Do your interior decorating with Devoe's Velour Finish, a product of quality that can't be excelled.

A complete stock of **Mitrolac Enamels and Varnish Stains** in all colors.

Swift Bros. & Smith, Inc.

### A LOST BABY.

City Marshal Dock Watson found a lost baby Saturday morning in front of Gray's grocery, where it was playing about the street and exposed to considerable danger from passing traffic. The youngster was about 3 years old and was a boy. He "took" to Dock at once, and the latter also fell in love with his "find," and was on the eve of outfitting him with new clothing when the mother, a Mrs. Evans, who resides some distance south of town, appeared and claimed her offspring. "Dock" surrendered the baby regretfully, in the meantime having named the boy "Tom Campbell" after his old friend and former governor of Texas. He told Mrs. Evans of having bestowed this name upon the baby, and she replied that "Tom Campbell" should continue to be his name.

It is said the little fellow strayed away from his mother while the woman was transacting some business at the railroad passenger station, making his way up-town before his disappearance was noted. Master "Tom Campbell" raised a disturbance when the transfer to his mother was made, being influenced by Dock's affectionate treatment and the supply of candy, oranges, apples and other "goodies" which had been bestowed upon him.

### FOR SALE

One good size Building Lot, \$50.00 cash balance in small payments. Look it over, you will say it's a good value. W. O. HODGES. 13-3dp

**ZANE GREY'S** famous novel of the West  
"The U. P. Trail"  
Featuring Roy Stewart and Kathryn Williams.  
Also Jimmy Aubrey 2-reel comedy.

—Monday, Tuesday, Nov. 20, 21—  
The picture you've been waiting for  
"The Old Nest"  
Eight reels of wonderful photoplay.  
—Wednesday, November 22—  
**JACK HELD** in  
"The Man Unconquerable"

### FIVE ARE ARRESTED

#### AFTER A SHOOTING

From the Lufkin News, 10th.

Five men were arrested Sunday afternoon following a fight and shooting at a point on Lufkin Avenue about four blocks east of the courthouse which occurred at 1:30 o'clock the same afternoon. The five men arrested were given by Deputy Sheriff H. C. Rich as being J. M. Poindexter, Charlie Cox, William Johnson, Fletcher Oates and a man who first gave his name as Tom Lavendar, all being white men.

Deputy Sheriffs H. C. Rich and Homer Bell made the arrests between 1:30 and 4 o'clock Sunday afternoon. The fight was said by officers to have started when a man was hit on the head. Officers stated there was drinking and that Lavendar was seen to break a bottle containing liquor. Other bottles are said to have been broken.

Two pistols were taken off the man who gave his name as Lavendar, one a Logan .45 automatic and the other a .32-20 Colt. No one was hit by the shots fired. The five men arrested remained in jail throughout Sunday night.

### LIVE WIRE KILLS TWO AT LUFKIN SUNDAY

From the Lufkin News, 13th.

J. D. Adams, 73, and Carmen Byrd, about 14, are dead as a result of coming in contact with a live electric wire Sunday afternoon at about 2:30 o'clock. It seems that Mr. Adams found his fence on fire and went out to investigate the matter when he touched the fence, which was said to have been charged and fell back dead. Some distance away the little Byrd boy attempted to climb the fence it is believed and himself fell dead from the shock.

A Mr. Forsythe was said to have been badly burned on a hand when he attempted to aid in the matter. A calf was killed with electricity in connection with the fallen electric light wire. The scene of Mr. Adams' tragic death was some three or four hundred yards from where the Byrd boy was killed, the latter, however, being near the point where the calf had previously been killed.

J. D. Adams was 73 years of age and was born in Georgia, coming to Lufkin sixteen years ago. He is survived by his wife and daughter. The funeral was announced for this afternoon from the family residence, Rev. J. R. Nutt, pastor of the First Baptist church, officiating. Carmen Byrd is a son of a widowed mother. More concerning the lives of these two stricken persons is hoped for the issue of tomorrow.

### GINNING REPORT

There were 18,536 bales of cotton, counting round as half-bales, ginned in Nacogdoches county from the crop of 1922, prior to November 1, 1922, as compared with 6,587 bales ginned to November 1, 1921, according to figures furnished by the Census Bureau.

### TRAGEDY AT BLOUNT'S LAKE, BODY STILL UNCOVERED

Raymond Burgess, age 23, the oldest son of Mr. and Mrs. T. E. Burgess was drowned in Blount's Lake south of town about noon Wednesday. Raymond and a younger brother, Allan, were duck hunting on the east side of the lake when the tragedy occurred.

There was no witness to the tragedy as the boys were separated several hundred yards, watching for ducks along the shore of the lake. Raymond was heard to shoot several times and in about half an hour Allan went up to where he heard his brother shoot. There he found his coat, shirt, hat, watch and gun in a path near the water's edge. A couple of dead ducks were out a short distance in the lake. After calling a few times to Raymond he commenced to fear that Raymond had met death by drowning.

The tragedy occurred opposite the Blount cottage on the lake. About the time Allan discovered his brother missing, Luther Swift and Ben T. Wilson came onto the lake duck hunting. They crossed to where the accident occurred and directed Allan to a telephone at the Blount farm home from which the parents of the unfortunate boy were notified.

As soon as the news was received in the city several cars left for the scene and efforts were made to recover the body. It was not long before many sympathetic friends had gathered at the scene ready to assist in the search. The two boats on the lake were brought into service and all afternoon men prodded about in the water in hopes of finding the body.

Toward evening it was decided to bring more boats onto the lake to aid in the search and four boats from Fern Lake were secured. Search for the body continued all night. Coffee and sandwiches were brought down just after dark to those who had been engaged in the work. Drift wood cast up in the high water at some time in the lake furnished fuel for a big fire which was kept burning all night and around which a silent party congregated as the search went on.

The lake has been dry all summer and up until a few weeks ago, owing to the breaking of the dam in the spring. During this time a rank growth of marsh grass and small willows has sprung up. When the dam was completed a few weeks ago and the water again impounded it soon came up to the normal level which is just about the top of this dense growth and from six to ten feet deep where it is believed the young man drowned. This growth makes it impossible to drag the lake and search for the body is being conducted with the aid of poles which are stuck down in the water and moved about the bottom.

There is practically no current through the lake and it is not believed that the body has drifted from where it sank. The fact that the young man did not remove his boots when preparing to go in the water seems to indicate that he did not expect to go far out. On the other hand he may have been deceived about the depth of the water as the tops of the willows and grass would ordinarily indicate a depth of two to three feet. This morning it was reported that the body had not been recovered by the night searchers and many are leaving for the scene to assist in dragging the lake. The parents of the unfortunate young man have the sympathy of the entire community in their sorrow.

### SHOT DESTROYS EVIDENCE

Tyler, Texas, Nov. 15.—When a company of peace officers and rangers raided a still near Troup, in Cherokee county, the negro suspected of operating the still ran and carried with him a bottle of liquor. Ranger Captain Gray fired at him, breaking the bottle he was carrying but missed the fugitive who has not yet been caught.

### TELEPHONES

Dallas, Texas, Nov. 14.—Dallas, San Antonio, Houston and Fort Worth, with a combined population of 700,000 have as many telephones as the entire kingdom of Italy, which has about 35,000,000 inhabitants.

From the returns it appears that one of the poorest vote-getters was the serial photograph of the president's different suits.

### COMMISSIONERS CANVASS VOTE CAST IN ELECTION

The commissioners met Monday for the purpose of canvassing the result of the election. In addition to going over the vote other routine matters were disposed of. The canvass of the vote showed Linn Flat and Swift the banner republican boxes of the county. Linn Flat polled 30 democratic votes and 13 republican votes. Swift polled 28 democratic votes and 9 republican votes. The normal republican vote appeared to be about 125. Atwell, the republican nominee for governor ran ahead of the ticket a few votes, getting 171. Paddy for senator made a better showing in this county than in any of the surrounding counties. He lost Shelby county and his home box by big majorities. Following is the vote in this county:

United States Senator:	
Mayfield	1274
Paddy	834
Congress at Large:	
Cole	1791
Pearis	124
Congress, 2nd District:	
Box	1957
Governor:	
Neff	1817
Atwell	174
Lieutenant Governor:	
Davhson	1864
Kepple	121
Comptroller:

### A DESIRABLE CHRISTMAS GIFT.

Young folks, here is a Christmas present for you if you will put the matter squarely up to your parents in the right way. In fact they can't turn you down, for it is the best proposition you ever put up to them; it is the thing that will win your independence, give you an insurance policy against poverty with a paid up premium for life. It is a scholarship in the Tyler Commercial College of Tyler, Texas, America's largest school of Bookkeeping, Business Training, Shorthand, Cotton Grading, Telegraphy, Penmanship, Business Administration, Finance and Radio. The school that not only prepares its students most efficiently for the best positions in the largest business offices, but secures these positions for them.

The cost of a life scholarship in a course of Bookkeeping is \$65.00, Shorthand \$65.00, Penmanship \$65.00, Business Administration and Finance \$65.00, Radio \$45.00. Board and room is from \$17.50 to \$25.00 per month. The average time for completing our shorthand course is three and one-half months, our Telegraphy five months, Radio five months, Bookkeeping four months, Business Administration and Finance five months; our Bookkeeping and Shorthand combined five months. Figure cost of board and tuition and you will be surprised to find how little it will cost you to obtain a cash producing education that you will use throughout life. It is a Christmas present that you will always appreciate, because you will never cease using it. It is something of everyday need. It makes you a useful citizen.

