AMERICANS MAKE BRILLIANT AND IMPORTANT ADVANCE

(By Associated Press)
Continuing today for the momentary reverses suffered yesterday, and despite the tremendous efforts of the Germans to check their pressure, the allies North of the Ourcq have placed the German positions in very grave danger.

Plunging northward from Serisy, the American troops have made a brilliant and important advance. Desperate fighting has apparently opened the way to further successful operations against the Germans on the Marne salient. Enemy resistance of the sturdiest character is no obstacle to the fighting Americans. They are now on the Ferre-en-Tardenois-Longnes highway, south of the forest of Nesle. The advance of the Americans late Tuesday measured approximately two miles.

AMERICANS HOLD FRONT UNDER A HEAVY GERMAN FIRE TO NORTH

(By Associated Press)
WITH THE AMERICANS ON THE MARNE, July 30.—Under a heavy fire, the Americans are holding the front north of the Ourcq. Slight advances were made at some points. Repeated efforts of the enemy to dislodge the Americans were futile. On the American left wing, the French were moving forward. To the right, the lines are holding steadily.

FIERCENESS OF THE FIGHTING SHOWS THAT HUN RETREAT HAS ENDED

(By Associated Press)
PARIS, July 30.—The fierceness of the fighting today, it is believed here, is a sign that the German retreat has reached its limit. The enemy has taken a stand with his right wing on the plateau south of Crise, with the left wing on the hill south of Andry. For the defense of this line it is said the Germans will devote all of General Von Boehm's army, and also reserve divisions taken from Crown Prince Rupprecht, of Bavaria.

AERIAL OBSERVERS SAY THAT SIGNS INDICATE THAT GERMANS INTEND TO RETIRE FURTHER

(By Associated Press)
PARIS, July 31.—French aerial observers say that the signs behind the present German battle front indicate that preparations are being made for a continuation of retirement northward. The enemy is destroying much material. Big fires have also broken out behind the enemy's lines.

Strong German reaction Tuesday shows, in the opinion of the French military experts, that the enemy is determined to postpone his retreat to Vesle as long as possible, notwithstanding the wastage of his power, the gully involves.

FRENCH AVIATOR DROPS FROM AEROPLANE 800 YARDS IN PARACHUTE AND LANDS SAFE

(By Associated Press)
WITH THE AMERICANS IN FRANCE, July 31.—Captain Sarret, a French aviator, carried out the first experiment recorded in falling from a moving airplane with a parachute. He dropped eight hundred yards with an umbrella twelve yards in diameter.

THE ALLIES HAVE REPULSED THE ENEMY COUNTER ATTACKS SUCCESSFULLY

(By Associated Press)
WASHINGTON, July 31.—The allies have repulsed the enemy counterattacks on the line of the Ourcq after severe fighting, which makes a good improvement in the American positions there, is reported in General Pershing's communique to the war department today.

COLLINS GORDON AND WALKER AHEAD

(Special to The Sentinel from Beaumont Enterprise)
BEAUMONT, July 30.—With 164 precincts out of 280 heard from, O'Brien has 6519 votes, Box has 7263, Collins, 9176, King, 6582 and Ricks 441, today. Incomplete returns show that Gordon is leading Cousins by 1,800 votes. Returns from sixty precincts gave Walker 6114 and Short 4230.

TURKS SEVER RELATIONS WITH THE GERMANS

(By Associated Press)
LONDON, July 29.—"Relations between Germany and Turkey have been severed, according to direct information from Constantinople."

This announcement is made by the Copenhagen correspondent of the Exchange Telegraph Co.

WASHINGTON, July 30.—No official advices regarding the reported break between Turkey and Germany has reached Washington but the government would not be surprised at the break, as there is a well-founded background report.

WASHINGTON, July 29.—While no official notice of the breach of relations between Turkey and Germany has reached Washington, it is reported that the Turkish government has reached the Washington official representative in a letter expressing regret at the Constantinople statement received from London, saying that Germany and Turkey had severed relations. In official circles here for some time past it has been realized that in our efforts to secure both Turkey and Bulgaria in the division of spoils, resulting from the enforced treaty with Rumania, Germany had incurred the possibility of being not only the enemy of Turkey, but also of Bulgaria.

The sentiment against Germany, the result of the latter's policy, has been growing, particularly after last week's events. The German recently demanded the cruiser Hamoudieh, the only large ship in our possession of Turkey, as compensation for the British, the former German cruiser which was destroyed in the Dardanelles while under the Turkish flag. Despite Pershing's protest, the Hamoudieh has departed for Constantinople with the German flag flying.

INCREASE IN SUGAR ONE CENT A POUND

(By Associated Press)
NEW YORK, July 30.—An increase to the consumer of one cent a pound in the price of sugar is indicated in a statement issued today by George M. Ralph, chairman of the international sugar committee, following a conference with representatives of the Cuban government.

Cuban and United States government representatives meet in Washington next week to decide the 1919 prices.

MAY COMMANDEER THE PINE INDUSTRY

(By Associated Press)
WASHINGTON, July 31.—Commandeering of the yellow pine industry of the South may be resorted to by Chairman Baruch of the War Industries Board, unless the government's need is fully supplied. This official statement says the wooden ship building program is being seriously hampered because yellow pine interests have not more promptly met demands for the heavy timbers required.

PERSHING REPORTS SEVERE FIGHTING

(By Associated Press)
WASHINGTON, July 30.—Severe fighting, resulting from counterattacks by fresh enemy troops beyond the line of the Ourcq, is reported in General Pershing's communique today, to the war department.

To Save and Feed More Hay is Your Patriotic Duty

Help our government and her allies win the war by saving the hay that is going to waste on your farm.

To feed hay saves grain and grain must be saved.

Help whip the kaiser Help end the war by saving hay—saving grain.

We must win the war--We must save and feed more hay.

On very liberal terms we will sell you a Mower, Rake and Press. On the terms that we are offering a Mower and Rake can more than pay for itself. We are making these special terms so that every farmer can buy a Mower and Rake and save hay.

See us at once about this special proposition on Mowers and Rakes.

You can save money if you buy now.

CASON, MONK & CO.

GERMAN FIELD MARSHAL KILLED BY ASSASSIN

(By Associated Press)
LONDON, July 30.—A German field marshal was killed by an assassin today in a public square in Berlin.

COUNTY CONVENTION MEETS NEXT SATURDAY

(By Associated Press)
A county convention of the Farmers & Merchants State Bank will be held at Nacogdoches, Texas, on Saturday, August 3, 1918.

CALL THOUSANDS OF RESERVES TO BUILD SHIPS

(By Associated Press)
WASHINGTON, July 30.—The War Industries Board today called upon thousands of reservists to help in the construction of ships for the navy.

NO PEACE PROPOSALS BEEN MADE TO ALLIES

(By Associated Press)
LONDON, July 31.—Speakers in the House of Commons today, Arthur J. Balfour, the British foreign secretary, stated that no peace proposals had been made to the allies.

PRISONERS TAKEN

(By Associated Press)
LONDON, July 31.—Some prisoners were taken by the allies today in the Lens region north of Belgium, today, it is reported.

THE "FIRST BALE" HAS BEEN MARKETING

The first new bale of cotton of this season reached town late yesterday afternoon, and was marketed here this morning, bringing the producer the net sum of \$225.00. The new bale was grown by Mr. Cook and weighed 416 lbs., and was bought by the Farmers & Merchants State Bank of this city on a bid of thirty-five

LET'S "BURY THE HATCHET"

Now that the first primary is over, which eliminates all but the two leaders where more than two aspire for same office, and settles the governor's race in which so much interest had been worked up, let's "bury the hatchet," and get down to the work of winning the war and conserving our resources.

One of the ways to help win the war is to gather the crop that is now growing, not allowing anything that will provide food or man or beast to go to waste. With so many young men having been called away to war a shortage of labor is in existence, and if some intelligent means are not provided to overcome this it is not impossible that some crops would be harvested in full.

Another industry which should engage the attention of this section is participation in providing wood for the training camps. The Sentinel is informed that a good price is being paid by the government for all the wood that can be loaded on the cars. The coal supply will be utilized in fuel for the ships and sections of the north where it is impossible to provide wood. This is the opportunity for us to clear East Texas of the surplus timber and more rail road ties are also needed, and it is a time when every man should work overtime both as a matter of thrift and as a patriotic duty. This being true, we have no time to quibble or "post" over political issues, or the cause of ambitious politicians.

A good oil field in connection with the "Empire" of terra homes in this community would help carry Nacogdoches up to the city which she should become. And the new industry a probability of the coming future.

A well equipped business of any kind would not only furnish a most attractive advantage to the people at home, but would bring many boarding students to this city each year, which would bring new money into the town. Nacogdoches is a city that has a fine opportunity to sustain its business and to benefit the people by getting together the people of the community.

One of the most important things in the present time is to get the new suggestions from all observations and to have good suggestions. Now if the war and the business of the city the various government agencies to discontinue their annual bulletins that flood the streets each day, and overflow the waste basket, then we shall make a real conservation of our paper supply.

The Sentinel editor has been the recipient of many treats and friendly tokens of esteem the past few days, which makes us love the old town in which we have cast our lot, and her people more. Among the treats we are indebted to Mr. John G. Orton for a nice installment of water-melons and peaches, Walter Gintz of the Grocery Co., sends us fine pipes and cigars with which to "smoke the pipe of peace" with all mankind, and late yesterday afternoon that hustling young business man, Henry Mast, happened by the office just after we had finished the work of publishing two papers and a great rush of political job printing, leaving us all tired and exhausted from the day's strain, and refreshed the force with all the soda water we could drink. Other friends have remembered us in their joy rides, and various other courtesies of more or less importance have been extended during the week, all contributing to give us inspiration in the work in which we

are engaged, and making us love the good people of the community more. P. S. At this juncture in the preparation of this article a sack of peaches, coming from a tree that is said to be twenty-five years old, and a bottle of cream, comes from our esteemed lady friend, Mrs. H. F. Gillette. Let neighboring editors rage in jealousy if they wish—none of them can show so much friendly interest from the people they serve, and none of them have a town like Nacogdoches.

WORK ON OIL WELL PROGRESSING NICELY

The writer, in company with some other gentlemen, had the pleasure of visiting the oil well being drilled by the McLean-Williams Oil Association, on the Matthews tract below Melrose tract below Melrose yesterday and we found a large force of workmen very busy, and very much in earnest in putting down the drill to whatever depth necessary to bring in a great oil well.

Work had to be suspended two or three days during the forepart of the week on account of an accident in which a pipe was twisted off. A "spear" had to be ordered from Shreveport with which to get the broken pipe out, but this trouble had been overcome and work resumed.

The Sentinel has hitherto carried a report about the substantial rig in use, and the competent workmen in charge, to which reference is here made if any wish further report along this line.

The well was down about 960 feet when the accident happened, and in reaching this depth several good veins of oil were passed through. In fact, there are several that are good enough to come out if nothing better is found. Several have been placed on the ground, and every thorough test has been made, and it was found that they will never cease until the most thorough test is made.

As will be noted from recent advertising of the company, the gentlemen behind this enterprise have come to us in a very earnest mood, and have some good means which will insure the most thorough and systematic development of the oil field and other enterprises. Among other ideas entertained, it is their intention to put in a refinery here and market the finished product for the reason that the oil here is of a superior grade and a big loss would be sustained in marketing it with the common grade oils which pass through the pipe lines. Of this feature The Sentinel will have more to say in subsequent issues, not having the space to spare today. In the meantime we invite the attention of readers to the big advertisement of the company elsewhere in the paper, in which a share of the stock and participation in the enterprise is offered to Nacogdoches people, not as a matter of necessity, but for the purpose of extending it a shore in whatever good fortune that may come and enlist the moral support of the community.

Mr. J. H. Openshaw, who was employed with the postoffice here for some time, leaving several months ago for Arkansas, has returned and will resume work with the postoffice again Monday. His family will come in about a couple of weeks, and they will again take citizenship with us. Mr. Openshaw was one of the most competent and obliging employees of the postoffice ever had, and won for himself many friends who will be rejoiced to learn that he is returning to the work, and with his family to citizenship.

AN APPRECIATION.

