BIG COMEDY EACH DAY

H. R. F. Helland of Austin, representative of the state board of health, was in the city Wednesday in the interest of a mosquito extermination campaign. He met members of the City Council and others, and succeeded in securing promises of co-operation in the great work in which he is engaged. The present epidemic of dengue fever is certainly a clinching argument in favor of such a crusade. No mosquitoes, no dengue.

The word "Dengue" is pronounced "din-ga", the "a" sounded as in "ah."

## Deposits Guaranteed

Your money deposited in this bank is guaranteed by the Bank Depositors' Guaranty Fund of this state. This is a fund contributed by law from the combined resources of all State Banks which have qualified under this act.

### SHORTER TERM THREATENED TO TEXAS COUNTY SCHOOLS

Dallas, Texas, Oct. 5.—"A half-million Texas children must attend school one or two months less this year due to decrease of state school funds, according to county superintendents in all sections of the state," said Peyton Irving, Jr., managing editor of the Texas School Journal. "Most of these who will have less than a six months term, live in the country or in small towns. "Schools will be open fewer months. Fewer teachers will be employed. Teachers will be paid less per month as well as for fewer months. One hundred Walker county schools will be shorter and seventy-five teachers have had their pay cut, according to Superintendent J. C. Thomas. In Montague county forty-two schools will be shorter, and 124 teachers get less pay for shorter time, says Superintendent R. C. Poteet. Seventy-nine Wharton county schools will have shorter terms and ninety teachers will be paid less, writes Superintendent Elizabeth McIver.

"The only relief possible, according to the superintendents, is an emergency appropriation by the legislature available for this year, a suggestion understood to have the approval of the governor and many legislators. The constitution commands a six month term. Legislature alone can see that the command is obeyed. If its members observe their obligations promptly in January, the disaster threatening Texas children will be avoided."

### AIR TRAFFIC A SUCCESS.

Cleveland, Ohio, Oct. 6.—The Aeromarine double daily flying boat service between Cleveland and Detroit, officially closed last month, this season carried 1839 passengers, according to an announcement by officers. In addition, 2574 pounds of freight was transported. The service has two eleven-passenger enclosed cabin aeromarine flying cruisers, making two flights daily. The period covered July 17 to September 17.

There were no forced landings, no accidents, and the boats flew on scheduled time, officers stated. C. F. Redden, president of the company, said that the European Air Transport Companies notwithstanding government subsidies of twenty or thirty percent, have failed to make any money.

"Without government subsidy and without active government support we have operated at a profit," he added. "From the standpoint of the safety of passengers we have surpassed all foreign records."

There is still a heavy demand for transportation between Cleveland and Detroit and the company will continue to keep three flying boats available for service until after the Pulitzer air races in Detroit, according to Mr. Redden.

"During the past three years of commercial operation the boats of the company have flown more than a million passenger miles and carried thousands of people without a single mishap," declared Mr. Redden.

### THOMPSON-RULFS

Mr. Clarence Thompson and Miss Wilhelmina Rulfs were married at the Methodist church Wednesday morning at 11 o'clock, Rev. E. G. Cooke, the pastor, officiating.

Immediately after the ceremony the couple left for a honeymoon trip to Houston, from which they are expected to return Sunday.

The groom is one of our most esteemed young business men, is head of the prescription department of Swift Bros. & Smith's drug establishment, and popular with all our people.

The bride is a daughter of Mrs. Will Rulfs, was reared in Nacogdoches, and occupies a warm place in the hearts of the people who have known her all her life.

The Sentinel joins in wishing the newly weds all the joy and prosperity that life may hold.

### BOX SUPPER

There will be a box supper at Shady Grove school house on the night of Friday, October 20, to which all are cordially invited. There will be a pleasant time for everybody. Come out and enjoy yourself.

### BRITAIN'S LAST WORD IN NEAR EAST TANGLE

Mudania, Oct. 10.—The Allied generals drew up the final armistice convention here last evening and submitted it to Ismet Pasha, the Turkish Nationalist representative. The Ankara government was given until 5 o'clock today to accept or reject it.

#### Up to the Turks

Constantinople, Oct. 10.—The signing of the protocol of the armistice at Mudania is expected to occur at 5 o'clock this evening, the Havas agency announced. Lieutenant General Harington said, "We have gone to the extremity of concessions. The revised armistice convention manifests Allied solidarity in war and in peace. If the Turks reject it, we are prepared for all eventualities. The convention submitted to the Nationalists last evening is Great Britain's last word. It now rests with Ankara whether the world will have peace or war."

The present convention would come into force three days after its signature. The document has spaces for the signatures of the representatives of Great Britain, France, Italy, Turkey and Greece. General Harington uttered a stern warning to the Nationalists: "Great Britain has a considerable number of warships, a large number of armed men and plenty of guns. While the British people want peace, they equally are determined to have fair play and are dangerous opponents when aroused."

### YOUR DUTY TO HELP

Waco, Texas, Oct. 11.—In a statement given out here this afternoon by Joe Hale, secretary of the State Democratic Executive Committee, all Texas democrats, and especially the leaders of its democratic organization in this state are urged to rally to the financial support of the Democratic National Committee in the current campaign. Mr. Hale said in part, as follows:

"The State Democratic Executive Committee, and indeed the democrats of Texas in convention assembled at San Antonio, pledged their unstinted support to the program of electing a democratic congress at the coming election in November. And to that end a resolution was unanimously adopted creating a National Democratic Finance Committee for Texas. This committee is now organized and functioning through a headquarters established at 319 Western Indemnity Building, Dallas, Texas.

"I am sure that the democrats of Texas, and especially the leaders in our party organization, realize the immediate importance of giving proper support to the work of the committee. It is needless to say that the great works of the National Committee cannot be carried on without funds. It will take money, large sums of money, to properly finance an adequate educational campaign. The democratic party now has a wonderful opportunity for service to our country, and if a proper campaign is made, there is no doubt but that a democratic congress will be elected this fall and thus the entering wedge will have been driven for the full return of the democratic party to power two years from now. But this great work can not be accomplished, this high service cannot be rendered to the people, unless we who believe in the principles of our great party rally to its support at this time.

"I, therefore, would urge upon the members of the State Executive Committee, the county chairman, precinct chairmen, and in fact, all Texas democrats, whether holding a position in our party organization or simply a worker in the ranks, to rally to the support of our cause at this time. The opportunity is ours, the need is pressing and I trust that the democrats of Texas will measure up to the full standard of their responsibility on this occasion.

T. P. Hughes of near Timpson was in the city Wednesday seeking a location for his family, consisting of his wife and eight children. He stated he was attracted to Nacogdoches by the Stephen F. Austin Normal, recognizing the advantages of this community as an educational center. Many more will follow Mr. Hughes' example and come here to enjoy our school facilities.

Editor J. G. Williams of the Cushing Journal was in the city on business Tuesday morning.

### ROWAN MUST SERVE 25 YEARS, COURT DECREES

Dallas, Texas, Oct. 10.—Albert Rowan, whose 25-year sentence was affirmed by the federal supreme court yesterday, was the alleged mastermind in the Dallas postoffice robbery in January, 1921.

The plot to rob the postoffice, however, failed, ending in the killing of a postal employee and the death of one of the bandits in an automobile wreck.

### THE SOUTHERN SYNOD

The annual meeting of the synod of Texas, Southern Presbyterian Church, will be held in the First Presbyterian church, Marlin, Tuesday evening, October 10, at 7:30 o'clock, with the opening sermon to be delivered by the moderator, Dr. Thomas W. Currie, president of Presbyterian Theological Seminary, Austin, Texas. Dr. Currie will use for his text on this occasion, Luke 17: 20-21, and will take for his theme, "Life in the Kingdom of God." Dr. Currie will draw some vital and practical lessons from his text and theme in such a manner that will make his message very appropriate for those attending a court of the church. He will speak of the redeeming power of God as translated into terms of practical application to individual life, to community life and to the life of the church. The power of God that can so change men that God's will be done on earth even as it is done in heaven. His portrayal of such a life, a life in the Kingdom; the life that brings in the Kingdom as follows:

1. It is a life of Faithful Stewardship in the Things of This World.
2. It is a life of Forgiveness and Humility.
3. It is a life of Faith and Gratitude.

Dr. Currie is one of the prominent teachers and preachers of the church, and his most timely message will be listened to with interest and profit. The Sacrament of the Lord's Supper will be observed on Wednesday morning at 11 o'clock.

In connection with the report of committee of stewardship, Dr. Henry H. Sweets, executive secretary, Christian education, will address the synod on the assembly's causes and the progressive program.

The Synod of Texas now has on its roll 227 ministers, 401 churches and 41,314 members. The sessions of synod will continue through Thursday evening, October 12, Rev. J. D. Leslie, D. D., of Dallas, is the stated clerk.

It is customary for the Woman's Auxiliary synodical to meet at the same place and time as the synod of Texas and to hold joint sessions with the synod. Important features of the program will be:

Conference on Stewardship, led by Dr. Brooks I. Dickey, Corpus Christi.

Bible Studies, led by Mrs. W. D. Hart, Austin.

Address by Rev. C. N. Ivy, Chairman Synod's committee on woman's work.

Address by Miss Edna Jackson on "Life Enlistment."

Plans for a "Greater Kerrville" will be a subject of much interest.

Dr. Henry H. Sweets, executive secretary, will address the synodical on Christian Education and Ministerial Relief.

### MORE DEPOSITIONS

Austin, Texas, Oct. 9.—Notice of 33 additional depositions that will be taken for the hearing at Corsicana October 16 on the temporary injunction restraining Secretary of State Staples from certifying Earle B. Mayfield as the democratic senatorial candidate was received by Staples today. He said he will appear at the New Orleans hearing October 16 on litigation in federal court regarding the candidacy of George E. B. Peddy.

### SPECIAL TRAINS FOR KLAN

Fort Worth, Texas, Oct. 9.—Two special trains were used to bring visitors to the Ku Klux Klan demonstration at the closing of the county fair at Paris Saturday. A permanent cross was erected in the center of the fair grounds. Officers were installed by the Klan.

Any young man can make his way through college who can make his way through eleven opposing football players.

### GOODFELLOWS VISIT NACOGDOCHES CLASS

From the Lufkin News, 9th.

Sunday morning about thirty members of the Goodfellow Bible Class of the Methodist Sunday-school boarded cars and a truck to pay a visit to the Character Builders' Class of the same church at Nacogdoches. The invitation was extended by Nacogdoches on the occasion of the completion of new quarters for the 'Doches class and upon the visit of Hon. Fred T. Wilson, a noted speaker of Houston and a member of the Houston bar. The Moore Grocery Company generously donated the use of a large truck for the trip.

The class members met for the start in front of the Palace Theater, where the Goodfellows class sessions are held and made the start shortly after 9 o'clock. The order of the program at the joint class meeting at Nacogdoches was as follows. Two songs, prayer, opening remarks by President F. W. Betts of the 'Doches class, solo by Claude Hazle, introduction of speaker by Teacher P. H. Pierce, address on "The Higher Life" by Mr. Fred T. Wilson of Houston, closing remarks and collection, song and benediction.

Mr. Wilson's address was a splendid utterance. His portrayal of "The Higher Life" was well brought out and amplified. He cited the case of young and supposedly domesticated eagles in a back yard which heard and saw a wild species of their kind in the sky. The young birds gave a scream, spread their wings and took to the altitudes "where it was intended they should be." Mr. Wilson cited this example as indicating the tendency of man toward worship of the Supreme Being. President Betts of the Nacogdoches class stated his class would be glad to accept an invitation to pay Lufkin a visit, which will likely be done in the near future.

### COPPER MAGNATE DEAD

Southampton, England, Oct. 10.—Isaac Guggenheim, American capitalist and copper magnate, died here suddenly today. He came here in his motor car yesterday from London to meet Henry Marsh, who was arriving on the aquitania, and both stayed at the principal hotel. He died before physicians arrived. This morning he complained of pains in his chest. He had arranged to return to New York by next Saturday's steamer.

### STATUS OF THE CONTEST

From the Lufkin News 10th.

The status of the Cochran-Watts sheriff contest case has resolved itself virtually into an agreement that both candidates will agree to have their names go on the general election ticket in November and be voted upon then, it is understood.

It is understood that practically all the attorneys on both sides had agreed to this save one of the attorneys. The matter, it was intimated, was to be decided today. No hearing on the injunction proceedings was had last night due to the fact that Judge E. J. Mantooth and Mr. King, counsel for contestee, were ill beside possibly other attorneys in the case. Unless the decision to have both names appear on the ballot in November finally goes through, it is likely that injunction hearing will be Wednesday night, it was stated around the court house today.