If you or your parents haven't the cash to pay for the course, write us about our loan fund or note plan; the old saying, "Where there's a will there's a way" is quite true. If you can't get money to pay board, do what thousands of others are doing; take a correspondence course until you can enter for personal work.

Talk about this Christmas gift. Discuss it seriously. Convince your parents you are determined to be a success, and that to achieve a success in business you must get a business training. Mail coupon for our large catalogue. It is free and will convince you and your parents of the importance of our suggestion.

### NEW BOLL-WEEVIL CONTROL METHOD IS DISCOVERED

Gainesville, Fla., Nov. 14.—Development of a satisfactory method of controlling the boll weevil on short staple, or upland cotton, was announced here by Dr. Wilmon Newell, plant commissioner for the state plant board and director of the University of Florida experiment station.

Dr. Newell's announcement was made as the result of the successful culmination of research work by George D. Smith, associate entomologist, conducted under the auspices of the state plant board.

The method involves a principle in boll weevil control heretofore not recognized by other investigators. Dr. Newell stated, and he added that the total cost of treatment, labor included, does not exceed \$1.50 to \$2 an acre. In the fields treated, the cotton crop in nearly every instance has been as large as that obtained prior to the advent of the weevil.

While some poison is used, the amount is comparatively small, Dr. Newell said. By means of the improved method a cotton field is cleared of practically all boll weevils early in June and remains in that condition for several weeks. During this period a good crop of bolls is set without weevil interference.

Both the state plant board and the experiment station will issue immediately bulletins on the improved method of control.

Another argument not yet used against a dry merchant marine is that the traditional manner of relating details of a ship wreck is via a note packed into a wine bottle.

### CONTRACTOR HAS GAINED 30 POUNDS ON TANLAC

"Tanlac fixed me up so I gained thirty pounds. I have never seen or heard of such a wonderful medicine in all the sixty years of my life," declared William Magee, well-known retired contractor, 3840 La Fayette Ave., St. Louis, Mo.

"About two years ago I had a severe bladder trouble that left me in an awfully run-down condition. My appetite went back on me and my stomach got so weak I could not eat and digest enough to give me any strength. I also had the worst sort of pains across the small of my back, and could not sleep.

"I began picking up soon after I started taking Tanlac, and now I have a fine appetite, sleep like a log, and that tired, worn-out feeling has all left me. I could not do otherwise than recommend Tanlac."

Tanlac is sold by all good druggists.

### THE LIVESTOCK SHOW

The Purebred Livestock Show to be held at the court house Saturday, November 18, promises to be the best exhibit of livestock ever seen in Nacogdoches. Competent judges will be here from the A. & M. College to judge the different exhibits and to lecture on such topics as feeding and breeding, selection of laying strains, etc. Prof. E. O. Edson will handle the poultry and Mr. A. L. Ward will judge the hogs and cattle.

Prof. Edson will use the live birds to illustrate his lecture on selection of laying strains.

The basement of the courthouse will be available for the poultry in the event the weather happens to be bad.

### IN MEMORY OF GRADY ROGERS

A gloom was indeed cast over our community on October 14, when the sad news was reported that the death angel had visited the home of Dr. and Mrs. C. G. Rogers, as its victim.

Grady was a young man of splendid character and was loved by all who knew him.

Grady had been in failing health for almost seven years. He bore all his sufferings without murmur or complaint. Many times there were bright smiles on his dear face, though we knew him to be suffering great pain.

We sometimes are made to wonder why God in His great wisdom should call such jewels from earth so soon, though we know He doeth all things well.

Though we no longer see his dear face, we know he is taking a long, sweet rest from all his sufferings, peacefully waiting the glorious resurrection, when all the dead shall rise to meet the dear Savior in the air.

We long to see you, Grady; but we would not, if we could, call you back to this world of sadness, sin and suffering.

Weep not, fond parents, Grady is not dead, but only taking a long, quiet peaceful rest from all his awful sufferings.

We who knew Grady loved him and cherished his friendship so much. "He was a good boy," was expressed by many kind lips when speaking of him.

What more could you wish, dear parents. We know you loved him, but we point you to look up and rely on the strong arms of Jesus, one who is able and ready to bear our every trouble if we only trust Him.

### A FRIEND.

### J. P. MORGAN MAY SHIVER HIS COAL SUPPLY SEIZED

Newburgh, N. Y., Nov. 15.—J. Pierpont Morgan's supply of coal for his estate at Highland Falls has been seized and distributed among the villagers. W. R. Perkins, fuel administrator for Orange county, found that practically all the coal shipped to Highland Falls for the last three months had been delivered to the Morgan estate. So today the official seized the whole lot, amounting to 353 tons, and divided it among the local folk.

There is one thing at least which bids fair to endure as long as the Rock of Gibraltar, and that is the government supply of surplus army goods—Columbus Dispatch.

WEEKLY SENTINEL

PRICE \$1.50 PER YEAR.

BY GILES M. HALTOM

MONEY SENT AWAY

It is said that more than \$11,000 in postal money orders went out of the Nacogdoches office during October to pay for goods bought of mail order houses. This is deplorable. Every cent of this money should have been spent at home. Released to the channels of local trade, it would have been a great help to our home dealers. As it is there is no chance of getting any of it back. The fallacious idea that one can get more goods and better quality by patronizing foreign concerns seems to be widespread, but it seems to us that a moment's thought would convince anyone of the folly of pursuing such a course. Any merchant in Nacogdoches would be glad to order any article desired for a customer, if he did not carry it in stock, and in trading with him you have a "come-back" in case the goods are not up to specification. When an order is sent to a distant city, the seller has the opportunity to palm off inferior quality upon you and there is no recourse, your money is simply gone, with a way of getting it or its value back. Then when the church or school or other local institution is asked for funds, the solicitors never think of sending to the mail-order houses for a contribution, but call upon the local merchant to donate to the cause, notwithstanding you have refused to patronize him when it came to a cash purchase. In times of stress the local merchant will credit you. Will any mail-order house on earth do that? Rather cheeky to go to these men you have passed up in favor of a foreign concern, isn't it? Looks that way to us.

THE COST OF A HOME

The tariff law passed by the present congress not only raises the tariff taxes upon practically everything that enters the home, whether in the form of food, wearing apparel, or household furnishings, but upon the house as well. Neither food, raiment nor shelter were allowed to escape the increased tariff burden. High as the cost of building now is, the prediction is freely made that it will soon be higher. Instead of reducing the cost of home building, the Fordney-McCumber tariff law makes it higher. Cement, which was formerly on the free list, enjoys protection to the extent of 20 percent. With no tariff at all our imports of cement were only two-tenths of one percent of our domestic production in 1921.

A federal grand jury in southern district of New York recently returned an indictment against the cement trust which manufactures 95 percent of the product, charging that from 1902 to the present time these manufacturers have been associated in combinations and conspiracies causing irreparable injury to the public. With free trade in cement they made enormous profits by gouging the public, yet congress enlarges their opportunity for plunder by giving them a tariff protection of 20 percent.

The window-glass trust, already under indictment by a federal grand jury for price rigging, gets a tariff of 28 percent.

Locks and builders' hardware, formerly taxed 20 percent, is now taxed 40 percent, an increase of 100 percent. Under the former tax the manufacturers of hardware prospered and sold freely abroad, meeting foreign competition successfully in its field. The imports were not of sufficient importance to be separately listed in the government reports.

The tariff tax on bath tubs, lavatories and sinks was fixed at 40 percent—an increase of 100 percent. We have led the world in these products for many years. Why double the protection to an industry that in 1921 sold one-third of its entire product in foreign markets.

Wire nails, formerly on the free list, are now taxed 16 percent. Thirty years ago we sold these nails in England at prices so much lower than the domestic prices that Americans bought the American nails in England, reimported them into this country, paid the tariff at the custom house, and saved money as against domestic prices. In 1920 with these nails on the free list our imports were only 3 percent of our production. The new tax will give American manufacturers an absolute monopoly of the market and enable them to fix prices without fear of competition. Who was representing the American people when these unnecessary and defenseless tariff taxes were imposed?

With the departure of Mr. Manuel Herrick from congress there is bound to be considerable conjecture over the identity of Washington's new lightweight champion.

REVIEWING THE ELECTION

From the Houston Chronicle. It was a democratic victory, but with aspects that make one feel doubtful and uncertain.

The 7,000,000 majority rolled up for Harding two years ago was practically wiped out. In no spot or place did the administration find itself standing on solid ground.

Even in the rock-ribbed state of Massachusetts and with its chief spokesman, Henry Cabot Lodge, carrying the standard, it nosed out by an uncomfortably narrow margin.

The tremendous majority by which it has controlled the house is gone, while the new senate will be much more evenly divided.

It is impossible to analyze the result, however, without feeling that the vote was negative rather than democratic.

Everywhere sentiment appeared to register itself against the prevailing order, whether as sponsored by democrats or republicans.

While one party appears to have Everywhere local issues and factional alignments played an important part.

While one party appears to have lost much, and the other to have gained much, so far as names go, there is an evident lack of co-ordination in the ranks of both.

