REGARD ACTIVITIES AS FRENCH INTRIGUE

(By Associated Press.)
BERLIN, June 4.—The authorities of the American, British and Belgian armies of occupation regard the activities for the establishment of the Rhenish republic as the result of French intrigue, and are themselves taking a strictly neutral attitude, according to the Lokal Anzeiger, which says France is attempting to annex the left bank of the Rhine, which President Wilson refused to permit, through "round about means."

COMMERCE IN WHEAT WILL REMAIN GOVERNMENT HANDS

(By Associated Press.)
PARIS, June 4.—All important world governments excepting Argentina have guaranteed the wheat price to farmers, and all European governments having subsidized the bread supply, it is considered probable here that commerce in wheat will remain in government hands next year, and there will be little private trading. The American peace delegates believe, however, that there is no necessity to continue the centralized control of the European distribution because there will be no food shortage after the next harvest. The last food ship will leave America late in June.

SEMENOFF ELECTED "GRAND DUKE OF MONGOLIA"

(By Associated Press.)
LONDON, June 4.—General Semenov, leader of the Cossacks in eastern Siberia, called congress which declared the autonomy of Mongolia, according to a Moscow wireless. The congress elected Semenov "Grand Duke of Mongolia."

ALLIES TO ANSWER GERMANY THURSDAY

There is reason to believe, according to Paris advices, that the council of four will reach a decision by Thursday as to the reply to the German counter peace proposals.
Allied experts today are drafting memoranda on the reply to be submitted to the council of four. Clemenceau is understood to maintain firmly that there can be no important changes in the treaty, but there are indications of a strong undercurrent of sentiment to meet the German offer of a definite sum of a hundred billion marks indemnity instead of the indeterminate sum now demanded.
The Germans continue objecting to the phases of the treaty, and are now drafting a memorandum which seeks to refute the allied charges that Germany is guilty for the war.
It is understood that the reparation clauses of the Austrian treaty are now completed.

FLOATING SAVINGS BANK CONVENIENCE OF SEAMEN

(By Associated Press.)
DETROIT, Mich., June 4.—A floating savings bank as a branch of the postal savings bank is being planned by Postmaster William J. Nagel of Detroit for the convenience of seamen on Great Lakes freighters passing through the Detroit river.
He would establish it on the little boat which carries mail to and from vessels passing through the river. The plan, would enable sailors to deposit savings without bothering to land in lake ports.

The sanction of the postoffice department is necessary before the experiment can be made.

SAYS COFFEE CONSUMPTION INCREASE WITH PROHIBITION

(By Associated Press.)
CINCINNATI, Ohio, June 4.—Carl W. Brand, president of the National Coffee Roasters' Association in an address at the annual convention of the National Wholesale Grocers' Association today declared that coffee will increase in popularity when national prohibition becomes effective.
Recognizing this situation, the planters of Sao Paulo, the big coffee growing state of Brazil have provided for a fund of \$1,000,000 to be spent in advertising coffee in the United States during the next four years. Mr. Brand said.

"Drug stores and soft drink establishments are installing coffee machines," he said. He added that soldiers have learned to "appreciate coffee as a true worth," and that the experience of the army and navy with coffee has not escaped industrial leaders.

"Many factories have already installed necessary paraphernalia for serving coffee daily and have found the results most gratifying and profitable," he said.

FANTASTIC FICTION PUBLISHED IN GERMAN NEWSPAPERS

(By Associated Press.)
COBLENZ, June 3.—Some fantastic fiction is published in German newspapers by writers from Frankfurt and Leipzig who have visited Coblenz and returned home to write whatever they please about the American army. Many of the stories they tell are new to the officers of the Third army who count them as German propaganda.

One writer of a long article in the Leipzig paper dealing with life in Coblenz relates alleged instances ridiculous sentences imposed upon Germans by the American army courts. In one case he says that the wife of a government official, "annoyed on the street by a drunken soldier exclaimed in her anger: 'If only all the Americans would go to the devil!'" The military court, he says, punished her for "this religious wish" by sentencing her to appear every morning for thirty days at the headquarters of the commanding officer and repeating to those present the phrase: "I am glad that you are still here, gentlemen, and it is my wish that you continue to stay here for a long while."

WASHINGTON, June 4.—No information regarding the reported landing of marines in Costa Rica has reached the navy or state departments. Secretary Daniels doubts if the landing was made.

HUNGARIANS DEFEAT THE RUMANIANS

(By Associated Press.)
COPENHAGEN, June 4.—The Hungarian Soviet troops defeated the Rumanians north of the river Theiss on Sunday, and severed communication between the Rumanian and Czech fronts, says a Budapest dispatch.
The Hungarians are advancing along the entire line against the retreating Czechs.

GERMANS PREPARE FOR EMERGENCIES

(By Associated Press.)
PARIS, June 4.—Germin minister of defense Gustav Noske recently toured the German coast defenses and directed the personnel to be prepared for emergencies, according to a report reaching the peace conference.
Laura and Tom De La Mar of Henderson were visitors to the city yesterday.

Do You Buy Or Sell Hay At \$40.00 Per Ton?

When paying 2 cents per pound for hay do you stop and think about those "little patches" of grass that you could have saved but which you DIDN'T SAVE?

Be a seller. It is more pleasant and profitable to sell hay at \$40.00 than it is to buy at the same price.

We want to sell you a mower and rake. We'll make money when we sell and you'll make money when you buy.

Let's get together on this important matter. It's money to you, it's profit to us—but it's mighty hard on the fellow who has been selling you hay at 2 cents per pound.

Next spring will you be buying or selling hay?

It's up to you.

PLAN ESTABLISH AGENCIES FOR BANKING OF FUNDS

(By Associated Press.)
LOUISVILLE, Ky., June 4.—A plan to establish agencies at each demobilization center to arrange for the banking of funds of discharged soldiers is being worked out by the American Bankers' Association, the Red Cross and the War Department, according to announcement here.
Each soldier ordinarily is discharged with at least \$90 in cash. The coordinated agencies see in the aggregate the basis for a new thrift campaign. The Red Cross will provide quarters and facilities, and the banks will supply tellers and clerks and open channels to transmit free of charge the soldier's money to a bank in his home town. The war department will sponsor the plan, it was stated.

Preliminary steps in this direction have been taken for the benefit of men to be discharged at Camp Zachary Taylor.

HAPPENED IN LUFKIN.

Lufkin News.

It was a short time ago that the press dispatches carried the announcement of the country that a parrot, twenty-five years old, had laid an egg at some point in Missouri. The papers far and wide featured the item and the bird was the object of much curiosity, bordering on homage.

A reporter for the Lufkin paper, who has been on the ground for so long he refrains from dates on account of releasing his age (not yet being married) recalls nothing of a startling or interesting nature that has ever happened elsewhere that the town of Lufkin did not compete with it, and oftentimes surpass it. When we needed up-to-date sewerage, the same was supplied; the downtown streets needing paving, and they are paved; more water was needed and deep wells were dug; an addition was needed to the jail, it was built; one of the inmates killed two others prisoners, then hung himself. The town was making out with an old, dilapidated depot, dynamite blew it into smithereens, parts of it falling in Nacogdoches county, and now we have an attractive pressed brick passenger station; a new form of government was needed for the town, which resulted in the commission form with a city manager, and a new chief of police, who is making the town safe for democracy.

All of these things and more could be mentioned, but this has nothing to do with the parrot story at hand. 22 years ago, Maxie Abram, now deceased, brought a parrot to Lufkin and presented it to his mother, who is now Mrs. S. L. Hart, as a present. Yesterday afternoon Mr. Hart called at The News office and stated that this same bird laid an egg the day before. So, there you are: It is not known how old the parrot was when it was secured in Mexico, but after reaching its present ripe, old age, and possibly having heard members of the family discussing the Missouri incident, decided to do as much for Lufkin. Can you beat it?

Count von Brockdorf Rantzau declares that the peace treaty imposes conditions they can not bear. They may be called upon to bear more than that if they refuse to sign the treaty.

The Sentinel has been carrying considerable advertising lately, and being short-handed, we have been delayed in several instances, and possibly the paper has not been up to the standard. But we hope to have these matters worked out pretty soon, and give the readers the usual amount of reading matter.

It is announced from Washington that the United States government is prepared for any exigency that may exist on the Mexican border. 18,000 troops are said to be on the line, including infantry, cavalry, artillery, machine guns and airplanes, and that in the event the Mexicans get gay again. It is to be deplored that the Mexicans desire to engage Uncle Sam in disputes, fights, etc., when the affairs of the world are being adjusted—but who can expect anything else from the Mexicans.

A dispatch announces that the masses of the German people want the peace treaty signed, but they will regard the man who signs his name to it as a traitor, and therefore they can get no one to sign the document. It is said that Count Brockdorf Rantzau will carry out the negotiations until the time comes for signing, and then Herr Erzberger will be called upon to do the actual signing. Erzberger is also objecting to making the proud name of Erzberger a hissing word in Germany, but it is being contended that since he signed the armistice, and got in so bad that it will not make much difference about going the rest of the way. The Allies don't care which one does the signing, just so somebody signs pretty quick.

BUSINESS CHANGE.

Messrs. A. T. and H. R. Mast have purchased the Baxter Motor Company from Messrs. Baxter and Garrison, and will conduct the business in the future. They announce that the intend selling out the stock of parts and accessories, and establish sales and service station for Buick and Oakland cars.

Both gentlemen are live young business men, and will no doubt make a great success of the business.

