No Candidate For Governor From Southern Texas

By GORDON K. SHEARER
 United Press Staff Correspondent
 AUSTIN.—For the first time in many state campaigns there is no candidate for governor from south, southeast or southwest Texas. Wright Morrow, Houston, who has been considered a likely candidate, told the United Press that he would not be a candidate this year. His statement and the switching of Franklin P. Adams, Houston, to the race for state senator leaves this wide territory clear. The effect of such a situation upon the result of the democratic primary result is bound to be considerable. Except for the hundred-mile circle about Dallas, there is no other part of Texas with so great a voting strength.

Lacking a local candidate, Bexar county's more than 65,000 votes probably will be cast with a substantial lead for C. C. McDonald. Jacob Rubiola, successively county and city commissioner, is the "hefe politico" of the Alamo city. Eugene T. Smith, close political friend of the Governors Ferguson, was Rubiola's secretary and political aide when Smith was in San Antonio. It will take unexpected causes, therefore, to take away from McDonald what strength still is wielded by the once all-powerful city-county political organization of San Antonio and Bexar county.

Maury Hughes' wet attitude will make him unpopular there. James V. Alfred has powerful San Antonio connections, though out of tune with the San Antonio liquor attitude. Bexar county court records show no convictions there under the Dean law. But there are many dries, there, too. A sister of the attorney general lives in San Antonio. Everett Johnson, an assistant attorney general, is brother of Carl Wright Johnson, former close political and official aide of the late Mayor Chambers. Former Attorney General R. L. Bobbitt, an avowed supporter of Alfred for governor, is a member of the San Antonio law firm once headed by another former mayor—the late Marshall Hicks.

Candidateless Houston and Harris county have an even greater

AAA Has Plans for Milk Production

WASHINGTON.—Production control proposals submitted to the dairy industry by the Farm Administration are intended to prevent "extreme demoralization" in the industry and not to create an artificial shortage, administrators asserted in an appeal for national support of the plan.

The case for limiting milk supplies was presented in a series of six articles prepared by the AAA. Officials said it would be easier for them to let the dairy problem work itself out by "natural" processes, but it would mean starvation for the farmer, and this they would not countenance.

4,500,000 Farms

They pointed out that the proposed plan would affect some 4,500,000 farm families, whose income had been cut in half during the depression and whose products had been selling at 40 per cent below pre-war "parity."

It is proposed that dairymen limit their output to conform with sales quotas to be allotted under the program. For their co-operation they would be paid benefits derived from collection of an estimated \$165,000,000 in processing taxes, \$15,000,000 of which would be earmarked for even distribution among three supplemental relief plans involving tuberculosis erad-

AAA Has Plans for Milk Production

ication, purchase of surplus milk to feed undernourished city children and transfer of good cows to poor farms.

The articles struck repeated blows at milk distributors "who have been reaping big profits while producers have been suffering." These, they declared, should not object to bearing part of the tax.

Milk Consumption

Consumption of fluid milk probably will not be decreased at all and of other dairy products only a little, the farm administrators said. Instead, they predicted, consumption of fluid milk may increase.

The articles reviewed various proposals submitted to the government for solution of the dairy dilemma and listed weaknesses which precluded their adoption: maintenance of the old milk marketing agreements because of the difficulty of enforcing fixed retail prices, and because these agreements guaranteed distributors' profits, "in some instances more than ample already"; reliance on the new agreements alone because without production control their "usefulness would be confined to narrow limits"; government purchase of low producer cows because disposal of the large number of carcasses virtually would ruin the beef market.

REUNITED AFTER 34 YEARS
 PAWTUCKET, R. I.—Three sisters and two brothers were

Wards Add Eight New Salespeople For Ward Week

Eight salespeople have been added to the sales force for Ward Week which starts today. They will assist in serving the thousands of thrifty-minded shoppers who will take advantage of the new low Ward Week prices.

"No matter how large the crowd," states Mr. Fesmire, manager of the local Montgomery Ward store, "we are enabled by the additions to our staff to assure every Ward Week visitor prompt and efficient service."

Wards have chosen salespeople from Ranger and vicinity. It's the policy at Wards to employ as many local people as possible in Ward stores.

Mr. Fesmire has announced that savings are far greater than ever, even considering Wards' reputation for value-giving. Judging from the response to former Ward Weeks, Mr. Fesmire feels that the shoppers of this vicinity will take keener interest in this present spring event.

ELECTION BUT NO VOTES
 BELLINGHAM, Wash.—School elections mean little to Sunshine school district, near Lynden. When an election was held to choose new school directors, not a single voter turned up.

Wards Add Eight New Salespeople For Ward Week

united here recently for the first time in 34 years. The five are Mrs. John Crosthwaite of Glasgow, Scotland; Miss Jessie Neill, of Pawtucket; George Neill of Montreal; Alexander B. Neill, formerly of Transvaal, South Africa, and Mrs. Robert McFarlane of Pawtucket. Natives of Glasgow, the five claim kinship with the late Thomas A. Edison.

Herd of Mountain Elk Given to State

NEWPORT, N. H.—A herd of 12 mountain elk, presented to the state by Austin Corbin of this town, have been released in the White Mountains.

Experts have long held that the White Mountains are ideal for elk.

There are a few moose in the swamp areas near the Canadian border in New Hampshire. Both elk and moose are protected by state law.

Wards Add Eight New Salespeople For Ward Week

WOMAN AGAINST VOTING

NEW BEDFORD, Mass.—"I never have voted, never will and don't want to," Mrs. Ruth B. Studley said when interviewed in connection with her 87th birthday anniversary recently. Mrs. Studley is opposed to woman suffrage, but thinks that Prohibition Repeal is a good thing for the country. She hopes to be able to make a 10th trip to California, where a son resides.

COLONY

COLONY—Mrs. Reid Killough has been ill for several days. Julian Paynor of Coleman has been visiting relatives.

The juniors enjoyed a weinet roast Monday night.

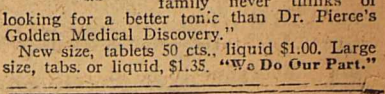

Mr. and Mrs. Theiss Jones of Abilene returned home last week after spending several days with Mrs. K. F. Kirk and family.

Mrs. H. B. Grace is still on the sick list.

Mr. and Mrs. C. E. Hathcock and family spent last Sunday with Mr. and Mrs. A. D. Wolford at Moran.

Mr. Tiff Harrell was elected school trustee to succeed George Moore.

A STRENGTH BUILDER

Dr. Pierce's Golden Medical Discovery increases the appetite, eliminates poisons from the intestines, stimulates the digestion, enriches the blood, clears the skin of eruptions and blemishes. Mrs. J. Bell of 529 - 9th St., Alexandria, La., said: "My family never thinks of looking for a better tonic than Dr. Pierce's Golden Medical Discovery." New size, tablets 50 cts., liquid \$1.00. Large size, tabs. or liquid, \$1.35. "We Do Our Part."

High spots in the political happenings of the week included: J. F. Hair, San Antonio, went back to his former county of Bell to open his campaign for attorney general at Temple on April 6. Judge Harry Dolan, Georgetown, remained undecided upon entering the attorney general's race.

J. G. Pundt, Dallas, independent oil man, was unofficially reported about to contest with Lon A. Smith for railroad commissioner.

Attorney General James V. Alfred hurried disposition of oil litigation in preparation for a day off to open his campaign for governor at Bowie next Tuesday.

C. C. McDonald pushed his hamlet-touring campaign into North Texas.

Lieutenant Governor Edgar Witt made another visit to Houston and declared Alfred, McDonald and himself to be the three candidates "really" in the race.

Texas Citizens Are Warned of Snakes By Health Officer

AUSTIN, Tex.—Dr. John W. Brown, State Health Officer, urges everyone to be careful when in the country to prevent snake bite. In Texas the chief offender is the rattlesnake; and, contrary to common belief, it does not always rattle before it strikes.

About seventy-five per cent of all bites occur on the lower extremities and could be prevented, to a large extent, by wearing high top boots or leggings. About twenty per cent occur on the hands or arms. Care should be exercised in not putting the hands in invisible places when climbing

rocks, and to look before picking up anything that may be obscured by vegetation, brush or rocks.

If one is bitten, prompt action is necessary and a physician should be obtained as soon as possible. No time should be lost in removing the poison by suction; this can be done by mouth or a suction cup. First a tourniquet should be applied above the wound, so as to increase congestion and assist in washing out the poison. A cross cut incision with a sharp, clean knife or razor blade should be made over each fang mark, or preferably to connect the two fang punctures. These cuts should be at least a quarter of an inch deep and at least that long. Suction should be applied for at least a half hour. The tourniquet should be released every ten or fifteen minutes for a minute at a time.

If bitten by a snake—do not

run or get overheated; do not take alcoholic stimulants; do not use potash permanganate (which is now known to be of no value as an antidote) to cauterize the wound; and do not depend on home remedies.

French Say Rivals Secretly Armed

United Press Staff Correspondent PARIS.—Behind the apparent "armistice" of the political parties represented in the Doumergue National Government, a bitter war of propaganda is lashing political passions throughout France to such an extent that a recurrence of violence in the streets is predicted freely, with the outcome either a dictatorship, or a cabinet of more marked Left tendencies.

Both the Right and Left parties are accusing each other of rapidly and systematically arming

in secret. Both agree that arms are being brought in from abroad to be hidden ready for assembly and use in street fighting.

The traffic in arms has grown, according to responsible newspapers like "Le Matin" since the rioting of Feb. 6. Shipments of war material have been seized by special commissioners of the French police at the Swiss, Belgian and Spanish frontiers, these sources state, echoing the fears that the Stavisky affair has proved an excuse for a final settlement of the issue between Left and Right parties.

Rumors of plots and alleged coup d'etats so occupy the attention of the French that foreign policy, especially disarmament is relegated into a position of secondary importance. Under the National Government a strong stand on disarmament was anticipated and receives the general support of most French people who believe that the French

thesis of security before disarmament is the only tenable one if France is not to lay herself open to danger of invasion.

The wave of public passion, mingled with political hatreds fanned by propaganda, has deadened France's reaction to the series of significant developments abroad, first with Poland's surprising pact with Germany indicating a cooling off between that country and the French; secondly the vitally important tripartite pact engineered by Mussolini in Central Europe; thirdly the anti-French speech by Mussolini which taken in conjunction with France's armament plan, making it seem that the French with the Little Entente, are in a position of increasing isolation.

Throughout the provinces of France the Socialists are fostering an intensive campaign which they hope will bear fruit if, as expected, Parliament is dissolved and general elections held. This will go down in electoral history as the "clean hands" election.