### PRISONERS REVOLT

London, Oct. 10.—An outbreak occurred in the Mountjoy jail this morning when the irregular prisoners at tacked the guards with revolvers which had been smuggled in, says an Evening News Dispatch from Dublin. One guard was shot and killed and five others wounded. The military guard returned the fire and killed one irregular prisoner and wounded several others.

### TEST MATERNITY LAW

Washington, Oct. 9.—Massachusetts' request for permission to test the constitutionality of the federal maternity law was granted today by the supreme court. Process was ordered returned on January 2, 1923.

The big whistle at the Frost-Johnson mill roared out a raucous alarm about 9:30 Monday night. A fire did slight damage, though people were rather anxious for a few moments.

PASSING OF THE ANTELOPE

Men who were boys 25 years ago and reveled in reading the hunting and trapping stories of the Far West, most of which were based on wild life conditions as they existed a score of years previous, will suffer a twinge of pain to learn that the American antelope, or "pronghorn" is all but doomed. Newspaper articles from apparently authoritative sources tell us that the animal which once roamed the grazing lands of the west by the tens of thousands has been reduced to a mere handful.

It is estimated that there are not more than 3,000 antelopes in the United States. One of the best protected herds is that in the Yellowstone National Park and it numbers only 350. It may be seen how a series of hard winters, forest fires or an increase in such animals as coyote and the wolf might reduce the existing herds to but a remnant of the small number now remaining. It would seem, therefore, that the antelope has joined the bison, the grizzly bear and the wild pigeon, and that in the not far distant future the "pronghorn" will be but a memory.

Wild life authorities cite several probable causes for the rapid disappearance of the antelope. The animal is among the most nervous in the wild world. It is truly American in many ways. Like the human species which inhabits this land it is inclined to worry. Frightened from its pasture by the tourist, fire, or some wild animal, it is slow to return. An increase in settlers in the mountain valleys has eliminated many of the natural pastures, and it is believed that most of the herds pass out through starvation.

BORROWING THE PAPER.

A man who would not take his home paper sent his little boy to borrow the copy taken by his neighbor. In his haste the boy ran over a hive of bees and in ten minutes he looked like a warty squash. His cries reached his father who ran to his assistance, failing to note a barbed wire fence, which he ran into, breaking it down, cutting a handful of flesh from his anatomy, and ruining a \$5 pair of pants. The cow took advantage of the gap in the fence and got into the corn. Hearing the racket his wife ran out, upsetting a four-gallon churn of rich cream into a basket of kittens and drowned them. In her haste she lost a \$17 set of teeth. The baby, left alone, crawled through the cream into the parlor and ruined a brand new \$20 carpet. During the excitement the oldest daughter ran away with the hired man, the dog broke up eleven settings of eggs and the calves chewed the tails off four nightshirts. Cheaper by far to have the paper delivered, says a South Dakota newspaper.—Pacific Herald, Waldport, Ore.

THE NEAR EAST TREMBLES

From the Houston Chronicle. First a wave of optimism, and then a wave of gloom; the point being that, whence no one can guess what will really happen, emotionalism and prejudice become guiding factors.

The British lion growls, and Mustapha Kemal gives way. The Angora assembly passes grandiloquent resolutions and Mustapha Kemal stiffens. General Harington forwards an ultimatum, and Mustapha Kemal agrees to hold a conference. Russia mobilizes, and Mustapha Kemal grows more beligerent.

So it goes, up and down, backward and forward, with no fixed policy anywhere, and with stocks, credits and money values fluctuating in consonance.

We have all the makings of a real war, all the possibilities of real peace, but the chief circumstances of danger consist in lack of program, lack of concert, lack of definite purpose on anybody's part.

Opportunism and expediency seem to have been hit upon by all concerned as the beacon lights to follow. Each move of the game is predicated largely on the preceding move made by the opposite side.

The British cabinet might make some show of consistency were the British press not against it, while France hops about first on one foot and then on the other.

Mustapha Kemal appears to know what he wants, but not the best way to go about getting it. Willing to enter conferences, he is not willing to leave his military position exposed.

Soviet Russia, unable to determine just what the Allies are aiming at, gathers her armies on the Roumanian frontier in order to be safe rather than sorry.

With "Time" out of the way, the

Greeks are gathering new courage. They might consent to a benevolently neutral attitude, if the Turkish bands would quit marauding around Thrace, but the Turkish bands seem disinclined to quit.

Washington rises to remark that it won't be dragged into another European war, which suggests that Washington is in a mood to expect things, though not knowing exactly what.

ILLITERATES GO TO MAYFIELD

From the Houston Chronicle.

Whatever legal warrant there may be for eliminating George E. B. Paddy's name from the ballot, its political effect is obvious.

Mr. Mayfield has the illiterates all sewed up.

Not one of them can vote against him, not a single one.

Even if voting the straight republican ticket, they can not vote against him, because the republicans have no candidate.

He has been guaranteed every ignorance in the state, white, foreign and colored.

A strange herd for the Ku Klux-Klan to be herding with, but doubtless welcome.

How many votes Paddy might get is limited by the number he can get.

No voter unable to write can cast a ballot for him, and only then by writing the name accurately, and by complying with the election law.

This campaign goes into education, as well as politics, with the burden all on one side.

The Mayfield supporters have nothing to do but count noses.

The Paddy supporters have to get the noses to count, and they are limited to literates.

The Mayfield supporters can get votes anywhere and from anybody who is a citizen.

The Paddy supporters can look nowhere, and to no one, except among those able to read and write.

This insures Mr. Mayfield the solid support of ignorance.

It insures Mr. Paddy no support, except from educated people.

A GLORIOUS AGE

In 1827 the School Board of Lancaster, Ohio, was asked for the use of the school house to hold a debate upon the question, "Are Railroads Practical or Not?" They replied as follows:

"You are welcome to use the school house to debate all proper questions in, but such things as railroads and telegraphs are impossible and rank infidelities. . . . If God had designed that His intelligent creatures should travel at the frightful speed of fifteen miles an hour, propelled by steam, He would have foretold it through His holy prophets. It is a device of Satan to lead immortal souls to hell."

Now we are being propelled at fifty, sixty and even more than a hundred miles an hour, on the ground, through the water and air. The computations of the Lancaster Board sound crazy now, but they were, at that time, the sober opinion of the town's best people.

We are becoming used to progress now. Edison proposes communication with spirits and retains a reputation for wisdom. Marconi promises communication with other planets, and we do not laugh; we think he may be right. Today we hardly dare use the expression, "It can't be done."

We are just beginning—just seeing the light. When we consider that science, in spite of all its discoveries, is only beginning to learn the great secrets of nature, we readily can see that discovery is only in its infancy. Our present growth is just a start toward the fields ahead, hidden by the future—Ex.]

WHY SEAS ARE COLORED

The North Sea is green, partly because of its clearness and partly because of its sandy bottom. The Red Sea gets its name from a tiny weed-like growth, dull red in color, which seems to cover its surface. The Yellow Sea of China was once supposed to be so named because of its mud, but its color is derived from a multitude of minute living organisms.

The days of the kick-off for the college student are the days of the kick-in for his father.

A man may be said to be growing old when he no longer remembers how foolish he used to be.

The Episcopal bishops say the behavior of the young comes from their desire to be natural. Ain't it grand!

A great deal of criticism directed at the primary system comes from men who are such casual voters that they have never given the system a fair try-out.

NACOGDOCHES TRADITIONS

Among the many adventurous early day pioneer settlers of Nacogdoches county was the Hotchkiss family. The biography of this family, its ancestry, romances and experiences in eventful importance and its rating and influences in those early days make it extremely interesting. This family name has no personal representative here now. Charles A. Hotchkiss, who now lives at El Paso, Texas, and who is an old time and well-known and highly respected resident of the town of Nacogdoches, is the only personal descendant bearing the name, except his son, Archibald Hotchkiss of El Paso. The following facts are extracted from a recent letter from Charles A. Hotchkiss in answer to a request from me.

The original Archibald Hotchkiss was born in New York state February 1, 1795, was a graduate of West Point, captain commanding a battery in the Battle of Lundy's Lane, in which he was wounded. He was highly educated and a man of great information. He spoke Spanish or real Castilian fluently, besides several other languages. He was a large man, six feet four inches high, weighed 225 pounds, and wore a hat No. 8, and up to 1861 was the strongest man in Nacogdoches county.

In 1827 he left Battavia, N. Y., and sailed for Tampico, Mexico, was nearly six months en route. He was ship wrecked near Tampico, and swam ashore, rescuing a woman. He proceeded to the City of Mexico, and there, being a scholar and civil engineer, he was employed as manager of a silver mine.

In 1833 he rode from the City of Mexico to Nacogdoches on a mule as the agent for a New York syndicate, controlling many leagues of Texas lands. When he rode into the public square he stopped in front of the old Stone Fort, where Adolphus Sterne was standing outside. He introduced himself and inquired for a place to board. Sterne took him to his house, where he made his home for months.

He purchased a large body of land on the south side of Moral creek, six miles south of the town of Nacogdoches, and there established a permanent home. He and his brother, Charles Hotchkiss, built a water mill saw and grist, a mile and a half below.

Archibald Hotchkiss was one of

the original members of Milam Lodge, No. 2, Nacogdoches. He spent his last years in Palestine, Texas, and died there in 1882. He held high honors in Masonry, and was buried there with Masonic honors.

Archibald Hotchkiss was followed to Texas by his younger brother, Charles Hotchkiss and his brother-in-law, John R. Clute and other relatives in the year 1835. Charles Hotchkiss joined him in the saw mill enterprise. He died at Sabine Pass in 1861. Clute and his wife, who was a sister of Archibald Hotchkiss, spent the last thirty years of life at Douglass, and they are buried there. Their only child, Cora Clute, was born in the town of Nacogdoches, on North street, near where the home of L. S. Taylor now stands, May 25, 1838. She is the widow of Felix L. McKnight, and is the oldest resident native of the town.

Charles A. Sterne now living in Palestine, Texas, was born in Nacogdoches about 1834, and is the oldest native resident of the town. The Sterne and Hotchkiss families were always intimately associated.

The story of Rinaldo Hotchkiss is remarkable for his adventures, will follow soon. J.E.M.

TERRIBLE AUTO ACCIDENTS

Will happen in our city if we do not watch our step and comply with the city driving and parking regulations. If we do not, we will be out of order, and highly criticised, for everybody is going to drive to the right and park their cars properly. It is always easier to do a thing the right way, and in this case it is absolutely necessary for everybody to do the thing the same way, in order to preserve the safety of everyone and at the same time, prevent the blocking of traffic.

We people of Nacogdoches are prone to become careless, and forget that we have regulations of any sort, and do things pretty much as we feel like doing them, regardless of whether it is the proper thing to do. Some of us do not do them through carelessness, but think that we are privileged characters, and have a right to do exactly as we please. Is that the right way to be? Regardless of line of business of profession that any of us have, we have no right to break any of the city's regulations. We must keep on the job. Everybody do their duty. Drive to the right, and park according to regulations.

Watch for the new traffic signs. The Boosters.

SOME OIL NEWS

On Saturday, September 30, work was begun on the development of a tract of acres east of London, Rusk county, the operators being the Citizens' Lease Syndicate, an Oklahoma corporation. A portion of this tract has been held by the syndicate for three years, but until recently the block has been incomplete, because of local influences. Now they have an almost perfect tract, and one that has been reported upon favorably by some of the most expert oil geologists in the country. The slush pit is completed, wood is being delivered on the ground and derrick timbers are being saved by two of the country mills of that community. This makes the fifth drilling rig to go into Rusk county within the past 30 days, indicating that this section of East Texas is to have a thorough try-out before the winter is over. The roads in the London territory have been bad the past summer, and now the farmers have taken it upon themselves to bury the sand and sand the slippery clay so that the oil man will have a free hand in hauling materials and supplies.

More folks start things than are able to finish them.

Beacon Lights of Business

A LONG perilous coasts, lighthouses throw their guiding rays far into the night to warn the mariners and help them safely past the shoals.

Business, too, has its beacons. They are the advertisements, which throw a powerful light to guide you in your buying. They show you what to buy, where to buy and when to buy.

Spend a few minutes a day running through the advertisements in this paper. Then buy the products that have proved up in the light of advertising.