SIX THOUSAND SOLDIERS ARRIVED NEW YORK TODAY

(By Associated Press.)
NEW YORK, June 2.—Six thousand soldiers arrived today on the transports Graf Waldersee and Canada including the 219th infantry of the eightieth division, and one thousand men of the 142nd infantry, 36th division. The detail consisted of a medical detachment, third battalion headquarters and companies I, K, L and M.

HEALTH TALK SPANISH INFLUENZA OR GRIP BY DR. H. LEE SMITH.

An old enemy is with us again, and whether we fight a German or a germ, we must put up a good fight, and not be afraid. The influenza runs a very brief course when the patient is careful, and if we keep the system in good condition and throw off the poisons which tend to accumulate within our bodies, we can escape the disease. Remember these three Cs—a clean mouth, a clean skin and clean bowels. To carry off poisons from the system and keep the bowels loose daily doses of a pleasant laxative should be taken. Such a one is made of May-apple, leaves of aloe, root of jalap, and called Dr. Pierce's Pleasant Pellets. Hot lemonade should be used freely if attacked by a cold, and the patient should be put to bed after a hot mustard foot-bath.

To prevent the attack of bronchitis or pneumonia and to control the pain, Ananic tablets should be obtained at the drug store, and one given every two hours with lemonade. The Ananic tablets were first discovered by Dr. Pierce, and, as they flush the bladder and cleanse the kidneys, they carry away much of the poisons and the uric acid.

It is important that broths, milk, buttermilk, ice-cream and simple diet be given regularly to strengthen the system and increase the vital resistance. The fever is diminished by the use of the Ananic tablets, but in addition, the forehead, arms and hands may be bathed with water (steeped) in which a tablespoonful of salaratus has been dissolved in a quart. After an attack of grip or pneumonia to build up and strengthen the system, obtain at the drug store a good iron tonic, called "Iron-Tonic" Tablets, or that well known hereditary tonic, Dr. Pierce's Golden Medical Discovery.

BACCALAUREATE SERMON PREACHED YESTERDAY

The baccalaureate sermon of the Nacogdoches High School was delivered at the auditorium of the school yesterday morning by Dr. J. L. Massey, pastor of the Methodist church of this city.

The exercises were begun by the choir singing "Come Thou Almighty King," after which an invocation was rendered by Rev. Atwell, rector of Christ Church. Mr. W. S. Beeson and Mrs. John Perkins then sang a duet. Both of these singers are noted for their voices, and their rendition was very sweet and inspiring. Rev. Massey then read a scripture, after which Rev. T. F. Weaver of the Christian church offered a prayer. The next number was a solo by Mrs. W. D. Ambrose, whose charm of voice captivated the entire audience.

Rev. Massey in preaching the sermon, took the life and example of Moses, beginning with the time he was found by the Pharaoh's daughter, showing the education he must have had, and the wisdom of the choice he made in leading the children out of the wilderness. It was a great sermon containing stores of logic and reasoning, and was greatly appreciated by the large audience.

Dr. W. H. Bruce, Osteopathic Physician, Recland Hotel.

Chronic Constipation.

Perhaps you have never thought of it, but this disorder is due to a lack of moisture in the residual matter of food. If you will drink an abundance of water, eat raw fruits and take lots of outdoor exercise, you may be able eventually to overcome it entirely. In the meantime use the moist mild and gentle laxatives. Strong and harsh cathartics take too much water out of the system, and make a bad matter worse. Chamberlain's Tablets are easy and pleasant to take, and most agreeable in effect. Give them a trial.

To Prevent Belching.

Make a regular habit of eating slowly, masticate your food thoroughly and you may have no further trouble. If you should, take one of Chamberlain's Tablets immediately after supper.

Lame Back Relieved.

For a lame back apply Chamberlain's Liniment twice a day and massage the muscles of the back over the seat of pain thoroughly at each application.

NO DATE SET FOR NATION-WIDE STRIKE TELEGRAPHERS

(By Associated Press.)
WASHINGTON, June 2.—President Konekamp of the Commercial Telegraphers union stated today that no date has been set for the nation-wide telegrapher's strike, and that the threatened walkout at Atlanta was purely a local affair. Simultaneously Burleson announced that if telephone operators at Atlanta had been dismissed because of union affiliations, that they be reinstated immediately and steps be taken to discipline the responsible telephone officials.

The Doctor Away From Home When Most Needed.

People are often very much disappointed to find that their family physician is away from home when they most need his service. Diseases like pain in the stomach, and bowels, colic and diarrhoea require prompt treatment and in such instances proven fatal before medicine could be procured or a physician summoned. The right way is to keep at hand a bottle of Chamberlain's Colic and Diarrhoea Remedy. No physician can prescribe a better medicine for these diseases. By having a bottle of Chamberlain's Colic and Diarrhoea Remedy. No physician can prescribe a better medicine for these diseases. By having it in the house you escape much pain and suffering and all risk. Buy it now, it may save life.

THAT CHANGE IN WOMAN'S LIFE

Mrs. Godden Tells How It May be Passed in Safety and Comfort.

Fremont, O.—"I was passing through the critical period of life, being forty-six years of age and had all the symptoms incident to that change—heat flashes, nervousness, and was in a general run down condition, so it was hard for me to do my work. Lydia E. Pinkham's Vegetable Compound was recommended to me as the best remedy for my troubles, which it surely proved to be. I feel better and stronger in every way since taking it, and the annoying symptoms have disappeared." —Mrs. M. Godden, 925 Napoleon St., Fremont, Ohio.

Such annoying symptoms as heat flashes, nervousness, headache, irritability and "the blues" may be speedily overcome and the system restored to normal conditions by this famous root and herb remedy Lydia E. Pinkham's Vegetable Compound. If any complications present themselves write the Pinkham Medicine Co., Lynn, Mass., for suggestions how to overcome them. The result of forty years experience is at your service and your letter held in strict confidence.

NACOGDOCHES TRADITIONS.

The oldest dwelling house in the town of Nacogdoches is now the long-time F. H. Hoyo family home. It was bought by the late Joseph von der Hoya, from the heirs of Adolphus Sterne, who was a pioneer Texas patriot of French descent, bought it from Spanish owners about the year 1828, and dwelt there till his death about 1837. His several children were born there, and three of them are now living, namely, Charles A. Sterne, affectionately called "Uncle Charley Sterne," at Palestine, Texas, Mrs. Eugene Barret, at Richmond, Tex., and Mrs. Rosine Ryan, at Houston, Tex.

Uncle Charley may claim that he was born in the venerated Old Stone Fort, but this may be lapse or mistake of memory, as he was then very young. He is a most worthy and venerable son of a notable Texan. Mrs. Sterne, the widow survived her husband many years. She took great interest in historical events of early Texas. The Sterne graves are in the cemetery of the present city, where there are many noteworthy tombstones, that are inscribed with most interesting data.

The records in the county clerk's office showing the history of the ownership of this old time domicile are quite unique in point of dates and personalities. The parties who sold to Sterne had Spanish names and Spanish titles. It was hardly necessary at that period to have a written title on record, because anybody was indisputably welcome to anything desired in the way of a homestead, and no opposition offered.

In the way of titulary records there were certain formed conveyances made according to Spanish law, and methodically filed in the county clerk office, where they now are kept and known as "archives." The oldest one is dated about the year 1826.

The deed from the Sterne heirs to Hoya has signatures from divers localities. One of these was a French name of titulary length and orthography, requiring more than the space of one line to write it.

Houses were few and then and there. Streets were also few, and roads ran at random. The big road out of town going eastward ran in front of the Old Stone Fort, and veering south via the Sterne home, crossing LaNana the Lana the road forked. The left went down to Shawnee crossing on below the Aqua Vitae Parks beyond the Angelina and to Marion and over to "Nip-and-Tuck." It passed down near the first home of the Hoyas, one and a half miles from town.

The stone chimneys of the Sterne home are the originals "a thing of beauty and a joy forever," monuments

of the past. The house has been added to and dressed up, but its antiquity of ninety-one years is apparent as to mechanism. Uncle Sam Reid, who has known the place eighty years, and Uncle Charley Sterne and his sisters can verify all this data.

The next oldest house, in part is the one fronting on the north side of East Main street, across from the Presbyterian church, built about 1828. The famous Laura Hunt Faer once lived there with his widowed mother about the year 1840. Living witnesses of these events are few now. Sam Reid, Fitz Hoya, John Rusk Lawrence Taylor and Frank Ingraham have few if any predecessors or contemporaries.

NACOGDOCHES PUBLIC SCHOOLS CLOSED THEIR TERMS TODAY

The schools of Nacogdoches will close this term of the scholastic year today. It has been a very successful one for the students and teachers. With the closing of the war the students and teachers were relieved from the war work and have had more time to devote to their regular routine of work.

The graduating class is composed of 22 members, and we are informed that only one failed to make the grade necessary to graduation. The closing exercises of the various rooms were held this morning. The baccalaureate sermon will be delivered in the high school auditorium Sunday morning by Dr. J. L. Massey, pastor of the Methodist church of this city. Promotion and report cards will be given out Monday morning.

The graduating exercises will be held Monday evening in the high school auditorium. Hon. Waverly Briggs of Austin will deliver the class address. Miss Elizabeth Tucker is the valedictorian of the class, and Miss Mary Ansley is salutatorian.

The members of the class are Misses Ritchie Williams, Valerie Cash, Dora Davis, Ruth Fan, Elizabeth Tucker, Odie V. Ruple, Era Mae Smelley, Mary Ansley, Vesta McCuistian, Aileen Graves, Lizzie Ella Thompson, Lelon Mullins, Fay McCuistian, Irene Moore, Messrs. Langston Nelson, Cason Mast, Charles Wortham, Gorham Woods, Homer Liles, Wilfred B'oun, Everett Seale, Roy Tent.

