CUSHING SCHOOL HOUSE BURNED MONDAY NIGHT

The school house at Cushing was destroyed by fire of an unknown origin at 8:30 Wednesday night with a loss of eight or ten thousand dollars. A lyceum number had been held in the school house a few days previous, and two pianos had been moved into the building, which were destroyed, together with another one, which belonged in the building.

The school house was of wooden structure, and is said to have been pretty old. It is likely that a new building of modern construction will be built in the near future, and that Cushing will be better equipped than before in the matter of a school building.

PRESS DENOUNCES THE PEACE TERMS

(By Associated Press)

BERLIN, April 16.—The German press denounces the semi-official French announcement of the terms of the peace treaty. MANY PEOPLE HAVE TO SLEEP IN THE OPEN AT RANGER NOW

(By Associated Press)

RANGER, April 16.—Conjested conditions of hotels and rooming houses left to Ranger after the fire which destroyed practically all the principal restaurants and hotels of the town are causing many persons to sleep in the open.

Since the fire many persons have been attracted to the town and this has added to the congestion. Some who owned property there and others who went merely out of curiosity have been unable to find accommodations.

The deprivation of the town of a large number of eating places and lodging houses has caused a contention in the remaining cafes, restaurants and lodging houses, which cannot be overcome at best for many weeks.

Premier Lloyd George Speaks House Commons

(By Associated Press.)

LONDON, April 16.—In answer to a question from John R. Clynes, labor leader, whether approaches for peace had come from the Russian government, Premier Lloyd George said that we have had no approaches of any sort or kind. None have been up before the conference.

Premier Lloyd George said that it was his honest conviction that military intervention in Russia would be the greatest act of stupidity.

The allied representatives in Paris have arrived at a complete understanding on the great fundamental questions that would effect peace with Germany, Premier Lloyd George declared in addressing the House of Commons today. The allies have for-

mulated their demands and he hoped that by the end of next week they would be presented.

There was no question of recognizing Russia. It had never been proposed and had never been discussed, said Premier Lloyd George. As much as the British government deplores the conditions in Russia it is not its duty to commit England to a gigantic enterprise in order to improve the condition, he added.

William Adamson, leader of the labor opposition in the House of Commons, following Premier Lloyd George said in regard to the latter's address that the speech was eloquent but not entirely satisfactory.

PARIS, April 16.—The council of four decided today that Schleswig-Holstein question be settled in accordance with the conclusions of the territorial commission, which recommended that should be adjusted by a referendum. ILLICIT TRADE IN NARCOTIC DRUGS DECREASES IN TEXAS

(By Associated Press.)

AUSTIN, April 16.—Illicit trade in narcotic drugs in Texas has decreased, according to Pure Food and Drug Commissioner R. H. Hoffman, in spite of the prediction that prohibition would increase the use of drugs.

The last session of the Texas Legislature revised the old anti-narcotic law and it can now be enforced more effectively. This, when taken in connection with the Harrison act of the Federal government, it is thought, will secure practical control of the narcotic trade in the state.

BERLIN DELIBERATES OVER LENINE NOTE

(By Associated Press)

BERLIN, April 15.—Shortly after the Hungarian revolution the Berlin cabinet had prolonged deliberations over a note from Nikolai Lenine, the Russian bolshevik premier, and his foreign minister Tchicherin, which was sent through Adolph Joffre, German ambassador to Russia offering an alliance and an army of half a million men to be used against the Entente powers according to the Tages Zeitung. The newspaper adds that it does not know what reply was sent to the Russians.

There was as much motoring around in this locality yesterday as could well be crowded into one day, with the number of cars available. Some of our disillusioned citizens even tried to motor to Nacogdoches as a last resort.—Lufkin News.

The commissioners' court of this city has just ordered a road bond election of \$800,000 to be held May 20. An equal sum will be supplied by the state, and the money will be spent in building hard-surfaced roads in this county. If the Angelina county citizens can get up enough courage to build a road to the Angelina river, we will soon be able to offer them opportunity to get some real pleasure out of their "motoring around."

COMMISSIONERS' COURT ORDERS BOND ELECTION

The Commissioners' Court in session here this week yesterday ordered a road bond election of \$800,000 to be held May 20. The bonds will bear 5 per cent interest, and will run forty years with an option of redemption at the end of five years.

The petition was presented to the court with over 700 signatures. An equal sum will be supplied by the states, and the money will be used in the construction of hard surfaced roads in this county.

Bond issues of this kind are being voted all over the state, and The Sentinel is sure that Nacogdoches county will sustain her reputation of progressiveness and carry the issue with a good majority.

The auditors who have been auditing the county books came before the court with a partial report, but the complete report will be filed with the next term of court.

ARTILLERY BOYS ARRIVE IN THE CITY

Battery F, 64th Field Artillery, formerly Battery A, Coast Artillery, which was organized in one day's time in this city in July, 1917, was mustered out of service in Camp Bowie Tuesday, and about 50 members of the company arrived home on the T. & N. O. train from Dallas yesterday afternoon.

A large crowd of relatives and friends of the boys had gathered at the station, and had waited all the afternoon, as the train was over four hours late, due to a freight wreck up the line. The train came in about 7:30 and amid the playing of the band and shouts of the crowd, with the boys gathered in the windows and steps of the train.

The crowd was composed of the relatives and friends of the boys, who were overjoyed with their return. However there were a few in the crowd with heavy hearts, and who could not repress a tear as they came in because of a dear loved one who had gone with them who had been left behind, buried on the soil of France. The boys never got into action, but the following deaths occurred from disease among the company: Teddy Pierce, Chas. Jones, Clyde Chapman, Marion E. Hutson, Floyd Olds and L. S. Nash.

The boys greeted their friends and immediately left with their loved ones for their homes, overjoyed to get back again after seven months overseas.

The boys were recruited in this city in July, 1917, by Capt. Shindler, and left July 4th, 1918 for Fort Crockett, at Galveston, where they were trained. They sailed for France July 13th, 1918, and landed in Liverpool, July 26th, where they spent a week and went on to Havre. Their first night in Havre they were subjected to an air raid by the enemy. The boys were in training at Angers when the armistice was signed.

The regiment left France February 11th and arrived at Newport News February 24th. They were detained at Camp Eustis, near there, for a month, being required to do manual labor in punishment for alleged damages to a chateau where they were billeted at Angers, the charge alleging that damage was done to the polished floors of the chateau by the hobanil boots of the boys.

The remainder of the company will arrive this afternoon, and will perhaps be greeted with as large a crowd as were they yesterday. A reception will be given at the Elks Hall tonight in honor of all returned soldiers, and everybody is invited.

