PREPARING TO SAIL FOR MEXICAN WATERS

New York, May 11.—The super-dreadnaught Oklahoma and three destroyers are taking on supplies in the Hudson river today preparatory to sailing to southern waters as soon as possible. All sailors were ordered to report for duty at 8 o'clock this morning.

L. B. McMillan of Cushing was a business visitor in the city Tuesday.

TEXAN ELECTED HEAD OF SOUTHERN BAPTISTS.

Washington, May 12.—Dr. J. B. Cambrell of Fort Worth was unanimously re-elected president of the Southern Baptist Convention.

GROWTH OF TEXAS TOWNS

Washington, May 12.—The population of Temple is 11,033, an increase of 40 persons, and Sherman 15,031, an increase of 2,619, the census bureau announced last night.

PRESIDENT WANTED OPINION OF SIMS.

Washington, May 12.—A confidential cablegram from President Wilson to Rear Admiral Sims in London, sent during the war, was read to the senate investigating committee today by Secretary Daniels. The cablegram expressed surprise that the British admiralty had failed to "use Great Britain's great naval superiority" effectively against the submarines, and called on Sims for comments and suggestions based on "independent thought" and without regard to "The judgment of anyone on that side of the water." Daniels said that Sims' reply was a "long telegram of generalities of what the British admiralty was doing."

HOUSTON OFFICERS FIND WHISKEY STILL

Houston, Texas, May 12.—Two whiskey stills were located when a repairman was arrested here late last week. Detectives say that, with the arrest, they believe that they have located the source of some of the stills that have been giving them trouble recently.

One of the stills, a large one, police say the man admitted he made for sale. He declared that a smaller one had been left with him for repairs.

It is not unlawful to make stills provided government authorities are notified about it. This was not done in this case.

ON CONFIDENTIAL MISSION

Washington, May 12.—Walker D. Hines, who retires Saturday as director general of the railroad administration, is to leave soon for Europe on a confidential mission for President Wilson.

SUCCESS OF MEXICAN REVOLUTIONISTS COMPLETE.

Washington, May 11.—With practically all Mexico dominated by the revolutionists and Carranza reported a prisoner, interest here has turned from military to expected political developments. De facto agents here profess to believe that steps for the immediate establishment of a provisional government to be succeeded as soon as possible by a constitutional regime, will be taken at once.

CONFLICTING REPORTS

Undated.—While advices from Mexico on the revolutionary situation are fragmentary and conflicting, they cast considerable doubt on the report that President Carranza has been made a prisoner. A Vera Cruz dispatch from the newspaper El Dictamen, which is a member of the Associated Press, bearing Monday's date, declared the fugitive president, who was making an effort to reach Cera Cruz, had broken through the revolutionary lines and was standing at bay with 4,000 men at San Marcos, 27 miles north of Puebla. On the other hand the revolutionary leaders along the border still are claiming that Carranza has been taken, saying that he was captured near Apizaco, Hidalgo. It would appear, however, even presupposing the accuracy of the reports that Carranza is at liberty, that his situation, according to Vera Cruz dispatches, is precarious.

It is announced the government troops at Vera Cruz have deserted their commander, General Aguilar, governor of this state, making the state apparently no longer safe for Carranza.

EMBASSY REPORTS

Washington, May 12.—President Carranza, his cabinet advisors and other adherents left Mexico City last Friday morning by train apparently going in the direction of Vera Cruz, the state department was advised today in messages from the American embassy at Mexico City. Carranza's train was preceded by numerous trains carrying troops and equipment, supplies, records and archives. Artillery and supplies also were held in trains waiting at the railroad station some hours after Carranza left.

The dispatches, dated May 7, 8 and 9 and held up by the interruption of the telegraph lines, quoted official bulletins published in Mexico City newspapers of May 8 announcing that 43 cannon, 10 trains of equipment, supplies, etc., and one train with funds which had accompanied Carranza's train had been captured by the revolutionists.

CARRANZISTAS FIGHT HARD

Vera Cruz, May 12.—President Carranza's army of 4,000 men, virtually surrounded by rebels commanded by Generals Hill and Trevine, is making a determined stand in strong positions between San Marcos Puebla, and the village of Huamantala, ten miles northwest, in the state of Tlaxcala, according to advices received here. The struggle went on all day Tuesday and, according to latest reports, the Carranza forces had not been dislodged.

MEXICAN AFFAIRS

Undated.—The Mexican revolutionists seem to have attained virtually all their objectives with the exception of the capture of President Carranza, who fled from Mexico City last week. Advices from rebel sources say that he was taken prisoner, but apparently the news had not reached Vera Cruz late last night. Vera Cruz reported that near San Marcos, 125 miles away, loyal federalists were fighting the rebels. Rebel reinforcements are said to have been ordered to the scene of battle, and it is probable the issue of the struggle will not be long delayed.

WANT RECOGNITION

Washington, May 11.—The revolutionary government of Mexico will ask for recognition by the United States. The movement was inaugurated by the revolutionary regime which has its headquarters in Sonora, where the revolution was launched.

OIL SITUATION GETTING MORE INTERESTING

The oil situation in Nacogdoches county is getting more and more interesting each day. From all over the county come reports of leasing, investigating and drilling activity, and from indications Nacogdoches county is sure to become the center of great oil developments.

The Carolina Oil Company of this city is constructing a splendid refinery on South Fredonia street between the E. & W. and T. & N. O. railroad crossings. The foundations are being laid now and the brick, sand and gravel hauled to the scene of the location. Within sixty days, it is understood, the company hopes to be able to do some refining, although to a limited extent. However, it is thought that the refinery will be able to run to full capacity by 1921.

The Carolina Company at Oil Springs is doing some wonderful oil development. It is understood that they have about 30 wells completed there, only awaiting the completion of the refinery before producing. The company has four rigs running day and night and, so far, every well they have attempted, they have succeeded in bringing in a producer. All of the wells brought in are at a depth of approximately 450 feet. A well brought in by the company a few days ago, according to A. J. Barnes of this city, a Ranger oil man, that is producing about 135 barrels a day. Ten barrels were allowed to run before it was capped.

Mr. Barnes is operating independently of the Carolina Company, but it is understood that he has several hundred acres leased in the vicinity of Oil Springs. Mr. Barnes says he has been to many oil fields, but he has never anywhere seen as pretty prospects for a good oil field as he sees in this county.

In addition to the ones already mentioned who are interested in the Nacogdoches oil fields, the Phoenix Company of Arizona has 50 acres bought from J. I. Smith of the Oil Springs vicinity with the purpose of putting down, some think, deep tests. The Texas Company also has 14 acres leased, \$25 per acre, from J. O. Burman. This company is under contract to begin drilling within sixty days or forfeit a heavy bond, it is said.

Dr. A. J. Queen of this city, who has been interested in Nacogdoches county development for some time, is putting his hopes in a well which he began drilling this week. The doctor is very enthusiastic over the situation, and he thinks he will strike oil on his location. In the circumstance that he is drilling the well with his own money and time, he has, as probably he would not have otherwise, the confidence of every one who knows of his plans and opinions.

No reports have been heard from Garrison lately, but it is understood that expectations are very high in that section.

The grade of oil that is found in Nacogdoches county is the very best grade for lubricating purposes. The oil has no gasoline, it is claimed, but is rich in other properties which are equally as valuable as gasoline. It is selling at \$5.10 per barrel.

Men interested in the oil game say that prospects are getting more bright with each passing day.

DETECTIVES PRACTICE THE GOLDEN RULE.

Houston, Texas, May 12.—Two Houston detectives arrested a man from Wichita, Kan., the other day, on a charge of vagrancy. The man told the detectives that he wanted to work, but that he could not find a position.

The sleuths exhibited a tender feeling, not usually found in that source, bought the man a good meal, found him a place to sleep and the next day secured him a position paying \$6 a day.

One of the detectives explained that it was the Golden Rule practically applied.

MORRIS COMING HOME

Honolulu, May 11.—According to the Tokio correspondent of the Honolulu Advertiser, it is reported that Roderic Morris, United States ambassador to Japan, intends to resign in order to participate in the presidential election in the United States.

NEFF ENDORSED BY HIS HOME COUNTY.

Waco, Texas, May 11.—At a meeting of the McLennan County Democratic Convention which convened in Waco on May 4th for the purpose of selecting delegates to the State Convention in Dallas, the following resolutions were unanimously adopted.

Be it resolved by the McLennan County Democratic Convention that we heartily endorse the candidacy for Governor of our fellow-citizen the Hon. Pat M. Neff.

We do this because we know he is equipped with education, practical experience and the highest type of personal character.

We do this because no man can rightfully reflect upon any act of his either in public or private life.

We do this because of his manifest courage and straight-forward conduct of every trust committed to him whether as office-holder or private practitioner of law.

We do this because of our faith in him as the exponent of progressive democracy and his 100 percent Americanism shown in his conduct among us.

We do this because we want our fellow-Texans to know that in his election we will have a governor who will class along with the immortal best who ever occupied that position in Texas.

We do this because we know he has temperamental poise, judicial character, sound judgment, reverent and respectful disposition, keen sense of honor and justice in dealing with others, and withal because he is an up-standing nobleman among his fellow-men.

We endorse him without hesitation, commend him to our fellow-Texas democrats without mental reservation and pledge ourselves to do every honorable thing we can to the end that he may be elected.

