

UNEMPLOYMENT INSURANCE IS BEING URGED

WASHINGTON, April 25.—President Roosevelt has thrown his support behind the drive for unemployment insurance legislation this session of congress, it was learned today.

Representative David Lewis, democrat, Maryland, co-author of the unemployment insurance bill, said the president in a personal letter to him "asked that I do all in my power to get action this session."

Several weeks ago Mr. Roosevelt backed the bill in principle in a letter to the chairman of the house ways and means committee. Until today it had been assumed the president was willing to have the measure sidetracked so that adjournment could be speeded.

The bill provides for a 5 per cent excise tax on the payrolls of all industrial employers, calculated to establish a \$1,000,000,000 annual reserve for unemployment insurance.

No Liens Will Be Made On Any Crop Financed By Others

Crops which are being wholly financed from other sources will not be included in first liens taken on crops as security for Federal Emergency Crop loans, according to a statement by the Production Credit Division of the Farm Credit Administration.

Thus, it will not be necessary for a borrower who in growing a crop which is being wholly financed by other parties to obtain a waiver of lien on that crop; and crops to be financed later on with funds from other source will not be included in the first lien taken to secure the emergency crop loan.

A first lien will be required, however, on the crops partially or wholly financed by the emergency crop loan proceeds.

The minimum amount of an emergency crop loan to any one individual is \$10, the maximum, \$250. No loan will be made to any applicant who is able to procure a loan of the same amount from other sources; nor to any applicant who has a means of livelihood other than farming, or is otherwise ineligible.

Campaign Starts Against Mail Fraud Cases Over Texas

FORT WORTH.—Mail fraud promoters, especially of the oil and mining vintage, have been "put on the spot" in North and East Texas in a federal campaign to rid the area of such grafters.

With this goes the U. S. Shipping Board Merchant Fleet Corporation, a sort of "receiver" for the war-time Shipping Board.

Roper is a stern-appearing, large man of 67, formerly active in the Methodist Church, South, and its educational institution, American University, in the capital.

With this goes the U. S. Shipping Board Merchant Fleet Corporation, a sort of "receiver" for the war-time Shipping Board.

Postal inspectors who gather evidence against promoters suspected of fraudulent operations, estimate that cases docketed within the last year have represented a loss to investors of more than \$58,000,000 in fake oil and mining schemes.

A staff of five government attorneys are now concentrating on the prosecution of mail fraud defendants already docketed on the federal court calendar here. A special prosecutor, Walter Barlow, United States assistant attorney general, has been sent here to aid in cleaning up the cases.

Col. Amos W. Woodcock, another specialist man from the attorney general's office at Washington, has been here several weeks aiding the government's war against promoters. So intensive has the government's campaign become in Fort Worth, once known as the "capital" of fleecers, that most of the promoters have scattered, going principally to Shreveport, La., or Hot Springs, N. M., Eastus said. It will require another three or four weeks to complete all the cases now pending in federal court here, Eastus said. More than 100 cases were docketed when Eastus became federal district attorney. At the time he announced that one of the principal purposes of his tenure in office would be to clear up mail fraud cases.

Cabinet Closeups

DANIEL C. ROPER
Secretary of Commerce

By WILLIS THORNTON

NEA Service Staff Correspondent
WASHINGTON.—Nearly 40 years of continuous public service in many jobs culminated in appointment as secretary of commerce of Daniel C. Roper. He was elected to the South Carolina house of representatives in 1892, and has held public office or position almost ever since.

He must supervise the large Bureau of Foreign and Domestic Commerce, the Bureau of Standards, and the Bureau of the Census, Fisheries, Mines, Navigation and Steamboat Inspection, Coast and Geodetic Survey, Aeronautics Branch (licensing and inspection of planes and airways).

Maintaining the Lighthouse Service and the Patent Office are big jobs in themselves. Then the regular cabinet assignments to the Council of National Defense, Smithsonian Institution, Executive Council and National Emergency Council have added to them, in Roper's case, assignments to the Federal Board for Vocational Education, Federal Oil Conservation Board, Migratory Bird Conservation Commission, Federal Employment Stabilization Board, Chicago World's Fair Centennial Commission, Foreign Service Buildings Commission, and the Public Works Administration.

Only this past year the functions of the United States Shipping Board were transferred to Roper's department. With this goes the U. S. Shipping Board Merchant Fleet Corporation, a sort of "receiver" for the war-time Shipping Board.

Roper is a stern-appearing, large man of 67, formerly active in the Methodist Church, South, and its educational institution, American University, in the capital.

Sheriff Seizes Beer In Raid At Ranger Wednes.

Sheriff Virge Foster, Wednesday morning, descended upon the residence of a Ranger man and seized 10 dozen bottles of beer and beer making equipment.

The resident of the house had the night previous been jailed in the Ranger city jail because of intoxication charges.

Charges will be filed against the man for possession of beer in a justice of the peace court provided cases.

Tickville Band On Program At Brady

The American Legion Tickville Band, under the direction of Dr. Harry A. Logsdon, went to Brady Tuesday afternoon and played at the annual banquet of the Brady Chamber of Commerce, which was held in the fellowship room of the First Christian church.

The attendance was numbered at 329 and the response given to the program submitted by the band was one of the greatest ovations ever accorded the musicians.

PROTRAIT IN BEADS
HARRISVILLE, N. H.—A portrait of President Roosevelt, made entirely of beads, has been completed by George E. Duncklee. It took 27,000 beads to make the 10 by 12 portrait.

CRIME SLUMPS IN UTAH
SALT LAKE CITY, Utah.—Crime decreased 10 per cent in Utah during the fiscal year ending April 1, records of the public safety commission revealed.

SEN. SHEPPARD IS SPONSORING THE MEASURE

WASHINGTON, April 25.—Credit relief to the average salary or wage earner was the object today of an effort at the capitol to round out the recovery drive by helping the "little fellow" as well as the nation's basic industries.

Containing that the government thus far has aided only special classes of the population—banks, farmers, railroads and industrial enterprise—supporters of a bill for establishment of a federal credit union system argue that the time has come to help ordinary people of small school.

The credit union bill is on the senate calendar, having received a favorable report from the banking committee. It will make credit available at reasonable interest rates.

Senator Morris Sheppard, supporter of the bill, said he expected favorable action on it when the senate takes up its calendar today.

Senator Sheppard has made a canvass and believes the bill has a good chance to pass.

Code Authority For Contractors Is Working Out Plans

The divisional code authority for general contractors, under the NRA, have taken the first steps in code enforcement for their industry by requiring registration of all construction work. All such work must be registered with the divisional code authority whether the work is undertaken by a general contractor, or by corporation or individual not in the contracting business, but doing construction work by day labor.

Advice has just been received from Washington, appointing Harry B. Friedman of Fort Worth, as the agent to obtain such registration of construction work undertaken on and after March 19, 1934. Every job of construction, or repairs of any character undertaken, costing \$2,000 or more is required, under the code, to be registered with the divisional code authority, for whom Friedman will furnish necessary blank forms and information.

Tentatively, the state of Texas has been divided into seven groups, consisting of the following territories, that of Amarillo, El Paso, Beaumont, Fort Worth, Dallas, San Antonio, and Houston.

The Fort Worth territory to be served through Mr. Friedman's office will consist of the following counties, comprising the north-central section of the state: Archer, Baylor, Bell, Bosque, Brown, Callahan, Clay, Coleman, Comanche, Cooke, Coryell, Denton, Eastland, Erath, Falls, Hamilton, Hill, Hood, Jack, Johnson, Lampasas, McCulloch, McLennan, Mills, Montague, Palo Pinto, Parker, San Saba, Shackelford, Stephens, Somervell, Tarrant, Throckmorton, Wichita, Wilbarger, Wise and Young.

All general contractors and builders of various character and owners, whether corporation or individuals doing their own work in these counties, whether the job costs \$2,000 or more, are required to report to Mr. Friedman's office in the Sinclair building in Fort Worth, and obtain registration blanks and other information in order to comply with the code of fair competition for the construction industry.

Labor Commissioner Works Long Hours

AUSTIN, Tex.—Charles Poe, state labor and boxing commissioner, is not a stickler about the hours he works. He opened his office at 8:30 p. m. last Saturday night to take advantage of the night telephone rate in a conference with the president of the national boxing association. Poe also worked Sunday trying to force Barney Ross to go through with his contract for a fight with Tony Herrera at Fort Worth April 20.

BABYLONIAN BRICK IS UNEARTHED
WASHINGTON.—A 50-pound brick, which 2,500 years ago helped support the walls of Babylon, has been obtained by Rev. Milton Bennett Lambdin, archeologist. It is believed to be the only relic of its kind in America.

BABE BORN WITH TWO TEETH
ST. HELENS, Ore.—Charlene Haniff was all set to eat corn-on-the-cob, when she was born to Mr. and Mrs. Charles Haniff at Felton Maternity home here. She possessed two well-developed teeth in her lower jaw, and weighed eight pounds.

Farm Families Off Relief Rolls to Be Given New Aid

AUSTIN.—Many farm families in Texas were cut off from various Federal Emergency Relief rolls on April 1, but a new program will be put into immediate effect for aid of a different and more business like kind, it was announced today by Director Marie Dresden of the Texas Relief commission.

New relief for most families will be directed mainly toward helping them to become self-sustaining. Families not suited to farm projects may be continued on work projects, or, where no other course is open, will be given direct relief.