To the Voters of Nacogdoches County:

I wish to thank the many friends of Gov. Hobby for their loyal support on last Saturday, and assure you that I appreciate what you have done, and thank you on behalf of Gov. Hobby.

I have a message from Gov. Hobby asking me to thank his many friends of this county for their work in his behalf and say to them that his utmost efforts will be put forth to make Texas one of the greatest governors this state has ever had, and that his only ambition is to serve this state in a way that will be creditable to it and himself.

I wish to thank those who have acted as chairmen for us in the various precincts, and say that if it had not been for the efforts put forth by us all in one united effort, the result might have been different, but it was a pleasure to work with such a loyal bunch, as you showed on every instance untiring determination. And lastly, but not by any means the least, I wish to say to the ladies of this county that I have not words sufficient to tell you just how glad I am to welcome you into the political arena of the state, and you have demonstrated your ability to go to the polls and do credit to your state with judgment that has characterized you for time immemorial, and it was a pleasure to see with what ease and certainty the ladies took to voting, as there was no confusion, but absolutely perfect order and unity.

Asking all to lay down the political fight and join me now in furthering the united cause of the Allied Nations in the war, I remain,

S. M. ADAMS,
Chairman of Hobby County Organization.

PARIS AFTER THE SMOKE CLEARS AWAY

(By Associated Press)

"Roll 'em along, boys! Keep 'em going. Everbody's got to do something!"

"Little by little things are coming quieter. The fires die down. The Archies stop. Here and there a working party still continues its labor in the ruins. Someone is missing, and they want to get him out of a collar. Now the tocsin sounds again this time with slow, stately, measured beats. This is the "All's clear" signal. No more enemy planes are flying between here and the English coast.

People come out of their cellars and go home. A few cautious souls are busily putting sheets of paper and pieces of bedding across their broken windows to keep out the dreaded "bombardier." Now and then there is a small group in a doorway, recounting experiences.

The Boche has dropped more than one hundred bombs tonight many of them of the 660 pound size. The net damage is not very great. A few houses destroyed, many windows broken, a few victims—very few, but at too many; a few holes blown in the streets, some trees uprooted in the streets, and some pansy beds obliterated.

"I imagine that back in his quarters, the Boche escadrille commandant, after sadly cataloguing his own wounds, is writing up an account of his glorious night's work for the edification of the reader of the 'Kolonischeitung.' His ductile pen is reeling off: 'The earth reeled and rocked and while rows of buildings went down like card houses; the light of flames showed panic-stricken crowds surging through the streets toward the open country; the railroad depots were levelled to the ground and many munition dumps were blown up, and several fires were seen to break out in the barracks and military warehouses.'"

PRESSING NEED FOR TUBERCULOSIS HOSPITALS

(By Associated Press)

NEW YORK, July 25.—Pressing need for immediate increase hospital facilities to accommodate tuberculous persons, said to number more than 1,000,000 in the United States, is emphasized in a statement issued here today by the National Tuberculosis Association. In the efforts to provide such increases, it was asserted, the expenditure involved would be kept to a minimum during the continuance of the war. The Association announced it was cooperating, in this connection with the Capital Issues Committee of the Federal Reserve Board. The statement reads:

It was recently reported that in connection with the conservation of capital for war purposes the Capital Issues Committee would probably not approve anything except the most inexpensive temporary structures in the way of new hospital buildings for the care of sufferers from tuberculosis. Our Association and the 1,500 or more state and local tuberculosis agencies throughout the country were of course greatly concerned over the report. We feared it might mean the holding up for the duration of the war of any adequate increase in hospital and sanatorium accommodations. As something more than 1,000,000 persons are now suffering from this disease in the United States, and as the present shortage in accommodations has been rendered more acute by the problem of providing proper care for men drafted and discharged from the army on account of tuberculosis, any ban at this time on new buildings of proper character would be extremely serious.

"We have now gone into the question with the Capital Issues Committee, however, and find that its rulings in this matter are by no means so rigid as first understood, and that the attitude of its members is one of open-mindedness regarding the actual needs in this field, and willingness to adjust their policy accordingly.

"The Committee, according to information at hand, does not pass upon and indeed has nothing to do with building projects which do not require the issuance of bonds or other securities, or those which can be covered by capital issues not exceeding \$100,000. It also appears that other building operations, not thus exempted, will not necessarily be limited to temporary structures, but that permanent structures may be approved if the difference in cost is not too large or if special circumstances, such as a rigorous climate, make it necessary.

"These facts have now been communicated to the tuberculosis associations of every state. Plans and estimates as to the most economical types of permanent buildings and of certain practicable temporary structures have been requested, to submit to the Capital Issues Committee. Our Board of Directors has adopted a resolution expressing the desire of tuberculosis agencies to work heartily and earnestly with the government in taking the course which will do the country the most good with the least harm."

The Sentinel is in receipt of a letter from Mr. Jno. P. Davidson advising that he is leaving Marlin, where he and his brother have been several weeks taking the hot baths, for Abilene, where they will spend several weeks on the ranch. He says that they have not enjoyed the improvement they had hoped for.

Ugh! Calomel Sickens; Salivates!

Please Try Dodson's Liver Tone

I am sincere! My medicine does not upset liver and bowels so you lose a day's work.

Calomel loses you a day! You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into sour bile like dynamite, cramping and sickening you. Calomel attacks the bowels and should never be put into your system.

When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel just remember that your

druggist sells for a few cents a large bottle of Dodson's Liver Tone, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and can not salivate.

Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tone straightens you right up and you feel great. Give it to the children as well.

NEW ARTESIAN WELL HAS BEEN BROUGHT IN

Mr. A. G. Lesterjette, the driller, has brought in another very fine artesian well for the city, which more than doubles our water supply of pure artesian water.

The new well was drilled down at the light plant, near the other well, and a fine vein of water, which is thought to be stronger than the former but of the same variety, was found at a depth of about 435 feet.

This will be good news to the entire city, and is cause for rejoicing. It is doubtful if there is another town in the country that can boast so good a water supply as we now have, both in quality and quantity, and the council is to be congratulated for going ahead with the development which brings this adequate supply of pure artesian water to us.

SUBMARINE GROWING VERY INEFFECTIVE

(By Associated Press)

PARIS, July 29.—The growing ineffectiveness of the submarine warfare is indicated by official figures just published by the French government, relating to French traffic in the Mediterranean.

According to these figures, not fewer than 2,000 vessels, chiefly merchantmen, with a total tonnage of 3,500,000, crossed the Mediterranean between February 21 and April 1, unopposed. The average number of ships coming to or departing from France was 240.

The submarine attacks nevertheless had so diminished in force that only one in four resulted in damages to the ships, and one out of every ten attacks was entirely fruitless. The result has been that the water traffic has steadily increased from January to February to March.

OLD LINE COLLECTS MUCH INSURANCE IN TAXES

(By Associated Press)

AUSTIN, July 26.—Old line insurance companies doing business in Texas collected premiums from policy holders amounting to \$13,484,948.43 during 1917, according to data compiled by Commissioner of Insurance and Banking C. O. Austin. Of this amount, \$7,233,411.63 was collected by companies organized outside the state. The records also disclose that there were 425,904 old line life insurance policies in force in Texas in January first last.

CO. TAX COLLECTORS TO FURNISH NUMBER PLATES

(By Associated Press)

AUSTIN, July 26.—County tax collectors who under the law now register motor vehicles and furnish the owner with seals will also provide the registration number plates, according to a decision of the state highway department. Under the former system the number plates were obtained by the motor vehicle owners from the state highway commission. The new plan is expected to facilitate the work of distribution of the plates.

TEACH RUMANIAN PEASANTS TO TAKE A BATH

LONDON, July 26.—(By the Associated Press Correspondent recently in Rumania.)—"A meal for a bath" was the American Red Cross's method of teaching the Rumanian peasant population the importance of cleanliness. The Red-Cross operated a large bathhouse in Jassy and every person who patronized this institution once a week received a season ticket to the American Canteen kitchen. This entitled him to a square meal every day and clothing and medical attendance.

As a result of the scarcity of food, baths became very popular in Jassy, and the American Canteen kitchen, which had the reputation of serving the best meal in Rumania, soon found itself with over 2,000 regular patrons daily.

A bath at the American bathhouse included not only a scrubbing with soap and water, but a haircut, a skin treatment with petroleum, a medical examination, and a complete sterilization of clothing.

The sterilization of clothing was accomplished in a machine known as a "disinsector," which has become a national institution throughout Rumania since the war. The disinsector, which was introduced into Rumania and perfected by an American doctor, Lieutenant C. B. DeForrest, of Ann Arbor, Mich., who went to Rumania when the first outbreak of typhus occurred and later joined the American Red Cross unit on its arrival in Jassy.

In the disinsector, clothing and blankets are either baked or steamed for a sufficient length of time to kill all insects. As typhus is communicated solely through these agents, the most essential step in combatting the spread of the epidemic was to get rid of the insects. The DeForrest disinsector was adopted throughout the Rumanian army, and the medical staff of the army repeatedly declared that its use saved the troops from an epidemic which at one time threatened to decimate the ranks.

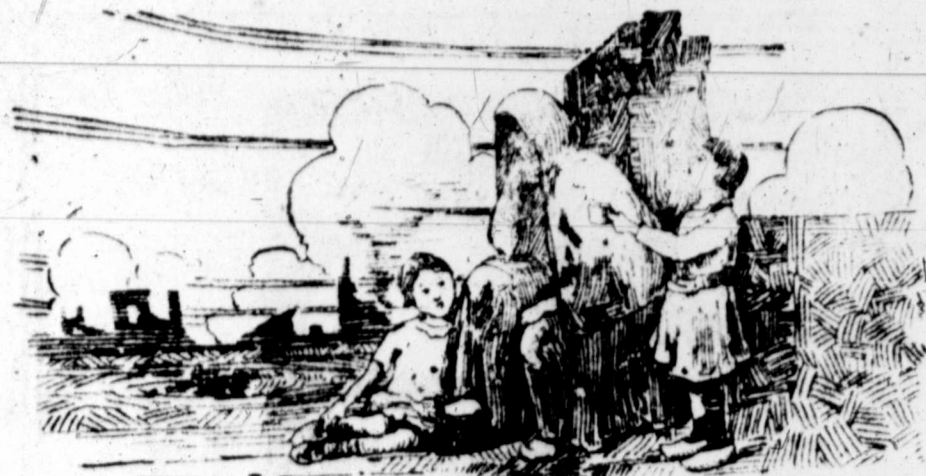

The only season ticket which was ever issued by the American Canteen kitchen without the customary certificate of cleanliness from the bathhouse authorities was Ticket No. 1, which was issued to Queen Marie. She visited the kitchen several times and on each occasion partook of the regular meal for the day, consisting of soup, dried fish or meat, bread and butter and tea.

NEW SAW MILLS.

The Sentinel learns that two new saw mills are being erected in the county, one by Weatherly and Wortham at the Nacomiche creek, near Garfison, and the other by Parrott & Prince at Chireno.

Supple at Sixty
Age and ripe experience mean happiness and usefulness when mental and bodily powers are preserved by keeping rich blood in the veins.
Scott's Emulsion creates rich blood, warms the body and stimulates rheumatic humors. It all-food imparts strength to both body and mind.
Beware of cheap imitations.

What Are You Doing?

If a list were made of all those in Europe who have been killed on the field of battle, and another of those who have died of starvation since the war began, the latter list would be the longer, according to figures made public by the Federal Food Administration for Texas.

The total number of deaths in action up to the first of the present year is approximately 4,250,000, while the total number of those who have died from famine has been conservatively estimated at 4,750,000.

Can we grasp the tragedy in these figures?

Over four and one-half million men and women, young mothers and boys and girls, have been sacrificed to the War-God. They have died in anguish, unknown and unsung.

Perhaps the memory of their deaths would not forever fill us with horror if we could convince ourselves that those who died of starvation had not died in vain, that by their sacrifice they have pushed the Allies a little nearer victory. But the loss of these lives will have been appallingly useless UNLESS their deaths shall serve as a spur for us to redouble our efforts in food conservation and save the remaining millions in Europe who turn to us each day, pleading, "Give us this day our daily bread."