If Lodge, the republican whip, had a hard time of it in Massachusetts, Hitchcock, the democratic whip, went down in Nebraska.

If Calder was defeated in New York, Pomerene last out in Ohio.

If the democrats elected a klanman in Texas, they made a Knight of Columbus governor of the Empire State.

If the Wilson forces count the general democratic gains as a sign of triumph, two years hence they can not overlook what Jim Reed's re-election portends.

As the average man runs through the bulletins he will find it hard to tell just exactly what the results mean, or what the people were voting for as a whole.

If labor defeated Beveridge in Indiana, it elected Fess in Ohio.

If prohibition helped certain democratic candidates in the South, booze made Edwards, democrat, the next United States senator from New Jersey.

Alfred E. Smith, who carried New York by 500,000, would have been looked on with small favor by the present regime in Texas, because he is a Catholic, while Earle B. Mayfield couldn't have polled a baker's dozen from Tammany Hall.

President Harding's father said he wouldn't live in a state with one republican candidate, yet that candidate wins in a walk.

But if Brookheart profited by his socialistic tendencies, France lost for precisely the same reason, yet both are called republicans.

In some places the democratic party is wet, and in others it is dry.

The republican party suffers from similar inconsistency.

In some places democrats take the conservative side, and in others the radical side.

Labor flirts with one party here and with the other there.

Big business pulls for Harding in one center, and against him in another.

If socialism has disappeared as a party, it seems to be cutting quite a figure in both the democratic and republican camps.

If the Non-Partisan League opposed a republican in Minnesota, it supported one in North Dakota.

If democrats felt kindly disposed toward the Ku Klux Klan in Texas and Georgia, they were careful not to mention it in Illinois and New York.

It is possible to imagine that each of the two great parties stands where it always stood, and serves the same purpose it always served.

It is possible to imagine the word "democrat" implies the same convictions in Tammany Hall as in Houston and that the republicanism of Hiram Johnson is identical with that of Henry Cabot Lodge.

It is possible to imagine that the late San Antonio convention represented pure, unadulterated democracy when it refused to endorse certain provisions of the constitution and certain planks of previous party platforms.

It is possible to imagine that the liquor attitude of Governor Edwards of New Jersey squares with the democratic attitude of Texas, and that he could have been elected senator from this state just as easily as he was from that.

It is possible to imagine that no significance should attach to the support of labor for one republican candidate and its opposition to another.

It is possible to imagine that Brookheart, LaFollette and Lynn J. Frazier stand for the same principles of government as Watson Wadsworth

and Dupont, since they are republicans.

It is possible to imagine that Shepard of Texas and Reed of Missouri would vote the same way in regard to the League of Nations, since they are democrats.

It is possible to imagine that the wave of intolerance to which the democratic party has temporarily succumbed in this and one or two other states would strengthen its hold on those great centers of foreign born Catholics and Jews where it finds its principal source of power in the North and East.

It is possible to imagine such things, we saw, but it would impose a great strain on the imagination, and unless the reader is accustomed to dealing with fairy tales and dreams he would better refrain from the attempt.

Facts in the case appear to suggest that we are approaching an era of political chaos, if we have not actually entered it, that neither of the great parties stand for anything in particular, and that both are being used by clever, unscrupulous politicians in every way and for every purpose that local conditions make possible.

MUST SPEAK COMMON TONGUE

The Filipinos can seek nothing in the way of political liberty that does not command instant sympathy from the American people. The colonial policy of the United States is a very simple one, and quite disinterested.

When the senate of the Philippines asks congress to grant the islands a constitutional document, there can be no criticism of such a proper request, looking, as it does, to the just aspiration of any people, even though the trusteeship with which the American nation is invested, prescribes a refusal of the petition.

There is only one fundamental fact on which rests the relationship between the Philippines and the United States. It springs wholly from benevolence, and is unaffected in any way by considerations of possible hostilities in the Pacific. This fundamental is purely the education of the Filipinos into a conscious social unit, particularly in language; so that not an educated minority, however honorable, but the entire population may become responsible for government.

At the time the United States accepted the task of supervising Filipino destiny, it became instantly apparent that the key to the problem was education, through which all the inhabitants might come to a common tongue and hence a common understanding. The process is not a quick one, but it is a good one and, moreover, is the only one which is able to eradicate the seeds of disorder from which civil war springs.

This is the mission the American people set themselves, and the answer to the request put forward by the senate of the Philippines lies within the conditions around them. They are in a position to know the answer, for the answer depends only on the fulfillment of the American plan.

THE EX-KAISER'S WEDDING

From the Shreveport Journal.

We know we reflect the sentiment of the civilized world in expressing the disgust at the widespread notoriety given the wedding of the former German kaiser and a princess named Hermine Reuss, which was staged recently at a house in Doorn, Holland, where Wilhelm has been in exile since the defeat of his ruthless hordes by the Allies. While, as some of the stories indicate, there may have been some pleasures in connection with the ceremonies, the opposite sentiment most likely predominated because of losses the bridegroom suffered from the war.

What a pity that this monster is permitted to indulge in pleasures of any sort! And what a pity that any woman would consent to be his consort!

He should have never escaped from the war with his life. Instead, he should have suffered extermination as the greatest enemy to mankind. No language can adequately describe his crime in plunging the world into a war in which millions of men from various nations sacrificed their lives and untold suffering was heaped upon humanity. His equal in brutality has never been known, and his punishment should not have been limited to confinement in a little corner of a neighboring country, where he can live in ease, even if his freedom is curtailed.

Considering his crime against the world, it arouses indignation to think of the ex-kaiser taking another bride unto himself and having the affair given the prominence the ceremony at Doorn has received.

Some persons equip themselves by study to give advice, while others just allow themselves to talk.

THE TARIFF BREAKFAST

The only things upon the American breakfast table that escape taxation by the Fordney-McCumber tariff law are coffee and drinking water. Let us give thanks for that.

The tariff tax on eggs is up from 3 cents to 8 cents, possibly on the theory that the American hen should be protected from the competition of the pauper hen of Canada. The tax on pepper for seasoning is up 100 percent, while salt, nature's free gift to all of us, pays a tax of 11 cents on the hundredweight.

Bacon, ham and shoulders, formerly on the free list, are now taxed 2 cents a pound. The tax on fresh lamb, formerly entered at the custom house free of duty, is 4 cents a pound. Lard, which came in free of tax, under the old law, is now taxed 2 cents a pound. Fresh milk, duty-free under the former law, is taxed 1-2 cents a gallon. While we are taxing everyone else, why let the babies escape?

The Fordney-McCumber law increased the tax on butter from 2 1-2 cents to 8 cents per pound. Bread was not allowed to escape, for wheat flour, heretofore free of duty, is taxed \$1.58 a barrel and rye flour 45 cents a hundredweight. Cereal breakfast foods, formerly on the free list, are now taxed 25 percent, and potatoes, heretofore free, are taxed 50 cents a hundredweight.

While coffee is entered at the custom house free of duty, sugar that we put into it and sprinkle over our porridge is taxed 1.84 cents a pound if it comes from Cuba and 2.3 cents a pound if grown in any other country. The treasury experts estimate that the increase in the tax over that carried in the Underwood law will add \$115,000,000 to the sugar bill of the American people.

The sugar consumer of this country have been taxed for about 100 years under the excuse that if the sugar growers were not properly protected we would eventually produce all of the sugar we consume. We now produce, after all of these years of protection, about 25 percent of our total consumption. At this rate, if we continue to tax the consumer high enough for 300 years longer, we may hope to make domestic production of sugar equal to our consumption. It is a prospect to which all can look forward with pleasant anticipation

meanwhile forgetting all about the \$115,000,000 additional sugar tax which Mr. Fordney and his tariffing associates have favored us.

News has reached the city of the serious injury of Conrad Needham, a well-known Nacogdoches boy, reared here, in an auto accident a few days ago between Fort Worth and Mineral Wells. According to reports, young Needham sustained a broken jawbone and other hurts, and his condition is said to be serious. He was taken to a hospital and is receiving the best of attention, and is likely to "pull through" all right. His many friends here are hopeful that he may soon recover.

Well, the Giants stopped the Yanks if supermen couldn't.

Piles

CURED in 6 to 14 Days

# LADY GOT SO WEAK COULD SCARCELY STAND

After Suffering From Many Female Troubles This Lady Heard of  
Cardul and Took It, She Says, "Until I Was Well."

"SOME TIME AGO," says Mrs. Buena McFarland, of R. F. D. 2, Boeite, N. C., "I suffered a great deal with weakness common to women. I had bearing-down pains, my sides and back hurt, and my limbs drew. I would get so weak in my knees I could scarcely stand. "I was very nervous, and could not rest. I didn't feel like eating. I grew thin, and did not have ambition for anything. "I had been trying other remedies ... but did not get any better. "Some one told us of Cardul, and what it was recommended for. I also

took a Ladies Birthday Almanac and read of a case something like mine. I told my husband to get it and I would try it. "I saw a great improvement after the first bottle (of Cardul), so I kept it up until I was well. Now I am the picture of health." "Thousands of other women have written, to tell of the beneficial results obtained by taking Cardul, and to recommend it to others. Cardul has stood the test of extensive use, for more than forty years, in the treatment of troubles common to women. Try it.