Merchants and manufacturers who advertise deliberately focus thousands of eyes on their products. Their wares must be good, their values honest and their prices right or they could not advertise successfully.

In the advertisements you see products that have made good under the critical inspection of buyers. These products are full value products. They return you dollar for dollar. Buy them.

Let the beacon of advertising guide you as it is guiding so many astute buyers.

Then you can know that every cent you spend buys its full quota of value.

"IT'S YOUR FAIR SO BE THERE"

## "Strong and Well"

"I WISH you could know how much I am improved since taking the Cardui," writes Mrs. Nannie Brown, of Black Rock, Ark. "You wouldn't know me for the same weak invalid I was before I took it. At my . . . I had to keep off my feet or I would fall. I couldn't do my housework, and just got where I'd most as lief be dead as living. Some one told my husband of Cardui. He got

it for me and I took three bottles before I stopped—then off and on for the last three years just as a tonic. I saw a decided improvement after my first bottle. I used the three, and was able to do my work with ease, and now I sew for my family and for others. I am feeling fine, and strong and well."

Take Cardui! It may be just the medicine you need.

# CARDUI

## The Woman's Tonic

### TO TAKE DEPOSITIONS IN SENATORIAL MUDDLE

Austin, Texas, Oct. 5.—Notice of depositions that will be taken on October 16th to be used at the hearing at Corsicana on the temporary injunction restraining Secretary of State Staples from certifying Earle B. Mayfield as the democratic senatorial candidate was served today on Staples and Mayfield. The notice was served at the instance of Luther Nickels, attorney for C. E. King, petitioner for the injunction. Depositions will be taken from Atticus Webb, secretary of the Texas Anti-Saloon League, and ten others.

### WINDMILLS COMING BACK

St. Paul, Minn., Oct. 4.—The windmill, the time-honored source of power, is staging a comeback and there are more windmills on Minnesota farms today than ever before. So discloses a survey of sources of power on farms of the state. Inexpensiveness of operation and greater efficiency without regard to the elements, are given by Prof. A. L. Tyler of the Farm as the reason for the return of the old form of energy. The University of Minnesota has ordered wind electric plants of all known types for use in a test project to determine the efficiency of the windmill as a source of electric power, the professor added.

### SULTAN HAS ABDICATED

London, Oct. 7.—A report that Sultan Mohammed VI. of Turkey has abdicated was received this afternoon by the Russian delegation here in a wireless dispatch from Moscow. The dispatch, which repeated the message from Angora, says that upon his abdication the sultan named as his successor his cousin, Abdul Medjid Effendi, who will be known as Medjid II.

### DENISON MAN SHOT

Denison, Texas, Oct. 5.—Arthur Stinson, a painter, was dangerously shot last night by an unidentified assailant. He made a statement today which Rangers expected to lead to the arrest of his assailant. Stinson was recently divorced.

## ASPIRIN

Say "Bayer" and Insist!

Unless you see the name Bayer on package or on tablets you are not getting the genuine Bayer product prescribed by physicians for over twenty-two years and proved safe by millions for

Colds	Headache
Toothache	Lumbago

Accept only "Bayer" package which contains proper directions. Handy boxes of twelve tablets cost few cents. Druggists also sell bottles of 24 and 100. Aspirin is the trademark of Bayer manufacture of Monocetico-acetic acid of Salicylic acid.

### CHANGE OF VENUE IN RAMBIN-SIMPSON CASES

Wednesday in the district court Judge Guinn granted a motion for a change of venue in the cases of Jess Ramin and Alfred Simpson, charged with murder in connection with the death of Dr. A. L. Parrish, and sent them to Panola county. The men had been granted bail on the murder charge, but were held without bail on the charge of robbery by firearms in the same connection.

### WICHITA FALLS MINISTER ELECTED MODERATOR

Sherman, Texas, Oct. 5.—Dr. Nat F. Grafton of Wichita Falls was elected moderator of the Texas Synod of the Presbyterian Church of the United States of America at the opening session of the synod here.

### GREEKS DISSATISFIED

Smyrna, Oct. 5.—The agreement which has been reached at the Mudania conference between the Allied and Turkish delegates, according to messages received here, was communicated to the Greek delegates. They expressed dissatisfaction and declared themselves not empowered to reply, but must have instructions from Athens. Messages say the agreement provides that the Allies and Turks are to evacuate the neutral region of the Dardanelles. The Allies will continue occupation of Constantinople during the peace conference. They accept the re-establishment of Nationalist civil government for the departments of Constantinople and Chanak.

### KLAN HEAD QUILTS

Atlanta, Ga., Oct. 5.—E. Y. Clarke, who Wednesday announced his resignation as imperial wizard of the Knights of the Ku Klux Klan, in a later statement declared his resignation would become effective November 10th, when he would relinquish all authority to Colonel William J. Simmons, imperial wizard, who has completely regained his health. Clarke said he wished to eliminate himself as a personal factor in any litigation against the Klan.

### IMPORTANT MEETING

The directors of the Nacogdoches County Purebred Livestock Association met here Wednesday and selected Saturday, November 18th, as a date for the county livestock show. A special effort will be made to have a large poultry exhibit and demonstration in connection with the show. Also, the A. & M. College will be requested to furnish an expert poultry judge and lecturer for the occasion. Arrangements are being made for a meat canning demonstration to be given in connection with the livestock exhibit. The officers of the livestock association are W. B. Wortham, president; T. E. Burgess, vice president; H. L. McKnight, secretary.

### STUDENTS SELF-SUPPORTING

St. Louis, Mo., Oct. 5.—Forty percent of the student body of Washington University is either entirely or partially self-supporting, according to a survey made by the committee on recommendations of the school. The committee also is making a canvass of all students of the university to learn what assistance is needed by students who wish part time employment. The committee is seeking positions for these students in order to help them work their way through college if they wish. An effort is being made to place women students in homes as companions, governesses or to do housework for their room and board.

The News has it from a reliable source that the county commissioners have determined to make a real highway out of the road from Lufkin north to the Angelina river by the addition of about five inches of flint gravel, on top of which will be placed an inch and a half of asphalt. By this additional expense the money originally invested in that piece of work will not be entirely wasted, and the commissioners are to be congratulated upon this wise decision. This will give Angelina county a model highway north and south reaching through the entire county, which will prove a joy to the hundreds of tourists that will soon be drifting along to great scenic highway.—Lufkin News.

### PEDDY CARRIES BATTLE INTO U. S. COURT

Dallas, Texas, Oct. 7.—Defendants named in the bill of equity filed in federal district court at Mobile will be required to appear at New Orleans, October 16, and show why the named George E. B. Pedy should be kept off the ballot in Texas general elections next month, according to a telegram received here yesterday, from T. M. Kennerly, Houston attorney, who went to Mobile and appeared before United States District Judge Robert T. Ervin in filing the bill.

Long List of Defendants  
The secretary of state, S. L. Staples, Earle B. Mayfield, democratic nominee for United States senator and Mr. Pedy's opponent, and each and every judge, county clerk and sheriff in Texas, are made party defendants in the bill. The county officers are included as defendants because it is their duty under the law to have the official ballots printed and distributed for use in the general election.

The bill in equity is in behalf of the republican party of Texas, R. B. Creager, chairman, and W. E. Talbot, secretary, respectively, of the state republican executive committee, and F. C. Hudgett as a member of the party.

Ku Klux Klan is brought into the case with Mr. Mayfield, charged with being a member at the time of his nomination. It is referred to as "maintaining a secret government and sovereignty over the citizens of the United States in conflict with the government thereof." The Klan is further attacked in the bill. The question of Pedy's having voted in the democratic primary and that he is ineligible for a place on the republican ticket is a contention.

Says Klan Seized Party  
In a long paragraph the bill sets forth that Pedy voted the democratic ticket, thinking at the time that he was voting for "certain doctrines of political principles for which the democratic party always stood" and that after the primary he found that the said democratic party in Texas had been secretly seized upon and controlled by the said Ku Klux Klan and that the said Mayfield had been secretly put forward by said Ku Klux Klan as its candidate and his nomination procured by such secret and fraudulent means.

It is also charged in the bill that the democratic convention instead of declaring the principles of the party was "dominated" by the Klan. In conclusion of this argument it is pointed out that as Pedy and a large number of others participated in said primary, discovered the allegations enumerated about Mayfield and the Klan, they deemed it their patriotic duty to decline to support Mayfield and that their participation in the democratic primary under these alleged circumstances imposed no moral obligation on them to support him as democratic nominee.

Neff and Keeling Cited  
Austin, Texas, Oct. 7.—Governor Pat M. Neff and Attorney General W. A. Keeling are cited to appear in the Pedy injunction hearing before Federal District Court at New Orleans, October 16, it was learned last night, though they have not been served to appear. They are named as defendants along with Earle B. Mayfield, democratic nominee, and Secretary of State Staples.

Surprise to Mayfield  
Austin, Texas, Oct. 7.—Filing of injunction proceedings in the district court of Alabama, in the Pedy case was a complete surprise to the Mayfield campaign organization, it was stated here last night by J. L. Hunter, campaign secretary.

BRIDGEMAN KILLED  
Fort Worth, Texas, Oct. 7.—John Shiner, a bridgeman, was shot to death in a hotel room here early today. The police arrested Mrs. Josephine Aczam, who they said telephoned them she had shot Shiner because he insulted her. Mrs. Aczam and her husband, George Aczam, were held pending an investigation.

NATIONAL RED CROSS  
St. Louis, Mo., Oct. 7.—The Southwestern Division of the American Red Cross will have a large representation at the National Convention in Washington, which begins Monday, it is announced here at Divisional Headquarters. Credentials were issued to thirty official voting delegates from the division, which includes Arkansas, Colorado, Kansas, Missouri, New Mexico, Oklahoma and Texas. D. I. Johnson, chairman of the Oklahoma county chapter at Oklahoma City, will preside at the War Service conference which is one of the general sessions. John W. Snyder, chapter chairman of Forrest City, Ark., will address the convention.

### TRANSPORTATION OR SELLING IS HELD ILLEGAL

Washington, Oct. 7.—Transportation or sale of liquors anywhere on American ships, whether privately or government owned, and on foreign vessels within three miles of the American coast, was held illegal, under the prohibition laws of the United States, in an opinion rendered Friday by Attorney General Daugherty.

Daugherty, in disclosing his long awaited opinion, said he had been informed that a suit was about to be filed which would carry to the supreme court the point at issue regarding the rights of foreign ships to bring liquors within the American three-mile zone as "ships stores" or otherwise sealed.

He declared his department would undertake to co-operate in expediting the final decision on this point.

The term "all territory subject to the jurisdiction thereof" appearing in the prohibition amendment expresses not a limitation just to lands, Daugherty held, but rather an extension wherever the jurisdiction of the United States may reach. "Certainly," the opinion said, "shipping board vessels owned and operated by our very government itself are 'subject to the jurisdiction thereof'. Because of their ownership by the government, they would in a double sense be subject to the restrictions of the eighteenth amendment."

### GOES TO CRESCENT CITY TO CLAIM HIS BRIDE

Mr. Lewis D. Brown one of our prominent cotton brokers, left Wednesday for New Orleans, where on Saturday he will be married to Miss Jeanette Belknap of that place. He was accompanied by Mrs. C. A. Wyatt, his sister, and Mrs. Hal K. Brown, his sister-in-law, who will witness the nuptials. Mr. Hal K. Brown, his brother, left Friday to act as best man at the wedding. The Sentinel joins in congratulations and good-wishes.

### SPUDS FOR LEGION MEET

New Orleans, Oct. 5.—The potatoes that made a railroad famous will grace the American Legion banquet tables during the national convention of that organization in New Orleans October 16-20.

Since serving Idaho "spuds" none of which weighed less than 2 pounds, the Northern Pacific railroad has become renowned as "The Route of the Great Big Baked Potato." Through courtesy of the National Bank of Idaho at Pocatello, the Cache Valley potato growers have offered to provide these famous spuds for Legion banquets during convention week.

Cache Valley is famous throughout the Northwest for its finely flavored potatoes, which grow to a large size without losing flavor or firmness. Marshal Foch expressed his admiration of their quality and quantity during his continental tour as a guest of the Legion. The potatoes are in great demand wherever known.

Cache Valley is sending a delegation of 100 Legionnaires to the national convention with its spuds to prove its contentions.

The Lutheran church held its first service in Nacogdoches last Sunday in the old opera house. A German service was held in the morning and an English service in the evening. Both services were well attended and the prospects for establishing a Lutheran church in this city are very good. Rev. A. J. Neimann, who conducted the services, will be here again the last Sunday in October and again hold a German and English service.