DISTRESS FROM HIGH WATER

Dallas, Texas, May 11.—The Trinity river is the highest it has been since the big flood of 1908. Hundreds of acres of cultivated land in Dallas county are under water and many families in the lowlands have moved to higher territory. The rains of last night promised to further swell the stream today. Service on the Dallas-Fort Worth interurban has been partially resumed.

MAY DEPORT ALIENS

Washington, May 11.—President Wilson today signed the bill amending the deportation law, making possible the deportation of Germans and other aliens interned during the war as enemy aliens.

BLOODLESS VICTORY.

Eagle Pass, Texas, May 21.—Piedras Negras, the Mexican garrison opposite Eagle Pass, surrendered to the revolutionists at midnight last night. No shots were fired. General Goss, commander of the rebels, telegraphed the Carranza officers demanding the surrender of the town. Generals Fernando Peraldi and Pedro Villaseñor, the federal commanders, complied and crossed into Eagle Pass.

CONCERN IS FELT

El Paso, Texas, May 11.—The activities of Carranza forces in the region about Tampico, controlled by rebels, is causing the United States considerable concern, dispatches from Mexican revolutionists at Washington to agents of the movement here indicate. No details are contained in the messages.

COMMUNICATION RESTORED

Washington, May 11.—Communication between Mexico City and Vera Cruz by land telegraph was restored yesterday. Private messages received from Mexico City via this line and cable said all was quiet in the capital and that perfect order was being maintained by the revolutionists.

DECLARE WAR ENDED

Washington, May 11.—The republican resolution declaring the state of war ended with Germany and Austria was called up in the senate today and Majority Leader Lodge said he would keep it before the senate until a vote was reached.

Campaign managers are getting palpitation of the mouth.

A man hates to give up his old hat for a new one, but a woman doesn't.

The best way to argue with a woman is not to.

It doesn't take inside information long to get outside.

If the radicals take all we have, where does the equality come in?

It is pretty hard for a man who has a racing automobile not to make a fool of himself.

Meat eaters are the greatest hustlers—they have to be to get the meat.

Job gets a lot of credit for patience in view of the fact that he never was told that the line was busy.

No one is going to drag your name down into the mire unless you voluntarily get close to the mudhole.

For the home we need only justice to make it possible, peace to make it whole, kindness to make it inviting, companionship to make it blest, love to make it holy and the laughter of a little child to make it divine.

The old saying that all men are born equal is pretty good to repeat while making a speech, but a lot of people down in the audience know it isn't true. Pigs aren't born equal. Some pigs are runts at birth, while other pigs are healthy and alert from the beginning. The same is true of men. And there isn't much difference between some pigs and some men.

The "irrepressible conflict" ended in the civil war, and now we have a Twentieth century repetition of the same schism that is splitting the Democratic party into two factions. Vice President Marshall has enunciated one platform and William J. Bryan another, and they are as wide apart as the poles. San Francisco will stage an epoch-making political fight, and there are indications that the Chicago convention will be considerably more lively than a Wednesday evening prayer meeting.

ENCOURAGING NEW INDUSTRY.

An "herb" has been discovered in Vancouver, B. C., which, when immersed in water, smells and tastes like whiskey, and is said to possess even a greater "kicking" sensation. A special analysis is to be made of it. There may be such a plant growing in this section of the country, but no one has ever discovered its capabilities. Why not experiment with all the odd varieties of herbs we have? We have plenty of water for making the test.—Lufkin News.

JUNE C. HARRIS WITHDRAWS

It has become apparent that it will be utterly impossible for me to give any time whatever to my campaign for several weeks to come. My time is entirely occupied and will be for several weeks with urgent and important matters entrusted to me, which I cannot neglect or disregard, I am daily receiving invitations from friends to visit their section. These and other reasons seem to call upon me to either become active or withdraw, so I have concluded not to make the race for Associate Justice of the Court of Civil Appeals.

To my friends throughout the district I say that this conclusion has been reached by me in the face of the most flattering promises of success. Everything indicates that I will carry at least ten or twelve of the sixteen counties in the district, including the large ones.

I confess that I welcome the condition which calls me out of the race and assures a continuance of service in my profession among my people as an independent, private citizen.

I am deeply grateful to my friends for their assurance of their support and active interest in my campaign. If my enemies have found pleasure in the prospect of an opportunity to do me harm I regret the disappointment I am causing them.

Sincerely,
June C. Harris,
Nacogdoches, Texas, May 8, 1920.

The Douglass school staged an entertainment at the Cushing high school Monday for the benefit of the Cushing people. It is reported that a splendid program was rendered, and that a large crowd was present enjoying the entertainment. A great mass of people from Sacul, Nat, Libert and other adjacent communities attended the exercises.

EVENTS IN MEXICO

Renos Garrison Revolts.
McAllen, Texas, May 10.—The Carranza garrison at Renos, opposite Hidalgo, has revolted. The town is orderly.

Carranza's Escort Dispersed
El Paso, Texas, May 10.—Mexican revolutionists overtook and dispersed the troops escorting President Carranza in his flight from Mexico City, "causing them serious losses," according to a message from General Obregon to Governor Huerta, supreme commander of the Liberal Constitutional army.

Monterey Evacuated.
Brownsville, Texas, May 10.—The evacuation of Monterey, the capital of Nueva Leon, by Carranza forces is unofficially reported.

Tampico In Rebel Hands
Houston, Texas, May 10.—Tampico capitulated to the revolutionist forces of General Obregon yesterday, according to a radio message filed on the United States gunboat Sacramento by an official of the Mexican Gulf Oil Company to the Gulf Refining Company at Houston.

It is said that the troops entered the customs house at 4:30 o'clock after the military commander had escaped on the government steamer Jalisco with the files and records. The message said "The city is entirely quiet this morning and is well policed by the municipal and military authorities. Citizens of other nationalities were unmolested. All operations in the oil field and at Tampico continued without trouble."

To Protect Americans.
Washington, May 10.—With Mexico City, Vera Cruz and Tampico controlled by revolutionists, American destroyers are today en route to Mexican waters to protect Americans.

Estimates of the state department placed the number of Americans in Mexico at between six and seven thousand, including radicals and draft evaders. The department was without additional advices today from the American embassy or agents in Mexico.

Will Transport Marines
Washington, May 10.—The dreadnaught Oklahoma has been ordered from New York to Key West for possible duty in Mexican waters. She will stop en route at Philadelphia to get a company of marines.

TRINITY ON RAMPAGE
Dallas, Texas, May 10.—The Trinity river is above the flood stage in the lowlands and bottoms and was still rising at Dallas this morning. Service on the Fort Worth-Dallas interurban has been suspended temporarily. Rains in the upper regions are expected to further swell the river.

HOW IT WILL WORK.

Austin, Texas, May 10.—If the legislature adopts the plan now being put into the form of a bill at the extra session beginning May 20th, it is expected the farmers included in the non-cotton zones will be reimbursed only for the difference between the price received for substitute crops and the price they would have received for cotton crops.
Secretary of Agriculture Meredith will address the legislature May 27 on the pink boll worm situation, according to a message from him to the governor.

SINGING AT TRINITY

There will be a neighborhood singing at Trinity church on Sunday, May 23. All singers of the county are cordially invited to attend and take part.

FORBIDDEN TO WORK SUNDAY

Ban Placed on Various Tradesmen and Laborers by Old British Laws, Seldom Obeyed.

Now and again we read of a tradesman who, to help his own pocket and oblige certain customers, opens his place of business on Sunday and trades. Some tradesmen have been summoned and fined scores of times, according to London Answers.

The Lord's day observances act forbids—note the selection—any tradesman, workman, artificer or laborer to work on Sunday, except for works of charity or necessity. Further, the above four classes are not to use any boat, or barge, or sell goods, cooked food excepted, under a penalty of 5 shillings.

If a horse dealer sells a horse on Sunday he cannot, in law, sue for its price; but if neither party to the equine transaction is a horse dealer, then the contract is perfectly good!

And if any ordinary trader sells goods on a Sunday in the ordinary way of his business he cannot only be summoned, but if he has given credit he cannot sue the purchaser! If, however, the purchaser keeps the Sunday-bought goods, and afterward—on a week day—promises to pay for them, then he can, on default, be sued.

But—a wonderful act—farmers, attorneys, surgeons, cab drivers, coach proprietors and Jews are exempt.

Why the act, which we see broken in hundreds of places each Sunday, is not often invoked, is because proceedings cannot be taken without the written consent of the chief constable of the district, two J. P.'s, or a stipendiary magistrate.

Many decline to move in the matter. Otherwise, tradesmen, workmen, artificers and laborers would have a hot time. Professional men would be exempt.

NOISE HARSH AND CONSTANT

Impossible for Any One to Escape From the Din That Marks Modern City Life.

They say that a canary bird intended by nature to live in the quiet woods suffers constant torture while in captivity from the harsh noises all around it.

But before the Anticruelty society starts in to turn loose all canaries for that reason it might take up the case of its own ears, writes "Glard" in the Philadelphia Press.

The motor boat on the stream and the airplane in the sky, the auto horn's piercing scream and the choo-choo rushing by, are only a few of the ear-drum swatters which put us all in a class with the bird in the gilded cage. And especially that auto horn.