During the government's program relating to reduction of certain crops in Texas, many tenant farmers became displaced only to find themselves on the relief rolls of the state.

Director Dresden is of the opinion that many landowners who let tenants go, due to inability to care for them, would be now willing to have those same tenants, or an equal number of them, live on their farms under the jurisdiction of the Texas Relief commission's rural rehabilitation division.

It has been pointed out that widespread misunderstanding of acreage reduction contracts has led to the release of many tenant-farmers. Officials of the administration believe that when brought to the attention of land-owners, these misunderstandings will be cleared up and thousands of tenant-farmers will be given a few acres around their dwellings, upon which to raise those things necessary to self-sustenance.

The rural rehabilitation program will be open to families that have made arrangements for crop production and also to those who are being allowed by their landlord to live on land removed from crop production, as well as to families not now living on farms, but whose life experience has been agricultural.

The procedure will be directed to provide the family with such essential necessities of operating a farm as may not now be available to them. Food and clothing will also be supplied until the family's own efforts meet these needs.

Large-scale shifting of families from town to town, or from one part of the farming territory to another, is not contemplated. The first job, said Director Dresden, is to care for destitute families where they are.

To help the rehabilitation family make repayment of indebtedness to the relief agency, "work relief" will be initiated. These projects must be undertaken in such places, and to such an extent, as will meet the needs of the families to be rehabilitated. That is, the number of families to be aided and the time and manner in which they should be employed, for their own best interests, will be the fundamental consideration in determining the location and character of the projects.

State and local rehabilitation committees will be named to assist in putting the program into effect and it is expected that volunteer committees in each community will be chief factors. The county agricultural agent and home agents will be asked to advise in setting up practical plans of farm procedure for each family and supervision will be provided to see that the plans are effectively carried out.

Women will be expected to take an important part in planning and directing this progressive program. While the prime objective is to assure that destitute families are enabled to provide themselves with food and clothing, this is considered only the foundation upon which to build higher standards of rural life in all lines. Both individual and community interests will be fostered. Work projects, said Miss Dresden, may be directed toward beautifying the community, on the ground that the greatest poverty in many of the smaller towns is their poverty of beauty.

Director Dresden pointed out broad plans and studies are being made by Federal Emergency Relief Administration officials at Washington with this in view.

PIPE EXPLODED
MALTA, Mont.—Next time Bill Palmer of Content will be more careful when he smokes his pipe. Palmer was startled when his newly-stuffed hook exploded as he lit it. Investigation showed him he had inadvertently stuffed a .22 caliber bullet in with his tobacco. He was uninjured.

TALKS FREELY OF HIS CAREER AS DESPERADO

DALLAS, April 26.—Obviously considering himself a hero, Raymond Hamilton talked freely of his escapades today in face of an announcement that they would seek the death penalty for Texas' second ranking desperado.

The 20-year-old outlaw was not a cringing, frightened boy, as he looked out from his cell on the heavily armed guard, determined to bar any possible attempt at escape.

It was a "field day" for the almost beardless youth who was captured yesterday after the robbery of the First National Bank of Lewisville. He was the most popular occupant of the jail.

There were newsreel cameramen, newspaper photographers, reporters and officers, all bidding for his favor. And he reveled in the attention.

Under the bright camera lights he posed like a veteran trooper. When asked to smile he dispelled all thought of his fate and flashed a grin that encompassed his face.

"Well, they've got me now; but I can take it," he said.

Freely he discussed many of the crimes for which he received a 263-year sentence, the longest in the state's history. District Attorney Robert Hurt announced today he would ask a Dallas county grand jury to indict Hamilton under the habitual criminal statutes and would demand a death penalty.

Hurt said he was positive of obtaining a death sentence. Hamilton's capture climaxed one of the greatest manhunts in the southwest. The arrest followed a wild 40-mile chase over muddy roads after the bank at Lewisville had been robbed.

The chase ended at Howe, where Hamilton found a highway blocked by heavily armed possemen. He surrendered without resistance as did T. R. Brooks, 21, Wichita Falls.

Hamilton will be charged with the robbery Feb. 27 of a bank at Lancaster of \$4,138, Dallas officials said. Clyde Barrow and Bonnie Parker also are sought for the robbery.

It was over division of loot from this robbery that Hamilton and Barrow quarreled and terminated their partnership, Hamilton told officers. Barrow insisted on giving Bonnie an equal share. Hamilton objected and withdrew from the partnership.

Hamilton admitted he robbed a national guard armory at Gunter and obtained a machine gun which he later used in several robberies, including the Grand Prairie hold-up.

"In that job," he said, "two old heads helped me. I won't say who they were, but my brother Floyd was not one of them."

Raymond emphatically denied that Clyde Barrow and Bonnie Parker engineered his break from the Eastham prison farm last January.

Growers of Mohair And Wool Decline Spring Clip Offer

Wool and mohair growers of this section, who were scheduled to sell their spring clip at Ranger Thursday, declined the offers made by the buyers and decided to wait two or three weeks for better offers.

Only two buyers were on hand and the best offers made on the 11,000 pounds in storage was 32 cents per pound. The growers, after learning of the prices offered, decided not to make a sale at this time, but to await further developments and to try to get better prices for their clip.

A telephone call to Ranger last week from the head of one of the largest wool and mohair marketing associations in the country, advised that the local growers be careful about selling too quickly at the first opportunity, stating that they could get better than prices now being offered if they did not sell too quickly. It was partly on the strength of this information that the local growers declined the offers made by the two buyers in Ranger Thursday.

Laws Passed By Solons Are Published

AUSTIN.—Laws passed by the second special session of the Texas legislature are being published, after all. An appropriation for their publication was not made and it was feared no official copies would be available. Then it was found there was enough left of the contingent fund for the session to have the acts printed. They will be ready for issuance shortly.

Hon. Cecil Lotief Is Candidate For State Legislature

Hon. Cecil Lotief, floral representative in the state legislature from Callahan and Eastland counties, and whose home is in Callahan county at Cross Plains, was in Eastland Wednesday looking after business matters and meeting with many of his constituents as possible. He is a candidate for reelection.

Mr. Lotief is a business man—just a plain business man—who made a splendid record for himself in the last legislature, and this fact will be a big factor in returning him to the legislature. In fact he will have no opposition—at least no serious opposition—for reelection.

Mr. Lotief demonstrated in the sessions of the recent legislature that you could always tell just where he stood and how he was going to vote on any measure. His frankness in telling those who ask just where he stood; his firm stand on his convictions and his fairness and earnestness of purpose won for him the admiration of even those who opposed him.

Houston Exports a Total of \$500,000 Worth of Junk

HOUSTON.—Houston's scrap metal industry last year exported \$500,000 worth of "junk" to a dozen or more countries.

Along the burning basin here are great piles of the rusty iron and steel collected from a radius of 300 miles about Houston. Most of the ships that enter the basin leave with a cargo which includes some of the metal.

Great Electro-magnets lift tons of metal from the piles and swing it into the holds of the ships. Italy, Germany, England, China, Japan and Poland are among the principal importers. The scraps are melted and re-worked under new patented processes which are said to make the new product as good, and in some instances better than, the original product.

Many an English farmer turns his soil with a plow made from steel railroad rails which once spanned western prairies, and many a Japanese housewife sews with a machine made from metal that once towered above a Texas oil well.

Famous Killers Are Usually Small Men

FORT WORTH.—Like the famous Billy the Kid, Clyde Barrow, fugitive killer, is but a "half pint" in physical stature.

But still like Billy the Kid, it is a half-pint of dynamite, ready to explode at any minute, law enforcement officers agree.

The physical measurements of modern Texas' peerless desperado read more like those of a high school sophomore. Barrow is slightly less than five feet six inches tall and weighs only 121 pounds.

He is so small, in fact, that he barely stands above the head of his diminutive gun-packing, cigar-smoking moll, Bonnie Parker, the modern Belle Starr of Texas.

Like Billy the Kid, New Mexico's famous outlaw who was killed when only 21 years old, with a record for one murder for each of his years of life—a total of 21, Barrow is young. He is only 24. In some of his pictures he appears almost beardless.

His eyes are hazel with a glint of steel. His hair is dark blond, almost reddish. In some of his pictures he had a clean cut, even good-looking face. Other pictures taken under less favorable circumstances have a coarser finish.

Barrow has one distinctive identification mark—an anchor and shield tattooed on his right forearm.

Funeral Is Held For Young Colored Girl

Sylvia Lee Carroll, 10, colored, was buried Thursday afternoon at 3 o'clock at the Evergreen cemetery, following funeral services at the colored Methodist church.

The child was born Feb. 9, 1924 and died at her home in Ranger Wednesday morning at 8 o'clock.

TWILIGHT LEAGUE SCHEDULE FOR SEASON IS DRAWN UP

The following is the schedule for the Ranger Twilight League for the 1934 season, as worked out. The first game is to be played Monday afternoon beginning at 6:15, which was set as game time at a meeting held recently.

Each team will play one game a week, two games scheduled for one team each week of the season, a team playing the first part of the week having one game on Friday of one week of the seven for

which the schedule was drawn up.

Monday, April 30—Magnolia vs. T. & P.

Tuesday, May 1—Times vs. Marathon.

Wednesday, May 2—Elks vs. Service Club.

Thursday, May 3—Lone Star vs. Sinclair.

Friday, May 4—T. & P. vs. Star Gas.

Monday, May 7—Marathon vs. Elks.