## CORNS

Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly! Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

## The Kind of Service We Believe In

We'd rather have a customer tell us we're short on battery knowledge than that we've failed in courtesy, thoroughness or keeping our promises.

Skill is mighty necessary in this business—so is knowledge—but it isn't on these alone that we build up our trade. It's through these things plus courteous, businesslike treatment.

Never mind what make of battery yours is. We care for all according to the Willard Standards of Battery Service.

NACOGDOCHES BATTERY CO  
Phone No. 8

Representing Willard Batteries (THREADED RUBBER INSULATION) and W Batteries (WOOD SEPARATORS)

### NACOGDOCHES GIRL IS HONORED BY CLASSMATES

Decatur, Ga., Oct. 7.—Miss Mary Ann McKinney of Nacogdoches was selected Sophomore member of the Executive Committee of the Student Government Association, by her fellow classmates at Agnes Scott College. Her choice for this position is deemed a signal honor at Agnes Scott because of the importance of her work and the large number of contestants for the position.

Nearly 450 young women from all over the South are enrolled at Agnes Scott this year, and interest in all college activities is very pronounced among the young women. This work not only includes regular collegiate study, religious training and devotion, but activities that tend to develop the young women mentally, physically and spiritually. The leaders on the Agnes Scott campus are elected by the popular votes of the young women, and those chosen are elected on the basis of their ability and devotion to duty.

Since the chief aim of college student body and faculty is to expand the institution, one of the chief interests of all Agnes Scott students is toward the building of "A Greater Agnes Scott," in material facilities, educational work and religious training, and many of the student activities are directed to this end.

### ATTRACTIONS AT THE FAIR

Shreveport, La., Oct. 8.—The program of amusement booked for the visitors to the 1922 State Fair of Louisiana, which opens October 19 and runs eleven days, is considered the finest ever scheduled here. There are many wonderful attractions listed, but none promise to command more attention than the daily aerial exhibition by Miss Lillian Boyer, a nineteen year old slip of a girl, who will jump from one plane to another in high altitude, hop from a rapidly moving auto to a ladder suspended from an aeroplane and hang from a plane's wings by her feet and do many other sensational and dangerous feats.

Four days of auto races, October 20, 22, 27 and 29; four football games, including the annual Louisiana-Arkansas university game on October 28, and two games in which the famous Bo McMillin of Centre college prominence will appear as coach of Centenary's team; spectacular fireworks featuring Mystic China each night; auto polo contests twice daily; hippodrome acts and gladway shows and many other attractions are also on the program.

Nacogdoches is discussing the advisability of voting an additional bond issue of \$600,000 to complete her system of roads in a way that the \$300,000 already voted and spent, along with the state and federal aid grants, may not be entirely wasted and the county be left practically without first-class highways within a few years. Nacogdoches is right. With \$600,000 more money that county will be able to improve her highways to a point bordering on perfection, and she should lose no time in voting the bonds.—Lufkin News.

### HOTEL BURNS

Sulphur Springs, Texas, Oct. 9.—The Harrison Hotel was destroyed by fire this morning. The loss is estimated at \$40,000.

THE "NEXT WAR"

If one repeats a statement often enough, he eventually believes it, no matter how incredible or undesirable it may be.

The next step is that if a supposition is believed, it is liable actually to be fulfilled. Thus when the frightened man enters a house said to be haunted he is sure to see a ghost.

A very sinister ghost is threatening the peace of a great power and of the world. A prominent American author who has recently returned from Germany declares that "every one talks of another great war that is to come, and you can seem to get it out of their minds and they are desperate. . . There is no doubt that Germany is banking on a war of reconquest of her shattered empire."

Wars of conquest should be made as scarce by an enlightened civilization as scientific exploration has made the dragons of ancient superstition.

The dragon of warfare, however, will materialize if its image lives in the minds of a nation. Eventually, if Germany sees the dragon plainly enough, she will convince other nations of its reality, and the vision of lasting peace, which might be materialized with equal ease and much happier results, will fade away.

For the good of all the world, something must be done to kill the ghost of the next war in Germany's mind. The only way this can be done is to fill the mind of Germany with the cleaner, saner influence of the spirit of peace and democracy.

DENGUE FEVER

Dr. McHugh, director of the DeSoto, La., Parish Health Unit, in an article concerning dengue fever says: "Dengue fever was first recognized as a distinct disease in Cairo, Egypt, as early as 1779. At Philadelphia in 1780 a short lived epidemic existed. From 1824 to 1829 it was quite prevalent in the Southern States. Since then three or four outbreaks have occurred, the last being at Galveston in 1897. At this time over 20,000 were attacked within two months. This shows the rapidity with which the disease spreads. However of these 20,000 not over three deaths were reported.

Dengue or backbone fever is an acute disease with an intermittent fever, accompanied by pain in the limbs and joints, spread only by the bite of the mosquito, rarely lasts over ten days and nearly every case recovers.

It takes from three to six days after the bite of an infected mosquito before any symptoms show themselves. The attack sets in with a sudden headache, chills and a rapid rise in temperature often reaching a height of 103 to 106. There will be loss of appetite, coated tongue and occasionally intestinal symptoms.

Prevention lies in protection from the bite of mosquitoes. Now is a good time to look over your screening. Watch out for small openings such as ice-box drains, cracks under the floor and loose fitting screens.

A RADIO ACHIEVEMENT

From the Shreveport Journal.

A radio program of songs, band music and speeches sent out from a department store in Newark, N. J., was heard with a fair degree of clarity in the Selfridge department store in London, more than 3,000 miles away. The most notable thing about the achievement was that the program was delivered with only the regular radio equipment, without high-grade accessories or extra power, such as ordinarily would be used for so ambitious an experiment.

Sir Thomas Lipton visiting in America and taking part in the program, spoke of the event as making a period of closer communication and better understanding than ever between the two great English-speaking nations.

But London does not mark the limits of the radio nor of the ether. This is just a foretaste of what will be accomplished. And what with high-way systems opening up all over the world and air traffic and radio conquering the natural barriers which have held the world apart and bred misunderstandings and enmities, the time is not far off when governmental policies, world politics and laws may have to follow the trend toward unity.

The prohibitionists know now that the high seas are no place to get on a high horse.

From the pieces sent around to the papers to print that Henry Ford is the world's "richest man" it appears that his press-agent has not shut down.

THE PLOT OF DEBT

From the Houston Chronicle.

Whether we will or no, Destiny has decreed for us, as a nation, the title role of this astounding plot of debt.

Being the world's creditor nation, with more than a third of the gold reserve at our command and preposterously solvent, we face a large measure of responsibility for what happens in the future.

Being a producing nation, a selling nation, we shall be forced to open markets for our own self-interest, if for no finer reason, and to accomplish this we shall be obliged to share some of the credit over which we now exercise such a gross monopoly.

Those external debts which furnish the visible sign of European bankruptcy are a mere bagatelle compared to internal obligations.

The remnant of Austria, for instance, has issued paper currency to the amount of one trillion five hundred billion kronen.

That paper currency represents neither more nor less than a promise to pay on Austria's part somebody, somewhere sometime.

That paper currency represents an obligation, in theory at least, greater than the wealth of the United States.

If those kronen were redeemed at par, and that is the promise the paper carries on its face, they would call for more than \$300,000,000,000.

No one expects that they will be redeemed, and that is the pity of it. It is taken for granted that Austria has promised the impossible.

The same conditions prevail in Russia and Germany, and to a lesser extent in all continental countries.

The issue of these vast amounts of paper, the acceptance of these obligations that can never be fulfilled, the making of these promises that can never be kept, has been forced on Europe by postwar conditions, and mainly by the external debt.

In order to pay even a small percentage of what they owe other nations, each government is scrambling for a little gold. In order to obtain a mere pittance of the yellow metal, each government is striving to bolster up starving industry with inflated currency.

In order to meet a dollar of obligation on the outside, each government is struggling to gather the gold by contracting \$100, \$1,000, or even \$1,000,000 worth of debt on the inside.

The billions which Europe owes us, and which it can not pay without obtaining gold somewhere, is forcing it to pledge trillions in one of the most tragic, hypocritical, impossible campaigns that humanity ever witnessed.

In Russia, Germany, Austria and several other countries, money has become practically worthless. It is nothing but paper. There is no gold. Recovery of everything like financial and industrial stability is out of the question, until, and unless, those nations who have the gold hoarded up in their vaults come to the rescue.

This can not be done until much of the external obligations have been cleared away. So long as we are owed \$11,000,000,000 we are going to hang on to that gold, even though it prove a millstone around our neck.

Worse than that, we are going to demand more gold and more, and still more, which means an ever accelerated attempt to swap bales of paper for yellow coin.

The bubble that we are helping to blow will burst, of course. Unless a change is made, there will come a day of general repudiation and bankruptcy, which will go far deeper into human affairs than the amount of dollars involved, because it will lead to political and social demoralization.

The peace conferences that have been held were practically nullified by the financial standing, and this will continue until statesmen and diplomats are willing to accept the factor of economics as paramount to the factor of politics.

As a ballplayer Judge andis probably couldn't hit a flock of barns, but he certainly hit a flock of barnstorming.

The driver who has had his automobile newly painted should try to restrain it from climbing a telephone pole. Such action is hard on paint.

It seems to be easier for a lot of people to get to Washington than it is for a lot of people to get Washington.

It is hard to tell these days whether the man who is throwing clubs into the tree is after apples or bad to park his car there.

Even though her husband is ugly enough to stop a clock, many a wife thinks a number of women are waiting downtown to vamp him.

A lot of mothers nowadays worry about their daughters. And the daughters worry about their mothers, but for a different reason.

LEADING CITIZENS TO WORK IN S. A. APPEAL

County Advisory Boards Prepare To Drive For Funds In Week of Oct. 16 to 23

County Advisory Boards of the Salvation Army in the Southwest division, Texas and Louisiana, are lining up for their annual fall financial appeals. The dates for the appeals in most counties are Oct. 16 to 23.

Already committees are at work and in virtually every county in which an appeal will be conducted the most prominent and influential citizen will be found interesting themselves in the humanitarian effort that is the Salvation Army's peculiar mission.

Headed by Judge W. F. Ramsey, chairman of the board of director of the Federal Reserve bank for the eleventh district, as divisional financial chairman, business and professional men, and women who are leaders in their communities are preparing for the appeal for the funds that are so essential if the work of the Salvation Army in the southwest is to go forward for another year.

Few persons comprehend the tremendous scope of the Salvation Army's service throughout the world, nor do they know the extent of the growth and development in that service in recent years.

From the heart of one man who was inspired to live so that others might live, there has grown in 50 years the greatest service organization in the world, an organization that ministers to the spirits, the minds and the bodies of the peoples of all lands, all creeds and all colors.

DOUGHBOYS, DOUGHNUTS IN SECOND BIG REUNION

NEW ORLEANS, La.—The second annual reunion of the doughboy and the doughnut will take place here during the American Legion National convention, Oct. 16 to 23. The reunion will be effected by the Salvation Army, co-operating with the Legionnaires, whose lassies and soldiers will serve doughnuts and coffee to the Legionnaires just as they did overseas.

The first reunion occurred at the convention in Kansas City last year and was so successful that the boys clamored for another. So arrangements have been made by the Salvation Army, co-operating with the committee preparing for the event, here to greet the boys with the well known cry of "Come and get it, buddy."

Booths from which doughnuts and coffee will be served will be stationed in the convention hall, and the streets will be lined with doughnut carts. From early morning until late at night doughnuts, coffee and Salvation can be obtained free. The Salvation Army also will house about 500 of the delegates to the convention, and will open a rest room which will be a replica of the old time army war camp huts.

ARMY APPEALS GO OVER BIG IN SEVERAL CITIES

DALLAS, Tex.—Reports received at divisional headquarters of the Salvation Army show that the cities that already have put on the annual appeal have made liberal contributions; and in most instances will do so before the appeals close.

Dallas showed the way to the entire division, obtaining \$10,000 of its \$25,000 quota on the first day of the appeal, and coming back with \$8,000 on the second day. The entire quota was subscribed in short order.

Texarkana also reports favorable progress, with little doubt that the quota will be over-subscribed here. Work started with a bang and the appeal committees in that city are confident of rolling up the necessary dollars for the Army's work. Reports from Austin and Mexico indicate that a smashing appeal will be put on, for in both of those cities advance gifts from the larger donors point to the manner in which the actual drives will go over the top.