From Friday's Daily.
ENTERTAINMENT LAST NIGHT WAS SPLENDID SUCCESS

The reception given last night in honor of all returned soldiers, proved to be a splendid success, an enormous crowd of relatives and friends of the boys being present, as well as a great majority of all the soldiers who have returned.

Music, dancing, refreshments, etc., were features of the occasion, as well as the relatives and friends of the boys being given a chance to meet them and welcome them home.

JEWISH WAR SUFFERERS.

Editor Sentinel.
We are juts in receipt of a letter from Mr. J. E. Craddock of Maytown inclosing his check for One Dollar more than Maytown's quota with this message to us.

"We are sorry that we could not collect more, but just at this time our mill people are pretty hard up on account of the mill being idle so much by reason of bad weather."

A number of citizens have mailed us their checks before solicitation and in nearly every instance very liberal donations. One Jewess of our town sends in her check for \$50, with the statement that she only wished she was able to do more; that she is and has been a monthly contributor to this cause for a long while and will continue to carry out her monthly subscription.

A letter from our old friend, John T. Lucas, at Sacul, bids us Godspeed and says that he will not only donate but will get out and help the chairman for Sacul in every possible way. The chairman for Appleby says Appleby will be on the dot with her quota and more. She has always done so. "Phone call from Mrs. Perry of Caro asks us to appoint another chairman, saying that she was so situated that she couldn't do the work. We told her that it was too late for us to undertake the appointment of another chairman for her town and if she could not do it to select a suitable person who would do it, which she assures us she will do or forego her own plans and do the work herself; so Caro will come alright. Our big-hearted friend Frank Garrison of Garrison has sent us word which we received last night, that he cannot act as chairman and suggests another mightly good man of Garrison for the duty; but when he receives our letter of today he will appoint his helpers at Garrison and Garrison will be over the top before Saturday at noon. We have visited the schools of the Nacogdoches Independent District and they are thoroughly alive to the situation and it was an emulation to us this morning to see 300 uplifted hands in the Central Graded School pledging a hundred per cent donation to the cause from their rooms. Nacogdoches county must go over the top. Nacogdoches county will go over the top.

Sincerely,
V. E. Middlebrook, I. L. Sturdevant, E. H. Blount, Chairman.

Delicious "Fruit Laxative" can't harm tender little stomach, liver and bowels.

When peevish, cross, listless, doesn't sleep, eat or act naturally, or is feverish, stomach sour, breath bad; has sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again. INSTRUCTION BE GIVEN IN ELECTRICAL SMOKE BOMBING

(By Associated Press.)
COLLEGE STATION, April 11.—Instructions in electrical smoke bombing along the same lines that it was given at the army school of fire during the war will be given the students of the newly organized battery of field artillery at A. & M. College.

The battery commander's station is being equipped on the roof of one of the buildings and there the prospective officers will be instructed to locate a series of hidden targets about 3000 feet distant, and the discharge of powder bombs by electricity will represent the hitting of the targets by the imaginary artillery fire.

All the students will be required to complete this work in electrical smoke bombing before they will be permitted to fire the real gun composing the battery. The smoke bombing will cost less than two cents per operation, whereas, the firing of the battery will cost \$20 each round.

NEVER WILL I RETURN MOTHER

Dedicated to the memory of our gallant peace makers who will never return.

O, mother, mother, never more
Will I land upon our shore;
The battle is fought and the victory won
And my young life is all undone.

Bravely I met the bristling steel,
And fell upon the bloody field
For liberty or death—I took my chance
And now I sleep in far-off France.

O mother, far across the briny waves
Cur boy sleeps in a lonely grave;
My body lies beneath the blood-stained sod,
And my soul rests in peace with God.

To the bugle calls I will awake no more
The weary tramp of war for me is o'er
The rallying music with its cheer
And the thundering cannon, dread and fear

'Tis so sweet from the battle's roar
To rest and hear the wail no more
From the poisonous gas and the bursting shell,
The piercing shrieks and the fury of hell.

O, mother, it was for my country I have died,
And let this be your patriot pride,
At my country's call I bravely went,
And for her peace my life I spent.

O mother dear, you must not weep,
But my love in sweet remembrance keep.
Be glad that the fierce fighting all is done,
That the war is over and peace is won.

O mother, sing the songs of peace
The glad notes—let them never cease.
Sing of the glorious red, white and blue,
And the boys so brave who brought peace for you.

When the boys come marching home,
Your son will be sleeping in the peaceful gloam.
Tough I can never return again
Let not my life be spent in vain.

O, mother, mother do not weep
Lest you disturb my quiet sleep
The flowers over my grave will bloom
And the birds will sing above my tomb.

O, mother, dear, weep no more,
But meet me on the other shore,
Where cruel war will forever cease
And all is love and joy and peace.

MRS. MARY E. LOCKHART STERLING, Nacogdoches, Texas.

TROOPS OF RED ARMY ADOPT TRADE UNION METHODS

(By Associated Press.)
LONDON, April 11.—Many troops of the Red Army in eastern Russia have adopted trade union methods in dealing with their Bolshevik superiors. They demand fixed pay for each hour of fighting and this, according to official reports to the British government, at times amounts to 20 rubles an hour. The Red Army in that territory is composed of Germans, Finns, Chinese, Poles and recruits from the semi-civilized provinces of eastern Russia.

Many of the officers are Germans. Others are Russians pressed into service. Every order given by an officer is reported to the commissary and any mistake is punishable by death.

JOHNSON HARDY GIVEN LIFE TERM AT CONROE

Judge J. F. Perritte returned from Conroe, Montgomery county, Texas, on this morning's train, where he had been for the last week as a witness in the case of the state of Texas vs. Johnson Hardy. Hardy was charged with the killing of Wm. Gentry and Minnie McPherson April 18, 1904, on the banks of the San Jacinto river. The defendant was represented by W. N. Foster of Conroe, Senator Carter of Center, and Senator Cousins of Hemphill. The state was represented by the district and county attorney.

Later in the day Judge Perritte received a telegram from Conroe stating that the jury had brought in a verdict of guilty and assessing Johnson's penalty at a life term in the penitentiary.

TAKES OFF DANDRUFF, HAIR STOPS FALLING

Save your hair! Get a 25 cent bottle of Danderrine right now—Also stops itching scalp.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderrine tonight—now—any time—will surely save your hair.

Get a 25 cent bottle of Knowlton's Danderrine from any drug store. You surely can have beautiful hair and lots of it if you will just try a little Danderrine. Save your hair! Try it!