What are you doing to prevent the further sacrifice of human lives by starvation?

If you are not saving wheat flour and sugar, using substitutes, so that these vital necessities may be shipped to those suffering millions over there, you are shirking your patriotic duty and your responsibility, for other deaths by starvation will be heavy.

CONSUMPTION OF ICE TO BE REDUCED

FOOD ADMINISTRATION TELLS OF WAYS PRODUCT IS WASTED

Refrigerator of Ice Cream by Maker May Be Forbidden—Cracked Ice Should Not Be Used With Drinks

There are many ice economies that the householder should practice in the conservation of ice, announces the Federal Food Administration for Texas, and first of these is that refrigerators should be kept clean and doors kept tight and the drip pan kept in place. The door of the refrigerator should never be opened except when necessary, and then for the shortest possible space of time, no hot foods should be placed in the refrigerator.

Cracked ice should not be put in glasses to cool drinking water and other beverages. A bottle of water kept in the refrigerator or water drawn from the water cooler will furnish a sufficiently cool drink.

Crushed ice should not be used in serving fruits, salad, seafoods, radishes, celery, tomatoes and so forth. These articles will be found perfectly palatable when chilled to the temperature of the refrigerator.

The Federal Food Administration has discovered it is among those concerns which the greatest quantity of ice. They have naturally been able to buy at the low price and their employees (forgetful of ice value) have generally been most wasteful in their handling of this perishable article.

Saving Ice Urged

A reduction in the use of ice by ice cream manufacturers naturally follows from the diminished production brought about by the restrictions on the use of sugar. But a further very considerable saving of ice can be effected by certain economies which the Food Administration insists upon.

It has been the observation of the Food Administration that ice cream manufacturers generally carry great quantities of crushed ice on their delivery wagons, they sometimes go so far as to mix salt with the ice, which increases the melting several fold. This crushed ice and salt is used to repack the ice cream of their customers. The ice in the wagon is not protected, is carelessly handled in the distribution and is not conserved by the customer because it costs him nothing. It is sometimes found that the ice cream wagons on returning to the factory will make no attempt to put the returned ice in a protected place, but will allow it to melt in the wagon or be swept into the yard.

These reports are from the extreme cases, but the number of them the Food Administration receives from over Texas indicates that a large quantity of ice can be saved to a community by stopping the abuse of the ice cream trade.

It may be necessary to stop altogether the practice of the ice creamer refilling, free of charge, his customer's cabinets or tubs. If the customer is obliged to buy the ice in solid form from the ice cream wagon or from the ice dealer and do his crushing and packing, he will be vastly more conservative in his use of ice for this purpose.

Too Many Retailers

In some neighborhoods there are too many people retailing ice cream and thus an undue amount of ice is required in proportion to the amount of ice cream sold.

It is also a suggestion of the Food Administration that where a moderate amount of ice cream is sold only one or two flavors should be carried and a corresponding small cabinet be used. Restaurants, hotels and clubs can reduce their ice consumption by cutting down the variety of food they serve and thus reduce the number of refrigerators in service. Serving crushed on fruits, seafood, salads and so should certainly be stopped. Ice

should be omitted from the drinking glasses.

Extraneous use of ice is also reported as occurring at many fish markets, where the ice is likely to lay around unprotected. Strict care is insisted upon by the Food Administration in such establishments.

ARMY HAS OWN WAY OF BUYING CANNED GOODS; HOME CANNERS SHOULD NOT SEEK TRADE

The army and navy are at times embarrassed by offers of canned goods, vegetables and so forth by good-intentioned housewives and other citizens. In some instances such supplies are offered to the army for sale or to be distributed gratis to soldiers in the cantonments.

Administrator Peden is advised that neither the army nor navy has the privilege of accepting these gifts, nor are they in a position to purchase them, in view of the fact that their purchases must be made according to specification and inspection. This explanation is made, not to discourage home canning and preserving of foods, but that the public may understand that purchases made by the army and navy must be through the proper channels.

DAIRYMEN NO LONGER REQUIRED TO PAY MINIMUM CHARGE

Shippers of milk and cream throughout the country were relieved of the minimum charge of 50 cents on each shipment, established June 25 by the Railroad Administration when a general increase of 25 per cent in rates went into effect.

This was effected through the cooperation of the Food Administration with the Railroad Administration, which had received protests from dairymen that the minimum, which had to be paid on shipments even so small as a single can of milk, no matter how short the haul, would bear a hardship, particularly in suburban territory near large cities.

The minimum will be done away with entirely as soon as the tariffs can be amended so far as milk and cream are concerned, but the general increase will stand.

REVOKE LICENSE OF WEST TEXAS DEALER

Effective July 10, the United States Food Administration announces that the license of L. Poteat, West Texas, as wholesaler, jobber and retailer of wheat, oats and corn, has been revoked by the Food Administration. This action followed a hearing of the complaint charging that Mr. Poteat had wrongfully refused to accept two cars of oats shipped to him by the Clement Grain Company of Waco.

The hearing was conducted by special examiner appointed by E. A. Peden, Federal Food Administrator for Texas, and the enforcement division announces that the revocation will continue in effect until further notice, and no application for re-issuance of license will be entertained by the Food Administration prior to September 9.

NEW LICENSE REQUIREMENTS FOR ALL GINNERS AND ALL COTTON SEED DEALERS

All ginnors, buyers, agents, dealers or other handlers of cotton seed not already licensed by the United States Food Administration who handle yearly between September 1 and August 31 more than 20 tons of cotton seed were made subject to license by the president's proclamation of May 14, 1918. The effect of this extension of the license regulations was to include practically all the cotton seed business.

FEDERAL AID FOR TEXAS ASKED IN LABOR SHORTAGE

STATEWIDE CONFERENCE AT SAN ANTONIO RESULTS IN SENDING MESSAGE TO SECRETARY OF LABOR AT WASHINGTON.

Government is Asked to Raise Immigration Ban on Mexican Labor; Mexican Editors Entertained.

Food Administrator Peden has returned from San Antonio, where he was present at a conference on the labor situation, the result of which was a message to William B. Wilson, secretary of labor, urging that for a period of 90 days the immigration laws as to Mexican labor be immediately suspended and the bars be let down except as to the health requirements.

The conference brought out the fact that a small group of Texans in Southern Texas alone required 40,000 Mexican laborers in addition to those they already have, and that the need is manifold over the entire State.

As an interesting climax to the request that the present restrictions on Mexican labor be removed, Mr. Peden had an opportunity to address the Mexican editors who were recently received in Washington by President Wilson. These editors were in San Antonio on their way back to Mexico after a tour of the United States. In his address following a luncheon at the Guster Hotel Mr. Peden read the message from the provost marshal general of the army to the Food Administration with reference to Mexicans of military age engaged in labor in the United States and the generous rulings provided for their military exemptions.

Administrator Peden also wired Herbert Hoover, United States Food Administrator, requesting that Mr. Hoover take the matter up as a military necessity with the Department of Labor the need of additional labor at once in order that the farmer, who was urged to plant larger crops, may not be discouraged to do likewise in 1919.

HOUSEWIVES URGED TO USE LESS SUGAR IN CANNING

Food Administrator Gives List of Sugarless Recipes

SUGAR MUST BE SAVED!

A teaspoonful means nothing, you say. Yet a heaping teaspoonful means a great deal. For 100,000,000 people in the United States makes a pile as big as the Roosevelt building—enough to supply the entire coal needs of the nation.

The loss of sugar and sugar ships by German submarines, a shorter crop than was anticipated, and the transfer of 50,000 tons of shipping allotted to other purposes in order to meet the requirements for Belgian relief have caused the sugar situation again to become serious. Sugar now available for home canning must be sold only in accordance with instructions of the local representative of the Federal Food Administration.

The modern airtight container and the development of scientific canning methods in the home have done away with the absolute necessity of using sugar as a preservative.

Fruits—Without sugar: Acid fruit juices can be neutralized with carbonate of lime, sterilized, bottled without sugar.

Fruit juice can be sterilized without sugar, bottled and used for jelly making when sugar is more plentiful. (Both of the above can be used as beverages, flavoring, in puddings and in ice cream.)

Every fruit can be completely and successfully sterilized with boiling water by increasing time of cooking, that is processing. Sugar may be added when served if desired.

Fruit butters. A tart butter is made without sugar. Sugar may be added when served if desired.

Drying of fruit will save sugar.

With sugar: Pectin test. 1. Jelly. After cooling the cooked fruit juice to room temperature test it to determine the amount of pectin present. This test gives some idea of the proper proportion of sugar to juice. Add one tablespoon 95 per cent grain alcohol to an equal volume of cooled fruit juice and shake gently. (If denatured alcohol is used, remember it is poison. The effect of the alcohol is to bring together the pectin in a jellylike mass. If a large quantity of pectin is present, it will appear in one mass or clot when poured from the glass. This indicates that equal quantities of sugar and juice may be used. If the pectin does not slip from the glass in one mass, less sugar will be required. The material used in this test should be destroyed. A fair proportion is three-fourths cup of sugar to one cup of juice. If the pectin is thin and much separated, one-half cup

HOW TO SECURE MEXICAN LABOR, THAT'S THE IDEA

Mexicans of Military Age Coming to Texas to Work Won't Have to Register—Peden Confers.

Labor for all crops in Texas, and especially labor for caring for the cotton crop, is the biggest problem facing industrial Texas today. For a number of days Food Administrator Peden has been in continuous conference with representative citizens from the cotton growing sections of Texas, particularly on the subject of Mexican labor, and after exchanging many telegrams with Washington, Mr. Peden received the following message from the Food Administration on the attitude of the war department upon Mexican laborers of military age:

"Provost marshal general of war department rules as follows:

"Mexican citizens of military age who have not been residents of the United States and who temporarily come into this country after this date are not required to register and are consequently not liable to military service. A Mexican citizen of military age who has previously resided in the United States, but who has not registered and who returns to the United States, is required to register, but the selective service law and regulations provide for his complete exemption from performing military duty unless he waives his right thereto."

Under a ruling of June 29 Mexicans can be brought into the United States for agricultural purposes for the period of the war. The head tax is suspended as well as the literacy test. Applications for the importation of Mexican labor should be made to the United States Employment Bureau of the Immigration Bureau.

The laborers must be provided with housing and sanitation as provided by the State law. In the absence of a State law the housing and sanitary conditions must be approved by the United States Department of Labor. Further information in this connection can be secured from W. E. Hall, director United States public service reserves.

HOUSEWIVES URGED TO USE LESS SUGAR IN CANNING

Food Administrator Gives List of Sugarless Recipes

sugar allowed for each cup of juice will be sufficient. By employing this test sugar can often be reduced. In this case the jelly texture will be fine, less rubbery and the flavor better.

2. Preserved fruits. The preservation of fruits without sugar is a common household practice and depends upon accurate following of the method. Excess sugar will frequently form crystals and impair the appearance and quality of the product. A thin syrup made with four parts of water to one part sugar may be used for all fruits. If more sugar is desired it can be added at time of use either on the table or in general cookery.

3. Jam and marmalade. These require a larger amount of sugar than canned fruits and are used for special rather than general purposes. If made use less sugar than "half and half" and cook longer.

4. Sweet pickle, watermelon rind pickle, etc. These require a large amount of sugar on account of the presence of vinegar. Except for the sugar, they are no more food value than pickles. They could well be omitted this year.

Note—Canning without sugar will give good results provided that the time of cooking with sugar is about doubled.

Avoid the Use of Sugar

1. Can vegetables freely. These require no sugar.

2. Encourage drying of fruits and vegetables.

3. Storage of fresh fruits, such as apples, winter pears and quinces, in a cool cellar, saves sugar.

APPOINT PUBLIC EATING PLACE STAFF OF DIRECTORS

Henceforth the principal work of the Federal Food Administration for Texas with the hotels and restaurants will be performed through the District Directors in the fifteen districts of Texas. The purpose of the District Director is to make him responsible for instructing the proprietors of hotels and restaurants and other public eating places in his district.

When an appointment of a District Director to Hotels and Restaurants is made the work is handled by the District Administrators. The districts and the men responsible in them for the proper instruction of public eating places line up as follows:

(By John H. Regan, Director of Education.)