## DOUGLASS CROW'S SLAYER GETS 50-YEAR SENTENCE

Crockett, Texas, Nov. 11.—Within 30 minutes after Rice Russell had been given 50 years by a jury in the District Court Friday evening, Judge W. M. Futch of Henderson had filed a motion for a new trial and stated that in the event it was overruled, the case would be appealed. "This fight has just begun," Judge Futch stated.

No date has been set for a hearing on the motion.

Crockett, Texas, Nov. 11.—A verdict of guilty, carrying with it a sentence of 50 years in the penitentiary, was returned at 3 p. m. yesterday by the jury which heard the case of Rice Russell, charged with the fatal shooting of Douglas Crow at Houston in May, of 1921.

When Russell was tried in Harris county last year he was given the death sentence.

Defendant Fainted  
When the verdict was returned in District Court, Russell fainted.

The trial began Tuesday morning and the final arguments were concluded at 11:20 Friday morning.

The jury was out less than four hours.

History of the Case  
Douglas Crow was shot at the court house in Houston immediately after the conclusion of court proceedings involving the custody of children, in which Russell and his former wife were engaged. Russell's wife was Crow's sister.

Russell was charged with murder and his trial held in the summer. He was given the death sentence and the case was carried to the higher court.

The case was reversed and remanded for trial. The venue was changed to Houston county.

## CONGRESSIONAL LINE-UP

Washington, Nov. 10.—There will be 20 more republicans than democrats in the next house and 11 more republicans than democrats in the new senate unless the results indicated by practically complete returns are overturned. The line-up of the new house was changed to 226 republicans and 206 democrats today through a change in the technical party affiliation of Representative Campbell of Pennsylvania, who requested to be listed as a republican instead of a democrat. The division of the new senate follows: Republicans 53, democrats 42, farmer-labor 1.

Mr. Harding must wish at times that he had sent, as ambassador to Great Britain, somebody who was tongue-tied.

## JUDGE H. C. VAUGHAN FOUND FATALLY SHOT

Honolulu, Nov. 11.—Horace W. Vaughan, former federal judge of the district of Hawaii, was found dead in his home here yesterday with a bullet wound in his neck and a revolver by his side. He had been ill six weeks with a nervous breakdown. Judge Vaughan was born in Marion County, Texas, in 1867, and was a former member of congress from Texas.

## SAWDUST FOR CATTLE FOOD

The old joke about deceiving the cow by placing sawdust for bran seems likely to become a very serious proposition. Some time ago the Forest Products Laboratory at Madison, Wisconsin, discovered that by treating sawdust with diluted sulphuric acid, which was afterward neutralized by lime, a very satisfactory cattle feed resulted. After the lime and acid had been eliminated there remained a soft, bran-like food containing about 15 per cent of water and rich in sugars. The laboratory experimented on three cows, who confiding ate the modified wood that was fed to them; and justified their faith but putting on fat and giving more milk. The Department of Agriculture is now experimenting with several hundred cattle in various parts of the country with a view of confirming the Madison test. Immense quantities of sawdust are wasted at present because there is no way of using it economically. And if wood cattle food can be produced cheaply enough there will be a big market for it.—Information Bureau. National Lumber Manufacturers' Association.

## WILL REVIVE BONUS BILL

Chicago, Nov. 9.—The soldiers' bonus bill will be reintroduced in congress by Britton of Illinois, he announced here today. He said it would have an additional provision to pay the bonus by a tax on light wines and beer. He said this provision would be drafted to supersede the Volstead act's definition of intoxicating liquors.

## WOMEN IN COUNCIL

Houston, Texas, Nov. 9.—Industrial and social conditions and the fine arts were discussed by the Texas Federation of Women's Clubs convention here today. Prominent speakers of Texas and the East will speak on prison reform, minimum wage and arts. The convention will close Friday following a conference on American citizenship and public welfare.

The talk of prosecuting war grafters appears to have subsided again.

## TUESDAY'S ELECTION WAS SLAM TO REPUBLICANS

New York, Nov. 9.—Continued republican control of congress appeared as the net result of Tuesday's election, with returns almost complete. However, the republican senate majority appeared to be cut in two and the house majority of 160 was slashed to a mere handful.

Montana returns early today sent the republicans over the top in the house contest. The house roll calls stands: Republicans 220; democrats, 205; farmer-labor, 1; independent, 1.

Democratic senators were elected in Utah, New Mexico and Montana, later returns showed. Only two contests remain doubtful—Washington and North Dakota—where the democrats are slightly leading.

## How Congress Will Stand

New York, Nov. 9.—Returns from all but three congressional districts where results were still undetermined at noon show 224 republicans, 205 democrats, one socialist, one independent and one farmer-labor. Latest figures show the next senate will have 52 republicans, 41 democrats and one farmer-labor.

## Gains for Democrats

New York, Nov. 9.—The congressional standing, with the Third Kansas District missing, is now republicans 224, democrats 207.

## "Wet" Candidates Elected

Chicago, Nov. 9.—Eleven avowedly wet candidates for congress were elected and nine wets defeated in the Middle Western states. The beer and wine proposition was defeated in Ohio and won in Illinois. California defeated the prohibition enforcement act. Massachusetts voted against harmonizing the state laws with the Volstead act. New Jersey elected a wet senator and Missouri a wet senator, both democrats.

## DRILLING IN RUSK

Overton, Texas, Nov. 11.—Smith & Fisher and the King Petroleum Company are drilling away at about 2,000 feet, with good showings of both gas and oil. They say that it is just a little too soon to talk definitely, but that they are testing every sand they strike.

George & Jones are at 700 feet, and are now making as good speed as possible and make careful tests. They passed through a thick shell of rebellious rock, one that brought the bit out of the well every six inches for a turn with the blacksmith. This rock is unusual in this county, although it was struck in the "Chicken Feather" just north of the city of Henderson.

J. E. Coleman has finished his Pinehill derrick. It is clearly within sight of the new rig of the Imboden Oil Company, not a mile distant. It is rumored that the latter company will put up a second derrick. This is proven territory, for the Sinclair well, half a mile away, is ready to produce 200 barrels of oil when the cap is taken from the casing.

The Miller tract, down Caledonia way, is being put into shape for development. Titles are being perfected, a property map made and other preliminary work done. It is said that Colorado capital is back of this venture. It is accounted good land.

A block of acres recently taken on by the Citizens' Lease Syndicate, Oklahoma City, was visited by a geologist last week and given a thorough once-over. He said he was looking for a structure and that "by gum" he found it. This is in the London vicinity.

## RANGERS SEIZE BIG SUPPLY OF LIQUOR

Fort Worth, Texas, Nov. 11.—Five hundred gallons of wine and 1,500 bottles of beer are being brought here this afternoon by Texas rangers, following a series of raids yesterday afternoon near Mingus, West Texas coal mining camp. The liquor was stored in cellars. Three houses were raided. Several arrests were made.

## DON'T "JIGGLE"

Chicago, Nov. 11.—The more vigorously the receiver hook is moved up and down, the less successful will be the telephone subscriber's efforts to attract the operator's attention, according to a statement issued by telephone officials here. "The delicate mechanism which lights the signal lamp," the statement explained, "will not work properly when the hook is violently and rapidly jerked."

## BANK IN DIFFICULTIES

Fort Worth, Texas, Nov. 9.—The Security State Bank was closed by the state here this morning. The bank's officials said they would be ready to reopen later. Lack of ready cash was given as the cause of the closing.

## O. J. LANG EXPIRES FOLLOWING STROKE

From the Lufkin News, 8th. Lufkin was plunged in mourning early today when it became known that O. J. Lang, Lufkin's postmaster, had expired at 3:30 this morning. Mr. Lang was stricken with a stroke of apoplexy Tuesday afternoon at about 3:30 o'clock, living about twelve hours after the stroke. The apoplectic stroke resulted in an almost complete state of paralysis, a physician stated this morning.

Mr. Lang was working in the rear of the postoffice yesterday afternoon and had just been telling Clarence Green, postal employee, of a headache that had been bothering him (Mr. Lang). Presently the postmaster sat down at a desk placing his face in his hands, a few minutes later remarking to Mr. Green that he believed he was becoming paralyzed. Mr. Lang thought it might pass off and suggested to Mr. Green that he wait before calling a physician. Presently, however, Mr. Green noticed that the postmaster's condition was becoming more serious and went out and secured a physician.

Mr. Green stated that upon his return to the postoffice and to Mr. Lang's side, the latter was laid upon a bunch of mail pouches and was attempting to say something to Mr. Green. Mr. Green could understand Mr. Lang calling the name "Clarence" but never succeeded in understanding anything else stated by his chief.

In a few minutes Mr. Lang's efforts at speech were lost and he became unconscious, in which state he remained until his death twelve hours later at 3:30 this morning.

W. E. Menefee, assistant postmaster sought instructions by long distance telephone this morning from postal officials regarding the closing of the postoffice and was informed that the office might be closed only during the time of the funeral.

## ERROR MAY CHANGE THE RESULT ON ENFORCEMENT

Los Angeles, Nov. 11.—An error of 23,000 votes in the count on the Wright dry enforcement measure in Alameda County, which may mean the carrying of that measure in the state, was discovered by County Clerk George E. Gross yesterday in a recheck of preliminary figures.

The count in Alameda county as it stands now is 42,840 in favor of the measure and 45,047 against it. The previously announced figures gave the bill about 32,000 votes and approximately 57,000 against it.