Tuesday, May 8—T. & P. vs. Times.

Wednesday, May 9—Service Club vs. Lone Star.

Thursday, May 10—Magnolia vs. Sinclair.

Friday, May 11—Marathon vs. Star Gas.

Monday, May 14—T. P. vs. Service Club.

Tuesday, May 15—Times vs. Elks.

Wednesday, May 16—Marathon vs. Sinclair.

Thursday, May 17—Lone Star vs. Magnolia.

Friday, May 18—Service Club vs. Star Gas.

Monday, May 21—Marathon vs. Service Club.

Tuesday, May 22—Times vs. Lone Star.

Wednesday, May 23—Sinclair vs. T. & P.

Thursday, May 24—Magnolia vs. Elks.

Friday, May 25—Star Gas vs. Times.

Monday, May 28—Elks vs. Lone Star.

Tuesday, May 29—Sinclair vs. Times.

Wednesday, May 30—Service Club vs. Magnolia.

Thursday, May 31—T. & P. vs. Marathon.

Friday, June 1—Star Gas vs. Elks.

Monday, June 4—Elks vs. Sinclair.

Tuesday, June 5—Times vs. Service Club.

Wednesday, June 6—T. & P. vs. Lone Star.

Thursday, June 7—Marathon vs. Magnolia.

Friday, June 8—Star Gas vs. Sinclair.

Monday, June 11—T. & P. vs. Elks.

Tuesday, June 12—Magnolia vs. Times.

Wednesday, June 13—Marathon vs. Lone Star.

Thursday, June 14—Service Club vs. Sinclair.

Friday, June 15—Star Gas vs. Magnolia.

Monday, June 18—Lone Star vs. Star Gas.

Youth Caught Here Given Life Term In Missouri Prison

Chief of Police Jim Ingram was today in receipt of a letter from the sheriff of Jefferson county, Missouri, stating that Walter Hoffman, who was held in Ranger for several days for Missouri officers, had begun serving a life sentence.

Hoffman was arrested in Ranger and was held for Jefferson County, Missouri, on charges of killing Miss Sofia Bates, 70, at Lohman, Mo., on Feb. 5, 1934. He was arrested in Ranger a few days later and was turned over to the Missouri officers on Feb. 15. He signed a statement while in Ranger confessing the slaying.

According to the letter Hoffman entered a plea of guilty on March 19 and on March 24 began serving his term in the Missouri penitentiary.

Blanton Is to Urge The Jesse Jones Bill

The Ranger Chamber of Commerce is in receipt of a telegram from Congressman Thomas L. Blanton, stating that he will work for a bill to create credit for the small business man.

The wire is in response to a telegram sent Wednesday urging that he give his support to the Jesse Jones bill, now before house committee.

LIGHT RAYS PLAY TUNES

BALTIMORE.—Using a photoelectric cell, Dr. Philip Thomas of the Westinghouse Research Laboratory can play tunes on axylone by casting light rays on the keys.

LINEKIN, Mc.—Jeff Tibbetts caught a coon in one of his lobster pots recently. The pot was lying on the shore and the coon crawled into it after a remnant of bait.

SECRETARY WALLACE AND BANKHEAD CONTROL BILL

Secretary Henry A. Wallace of the department of agriculture has reiterated his opinions of compulsory control of farm production. This is what he is reported to have said, speaking of compulsory control: "The whole idea is abhorrent to us." Secretary Wallace is a very able and very brilliant executive. He is a thinker and a scholar and is of the second generation of Wallaces to battle for the uplift and advancement of the tillers of the soil.

REDUCTION OF INTEREST LOANS HELPFUL TO FARMERS

There is a federal farm credit administration. Its head has reported that interest rate on farm mortgages in Texas that have been refinanced to the federal land bank has been reduced from a maximum of 9 per cent to a maximum of 5 per cent. An analysis made by the officials of the administration shows that more than half the loans closed in Texas by the land bank and land bank commissioners from June 1, 1933, through March 31, 1934, disclosed that interest charges now carried a maximum interest charges now carried a maximum interest rate of 5 per cent with a large proportion on a 4 1/2 per cent basis.

If the farmer was the original forgotten man, he has been given generous recognition in getting out of the ditch and a New Deal administration has made it possible for the restoration of his purchasing power and more than a fighting chance to rid himself of his borrowings.

It seems strange with the allegedly best brains in Europe spending years and much money in trying to find a formula for disarmament that there has not as yet been a way found.

Looking for good in others is a profitable experience. You will be pleasantly surprised to find how much real good there is in your neighbors. Look them over and get better acquainted with them. You will profit by it.

Success is made possible through confidence created by aggressive methods and ability to do things.

Wild Dogs Are a Threat to Cattle In the Panhandle

FORT WORTH.—Bands of wild dogs have become a serious menace to cattle on Texas Panhandle ranches, replacing the bygone threats from rustlers and wolves. According to reports reaching cattle circles here, blood-thirsty packs of dogs which sweep down on herds at night are causing great losses to cattle raisers to the extent that concerted drives by ranchers are being made to thwart the menace.

All strange dogs, whether tame or wild, are being killed when they appear on a ranch, according to reports, and many chases have been carried out to slay the marauders.

In one raid by wild dogs in the Claude vicinity, according to a rancher there, five registered heifers were killed on one ranch. Fortunately the owner happened along and shot down five of the pack before further destruction was carried out.

Only within recent months have the dogs started killing cattle, ranchers say. Dogs have killed sheep for a long time, they say, but the attacks on cattle seem to be of recent origin.

Police dogs, ranchers claim, are the worst killers. But police dogs are seldom found in the wild state, they point out, maintaining that many of the killers must be owned by city and town people that make their sallies from their masters' domains under the cover of darkness.

Cattlemen believe the pack leaders, almost invariably police dogs, may live a double life, being peaceful, law-abiding canines during the day-time, staying in their urban kennels, but stealing out at night to lead their companions on the murderous forays.

Interest On Farm Indebtedness Is Being Curtailed

WASHINGTON.—Federal Land Bank and Land Bank Commissioner's farm mortgage loans in Texas have refinanced farmers' indebtedness upon which annual interest charges formerly ran from 5 per cent to 9 per cent in most cases, it was shown in an analysis by the Farm Credit Administration of more than half the loans closed from June 1, 1933, through March 31, 1934.

The highest rate farmers now pay on the mortgages into which these debts have been refinanced is 5 per cent and on a large proportion it is only 4 1-2 per cent. The savings resulting from reduced interest charges applies, of course, not merely to one year but to the life of the loan.

The analysis dealt only with interest rates paid on first and second mortgages, and upon short-term commercial bank loans. It did not deal with other classes of debt, or many other untraceable items bearing upon the cost to farmers of carrying their debts, such as loan and renewal fees. The total of loans closed from June of last year through March of this year in Texas was about \$67,400,000.

While the bulk of the loans carried rates from 5 per cent to 9 per cent, in a number of localities and in the cases of a number of loans, interest rates of 10 per cent, and in a few instances above 10 per cent, were paid by farmers on their debts.

The average rate paid by farmers on mortgage debts refinanced with land bank loans in Texas was 6.3 per cent, while the average paid on short-term, commercial bank loans was 8 per cent. Corresponding figures for mortgage and short-term debts refinanced with Commissioner's loans were, respectively, 6.9 per cent and 8.8 per cent.

The average charge on all the indebtedness refinanced with land bank loans was 6.4 per cent. Against this rate farmers pay on their land bank loans 4 1-2 per cent interest until July 1, 1938, after which the rate becomes 5 per cent. Borrowers who obtained their loans directly from Federal land banks instead of through national farm loan associations pay a rate of 1-2 of 1 per cent higher.

The average interest rate on all debts of farmers refinanced with Commissioner's loans was 7.1 per cent, against which the farmers now pay a rate of 5 per cent.

Zane Grey Story at Arcadia

Fred Kohler, Barbara Fritchie and Randolph Scott, featured with Monte Blue, in Paramount's "The Last Round-Up," in an exciting scene from the picture. This outdoor romance, based on Zane Grey's story, "The Border Legion," comes Saturday to the Arcadia theatre.

Huge Home With Stables for Many Horses Being Built

KERRVILLE, Texas.—Extensive racing stables and a huge native-stone residence under construction 30 miles west of Kerrville for N. W. Hunter, Houston oil operator and turfman, are expected to be completed by late summer at an estimated cost near \$250,000.

An immense native-rock barn, 240x41 feet, with 36 stalls and with corrals covering from one-fourth to two acres, is being built. A 50,000-gallon rock tank will be erected to hold water for stable needs.

Hunter already has shipped 16 thoroughbreds here, including "Stratosphere," a five-year-old stallion formerly owned by the Waggoner Three-D stables at Arlington Downs. With him, came 15 registered brood mares, being cared for at a neighboring estate, the Seagraves ranch, until the Hunter project is finished.

Three recently foaled colts have increased the 16 animals first brought here. Among the fillies Hunter has sent here from Epsom Downs, Houston, are "Brookstone," "Primrose" and "Milepost." Elmo Wilson, young Kerr county rancher and horseman, has been made manager of the Hunter stables.

J. A. Nix and Hunter, associated in breeding and racing thoroughbreds, also are partners in the ownership of 30,000 acres of range land near the new stables. The site of the 12-room, two-story residence in connection with the stables, is a 90-foot bluff overlooking the north fork of the Guadalupe River, near its headwaters. The home will be 104x76 feet. An eight-foot dam will be built across the river.

