## ARTILLERY FIGHTS AND PATROL ACTIONS CONTINUE AS ARMIES PREPARE FUTURE

(By Associated Press)  
Artillery duels and patrol actions continue along the Vesle front, while the Allies and Germans make ready for future operations. The indications point to a resumption of fighting along this line within a few hours. Intense bitterness marks what little fighting there has been between Soissons and Rheims.

The American forces in Fismes, north of the river, have been subjected to a heavy bombardment of German cannons and machine guns.

Interesting reports are received from Paris concerning the future plans of the Germans. Some observers assert that the enemy will strike the British front simultaneously with an attack by the German fleet on the British fleet.

## BRITISH TODAY REGAIN GROUND TAKEN BY THE GERMANS NEAR MORLANCOURT

(By Associated Press)  
LONDON, August 7.—In attacks carried out this morning southwest of Morlancourt, the British regained ground taken by the enemy yesterday, along the Bray Corbis road, north of the Somme.

British troops at the apex of the German salient in Flanders have pushed their out posts still further on a front of two thousand yards in the Pacaut wood. A number of prisoners were captured by the British.

## WAR DEPARTMENT TO RAISE ARMY OF FIVE MILLION MEN SOON

(By Associated Press)  
WASHINGTON, August 7.—Urging the enactment of the administration man power bill extending the draft age, General March told the Senate Military committee today that the war department planned to raise an army of approximately five million men as soon as possible.

General March stated that the shipment of men over seas would be continued according to the program now in effect for the present.

While all men between the ages of eighteen and forty-five will be subject to military service, under the new law, those between eighteen and twenty will be the last to leave this country according to the information of the committee.

## GERMAN SURPRISE ATTACK ON NEW FRONT TODAY COMPLETELY CHECKED

(By Associated Press)  
PARIS, August 6.—Prisoners were taken by the French in repulse of raids by the Germans southeast of Montdidier today. North of Montdidier the allies have made progress toward the Avre, which they reached between Braches and Morisel. A German surprise attack southeast of Montdidier was checked completely.

On the Vesle front the French maintained their positions at many points north of the river despite the repeated attempts of the Germans to drive them out.

Nothing of importance is reported from the remainder of the front.

In an effort to dislodge Franco-American troops who had crossed the river Vesle, the Germans were repulsed north of the Vesle, today. French troops have reached the west bank of the river Avre, between Braches and Porisel, north of Montdidier, according to the official statement issued today.

The German long range bombardment of Paris continues today.

## FRENCH CAPTURE OIRY SALSOGNE

(By Associated Press)  
PARIS, August 7.—In the course of fighting near the river Vesle, the French have occupied the station of Oiry Salsogne, west of the bend, where the river Vesle turns northward to join the Aisne river.

## GERMAN SUB SUNK LIGHTSHIP

(By Associated Press)  
WASHINGTON, August 7.—Coming to within a half mile of the shore, a German submarine assailed and sunk the Diamond Shoals lightship, off Cape Hatteras, today. The crew landed.

## KERENSKY MINISTER ASSASSINATED

(By Associated Press)  
PARIS, August 7.—M. I. Terestchenko, minister of foreign affairs in the cabinet of Premier Kerensky, has been assassinated at Poltava. The identity of the assassins is unknown.

## DISCOVER GERMAN BORDER ACTIVITIES

(By Associated Press)  
WASHINGTON, August 6.—Activities of Germans or German Americans from the United States, across the Mexican lower California border, where a wireless plant is located, are under investigation by government agents.

## BRITISH SHIP SUNK BY SUB

(By Associated Press)  
A CANADIAN-ATLANTIC PORT, August 6.—The British schooner Gladys P. Holland, has been sunk by a German submarine. The crew landed today at a Nova-Scotian town. It is reported that the vessel was attacked yesterday morning.

## BRITISH REPULSE GERMAN ATTACKS

(By Associated Press)  
LONDON, August 6.—In an attempt to pick off British posts in the district northeast of Meris, on the Flanders front today, Germans were repulsed under British counter attacks.

## ALLIED FORCES ARE IN ARCHANGEL

(By Associated Press)  
LONDON, August 6.—Allied forces, both naval and military, were landed at Archangel, August 2, according to an official announcement made today. The landing was in concurrence with the wishes of the Russian population, and caused general enthusiasm.

## RUSSIAN, FINLAND DELEGATES CONFER

(By Associated Press)  
AMSTERDAM, August 5.—Delegates from the governments of Russia and Finland opened a conference in Berlin today for the conclusion of a peace treaty between Russia and Finland, according to advices received here.

## BUY A WAGON NOW

Get the Size and Kind You Want and Save Money Too

Late last fall "money would not buy" a wagon because no wagons were for sale at any price. Wagons are now scarce and hard to get and we believe it will be harder to find a wagon for sale late this fall than it was last fall. Prices are certain to be higher.

Wagons that we bought last November to be shipped "quick as possible" have not yet been shipped. Factory just cannot get the material and labor with which to build them.

Buy a wagon now if you want a wagon this fall. We will be glad to show you our wagons and make you our lowest prices.

## TREASURY RECEIPTS 8 MILLION DAILY FROM THE W. S. S.

(By Associated Press)  
DALLAS, August 7.—Treasury receipts from War Savings stamps have been approximately \$8,375,000 daily since July 1, Thomas B. Love, assistant secretary of the United States treasury department announces.

## BIG ADVANCES IN COTTON TODAY

(By Associated Press)  
NEW YORK, August 6.—There were sensational advances, amounting to seven dollars a bale in the cotton market here today, owing to the continued dry weather. Shortly afternoon near months were 110 to 140 points above the closing quotations of yesterday.

## ZEPPELIN BAGGED IN LONDON RAID

(By Associated Press)  
LONDON, August 6.—One zeppelin was brought down, one airship damaged, but succeeded in reaching the enemy lines, was the German toll in last night's raid on London, by enemy aircraft, according to an official announcement of the war office today.

Relatives in the city have received a message announcing that B. C. Pipkin had arrived safely in France. The young man has recently completed his course of training in Camp Bowie. His friends at the trust that he may have an interesting sojourn and return eye share of the

## GERMAN SAILORS HAVE REBELLED

(By Associated Press)  
LONDON, August 7.—German sailors at Wilhelmshaven have revolted, in a protest against the continuation of submarine warfare, it is rumored, according to a dispatch to the Express from Amsterdam. It is stated that propagandists incited the sailors to leave submarines about to leave on cruises, and attack officers. More than fifty submarine sails said to have disappeared.

Intoxicating liquors having already been driven from the state, an exchange suggests that the prohibition forces will now nail up the box.

Lufkin must spread out to accommodate her growing population.—Lufkin News.

We wonder how large the people of Lufkin expect to grow before "shuffling off the mortal coil." Behold such giants growing up across the creek!

With the arrival of the "first bale," we are reminded that the cotton marketing season is near approach in this section and with a few more showers old Nacogdoches county is going to roll up a pretty fair crop.

The press of East Texas will enter into profound sympathy with Editor Hays of the San Augustine Tribune in the loss of his dear old mother who died at her home in Minden, a few days ago at the age of seventy-three years.

Isn't it strange how the people of adjoining counties will see things in a political way? For instance San Augustine County gave more than two to one for Ferguson. Angelina gave a majority of 100 for the deposed governor, while all the surrounding counties, even including Nacogdoches, gave overwhelming majorities for Hobby.—Lufkin News.

"Keep your ear to the ground" for some big oil news in old Nacogdoches county. With so much drilling, all of a substantial nature going on, something is going to happen one of these days, or we will know that no big strata of oil abounds in this section. In the event of success, that fellow who has no interest in any of the producing well will never forgive himself for not getting in while he had opportunity; in the event of failure, he can soon live over it. Let's all take a little "chance" anyway.

In the admission that they had loaned a governor of Texas \$156,500 without security, and charged it off when they went to make up their income tax returns, we have indisputable proof that the breweries sought to control legislation in their behalf, and were succeeding in a measure, with a division of their spoils. The people of Texas have long suspected that these interests were thriving with their bribes and unholly slush-funds, and it is this condition that has built up a sentiment among the right-thinking people that they must be driven from the state. The recent admission "caps the climax" and insures that they will never be allowed to pursue business in the state again.

## CANDIDATES MUST FILE THEIR EXPENSE ACCOUNTS

All candidates, whether successful or unsuccessful, must file with the county judge by next Wednesday a statement of their campaign expenses, or else they are guilty of a violation of the election laws of the state Article 232 of Branch's Annotated Penal Code reads:

"Any candidate for any public office who fails to file with the county judge of his county within ten days after the date of a primary or general election an itemized statement of all money or things of value paid or promised by him before or during his candidacy for such office, including his traveling expenses, hotel bills and money paid to newspapers, and make affidavit to the correctness of such account, showing to whom paid or promised, whether he was elected or not, is guilty of a misdemeanor and shall be fined not more than \$200 or be sentenced to jail not more than 60 days."

## THERE'S GOOD IN EVERY MAN.

The story of Pilgrim's Progress, by John Bunyan, may be out of date in some respects—it was written about 500 years ago—but it hits off old human nature just about as effectively as if it were one of this season's best sellers.

There's one character in Bunyan's allegory who is the original "muck-raker." Indeed, he is the man who got all the later ones started—he was so taken up with his filthy occupation of stirring up the mud and the muck that he couldn't see just above him some of the most beautiful things in the world.