Parties holding stock in the Monkey Grip Rubber Company (successors to the Motor Car Association of Fort Worth) are requested to see me before November 23d, as I leave on that date to attend a meeting of the company on the 24th. If you cannot attend this meeting, please leave me your proxy at the Commercial Guaranty State Bank. Dr. S. H. Robinson, Melrose, Texas. 2-3w

## DALLAS GIRLS MISSING

Dallas, Texas, Nov. 11.—Police during the last 12 hours have been asked to search for six missing persons. Four of those reported missing are young girls, and their parents claim they have been induced to leave home by men older than they. The names of the missing girls were not made public.

## COMMITTEE RECOMMENDS \$797,000 ROAD BOND ISSUE

The citizens' committee named some time ago to plan a system of roads to be improved, and also to arrange for a road maintenance fund, met on call at the chamber of commerce rooms at 10 o'clock Thursday.

The committee named at the meeting November 2, composed of H. L. McKnight, Judge A. T. Russell and Carl Monk, reported that an investigation of the tax rolls for 1922 showed that the proposed million dollar bond issue exceeded the limit by some \$200,000 and that therefore the issue would of necessity be limited to approximately \$800,000.

After a thorough discussion it was voted to prepare a petition to be submitted to the Commissioners Court asking for a bond issue of \$797,000 and specifying the following new roads to be built:

- 1 The Lower Douglass Road to Legg's Store, 14 1-2 miles.
- 2 The Spanish Bluff Road to Harmony school house, 8 miles.
- 3 The Tyler Road to a point 8 miles from the city limits.
- 4 The Nat Road from the point of its intersection with the Tyler Road, to Nat, a distance of 9 miles.
- 5 The Logansport Road from the city limits to a point beyond the Carriso Creek, 6 miles.
- 6 The Black Jack-Melrose Road from the point of its intersection with the Chireno Road below Melrose to Black Jack, and from Black Jack to Chireno, 11 miles.
- 7 The Garrison-Martinsville road, 16 miles.
- 8 The "Brick Yard" Road from Garrison to the Rusk County Line, 3 miles.

In addition to the above new roads to complete the following roads partly built out of the former bond issue: The Martinsville road to the Attoyac river, 15 4-10 miles. The Mt. Enterprise road, 13.8 miles. The Cushing road from its intersection with the Mt. Enterprise Road to the Cherokee county line, 17 miles. The Woden-Etelle road to Brown's Ferry, 30 miles.

In the judgment of the committee, the new roads can be built for \$4,500 per mile. This cost is based on a 16-foot crown, on piling bridges, and also following the contour of the land, rather than attempting to cut down hills and to build fills. Adjoining counties have built roads of this type at a cost of \$4,500 per mile, and the roads are giving splendid satisfaction.

The committee estimates the cost of completing the unfinished roads at \$315,000. Of this amount it is estimated that the state will contribute approximately half, or \$157,000. Based on these figures, the proposed bond issue would leave a maintenance fund of \$300,000. The interest on this fund, added to our present maintenance fund would give the county approximately \$45,000 per year to keep up its roads and bridges.

## THE SMILING VOICE

An unexpected by very sensible reply to the question of what he liked most in America was given lately by a Japanese newspaper man upon returning to his native land after a visit to the United States. Was it the huge buildings, the swift trains, the evidence on every hand of dynamic national energy that won his highest admiration? Were these the impressive things that will linger longest in his memory? Not a bit of it.

Separately and collectively he found much in their favor to say. He admitted that they were fine. But they are not the things which will haunt his dream of America. What he remembers with most pleasure is "the unbelievably sweet voice, the constant sweet nature, and the extraordinary resourcefulness of the typical American woman telephone operator."

There will be general agreement that this Japanese visitor has paid a deserved tribute to a group of Americans whose labors in an often exasperating and often nerve-straining occupation are performed usually with courteous patience and firm maintenance of poise sometimes unappreciated. He is entitled to a floral tribute from the telephone women of America. More than that he is entitled to the thanks of all reasonable Americans for reminding them from afar of an advantage they perhaps overlook.

And more than that, still, he has

## PERHAPS THIS MAY INTEREST YOU!

Send 10c. to Dr. Pierce, President Invalids Hotel in Buffalo, N. Y., for a trial package of Favorite Prescription Tablets and write for free, confidential medicine.

### A Problem in Battery Cost

A battery lasts two years and costs say, \$24! Another lasts 18 months, and costs \$19.50. Which is the most economical?

The first, of course. The buyer of the second pays \$1.50 more for service from his lower priced battery; his advantage is the first-cost saving he makes.

The SJ (oversize) Willard Threaded Rubber Battery is still the standard battery—and the most economical battery you can buy. The SR (full size) is lower in price, and far more economical than the ordinary battery.

Not only bestowed praise where praise was due but discovered something wholly new to say on a topic worn to a frazzle by countless strangers within our gates who have been harried with questions about it.—New York Herald.

## DIED OF INJURIES

Mr. John Turner, an employee of the J. H. Summers sawmill, seven miles northwest of Nacogdoches, was the victim Thursday morning of a fatal accident when one of his hands was caught in the edger saw and his arm badly mangled. He was hurried to the Smith sanitarium in this city and the arm amputated above the elbow.

The injured man lingered until 7 o'clock Thursday evening, when he succumbed to shock and loss of blood. From the first, little hope was entertained for his recovery, it was said.

The body was prepared for burial by the Tucker-Sitton Company and taken to the family home three miles out on the Tyler road, where funeral services were held and interment made at 2:30 Friday afternoon in the Trinity cemetery.

Deceased was 44 years old and leaves a widow and three children, who have the sincere sympathy of all in their terrible bereavement.

Lester, the 9-year-old son of Mrs. Fayette Singleton, was struck by Mr. Robert Blackwell's auto at 9 o'clock Monday morning and painfully injured. The lad had spent Sunday night at the home of his uncle, Mr. Jan Partin, who drives the delivery truck of the Texas Oil Company, and a stop was made at the Magnolia Filling Station, West Main and North streets. When ready to start, the boy ran around the machine with the intention of jumping upon the running board. The Blackwell car, driven by a boy whose identity we have not been able to establish, was passing, and neither the boy nor the driver of this car could see each other. As Lester turned around the end of the truck he was struck by the Blackwell machine and knocked down, sustaining the loss of two teeth and a number of severe bruises. It was said no bones were broken. The driver of the car stopped and offered assistance. It was said, but Mr. Partin picked the injured boy up in his arms and hurried him to the office of Dr. Barham, where his hurts received attention. He was then sent home, and at 1:30 Monday afternoon was reported as resting well and getting along all right. No blame attaches to the driver of the Blackwell car.

## NO JAP CITIZENS

Washington, Nov. 13.—Japanese are not eligible for naturalization in the United States, it was held today by the Supreme Court. In its finding the court disposed of two cases brought by three Japanese. Two had been naturalized in the state of Washington, and the lower court had asked for a ruling from the Supreme Court when the naturalization was declared illegal.

From London comes a political survey which shows that the Lloyd George element has 160 candidates in the field and 250 in reserve. Not all of us are familiar with politics over there, but it looks like too many.

*Genuine*

# Aspirin

SAY "BAYER" when you buy Aspirin

Unless you see the name "Bayer" on package or on tablets you are not getting the genuine Bayer product prescribed by physicians for over twenty-two years and proved safe by millions for colds, headaches, toothaches, earache, neuritis, lumbago, rheumatism, neuritis, and for pain in general. Accept only "Bayer" package which contains proper directions. Handy boxes of twelve tablets cost few cents. Druggists also sell bottles of 24 and 100. Aspirin is the trade mark of Bayer Manufacture of Monocyclic-acidester of Salicylicacid.

## CORNS

Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly!

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without surgery or irritation.

### IN FLANDERS FIELD

(John D. McCrae, who was killed on duty in Flanders, January 28, 1918.)

In Flanders field the poppies blow  
Between the crosses, row on row.  
That mark our place; and in the sky  
The larks still bravely singing fly,  
Scarce heard amid the guns below.

We are the dead  
Short days ago we lived,  
Felt dawn,  
Saw sunset glow,  
Loved and were loved,  
And now we lie  
In Flanders field.

Take up our quarrel with the foe,  
To you from falling hands we throw  
The torch—  
Be yours to hold it high;  
If ye break faith with us who die  
We shall not sleep, though poppies grow  
In Flanders field.

Be yours to hold it high;  
If ye break faith with us who die  
We shall not sleep, though poppies grow  
In Flanders field.

("America's Answer," by R. W. Lillard, written after the death of Lieutenant McCrae, and published in the New York Evening Post.)

Rest ye in peace, ye Flanders dead,  
The fight that ye so bravely led  
We have taken up and we will keep  
True faith with you who lie asleep  
With each a cross to mark his head,  
So let your rest be sweet and deep  
In Flanders field.

Fear not that ye have died for naught,  
The torch ye threw to us we caught,  
Ten million hands will hold it high,  
And freedom's light shall never die!  
We have learned the lesson that ye taught.  
In Flanders field.

### PAYING BOND PETITION SUBMITTED TO COUNCIL

The city council met at 4 o'clock Thursday afternoon to discuss the matter of calling an election for the issuance of street improvement bonds.

Mayor W. J. Baker presided, with Aldermen Sam Stripling, R. W. Harlow, Herbert Schmidt and Ford Simpson and City Secretary R. C. Monk present.