And sanitation is both his profession and his hobby. Our methods and equipment meet with his full approval because they are sanitary. No equipment is re-used without first being sterilized.

BANK INSURANCE OF DEPOSITS
ON THE INCREASE

Confidence is returning in many quarters. Insurance bank deposits increased \$450,000,000 to \$15,512,744,137 during January and February, Leo T. Crowley is chairman of the federal deposit insurance corporation. He broke the news in a review of the first two months of insurance of deposits up to \$2500. He said banks belonging to the corporation increased 1015 to a total of 13,632. Number of insured accounts in banks which are members of the insurance fund increased by 2,068,229 during the first two months to 54,814,249 at the end of February. A reminder that the state showing the largest increases in the number of insured banks during the two months ending were Wisconsin, 156; Texas, 133; Pennsylvania, 66; Ohio, 62; and New York, 55. It is sufficient that the review shows the 10 leading states in respect to deposit insurance have 75.46 per cent of all the insured deposits in the United States and 65.52 per cent of all insured accounts. New York led all the rest.

Bank deposit insurance appears to have "come to stay" as the old time country editor said when he launched his weekly newspaper in an untried field.

A pact of non-aggression in itself among some nations seems to mean little. The "scraps of paper" in existence have proved in the face of realities to be broken easily.

To be right is to try to see the truth, tell the truth, live the truth and advertise the truth.

Jim Blair Brings
Memory of Wild
Days to Capitol

AUSTIN.—"Jim" Blair, former Bell county, brought a reminder of wild west days to the Texas state capitol when he visited here this week with the district attorney from Silver City, N. M.

A special officer for mining interests, the former Texan has had a thrilling career. Word that he was in Austin brought former Ranger Captain Frank Hamer and other noted Texas officers to the capitol to shake hands with Blair again.

Many relatives, too, dropped in to see the New Mexico officer. Among them was another James Blair, father of Judge M. B. Blair of the third court of civil appeals. The two James Blairs are cousins.

Blair is credited with breaking up, single handed, a series of roads that were being made on a Silver City mine. He looked over the terrain and picked out a pass through which the raiders came and left. With a rifle he took his post commanding the pass. The next attempted raid was the last.

A hint that he would be fast on the draw in a pistol battle is given by his habit of striking matches for his cigarettes. It is, done with a quick backward flick of the hand striking the match on his holstered pistol.

Hamer and Blair had quite a chat of old days when they worked in conjunction in outwitting the desperadoes who dodged back and forth across the Texas-New Mexico boundary line.

Hamer, one of the most famous among the later-day Texas Rangers, recently turned down a proposal to work for the Texas Railroad commission in its campaign against hot oil production.

Both he and his brother, Capt. D. E. Hamer, have held the same post in the Texas Rangers—captain of headquarters company. D. E. succeeded Frank when Gov. Ferguson's administration began.

Bill to Pay Bank
Deposits Is Reported

WASHINGTON, April 12.—The McLeod bill to pay off depositors in closed banks was reported favorably to the house today by the banking and currency committee, with amendments extending the payoff to all banks, state and national, but limiting 100 per cent payment to accounts under \$2,500.

JAP GIVES EXHIBITION PARIS.—An exhibition of a Japanese interpretation of European civilization is being held here at the Chaprentier Galleries. The artist is the celebrated painter and draughtsman, Fujita, whose cats, nudes and flowers are known to Americans as well as Continentals. His oriental technique is smoothly blended with his European inspiration, and the exhibition is being well attended.

CAVE IN DAMAGED HOUSES HERRIN, Ill.—Seven homes, located above an abandoned mine, were damaged when the shaft, several hundred feet below, caved in. Although no one was injured by the cave in, which occurred while the residents were asleep, the damage was reported considerable.

A Mexican scientist says man evolved from a centipede. New York subway sitters will tell him man still is a centipede.

MUST EXPLAIN
STATEMENT HE
MADE IN TALK

DALLAS, April 10.—A Dallas county grand jury today summoned J. Frank Norris, widely known Fort Worth Baptist pastor, to appear before that body and explain charges he purportedly made to the effect that Clyde Barrow was being aided by officers here.

The Ft. Worth pastor was credited with saying in an address Sunday the sheriff's office in Dallas was aiding the notorious desperado in escaping arrest by keeping him informed of movements of officers and that the district attorney's office had failed to cooperate with officers in their search for Barrow.

Dr. Norris was ordered to bring with him to Dallas any records he may have to substantiate his claim or give to the grand jury the facts on which he based his statements.

In the talk Dr. Norris reportedly said information was obtained from Texas Rangers even long before the recent hunt for Barrow was begun.

FORT WORTH, April 10.—Dr. J. Frank Norris said today he would take a copy of his talk before the Dallas county grand jury tomorrow, but that he had no other "documents."

In addition Dr. Norris said he had engaged the Fair Park auditorium at Dallas for an address Sunday night.

"Some asbestos suits will be needed to hear what I have to say," Dr. Norris said.

TRY A WANT AD.

Rev. Frank Norris to
Tell Grand Jury of
His Barrow Charges

FT. WORTH, April 11.—Rev. J. Frank Norris, Fort Worth Baptist pastor, will appear before the Dallas county grand jury Friday, he informed assistant district attorney D. A. Templeton by telephone today.

The widely known Fort Worth pastor has been asked to appear before the grand jurors to substantiate statements he made Sunday in an address in which he charged Dallas law enforcing authorities with aiding Clyde Barrow in escaping capture.

It was indicated the grand jurors plan no action in connection with the purported statement, but want to ascertain if he can support them by evidence.

Two Racing "Kings"
To Take Part In
\$10,000 Texas Derby

ARLINGTON DOWNS, Arlington, Texas.—Two "Kings" of American race tracks, Co. E. R. Bradley and Norman W. Church, will attend the running of the \$10,000 Texas Derby here April 20, it has been announced.

The Derby will be the last day of the Spring racing season here and will be the feature event of the entire 21-day meet.

Col. Bradley of Kentucky, one of the nation's premier owners, has informed Downs officials he will be here to watch his entry, Boy Valet, attempt to cop the \$10,000 stake. Boy Valet is to be shipped here soon.

Church, whose Gallant Sir won the recent Augua Caliente Handicap, has made reservations for himself and a party of three for the last week of the race. His nomination for the Kentucky Derby, Riskulus, and one of the favorites, will run in the Texas Der-

Detroit Thief Robs
Historical Museum

DETROIT.—Some thief today is pondering over the value of his "haul." Recently the Detroit Historical Society Museum here was broken into and old coins, old currencies and gold watches, once worn by some of Detroit's historically great, were stolen.

Some of the watches, according to Curator A. S. Hempton, were on loan to the society and were the property of several "illustrious personages."

The doors of the museum, which open at 1 p. m., were locked when a watchman made his rounds at 8:30 a. m. Two hours later Hempton arrived at the museum to find the door locked but evidence of the lock having been forced. He investigated.

Some petty change from a contribution box just inside the door had been taken. Three cases had been forced open and old coins, currencies and watches extracted.

Several of the watches were reported to have been more than 100 years old. The oldest of the coins is a 1785 half-dime.

TRIO QUITS AFTER 30 YEARS

BERLIN, Wis.—Three Berlin rural postmen, Seth Parsons, Frank Zota, and John Cummings, have retired after having served

for more than 30 years and covering a total distance equal to 32 times around the world. All three used horses and buggies at the start and were the first to use automobiles in this section.

BROKE HALIBUT RECORD

SEATTLE.—Seattle, known as the world's largest halibut port, broke all records for receipts of fish during March 17 to 24, when 62 vessels brought in a total of 1,462,000 pounds valued at \$87,660.

THIS CURIOUS WORLD

LIBERTY CAP THE CONE OF AN EXTINCT HOT SPRING IN YELLOWSTONE PARK, IS 3,200 YEARS OLD! ITS AGE HAS BEEN DETERMINED THROUGH THE MINUTE QUANTITIES OF RADIUM IT CONTAINS.

BRITISH SOLDIERS ARE CALLED "TOMMIES" BECAUSE THE BRITISH WAR OFFICE ONCE SUPPLIED THE SOLDIERS WITH A POCKET MANUAL, AND IN SENDING OUT FORMS FOR INFORMATION, THE NAME "TOMMY ATKINS" WAS USED TO DESIGNATE ANY AND ALL BRITISH SOLDIERS!

TIGER SHARKS DO NOT ATTACK DEEP SEA DIVERS! AIR-BUBBLES ESCAPING FROM THE HELMET SCARE THEM AWAY!

THE TIGER SHARK is the most dangerous of all sharks. It does not hesitate to attack a swimmer, and frequently attacks canoes. Having a large mouth and throat, the tiger shark has no trouble in swallowing a man. It sometimes bites its food hurriedly, however, and many curious articles have been found in the stomachs of these creatures.

ELECTRIC REFRIGERATION

Tharpe Building
MAIN STREET

SHOW

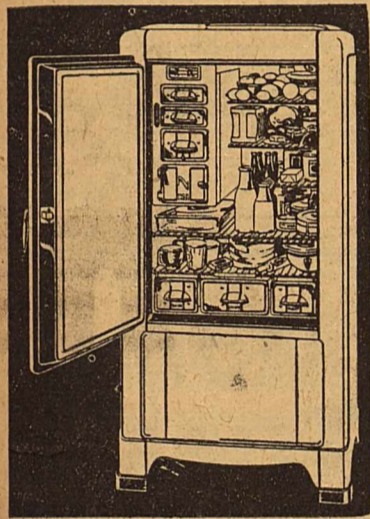

Thursday, 7 to 9
Friday, 2 to 9
Saturday, 2 to 9

RANGER, TEXAS — — APRIL 12, 13, 14

Three important savings are made possible as soon as an electric refrigerator starts serving you. First, you can save money by "stocking up" on bargain day specials and be sure that the food will be kept fresh until used. Second, you can serve many delicious dishes made from left-overs you would otherwise throw away. Third, you can keep food fresh and wholesome four to five times longer. Wilted lettuce and celery can be made crisp and crunchy again. Fourth, even on hottest days

fast-freezing electric refrigerators keep plenty of large ice cubes on hand. Fifth, the cost of operation is low the year 'round: some models operate for less than a nickel a day.

Considering these really important features, can you afford to be without an electric refrigerator? Just phone your electric refrigerator dealer and he will tell you how a budget plan makes it easy to own any model you may choose. New models now on display are priced as low as \$100.00.