666 has more imitations than any other Chill and Fever Tonic on the market, but no one wants imitations. They are dangerous things in the medicine line.

ARMY WORM MAKES RAVAGES IN DALLAS COUNTY

DALLAS, May 30.—Ravages of the army worm have forced many Dallas county farmers to replant their cotton, but crop experts predict the worms will soon disappear. Some farmers have been compelled to plant the third time. This is the first spring in many years that the army worm has done any considerable damage to cotton fields in this section of the state. Some wheat fields also have been attacked by the worms, it is said.

THIRTY-SIXTH DIVISION LANDED NEW YORK TODAY

(By Associated Press)
NEW YORK, May 30.—Seventy-one officers and twenty-one hundred men of the Thirty-sixth division, composed of Texas and Oklahoma troops, arrived here today from Brest.

The 36th Division, 11th engineers, 11th sanitary train with four ambulance sections, detachment of the 144th infantry, Company G, 142nd infantry, were among the troops who landed at New York today. They will be distributed at Camps Dix, Bowie, Sherman, Upton, Pike and Travis.

ASK FOR STATE LAW GOVERNMENT EMPLOYMENT HOURS TEXAS

(By Associated Press.)
BEAUMONT, May 30.—Resolutions adopted by the Texas State Federation of Labor, which ended its convention here with the selection of Cleburne as the 1920 meeting place, included a request for a state law governing hours of employment of women and children.

It was recommended that women and children be required to work only eight hours daily within ten consecutive hours, and not later than 9 p. m. nor before 6 a. m., unless safe means of conveyance to and from their homes is provided.

Other resolutions included one seeking the elimination of alien labor on all public work; another would require adequate and safe scaffolding on all work; more rigid examination of firemen and engineers on steam boilers was also recommended, and placing of fire fighters on a civil service basis—rather than political—was asked.

GERMANY NOT BE IN LEAGUE OF NATIONS

PARIS, May 30.—As a consequence of France's opposition to the entrance of Germany into the league of nations there is no possibility of this being done, although the other major powers would undoubtedly agree to Germany's immediate admission.

PARIS, May 30.—Vittorio Orlando, the Italian premier, called upon President Wilson today for a conference over the Adriatic settlement. It is understood this settlement is rapidly approaching final shape.

VEILED THREATS AGAINST THE U. S.

(By Associated Press)
EL PASO, May 30.—Upon being informed that the Carranza government had requested permission to bring troops from Sonora through the border states on this side of the international line, Villa said "Neither I or anyone would be able to hold my men if the administration at Washington gives permission."

NC 4 MAY ATTEMPT A NON STOP FLIGHT

(By Associated Press)
PLYMOUTH, May 31.—It has been learned here unofficially that there is a prospect of the American seaplane NC-4 flying home over a direct Atlantic route from Ireland to New Foundland. It is understood a conference will be held here shortly to discuss the project.

GREATEST LAUNCHING IN HISTORY OF WORLD

(By Associated Press.)
PHILADELPHIA, May 30.—Never again will the United States be guilty of the folly of trusting its foreign commerce to ships of other nations or quitting the shipbuilding industry declared Secretary Daniels in an address delivered today at the Hog Islands ship yards on the occasion of the successful launching of five steel freighters, the greatest single days launching in the history of any yard in the world.

NC 4 ARRIVED AT PLYMOUTH

(By Associated Press)
WASHINGTON, May 31.—The American naval trans-Atlantic flight, which began at Rockaway Beach, Long Island May 8th was successfully completed today with the arrival of the NC-4 at Plymouth England after a five hundred mile hop from Ferrol, Spain.

The announcement that Lieutenant Commander Albert C. Reed's plane, the sole survivor of the squadron of three had reached England, was sent to the navy department by Vice Admiral Knapp at London.

PARIS, May 31.—The indications are that the presentation of the peace terms to the Austrian delegation will be postponed beyond Monday, when it has been expected that they will be handed over. The plenary session of the peace conference today will decide the question.

VILLA FORCES ARE CONCENTRATING

(By Associated Press.)
AGUA PRIETA, May 31.—Passengers arriving here from the interior states report that Villa followers are concentrating in the neighborhood of Tonich, twenty kilometers west of the Chihuahua line. All foreigners are leaving the section, fearing violence at the hands of numerous bands masquerading under the Villa banner.

It is reported on good authority that a column of two thousand Diaz followers, marching from points of the west coast to join Villa at Tonich.

FIRE LOSSES.

AUSTIN, May 30.—Texas suffered monetary fire losses totalling \$10,826,372 in 1918, due to 8,0530 fires, according to figures compiled by the National Board of Underwriters and given out here by the state fire insurance commission. Insurance companies covered \$7,675,851 of this loss. Lightning striking unsodden buildings caused 273 fires, while no sodden building was fired in that manner.

EXTENSIVE EXPLORATION OF INDIAN MOUNDS IN TEXAS

(By Associated Press)
AUSTIN, May 31.—An extensive exploration of Indian mounds in Texas is being conducted by the Smithsonian Institute, in conjunction with the University of Texas. Mounds composed of refuse from fires built by the Indians have proven the most fruitful. The savages placed rocks together to form an oven, and as these were disintegrated by the action of the fire others were placed upon and around them. In this way, it is thought, the mounds grew broad and long as generation after generation added to the heap. Hundreds of specimens of tools and weapons have been taken from the mounds.

EFFORT REQUIRE THE TEXAS SCHOOLS TO USE ENGLISH

(By Associated Press.)
AUSTIN, May 31.—Backed by the state department of education, an effort will be made at the special session of the legislature in June to have the governor submit a bill proposing that private and parochial schools be required to use the English language as the medium of instruction according to information available here.

A bill embodying this proposal was presented to the regular legislative session last winter, but it brought forth so much opposition from private schools and other institutions, that it was defeated before it reached the floor of either house.

Opposition to the measure was based on the contention that it is to prescribe the course of studies in any school and receiving state support.

SHERIFF'S NOTICE OF ELECTION.

For Special School Tax.

The State of Texas, County of Nacogdoches.

Notice is hereby given that an election will be held on the 21st day of June, 1919, at Cedar Bluff School house in Common School District No. 25 of this county, as established by order of the commissioners' Court of this county, of the date the 16th day of April, 1913, which is recorded in Book I pages 177 of the minutes of said court, to determine whether a majority of the legally qualified property taxpayers voters of that district desire to tax themselves for the purpose of supplementing the State School Fund apportioned to said district, and to determine whether the Commissioners' Court of this county shall be authorized to levy, assess and collect annually, a tax of and at the rate of 50 cents on the \$100 valuation of taxable property in said district, for said purpose.

All persons who are legally qualified voters of this State and county, and who are resident property taxpayers in said district, shall be entitled to vote at said election.

Said election was ordered by the County Judge of this county, by order made on the 20th day of May, 1919, and this notice given in pursuance of said order.

SIR WALTER RALEIGH.

Recently Sir Walter Raleigh went to Philadelphia and a University of Pennsylvania professor went to meet him at Broad Street Station. Sir Walter is Professor of English at Oxford University, England, and sometimes he writes poetry.

The U. of P. professor had never seen the English scholar but had obtained a fairly good description of him. The first man to get off the train seemed to tally with it so that is the conversation that ensued:

"Excuse me, sir, are you Sir Walter Raleigh?"

"No, you — fool, I'm Christopher Columbus! Sir Walter Raleigh is in the smoking car playing checkers with Queen Elizabeth."

NOW PUMPING OIL OUT OF WELLS NEAR THE KIMMEY-HARMOSY LAND

Upon pretty reliable information, The News learns that just over the line in Nacogdoches county three oil wells have developed into producers. The report is that the output is very little up to the present time, possibly the strongest well affording not more than fifteen barrels per day. Even this is encouraging, for it denotes the prevalence of oil, that which so many are seeking in this territory.

A News reporter conferred with some of the local oil magnates in Lufkin this morning and acquainted them with this fact and must admit that they have the situation sized up pretty well. One interested party remarked that the Lufkin field is the logical one, that we are living our lives away over a veritable pool of oil, of the finest grade and that what is being secured in our neighboring country is only that which has "seeped" over the way, due to the enormous pressure here beneath the surface, which will soon be relieved by tapping the reservoir, this feat now being under way as the drill on the Singleton property, north of town, has already gone down about 1200 feet. This well is being put down by the Iona Oil & Gas Company of Mangum, Oklahoma, and Attorney Garrett for this company was an arrival in Lufkin last night.

It will be offered in this connection, that the producing wells over in Nacogdoches county are located just about seven miles from the Kimmey well, about nine miles north of Lufkin, now better known as the Harmony Oil Company.

This will be all The News will have to offer today on the subject of oil, as other items are demanding attention, and it is beginning to look more like rain.—Lufkin News

SHORTAGE ON FARM LABOR.

Galveston News.

The statement that the farmers are offering from \$3 to \$4 a day for cotton choppers and from \$5 to \$7 for harvest hands ought to dilute the feeling of envy and, here and there, of resentment which the prices of cotton and wheat have excited. Even \$2.26 for wheat and \$2 for cotton stop short of being profiteering prices when the cost of harvesting and cultivating mounts to such levels.