H. L. McKnight, secretary of the Chamber of Commerce, read a petition signed by 35 property owners, and asking the council to order the election. The petition follows:

October 24, 1922.

To the Honorable City Council of Nacogdoches:

Gentlemen—We, the undersigned property tax paying voters of the city hereby petition your honorable body to call an election at an early date to authorize the city to issue street improvement bonds in sufficient amount to repave the entire square, and also to pave six or eight miles of residence streets.

We are led to make this request at this time because it appears to us that our city has progressed as far as it is practicable without a substantial street improvement program. We content ourselves with a suggestion as to the extent of streets to be paved, and leave it to your honorable body to determine the amount of bonds necessary to do the work here suggested.

Respectfully submitted,

Tom H. Summers, Jim R. Summers, French Murphy, Wm. G. Reid, R. D. Burrows, Orland Patton, W. F. Gintz, Roland Jones, J. N. Thomas, Ben T. Wilson, Robert Lindsey, H. W. Whitely, A. H. Smith, W. C. Fouts, J. F. Summers, L. B. Mast, R. R. Henderson, A. A. Nelson, C. Gramling, W. S. Davis, Sam Stripling, Zeno Cox, G. Wustenbecker, Lewis D. Brown, H. F. Wilson, D. A. Washburn, J. L. Langston, J. H. Muller, Giles M. Haltom, Oscar Matthews, Albert Brewer, A. W. Hunt, G. A. Blount, A. A. Seale, W. T. Orton.

After the reading of this petition, which was filed with the clerk, the council went into a lengthy discussion of the paving problem. A committee from the council, composed of Aldermen Haselwood, Simpson and Stripling, presented figures and estimates, together with a number of suggestions from competent engineers. It was decided to hold another meeting next Tuesday, November 14, at which time definite action will likely be taken.

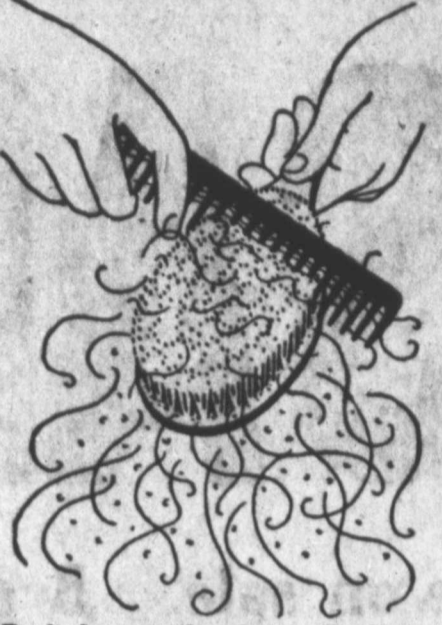

Those present at the council meeting yesterday were T. E. Baker, Robert Lindsey, T. Tifford, Joe Langston, Roland Jones, W. F. Gintz, Oscar Matthews, A. H. Smith, W. G. Reid, W. D. Burke, Prof. A. W. Birdwell, Tom H. Summers and D. A. Washburn.

### SPECIAL SESSION CALLED

Washington, Nov. 10.—A special session of congress was called last night by President Harding. The house is expected to devote its attention to the ship subsidy bill. Subcommittees of the appropriations committee will work on the supply bills, which forms the most important task of the regular session immediately following.

## HAIR DON'T STOP FALLING ITSELF

35c "Danderine" Saves Your Hair—Ends Dandruff! Delightful Tonic

Don't lose another hair! Don't tolerate destructive dandruff. A little Danderine now will save your hair; thicken and strengthen it; double its beauty.

Falling hair never stops by itself! Dandruff multiplies until it forms a crusty scale, destroying the hair, roots and all, resulting in baldness.

Your druggist will tell you that "Danderine" is the largest selling hair saver in the world because it corrects and tones sick, ailing hair of men and women every time. Use one bottle of Danderine, then if you find a single falling hair or a particle of dandruff, you can have your money back.

### WHAT'S IN THE NAME OF A BOARD?

One of the tasks before the Central Committee on Lumber Standards, which is seeking to standardize sizes and nomenclature of lumber, is to adopt single significant names for the lumber made from different species of wood. The pines may be taken for an illustration. The white pine of the Eastern and Lake States (Pinus strobus) of which Minnesota is now the chief producer, is known locally and in the markets as white pine, soft pine, Weymouth pine and northern pine. Norway pine (Pinus resinosa) travels under the names of Norway pine, red pine, hard pine and Canadian pine. Western white pine (Pinus monticola) is variously known as western white pine, Idaho pine, white pine and British Columbian real white pine. Western yellow pine (Pinus ponderosa) adds to the confusion by being designated as bull pine by the U. S. Forest Service and locally as western yellow pine, western pine, western soft pine, western white pine, California white pine, Oregon western pine, Washington western pine, Washington white pine, Montana pine, Montana western pine, Arizona soft pine, Arizona white pine, New Mexico white pine, Mexican white pine and British Columbian white pine. The sugar pine (Pinus lambertina) gets along with two names—sugar pine and California sugar pine. The longleaf pine of the South (Pinus palustris) has about 29 names, including longleaf pine, longleaf yellow pine, southern hard pine, northern heart pine, hill pine, pitch pine, longstraw pine, North Carolina pitch pine, Georgia pine, Florida pine, Texas yellow pine, longleaved pine, hard pine, heart pine, southern yellow pine and fat pine. The Southern short leaf pine (Pinus echinata) is variously called shortleaf pine, shortleaved yellow pine, shortleaved pine, yellow pine, Virginia yellow pine, North Carolina yellow pine, spruce pine, bull pine and rosemary pine. The loblolly (Pinus taeda) is commonly known as loblolly pine, oldfield pine, North Carolina pine, sap pine, slash pine, Virginia pine, Rosemary pine and shortleaf pine.—Information Bureau, National Lumber Manufacturers Association.

Dividing the day into three parts seems to be ideal—eight hours for work, eight hours for sleep and eight hours for minding the business of other folks.

On an average, each man works nearly two hours during the day, and he has a chance to work longer if he desires," said L. Theb Belmont, director of physical training. "We pay them 40 cents an hour for their work, and many of them earn enough at the end of the month to pay practically all of their expenses. When a student has worked for one day as long as he can, he is given a time check by the director of the locker room. These checks are cashed in at the end of the month. Usually a student waits until he is in need of the money to present the check.

This is the time of year when a man begins to wonder whether he is growing too old to handle a piece of hot mince pie.

## A COLD GONE IN FEW HOURS

"Pape's Cold Compound" Acts Quick, Costs Little, Never Sickens!

In a few hours your cold is gone, head and nose clear, no feverishness, headache or stuffed-up feeling. Druggists here guarantee these pleasant tablets to break up a cold or grip quicker than pasty quinine. They never make you sick or uncomfortable. Buy a box of "Pape's Cold Compound" for a few cents and get rid of your cold right now.

### NACOGDOCHES TRADITIONS

I don't exactly recollect the date of the Daily Sentinel's birth, and which anniversary comes next. But I was there, or thereabouts, when the momentous event occurred, about twenty-two years ago. I think it was first named "The Phone," and Tom Baker was the devil of it, successor to Dick Doughtie, who wandered away to Jackson, Tenn., and has never got back. He got water bound in Helena, Ark., in the Mississippi river, and he is picking cotton there yet, by compressed.

Tom Baker quit the typo job and went to school a spell, but not to learn to spell. He had learned to spell in the printing office, when he learned to write he took work in the county clerk's office.

The Sentinel office was on the first floor of the old opera house. Will Haltom's inspiration started it. He had vast experience in newspapers. One of his ventures was pulled off in Lufkin. Another was in Palestine. Others were Henderson, Shreveport, Houston, Cold Springs, and besides all these he had several ups and downs and ins and outs at Nacogdoches, concluding with two years at Del Rio and in West Texas. He began here in the original "Nacogdoches News" under Dick Orton. When the paper was sold out to Major Jack Davis, who took it to Rusk, and thence to Cleburne, with Jim Hogg as the devil, it then became the Cleburne Chronicle, it is still there.

"The Nacogdoches Chronicle" was operated for years before the Confederate War under E. W. Cave, who became secretary of state under Governor Sam Houston about 1858. Will Haltom afterwards operated the "Nacogdoches Chronicle." There were other papers and editors in and out during these periods.

Giles Haltom grew up under Will Haltom's lead, but he did not follow him all the time, till the Sentinel came on. He has grown grey in this office, and nobody has ever tried to thrash him for what the Sentinel said. His success in avoiding broils has been very remarkable. Yet he has always stood at his post of duty.

The Sentinel's career has been through many uproarious periods. It has faced feuds and broils, and at times participated in heated controversies in its efforts for good, but fortune has favored it with peace and friends.

The first printer's outfit was brought to Nacogdoches in the year 1819, by Dr. James Long of Natches, Miss. It was never operated practically, because Dr. Long went to Galveston Island to start a port and coming back from there to get help he lost his life. His lonely widow was left on the island, till rescued and brought back to Nacogdoches.

Floyd Kendall, a young and ambitious adventurer, operated a paper here a short period in 1843. He was a brother of Mrs. Henderson Muckleroy.

Major T. J. Carraway was a notable newspaper man here for many years. He was properly successor and editor and proprietor of the Chronicle at the time of his death, and for many preceding years.