Bullock Will Have Preaching Sunday

There will be two preaching services at the Bullock Methodist church Sunday. At 11 a. m. the sermon subject will be "What It Is to Be a Christian." Sunday night at 8 o'clock, sermon subject, "Singing in the Night."

A cordial invitation is extended to everyone to come to the Sunday school service at 11 o'clock to study God's word, and also to attend both preaching services. Much of the night service will be devoted to singing and praise to the Lord.

SISTER MARY'S KITCHEN

BY SISTER MARY, NEA Service Staff Writer WITH the baker supplying consistently perfect breads and rolls, comparatively few women attempt to make yeast products. However, quick breads and rolls always are popular and are easily accomplished in the home kitchen.

Quick Fruit Rolls Two cups flour, 4 teaspoons baking powder, 1-2 teaspoon salt, 2 teaspoons sugar, 4 tablespoons shortening, 1 egg, 1-2 cup milk, 2 tablespoons softened butter, marmalade or jelly or a fruit "butter." 1-2 cup broken nut meats.

Mix and sift flour, baking powder, salt and sugar. Work in shortening with pastry blender. Beat egg until light and cut into first mixture, adding milk to make a soft dough. Turn onto a floured molding board and knead outside edges into center with four motions. Then roll lightly into a sheet about one-half inch thick. Spread with softened butter. Cover with a layer of marmalade or whatever is chosen and sprinkle with chopped nuts. Roll up like a jelly roll and cut across in slices

New Promoter of Elks Fights to Be On First Program

A new deal in wrestling, that is the aim of match maker Lay to inaugurate the summer season of sports at the Elks Arena. Curley Stringer, roughest and toughest villain from Oklahoma City, who is claiming the Junior Middleweight title, will meet Charlie Lay popular Fort Worth mat star, who is universally known for his scientific wrestling.

Match maker Lay became angry at the tactics of Stringer last week here, while the former was refereeing a bout; Lay threatened to whip the Oklahoman the next time they met, but the Elks prevailed upon Lay to settle this matter in the ring at Ranger.

When Stringer signed the contract for this match he stated, "They will need a new match maker after I am finished with Lay." Lay heard of this and he stated modestly that he hopes to teach the villain a lesson that the latter sorely needs, and if he fails to beat Stringer, states Lay, "I am going to get the roughest and toughest man in the Junior Middleweight class to wrestle him, even if I have to send to Australia for him. This match will be for the best two out of three falls finished bout."

The second main event of the evening will bring together Wildcat Hood, Dallas roughster, and Lew Kodrick, the little Austrian giant and welterweight champion of the home land. Hood is well known here for his rough tactics but Kodrick will be making his debut here. He has been in this country for the past eight months chasing Jack Reynolds, welterweight champion of the world. So far the champion has refused to take him. Kodrick recently, in New York City gained recognition as the strongest small man on the mat.

He is of proper physical build and is said to have one of the most splendid physiques of any mat man appearing here. He is strictly a scientific wrestler and is the talk of the town in all cities in which he has appeared.

Kodrick hopes to make a record for himself in this territory and force the champion into a bout with him. President May of the American Wrestling Association promised Kodrick if he would prove himself in this territory he would force the champion into a bout

with him or suspend the champion for not protecting the title.

In addition to the main event wrestling bouts to be offered, two boxing matches will open the card. Prices of 25 and 35 cents will prevail. Children 15 cents.

Arms Profits Are Serious Menace To World Peace

COLUMBIA, Mo.—Profit from sale of munitions, and militaristic propaganda inspired by munitions manufacturers are the greatest menace to world peace, Walter Williams, president of the University of Missouri, who just has completed a six-month world tour believes.

Munitions manufacturers frequently create war scares in various nations so that they can sell their wares to both sides, Williams found.

"The entire interest of some of these countries is profit in selling munitions," Williams said. "It is a thoroughly damnable traffic. One great evil, the white slave traffic, has been fought successfully by the world, and now we have this atrocious munitions trade."

A number of munitions interests make diplomatic alliances to further their sales, Williams charged. Predictions of immediate war, however, Williams characterized as "wild talk."

"There is no responsible statesman in the world who is not eager to avoid war as far as his nation is concerned. There is not a political, or economic, problem that cannot be solved without recourse to arms."

Dictatorships, Williams interpreted as an outgrowth of popular demand by the people.

"The masses of people are getting more of what they want than ever before," he said. "I noticed a great increase in nationalism on my trip which embraced 28 different nations and territories, but it is not a nationalism against someone else—it is a desire to lift one's own country to equality with others."

Censorship of the press constitutes one of the gravest problems of dictatorships, Williams believes.

"The press in Germany is regimented to the extreme; in Austria and Egypt it is censored; in France it is subsidized. There are few countries left which honor our cardinal precepts of freedom of the press, speech and conscience. The governments deliberately prevent the people from knowing what is going on."

German-Finn Trade War Ends

BERLIN.—Germany and Finland have terminated their four months trade war.

After extremely difficult negotiations, conducted almost without a break for over two months, both countries concluded a commercial agreement which was provisionally enforced recently.

With provisional enforcement, all trade discriminations, which either country adopted against the other, were automatically rescinded. Thereby Germany has made peace with the last of those European countries which had declared a trade war upon the Reich on account of the agricultural policy inaugurated by the Nazi government.

Like the German-Finnish commercial treaty of 1926, which expired at the close of last year, the new treaty is based upon the most-favored-nation principle.

Final enforcement is made dependent upon ratification by the Finnish parliament, which is expected by the end of April. Ratification by the Reichstag is not required. The German parliament waived all its rights in this respect through the various empowering acts that gave the Reich government carte blanche in all political and economic matters.

Prior to final enforcement, the tariff reductions provided by the

Swift's Heiress Weds 'Humbly'

Instead of Chicago's elite, a window washer was the only witness when Geraldine Swift, above, 22-year-old daughter of G. F. Swift, packing plant magnate, and Albert F. Taylor, Chicago broker and former Yale football player, were married by a Joliet, Ill., justice of the peace. It was not an elopement, the Swift family announced.

THIS CURIOUS WORLD By William Ferguson. METEORIC IRON THAT HAD FALLEN FROM THE HEAVENS, WAS USED IN MAKING WEAPONS LONG AGO, BEFORE MAN KNEW HOW TO MAKE HIS OWN IRON. IN THE PHILIPPINES, FERNS GROW SO LARGE THAT THEIR TRUNKS ARE USED FOR TELEGRAPH POLES. ...IN AUSTRALIA... RIVERS FLOW FROM THE SEACOAST TOWARD THE INTERIOR. ALTHOUGH ancient men, many thousands of years ago, hammered meteoric iron into tools and weapons, it was only a little over one hundred years ago that scientists gave in and admitted that there was such a thing as a meteorite. Americans were among the last to admit it.

CARBON

CARBON.—Carbon is getting a nice rain at this writing, with a few warm days now crops and gardens will be growing nicely.

Rev. W. A. Tate preached Sunday at Davis schoolhouse and was urged to make a regular appointment for the fourth Sunday in each month. Rev. Tate will preach the first Sunday in May at Center Point.

Sid Owens spent Saturday night with Roy Dunlap.

Saturday is graveyard working at Howard. Everybody come and bring a basket full of dinner.

Mr. Reppeteo has been suffering with rheumatism this week.

day just to "pass the time away." As Arvin's ham-like hand stifles a prodigious sigh from his 93-inch chest, he confides that he yearns for a movie career.

"I want to be a real actor and not just a clown," Arvin says as he shifts his bulk in his specially re-enforced chair.

Arvin is 5 feet, eight inches tall; 82 inches around the waist; thigh 48 inches, and calf, 33 inches. He could use a normal man's belt for a garter.

Try a Hudson before you buy.

Hectic Days Sleepless Nights

IF YOU are nervous today, you probably will not sleep well tonight. If you don't sleep well tonight, you will probably be nervous tomorrow.

Don't allow yourself to become nervous. Take Dr. Miles Nervine. It will relax your tense nerves and let you get a good night's sleep.

Irritability, Restlessness, Sleeplessness, often lead to Nervous Headache, Nervous Indigestion, Hysteria—sometimes to a nervous breakdown and organic trouble.

Some of the people, whose letters are printed below, were as nervous as you are—possibly more so—yet they have found relief.

Three years ago I was so nervous I could not bear to go out in company and could not sleep. A friend recommended Dr. Miles Nervine. I now enjoy myself thoroughly and sleep every night. Miss Juliette Carrier, New Market, N. H.

I have used Dr. Miles Nervine in liquid form and find it the best medicine for the nerves I have ever used. Christene Lanier, Middleton, Tennessee

Whenever I have over-indulged and feel restless I take one or two Nervine Tablets just before I retire. In the morning when I awake I feel like a new person and can go about my work as usual. Dr. Miles Nervine Tablets quiet your nerves, brace you up and are the simplest, most convenient tablets to take I have ever found. Miss Grace Redmann, St. James, Minn.

Before using your Nervine I was very nervous and irritable. Since I have started to take it I feel so much better that my family notice the difference. I still take it from time to time and the good result is wonderful. J. H. Redding, 1027 18th Ave., Rock Island, Ill.

Miss Redman takes Dr. Miles Nervine when ever she feels restless.

