MACHINE GUN KELLY AND WIFE CAPTUR

with BILL MAYES

The members of the Ranger high school band, their parents and everyone interesed in the band are working on a plan to furnish new music for the organization this year. We do not know just what the plan is, but there seems to be quite a bit of interest in it and quite a bit of need for the new

The band practices regularly and is one of the best high school organizations of its kind in this part of the country. In fact we have seen several high school bands in our day and it ranks about as high with us as any of them. But we admit we know very little about music. We can recognize a particularly sour note when it comes out the large end of a horn and we can tell to a certain degree when the drummer drums at the

Teamwork, we imagine, is necessary on a band, just as on a football team, and the band needs some new music on which it can demonstrate its teamwork.

The high school Bulldogs, in defeating the outlaw team from Stephenville, looked so good that we have not been able to decide whether they were really good or whether Stephenville was just not so hot when it came to football.

We heard that Coach Chapman told some of the recruits that he didn't want them to defeat Lubbock too badly next week. Wise old Chapman. He knows how to Bulldogs feel that they had a pushover and get the jump on them. But Coach Curtis can probably tell them something of the pushover they will have. We have a said today.

J. E. James, 76, who resides in the Bullock community about three miles north of Ranger, was instantly killed Monday night shortly after dark when he was struck by an automobile driven by Scott Lype, also a resident of the community.

Lype and James were going to services at the Pentecostal church at the time of the accident, the victim of the accident traveling on foot and Lype driving his automobile. At the time of the accident Lype was blinded by the lights of an approaching car and did not see the man walking along the highway until the car was within a few feet of him.

OKLAHOMA CITY, Sept. 26.-Mrs. Ora Shannon, accused of harporing criminals and taking part in the \$200,000 Urschel kidnaping, appeared as a witness for herself in the trial today.

Charles F. Urschel, the multimillionaire oil man who was abducted, sat on the front row of the spectators section. There was a broad smile of relief on his face after the capture of George Kelly at Memphis. Kelly had threatened to kill him.

Mrs. Shannon began a story to the jury that she, like her husband, was afraid she would be killed if she did not permit Urschel to remain a kidnaped captive on their farm.

Harvey Bailey was waiting to testify after the Shannons, claimnig he and they were victims of a 'dirty trick" played by Kelly and Albert Bates.

ROAD LOCATING POLICY

If a present decision of the attorney general's department is not superseded by new legislative action at this session, opponents of re-routing highways will have won out. They will be victors for at least an indefinite time.

This ruling was that the present law leaves no power n the hands of the state to condemn right-of-way for oads, and that the power vests solely in the county comnissioners court.

The attorney general's department has declined to go ito court and attack the validity of this law. The new law s of highly questionable worth, since it did something its aption failed to call for, and contrary to its declaration

But the state legal department's duty is to represent tate officials under the laws as they stand, not to try to hape the legislative policy. And no one else can go to ourt to attack the statute.

Several communities had tried, and legislators had ied, to get just such a condition as now exists. They beeved the local government in a county, and the people of city or county, ought to have the right to say where the bad would be built, especially where one should be reocated when it involved leaving a town or city off the

TAX DELINQUENTS

From several public sources, pressure is being put on r drastic action dealing with that group of larger propty-owners that are asserted to have turned the lenient olicy of ax relief designed for those unable to pay to a ource of substantial monetary profit.

In a number of cities, surveys are reported to have own that it was the largest property-owners, those presely ablest to pay, who had let their state and county and y and school taxes go delinquent, on the theory that a nerous legislature or local government would later waive

In one Texas city, it was said that eight per cent of e delinquent taxpayers owe more than half the unpaid R. Walton Moore of Virginia is

An unofficial organization of North Texas communcitizens has sent representatives ti Austin to urge the rislature to provide for most drastic efforts to collect inquent taxes, rather than to let off those able to pay ler the guise of relief to those who can't.

In this connection, Rep. A. P. Johnson of Carrizo ings had prepared, but is ill and unable to attend the isature and introduce, a bill to give state authorities powers to determine the ability of delinquents to pay, d to settle on the best basis possible old claims that ght otherwise drag on and never be paid. This carries ith it power to determine who are able to pay, and to ing off a slipping community afart proceednigs compelling such property-owners to pay their taxes.

Texas now has a delinquent tax penalty bill that res the penalties and most of he interest on past-due perty taxes. Its benefits will continue through the rest this year. There is little prospect that the legislature efiniely will continue to remit interest and penalties.

Either through delinquent tax suits against those probable to pay, or through vigorous action under the that loyalty to his town and comn of settling old claims for what it is found the property ners can pay, the state should get in substantial pasttax receipts in the next three or four months. Cities preparing to follow the same course. Most county ateys, whose duty it is to file and prosecute these suits of their regular compensation, will not hold back, if lic opinion demands action, because of the lack of supmental pay for performing this duty of office.

Unknown to Dick, Eve has been playing the stock market, borrowing money from her mother and sister. She loses all this, as well as all her own savings and \$400 Dick left in the bank.
ARLENE SMITH, stenographer in the Bixby office, becomes engaged to SAM HOLERIDGE, advertising man employed by another store.
Following a misunderstanding at Christmas, several weeks pass in which Eve does not hear from Dick. Too stubborn to admit herself in the wrong, she refuses to apologize and begins to see herself as a martyr.

Eve works harder at the office trying to forget her troubles. Tired and lonely, she returns to her apartment one night to find her mother there.

NEGLECT OF COMMON CONSTIPATION IS A SERIOUS MATTER

Prevent This Condition With Kellogg's ALL-BRAN

The first question your doctor asks is whether you are constipated or not. He knows that this condition may cause headaches, loss of appetite and energy, sleeplessness. It is often the starting point of serious disease.

You can prevent and relieve common constipation so easily. Just eat a delicious cereal once a day. Laboratory tests show that Kellogg's ALL-BRAN provides "bulk' to exercise the intestines, and vitamin B to further aid regular habits. ALL-BRAN is also a rich source of blood-building iron.

The "bulk" in ALL-BRAN is much like that found in leafy vegetables. Within the body, it forms a soft mass. Gently, it clears out the intestinal wastes.

Isn't this "cereal way" safer and far more pleasant than taking patent medicines-so often harmful? Two tablespoonfuls of ALL-BRAN daily are usually sufficient. With each meal in serious cases. If not relieved this way, see your doctor.

Enjoy ALL-BRAN as a cereal, or use in cooking. Get the red-andgreen package at your grocer's. Made by Kellogg in Battle Creek.

Better Light Better Sight!

Although you may not realize it, many of your favorable impressions are formed because of light. You notice that the home of a neighbor seems to radiate friends ship and hospitality because it is well lighted. You look in the downtown show windows that are best illuminated. You trade in stores where everything is bright and cheerful and merchandise is fresh and plainly visible. You may not know

that light attracts, but scientists do. Use light to make your home radiate the cheerfulness and friendly welcome you wish to extend. Arrange lamps in your home to display the individuality of your furnishings. Make the illumination in your home do the two-fold job of bringing out the attractiveness of your rooms by night as well as by day, and also provide ample illumination for reading, sewing or bridge.
