SUBMARINE SINKS U. S. STEAMER

(By Associated Press)
NEW YORK, August 14.—A German submarine, approaching to the very gates of New York harbor, sunk the oil tanker Frederick R. Kellogg off the Ambrose channel last night. Thirty-five members of the crew were brought here today. It is reported that seven others are missing. These survivors were picked up by an American steamship.

YOUTHS OF 21 MUST REGISTER AUGUST 24

(By Associated Press)
WASHINGTON, Aug. 14.—Registration on Saturday, August 24th, of all youths who have reached 21 since June 5th, last, was ordered today by Marshal General Crowder. This is done in order to add quickly to the almost exhausted class 1, to meet the army draft call of September. About 150,000 will register.

Most of the new registrants will qualify in class one and be called within the month.

TEXAS' QUOTA IN DEPT. PLAN IS LISTED 2,449

(By Associated Press)
AUSTIN, August, 14, 1918.—Texas' quota in the war department plan for student enlistment is 2,449, according to announcement by Dr. R. E. Vinson, president of the universities and colleges of Texas and state director of this work for the war department. All of the universities and colleges of Texas have joined the movement to facilitate enlistment of boys 18 to 21 years as announced.

The state will be divided into districts for the purpose of conducting an effective campaign for enlistments in this "students" army training corps. Students will receive uniform and equipment, but will receive no pay, being of furlough status. Regular military training will be given as part of the college course. In addition there will be six weeks camp for rigid and intensive military instruction.

REPUBLICAN STATE TICKET

For Governor—C. A. Boynton, Waco.
Lieutenant Governor—John C. Scott, Corpus Christi.
Chief Justice Supreme Court—G. N. Harrison, Brownwood.
Associate Justice, Supreme Court—C. O. Harris, San Angelo.
Justice of the Criminal Court of Appeals—Harry Wurzback, Guadalupe.
Treasurer—J. Allen Myers, Bryan.
Attorney General—E. S. Goen, El Paso.
Railroad Commissioner—George W. L. Smith, Henderson.
Comptroller—W. G. McClain, Waxahachie.
Commissioner of Land Office—J. L. Hickson, Gainesville.
Commissioner of Agriculture—D. H. Merrill, Leon County.
Superintendent of Public Instruction—Mrs. Ralph W. Sellers, Val Verde county.
United States Senator—J. Webster Flanagan.

Mr. J. C. Y'Barbo, of Chireno was a visitor to the city today.

BUY A WAGON NOW

Get the Size and Kind You Want
and Save Money Too

Late last fall "money would not buy" a wagon because no wagons were for sale at any price. Wagons are now scarce and hard to get and we believe it will be harder to find a wagon for sale late this fall than it was last fall. Prices are certain to be higher.

Wagons that we bought last November to be shipped "quick as possible" have not yet been shipped. Factory just cannot get the material and labor with which to build them.

Buy a wagon now if you want a wagon this fall. We will be glad to show you our wagons and make you our lowest prices.

CASON, MONK & CO.

BRITISH AND FRENCH ARE STILL MAKING GOOD PROGRESS IN PICARDY

(By Associated Press)
LONDON, August 14.—British troops have gained further ground at the apex of the Lys salient in Flanders. East of Meteren the line was advanced slightly, while east of Viex Berquin south of Meteren, patrols established a new line.

Aerial activities continue. German airmen are engaged with allied flyers in a combat to prevent reconnaissance and bombing work. Forty-eight German machines were accounted for Monday and seventy-four tons of bombs were dropped on military targets behind the enemy lines.

At Belvalle the French outflanked the western end of the heights south of Lassigny. East of Belvalle the Germans have apparently been able to hold the French in check. Along the east bank of the Oise the French have gained one and one half miles toward Noyon.

The Germans are now in Plemont, one mile southeast of Lassigny, to which they retired following the new advance by the French. The trenches are reinforced by wire entanglements, deserted by the French in June, and afford the Germans a place for strong resistance.

Lassigny, on the southern part of the Picardy battle front, for which the French have been struggling over hills to the west and south, has been taken by them, says the Pall Mall Gazette today. The report is unofficial.

GERMANS STIFFEN LINES TO STOP ALLIED DRIVE ON CHAULNES ROAD

(By Associated Press)
PARIS, August 14.—The Germans are stiffening their resistance in defense of Noyon in an effort to stop the allied drive on the Chaulnes-Roye road. The enemy seems determined to retain the Chaulnes heights at all costs.

Only artillery was active during the night on certain sectors between the Avre and Oise rivers. Along Vesle, where French and American troops are stationed, the Germans made vain raids. The French took prisoners in a raid on Champagne, according to an official statement issued today.

The French army under General Humbert, moved forward 2 miles yesterday and took the St. Claude farm. This makes the hold of the French on the southern part of Thiescourt plateau secure.

ALLIED GUNS NOW HAVE CONTROL OF CONVERGING ROADS AT NOYON

(By Associated Press)
PARIS, Aug. 13.—Allied artillery now has full control of the converging roads in and out of Noyon, near the southern end of the line, notably that running towards Ham to the north. The difficulty of the enemy in carrying out the retrograde movement is thus increased.

Allied forces in Picardy made a heavy attack today along the entire front from Chaulnes southward in a determined effort to break the resistance of the enemy.

GUNS CALL ON AUSTRIA HUNGARY FOR HELP

(By Associated Press)
PARIS, Aug. 13.—The Germans have been compelled to call on Austria-Hungary for help on the western front, and Austrian troops are arriving there, according to the Echo De Paris, today. The dispatch says that Austrian divisions were on the eastern front, but they had not been brought into action.

HUN ULTIMATUM TO FINNLAND

WASHINGTON, August 14.—A report from Stockholm, reaching the state department today from sources considered reliable, says that the German government has addressed an ultimatum to the Finnish government requiring that the Finnish army prepare to march against the Entente forces on the Murman coast within two weeks.

BIG DECLINE IN COT- TON CROP PROSPECTS

AUSTIN, August, 14, 1918.—Cotton crop prospects are two million bales less than month ago, according to W. B. Yeary, cotton marketing specialist of the state department of agriculture, who has returned from an inspection of conditions in the state. The portion of the state that suffered from drought last year, as a whole is in as bad condition as it was a year ago. In north and East Texas where bumper crops were made last year, rain is badly needed, Mr. Yeary said.

NEXT FARMERS' INSTITUTE IS AUGUST 21-22 IN AUSTIN

(By Associated Press)
AUSTIN, August, 10.—The executive committee of the farmers' institute has decided to hold the next annual institute, August 21-22 in Austin. Waco was the only other town bidding for the meeting.
Problems connected with the winning of the war will dominate the program, it is announced.

When a young man says "our living takes every cent I can make," doesn't have reference to the necessities of life.

GERMAN OFFICER TRAMPLES FLAG

(By Associated Press)
NANTUCKET, Aug. 13.—An American flag from one of the boats sunk by a submarine off coast of Massachusetts Sunday was trampled upon by a German officer, according to stories of the survivors of the wrecked vessel. Photographs of the sinking vessel were taken by the Germans to send back to Germany to show what they are doing over here, the German officer said.

COMMITTEE VOTES REPORT FAVORABLY

(By Associated Press)
WASHINGTON, Aug. 13.—The Senate Military committee today voted to report favorably at once on the administration man power bill extending the draft ages from 18 to 45 years, but with an amendment, by Senator Reed of Missouri, to have the government provide two years education free of all boys under twenty-one years, to be given after the war.

A BANK ACCOUNT
~ COMMANDS
RESPECT ~

It gives you a better standing in the community, especially among business men, to be known as "having money in the bank."

It strengthens your credit, besides it is much more convenient to pay by check.

From any standpoint the opening of a bank account is highly desirable and advantageous.

We solicit your account for this bank.

Nacogdoches must have some more houses before she can grow any more—and we can't afford to hold the old town down.

An exchange inquiries if Germany is broke. If she isn't she will be when Uncle Sam gets through with her. She will not only be broke, but she will be subdued, and like the whipped bully, she will be less troublesome in the future.

When a trainload of negro soldiers passed through Temple not long since, one of them was asked the question: "Where are you boys going?" To France? "No, suh, boss," was the reply, "we're gwine to Ber-leeen. We goos through France, though."—Temple Mirror.

We glean from the Lufkin News that Editor Watford has gone to Marlin "where he will remain several days to boil some of the rheumatism out of his system." The Sentinel sincerely trusts that the neighbor will enjoy much benefit from his sojourn in the mineral water resort, and soon be able to return home in the enjoyment of better health.

Seems to The Sentinel that it would be much cheaper and better economy to move the railroad shops to Nacogdoches than it is to haul water to them at Lufkin, and an intelligent review of the matter sent to the proper headquarters might secure for us this most excellent enterprise. Don't throw a brick, Watford; you can keep your standpipe in which to "catch" some rain water for domestic use next winter.

By a vote of 69 to 41 the house of representatives of Louisiana has gone on record as the fourteenth among the sisterhood of states to add its ratification to National prohibition. The fact that Louisiana is one of the old Napoleonic states of the Union, with the cosmopolitan temper of the city of New Orleans, gives the triumph of prohibition in that state added significance in the eyes of the world, and foreshadows the trend to early consummation of a dry Nation.

There are several families boarding in the hotels and boarding houses of the city, while others are "making out" with a few rooms because they cannot find residences which they can rent in the city. The final conclusion of this condition is that Nacogdoches has come to a stand still in her growth until we can get some more houses, and some intelligent means should be worked out as quickly as possible which would secure for us relief in this line. There are plenty of vacant lots and idle wealth which if properly connected, could relieve the situation—can't we connect it in some way?