There seems to be keen rivalry among dealers to market the horn that can split the most ears, as you can see by a few ads which I quote:

- "Loudest signal of its kind."
- "Has the quick, snappy shriek."
- "Clears the way half a mile ahead."
- "It makes the pedestrian jump."
- "Jolts the air with a threat of danger."
- "Has a piercing get-out-of-the-way sound."

The Flag of the Mayflower.

The proposed celebration in Manchester of the tercentenary of the sailing of the Mayflower may render it of interest to direct attention to a curious anachronism. In the magnificent fresco in the palace of Westminster, in which the departure of the Pilgrim Fathers is depicted, the Mayflower is flying a Union Jack. The Union Jack, as every one knows, did not come into existence till the passing of the first Act of Union in 1800—one hundred and eighty years after the departure of the Pilgrim fathers. One of the formalities connected with the Irish Union was a new standard combining the three orders of St. George, St. Andrew and St. Patrick, which was hoisted in the capitals of England, Scotland and Ireland.—Manchester Guardian.

Much Sugar in This Maple.

The hard or sugar maple is by far the most important of all the maples. The lumber is valuable for many purposes, but the unique thing about the tree is the abundance of sweet sap which it furnishes, says the American Forestry Magazine of Washington. While all the maples have sweet sap none of the others are so important as sugar producers. This was appreciated in early times and a century and a quarter ago when the real estate men of the time were attempting to lure New England men to Pennsylvania lands "out west" they put on their map in big letters, "The Sugar Tree Grows Here."

Memorial in Jerusalem.

In grateful remembrance of Scotland's sons who gave their lives for the liberation of the Holy land from the Turk, a memorial in Jerusalem is planned. It will be erected jointly by the Church of Scotland and the United Free Church of Scotland and will take the form of an Institute for Biblical Research and a Presbyterian church. It will be called the Scots' Kirk and College in Jerusalem.

Can You Build a Bird House?

The most talented singer in the world, not even excepting the nightingale, says the American Forestry Magazine of Washington, is the hermit thrush. A bird house building contest is arousing great interest among school children and the magazine is giving blue ribbons to the prize winners in schools throughout the country.

SPLENDID CHURCH RECORD

Last Sunday was a great day for the members and friends of the Main Street Presbyterian church. It was the annual congregation meeting, at which reports from the pastor and all departments were made. It was also "Mother's Day," which was duly observed by young and old and with special music and sermon for the occasion. The pastor's report showed that Rev. M. C. Johnson, D. D., had preached 60 sermons at home, 75 sermons in revivals elsewhere, and delivered 15 special sermons and addresses during the year for high schools, colleges and one university. He also performed 14 marriage ceremonies, conducted 11 funerals, had 80 additions under his preaching, and baptized 42 adults and christened 8 children.

Prof. F. A. Beall, treasurer, reported that the church had broken the record this year in its contributions to the kingdom of Christ, having paid the pastor \$2,500 in full, met all current local expenses and paid to benevolences, such as missions, education and orphans, the sum of \$5,231, or a total for the church of \$7,939. Thus the church gives more to sending the gospel to others than it spends at home, or has given to God at the rate of about \$78 for each active member.

Brother Johnson leaves the last of this week for Philadelphia, where he goes to attend the 132nd meeting of the general assembly of the Presbyterian church. He is the delegate from the Presbytery of Jefferson and also a member of the missionary council of the church, the advisory body to which all the policies and reports of the board of missions are referred, which work involves christian service in many lands. Brother Johnson enjoys the distinction of being one of two men only who have ever been on this great body from Texas.

THE TOGGERY, MEN'S CLOTHING STORE SOLD TO NACOGDOCHES MAN.

Under the above headline the Dallas Times Herald of Sunday morning contained the following news item, which all Nacogdoches will read with interest:

The Toggery, men's furnishing store at 1104 Elm street, has been purchased from E. Turper by T. J. Kinsey of Nacogdoches, Mr. Kinsey

WE always assume that you are as anxious to save time as to save money. We don't cut corners and slight your job to make way for the next, but we do save many a minute by cutting out false motions, by having things handy and ready and knowing our job from top to bottom.

announced Saturday. The name "Toggery" will be abandoned and the store operated in the future under Mr. Kinsey's name. The entire stock of men's furnishings and clothing, together with the store fixtures and the lease, were transferred to Mr. Kinsey for a consideration of \$36,000. Mr. Kinsey took over the lease on the two-story building with Mrs. Henry Exall for three years through H. F. Sternburg of the R. H. Gamble company. Mr. Kinsey stated that he intends to handle only high class clothing of every kind for men except shoes. He also operates a similar store in Nacogdoches. Mr. Kinsey will move his family to Dallas during the next ten days, leaving his store in Nacogdoches in charge of Ross Hoover. Mrs. J. F. Waggoner of Appleby was shopping in the city Thursday.

JAMES F. BALLARD, Prop. St. Louis, Mo.

THE VALUE OF AN EDUCATION.

"You Must Be Educated to Compete With The Business Man of Tomorrow," said President James Hill of the Chicago Great Northern Railroad.

The value of an education cannot be computed on the basis of dollars and cents. Its full value is never known completely until that man has passed the prime of life, and can look backward and note his achievements in life.

The older business men of today for the most part are self-made men—men who worked themselves from the bottom of the ladder to the top rung—having a clear insight of human nature, that intangible asset that is so important to success, and exerting a great force of will power to overcome obstacles that stood in their way, found the chief obstacle in not having an education.

The business man of tomorrow must have an education to be successful, for the reason that his competitor is an educated man. How many young men will be forced out of school for the reason that they must provide themselves and others with the necessities of life, carrying a handicap. Now, that is the one of them that the army wants, one who needs assistance, to give him a fair start with the other fellow, by offering him an education, both academic and vocational and being placed on the same status as the high school graduate. It will make a better man of him, both mentally, spiritually and physically. Young man, your Uncle Sam wants you to be a graduate of that great institution, "The University of the United States Army." For further information call at the local recruiting office, where everything will be carefully explained.

LEVER ACT UPHELD.

Doctors' Favorite Medicine Now Purified and Refined from All Objectionable Effects. "Calotabs"—The New Name.

What will human ingenuity do next? Smokeless powder, wireless telegraphy, horseless carriages, colorless iodine, tasteless quinine—now comes nameless Calotabs. The new improvement called "Calotabs" is now on sale at drugstores.

For biliousness, constipation and indigestion the new calomel tablet is a practically perfect remedy, as evidenced by the fact that the manufacturers have authorized all druggists to refund the price if the customer is not "perfectly delighted" with Calotabs. One tablet at bedtime with a swallow of water—that's all. No taste, no nausea, no griping, no salts. By morning your liver is thoroughly cleansed and you are feeling fine, with a hearty appetite. Eat what you please—no danger about your business.

Calotabs are not sold in bulk. Get an original package, sealed. Price, thirty-five cents.—(adv.)

SLOW TO ACCEPT BUDDHISM

People of Japan Loath to Embrace Faith Introduced into the Country by Korea.

Buddhism was introduced into Japan by Korea in the year 552. It was first embraced by the higher classes, particularly in scholarly circles, but the lower classes still cling to their old faith of Shintoism. The doctrines of Buddhism were written in the Chinese language and the believers offered their prayers in that tongue.

At one time Buddhism made such strides as to become the state religion in Japan, but the people still opposed it with a determination of upholding their own Shintoism, until the statesmen and priests invented an ingenious way of explaining and interpreting the religious principles of Buddhism. They adopted the theory of monotheism as well as polytheism by saying that there is only one supreme power which is personified in the form of various gods and goddesses, according to the different countries and different institutions.

The principles of Buddhism and Shintoism were thus reconciled and, in order to convince the popular mind of this theory, Emperor Shomu patronized a movement to erect a large bronze statue of Daibutsu or Buddha at Nara, the statue being completed in the year 752 after 14 years of casting and construction.

LIKE SWORD OF DAMOCLES

How Many Others Have Unwittingly Sat in Peril of Which They Were Ignorant?

It may have chanced that some of us have unwittingly sat under a sword of Damocles and "through good luck" rather than good management have escaped its fall. Damocles himself was happily ignorant of his danger for a brief time.

The story, with its perfectly obvious moral, is that in the reign of Dionysius the Elder as the ruler of Syracuse in Greece, years before the Christian era, one Damocles, a member of the court, wishing to establish himself securely with the monarch, flattered him up to the hilt. Being a good deal of a man and believing that "flattery, like cologne water, is to be smelled of, not swallowed," Dionysius decided to teach the courtier a lesson.

He invited him to a wonderful banquet, which Damocles enjoyed greatly until he perceived above his head a sword which was held by one single hair. How soon he was able to leave his perilous station is unrecorded, but his feelings during the rest of the feast may be imagined and need not be described.

Matrimonial Oddities.

In bygone days in India women were sometimes allowed to choose their own husband. One of their old fairy tales tells of a fair princess, who, after a tournament, placed a garland around the neck of a knight who had won her heart.

Among the Eskimos of the east coast of Greenland a man captures the girl he wants, but from that time on the usual order of things is reversed. He has to exercise the greatest vigilance to prevent her from eloping with any other man whom she may prefer, as this seems to be her privilege. In the northern New Hebrides a bride who is unhappy seeks the earliest opportunity of running away from her husband and seeking a home with some man she likes better. If her parents cannot induce her to return to the injured husband they usually send him a pig to soothe his wounded feelings.—National Geographic Society Bulletin.

