BAILEY, BATES MAY GET EARLY TRA

OF CHURCH OF CHRIST OPENED

Dedication services for the new auditorium of the recently completed Church of Christ building were conducted last night, with a congregation of several hundred people, representing practically every church in the city, present. The crowd filled the auditorium and many were unable to get inside when the services were conducted.

F. G. Head was master of ceremonies and in a splendid manner thanked all for their much appreciated co-operation in assisting the church in building the beautiful structure of which the congregation and the pastor are so

Rev. G. W. Thomas, pastor of the First Baptist church; Rev. L. B. Gray, pastor of the Presbyterian Rev. Gid J. Bryan, pastor of the First Methodist church, all voiced their congratulations and pastor. Rev. H. H. Stephens, pas-

Rev. D. W. Nichol, pastor of the church, preached a sermon on the doctrines of the church. Benediction was pronounced by the pastor.

Many Business Men Left Off Good Will Page For New Church

In hearry to get the special page Sunday's issue of the Times wout the Church of Christ dedicating their new auditorium, a number of business men of the town were not seen.

Several, including George Feng-er of the O. K. Grocery & Market, called today and stated that they of the corridors when Johnson and evening Mr. Judkins introduced were sorry they did not get to have his aides discovered they were Mr. Hughes as a man of national mony the happy couple left for their names on the page congratu- there. lating the church, the pastor and the members of the congregation on their achievement.

Many were overlooked who would have been glad to join their fellow merchants in congratulating the church, but lack of time prevented seeing everyone and bedication they were not in hearty accord but merely that lack of time prevented representatives of the Times calling on them.

Merriman Church To Have Revival

A 10-day revival is to be started at the Merriman church beginning Friday night and continuing through Sunday, Sept. 3, it was Repeal By Dec. 6 announced today.

Rev. H. N. Balderree, pastor of the church, will conduct the services and will preach each evening. Special music is being arranged under competent choir leaders and the music will be featured at each

The public is cordially invited to attend all the services.

Illinois Team to Play Times Today In Practice Game

A practice game between the Times team of the Twilight league and the Illinois Pipe Line team is to be played this afternoon at 6:15 on the diamond outside Lillard North and South Carolina.

Some changes are likely in the Times lineup because of injuries sustained in games last week, but the team will be little changed from the one that has been play ing during the second half.

Vote the Relief Bonds

With the United States government standing flat on its edict that no more relief funds will be allotted Texans until this state begins to do its share, the proposed \$20,-000,000 bond proposal to be voted upon next Saturday stands out as the all-important issue.

The formula, "necessity is the mother of invention," looms large in Texas as the fall and winter months approach. That there will be a DIRE necessity of relief funds goes without saying.

What to invent, then, to supply the money needed?

Wise counsel from public officials and state relief | Elec St Bat workers has urged that the only way out is the voting of the \$20,000,000 proposal. UNTIL AND UNLESS WE CAN INVENT SOME OTHER BETTER AND MORE EFFEC-TIVE WAY OF PROVIDING THIS RELIEF, what else is there to do? This newspaper sees no other way out.

There is a salient point most of us overlook in the matter, too. Did it ever occur to you that the federal government is not using money—vast sums of money—for these relief purposes which it merely reaches out and takes from a sort of indefinable, yet exhaustless treasure trove. No, indeed. These vast sums of money are supplied the federal government by various means of taxation paid by every citizen of the nation, including Texas.

The act of voting permission to the legislature to issue Ohio Oil state bonds enabling Texas to match federal aid and thereby assure a continuance of federal financial assistance in keeping the poor and destitute from starving or dying is an act assuring that we get OUR SHARE OF THE MONEY WE ARE SUPPLYING THE FEDERAL GOVERNMENT FOR NATION-WIDE RELIEF PURPOSES.

All other things being equal, this is no time to vote bonds for any purpose. But ALL OTHER THINGS ARE NOT EQUAL.

HOME LOAN COURT TEST

Six thousand Texas applications in less than two weeks for loans from the Home Owners' Loan corporation have Und Elliott t. shown the need of putting this relief machinery swiftly and effectively into action.

Director James Shaw, and the corporation's local organizations in Texas counties, are getting ready for big- U S Steel . . scale loans, each loan designed to protect a family from the loss of its home.