But of course this aspect of the matter is unimportant compared with the fact that even at these high wages, the farmers have not been able to get the labor they urgently need. A dispatch from San Antonio quoted W. H. Lewis, director for Texas of the United States employment service, as saying that from every section of the state farmers have been making demands for labor which he has been unable to satisfy. He says that in fourteen counties of Northwest Texas alone he could place 27,000 hands. Doubtless the need is greatest in the section, since an unprecedented wheat crop is ready for harvest. But not all the wheat is grown in Northwest Texas, and besides, counties south and east have a big oat crop ready for the mower, while all over Texas cotton is in need of choppers. Hence it would probably not exaggerate the fact to say that employment could be found for 100,000 men at from \$3 to \$6 a day, including, of course, board and lodging.

There is a saying that the troubles our imaginations foresee never overtake us. That idea seems to be verified by our present situation. Three months ago we were sure we would soon be confronted by the menacing problem of finding jobs for idle men. The organization of which Mr. Lewis is the director in this state was formed to aid in solving that problem. Now the problem actually confronting us is the reverse of that which we anticipated. The need is to find men for 100,000 idle jobs, and even more, for the demand for labor is by no means confined to the rural communities.

Perhaps the problem confronting us is preferable to one we feared would overtake us. And yet it is probably to go greatly preferable as one might suppose on the impulse. Half the world is hungry and in rags. If its misery is to be alleviated and the potential consequences of that misery averted, we shall have to exert the utmost of our resources, and energies. There will be need, urgent need, of every handful of wheat that nature in its bounty has offered us, and for every lock of cotton that can be grown. If the waste of a harvest is the sign of ingratitude, it is heightened to a cardinal one by the fact that the most we shall be able to spare will hardly suffice to serve a need on whose serving so largely depends the question whether Europe will surrender to the forces of anarchy. When such is the possible ultimate consequence of failure, the problem of finding men for idle jobs is not much less disquieting than that of finding jobs for men.

CHARITY SWINDLERS CANVASS THE STATE

Fake Salvationists Collecting Money.

The popularity of the Salvation Army throughout the country as a result of the efficient service rendered by this organization in France during the war, and now in this country among soldiers and sailors, is being put to monetary advantage by an organized force of swindlers who are operating in every section of the country.

Reports have come in to Lieut. Col. George Wood, in charge of the Southwestern Division of the Salvation Army that several persons claiming to be representatives of the Salvation Army are collecting funds in this territory. Up to the present, several arrests have been made.

Some of these people wear Salvation Army caps or similar to the regulation cap, with a lettered ribbon bearing such wording as "The American Salvation Army" or "The Union Gospel Salvation Army."

Col. Wood has issued a warning to all sheriffs in this division, all mayors and chiefs of police, all newspapers and business men's organizations in the same territory, that the tampering collecting methods of the Salvation Army have been discarded. The funds needed to carry on the work of the organization will be raised instead in a State-wide Home Service Drive to be put on soon.

Col. Wood asks that all persons claiming to be representatives of the Salvation Army be asked to show their credentials. Such credentials in this territory should bear the signature of Lieut. Col. Geo. Wood, Dallas Texas, Chief Divisional officer of the Southwestern Chief Division of the Salvation Army. If proper credentials cannot be produced, the persons should be detained until communication is obtained with Col. Wood. If the solicitors prove to be impostors, the Salvation Army will assist in prosecuting them.

This warning is not intended to apply to Salvationists in their own corps cities who are personally known as Local Corps Officers. These men and women will continue their collections until their local corps is placed upon a sound financial basis as a result of securing funds in the city and county for their annual budget.

A BELOVED SALVATION ARMY CHAPLAIN.

The 11th Field Signal Battalion has written a letter to the Salvation Army Headquarters in the United States in appreciation of the work of Adjutant Harry Cline, a Salvation Army Chaplain.

"Prior to the signing of the armistice," the letter reads, "we were never located in a town which offered us the comforts, the amusements or the facilities of any of our home organizations sent over here to aid the soldiers. Because we were part of a combatant organization we were kept in strict training far from the main thread of army life. There was no recreation hall where one could spend the few hours left to himself, nor music of any description to lighten the tolls of the day.

Upon the signing of the armistice our division moved back to a quiet area far from the scene of the conflict. At this juncture—a time when a soldier's mind is balanced between his hopes of an early return home, on the one hand, and his thoughts of future sordid drudgery, occasioned by necessary rules of army discipline on the other—our chaplain came. His entry caused but a momentary stir, for we had grown to believe that chaplains were mere figureheads and of no material benefit to us.

"But in this we were totally mistaken. Through his untiring efforts he procured from The Salvation Army musical instruments of various kinds—enough to equip a modest orchestra. It was through him that we enjoyed, for the first time in six months, music rendered by home talent. No one but a soldier can appreciate what that one act of kindness did to brighten the flagging spirits of the boys who had left so much behind.

"With that same spirit of unselfishness he established a canteen for our own use, stocking it with every luxury so near and dear to the heart of a soldier. In this he consulted us personally that the wishes of all might be granted, and in many instances our cherished desires were anticipated before they were expressed. In connection with this canteen he established a large recreation hall for every soldier who cared to spend a pleasant evening reading, writing or enjoying the music. Here a home-like atmosphere prevailed, and no stone was left unturned to make this hall a real home for us all."

The letter is signed by the following members of the 11th Field Signal Battalion.

James C. Netherton, Sergt-Major, Bn. Hdq.
Willard C. Veach, Supply Sergeant.

GENERAL PERSHING ENDORSES S. A.

Cables Appreciation to Commander Evangeline Booth.

The Home Service Drive of the Salvation Army, to be put on soon, for \$13,000,000, cannot fail to be successful when General Pershing himself tells of the wonderful work accomplished in France. Every member of the American Expeditionary Forces feels the same gratitude that General Pershing expresses in the following cablegram which has just been received at the Salvation Army headquarters in New York.

The message reads as follows: "Commander Miss Booth, The Salvation Army, New York City.

I wish to express sincere appreciation and that of members of American Expeditionary Forces for the splendid services rendered by Salvation Army to American Army in France. Outstanding features of work of Salvation Army have been its disposition to put its activities as far as possible to the front and experienced character of its workers. It has endeared your organization and its individual men and women workers to all divisions and other units to which they have been attached. It has spread their good name to every part of the American Expeditionary Forces.

Please accept this as a personal message to each of your workers. (Signed) PERSHING."

SOLDIERS HELP IN DRIVE FOR FUNDS.

(Editorial in Los Angeles Paper)

One of the finest tributes to the service performed by The Salvation Army for the American soldiers abroad is the fact that hundreds of discharged soldiers have volunteered to help in the drive for funds which the organization is going to make.

There is no question that The Salvation Army came out of the war with flying colors. The institution, which so many folks had only supercilious smiles for in the days before the war, has proved its worth, and has given conclusive proof of the fine spirit which actuates its personnel—the simple spirit of Christian service.

Its workers in the field abroad, both men and women, did things for the men. They gave them what they most needed and wanted, not "uplifting" them, but feeding them coffee and doughnuts when they needed these most of all not "saving brands from the burning," but saving cold and weary bodies from discomfort.

In the language of the street, The Salvation Army stands "aces high" with the boys of the A. E. F.

But those of us who may not have known it before, now learn that The Salvation Army did abroad merely what it had been doing for years before in the places of want and need in our great communities. They had been helping those who need help, and helping them with the things they most needed—food, clothing, concrete assistance.

They made converts of their wards not by doctrinal argument but by example. They showed these men and women who were on the verge of the economic abyss just what sort of men and women Christian belief can produce. It was thus they "brought men to Christ," as their own phrase has it, because they proved in their own works what the Christ spirit really means.

And now they will ask us all for help in broadening out the great work which they have been doing under such great difficulties all these years before the war, which has brought them this new "popularity."

Miss Evangeline Booth, American commander of The Salvation Army, translates this new "popularity" into new "responsibility."

"We are going back again to our work in the slums of the great cities," she says.

Yes, they are going back to that work, with the blessing of millions of folks who never thought of The Salvation Army before. They are going back not only with the blessing of these millions, but with their dollars, concrete evidence of the good-will that has grown up toward the organization in return for the service rendered to "our boys" abroad.

We have not the slightest suggestion of doubt that they will get every penny they ask. And what we have said above should show that we have not the slightest suggestion of doubt that they deserve it and that having got it, they will use it wisely and well in their own spirit of truly Christian service.

SALVATION ARMY WAR WORK ON FIVE CONTINENTS.

The Salvation Army is doing welfare work among the allied soldiers, not only in France, England and the United States, but on five continents. From Honolulu to Hong Kong and from the Arctic to the Cape of Good Hope, the Salvation Army is giving its best service to the man of war—be he American, Ally, or Neutral. This vast field of activity includes England, Egypt, Macedonia, Salonika, Iceland, Siberia, Holland, France, Belgium, Switzerland, the United States, Australia, New Zealand, Japan, South America, India, the West Indies, Newfoundland, Serbia, Mesopotamia, and the occupied zones of Germany.

IS THERE AN OPPORTUNITY?

For young men and women who learn the cotton business, there is great opportunity. In the South, there are from twelve to fourteen million bales of cotton raised annually. Every bale has to be classed from one to four times, seldom by the same man twice. Until the last five years, there have been on training schools in this line, consequently the supply of men and women for this work is limited. Again, there are being erected in this country thousands of warehouses, and every warehouse requires two or three men to handle the cotton. Commissioner F. C. Weinert of the Market and Warehouse Department has appointed a Board of Examiners to examine applicants for license, as Public Cotton Classers. The license will be issued to any one passing this examination and he or she will have the right to engage in the business of Public Cotton Classing at any place in the state of Texas and to charge for his or her services. These examinations are open to both men and women. Practically every town and village where cotton is sold will employ one or more licensed Cotton Classers. The young man or woman trained in the Cotton Classing Department of our school is in a much better position to accept one of these places than one who has learned by guess.