We return thanks to THEE, ALMIGHTY GOD, for these bounteous gifts which Thou art about to bestow upon us.

It is a simple prayer, and still on the lips of millions who have not divorced themselves from normal dreams and normal goals; though I take it that the words do not ascend as freely today in an abundantly blessed Texas as was the case before the soul became distracted with automatic and mechanical things. Certainly wherever pride has been laid low, sorrow has cast its mantle over the cradle and the marriage bed, and want and destitution have replaced ease and luxury, the utterance does sometimes well again to the lips at the breaking of bread, the drinking of the cup of milk, and the contentment in a bit of meat—man's dependence upon something more than himself.

I can well believe that the Belgians hold for America something akin to Divine Worship; that the French, in throwing flowers upon our boys, throw them with the same sense of a something religious that they place flowers before the altars of their cathedrals; and when our men marched through London, Town—there was surely the feeling that there walked with each of them an invisible presence, which was the cumulation of the prayers of English widows and orphans.

In the backwash of things as most of us are—only remotely in touch with the wretched misery and suffering across the seas, it seems to me (and so it should seem to everyone) that all these requests and admonitions to save and conserve are unnecessary. The more knowledge that a French Peasant and his household lower their head in thanksgiving for what we have sent them through "going without" seems to me the greater conceivable compensation for the paltry business of "going without." We seem an arduous time getting the viewpoint, nor do I see why a multiplicity of praying, shattering and killing are required to intensify the fact that frugality during these times is a magnificent privilege, rather than a bovine acceptance of an obligation.

EAT PEACHES, IT WILL SAVE SUGAR, SAYS PEDEN.

It requires approximately 15,000,000 pounds of sugar a month to feed the 6,000,000 people of Texas, based on the ration of three pounds per person per month. The three pounds ration is based on sufficient to maintain strength and health. In the Riberta peach crop of East Texas, now being shipped to market, there is approximately 3,775,000 pounds of each ripe or sugar not matured. If the people of Texas were to consume this one fruit crop alone they would save over a third of a month's ration.

In 1916 the Texas peach crop amounted to 2,869,000 bushels, in 1917 to 3,382,000 bushels, while the crop for 1918 is estimated at 4,000,000 bushels. The average yield per acre is an average of 12 bushels, or an acre of the territory of Texas by \$8,900,000. The price is better this year than in either 1916 or 1917.

The peach crop in 1918 represented a value of \$2,869,000 and for 1917 \$2,985,400.

It is also interesting to know that the tomato-crop in Texas for 1918 showed shipment of 721,000 crates and 1917 of 1,152,000 crates. The 1918 crop is a little short of 1917. The value of the tomato crop for 1918 was \$523,700, and for 1917 \$1,036,000, as it has been reasonably estimated that the 1918 tomato crop will bring in at least \$1,000,000.

In the matter of being and securing quick transportation of the peach and the tomato crop the Federal Food Administration has given the growers every assistance within its power, and the results are that the distribution has been up to the expectation of the shipper in all things.

PROFIT MARGIN SET FOR SALE OF WHEAT FLOUR AND SUGAR

Wheat flour and sugar are two commodities over which the Federal government has complete control. Fair use to observe the margins of profit set by the United States Food Administration. Jacob Kulla, a whole sale flour dealer of New York City, recently a fine of \$15,000 to be paid the American Red Cross. Kulla was charged with selling large quantities of flour at profits in excess of the margin set by the Food Administration. The trial disclosed that he sold flour at margins of from 75 cents to \$1.65 a barrel. The margin allowed by the Food Administration for flour handled by the wholesaler and jobber per barrel is 50 to 75 cents. The retailer is allowed from 80 cents to \$1.20 a barrel profit and 1 cent a pound on broken packages.

This flour must be bought with an equal amount of substitutes and the prevailing retail price is 87 to 87 1/2 cents.

LOW GRADE SUGARS FOR MAKERS OF SWEETS ARE ORDERS OF FOOD DEPT.

All wholesalers and jobbers and district and county Food Administrators have been notified, effective immediately, that no dealer handling sugar is permitted to sell sugar except Louisiana seconds and thirds to manufacturers of non-essentials who may present sugar certificates marked "Statement A."

The industries affected by this order are manufacturers of beverage syrups, candies, cereals, chewing gum, cocoa and chocolate, condiments, confections, flavoring extracts, invert sugar, syrups, soda water, soft drinks, sweet pickles and wines.

Seconds and thirds are low grade sugar left after the high grade or granulated white sugar has been extracted. Administrator Peden hopes that this is only a temporary measure, but it is absolutely necessary in order that the ordinary householder and preserver be taken care of at the present time.

FARMERS URGED TO RAISE WHEAT

May Retain Twelve Pounds a Month for Each Person in Family.

There are two distinct classes of wheat producers in Texas: those in the northern part of the State, who have been in the habit of raising wheat for commercial purposes, and those in scattered sections of the State who, beginning last year, planted sufficient wheat to feed themselves and those dependent upon them. This latter class, the Food Administration announces, should first arrange for sufficient wheat out of their crops to feed their families for the coming year on a basis of 12 pounds per month per person, also enough for seedling purposes. If they have more wheat than covers that of providing for their families and seedling to their neighbors for seedling purposes exclusively, thereby putting more farmers in a position to produce their own bread for the coming year.

It is the policy of the Food Administration, states Administrator Peden, "to have all farmers, wherever possible, plant sufficient wheat for their own consumption and those dependent upon them. If there is any other impression it should be corrected at once."

"The public may rest assured that the United States Food Administration will do everything it possibly can for the farmer producing wheat for home consumption, and the only reason the were restricted in the use of wheat last year was that the crop was so short that it was absolutely necessary to go over grain of wheat to the mills in order that this government could take care of its obligations in the various navy and allied countries.

"Because of the fact that there would be a considerable waste and spoilage if the quantity retained on farms was ground at once, the Food Administration requires that out of the 1919 wheat crop only sufficient wheat of the 12 pound per person per month allotment be ground to last until October 1. When that period has passed additional grinding is in order.

"Both the commercial wheat producer and the small producer for family use and seedling separate of the same plan as far as the 12 pounds per person a month goes. The exception is only in that the small producer may distribute his surplus among his neighbors for seed."

MERCHANTS IN CORN BELT HAVE FIFTY-FIFTY RULE MODIFIED

In all the corn producing south of the State both the farmer and the merchant serving the farmer have a quantity as to how the 50-50 rule buying wheat flour and wheat substitutes might be modified so not work a hardship upon the having home-grown substitute, the merchant who, because of buying from the wholesaler, have to carry substitutes on hand, which there would be no market difficulty, and the solution which bring a sigh of relief to the merchant in the corn belt, is a 50-50 rule.

"The farmer with meal grain, corn raised by himself is permitted to purchase flour from the without substitute, but he must have the merchant a statement to that the meal was ground from grown corn, then the merchant is permitted to sell flour without substitute.

"The merchant may take this statement he receives from the farmer forward same to the jobber from whom he purchases flour. The jobber or mill will then turn flour against same without substitute. In other words, the same effective now as were enforced the fifty-fifty rule was first

HALTOM & GIBBS, Publishers

TELEPHONE 214

HOW THE ELECTION NEWS WAS REPORTED

The forces of the Herald and Sentinel have been working in close harmony this week in order to furnish the public with the election news as early as possible. The entire force of each plant went to work last Saturday night at midnight and in about three hours had out an extra edition of the Sentinel containing the returns from the county as they had been reported up to midnight and state returns up to 3:00 a. m. In addition, the extra carried the news of the big German retreat and other matters of local news. The editors of this edition estimated Hobbs' majority in the county at 800. This was just exactly three more than his majority and a very close forecast from the returns on hand when it was made. Gathering, tabulating and adding the election returns is a big job. In addition to doing this reports were made at intervals to the Texas Election Bureau which gathers the state returns from all over the state. District candidates were interested in their races in the county and frequently reports were made to them showing their standing. In the gathering of returns the editors of the Herald and Sentinel were assisted by several other parties, and both papers extend their thanks to Geo. H. Davidson of the Farmers & Merchants Bank and Jno. Thomas of the Stone Fort bank for their services and their adding machines. Both papers worked Tuesday and Wednesday assembling the complete returns from the twenty-five precincts of the county. These returns have been produced in tabular form and appear elsewhere in the paper. Through the close cooperation of the local newspapers the people of the county have been furnished with the returns right up to date which would have been impossible otherwise.

OUR TOBACCO GROWERS SHOULD TAKE NOTICE

Experiments of the past and present have proven that the soil of Nacogdoches county is especially adapted to the growing of good tobacco. This being true, the following correspondence by the Associated Press should be of especial interest to present and prospective tobacco growers of the county. San Juan, Porto Rico, July 27. Tobacco planters who have held their crops to the present time in all probability will get as much for it as the high prices realized last year when prices made a new high record for Porto Rico. Tobacco buyers during the past ten days have suddenly realized that the crop which originally they expected to be the largest in the history of the island had suddenly shrunk and that instead of being 55,000,000 or 40,000,000 pounds it is not now estimated to exceed 10,000,000 pounds. Prices have been advancing so that a good many buyers now figure the purchases made during the past week have been on a basis which will make the price as high if not higher than last year's crop, which averaged in many instances more than 40 cents a pound or more. Hardware Co. which is almost as large as a wash tub which was grown by Mr. Elisha Roberts at his home in this city. It is, indeed, "some pumpkin," and is worth the trouble to call and see.

WOMEN CAN VOTE AGAIN

index reported that many people laboring under the opinion that the women will not be allowed to vote in the second primary. This idea was started which malicious intent or born of peace we do not know, but at least we hasten with late information that the provision of the new law allow the women to vote in all the primaries. It is promoted by politicians, but they cannot the women general election because it would take a constitutional amendment to change the law. It is to their interest to have the primaries decided with legislation. The women of the ladies who drove to the first primary and participated in memory and it is to their interest and the hope of future generations as the duty they of more candidates they supported.

FROM JNO. H. PERKINS.

To the Voters of Nacogdoches County: I want to express to you my sincere gratitude for the good, loyal support you gave me on the 27th. My friends were good to me. To all I want to say how much I appreciate their loyalty. Now I go into the second primary (August 24th) with a lead of over 100 votes over my opponent, Mr. Parmley, and I especially appeal to the supporters of Miss Cavin, Mr. Martin, and Mr. Hines (who were voted out in the first primary) for their consideration and support on August 24th. My honorable opponent and I have agreed to make a clean, fair and honorable race, just as we have in the past. I intend to sling NO mud. If elected or defeated I want a CLEAN, CLEAR, conscience. The ladies will be allowed to vote on August 24th, just as they did July 27th. I want all my good friends to help me again in the 2nd primary and as many of the friends of my losing opponents as possible. Remember the day, August 24th, and vote for me and I'll make you a good county clerk.

Sincerely,
JNO. H. PERKINS.

Surgeons agree that in cases of cuts, burns, bruises and wounds, the first treatment is most important. When an efficient antiseptic is applied promptly there is no danger of infection and the wound begins to heal at once. For use on man or beast, Borozone is the ideal antiseptic and healing agent. Buy it now and be ready for an emergency. Price 25c, 50c, \$1.00 and \$1.50. Sold by Stripling, Haselwood & Co.

A CARD OF THANKS.

I desire to sincerely thank the voters who supported me so splendidly in the first primary. It would be impossible to see the women personally and solicit their vote at the second primary, but I will appreciate it if they will investigate my record and see if I am worthy of their support. I would be glad to be investigated anyway, my public record, my private life, my views of prohibition and all other moral issues and on religious matters. Respectfully,
F. D. HUSTON.

When there is hard work to do in hot weather Prickly Ash Bitters proves its worth as a stomach liver and bowel purifier. Those who use it stand the heat better and are less fatigued at night. Price \$1.25 per bottle. Stripling, Haselwood & Co., Special Agents.

CALLED FOR EXAMINATION

Capt. Walthall requests The Sentinel to announce that all who have enlisted with his new company of infantry, and those wishing to enlist, will meet with him at the court house in this city next Friday afternoon for the purpose of physical examination. Capt. Walthall hopes to have his company recruited to full strength by this time, and those wishing to join should file their names with him or call at the armory at once.