PORTUGUESE LIVE UP TO REPUTATION FOR GALLANTRY

(By Associated Press.)
LISBON, April 11.—The Portuguese have not failed to live up to their reputation for gallantry during their three years sojourn in France. The authorities have received notice of 87 marriages of French girls to Portuguese officers and soldiers, and many hundreds more are expected to follow.

The young Portuguese warriors, it would seem, exercised an irresistible fascination upon the French maidens by reason of the romantic melancholy songs of Portugal called "fados" which they serenaded their sweethearts to the accompaniment of guitars. These airs, it is said, gained wide popularity in the Armentieres sector, where the Portuguese expeditionary forces were stationed.

AMERICAN RED CROSS SENDS CLOTHING TO SERBIA, RUMANIA

(By Associated Press.)
SALONIKI.—To meet the great need of clothing throughout the Balkan States, the American Red Cross Commission to the Balkans is sending to Serbia, Rumania, Montenegro and Albania millions of yards of cloth, thousands of sewing machines, large quantities of thread, needles and buttons and hundreds of tons of old clothing. These things will be apportioned among the countries according to the extent of destitution. The commission is also shipping large amounts of food to various points in the Balkans which have suffered from the German occupation.

"If any one of the Balkans goes unclad or unfed," said Lieutenant Colonel Henry W. Anderson, director of Red Cross activities in the Near East, "it will be only because we lack the transportation facilities to reach the remotest interior sections. We have gathered up millions of pieces of clothing and thousands of tons of food from every nook and corner of Europe and will rush them to those sections of the Balkan States which are most in need."

"We have taken over the surplus stock of relief supplies held by the American Red Cross Commission to Italy. We have also had diverted to our use, for distribution in the Balkan Peninsula, large quantities of material intended for use in France and other countries during the war. One of the principal items is condensed milk, of which we are shipping more than three million cans. This doubtless will save thousands of starving children."

HEALTH TALK

SPANISH INFLUENZA OR GRIP

BY DR. H. LEE SMITH.
An old enemy is with us again, and whether we fight a German or a germ, we must put up a good fight, and not be afraid. The influenza runs a very brief course when the patient is careful, and if we keep the system in good condition and throw off the poisons which tend to accumulate within our bodies, we can escape the disease. Remember these three C's—a clean mouth, a clean skin and clean bowels. To carry off poisons from the system and keep the bowels loose daily doses of a pleasant laxative should be taken. Such a one is made of May-apple, leaves of aloe, root of jalap, and called Dr. Pierce's Pleasant Pellets. Hot lemonade should be used freely if attacked by a cold, and the patient should be put to bed after a hot mustard foot-bath.

To prevent the attack of bronchitis or pneumonia and to control the pain, Anuric tablets should be obtained at the drug store, and one given every two hours with lemonade. The anuric tablets were first discovered by Dr. Pierce, and, as they flush the bladder and cleanse the kidneys, they carry away much of the poisons and the uric acid.

It is important that broths, milk, buttermilk, ice-cream and simple diet be given regularly to strengthen the system and increase the vital resistance. The fever is diminished by the use of the Anuric tablets, but in addition, the forehead, arms and hands may be bathed with water (tepid) in which a tablespoonful of salaratus has been dissolved in a quart. After an attack of grip or pneumonia to build up and strengthen the system, obtain at the drug store a good food tonic, called "Iron-Tonic" Tablets, or that well known herbal tonic, Dr. Pierce's Golden Medical Discovery.

DIFFERENT LIGHTS.

The tall Sunday-school teacher stood and harangued a small flock of fidgety boys. They thought of nearly everything except what he was saying, and if they learned anything at all, it was something that he never dreamed he taught. One of the Sabbath sparrows was fascinated by the play of light on the teacher's features. It streamed through a window of imitation stained glass cut in small diamond-shaped panes, covered with colored paper oiled into translucence.

What fascinated the boy was the miracle wrought in the teacher's appearance by the change of light as his weight shifted from foot to foot and his head from beam to beam. When his brow was smitten by the shaft from a blue pane, he looked wan, ethereal, spiritual, holy. Then he moved into a rosy glow, as if into a fountain of youth, and the pallid ascetic was suddenly young, ruddy, amused, exuberant. With the change of appearance, his character seemed to change; he was not the same man in any respect. His interpretation of the Scriptures seemed to be altered.

He bent forward into a greenish glare, and at once was three days dead, livid, loathsome, grisly. He leaned back into the influence of a pane whose colored paper had curled up and peeled off. Through this came a ray of ordinary daylight. And ordinary daylight is not considered mysterious since it contains all the mysteries of light, and emphasizes none. Herein the teacher looked to be merely himself, and of course there is nothing mysterious about an ordinary man.

The above is an introduction to a story by Rupert Hughes in a current issue of the Cosmopolitan magazine. The author goes on further to illustrate that the same characters in the same incidents may be looked at in a different light, and entirely change their character in our eyes. Beautiful and convincing logic is developed in this illustration. It is only too sadly true that so many of us are inclined to judge our fellow man by the light in which they appear, and often do them an injustice. The author goes on further:

It is all in the lights. The French say that to understand everything is to forgive everything. Its corollary is true—not to forgive is not to understand. And one might well pray that the light should always so shine through him and return to him that he would read everything in a glow of mercy.

But the worst of it is that one can never know. When the white ray of all light is broken into color, we see but a little of it. Our whole rainbow is only an inch or two in a spectrum a yardstick long.

The vast majority of colors we have never seen and never shall see, though we may boil water or take photographs and accomplish other miracles in the ultra-violet and infra-red regions where all is dark to our eyes.

Into those too radiant illuminations we can enter only by the imagination. And, after all, what else is sympathy but imaginations exploring the infinite space between ourselves and our nearest neighbors.

THE ROAD BONDS.

There has been a wonderful change in public sentiment with reference to the issuance of bonds for public roads. The revulsion is due to a number of causes. The winter just passed proved far beyond any argument that this county could not bear the burdens of traffic as now required without better roads. The charge of sentiment came from the farmers, who, in an agricultural community constitute the balance of power, and who rarely ever vote debts upon themselves without the soundest of reasons. When they calmly make up their minds to act upon a question, no amount of sophistry can change them. It was a cold question of better roads or a state of inevitable stagnation and ruin. A condition confronted them that offered no solution except to impose upon themselves the lighter burden of going down in their pockets after the money to pay the price. One of their arguments, which banished all opposition, was the solemn fact that during the terribly scourge of influenza and pneumonia, in many instances a doctor was not available because of impassable roads. The bitterest antagonist to road bonds threw up his hands when this deplorable condition faced him. The whole truth of the situation was that this county had to make a heroic offensive, or surrender to despair and stagnation. That good roads under the old system was not to be expected

ed was well settled. They had seen the sum of \$25,000 annually expended on road; a asndywywtofroo,ah ed on roads in a way so unavoidably crude and foolish as to call for a radical change. Now that they have voted for bonds amounting to \$500,000 all ideas of crude methods must be abolished. A first-class road engineer is imperative. No use to spend a dollar in any attempt to build roads until an honest, competent engineer has thoroughly completed all plans and specifications. We have passed the child age of trying to make roads; we must act like men and do the thing right. Other road bonds will be necessary before Rusk county will have a dependable system of roads. It is, therefore, deeply essential that every mile shall be established and built according to the best engineering skill to be had. Let every man who voted for the bond issue demand that the money be scientifically spent.—Rusk County News.