Before You Buy See the 20th Anniversary

Kelvinator

An electric refrigerator is a lifetime investment. It pays to buy the best—which is always the least expensive in the long run. By all means, see the New Kelvinators. They are the finest Kelvinator has built in 20 years in the industry. There are 16 models—size and type for every home, every budget.

Love Brothers Add to Shop Improvement

Love Brothers' Barber Shop has completed redecorating the interior of their shop with a new, in-laid linoleum which was installed Tuesday night.

The interior of the shop has been repainted throughout and new drapes have been hung and the linoleum adds much to the sanitary features as well as the appearance of the place.

FARMERS KEEP BOOKS
LINCOLN, Neb. — Nebraska farmers rapidly are adopting a systematic and accurate book-keeping system as an aid to more businesslike agricultural methods. More than 2,000 farmers, according to estimates by the University of Nebraska extension service, have started farm account books, supplied them by the college of Agriculture. Herman Miller, extension worker at the college, estimates that twice as many farmers are keeping books this year as last.

Six Rounds of BOXING!

DESDEMONA Scene From Arcadia Feature Sunday

Mrs. Hugh Roe and her daughter, Miss Dorace Roe, drove up to Eastland Saturday to meet Miss Berniece Roe, who came home from Abilene to spend the weekend.

Mmes. Roy Ashburn, Plummer Ashburn, Clarence Ragland, I. N. Williams, C. W. Maltby, Fred Welder, Mattie Henry and W. C. Bedford went to Sweetwater Wednesday to attend the meeting of the 6th district federation of women's clubs. Mrs. Joseph M. Perkins of Eastland, is president of the 6th District Federation and due to her efficient management and planning for the meeting the interest and attendance broke all records for the Federation. At the At the International Relations luncheon at the Bluebonnet hotel roof garden there were over 400 women. The luncheon was served in three courses of Mexican dishes and the artists—musicians, singers and readers who entertained during the luncheon wore Mexican costumes. The honor guest at the morning session of the Federation, was Mrs. Volney Taylor of Brownsville, who is president of the State Federation of Women's Clubs. Mrs. Taylor has a charming personality and is a gifted speaker, and brought a message to her hearers that was well worth traveling many miles to hear. Reports from the clubs and the various departments were read during the day. Mrs. Mattie Henry read the report from the Desdemona "21" Study club and Mrs. W. C. Bedford read her report as chairman of the Penny Art Fund.

Mr. and Mrs. C. M. Bratton and little daughter Cleve Jean, left Wednesday for Craig City, in the East Texas oil fields, where they will make their home. Mr. Bratton was transferred there by the Stanolind Company. Mr. and Mrs. Bratton have lived here since boom days, were married here in 1925 and have been active workers in the Methodist church and prominent in social and club circles, and their hosts of friends regret very much to have them leave our town.

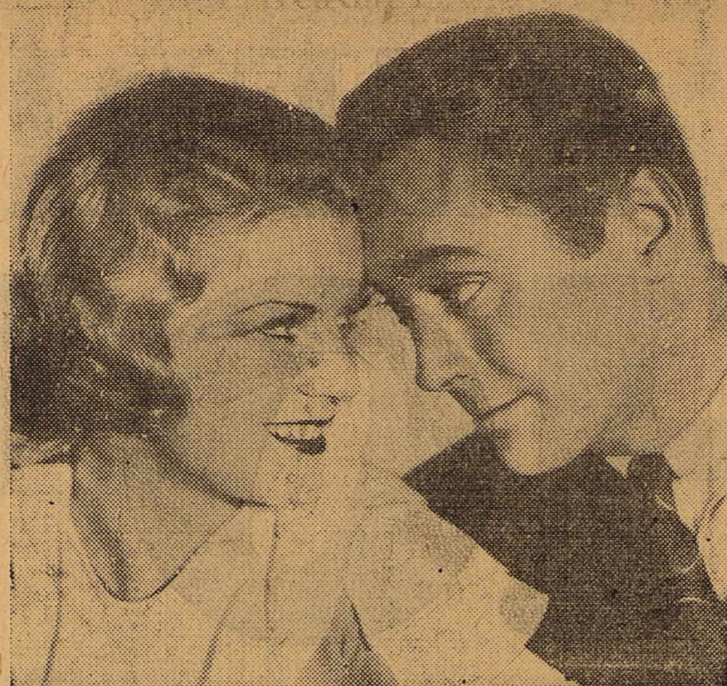

Glen Maltby went to Sweetwater Wednesday to drive one of the cars for the ladies who went to the club Federation meeting.

Mrs. Roy Rashing accompanied by Mrs. J. H. Rushing, Sr., drove up to Ranger Wednesday afternoon to do some shopping. Soon after getting there the big rain came and they could hardly cross the street. They came home around by Eastland where they had to wait for the water to run down before they crossed the river.

The city election held last Thursday resulted in the re-election of A. C. Robert as mayor and W. B. May and R. L. Black as aldermen. These men have with the other members of the city council, served the city efficiently and their re-election shows the confidence the people have in them. The council is composed of A. C. Robert, mayor, and W. B. May, R. L. Black, W. H. Davis, L. E. Clark and G. S. Bruce, the latter being secretary.

The election of school trustees was held Saturday and resulted in the election of T. L. Acree, R. A. Brown and D. B. Parks. The school board has had a difficult task this year in managing the finances and collecting taxes in order to keep our school open. So far they have been able to pay the teachers part of their salaries but unless the people respond to their appeal for payment of taxes it is uncertain how long the school can continue. Mr. Acree and Mr. Parks were already members of the board and Mr. Brown had served as a trustee several years ago. Other members of the board are J. E. Heeter, F. E. Keith, O. A. Kountze and W. E. Barron. All members of the board are working faithfully to keep our school running the full term, but they need the help of every tax payer in the district and it is hoped the people will co-operate with the board.

We are glad to report that Mrs. Ed Parks, who was seriously burned by the explosion of her steam pressure cooker about ten days ago, is improving and will likely be brought home from the West

Claire Trevor and James Dunn in their latest screen assignment for Fox Film, "Hold That Girl!" in which they play the roles of a smart reporter and a romantic detective respectively. The film comes to the Arcadia Sunday.

Janet Gaynor At Columbia

Janet Gaynor and Warner Baxter have what are reported as their jolliest roles in "Paddy, the Next Best Thing," which will be brought back to the Columbia Sunday.

Texas Clinic Hospital at Ranger in a short time.

Whit Richards, who was taken to the Blackwell Sanitarium at Gorman Wednesday is improving, thought still seriously ill. He had a severe attack of appendicitis. His many friends are glad to know that he is considered out of danger.

W. C. Bedford drove up to Ranger to take his daughter, Mrs. Betty Vestal, who was leaving for California after a visit with her father and step-mother, and a week at Cisco with her aunt, Mrs. D. K. Scott and family. She had expected to leave from Cisco one day last week, but the lady with whom she drove from Los Angeles was delayed in Dallas.

A woman teacher of mathematics has become mayor of Beaver Dam, Wis. Now she can try to figure out why two democrats and two republicans make only two officeholders.

Premier Mussolini is expected soon to make several changes in his cabinet, especially where the "yesses" have grown weaker.

VOLUME I

RANGER, TEXAS, FRIDAY, APRIL 13, 1934

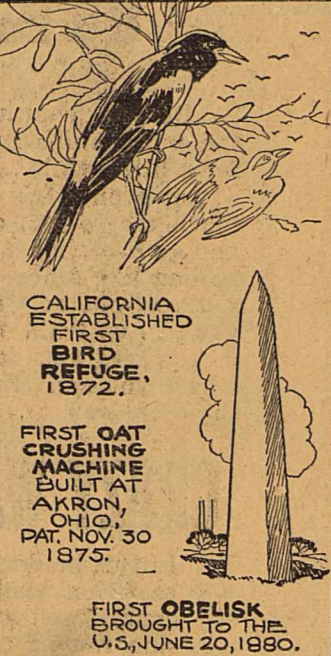

NUMBER 14

REAL ESTATE VALUES GROW IN SOUTHWEST

(Copyright 1934 by United Press)
Real estate, knocked out by the depression, is rapidly regaining consciousness in many of the country's major cities to cope with housing problems that range from an indicated demand for better grade homes to actual shortage of modest cottages and apartments, a United Press survey disclosed today.
Sections of the southwest, south and east, boomed by re-opened factories and government projects, reported a general thinning of vacancies.
Houston, witnessing the start of 260 new oil businesses in the past 15 months, found itself with a distinct scarcity of all types of dwellings.

WHO WAS FIRST? IN AMERICA

By Joseph Nathan Kane
Author of "Famous First Facts"

NRA IS BEING RE-ORGANIZED ON ARMY LINES

WASHINGTON, April 10.—Reorganization of the National Recovery Administration along lines of the United States army were affected today as the recovery administration appeared to be moving into another crucial period in its stormy career.
The reorganization was given out by administrator Hugh S. Johnson before he departed for Florida for a brief vacation and a return to Washington with the president.
The renovation of the NRA came as labor troubles were again crowded to the front. It was believed administrator Johnson would acquaint the president with the situation on their return to Washington.
Although the Detroit situation was eased somewhat by settlement of one troublesome strike, others remained and the American Federation of Labor issued a statement claiming large corporations were obtaining the lions share of recovery gains.
The federation said 75 per cent of wage gains had been nullified by higher prices and that 372 corporations had increased dividends in the last three months.

Poll Taxes In Eastland County Total over 6,080

Six thousand and eighty (6080) citizens of Eastland county, plus an additional 500 more or less, are eligible to vote in 1934 state and county elections, according to the records of Tax Collector T. L. Cooper.
The former figure represents the number who paid their poll taxes in time to make them eligible to vote. The latter represents a rough estimate of the number of citizens who are "overs or unders" or excused by reason of physical disabilities from the requirement of paying a poll tax to qualify themselves as voters.
The poll tax figures compares with about the same number issued in 1932, the tax collector's office said. Last year, an "off" season in state politics, only about 3,500 citizens paid the tax.
No certificates for exemption certificates for either "unders" or "overs" are issued in this county. The reason is that the new law requires issuance of such certificates only in cities of more than 10,000 population, into which category none of the Eastland county communities fall.
Citizens entitled to a vote either because of being over the age limit or having arrived at majority in the current year may be required to furnish an affidavit in the absence of a certificate of exemption if doubt exists in the minds of the judges, it was said. Physical infirmities are considered as their own evidence.