LEGION GIVES GLAD HAND TO SALVATION ARMY MAN

WACO, Tex.—The record and work of the Salvation Army were endorsed by inference during the state convention of the American Legion here, the hearty reception and applause that greeted Lieut. Col. George Wood, divisional commander of the Salvation Army, carrying assurance of the high regard in which this great humanitarian organization is held by the Legionnaires.

Col. Wood was accorded a place on the convention program and his address to the former service men he told them that "Service" is still the motto and business of the Salvation Army throughout the world just as it was during the war. He assured the Legionnaires that the Salvation Army desired to serve them just as readily as it did in the country and overseas during the war, and invited them to tell him how the Army could be of great service to them and their organizations.

Doughnuts and coffee, the kind that were served in France, were handed out to the convention delegates and their friends by Salvation Army officers and lassies, some of whom had their first reunion with boys they had just overseas.

A PLEA FOR THE PRODIGAL GIRL

I have read of the death of the martyrs;

The story of Peter and Paul, The story of Luther and Calvin— I respect and honor them all; And also old Thomas and Stephen, Honest and faithful men, And I've read the sweet story of Jesus,

And I expect to read it again. I've read of the Good Samaritan, Of charity's lesson begun, And my heart goes out in great pity To the wayward prodigal son.

"All are so glad to welcome him, So quick to forget and to forgive, It makes no difference what he has done,

If he only comes back to live; They have always prayed for the prodigal boy,

Since ever the world begun, The joy, the glory, forgiveness, Of the returning wayward son, But poets seem to forget to write Of the saddest thing in the world—

They are not so eager to welcome back The poor little prodigal girl.

"Just why she has turned out crooked—

She happened to find the 'right one,'

Who had the slick tongue of a Judas— And that was your prodigal son. Though the boy is upheld and forgiven,

It is common all over the world, That you scornfully point out for gossip

The poor little prodigal girl. There is nothing so truly pathetic As the life of the maidens who fall, And if you search down to the bottom You will find the cause of it all.

"But he is led back in society And nursed with the tenderest care, Held up to the world as a hero, And mentioned in fervent prayer,

While she is cast out from her loved ones, Out in the hard, cruel world, And everyone points out and scorns her,

The poor little prodigal girl. Now, as has been said quite often, And we will repeat it again, That 'the lowest of fallen women Are better than some of the men.'"

—Published by request.

FUNDS ARE NEEDED STUDENT AID WORK

The several articles which have recently been published in regard to the work of the Texas Student Aid Association have brought scores of appeals for aid. So many have these calls been that the present available funds of the association are exhausted. This appeal is being made for contributions that a fund may be ready for students by December 1.

Houston, Beaumont and other cities have made liberal contributions; Bee and other counties are being organized for work for student aid funds.

Everyone who reads this article is urged:

To look after some boy or girl in the community who needs assistance to be able to attend grade or high school, college or vocational school; or

To send the amount to be contributed to Mrs. A. C. Buchanan, treasurer of the Texas Student Aid Association, Temple, Texas, noting the school for which the loan is to be used.

PRESBYTERIAN W. M. S.

The Woman's Auxiliary of the First Presbyterian church of our city met at the home of Mr. and Mrs. Louis Muller Monday afternoon with Mrs. Muller and Mrs. W. H. Dickson joint hostesses.

Mrs. Paul Perkins had charge of the program on "Korea" which was well carried out. Our Korea missions always interesting because so encouraging. Our work among the lepers of that country is wonderful, carried on by Dr. E. M. Wilson, of which he gives a good account in the "Observer" of October 4th.

After the lesson delicious ice cream and cake was served. Little six months-old Miss Perkins proved our most interesting guest.

Women's abbreviated clothing has caused Swiss insurance companies to increase the rates on such risks. In the belief, possibly, that the shorter the skirt the shorter the life.

Isadors Duncan, classic dancer though she may be, may show us better but not as many steps as Washington is going to take in the coal strike.

Someone has been getting Joe Fordney wrong. He didn't say there would not be higher prices on account of his tariff. But what he said was the bill didn't justify higher prices.

BREWER & MILLARD

The Store that Undersell. Nacogdoches, Texas

NEW BUT GIGANTIC.

Figures compiled by a well-known Wall street statistician as to the expenditures of the American people on automobiles, their operation and upkeep, are almost incredible. For cars and accessories, gasoline, garage, license fees, insurance and other things directly connected with motor vehicles we are now spending, he asserts, approximately \$7,000,000,000 yearly or about one-seventh of our aggregate personal income after payment of federal taxes. We spend more for automobiles than for railroad transportation, or for fuel and light, or for shelter.

In these figures is revealed a fairy tale of modern commerce. It is just a few years ago that the "horseless carriage" was introduced to the business world. Who would have been so bold as to predict that while still in its infancy the new industry would have attained the gigantic size it now has? Yet the growth of the automobile business is not unique. The moving picture industry, still younger baby in the commercial world, also can be described only in figures which surely must surpass the expectations of the most sanguine pioneers in this field of business. It is but reasonable to assume that some of the newer inventions—the aeroplane and radio for example—also will attain commanding positions among the industries.

That we are now spending one dollar of every seven that we earn on automobiles, as against \$1 out of every \$32 just before the war, suggests that we may be extravagant—that we are possibly spending more for motor transportation than we ought. The compiler of the figures hints that the point of saturation may have been reached in the motor business in the United States. If we are now spending all that we can afford, it is useless, of course, to look for further expansion of the automobile industry except through the broadening of foreign markets. The people in other parts of the world have not started to use motor cars to the extent that Americans have. The 10,863,744 automobiles which were registered in the United States on July 1 last were more than the total number to be found in all of the other continents.

It is doubtful, however, if the point of saturation has been reached in the domestic market for cars. There has been published what purports to be a description of the average automobile buyer, obtained by gathering information from a large number. He is described as having net equity in real estate of \$4,286.08, net equity in personal property of \$2,979.38, and a definite monthly income of \$349.70. He purchases a car averaging \$1,361.96 in cost, on which he pays down \$698.21 and the balance of \$663.75 in monthly installments of \$9.60.

With the average wealth and income of buyers of machines so high, it looks as though many more persons would be able to purchase cars without embarrassment before everyone has one who wants one and can afford it.

GONE FOREVER

Enough gasoline to run a Ford car 1446,000,000 miles is wasted each year in America through evaporation in storage tanks. So announce John-Manville engineers, working with the U. S. Bureau of Mines.

It seems like a big waste. It is. But America is a land of waste. The old saying that the food we throw into our garbage pails would feed Europe, is not far from correct.

However, like other people, most of us are reasonably economical. We turn the carpet to distribute bleaching by the sunlight instead of letting the fading concentrate on one end. We make the remains of the roast into hash. We mend and patch. And, too, most of us save an atticfull of stuff that "might come in handy"—but never does.

A ton of coal leaves the mine with 29,000,000 British thermal (heat) units locked up in it. But only 1,014,000 of these heat units are actually converted into mechanical energy. The rest is wasted, lost in transit, up the chimney or carried away by the ashman.

You could fry an egg in a twinkling by holding the "spider" over the top of the average chimney. No one has ever been able to figure out how to save that wasted heat. Eventually someone will. The solution may be in putting a hot water tank a few inches above the chimney top, or water pipes crosswise within the chimney.

Slag in the steel industry used to be wasted, piled up in small mountains. Now it is ground up and used as a surfacing for bricks.

Time was, in the oil country, in the days of kerosene oil lamps, when men around the refineries washed their overalls in a tub of gasoline and then dumped the "gas" out. The fellows who invented gasoline engines and autos stopped that sort of waste by finding a use for gasoline.

The profits of many big corporations today are largely in such economies as these. More opportunities for bright minds, in the stopping of waste, than any other field.—Ex.

## YOUNG FOLKS HERE IS YOUR OPPORTUNITY.

"Pick scraps of time from the waste basket, turn them into dollars;" earn while you learn by taking a money-back-guaranteed General Business Course, General Banking Course, General Railroad and Telegraphy Course or one of our most thorough and practical courses of Bookkeeping, Shorthand and Typewriting, Business Administration and Finance, Telegraphy, Commercial Law, Business Arithmetic, Salesmanship, Advertising, Commercial Lettering or Business Penmanship by Correspondence thru the extension department of the Tyler Commercial College.

We produce satisfactory results or refund tuition. Our correspondence courses include the same subjects as given with the personal course, and with the privilege of entering college for personal work at any stage of your course, without paying additional tuition. In other words, the correspondence instruction is absolutely free if you enter for personal work. Many find it of great advantage even when they intend to take personal work later, to first enroll for the course by correspondence and utilize their spare time until they are ready to enter, since it costs nothing extra. This often saves two or more months' time and board in school on personal work, and enables them to accept a good position that much earlier. We give free use of a standard typewriter with the full Shorthand Course. Many of our students have attained a speed of from forty to fifty words per minute thru our systems of touch typewriting in three months and have at the same time carried on their other work. Telegraphy instruments and supplies are furnished with our course of Telegraphy and a thorough course of Salesmanship is given with Bookkeeping.

We use our original copyrighted methods. We make every subject practical and interesting from start to finish. Every lesson receives prompt attention and a personal reply. We have taught hundreds of students successfully and know we can teach you, or we would not guarantee to refund your money. Why continue to waste your spare moments? Turn them into knowledge and make them earn you dollars. Invest yourself for the wonderful

opportunities for trained young men and women in the business world. You cannot afford to waste your spare moments when there is such a need for capable office help. For full particulars and large free catalogue, address the

## NOTICE

The Angelina County Singing Convention will meet with the Homer Class Friday night before the 4th Sunday in October, continuing until Sunday.

Homer is located on the highway about six and one-half miles east from Lufkin and about 4 miles west from Huntington.

Everybody and especially singers in all neighboring counties are cordially invited to attend.

If you expect to come on the train, notify me at Lufkin, Texas, and arrangements will be made for your conveyance.

Some, everybody, and let's enjoy another song feast.

Yours in song,  
R. A. Courtney, President

Those who want to know what an old maid would do if she could live her life over, should make a list of what she objects to in the flapper.

## A COLD GONE IN FEW HOURS

"Pape's Cold Compound"  
Acts Quick, Costs Little,  
Never Sickens!

In a few hours your cold is gone, head and nose clear, no feverishness, headache or stuffed-up feeling. Druggists here guarantee these pleasant tablets to break up a cold or grip quicker than nasty quinine. They never make you sick or uncomfortable. Buy a box of "Pape's Cold Compound" for a few cents and get rid of your cold right now.

## WIDE INTEREST SHOWN IN S. A. FUNDS DRIVE

District Chairman Appointed Throughout Texas and Louisiana.

Interest in the forthcoming annual home service appeal of the Salvation Army, which will be held in most parts of Texas and Louisiana during the week of Oct. 16 to 23, is increasing daily.

Prominent men and women in increasing numbers are identifying themselves with the movement which has for its object the raising of funds with which the Salvation Army will conduct its work in the Southwestern division for another year.

Judge W. F. Ramsey, divisional finance chairman of the appeal, has received scores of letters from leading citizens, assuring him of their wholehearted support and offering to serve in any capacity in which they can be of service during the appeal.

The appointments of several men as district chairmen also have been announced by Judge Ramsey. These district chairmen are men who are leaders among their own people, are busily engrossed with their daily affairs, but who find time to devote to the humanitarian effort of the Army. Among those who are serving as district chairmen are Frank Kell, financier of Wichita Falls; Rev. W. S. Garnett, Victoria, Texas; Nat Washor, president of Washer Brothers, San Antonio; Judge R. W. Stayton, Corpus Christi, Texas; Judge E. J. Overshiner, Abilene, Texas; Chester Harrison, banker of Brownwood, Texas; Sam Sparks, banker of Austin, Texas; Judge J. D. Gline, Lake Charles, La.; Judge Al Hundley, Alexandria, La.

These men realize that the Salvation Army cannot function without funds, and that these funds must come from those more fortunate than the persons to whom the Army is rendering service every hour of every day in all parts of the world. They realize the necessity for funds with which the Salvation Army maintains its 16 major activities in the Southwestern division. These activities are:

Relief of the poor, rescue and maternity homes, young women's boarding homes, industrial homes, workmen's hotels, fresh air camps, Christmas dinners, free employment bureaus, prison work, juvenile industrial and agricultural schools, boys' friend bureaus, missing friends bureaus, anti-suicide bureaus, work among service men, field and evangelistic work, and emergency departments.