Much the same conditions have prevailed in this county, and it is to be hoped that the citizens of Sacagoyes county will act in the same emphatic manner as have the citizens of Rusk county.

STATE REPORTS SHOW FAST WORK FOR WAR RELIEF

Reports reaching the state headquarters of the Jewish War Relief Fund show that throughout the state a response is being made to the efforts of the board to raise \$600,000 in Texas for the war sufferers in Europe and Asia Minor. The campaign opened under proclamation of Governor Hobby on Monday, and will be concluded on Saturday, April 12.

The campaign is the first ever waged by Jews for funds to be used in relieving their own sufferers primarily. The campaign is strictly non-sectarian, however, and relief will be given to all sufferers in the war zone, Jews or non-Jews. Committees formed in every large county in Texas and in all the larger cities are today campaigning to secure their quota of funds for this cause.

It is a cause which can not be handled by the other war relief funds. It is to secure relief in a section of the country almost desolated and destroyed by the wars, where thousands were not only rendered homeless but robbed of their every possession. Hunger and disease are moving side by side through the war-stricken portions of Asia Minor, and it is in the name of humanity for these innocent sufferers of the war that the fund is being raised.

The shortness of time prior to the opening of the next Liberty Loan drive made a perfected organization almost impossible, but a ready response on the part of the Jews and non-Jews alike has allowed the organization of all the largest and more populous counties of the state. All of the larger cities have been organized. Many of them have closed their campaigns. Some of them will not open the campaign until later.

Fort Worth, because of local conditions, opened its campaign several days early. Its quota of \$30,000 was exceeded in the first two days and it went over the top with more than 20 per cent average. The Dallas campaign opened on Wednesday. Its organization has been perfected and the quota of \$100,000 for Dallas is believed will be raised. From Houston, San Antonio, Galveston, Waco and El Paso reports of favorable progress have been made. In several counties the state office has been advised the quota was too small for the nature of the work.—Houston Chronicle.

THE AMERICANISM THAT COUNTS.

There is a lesson for foreign propagandists in the "Americana-all" demonstration in New York a few days ago in which representatives of twenty-nine racial divisions met to prove that they were for America, "first, last and all the time." During the meeting they pledged themselves to buy \$430,000,000 worth of Victory bonds, the American of German descent setting their quota at \$250,000,000.

A cablegram was sent to President Wilson assuring him that "five million American of foreign birth and foreign parentage, through their representatives at the 'American-all Manifestation,' pledge their unswerving loyalty to the United States of America."

The great majority of our alien residents were loyal to America during the war, the disloyal group making much more noise than their numbers warranted, but this manifestation in New York is a most encouraging sign that our foreign born are feeling a great responsibility in the matter of assuring the government and the native population of their loyal-

ty. It is men with such a spirit that America welcomes and will always welcome as citizens.

This manifestation ought to serve as a warning to those agitators, both on this side of the water and on the other, that it is not going to be so easy to vote racial groups in this country as they please. The old plan of sequestering a racial group in a city or State by an appeal to a selfish or foreign interest and then voting it as the politicians see fit, has gone out of vogue. That was proven in 1916 when the republicans failed to rally the so-called German vote to Mr. Hughes.

In the future, our loyal foreign born citizens will vote for what they deem the best interests of America, which is the only course for a loyal American to pursue, regardless of where he originated.—Houston Post.

Another funny thing is the airy fairy Lillian, who goes out in public in an evening gown which leaves about a third of her sticking up over the top but is just too shocked and mortified for words when the milkman or grocery boy accidentally surprises her in the front hall in a kimono without a belt.—Macon Telegraph.

REDUCE COTTON ACREAGE PLANT PEANUTS INSTEAD

In reducing the cotton acreage one is confronted with the question of a suitable field crop to take the place of cotton. Every farmer in East Texas knows that as a rule it will not pay to grow corn on the average East Texas farm for commercial purposes, that is for a money crop, for the good and sufficient reason the average yield per acre is too small; and even if the yield per acre did warrant substituting corn for cotton, under ordinary conditions the season is now too far spent for corn planting in this section of the country from both the standpoint of season and remuneration. These desirable and necessary requirements we may find most pronounced in the "Lowly Peanut." The White Spanish variety being the easiest to plant, harvest and cultivate, as well as the most desirable for market purposes, should be planted.

On soil that is especially adapted to the growing of peanuts the yield in bushels will be twice or more than twice as much per acre as corn, and peanuts will probably produce a higher monetary value per acre in East Texas than any other field crop for the amount of time and labor expended. Last season was a very hard year on peanut growers but they will probably not have as bad a weather again in abundant years. Now is the time to plant peanuts.

MODEL SETTLEMENT HOUSE BE BUILT BY THE CENTENARY

New Orleans is soon to possess the model settlement house of the South—a plant costing \$116,000—to be located in the Canal street district on the spot now occupied by Saint Mark's Hall. The erection of this settlement house will be the direct result of the Centenary Campaign of the Methodist Episcopal Church, the financial drive of which will be held May 18-25.

The announcement that this model settlement home will be erected in Canal Street was made by Dr. O. E. Goddard, Secretary of the Department of Home Mission of the church, with Mrs. R. W. MacDonell, of the Home Mission Board, Woman's Work, and Miss Belle Bennett, President of the Woman's Council, recently returned from New Orleans, where they went for the purpose of making plans in connection with it.

The Settlement House will contain a swimming pool, gymnasium, free clinic, play ground, class rooms, kindergarten—everything to make it a center of real influence in the city. Special attention will be given to the music rooms and places where the young people will be made welcome, the idea being to give them recreation and a wholesome influence. Other departments for adults and for street urchins will be emphasized in the settlement, which, when completed, will be made the model institution of its kind in the South.

While the committee from Nashville were in New Orleans arrangements were completed for the formation of a cabinet of fifty leading Methodists of that city who will be in charge of the execution of the present plans of the Board of Missions.