Still Make Use of Blowgun.

The blowgun is still popular for hunting birds among the Kosaht Indians in Louisiana. This weapon consists of a tube, usually of cane, about six feet long, rubbed smooth on the inside with an implement made for the purpose and carefully straightened with the aid of fire. Slender, pointed darts about eight inches long are used as ammunition, each one wrapped neatly along a third of its length with thistledown or cotton to make it fit the inside of the tube. The hunter places a dart in the tube, which he raises to his lips and with which he takes careful aim at his game; then with a quick puff of breath he drives the little dart flying with a sufficient force to impale and kill a small bird or squirrel.

America Land of Tobacco.

America is still the greatest producer of tobacco and also the greatest consumer of it, the greatest exporter and the greatest importer, too. She keeps her association with it which began with the discovery of the new world. It was the riches of tobacco as well as gold and fountains of youth that drew hither the adventurers who penetrated the new continents. Later tobacco was so precious a thing among the first English colonists that they plowed up the streets of Jamestown to plant it.

Hi—W-a-l, the one I got thrust on me is sufferin' horribly from ague, an balks quite a lot 'count uv missin' or each and every cylinder off an' on but I heered this hornin' that Si is huntin' for the justice uv the peace in order to swear out a warrant for some body.

LEADS IN MINERAL WEALTH

United States Easily First in Metals of Greatest Importance to the World's Industries.

This country of ours possesses more mineral wealth than any other nation, though Great Britain (including what she controls) is a close second.

We lead the world with 37 per cent of all the iron and 35 per cent of all the coal. These, of course, are most important. We own or control 72 per cent of all the petroleum.

Copper is the great American metal. We produce 69 per cent of the entire world's yield of that invaluable substance. Of lead we produce 49 per cent and of zinc 32 per cent.

England is away ahead of us where gold is concerned. We produce only 21 per cent of this precious stuff, whereas Great Britain's output amounts to 63 per cent.

On the other hand, we claim 52 per cent of the silver—the Mexican output being under our commercial control—and it is actually in the power of our government to make the market price of the white metal whatever Uncle Sam chooses.

Of the world's sulphur we produce 65 per cent. But we have no tin worth mentioning (a serious misfortune) and little potash. Now, however, the potash supply is no longer controlled by Germany, territory recently relinquished to France containing a large part of the deposits of that mineral salt.—Philadelphia Ledger.

ADOBE AS BUILDING MATERIAL

Experiments Have Shown, It is Claimed, Durability of This Old and Inexpensive Material.

Adobe, the oldest known building material in southern California, is due for a revival, according to John W. Chard, Santa Barbara architect. He asserts that if properly prepared this native material can be used to very considerably cut the cost of building.

"Experiments," says Mr. Chard, "have shown that adobe is the least affected by changes of temperature among all the building materials. Tests show that adobe bricks register no more than six degrees difference between February cold and extreme September heat. As a building material it is far stronger than is generally supposed, and develops a compressive strength as high as 400 pounds to the square inch.

"The proper plaster protection will insure an adobe wall against deterioration. Hard cement plaster thoroughly anchored into the walls and treated with an all-mineral water-proofing compound will give adobe walls great durability.

"Adobe is wet soil mixed with straw, cast into molds of required size and left to dry in the sun. As a building material adobe is everlasting, soundproof, nonconductive and fireproof, always of normal temperature, and is cool in summer and warm in winter."—Los Angeles Times.

Time's Changes in Bisbee.

Bisbee, Ariz., where is now heard the honk of the modern automobile, the tick of wrist watches and the wall of silk hose of all colors extending over the tops of \$15 shoes, was entirely different 10 years ago, reminisces a writer in the Review of Bisbee. Then the hard-working miner had to struggle for hours to get a seat at a poker table or a "look in" at a faro game.

Main street was once one of the liveliest thoroughfares in the western hemisphere, saloons, gilded and otherwise, having been the honored business enterprises which lined both sides of the street. If anybody had predicted that a street railway would at some future time run through the center of Main street, or that it would some day become as dry and arid as the Sahara and Gobi deserts, he would immediately have been taken before a lunacy commission.

Too Much Ceremony.

The battalion was resting beside the road toward the end of its 16-mile hike. After the weary marchers had eased their packs and stipped from their nearly empty canteens, they watched dispiritedly the energetic setting-up exercises being gone through by a strange outfit in a nearby field.

"What's that there gang?" inquired Private Hanks of Oklahoma without enthusiasm.

"Infantry candidates' school," replied the corporal.

"Candidates! Infantry candidates!" exploded Hanks. "My good gosh! Do you have to make application and be initiated to get into this mess nowadays?"—The Home Sector.

Sculptors in the Doldrums.

According to American Art News, the sculptors complain that there is little work at present in their line of endeavor, and even the leading men are "waiting." The commemorative war statues and patriotic groups that were to decorate cities, towns and cemeteries have not thus far materialized. The unsettled conditions of the country, they contend, which are holding up building, are accountable for the present "doldrums."

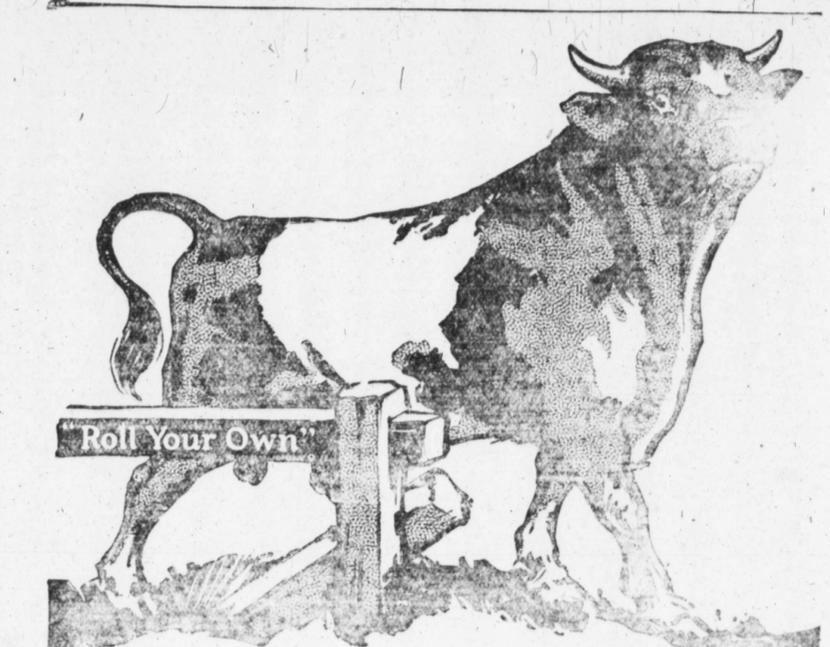

No Wonder He's Crazy.

"This poor fellow is in a terrible condition," said the visitor.

"Yes," replied the asylum attendant. "He's the most violent patient we have in this ward."

"What caused him to lose his mind?"

"He tried to figure out some way to harness the energy that was going to waste in tango parlors."—Birmingham Age-Herald.

A. & M. COMMENCEMENT

College Station, Texas, May 10.—The forty-fourth annual commencement exercises of the Agricultural and Mechanical College of Texas will be held this month beginning May 22 and continuing through May 25. The commencement exercises this year will serve in the nature of a homecoming for graduates and former students of the college and hundreds of these "old-timers" are expected to return to see their younger brothers of the class of 1920 graduate.

The classes of 1880, 1890, 1900 and 1910 will hold reunions. In addition hundreds of the younger graduates of the college who were in France at the last commencement will be back to witness the exercises.

The program for the three days' celebration will consist of a large number of military exercises and drills. Dr. H. A. Boaz, president of the Southern Methodist University will preach the baccalaureate sermon on Sunday morning. Col. George M. Bailey, editor of the Houston Post, will speak to the undergraduates on Sunday night. The commencement address Tuesday morning, May 25th, will be delivered by Edwin Markham, banker-poet of New York City, who wrote the poem, "The Man With The Hoe." L. J. Hart of San Antonio, president of the board of directors will present the diplomas to the grad uating class.

Ample provisions for taking care of visitors are being made by the commandant of the college, one of the larger dormitories being set aside for that purpose.

SON OF GOVERNOR NOW NIGHT WATCHMAN.

Austin, Texas, May 11.—Among the night watchmen employed at the University of Texas, is Oran M. Roberts, son of the late Governor Oran

M. Roberts, one of the founders of that institution.

In his youth Mr. Roberts was a student in the law department for seven months. He is now 59 years old. He served as state pardon clerk for two years during the administration of his father, but for the last thirty-five years he has lived on his farm eight miles north of Austin, where he conducted a dairy. Mr. Roberts said that not one of his eight children ever went to college.

"I would have liked to have them attend the university, but they didn't want to, and there is no use trying to make children obtain an education if they don't want it," he said. "I am glad to be with the university again, I like the student and am in-

Calomel loses you a day! You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into sour bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

Take "Dodson's Liver Tone" Instead!

When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel, just remember that your druggist sells for a few cents a large bottle of Dodson's Liver Tone, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and can not sllivate. Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tone straightens you right up and you feel great. Give it to the children because it is perfectly harmless and doesn't price.

BY GILES M. HALTOM

WHO IS HE?