The old King's Highway is being marked with granite blocks to keep alive an ancient and honorable memory and for the information of the traffic that passes over it. This old road, used in the early days when East Texas was one big wilderness with here and there a small village and scarcely no settlements between, as the thoroughfare from Louisiana to Mexico, and many were the picturesque scenes along this ancient road. It has been designated by the State Highway Commission as a State Highway and the Tribune hopes that the day will not be far distant when construction will start on same.—San Augustine Tribune.

News comes from Washington that a heavy tax will likely be placed on tobacco, this commodity coming under the head of "non-essentials. This good old red land produces a very fine article of the "weed," and the news should have no terror for the frugal farmer of this section. We can grow a supply in the fence corners on the outside of his farm as nothing except the peculiar little worm that feasts upon it will intrude, and if perchance we should have a surplus at harvest time, there will be a good demand for it.

Now, Brother Gibbs, give us the correct pronunciation of the French word, "camouflage," and place us under obligations.—Garrison Weekly News.

We give it up on pronunciation, but in definition the following may be helpful and serve the purpose until we are better informed:

"Camouflage" has become popularized with the war. It means something else and isn't. In other words camouflage is a fake. If the enemy can be made to fire at a curtain which resembles a battery of artillery, he is thereby made to waste much valuable ammunition and do no damage. For example, read the Lufkin Daily News.

Just because we are in motion is no sign we are progressing. It requires as many strides to walk down the hill as it takes to go up. The question is, are we are moving in the right direction and with less hindrance? If this can be answered in the affirmative then we are able to accomplish more. True there are problems to be solved. This is the case in every walk of life. Yet the problems are not so much what men and methods stood for in the dim long ago as what are the needs of the present in attempting to solve them we may make mistakes but to be in error is no disgrace. The dishonor comes from knowingly persisting in it.—Farm and Ranch.

With the agitation of "War Gardens" last spring, an interest was aroused that caused the production of many thousand dollars worth of vegetables. Vacant lots and back yards were brought into use for this purpose and almost every home was supplied with its own vegetables which came at a time to be especially valuable by reason of the high prices of everything entering into a "living." With the happy experience, this custom will doubtless be continued on an even larger scale, and a happy addition to the plan is proposed with the idea of every person who has land suitable to grow a small amount of wheat with which to insure his flour. Great is old East Texas where we can do all these things, and if we fail we deserve the hardship that will follow. Let's "live at home and board at the same place," "fellers."

CONFEDERATE VETERANS MET LAST SATURDAY
Camp Henry Raguet, No. 620, met in regular session Saturday. A resolution was unanimously adopted for each member of the camp to plant one or more acres in wheat this fall. The entire body of these old soldiers stand ready at any and all times to aid our government in feeding the soldiers across the oceans, and to win the war. T. B. Barket, T. J. Hunt, I. N. Dill, E. B. Lewis, N. Pitts, W. J. Crawford, J. J. Rogers, J. S. Doughtie and W. J. Green will attend the re-union at Tulsa, Oklahoma, the 25-26-27th of September, next.
E. B. LEWIS, Commander,
J. S. DOUGHTIE, Adj't. Sec. Trs.

"BEHIND THE LINES"

We feel that a word or two in regard to the workings of the Associated Press would not be amiss just at this time, when so many of the people are interested in the latest news.

The Associated Press represents the combined interests of 1,100 newspapers. It is the greatest news gathering organization in the world. Its prestige and power extends all over the globe because of this fact. It is thoroughly trained and organized, its scope extends to every part of the earth—and scarcely anything could happen of an important nature on this globe that it could not report it immediately. The war has increased its possibilities, yet it has increased its difficulties, just as it has every other organization.

As to some of the great news "beats" The Sentinel has been able to score in Nacogdoches through its membership in the Associated Press, perhaps one of the most important was the submarine raid off the Atlantic coast recently. As an early afternoon paper, The Sentinel was among the first papers in the state carrying the news to its patrons. It would be interesting to know that the A. P. scored a big beat on competitive news agencies in reporting this news, and just how it was reported, which came about in the following manner:

The individual credit for this "scoop" goes to George Weston, news ship reporter, attached to the New York local desk of the Associated Press. On this occasion he was supposed to have departed on his vacation. On that Monday forenoon the New York city editor was called on the telephone by the A. P. representative at quarantine, and informed that three departing ships had just been held up by the navy guard ship, and ordered to remain in port. He had not yet learned why. While the editor was speculating on this, Weston called on the phone. He told the editor that he had got it pretty straight that a submarine had sunk some ships off the Jersey coast the night before, and that he would let him know presently more definitely about it—his vacation was off, he said. This report combined with the previous information the editor had received about the ships being held up, led the editor to believe that something was "doing" and he immediately put out a protective bulletin. Ten minutes later Weston called him again and confirmed the report. The news was flashed to all A. P. papers.

We can not attempt to discuss the many features of this organization, but give the above as an illustration of the forces that are working for The Sentinel through its membership with this organization. Subscribing for this service was one of the moves this paper made in endeavoring to build up a paper worthy of the support of the community.

THE SALMON SEASON IS LATE THIS YEAR

(By Associated Press)
DAWSON, YUKON TERRITORY, August, 10 (By Mail)—Big "King" salmon, which run in millions up the Yukon River every summer, were about four weeks late in making their appearance this year. As a result white residents and natives along the river, who depend on their run for their winter food, talked of a salmon famine, and the horrors of a fishless winter.

Delayed winter ice in the Bering Sea at the mouth of the Yukon it is believed here, made it impossible for the fish to enter stream. Bering Sea ice this year, according to reports, moved later than at any time in the last

decade. The fish made their appearance only a few days ago. They are taken from the river in nets and wheel traps and are camps along the shore.

COLLINS TALKS DIFFERENT NOW.

Box's Lead in First Primary Changes Him From Good to Bad Man.

Senator Collins is politician enough to know that he has almost no chance to win the race for congress, and he is now vainly trying to "start something" on Judge Box, in order to turn the tide. He will not succeed; the best thing he can do is to let nature take its course.—Cherokee County Banner.

The above was written by a man who has been Judge Box's neighbor for twenty years. In the campaign before the first primary, Senator Collins (who has known Judge Box for years and is acquainted with his standing as a lawyer, citizen and public man), often and in many places referred to Judge Box's high character. He then failed to recognize Box's strength before the people. Now, however, recognizing the superior strength of Judge Box, that fact seems to have wholly changed the character of his opponent (in his eyes), and as the Banner says, he is vainly trying to "start something." The people are too wise to believe any "fairy stories" put out at this late hour. (Political Advertisement) dw.

CHANGES IN PERSONNEL OF APPOINTIVE OFFICES

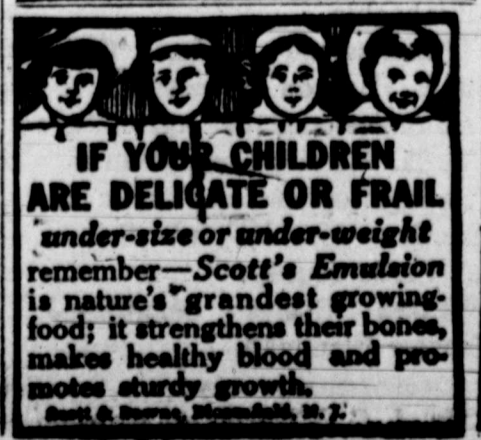

(By Associated Press)
AUSTIN, August, 10—There will be several changes in the personnel of the appointive offices after the first of the year, when Governor Hobby is inaugurated official. At present there are a number of officials appointed by former Governor Ferguson holding office. The governor let it be known several months ago that he desired to surround himself with men of his own choice, consequently it is regarded certain a number of Ferguson appointees will not be re-named after their time expires the first of the year. It is said, however that some few Ferguson appointees will be retained by Governor Hobby.

CAPT. WALTHALL WANTS MAXIMUM STRENGTH

Captain Walthall received instructions from headquarters to continue to recruit to one hundred and fifty men, maximum strength, and that Saturday, August 17, is the last day. This is the only organization now recruiting, and if there are any men who want to join they had better do so at once, as the company already has a hundred and twenty five men, and will recruit to the maximum strength within the next few days. The federal inspector will probably be in Nacogdoches one day this week for the purpose of inspection.

MORE MEN TO BE SENT OUT BY LOCAL BOARD

The local board of this city informs us that they have a call for nine negroes to be sent out on the 22. 80 white men will be sent commencing on the 26th to the 29th.

IF YOUR CHILDREN ARE DELICATE OR FRAIL under-size or under-weight remember—Scott's Emulsion is nature's grandest growing food; it strengthens their bones, makes healthy blood and promotes sturdy growth. Scott & Bowne, New York, N. Y.

HON. BEEMAN STRONG GETS APPOINTMENT

Some months ago Hon. Beeman Strong, a well known attorney of this city, made application for one of the positions on the Commission of Appeals, a commission created by the legislature to assist in catching up with the work of the supreme court, which is reported to be five years behind with its work; to be composed of six members.

When he let it be known that he would like to have the position, prominent attorneys and friends from all over East Texas rallied with their endorsement of his candidacy, and notwithstanding there were others, our townsman secured a large majority of the support of the legal profession from this section of the state which, with the strong endorsement of many other influential friends, at once put his application on a prominent basis and made him a strong factor in the race. It will be better understood and appreciated when the reader is informed that there were some 130 applicants for the positions, among whom were many very prominent and influential attorneys.

The news of his appointment reached Mr. Strong Saturday afternoon in the following telegram which is self-explanatory:

Austin, 4:42 p. m., Aug. 10.
Hon. Beeman Strong.