FOUR AND THREE QUARTER CONVERTIBLE GOLD NOTES IS VICTORY LIBERTY LOAN

Special to The Sentinel.

DALLAS, April 15.—Secretary of the Treasury Glass, in a statement issued yesterday announced that the Victory Liberty Loan which will be offered for popular subscription on April 21, will take the form of four and three quarters percent, three or four year convertible gold notes of the United States. These four and three quarters percent notes will be exempt from state and local taxes except inheritance and estate taxes and from regular federal income taxes.

Undoubtedly these are the notes that will be chosen by most of the purchasers in this district. However, should anyone desire to convert these notes into three and three quarter percent notes this may be done. There are two kinds of notes and they are interchangeable. The three and three quarter percent notes will be exempt from state and local taxes, also from all federal taxes except estate and inheritance, this being attractive to wealthy people.

The amount of the issue will be four billion, five hundred million dollars. The notes of both series will be dated and bear interest from May 20, 1919 and will mature on May 20, 1924. Interest will be payable on December 15, 1919, and thereafter semi-annually on June 15 and Dec. 15 and at maturity. The dates upon which payments will be required on the notes are as follows: ten percent with application on or before May 10; ten percent on or before July 15; twenty per cent on or before August 12; twenty percent on or before September 9, twenty percent on or before October 7; twenty percent on or before November 11, with accrued interest on deferred installments. Payment in full can be made on May 20 the ten percent required with application having been duly paid on or before May 10th. Payment can also be completed on any installment date with accrued interest. The 11th Federal Reserve District, has been assigned the lowest percentage of quota of all districts. The percentage assigned this district is 2 and 1-10th. There should be no question about the full amount being subscribed promptly.

Preparations to entertain a large crowd of visitors as well as the boys are being made, and it is likely that a large crowd will be present, as well as a large proportion of the soldiers.

CAN'T DO THE WORK.

It's too much to try to work every day against a constant dull backache, or sudden darting pain in the small of the back. Be rid of it. Try Doan's Kidney Pills. Your neighbors recommend them.

Mrs. H. M. Reid, 412 S. North St., Nacogdoches, says: "I recommended Doan's Kidney Pills before and am pleased to say a good word for them now. Backache hindered me at my work and the pain was so intense it kept me awake at night. My kidneys acted irregularly, too. I tried many medicines but got no relief until I took Doan's Kidney Pills, procured at Mast's Drug Store. They gave me the desired results."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Reid had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

FAMOUS EVANGELIST HOLD MEETING HERE

It will be of great interest to the people of Nacogdoches and surrounding country to learn that one of the world's greatest evangelists, Charles Reign Scoville of Chicago, has agreed to hold a two or three weeks meeting in Nacogdoches. When this was announced at the Christian church last Sunday the church was elated and marveled that such a man as Scoville had really been secured for Nacogdoches, it being his custom practically always to only hold revivals in the larger cities. Mr. Scoville easily ranks with Billy Sunday and Gypsy Smith. It has been reported that E. J. Sunday said, "If Scoville would give his entire ministry to the holding of union revivals, he would be king of evangelists." And in the last few years in his union revivals he has had thousands of additions.

The Christian church invites the co-operation of all the churches and citizens of the community in this meeting, and it goes without saying that Nacogdoches will ever be the same after this man of God and his associates have labored among us. Thousands of people will attend this meeting from far and near, hotels and boarding houses are requested to take note and aid in entertaining the people. The purpose of this meeting will be to help our town and community in every way, and especially in bringing about a spiritual awakening in leading men to God. The details as to place and plans will be announced later. There will also appear statements concerning the great results in revivals held by Mr. Scoville elsewhere.

IS HIT BY SHELL WHICH KILLS FOUR OF UNCLE SAM'S MEN

Y. M. C. A. Man Returns With Story
of Finding Huns in French
Uniforms.

Under shell fire and gas for three weeks, the buildings in which he ran his canteen hit six times, and finally knocked out by a shell which killed four men, wounded thirty and put him in a hospital for two months. Guy A. Willis, a Grand Rapids lumberman, has returned on crutches from France with some evidence of the zeal with which the Y. M. C. A. canteen men worked with the troops in the St. Mihiel and Argonne drives.

Willis was attached to the Three Hundred and Fifty-fifth regiment, Eighty-ninth division. In the Toul sector, which the division held until the St. Mihiel drive began, Willis' Y. M. C. A. outfit had a canteen near Mont Sec, at Beaumont, and one of his pleasant jobs was to drive almost daily around the famous Dead Man's curve on trips to get supplies for his canteen. Willis entered Benny, in the St. Mihiel drive, three hours after the Germans had been thrown out of it.

In a shell-wrecked building he found a German kitchen with three big cauldrons. For several nights he made cocoa—hundreds of gallons a night—which was rushed in cans, shell cases,

GUY A. WILLIS.

pills and whatever else came handy out to the boys. Three times shells crashed through what was left of the roof of the building in which the Y. M. C. A. had set up shop, but they kept on at their work and ran the canteen there for three weeks, until they were shifted to the Argonne.

While at Benny Willis was busy in the canteen one night when two officers entered. They wore uniforms of the Fifth French artillery. The canteen was full of doughboys getting cigarettes and chocolate, and the Frenchmen, who seemed in a great hurry, picked up several pieces of chocolate and started to go out. They hesitated and turned back toward the counter. As they did so a dough boy heard one of them say to the other, "Wie viel?" (How much?).

A group of eight or ten doughboys entered at that moment, and in the crowding and jostling and dim light the soldier who had heard the remark lost sight of the officers for a moment. When he looked for them again they had vanished. Headquarters was telephoned that spies had been in the canteen, but the pair made good their escape in the darkness.

In the Argonne drive Willis was a work in a first-aid station when Captain Baker was wounded in the barage. Willis went back through the barrage, serving as a litter bearer and helped carry wounded down through the mud for four kilometers to the ambulances.

Two days before the last drive in the Argonne Willis went back into the village of Romagne to get supplies for a first-aid station. As he entered the town the Germans opened up on him with a battery of 88s, and the second shell sent over landed in the street within twenty-five feet of him. The shell killed two soldiers on a truck setting fire to the gasoline tank and cremating one of the men. Two others were killed and thirty wounded, one of whom was Willis, a piece of steel being driven through his foot.

The field hospital to which he was taken had been shelled ten minutes before he arrived, and four hospital attendants and several engineers had been wounded. A few minutes later some German airmen came over and bombed the place, one of the bombs ripping a piece of cloth from under the head of a doughboy two stretches away from the Y. M. C. A. man. The doughboy was not even scratched.