Every young man of the south should know the classification, preservation and handling of cotton. It is our leading product and will continue to be. Of the world's production, about sixteen million bales annually, Texas, Oklahoma, Mississippi, Alabama, Louisiana and Georgia supply eighty-five per cent of this total. More money is lost each year by the farmers on the marketing of this product than all other crops combined. The man raising it often knows nothing about marketing it, and is therefore wholly at the mercy of the man who is buying. The facts are we lose thousands of dollars each year for lack of trained men. Some buyers will grade your cotton strict low middling, and pay you accordingly, when in reality, your cotton is middling and you are entitled to the higher grade, which is no small gain. You see the necessity of knowing how to grade your own cotton. In our weeks time, we can prepare you to save this year more than double the cost of your learning, which is only \$30.00.

We have been asked, "How do you teach Cotton Classing so successfully?" The one answer is this: We believe the time has come when the South needs to know more about her leading product; when the farmer should know more about marketing the crop which he labors so earnestly to produce; and which means meat, bread and clothing to his family. To this end, we have equipped our department so that efficient teaching may be done. Our teachers understand classing, buying and selling from a practical standpoint, and are

expert in the training of students. Our head teacher of this department is constantly in touch with the Agricultural Department at Washington, D. C. and Austin, Texas, which lends much to his strength. We purchase samples in quantities of three to four thousand, in addition to the governmental types. DEMobilization OF "Y" MEN NOW AT A STANDSTILL

Only 400 Remain in Southern Department—Activity on Mexican Border.

San Antonio, Tex.—Demobilization of Army Young Men's Christian association secretaries in the Southern Military department has about reached a standstill for the present, according to J. H. Eckford, departmental supervisor of personnel. About four hundred wearers of the Red Triangle remain in the six states composing this department, more than six hundred having been released since the signing of the armistice. It is believed that, with the numerous camps in the department demobilized down to practically the smallest possible working force, coupled with the demands of the regular army men and the returning soldiers from overseas, there will be a need for at least four hundred secretaries for at least several weeks.

Seventy secretaries are serving the towns and outposts along the Mexican border, this phase of Y. M. C. A. activity having been materially enlarged since the armistice. Apparently 2,000 miles of border territory is now being covered, the greater part of it by itinerants in light delivery cars, in which the secretaries carry a full supply of books, stationery, portable motion picture machines, athletic equipment. In a number of the isolated villages where troops are stationed the Y. M. C. A. but is the only entertainment feature and the soldiers share their privileges with the civilian populations. Every border outpost is now being reached by the "Y" men, and the work will continue as long as there are soldiers to serve.

RESOLUTIONS OF RESPECT.

Whereas the Almighty Father in His great wisdom has seen fit to call from our midst one of our beloved brethren, Brother A. A. Palmer, your committee beg to submit the following resolutions in memory of our deceased brother.

Be it resolved that the Nacogdoches County Sacred Harp Singing convention join in profound sympathy with the bereaved family.

Brother Palmer was a faithful husband and father and became a member of the Baptist church in early life and was always found faithful to his duty, ready to take part in religious work and was deacon the last few years of his life.

Be it resolved that inasmuch as Brother Palmer was a dear lover of sacred music the members of the convention have met at Spring Hill to pay the last tribute of respect by singing some of his favorite songs as a memorial lesson. The music was chosen by his wife and sung by Bro. Fate Sanford, W. A. Barr, T. A. Hargis, Buck Crawford and Jim Melton.

Be it resolved that a copy of these resolutions be published in each county paper and a copy be furnished to the bereaved family.

DOUGHNUTS AND COFFEE AT VERDUN

Salvation Army Lassies On The Job At End of Long March.

Harry A. Williams writing in the Los Angeles Times, tells a story of what the doughnut meant to the boys in France.

The boys were stopping along through a muggy night typical of northern France. A constant drizzle was turning into a rain, and the water was forming in pools on a landscape already so sodden that it could absorb no more. When there was not the slushy sound of the soldier's feet slipping in the mud, there would be the splash of their hoofs in these puddles. Our brogans were full, and all of us could feel the "squash" of the water up between our toes with the pressure of each step. Altogether it was a miserable night—one of those unexpected moves—and our packs grew heavier each step with water and weariness.

The column had lost its way in the interminable darkness of this forest, and was forced to march sixteen kilometers instead of the scheduled ten. And every man in that column knew that at the end of that march comfort and cover did not await us, for in that section there were no barracks. In their utter fatigue they would throw themselves down in the mud at the end of the march, some of them not even waiting to unroll their blankets. It was not altogether a rosy prospect. Visions of food or something hot to drink before morning they could not conjure up in their wildest forays of imagination.

About midnight a little flivver creaked by the column. It was loaded to the mudguards with people and a lot of paraphernalia, but details could not be visualized in the dense darkness. The fellows were too tired to even chirp their customary greeting to "Henry." The Ford camionette painfully picked its way ahead through the night, and nobody gave it another thought.

But when they finally slipped and half staggered up the incline where they were to sleep under the scraggly trees, because the incline offered a bit of drainage, a delicious aroma on the heavy air made them sniff. Were they dreaming on their feet, or was it the partial delirium that sometimes comes mercifully to over-wrought men. Unmistakably that was the combined aroma of boiling coffee and frying doughnuts. Verily, it was more than a fantasy.

Into the hands of the men at the head of the column was slipped a warm doughnut and a steaming cup of coffee. And as the line passed each soldier was served. After all, it was more like a fairy tale than reality—doughnuts and coffee in this black wilderness back of Verdun.

The Salvation Army was on the job. It was their flivver which had floundered past us in the dark. They had a way of never announcing what they were going to do.

DOUGHNUTS AND DANGER

(Editorial in Dallas (Tex.) News.)

The Salvation Army specialized in coffee and doughnuts—and danger. The devoted women of the Salvation Army carried their diminutive cooking apparatus to the front-line trenches when they were permitted. They braved death and wounds, and they fried doughnuts, wherever there were hungry doughboys, within the limits of the Salvationists' means. This service was performed freely; it was performed faithfully. The lassies knew how to make coffee and doughnuts, and knowing how, they made them. That is the substance of the whole thing—they knew how to do something useful, and did it. They didn't preach about it, or gesticulate, or write pieces to the papers, or sob in public, or moralize over the wickedness of war, or argue Scripture, or chant beatitudes—they simply moved their funny little stoves up to where the boys were and worked all day or all night at making coffee and doughnuts. Also they smiled while they worked, but (bless their deep maternal common sense!) they didn't try to pretend like it was all a joke or a picnic. Again, let us repeat, the women of the Salvation Army knew how to do something and did it. How greatly simplified would all our problems be if we would but agree, each with himself, to learn to do something that needs to be done, and then do it! The world—particularly America—is jam full of "smart alecks" who know all about everything, or something about nothing, yet who are unable or unwilling to make a decent living in practical employment. There are sermons in doughnuts and entire theologies in a cup of good coffee.

NEW SALVATION ARMY HOTEL.

A new Salvation Army Hotel has just been opened in San Antonio. The Hotel Williams with its furnishings has been leased for a Red Shield Club and Hotel. It is a fine three-story brick building, 45x90, with a forty-foot grass plot at the side. On the first floor will be a parlor, writing room, library, social hall, kitchen and lunch room, with two bedrooms for officers in charge. The two upper floors are all bedrooms, which will accommodate at least forty men.

ROOMS FOR WORKING GIRLS IN S. A. HOME

Oklahoma City to Get \$60,000 Building.

A women's and children's rest room will be one of the features of the new Salvation Army building which it is planned to erect in Oklahoma City with the proceeds of the Home Service Campaign.

C. G. Fencil, who is in charge of the plans for the drive, says, "The experience of local officers emphasized the necessity for the provision of women's and children's rest rooms and a day nursery as a very practical and much needed feature."

It is expected that mothers who are in the city on shopping trips will leave their small children under the care of the trained Salvation Army nurses.

It is also planned to provide some 18 or 20 moderate sized bed rooms to be rented to working girls at a minimum price. It is hoped that this feature will afford clean and wholesome living conditions on a cost basis at a reasonable rate compatible with the girls' wages.

Leut. Col. George Wood, who is in charge of Salvation Army activities in the Southwestern Division, has announced that similar institutions for working girls will be established after the campaign for Home Service work in many of the larger cities of this division.

THE OUT-OF-LOVE CLUB

The New York Sun describes the work of this Salvation Army club in New York City:

"No, the Out of Love Club is not made up of jilted girls. Many of the members have been jilted—nay, cruelly used by conscienceless men in the past—but that isn't what the name means. It just means that what is done by it is done out of love and affection and good-will for all those who suffer and need a helping hand."

"It is a plain, but prettily furnished house at 318 East Fifteenth street, where the Out of Lovers gather for their meetings and teas and various good times, or are welcome to stay, when they need the shelter and strength of this home. There is the Salvation Army Hospital, too, next door, at 316—the Booth Memorial Hospital it is called, after the old General who founded and started the Salvation Army. And many a desolate girl, some country girl, perhaps, who had come to the city and gone upon the rocks, has found shelter and comfort and the restoration to health in one of the white beds of this hospital.

"Commander Evangeline Booth stated recently that 85 per cent of the unfortunate girls they had taken in for reclamation had turned out well. Hundreds of them have been placed in service, and it is the rule of the Salvation Army to follow up the girls who leave the home, to keep track of them for three years at least and see how they turn out. Sometimes the girls are only too glad to report frequently.