Modern muck-rakers do not all write for magazines. Some of them do not write at all—they just talk. And some of them don't even talk—they think the "muckiest" things about others.

Now, actually there's good in every man.

In most cases there is more good than even his best friends suspect. But his enemies are searching for the evil, and a man usually finds what he looks for. It is not surprising, therefore, that the best intentions sometimes meet with contempt and opposition.

This has its compensations, for opposition puts a man to a test, which not only brings out the best that is in him, but it develops the finer virtues. The fellow who handles the muck-rake, he who slings mud—will find that he has soiled his own hands. And in most cases it will be discovered that the filth failed to reach its mark—so the mud-slinger gets the worst of it.

It is unfortunate that the rank and file among workmen are often too ready to believe a lie concerning the men who for years have been fighting their battles, sometimes during periods when to be known as an "agitator" meant only hardship. The thousands and one victories vanish in the thought of the single error—granted that the story of the enemy is true.

There is need in the labor movement—a sn other movements—of a breath of spirit which will seek to know the best things about men and not the worst.

This was the spirit of Jesus. To Peter, who knew only too well his own fickleness, Jesus said: "Thou shalt become a rock"—sturdy, strong, firm. So he dealt with men, always, never excusing meanness, for he had only words of contempt for the hypocritical Pharisee, but seeing and loving the good that is in men. He made even the sinner realize that in Him he found a friend and a brother who was "tempted in all people like he was, and yet without sin."—Rev. Charles Steizle.

## FROM CAMP TRAVIS

Elza R. Howard, formerly of Nacogdoches and Co. 52, 13th Bn., 165th Depot Brigade, Camp Travis, has left for the artillery officers training school at Camp Taylor, Ky. Private Howard has worked hard since entering Camp Travis and all feel sure that he will make an excellent officer.

Private John Casper and Private Willie Manning have each had a turn at K. P. and guard duty, and are commencing to look like real soldiers. Private Manning has gained twenty-two pounds, and still going up. They have learned the art of dish washing, making up beds and washing out their clothes. They want their sweethearts to know these things, for when they get married they expect to relieve their wives of doing these things.

Miss Marguerite Ferguson and Miss Norma Taylor were visitors to Co. 50, and incidentally called on Sergeant S. Corneau and Corporal B. F. Peters. They had dinner at the camp and pronounced it fine. The writer fears that there will be a romance growing out of the visit as the above mentioned parties have been moon struck or something ever since the young ladies called on them. They had a call and enjoyed the visit which Co. 50 has had.

## HOW CARNLEY WAS KILLED

To Whom it May Concern: I, Goodman Mosby and Jim Hodge, both knowing Sheriff Prince in person, take pleasure in explaining how and what came about on the morning of J. W. Carnley's death, which happened May 16, 1918, five miles west of the town of Nacogdoches, in the community which we both live, and we being the only eye-witnesses of the facts as to how Prince acted during these scenes, now take pleasure in explaining this matter to the public of Nacogdoches county.

We both feel that there is some people in this county who are trying to take some undermining hold and some advantage of Prince in this campaign by using false dope in this act.

On the morning of May 16, 1918, Sheriff Prince was called over the telephone by Goodman Mosby to come out into the Lone Star community to make an investigation and arrest Orange Escoc for some threatening talks which he had made to Mr. Jim Hodge concerning the government and Red Cross affairs. It was understood over the telephone that Prince was to come to the house of Jim Hodge, where he was to meet Goodman Mosby and Jim Hodge. When Prince arrived at the home of Jim Hodge he had with him W. J. Carnley, deputy sheriff. There Jim Hodge and Goodman Mosby took out their horses from the plows and walked across the fields, showing Prince and Carnley the way to Escoc's home.

On the way going to the home of Escoc, there was some remarks made by Hodge as to Escoc being a bad negro, but Carnley and Prince both seemed to have confidence in themselves, and thought it would not be anything out of the ordinary to capture Escoc without further trouble. When arriving at Escoc's home we found the doors were closed. All of us thinking that Escoc would be locked up in the house separated, Prince going to one end of the house and Carnley to the other both Hodge and Mosby going around to the window. We were around at an old window for something like three or four minutes when Mosby walked around to the end of the house where he saw Carnley running down through the field something like 150 yards from the house. Mosby followed to Carnley, inquiring if he saw Escoc, and Carnley motioned his hand to come on, so we three—Mosby, Hodge and Prince—made a run in the way following Carnley. We ran for something like 150 yards, when Prince, who had managed to get in ahead of the other two men, saw a trail leading across a branch place, called to Mosby and Hodge to go across and come down on the other side, and that he would go on, following Carnley and head the negro off. When Prince, running on, following Carnley, gained up to where he was within about 100 yards of Carnley we all heard three shots fired. Prince being the only man on the side of the branch where Carnley was, was the only man that could see Carnley fall. Prince ran on up to where Carnley's body lay. Still nobody had seen Escoc except Carnley. As Prince ran up to where Carnley was lying, the negro threw his gun on Prince, and Prince, being quick with his pistol, shot the negro through his right hand which deadened his arm, and for that reason took his gun down in his left hand, and then he turned to make his get-away.

When Escoc ran back into the opening across the branch from where Prince was, he came out into the opening to where Goodman and Mosby began firing upon the body of Escoc. Escoc then made a run through the brush trying to make his escape while Prince and Mosby both were firing at him. After Prince had emptied his gun, which he had in his possession, he then took the gun from his dead deputy's hand, and crossed the branch, following, and firing at the negro until he had followed him something like 100 yards to where Escoc went into a thick undergrowth of bushes. Neither of us having any more ammunition we went back to where the body of Carnley was lying dead and decided the best

## the body of Carnley from the scene.

We then later were accompanied by several other men, with guns and dogs, but had no luck finding Escoc. We both, Hodge and Mosby, endorse Prince, and believe that he did everything in his power towards catching this negro in this instance, and believe that he did everything that could be expected of any man, and we neither of us believe that Prince was afraid or excited in this transaction, and we both, after seeing him tested in this case, are giving him our support towards helping elect him again sheriff of this county.

We are glad to explain this transaction. We remain, Sincerely,  
J. L. HODGES,  
G. B. MOSBY.

## JAPAN BUSINESS MEN OPPOSE SIBERIAN ORDER

(By Associated Press)

TOKIO—The apparent tendency by Japanese business men to oppose intervention in Siberia has been reflected in business generally here. The stock market has been oppressed with the idea of Siberian mobilization. Trading has fallen off and many shares have weakened. At times when it appeared that Japan had at least temporarily tabled the intervention question the market has rallied, becoming active with short covering, but the general investment public has remained strictly cautious showing disposition to sell at advancing prices.

Late in June the foreign trade fell off. The United States trade fell off. The United States imports virtually stopped Japan's growing shipment of skins and leathers. The American trade ban was enlarged so as to stop also Manila's export of hemp to Japan's braid industry will be reduced to an insignificant position and Great Britain's removal of its ban on hemp braids would come to naught.

## CAMPAIGN STATEMENT OF J. C. BOX

### CAMPAIGN STATEMENT OF JHON C. BOX

To the People:

You have approved my candidacy by choosing me as one of two out of five candidates before you, and indicated a preference emphasizing your approval by giving me a substantial plurality over my remaining opponent. I thank my supporters for their help, and the entire citizenship for its courteous treatment. As I appear before you for your final decision, I make this statement for your information.

### Life History and Record

I was born 6 miles north of Crockett on Hammons Creek, in Houston County, Texas, 47 years ago. James S. Hogg was the first candidate for governor for whom I voted. W. J. Bryan received my first vote for president. I was Democratic Chairman of Angelina county at the age of 25. Have served as precinct chairman, county chairman, member of the State Executive Committee for my party, and have worked in its campaigns and never wavered in devotion to its principles or organizations.

I began to work for prohibition when a boy of 16, during the campaign of 1887, and have continued in that contest until now, taking part in various campaigns serving as a member of the Statewide Prohibition Executive Committee, helping to enforce the law and never opposing it in court or otherwise.

### As a Lawyer and Public Servant

At the age of 18, I expected to become a minister and did some study and work in that line. At the age of 21, I found that my tastes, talents and duty did not lead in that direction and before completing the required course of study or receiving Father's orders, took up the study of law and was admitted to the practice at Lufkin at the age of 22, since which time I have been constantly engaged in the practice of law. I served two terms as County Judge in my county some twenty years ago, have served several terms as mayor of my town at a salary of \$2 per month, which did not pay for per cent of my expenses, during which time we planned and contracted for our system of waterworks to be owned by the public and which has proven a success financially and otherwise. I have served several terms as chairman of the Jacksonville school board and have been connected with the erection of remodeling of all our school buildings.

I believe in the principles and other great churches, and have engaged actively as a layman in their promotion for the last 25 years as a lay officer, delegate to annual and quadrennial conferences, member of its educational commissions and as trustee for school, college and university.

I have not been a professional politician or standing candidate for office, but I have been neither silent nor idle when moral, educational, industrial or political interests were to be promoted.

### As to Representing Corporations

For 20 years or more, I have usually represented one of the banks of my town regularly, and have done some work for others. I have done some work as the retained attorney for ice and light companies, oil mills, and other local corporations, and have represented my city in some important litigation. For several years I received a substantial salary as attorney for railway companies, none of which expected, asked or received political service. Preferring a general practice among the people of my county and section. I severed all connection with railway companies about ten years ago. Recently I have performed some unimportant professional service for the St.