BELIEVES TANLAC HAS SAVED HER LIFE

"In All My Experience I've Never Seen Anything As Good As Tanlac." Says Practical Nurse.

"Do you know, I have gained at least fifteen pounds, and I honestly believe Tanlac has saved my life," was the statement made recently by Mrs. E. F. Milner. Mrs. Milner is a practical nurse and is known and respected by everybody in Corsicana, Texas, where she has lived for the past twenty-six years.

"My health has been broken," she continued, "and I have been steadily going down hill for ten years. I had constant headaches and was in a general run-down condition. Last year I was taken down with some kind of trouble and I have never been able to find out just what it was. I was confined to my bed and was not able to stand alone, much less walk. It seemed to me like there were thousands of pounds of pressure around my waist and in my chest. When I lay down I felt like I would smother to death, so I had to sit up to breathe and prop myself up in bed to be able to sleep and get any rest at all. I was told I would never get over my trouble and of course I felt discouraged and despondent."

"After reading about the good Tanlac was doing to so many others I bought a bottle hoping it would help me and I am obliged to give it all praise. In my long experience with medicines I have never seen anything as good, and I firmly believe it has saved my life. Not only that, I am feeling better than I have in over two years already and have just finished my second bottle of Tanlac. My headaches have disappeared and I am strong enough to walk anywhere I want to go and can do all my work about the house. As I have already said, I have gained at least fifteen pounds and am so happy over my recovery that I want to tell everybody about Tanlac."

Tanlac is sold in Nacogdoches by Stripling, Haselwood & Co., and Swift Bros. & Smith.

THE UNIVERSAL CAR

The Farmers' Truck

The Ford One Ton Truck may well be classed as an agricultural necessity, it fits into and fills so many wants on the farm. It is a reliable bearer of farm burdens, not only doing the work of several horses quicker and better than the horse, and does not "eat it ahead off" when not working. The aggressive farmer has only to consider the possibilities the Ford truck and he is ready to buy one. We judge this to be so from the way farmers are buying them. Truck chassis \$559 f. o. b. EXEMPTION MONROE DOCTRINE IS ONLY CHANGE OF COVENANT

PARIS, April 12.—With the single exception of the amendment specifically exempting the Monroe doctrine from being affected by covenant no vital change was made by the league of nations commission in that document at its meeting on Thursday and Friday nights.

Last night's meeting marked the conclusion of the consideration of the covenant.

MANY OLD COINS BROUGHT OUT TREASURY DURING THE AUDIT

AUSTIN, April 14.—Three bags of old coins were brought out of the vault of the state treasury during the audit, which is being conducted by the legislative committee.

One bag contained gold coins to the face value of \$423.35, but of the lot \$180 was in counterfeit \$20 gold pieces. The other pieces are English, French and American coinage, but practically every one is mutilated.

Another bag contains \$5.60 in old American and Mexican dimes and nickels. They also were mutilated. The third bag is filled with United States and Mexican dollars, halves and quarters. There is almost a gallon of the old money, and practically every piece has been pierced. The oldest coin of the collection was a half dollar bearing date of 1823.

Mixed with the ancient money are a few coins of good condition and recent coinage, which indicates that a coin collector has at some time had access to the bag and substituted new money for pieces which struck his fancy.

This collection represents the unpassable coin that has been accumulated in the treasury for years. It is carried on the books at face value, and the treasurer cannot get rid of it. He says he will ask the legislature to authorize him to sell the coins for their bullion value.

During these years the Ship of War Austin, a two-masted schooner, the Invincible and the Jacinto formed the navy of the Republic of Texas.

The ledger was kept by Norman Hurd, purser of the navy, and it lists all supplies issued to the ship during that time. One noticeable thing is that every man whose name is in the book drew a supply of tobacco.

STATUS AMERICAN, JAPANESE AND FRENCH AMENDMENTS DEFINITELY ESTABLISHED

(By Associated Press) PARIS, April 14.—The status of the American, Japanese and French amendments to the covenant of the league of nations has been definitely established so far as the league of nations commission is concerned, with the American amendment concerning the Monroe doctrine only be given a place in the covenant by the commission. BERLIN, April 12.—A special dispatches from Bamberg to the Vossische Zeitung says that the German government has announced that Bavaria is not to be included in the conclusion of peace, and that measures will be taken to prevent any Entente foodstuffs from reaching Bavaria.

STATE JEWISH RELIEF CAMPAIGN TO CONTINUE

"Over the top and still going," was the report received at the headquarters of the Jewish War Relief Fund yesterday from the committee at Eagle Pass. It was followed a few minutes later by a telegram from Mineral Wells, announcing further progress, it having reported previously the collection of its full quota. Bay City reported a total collection of \$1,800, with a number of teams not reporting. Eagle Pass reported contributions from the business section alone amounting to \$2,000. From Palestine a report was received of \$5,000 having been raised on the first day. Numerous other reports were received from all sections of Texas.

Notwithstanding the good reports being received from many sections, it is possible that Texas will not reach its entire quota of \$600,000 and the campaign period will be extended for a few days. Local conditions in many instances have necessitated a deferring of the campaign; and the recent heavy storms through the north section of the State have caused the campaigns to be set aside until conditions reach normal.

Should Texas fail to reach its quota it will be the first State in which a campaign has been conducted where the quota has not been reached. Approximately one-half of the amount of the full quota has been received, judging from returns from about one-half of the counties which had been organized. However, this covers all of the larger cities of the state.

State Chairman Alex Sanger has announced a continuation of the campaign where quotas have not been reached, or campaigns have not been conducted. This means that in West Texas, principally and in some of the counties of Central and East Texas the campaign will be continued in order to reach the full quota allowance.

The State headquarters will be continued through the month of April at the present location. Speakers will be sent to some of the sections to assist in organization and collection of quotas assigned. An effort to secure organizations and conduct this campaign prior to the Liberty Loan campaign made it impossible to thoroughly organize and the results reported thus far, according to Mr. Sanger, are excellent, considering the short time allowance.

Mr. V. E. Middlebrook, Nacogdoches, Texas

Dear Sir: Your letter of April 9th is most interesting because it shows that you have gone about the organization of the Jewish War Relief campaign in a most thorough manner.

I know of no other county in the state which is more thoroughly and systematically organized than yours, as described in your letter of 9th and I will therefore hope to hear from you within a few days, with a report showing that your county has raised its full quota.

I want to express to you my warm appreciation of the good work that you are doing and I want you to know that I realize this has been no small task to you and those who have been associated with you.

Please thank Mr. I. L. Sturdevant, Mr. Eugene H. Blount and others who have so kindly helped you in this noble work.