## BREEDING OF MOSQUITOS

Where do mosquitoes breed? In water—in still water and in the pools and grassy edges of running water.

How do these mosquitoes breed? They lay their eggs on the surface of the water. These eggs float, and in a few days hatch into larvae, or "wiggly-tails". These live in the water and in time turn to pupae, or "tumblers," which turn into mosquitoes. There are four changes in the development of mosquitoes just as for butterflies; the eggs for both, the larvae in place of the caterpillars; the pupae in place of the chrysalis, and the mosquitoes in place of the butterflies. For mosquitoes all these changes must take place in water, and for Anopheles will take from 12 to 16 days in summer weather—longer in cold weather.

Can one tell the larvae of Anopheles? (Malarial mosquito.)

Yes, the Anopheles larvae lies at the top of the water and parallel to it, for all the world like a basking pipe. The larvae of other mosquitoes hang from the top, head downward. If the latter are touched, they will always dive. If the Anopheles larvae is touched, while it may dive it will generally "scoot" backwards along the top of the water. They are not a bit unlike, and once seen no one will ever mistake one for the other.

Is it important to recognize the larvae of the Anopheles?

Yes; it is far more important to recognize the larvae of Anopheles than the mosquitoes themselves, because this enables us to find their breeding places and hence to destroy them.

In what kind of places do Anopheles breed?

They prefer to breed in clean water, in small, shallow, shady pools with grassy edges; if with grass growing in them so much the better. A marshy piece of ground with many small pools among bullrushes and sedge, is an ideal place. The grassy edges and quiet pools formed by obstruction on small streams are also favorite places as are cattle tracks. They have no objection to running water unless running swiftly. Some species breed well in large ponds.

Do they breed in such places only?

They occasionally breed in almost any collection of water, unless it is very foul; shallow wells, water bar-

rels, tin cans, etc., especially if they have leaves or grass in them or the green algae—"frogmoss". Generally however, they avoid barrels, cans and other artificial containers unless they have grass, moss, etc., in them.

How long must a pool last to breed Anopheles?

Since it takes usually about 14 days for the egg to produce the mosquito, if a collection of water dries up completely in less than 14 days, it is not likely to breed Anopheles mosquitoes.

## STATEMENT OF OWNERSHIP Of Weekly Sentinel published Thursday at Nacogdoches, Texas, for October 1st, 1922.

STATE OF TEXAS, County of Nacogdoches, ss.

Before me, a notary public in and for the state aforesaid, personally appeared Giles M. Haltom, who, having been duly sworn according to law, deposes and says that he is the owner of Weekly Sentinel, and that following is, to the best of his knowledge and belief, a true statement of the ownership, management (and if daily paper the circulation), etc., of the aforesaid publication for the date shown in the above caption, required by the Act of August 24, 1921, embodied in section 443, Postal Laws and Regulations, printed on the reverse of this form, to-wit:

1. That the names, and addresses of the publisher, editor, and business managers are:

Publisher, Giles M. Haltom, Nacogdoches.

Managing editor, Giles M. Haltom, Nacogdoches, Texas.

Business Manager, Giles M. Haltom, Nacogdoches, Texas.

2. That the owners are:

Giles M. Haltom, Nacogdoches.

3. That the known bondholders, mortgagees, and other security holders owning or holding 1 per cent or more of total amount of bonds, mortgages, or other securities are: None.

GILES M. HALTOM.

Sworn to and subscribed before me this 11th day of October, 1922.

G. E. STRIPLING, Notary Public My Commission expires June, 1923.

Mr. Joe Wolsiefer is back on the job at Orton Furniture Store after a set-to with the dengue.

Subscribe for the Sentinel.

## THE SAFEST COUNTRY

In sending his fortune of \$5,000,000 in gold to New York, presumably for investment, former King Constantine of Greece shows he has retained his shrewdness with his troubles. He is not the first member of old royalty to case a financial anchor to windward in the United States. For many years a substantial business block on Main street, Buffalo, was owned by a mysterious "Mrs. Brown"

On the death of Queen Victoria it was learned that she had been the real owner, and indeed it was only one of her many investments in income-producing property in this country. The late King Edward owned rich farm lands in our western states and stocks and bonds of leading American corporations. It was his custom to make searching inquiries concerning profitable investments in this country and he often asked for the tips from American financiers whom he entertained. It is said that King Alfonso of Spain has large sums invested in American industries.

These and other representatives of European royalty have wanted to have private fortunes invested not only where they would yield a good interest, but where they would be safe from political overturns. Britain's throne has not been in danger from revolution, but the fortunes of its occupants might have been seriously affected by defeat in the recent war. America is universally regarded as safe from either internal troubles or foreign attacks. Socialistic and other radical doctrines have never obtained a foothold here. The radical orator makes himself ridiculous when he prates about the down-trodden wage earner at a time when the average wage-earner's chief worry is over the price of gasoline or the cost of repairs to his car. The American system of government, which is committed to the defense of the right of private property and confirms every man in the ownership of the fruits of his industry, ability and foresight, is as solid as a rock.

European royalties do well to send their money here. Furthermore, if they are ever compelled to leave home they can find jobs here—that is, provided they are willing to work.

The supreme court has two years work ahead. Perhaps that is why a justice resigned recently.

**BALLOT BE CERTIFIED WITHOUT MAYFIELD'S NAME**

Austin, Texas, Oct. 7.—Secretary of State Staples announced late Friday afternoon that he will certify the official ballot to the county clerks over the state for the general election in November Friday night, without the name of Earle B. Mayfield, democratic nominee for the United States senate.

Staples has not definitely announced what method will be used in having Mayfield's name added to the ballot in case the injunction against including it is dissolved.

The advisability of using telegrams to all county clerks has been discussed.

**DOUGHBOYS AND DOUGHNUTS**

New Orleans, Oct. 7.—A reunion of the doughboy and the doughnut will be effected when the Salvation Army girls distribute thousands of doughnuts and cups of hot coffee to visitors at the American Legion national convention in New Orleans, October 16-20.

During the war the Salvation Army won the hearts of all American fighters with the doughnuts prepared oftentimes within range of the German guns.

Two booths will be established by the army in convention hall and "doughnuts and doughnuts" will be placed on the downtown streets. A rest room, the replica of the familiar war camp huts in France, will be installed.

Under the direction of Lieut. Colonel George Wood, commander of the Southwestern Division of the Salvation Army, officers and lassies from all parts of the country will be assembled at the Legion gathering. The army girls who come will be assigned solely to the work of making and serving doughnuts and coffee. Some of those who will serve in this capacity who are Salvation lassies who were active in overseas service.

**PARTIALLY DESCRIBES IT**

Editor Lowery of the Horey Grove Signal has had it and this is the way in which he describes it:

The great theme of conversation in this country at present is not politics, diplomacy, threatening war, athletics, nor the price of cotton. All these are overshadowed by Dengue Fever, the shakingest, acingest, lunningest, enibingest, humpingest, and twistingest malady that ever worked complexities upon the human frame.

He then proceeds to describe in detail the pesky mosquito that gave it to him and after his experiences in the following language:

"From that day on life to us has been a taste, a smell and a feel of the vile things this world holds and a panorama of horrors far more frightful than anything Dante saw in Inferno. We have sat for hours upon glaciers and drunk lava from the crater of a belching volcano. We have been hitched between trains going in opposite directions and had ourselves scattered for miles along the railroad. We had big steers with frozen hoofs use our back for a race course, and have hadimps of hell come and squirt our eyes full of boiling blood. To the dengue victim the most beautiful woman is a hag, the downiest bed a row of sharp steel spikes, and the sweetest pastries carry the flavor of rotten fish and decayed eggs."

**WAR SEEMS CERTAIN**

Constantinople, Oct. 9.—Turkish Nationalists troops yesterday resumed their advance in the Dardanelles area in the direction of Chanak, the British stronghold, according to a Mudania dispatch to local newspapers. The British have made final preparations for defense, blowing up bridges and crossroads.

**NO KICK COMING**

London, Oct. 9.—The prohibition of liquors on vessels within American waters will give rise to no international complications, according to official information. The conclusions with those in authority is that the matter is one in which the United States has a perfect right to take any action it sees fit.

Tribune man heard a mighty good man say the other day in speaking of how he sized up a stranger that "he is a Mason, a member of Baptist church, and a Mayfield democrat, and I believe he's alright." Naturally we think his logic is good, but some people we know would use the same method of arriving at an entirely different conclusion, especially as to the "Mayfield Democrat" part of it. It's funny how two people see same thing so differently.—San Augustine Tribune.

**DEPLORABLE TRAGEDY ENACTED NEAR BURKE**

Lufkin News, 7th. The News learns this morning from parties coming up from Burke of a very regrettable tragedy that was enacted in that community yesterday afternoon about 5 o'clock. From the hour mentioned Mr. Wayne Ivy shot himself in the back of the head with a 32-caliber pistol, the ball lodging just under the skull, from the effects of which he died in about two hours. The deceased was about 35 years of age, a son of Mr. and Mrs. J. J. Ivy, and was regarded as a good citizen. He leaves a wife and three children. For several months it is said that Mr. Ivy had been in very poor health, unable to do any work, and it is presumed that this condition led to the tragedy. It was while resting on a bed at the family residence with no one in the room, when the tragedy was enacted, that the wife of the deceased just having left the room to bring her husband a drink of water when the fatal shot was fired.

The funeral was held this afternoon, the funeral taking place at Ryan Chapel, with a large number of friends attending.

The News extends sincere condolence to the bereaved relatives.

**TALKING MOVIES**

The patent office at Washington is full of inventions that have never proved practicable. Inventions are constantly being offered that are not wanted. The newest invention in the motion picture industry—talking movies—faces the same question. Now that we've got it, what are we going to do with it?

Probably the illusion of the moving picture would be weakened rather than aided by adding the voices. The message of the movies must be intercepted in terms of action. The silver sheet can never hope to take the place of the stage. It has a place of its own to fill.

The new invention must not be classed as useless, however. In at least three ways it will prove to be of great value.

First, it will demonstrate its worth in the recording of historical events. A president's speech will be kept forever, with both voice and action held on the same strip of film. Similarly, other important events will be recorded.

Again, in educational films, a distinct gain will often be made by reproducing the sound with the picture. Now the lion can roar more realistically, and the music of the sound of the waterfall can be caught. Often, instead of the sounds accompanying the action, a descriptive lecture will go with the film.

Finally, any musical production from a musical comedy to a grand opera can be given. In the stage productions, the acting is sometimes necessarily sacrificed to the music. In the talking pictures, it will be possible for one group to do the acting, and another the singing, both action and music timed by the same orchestra.

**IN THE NEAR EAST**

Mudania, Oct. 9.—The allied generals here for the armistice conference spent the morning conferring with the Greek delegation. A conference with Ismet Pasha, the Turkish Nationalist representative, was scheduled for this afternoon. General Harrington, the British commander in chief, has received assurance from Ismet that there would be no further advance of Nationalist troops in the neutral zone.

Disturbing Situation London, Oct. 9.—The Near East situation continues to present disturbing potentialities. The revolutionary Greek army at Adrianople declared it would not retire. The victorious Turkish army is concentrated at Brusa, and Ismid anxious to reach Constantinople to protect the Turks in Thrace. The instructions upon which General Harrington is acting today is to reiterate to Ismet that the Turks must respect the neutral zone and cannot send a large number of troops to Thrace. Uneasiness is increased by the fact that the Allies are not considered to have sufficient armed forces to control either Turks or Greeks.

London, Oct. 9.—The prohibition of liquors on vessels within American waters will give rise to no international complications, according to official information. The conclusions with those in authority is that the matter is one in which the United States has a perfect right to take any action it sees fit.

**'DOCHES 34, TIMPSON 0.**

C. B. Davis Played Great Football With Fever 102.

'Doches Tigers easily take victory No. 2 from Timpson, 34 to 0. 'Doches goal has never been in danger this season. Wild-Cat Bates, the famous right end of the mighty 1921 season was out of yesterday's line-up with a wrenched shoulder and a cross-eyed mind received in the San Augustine game Friday was a week ago. Several of the 'Doches players were suffering from the dengue fever.

'Doches played real football from start to finish. Captain "Red" Parrish and "Cotton" Olds showed some real stuff in the line and have started in this season better than ever before. "Get their man" seemed to be their motto.

Teutsch seemed to be a young Samson and went through Timpsons strong line at his will and with all ease. Burrows handled Passey perfectly throughout the game.