PROCEEDINGS IN COURT OF CIVIL APPEALS

The following proceedings were had in the Court of Civil Appeals for the Eleventh Supreme Judicial District:
Affirmed—Peyton Packing Co. et al. vs. Sweetwater Cotton Oil Co., Nolan; W. S. Hays vs. James Shaw, banking commissioner, Taylor.
Motions Submitted—Union Central Life Insurance Co. vs. J. E. Brewer et al., appellant's motion to correct judgment; Otto Larson vs. C. V. Terrell et al., appellee's motion to affirm on certificate; Realty Trust Co. et al. vs. C. C. Koger, appellant's motion for rehearing; James Shaw, banking commissioner, vs. Guy W. McCarty et al., plaintiff in error's motion for rehearing; The Swisher-Orrison Co. vs. W. E. Rogers & Son, plaintiff in error's motion for rehearing; City of Breckenridge vs. Rudolph A. Avenius, joint motion to postpone submission.
Motions Granted—Jose Tallabas, Ind. etc. vs. Wing Chon et al., appellee's motion for rehearing; Otto Larson vs. C. V. Terrell et al., appellee's motion to affirm on certificate; City of Breckenridge vs. Rudolph A. Avenius, joint motion to postpone submission.
Motions Overruled—Blanket State Bank of Blanket, Texas, vs. H. T. Redwine, appellee's motion to dismiss appeal; The City of San Antonio et al. vs. Alexander Zogheib, appellant's motion for rehearing; San Antonio Public Service Co. vs. Mrs. Rosie Fraser et al., appellee's motion for rehearing; Arthur M. Scholz vs. Handy-Andy Community Stores, Inc., appellee's motion for rehearing; H. W. Evans vs. A. J. Beard et al., appellant's motion for rehearing; Eugene Belzung vs. Owl Taxi et al., appellant's motion for rehearing.
Cases Submitted—Texas Employers' Insurance association vs. L. L. Wallace, Taylor; Texas & Pacific Railway Co. vs. A. E. Rumpy, Eastland.
Cases to be Submitted Friday, April 13, 1934—Fowler E. McDaniel vs. F. H. Woodard, Mitchell; J. W. Leatherwood vs. Wm. W. Snider, Erath; The Pacific Mutual Life Insurance Co. of California vs. Louis Landau, Mitchell.

Rev. G. W. Thomas Will Continue As Pastor of Church

Rev. Geo. W. Thomas will continue as pastor of the First Baptist Church of Ranger as a result of unanimous call extended him by the church on Wednesday evening.
Rev. Mr. Thomas has served the First Baptist church for the past three years, this being the fourth call given him by the local church. Before coming to the Ranger pastorate he served the First church of Anson for some time. Prior to the Anson pastorate, Rev. Thomas served a pastorate of six years at the First church, Houston Heights, Houston, Texas. During the Houston pastorate a struggling small church was led in growth and strength to a church of some six hundred members. A house of worship was also built during this time.
The First Baptist church of Ranger has grown in numbers and the work of the church has been effectively organized during the present pastorate. That the church is in its best condition, and doing its most effective work for a number of years, is the consensus of opinion expressed by many of its membership.

Texan Sent Ohio Friend Mexican Meal

EL PASO, Tex.—When a friend in Steubenville, O., complained that he was unable to obtain Mexican food there, Walter Clayton, of El Paso, shipped a complete Mexican dinner to him.
Sixty tortillas, 18 tamales, a quart of chili sauce, and two pounds of frijoles were packed in excelsior and shipped by express.
ATTEND DALLAS MEET
Ross Laird, dairy farmer of Okra, and County Agent J. C. Patterson attended the meeting held in Dallas first of the week for the purpose of discussing plans proposed by the federal government to aid dairymen. The program is known as the Dairy Production Control program. More than 500 dairymen from Texas and Oklahoma were in attendance.

SOCIAL WORKER IS AT HEAD OF RELIEF WORK

AUSTIN, April 10.—Miss Marie Dresden, former social worker in Milwaukee and Chicago, today directed Texas relief work.
She succeeded Adam Johnson, "fired for inefficiency, lack of sympathy and understanding of relief loans," after a Travis county relief board was sustained over Johnson's call for their resignations.
In the wake of the relief commission session yesterday were threats of court action. R. L. Holliday, commission member, said he expects to go to the state supreme court, contesting the right of House Speaker Coke Stevenson to replace him on the commission.

Cattle Rustling Is Revived In Texas

BEAUMONT.—Cattle rustling days of the old West have taken their sequel in this motorized age. Jefferson county's new grand jury was charged by Judge R. L. Murray to be on the alert for cattle rustling—an old western custom of stealing stock.
Dairy owners and stockmen have lost cattle to the thieves who travel in trucks instead of riding horseback as their early brothers, Judge Murray said. The animals are picked up and moved bodily after being shot with a silenced-equipped gun. Then they are butchered and sold miles away from the pasture where they were stolen, the owners told the judge.
Against these new enemies of the livestock owners Judge Murray has directed the attention of the grand jury.

LAKE MERRITT, Oakland, Calif., was the place designated by state law as its first bird refuge.

Asmus J. Ehrlichson is the inventor of the machine that converted hulled kernels of oats into a cereal meal. It consisted of a hopper with perforated bottom and a series of horizontal knives. The obelisk, brought from Alexandria, Egypt, stands in New York. It was built from 1591 to 1565 B. C.

Winner In Track Meet Announced

Winners of athletic events in the Sixth District Interscholastic meet held in Breckenridge Friday and Saturday are given below:
High Jump
First, Overton, Gorman, 5 ft. 9 in. Second, Bredshaw, Scranton, 5 ft. 9 in. Third, Cheney, Eastland, 5 ft. 7 in. Fourth, Dedman, Sagerton, 5 ft. 6 in.
Broad Jump
First, Atchinson, Baird, 21 ft. 5 in. Second, Perkins, Graford, 21 ft. 3 in. Third, Clark, Breckenridge, 20 ft. 5 in. Fourth, Rutledge, Cisco, 20 ft. 3 in.
Pole Vault
First, Atchinson, Baird, 10 ft. 8 in. Second, Keton, Palo Pinto; third, Waggoner, Oplin; Fourth, Garrison, Eastland.
100 Yard Dash
First, Atchinson, Baird, 10.2 sec.; second, Tidwell, Haskell; third, Stratton, Goree; fourth, Bryant, Baird.
220 Yard Dash
First, Tidwell, Haskell, 23.5 seconds; second, Atchinson, Baird; third, Boaz, Gorman; fourth, Stratton, Goree.
440 Yard Dash
First, Bryant, Baird, 53.3 seconds; Livingstone, Scranton; third, Clark, Breckenridge; fourth, Beasley, Cisco.
880 Yard Run
First, Morris, Gorman, 2 min. 9.9 sec.; second, Johnson, Mineral Wells; Ellis, Breckenridge, and Boatwright, tied for third.
1 Mile Run
First, Robinson, Albany, 5 min. 6.8 sec.; second, Williams, Sunset; third, Anderson, Olden; fourth, Reeves, Haskell.
220 Yard Low Hurdles
First, Deford, Gordan, 27 seconds; second, Bryant, Knox City, third, Green, Baird; fourth, Kile, Breckenridge.
120 Yard High Hurdles
First, Dedman, Scranton, 17.2 seconds; second, Ladd, Salesville; third, Tucker, Gordon; fourth, Bates, Cisco.
Discus
First, Perkins, Graford, 105 ft. Second, Bailey, Scranton; third T. Brooks, Moran; fourth, Awalt, Gorman.
Javelin
First, Johnson, Cisco, 154 ft. 6 in. Second, Caffrey, Cisco; third, Davis, Salesville; fourth, Brooks, Moran.
Shot Put
First, Perkins, Graford, 46 ft. 5 in. Second, Caffrey, Cisco; third, Davis, Salesville; fourth, Bailey, Scranton.
One Mile Relay
First, Gorman, 3 minutes, 39.4 seconds; second, Cisco; third, Baird; fourth, Mineral Wells.

Paramount Cafe Adds Equipment To Serve Beer

The Paramount Hotel Cafe, under the management of Mr. Bill Dorsey, one of the most experienced and thorough hotel and cafe men in Texas, has just recently completed the installation of complete equipment for the serving of beer either in bottles or on draught.
This announcement is welcomed by hundreds of people in this section as well as travellers who regularly stop at the Paramount. It is especially welcomed at this time as it marks the beginning of spring and summer when beer and light lunches or sandwiches are relished by everyone.
As an added feature of this new arrangement Mr. Dorsey has worked up a sandwich menu featuring every kind of cheese, lunch meat, home pit-cooked barbecue, etc., as well as the old favorite Dutch lunch, Mexican lunch and other lunches.

New Business Is Opened In Ranger

M. L. Heyman of Tulsa, Okla., has opened a new business known as the Tulsa Junk company, and is located in the building opposite the Humble service station on Hunt street. Mr. Heyman says he will purchase pipe, fittings, brass, etc., as well as sell same.
He was joined today by Mrs. Heyman and Max Jr., and are living at 106 Third street.
MAN BIT COW
WEST TISBURY, Mass.—A cow moved forward and stepped on the foot of a milkster at Herbert Mayhew's dairy here. The milkster had to bite the cow's leg to free himself.

BREAD DEADLY WEAPON

RONDO, Mont.—A loaf of French bread is a deadly weapon, in the opinion of a local justice of the peace. The judge fined Jacques Fontainebleau for beating a prospective customer over the head with a loaf of the hard-crusted bread when the customer complained the loaf was stale.

HARD WINTER FOR DEER

BRATTLEBORO, Vt.—The deer throughout Windham county are thin and weak after the unusually severe winter, and sportsmen are pleading with dog owners to keep their dogs from harrying the deer.
Dillinger has shot his way out of another trap. Either that, he seems to insist, or let the undertaker carry him out.

CHARGED WITH 33 MURDERS

ANGORA.—A message from Teheran states that the police of that city have arrested a man claimed to be responsible for 33 murders.

Announcement..

We have just completed installation of equipment for serving your FAVORITE BEER.

on DRAUGHT or in BOTTLES

WARNING to EXPECTANT MOTHERS

If you have ever been a patient in any hospital, you are probably familiar with the advantages of a liquid laxative.
Doctors know the value of the laxative whose dose can be measured, and whose action can be thus regulated to suit your individual need.
The public, too, is fast returning to the use of liquid laxatives. People have now learned that a properly prepared liquid laxative brings a perfect movement without discomfort at the time, or after. Dr. Caldwell's long experience with mothers and babies, and his remarkable record of nearly three thousand births without the loss of one mother or child, should give anybody complete confidence in any prescription which he wrote.
But most important of all, a gentle liquid laxative does not cause bowel strain to the most delicate system, and this is of the utmost importance to expectant mothers and to every child.
Expectant mothers are urged to try gentle regulation of bowels with Dr. Caldwell's Syrup Pepsin. It is a delightful tasting laxative of delightful action, made of fresh herbs, pure pepsin and active senna. Not a single mineral drug; nothing to cause strain, or irritate the kidneys.
Dr. Caldwell's Syrup Pepsin is an approved preparation and kept ready for use by all druggists.