WASH OUT 15 MILES OF KIDNEY TUBES

Win Back Pep...Vigor...Vitality

Medical authorities agree that your kidneys contain 15 MILES of tiny tubes of filters which help to purify the blood and keep you healthy. They should pour out thru the bladder 3 pints of fluid a day which contains 4 pounds of waste matter. If you have trouble with too frequent urinating and discomfort, the 15 MILES of kidney tubes need washing out. This danger signal may be the beginning of serious backache, leg pains, loss of pep and vitality, getting up nights, lumbago, swollen feet and ankles, rheumatic pains and dizziness. If kidneys don't empty 3 pints every day and get rid of 4 pounds of waste matter, your body will take up these poisons causing serious trouble. It may knock you out and lay you up for many months. Don't wait. Ask your druggist for DOAN'S PILLS. A doctor's prescription which has been used successfully by millions of kidney sufferers for over 40 years. They give quick relief and will help to wash out the 15 MILES of kidney tubes.

But don't take chances with strong drugs or so-called "kidney cures" that claim to get you up in 15 minutes. Your common sense will tell you that this is impossible. Treatments of this nature may seriously irritate and irritate delicate tissues. Insist on DOAN'S PILLS—the old reliable that has contained no "dope" or habit-forming drugs. Be sure you get DOAN'S PILLS at your druggist. © 1934, Foster-McMillan Co.

Then buy as your household needs at PIGGLY WIGGLY where the time you spend is strictly up to you... where you can shop for fine foods as hurriedly or leisurely as you please... making your own selections without "waiting your turn." Incidentally, you also save a lot of money... and are always sure of dependable quality.

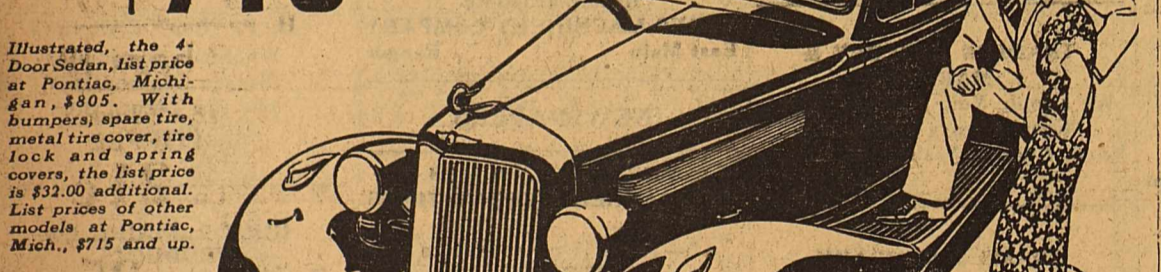

ONLY PONTIAC in the low-priced field GIVES YOU ALL THESE FEATURES

Read this list of 15 advanced features. It tells you at a glance why Pontiac is the undisputed quality leader of the low-priced field.

- Smooth, powerful, economical Eight-Cylinder Engine
- 137 1/2-inch wheelbase
- Full-Pressure, metered lubrication
- Enclosed Knee-Action front springs, with Ride Stabilizer
- Perfect Fisher No Draft Ventilation
- Extra size and strength in vital parts
- Beautiful, roomy, safe Fisher Bodies; velour or cloth trim without extra charge
- Lowest depreciation
- Product of General Motors

Be sure to see the great new Pontiac before you buy any car... ride in it... drive it! You will agree, before you have spent a half-hour with the Pontiac Eight, that there is absolutely—

THE WORLD'S GREATEST VALUE—

only \$715 AND UP

Illustrated, the 4-Door Sedan, list price at Pontiac, Mich., \$805. With bumpers, spare tire, metal tire cover, tire lock and spring covers, the list price is \$920 additional. List prices of other models at Pontiac, Mich., \$715 and up.

AMAZING ECONOMY ON GAS AND OIL!

The new Pontiac's gas and oil economy is literally amazing the motoring world. Motorists everywhere are learning what Pontiac engineers long have known... Pontiac operating costs are no greater than those of many Sixes!

800 MILES...
50 MILES AN HOUR...
17 MILES PER GALLON

Here's a typical letter from the many sent us by enthusiastic owners of the 1934 Pontiac. Read it!

E. H. MIXON
Contractor & Builder
Henderson, N. C.

"On my longest trip, which was a little over eight hundred miles, I averaged eight hundred miles per gallon of gasoline in one time, but did not have to add any. I think this is an excellent average considering the high speed at which I sometimes drive. The 1934 Pontiac is even more than claimed by the manufacturer."

Supreme Court Says Judges Write Much In Opinions

AUSTIN, Tex.—Judges, like others, are prone to write too much. That is the fly in the ointment of the Supreme Court's recent ruling that from now on Commission opinions, approved by the court, shall have the full force of opinions by the court itself. Heretofore the court approved or disapproved the decision; it did not attempt to endorse all the reasoning.

Two examples illustrate: An opinion written in a Court of Criminal Appeals case, mentioned that the case was under an old statute, not under one passed by the 43rd legislature. Newspaper men remember passage of no such act, though one was recommended by a legislative committee. Inquiry showed the act had not been passed. The reference was eliminated from the opinion. It was merely surplusage and did not affect the decision.

Debate Renaming of School Buildings

CLEVELAND—The question of whether Cleveland public schools which bear supposedly meaningless names shall be re-christened is holding the attention of school board members.

Names such as Beehive, Hicks and Waring have come under the spotlight. Alfred A. Menesch, board president, ventured the opinion at a board session that he was certain "some people think Waring school was named after Fred Waring and his Pennsylvanians."

QUILT CONTAINED OVER EIGHT THOUSAND BLOCKS REEDSPORT, Ore.—A quilt containing 8,011 blocks, each containing three stitches, has just been completed by Mrs. Ulla Paine. Centers of the block are gold, each surrounded by a different pastel shade. The third row is white.

Young Democrats Of Texas to Meet In Dallas May 4th

By ROBT. B. McCracken
CORPUS CHRISTI, Tex.—Inspired by their part in the New Deal and encouraged by the apparent early success of their organization, approximately 5000 Young Democrats of Texas will meet in their state convention at Dallas Friday and Saturday, May 4 and 5. One of the most interesting political get-togethers ever staged in the Lone Star state is certain to result, and the older heads of the party, long since realizing the potential strength of the youthful movement, are passing the word around, "Watch the Young Democrats and what they do in Dallas."

However, if the Young Democrats have anything up their sleeves, they are not passing the word around. At the earlier sectional conventions several political bombshells were exploded, the din was terrific, but no casualties were reported. The state meet is expected to produce the same results, but it will bear watching.

During the past six months 175 counties out of 254 have been organized, according to present indications, each club in the state will have a strong representation at the convention. After discussing the matter pro and con, state officers have decided to allow each county, whether organized or unorganized, representation at the two day session, and all unorganized counties planning to send delegates have been requested to obtain recognition from MacDonald Leech, who may be reached by addressing him at the state headquarters, Corpus Christi, Texas.

This organization is the idea of young people, it is carried on by young people, and the program for the meet has been planned by its leaders. Inasmuch as it will be a radical departure from any political convention ever before held in Texas, it is recommended that all persons, regardless of age or party affiliations, make effort to be present for at least a part of the proceedings. They will undoubtedly have their eyes opened.

In the first place the convention comes at a time of the year that would prove a dynamited boomerang to any other political group meeting. This summer the state elections will be held, and already the pot is beginning to boil.

This Friday night session is strictly in keeping with this feature of the club. Also it will tend to spread the idea among the older voters, and many will leave Fair Park auditorium 100 percent sold on such a policy. It is generally believed that only the candidate who is afraid of public opinion will ignore the organization's invitation to be present.

This open meeting will be apart from the business sessions, the first of which will be held Friday morning at 9 o'clock. There are other scheduled meetings Friday afternoon and Saturday morning. The convention will be climaxed Saturday night with a full fledged Young Democratic banquet, and the program to be presented should be one of the most entertaining ever arranged for a similar occasion.

Heading the list of speakers who have already given definite assurance that they will be present are Richard F. Roper of Washington, D. C., executive secretary of the Democratic National Committee, and Cliff Woodward of Des Moines, Iowa, president of the national organization. Other invitations have been extended to J. K. Brim of Sulphur Springs, Texas, chairman of the state executive committee, and to Roy Miller of Houston and Corpus Christi, nationally recognized as a prominent state leader.

Free Lodging For High School Entries In League Contests

AUSTIN, Tex.—Solicitation among Austin citizens for free lodging for participants and faculty sponsors to the 24th annual state meet of the Interscholastic League, to be held May 3, 4 and 5, has been started by the University of Texas Bureau of Public School Interests, under the direction of Mrs. Johnnie Fay Ashby, office secretary of the University Young Men's Christian Association. Results so far have been gratifying and it is expected that accommodations will be obtained for the approximately two thousand official school representatives who will take part in the meet.

The tentative program for the State meet has been announced by Roy Bedichek, chief of the Bureau of Public School Interests. It is subject to change, however, he pointed out, and is to be supported by the official program which will be issued May 3. The general schedule of events is as follows:

Thursday, May 3—Registration, rebate, breakfast tickets and assignment to lodgings, at Gregory Gymnasium, east side of University campus. The League Bureau opens at 2:30 p. m. and closes at 10, and opens again at 6 a. m. the following morning.

Friday, May 4—8:00 a. m.—One act play rehearsals continuing throughout the day on schedule arranged by Morton Brown with respective directors.

8:30 a. m.—Journalism conference delegates assemble.

