people can be safeguarded and the work of the department executed to its full capacity. It is timely for both the protection of the people and the fire department, and The Sentinel feels sure that there will be no violators.

Clifford Baker who came home from Dallas with a stubborn attack of la grippe several days ago, is able to be out again, and hopes to return to school Sunday. He is attending the Metropolitan Business College at Dallas.