PONTIAC - "It's an EIGHT - and it's a BEAUTY"

Get a PONTIAC! Pontiac is a new car... an EIGHT... and a BEAUTY... with everything you want in a car—and more.
Pontiac is the only car at anywhere near its price that gives you all the latest features you have a right to expect.

15 MILES TO THE GALLON AT 60 MILES AN HOUR FOR 1441 MILES!
"The trip (Youngstown to Miami) was devoid of fatigue. I averaged approximately 60 miles an hour. My gas consumption was a little over 15 miles to the gallon and I used just two quarts of oil. The distance driven, to be exact, was 1441 miles."
(signed) M. L. STEINER, Youngstown, O.

8 CYLINDERS AT THEIR SMOOTHEST
Eminent engineers agree that the Pontiac Eight engine is one of the smoothest, quietest engines in the industry... 84 h.p. . . 85 miles per hour. . . . And owners report 16 to 18 miles to the gallon of gasoline. Remarkable economy along with extraordinary freedom from repair costs!

Improved Buying Is Cheerful Note

Times are better, and every day sees new evidence that recovery not only is taking place, but that it has taken place, and not in one or two industries, but generally.

"Buying is done more freely than even a few months ago," comments Mr. Fesmire, Manager for the local Montgomery Ward store. "Great gains have been made for over a year. Retail stores generally report gains of from 30 to 60 per cent. And remember that retailing is a key business with fingers on the buying pulse of the nation. But there are other general indications of recovery. More businesses and families are installing than giving up telephones. Companies are increasing their advertising appropriations. Railway traffic is running more than 13 percent ahead of a year ago.

"We are going ahead with plans for the biggest Ward Week in the history of Montgomery Ward and Company. People now as always are interested in bargains. There isn't a family that hasn't requirements of more or less pressing importance, and many now have the means with which to buy, especially if the price is right. So we can say with confidence that this will be the greatest Ward Week of them all."

"The fact that Wards are in touch with approximately 15,000 sources of supply indicates the far-reaching effect of Ward Week in the industrial life of the nation. Purchases total hundreds of carloads of feature bargains and an equal number of carloads of regular merchandise at money-saving prices."

Considered by many to be the greatest sale in America in which 500 Ward stores in 46 states participate, Ward Week preparations reach astounding proportions. Wards must plan months ahead for it. More than the combined populations of New York and Chicago will attend, and the estimated number of transactions will exceed twenty million.

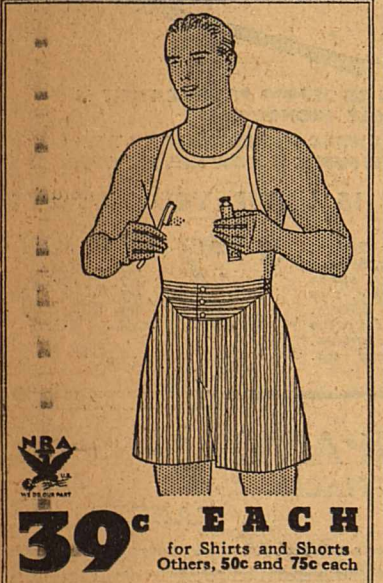

SYDNEY, Mont.—William Hauger, 86, has been acclaimed as Montana's oldest cowboy. His friends doubt if there is any other active cowboy as old as Hauger in the nation.

You can keep a good shirt DOWN!

HANES shirt-tails know their place . . . and keep it! You have so much length tucked into your shorts that it can't sneak up and bunch at the belt!

Cabinet Closeups

HAROLD L. ICKES
Secretary of Interior

HAROLD L. ICKES

By WILLIS THORNTON

NEA Service Staff Correspondent
WASHINGTON.—Even in the pre-New Deal days, the secretary of the interior had more extra jobs than most cabinet officers. Today, the incumbent, Harold L. Ickes, holds almost as many jobs as Mussolini.

He has all the jobs that previous secretaries have added to the regular portfolio: The Migratory Bird Conservation Commission, Patron of Howard University (colored), Smithsonian Institution, and National Forest Restoration Commission.

He is chairman of the Federal Oil Conservation Board, and a member of the District of Columbia Permanent System of Highways Commission and five other commissions relating to the roads and buildings in the capital.

He supervises the government of the Virgin Islands and all affairs of the Alaska Road Commission. His department has control over public lands, reclamation, Indian affairs, national parks, the Geological Survey, the Office of Education (with its Board for Vocational Education), and a long list of hospitals and similar institutions.

But because of special trust and confidence in Ickes held by the president, several of the key administrative jobs in the New Deal lineup were also handed this short, stocky, solidly built man.

He is Federal Emergency Administrator of Public Works, and as such is in charge of the tremendous program of government spending for public improvements. He heads the Public Works Emergency Housing Corporation and the Federal Surplus Relief Corporation, two other great agencies.

When you add the fact that Ickes carries also the regular cabinet assignment to the Executive Council, the National Emergency Council, and the Council of National Defense, you begin to get the idea that there is no personal jobless problem for him.

Devoted to his home in Winnetka, Ill., where he and Mrs. Ickes reared four children, Ickes lives in a small suburban Maryland community just outside Washington while here. He's 60, and doesn't look it.

HOMER S. CUMMINGS

Attorney General
By WILLIS THORNTON

NEA Service Staff Correspondent
WASHINGTON.—The attorney general is able to attend pretty much to the regular duties implied by the title of the job. He has fewer extra activities than most cabinet members.

He is the chief lawyer for Uncle Sam, representing him in court or giving legal opinions when requested by the president or department heads.

He may appear before the supreme court in grave cases, and all U. S. district attorneys and marshals in the various districts are under his supervision. He is constantly consulted by the president and other cabinet officers as to legality of proposed actions.

He is chief prosecutor for Uncle Sam of violations of such laws as anti-trust, security, patent, claims, tax, and customs cases.

He directs the very efficient bureau of investigation, which is supposed to ferret out all kinds of violations of federal laws. All federal prisons and their prisoners are under his supervision.

But he is also a member, since the New Deal, of the executive council, national emergency coun-

Don't Scratch

It is useless and may lead to serious infection. If your skin itches get a bottle of BROWN'S LOTION from your druggist today and get sure relief and permanent results for ITCH, ATHLETE'S FOOT, TETTER, ECZEMA, RINGWORM, IMPETIGO, BARBER'S ITCH, or any other itching skin disease.

BROWN'S LOTION is guaranteed by Oil City Pharmacy.

cil, and federal emergency administration of public works.

The first two of these meet infrequently, and probably are not much drain on the time of Cummings. He also holds the inevitable Smithsonian Institution membership.

Cummings, a kindly and paternal gentleman of 63, was born in Chicago, but rose to prominence in municipal politics in Stamford, Conn.

He is tall, loose-jointed, and long-armed, and speaks slowly, deliberately, and only after long consideration of just what he wants to say.

JAMES A. FARLEY

By WILLIS THORNTON

NEA Service Staff Correspondent
WASHINGTON.—The Smithsonian Institution got its first gum-chewing member when Jim Farley joined as one of his prerogatives on becoming postmaster general.

Farley, of the ready but somewhat mischievous grin, has his extra-cabinet duties all cut out for him in his chairmanship of the Democratic national committee and the New York state central committee.

He is field general of the Democratic party first, and postmaster general second. So you have to count Farley out in the New Deal agencies that crowd on cabinet members these days, despite the fact that he is an ex-officio member of the Executive Council.

The permanent staff of the Post-office Department, which Farley hopes to make break even under his regime, is effective and it pretty much runs itself, including the postal savings and postal inspection departments. The latter is the one which runs down offenses against the mails, such as robberies and illegal shipments.

Farley, who affects green socks

and ties, and green ink for his signature, is the cabinet gladiator. He's only 45, has three children, and lives in a big Washington hotel. You see him at all sorts of public gatherings.

That, and belonging to many organizations, such as the K. of C., Red Men, Elks, and a long list of clubs, is all a part of genial Jim's stock in trade.

Jim wouldn't have much time for the New Deal administrative jobs. He's too busy fighting off a continual stream of people who sit endlessly in his outer office, waiting. For jobs.

Magnolia Summer-ize Service Protection For Motorists' Cars

DALLAS, Tex., April 10.—With the near approach of hot weather, increasing numbers of motor vehicle owners are finding it profitable to safeguard their cars and assure care-free operation with Magnolia "Summer-ize" service. J. H. Marnan, chief engineer for Magnolia's technical department, reports, "Summer-ize" is a coined word describing the 7-point protective service provided only by stations and dealers of the Magnolia Petroleum Company.

"Both owners of new cars who want to insure them against early wear, and those less fortunate motorists who must keep their old cars running at least another year, are finding "Summer-ize" service their best protection," Mr. Marnan said. "The many car owners who have 'Summer-ized' in former years have learned the value of Magnolia's 7-point protection and are among the first driving in for the improved service this spring."

"Just as merchants change their stocks in spring and housewives clean house and rearrange their furniture, automobile owners are rapidly coming to understand the need of preparing their cars for 'hot weather driving. Certain simple precautions are necessary to put any automobile or truck in condition for safe and economical summer driving. Lubricants which were suitable for winter operation cannot be expected to provide adequate protection under hot weather driving conditions."

"Thinner, quick-flowing winter lubricants should be changed to heavier grades of Lubrite or Mobilil lubricants capable of resisting the high temperatures generated under summer heat in the crankcase, differential, transmission and other vital parts of a motor vehicle. "Summer-ize" provides a complete service, made up of seven distinct operations, worked out by Magnolia automotive engineers as those most necessary

to protect a motor vehicle against the high temperatures of summer driving."

Highway Delegates Will See Famous Texas Bluebonnets

DALLAS.—Delegates to the seventh annual convention of the Broadway of America Highway association, meeting in Dallas May 8-9, will be given an opportunity to see the world famous Bluebonnets in full bloom.

The bluebonnet is the state flower of Texas. During the convention of the Broadway of America the hill sides for miles around Dallas will be covered in a blanket of blue.

There is a saying current in Texas that the bluebonnet is a home loving flower and never crosses the state line. Many legends tell of the origin of the flower, all associated with Indian lore.