9:00 a. m.—Track and field contestants assemble on Texas Memorial Stadium Field.

9:15 a. m.—Announcements and photograph in track and field events.

11:00 a. m.—Journalism, news writing contest.

2:00 p. m.—Tennis; first round in boys' singles and doubles; first round in girls' singles and doubles; Journalism—copy-reading contest; Journalism, second conference.

2:30 p. m.—Debaters, both boys and girls division, assemble for drawing. Immediately following, first round in both divisions.

4:30 p. m.—Journalism, headline writing contest.

5:00 p. m.—Journalism, proof-reading contest.

7:30 p. m.—Debate semi-finals, girls and boys.

8:00 p. m.—Declaration finals, girls and boys divisions; High School Class; declamations finals.

girls and boys divisions, Rural School Class; extemporaneous speech girls and boys divisions; one-act play, preliminary, group 1.

Saturday, May 5—7:30 a. m.—Breakfast, Junior Ballroom, second floor Union building, followed by State meeting of delegates.

8:15 a. m.—Journalism, editorial writing contest.

9:00 a. m.—Typewriting, short-hand (optional); Three-R contest; art contestants assemble; essay writing contestants assemble; one-act play, preliminary, Group 2; tennis, semi-finals, boys and girls, singles and doubles.

9:30 a. m.—Journalism conference, last session.

11:00 a. m.—Girls division, final debate.

2:30 p. m.—Boy division, final debate; track and field events, including rural pentathlon.

8:00 p. m.—One-act play, final.

Try a Hudson before you buy.

Very little in the way of "big news" happened in Ranger in 1928, though building activities flourished and there was some new oil development.

On the first day of the year Curtis Taylor and J. E. High of Ranger were killed in an explosion on a lease near town; Jan. 4 the Texas-Louisiana Power company asked permission to raise gas rates, which was denied by the city commission on Jan. 11.

Jan. 20 plans to merge the Eastland and Ranger country clubs was being urged, with a golf course somewhere between the two towns. Feb. 5 Lee Williams was named on the school board to fill a vacancy.

Kenneth Campbell entered C. C. Pyle's transcontinental "bunion derby" and ran from the west coast to somewhere in Indiana before dropping from the race. He was backed by Ranger citizens.

Feb. 8 a charter was issued for the Commercial State Bank with Edw. R. Maher as president and Marvin Collier, vice president, and Feb. 13 volunteer police raided a club in the negro flats and confiscated 90 bottles of beer. Feb. 13 a smallpox epidemic was reported stopped.

Feb. 27 three of the Ranger fire department resigned because they were not given raises in pay. March 2 burglars robbed the Chas. W. Hodges grocery of \$500 in merchandise and March 11 a woman was arrested for forging checks amounting to \$93 and the same day the opening of the West Texas Clinic and Hospital was celebrated.

March 12 the Southern Gasoline company sold a plant to Lone Star for \$40,000. March 14 W. C. Hickey was made commander of the National Guard unit. March 15 W. W. Housewright resigned as vice president of the Citizens State Bank. March 21 the city commission extended the fire limits and announcement was made five more streets would be paved. In April Thomas L. Blanton was helping to get a post office for Ranger.

April 13 two fires in the Lone Star and Prairie camps caused loss of \$31,000. April 19 oil field thieves made large hauls in a series of robberies and April 22 Ranger secured the Rotary convention. April 30 plans for an air port were being worked out and Nov. 11 it was dedicated with a big celebration.

May 1 Lute Lawton and J. L. Thompson drowned in Olden Lake. May 10 a girl burglar was held after looting several homes. The sewer tax was voted on June 1 and the city paid \$7,000 in paving warrants. July 3 a record of converting growing wheat into hot biscuits in 41 minutes was made and July 8 the Ranger Building & Loan paid a 10 per cent dividend.

Coaches Blair Cherry and W. E. Davis resigned on July 19 and on July 28 Eck Curtis was elected and had a very successful year, losing only one conference game. July 31 an old coin collection was stolen from E. H. Murphy.

Aug. 5 a "Vitaphone" was being urged for the Arcadia which opened Aug. 24. Several serious and fatal accidents marred the record of August, September and October and then, on Nov. 5 eggs broke into the high school safe, after the receipts of the Ranger-San Angelo game, robbed the Ranger Tire & Battery company and a filling station.

Nov. 7 a man confessed killing Mike Tigue, T. & P. conductor, on June 14, 1921.

Nov. 18 Montgomery Ward's retail store in Ranger was opened in a new building erected by L. R. Pearson and L. H. Flewelling on West Main street.

Dec. 3 a lone bandit robbed the Ranger Furniture Exchange of \$179.

FATHER, SON—WRESTLERS MANITOWOC, Wis.—A father and son wrestling card here brought out a large crowd. Johnny Meyers, Harvard, Ill., former middleweight champion, defeated Marvin Strahota, Milwaukee, in the windup and Ray Meyers, son of Johnny, threw Zimmy Strahota, Marvin's son, in the semi-windup.

Very Much Improved After Taking Cardui
"I have suffered a great deal from cramping," writes Mrs. W. A. Sewell, Sr., of Waco, Texas. "I would chill and have to go to bed for about three days at a time. I would have a dull, tired, sleepy feeling. A friend told me to try Cardui, thinking it would help me—and it did. I am very much improved and do not spend the time in bed. I certainly can recommend Cardui to other sufferers."

Thousands of women testify Cardui benefited them. If it does not benefit you, consult a physician.

The Times invites all classifications of business to come in on this Directory—let's make it 100 per cent. The story appearing in the middle of the Directory will be changed each week over the period of the Directory's publication. It will be of interest to all each week. Phone 224 and ask for information about the directory page—the cost is small and it appears in each Sunday issue of The Times and on Friday in the Weekly Times.

Only Two of Relief Officers Are Sure of Keeping Their Jobs

AUSTIN, Tex.—M. N. Chrestman, Dallas, and Earle P. Adams, Crockett, appear to be the only members of the State Relief Commission, beside the Governor, who are sure of retaining the jobs. The relief act specified that the chairman of the State Judicial Council and the chairman of the State Industrial Accident Board should be members of the relief commission. They occupy those places.

Ed Hussion, Houston, was appointed by the Governor. Any Governor's appointee may be removed by the Governor. E. E. Giesecke, Austin; W. A. Brooks, Jr., Dallas, and Carl Estes, Tyler, were appointed by Lieut. Gov. Edgar E. Witt. Robert L. Holliday, El Paso; Houston Hart, San Angelo and Jack Reed, Junction, were appointed by Speaker Coke R. Stevenson. Recently Stevenson removed Holliday and named Col. Julius Dorenfield, Amarillo, instead.

Whether Stevenson had this power is being contested by Holliday. If he has it, Lieut. Gov. Witt also has it as regards his appointees.

Four of the nine members already have had their eligibility questioned. The Governor questioned right of Chrestman and Adams to hold dual places. She was overruled. Giesecke's right to be on the commission and act for the PWA also was questioned. A ruling was asked but had not been given early this week. The respective rights of Holliday and Dorenfield await decision.

In this situation, selection of Miss Marie Dresden for Relief Director was an effective move. She has been recommended to the Texas Relief Commission by high officials of the national relief organization. So long as she is director Washington cannot well object to cooperating with Texas on the ground of dissention and uncertainty in its makeup. Whether the state as a whole will raise the objection some counties have made to having "outsiders" sent to manage their relief is another question. Miss Dresden will have

the year's necessary voting residence in Texas in August.

Legality of the removal of Director Adam Johnson may hinge on whether Commissioners Giesecke and Dorenfield were entitled to vote to remove him. But Johnson's friends cannot well question Giesecke's vote to remove him because if he had no right to vote to remove him he had no right to vote for Johnson when he was elected 5 to 4 last February. Giesecke voted for him then.

THURBER

By LAVADA FENNER

The members of the Masonic and Order of Eastern Star lodges entertained with a buffet supper Wednesday night at the lodge rooms. Beautiful bouquets of bridal wreath and verbenas were used in the decorations. Partners for the supper were found in a unique way. The ladies and gentlemen formed an inner and outer circle marching in opposite directions as music was played, when the music stopped the couples facing each other were partners. After supper informal games were played. There were fifty-two present.

The Spanish club entertained with a picnic at the lake Friday night. Singing and games were enjoyed during the evening. At a late hour hot tamales and crackers were served.

Misses Lorene and Corene De Witt entertained at their home Saturday evening with a dance. The large number present expressed themselves as having a nice time.

Mr. and Mrs. Bud Gibson and daughter Bernice were in Glen Rose Saturday.

Jack Gilbert of CCC camp, Dublin, visited Sunday with Thomas Henley.

Mrs. Elza Marrs visited relatives in Strawn Tuesday.

Mr. and Mrs. Aaron White have as visitors this week his sister, Mrs. Frank Brown and son Frankie Royce of Grandfield.

Mrs. Maggie Masters visited several days in Burkburnett with her daughter, Mrs. Mae Oyler and family.

Ollie Lang of Georgia is visiting his uncle and aunt, Mr. and Mrs. S. P. Lang.

Ralph Wynne attended the races at Fort Worth Saturday.

Paul Patterson of CCC camp, Morgan Mill, visited Sunday with Mr. and Mrs. Martin Patterson.

Mrs. Frank Arrendale and Mrs. Tom Lang visited Thursday with Mrs. Jack White at No. 2 gasoline plant.