Yours very truly,
ALEX SANGER, State Chairman.

The following telegram received by Judge Middlebrook is self-explanatory:

Please continue campaign next week if necessary to raise entire quota.

LIBERTY LOAN QUOTAS BE THREE FOURTHS LAST LOAN

(By Associated Press.) WASHINGTON, April 14.—The quotas of most communities of the Victory Liberty Loan will be three-fourths of the quotas in the Fourth loan the treasury department explained today, since four billion, five hundred million is three fourths of the six billion quota of the fourth issue. The goal assigned each community and state is left, however, to the federal reserve district loan organization and not determined by the treasury.

CALOMEL SALIVATES AND MAKES YOU SICK

Acts like dynamite on a sluggish liver and you lose a day's work.

There's no reason why a person should take sickening, salivating calomel when a few cents buys a large bottle of Dodson's Liver Tone—a perfect substitute for calomel.

It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can't salivate.

Children and grown folks both take Dodson's Liver Tone, because it is perfectly harmless.

Calomel is a dangerous drug. It is mercury and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tone instead and you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you don't find Dodson's Liver Tone acts better than horrible calomel your money is waiting for you.

JEWISH WAR SUFFERERS.

The Jewish War Sufferers Relief Drive has been extended to April 19. At this writing, 5 o'clock, April 14, 1919, we have on hand actual cash \$1688.43. The committee for the West, South and East side of the public square has not been heard from but several very liberal donations have been received from this territory. The committee for the north side of the public square including the post office has not been heard from but several liberal donations have been received from this district. The committee for West Main street beginning at Pecan and ending with the court house, including the Little Plaza and Baxter Garage, has not been heard from and two liberal donations have been sent in from this district. The committee for West Main Street beginning west of the court house and including the freight and passenger depots, oil mill, Grocery Company and oil companies have not been heard from, but we understand this committee has been at work and is likely finishing up today. The committee for Frost-Johnson addition has not been heard from but Chairman Whited has told us the work would be done. The committee for East Main district has done its work well and made a splendid report, at the same time reporting that two of our most wealthy and liberal hearted citizens of this district were out of town when they worked the district, and that the committee would see them later.

So far we have had returns from the following outlying districts:
Melroe, \$7.50. Her quota is \$40. Melrose is one of the best districts of the county. May we not urge the chairman and the good citizens of Melrose district to take advantage of this extra week and do her full share in this worthy cause.

The chairman for Libby reports, and sends in \$7.75. Her quota is \$15.00. Won't the good citizens of the Libby district come to Mr. Burt's aid and help him get at least the other \$7.25?

Mr. Looney reports from Palestine with \$3.00. Her quota is \$20.00.

Mr. Henry Seale was appointed chairman for Blake. We did not think at the time about his having become a citizen of Nacogdoches. He got in his car, however, and went out to Blake and saw the teacher there and worked among the citizenship and brought in \$18.00. May we not depend on the good citizens of these last named districts to take advantage of the extension and make out their full quotas.

We have a report from Chairman H. R. Hamblin with a post office money order inclose for \$16.00 from the Pleasant Hill district. Her quota is \$15.00. He tells us also that one of their citizens paid in \$1.50 to Appleby, so Pleasant Hill is over the top and really \$2.50 better.

Maytown has already been reported over the top.

We have a letter from our good friend, John Lucas, at Sacl, telling us that the citizenship there had given the chairman, Eugene Burk, their hearty support and had raised their quota from \$35.00 to \$45.00 of their own volition and that they had raised the money and that the chairman would forward it tomorrow.

We first appointed Mr. O. B. Slay chairman for Campbell district. He

asked us to relieve him on account of his having acted in the same capacity in so many drives and recommended Mr. G. W. Faulkner. We personally supplied Mr. Faulkner with supplies and his commission from the chairman and he accepted, but this morning we received the supplies back through the mail without any word of instruction, excuse or recommendation. This looks as if no one is looking after the Campbell district. The good people of this district cannot afford to let this opportunity of mercy for humanity pass; and we therefore ask the citizenship of the Campbell district to get together, select a chairman for themselves and make up their quota and send it in during the week. The quota is \$30.00.

We have had word but no returns from Appleby, Douglas and Red Flat and the message is that they will go over the top.

Thus it will be seen that practically all of the money received so far has been made up in the town of Nacogdoches. It is safe to say that the Nacogdoches Independent District will make its full quota which was assessed at the beginning much heavier in proportion than the outlying districts; because the committee upon full deliberation decided that considering the time of year and the holding of cotton by many farmers and the lack of time for fully appraising the citizenship at large of the horrible conditions existing with the Jews of Europe it would hardly be possible to expect full quotas from the rural districts and the assessment was therefore made light for the rural districts and heavy for the Nacogdoches Independent District.

Let us beg of our entire citizenship to consider what it means for humanity to ide for the lack of food and to get busy. If no one has solicited you send in your offering voluntary and tell us what district to credit it to and we will so credit it. We cannot afford to be careless and unconcerned as to our duty for suffering humanity. It was Christ who turned the deaf ear to certain men who did not feed him when He was hungry. He told them that inasmuch as they had fed one of His brethren (one of God's creatures) they had fed Him.

Sincerely,
V. E. MIDDLEBROOK.

HAUGHTY, Demeanor FOR- MER KAISER DISAPPEARED

(By Associated Press)
AMERONGEN, Netherlands, April 15.—All who come into close connection with the former German Emperor these days are astonished at the change which has come over his behavior in relation to people with whom he is brought into contact. His haughty manner has disappeared. He no longer takes it for granted that he is the supreme lord to whom all must bow. Any service given to him, even by the humblest of gardeners in the employ of Count Bentinck, is rewarded with apparently sincere thanks and sometimes even with a genuine handshake—a thing not looked for by the highest of his courtiers when he was still at the height of his power.

Virtually without exception, he passes three hours every morning between breakfast and lunch at his voluntary task of sawing logs in the grounds of the castle. The last ten minutes of each hour is given up to a spell of rest, during which the lumberman, once so imperious, smokes a cigarette. In the course of this interval—heartily welcomed by his attendant who assists at the other end of the double-handled saw now used—William Hohenzollern starts smoking, for the attendants still retain enough of their subjectivity not to dare to take the lead. Then one of the attendants discreetly draws a cigarette case from his pocket, on seeing which the former emperor often says, offering his burning cigarette: "Here you are. Take a light."

Soon all about him are smoking and continue doing so until the ten minute interval is over and work begins again. Sometimes in these short rests the former emperor who, during the work walks about in the castle grounds when the weather is favorable, comes up to the place where the wood sawing is done and a little general chat ensues, both Herr Hohenzollern and his wife putting questions on all sorts of subjects to those in attendance.