A far-reaching court test has been filed, on whose outcome will depend whether the relief plan may function to its fullest extent. That suit seeks to stop a mortgageholder from a foreclosure action after refusing to accept bonds of the loan corporation—bonds whose interest is guaranteed by the government—in exchange for the mort-11 11 4 2 2 4 2 1 1 2 1

In this relief legislation is to be vitalized, mortgageholders must show a friendly attitude toward these bonds. Officials of the corporation believe there will be a growwing warmth toward them, wit hor without court action to ley, 209 Main street, Ranger: compel acceptance.

Texans should not be uneasy if the crush of thousands of applications delay their loans to some extent.

They should remember that the state already has passed legislation that when invoked can delay for considerable periods the actual foreclosure of a home mortgage. The home-owner must not let the foreclosure suit go by default. He has been furnished a legal course of action grain to be pleaded in defense of the suit, if he is to be given the additional time.

The very fact the national government has created the May 63% 61% 62% 63% loan corporation and, through it, stands ready to come to the home-owner's defense should, and probably will deter Dec.40 ½ 38 % 39 % 39 % the active prosecution of foreclosure suits.

Every loan made through this semi-governmental agency will ease up the credit situation for all other distressed borrowers. When the first 6,000 Texas loans have been made, the situation among holders of frozen mortgages, as well as among home-owners themselves, should Dec. 73 1/4 70 1/8 72 1/4 72 1/4 be greatly improved.

AUSTRALIA READY TO GO IT ALONE

Australia is one of the heavy wheat producing countries. Stanley B. Bruce is the Australian delegate at the world economic conference. Delegates from the United States and Canada and Argentina, all large wheat exporting countries, clamored for an agreement on world grain restrictions. Bruce threw a monkey wrench into the machinery. He declared very emphatically that Australia would not assocaite itself with any scheme for the restriction of wheat production as a solution for world difficulties. Just why a world conference?

Enthusiasm and faith in the future of a city by its citizens will always make it a more worthwhile city.

Hubbell recently cracked the 25 - year - old National League RECORD OF PITCHING 44 CON-SECUTIVE SCORELESS IN. INGS and established a new one of 46. LINCOLN is the capital of Nebraska. The literary excerpt is from the RUBIAYAT OF OMAR KHAYYAM.

Copyright, 1933, R. J. Reynolds Tobacco Com IT TAKES HEALTHY NERVES TO FLY EIGHT DAYS AND NIGHTS WITHOUT A STOP • FRANCES MARSALIS AND LOUISE THADEN set the world's endurance flight record for women when they brought their plane down at Curtiss Field, Long Island, after flying more than 196 hours without a stop through fog, rain, blinding sun, and pitch-black night. IN ADDITION to their astounding endurance flight, Miss Marsalis (Left) and Miss Thaden hold many other flying records. Miss Marsalis is the women's champion stunt flyer of the world. It takes healthy nerves to fly ... doubly so to fly like these two young women. It is significant that both are enthusiastic Camel smokers.

STEADY SMOKERS **TURN TO CAMELS**

MISS THADEN says: "Flying is a terrific strain at times. I frankly don't know what I should do without cigarettes. But I've found that different cigarettes have different effects on my nerves. For some years I've smoked Camels. They taste better. They're much milder. And I've noticed that they never upset my nerves."

MISS MARSALIS says: "I started smoking Camels because most of my friends who were flyers seemed to prefer them. I've never changed because I can't afford to take chances with my nervous system." * * *

Camel's costlier tobaccos do make a difference...in taste, in mildness. They never jangle the nerves. Your taste and your nerves will confirm this. Turn to Camels.

IT IS MORE FUN TO KNOW Camels are made from

finer, MORE EXPENSIVE tobaccos than any other popular brand. You will find Camels rich in flavor and delightfully mild.

• WHAT A THRILL! And how a good smoke adds to its enjoyment! Light up a cigarette. And for the sake of your nerves, make it a Camel...the milder cigarette that's made from costlier tobaccos.