Mr. and Mrs. C. L. West and little daughter Janice of Austin, passed through here Sunday en route to Abilene. Mrs. West is the niece of Mrs. Frank Whitworth and will be remembered as Miss Freda Martin.

Mr. and Mrs. W. W. Wiggins and Addison Whitworth were Huckaby visitors Sunday.

Mr. and Mrs. Joe McKinnon had as Sunday guests Mr. and Mrs. Harry DeFord and Mrs. Ivey of Gordon.

Mrs. Tom Lang left Sunday for Carlsbad, N. M., to join her husband, who has employment there.

BLACK - DRAUGHT For CONSTIPATION

"I am 71 years old and have used Theford's Black-Draught about forty years," writes Mr. W. J. Vanover, of Rome, Ky. "We are never without it. I take it as a purgative when I am bilious, dizzy and have swimming in my head. Black-Draught relieves this, and helps me in many ways." ... Keep a package of this old, reliable, purely vegetable laxative in your home, and take it for prompt relief at the first sign of constipation.

We hope them much happiness in their new home.

Ruby Harris of Strawn is visiting with Miss Urairie Irvine.

Mrs. Babe Acupp visited in Ranger last week with her mother, Mrs. Emmie Warden.

Robert Whitworth has returned to Huntington Park, California, after several weeks visit with his parents, Mr. and Mrs. Frank Whitworth.

Demetrick Kessler of Ft. Worth visited his many friends here Sunday.

Mr. and Mrs. Aaron White and children, Lora and Billy, were Eastland visitors Saturday.

Mrs. Annie Booth has returned to her home after a week's visit in Lubbock with her daughter, Mrs. Gayle Lawson and family. Mr. Lawson has been very ill but it reported doing nicely now.

Miss Dottie Lane of Mingus visited Sunday with Mrs. Frank Arrendale.

Mr. and Mrs. Johnnie Brooks and children Stell and Clovis, visited in Gordon Sunday.

Depression Boosted Government Workers

WASHINGTON.—The number of government employes in 1932 was 3,122,000, representing 104 per cent of the 3,003,000 engaged in 1929. The total includes federal, state, county and city employes, and represents the situation preceding the Federal employment relief campaigns during 1933, when millions were employed with public funds.

The growth in government employment during the first three years of the depression contrasted with an extreme contraction in other branches of industry. The number of persons engaged in construction, for example, declined from 1,528,000 in 1929 to 673,000 in 1932, the latter figure representing only 44.1 per cent of the pre-depression level.

Employment in major categories of industry in 1932 represented the following percentages of employment in 1929: agriculture, 96.0; mining, 60.3; electric light and power and gas, 84.0; manufacturing, 62.4; construction, 44.1; transportation, 69.6; communication, 75.5; trade, 78.4; finance, 79.8; government, 104.0; service, 77.3; miscellaneous, 77.5; total, 77.5.

Government employes in 1929 represented 6.8 per cent of all employes, and in 1932, 9.1 per cent. The statistics were prepared in the Department of Commerce at the request of the United States Senate for data on national income, and reflect the striking way in which governments, after the coming of depression, broadened their range of functions.

Prehistoric Bones Of Redmen Found

ATHENS, Pa.—How long the American Indian has roamed this continent may be learned by archaeologists spading among the bones of prehistoric tribesmen here.

Important discoveries, extending the period of Indian occupancy back 4,000 years already have been claimed by Donald A. Cadzow, Pennsylvania state archaeologist.

The discoveries on Spanish Hill near here tell graphic tales of life in the American wilderness long before the birth of Christ. Cadzow has reconstructed a picture of tribal doings from the relics.

Branding Irons In Sul Ross Collection

ALPINE, Texas.—Branding irons that burned claiming marks in the hides of yearlings during the past century lie in historical importance at Sul Ross Teachers college here.

Cattle rustling, drives over long trails in northern grazing lands and markets, and all the color of pioneering in the Big Bend country of West Texas re counted in these curiously twisted pieces of iron.

They were collected from over the Pecos river country by Henry T. Fletcher, Brewster county banker and ranchman, and presented to the West Texas Historical and Scientific society of which he is president.

Among the 60 irons is the "6" from the H. L. Kokernot ranch, one of the oldest brands in Texas. It was registered in 1836, and the mark has been used continuously for the past 98 years. The brand was bought by the Kokernots from a man named Jones and four generations of the family have seen their herds go out to the spring grazing country with the "6" burned on their hides.

The Kokernot ranch covers 600 acres in the four counties of Pecos, Jeff Davis, Reeves and Brewster.

The original small "S," brand of the Anti-Horse Thief Association of Texas, is one of the prize possessions in the collection. It was made at Marlin in 1864 and an affidavit attests its authenticity. The handle of the iron is gone, broken off when a horse thief was hit on the head in a raid on a rustler's hangout where eight thieves and two officers were killed.

An old soldier of fortune's "Spectacle G" brand is one of the most curious in the exhibition.

When George McGuire, Portuguese-Irish soldier, stacked his guns and came to the Big Bend country in 1887 he had him a brand fashioned which he thought would be thief proof for his fling as a frontier cattleman. It was a circle, five inches in diameter, with a letter "G" in the center. Thieves stole his cattle, burned the "G" into a circle and called it a new brand—the Double Circle.

McGuire burned two of the brands on the side of each of his animals and connected the brands with a straight bar burn, originating the Spectacle G.

All brands were registered in a "brand book"—as legal to cattlemen as a government copyright. The book bore the marks of the West Texas ranchmen and infractions were checked against inscriptions on the thumbled jages.

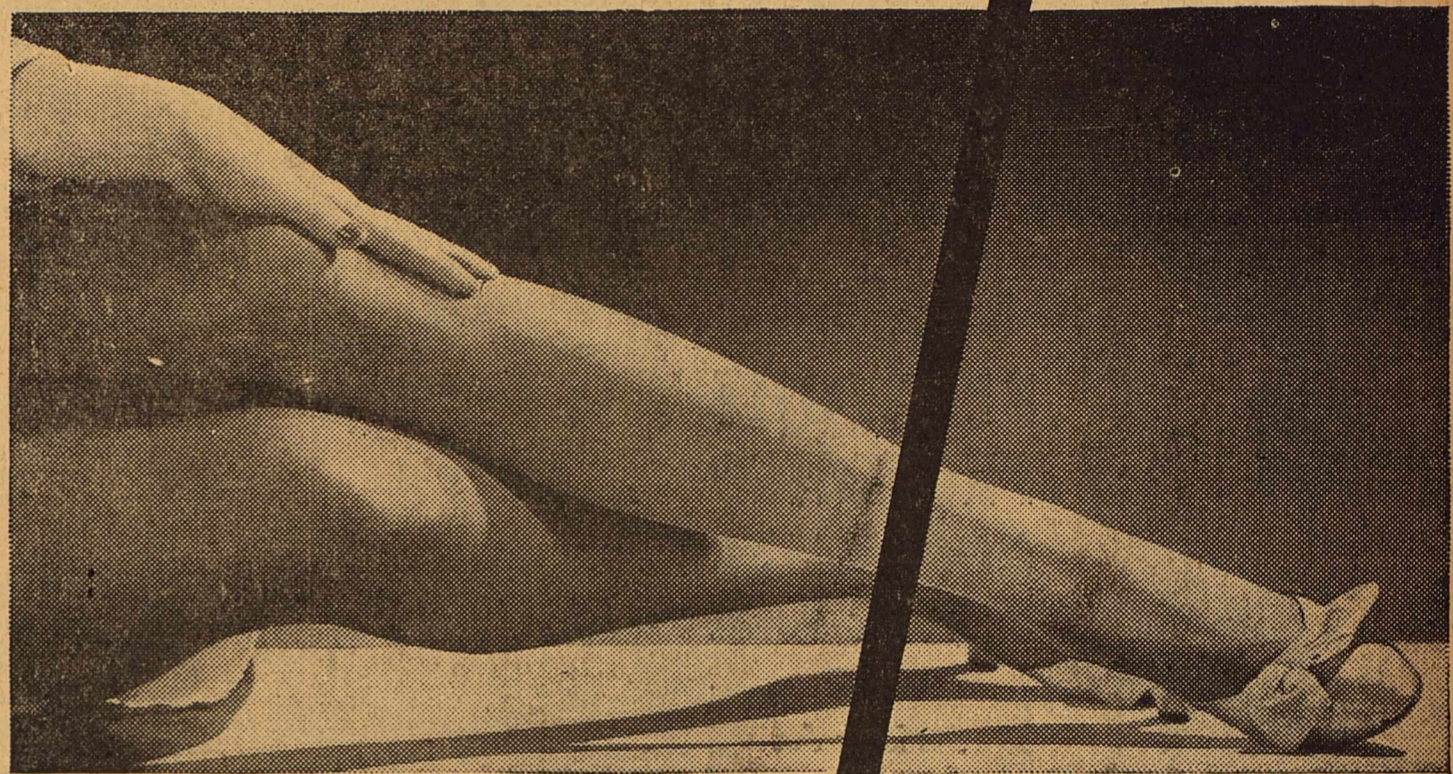

William Philip Simms calls Chinese Turkistan "the country that God forgot." Maybe that's where the forgotten man will be found.

CHINESE CLOVER GROWN MADISON, Wis.—A new variety of sweet clover discovered in China has proved successful in tests conducted at the Wisconsin agricultural experiment station here. The clover lacks the bitter taste that makes most varieties unpalatable to livestock.