### As to Passes.

When County Judge of my county 20 years ago and before the anti-pass law was enacted, I refused to receive a pass tendered me by a railway company, because opposed to the practice. I held passes while in active service of railway companies. I held some recently while doing the unimportant work mentioned above. I have not traveled a mile on a pass since this campaign opened. I will have absolutely no connection with the railroad companies or other public corporations, except possibly my local bank, if elected to congress.

My main work as a lawyer has been for small business men, farmers, laboring people, widows, orphans and the poor. Ask my people how much professional service in advice and other forms I have given to the people without charge, and how I have served my clients. The court records will show how I have handled my cases.

### Attitude Toward Labor

I am deeply in sympathy with laboring people, and believe that their organization is necessary and that their rights as individuals and organizations should be protected and enforced. I have never done or said anything contrary to this declaration. Out of fifty to seventy-five thousand pieces of literature for this campaign, all (except a few hundred printed in emergencies by a local printer, in an unorganized town) were printed in union shops and bear the union label. Whether elected with or without the full support of union labor, I will recognize its rights and give sympathetic consideration to its demands.

### Woman Suffrage

I think that Democratic principle and good public policy require that women be given full suffrage rights.

### Federal Appropriations and Public Improvements.

If elected, regardless of how particular sections may vote in my race, I shall give hearty support to all deep water and shipping interests at Port Arthur, Beaumont and Orange, which promise returns to the public commensurate with the expense involved. The right of interior regions to recognition in appropriations for public buildings and other wise will be recognized by me, if elected. Interior country roadways are becoming more and more the channels of travel and traffic, being used more and more as mail routes. The Federal Government can help town and country, commerce and agriculture, and serve all its people as distinguished from a few by aiding counties and the state in building first-class highways, which I shall advocate as far as war conditions permit.

### From the very first, I have been in sympathy with the war and its purposes as declared by President Wilson. Until these purposes are accomplished, nothing should be permitted to interfere with the war's prosecution. This conviction will control me as a member of congress.

You have already given a preferred approval to my candidacy. I thank all for their courteous consideration. I ask the continued help of those who have supported me. I respectfully and earnestly solicit the support of all others. If elected to congress, I shall be very grateful. I shall dispose of business on hand, withdraw from the practice and give your service all of my time, thought and labor. Gratefully and faithfully yours,  
JOHN C. BOX.

### STATE COMMITTEE TO MEET AUGUST 12

(By Associated Press)  
**WACO, July 31.**—Chairman V. L. Shurtliff of the state democratic executive committee announced today that the committee will meet in Fort Worth August 12 at the Metropolitan Hotel to canvass the returns of the primary election held July 27th.

Names of candidates for state offices who failed to receive majorities will be certified to the various county chairmen to be placed on the ticket for the second primary to be held August 24. The state convention meets in this city September 3 and the executive committee will meet on September 2 to canvass the vote of the second primary.

Mr. W. L. Dunlap of the Redland Hotel has returned from a fifteen days vacation which he spent visiting relatives and friends in the vicinity of his boyhood home in Arkansas, and reports a great trip. Many relatives and friends took him in their cars for rides over various sections of the country where he found good roads in place on the trails that abounded in his boyhood days, and everywhere he noted great improvement in the development of the country since he was last there some twenty-three years ago. Mr. Dunlap says that good rain had visited the particular section in which he visited, and fine crops are growing. Speaking of the changes coming with the lapse of time, Mr. Dunlap says that he met relatives who were grown and married whom he had never seen before, and many other relatives whom he used to know more intimately had crossed the Great Divide.

### SHERIFF RECOVERS ESCAPED CONVICT

Sheriff Luther Prince returned yesterday from Livingston with Jim Johnson, a negro who had been convicted for forgery and escaped.

The sheriff states that he had been on the trail of this refugee for some time, and he is glad to re-capture him.

### CONVENTION WAS STRONG PROHIBITION AND SUFFRAGE

The County Convention, in session in this city Saturday, was to all appearances unanimous for Hobby, prohibition and woman suffrage, and with various resolutions, unanimously adopted, went on record for its part in the progressive measures.

Among the resolutions adopted were the following:

A resolution favoring submission and woman suffrage, and instructing the delegates to the state convention to use all the honorable means in their power to have a plank adopted in the state convention calling for an early election on these amendments.

Another resolution was adopted commending and endorsing United States Senator Morris Sheppard in his fight for National prohibition, and the government in all its policies pertaining to the war and pledging continued fidelity to the cause, until the results for which our country went to war were accomplished.

A resolution was adopted endorsing the administration of Governor Hobby, and congratulating the people of Texas on his re-election.

Other resolutions of the same trend were adopted, all combining to pledge the county to the measures of the prohibition forces and the winning of the war.

Following is a copy of the minutes of the meeting as prepared by the secretary:

Minutes of the Nacogdoches Convention at County Court House, 11:15 a. m., August 3, 1918:

Moved, seconded and carried that Eugene H. Blount preside as temporary chairman and T. Tilford as temporary secretary.

Later moved, seconded and carried that these appointments be made permanent.

Moved, seconded and carried that the chair appoint a committee of three on credentials and representation; whereupon the chair appointed Hon. S. W. Blount, Hon. H. V. Fall and Hon. John Noel Roberts.

Friends of Mr. Arthur Marshall and family will be interested to learn that they have decided to move to Ada, Oklahoma, instead of Trinity, Texas, as announced a few days ago. Mr. Marshall resigned his position with the ice company with the intention of taking a position with a bank in which he owns some interest at Trinity, but the ice company would not consent to give him up at this time, making an offer so attractive to take the management of a new plant they had recently acquired that he could not afford to turn it down. The town of Ada is said to be a very attractive, growing little city, with a big Normal school, and in the new position Mr. Marshall's work will be of an executive nature, being relieved of so much detail work, altogether the change is a very desirable from a business standpoint. In speaking of the change Mr. Marshall says that after fourteen years of residence it is with much reluctance that he leaves us, and from a social standpoint he would not exchange with any section.

### GERMANS HAVE CROSSED AISNE AND ALLIES OCCUPY THE VESLE FRONT

(By Associated Press)  
**WITH THE FRENCH ARMY, August 5.**—The last reports from this front state that the Germans have crossed the Aisne river, and are destroying all bridges behind them. It is believed the allies hold the entire Vesle line, even having crossed on the extreme right wing near Rheims. They hold the bridge on the north bank of the Aisne, on the other extremity of the line, near Soissons.

There was a lull in the battle along the Soissons-Rheims front last night. The breathing spell extended into this morning. The Germans are being favored by weather conditions, which has transferred the banks of the Vesle into swamps and morasses. The Germans are making a stiffer stand here than was anticipated.

### TAKING FISMES THE AMERICANS COVERED WITH GLORY, BITTER FIGHT

(By Associated Press)  
**PARIS, August 5.**—The Americans have taken Fismes. In hand to hand fighting the Americans covered themselves with glory. The fighting is said to have been the bitterest of the whole war. The Prussian Guards asking no quarter, were bayoneted or clubbed to death as they stood by their machine guns.

French detachments which crossed the Vesle are meeting resistance from the Germans. It is declared there is nothing of importance from the battle front, in this morning's statement by the war office.

The allied pursuit of the Germans continues. The latest reports are that a few enemy troops remain south of the Vesle river. French patrols have crossed the Vesle at Bazoches and Jonchery, west and east of Fismes, respectively. The allies are now meeting with strong resistance.

### LULL IN FIGHT AS ARMIES REST

(The Sentinel's War Review Today)  
**After their supreme effort of yesterday, in which the Allies made enormous gains and straightened the line from Soissons to Rheims, thereby eliminating the pocket in which the Germans have been fighting, the armies rested last night and up until today.**

The Americans played a very large part in the fighting, having a place in the center, and taking Fismes, the German supply base. Their casualties, too, were heavy, for the largest list yet given out was issued by the war department today.

Today the allies have made more gains, and now occupy the entire Vesle line. The Vesle river runs on a tolerably straight line from Rheims to Soissons. At some places also they have crossed the Aisne. The Aisne is further north than the Vesle, but runs southwest to Soissons, meeting the Vesle there. It is in and around Soissons that the allies have crossed the Aisne, and does not represent any great distance in gains.

It is approximately thirty-five miles from Rheims to Soissons. The line of present most intensive fighting seems to extend from Pommiers, which is several miles northwest of Soissons, to Champagne, a mile or two west of Rheims, making the present fighting line between thirty-five and forty miles in length.

The biggest gains of the drive have been made in center of the salient, and the Americans have participated in some of these largest gains. It is about twenty-two miles from Chateau Thierry to Fismes, on a direct line, and this is the longest distance that the allies have travelled. This indicates that the Americans have participated in a 25 mile gain, as they were formerly several miles southwest of Chateau Thierry. It will be remembered that General Liggett, in command of the First army, is in command of the Americans here, and it is his troops that have reached Fismes.

The reports this afternoon say that the allies have crossed the Vesle river near Bazoches. As this town is near the center of the line, it possibly represents the greatest advance of the allies. Another feature of the fighting the last few hours, is that determined resistance is being offered by the Germans—something that not looked for at this point.