Salt Lake City to Have Nude Colony

SALT LAKE CITY, Utah. Salt Lake City will have a nudist colony, provided plans of A. Aparton, organizer of the northwest nudist movement, meets no snags Antelope Island, the largest of

seven located in Great Salt Lake,

has been tentatively chosen as the site for the camp. It was suggested that nudists could stay on the island unmolested and have use of the lake for swimming—a sport strongly encouraged by the group Airline companies, however, may complain. The island is located directly on the routes to Portland and Los Angeles. Just how the plan will be accepted by the state officials and the predominating L. D. S. Church remains to be seen

Spends 20 Years Making Miniature English Engine

By United Press

NEW ORLEANS .- More than 20 years spent in the construction of a model of modern English locomotives is the record of David A. Warriner 37, mechanical en

The model, scaled one inch to the foot, is perfect in every detail-gas boilers, cylinders, brakes, and gears, and burns oil or coal It has a pulling capacity of 1,800 pounds, and will travel 12 miles an hour. Even miniature tool boxcomplete its every detail.

In 1910, he began his work. Today the model is on exhibition at the large worshop at his home.

have LATEX WELDED CORDS

which prevent Cord Separation.. the cause of blowouts Do you know this? An average size tire goes round

395 times every minute at only 35 miles an hour! Think what happens when you drive at this speed—or faster! Friction develops scorching heat inside your tires! In many tires other than Riversides this heat separates cords! It weakens the tire, forms internal blisters! When you hit a rock or a bump . . . BANG! A blowout!

You need the added protection Riversides give you! Riversides' Cords—the heart of the tire—are made from extra strong, long staple, premium cotton. Every cord in every ply is dipped in LATEX-100% pure, liquid, virgin rubber. This welds the cords into a super strong unit! It gives Riversides the strongest tire carcass made! It prevents cord separation . . . the cause of blowouts!

Why We Save You Money

Of course Riversides are made in one of America's largest and best tire factories. BUTthey come direct to us-minus the manufacturer's selling and general overhead expense. That's a saving. The second saving comes from Wards low cost method of distribution. These two reasons explain why we sell high quality tires for less. It's simple to figure out for yourself why Riversides are better in quality, mileage, and safety than any other tire at the same price.

*RIVERSIDE TIRES

will not blow out under normal road conditions during the life of the tread if they are kept properly inflated in accordance with the specified air pressures.

Cord Separation

This shows how cords inside tires other than Riversides are separated by heat. Cord separation causes internal blisters, weakens the tire. A blowout is the result! Riverbecause of Latex dipping!

Latex Dipping

By an extra process, every cord in every ply in all Riverside tires is dipped in Latex. This welds the cords into a super strong unit that defies cord separation and blowouts!

Wards Unlimited Guarantee

For your protection every single Riverside tire is guaranteed by Wards to give service that is satisfactory to you. No time limit! No mileage limit! A tire has to be extra good—has to be extra safe to be backed by the strongest tire guarantee ever written!

opposes Eve's continued employment but she is determined to go on working.

On her wedding night Eve is sent to New York to meet FREDA CARTER, dress buyer. There Eve meets THERON REECE, who is much attracted by her. She visits IRENE PRENTISS, former schoolmate who is playing the stock market.

A week later Eve returns to Lake City to find a new copy writer, MONA ALLEN, at the office. Monn is a trouble-maker. Eve and Dick take an apartment in an old-fashioned house. Eve works hard, devoting more and more time and energy to her work at the office. Dick decides she needs a rest and takes her for a week-end trip to the little town of Tamkinville.

NOW GO ON WITH THE STORY Afterward Eve and Dick dropped in at a motion picture theater. So tugged at his arm and drew him busy had they been lately that a to a corner of the shop to look at movie seemed to involve a luxu- a chest of drawers. rious expenditure of time. When ought to have this. You can't say the lights went up a young lad it's not old." sitting next to Eve remarked to Dick surveyed the piece but withthe girl beside him, "Right nice out enthusiasm. "Knobs fastened room they have here." But Dick, on with wood screws. Put together after an appraising glance about him stated, "They wasted no money building this place." Later he and Eve mounted the stairs to look at the balcony and Dick rapped softly NOW GO ON WITH THE STORY along the wall. "Cheap construction here all right," he whispered. TAMKINVILLE boasted two ho-"But all pleasing to the average tels but one of them was only eye-very pleasing. They have

open during the tourist season so enough fire exits, anyway," he Dick took Eve to the other, the added. Hotel Cortley. Elks and Lions Will Play Today

The Elks club will play the Lions light league season this afternoon at Willows field. This will be the first game of the second half, each team having played one game so playing two. The Lions will play two games this week, meeting the Prairie team Friday afternoon.