FROM N. B. HALL.

To the Voters of Nacogdoches County: I take this method of giving expression of my thanks and assurance of my appreciation for the most excellent vote you gave me in Saturday's primary by which you allow me to hold the office of district clerk for the second term. The campaign was a most pleasant one in which there was no bitterness engendered, and we came out friends for all of which I am profoundly thankful. In further appreciation, I shall give you the very best service in my power, and shall ever remember you kindly for the further confidence you have reposed in me.

Gratefully,
NORMAL B. HALL.

Don't suffer the misery of indigestion when you can get relief from Prickly Ash Bitters. It eases pain and drives out badly digested food. One dose does the work. Try it. Price \$1.25 per bottle. Stripling, Haselwood & Co., Special Agents.

SWIFT ITEMS.

Special to The Sentinel. SWIFT, July 30.—After being absent for some time will greet your pages with another letter of news items from this vicinity.

We are in great need of a down-pour of rain at present. We received a light shower last night and our hopes are that we will get some more soon. Our crops are fairly good regardless of the extreme dry weather we have had.

Mrs. Smith and children of Mabank, Kaufman county, are spending several days in our community, with friends and relatives.

Mrs. Lizzie Rucker returned home last Monday from a ten days visit with relatives in central Texas, Hill and Navarro counties.

A Baptist meeting is in progress at this place, being conducted by Rev. Dave Nix.

Several of our people attended the baptizing services at Martineville last Sunday afternoon.

The candidate's political rally, which was held with us last Wednesday night drew a large crowd. All seemed to enjoy the occasion.

When you yawn a good deal in the daytime, feel dull, achey and want to stretch frequently it is an unmistakable symptom of malaria, and unless you do something at once you are booked for a spell of chills. Herbi is a chill medicine that will prevent or cure that disease. I drives out the impurities on which the malarial germ thrives, strengthens the liver and cleanses the bowels. Price 60c. Sold by Stripling, Haselwood & Co.

Mr. and Mrs. Ike Parmley and son, Hagan, left Monday in an automobile for Abilene where they will visit the family of Mr. Will Parmley.

When the baby is suffering the double affliction of hot weather and bowel disorders, the remedy needed is McGee's Baby Elixir. It reduces the feverish condition, corrects the stomach and checks looseness of the bowels. Price 25c, and 50c per bottle. Sold by Stripling, Haselwood & Co.

FROM I. D. PARMLEY.

I take this method of thanking the voters of Nacogdoches county both ladies and gentlemen, for the fine vote given me on Saturday last, and earnestly solicit your support and influence for the coming primary, on the 24th day of August.

To those who supported Mr. Martin, Mr. Hines, and Miss Cavin, I want to express upon you that I would take it as a distinct honor for you to investigate my claim for your support and when you come to cast your ballot at the coming primary, cast the same for me, and assuring you that you will never have cause for regret.

I present to you as before that my ability to perform the duties of County Clerk is open for your investigation. Experience, ability, and pursuing for the past several years that kind of work demanded in the County Clerk's office, my claim for your support.

Note and work for me and you shall never have cause for regret. Yours respectfully,
I. D. Parmley

Not to Be Ignored.

The kidneys are as important to good health as the heart, lungs, stomach or any organ of the body. Lame back, swollen joints, sore muscles, rheumatic aches and pains, are most often signals of kidney trouble. Foley Kidney Pills give relief to kidney trouble sufferers. They banish bladder irregularities. Stripling, Haselwood & Co. dwl

No. 4 Kentucky cane mill 10 1-2-foot copper evaporator: mill mounted on truck, all in good repair, for sale cheap. M. A. Buchanan, Nacogdoches.

When your brain is dull and you cannot hold your own in a test of wit among your fellows, it means your liver is torpid and your stomach and bowels full of bilious impurities. To brighten up your mental faculties and make you feel right, Prickly Ash Bitters is the remedy you need. It clears the brain and braces the body. Price \$1.25 per bottle. Stripling, Haselwood & Co., Special Agents.

Meet Me Face to Face AT LEE & LEE'S

During Lieut. W. W. Lee's absence I shall be in charge of the store where you have been buying so much of your household necessities. During all my experience in other cities of Texas, Longview, Palestine, etc., I have never seen a store with a more complete stock. The prices asked for most staples are actually lower than those I have been able to name in those places. The buying facilities that Lee & Lee has developed in market centers are very exceptional. The past policy of your favorite store will be followed and bargains will be the rule and not the exception. Let me call your attention to the following money-saving prices:

- Toilet Soaps, per bar . . . 5c
- Talcum Powders . . . 15c
- Face Powders, per box . . . 15c
- Corset Covers, each . . . 35c
- Teddies, each . . . \$1.00
- Biscuit Pans . . . 15c to 40c
- Ribbons, big value, yard . . . 10c
- Plates (6 in set) a set . . . \$1.00
- Cups and Saucers, a set . . . \$1.10

Meet Me Face to Face
(Signed)

Cure for Dysentery.
"While I was in Ashland, Kansas, a gentleman overheard me speaking of Chamberlain's Colic and Diarrhoea Remedy," writes William Whitelaw, of Des Moines, Iowa. "He told me in detail of what it had done for his family, but more especially his daughter who was lying at the point of death with a violent attack of dysentery, and had been given up by the family physician. Some of his neighbors advised him to try Chamberlain's Colic and Diarrhoea Remedy, which he did, and fully believes that by doing so saved the life of his child. He stated that he had also used this remedy himself with equally gratifying results."

EXECUTIVE COMMITTEE IS CALLED TO MEET

The Democratic Executive Committee of Nacogdoches county is called to meet with me at the court house in the city of Nacogdoches next Saturday, August 3, at 10:00 o'clock, for the purpose of canvassing the returns of the recent primary, and for the transaction of such other business as may properly come before the committee.

R. B. Walthall,
County Chairman.

A Bilious Attack.
When you have a bilious attack your liver fails to perform its functions. You become constipated. The food you eat ferments in your stomach and causes nausea, vomiting and terrible headache. Take three of Chamberlain's Tablets. They will tone up your liver, clean out your stomach and you will soon be as well as ever. They only cost a quarter. dw

Mr. V. H. Williams, of the Williams-McClean Oil Association, arrived home this morning from a business visit to San Antonio.

WITH THE MILITARY BOYS.

At the drill of this company Saturday, Capt. Thomason delivered an address to the boys in the course of which he told them that the probabilities now are that they would go to France and that if there were any who did not want to go the limit wherever duty called he wanted to know it now. Those who were ready to go the supreme limit were then asked to take two steps forward, and before he had hardly finished the sentence every boy in the troop leaped forward and responded with a whoop which would dispel any doubt if any existed as to their loyalty.

Capt. Walthall had ninety-five signed up for his company of infantry up to this morning, and hopes to have a hundred with today's drive. He is calling his boys to come in Friday afternoon for physical examination and hopes to have his company recruited to full strength by this time. Like the company of cavalry, he is securing a fine bunch of young fellows who are ready for any service. After the roll is complete and the physical examination is over, the new company will have their measures taken for uniforms and will begin drill practice after the manner employed by the cavalry boys, and hope to be ready to go into service together.

To Improve Your Digestion.
"For years my digestion was so poor that I could only eat the lightest foods. I tried everything that I heard of to get relief, but not until about a year ago when I saw Chamberlain's Tablets advertised and got a bottle of them did I find the right treatment. Since taking them my digestion is fine."—Mrs. Blanch Bowers, Indiana, Pa. lanch owners, Indiana, Pa.

Health About Gone

Many thousands of women suffering from womanly trouble, have been benefited by the use of Cardui, the woman's tonic, according to letters we receive, similar to this one from Mrs. Z. V. Spell, of Hayne, N. C. "I could not stand on my feet, and just suffered terribly," she says. "As my suffering was so great, and he had tried other remedies, Dr. — had us get Cardui. . . I began improving, and I cured me. I know, and my doctor knows, what Cardui did for me, for my nerves and health were about gone."

TAKE CARDUI The Woman's Tonic

She writes further: "I am in splendid health. . . I owe it to Cardui, for I was in dreadful condition." If you are nervous, run-down and weak, or suffer from headache, backache, etc., every month, try Cardui. Thousands of women praise this medicine for the good it has done them, and many physicians who have used Cardui successfully with their women patients, for years, endorse this medicine. Think what it means to be in splendid health, like Mrs. Spell. Give Cardui a trial.

All Druggists

Strayed—One red and white pided cow, medium size horns, wearing medium size brass bell. Left my home about 15 days ago. \$10.00 for information leading to recovery. —Hobo Miller, Lufkin, Rt. 4, Box 38. 11-4wp

666 cures malarial fever.

Mr. B. J. Strong of Mt. Enterprise came down yesterday for a little visit to his son, Hon. Beeman Strong, and family.

666 contains no alcohol, arsenic, nor other poisonous drugs.

Mr. and Mrs. Percy Blount have gone to Paris, Mo., where they will spend a vacation with the relatives and old friends of Mrs. Blount.

666 cures chills and fever.

Mrs. Gillette is leaving tonight for Georgia, where she will visit her children who are spending the summer there, and other relatives and friends.

666 cures headaches, biliousness, loss of appetite or that tired aching feeling, due to malaria or colds. Fine tonic.

Mr. Will Pierson of the post-office has returned from a pleasant vacation, the bulk of which he spent with his parents at Waco.

666 cures by removing the

Mrs. E. F. Beall, who has been in the city visiting the family of Prof. F. A. Beall the past week, left Sunday for a visit to relatives in San Antonio. Mrs. Beall's husband is with the forces in France.

666 cures bilious fever.

COW HIDES WANTED.
We are paying 15c per pound for green hides. Prices subject to change without notice. Green hides should be salted heavily as soon as possible, and shipped by express. Put one tag with your name and address inside of the sack and one on the outside.

We also handle horse hides and
A GOLETERNEK & CO.

LIVELY INTEREST IN PRECINCT CONVENTIONS

Nacogdoches' three precincts held conventions Saturday afternoon to select delegates to the county convention which will be held next Saturday at 11 o'clock. The East and West boxes held very quiet conventions, but in the South box a nice little scrap arose over the delegation to be sent to the county convention.

The following delegates were elected from the East box: Beeman Strong, Tom Maroney, S. M. Adams, Jim Hufson, Arch Price, W. S. Davis, O. M. Gibbs, Mrs. Tom Summers, Mrs. W. E. Price, Mrs. C. W. Galt, John Schmidt, B. J. Key, Mrs. W. F. Wilson, Mrs. A. B. McKnight, Geo. P. Parks, Mrs. Chas. Smith, Geo. Rainbolt, Dr. E. R. Tucker, Louis Muller, D. Brown, Ed Gaston, Henry Millard, Wynnan Windham, J. D. Ellington, Arthur Seale, Mrs. Frank Sharp, and W. B. McKnight.

The convention in the West box was called to order and every delegate in the room was elected a delegate to the county convention. The wives of the married men were also included as delegates. The convention also adopted the unit rule in casting its vote at the county convention. The following were present: F. H. Tucker, W. E. McMillian, John Baugh, F. A. Beall, T. J. Lloyd, G. H. Matthews, Ben Tucker, D. White, Sam Hayter, M. B. Lawson, J. L. Sturdevant, C. M. Webber, J. W. Christian, Eugene Turner, W. A. Murphy, Sam Stripling, T. J. Kinsey, L. A. Sifton, W. H. Haney, W. E. Hasley, A. B. Baugh, Alex. Grigsby, B. I. Burke, J. S. Lavender, Will Grigsby, C. H. Bowden, R. R. Barvin, T. Tifford, W. E. Perkins, Eddie Rowlett, W. S. Boeson and Eugene Blount. W. E. Perkins was elected chairman of the precinct for the next two years.

In the South box Capt. Dougherty called the convention to order. A committee composed of J. C. Harris, V. E. Middlebrook, and J. B. Doney was appointed to draw up resolutions. The committee reported the following which was unanimously adopted:

It is the sense and sound opinion of this convention that the United States and her Allies are engaged in the most sacred and colossal war for God and humanity that the world has ever known.