The way the Prussian Guard fought the Americans, without asking any quarter, is also a different character of fighting from the kind the Germans have offered lately.

Late last night the Germans withdrew ten miles on the British front, between Montdidier and Moreul. The French hold the slopes down the western side of the Avre river.

Mr. L. W. Palmer, a prominent broom dealer representing a Dallas house, has been in the city today calling on the jobbers. Mr. Palmer resides in Center, but has the contract to sell the entire output of the factory he represents, which takes him over Texas and adjoining states, but in which he has been able to sell all the brooms his house could make. He is a very pleasant, patriotic gentleman as well as a good business man, and the Sentinel editor is glad to number him among staunch friends from his old home town.

### CARD OF THANKS

We take this method of returning our thanks and giving assurance of our appreciation to our neighbors and friends for the help they rendered us in the sickness and death of Mr. Julius Mora, our loved one who was called to his reward a few days ago, and for the many tender expressions of sympathy bestowed upon us since.

Should trouble ever visit any of you, may you find the same tender friends, is our wish and prayer.

### LARGEST CASUALTY LIST YET ISSUED

LIST TODAY HAS REACHED OVER SEVEN HUNDRED NAMES.

(By Associated Press)  
**WASHINGTON, August 5.**—Casualties among American troops fighting along the Marne, since July 15, are now being reported daily by General Pershing. No estimate of the total has yet been received. Men from forty-six states are named in the list with no state predominating, showing casualties scattered through many units. The states not listed are Arizona and Delaware.

An additional list of three hundred names, bringing the total for today to approximately seven hundred, was checked at the war department today, in preparation for the morning papers tomorrow.

The army list issued today ran very much in advance of any previous list yet issued. The list of killed in action was also the largest ever issued. The list is divided as follows:

Killed in action, 293.  
 Died of wounds, 37.  
 Died of disease, 9.  
 Died of accident and other causes, 6.  
 Died of airplane accident, 1.  
 Wounded severely, 48.  
 Wounded, degree undetermined, 199.  
 Missing, 3.

The marine corps list shows a total of ten: Killed in action, 9, died of wounds received in action, 1.

Privates John A. Heintz, of Leander, Texas; Walter F. Kincaid, of Sulphur Springs, Texas; and Sergeant Ollie Pike, of Fuitvale, Texas, were killed in action.

Private Walter Pierce, of Orange, Texas was killed in action. First Lieutenant Edward T. Hathaway, of Houston, is reported in the list as having died of airplane accident.

Bugler William Garrett Darland, of Melissa, Texas, was wounded severely. Privates Ollie T. Baker, Lockhart, Texas; John M. McGowan, Caldwell, Texas; wounded degree undetermined.

### U. S. STEAMER IS SUNK BY SUB

(By Associated Press)  
**WASHINGTON, August 5.**—The American tank steamship O. B. Jennings was sunk by a German submarine yesterday about 100 miles off the Virginia coast. Thirty survivors of the vessel, and crew have been brought to Norfolk by a naval vessel, the navy department was informed today. The captain and one boat, containing thirteen men, part of the crew are missing.

### FISHING SHOONER IS SUNK BY SUBMARINE

(By Associated Press)  
**A CANADIAN ATLANTIC PORT, August 5.**—The fishing schooner Nelson A. Yarmuth, has been added to the list of vessels sunk by submarines off the North Atlantic coast. A crew which landed here today reported that their vessel was destroyed Saturday.

### 18 TO 45 BILL WAS REFERRED TO COMMITTEES

(By Associated Press)  
**WASHINGTON, August 5.**—The new man power bill, increasing the draft age from 18 to 45, inclusive, was introduced in both houses of congress today and was referred to committees.

## TO THE SUBSCRIBERS.

It has never been the policy of The Sentinel to "dun" or push its subscribers, and it is not our desire to do so now, but we are confronted with different conditions and times now that makes it necessary that we have a settlement this fall if we continue our pleasant relations with each other.

In the first place, everything entering into the printing business has advanced to such abnormal proportions there is no margin of profit in the subscription price of the paper. Secondly, the War Board has made a demand upon the newspapers that they cut out all free exchanges, sample copies and free copies of every kind if they send out such, not even allowing the publisher to send his paper to his relatives, and drop from the list all subscribers who are in arrears for more than one year, subscribers due for more than this period of time not being considered legitimate patrons. This is done in the interest of conservation of the supply of paper, and compliance with its provisions is exacted as a guarantee of supply.

There is no bluff or misrepresentation about this statement as you can ascertain if you care to take the trouble to investigate.

We don't want to lose any of our subscribers, and have hesitated about dropping any from the list for this reason, but the time has come when we must do so or be put out of business.

Now, if you appreciate your paper, don't forget us when you begin to make your fall settlements this year—and don't put us off until the last for we may not be able to hold your name in fact that long. Come on in at the first opportunity, or send it by mail. Buy a money order from your postoffice or carrier, or if you have a bank account send us a check—any regular way to get it to us without delay—and let us continue our former pleasant relations.

## FOR WHEAT-GROWING.

Elsewhere in today's paper will be found a communication from County Agricultural Agent Jas. D. Greer, reviewing a plan the government recommends for wheat growing on a limited scale in this section, and it is a matter that should be of interest to the farmers and the people generally.

This plan contemplates the supply of home consumption—and the indications are that this is the surest way to get a supply in the immediate future.

It is admitted that this is not an ideal wheat growing section, but past experiment have proven that we can grow some wheat here, and at present prices of flour even the limited yield would prove profitable. In addition to this, some profit will accrue with the pasturage in the winter as noted by Mr. Greer.

With this plan, every farmer who has land strong enough is asked to grow an acre or two, and to arrive at understanding of how much can be enlisted committees are being appointed in the various communities to make a canvass of the farmers and report the acreage subscribed to the enterprise.

We understand that there will be no limitations or restrictions placed upon the product grown and used for home consumption, and if you grow enough you can enjoy biscuit three times a day if you choose. Already several mills have agreed to equip for handling the

product, and while they will not be able to produce a finished product like some of the high patents to which we have been used in the past, they will be able to make a good grade of flour which will have all the flavor and elements of nutrition enjoyed by the better looking variety.

The government will extend every help possible in this enterprise, and with this opportunity old Nacogdoches county should rally with the production of an adequate supply for home consumption.

## BOOST FOR PEANUTS

In recent years the peanut crop has been coming into notice, and many farmers of this section have found them a profitable crop. The only thing to keep them from coming into their own as they should has been the old idea that hogs fed on them exclusively would produce soft meat, and hogs thus fed were held down to a lower price in the market. Lately extensive experiments have been made to overcome this trouble, if it really existed, and the following communication from College Station will be good news to those desiring to grow the crop for hog feed:

That the humble Texas peanut has been unjustly scored as the principal factor in the production of soft pork showing up on the Texas markets appears to be proven in a series of investigation that has been conducted by P. E. Ewing, animal husbandman of the Texas agricultural experiment station, who has produced hard hogs on peanuts under certain conditions and who believes many other factors than feed enter into the determination of whether a hog will dress hard or soft.

While the investigations have not been concluded and the result of the experiments are not given out as conclusive facts, yet the information obtained is deemed sufficient to justify its publication in a bulletin which will be available within a short while.

In the opinion of Mr. Ewing, who is the author of "Southern Pork Production," based upon his latest investigation into the causes of soft pork, it will soon be possible to announce a system whereby it will be possible for a farmer to produce soft or hard pork as he may elect, and some of the positive factors that will enter into the production of hard pork will be proper shelter, ample exercise, healthful conditions, a thorough finish, improved breeding and judicious feeding.

The official count discloses the fact that Judge Roy Cousins of Hemphill has been elected state senator of this district, and in his election the district will have a most worthy and loyal public servant. Judge Cousins has worked his way up in the world, step at a time, from the farm to school teaching, lawyer, county judge and on to the present success. He is a man of sterling integrity and moral worth who can be depended to be on the right side of any moral and progressive issue, and we need have no fear of his administration.

If outside capital has sufficient faith in our oil field to come in here and spend thousands of dollars in tests, the home people should certainly be inspired thereby to rally with a good subscription and all the cooperation possible in the development of the enterprise. The bringing of one god well would cause quite a stir, and bring lots of money and new business to this section, and old Nacogdoches would take on some new life.

W. F. Greer and family of Tenaha have been visiting relatives and friends in the community this week.

## SPENT OVER \$800 ON ONE SPELL ALONE

### Had Suffered All Her Life Without Any Relief—Tanlac Ends Trouble.

"I was flat on my back for eight months and never did commence to get well and feel right until I began taking Tanlac," said Mrs. Inez Arnold, of 1530 San Fernando street, San Antonio, Texas, recently.

"Nearly all my life," Mrs. Arnold continued, "I have suffered from stomach trouble and intestinal indigestion. For the past eighteen years, especially, my health has been bad and while I did everything I could, my condition kept getting more serious. I suffered from nervousness, awful headaches and pains in my back and stomach. I could hardly sleep and nearly every thing I would eat caused me pain. Sometimes I would get so dizzy I had to sit down to keep from falling. When I stooped over I could hardly straighten up again, and I just felt miserable and bad all the time."