One story recalls that a little Indian girl offered her doll as a sacrifice to save her tribe, from starvation. The following spring the bluebonnets bloomed from the ashes of the burnt offering.

Another recalls an Aztec maiden who offered her life as an atonement for the sins of her people. As she was led to the altar, her blue headdress fell to the ground, and the Great Spirit, in compassion for her sacrifice, caused thousands of flowers to bloom in commemoration of her sacrifice.

Texans have found that blooming bluebonnets are a great tourist lure. During the season when the flower is in full bloom, thousands of tourists visit the state to see this unusual wild flower.

Unlimited Powers Given Commissioner

AUSTIN.—R. D. Parker, chief of the oil and gas division of the state railroad commission, who has now been made personal director of the campaign against hot oil, has been given unlimited authority by the railroad commissioners to hire and fire his assistants in the work. Parker is one of the state officials who does not let responsibility and power swell his head. That is one reason he is picked when the hard and responsible jobs come along.

Men will not be permitted to wear bathing suits without shirts or jerseys at Atlantic City, this summer. When it comes to that, let the women be first.

New Accounting System to Handle Future CWA Work

The complete termination of CWA activities on April 1st, will place the burden of supplying relief to indigent families of Texas on the shoulders of the following programs to be conducted by the Texas Relief, the Subsistence Homesteads and the Rural Rehabilitation Projects.

The successful carrying out of these programs in Eastland county has entailed the creation and installation, by the auditing department of the Texas Relief Commission, of a materially changed accounting system. The new system, known as the Donnell Installed System of Relief Accounting, was made under the supervision of George R. Donnell, Auditor of the Commission.

Of particular interest in the new set-up is the new "Work Relief" card which will enable the Administration to properly supervise the "Work Division" activities. Those unemployed, who

(Continued on page 8)

are actually destitute and are physically able to work, after a thorough investigation has been made definitely establishing their relief needs, will be given the opportunity to work and earn to their estimated relief need requirements. This work card is so designed as to limit the payrolls to the actual relief requirements for each particular individual employed. Pay to persons not eligible for relief, or to relief clients in excess of the requirements of the individual family will not be approved in Austin. The new work card, though simple in form, will permit the definite placing of responsibility and indicate who is at fault if a client is allowed to earn from relief funds more than his relief requirements.

Staff Auditor H. W. Haney of the Texas Relief Commission announced today, after a conference with County Relief Chairman Earl Corner of the Eastland County Relief Board, that a thorough study had been made of Eastland County Relief Problems and the new system installed. Elsworth Mayer will take charge of the new set-up here effective April 1st, as Certifying Officers under H. E. Driscoll, Administrator.

The new Relief Set-up to be used in this County has the specific approval of Washington officials, and it is believed that Kansas and Oklahoma, who recently sent officials to Austin to confer with State Relief Officers and to study the Texas Relief Accounting Set-up, may install this

COME AND REST

Do you ever want to get away from the hurry-and-scurry of every-day life for a little while . . . for just a few weeks . . . or even a few days . . . to go to some place where you can relax and rest . . . and go back home with renewed vigor . . . feeling like a new person? There is such a place! . . . only a few hours away from you . . . by train or over paved highways . . . where you can find relaxation . . . where you can "find yourself" again. It's the

A STRENGTH BUILDER

Dr. Pierce's Golden Medical Discovery increases the appetite, eliminates poisons from the intestines, stimulates the digestion, enriches the blood, clears the skin of eruptions and blemishes. Mrs. J. Bell of 529 - 9th St., Alexandria, La., said: "My family never thinks of looking for a better tonic than Dr. Pierce's Golden Medical Discovery." New size, tablets 50 cts., liquid \$1.00. Large size, tabs or liquid, \$1.35. "We Do Our Part."

— what it means — to store

70 million dollars worth of tobacco

— 4½ miles of warehouses

Everything that Science knows about is used in making Chesterfields. It means something to keep 70 million dollars worth of tobacco in storage. It means just this:

One thing we do is to buy mild, ripe tobaccos and then lock up these tobaccos in modern storage warehouses to age and mellow like rare wines.

We do everything possible to make Chesterfield the cigarette that's milder, the cigarette that tastes better.

It takes about 3 years to age the tobaccos for your Chesterfield, for Time does something to tobacco that neither man nor machine can do.

the cigarette that's MILDER the cigarette that TASTES BETTER

THURBER

Special Correspondent
Mr. and Mrs. John Plummer have moved to Fort Worth. They have been residents of Thurber for 41 years, taking active parts in the affairs of the community. Mr. Plummer served eight years as postmaster here and will surely be missed from that place. We hope them much success and happiness in their new home.

"There's a Million Jobs A-Waiting," a one-act play, will be given at the Methodist church Friday, April 13, at 8 p. m. This play is sponsored by the Epworth league and is directed by Mrs. Glenn Simon.

Miss Cornelia Campbell, who attends school in Ranger, spent the week-end with her parents.

Mr. and Mrs. Odie Freeman and Mrs. White of Strawn were Sunday guests in the home of Mr. and Mrs. Frank Whitworth.

Mr. and Mrs. Joe McKinnon and daughter, Laurine, and Mrs. Ida Duke were Fort Worth visitors Sunday.

Howard Gibson of Caddo visited several days last week with his parents, Mr. and Mrs. Lum Gibson.

J. W. Newton of Houston is visiting with his sister, Mrs. M. P. Oyster, who is very ill.

Mr. and Mrs. J. A. Brooks were Gordon visitors Thursday.

Jim Woods of Breckenridge visited with his parents.

Bill Roberts of Fort Worth visited friends here Sunday.

Mrs. Lafayette Henly and daughter, Marguerite, were Gordon visitors during the week-end at the home of her mother, Mrs. Henry Bullard and family.

Miss Frances Whitworth of Teachers college, Denton, visited homefolks during the week-end.

Rev. W. E. Anderson, Mr. and Mrs. Ralph Wynne, Miss Izzetta Woods and Miss Lavada Fenner attended church and quarterly conference at the Mingsus Methodist church Snuay afternoon.

Failures In Texas Show Big Decrease

AUSTIN.—There were 21 commercial failures in Texas during March compared with 32 in February and the same number in March last year, a decline of 34 per cent in each case, according to the University of Texas Bureau of Business Research. During the first three months of the current year there were 79 failures, against 187 in the corresponding period last year, a drop of 58 per cent.

Liabilities of the firms that failed totaled \$435,000 in March against \$468,000 in February and \$569,000 in March last year, declines of 7 and 24 per cent respectively. For the first three months, liabilities totaling \$1,206,000 were 65 per cent less than the \$3,423,000 during the corresponding 1933 period.

Assets equaled 74 per cent of the liabilities in March, 57 per cent in February, and 50 per cent in March, 1933. Total assets of the bankrupt firms during the first quarter were equal to 57 per cent of the liabilities, compared with a ratio of assets to liabilities of 44 per cent during the comparable period last year.

Central Bank For Cooperatives Makes Association Loans

WASHINGTON.—Up to March 31 the Central Bank for Cooperatives, Farm Credit Administration, approved 44 loans aggregating \$43,848,865 to farmers' cooperative associations, according to a statement of the bank at the close of business that date. Of this amount, \$43,447,625 was to provide working capital to aid the associations in marketing the products of their members, and \$401,240 was to finance physical facilities necessary for the cooperatives to carry on their business.

According to the statement, nearly half the total set up by these commitments was for cotton cooperatives—\$20,878,200. Grain cooperatives were the next largest borrowers with a total line of \$10,182,500. Commitments to wool associations amounted to \$5,000,000. Supply purchasing organizations obtained a credit of \$4,526,600. Other associations obtaining commitments, according to the commodities handled, were:

Tobacco	\$1,459,500
Nuts	918,000
Livestock	420,000
Dairy	321,120
Fruits and Vegetables	127,145
Poultry Products	15,800

The full amount of credit set up by the Central Bank for these loans has not been drawn by the borrowing cooperatives. On March 31, the actual amount of loans outstanding totaled \$12,750,555, of which \$12,359,928 was for merchandising and \$390,627 was for financing physical facilities.

Garden and Yard Hints From Club Women of County

American Cheese On the Farm Mrs. J. J. Hamilton, farm food demonstrator of Yellow Mound home demonstration club, uses the following recipe for making American cheese. Mrs. Hamilton and a neighbor have been working together, using the surplus sweet milk for this purpose.

Cabinet Closeups HENRY MORGENTHAU, Jr. Secretary of Treasury

HENRY MORGENTHAU, JR.

By WILLIS THORNTON NEA Service Staff Correspondent WASHINGTON, April 5.—Newly full-fledged cabinet member, Secretary of the Treasury Henry Morgenthau Jr., was appointed to succeed William Woodin, whose assistant Morgenthau had been.

GEORGE H. DERN Secretary of War

GEORGE H. DERN

Secretary Dern rose through the mining and smelting business to the U. S. Senate and the governorship of his state. He is co-inventor of an ore-smelting device, and prepped unconsciously for his present job by membership in his state's council of defense during the World War.

30,000 miles of inland water transport. Dern is president of the National Forest Reservation Commission, which buys and manages cut-over or denuded lands, to regulate stream flow or promote timber growth. He is responsible not only for the defense, but for the operation of the Panama canal.

When the enormous relief works, organization of the Civilian Conservation Corps and the Civil Works administration came along, all details of recruiting, feeding, housing and organizing these millions of men fell on Dern's department.

Gorman Teams Win In Grade Debates

Gorman won first in the sixth and seventh grade debate contest in which seven schools participated in Eastland, Monday. Cisco and Pioneer tied for second position.

Employment Is Increasing In Texas

AUSTIN.—Employment conditions in Texas show a marked improvement over a year ago, according to the University of Texas Bureau of Business Research. For the week ended March 17 the total number of employes in 2,723 establishments was 20 per cent greater than during the corresponding week last year.

Huge French Sub Ready for Cruise Around the World

By United Press
PARIS.—The submarine Surcouf, the world's largest undersea boat, and believed to be the most dangerous fighting ship afloat, will start its world cruise early in June.

Estimated at approximately 3,000 tons, the Surcouf represents the latest development in submarine warfare, and with its cruising radius of 20,000 kilometers, or half way around the world, it will visit various ports.

Measuring 110 meters over all, with 13 meters amidship, the Surcouf has a surface speed of 20 knots and will have an undersea speed of 11 knots, the fastest of all submarines. Its effectiveness lies principally in its ability to fire a salvo of 14 torpedoes. Eight of the 14 torpedo tubes are in the bow, two in the stern and four are on the beam, giving the ship an immediate range on its target, regardless of position.