Resolved therefore, that we in convention assembled give our most hearty endorsement to the acts of our President in matters pertaining to the war, and to his entire administration against Germany and to a citizen pledge our faith and allegiance to him to the limit, till the Allied armies shall have conquered despotism and when the emblem of freedom or Democracy shall wave unchallenged over the nations of earth.

Resolved Second, We view with glory and pride the chivalry and achievement of the American soldiers in France and pledge to them our loyal support by rendering to the government behind them our aid and co-operation in all the measures designed for their protection, equipment and support, and if it takes self denial to the degree that brings hunger, we will still be behind them.

Judge Middlebrook then read a list of delegates he proposed to send to the county convention. After reading the list June C. Harris read a list which he moved be added to those proposed by Judge Middlebrook. Considerable discussion arose over the two delegations. The question was finally settled by the adoption of the following resolution submitted by Judge Middlebrook:

Resolved, that it is the sense of this convention that it accepts the lists of delegates as offered by June C. Harris and V. E. Middlebrook and elects them as delegates to the county convention with instructions that the delegates vote as a unit on all matters and things coming before said convention in accordance with the majority vote for governor in this precinct, in things pertaining to the governor's race and as they see fit on other matters. This has special reference to resolutions, etc., offered at said county convention. The following named gentlemen were then unanimously elected delegates to the county convention:

George Meisenheimer, P. M. Sanders, R. P. White, George Muckleroy, Frank Lewis, Ras Thrash, W. G. Reid, Jack Varner, Charles Williams, Worth Whited, Ed Muckleroy, A. J. Spradley, Will Stone, Charles Hoya, R. T. Weaver, Robert Burrows, Bob Monk, J. Fred Feazell

and V. E. Middlebrook. The business of the convention ended by the election of Geo. Meisenheimer, precinct chairman for the next two years.

Precincts are allowed one delegate for each twenty-five votes cast in the last election. There were no votes present in the East and West boxes. There were three present at the South box convention. This was a strongly Ferguson convention, and the only precinct which failed to send lady delegates to the county convention.

NACOGDOCHES BUSINESS COLLEGE.

Several desirable locations have been submitted to Prof. Walden, for the "Student's Home," from which a selection may be made. Owners are invited to submit options.

NEW EQUIPMENT.
The college will open its September term with elegant, new equipment, and every necessary aid for first-class work. It received last week quite a number of new typewriters, and more are to follow.

LARGE ATTENDANCE.
It has been decided to continue for the opening of the fall term the remarkable low rates, which have enabled many young men and women of limited means to complete a business or shorthand course, and go out into desirable positions.

COMBINED BUSINESS AND SHORTHAND COURSE.
You can take the combined business and shorthand course in W. N. B. C. for less than either one of these courses elsewhere.

80 OUT OF EVERY 100.
Eighty per cent, or eighty out of every one hundred of the leading court reporters and stenographers of the United States—use the system that Walden teaches or one of its modifications. Nothing better! Don't be deceived.

You save half in time and money—and secure a desirable position by coming to Walden. Write for Special Offer. **WALDEN'S Nacogdoches Business College**

HOGS WANTED.
40 or 50 head of good, healthy pigs from six to eight months old. See me. 2td2w. J. W. BYRD

FROM CAMP TRAVIS.
Sergeant Earl W. Williams has been selected for the Officers' training school, and has received a five day furlough to visit home before training.

Private A. S. Zeve of the 12th Bn., 165th Depot Brigade has been appointed corporal. Corporal Zeve has only been in the service about a month but has proven himself very capable.

Private George L. Langford has been transferred to the United States Guards, Galveston, Texas.

MARRIED-AT COURT HOUSE.
Mr. Clifton Strong and Miss Lula West, a couple of nice looking young people from the Libby community, were married at the court house this morning. Esquire Frank Huston officiating. The happy couple belong to good families of the county, and The Sentinel joins their friends in congratulations and good wishes.

INDICT TWENTY-ONE WITH STEALING ARMY FOOD.
(By Associated Press)
NEW YORK, July 26.—Twenty-one persons have been indicted, charged with implication in the theft of food consigned to the army.

Miss Bess Mason, who is fondly remembered by people of Nacogdoches county for the good work she rendered as domestic science instructor while employed in the demonstration work, arrived Friday night for a few days visit to friends, and is the guest of the Cunningham family, with whom she made her home while here. Miss Mason is now at the head of the domestic science demonstration work in Bell county, where she is furnished an assistant, and is doing a great work.

They Let Him Sleep Soundly

"Since taking Foley Kidney Pills I believe I am entirely cured and I sleep soundly all night." H. T. Stripling.

Take two of Foley Kidney Pills with a glass of pure water after each meal and at bedtime. A quick and easy way to put a stop to your getting up time after time during the night.

Foley Kidney Pills also stop pain in back and sides, headaches, stomach troubles, disturbed heart action, stiff and aching joints, and rheumatic pains due to kidney and bladder ailments.

Gainesville, Ga., R. F. No. 2. Mr. H. T. Stripling says: "For ten years I have been unable to sleep all night without getting up. Sometimes only a few minutes after going to bed I'd have to get up, and I tried everything I heard of for the trouble. Last year I tried Foley Kidney Pills and after taking one bottle I believe I am entirely cured and I sleep soundly all night."

Stripling, Haselwood & Co.
FROM MISS JENNIE HARRIS.
On last Saturday night I lost the office I asked the people of Nacogdoches county to give me. I shall not call it defeat for I do not consider it as such—I merely lost the employment I sought in this time of emergency, all of which I regret, but in the attempt I found out the true quality of the friends I already knew and found many more I knew not of before and in this I rejoice. I fully realize that I have not the number of friends to place me in public office, but the proof of the quality of those I have is worth more than any office could possibly be, and the gratitude that floods my heart today has swamped the disappointment of last Saturday night.

The experience of the campaign I would not recall if I could, even though I saw defeat at the end. The sympathy and encouragement I met throughout the county far outweighed the unpleasantness. The battle cry of the Huns could never effect our brave boys at the front as did the shaggy brow and lowering scowl of the first man who refused to take my card, but the looks and words of encouragement and the volunteer service of those who came to my rescue more than repaid me.

I wish I could meet and personally thank every one who so kindly supported me and cheered me on, it is not your fault I did not win, and I most heartily thank you.

Yours most sincerely,
JENNIE HARRIS.

RED CROSS NEWS.

The gauze room work for the week ending July 27th, consisted of cutting the following wapes:
15,450 wapes, size 2x2.
7,825 wapes, size 4x4.
We must again urge the necessity of constant and regular attendance at the Red Cross work rooms. There is much that must be done in both branches of the work, as well as the important refugee garments. Now that the canning season is nearing its close it is reasonable to expect a good number of workers to "carry on" the task at hand. Let everyone who does not find this sewing a pleasure—if there be any such—remember that it is every loyal American woman's duty, as well.

FROM JOHN H. PERKINS

I wish to express my gratitude to the voters, both men and women, for the nice vote I received Saturday, July 27, in the Democratic primary.

I am now before you in the second primary, and I wish to urgently solicit the supporters of Miss Cavin and Messrs. Hines and Martin to vote for me for County Clerk in the second primary.

I wish to urge the ladies and gentlemen of good old Nacogdoches county to keep up their interest and to vote in the second primary in just as great numbers as they did in the first.

I wish to ask the continued, active support of those who voted for me, and to urgently solicit a careful consideration of my case by those who voted for my opponents who will not be in the second primary.

Respectfully,
JNO. H. PERKINS.

EIGHT STEEL SHIPS ARE DELIEVRED

WASHINGTON, July 29.—Eight steel ships were delivered to the government by the ship yards last week, it was announced here today.

COURT MARTIAL A CHICAGO SLACKER

(By Associated Press)
ROCKFORD, Ill., July 29.—Brent Dow Allison, a Chicago slacker, was sentenced by court martial here today, to serve fifteen years in federal prison.

The technical crime was deserting military duty.

DECIDE AGAINST INCREASING TAX PASSENGER FARES

(By Associated Press)
WASHINGTON, July 29.—The house ways and means committee today in considering the eight billion dollar bill, tentatively decided against making an increase in the present three per cent tax on passenger fares, and telephone messages.

Horace Rainbolt, who was honorably discharged from the military service after the trouble with Mexico by reason of some physical defect, is again wearing the uniform, and as happy as can be over the result. He will be with one of the local companies. Horace has been wanting to get back into the uniform ever since he had to lay it aside, which is the best evidence of his patriotism.

CARRY OFF FOUR RUSSIAN GRAND DUKES

(By Associated Press)
AMSTERDAM, July 26.—Four Russian grand dukes, Igor Constantin, Ivan Constantino-vitch and Serge Michaelovitch have been carried off by unidentified bands, according to a Moscow dispatch.

ERRONEOUS REPORT

A report gained currency Saturday that Jim Grimes had been killed in France. This morning The Sentinel called up the home of Mr. Grimes' wife to make inquiry about the matter, and was advised that they had no report to this effect, and don't know how the rumor started.

NEW SUGAR RULING.

County Food Administrator Walthall is in receipt of a message from State Food Administrator Peden, advising that, beginning with the first of August there will be a further restriction in the sale of sugar, the allowance being cut to two pounds to the person, per month.

The county administrator gives this notice in advance that the merchants may govern themselves accordingly.

FROM CLIFTON WELLS.

To the Democratic Voters of Nacogdoches County:
I take this method of thanking you for the liberal support given me in the primary on Saturday last, and earnestly solicit your support in the second primary.

If elected will do my best to make you a good Justice of the Peace and will not ask for the office for more than two terms as has been the long established custom.

Respectfully yours,
CLIFTON WELLS.

Mrs. Burns' Letter.

Here is a letter that is certain to prove of interest to people in this vicinity, as cases of this sort occur in almost every neighborhood, and people should know what to do in like circumstances. Savanna, Mo., Oct. 12, 1916.
"I used a bottle of Chamberlain's Colic and Diarrhoea Remedy about nine years ago and it cured me of flux (dysentery). I had another attack of the same complaint some three or four years ago and a few doses of this remedy cured me. I have recommended Chamberlain's Colic and Diarrhoea Remedy to dozens of people since I first used it."

POTATOES A CRISIS

(By Associated Press)
LONDON, July 29.—(British Wireless Service)—One singular outcome of the exceedingly ingly grave shortage in Vienna is the people of the Austrian capital carrying knapsacks and baskets full of potatoes into the city to bargain with the farmers for a few vegetables. The farmers will not barter their stocks for money but will barter for other food.

The price of potatoes, says the Hague correspondent of the Times, has been driven up to a crazy height. If one city dweller finds a willing seller who allows him to enter the field and dig potatoes, he would-be buyers will not be denied. Some farmers at Stammerdorf have demanded as much as six shillings for two pounds of potatoes.

ARMED GUARDS MARCH ON KIEV

(By Associated Press)
WASHINGTON, July 29.—Seventy-five thousand armed peasants are marching on Kiev, the capital of Ukraina. Serious unrest is reported.

BOMB DESTROYS ITALIAN STEAMER

(By Associated Press)
RIO DE JANEIRO, July 29.—The Italian steamer Guiseppe Garibaldi, of four thousand tons, was destroyed by explosion, two hundred miles off the Brazilian coast. The bomb was placed on board by a German agent.

AMERICANS TAKE SEVERAL TOWNS

(By Associated Press)
WASHINGTON, July 29.—The capture by Americans, of the towns of Seringes et Neales. Sergy Boecheres, beyond the Oureq, have been reported.

STRIKERS DECIDE TO RESUME WORK

(By Associated Press)
COVENTRY, England, July 29.—It is announced that following a mass meeting of strikers in munitions plants, that they have decided to resume work immediately.

SAYS RUSSIA WILL PAY HER FOREIGN DEBTS

(By Associated Press)
LONDON, July 29.—Conviction that the Bolshevik government of Russia would inevitably be overthrown and that a new Russian government would first of all, take steps to pay Russia's foreign debt, was expressed by Dr. David Soskice at a recent meeting of the holders of Russian bonds here. Dr. Soskice is confidential secretary to former Premier Kerensky of Russia.