"The eight months spell I had alone cost me more than eight hundred dollars to say nothing of what I paid out at other times trying to get relief. I was all the time trying to get something to help me, so my joy can be imagined when I got Tanlac and began to improve. I believe I felt better with my third dose of Tanlac, it just seemed to suit my case exactly, and I kept taking it and improving until now I'm simply feeling fine. I can eat anything I want, sleep soundly and have no trouble in doing all my work. I declare I never felt better in all my life, and I wouldn't take anything in the world for what it has done for me because it has been my salvation."

Tanlac is sold in Nacogdoches by Stripling, Haselwood & Co. and Swift Bros. & Smith, in Woden by M. J. King, in Garrison by Garrison Drug Co., in Appleby by A. J. Park in Douglas by Campbell & Watkins, in Chireno, and in Nat by E. M. Jarrell.

## IMPORT LABOR TO MEXICAN RICE-GROWING SECTIONS

(By Associated Press) BEAUMONT, August 6.—At a recent meeting of the Southern Rice Growers' Association it was decided to import into the rice producing region of the state Mexican labor to assist in harvesting the coming crop and meet the apparent unusual short age.

Wages in line with the customary compensation for work will be paid the laborers.

For the past month the agents of the association have been in many border towns making arrangements for securing labor. The rice crop will be harvested about the third week in August.

## Packers' Profits — Large or Small

Packers' profits look big—  
when the Federal Trade Commission reports that four of them earned \$140,000,000 during the three war years.

Packers' profits look small—  
When it is explained that this profit was earned on total sales of over four and a half billion dollars—or only about three cents on each dollar of sales.

This is the relation between profits and sales:

Profits	██████████
Sales	████████████████████

If no packer profits had been earned, you could have bought your meat at only a fraction of a cent per pound cheaper?

Packers' profits on meats and animal products have been limited by the Food Administration, since November 1, 1917.

**TEXAS CONSUMES ONLY 1 TENTH OF ITS FISH**  
(By Associated Press) HOUSTON, August 6.—Texas consumes but one-tenth of the fish taken from its waters. Federal Food Administrator E. A. Peden announces in a statement, in which he says a campaign will be launched to increase home consumption of fish. Fishermen and wholesalers have been called for a conference with Mr. Peden some time in August.

Mr. W. B. Pierson, a prominent citizen of the Appleby country, was a visitor to the city today.

# BIG DEMONSTRATION OF THE FORDSON TRACTOR

Plowing with both disc and mould board plows, at  
**TOM MARONEY'S FARM**

3½ miles from Nacogoches on Martinsville road, from 9 to 4 each day

**Tuesday and Wednesday, August 13th and 14th**

Every one in the least interested in farming and in the latest ideas and developments in motor driven agricultural machinery and implements is very cordially invited to be present and see this latest Ford marvel at work.

The FORDSON TRACTOR, made by Henry Ford & Son, is Henry Ford's latest, and many experts think his greatest invention. Many authorities believe it will far out-rank the famous Model T. Ford passenger cars and trucks in popularity and usefulness. A year's use of this tractor in England and France has almost revolutionized the agriculture of those countries.

Come, bring your friends. You'll be more than welcome. You'll find it interesting--instructive.

## GOVERNMENT'S CALL TO GROW WHEAT

A committee will be named in each school precinct some time soon to get the names of those who will agree to grow a few acres of wheat.

This, like the Red Cross, Liberty loan and thrift stamp drives, is a war measure. The U. S. Department of Agriculture knows this is not a wheat country, but careful experiments in East Texas show that wheat can be grown without a loss of money to the grower when only a small acreage is grown and well handled. The purpose of this call is two-fold: first, to grow our food supplies at home and try to be sure of at least a moderate supply of wheat flour, and secondly, to have more pasturage for live stock during the winter. The government is asking every farmer to grow a few acres of wheat unless his soil is a very deep, coarse sand or wet sobby soil. The government is asking all patriotic citizens to join in the drive to get a few acres of wheat on each farm next year. In making this call the government is not asking any man to let his knowledge of wheat growing decide his efforts in this drive, but for our country's sake and for the good those of us who have to have our flour brought from the north. We are asked to try at least a small acreage. The government will give full instructions for the growing of wheat in this section, and if we fail, our government promises to divide the last dust with us. Is this not enough? But the farmer who refuses to grow at least an acre or so will not be allowed any flour unless his land excuses him, or unless the supply becomes more plentiful than at the present. The government will

assist us in getting good seed of the varieties adapted to our soil. These seed will be sold us at cost. However, any farmer is at liberty to buy his seed anywhere he wishes so far as the government is concerned. It is necessary that the names of all who will want seed wheat get their names to their committees as early as possible so that we may be able to get these names to the government by the last of this month.

Full instructions for preparation of the seed bed, fertilizers and planting will be given in the county papers later.

I wish to call your attention to the fact that wheat produces a splendid winter pasture, and if grazed moderately when the land is not too wet or frozen, will not injure the yield of grain in the least. The pasturage will nearly always pay the cost of growing it.

We have at least 3 mills in the county equipped for grinding wheat.

Very truly,  
**JAS. D. GREER,**  
County Demonstration Agent.

## THE NEED OF THE HOUR

Our country entered this war to fight for personal liberty of every down-trodden nation, as well as to preserve our own freedom, and our success depends not alone upon our army, but upon every phase of our industrial life to sustain our army and just now the shortage of skilled office workers is very serious and will grow worse unless the young ladies and the young when who too young or physically unable or otherwise exempt from war duty realize that it is their duty to acquire a business training immediately to come to the rescue of both the government and commercial organizations. Read the following announcement which speaks for itself. Washington, July 10.—The United States government needs, and needs badly, a great number of stenographers and typewriters, both men and women, for service in the departments at Washington, D. C., and the situation in federal offices outside of Washington is scarcely less urgent. The supply of qualified persons on the commission's list for this class of work is not equal to the demand, and the commission urges, as a patriotic duty, that citizens with this special knowledge apply for examination for the government service. At present all who pass the examination for the departmental service are certified for appointment, examination papers are rated without delay. Examinations for the departmental service in Washington, D. C. for both men and women are held every Tuesday in our city.

**YOUNG FT. WORTH WOMAN WANTS TO GET IN FIGHT**

(By Associated Press)  
FORT WORTH, August 7.—"I am afraid the war will be over before I can get there," said a young woman here recently in making inquiries relative to getting active service in the army.

"I want to be where the shot and shell are flying and if they won't let me fight, they can at least let me drive an ambulance," she said.

Her fiancée was killed in the service and she says she will have revenge on the Germans, and wants to get to France immediately.

"If there is a soldier in the United States who would escape service, I will take his place."

Because her efforts to get active service have failed she will join the Red Cross as a nurse.

## WOMEN TORTURED! Suffer Terribly with Corns Because of High Heels, But Why Care Now?

Women wear high heels which make their feet sore and they suffer terribly from corns. Women who proceed to trim these pests, realize the terrible danger from infections, says a Cincinnati authority.

Corns can easily be lifted out with the fingers if you will get from any drug store a quarter of ounce of a drug called freezone. This is sufficient to remove every hard or soft corn or callus from one's feet. You simply apply a few drops directly upon the tender-aching corn or callus. The soreness is relieved at once, and soon the entire corn or callus, root and all, lifts out without one particle of pain.

This freezone is a sticky substance which dries in a moment. It just shrivels up the corn without inflaming or even irritating the surrounding tissue or skin. Tell your wife about this.

## KITCHEN DEPARTMENT IMPORTANT TO ARMY

(By Associated Press)  
**BEHIND BRITISH LINES IN FRANCE**—The importance of the kitchen department of the army cannot be overrated. For men to work hard and efficiently they must be decently fed. For this reason the "King's Regulations" provide that it is the first duty of every commanding officer to see that the soldier's meals are "properly and sufficiently provided." It is further ordered that an officer must inspect the kitchens and cookhouses every day, while the same officer must visit the barracks rooms

and mess tents during the breakfast, dinner and supper hours to find out if there is any cause for complaint.

The kitchen establishment of a British army camp varies widely under different circumstances. At garrison centers in France, the cookhouse is a large building shared by several units, and is under the charge of a sergeant-chef who has been through a special course in military cooking. It is his duty to superintend personally all cooking done in the regimental cookhouse. Each unit, in its turn, has a chief cook who is responsible for all the meals of his unit.

In the field, however, the cookhouse is a thing of mushroom growth. When a unit is on the march the simplest method of constructing a temporary kitchen is to place a number of kettles on the ground in two parallel rows, block the leeward end with another kettle and light a fire in this improvised trench. As soon as the fire has been started, one or two rows can be placed on top of those already in position.

If the stay at a particular spot is likely to be for any appreciable length of time, a good field kitchen is improvised by digging a narrow trench for the fires, and placing the camp kettles above this. Sometimes a chimney is built of sods.

For a stay of three or four days, regular "field ovens" are constructed. An arch of sheet iron is erected and on top of this a layer of clay is piled. With this oven it is possible to give the men roast meat for dinner as often as the joints are forthcoming from the supply column. Enough bread to feed a whole battery can be baked in one of these ovens.

## CALOMEL DYNAMITES A SLUGGISH LIVER

Crashes into sour bile, making you sick and you lose a day's work.

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile it crashes into it, causing cramping and nausea. If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tonic for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money. If you take calomel today you'll be sick and nauseated tomorrow! Besides, it may salivate you, while if you take Dodson's Liver Tonic you will wake up feeling great, full of ambition and ready for work or play. It's harmless, pleasant and safe to give to children; they like it.