Nacogdoches, Texas.

It is my pleasure to tender you appointment as member of the Commission of Appeals of the State of Texas. I trust you will advise me of acceptance, and I will consider the state most fortunate to have you serve in this capacity.

W. P. HOBBY, Governor.

This appointment will be for a period of two years, beginning service about the first of October.

When asked if he would move to Austin, Mr. Strong said that he would take his family with him, but he expected to maintain his legal residence in Nacogdoches and continue to call this city his home, to which he will return to active life when his term of office expires.

The appointment of Mr. Strong to this position is very complimentary to him, recognizing in him, as it does, his ability and fitness to handle the very important service the position carries with it. And Mr. Strong's friends in this section, including the legal fraternity, have an abiding faith in him filling it with ability and distinction. In an early discussion of filling these appointments, Governor Hobby made the statement that he wanted young, active men who were sufficiently mature and proficient in the profession, for the places, and we all feel that in the appointment of Mr. Strong he made a wise selection. We also appreciate the fact that it was another recognition of Nacogdoches which has been coming in for a good share of recognition from the state department in the recent past.

Like so many of the men who have achieved greatness in life, Mr. Strong was born and reared on a farm in a neighbor county, coming from one of the good pioneer families who have helped blaze the way to the splendid civilization that we enjoy in this section. He aspired to the legal profession early in life, and with his indomitable will power and courage, set about to equip himself with the knowledge necessary for the most successful prosecution of his chosen profession. Early in his professional life he served his district as district attorney, which position he filled with so much credit to himself that a large and lucrative practice followed in the wake of his voluntary retirement from the office, and in recent

years he has enjoyed rank with the leaders of his profession in this part of the state. In private life, he is an affable gentleman of courteous bearing and pleasing personality, taking a live interest in all the affairs of his country and ever ready to do his bit in every patriotic measure as best proven with his activity in the Red Cross, War Saving and Liberty Loan campaigns in which he was ever ready to go to any place, at his own expense, in furtherance of these campaigns.

The other members of the commission are Hon. Leon Sonfield of Beaumont, B. J. Montgomery of Wichita Falls, Hon. S. P. Sadler of Gatesville, and P. W. McClendon, of Austin.

ITEMIZED REPORT OF W. S. S. SOCIETIES JULY

Below is the financial report of War Savings Societies for July. It should be a great deal better and would be if such good towns and communities as Chireno, Cushing, Fairview, Lilbert, Martinsville, Pleasant Hill, Rock Springs, Sacul, Shady Grove and North Church had sent reports. Reports have not been received from the Baptist, Presbyterian-U. S. A., Christians Aid, C. C. Club, and Woodmen of the World War Savings Societies. The above societies will very likely come up with excellent reports for August, which will more than offset the deficiency for July.

Nacogdoches.
Methodist Aid Society, \$262.25; Christ Church Guild, \$60; First Presbyterian, \$898.25; Sewing Circle, \$123.00; Cason, Monk, \$173; Julius Eichel, \$120.50; Mayer & Schmidt, \$30; Tucker, Hayter Co., \$5; Stripling Haselwood, \$1085; Nacogdoches Grocery Co. \$247.25; Southern Pacific, \$60; Irion Hill, \$116.75; Swift Bros. & Smith, \$34.45; Orion Hill, \$431.75; Ladies of Macabees, \$210; Sixth Grade W. S. S., \$53.25; Fifth Grade, W. S. S., \$64; Catholic Altar Society, \$214.95; Frost-Johnson, \$1600; Ford Service Station \$1015; Wilson Grain Co., \$80; E. F. U., \$49.25.

Nacogdoches County.
Alazan, \$530.75; Appleby, \$334.40; Attoyac, \$2186; Caro, \$49; Decoy, \$9; Douglas \$672.75; Garrison, \$1390; Gravel Ridge, \$363.75; Flat Woods, \$679.75; Linn Flat, \$315; Mahl, \$315; Maytown, \$3096; Melrose, \$506; Mt. Moriah, \$105; Nat. \$827.50; Needmore, \$26.25; Oak Ridge, \$20; Swift, \$5; Trawick, \$411; Trinity, \$20.75; Union Cross, \$47; Woden, \$1087. Total, \$12,703.45. Grand Total, \$22,437.10.

One society was organized in July, at Gravel Ridge, with a fair membership—Mrs. Agnes Rodgers, president, Mrs. John Parrish, secretary.

Reported sales through the activities of War Savings Societies have aggregated in five months \$157,773.60, which goes to show that every little helps.

In Nacogdoches county we have over a hundred War Savings Societies, which means that we have over a hundred compact little armies, all of which are backing the BIG ARMY in France. Mr. Lipsitz says, "The road to Berlin begins in America," and if in America, why not right here in Nacogdoches county. Splendid work in smoothing out the paths of the fighting soldiers is being done by the SAVING SOLDIERS here.

Let us not stop at this.
—Leah Zeve, County Chairman
Woman's Committee, War Savings.

Mr. A. G. Edens reports the sale of a farm in Nacogdoches county, to Mr. J. W. Carlile, of Stevens county, for a consideration of \$4500.

AMERICANS ASKED TO LIMIT USE OF SUGAR

Must Use No More Than Two Pounds Per Person a Month if the Present Meagre Allied Sugar Ration Is Maintained.

Stocks Will Be Short Until Beginning of New Year—Ration May Be Enlarged Then.

Two pounds of sugar a month—half a pound a week—that is the sugar ration the U. S. Food Administration has asked every American to observe until January 1, 1919, in order to make sure there shall be enough for our Army and Navy, for the Allied armies and for the civilians of those nations.

By New Year's the world sugar situation will be relieved somewhat by the new crop. Cuban sugar of this year's crop will be arriving in this country.

Every available sugar source will be drawn on by the Food Administration during the next winter months to maintain sufficient stocks here to keep up our national sugar supply. During October the first American beet sugar will arrive in the markets. By the middle of November some of our Louisiana cane crop will be available. All of this sugar and more may be needed to keep this nation supplied on a reduced ration and to safeguard the Allied sugar ration from still further

reduction. In Europe the present ration is already reduced to a minimum.

Our Situation.

The situation which the United States faces in its efforts to maintain a fair distribution of sugar to the Allied world is as follows:

Sugar supplies throughout the country, in homes, stores, factories and bakeries are at a low ebb. We must make increased sugar shipments to the Allies.

Production of American beet and Louisiana cane crops have been disappointing.

Porto Rico crops have been curtailed.

Immense sugar stocks in Java cannot be reached on account of the shipping shortage; ships are needed for troop movements and munitions.

Army and Navy sugar requirements have increased as well as those from the Allies.

Most industries using sugar have had their allotment reduced by one-half; some will receive no sugar.

Households should make every effort to preserve the fruit crop without sugar, or with small amounts of sugar. Later, when the sugar supply is larger, the canned fruit may be sweetened as it is used.

OUR SAVED FOOD FED THE ALLIES

Food Administrator Writes President America Conserved 141,000,000 Bushels Wheat.

CREDIT DUE TO WOMEN

Meat and Fat Shipments Increased by 844,600,000 Pounds.

Conservation measures applied by the American people enabled the United States to ship to the Allied peoples and to our own forces overseas 141,000,000 bushels of wheat and 844,600,000 pounds of meat during the past year, valued in all at \$1,400,000,000. This was accomplished in the face of a serious food shortage in this country, bespeaking the wholeheartedness and patriotism with which the American people have met the food crisis abroad.

Food Administrator Hoover, in a letter to President Wilson, explaining how the situation was met—The voluntary conservation program fostered by the Food Administration enabled the piling up of the millions of bushels of wheat during 1917-18 and the shipment of meat during 1917-18.

The total value of all food shipments to Allied destinations amounted to \$1,400,000,000, all this food being bought through or in collaboration with the Food Administration. These figures are all based on official reports and represent food exports for the harvest year that closed June 30, 1918.

The shipments of meats and fats (including meat products, dairy products, vegetable oils, etc.) to Allied destinations were as follows:

Fiscal year 1916-17...	2,168,500,000 lbs.
Fiscal year 1917-18...	3,011,100,000 lbs.
Increase	844,600,000 lbs.

Our slaughtered animals at the beginning of the last fiscal year were not appreciably larger than the year before and particularly in hogs; they were probably less. The increase in shipments is due to conservation and the extra weight of animals added by our farmers.

The full effect of these efforts began to bear their best results in the last half of the fiscal year, when the exports to the Allies were 2,133,100,000 pounds, as against 1,298,500,000 pounds in the same period of the year before. This compares with an average of 801,000,000 pounds of total exports for the same half years in the three year pre-war period.

In cereals and cereal products reduced to terms of cereal bushels our shipments to Allied destinations have been:

Fiscal year 1916-17...	250,000,000 bushels
Fiscal year 1917-18...	340,800,000 bushels
Increase	80,800,000 bushels

Of these cereals our shipments of the prime breadstuffs in the fiscal year 1917-18 to Allied destinations were:

Wheat	131,000,000 bushels and of rye
	13,800,000 bushels, a total of 144,800,000 bushels.

The exports to Allied destinations during the fiscal year 1917-18 were:

Wheat	135,100,000 bushels and rye
	2,800,000 bushels, a total of 137,900,000 bushels.

In addition some 10,000,000 bushels of 1917 wheat are now in port for Allied destinations or en route thereto. The total shipments to Allied countries from our last harvest of wheat will be therefore, about 141,000,000 bushels, or a total of 154,900,000 bushels of prime breadstuffs. In addition to this we have shipped some 10,000,000 bushels to neutrals dependent upon us, and we have received some imports from other quarters.