Among those in the list here given one of the most accomplished, worthy and noted editors was Mrs. Julia Truitt Bishop of Shelby county. She was a distinguished author and writer, outside of printing offices.

It would be interesting to have histories of such characters as have figured along these lines. But who can accomplish this work?

J.E.M.

### STUDENTS EARN EXPENSES

Austin, Texas, Nov. 11.—Among the numerous ways in which University of Texas students may earn a share of their expenses while attending school, there are positions for 16 men to work in the athletic department as basket checkers for the students enrolled in the freshman and sophomore classes of physical training for men. The locker room in which the students' clothes are kept is equipped to handle nearly one thousand students at a time, and several students are employed on each shift during the day.

"On an average, each man works nearly two hours during the day, and he has a chance to work longer if he desires," said L. Theb Belmont, director of physical training. "We pay them 40 cents an hour for their work, and many of them earn enough at the end of the month to pay practically all of their expenses. When a student has worked for one day as long as he can, he is given a time check by the director of the locker room. These checks are cashed in at the end of the month. Usually a student waits until he is in need of the money to present the check.

This is the time of year when a man begins to wonder whether he is growing too old to handle a piece of hot mince pie.

# DODGE BROTHERS MOTOR CAR

The evenness of performance so often remarked in Dodge Brothers Motor Cars is due, in no small part, to the thoroughness with which each unit is inspected during the process of manufacture and assembly.

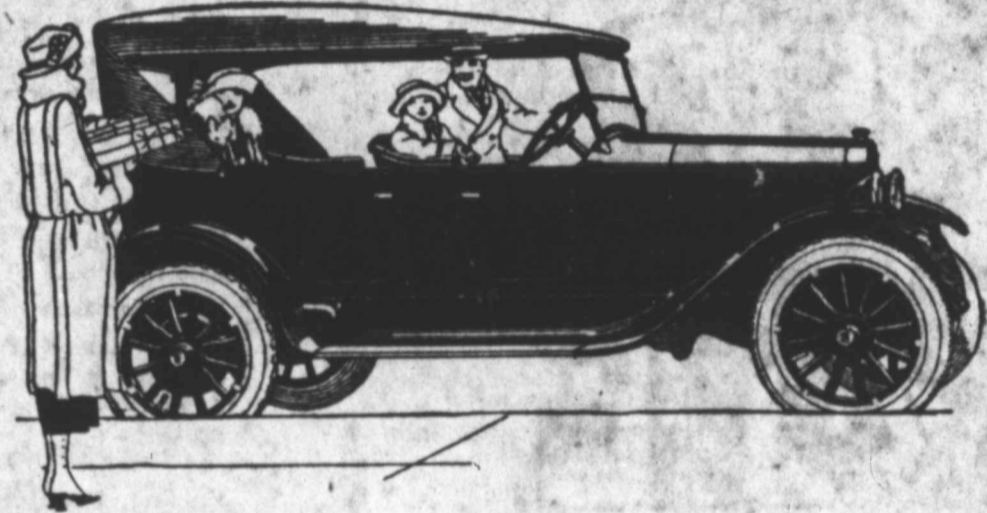

A trained staff of 800 experts is employed in this work alone, and approximately 5285 individual inspections are made on each car.

So exacting and rigid are the standards applied to these inspections that the slightest variation either in workmanship or material is instantly discovered and rejected.

Dodge Brothers are almost over-scrupulous in their constant aim to make each car as sound and perfect as is humanly possible.

The Price is \$1010.00 Delivered

Acker Motor Co.  
Nacogdoches, Texas

### QUESTION OF SCHOOL SUPPORT

(By Texas Educational News Service) Dallas, Texas, Nov. 11.—"Will Texas provide adequate support for the public schools?" Dr. H. T. Musselman, whom Governor Neff sent to study California's support of schools compared with Texas' support of schools, answered: "Yes, when the Lord gives Texas an educational statesman, in California they think of educational needs in right relations. In Texas most of the thinking on school support is a single-track thinking—how in the name of all Heaven can I get the money for my work?"

"In California they think every child should have an American chance, and have it first. So there is nine months of schooling for every child, and high schools within reach of all boys and girls. In Texas we have hardly a six months' school term for all, and there are some six hundred thousand boys and girls without an opportunity to get a high school education.

"In California they believe the children should have as good teachers as the few who go to college. Ninety percent of the teachers in her public schools have had training to teach. In Texas nearly forty percent of those teaching in rural schools have had no training at all and hold second grade certificates.

"In California they believe the country children should have god books to read and use in school. So there is the county library from which books can be obtained for all. In Texas there are thousands of rural schools without anything like a real collection for the use of the children.

"How did California come to provide the support for such an adequate school system? For a number of years the state has been blessed with educational statesmanship. This support was not provided because the Californian loved a square deal for all the children of all the people more than Texas. There is just as much love for children and just as much regard for a square deal in Texas as there is in California.

"All Texas needs to get her to provide an adequate support for the public school is enlightenment as to her real school needs and the sources from which support may be justly obtained to meet those needs. This

### means wise educational leadership.

I repeat: all Texas needs is an educational statesman, a Jim Hogg, if you please, laboring with heart and brain for justice for Texas children. And a bit of praying for such a leader is eminently in order."

### TO MODIFY PROHI LAW

Washington, Nov. 9.—Proposals for legislation modifying the Volstead act with respect to the sale of beer and light wines were regarded today at the treasury as an extremely likely outcome of the result of the elections. Secretary Mellon was reported as holding that the treasury's policy of strict enforcement of the prohibition laws would continue until congress acts. The returns yesterday were said to indicate a sentiment in several states favoring modification of the prohibition laws, with a number of congressional candidates who favored such modification elected.

### TROUBLE IS BREWING

London, Nov. 9.—Both an eager British public and the government were in the dark today regarding the grave situation in Constantinople. Lack of information was the result of cutting the cable near Chanak by the Turks, who are refusing to allow the cable company to repair the lines. The Foreign Office is awaiting a report as to whether martial law has been declared in Constantinople. Complete disciplinary powers in this regard are in the hands of the Allied authorities there.

A Cleveland woman charged with kidnapping a man has been convicted. Exception noted.

### CENTER GIRL WEDS NACOGDOCHES YOUNG MAN

From the Center Champion, 8th.

A marriage of interest to Center and community citizens occurred here Saturday afternoon at 4 o'clock when Miss Lydia Mae Ballard and Oran Chandler were united in marriage. The ceremony was performed at the home of the parents of the bride, Mr. and Mrs. W. W. Ballard, only intimate friends and relatives being present. Rev. J. P. Olive, pastor of the Baptist church, performed the ceremony. The young couple remained here until Sunday and went to Nacogdoches county to make their home.

Miss Ballard was reared here and is a jovial young lady. She has taught in the county for the past two terms of school and her conduct through her young life has been such as to those who know her. Mr. Chandler is a nephew of W. M. Chandler of this place and is a native of Nacogdoches county and is a teacher. He is an excellent young man. The friends of the contracting parties are profuse in their congratulations.

### FAMOUS WOMAN DEAD

Plymouth, Mass., Nov. 10.—Mrs. Mary Smith Lockwood, founder of the Daughters of the American Revolution, died yesterday at the Jordan Hospital, where she had been a patient since September. She was 91 years old.

Texas has improved on the Daugherty method. The state has just passed through the throes of an election by injunction.

# CASCARETS 10¢

For Constipated Bowels, Sick Headache, Sour Stomach, Bilious Liver

The nicest cathartic-laxative in the world to physic your liver and bowels while you sleep. Cascarets never stir you up or gripe like Salts, Pills, Calomel or Oil and they cost only ten cents a box. **Our word for it!**  
**You'll never know how delicious  
Corn Flakes can be till you  
eat Kellogg's**

Positively—the most joyously good any-time-cereal any man or woman or child ever put in their mouths! Such flavor, such crispness! Such big sunny-brown Corn Flakes! How you'll relish a generous bowl-filled-most-to-overflowing; and a pitcher of milk or cream! Never was such a set-out! Never did you get such a universal vote as there'll be for Kellogg's Corn Flakes! Big folks and little folks will say "Kellogg's, please, mother!" Leave it to their tastes—and yours! Prove out all we say!

For, Kellogg's Corn Flakes are a revelation in flavor; a revelation in all-time crispness! Kellogg's are never tough or leathery or hard to eat! Insist upon KELLOGG'S—the original Corn Flakes—the kind in the RED and GREEN packages!

**NOTICE SHERIFF'S SALE**

The State of Texas, County of Nacogdoches:

By virtue of an order of sale issued out of the Honorable District Court of Nacogdoches County, on the 11th day of November, A. D. 1922, by the clerk thereof in the case of Mrs. Ada Garrison versus Fred G. Westfall, No. 6183, and to me as sheriff directed and delivered, I will proceed to sell for cash, within the hours prescribed by law for Sheriff's Sales, on the first Tuesday in December, A. D. 1922, it being the 5th day of said month, before the Court House door of said Nacogdoches County, in the city of Nacogdoches, the following described property, to-wit:

Being a part of the J. Cordova Grant containing 72 3/4 acres and being the same land that was conveyed to Fred G. Westfall by Lee and Emaline Swan, on November 27th, 1919, and reference is made to said deed for further description on same, levied on as the property of Fred G. Westfall to satisfy a judgment amounting to \$2597.21 in favor of Mrs. Ada Garrison and costs of suit.