WAITERS GRATEFUL.

I take this method of returning my thanks and giving assurance of my appreciation for the nice vote I received in the recent primary in my race for constable of this precinct. I am especially thankful to the ladies who supported me.

THREE BOYS WILL GO TO THE REFORMATORY

County Judge Perritte organized his juvenile court this morning before which Osborn Lockett, Jack Graves and Robert Foster, all small boys, pleaded guilty to delinquency and were given two years each in the reformatory at Gatesville.

The boys will likely be carried to Gatesville tomorrow. When you yawn a good deal in the daytime, feel dull, achey and want to stretch frequently it is an unmistakable symptom of malaria, and unless you do something at once you are booked for a spell of chills. Herb is a chill medicine that will prevent or cure that disease. It drives out the impurities on which the malarial germ thrives, strengthens the liver and cleanses the bowels. Price 60c. ## COLORED SOLDIERS TO TRAINING CAMP

The following colored boys of Nacogdoches county were sent out by the local exemption board today to Camp McArthur, being in charge of Luther White, one of the number:

Freeman Wright, Henry Smith, Dod Watson, Ed. Garrett, Leroy Forney, M. Sanders, Lee Hunt, Sampie Brown, Homer Bryant, John Steadham, Hubert Ferguson, Lorenzo Brown, Luther White, Clifton Hayter, Woe Brown.

The boys went forward with good nerve, and will do their bit toward helping win the war.

Miss Mary Estelle Dorsey, daughter of Mr. and Mrs. John B. Dorsey, has gone to Tyler, to take a business course in the Tyler Commercial College, and thus prepare herself for useful service in the business world.

Cure for Dysentery.

"While I was in Ashland, Kansas, a gentleman overheard me speaking of Chamberlain's Colic and Diarrhoea Remedy," writes William Whitelaw, of Des Moines, Iowa. "He told me in detail of what it had done for his family, but more especially his daughter who was lying at the point of death with a violent attack of dysentery, and had been given up by the family physician. Some of his neighbors advised him to try Chamberlain's Colic and Diarrhoea Remedy, which he did, and fully believes that by doing so saved the life of his child. He stated that he had also used this remedy himself with equally gratifying results."

Friends of Arch Millard will be pleased to learn that he is getting along as nicely as could be hoped for, with the attack of typhoid fever with which he is suffering. His fever is running low and he is resting well, giving hope that it will soon break.

Not to Be Ignored.

The kidneys are so important to good health as the heart, lungs, stomach or any organ of the body. Lame back, swollen joints, sore muscles, rheumatic aches and pains, are most often signals of kidney trouble. Foley Kidney Pills give relief to kidney trouble sufferers. They banish bladder irregularities. Stripling, Haselwood & Co. dw1

Mrs. Mollie Fuller of Wellington, Collinsworth county, came in yesterday to visit her father, Uncle Jack Perritte, who has been so ill at his home in the Attoyac community lately. Her brother, Judge Perritte, sent her out to Attoyac in his car yesterday.

Locomotive Engineer Writes.

When the kidneys are not working properly, backache, stiff joints, rheumatic pains and suffering result. George McLean, Turtle Lake, N. D., writes: "I am a locomotive engineer. NOTICE.

Mr. Lake Orton County Clerk, has received the following letter from a citizen of the drought stricken region in regard to employment of persons who are having to leave the drought-stricken region: County Clerk Nacogdoches, Tex. Dear Sir:

We are hit by the drought this year and many of our people are going away for work. Some are taking their families to pick cotton.

Through our home defense committee we want to assist those people in securing employment.

Kindly let us know the condition of crops, and the demand for labor in your part of the state, and a word of information or advice will be appreciated.

We want them to go where they are needed.

Yours very truly,

J. W. WALDRUP.

A Bilious Attack. When you have a bilious attack your liver fails to perform its functions. You become constipated. The food you eat ferments in your stomach and causes nausea, vomiting and terrible headache. Take three of Chamberlain's Tablets. They will tone up your liver, clean out your stomach and you will soon be as well as ever. They only cost a quarter. dw

GETTING ON THE MAP

Ad to 333 Papers. Walden's Nacogdoches Business college sent its advertisement today to 333 papers, covering Texas, Louisiana, Arkansas, and a part of Oklahoma. From now on it ceases to be merely a local school.

THE PEOPLE'S SCHOOL.

The total cost for a complete business or shorthand course in W. N. B. C. is very, very moderate. Many pupils complete a course and secure a desirable position at a cost of only \$100 for board, tuition and stationery. These remarkably low rates are a boon to the young man or woman of limited means. A limited number of these Special Scholarships will be offered for the opening of the September term.

A POSITION IN 12 WEEKS.

Walden's school delivers the goods! One of its young men has prepared for and accepted a desirable position in just 12 weeks. He took the combined business and shorthand course, and is capable of giving satisfaction as a stenographer or bookkeeper. Many other pupils have accepted positions in thirteen, fourteen and fifteen weeks.

100 PUPILS FOR FALL TERM

When the fall term opens the college will be fully equipped with elegant new furniture, and all necessary modern office appliances, to give the pupils practical, high-grade and efficient training—there will be nothing in the state to surpass it.

THE COLLEGE HOME

Arrangements are being made for a suitable building for a student's boarding department—where girls can have the same care and attention as at home.

Remember Walden gives you the best courses—the most helpful instruction—saves you time and money and places you in a desirable position. Enter NOW. WALDEN'S Nacogdoches Business College.

CITATION BY PUBLICATION.

The State of Texas; To the sheriff or any constable of Nacogdoches county—Greeting:

You are hereby commanded to summon John Wickware, by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, to appear at the next regular term of the district court of Nacogdoches county, to be holden at the court house thereof there in Nacogdoches, on the 1st Monday in September, A. D. 1918, then and there to answer a petition filed in said Court on the 31st day of July, A. D. 1918, in a suit, numbered on the docket of said court No. 520, wherein Allie Wickware is plaintiff and John Wickware is defendant, and said petition alleging that plaintiff and defendant were lawfully married on or about the day of December, A. D. 1913, and continued to live together as husband and wife until on or about the day of September, A. D. 1914, at which time defendant did permanently abandon this defendant without just cause or provocation and since which time they have not lived together as husband and wife; that more than three years have lapsed since said abandonment of plaintiff by defendant and plaintiff herenow pleads the statute of three years abandonment.

Wherefore plaintiff prays the court that defendant be cited to appear and answer herein and upon a final hearing hereof she be given judgment dissolving said marital contract which still exists, for cost of suit, and general and special relief, both in law and equity as she may be justly entitled to receive and will ever pray.

Herein fail not, but have before said court, at its aforesaid regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said court, at office in Nacogdoches, this 31st day of July, A. D. 1918.

N. B. HALL, Clerk District Court, Nacogdoches County.

Mr. T. J. Curl of Chireno has been in the city today visiting relatives and shaking hands with old friends.

# MOTHERS TO BE

Should Read Mrs. Monyhan's Letter Published by Her Permission.

Mitchell, Ind.—"Lydia E. Pinkham's Vegetable Compound helped me so much during the time I was looking forward to the coming of my little one that I am recommending it to other expectant mothers. Before taking it, I suffered with neuralgia so badly that I thought I could not live, but after taking three bottles of Lydia E. Pinkham's Vegetable Compound I was entirely relieved of neuralgia, I had gained in strength and was able to go around and do all my housework. My baby when seven months old weighed 19 pounds and I feel better than I have for a long time. I never had any medicine do me so much good."—Mrs. PEARL MONYHAN, Mitchell, Ind.

Good health during maternity is a most important factor to both mother and child, and many letters have been received by the Lydia E. Pinkham Medicine Co., Lynn, Mass., telling of health restored during this trying period by the use of Lydia E. Pinkham's Vegetable Compound.

## KIRBY RESIGNS LUMBER INDUSTRY

After five months gratuitous service as one of the chiefs in the nation's shipbuilding program, John H. Kirby has resigned and will soon return to Houston. Announcement of Mr. Kirby's resignation was made from New Orleans Tuesday night and confirmed from Washington Wednesday. Mr. Kirby is now in Portland, Ore., on business for the government until he finishes the work in hand.

Mr. Kirby was originally lumber administrator for the South, but was later made administrator for the nation. He was forced to resign when his headquarters were transferred from New Orleans to Philadelphia. His successor is W. J. Hayden.

## FROM FAYETTE WOODLAN.

To the Voters of Nacogdoche County:

I am, deeply grateful to the people of Nacogdoche county, both men and women, for the large vote I received in the primary last Saturday.

It now becomes necessary to finish the race in the second primary which will be held Saturday, August 24th, and the race is between Mr. Prince and myself. I want to urge all of those who voted for me last Saturday to return to the polls on the 24th of August and again express their confidence in my ability to serve as sheriff for the coming two years. I also earnestly solicit the vote of every man and woman who voted for either of my opponent last Saturday to support me in this race, promising all of the people good and efficient service, and a clean administration, if elected, during the next two years.

As I have heretofore said, there is only one promise I have to make and that is duty, fairly and impartially performed.

Assuring you, if elected that I will serve the people of this county in a faithful manner, I beg to remain,

Sincerely,  
G. W. L. (Fayette) Woodlan,  
Candidate for Sheriff.