"There was the girl who sat out to starve herself to death on a park bench. It was one cold autumn night when a man's voice called up the matron at this home and told her that he was much concerned over a girl who had sat for several days on a bench in the little park opposite his house. He watched her in the early morning and at night, he said, and he was convinced that she hadn't moved; he thought she seemed in great trouble. So the Adjutant of the home, which faces the same park, ran out and hunted up the bench where the girl sat.

"Come! Come with me and I will take you to a place where you will be more comfortable," she told the poor creature, who was a pitiable object indeed, her hair matted, her face thin and drawn, her eyes vacant and glazed, her clothes torn and wet. The girl shook her head.

"It's no use talking to me—I'm going to sit here till I starve to death," she said in a dull monotone. For an hour the Salvation Army matron pleaded, argued, tried every wile to induce the half-crazed creature to go with her. Finally, not daring to leave her there, she told the girl that if she didn't come a policeman would be called. At this she gave in and went.

"It took weeks of nursing and care to win from the girl her story. It was one of misunderstanding and trouble at home and harsh treatment that had driven her out into the world, where lack of training made it impossible for her to get work, and she was soon without money. Now that girl is an assistant in the Out of Love Club, where she is busy and happy all day, and the matron says she has saved many another girl who was tottering on the brink of despair."

CIVILIAN CLOTHES FOR DISCHARGED SOLDIERS

The Salvation Army is spending about \$200 per day in Chicago on civilian clothing for discharged soldiers. Commissioner Estill has placed Ensign J. A. Ryan in charge of this bureau. His office is always crowded. Every applicant is carefully interviewed and registered to prevent fraud and duplication. No clothing is given to men who have not yet secured jobs as they can seek employment in soldiers' uniforms as well as in civilian's clothing.

THE SALVATION ARMY DISCARDS TAMBOURINE

Tambourine Methods as Expensively Useless as Charity Bazaars.

(The Literary Digest.)

The tambourine girl of the Salvation Army has been voted about as expensively useless as charity bazaars in other fields for raising the necessary funds for the Army's work. Commander Evangeline Booth has decided that her time is better employed in the day nurseries that the Army runs; and, besides, the American people have been educated by the war in quicker and more effective methods of raising funds for necessary relief work. The Salvation Army will soon start a drive for the "Home-Service Fund" of \$13,000,000, beginning May 19, and it is going to get its money by straight appeals to the public. The word of every returning soldier is a guaranty that these appeals will not be in vain. The Sun sheds some light on this forthcoming effort:

"Maybe some folk will be asking you, when the Salvation Army got a slice from the millions raised by the United War Charities drive, it wants more so soon. Well, in the first place, the slice the Army received wasn't very large, considering the millions of doughnuts and pies it baked for our boys on the other side, and the chocolate and coffee and cigars and writing-paper and other comforts almost without end that it provided, not to mention the personal service of its workers everywhere they were needed, right up to the front. And in the second place the work over here that the war couldn't be allowed to interrupt must go right on.

"An Italian boy who fought and earned two wound-strips with the troops that helped break the Hindenburg line faced a Salvation Army lass who was giving out doughnuts and hot coffee to some just-landed men on a Hoboken pier one day last week. 'Say,' he burst forth with his mouth full of doughnut, 'is that club you had for mothers at 94 Cherry Street still going? Cause if it ain't my mother is sure awfully lonely. She started goin' there when she couldn't speak no English hardly, and it was about all the sociability she had, those meetin's of yours. My mother ain't much to write, so I didn't hear nothin' while I was on the other side about that club o' yours, and I says to myself, 'I, it's sure a pity if, seein' all they're doin' for us boys, the Salvation Army has had to give up what they done at home.'"

"The club's flourishing, and so's the settlement-house and the kindergarten and everything at 94 Cherry Street," the worker answered, and a happy grin welled up under the perspiration on the lad's face as he hitched his haversack and tin hat and other burdens to a more comfortable position and passed on with his pals.

"That colloquy just shows the special charm of the Salvation Army and the reason for the hold it has on the masses—no red tape, no standoffishness, no 'side,' just simple friendliness and the desire to serve, and with it all to serve in the most practical and needed way. While they were braving shot and shell and bombs and poison gas to carry comforts to the boys on the Hindenburg line they didn't neglect to give encouragement to the mothers on Cherry Street—and goodness knows that if ever any one needed encouragement it is housewives on Cherry Street. Down in that street, which was once the most aristocratic part of the town, where the beaux and belles of Colonial times disported themselves, where the 'best families' lived, as some of the beautiful carved woodwork that still remains here and there in the old houses, tho' sadly battered, attests—there are now great poverty, great overcrowding, large families huddling in one flat, and taking in boarders at that.

"And the babies! In one year the Cherry Hill Settlement Day Nursery cared for 14,000 babies, whose mothers go out to work, who but for the Salvation Army would be locked in at home alone, or left to the mercies of brothers or sisters hardly old enough to look out for themselves."

SALVATION ARMY WORKERS GIVE KOREAN BEGGARS THEIR FIRST BATH.

Korea, March, 15.—Members of the Salvation Army invaded Seoul this month and proceeded to give the beggar boys of this city their first lesson in cleanliness. They opened a temporary home or shelter and then went out into the highways and byways and began to gather in the youngsters of whom there are quite a large number. On the first night 29 were brought into the shelter. First they were treated to a haircut, then a good hot bath, during which time their old clothing, with all its company, was being destroyed by fire. What a slaughter! The boys were then dressed in clothes given by some kind friends for this purpose, and housed in a nice warm room. During the day they are taught to read and write, and also put to some manual labor, such as wood-chopping, rope-making, etc. Friends of the Salvation Army have supported the effort as regards finances and clothing.

The Elks had charge of the Salvation Army Home Service campaign in twenty-seven counties of California. Everyone of these counties went over the top. The Elks of Oakland raised over \$20,000.00.

HOME SERVICE WORK GROWING

SALVATION ARMY PLANS TO DOUBLE WORK IN SOUTH-WESTERN DIVISION

"The war work of the Salvation Army is almost over but its home service has barely begun," Lieut. Col. George Wood in charge of Salvation Army activities for the Southwestern Division announced recently. "For years the Army has quietly been caring for the poor and unfortunate of the country. The work has been extensive but the past record will seem small when compared to the program for the future.

"The record of the Salvation Army in France where it was the first welfare organization in the field has won the confidence not only of the soldiers but of the entire country as well. It has proven itself to be an organization experienced in service and efficiently managed. In overwhelming numbers the soldiers have pledged their support to its future work.

"The Army's objective—to save men from sin, sorrow and death in this world and the next—is the reason it is called the Salvation Army. Through long years of humanitarian work, the Army has realized that bodily needs must be satisfied before men and women can be helped in a spiritual way.

"Recognizing Christ as the Commander-in-Chief, it accepts as His commands for every day duty the 35th and 36th verses of Chapter 25 of the Gospel of St. Matthew:

"For I was an hungry, and ye gave me meat; I was thirsty, and ye gave me drink; I was a stranger and ye took me in;

"Naked, and ye clothed me, sick and ye visited me; I was in prison and ye came unto me."

"These commands have prompted the varied activities of the organization. They include shelter for homeless men and women, homes for working girls, children's homes, rescue homes for unfortunate girls, maternity hospitals, slum work, day nurseries, cheap food depots, employment bureau work among the prisoners, medical relief and visiting nurse work, summer outing for the poor, Christmas and Thanksgiving dinner baskets, missing friends and inquiry department, farm colonies, etc.

"In the past sufficient funds have been raised for the work by tambourine collecting. But the work has grown too large for that now. Commander Evangeline Booth feels that the time of the Salvationists can better be employed in direct service than in begging for nickels and dimes. In the future the Army will raise the money needed in yearly drives. The amount set as the goal for this first drive is \$13,000,000, to be used for the national and local work.

"This amount will make possible the extension of the work in the Southwestern Division where it is comparatively new. The activities in this field will be doubled in the next few years according to plans.

"At present the Army maintains maternity hospitals and rescue homes in San Antonio and El Paso, hotels for transient working men and homeless men in Dallas, Galveston, Beaumont and Fort Worth.

Similar institutions will soon be established in Oklahoma and Louisiana. Orphanages, hospitals and homes for the aged will also be established.

"Corps buildings to be utilized as community centers will also be erected as memorials to the soldiers. The first one in this field has just been opened at Dallas. It is a two story building with provision for the comfort and use of every member of the family. Occupying half of the first floor is the Red Shield Club room for discharged soldiers, sailors and marines. This room is largely used by the soldiers who gather here to read, play games or write letters. Across the hall is an auditorium. On the second floor are the offices of the corps, and the Southwestern Division and the women's rest room and nursery, with a Club Room set aside in the interest of the young people.

"These family club buildings will be established in every city where corps are organized. Wherever they have been opened through the country such buildings have been largely used by the people of the town and the country people as well, who make them their headquarters while transacting their business in town.

"Any community may secure one of these buildings by assisting the Army in raising the necessary funds. Committees will be formed in each county, city, town and postoffice to work during the Home Service Campaign so that all people who believe in the Salvation Army code of practical service may be given an opportunity to contribute."

Halifax Raises \$195,000.00

The greatest victory yet achieved in campaigning by the Salvation Army goes to the credit of Canada. \$195,000.00 was raised, the larger part of which is to be used for the erection of a magnificent Maternity Hospital and Rescue Home. The population of Halifax is only 60,000. The amount raised per capita was \$3.25.

DID HER A WORLD OF GOOD SHE SAYS

Mrs. Moore Was So Weak She Could Hardly Get Up—Health Restored By Tanlac.