(By Joe J. Gibbs.)

Houston, Texas, May 12.—An unsigned letter, bearing a San Francisco postmark, and written on paper from the Redland Hotel, Nacogdoches, was received from an unknown writer by Sheriff T. A. Binford of Harris county Tuesday, the writer claiming to be Houston's mystery murderer.

The letter purports to explain the mystery of a charred body found last week on the Red Bluff Road, which has been puzzling officers here. It was printed with a blue pencil. Sheriff Binford believes it was written by practical jokers. The letter is in possession of authorities.

The author says that he "might come back some day and tell you why I hit Fred and how it happened." He defies the authorities to find out in the meantime.

The letter follows:

"Sheriff:
"You have looked into all clues but the right one in your investigation of the murder you ran across on the Red Bluff Road last week, I guess you would give a lot to know me, but when you get this I will be long gone."

"I have never killed a man before, but Fred did me dirty.

"The guys what said they saw me put Fred's body out there lied. I went out there in a car I rented on the night of April 24 and threw him out and took all the stuff out of his pockets but a sardine can opener (burglar's term for a key used by them) and a little bag full of Indian hemp, and a couple of letters.

"That night after I went back to town I got to thinking about them letters and I went back next day in a Ford. I got on a street out where the old reservation was and I went to the big dump pile and got a lot of papers and some straw.

"When I got where his body was me and (here the writer appears to have written the name Ethel and scratched it out) her took the stuff out of the car and put it on him.

"After I took the letters I had to cut a hole in the gastank to get some gas to make the fire burn. We went on away when I saw an airplane coming.

"There ain't no use trying to find me as I am leaving tonight.

"I went past where Fred was the Saturday after I put him there. The fire must have gone out, as he was not burned much.

"They say murder will out, but when it done good there ain't no chance.

"Don't put much in the pieces of suit you got. That wasn't his at all.

"To play fair I told you something.

"Now we start the game of hide and seek.

"I might come back some day and tell you why I hit Fred and where it happened.

"Try to find out."

JURY LENIENT WITH HARRISBURG MAGISTRATE

Houston, Texas, May 12.—Justice C. W. Patch of Harrisburg, near this city, was acquitted by a jury on a charge of extortion, in the matter of fining automobile drivers in his precinct. He faces a remaining charge of failure to give aid to a victim of a collision, in which he is reported to have struck a man with his car.

OUT OF RACE FOR COUNTY SUPERINTENDENT

To the Voters of Nacogdoches County:
Having accepted a position with The Mahdeen Company of Nacogdoches the first of this month, I hereby withdraw from the race for County Superintendent.

I desire to express my sincere appreciation to my friends in all sections of the county for the warm assurance of support that they have given me.

Sincerely yours,

TROUBLE IN THE EAST

Washington, May 11.—A resolution requesting President Wilson to send an American warship and marines to Baku, on the Black Sea, to protect American lives and property there and along the railroad to Baku, was reported unanimously by the senate foreign relations committee today.

J. W. Kennedy of Kennedy's Drug store did not return from Dallas Tuesday as was expected. He is there on business.

WHY DRUGGISTS DIE YOUNG

Customers Like This Very Particular Lady Must Be Great Strain on the Nerves.

The drug store was filled with worried looks—prescription faces. All were eager for quick action and the druggist was doing his best to meet all the demands. A woman, the only one without a prescription in her hand, shifted back and forth until she got directly in the path of the druggist.

"Wait on me, please," she said snappily. "I'm in a hurry."

"What did you wish?"

"Some birdseed—canary bird. And I want the real stuff, none of this camouflaged birdseed—sand, cornmeal, sawdust and a lot of other stuff."

"But, lady, we—"

"Oh, you can't fool me. I've been reading up on this birdseed graft. I read in a magazine where they were jamming all sorts of junk into this stuff we're feeding our poor little canaries. Think of cheating a poor little canary."

"But, lady, you don't understand—"

"Oh, yes, I do understand. I want birdseed that has a glaze on it—the kind that shows it is fresh by its bright color. I don't want this gritty stuff. I know what I'm talking about. I've been reading up and—"

"How much did you want, lady?"

"Oh, about a nickel's worth."

And the poor, unhappy prescriptioners fell in a faint.—Indianapolis News.

DAYS OF CHIVALRY ARE GONE

This Hustling Age Seems to Have Little Time for the Merest Elementary Courtesy.

It was the hottest and most uncomfortable day of the summer and the car was even more crowded than usual, says the Indianapolis News. Two young women who had done their full share of work for eight long hours, managed to squeeze into the car with the rest of the passengers. Of course all the seats were taken. Even a suggestion that some one offer the girls a seat was far from their minds. They stood in the aisle, as good-naturedly as they had done nearly every day in months past. One can imagine their surprise when an elderly man rose to proffer one of the girls a seat.

"Take my seat, lady," he said, "you look lots more tired than I."

Gratefully, one of the girls started for the seat. A tall broad-shouldered man was just ahead of her.

"Now, yuh don't," he snarled, "I guess I'm nearer the seat than you are," and he started to sit down.

"Well, I guess if you are going to take the seat I may as well keep it until I am ready to get off," the first man said, and with that he sat down again.

Two blocks later he got off the car, the tall broad-shouldered man rushed to the seat, and the young women held on to the straps.

More Than Her Mouth.

Although the groundhogs at the "Zoo" did their best to keep the spring day away from that fine park and playground for the people, time will bring spring within a few weeks now, at the worst. Time has a way of making things move.

Although crowds at the National Zoological park have fallen off materially during these cold winter Sundays, nevertheless many visit the park every Sunday. Much attention is given the animals kept indoors, naturally.

Thus the mother hippopotamus has her admirers. Recently two small boys, that good sort that shy rocks at cats and sparrows, were standing in front of the hippopotamus cage, watching Mrs. Hippo eat hay.

"Look at 'er open 'er mouth!" said one boy, lost in admiration.

"Mouth nothin'!" exclaimed the other. "That ain't 'er mouth—it's 'er whole head she's openin'!"—Washington Star.

Tomb Was Tramp's Home.

A tramp who had solved the present day problem of where to live by taking up his abode in one of the old Roman tombs at Arles, on the Rhone, gave two Dutch tourists the fright of their lives.

They had gone out to see the remains by moonlight, when suddenly out of a tomb emerged a human form, which the moon caused to appear exceedingly ghastly. The tourists fled at top speed for the town, declaring that they had seen a resurrection. The "ghost" was interrogated by the police and will be prosecuted for the French equivalent of wandering without visible means of subsistence.—From the Continental Edition of the London Daily Mail.

Captain Couldn't Answer.

Master Charles Wymond Potter accompanied his grandfather, Capt. Charles A. Wymond, to the river at Evansville the other day to see that the elevator, boats, barges and coal were all right.

"Grandfather," remarked Charles, "why do they call dirt mud when it's wet, and dust when it is dry?"

No reply from grandfather, who is still thinking about the answer.—Indianapolis News.

Thoroughly Selfish.

"Do you know what I'd like?" said the first road hog.

"No, what would you like?" said the second porcine person.

"I'd like to have a motorcar so big there wouldn't be room on the broadest boulevard for anything to pass me but a breeze."—Birmingham Age-Herald.

COULD NOT STOOP TO TIE HIS SHOES.

Gets Rid of Rheumatism and Gains Twenty-four Pounds by Taking Tanlac.

"Tanlac not only added twenty-four pounds to my weight but put me in as good health as I ever was in my life," said Augustus Heihs, a well-known farmer of Morton, Ill.

"For four years I was troubled with rheumatism and indigestion," he continued, "and many a day I gave clear out while working in the field and had to lie down until I got strong enough to get back to the house. My rheumatism was so bad that it nearly killed me to stoop over. My joints, too, were so stiff and sore that I could not bend over to tie my shoes. My appetite was very poor and when I did eat anything I was in misery for hours afterward. I was hardly ever able to get a good night's rest for my kidneys were so badly out of order, and last spring my condition got so bad that I wasn't able to work and for several weeks I could hardly get out of the house."

"The man that I hired to take my place recommended Tanlac so highly that I began taking it, and to make a long story short, I haven't a pain in my body now and can do as hard a day's work as any man, I eat three square meals a day, and digest them perfectly and sleep like a top every night. In fact, I couldn't ask to be in better health, and all the credit is due to Tanlac."

Tanlac is sold in Nacogdoches by Swift Bros. & Smith and Stripling, Haselwood & Co., and in Garrison by the Dale Drug Co.

LOSS THROUGH CARELESSNESS

Dallas, Texas, May 11.—Raising the grade of Texas cotton through more careful ginning, handling and picking is the purpose of a campaign which has been inaugurated by James Z. George, vice president and general manager of the Texas Chamber of Commerce, with the co-operation of the Farmers' Union, the Texas Cotton Association, the A. & M. College extension service, the ginners and gin manufacturers, and the State Council of Agriculture.

The grade of Texas cotton is lowered from half point to two points through careless methods, according to W. W. Mangum of the A. & M. College, J. H. McDonough of the Murray Gin Company, Theo. Marcus of the Texas Cotton Association, and others who spoke at a recent gathering at Dallas, costing the farmers of this state millions of dollars annually.

CHRISTIAN CHURCH CONVENTION OPENS.