## THE OFFICIAL COUNT

The Democratic Executive Committee of Nacogdoches met this morning and canvassed the returns of the recent primary, finding the results as reported in the newspapers except some little changes in the following races, the official count being as follows:

For State Senator: Gordon 2380, Cousins, 1850.  
For Commissioner, Beat No. 4: Seal 335; Lambert 287; Blake 295.

For Justice of the Peace, Precinct No. 1: F. D. Huston 779, Wells 643; Nelson 418.

For Constable, Precinct No. 1: Walters, 862; Hagan, 877.

This result gives Gordon a better margin of majority than was first reported; Seal and Blake remain for contest in the second primary, and Esquire Frank Huston's majority is slightly reduced but leaving him and Mr. Wells in the second primary.

# DISCOVER PLOT TO SINK TRANSPORTS

(By Associated Press)  
AN ATLANTIC PORT, August 3.—An anarchist plot to destroy American troop transports is believed by authorities to have been frustrated today with the arrest of a man who gave his name as Frederick Rouchat.

The prisoner was caught climbing a rope ladder on the side of the steamship, which was a former German liner. He said he had been selected to blow up the vessel.

## STATE LOST MUCH GROUND IN SURVEY OF CAPITAL

(By Associated Press)  
AUSTIN, August 3, 1918.—When the state donated 3,000,000 acres of land to the Capital Syndicate over thirty years ago for the construction of the capital buildings a mistake was made in the survey and the syndicate was given 50,000 acres in excess of the amount intended.

Partial surveys during the last several years indicated that the excess might amount to one million acres but a survey, made during the last three years, showed the smaller total. The legislature several years ago appropriated \$25,000 to make this survey.

According to surveyor R. S. Hunnicutt, there are vacancies in a number of the leagues amounting to 14,000 acres.

Whether this land can be decreed after thirty years is a question, but it is pointed out that at least can be taxed as well as the 14,000 in the vacancies. The courts will be called upon to decide the problem.

## FROM MISS CAVIN.

From the recent election returns the majority of the people did not see fit to give me a vote sufficient to place me in the second primary for the office of County Clerk.

As to my campaign I have no regrets. It was a pleasant one in many ways. I want to thank the friends who so loyally supported and used their influence in my behalf, and assure you that I am ever,

Gratefully yours,  
LILLY CAVIN.

## NO DANGER SHORTAGE MAN POWER, SAYS MARCH

(By Associated Press)  
WASHINGTON, August 3.—There is no danger of a shortage of man power to keep the American armies filled up, the senate military committee was told today by General March.

As a result of recent transfers General Pershing has a million men under direct command, March said. He also announced that Major General Hunter Liggett is commanding the first army corps in the center of the allied drive in the Aisne-Marne salient.

## TEXAS HAS MORE SOLDIERS IN TRAINING ANY STATE

(By Associated Press)  
AUSTIN, Aug. 3, 1918.—Because Texas has more soldiers in training than any other state in the union, Health Officer, W. P. Collins is making an effort to obtain a major portion of the federal appropriation of \$1,000,000 now available to combat and eradicate venereal diseases among soldiers. The bill which became effective recently, provides \$5,000,000 to carry on the work but only \$1,000,000 become available annually. Dr. Collins thinks the state should receive at least \$200,000 of the annual appropriation to combat these venereal diseases.

## IF YOUR CHILD IS CROSS, FEVERISH, CONSTIPATED

Look, Mother! If tongue is coated, cleanse little bowels with "California Syrup of Figs."

Mothers can rest easy after giving "California Syrup of Figs," because in a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels, and you have a well, playful child again. Sick children need to be coaxed to take this harmless "fruit laxative." Millions of mothers keep it handy because they know its action on the stomach, liver and bowels is prompt and sure. Ask your druggist for a bottle of "California Syrup of Figs," which contains directions for babies, children of all ages and for grown-ups.

# Smith Serves the Red Cross

By T. J. EDMONDS,  
Director of Civilian Relief of the Potomac Division.

"Well," said Smith as he walked into my office, "I've wound up all my business interests."

"What for?" I said as I rose to greet the man I had known in my home city years before.

"So I could offer myself if I'm worth having. I've got to get into the game. Anything useful and human. I'm ready for marching orders."

"Worth having?" I echoed. "You've dropped like a God-send. We've got the biggest man-sized job you ever done. You're going straight with the Home Service. Something useful and human? Why, in a week this thing will be gripping you so that you'll eat and sleep it!"

The Home Service Section of a big Red Cross chapter was in session. As Smith and I arrived they were discussing the problem of a soldier's wife and six children found living in two tenement rooms in a building that had been condemned because of a leaky roof, moldy floor and lack of sanitation. They had sold most of their furniture piece by piece for current living expenses. The children had no change of clothing. There was no income and because of the mother's condition, no possibility of work, except the expected allotment and allowance, which even when it came would not entirely meet the cost of living in the city. The Home Service worker had given a generous sum of money to meet the urgent needs, and now the committee was planning to rent better quarters, move the family, secure medical and nursing attention for the woman, outfit them all with clothing and furniture and keep regularly in touch with the family.

In Smith's next case the Home Service Section and the tuberculosis society had arranged hospital care for a man discharged because of tuberculosis contracted "in the line of duty." Some attorney had told him he would get compensation for him on a fifty-fifty basis, but the lawyer-member of the Home Service Section helped him fill out the proper form which the Red Cross office supplied and assured him that no discharged soldier or soldier's beneficiary should ever pay for col-

# JOINT ACTION WITH JAPS IS ASSURED

(By Associated Press)  
WASHINGTON, August 2.—Joint action between Japan and the Entente powers and America in Siberia is assured. Japan found acceptable the American proposition which looks to aid the Czecho-Slovaks, now operating in Siberia, after an exchange between Tokio and Washington, which cleared up doubtful points, and removed all possibility of future misunderstanding. The plan will be put into execution at once.

## NEW TEXT BOOK BOARD HAS BEEN ANNOUNCED

AUSTIN, August 4.—Governor Hobby yesterday announced the appointment of the members of the state text book commission, as provided by the state textbook law, passed by the last legislature. Those named on the new board were:

- Mrs. Ella F. Little, primary supervisor of schools, Temple.
  - Myra C. Winkler, county school superintendent, El Paso.
  - Lizzie M. Barnour, city superintendent, Brownsville.
  - B. B. Cobb, city superintendent, Waco.
  - W. T. Leland, city superintendent, Hillsboro.
  - Charles S. Meek, city superintendent, Mineola.
  - P. E. Wallace, city superintendent, Mineola.
- These, with the governor and the state superintendent of public instruction, constitute the full membership of the board. The list was chosen from a list of eligibles submitted by a committee of Texas educators.

The commission will meet by September 1 and determine upon the advisability of renewing or continuing present contracts for text books.

# FIND MORE CRAFT IN SHIPPING BOARD

(By Associated Press)  
WASHINGTON, August 3.—The government has obtained evidence concerning the official shipping board in an alleged conspiracy to obtain contracts at extra-high prices.

lecting either compensation or insurance.

A member of the women's uniformed corps drove us in her machine out to a camp where there are 30,000 men.

Here we met the Red Cross Home Service man. We didn't take his time—we just watched him. One moment he was helping a man to fill out duplicate allotment blanks; the next he was arguing the merits of insuring to the limit; the next he was writing a Home Service Section to visit a man's family; next he was going with a boy who had received a tragic telegram from home to see the commanding officer about a leave of absence; then he was speeding on his way a poor fellow discharged because of permanent injury; then we saw him talking to a soldier and a girl wife at the hostess house; and as the shadows fell he was detected with a worried chap, who was getting him about an impending mortgage foreclosure and an expected baby.

Later the same evening we saw him stand up in the Liberty theater and his eyes glowing with the service picture in his own mind and his voice ringing with the conviction of his own enthusiasm, tell a thousand young fellows what Home Service is. He pointed homes made happier by Home Service—told of friends and fighters' families found by the Red Cross—pictured devoted Home Service workers lighting the country's battles this side the trenches. When he ended some fellow struck up "Keep the Home Fires Burning."

We were silent for a long while on the way home. Smith and I. Finally Smith broke out:

"Can I do it? The sort of thing—where I want to be—at the point of first contact with those living problems. Pershing was right when he said, 'The thing most needful to the American fighting forces overseas is anything and everything that will contribute to the morale of the men in service.'"

"Home Service—I see it now—means morale. When can I go to work?"

# SUBMARINE SINKS ANOTHER SHIP

(By Associated Press)  
EAST PORT, Maine, August 3.—A crew of nine from a schooner landed at Grand Manan, N. B. today. The vessel was sunk by a German submarine.

The Germans set fire to the schooner, the name of which is not known, near the Maine coast last night, the navy learned, says an announcement from Washington.

# AMERICA DONT NEED ALLIED INSTRUCTORS

(By Associated Press)  
WASHINGTON, August 2.—The American forces in France have reached such a high stage of training in modern warfare that it will not be necessary to send instructors of the allied armies to this country to train the forces. American officers will be returned to this country to train and command the force being mobilized.

Mr. W. A. Parnley of Taylor county is visiting relatives and friends in the county, his first visit since he left some fifteen years ago, and he says that he doesn't find much that looks natural. He also says that conditions couldn't be worse than they are in his county at this time, it being in the section which is so hard hit by the drought. Mr. Parnley returned in the automobile with his brother, Mr. Ike Parnley and wife, who had been out to visit him.