"I feel so well now that I can hardly realize the awful condition I was in before I took Tanlac," said Mrs. E. L. Moore, of 943 S. Wellington street, Memphis, Tenn.

"I had been in a run down condition for two years," she continued and was so weak I could hardly keep going. I had to force myself to eat, but nothing agreed with me and I got so lifeless and no account that I could hardly get up when I was sitting or lying down, or even do my housework. I suffered with splitting headaches that would almost drive me distracted.

"My appetite picked up on my first bottle of Tanlac and am now eating three hearty meals a day those awful headaches are gone and I am now feeling just fine. I have gained ten pounds and am strong enough to do all my housework with ease. Tanlac did me a world of good—more than all the other medicines I have taken put together."

Tanlac is sold in Nacogdoches by Scripling, Haselwood & Co., and Swift Bros. & Son.

BOX GETS GOOD COMMITTEE ASSIGNMENTS.

When the Democrats lost control of the Congress in the November elections, it became apparent that the Democratic representation on committees would be greatly reduced, and that desirable committee assignments would be hard to get. Under the seniority rule, which both parties observe, members have priority of claim upon committee assignments, corresponding to the length of their service in congress. This gives old members a great advantage over new ones in the contest for desirable committee assignments and the same is true of all other phases of congressional work. All other things being equal, length of service gives a congressman a wonderful advantage in effectiveness in the service of his district.

When Mr. Box visited Washington in February and March, while the old congress was in session, he looked into this question of committee appointments and concluded that of all the committee places which could possibly be secured by a new member, he preferred the committee on Immigration and Naturalization; and second, the committee on Alcoholic Liquor Traffic. He and his friends in congress directed their efforts to this end, and it now turns out that he wins a place on both of these committees. On nomination of the Democratic members of the committee on ways and means, the Democratic caucus has selected him for both of these committees.

His membership on the Committee on Immigration and Naturalization will give him a better opportunity to urge the views of himself and his people against the admission of hordes of foreigners to America, as well as against loose and easy laws conferring upon them the rights of citizenship. The work of this committee during this congress will be heavy and important.

If the important questions affecting alcoholic liquors with which this congress has to deal, are referred to the committee on alcoholic liquor traffic, that committee will also have much to do. Mr. Box is in favor of continuing the war time prohibition against all intoxicating liquors, and opposes its repeal as to wines and beer.

Hon. John N. Garner is the Texas member of the Committee on Ways and Means and strongly and effectively supported Mr. Box's efforts to obtain these assignments. The interests of Texas and the Texas members seem to have fared well in his hands.

CAR STOLEN.

Mr. E. H. Trammell, local manager for the Southland Insurance Company made a business trip to Dallas this week, driving through in his new Ford car which he had just bought from the local dealer. While in Dallas Mr. Trammell's car was stolen, and has not yet been recovered, but as it was a specially equipped car, having about \$110.00 worth of extras, including demountable wheels and a full set of Pennsylvania Bacum Cup tires, it should not be hard for the authorities to locate it.

Mr. Trammell's insurance policy was only 48 hours old at the time his car was stolen. Mr. Trammell being an insurance man himself realized the value of insurance and his car was covered to the amount of \$600.00. His policy was written by the Sublett Insurance Agency.

ARMADILLO KILLED IN CITY THIS MORNING

Quite a peculiar experience is related by Mr. J. C. Melton, the tax collector, this morning. Mr. Melton says that early this morning his attention was attracted by his dog barking at something out in the yard. He went out to where the dog was barking some boards, when the tail of the animal became visible. Mr. Melton could not tell at the time what the animal was, and permitted the dog to go after him, catching its neck and head in its mouth and killing it.

Mr. Melton brought the animal down town this morning, where it was quite a curiosity to many who had never seen one. This is the first time on record that an armadillo has been known to run wild in this section of the country.

Dr. and Mrs. J. S. Wilson, and son J. S. Wilson, Jr., and daughter Laynette of Ferris, are visiting in the home of Mr. and Mrs. J. B. Atkins in the city. The party of visitors came through overland in a car, and report that except the encounter of a few prevailing mud holes, their trip was an enjoyable outing.

BOY SCOUT WEEK BEGINS SUNDAY JUNE THE 8TH

Austin, Texas, May 21, 1919. The Sentinel, Nacogdoches, Texas. Dear Sir: The president of the United States on May 1st of this year, declared the week beginning Sunday, June 8 and ending Saturday, June 14 to be Boy Scout week throughout the United States.

Ex-secretary of the treasury, W. G. McAdoo has accepted the chairmanship of the Citizens' Committee for the United States.

I am State Chairman. May I earnestly ask you and such good men and women as you may associate with yourself to cooperate and choose a chairman who will energetically conduct in your city and county a campaign for the Boy Scout cause? The main thing is to sell associations memberships at the cost of \$1 or more per individual.

All who are in this work are in the work for the love of the boys and the love of country. May I have your co-operation with that of the persons suggested above?

Please after a conference with those suggested above, let me know the joint conclusion of yourself and those associated with you. Advise me at once of the name of the chairman selected by you and your associates so that appropriate literature can be sent from headquarters.

Respectfully,
A. P. WOOLDRIDGE,
Chairman, Boy Scout Committee for Texas.

IRISH CENSORSHIP HAS NOT BEEN DISCONTINUED YET

DUBLIN, June 3.—The Irish censorship has not been entirely discontinued as has that of England. Major Bryan Cooper, formerly Unionist member of Parliament for South Dublin, has been appointed press censor for Ireland succeeding Lord Decies who has resigned.

The Irish censorship, however, is declared to be voluntary and no paper is required to submit copy to the censor. But as to the penalties for objectionable publications will still re-

main, and may involve seizure of plant and machinery, it is expected that the newspapers will make themselves safe by taking the censor's opinion on all doubtful matters. The government declares that "in the interests of the peace of the country it is impossible for the government to permit any section of the press to be used as an instrument of incitement to organized or other defiance of the law or for the purpose of inflaming public opinion to a pitch in which acts of lawlessness become possible." But the government adds that "there is no intention to interfere with legitimate political

discussion or propaganda." It is probable that while the general body of the Irish press will continue their relations with the censor very much as before, the Sinn Fein papers may take all risks.

The Nationalist press complains that the censor's practice of curtailing the speeches had the effect of depriving the Irish public of any real basis for judging Sinn Fein policy which they believe would have proved less attractive than it did to the Irish electors if they had known the extreme terms in which it was sometimes put forward.

CALOMEL SALVATES AND MAKES YOU SICK

Acts like dynamite on a sluggish liver and you lose a day's work.

There's no reason why a person should take sickening, salivating calomel when a few cents buys a large bottle of Dodson's Liver Tonic—a perfect substitute for calomel.

It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can't salivate.

Children and grown folks can take Dodson's Liver Tonic, because it is perfectly harmless.

Calomel is a dangerous drug. It is mercury and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tonic instead and you will wake up feeling good. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you don't find Dodson's Liver Tonic acts better than horrible calomel your money is waiting for you.

SITUATION ARISES RHINE REPUBLIC

(By Associated Press.)

A situation which may affect the peace settlement with Germany arises through the proclamation of the independent republic of the Rhine province stretching along the frontiers of Holland, Belgium, Luxemburg and from the lowlands along the Dutch border to the Saare hills. The province contains vast fields of coal, iron, great industrial cities and centers on most important textile manufacturers in Germany.

Berlin denounces those behind the movement as traitors and charges French propaganda at work. If the Rhineland becomes independent a buffer state will be set up between Germany and France and Belgium and Germany will lose all possessions west of the Rhine.

SHIN GREY AND BLUE LINES FALL IN WITH KHAKI-CLAD

CHICAGO, May 30.—The rapidly thinning ranks of veterans who fought under General Grant and accompanied General Sherman in his march to sea today fell in line with khaki-clad heroes of the world war and paid homage to the nation's soldier and sailor dead.

In scores of towns and cities of the Central West, the few remaining heroes who marched away in '61 today led Memorial Day parade, thrilled anew by the piercing notes of the fife and drum.

In most towns the parades moved through the business streets and thence to cemeteries where they halted before the graves of the s who served at Vicksburg and Gettysburg. Patriotic addresses formed the principal part of the ceremonies.

Chicago honored the heroes, past and present, with the biggest Memorial Day parade in its history. More than fifteen thousand men passed up Michigan boulevard through lanes of cheering thousands.

Less than 500 of the number fought in the war when the United States stood a house divided. Many of these veterans tottered along feebly, but they carried their heads proudly and their eyes flashed when martial music brought fresh memories of days long dead.

Other veterans, too feeble to withstand the rigors of a long march, rested in chairs and stretchers on trucks and waved canes and kerchiefs to the crowds that banked the sidewalks.

Ceremonies were held in honor of the dead in the civil war, in honor of the 50,000 Americans who sacrificed their lives in the world war; toasts were drunk to the wounded, to the gold star mothers, to the wives who sent their men away and to the women who served in France.

Flags were placed on the graves of the 365,500 soldiers and sailors in the 83 national cemeteries, according to reports to various patriotic societies here. Most of these men gave their lives in the civil war, and 155,250 of them are unidentified. All these graves bear a marble headstone, with the name and rank of the man where identification has been possible. Headstones over the unidentified bear the inscription: "Unknown."

There are 1,450 graves at Custer battlefield cemetery on the Big Horn river in Montana; there are 80,000 in Arlington Cemetery in Virginia; 15,000 at Jefferson Barracks Cemetery near St. Louis; 3,321 at Mount Olivet, Ill., and other thousands at Gettysburg, and Andersonville Prison cemetery.