FORM CLUB 3 COUNTIES SAM HOUSTON NORMAL

HUNTSVILLE, April 15.—Last Friday morning immediately after chapel the students here, from Shelby, Paola and Nacogdoches counties that are attending the Sam Houston Normal Institute held a very "peppery" meeting in chapel. At this meeting the students decided upon the plan of consolidating these three counties and forming one club, thinking by this, that we could do more effective work and too regarding the old adage, "The More the Merrier," as very truthful.

At this meeting the following officers were elected and by the cooperation of every one promising results and a good time are anticipated. Miss Lessie B. Lilly from Nacogdoches county was elected president, Mr. J. C. Adams from Shelby vice-president, Miss Robert Lindsey, of Shelby, secretary, and Mr. Edding from Paola county treasurer. Then the following reporters to the papers of their respective counties were chosen: To Shelby, Miss Ellis, Mr. J. C. Adams and Mr. Halley; to Paola, Miss Irene Guley; to Nacogdoches Miss Alva Sittin and Mr. T. H. Harrison as our reporter to the Houstonian, our normal paper. After this a program committee, consisting of Mr. A. B. Coleman, Misses Sadie Oliver and Mary Price from Nacogdoches county, Mr. T. H. Harrison from Paola and Miss Ellis from Shelby county was appointed. The total number in our club from these three counties is about fifty five and of this number twenty-six boast of being from Nacogdoches county.

Last Friday night the young daughter of Jerry Long had his hand badly burned, a rag saturated with turpentine catching fire while the child was lighting a lamp.

A large number of Cushing people attended the singing convention at Libert Saturday and Sunday.

Rev. J. H. Waller of Mt. Enterprise filled his regular appointment at the Baptist church last Sunday morning and night.

SMOKING TOBACCO FACTS FROM THE ENCYCLOPAEDIA

The Use of Flavorings Determines Difference in Brands

The Encyclopaedia Britannica says about the manufacture of smoking tobacco: "... on the Continent and in America, certain 'sauces' are employed in the use of the 'leaves' in order to improve the flavour and burning qualities of the leaves." Which indicates that a smoker's enjoyment depends as much upon the flavoring used as upon the tobacco.

Your nose is a sure guide in the matter of flavorings. Try this simple test with several tobacco brands: pour some tobacco into your palm, rub briskly, and smell. You will notice a distinct difference in the fragrance of every brand. The tobacco that smells best to you will smoke best in your pipe, you can rest assured.

Carefully aged old Burley tobacco, plus a dash of pure chocolate, gives TUXEDO Tobacco a pure fragrant and smooth. You can quickly distinguish from any other tobacco. Try it and see.

TROUBLE MAKING CANTEEN TAKEN OVER BY PERSHING

Grants Earnest Request of Y. M. C. A. Head—Did Better Than Expected, Says General.

Chaumont (Special).—At the earnest request of E. C. Carter, general overseas secretary of the Army Young Men's Christian Association, General Pershing has officially taken over the army canteen, and in the future all exchanges, or "canteens," will be operated by the military instead of the Y. M. C. A., as was the ages-old custom before the present war. In replying to Mr. Carter's request, General Pershing says that as the reasons which impelled him to request the Y. M. C. A. to undertake the canteen work no longer exist, he is glad to approve Carter's suggestion. The general thanks the Y. M. C. A. for the manner in which it handled the canteen, declaring that, "handicapped by shortage of tonnage and land transportation, the Y. M. C. A. has by extra exertion served the army better than could have been expected, and you may be assured that its aid has been a large factor in the final great accomplishments of the American army.

According to Y. M. C. A. officials and investigators of recent criticism coming from overseas, the canteen has been the cause of nineteen-twentieths of the organization's trouble. In his letter to Mr. Carter, General Pershing declares that "the Y. M. C. A. undertook the management of the post exchanges at my request at a time when it was of the greatest importance that no available soldier should be taken away from the vital military functions of training and fighting." Y. M. C. A. men everywhere are sure that with the canteen in the hands of the army, all criticism of the organization's overseas work will cease, because of the impossibility of a civilian organization, handicapped as the Y. M. C. A. has been, operating such a mammoth mercantile enterprise as the post exchange business proved to be.

General Pershing's letter to Mr. Carter follows in full:

"My Dear Mr. Carter:
"I have received your letter of January 29 asking whether in view of the present changed situation it would be possible for the army to assume full responsibility for the maintenance of post exchanges throughout the American expeditionary force. As you correctly state, the Y. M. C. A. undertook the management of the post exchange at my request at a time when it was of the greatest importance that no available soldier should be taken away from the vital military functions of training and fighting. As the reasons which impelled me at that time to request you to undertake this work no longer exist, I am glad to approve your suggestion. In reaching this decision consideration has been given to the new burdens in connection with the entertainment and athletic activities and the education that you have assumed. I have accordingly given directions that army units themselves take over and operate their own post exchanges. In making this change permit me to thank you for the very valuable services and assistance which the Y. M. C. A. has rendered to the American expeditionary force in handling these exchanges. Handicapped by shortage of tonnage and land transportation, the Y. M. C. A. has by extra exertion served the army better than could have been expected, and you may be assured that its aid has been a large factor in the final great accomplishments of the American army.

"Cordially yours,
(Signed) "JOHN PERSHING."

ENOUGH BALLS TO RUN LEAGUES 347 YEARS

Also 52 Miles of Bats—Furnished American Troops by Y. M. C. A.

On the basis of there being played 150 games for the season and allowing five new balls for each game, enough baseballs have been furnished the American troops by the Army Y. M. C. A. to run the National league and the American association for 347 years. Allowing two new balls for each game, there were enough baseballs to play a series of 25 sand-lot games for 7,149 clubs.

There were 255,955 baseballs bought and shipped by the "Y" from July, 1917, to November 30, 1918, for the use of our army. Side by side they would reach 18 1/2 miles, and would make a solid fence of baseballs six feet high for three-fourths of a mile.

Over 100,000 bats were also furnished. Placed end to end, they would reach 52 miles. End to end in the air, they would rise to ten times the height of the highest mountain in the world, or be equal in height to 508 Washington monuments one on top of the other. If these were made in this fashion into one long bat, a man with the build and elbow grease of a giant could stand in your town, swing the bat and hit everything in a radius of 82 miles.

Among other things furnished our boys by the Y. M. C. A. for the carrying out of the national sport were 2,220 baseman's mitts, 4,120 catcher's mitts, 4,995 fielder's gloves, 4,996 masks, 200 bases, 80 home plates, and 2,748 bats.