Galveston, Texas, May 12.—The annual state convention of the Christian churches of Texas opened in Galveston Monday with a large attendance from the various churches of this denomination of the state.

Preparations have been made for a large attendance and a successful convention. Tuesday will be Houston day, at which time Rev. E. A. Ewell of that city will address the convention on "Church Advertising."

SECOND-CLASS MAIL RATES

Washington, May 12.—The existing second-class mail rates would be continued until July 1, 1921, under a bill ordered favorably reported today by the house postoffice committee. The measure would postpone for one year each of the two authorized increases in rates scheduled to become effective July 1 and one year later.

YOUNG MEN AND YOUNG WOMEN ARE IN DEMAND IN BUSINESS.

A country wide investigation of employment conditions to get information as to the type of help in greatest demand shows following results: 1338 of 2445 advertisements for help specified a business training and 524 of the remaining 1107 advertisements were for positions that office assistants grow into. No other profession can claim one-fifth as great a demand. In fact, this proves that there is a greater demand for business training than for all other trades or professions; the average income of a lawyer is \$1,500, of a doctor others in proportion, while the average income of a business man is \$3,000 a year.

The volume of business will wonderfully increase during the next four years. Building was practically at a standstill everywhere during the war years, and there is much lost time to gain. New world markets opened up to the United States since the war have caused still further expansion in American business. These facts mean big business and a constant demand for trained office help. Judge Gray, Chairman of the Board of Steel Corporation, said "Our prospects are bright, our opportunity for success greater than ever before. I predict that the next five years will be the most prosperous, progressive and successful in our history."

You are not going to pass up a Business Training and its wonderful opportunities to become a day laborer, house maid, department store clerk, telephone operator, factory hand or live on the back end of some one else's farm. You can't afford it when you can spend a few months time with us and make sure your success.

Make up your mind to enter now. Fill in and mail to Tyler Commercial College, Tyler, Texas, for large free catalogue.

FOR COMMISSIONER

The Sentinel today presents the name of D. C. Mast as a candidate for county commissioner of Nacogdoches county. Mr. Mast enters the race at this late day in response to earnest solicitation of many friends who believe that he would serve the people satisfactorily. He has held the office before and his record is a most enviable one. There has been no act in his official or private life to which exception could be taken, and his long residence in the county has brought him in touch with the needs of the people. In this instance it is a clear case of the office seeking the man. He was reluctant to offer for the place, but since he is in the race, naturally he wishes to win. He asks the favorable consideration of the voters.

WHY WE SHOULD

BUY AT HOME.

We have been reading for years
about the "Buy It Made in America"
and "Buy It Made in Texas" cam-
paigns, and we believe they are good.

The reason we should buy in Ameri-
ca, is to foster home enterprises and
to help our country take care of it-
self in competition against the out-
side world. If we had had no such
sentiment as moves in the past,
America today would be dependent on
Europe for her manufactured goods.

The same reason applies to the
"Buy Things Made in Texas."

And its the same principle that
causes us to advocate the "Buy At
Home" movement. Unless we do these
things, we shall never have a home
community able to compete with the
outside world, and become developed
in a way to take care of our demands
and meet our desires.

STOMACH TROUBLE

Mr. Marion Holcomb, of Nancy, Ky., says: "For quite a long while I suffered with stomach trouble. I would have pains and a heavy feeling after my meals, a most disagreeable taste in my mouth. If I ate anything with butter, oil or grease, I would spit it up. I began to have regular sick headache. I had used pills and tablets, but after a course of these, I would be constipated. It just seemed to tear my stomach all up. I found there were no good at all for my trouble. I heard

REPUBLICAN CONVENTION

A republican congressional convention represented by nine of the fourteen counties in the Second congressional district of Texas met at the courthouse in Nacogdoches Saturday to elect delegates to the Chicago national convention for June 8th.

There were 24 white men and 2 negroes who succeeded in filing credentials approved by the committee on credentials and were present and participated in the convention.

With the exception of the opposition of H. L. Price to a resolution which was introduced endorsing administration of McGregor as a member of the National Committee and a similar resolution endorsing the actions of Phil E. Baer as state chairman, the convention was nicely manipulated and held with good feeling.

R. H. Dunn of Port Arthur and Chas. F. Price of Jacksonville were elected delegates to Chicago and S. M. Morris of Lufkin and H. O. Wilson of Marshall were elected as alternates to Chicago.

L. L. Munsell was elected as presidential elector and W. C. Trout of Lufkin contingent elector. The following resolutions were adopted.

One resolution endorsing the administration of H. F. McGregor of Houston as national committeeman and pledging him the support of the delegates to the national convention for re-election.

One resolution commending the Hon. Phil E. Baer of Paris, Texas, as chairman of the state executive committee did not promise any future support, but was complimentary in its wording.

One resolution very nicely composed thanking the people and the citizens of Nacogdoches for their hospitality and nice company, and several made it plain that Nacogdoches was composed of a high grade of good and substantial citizens and some stated that they could live in Nacogdoches with contentment and satisfaction.

There was one resolution specially commending George W. Eason for his work as congressional chairman and specially stated that he had conducted the political situation in this district with extreme fairness and with equal consideration of all classes of citizens alike and shown over the entire district his desire to please all classes and inform them in every case when

they were not proceeding according to lay and political procedure and advising them in due time to get themselves in proper shape to come to the convention with papers in the proper shape to have some standing in the convention. Through the work of Mr. Eason along this line no contest was filed in the convention, but there was a paper in crude shape filed with the committee on credentials and not certified to which was filed by a negro school teacher from Beaumont attempting to discredit the credentials filed from Beaumont and asking that a seat in the convention be allotted to him. His credentials were in rough form and were not sworn to and he was denied a seat in the convention.

H. L. Price and H. C. Boykin of Cuny, Texas, were negroes with the credentials of Cherokee county in proper form and were participants in the convention. H. L. Price seems to be a negro above the average and made an able opposition to the endorsement of resolutions endorsing the administration of McGregor and Phil E. Baer and stated that his objections to these gentlemen were based upon their efforts to establish a republican council in Dallas, Texas, which was nothing more than an effort to re-establish the "Lily White" and "Black and Tan" elements and run the negro away from the republican convention.

After the convention had adjourned seven negroes collected in the justice of peace office and held another congressional convention and H. L. Price was made chairman and they elected H. L. Price delegate and J. A. Ridley of Beaumont as alternate to Chicago. They passed no resolutions and elected no elector and seemed to be interested only in the Chicago convention.

With the exception of the clash with the negro opposing the endorsement of McGregor and Baer and a clash started by a delegate named Baker in favor of Dunlan of Beaumont as delegate to Chicago, the convention was harmonious and George W. Eason, who was chairman, gave all the delegates a fair and equal treatment and the convention was as harmonious as a district convention could be expected.

APOLOGIES TO BR'ER RABBIT

Field Mouse, Not Bunny, is Anathematized Girdler of Trees, According to Eastern Expert.

An official of the state fish and game commission informs us that we are unjust to the rabbit in ascribing to him all the girdling of fruit trees which has been going on in these parts lately. Our informant says, observes a writer in the Ohio State Journal, that the field mouse is responsible for more than 50 per cent of this damage and we hasten to tender our sincere apologies to the rabbit, whose feelings we would not hurt for the world, and are quick to give the guilty field mouse his just share of censure.

Field mice, it seems have the indefensible habit of burrowing among the roots of small fruit trees in the fall, hollowing out a warm place, as field mice estimate warmth, and spending the winter there. When they get hungry and nothing else is available, they shin up a little way and eat the bark of the tree cunningly making tooth marks almost exactly like rabbits' and thus throwing editors and other experts off the scent. The rabbits are not wholly without sin, but a 49 per cent sinner averages up fairly well with the rest of us. Moreover, the rabbit may easily be fooled in his lapses from grace by placing a piece of tar paper about two feet in height, or a piece of wire netting around the base of each young fruit tree. Perhaps this expedient, like other prohibitory measures, does not build character in the rabbit, but it does in the orchardist. Nothing, we understand, can be done about the field mice unless one stays at the foot of the tree and catches them. They are lost in sin.

DIED TO ESCAPE SUFFERING

Crew of Crippled Hun Submarine Took the Easiest Way Out of a Hopeless Situation.

Admiral Sims in the World's Work tells of the efficiency of the subchaser listening devices. Once when a submarine had been injured and was lying on the bottom in shallow water a grewsome thing was heard. They listened for hours, without hearing a sound; but about 5 o'clock in the afternoon a sharp piercing noise came ringing over the wires. It was a sound that made the listeners' blood run cold.

Only one thing in the world could make a sound like that. It was the crack of a revolver. The first report had hardly stilled when another shot was heard; and then there were more in rapid succession. The listeners on two different chasers heard these pistol cracks and counted them; the reports which these men independently made agreed in every detail. In all 25 shots came from the bottom of the sea. As there were from 25 to 30 men in the submarine crew the meaning was all too evident. The larger part of the officers and men, finding themselves shut tightly in their coffin of steel, had resorted to that escape which was not uncommonly availed of by German submarine crews in this bloody war. Nearly all of them had committed suicide.

Gen. Benjamin Butler's Wit.

General Butler was the leader of the house in 1875 and Samuel J. Randall leader of the Democratic side. As the Forty-third congress was about to close I was with Randall when Butler came up, and Randall asked him to hold a Sunday session. Butler said no, he would not consent to it; he never would do any work on Sunday that was not necessary.