"This accomplishment of our people in this matter stands out even more clearly if we bear in mind that we had available in the fiscal year 1916-17 from net carry-over and as surplus over our normal consumption about 200,000,000 bushels of wheat which we were able to export that year without trenching on our home loaf," Mr. Hoover said. "This last year, however, owing to the large failure of the 1917 wheat crop, we had available from net carry-over and production and imports only just about our normal consumption. Therefore our wheat shipments to Allied destinations represent approximately savings from our own wheat bread.

"These figures, however, do not fully convey the volume of the effort and sacrifice made during the past year by the whole American people. Despite the magnificent effort of our agricultural population in planting a much increased acreage in 1917, not only was there a very large failure in wheat, but also the corn failed to mature properly, and our corn is our dominant crop.

"I am sure," Mr. Hoover wrote in concluding his report, "that all the millions of our people, agricultural as well as urban, who have contributed to these results should feel a very definite satisfaction that in a year of universal food shortages in the northern hemisphere all of those people joined together against Germany have come through into sight of the coming harvest not only with wealth and strength fully maintained, but with only temporary periods of hardship.

"It is difficult to distinguish between various sections of our people—the homes, public eating places, food trades, urban or agricultural populations—in assessing credit for these results, but no one will deny the dominant part of the American women."

A hoarder is a man who is more interested in getting his bite than in giving his bit.

Studied Problem of Sugar Ration for Families

Not as a rule or a regulation, nor even as a service rule, the State administrators of the sixth zone at a conference in Memphis, Tenn., on Saturday, July 27, listened with interest to the recommendation that the housewife might solve her problem of the two pounds a month sugar ration in the home by piecing the open sugar bowl on the table at breakfast with the appropriation for the whole family in the box and then leave it to the family to help themselves, the remainder each day to be collected and made into war pastries to gratify the sweet tooth.

Monday morning Administrator Peden and H. E. Crow, his first assistant, returned from Memphis. The conference in Tennessee was attended by the following State administrators: John M. Parker, Louisiana; Hamilton Williams, Arkansas; Dr. H. W. Morgan, Tennessee; C. B. Ames, Oklahoma; P. M. Hardy, Mississippi; and E. A. Peden, Texas.

The principal subjects for discussion were uniform service rules on the handling of sugar and flour, plans for a new program on cotton seed in dairies, and the question of a staff of inspectors.

July Penalties Imposed By U. S. Food Administration in Texas

The mill of H. C. Knight-Milling Company of Dublin, Texas, was at a standstill for the period of five days beginning July 22, 1918, and ending July 27, 1918, in pursuance of an order from the Enforcement Division of the Food Administration. The mill, as the testimony disclosed, made sales of wheat flour without complying with the substitute rule.

The license of S. Wiederman, No. G-25145, San Antonio, Texas, as a whole saler and jobber of cornmeal, dried beans, cotton seed oil, evaporated milk, eggs, fresh fruits and vegetables, has been revoked by the United States Food Administration, effective July 20, 1918, and continuing until further notice, for selling licensed commodities at wholesale with a license and charging prices which sustained the charge of excessive profits.

The Enforcement Division of the United States Food Administration announces that the Texas Food Administration is sustained in the decision of Administrator Peden, that the bakery of I. W. Thompson at Harrisburg, Texas, be closed for a period of one week. The violation in this case was a failure to use the prescribed amount of substitutes. The order became effective for the week beginning July 23, 1918.

The place of business of H. Goodman, merchant at Carrizo Springs, Texas, was closed on July 15, 1918 and by order of the United States Food Administration for violation of the wheat substitute rule. A notice was placed on the merchant's door stating the reason of the closing.

The Enforcement Division of the United States Food Administration has approved a penalty of \$25.00 (contribution to Red Cross) imposed on M. Tettenbaum, baker, of Beaumont, Texas, for violation of the baking regulations in the use of wheat flour substitutes.

Submarine Sinks British Steamer

(By Associated Press)
NANTUCKET, Aug. 12.—The sinking of the British steamer Penitence, by a German submarine off Georges-Bank, was reported here today.

The Best Plaster.
A piece of flannel dampened with Chamberlain's Liniment and bound on over the seat of pain is often more effectual or a lame back than a plaster, and does not cost anything like as much.

Lenine and Trotsky Fled to Kronstadt

(By Associated Press)
LONDON, Aug. 12.—Premier Lenine and his chief assistant, Leon Trotsky, have fled to Kronstadt, a naval base near Petrograd, according to a dispatch sent out by the semi-official Wolff bureau of Berlin.

Production of Winter Wheat This Year Large

WASHINGTON, August 8.—The production of winter wheat this year was announced by the department of agriculture today. The preliminary estimate is 556,000,000 bushels. Spring wheat production was forecasted at 32,000,000, making a total estimate of 578,000,000 bushels.

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts through the Blood on the Mucous Surfaces of the System thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that fails to cure. Sent for list of testimonials to Address: F. J. CHENEY & CO., Toledo, Ohio. Sold by all Druggists, etc.

MEXICAN SHOTS AT ANOTHER MEXICAN

Saturday afternoon quite a commotion was caused in the Cruze & Roberts restaurant when two pistol shots rang out, and officers were seen to grapple with Lee Cortinas for possession of a large Colt's pistol.

From the best information The Sentinel can get Cortenas and another Mexican, whose name was not learned met with Roy Teel in the restaurant, and immediately a quarrel ensued in which the big pistol was brought into play with Teel as the intended target, but in being rushed to prevent a tragedy both shots went wild, one going through a chair post into the floor and the other into the ceiling. At this juncture the officers and those assisting succeeded in getting possession of the gun and quelled the disturbance, carrying Cortenas to jail.

There was a large crowd in town at the time, and the shooting caused quite a good deal of excitement with many running to shelter and others racing to the scene of the trouble. The reporter, who was soon on the scene as all good reporters should be, was impressed with the calmness of the lady clerk in the restaurant, who had witnessed the event at a very uncomfortable close range, remaining on the scene, and talked about it to those making inquiry with less mental disturbance manifest than any one present. She gave a very interesting account which The Sentinel foregoes in the interest of the legal procedure that is to follow.

Don't suffer the misery of indigestion when you can get relief from Prickly Ash Bitters. It eases pain and drives out badly digested food. One dose does the work. Try it. Price \$1.25 per bottle. Stripling, Haselwood & Co., Special Agents.

EFFORTS TO AMEND DRAFT LAW FAILS

(By Associated Press)
WASHINGTON, Aug. 12.—An effort, by Senator Kirby, of Arkansas, to amend the administration man power bill so as to extend the draft ages from 21 to 45, inclusive instead of 18 to 45, as proposed, failed today in the senate military committee by an overwhelming vote.

When the baby is suffering the double affliction of hot weather and bowel disorders, the remedy needed is McGee's Baby Elixir. It reduces the feverish condition, corrects the stomach and checks looseness of the bowels. Price 25c, and 50c per bottle. Sold by Stripling, Haselwood & Co.

Mrs. L. G. King is in receipt of a letter from her brother, Baxter Duncan, who is with the forces in France, in the course of which he speaks of having been confined in a base hospital for several weeks, but containing the good news that he is recovering and hopes to soon return to the family had that he had been to the hospital, previous news to this effect having been eliminated by the censor. Neither do they know whether he was suffering from a wound or from illness, but they all rejoice that he is recovering.

Prepare for the Hot Wave.
The hot sun is doubly dangerous if there is a mass of undigested food in the stomach. Foley Cathartic tablets give prompt and sure relief. They act gently but do their work thoroughly. They cleanse the bowels, sweeten to stomach and benefit the liver. For indigestion, biliousness, bad breath, bloating, gas. Stripling, Haselwood & Co. dw1

NOTICE—WITNESSES.
The John Burkhalter case is set for trial at Rusk, Cherokee county, for Monday, Aug. 26. All witnesses take notice and be on hand promptly at that time. Judge Guinn states that witnesses will not be re-summoned, but will be expected to be on hand without further notice.

The Mrs. Sallie Boozer case is set for trial at Center, Shelby county, for Friday, Sept. 6. All witnesses take notice and be on hand. The court states that witnesses will not be re-summoned, but will be expected to be on hand promptly without further notice. dw

Constipation is the starting point for many serious diseases. To be healthy, keep the bowels active and regular. Herbine will remove all accumulations in the bowels and put the system in prime condition. Price 60c. Sold by Stripling, Haselwood & Co. eod

RUNAWAY THIS MORNING
CAME NEAR BEING SERIOUS
When the train came in at noon today, a horse attached to a buggy, the occupants of whom were a young man named Harvin, and a young lady, whose name we did not learn, became frightened, and started on a mad race for town. He ran up the street and over to the front of the Baxter Motor Supply Co., in front of which place Otis Kelley was filling an auto tire with air, and the horse ran over Mr. Kelly, bruising him up pretty badly, but inflicting no serious injury. The buggy came in contact with the car, breaking the shaves, while the horse ran into the garage. Neither of the occupants of the buggy were injured.

Apply a cotton cloth wet with Ballard's Snow Lintiment to all wounds, cuts, burns, sores or blisters, and note its wonderful healing power. It is prompt and very effective. Price 25c, per bottle. Sold by Stripling, Haselwood & Co.

French Sugar Mills Destroyed

France must import sugar today, most of it from this side of the ocean, because the largest portion of French sugar beet land is in German hands. As a result, the French people have been placed on a sugar ration of about 18 pounds a year for domestic use; a pound and a half a month. This photograph shows how the German troops destroyed French sugar mills.