The Surcouf is listed as a defense submarine, despite its offensive character. With its battery of four 5.5 guns and its powerful anti-aircraft rifles, the ship is armored heavily on its exposed deck and is virtually invulnerable to aerial bombs, or light caliber fire from cruisers or destroyers. The Surcouf is almost double the size of the famous German U boats. In its recent plunging tests off Brest it descended quickly to 80 meters, brused along at 10 knots and rose as quickly.

Equipped with Diesel engines, the ship has provisions for long cruises, insuring normal surface air, drinking water and supplies. The interior is a model of mechanical ingenuity and almost every known safety device is included in the protective apparatus. The deck even carries a small airplane.

The V-4, which is the nearest approach to the Curcouf in the American navy, displaces only 2,890 tons, and the best British submarine is the X-1 of 2,525 tons. It is probable that a second class will be constructed as soon as the credits can be provided for the naval budget.

College Professors Will Meet April 25

FORT WORTH.—Some 300 representatives of 55 Texas colleges will meet here April 25-28 for the annual convention of the Association of Texas Colleges and the Texas Association of Junior Colleges.

The junior college association will meet the first two days and the senior colleges the last two days. The sessions will go into all forms of education, from fine arts to athletics. Revision of curriculum and college standards will also be discussed.

Dean Colby D. Hall, head of Texas Christian university, is president of the Association of Texas Colleges and Dean N. K. Dupree, Houston Junior College, is president of the junior college group.

Wood Scraps Used To Make a Violin

HOUSTON.—Scraps of wood in the hands of W. J. Parker, 54, cabinet maker, turned almost magically into a violin with a tone that brought praise of musicians. Parker insists the instrument is a fiddle.

An hour each day for three months he deftly turned out the intricate pieces that were to make his instrument. He fashioned the finger board, the sides, the keys and the bridges from scraps of maple; the neck was carved from a piece of oak; the back was made of birch; the front was of white pine and the apron of wood fibre.

A Rice Institute professor and a local musician agreed that the violin had a "surprisingly excellent tone." The strings Parker uses had been on another violin for 20 years.

HOUSE KILLS BILL
WASHINGTON, April 10.—The Senate refused today to accept Senate amendments to the bill guaranteeing the principle of the bonds of the HOLC. The bill now goes to conference.

Secretary of the Treasury Morgenthau says we ought to have cheaper whisky. We have, any bootlegger will tell you.

Threats Against President Charged Against A.L. Savage

NEW YORK, April 10.—Alfred L. Savage, wealthy Fishkill, N. Y., insurance broker, was held on \$1,000 bail today for a hearing on April 18 on a charge of uttering threats against the life of the President of the United States.

Savage denied the charge. The threat against the life of Mr. Roosevelt was alleged to have been made in Florida on March 14. The complaint was signed by an agent of the United States Secret Service.

One-Legged Chicken Latest Nature Freak

MIDLAND, Tex.—Hatched with only one leg, a Rhode Island Red baby chick owned by S. J. Eason is one of the newest freaks of nature.

The chick was taken from an incubator batch of 84. It has a perfect right leg, but on the left there is no sign of a leg or hip.

The chick from the start has had uncanny sense of balance and can move about with perfect ease. Eason planned to make the one-legged chick a pet.

Premature Poll Tax Bills Arouse Women

EAST HADDAM, Conn.—Tax collector A. J. Lecrenier received so many complaints from the fairer sex that they had received poll tax bills before they had become of legal age, he inserted an article in a newspaper, which read, in part:

"I trust those that I have sent notices to will understand that I am complying with the law and that I do not keep a birthday book of all personal taxpayers."

CHILD HAS 37 MOTHERS
AMHERST JUNCTION, Wis.—Miss Jean Carlson, four, has acquired 37 mothers as the result of her adoption by the Kenneth S. Wells Auxiliary of the American Legion. Jean's mother and father were killed in an automobile accident two years ago.

'WHITE COLLAR' ARTIST FOUND AFTER SEARCH

FORT WORTH, April 10.—A three weeks search for "White Collar," anonymous Fort Worth artist, whose drawing so pleased President Roosevelt that he asked the artist he found, ended today.

The wife of W. G. Rhodes, 56-year-old former oil company employe, but who has done odd jobs through three years of depression, today revealed her husband was the artist.

The drawing was entitled "O'er the Grim Night of Chaos Shown One Bright Star." It showed a number of kneeling men looking off at a star. The star was labeled "NRA." Rhodes sent the drawing to the White House.

The picture so attracted the President he asked relief agencies to find the artist.

"Shucks, I never drew a serious picture in my life?" Rhodes said today. "I was sitting at my desk one evening. The first thing I knew I had drawn a group of men on their knees looking at a bright star."

Mexico Plans Laredo Highway Completion

EL PASO.—Mexico's great new highway from Laredo to Mexico City is nearing completion and will be ready for tourist traffic next fall, according to construction contractors here.

The Mexican government is building the road with a bond issue of 20,000,000 pesos.

The highway is passable now, officials said, but somewhat uncomfortable to ride over.

Many miles of the road are concrete, however. Some parts at present will not permit traffic during rainy weather.

Approximately 62 miles of the road up and over the mountains between Tamazunchale and Jacala, with a perfect lava rock surface, is only 10 feet wide, with a chasm at the side that demands the most careful driving.

It is generally agreed the scenery offered in this stretch of the road is as fine as may be seen from any mountain highway on the continent.

Jimmie Welling Is Given Long Term

THROCKMORTON, April 10.—Jimmie Welling, convicted forger from Houston county, today faced 20 years in prison in the state penitentiary on each of five counts following his plea of guilty to charges of robbery with firearms and kidnaping. The sentences are to run concurrently.

Welling was charged with the same filling station robbery near Woodson in which Hilton Bybee was sentenced to 25 years in prison yesterday.

TEXAS GOATS TO HAVE BEAUTY CONTEST

ROCK SPRINGS, Texas.—A beauty contest for goats will be held by the board of trade of the Brewers of America during the Texas Angora Goat Raisers association meeting here July 3 to 5. Texas ranchmen were asked to cooperate in the contest to find the most beautiful goat.

LURCHING TRAIN CAUSED LAW SUIT

PEORIA, Ill.—A lurching train and a toothpick are the causes of a \$50,000 damage suit against the Illinois Terminal Company in circuit court here. Samuel Porter, the plaintiff, was using a toothpick when the train lurched, a piece of baggage fell from an overhead rack and the sliver was driven into Porter's gums. Infection followed and Porter lost his lower teeth and a portion of his lower jaw bone.

MAY RAISE PRAIRIE CHICKENS

MARION, O.—The prairie chicken, native of the western plains, soon may be hunted as game in Ohio. This possibility was indicated by results of a test in this area which indicated the bird can be propagated in this section. Ohio conservation agents found that birds released last fall could be located afield, showing that the birds have found the section habitable.

CLEVELAND HUSHES RAG PICKERS

CLEVELAND HEIGHTS, O.—The cacophonous cry of rag scavengers will no longer be heard in this fashionable Cleveland suburb. Councilmen have decreed that all paper and rag collectors must be licensed. It is believed this will end the supposed nuisance. "We don't want our boulevards full of pushcarts," commented City Manager Harry H. Canfield.

COUNTY SANITARY SUPERVISOR MAKES DETAILED REPORT ON SANITARY WORK IN THE COUNTY

The following is a survey of the sanitary work carried on in Eastland county under the CWA program, which came to an end on the night of March 29, as reported to the state health department by Fleming Waters, county sanitary supervisor:

Mr. Vic Ehlers, State Health Department, Austin, Texas.

I hand you herewith an abstract, complete to date, of all sanitary work in this county under the recent CWA program which terminated the night of March 29, 1934, as follows:

1. Administrative—\$767.10.

2. Engineering—\$2,640.70.

This work consisted of the accurate surveying, and mapping of the drainage areas of the water sheds; planning and designing sanitary corrections; planning and designing and supervision of the water system of Desdemona, Texas; surveying, planning and designing the correction of other defects in water supplies, county-wide. Engineers were paid skilled wages of \$1 per hour.

3. Sanitary Survey—County-Wide—\$4,355.40.

This work consisted of contacting every home in the county, ascertaining the economic, health and sanitary conditions thereof, obtaining statistics thereon, disseminating health and sanitary education; compiling and tabulating this information. The surveyors were mostly women and were paid an average of \$15 per week.

4. Nurses—\$1,820.60.

This work was carried on under the direction of the county health officer and the county health nurse, and made possible the clinical examination of some 3,000 school children, obtaining their health records and the administering of prophylactic toxoids and serums to more than 1,000 school children. Also other miscellaneous health work.

5. Water System, Desdemona, Texas—\$1,528.40.

This work consisted of the dismantling of the re-erection of a 30,000-gallon steel tank at Desdemona; the laying of some 1,200 feet of water line, and other minor corrections. It not only assured the city of an abundance of drinking water at all times, but increased their fire protection and decreased their insurance rate.

6. Water System, Rising Star—\$397.60.

This work consisted of cleaning and painting the water tower in Rising Star, together with other minor corrections in their general water system. The city furnished the necessary materials.

7. Water Connections, County-Wide—\$510.00.

This work consisted of connecting homes and public buildings with water lines and curing other minor defects.

8. Drainage, County-Wide—\$580.00.

This work consisted of draining low places which constituted dangers to the communities as mosquito breeding points, and in and around dairies, to eliminate pollution. It was county-wide.

9. Sewer Connections, County-Wide—\$1,130.60.

This work consisted in connecting homes to sewer lines where practicable, and resulted in the expenditure of from private sources, \$3 spent for materials by the individuals where the government spent \$1 for labor.

10. Pit Privies, County-Wide—\$11,811.25.

This work consisted of the building of sanitary standard pit type

privies, county-wide, where sewer connections were not available and where individuals were unable to purchase the materials necessary for the construction of septic tanks. Five hundred fifty-one pit privies were constructed in the county, and at this time, approximately 20 are left in the process of construction. At this time, this office has on hand a record of some 631 additional individuals who have a desire to have these buildings constructed on their premises.

11. Septic Tanks, County-Wide—\$2,342.60.

Where the individuals were in a position to purchase plumbing fixtures and other materials necessary to operate a septic tank, installation was made. Twenty-four of these were completed and five were left in the process of construction. The relative high cost of labor for these installations resulted from encountering a great deal of solid rock.

12. General Clean-Up—\$2,496.10.

This work consisted of cleaning dump grounds, removing miscellaneous health hazards, etc. It was county-wide.