Randall turned and chaffingly said: "Oh, that is your New England Puritanism, I suppose. That serves you to good purpose, and I expect to meet you some day, Butler, in another and better world."

Butler replied in a flash: "Oh, no Sam; you will be there, as you are here, a member of the lower house." —Melville E. Stone, in Collier's Weekly.

Forest Airmen's Records.

Forest fire patrol performed by the air service of the war department, with its personnel and equipment, and at the expense of that organization in three months uninterupted service made 745 flights, covering 92,605 miles, says the American Forestry Magazine of Washington. Many fires were discovered, located, and reported. Six patrol routes, covering national forest areas of high value were followed, and twice each day six airplanes covered the better part of 9,000,000 acres of rough, mountainous, heavily timbered country. The average nonstop run was 160 miles; the average round trip, 320 miles.

Taft's Unique Walking Stick.

Former President Taft owns a walking stick that is 250,000 years old. When Prof. W. S. Foster of Spokane was investigating the geological history of southern Alberta a few years ago he discovered a stump in a peat bed amid glacial drift in the valley of Old Man river. The age of the stump was estimated by geologists at a quarter of a million years.

Professor Foster took the stump home to Seattle with other souvenirs of the glacial epoch and when the Spokane people on one of Mr. Taft's visits wanted to give him a unique present they had a cane fashioned from the wood.

Naturally. "I suppose accidents vary much on this icy hill, do they not?" "Yes, there is no fixed number. They are on a sliding scale."

FORMER NACOGDOCHAN DEAD AT SAN ANTONIO

Mrs. T. J. Williams, aged 56 years, died at 7 o'clock yesterday morning at the family residence, 106 Chicago Boulevard. She had been a resident of San Antonio since 1908, and was widely known as an active member of the Woman's Auxiliary of the 36th Division and of the San Antonio Chapter, Order of the Eastern Star.

Mrs. Williams was born in Livingston, Texas, February 2, 1864. Before her marriage she was Miss Jimmie E. Smith. Surviving, beside her husband, she leaves two sons and one daughter, Miss Mary Louise Williams, B. C. Williams and N. E. Williams. She also leaves three grandchildren.

Funeral services will be held at 4 o'clock this afternoon from the family residence, under the auspices of the San Antonio Chapter of the Eastern Star. The Rev. Hill, pastor of the McKinley Ave. Methodist church, will officiate. Interment will be made in the Mission Burial Park.

Mrs. Williams was third vice president of the Woman's Auxiliary of the 36th Division and members of the organization will attend the funeral in a body. Active pallbearers will be selected from the Eastern Star. The honorary pallbearers are Dr. A. C. McDaniel, T. A. Eldridge, Fred M. Reynolds, Ashford Durham, Dr. A. M. Abney and Yale Hicks.

The above clipping from the San Antonio Express, May 2, 1920, will interest many people in Nacogdoches county, because the T. J. Williams family resided in Nacogdoches many years, and were well known from a business point of view. They moved from here to San Antonio, and Mr. Williams has been a prominent business man ever since, chiefly in the lumber business.

This Medicine Recommended by a Doctor

When a doctor uses a medicine himself besides prescribing it to his patients, he must know that it has merit. This is what Dr. J. H. Wagner, a prominent physician of Skate, Kentucky, has to say about Dr. Hartman's well-known remedy, PE-RU-NA: "I have used PE-RU-NA myself for catarrh and have given it to others for catarrh, bloating after eating and other ailments. It has proved a success in all cases with old and young men and women. All speak well of PE-RU-NA. It is the best of all tonics."

Dr. Wagner, out of the fullness of his own personal experience, for the good of all sick and suffering, recommends a medicine which he knows to be good. You may be sure a doctor would not endanger his professional reputation by endorsing PE-RU-NA unless satisfied beyond a doubt of its value.

Whether your trouble be a cough or a cold, or a more subtle catarrhal affection of the stomach, bowels or other organs, give PE-RU-NA a trial. The immediate improvement which you will see will satisfy beyond a doubt that PE-RU-NA is what you need.

PE-RU-NA may be purchased anywhere in tablet or liquid form.

Women and men too are just as strong and healthy as their blood. Vigor and health come with good blood.

Without good red blood a woman has a weak heart and poor nerves.

In the spring is the best time to take stock of one's condition. If the blood is thin and watery, face pale or pimply, if one is tired and listless, generally weak, a Spring Tonic should be taken. An old-fashioned herbal remedy that was used by nearly everybody 50 years ago is still safe and sane because it contains no alcohol or narcotic. It is made of roots and herbs and called Dr. Pierce's Golden Medical Discovery. If druggists do not keep it in tablet form, send 60 cents for a vial to Dr. Pierce's Invalids' Hotel in Buffalo, N. Y.

SUICIDE AT MAHL.

M. E. Houston, aged 51 years, a farmer residing at Mahl, committed suicide at 2 o'clock Thursday afternoon by shooting himself through the head with a Winchester pump gun. Death was instantaneous. An inquest was held by Squire Carver of Linn Flat and a verdict of suicide returned.

The unfortunate man had been a resident of the Mahl community for several years, and it is said he was subject to melancholia, and that in one of these fits of despondency he took his own life.

He leaves a wife and several children, one son, who resides at Austin arriving Friday to attend the funeral, which took place at 4 o'clock in the North Church cemetery, five miles north of Nacogdoches.

Employees from Cason, Monk & Co undertaking department went out Thursday afternoon and prepared the body for burial and took charge of the funeral arrangements.

A crash and a scream on West Main street at a point in front of Judge Frank Huston's home at 9 o'clock Friday night brought near-by residents to their front porches in double quick. It was found that the mail transfer wagon, en route to the railroad station, had been run into by an auto driven by some reckless person, who certainly had ignored the rules of the road as the wagon was hugging the curb on the north (right hand) side of the street. Continuing on his dangerous course, the offending auto nearly smashed into another car, west-bound. The name of the driver of the wild machine was not learned, nor the number of his car. The damage to the mail wagon was confined chiefly to broken harness.

Feel Old?

Overwork, worry, anxiety or sorrow undermines strength and health. These causes contribute to kidney trouble, and weak or diseased kidneys make one feel old in middle age.

Foley Kidney Pills

help weak, overworked or diseased kidneys and bladder so that the system is free from waste and poisonous matter that causes one to feel old, tired, languid. They banish backache, rheumatic pains, sore muscles, stiff joints.

Mrs. J. D. Miller, Syracuse, N. Y., writes: "For many years I suffered with kidney trouble and rheumatism. I had a severe backache and felt miserable and all played out. I got to a place where I had to do something. After taking two bottles of Foley Kidney Pills I can say my backache is gone, and where I used to lay awake at night with rheumatic pains I can now sleep in comfort and enjoy a good night's rest." SWEET POTATO CURING PLANT.

Work was begun on the 15,000 bushel sweet potato curing plant of the Nacogdoches Potato Company, It will be located just across the street from the freight depot, and south of the Wilson grain warehouse. This is the best location in town for such an enterprise because of its convenience to the potato grower. The building will be constructed of brick and will be a nice addition to that part of town.

From all indications, a large acreage of sweet potatoes will be grown here this year because of the market which has been provided. Thousands of slips have been sold already and the planting season has just begun. Many growers are waiting for another rain before transplanting their slips.

Eugene Thomason, McNeil Moore, Luke Moore and Everett Moore of Chireno were in the city Monday trading and meeting friends.

STRUCK BY AUTO

Quenton, 6-year-old son of Mr. and Mrs. H. C. Hatch, was struck by an auto driven by Tom Hooks Saturday afternoon, and was exceedingly fortunate to escape with a few minor cuts and contusions. The child attempted to cross Mound street behind a sprinkler and was not seen by Mr. Hooks until too late to check the speed of his machine. The fender struck his shoulder and the impact threw him clear of the wheels. He was rendered unconscious, but restoratives applied by a hastily summoned physician soon brought him around. He was able to leave his bed at noon on Sunday.

BAR ASSOCIATION MEETS

The members of the local bar met in the circuit court room at 10 o'clock Monday morning to arrange for a memorial service in honor of the late Judge George F. Ingraham.

Judge S. W. Blount was called to the chair and A. A. Seale was chosen secretary.

On motion a committee, consisting of Messrs. J. C. Harris, V. E. Middlebrook, C. A. Dodges and S. W. Blount was appointed a committee on resolutions.

This committee will report at a meeting to take place at 4 p. m. and Sunday next, the 16th inst., when the funeral services will be held.

A. A. Seale was appointed a committee to arrange a musical program for the occasion.

Several speakers will pay tribute to the life and good work of Judge Ingraham, and the public generally is invited to attend.

WHY TEACHERS ARE LEAVING THE SCHOOLS

A 16-year-old boy greasing coal cars and dumping them in Hastings, Colorado, receives as much pay as the principal of the schools.

The average annual salary for rural teachers in a Southern state this year was \$354. The average for white men teachers was \$385; for white women teachers \$327.

Forty percent of the rural teachers in the United States receive less than \$600; nearly 30 percent receive less than \$500; 15 percent less than \$400; and a great many teachers receive \$300 to \$400 per year for teaching school.

New York City, it is estimated, spends \$250,000,000 this year on automobiles and something over \$35,000,000 on teachers.