He declared that it would require an immense amount of capital to reconstruct the great industrial and agricultural fabric of Russia. Russia, he said can only find that capital in England and America.

C. Birch Crisp, banker, said he believed the majority of the people of Russia would embrace the first opportunity to set themselves right with the rest of the civilized world.

The chairman of the meeting said it was almost impossible to ascertain the amount of Russia's debt. According to information received by the London Stock Exchange, it amounted, on January 1, 1917, to about 285,000,000 lbs. Of this, he said, the direct loans made by the state probably would amount to 1,100,000,000 lbs. In addition there were twelve municipal loans issued by nine principal Russian cities, to the amount of 20,000,000 lbs. It was not clear whether these figures included the war advances made to Russia by the allied nations. This was unofficially stated to aggregate from 400,000,000 lbs to 800,000,000 lbs.

LIVES WIFE

ing by Getting
Pinkham's
By HALL Compound.

For many months I was unable to do my work owing to a weakness which caused backache and headaches. A friend called my attention to one of your newspaper advertisements and immediately my husband bought three bottles of Lydia E. Pinkham's Vegetable Compound for me. After taking two bottles I felt fine and my troubles caused by that weakness are a thing of the past. All women who suffer as I did should try Lydia E. Pinkham's Vegetable Compound."—Mrs. J. A. ROBBERS, 420 Knapp St., N. S., Pittsburgh, Pa.

Women who suffer from any form of weakness, as indicated by displacements, inflammation, ulceration, irregularities, backache, headaches, nervousness or "the blues," should accept Mrs. Robbers' suggestion and give Lydia E. Pinkham's Vegetable Compound a thorough trial.

For forty years it has been known to cure such ailments. If you have any doubts, write for a free copy of Lydia E. Pinkham's Medicine Book.

ROY BUCHANAN WEDS AT MONROE, LA.

Roy Buchanan, manager of the shoe department at Mayer & Schmidt's store, was married to Miss Helen Horton at Monroe, La., last Tuesday.

The marriage ceremony was performed at the Episcopal church at 2:30 in the afternoon, and was attended by a few relatives and intimate friends, no elaborate event being planned. The happy couple left after the ceremony for Galveston where they will spend a few days with headquarters at Hotel Galvez, after which they will be at home in this city.

Dr. R. R. Henderson, an uncle of the bride, attended the wedding and was "best man" to the bridegroom in the exercises. Upon his return Mrs. Ellis Ivey, who had been spending some days with the family of the bride, came back with him.

The fair bride is known to a number of our people, having visited here some months as a guest of Mrs. Gus Nelson and other relatives. She is a highly accomplished, charming young lady, possessing all the sweet traits of character that go to make up the most gracious type of Southern womanhood, and she will be received by Nacogdoches people in a most cordial welcome.

Mr. Buchanan, the fortunate bridegroom, is one of our most worthy and promising young business men. He is a young gentleman of sterling integrity and moral worth who is developing into a splendid business man, and in his new relationship he will take his place with the best citizenship of the community. Upon his return a great host of friends will extend to him the glad hand of greeting and good wishes, and the friendly interest will come from people who have a genuine interest in him.

ARRIVED "OVER THERE"

Cablegrams have been received from Vincent Davidson and Jim Summers by relatives in the city announcing that the company more familiarly known as the Coast Artillery, had arrived safely in England, and were well.

GIVE "SYRUP OF FIGS" TO CONSTIPATED CHILD

Colicous "Fruit Laxative" can't harm tender little Stomach, Liver and Bowels.

Look at the tongue, mother! If coated, your little one's stomach, liver and bowels need cleansing at once. When peevish, cross, listless, doesn't sleep, eat or act naturally, or is feverish, stomach sour, breath bad; has sore throat, diarrhea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, cheerful child again. Ask your druggist for a bottle of "California Syrup of Figs," which contains full directions for babies, children of all ages and for grown-ups.

THE GLORY OF JESUS.

(By Rev. M. C. Johnson)

"Greater works than these shall ye do."—John 14:12.

Jesus Christ was unique. He was with God in the beginning before the worlds were made, yet his earthly life starts with birth in the manger at Bethlehem. He was very God, with ultimate authority both in heaven and on earth, yet he was born under the law of human life. He was born "Prince in the house of David," hence born "King of the Jews," yet he was the world's first democrat, refusing the royal purple for the white robe of lamb's wool knit by his own mother. Partial to the retreat and solitudes of Galilee, yet moved by compassion for the great multitudes and a real cosmopolitan. Stopping to embrace a child to his heart, yet carrying the burdens of a whole world upon his soul. Teaching a single man that he must be born again, yet instituting a service that should embrace the rebirth of nations, and make a new heaven and a new earth. Watching the falling sparrow, yet providing a gospel for the whole creation. Solicitous for the sanctity of the Father's house at Jerusalem, yet consecrating the whole world and ordering his apostles to teach and reorganize the universe. His miracles were many, yet he bodily taught that those of the church should be greater both in scope and importance. He did much for the world in his bodily life, but he will do much more for the world through his glorious church. We have been reconciled to God by his death on the cross, the world will be saved by his life manifested through the church.

What is Christ? The Son of the living God? Yes, but he is also the Son of Man. While he was God's anointed redeemer of the world, his divine power was exercised through his human body. That body was crucified upon the cross by sinful man. But Christ is the same today that he was yesterday, and will be so forever. He is the supreme arbiter of the ages, the ruler of time and of eternity. But that divine Christ will be hidden or manifested in his program to save the world—to order and establish peace and justice in the government and the world—to order and establish peace and justice in government and life—by the life, character and service of Christians. Christ is the only hope of the world both now and hereafter. That hope will be blighted or brought to fruition by Christians. The greatest question of the day then is "Are we really Christians?" What do you say? To be a Christian is of supreme importance to you and to the world at this time. It means a big job, requiring big people, with big minds and big hearts. Real Christians are apostolic and catholic. Little folks cannot be this kind. Their measure is not creeds but deeds; not wind but work; not hate but love. Slackers, grumblers and shirkers have no place in the program of Christ for the renewal of the world. He needs men with a faith that works by love.

This is a time for the greatest work in the world. Nations are suffering, starving and dying. Materialism is seeking to blot out spirituality. The state seeks to eradicate the individual. Heathenism and barbarism seek to supplant the right of truth, justice and liberty by the rule of power, the enfeebling inness of frightfulness, and to enrich autocracy by robbing the masses. The ultimate result would be if christianity does not muster the hosts of the Lord in defense of the downtrodden, free truth, free worship, free speech and the rights to the fruits of ones toil will all be taken away. Should the military program of the Kaiser prevail, civilization will be turned back a thousand years. Our citizenship, which is the gift of heaven would be gone. Marriage in love would give place to breeding for the state. We would labor as did the Israelites for the Masters of Egypt. But worst of all, instead of being eternal and enduring qualities, we cling to God's word, faith

What Do You See?
Your mirror will reflect a charming complexion if you use Soul Kiss Face Powder.
Meyer Bros. Drug Co., St. Louis

Soul Kiss
Face Powder

hope and love would perish from the earth. The president has issued the slogan: "Work or Fight!" And it is the greater work that is now needed—also the great fighting praying, sacrificing, serving and suffering. No nation can now be neutral. Neutrality has perished. The world is on fire, an civilization is at stake. Paul once said, "No nation liveth unto itself." This is true of us all. There is no middle ground. Jesus said, "He that is not for me is against me." So, the man, the institution, the church, the nation, or any other thing under the heavens which refuses to help any and every man and association and force to win this war gives positive aid to armed forces, the materialistic philosophy and the damnable distortion of religion and home-life which are proclaimed by the Huns. Work or fight! It is the call of your country, the cry of the nations, and, I honestly believe, the demand of high heaven. The man who fails to give money will be branded, the man who fails to cooperate religiously with Christ's greater workers will be banished spiritually, and those who take occasion to profit, exploit and evade will be accursed now and forever.

This is the time for the greatest sacrifices, in the world. Nothing you have is too sacred to offer for the world's liberation. God so loved this same suffering world that he gave his son for it. Therefore, give your sons, your daughters, your time, your work, your money and your prayers for the holiest cause the world ever knew. It is the supreme sacrifice, but the opportunity which gives it to you and he offers the greatest joy time and ages, earth or heaven ever witnessed. The greater works of Christians now, means the greater joy of all the nations of the whole world always.

This is the time for the greatest revival in the world. Let us be true to God and humanity now and the winds of the heavens will be opened and we shall receive such a blessing as there will not be room enough to receive. It is coming. When war is vanished from the earth, when the pacts for an everlasting peace shall be signed, and when the shouts of great joy shall go up to God from all the nations, will you and I have the supreme satisfaction of knowing that we did our best for this greater life to all mankind? On my dear people, let us all be true today—this greatest day the world ever had. Christ expects every true Christian to do his duty to the full and to the limit—the uttermost. Keep the home fires burning, keep your heart right with God, keep your cash account right with your government, keep the faith with your boys and my boy in the armies in France. Yes, keep the "Faith that works by love" with that great galaxy which no man can number and which compose the armies of the living God, and that great day of God which will witness the fact that "All the nations of the earth become the nations of our Lord and his Christ," will be the greatest day your immortal soul ever witnessed and greatest day the world saw. Yes, keep the faith that works by love, and it is the only way to do the "greater works" mentioned by Christ and which alone will liberate all the world. Amen.

STEAMSHIP CAPTAIN HAS A DIFFICULT PROBLEM

(By Associated Press)

NEW YORK, July 28.—Transporting a steamship 458 feet long 50.2 feet wide and with a depth of 25 feet through a canal that is only 44 feet wide, accommodating a draft of 14 feet and an extreme length of 65 feet, with the cutting of the ship in only one place, is a problem that the United States Shipping Board believe it has worked out in order to bring from the Great Lakes for war service the steamship Charles R. Van Hise.

The Van Hise is one of 190 lake vessels which the United States took over on the Great Lakes when America entered the war. Forty eight of these were brought out before the closing in of ice last winter, and 35 more subsequent to the opening of navigation last spring. Many were too long for the Welland Canal to accommodate—and the problem of transportation was easily solved by cutting the ships into amidship, bulkheading the open ends and rejoining at Montreal and Quebec for the Atlantic voyage to American ship yards.

With the exception of the Van Hise those now coming out which are too long for the canal locks are being handled the same way, but in this vessel there was encountered the problem of a breadth of beam six feet greater than the width of the canal. Ships of the size of the Van Hise—a 9,000 ton deadweight carrier—are needed; it was impossible to widen the locks; and the engineers of the Shipping Board were instructed to solve the problem.

This they have apparently done by planning, after the sophas been cut in two amidship to overcome the handicap of length, to bulkhead up the two halves, remove masts, funnels and deck houses, water tight the deck, place steel pontoons on one side of each halved hull, fill the other side with water and tip each half on one edge. This will give to each half a breadth measuring from deck to keel, of 25 feet allowing sufficient room to tow the sections through the locks.

Work of getting the Van Hise ready for this trip is underway and it is expected the floating will be done late in August, which would allow sufficient time to put the ship together and arrive in the Atlantic before the advent of cold weather and ice blockades.

2,000 UNIVERSITY STUDENTS HAVE ENLISTED

(By Associated Press)

AUSTIN, July 26.—In a review of activities of the students of the University of Texas in connection with the war program, the board of regents announces that over 2,000 students and former students of the institution have enlisted in the military service and that over half this number are commissioned officers. Fifteen of the number have already paid the supreme sacrifice, losing their lives on the battlefields of Europe.

The school of military aeronautics, which gives instruction in ground-work for the aviation service, in the United States, France or Italy.

TEXAS TO FURNISH MUCH LUBRICANT THIS YEAR

AUSTIN, July 26.—According to present indications Texas will furnish a considerable quantity of lubricant for airplanes this year. This lubricant will be in the form of castor oil.

R. N. James, castor bean expert of the United States department of agriculture, calling on the state agricultural department, said reports indicate Texas' 13,000 acres of castor beans will make at least a fairly good yield. The crop now is nearing maturity.