Thanks to the French rationing system the annual consumption has been cut to 600,000 tons, according to reports reaching the United States Food Administration. Before the war France had an average sugar crop of about 750,000 tons of sugar and had some left over for export.

Saving Sugar Saves Shipping

AMERICAN families would have less sugar than the people of war torn France, if we depended entirely on our home-grown sugar stocks.

Approximately 75 per cent. of our sugar is shipped to our shores. We produce about 1,000,000 tons of sugar a year. Our imports from abroad amount to over 3,000,000 tons a year in normal times.

The United States Food Administration asks each family to limit its use of sugar to two pounds per month per person for household use. The military situation demands that every available ship be placed at the disposal of the Army or Navy. When we save sugar, we save shipping.

TELEPHONE 94

Nacogdoches is neglecting to "keep the home fires burning" in some matters as she should. The luxuriant growth of wild grass and weeds about over town doesn't look like the Nacogdoches of yesterday.

The dispatches announce that Mrs. Minnie Fisher Cunningham, noted woman suffrage leader, will act as temporary chairman of the democratic state convention, which convenes in Waco, September 3rd. Mrs. Cunningham visited this city during the recent campaign and addressed the ladies at the court house, the honor bestowed upon her is most worthy to both she and the cause she represents.

The big lake of water on the hill in the suburbs of Nacogdoches, supported with railroad facilities north and south, east and west, would bring many manufacturing enterprises to us if the advantages were properly brought before them. These advantages would be especially attractive to railroad shops, and a brief of the facts should be forwarded to the proper authorities at the earliest possible moment.

The Lufkin News is ranting and raving over the fact that she has furnished a large number of boys for our last military company. The editor forgets the fact that Nacogdoches county has raised three military companies where Lufkin has raised only one. We won't embarrass the Lufkin editor with the comparative figures, but we would not be surprised if the city of Nacogdoches has sent out more soldiers than the entire county of Angelina.

GETTING EXPERIENCE AT A BARGAIN

There are two ways of getting experience—by personal experiment and by studying the experiments of others.

Personal experiment is usually mighty expensive—though if usually pays and there are times when no other procedure will settle a question or solve a question or solve a problem.

But there are times when accurate information about a certain farm subject may be obtained at a bargain. For example, methods of growing alfalfa successfully, which probably cost several hundred dollars to work out, may be obtained for a postage stamp or two. Or your neighbor's experience in growing a certain crop may be obtained for the time it takes to make a short visit to his farm. Or the hundreds and hundreds of farm experiences may be obtained for a year's subscription to a farm paper. Or the detailed, specific almost any subject may be obtained by buying a book.

When a man goes in for something about which he knows little, therefore, he ought to draw on the knowledge of others and make that venture as possible. He should write the editors of farm papers, his experiment station or state department of agriculture, the United States Department of Agriculture, consult his county agent, and talk over the matter with neighbor farmers. If this is done, information will be obtained that would take years of time and hundreds of dollars to work out—and such ventures will usually turn out overwhelming successes instead of experiments.—The Progressive Farmer.

ABOUT THE NEW DRAFT REGISTRANTS

From The Adjutant General's department, to all local boards in Texas. Subject: Registration upon extension of present draft ages.

The following statement has been issued by the government:

"To all city, county and state officers, and county and city councils of national defense:

"Official advices state that legislation enacted by congress at an early date. According to plans of the administration, immediately upon the enactment of the new law and after issuance by the president of the required proclamation the registration will be effected. It can not be ascertained at the present time with exact certainty just what ages will be rendered subject to registration and draft, but it is safely assumed that a very large number of men, probably equal to or greater than the number of men required to register on June 5, 1917, will be called upon to stand in readiness to discharge the obligation of allegiance, and that the day of registration will be early in September.

The Local Boards will have immediate direction and supervision of the registration within their respective jurisdictions. The actual registration will be made in the customary voting precincts in the jurisdiction of each Local Board.

The registration of the large number of men contemplated and their being properly classified, and made available for military service to carry out the program mapped out by the War Department for the successful prosecution of the war demands that thoroughly detailed and extensive preparation be made at once in order that the work will be performed promptly and completely on the day set. The president has requested us through the Provost Marshal General to make the preliminary arrangements necessary to put into immediate and effective operation the machinery of registration when the President's proclamation can be published. Instructions outlining the procedure will be distributed to the local boards as soon as possible. There is much work to be done, but with the experience which we have gained our labors will be greatly lightened.

The patriotic fervor with which you as well as the other representative citizens of this state answered the call when you as well as the other representative citizens of this state answered the call when Prussianism first challenged our National rights convinces me that it will be unnecessary to do more than place the matter before you in order to enlist your best efforts in the work.

"Therefore, I am calling upon every city, county and state officer, every county, and city council of National Defense, every committee on public safety, every public spirited organization, and every similar agency to communicate to the local board in its locality their readiness to assist them in performing the work.

"W. P. HOBBY,
Governor.
August 8th, 1918.

PERSONAL APPEARANCE OF FRANCISCO VILLA

(By Associated Press)
EL PASO, Aug. 11.—Much moonshine has been written of Francisco Villa's ferocious personal appearance yet it would be difficult for a stranger to select the bandit leader from among a crowd of Mexican laborers, artisans and small shopkeepers. At times Villa has worn the dress of the Mexican horseman—tight leather trousers,

bolero jacket and high felt hat. Again he has appeared in hip boots, bandoleers of cartridges strapped across his chest and with a wide brimmed hat on his head.

Villa's every day dress consists of a cheap gray suit of the hand-me-down variety, a soft flannel shirt and a fawn colored hat. Neither is there anything in Villa's face which would indicate the bandit unless it would be his small eyes which would appear smaller because of the hundreds of little wrinkles which pucker around them. His mouth is partially hidden by a curly black mustache which hides his blackened and badly stained teeth except when he grins, which he does often. The flattened lobes of the nostrils and the high cheek bones mark his Indian ancestry. Villa's forehead is well developed, but his head appears round without visible protrusion in the back.

Villa is five feet ten inches in height and weighs 165 pounds. His legs are slightly bowed from much riding and his arms are short and his hands plump. He rides well and shoots straight. A characteristic pose when he is in deep thought is for him to stand with his feet far apart, his mouth open and his hat thrust back on his head. He speaks rapidly but raises his voice only to give a command or shout a Spanish oath at someone who has aroused his anger.

TEXAS WILL HAVE CONSTITUTIONAL CONVENTION

(By Associated Press)
AUSTIN, August 13.—Texas will have a constitutional convention next year unless plans of several members of the legislature miscarry.

Senator Lon Smith, of the Eighth district has let it be known that he already has made a tentative draft of a joint resolution calling for submission of the constitutional convention question.

Senator Smith also favors removing the limit as to the length of the regular sessions of the legislature, now fixed at 60 days. He believes that the legislature should remain in due attention. Frequently, Senator Smith says, bill will be rushed through in the last few days of a sixty-day session without proper consideration. This should be eliminated if the time limit were abolished.

Resolutions calling for submission of state-wide prohibition and woman suffrage will be introduced, Mr. Smith says.

SIBERIAN COMMANDER IS A TEXAS MAN

WACO, Aug. 13.—In selecting Major General William S. Graves to command the expedition to Siberia, the War Department has chosen a Texan. General Graves is a native of Gatesville, having been appointed to West Point by the late S. W. T. Lanham, member of congress from the Weatherford district.

General Graves has been advanced from the rank of Major to that of Major General since the United States entered the war, and recently has been assistant chief of staff and is a recognized administrator and organizer. He has been in command of the Eighth Division, at Palo Alto, Cal.

General Graves was a student of Baylor University when it was located at Independence. In 1889 he graduated from the infantry school at West Point. He was then sent to the Philippine three times and received a flesh wound in each engagement with the Filipinos. He was also a recent member of the commission sent last summer to study methods of modern warfare in France.

THE NEW CALOMEL A PERFECT SUCCESS

Calotabs, the newly perfected calomel, is absolutely purified from all of the unpleasant sickening and dangerous qualities of the old-style calomel. The new Calotabs are rapidly taking the place of the old-style calomel tablets, as they are much more effective as a liver cleanser and a system purifier, and yet are entirely free from all objectionable qualities.

The new Calotabs are sold only in original, sealed packages; price, thirty-five cents. Your recommender and guarantees them.

TEN REASONS WHY YOU SHOULD ENTER THE TYLER COMMERCIAL COLLEGE, TYLER, TEXAS.

From present indications, our fall attendance will be the heaviest in the history of the institution. We are now getting almost one hundred requests each day for catalogues from those interested in attending at once. There are many reasons why you should enter the Tyler Commercial College. FIRST, we meet the demands of the business office and Government, or we would not be enrolling over three thousand students this year from over half the states in the Union. SECOND, through our free employment department we see that our graduates secure good positions. THIRD, we have our own specially prepared and copyrighted text books and the most modern methods of teaching. This enables us to give a better training in less time and at less expense. FOURTH, our work is practically all taught on the individual plan of instruction, thereby enabling each student to advance as rapidly as his ability will permit. The dull student is not overcrowded by the fast one, or the fast student held back on account of the dull one and both discouraged. Each works to his full capacity and is delighted with his work. This method also enables a student to enter any day in the year and take up his work to the very best advantage. FIFTH, you will associate with a splendid class of ambitious industrious young men and women. SIXTH, our service department is of exceptional value to the graduates in after life. It is free to all and is very thorough. We have one of the most competent corps of teachers to be found anywhere. They know how to make a student's stay pleasant as well as profitable. SEVENTH, we give thorough courses in Bookkeeping, Short hand, Telegraphy, Cotton Classification and Business Administration and Finance. This gives you a wide range of subjects from which to select, something to fit you for the line of work you most prefer. EIGHTH, we have shown the superiority of our training by placing our students in the very best positions to be had in commercial, state and national affairs. Also by repeatedly winning first honors on our exhibit of students' work at three different state fairs. NINTH, Tyler is a beautiful, moral, healthful city of fifteen thousand high class citizens, the metropolis, and educational center of East Texas.