13. Miscellaneous Plant and Office Repairs—\$546.90.

Sum Total—\$30,927.25.

Skilled labor was employed where available, and others were paid in pursuance to the wage scale for the southern zone as set forth by the administrator as a result of an agreement with the trades unions of the United States. Every effort was made to expedite the work without sacrificing economy or sound business methods.

While the above report sets forth the accumulation of a great deal of work, we have, figuratively speaking, merely scratched the surface.

There is now being prepared in this office a proposal for the continuation of this work in the county, and it is anticipated that we will be able to carry on with the inauguration of the new work relief program.

Hoping that this report meets with your approval, and trusting that it is the harbinger of many others, I am,

Very truly yours,
FLEMING WATERS,
County Sanitary Supervisor.

Olden Scout Given His Eagle Badge at A Court of Honor

A court of honor was held at Masonic building Friday, April 6, with members of Troop 9 and 10 of Ranger and Troop 32 of Olden participating. There were 45 boys present and 10 visitors. J. E. Meroney was chairman of the court of honor.

Johnnie Jarrett of Troop 32, Olden, was presented with an Eagle badge, the highest honor that can be bestowed upon a scout. The Eagle badge was presented by the chairman to Fred Warren, scoutmaster of the troop, who in turn gave it to Mrs. Jarrett and she pinned it upon her son.

Seven tenderfoot badges, five second class badges and two first class badges in addition to 40 merit badges were presented at the court of honor.

A. W. Dyar Dies of Injuries Received At Lease In Pecos

Word was received in Ranger Saturday of the death, in Pecos, of A. W. Dyar, formerly of Fort Worth. He died of blood poisoning following an injury received several days ago when he was moving tools to a new location.

The decedent was born in Marietta, Washington County, Ohio, Nov. 2, 1891. He had been engaged in the oil business since early manhood, first operating in Ohio and later in Kentucky before coming to Texas in 1919. He was well known over Eastland and adjoining counties, having lived in Ranger until four years ago when he moved to Fort Worth.

He is survived his his widow and two children, Misses Virginia and Patricia Dyar; his mother, Mrs. Elizabeth Dyar; five sisters, Mrs. Ben Fordreau, Marietta, Ohio; Mrs. Mary McDermott, Marietta, Ohio; Mrs. T. J. O'Reilly, Columbus, Ohio, and Sister Mary Electa, Louisville, Ky.; and two brothers, W. F. Dyar of Marietta and Charles Dyar of Ranger.

Funeral services were held in Fort Worth with arrangements to be made upon arrival of relatives.

Spring Wool Sale Will Be Held On Saturday, April 21

Announcement was made here that a wool and mohair sale would be conducted in Ranger on Saturday, April 21, at the A. J. Raffitt warehouse.

A number of growers have already stored their wool and mohair and those who have not done so are urged to have it hauled to the warehouse as soon as possible, as buyers will be here on that day to make purchases.

It was pointed out that from three to four cents a pound more could be obtained where the clips were pooled and the buyers could grade and price the wool and mohair at one time than when sold in job lots. For this reason everyone who is a grower has been notified to have their product at the warehouse in time for the sale.

It is reported that several buyers would be present on Saturday, April 21 and that the entire spring clip would be sold at that time.

Chevrolet Raises Its Factory Force Wages

Effective Monday the Chevrolet Motor company announced a 10 per cent increase to all factory employees. "Prior to this increase, the average worker was paid 75 cents an hour or \$5.60 per day. This wage was one of the highest in the industry and now that the average has become \$6.30 per day, Chevrolet leads most manufacturers in the wage scale, says H. C. Howard, zone manager of the Dallas zone.

"Chevrolet's adherence to and fullest co-operation with NRA policies is indicated by the fact that in its own plants, exclusive of the General Motors units, who supply them with production parts, they now have 66,000 workers as compared with the peak production periods of 1928 and 1929," said Mr. Howard. "During 1930, through 1933, the average employment was only 30,000 men—better than a 120 per cent increase in

the number of employed in 1934 over 1933."

"And now with the hours worked reduced from 40 to 36 per week there will be a further expansion in the number employed.

"In the month of March, just closed, Chevrolet produced approximately 100,000 units and will produce in excess of 125,000 in April, the largest month's production since 1929.

A shortage of Chevrolets still exists, but it is due to the tremendous demand for its product. Proof of this lies in the fact that in February, Chevrolet produced 72,273 units as compared with the next largest manufacturer's 59,357 and the third largest 34,709.

Mr. Howard said the Dallas area of the northern half of Texas, his territory, sold in excess of 350 per cent in March, 1934, over the same period in 1933. March sales of approximately 3,000 cars was the largest month since May, 1929.

Funeral Services For Gid Laycock Held Saturday

Funeral services for Gideon J. Laycock, 69, who died Thursday night at his home on Oak street after a long illness, were held Saturday, April 7, at 2:30 p. m., at the First Baptist church, conducted by the pastor, Rev. George W. Thomas, assisted by Rev. H. B. Johnson and Rev. K. C. Edmonds. Interment was in Evergreen cemetery.

Mr. Laycock came to Texas 41 years ago, and located in Ranger in 1900, and lived here most of the time. He is survived by his widow and two daughters by a former marriage, Mrs. Lula Roubion and Mrs. Lela Plane, both of Galveston; one granddaughter, Johnnie Lee Laycock of Harlingen, Texas, and a half-sister of Jackboro, Texas.

Mr. Laycock has been a member of the First Baptist church for a number of years. Active pallbearers at the funeral were C. H. Todd, Joe Todd, John Barnes, Conn. Hazard, Henry Hamold, Pony Harrison, F. P. Brasher and E. C. White.

Famous Palo Pinto Hermit Not Dead Despite Rumors

PALO PINTO, Texas.—Contrary to rumor, Palo Pinto's famous recluse, George the Hermit, is not dead, but has moved to a new secret cave.

The rumor of George the Hermit's death spread through the vicinity after Palo Pinto folk missed the gaunt, shuffling figure for an

"I WENT 51% FURTHER ON GULF-LUBE"

Says Mrs. Lee Ketner, Winston-Salem, N. C., Who Made The "Two Trip" Test

Drive a Chrysler? Read Mrs. Ketner's story...

"I made my 'two-trip' test," says Mrs. Lee Ketner, 705 Melrose St., Winston-Salem, N. C., "and to say I was surprised would be putting it mildly."

"Gulf-lube outlasted my regular 25c motor oil by 115 miles—it went 51% further before a quart was consumed!"

Thanks, Mrs. Ketner. You're one of thousands of motorists who have cut their oil costs with Gulf-lube—the oil that was tested by the American Automobile Association in 6 average cars—and outlasted every oil in every car!

Start saving! Switch to Gulf-lube now. You'll buy less oil between fillings. You'll get better, smoother lubrication. At 25c a

quart Gulf-lube is America's biggest motor oil value. At all Gulf stations.

NEW OIL TEST detects motor dirt. Ask about it at any Gulf station.

GULF-LUBE The "High Mileage" Motor Oil

unusually long period. His cave near the mouth of Eagle creek on the Brazos river, where he has lived for 20 years, was abandoned.

Little is known of his past life, except that he became a hermit here two decades ago. He lives chiefly on fish and squirrels. On rarest occasions he walks to Palo Pinto to borrow a bit of food. His cooking he does in a mud oven and

he sleeps on bare rock, according to accounts.

When he disappeared, it was feared his dead body would be found in a canyon or some secluded retreat. This fear was dispelled, however, when a band of fishermen recently ran across the hermit.

He had changed his cave, he told them, because civilization encroached too near his former

habitat. He sometimes saw a man as often as once a week.

Occasionally, there would be a visitor, attracted by legends that have grown up about him. This could not be a satisfactory state for a hermit.

So George the Hermit moved, without leaving a forwarding address, but it is believed his new cave is somewhere in the Fortune Bend country of the Brazos, eight miles from his former cave.

THREE-BODIED LAMB IN OHIO NORWALK, O.—A three-bodied eight-legged lamb, born on the farm of Loren Griffin near here, is making townspeople who have seen it believe they're carrying a hangover. Despite its multiple bodies, the animal has only one head. The juncture of the bodies is in the center, with the other parts radiating out in the form of a part wheel.

CONFUSION ENDED ON BRAN

New Ruling Makes Labels Accurate

To protect the buying public, the United States Food and Drug Administration has advised that every package of cereal labeled "Bran" state on the label exactly what it contains.

Before this ruling, even part-bran products were sometimes mistakenly referred to as "Bran." It was not easy for the purchaser to distinguish between a cereal that was entirely bran, or all bran with flavoring, and another that was mostly wheat.

Kellogg's ALL-BRAN is labeled "ALL-BRAN—Deliciously Flavored with Malt, Sugar and Salt," a statement which describes the product fairly and honestly.

Kellogg's ALL-BRAN has won millions of friends because it corrects many types of common constipation safely and pleasantly. It furnishes generous "bulk"—needed to promote normal elimination.

However, ALL-BRAN is not a "cure-all." Certain types of intestinal disorders should be treated only on a physician's advice.

When you buy a bran cereal, for the relief of constipation, read the wording on the package. The facts are there! Make sure by asking for Kellogg's ALL-BRAN. It furnishes "bulk" in a form for satisfactory results.

At all grocers. In the red-and-green package. Made by Kellogg in Battle Creek.

SO ROUND and FIRM and FULLY PACKED. Luckies are all-ways kind to your throat

They taste better

NOT the top leaves—they're under-developed—they are harsh!

NOT the bottom leaves—they're inferior in quality—course and sandy!

Nerves Do they torture you by day? Keep you awake at night?

What is it that keeps hospitals open and doctors busy? NERVES.

What is it that makes your face wrinkled and makes you feel old? NERVES.

Nine times out of ten it's NERVES that make you restless, worried, haggard.

Nerves Do they make you Cranky, Blue--give you Nervous Indigestion, Nervous Headache?

When nerves are over-taxed, you worry over trifles, find it hard to concentrate, can't sit still. Nerve Strain brings on Headache.

Nervous people often suffer from Indigestion. There may be absolutely nothing wrong with the organs of digestion, but the Nerves are not on the job to make the organs do their work properly.

Nerves Do they interfere with your work; ruin your pleasure; drive away your friends?

You're cheating yourself and the man who pays you if you work when your NERVES are not normal.

You can't have a good time when you are nervous. You can't make or keep friends when you are keyed up and irritable. You may excuse yourself, but to others you are just a plain crank.

Quiet your nerves with DR. MILES' NERVINE Liquid and Effervescent Tablets