## TAKES OFF DANDRUFF, HAIR STOPS FALLING

Save your Hair! Get a small bottle of Danderine right now—Also stops itching scalp.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching in the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—any time—will surely save your hair.

Get a small bottle of Knowlton's Danderine from any drug store. You surely can have beautiful hair and lots of it if you will just try a little Danderine. So—your hair. Try it!

## STRIPLING HASSELWOOD & CO

### PROMINENT CITIZEN PASSES AWAY

Hon. Benjamin F. McNulty died at his home in Nacogdoches Monday evening at 7 o'clock, August 5, 1918.

While his death was not unexpected, he having been sick for several weeks, it came as a distinct shock to his many friends.

Mr. McNulty moved to Nacogdoches in April, 1917, and has since been engaged in promoting the oil industry in this county. He won for himself a host of friends since coming to Nacogdoches, and was admired and trusted by all who knew him.

Mr. McNulty was a man of broad vision and great capabilities, and for many years has been prominent in political and business circles. For nine years he was superintendent of the state deaf and dumb institute at Austin, and later served on the state board charged with the administration of the insane Asylum, at Austin.

Among his important business achievements, were the organization of the Southern Life Insurance Co., the Louisiana State Life Insurance Co., the Texas and Mexico Insurance Co., and the Great Southern Life Insurance Co. He was also manager of the Waters-Pierce Oil Co. of Texas, for five years.

He was a member of the Benevolent and Protective Order of Elks and the Masonic Fraternity.

Mr. McNulty came to Nacogdoches recommended as a true and worthy man and has lived up to this high standard since coming among us.

Benjamin F. McNulty was born at Lancaster, in the state of Missouri, November 4th, 1859, and came to Texas in early life. He was married to Miss Alice Glover Lesterjette, in February, 1910, who survives him.

### A GARRISON BOY IS MISSING IN ACTION

By reference to the casualty list it will be noted that Burdett Fancher is reported missing in action over across the waters.

It will be remembered that Mr. Fancher was on the ill-fated Tuscania, and was reported missing for awhile, but was finally found and resumed his journey. He was listed as one of the five boys from this county who were hurried over for service with the engineers, but was really from Rusk or Shelby county, living just over the line and Garrison being his postoffice. He is the son of a widow, and also has brothers and sisters, but we are not advised as to how many, or their ages.

All will join in the hope that he may be found and live to return home again, in which event he will be able to tell us some interesting stories with his varied experiences.

### WHAT TO USE TO PREVENT APPENDICITIS

Nacogdoches people should know simple buckthorn bark, glycerine, etc., as mixed in Adleri-ka flushes the ENTIRE bowel tract so completely that appendicitis is prevented. ONE SPOONFUL Adleri-ka relieves ANY CASE sour stomach, gas or constipation, because it removes ALL foul matter which clogged and poisoned your system. The INSTANT action surprises both doctors and patients. Stripling, Haselwood & Co.

Mrs. Joe Birdwell, a well-known citizen of the community, had a visitor this morning which called up old times. In 1900 he cut his initials on a terrapin's back and released it, thinking no more about the incident until this morning when the same terrapin crawled up into presence again to call up old times, with the initials still intact.

### THE BEST PROOF.

Given by a Nacogdoches Citizen

Doan's Kidney Pills were used—They brought benefit.

The story was told to Nacogdoches residents.

Time has strengthened the evidence.

Has proven the result lasting.

The testimony is home testimony.

The proof convincing.

It can be investigated by Nacogdoches residents.

C. Heltmann, shoemaker, 111 N. North St., Nacogdoches, says: "I was annoyed by a constant, dull ache in the small of my back—I lacked ambition and mornings, I was tired and worn out. I got Doan's Kidney Pills at Mast's Drug Store, and they cured me."

Over three years later Mr. Heltmann said: "The benefit Doan's Kidney Pills gave me has been lasting."

### CALOMEL ROBBED OF NAUSEA AND DANGER

Medicinal Virtues Retained and Improved—Unpleasant and Dangerous Qualities Removed—New Variety Called "Calotabs."

The latest triumph of medical science is a purified calomel, known as "Calotabs." The old style calomel, as all doctors know, was the best and most generally useful of all medicines. The new variety, known as Calotabs, is purified and refined from all objectionable qualities, and is most delightful in effect.

One Calotab on the tongue at bedtime, a swallow of water—that's all. No taste, no griping, no nausea, no danger. Next morning you awake feeling fine, with a clean liver, a purified system and a hearty appetite for breakfast. Eat what you please. There is no restriction of habit or diet. Calotabs are sold only in original, sealed packages, price, thirty-five cents. Your druggist recommends Calotabs, and will refund your money if you are not delighted with them.

Mr. A. G. Edens, a local real estate man, reports the sale of the W. T. Wilson farm to Mr. J. D. Jumper of Hopkins county for a consideration of \$15,000. Mr. Jumper and family are here, coming to inspect the property in person, and announce that they will move to it soon to make their home. This is one of the largest deals for farm property reported lately, and Mr. Eden is to be congratulated on finding a substantial family in a new citizen to handle it. The new family will receive a cordial welcome to citizenship.

### MR. BOY ANSWERS SENATOR COLLINS' CHALLENGE NUMBER THREE.

I have seen in the newspapers and nowhere else, challenge number three, issued by Senator Collins. Senator Collins insists on joint discussions with Mr. Dies, which broke up at Nacogdoches unpleasantly to the people and candidates. His debate with Judge King resulted the same way at Geneva. In both these races Senator Collins was defeated. I am informed that in his many candidacies on various tickets Senator Collins has issued many challenges, engaged in many joint discussions and suffered many defeats. He seems to be a veteran challenger a veteran "debater" and a veteran loser. He outclasses me as a challenger. He might outclass me in such debating as that proposed would be. I am willing for him to outclass me as a political loser.

The Red Cross is too sacred to the cause of humanity and patriotism to be made a means of cheap political advertising. If senator Collins is able to donate \$200.00 to the Red Cross work, his gift to that cause should not be tainted by selfish political ambition; nor its beauty marred by ugly political wrangling.

The people know what kind of a campaign we have made. An intelligent public has a right to expect of us, as leading candidates for congress, that we conduct this campaign with peace and propriety. I shall follow my own plans. Let Senator Collins follow his. One answer to his advertising challenge was enough. Certainly more than two will not be expected. (Political Advertisement)

### CITATION BY PUBLICATION

The State of Texas, To the Sheriff or any constable of Nacogdoches county—Greeting:

You are hereby commanded to summon Allie V. Booty, by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, to appear at the next regular term of the district court of Nacogdoches county, to be held at the Court House thereof, in Nacogdoches, on the 1st Monday in September, A. D. 1918, the same being the 2nd day of September, A. D. 1918, then and there to answer a petition filed in said court on the 5th day of June, A. D. 1918, in a suit, numbered on the docket of said court No. 517, wherein, Wallie J. Booty is plaintiff, and Allie V. Booty is defendant, and said petition alleging that plaintiff and defendant were lawfully married on or about the 1st day of January, A. D. 1914, and continued to live and cohabit together as husband and wife until on or about the 1st day of June, A. D. 1915, at which time defendant permanently abandoned plaintiff without cause or provocation on the part of plaintiff, since which time they have not lived nor cohabitated together as husband and wife; that by reason of the defendant's actions and conduct plaintiff says that their ever living together again as husband and wife is insupportable.

Plaintiff says that more than three years have elapsed since said abandonment and he hereupon pleads the statute of more than three years abandonment as provided by law.

Wherefore plaintiff prays the court that defendant be cited to appear and answer herein and

upon a hearing hereof he have judgment dissolving said marital contract which still exists, for cost of suit and general relief.

Herein fail not but have before said court, at its aforesaid regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said court, at office in Nacogdoches, Texas, this the 6th day of August, A. D. 1918.

### FROM LYNN T. BLAKE.

I wish to return my thanks and give assurance of my appreciation to the ladies and gentlemen who gave me such a nice vote for commissioner of Beat No. 1, through which I entered the second primary for the final contest.

Your continued loyalty to my cause, and the votes of others who voted for some of my opponents is earnestly solicited in the final contest in the hope that I may win the race and serve you in the capacity to which I aspire.

Very truly,  
LYNN T. BLAKE.  
Candidate for Commissioner, Beat No. 4.

## At MINTZ'S

We have just received by express a large shipment of shirt waists, in voiles, organdies, crepe-de-chines, georgettes and silks. There waists are beautifully made and neatly trimmed. We have them in all colors and sizes. Prices ranging from 75c to \$5.95.

This shipment also contained a nice assortment of ladies skirts, in all wool serges, and fancy silk poplins, prices from \$3.95 to \$7.50.

Mr. Mintz is now in the Northern and Eastern markets purchasing goods, and he has informed us that he has bought the largest and most complete stock of merchandise, consisting of ladies ready-to-wear, millinery, shoes, hats and clothing, that he has ever bought. And he also informed us that he has been very fortunate in securing his stock at prices that are very reasonable, therefore enabling us to take care of your wants at money saving prices.

He has also advised us to close out our entire stock of Spring and Summer goods regardless of prices, to make room for our large Fall stock, which will begin to arrive soon, and by paying us a visit, you will be surprised at the prices we have put on all Spring and Summer goods. THEY MUST GO.