The principal of a high school in a Northern state with four teachers report an annual salary of \$300.

Charlie W. Taliaferro, a former Nacogdoches man, is in the city visiting friends. He is at present a citizen of California, but intends to spend a few days in Texas reviewing old scenes. Mr. Taliaferro asserts that he is the first man to install a bath tub in Nacogdoches. He says the tub was put where Mr. Chas. Hoya now has his office, and was, according to the best of his memory, about twenty-five years ago.

COUNTY SCHOOL BOARD.

The Nacogdoches County School Board met in County Superintendent Layton's office in the courthouse Monday afternoon and organized by electing Prof. R. F. Davis chairman and G. F. Fuller vice chairman.

W. B. McKnight, G. F. Fuller and J. T. Anderson qualified as members of the board, having been re-elected. J. F. Goodwin, H. W. Spradley and J. J. Greene were appointed trustees for the Pleasant Hill district, the people having failed to hold an election at the appointed time.

G. F. Fuller and R. F. Davis, who have been members of the board since its organization, made timely speeches. Mr. Fuller especially describing his gratification and enthusiasm over the vast improvement in school conditions of the county since his connection with the board. Mr. Davis also speaking along the same lines. Nacogdoches county has more good school houses and more good, efficient teachers than any other county of the state with like population and wealth. These facts were also set forth in a recent report of an inspector from the state educational department.

All things considered, Nacogdoches county has good cause to congratulate itself upon school conditions within its borders.

KILLING AT GRIGSBY.

Information reached the city Wednesday evening of the killing in the morning of "Bud" Powdrell, near Grigsby, just over the line in Shelby county. Powdrell was some time ago pardoned from the penitentiary by Governor Colquitt, having been sent up for the killing of one of his sons, whom, it is said, he slew while the boy was at work in the field. One of the rumors concerning the killing Wednesday was that it was the outcome of hostilities resulting from Powdrell having furnished information to the officers regarding the operation of an illicit distillery by some of his neighbors. Another report is that he was killed by a son with whom he had quarreled Sunday on account of certain immoral practices of the father. It was said Powdrell waylaid an attempted to shoot the young man as he was returning home Sunday afternoon, and his purpose was defeated by the quick action of the driver of the car. It is alleged he started for the home of young Powdrell early Wednesday morning, but the other saw him approaching and shot first.

MEMORIAL SERVICES

The memorial services in honor of the late Judge George F. Ingraham, under the auspices of the Nacogdoches Bar Association will be held at the court house at 3 o'clock Sunday afternoon.

A number of addresses will be made among the speakers being Judge James I. Perkins of Rusk, a lifelong and intimate friend of deceased, and Judge L. D. Guinn, also of Rusk, our present district judge.

The music, under supervision of Attorney A. A. Seale, will be an important feature of the exercises, the selections being carefully made. Among the numbers will be several duets by some of our best singers.

The public—everybody in the county—is invited to attend and aid in this deserved tribute to one of the best men who ever lived in the county.

Periodic Bilious Attacks.

Persons subject to bilious attacks at regular intervals know when to expect an attack. They find that they have no desire for food when an attack is due but usually eat because it is a meal time. Skip one meal and take three of Chamberlain's Tablets and you may be able to avoid the attack. Persons subject to periodic bilious attacks should not drink tea of coffee at any time. Sold by Stripling, Haselwood & Co.

OIL PROSPECT BRIGHT

Fred W. Turner of Santa Anna, Texas, who is associated with F. W. Tucker and others in a large acreage in Nacogdoches county on which they will begin drilling a deep test well in the near future, left for home Wednesday evening to look after a well he is interested in there, which just came in making a thousand barrels a day.

This is his third trip to this section and he has thoroughly investigated all sections of the county, and spent some five weeks in all in this section. He is the man who brought in the Trickham and Santa Anna fields, each of which was the rankiest of wild-cat property.

Mr. Turner stated that he looked for the greatest development here this summer, and fully expected Nacogdoches county to become one of the great oil producing counties of Texas.

The geologist sent here by Mr. Turner some few weeks ago made a very favorable report on the probabilities of Nacogdoches county.

He says he finds the people thoroughly alive to the oil possibilities and willing to lease their lands and co-operate with people who mean business. This is, of course, necessary in any country to get development work going, and should oil be found here in paying quantities the royalties will make many fortunes in this county.

Cecil Thomas, former Alto boy, who is now located at Lufkin, arrived in the city Tuesday to stay a short time with his relative, J. W. Bates.

A GOOD PLAN

The commissioners of Nacogdoches and Angelina counties and the boards of directors of the chambers of commerce of Nacogdoches and Lufkin will meet May 20 at 2 p. m. at the river to discuss the proposition of devising ways and means for the construction of a hard-surfaced highway from Nacogdoches to Lufkin and a good bridge across the river.

This is a proposition which should meet the immediate and hearty support of the citizens of the two counties, and we earnestly hope that the coming meeting will be productive of a plan for the early commencement of the work. If a spirit of co-operation is developed, the work may be considered assured and the highway a certainty. Let's join hands in the enterprise.

BOY SCOUTS GET \$275.00

An interesting meeting was held Tuesday afternoon in the City Hall for the purpose of electing officers for the boy scouts of the city and to raise money with which to finance their expenses.

R. C. Monk was elected president of the Nacogdoches boy scouts and F. H. Tucker vice president. A. H. Smith was elected secretary.

A committee was appointed for the purpose of combing the city for eight young men to act as scout masters for the proposed 200 membership of the Nacogdoches boy scouts. This committee consisted of I. L. Sturdevant, Charles Perkins, H. L. McKnight, D. A. Washburn, and R. D. Burrows.

This part of the business being attended to, a collection was taken for the meeting of the boy scouts' expenses. Two hundred and seventy five dollars were raised in fifteen minutes by the crowd present. The subscriptions ran as follows. F. S. Aikman, \$50; G. W. L. Woodlan, \$5; I. L. Sturdevant, \$25; T. P. Holt, \$1; G. C. Moore, \$5; J. Fred Feazell, \$5; V. E. Middlebrook, \$5; Wade Walters, \$5; R. W. Haselwood, \$5; D. A. Washburn, \$5; H. L. McKnight, \$5; L. H. Thrash, \$5; N. Golub, \$5; M. L. Smith, \$5; Dr. Tucker, \$5; C. C. Rhine, \$5; Bowden Cason, \$5; Carl Monk, \$5; Audley Harris, \$2.50; F. D. Huston, \$2.50; Arch Millard, \$2.50; W. L. Dunlap, \$5; J. M. Marshall, \$5; J. W. Byrd, \$2.50; Horace Wilson, \$2.50; Ed Mora, \$2.50; F. P. Marshall, \$2.50; Joe R. Day, \$1; W. B. Bates, \$1.50; R. F. Davis, \$2; Arch Millard, \$5; Cash, \$10.

At the conclusion of the meeting Mayor Middlebrook sincerely thanked all present for their interest and assured them that they had done a worthy thing for the community.

Treatment of Common Colds.

"If all who catch cold could be persuaded to remain in bed for the first twenty-four hours of such an attack" says a well known physician "there would be fewer cases dragging on with distressing symptoms for weeks and often ending in some more serious disease." To make sure of a prompt recovery you should take Chamberlain's Cough Remedy. Whether sick or well, the bowels should move every day. Sold by Stripling, Haselwood & Co.

W. E. Jones, general manager of the Industrial Transportation Company, left Tuesday for Little Rock, Ark., on business connected with his concern.

TRADE AT HOME

The wonderful influences of trading at home are first visible in community appearance. Smooth paved streets and walks lined with tall shade trees; well kept, velvety-green lawns; clean, newly painted buildings and homes; broad, grassy parks and playgrounds; large modern school buildings—these are unmistakable signs of trade at home.

All these modern features of community environment find their birth in the revenues derived from trading at home. Money circulated at home, sent out each day to home merchants for the necessities and luxuries daily consumed in each community home, brings forth a fund of taxes and donations from the merchants which is a great part to the financial stimulus to civic improvements. The home merchant is a dyed-in-the-wool home booster. He wants to see his community prosper, and keep pace with civic progress of the most advanced character.

Walk into a community grocery store, a community pharmacy, a community dry goods store—any home boosting place of business—and look around. You will find stuck here and there around the cash register, on the counters, atop the show cases, tickets for school entertainments, Woman's Clubs dinners, Y. M. C. A. programs, and church socials, membership cards for good roads, chamber of commerce, get-together clubs and every conceivable kind or character of home activity. These tickets and cards represent hundreds of dollars yearly that home merchants donate to home advancement, community progress.

Now are the home merchants the sole beneficiaries of the splendid things making up community progress. Not at all, in fact it is the plain citizen, man, woman and child, who derives the greatest pleasures. The child of the community probably enjoys them most. Paved streets to ride a wheel on, parks and play grounds to romp in, magnificent schools to learn in, these are the environments that develop healthy, happy, dependable children, sound morally, mentally and physically.

Are you trading at home? Are you supporting your home merchants in his loyal effort to bring the best things of clean civic life to your community? Are you figuring that goods bought at home are cheaper in the long run than those secured out of town even though the price in money may be slightly greater? Are you counting the good things of life brought around by trading at home as worth a few cents to your children? Or do you never lose sight of the penny itself and think not at all of the mutual welfare of your community?