Captain Parrish won the toss and took the west goal. Summers kicked off for about 40 yards. Timpson returned the ball to about the 30 yard line. Timpson's eleven gained only 7 yards against 'Doches' line in 3 downs. Timpson kicked the ball to safety, but Summers returned the ball to the 30 yard line. Doches gained 2 downs through the Timpson line, Hargis made the first touchdown through Timpson's line in less than 8 minutes from the referee whistle, and Summers kicked goal.

'Doches and Timpson made several downs in the rest of the first half of the game, but neither side scored, playing mostly on Timpson's ground.

In the second half both teams returned to their positions with fire in their eyes. Summers made an open field run of 45 yards for a touchdown in less than the first 5 minutes and kicked goal. 'Doches fans went wild.

That mighty C. B. Davis ploughed through Timpson's line for 15 yards in two downs for 'Doches' third down, with fever 102; Summers failed to kick goal.

Timpson completed several forward passes from Harbuck to Watson in the remaining part of the third quarter. By Summers' wonderful tackling and the strong line, Timpson failed to gain much ground.

The last quarter 'Doches got the ball on the 20 yard line, but failed to complete a pass on the fourth down and the ball went to Timpson. They failed to gain against 'Doches' strong line and made a long punt back to safety. 'Doches made 2 downs and Burrows completed a 20 yard pass to Brewer for the fourth down. Summers kicked goal.

Brewer to Burrows also completed another 20 yard pass for the fourth touchdown, Summers kicked goal. This making a great day for Summers.

Timpson's team was much stronger than 'Doches expected, their line being heavier than 'Doches. Harbuck completed several good passes to Watson, but were unable to gain much. Timpson's eleven played real clean football.

'Doches' team and fans truly wish they would win every game from now on. 'Doches Rooters with Anna Mary Blount a yell leader, should get "pep" throughout the entire game.

**The Line-Up**

Timpson	re	Doches	Spears
Watson	le	Burrows	E. Bates
Andrews	rt	Olds	Johnson
Ramsey	lt	Denard	Parrish
Hooper	rg	Summers	Jeffries
Powers	lg	Hargis	Brewer
Witches	c	Boatner	Wilson
Todd	q	Wilson	fb
Harbuck	rhb		
Neal	lhb		
Boatner	fb		
Wilson			

Timpson subs—Adams for Todd, Stridley for Ramsey, A. Adams for Andies, Morris for Boatner.

'Doches subs—Sullivan for E. Bates, Avery for Johnson, Teutsch for Denard, Joe Parrish for Teutsch, Davis for Hargis and Brewer for Hargis. Officers—Davidson, referee; Roberts, umpire; Levy, head lineman; Davis and Kennard, Time keepers.

Time out for Timpson, 2 minutes; Doches 2 minutes. Time of game one and one-half hours.

**FIGHTING IN RUSSIA**

Vladivostok, Oct. 9.—Desperate fighting between "Red" and "White" armies is in progress on the Spansk front. The battle is the severest recorded since the Japanese evacuation began. The soviet forces are reported rushing troops, warplanes and tanks, toward Vladivostok, whose defenders are offering furious resistance.

Mr. Curtis Roberts of Port Arthur and Miss Sarah Scanley of Angelina county were married Saturday afternoon in the county clerk's office by Judge Frank Huston.

**DODGE BROTHERS BUSINESS SEDAN**

With this car, Dodge Brothers have literally created a new type of sedan.

They have combined open car ruggedness with closed car protection and smartness.

They have demonstrated, once for all, that a sedan can be as practical and almost as inexpensive as an open touring car.

The body is built of hand-welded steel because steel is sturdy, and will take a permanent, oven-baked finish, eliminating forever the cost of repainting.

The seats are upholstered in attractive, genuine Spanish blue leather, because leather will wash and wear.

To further enlarge the car's usefulness, the rear seat, back and side cushions, seat frame and foot rest are quickly removable, giving sixty-four cubic feet of flat loading space in the rear compartment. The manifold uses made possible by this unique feature are readily imagined.

The top and rear quarters are of non-rumble, fabric construction, conforming with the present attractive vogue. From cord tires to curtain cords, the fittings, inside and out, are distinctive and complete.

In fact, every detail of the car emphasizes its striking adaptability to business as well as social use.

The Price is \$1,345.00 Delivered

**Acher Motor Co.**  
Nacogdoches, Texas

Patents Pending

**DEMOCRATS TO AID IN DOUBTFUL STATES.**

Dallas, Texas, Oct. 6.—Funds subscribed by the democrats of Texas to the Democratic National Committee for the prosecution of the present campaign will be used exclusively in "doubtful" states, according to a telegram received Thursday from Cordell Hull, chairman of the national committee, by John C. Harris and Miss Margie Neal, chairman of the Texas finance committee. The question was brought up at the conference of the senatorial district finance chairman with the state chairman here Tuesday, at which time a telegram was sent to the national committee.

The telegram received from Mr. Hull follows: "I deeply appreciate the action of the National Democratic Finance Committee for Texas upon its organization for the work of raising funds among the democratic men and women of your state, to defray the expenses of the Democratic National Committee in the pending campaign, to elect a democratic congress. All funds contributed in your state will be used solely for the purpose of defraying publicity and other legitimate campaign expenses in doubtful states of the North and East and West and Middle West, where our needs are most pressing, and our opportunities inviting. I wish you the greatest success and promise you that we will make every penny bring the greatest possible results."

"Cordell Hull."

The campaign is being organized throughout the state, according to advices received from state headquarters, 319 Western Indemnity Building, and the efforts of the chairman are being directed at completing the work within the three weeks agreed upon.

**STOMACH BAD?**

Dallas, Texas.—"I suffered for years with stomach trouble, which seemed to affect my heart. I took two bottles of Dr. Pierce's Golden Medical Discovery, also the 'Pleasant Pills' to regulate my bowels, and got the very best results from both. I am always glad to recommend Dr. Pierce's medicines."—Mrs. J. R. Davidson, No. 1700 First Avenue.

Your druggist will sell you Golden Medical Discovery, tablets or liquid, or send you for trial pkg. to Dr. Pierce's Invalids' Hotel in Buffalo, N. Y., and write for free medical advice.

The committee is in need of immediate funds, Mr. Harris said, and he is directing chairmen to make returns as soon as the funds are collected.

"The need is urgent," said Mr. Harris, "and we are hopeful that Committee men will organize teams and begin the campaign immediately. Two years ago Texas contributed \$82,000 to the National campaign, and though we are asking for only \$50,000 this year, we are hopeful that an extraordinary large number will subscribe. It was agreed at the meeting here last week that we would pay more attention to popular subscriptions from \$1 to \$5 than in former years. There are some Democrats in Texas whose wealth is great enough that they will want to make more substantial subscriptions, but we want to receive the donations of men and women who are in position to give \$1 freely in the interest of their party and their government. Chairmen are being urged to complete their collections as rapidly as possible and forward the money to 319 Western Indemnity Building, Dallas, Texas."

JNO. C. HARRIS,  
MARGIE E. NEAL.

Mr. Bob Mathis, who was so cruelly injured in a freight train wreck at the Gumbo Pit several months ago, is now able to come downtown, though still showing the effects of his hurts. Glad to see him out again.

Little Miss Eunice Moore, daughter of Mr. and Mrs. Jack Moore, was attacked by a vicious dog Wednesday afternoon. The animal had taken refuge under the house, and when the young lady went to the yard hydrant for a vessel of water the dog rushed out and seized her by one of her legs and bit it rather severely. A physician was summoned and the wound attended to. Thursday morning City Marshal Watson killed a dog supposed to be the one which attacked the girl, and has declared war on stray canines.

The houses are being numbered in preparation for the city directory to soon be issued for Nacogdoches. Probably we will then know "where we are at" and locate our residences and business houses by numbers instead of by the points of the compass.

Governor Taylor of Tennessee has entered an old fiddlers' contest. Still, for fiddling around give us congress.

**GOVERNOR AT DENISON**

Denison, Texas, Oct. 9.—Governor Neff inspected the Katy railroad property and met with a committee of striking shopmen today. He spent the night in camp with the Texas military on martial law duty here. The governor will go to Tyler this afternoon to investigate the situation caused by the reported shooting of a striker by a ranger.

Martial law will be maintained in Denison indefinitely, Governor Neff declared after a survey of local conditions.

The home of Prof. Ed Campbell of the colored school was burglarized Thursday night and Friday afternoon Grady Moore, colored, was arrested by Deputy Sheriff Stone in connection with the offense. The burglar made away with half a sack of flour, a supply of bacon, cane syrup, some silverware, a watch and ring, in addition to which he supplied himself with soap and other small articles lying about the house.

The High School had its first fire drill Friday and it went off with the utmost smoothness, the rooms being emptied in a few moments. These drills will be staged several times a week, until the evolution become practically automatic. With the up-to-date appliances installed in the building, there would be really no danger from fire, should one occur, but a stampede might be disastrous, and it is in protection against this that the drills are valuable.

**DYED A SWEATER AND SKIRT WITH "DIAMOND DYES"**

Every "Diamond Dye" package tells how to dye or tint any worn, faded garment or drapery a new rich color that will not streak, spot, fade, or run. Perfect home dyeing is guaranteed with Diamond Dyes even if you have never dyed before. Just tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton, or mixed goods. For fifty years millions of women have been using "Diamond Dyes" to add years of wear to their old, shabby waists, skirts, dresses, coats, sweaters, stockings, draperies, hangings, everything!

# Kellogg's Corn Flakes

## touch-the-spot

### any hour of day or night

"Bobbie dog, guess it makes you hungry, too, to see me eat a great big bowl of Kellogg's for breakfast every morning! But I can't spare any today, Bobbie; honest I can't!"

You can't resist the appeal of Kellogg's Corn Flakes! Pour out a bowl brim full of Kellogg's—big, joyously brown, crisp and crunchy! Was there ever such an appetite treat! And, such a flavor! A breakfast or lunch or supper thrill for big folks as well as little ones.

Get KELLOGG'S Corn Flakes for sure—because Kellogg's are the original Corn Flakes and so deliciously good and so superior in every way that your delight will be boundless. Please understand that Kellogg's are never tough or leathery or hard to eat—they're always crispy!

Kellogg's are sold only in the RED and GREEN package bearing the signature of W. K. Kellogg, originator of Toasted Corn Flakes! NONE ARE GENUINE WITHOUT IT! Have Kellogg's for breakfast tomorrow!

From Waco, Texas, made by Tom Padgett Co.—Over fifty years in business—they don't hurt your horse.

(Padgett's ad has been carried in the Halton papers for over forty years.)

### THE WATER SITUATION

Mayor Baker informs the Sentinel that water from the pond was cut off Wednesday and now nothing but the flow from the artesian wells goes in to the mains. The water may be "milky" for a day or two, but its appearance will not affect its wholesomeness.

When the cave-in occurred last week in the artesian basin from which our supply is drawn the water was muddy and practically unfit for use for domestic purposes and was a sore trial to the housewives of the city. When the cave-in filled the basin with sand and "gumbo", and the only way to get rid of it and save the wells was to pump it out through the mains, and of course it went thence into the hydrants. To prevent the water from falling below the danger point, it became necessary to turn on the pond in order to have a supply in case of fires. Just how many tons of sand and mud went out through the mains and hydrants would be hard to estimate, but a great quantity was gotten rid of in this manner, and the basin was correspondingly enlarged and the source of supply increased far beyond what it has ever been in the past. So, as the mayor said, the seeming calamity proved to be a blessing in disguise. It is not probable that such a contrepas will again irritate the water consumers of the city.

The new well recently completed will be brought into service at once, it was stated. This will greatly increase the water supply. Its flow will probably be turned into the mains Sunday night. It is probable consumers will be notified to provide themselves with sufficient water to last them from about 10 o'clock Sunday night until 6 o'clock Monday morning, when time will be required to make the connection.

The boys at the plant did their level best to keep things going, working night and day to fend off the impending disaster. For this they should receive the thanks of everybody in town.

We'll soon be again enjoying the best water in East Texas.

To get rid of worms in children give them White's Cream Vermifuge. The little sufferer improves at once and soon becomes healthy, active and robust. Price 35c. Sold by Swift Bros. & Smith.

### GINNING REPORT

There were 9,132 bales of cotton ginned in Nacogdoches county from the crop of 1922 prior to September 25, 1922, as compared with 2,867 bales ginned to September 25, 1921, or an increase in ginning up to that date of 6,265 bales in favor of 1922.