MINNESOTA'S FIRST FLYING FIELD VERY BUSY

(By Associated Press)

MINNEAPOLIS, July 25.—Snuggled among a fringe of trees, Minnesota's first regular army flying field, located about one mile north of Minneapolis, is already alive with activity and aviators are daily soaring over the broad stretch of farm land through which the Mississippi winds.

The field comprises 540 acres and was donated to the government during the war by Earl Brown, son of a former Minneapolis miller. Brown has taken a leading part in war relief work.

Although the field equipment has not completely been installed, this work has progressed rapidly. Twelve tent hangars have been erected on one side of the field and each contains a modern training airplane. Living and sleeping quarters for the mechanics have been installed and testing work is being carried out.

Only straight flying was permitted after the field was opened for aviation use and it is understood that no "trick" work will be allowed for several weeks. Major W. R. Weaver, commandant of the training school for aviation mechanics, in the Midway district, St. Paul, is in charge of the field.

Fifteen minute flights inaugurated the war work and a number of mechanics are in training for aviator's commissions.

The Garrison News has changed owners, Mrs. D. May being the new publisher. Mrs. May was long agent for many years, later postmistress, has had much experience in public work, and is a very competent business woman in whose hands the paper will continue to flourish. Captain Walthall disposed of his paper in order to give his whole attention to his military duties as captain of the new company of infantry now being organized. He has given his people a most worthy little paper, and the press of East Texas will welcome him back into the ranks when he gets through with his part of the working in "licking kaiser."

THICK, GLOSSY HAIR FREE FROM DANDRUFF

Girls! Try it! Hair gets soft, fluffy and beautiful—Get a small bottle of Danderine.

If you care for heavy hair that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and nutritious, try Danderine. Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff. You can not have nice heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots famish, loosen and die; then the hair falls out fast. Surely get a small bottle of "Danderine" from any drug store and just try it.

YOU will not have the best if you fail to get EUCALINE for Malaria, Chills and Fever. The general tonic properties restores strength and vitality to the weakened body. Guaranteed. Price 60c

LIKE AN ELECTRIC BUTTON ON TOES

Tells why a corn is so painful and says cutting makes them grow.

Press an electric button and you form a contact with a live wire which rings the bell. When your shoes press against your corn it pushes its sharp roots down upon a sensitive nerve and you get a shock of pain.

Instead of trimming your corns, which merely makes them grow, just step into any drug store and ask for a quarter of an ounce of freezone. This will cost very little but is sufficient to remove every hard or soft corn or callus from one's feet. A few drops applied directly upon a tender, aching corn stops the soreness instantly, and soon the corn shrivels up so it lifts right out, root and all, without pain. This drug freezone is harmless and never inflames or even irritates the surrounding skin.

FROM MATT MUCKLEROY

To the People of Nacogdoches County:

I want to thank you for the nice vote you gave me in the primaries. I made an honest, clean race, and I believe that you supported me because you thought I was the man for the place. I sincerely thank you for the support you gave me.

Respectfully,
MATT MUCKLEROY.

GLYCERINE MIXTURE FOR APPENDICITIS

Nacogdoches people can prevent appendicitis with simple backthorn bark, glycerine, etc., as mixed in Adler-i-ka. ONE SPOONFUL flushes the ENTIRE bowel tract so completely it relieves ANY CASE of sour stomach, gas or constipation and prevents appendicitis. The INSTANT, pleasant action of Adler-i-ka surprises both doctors and patients. Leaves stomach clean and strong. Stripling, Haselwood & Co.

FIFTEEN MILLION BALES OF COTTON TO HANDLE

The government estimates this year's cotton crop at fifteen million bales. The records show there is a surplus of four million bales of cotton to be marketed. A great number of men who have graded cotton have joined the colors. Somebody must take their places in order to handle this enormous crop. It requires four to six weeks to qualify. If you act quickly, you can be qualified to handle this year's crop. The A. & M. College of Texas, and the Bureau of Markets of U. S. Agriculture Department has seen fit to establish several cotton grading stations in the state to assist the farmers in having this cotton properly graded, claiming that there will be a saving of from \$10.00 to \$40.00 per bale on the crop. If there is such a difference in grades of cotton according to the government, surely the young men and women should prepare themselves immediately. When we say women we say so, based on the fact that there are several women taking out cotton classing, now realizing what an opportunity is open to them. The cost of the course is \$30.00 including samples and material for the cotton grading proper, and the average time from four to six weeks.

In order to get in time for the coming cotton crop, write, wire, or phone for information and our free catalogue. Tyler Commercial College, Tyler, Texas.

FROM HERMAN SEALE.

To the Voters of Precinct No. 4: I desire to express my grateful appreciation for the splendid vote I received on the 27th of July, in my race for commissioner of Precinct No. 4.

To those who voted for and supported me, I am indeed grateful, and want to solicit the support of all in the coming primary, which will be held on August 24th, and I assure you that no one will ever have cause to regret a vote cast for me.

Sincerely,
HERMAN SEALE.

HOGS WANTED—From 75 lbs. up C. N. Kendrick, Melrose Texas. 2wp

MRS. FLATT, AGED 71 GAINS 25 POUNDS

Suffered 39 Years and Spent Fortune Trying to Get Well—Before Taking Tanlac.

"I feel better than I have in years and have actually gained twenty-five pounds since I began taking Tanlac," said Mrs. Juan Flatt, seventy-one years of age.

"For thirty years," she continued "my stomach was in a very bad shape. My appetite left me entirely and the little I forced myself to eat filled me with gas which affected my heart so I could hardly breathe and pained me so at times I would almost faint. Then, too, for the past few years I have been bothered with my kidneys and some rheumatism, and my troubles altogether just about got the best of me. My back and right side hurt me so I have and right side hurt me so bad at times I could hardly help screaming with pain. I have suffered with constipation and headaches nearly all my life and I had gotten very nervous. I don't reckon anybody was ever in a much worse fix than I was and I spent a small fortune without getting more than a little passing relief.

"When I began taking Tanlac, I was flat on my back in bed and had spent most of the six months before that in bed. I had read about Tanlac but paid little attention to it until a friend begged me to try it and the results have been nothing less than wonderful. I am now on my fourth bottle and eat anything I want, even fresh meats, and take sugar in my coffee, something I couldn't do before in years. I have been relieved of constipation and headaches, the pains are almost gone out of my back and side and I sleep all night like a child. Yes, I have good reasons for praising Tanlac and I expect to keep on taking about it."

Tanlac is sold in Nacogdoches by Stripling, Haselwood & Co., and Swift Bros. & Smith, in Woden by M. J. King, in Garrison by Garrison Drug Co., in Appleby by A. J. Beck, in Douglas by Campbell & Watkins, in Chireno, and in Nat by E. M. Jarrell.

CITATION BY PUBLICATION.

The State of Texas; To the sheriff or any constable of Nacogdoches county—Greeting:

You are hereby commanded to summon John Wickware, by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, to appear at the next regular term of the district court of Nacogdoches county, to be held at the court house thereof therein Nacogdoches, on the 1st Monday in September, A. D. 1918, then and there to answer a petition filed in said Court on the 31st day of July, A. D. 1918, in a suit, numbered on the docket of said court No. 520, wherein Allie Wickware is plaintiff and John Wickware is defendant, and said petition alleging that plaintiff and defendant were lawfully married on or about the day of December, A. D. 1913, and continued to live together as husband and wife until on or about the day of September, A. D. 1914, at which time defendant did permanently abandon this defendant without just cause or provocation and since which time they have not lived together as husband and wife; that more than three years have lapsed since said abandonment of plaintiff by defendant and plaintiff herenow pleads the statute of three years abandonment.

Wherefore plaintiff prays the court that defendant be cited to appear and answer herein and upon a final hearing hereof she be given judgment dissolving said marital contract which still exists, for cost of suit, and general and special relief, both in law and equity as she may be justly entitled to receive and will ever pray.

Herein fail not, but have before said court, at its aforesaid regular term, this writ with your return thereon, showing showing how you have executed the same.

Given under my hand and the seal of said court, at office in Nacogdoches, this the 31st day of July, A. D. 1918.

N. B. HALL,
Clerk District Court, Nacogdoches County.

Mayer & Schmidt, Inc.

FROM J. M. MARSHALL.

In the race for County Judge

last Saturday, I received second place. Judge Perritte and myself will be in the second primary.

While my opponent has a big lead I hope to overcome it, if possible, by your help. I got about 1300 votes in a four-cornered fight, and I thank you for this vote. I have fought a fair fight, and will continue the same, hoping it will win.

To those who did not vote for me I ask an investigation of my standing as a man, and my ability and fitness to serve you. I life, and believe that if my opponent can not serve you better than I can, you should not break the democratic rule which has prevailed in good old Nacogdoches county for the past sixteen years, by electing him for a third term, which might mean his perpetuation in office.

Trusting that you may vote for me in the second primary, I am, gratefully yours,
J. M. MARSHALL.

W. O. W. NOTICE.

Appley Camp No. 1219. To the members of this camp: You are notified to meet on Friday night, before the second Sunday in August, instead of Saturday night, as Bethel meeting will begin at that time. We urge that as many of you meet as can, as we have something to interest and we ask the manager to audit the books at that time.

We should meet earlier than we have been meeting.
G. W. FAULKNER, C. C.
A. B. STODDARD, Clerk.

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts thru the Blood on the Mucous Surfaces of the System thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and causing nature to do its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address P. J. CHENEY & CO., Toledo, Ohio. Sold by all Druggists, etc.

BOX THANKS FRIENDS

To the Voters:

While not in possession of official figures, the returns from all of the counties in this congressional district indicate that I am about 2200 votes ahead of Senator Collins, my next highest opponent, and that we will have to submit our claims for a final decision in the second primary on August 24th.

I intend to issue a more extended statement next week, but cannot delay the expression of my heartfelt thanks until that time. Permit me to say now that I feel very proud of the support given me, and am duly thankful to all who have contributed in any way to the success of my campaign before the first primary.

The Beaumont Enterprise said that the result in this race furnished one of the biggest surprises in Saturday's election, in that I ran ahead of all other candidates, when some of the political wiseacres predicted I would occupy fourth place. The loyal support of thousands of friends throughout this district made such a surprise possible. I wouldn't be fit to go to Congress if I failed to appreciate such friendship.

But remember that all our past work will count for naught unless my friends vote on August 24. That is the time when your help is vitally necessary, and I am going to depend on you. Look for fuller statement next week.

Faithfully yours,
JOHN C. BOX.

Jacksonville, Texas, July 30.

MELROSE DELEGATES. COUNTY CONVENTION

(Special to The Sentinel)

MELROSE, August 1.—The Melrose convention, of precinct No. 8 was called by presiding judge of election, Robt. Blackwell, at 2 o'clock July 27, and the following delegates to the county convention were appointed.

Frank Power, Jno. Rose, Robt. Blackwell, W. R. Stripling, Frank Smith.

C. H. MUCKLEROY,
Secretary.

From Luther Prince.

To the Voters of Nacogdoches County:

The first primary is over and the next will be held on the 24th day of August, and the race for sheriff will be between myself and Mr. Woodland.

I certainly do appreciate the vote that I received on last Saturday, and shall ask my friends to stay with me in the next primary, as this is my first term, and I believe that it is a democratic rule that when an officer makes a good officer he is entitled to the office two terms, and I have referred you to my record in the past, and shall now insist that you inquire of my record.

The time is short, but however I shall try and see as many of the voters as possible, and should I fail to see you, will thank you to do what you can for me as I really need the office, and the time is at hand when if a man's friends do not stay with him, he is lost.

I feel confident that if my friends will give me their support as they have in the past I will win the race.

Yours very truly,
Luther Prince.

Candidate for Sheriff,
(Political Advertisement)

FROM J. F. PERRITTE.

I take this method of thanking the voters (both ladies and gentlemen) of good old Nacogdoches county for the large vote given me in last Saturday's primary, and insist upon my friends to go to the polls at the next primary and again give me their support.

I earnestly solicit the friends of Mr. Watson and Mr. Smith who so loyally supported them in the first primary to give me their support in the second primary.

In fact I solicit the support of all voters, both ladies and gentlemen who go to the polls (and we should all go).

I promise you if elected that no voter will ever have cause to regret giving me their support.

Very respectfully,
J. F. PERRITTE.