Both the Elks and Lions have changes in the lineup of the 3. Don't purchase stamps, stick- teams is expected to be made this

Blowout Proof Tires Are Featured At Ward Store

Montgomery Ward & Co. is specializing this week in blowoutproof Riverside tires.

These tires have latex welded cords, which are impregnated with 100 per cent pure liquid rubber, which prevents cord separation, the cause of blowouts.

By an extra process, every cord in every ply in all Riverside tires is dipped in latex. This welds the cords into a super strong unit that defies cord separation and blow-

Salt Lake City to

Have Nude Colony

By United Press

SALT LAKE CITY, Utah.

Salt Lake City will have a nudist

colony, provided plans of A. Ap-

arton, organizer of the northwest

nudist movement, meets no snags.

Antelope Island, the largest of

seven located in Great Salt Lake.

has been tentatively chosen as the

site for the camp. It was suggest-

ed that nudists could stay on the

island unmolested and have use of

the lake for swimming-a sport

trongly encouraged by the group.

Airline companies, however, may

omplain. The island is located di-

rectly on the routes to Portland

and Los Angeles. Just how the

plan will be accepted by the state

officials and the predominating L.

D. S. Church remains to be seen.

Bond Issue

(Continued from page 1) gency is over there will be happy wives and mothers presiding over

happy homes. Mr. Hughes based his argument for the repeal of the 18th Amendment upon the question of "State's Rights." The founders of the Democratic party, said he, recognized the fact that people in different parts of the country have There were only 91 persons different tastes and different habcharged with intoxication during its, and had a right to govern that when the 18th Amendment

was written into the constitution it violated this principle of states rights.

Repeal of the amendment does not mean that we are for whiskey, shouted the speaker. The question of whiskey is not involved, but merely that of giving each state the right to regulate the traffic as it deems advisable. We still have the Dean law in Texas which

"I've never lost a fight since I've been married," Max Baer, heavyweight contender, tells a Los ring, we presume.

which prevent Cord Separation . . the cause of blowouts

Do you know this? An average size tire goes round 395 times every minute at only 35 miles an hour! Think what happens when you drive at this speed—or faster! Friction develops scorching heat inside your tires! In many tires other than Riversides this heat separates cords! It weakens the tire, forms internal blisters! When you hit a rock or a bump . . . BANG! A blowout!

You need the added protection Riversides give you! Riversides' Cords—the heart of the tire—are made from extra strong, long staple, premium cotton. Every cord in every ply is dipped in LATEX-100% pure, liquid, virgin rubber. This welds the cords into a super strong unit! It gives Riversides the strongest tire carcass made! It prevents cord separation . . . the cause of blowouts!

Save with Safety on one of America's finest Tires Prices as low as 29×4.40-21 RAMBLER 4-Ply Rambler 6-Ply Mate (6 plies under tread) (8 plies under tread) 30x4.50-21 .. \$4.25 28x4.75-19 . \$ 7.65 28×4.75-19 . 4.65 29×5.00-19 . 4.95 28×5.25-18 . 5.60 28x5.50-18 . . 10.20 32x6.00-20 . . 11.55 31x6.50-19 .4 13.15 Other sizes priced similarly low FREE TIRE MOUNTING

Why We Save You Money

Of course Riversides are made in one of America's largest and best tire factories. BUTthey come direct to us-minus the manufacturer's selling and general overhead expense. That's a saving. The second saving comes from Wards low cost method of distribution. These two reasons explain why we sell high quality tires for less. It's simple to figure out for yourself why Riversides are better in quality, mileage, and safety than any other tire at the same price.

*RIVERSIDE TIRES

will not blow out under normal road conditions during the life of the tread if they are kept properly inflated in accordance with the specified air pressures.

Cord Separation

This shows how cords inside tires other than Riversides are separated by heat. Cord separation causes internal blisters, weakens the tire. A blowout is the result! Riversides are Blowout Proof because of Latex dipping!

Latex Dipping

By an extra process, every cord in every ply in all Riverside tires is dipped in Latex. This welds the cords into a super strong unit that defies cord separation and blowouts!

Wards Unlimited Guarantee

For your protection every single Riverside tire is guaranteed by Wards to give service that is satisfactory to you. No time limit! No mileage limit! A tire has to be extra good—has to be extra safe to be backed by the strongest tire guarantee ever written!