Given under my hand this 11th day of November, A. D. 1922.  
G. W. L. Woodlan, Sheriff.

If the bowels do not act regularly, assist them with an occasional dose of Herbine. It is a fine bowel tonic and laxative. Price 60c. Sold by Swift Bros. & Smith. b

Mr. and Mrs. D. K. Cason, Jr., and baby, D. K. III, of Orange are here on a brief visit to Mr. and Mrs. D. K. Cason, Sr.

**NOTICE SHERIFF'S SALE**

The State of Texas, County of Nacogdoches:

By virtue of an order of sale issued out of the Honorable District Court of Nacogdoches County, on the 11th day of November, A. D. 1922, by the clerk thereof in the case of Mrs. Ada Garrison versus W. E. Westfall, No. 6184, and to me, as Sheriff directed and delivered, I will proceed to sell for cash, within the hours prescribed by law for Sheriff's Sales, on the first Tuesday in December, A. D. 1922, it being the 5th day of said month, before the Court House door of said Nacogdoches County, in the city of Nacogdoches, the following described property, to-wit:

Being a parcel of land that is situated in the town of Garrison, Texas, and being a part of Block No. 9, of the Dotson Addition and more particularly described thus—Being the N. E. corner of Block No. 9, of the Dotson Addition of the town of Garrison, Nacogdoches County, Texas, and being 46-100 acres of land, more or less; also the N. W. corner of Block No. 9 of the Dotson Addition to the town of Garrison, Nacogdoches County, Texas, and being the same land conveyed November 26, 1913, by Joe D. Garrison to W. E. Westfall, and reference is made to said deed for particular description of same, levied on as the property of W. E. Westfall to satisfy a judgment amounting to \$1182.17 in favor of Mrs. Ada Garrison and costs of suit.

Given under my hand, this 11th day of November, A. D. 1922:  
G. W. L. Woodlan, Sheriff.

Dr. W. H. Bruce, Osteopathic Physician, over Eichel's Store, Phone 69

Nearly everybody has had the dengue, consequently the number of new cases is not so large as a few weeks ago. The later cases, however, appear to be more severe than those reported in the early days of the epidemic.

**Hall's Catarrh Medicine**

Those who are in a "run down" condition will notice that Catarrh bothers them much more than when they are in good health. This fact proves that while Catarrh is a local disease, it is greatly influenced by constitutional conditions.  
**HALL'S CATARRH MEDICINE** consists of an Ointment which Quickly Relieves by local application, and the Internal Medicine, a Tonic, which assists in improving the General Health.  
Sold by druggists for over 40 Years.

## Stella Vitae Campaign Against Female Disease Sweeping Entire State

STATEMENT OF LEANDER, TEXAS, WOMAN DISCUSSING HER TROUBLES IS TYPICAL OF THOUSANDS RECEIVED INDORSING REMARKABLE TREATMENT.

The Stella Vitae Health Campaign continues to increase in force as new evidence of the powers of the treatment in overcoming Female Troubles causes hundreds all over Texas to join in the fight against the diseases that are keeping women weak, suffering and unhappy.

Letters that ring with words of sincerity from grateful women who have been delivered from their miserable sufferings through the Stella Vitae treatment are being received daily in large numbers. People in every section of the state are talking about Stella Vitae and discussing their own experiences or those of friends who have obtained wonderful relief from Female Troubles after a course of this preparation.

Another interesting and unusual feature in connection with the Health Drive is the fact that hundreds of people are asking that their statements be given to the public, in order that other suffering women may be induced to obtain a supply of Stella Vitae and take advantage of this opportunity to regain their own health, strength and happiness.

Typical of these many letters is one from Mrs. Robert Cole of Leander, Texas, who says: "I want everyone to know how much benefit I have received from Stella Vitae treatment. It is without

question the best thing I have ever taken. And having tried nearly everything known, without getting any relief, this certainly is a tribute to the merits of Stella Vitae.

"I have only taken two bottles so far, but the results have already been so remarkable that I am like a different woman in every way. Needless to say, I praise Stella Vitae wherever I go."

When such women as Mrs. Cole come forward and make such straightforward statements regarding Stella Vitae, there can no longer be any doubt about the merit of the preparation. And after so many successful tests of the treatment in overcoming the troubles peculiar to women as have been recorded in Texas alone, it becomes the positive duty of every woman who is weak, run-down and suffering continual misery as a result of Female Troubles to begin taking the Stella Vitae treatment immediately.

Health, strength, natural beauty and the joys of life are splendidly satisfactorily results usual when a faithful trial is given this remarkable preparation that has proven a great boon to womankind.

Note.—Stella Vitae may be obtained from any druggist and is sold upon the positive guarantee that if benefit is not received the purchase price will be refunded.

### YOUTH HORRIBLY BURNED

Will Spencer, 18-year-old son of J. H. Spencer, a farmer residing three miles south of Douglass, was probably fatally burned Monday night.

The circumstances, as related to a Sentinel man Tuesday, were that the young man, with several neighboring boys, drove in a car to the Angelina river, a short distance away, on a duck hunt. When the party returned to the auto for the homeward trip it was found that the machine could not be started. Young Spencer crawled underneath to make the necessary adjustments and opened the petcock, his shirt becoming soaked with the leaking oil. While he was thus engaged one of the boys struck a match and reached under the car so Spencer could see. The flame of the match immediately ignited the gasoline and the young man became enveloped with the blazing liquid. He was dragged forth and his clothing torn off, but his hurts were frightful. He was burned from a point at the right shoulder across the breast and abdomen and around his left side to the middle of the back.

Dr. Geo. P. Campbell of Douglass, the attending physician, was in the city early Tuesday to procure dressings for the wounds of the boy, and from him it was learned there was but a small chance for young Spencer's recovery.

The injured boy is a grandson of Mr. and Mrs. W. J. Clevenger and a nephew of Mr. Tom Spencer of this city.

The family have the sympathy of many friends in the calamity which has befallen them.

### MRS. JAMES SMALLEY

Rev. S. D. Dollahite of the First Baptist Church was called to North Church Monday afternoon to conduct the funeral services for Mrs. James Smalley. This good woman was 88 years old at the time of her death, having been born in Alabama in 1834. She was one of the pioneer citizens of the county, having resided here for a long term of years. Deceased was a consistent member of the Baptist church, and her daily Christian walk was an example which all might emulate with profit.

The Sentinel joins in sympathy for the loss of this mother in Israel.

Lucile, the 3-year-old daughter of Mr. and Mrs. B. Melton of Appleby died Friday night of diphtheria and interment was made in the Appleby cemetery Saturday. Rev. S. D. Dollahite of this city officiating. The stricken parents have the sincere sympathy of a wide circle of friends in their sad bereavement.

Mrs. Robert Jordan and daughter, Miss Rose, have returned from Austin, where they had been visiting.

Mrs. W. H. Korneguy of Vinita, Okla., is the guest of Mrs. Giles Hamilton.

### MOTHER!

Your Child's Bowels Need "California Fig Syrup"

Hurry Mother! A teaspoonful of "California Fig Syrup" now will thoroughly clean the little bowels and in a few hours you will have a well, playful child again. Even a cross, feverish child loves its "fruity" taste, and mothers can rest easy because it never fails to work all the sour bile and poisons right out of the stomach and bowels without griping or upsetting the child.

Tell your druggist you want only the genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle: Mother, you must say "California". Refuse any imitation.

### FINDS LONG-LOST SON

Through the efforts of the executive secretary of the Red Cross at Pawnee, Oklahoma, Frank Ingle, a young farmer of that district, was found for his mother, Mrs. Al J. Rengel of St. Cloud, Minnesota. Ingle was kidnaped when he was two years of age and although every effort was made to find him, his parents, who then lived in Harrisburg, Pennsylvania, completely lost track of him.

He is now 24 years old and since attaining his majority he has constantly searched for his mother. The search was completed in August, and the latter part of that month Mrs. Rengel reached Pawnee and was reunited to her long-lost son.

### IF STOMACH IS TROUBLING YOU

Instantly! End Indigestion or Stomach Misery with "Pape's Diapepsin"

As soon as you eat a tablet or two of Pape's Diapepsin your indigestion is gone! Heavy pain, heartburn, flatulence, gas, palpitation or any misery from a sour, acid stomach is instantly relieved. Correct your stomach and digestion for a few cents. Each package guaranteed by druggist.

We are located next to Palace Theatre.

Joe Zeve

Mr. Osborne Bennett of Tucson, Arizona, arrived in the city Monday for a visit with the family of his sister, Mrs. W. L. Walker. Reaching here along with the present "norther", he must have been struck with the difference in the meteorological conditions between the two sections, coming from a country of perennial sunshine to one where the cold wind whistled and the rain peppered down.

Mrs. C. Heitman returned Monday afternoon from Timpeon, where she went in response to a letter bearing the news of the critical illness of her friend, Mrs. J. A. Norris. Mrs. Norris has many friends here who will regret to learn of her critical illness.

### VOTING IN ENGLAND

(By Associated Press)

London, Nov. 15.—The electorate of Great Britain swarmed to the polls by the millions today in England, Scotland, Wales and Ulster to elect the fourth parliament of the reign of King George V. No new developments had lessened the uncertainty of the result.