Fill in coupon and receive our catalog, making your arrangements to enter America's largest, most thorough and complete business training school at once. More than twenty five thousand have benefited by this advice.

FRENCH LAUNCHED NEW ATTACK ON FRONT TODAY AND MAKE GOOD GAINS

(By Associated Press)

LONDON, Aug. 13.—The French launched an attack this morning on the southern part of the Picardy battle front and according to a report shortly afterwards were making progress in the valley of the Oise. The Germans are evacuating a trench in the bend of the river west of Bailly. The French are occupying them. To the northwest, the french are almost entirely on the crest of Lassigny Massif, where heavy fighting is now in progress.

German troops are evacuating trenches in the river bed of the Oise, just west of Bailly, according to reports received here early today.

The enemy is reported retiring from Peronne, and the ruins of that city are burning. The Germans are destroying the villages as they go. Fires have been observed by allied airmen at various points.

The village of L'Econville has been captured by the French and further ground has been gained by them north of the St. Claude farm. L'Econville is about five and one half miles southeast of Lassigny and virtually on the crest of the ridge overlooking the river Oise.

Heavy local fighting is reported in progress at Fismette, on the north bank of the Vesle, where Franco-American forces hold the line. The Germans made an attack on the allies, forcing them to retire to the south bank of the river. Counter attacks were immediately launched by the allies, which resulted in their recovering the lost ground.

The Germans delivered a local attack near Fourquescourt, on the line between Roye and Chaulnes. It was repulsed.

The British troops have gained additional ground north of Roye and on the north bank of the Somme, according to an official statement from Marshal Haig today. The Germans last night attacked British positions in the Merris sector in Flanders, but were repulsed.

The French have gained control of the entire Massif of Lassigny, on the southern end of the Picardy battle front.

CAPTAIN HARRELL DECLARES HE HAS FOUND RIGHT THING

Life—Now in Splendid Health Troubles Gone and Plays All the Time.

"You ought to see what a wonderful change Tanlac has made in my little girl, why, she's like a different child" says Captain T.M. Harrell, residing at Ingleside Georgia, who was for twenty-five years a conductor on the Seaboard.

"The child was never strong and had suffered ever since a baby," he continued. "She complained of headaches most all the time and her kidneys gave her no end of trouble. She had no appetite and what little she ate soured on her stomach and it would put her in misery for hours so that she could hardly sleep at night. She was weak and nervous and could not play like other children, although she wanted to. We gave her one thing after another, but nothing did her any good.

"I found the right thing for her though when I started giving her Tanlac. She began picking up right soon after she started taking it. Her strength has been built up wonderfully, her kidneys don't worry her like they did and she eats and sleeps like any other healthy youngster. Tanlac has given her health and happiness and she's going to school and playing along with other children as if she'd never been sick at all.

Tanlac is sold in Nacogdoches by Stripling, Haselwood & Co., and Swift Bros. & Smith, in Woden by M. J. King, in Garrison by Garrison Drug Co., in Apple by A. J. Beck, in Douglas by Campbell & Watkins, in Chireno, and in Nat by E. M. Jarrell.

The prize fighter is less objectionable than the arguer. One doesn't have to associate with the former.

FROM A SOLDIER BOY.

Editor Sentinel and Friends at Home:

On July 22nd, I, with some of my friends was entrained for Camp Travis. We reached here about 7 a. m. Tuesday. Had a pleasant stop-over in Houston, since we saw a good deal of the town white waiting.

I am enjoying life here, having a high heel time. I would say to those who may be called: Do not hesitate to come for your pleasure will no doubt be surprising, that you will have here. They are feeding us fare fit for a king, several different kinds of vegetables, meats, from rabbit up to chicken, including those minor meats of ham, bacon and beef. They also give us lots of soft drinks, such as ice tea, lemonade, grape juice and coffee. They also frequently serve ice cream and give cigarettes and cigars to those who desire them. This does not seem to compare favorably with that frequent report that soldiers in Camp Travis, were served slightly more than bread and Irish potatoes three times each day.

When boys get here and read reports concerning the war many of them want to leave here, but not to go back home. They want to join the boys over there."

We hope that you all will not forget the boys who have left Nacogdoches county, but will think of us and write to us. We go eagerly to office twice daily looking for letters from friends and loved ones at home.

Trusting that all may continue well with you who are at home, and that you may live happily while we are gone, we remain,
In the Service,
FLOYD RAMOS.

I want to trade you 13 1-2 acres of land, with two sets of good houses, inside the corporate limits, for a good farm. Lee Gaston. 2td-1w

Great Variety of Fish on Market to Tempt Appetite on "Meatless Days."

"Fresh fish, shrimp, crabs and turtles, too."
No form of meat is so cooling and healthful as fish, especially when the weather is extremely warm. Since we have formed the habit and can not change our ways too suddenly, why not eat more fish? The substitution of fish for meat at this season means a great saving of meat for a time when we may sorely need it.

All of the following will be found on the Texas market: Spanish mackerel, pompano, red snapper, sea pike, redfish, speckled trout, flounder, sheephead, salt water cat, drum, sail water, croaker, halibut, buffalo, mullet, rock bass, striped sea pike, june fish, jackfish, angel fish, black bass and perch.

Spanish Mackerel on Market.
Spanish mackerel is on the market now—those wide, fleshy looking, aristocratic fish with a promise of a real dinner for a hungry man. While these delicately flavored fish are usually very scarce, it seems that there will be enough to supply the demand at 30 cents a pound. Its sharply pointed, reverse spear shaped tail suggests the gamey nature of which it is abundantly supplied. Those on the market come from Louisiana. While they live in the warm waters near the tropics, they come north in large schools, feeding upon other fish, especially menhaden. They spawn in May off the coast of North Carolina. While their eggs are extremely small, they are very numerous. A six pound fish will produce 12,000,000 eggs.

But the pompano is a favorite of the real connoisseur of the fine art of eating fish by the Fletcher method—tasting them as long as possible. There can be no better fish. They eat mollusks, small clams, crabs and shrimp. As they feed in shallow water and often root in the mud for their food, the caudal fin can sometimes be seen above the surface of the water.

The striped sea pike is a game fish of no small pretensions—he can make a run almost equal to a fresh water trout and can leap clear of the water. The hook must have a long extension, for if he gets hold of the line he makes a clean cut almost as good as the scissors. It is best to use proper caution in removing him from the hook, for his bite is vicious. They are very fast swimmers. The meat of the sea pike is solid and well flavored. Most of the supply on the market is from Point Isabel.

Red Snapper is Tactacemic.
The red snappers are an exceptionally good keeping fish. They are a deep water fish and are caught by hook and line far out at sea, and it takes several days for a gang of men to catch enough to pay for a trip to market. At present they sell for 25 cents a pound and the demand is second only to the speckled trout.

The salt water gasperon is a favorite low priced fish; it is probably the best fish for the money on the market. It is a favorite with the colored people. Possibly it has more meat for the money than the salt water bream and there is little difference in the flavor.

The buffalo is too bony, but it is a fairly good flavored fish. They are more easily obtained than any other fish except the snail water cat, and their price is about the same—two pounds for a quarter. Mullet comes from Brownsville and is sometimes compared to mackerel.

A Beauty to Look Upon.
But we have not mentioned the speckled trout in a manner fitting its well deserved dignity and prestige among the denizens of the deep; here is a beauty to look upon, a world of joy to angle for, and a complete gastronomic delight to feast upon; happy is that man who finds the opportunity to tickle his palate with one of these gusto-excitant delicacies.

The sheephead is not pretty, but it has many of the qualities of a good fish. Shearing is a very common way of taking them, but the gill net is the fastest. When rightly reduced to steak most all of the bones are removed. They are very plentiful in all parts of the Gulf. Halibut comes from California and the steak sells for 30 cents a pound. Jack salmon, from the Gulf, is sliced and sold as steak.

Flounders can be found among the offerings. The meat is of excellent quality and it keeps well. While these fish can occasionally be taken on a hook or in a seine, the usual way is to spear them.

The flounder is a good example of inherited laziness. Nature surely intended that he should swim upright and be like other fish, but his habits of life changed him into a curiosity of degeneracy.

June Fish Steak Excellent.
The largest fish on the market is the june fish; it weighs 95 pounds; but it makes excellent steak. This fish is of the large kind and there are no pygmies and dwarfs in the family. The smallest specimen that has ever been taken weighed 45 pounds. There are only a few examples of the smaller size taken. It is an immense fish with a large gaping mouth and ferocious eyes. It is sometimes called the black or mero de loaito, but is familiarly known as the black jewfish. In scientific works it is known as *Garrus nigrita*; it would seem that black summer is the more appropriate name.

THE FISH INDUSTRY WILL BE DISCUSSED

STATE PRICE INTERPRETING COMMITTEE TO BE ORGANIZED.

Food Administrator Has Called Conference of Retailers, Wholesalers and Fishermen to Plan Increase of Fish Consumption.

Thursday, August 15, Administrator Peden will meet with the fishermen, fish wholesalers and fish dealers in a conference in Houston to be held at the Bender hotel. The purpose of the conference is to give the three agents in the transporting of fish from the sea to the kitchen table an opportunity to explain the part each is willing to perform in the task of winning the war; and as a result of the conference a State fish price interpreting committee will be formed, whose function it will be to cooperate with the Fish Department of the Federal Food Administration for Texas.