Plans are going forward for bringing to this country for burial many of those who fell on European battlefields.

POSTPONE EXAMINATION FOR COTTON CLASSERS

(By Associated Press.)

COLLEGE STATION, May 30.—Examinations for licensed cotton classers originally set for June 2, will not be held until July 18 and 19 at A. & M. college, according to information received by Prof. J. B. Bagley, head of the Textile engineering school. The examinations here will be the only ones held this year, it was said.

Only one woman has signified her intention of taking the examination so far. She is employed as bookkeeper for a large cotton gin in Texas. She has notified Prof. Bagley that she will try to qualify for the work.

ORGANIZED BOMB EXPLOSIONS OCCUR

(By Associated Press.)

WASHINGTON, June 3.—Wide-spread bomb explosions last night is believed by officials here to be another anarchist movement for overthrowing organized government in the United States.

Evidence that the plot was carefully planned was contained in a pamphlet found in the home of Attorney General Palmer, whose home was partially wrecked, giving warning that "the class war is on and cannot cease until the international proletariat victory is complete." The bomb intended to destroy Palmer exploded prematurely and blew to bits the author of the crime. During the night bombs were exploded in New York, Washington, Cleveland, Pittsburgh, two at Philadelphia, two at Paterson and Newtonville, Mass.

Besides Palmer attempts were made on United States Senator Swanson, from Virginia, and Justice Albert Hayden, Boston, Mayor Harry Davis, of Cleveland, Judge William Thompson and immigration inspector Sibray in Pittsburgh, Judges Charles Nott, Jr., New York and Representative Leland Powers of Newtonville.

The police believe they have identified the man blown to pieces last night in an attempt to kill Palmer with a bomb as a Philadelphia anarchist, where they believe the nationwide plot against government officials has been laid.

The bomber stubbed his toes on a concrete coping six feet from Palmer's front door, being himself blown to bits. The police unraveled the man's identity, with but fragments of his scalp, which had dark curly hair, indicating that he was an Italian. Every residence in the entire block was damaged by the explosion.

The latest bomb explosions from the standpoint of loss of life were but little more successful than those of May 1st. Fatalities reported today were confined to the plotter himself at Palmer's home, and New York, where a night watchman was killed by a bomb placed in Judge Nott's home.

Representative Mansfield of Texas, passing near the Palmer home when the bomb exploded was struck by flying fragments of the anarchist, and dyed deep crimson spots in Mansfield's light summer suit.

PARIS HAS LITTLE MONTE-CARLO ALL OF ITS OWN

(By Associated Press.)

PARIS, June 3.—It may not be generally known that Paris has its own little Monte-Carlo a few miles from its gates, with a beautiful casino where roulette and other gambling games may be played, and containing a club (without any intricacies of election) where baccarat and its like may be indulged in. Its name is Enghienles-Bains, the baths and mineral waters of the little town being of medical value sufficient to cover the Casino as a necessity for its visitors.

The dangers of a gambling center at the very gates of Paris led to the Chamber of Deputies to vote in 1913 that no casino should be allowed within 60 miles of the capital. The bill was still before the senate when the war began and Enghien's Casino became a hospital and is to be brought up for discussion again soon.

SUFFRAGE ASSOCIATION APPRECIATES ASSISTANCE

The Nacogdoches Equal Suffrage League desires to express its most sincere appreciation of the generous and efficient assistance that has extended from many sources during the recent campaign to the cause which it represents. First, of course, come the papers of our town and county, without whose help, ever willing and cheerfully given, the results obtained would have been impossible, and in addition the league is indebted to numberless individuals and firms whose names would make too long a list to give in full, but whose assistance was nevertheless just as truly esteemed. To the speakers who went out over the county, to those who lent their cars for such long trips, to the many who contributed to the campaign fund, to the picture shows and the tent show for their help in various ways, including four-minute speeches, advertising slides, and the loan of the theatre for meeting purposes, to those who lent public support to the cause by their letters, to the papers, to the city officials for their help in conducting a well-arranged and orderly street meeting, to the firms who lent their windows for advertising purposes and finally to those who contributed in different ways to the establishing of the Equal Suffrage Headquarters downtown, including first the loan of a well located building, and in addition the loan of a new phonograph with records, tables, chairs, and so forth, and a large water cooler and the donation of ice during the two weeks of the campaign; to all these individuals and firms the League extends its most cordial thanks, and the assurance that all such efforts in its behalf are most sincerely appreciated.

COMMITTEE.

AMERICAN WILL ESCORT 1,500 CZECHO-SLOVAK TROOPS

TOKIO—Correspondence of The Associated Press—Major John Reifsnider, formerly of Frederick, Md., now of Tokio, who is attached to the American Red Cross in Siberia, has arrived here preparatory to escorting 1,500 Czecho-Slovak soldiers from Vladivostok via the Suez Canal to Trieste and thence to Prague. The troops are chiefly those incapacitated by illness.

Major Reifsnider who is assistant to Colonel R. B. Tuesler, of Virginia, the head of the Siberian Red Cross has had some exciting experiences in Russia. He has conducted Red Cross trains to Omsk on two different occasions. Difficulties were created by Cossacks as he conducted his train into the heart of Siberia, he said. Small detachments living in railroad cars in various places would connect their coaches to his train on the plea that they must reach the front. Sometimes the cars numbered nine and ten, train.

On my recent trip to Omsk," said Major Reifsnider to the correspondent, "we had rather a dramatic tableau in the station at Krasnoyarsk. The Cossacks had hitched on eight cars without permission and I had ordered them taken off. The Cossacks refused. The station 'commandant' threw up his hands in despair, exclaiming: 'What can I do? If I interfere on either side, I will be shot for my pains.' Then he went, away whistling. 'The Cossacks began to threaten, and two of their officers 'covered' me

with their revolvers. They said they could lick me and my small guard of American soldiers. Of course, I said they couldn't. Just behind me, one of the soldiers in his turn was 'covering' the Cossack officers and further off other American soldiers and Cossack riders were glaring at one another, their hands on rifles or revolvers. It was all 'bluff,' of course, but I didn't want any awkward incident to happen.

"I telephoned to the commander of the British forces stationed at Krasnoyarsk, explaining the situation. He said I was quite within my rights in going west without the Cossacks. He said he would send a detachment right down to the station. I reported my conversation to the station 'commandant'.

"The 'commandant' was no longer in doubt as to his attitude. He said 'My dear sir, you will leave in fifteen minutes—without the Cossacks. And we did.

EMPEROR WILLIAM SAWED HIS 2,000TH TREE RECENTLY

(By Associated Press) AMERONGEN, June 3.—Former Emperor William sawed his 2,000th tree recently in the presence of the Bentick family and the Burgomaster of Amerongen. The tree has been cut up into blocks inscribed "2000 W. 11" and seven have been presented to his friends in Amerongen.

There were festivities at the castle in honor of the confirmation of Count Bentick's youngest son, Herr Hohenzollern's sawing companion. After the religious ceremony, the boy was summoned to the castle where the one time monarch congratulated him and gave him a gold tie-pin representing a crowned eagle, personally attaching the pin to his companion's tie.

In the village one occasionally hears such questions as: "What is the fellow doing here; formerly he had no use for Amerongen. The sooner he clears out the better for you never know what may happen to us while he is here."

GRADUATING EXERCISES WERE HELD LAST EVENING

The graduating exercises of the Nacogdoches High School graduating class were held in the auditorium of the high school last evening, a large crowd of parents and friends attending the exercises.

Miss Elizabeth Tucker was the valedictorian of the class, and delivered the valedictory, which was an excellent selection well rendered.

The salutatory was delivered by Miss Mary Ansley, who made second honor. Miss Dora Davis rendered a beautiful selection of music, after which came the class address by Rev. J. W. Mills of Beaumont, formerly of this city. The address was a gem of logic and reasoning, and was greatly enjoyed by the class and audience.

Diplomas were delivered to the following graduates: Elizabeth Tucker, Mary Ansley, Ritchie Williams, Valerie Cash, Dora Davis, Ruth Fain Odie V. Ruples, Era Mae Smelley, Aileen Graves, Lizzie Ella Thompson, Lelon Mullins, Fay McCuistian, Irene Moore, and Messrs. Langston Nelson, Cason Mast, Charles Wortham, Gorham Woods, Homer Liles, Wilfred Blount, Everett Seale and Roy Dent.

AMERICAN RED CROSS DISTRIBUTES 8,000,000 FRANCS

(By Associated Press.) BRUSSELS, June 3.—Since the armistice the American Red Cross Commission for Belgium has distributed some 8,000,000 francs for the benefit of various Belgian charitable works; 1,300,000 francs to help Belgian refugees returning home; 1,000,000 francs

for the mutilated soldiers and civilians; 1,250,000 francs for destitute children; 1,200,000 francs for organizations combating tuberculosis; 120,000 francs for military hospitals; 250,000 francs for civilian hospitals, and 50,000 francs for building wooden houses for Termonde which was burned by the Germans in 1914 and where nearly 7,000 people are now living in the ruins of their devastated homes.

PARIS, June 2.—Clemenceau in the opening address spoke three minutes. Austrian Chancellor Renner replied complaining at the delay in presenting the peace terms and declared that the Austrian republic is entirely free from the Hapsburg dynasty. It is asserted it would never have declared war itself.

The entire peace treaty was not presented today.

The Austrian treaty follows the same outline as the German, and in many places is identical excepting for the change of name. Austria is left a state of seven million people, inhabiting a territory of between five and six thousand square miles. The military reparations, financial and cession clauses will be submitted later.