Mrs. J. D. Blakey announces the engagement and approaching marriage of her daughter, Lyda Mae, to Fred Edward McAuliffe, the wedding to be solemnized at the home of the bride's mother, 6902 Avenue H, Saturday, October 14.—Houston Chronicle.

Miss Blakey formerly resided here and this will be of interest to her many friends.

### FARM FOR SALE.

50 acres, Panola county, 6 3-4 miles Carthage on public road, R. F. D., telephone, three churches and school, one mil. Five-room house, good barn, fine well water, stock, tools, and feed. Bargain at \$1500.00. Norman Pledger, Carthage Texas, Rt. 1. 5-2w-p

In all the malarial countries the popular remedy is Herbine. People find it a good medicine for purifying the system and warding off the disease. Price 60c. Sold by Swift Bros. & Smith.

Wash Curl, one of the best of our colored citizens, died Wednesday. He had for a long term of years been a faithful employee of the Nacogdoches Grocery Company and had won the confidence and good-will of all connected with that concern. He leaves a widow and several children.

The dengue has taken a second swipe at the editor of the Sentinel, who has been up only a couple of days from the former attack. The victim of this comeback was a railroader at intervals for 85 years, and took a postgraduate course in language at the feet of a Mobile bay pilot, but with all that his vocabulary is totally inadequate to express what he thinks of the dengue fever.

To remove bilious impurities in the system and be made internally clean and healthy, you need the fine tonic and laxative properties of Herbine. It acts quickly and thoroughly. Price 60c. Sold by Swift Bros. & Smith.

Attorney L. G. King of Houston was among the visiting lawyers here Monday.

## DARING GIRL WILL FLIRT WITH DEATH AT LOUISIANA FAIR

Miss Lillian Boyer, "aerial, female daredevil," to fly daily, October 19 to 29

"Aerial Female Dare-Devil" is the startling title of one of the entertainers engaged for the State Fair of Louisiana, which opens at Shreveport October 19 and will run eleven days. The feminine "dare-devil" is Miss Lillian Boyer, a 19-year-old slip of a girl, who astonished audiences wherever she has appeared in her death-defying aerial feats.

Miss Boyer and her flying circus will give exhibitions every afternoon during the State Fair. She will do almost unbelievable things, and if her reception at Shreveport is similar to what she has received in every other place she has visited there will be a tremendous ovation with each of her perilous performances.

This little avatrix, dainty, cultured and soft spoken, is admittedly one of the wonders of the outdoor show world, but apparently she would be more at home serving tea than flirting with death in the clouds. Among her startling stunts is changing from one aeroplane to another, also jumping from an automobile to an aeroplane, while going at high rate of speed.

She also loops the loops while standing on top of the plane with her feet through leather straps and holding to nothing at all but the air. She leaps from the plane while suspended by her teeth, and does many other marvelous aerial acrobats. And she seems not to be thinking about the danger at all; in fact self confidence is declared to be one hundred per cent plus. And it must be that and more! For surely there's none other like this little piece of femininity.

In order that she may be easily seen while prancing around on the wings of her plane and doing the other thrilling stunts, Miss Boyer is dressed all in white. She wears white sweater, white riding breeches, white helmet and white stockings and shoes.

For further information, write W. R. Hirsch, secretary-manager, Shreveport, La.

Railroad rates unusually attractive.

## TRACTOR AND MACHINERY EXHIBIT AT STATE FAIR

If the plans of the management materialize, as expected, the greatest tractor and machinery show on record will be held at the State Fair of Louisiana, October 19 to 29, inclusive. Manufacturers of tractors, farm implements and kindred products are manifesting interest in the plans, and many exhibits are promised from these sources.

A large tract of ground will be set apart for demonstration in this department, so that the visitors, especially the farmers, road-builders, sawmill operators and others vitally interested in tractors and machinery, may see the various machines in operation. The very latest creations of factories represented will be shown.

For further information, write W. R. Hirsch, secretary-manager, Shreveport, La.

Unusually low railroad rates of fered.

## CULINARY AND TEXTILE COMPETITION IS BRISK

One of the most popular exhibits at the State Fair of Louisiana, October 19 to 29, inclusive, will be the one composed of articles entered in the women's culinary and textile departments. All of these exhibits will be displayed in the Agricultural Building. They will, of course, prove particularly popular with the women folks, but visitations will not be confined to those of the fair sex—men, too, are fond of looking at pretty pieces of finery and tempting things to eat, and if the record of the past is repeated, there will be an abundance of masculine admiration as well as of feminine praise.

Judging by the interest taken in the culinary section in the various parades of the state, and the inquiries coming from various parts of the country about the textile exhibit, there will be an unusually fine collection of exhibits in both of these departments. One collection of textile articles will be here from across the waters, a Londoner having entered it.

Although few can be found to admit that anybody can beat Grandma baking biscuits and frying chicken, nevertheless the modern woman has learned improved methods of cooking and baking, and the benefit of these improvements will be given visitors to the woman's department at the State Fair. The same may be said of sewing and other textile work.

For further information, write W. R. Hirsch, secretary-manager, Shreveport, La.

Unusually low railroad rates.

### TEXAS GAME LAWS GIVEN IN SHORT

The game law for 1922: Three buck deer during the season from November 1 to December 31, inclusive, each year.

Three wild turkey gobblers during the season from November 1 to December 1, inclusive, each year.

Fifteen doves in one day, from September 1 to December 15, inclusive.

Fifteen quail and Mexican pheasants (known as "chacalaca") in one day, December 1 to January 31.

Twenty-five snipe per day, from October 16 to January 31.

Eight geese per day from October 16 to January 31.

Eight brant per day from October 16 to January 31.

You are not allowed to kill more than an aggregate of 25 in any one day of ducks, geese, brant, plovers, snipe or shore birds.

You are not allowed to kill at any time of the year any antelope, mountain sheep, prairie chickens, pheasants (except chacalaca) woodcock or wood-duck.

You may kill rabbits, hawks, crows, buzzards, owls, English sparrows, rice birds and blackbirds in any number and at all seasons.

You must not buy, sell or barter for any wild game of game birds.

You must not catch, kill or have in your possession nor ship any one time more than an aggregate of 75 ducks, geese, brant and birds.

You must not kill any doe or spotted fawn at any time.

You must not kill a turkey hen at any time.

You must not catch, kill or have in your possession any wild song birds. You must not hunt any wild game or wild game birds at night with any kind of lantern or light.

It is unlawful to hunt in any county other than the one in which you reside without a license.

Resident license \$2 enables you to hunt anywhere in the State.

Non-resident license \$15.

All express agents and all conductors and all auditors of trains and all captains or boats or persons in charge of navigation or boats are hereby empowered to administer oaths necessary to the shipment of game, and for administering such oaths, they are hereby authorized to collect 25 cents from persons making such oaths.

Who can remember when a runaway horse would create considerable excitement?

Some of the greatest successes in history did not have very much to do with money.

The modesty of some persons is refreshing—they admit they could improve on things.

Missouri has 16 counties that have no poorhouse. The inhabitants must be vegetarians.

In addition to legal opinions, an attorney general at times gives the country an impression.

Industry profits where every worker is trying to qualify for a foremanship job.

Even the most puritanical individual would hardly want to see women return to sweeping the streets with their skirts.

Even the most pronounced critics of Henry Ford admit that he is not likely to lack something new that will give him the desired publicity in due time.

Some editors who are printing the memoirs of William Hohenzollern try to make it clear that they are not responsible for anything the former kaiser says in them.

Let's cut the sigh out of the psychology of business.

A clear colorless liquid that will heal wounds, cuts, sores and galls is the latest and best production of medical science. Ask for Liqui Borozone, it is a marvel in flesh healing remedies. Price 30c, 60c and \$1.00. Sold by Swift Bros. & Smith.

Judge J. M. Marshall and family left Monday for Austin, where the judge will look after important business matters.

Rev. George A. Moore left Tuesday morning for Marlin, where he goes to attend the Synod of Texas meeting of that place.

Miss Fula Bonner and J. W. Bonner motored to Lufkin Saturday evening and spent several hours with friends.

Mr. Jack Moore, traveling for the Moore Grocery Company, is at home fighting a case of the dengue.

### MEETING TO DISCUSS ROAD BUILDING PROGRAM

To the Citizens of Nacogdoches County:

All of you who have thought about the road problem of Nacogdoches county know and understand that it is going to take the best brains in the county to solve this problem in the interest of everybody. The new commissioners' court that takes office January 1st, 1923, will have the job of maintaining the highways already completed and of completing the unfinished highways and also of working and keeping up all of the county's public roads on which practically no work has been done for the past year or two.

This is a county-wide problem, and we earnestly desire to solve it in the interest of all our people, and with fairness to every section of our county. This feeling prompts us to ask the citizens of our county to meet at the regular voting places next Tuesday, October 17, at 2 p. m. and to select a man to represent their community in planning a good roads program for the entire county. We want each voting box to select a good, sound thinking man as their representative, and we invite these selected representatives to meet with us at Nacogdoches on Thursday, October 19th, at 10 a. m.

At this meeting, on October 19th, your representative and this court will carefully study the entire road problem of the county, so that we may submit to all our people a good roads program that will, we believe, be satisfactory to every community in the county.

You have honored us with the nomination for our respective offices. We are now asking that you give us the benefit of the wisest and best business counsel to be found in your respective communities. This you can do by sending your best man to help us plan a satisfactory good roads program.

We need your advice and counsel. We not only welcome it, but we urge it. We therefore earnestly invite every citizen to attend the mass meeting to be held at his usual voting place at 2 p. m. Tuesday, Oct. 17, and to take part in naming a representative to help us work out a good roads program for the entire county. It is understood, of course, that any plan agreed upon by your committee and this court would be submitted to a vote of the people.

Respectfully submitted,  
A. T. Russell, County Judge-elect,  
R. B. Strickland, Commissioner-elect,  
Precinct No. 3.

T. M. Stewart, Commissioner-elect,  
Precinct No. 4.

M. S. Muckleroy, Commissioner-elect,  
Precinct, No. 1.

F. N. Lyles, Commissioner-elect,  
Precinct No. 2.

There is going to be a box supper and program at Campbell school Saturday night, October 21. Everybody is invited to come and bring a box.

**CLOMEL SALIVATES  
EVEN WHEN CAREFUL**

Treachorous Drug Cannot Be Trusted and Next Dose May Start Trouble.

Calomel is dangerous. It may salivate you and make you suffer fearfully from soreness of gums, tenderness of jaws and teeth, swollen tongue and excessive saliva dribbling from the mouth. Don't trust calomel. It is mercury; quicksilver.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tone for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

If you take calomel today you'll be sick and nauseated tomorrow; besides, it may salivate you, while if you take Dodson's Liver Tone you will wake up feeling great. No salts necessary. Give it to the children because it is perfectly harmless and cannot salivate.

Mr. L. V. Harris of Houston, son of Mr. Joe Harris of this city, and Miss Rachel Allen of the Dorr Creek community, were married in the county clerk's office at noon Wednesday by Judge Frank Huston. They will make their home in Houston.

I will gin regularly every day until November 1st, and expect to be through and close down for the season on that date. Please bring your cotton in as fast as you can. W. J. Clevenger. 10-dwt.

FOR SALE—Cheap for cash or good notes, four young Jersey cows, fresh in milk. J. J. Coker. Phone 103. 9-3dw1.

### IN MEMORIAM

In memory of a dear friend, Arch W. Wood, who died August 13, 1922, at the home of his sister, Mrs. H. C. Arnold, of this city. To know him was to love him. Arch had been in ill health for some 15 months or longer, but with his very strong constitution, he kept up until about 5 weeks before he had to give up. He was confined to his bed about 3 weeks with an abscess of his liver, but seemingly better. He got up and was up only a few days, not being strong enough to stay up he relapsed with a stroke of apoplexy which soon carried his soul from us. Everything that loving hands and medical skill could prompt was done but it pleased the Almighty God to call him from us.

Dearest Arch, thou has left us,  
Here, thy loss we deeply feel;  
But it is God that has bereft us,  
He can all our sorrows heal.

Yet again we hope to meet thee  
When the day of life has fled,  
There in heaven with joy to greet thee,  
Where no farewell tears are shed.  
Written by One Who Loved Him.

76 acres of land; good improvements; 6-room house; good barn and out houses; 35 acres in cultivation; plenty pasture, timber and water; on the graveled highway 3 miles from Garrison in Nacogdoches county. \$26.50 per acre. For full description and terms address

J. A. WILLIS,