The Fish Department of the Food Administration has been engaged for several months in making a study of the fish industries along the Texas coast, and recently a remarkable survey was accomplished, beginning at Brownsville and terminating at Port Arthur, by H. Warrach, a former fish distributor of Port Lavaca. On Mr. Warrach's figures the conference will pivot.

Charles L. Desel, director of the Perishable Department of the Food Administration, is also in charge of the fish section. In a report to Mr. Peden, Mr. Desel states that although the fish industries of Texas have a daily capacity of 200,000 pounds, the average use per day is only 20,000 pounds, or 10 per cent.

Up to Householder.
If Texas, which is one of the chief cattle raising States, expects to perform its fullest duty to the nation in keeping the record clean on shipment of meat products abroad, it is frankly up to the householder to eat more fish as a substitute for meat. The shipment of meats and fats to allied destinations during the fiscal year of 1917-18 was 3,011,300,000 pounds. The prior fiscal year was 2,165,500,000 pounds. With 2,500,000 fighting men in France, and France and England and Italy down to a grain ration so far as their production is concerned, we can expect and must look forward to augmenting the 1917-18 fiscal year by 2,500,000,000 to 3,000,000,000 pounds of meat. Much of this must come from self-denial and from substitution.

More Protein in Fish.
In fuel value meats give more energy to the body than fish; yet on the other hand meats call for more energy to digest, hence the value of the two so far as building up energy offset each other. Fish has somewhat more protein than meats, which is to say, more of the elements which build up the tissues.

Although fish is not as cheap as it might be, it is considerably cheaper than meat and it is most seasonable in the summer and fall, making for a light, wholesome diet.

With the exception of Texans living on the coast, fish has been for years regarded as a special treat and a dish to be had perhaps once or twice a month. The result of this attitude, and also a prejudice against frozen fish and an insistence upon having fish with life "almost" still in them, has contributed as much to retarding the industry along the Texas coast as the State laws, now modified by the federal laws. The administration urges most earnestly that the public buy more liberally hereafter of the stocks of small fish and thus build up an industry which will not only provide a wholesome substitute for meats, but also enrich the State.

Wrong Impressions Exist.
There are at present many absurd statements being made by people totally unfamiliar with the federal regulations governing the fishing industries, and the Food Administration is anxious to correct these wrong impressions.

Fishing is wide open, with liberal exceptions as to small sizes and some of the choice fish; fish traps, pouns and weirs may be used and used continuously. Sunday included, save in restricted areas prescribed by the war department; purse seines, haul seines, gill nets, otter trawls may all be used, provided that they shall not be operated within 500 yards of any other similar outfit or within 500 yards of any established beach, seining location in operation by any other licensee.

All men may fish and sell of their fish—the only stipulation is that all salt water fishermen must have licenses and these may be had without costing a single penny by applying to the License Division of the United States Food Administration, Washington.

With such liberal jurisdiction Texas should have today a great fish industry; whereas her complete output does not come up to a single pier of the average fishing town along the New England coast.

NAMES HEAD FOR MISCELLANEOUS ACTIVITIES.
R. H. Spencer, who handled so successfully the Threshermen's Division of the Federal Food Administration for Texas, and whose work was especially reflected in improved threshing methods in the wheat belt of North Texas, has been appointed Director of Miscellaneous Activities for the Federal Food Administration for Texas.

The Department of Miscellaneous Activities takes care of the many problems not provided for by existing departments and builds these new departments up to the point where they justify a special director.

Food Questions Answered FISH

Is fish a "brain food"?
No more so than other foods. Fish contains a high percentage of phosphorus and when food values were first discussed this was credited as "brain" food. Phosphorus is no more a brain builder than other substances of which the brain is composed.

When is the best time to substitute fish for meat?
In the spring and summer when many varieties of fish are plentiful. Is fish cheaper in warm weather?
Yes. Particularly in localities near the source of supply.

Which are more plentiful, the ocean or inland fish?
Ocean fish. The growth of large cities on inland rivers has brought into existence many mills and factories, which pollute the waters and drive away the fish.

Which variety of fish furnishes the greatest food value?
The oily varieties, such as salmon and mackerel.
Where are these found in abundance?
Salmon on the Pacific coast, and mackerel on the Atlantic coast.

Why should we have frozen fish?
Because that makes it possible to have good fish in inland towns and cities.
Is frozen fish good?
Fish is frozen for market only when it is absolutely in good condition, and people should not fear to use it.

Should the fish be thawed out at the retailer's?
No; as soon as the fish is thawed out it deteriorates rapidly.
What should the housekeeper do?
She should insist on getting the fish frozen at the retailer's and keep it frozen until she wishes to use it.

How is the best way to thaw it out?
By placing it on ice in a pan in a cool place.
How long does this process take?
Several hours.
Is there a quicker way to thaw it out?
Yes; by putting it in cold water; never hot.

Should the water it is thawed out in be used?
By all means use the water if the fish is boiled, or use it for chowder. Some of the value of the fish goes into the water and is thus lost unless the water is made use of.

What are the advantages of cold-storage fish?
1. It brings good fish into large cities.
2. It standardizes the price of fish.
3. It lowers the annual price of fish.
4. It makes the transportation and caring for fish possible and safe.
5. It provides fish out of season.

Does these same points hold good for cold-storage foods in general?
Yes.

CAMP CONSERVATION.
Fish for food as well as for pleasure, suggests the United States Food Administration to the thousands of families who spend several weeks every summer in cottages on lakes and streams. Fish as a substitute for meat has long been urged, and now that the shortage of beef is again serious, it is desirable to increase the use of fish.

Fishing has an added charm when one's dinner depends on the outcome, and the sport of camp cookery should be more attractive in a game to see how many delicious ways the fresh catch can be prepared for the table.

Besides fried, baked and stuffed fish, there are other means of preparation which adapt themselves readily to camp kitchens.

FISH CHOWDER.
3 lbs. fish
4 tablespoons drippings
1 medium onion, chopped fine
1 quart sliced potatoes
3 cups hot milk
Skin and bone the fish and cut into inch cubes. Cover the bone and trimmings with cold water and let simmer for one-half hour. Cook the onion in the fat for five minutes in a stewpan.

Parboil the sliced potatoes for five minutes, then drain and add layers of fish and potatoes to the fat and onion in the stewpan. Season each layer with salt and pepper. Strain the liquid in which the fish bones have been boiling over all, and cook about twenty minutes until fish and potatoes are tender. Then add the scalded milk. If desired thicker, sprinkle a little cornmeal between each layer of fish and potatoes.

The following sauces may be served with fish to add variety:

VEGETABLE SAUCE.
Add one-half cup of green peas, chopped celery, parsnips, cauliflower, or mushrooms to one cup of white sauce. Season well and serve with fish balls.

CHEESE SAUCE.
Add one-half cup of grated cheese to one cup of white sauce. Use paprika instead of pepper in making sauce.

5c, 10c and 25c Merchandise

The best values in popular priced merchandise are found at our store. The things that sold at 5c, 10c and 25c before the war are now slightly higher in a few instances, but we are still the lowest on that price merchandise, saving you a nickle on this article and a dime on that.

GIRLS! ITS YOUR STEP THAT ATTRACTS
Says, women pay too much heed to their face instead of their corns.

Watch your step! A brisk lively step is what charms more than a lovely skin, but your high heels have caused corns and you limp a little. That's bad girls, and you know it. Corns destroy beauty and grace, besides corns are very easy to remove.

Rid your feet of every corn by asking at any drug store for a quarter of an ounce of freezezone. This will cost little, but is sufficient to remove even hard or soft corn or callus from one's feet.

A few drops applied directly upon a tender, touchy corn relieves the soreness and soon the entire corn, root and all, lifts right out without pain.

This freezezone is a gummy substance which dries instantly and simply shrivels up the corn without inflaming or even irritating the surrounding skin.

Women must keep in mind that cornless feet create a youthful step which enhances her attractiveness.

LEO ZEVE MARRIED MONDAY EVENING

Monday evening at 8:00 o'clock, at the residence of the bride, Mr. Leo Zeve, of this city was married to Miss Sarah Carb of Fort Worth, Dr. Fox of that city officiating.

A few relatives and friends of the contracting parties were present at the wedding. After the ceremony a reception was held in their honor.

The bride is a beautiful and accomplished young lady of that city, and has a host of friends

who wish her much success and happiness in her new relationship. Mr. Zeve, the groom is well known to Nacogdoches people, and has the best wishes and congratulations from scores of friends of this city.

Mr. and Mrs. Zeve left for Dallas after the ceremony, and will arrive in Nacogdoches this afternoon, where they will be at home to the friends at Mr. Joe Zeve's.

CAMOUFLAGE PRONOUNCED
Editor Sentinel:

A few days ago the Garrison News asked The Sentinel to pronounce camouflage. The editor of The Sentinel defined the word, and referred the question of pronunciation to the erudite editor of the Lufkin News, of stand-pipe fame, who has not yet replied, so far as the record discloses. The Dallas News pronounces it cam-oo-flazh, accepting the first syllable.

ATTOYAC GETS COUNTY AID TO BUILD ROADS

At the meeting of the commissioners court in this city this week, a delegation of progressive citizens from Attoyac were in attendance, and petitioned the court for \$2,000 for the purpose of building good roads in that community. The petition was granted, and the citizens of that community are assured that in future that progressive community will have a system of good roads that will reflect its progressiveness to the tourist or others whose pleasure it would be to visit that place.

Commissioners' court adjourned yesterday afternoon, after transacting the routine business of its regular session.

CONSIDER PROPOSED FREE TEXT BOOK AMENDMENT
(By Associated Press)

AUSTIN, August, 14, 1918—Consideration of the proposed constitution amendment providing for free text books in Texas schools was slated to come up for consideration when the State Text book commission met here this afternoon. Prior to the meeting, some members of the commission, which only recently was appointed by Governor Hobby expressed belief action looking to the awarding of contracts probably would be deferred until after the November election when the attitude of the people on the amendment would be known.

The question of continuing the present contracts for books is to be determined by the commission but Governor Hobby, a member of the commission, has let it be known that he does not want the commission to take any action which would endanger adoption of the amendment.

LABOR SITUATION IN TEXAS BECOMING ACUTE
(By Associated Press)

AUSTIN, August, 14-1918—That the labor situation in Texas is becoming acute and that something must be done to help the farmers is the belief expressed by E. A. Peden, federal food administrator of Texas. The situation was gone over with Governor Hobby by Mr. Peden and T. C. Jennings, commissioner of labor statistics, but no definite conclusion was reached.

One of the plans discussed was that of moving out of the drought stricken sections of the state to productive sections. Another plan concerned the expediting of the movement of Mexicans over the border into Texas where they could be employed.

Symblem Ring

For your soldier.

Send him away with this beautiful ring of sentiment on his finger.

Mizpah is the Bible's word that means "God watch between thee and me while we are absent one from the other." And the two inspiring words "America and Liberty" completely cover the whole sentiment of leave-taking. The Symblem Ring will be his constant reminder of the dear ones over here—especially of the dear one who gave it to him.

See the Symblem Ring today at our store.

In sterling silver only \$2.50, 10k gold \$7.50 and 14k gold \$10.00. Don't let your soldier boy go without having on his finger this beautiful token.

STRIPLING HASELWOOD & CO

THE BEST PROOF.

Given by a Nacogdoches Citizen. Doan's Kidney Pills were used—they brought benefit.

The story was told to Nacogdoches residents.

Time has strengthened the evidence.

Has proven the result lasting. The testimony is home testimony.

The proof convincing.

It can be investigated by Nacogdoches residents.

C. Heitmann, shoemaker, 111 N. North St., Nacogdoches, says: "I was annoyed by a constant dull ache in the small of my back. I lacked ambition and mornings, I was tired and worn out. I got Doan's Kidney Pills and they cured me."

Over three years later Mr. Heitmann said: "The benefit Doan's Kidney Pills gave me has been lasting."

60c at all dealers. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

MARRIED AT COURT HOUSE

Mr. I. G. Bass, and Miss Maxine Fuller, a nice looking young couple from Martinsville, were married at the court house late yesterday afternoon by County Judge Perritte.

The bride is a lovable young lady, the daughter of Judge Fuller, of Martinsville, and has a host of friends in that community who extend congratulations and a good wishes. The groom is a prominent young gentleman of that community, and also has a host of friends who join The Sentinel in wishing both parties the very best of good wishes.

A LETTER FROM JNO. H. PERKINS.

To All Voters—Men and Women: I am still in dead earnest about wanting to be your next county clerk. I am capable and competent to fill the office, and being a poor man I need the office because it pays a living salary. I have worked at one job steady for over twenty years and now want a change that I may better myself.

I have naught to say against my honorable opponent. I know nothing but good to say of him. I have run a clean, fair race. No one can say that I have used any unfair schemes or methods to gain any votes. I have run on my own merits; open and above board.

I again appeal to those men and women who voted for Miss Hines and Mr. Martin, to help me in the primary August 24th. Look into my past life, investigate my record as a man and see if I am not worthy of your sober consideration and vote.

You will not ever have cause to regret having voted for me and I will be so grateful and appreciative that I will make you a good trusty official.

Remember August 24th, and go vote and help me realize the greatest ambition of my life.

Most respectfully,
JNO. H. PERKINS

CHEROKEE COUNTY DEMOCRATS UNANIMOUSLY ENDORSE BOX.

The following resolution was adopted by Cherokee County Convention in session at Rusk, August 3rd:

Whereas, Judge John C. Box is a distinguished citizen of our County of whom we are justly proud.

Therefore, be it resolved that we commend him to the citizenship of the Second Congressional District as in every way worthy and well qualified, mentally and morally, to represent the entire district in congress.

Motion was made and carried that the above motion be adopted by a rising vote.
(Political Advertisement)

FROM W. D. BURROWS.

To the Voters of Commissioners Precinct No. 1:

Those who voted for me on July 27, I want to extend my heartfelt thanks, and to those who voted against me I hold nothing but the best of feelings.

Yours sincerely,
W. D. BURROWS
(Political Advertisement)

ASSISTANT DISTRICT FOOD ADMINISTRATOR IS APPOINTED.

The State Food Administrator has appointed Mr. Coke Murphey of Lufkin, as district food administrator for hotels, restaurants and boarding houses, and in future they must make their regular monthly reports to him. Mr. Murphey says that he is going to insist that these reports be turned in promptly, and that they will be closed up if they don't do so.

TO THE VOTERS OF NACOGDOCHES COUNTY.

In my race for County Judge I have been somewhat handicapped in having an opponent who who is lame, but I hope that I have convinced you of my ability and of my worthiness to serve for a while as your County Judge. It is a position usually given to some striving young attorney, who has conducted himself fairly and honorably in life.

It has not been my purpose to talk about my opponent. I shall not say anything which is calculated to injure him. What I wish to say is this, my opponent, Judge Perritte, has spent practically one-half of his active life in public office, 14 years in all, when he serves out this term. He was in office when I was a boy on the farm. One of the 1st political speeches I ever heard was made by my opponent at Holly Springs, near where I was reared. He has had more political honors bestowed upon him than any other man of Nacogdoches County within my knowledge. Do you recall one who has been more favored than he? How many times have you voted for him? He has achieved quite a reputation in a political way, yet he is not satisfied. Not satisfied with the advantages he has had, and the opportunities afforded him. Not satisfied with holding the office of County Judge two terms, four long years, a good paying office, he comes back against a long established rule, asking for a third term.

It may be that I am biased and prejudiced in this matter, it may be that I am wrong, but I believe that when a man has served four years in a good paying, public office, he then owes it to the public and to the other aspiring young men to give them a chance in life. We cannot put all the cripples in office. What about the boys who soon will return from France, minus of an arm or a leg?

As to the theory that my opponent can not do anything except hold office, I wish to say there are hundreds and thousands of young men in the country who would give a fortune for the knowledge my opponent has of law and human nature, and for his ability to make a speech.

Now, is it fair to the other young men of the country, if we keep one man in public office as long as he wants it? I am asking for the office of County Judge, promising to take care of the duties of that office, and treat your confidence with sacred care. I ask both men and women to go to the polls on Saturday, August 24, and vote for me, which will enable me to pay for my home like my opponent has done since he has been in office.

Trusting that your verdict will be fair and just to all, and such that you may have no cause for regret, I am,

Respectfully,
J. M. MARSHALL.
dw.

COMPULSORY AS TO NAMES OF THE WHEAT GROWERS

Mr. Jas. D. Greer, the agricultural agent of this county, informs us that it is compulsory by the national government that the names of those farmers who will agree to grow an acre or two of wheat be turned in. It is not compulsory that the farmers grow the wheat, but it is very imperative that the government have a list of the names of those who will agree to do so.

In this connection Mr. Greer authorizes us to say that those whose lands will at all permit, who do not grow a little wheat will not be allowed to purchase any flower, and it would seem to the advantage of the farmer to

try an acre or two.

Community councils from the different communities will gather the names of those who will agree to grow the wheat.

PRINCE CAPTURES TWO JAILBREAKERS

Mr. J. L. Prince, the sheriff, informs us that he has located Albert Fields, who was sentenced for 6 years in the penitentiary last fall, and who escaped from jail soon after, in Hillsboro, and left last night for that place.

Mr. Prince also located Jim Johnson, who was sentenced to the pen for five years for forgery, and who was on a \$1,000 bond, pending action on a motion for a new trial, which he jumped, in a turpentine camp near Livingston a few days ago, and brought him back to jail here.

Mr. Prince is to be complimented for his efficient work in recapturing these criminals.

COMPLIMENTS THE TWO NACOGDOCHES COMPANIES

Major Clark, who came here to muster in the new infantry company, recently organized by Capt. Walthall, was very much pleased with the showing made by both this company and the cavalry company, and specially complimented both companies. Mr. Clark said that in a military way Nacogdoches county was leading the whole country.

Major Clark said: "I have mustered in over 40 companies of the National Guard, and the two Nacogdoches companies rank with the very best." A compliment like this, coming from such a distinguished source is one that Nacogdoches county should be very proud of.

Prof. J. B. Stripling is making a business visit to Austin today.

NEW FOOD ADMINISTRATOR HAS BEEN APPOINTED

At the recommendation of the County Council of Defense, Mr. Chas. Perkins of this city, has been appointed food administrator for Nacogdoches county, to take the place of retiring food administrator Capt. Walthall, who finds that his whole time will be taken up by the service, while here, and he is also likely to be called out at any time.

WANTED—Good work horse or brood mare preferred. Must be worth the money. Frank Clampitt. 3td-1w

MARRIED AT COURT HOUSE.

Mr. J. T. Wall, and Miss Mina E. Lanier, of Alto, were married at the court house by Esquire Frank Huston about 2:30 this afternoon.

The parties were nice looking young people, and no doubt have many friends in their home, and elsewhere, with whom The Sentinel joins in congratulations and good wishes.

The Frost-Johnson Lumber Company mill of this city has closed down for some repairs to be made on the mill. The mill will probably be closed down about three weeks.