NAMPA, Idaho.—At one time one of the most fearless and noted peace officers of the nation was C. B. "Con" Murphy, colorful lieutenant of the famed Bat Master-son during the gold boom days of the Old West. He died here recently. Murphy was born in Kentucky, Feb. 22, 1858. He married at Dodge City, Kan., but his wife died a year later and Murphy spent the rest of his life single, following major gold rushes of the west.

FRANCES PERKINS
Secretary of Labor

FRANCES PERKINS

By WILLIS THORNTON
NEA Service Staff Correspondent
WASHINGTON.—First woman cabinet member, Frances Perkins is another to bring very definite experience and qualifications to her post. For nearly 20 years she has been a worker in the field of social and labor problems. Fewer extra duties have come to her in the course of the New Deal than to some cabinet members, yet she has several important duties in addition to the regular department work. She is a member of the Federal Board for Vocational Education, Federal Employment Stabilization Board, Public Works Emergency Housing Corporation, and Federal Emergency Administration of Public Works, all rather closely related, you will note, to the welfare of labor.

But she is also member of the Council of National Defense, Smithsonian Institution, National Emergency Council and Executive Council. The department still operates the U. S. Conciliation Service, though this has been largely overshadowed by the National Labor Board.

She has revitalized the Bureau of Labor Statistics, and the Immigration and Naturalization Service was given its present form in this department just prior to her taking office.

The Children's Bureau and the Women's Bureau, both charged with furthering the welfare of those respective classes of people as such, are under her eye.

And the United States Employment Service, also formed just prior to Miss Perkins' term of office, is being enlarged and improved under her direction.

Capability shines through the gracious manner of this cabinet officer at every turn. Cordial and kindly, she is determined and usually gets what she wants.

In private life she is Mrs. Paul Wilson and mother of a daughter, but she handles her present job strictly on her own.

She dresses quietly, is "all business," and one of the hardest workers in the capital. She doesn't look her 51 years.

CLEVELAND, O.—Gun shells that wrought destruction on the battlefields of France have been made into attractive lamps by boy students of Addison junior high school here. All are made from brass casings of one-pounder shells, donated to the boys by their fathers who were in the World War.

Reputation Is a Big Factor In Beer Sales

The success of Budweiser Beer proves that the public is prompt in accepting products of outstanding merit backed by an established reputation.

For the past 75 years Anheuser-Busch, Inc., of St. Louis have been known the world over as producers of quality products exclusively. The world-wide acceptance enjoyed by this famous St. Louis institution for over three-quarters of a century has been achieved solely on the rigid policy of the maintenance of superior quality.

This brewery, which is the largest in the world, never closed its doors or ceased operations during the 14 year period of prohibition. The equipment was continually kept up to the minute and beer, which was converted into legalized beverage, was brewed under government license all through the prohibition period.

Anheuser-Busch have consistently, year in and year out, supported their dealers with localized advertising through the newspapers. This year, as always, they are blanketing the country with newspaper advertising to run continuously through the height of the beer selling season. This advertising is hammering home the fact that the quality of Budweiser has set the standard measure for all bottled beers.

Anheuser-Busch officials report that they have orders for Budweiser beer from every nation on the face of the globe. Such popularity could never be won with anything short of Budweiser quality. This quality combined with the support of newspaper advertising shows just what can be accomplished when a product of outstanding merit is backed by consistent newspaper advertising.

While the world is full of things that people want, it is up to the producers of these things to tell people about them and in doing so Anheuser-Busch is using the medium of daily newspapers, the medium most people read.

BEAVERS BACK IN SWEDEN STOCKHOLM.—The beaver is returning to northern Sweden, from which it disappeared 80 years ago. In former years the beaver was quite plentiful in Sweden, but intensive trapping drove it away. Lately it has been protected and now is beginning to spread from the two or three places where colonies existed.

R. F. C. Falling Behind On Loans

WASHINGTON, April 23.—The government's most important relief agency, the RFC, is falling nearly \$2,000,000,000 under budget estimates in its relief activities because of reduced needs.

Administration officials attributed the decrease to the greater than expected improvement in business activity, which has allowed some borrowers to repay loans and made it unnecessary for other business to ask for money.

When President Roosevelt compiled his budget figures for the year which ends June 30, he set \$3,969,740,000 as the outside net expenditure of the RFC, a monthly average of \$325,000,000. In nine months of the fiscal year the RFC has actually spent only \$1,287,354,800, or about 40 cents for every dollar estimated in the budget.

O. D. Stevens In Death Cell Today

FORT WORTH, April 26.—O. D. Stevens, facing murder trial for the slaying of three men here last July, today was returned to solitary confinement in death cell at the county jail after an unsuccessful attempt to saw his way out yesterday.

The attempted break was discovered yesterday by the jailor who found hack saw blades and an improvised rope in his cell.

Rogers and Garbo in Arcadia Films Next Week

Ohio's liquor administrator made public a list of politicians who asked appointments and other favors from him. It would have been easier for him to name those who didn't approach him.

Will Rogers in "Mr. Skitch" Is Coming To Arcadia Theatre Soon

Declaring it to be the most poignant and human comedy he has had to date, an enthused Will Rogers will have the stellar part in "Mr. Skitch," the new Fox production starting on Monday at the Arcadia theatre. The story, by Ann Cameron, appeared in the Saturday Evening Post several years ago and is considered a classic of humorous writing.

Elaborate plans were made to make this film one of the most pretentious comedies of the season, and from advance reports the film lives up to the expectations of the producers. Rogers himself, who is acknowledged America's greatest funster in all fields of expression, endorses "Mr. Skitch" as the most amusing situation that it has ever been his fortune to play in.

In the film he is cast as the heroically indolent head of a family of six. Through a bank failure, he and his family are left penniless and put out of their home. He gathers up his voracious brood, puts them in a dilapidated car and speeds westward, hoping to secure a job in some other community. Extraordinary adventures with petty gambling and the trials and tribulations of migration from one auto camp to another constitute the comedy-with-pathos elements of the story.

A considerable part of the picture was filmed on location, with numerous auto camps and scenic spots as settings. Some of the splendors employed as the background for the film are the spectacular eruption of Old Faithful

MR. SKITCH IS ROGERS' NEW FILM VEHICLE

Long Awaited "Queen Christina" To Come To Ranger Play House.

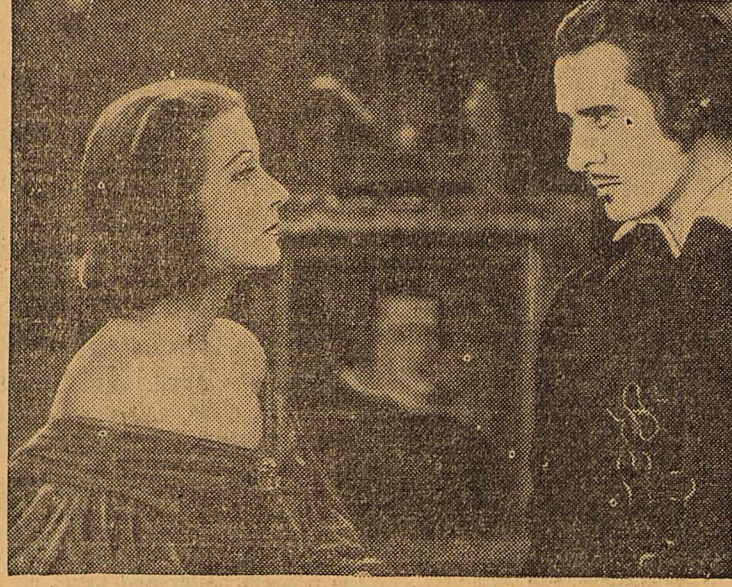

Ranger theatre goers have a couple of real thrills in store for them next week when the new Rogers picture, "Mr. Skitch," and Greta Garbo's "Queen Christina" come to the screen of the Arcadia theatre. The Rogers film comes Monday and is followed on Wednesday by the Garbo feature. This will mark the first time Garbo has been on the local screen in almost two years.

Aside from the two headliners mentioned above the Arcadia is showing Lillian Harvey and Gene Raymond in "I Am Suzanne" Friday. Miss Harvey will be remembered for her excellent work recently in "My Weakness" and "My Lips Betray," which were liked very much by local residents. Raymond is remembered principally for his part in "Flying Down to Rio." Saturday the Arcadia will have one of the best stories ever to come from the pen of Zane Grey, "The Last Round-Up." Incidentally the song by the same name is featured in this picture.

Randolph Scott, who has starred in a number of the better westerns has the leading role. A really fine bit of screen entertainment has been secured for the Arcadia Sunday in "The Right to Romance," which stars Ann Harding and Nils Asther. The picture plays one day only and comes recommended as outstanding screen fare.

The Columbia Saturday is playing John Wayne in "The Lucky Texan," together with the Buck Jones serial, "Gordon of Ghost City," and Sunday offers the best bill it has had in many weeks in the new picture, "Upper World." Warren Williams, Ginger Rogers and Mary Asther have the leading roles.

Garbo's Highly Praised "Queen Christina" Opens on Wednesday At Arcadia Theatre in Ranger

Greta Garbo and John Gilbert in "Queen Christina"

"Queen Christina," Greta Garbo's first Metro-Goldwyn-Mayer picture in two years, which comes Wednesday to the Arcadia theatre, promises to make film history for three reasons:

It reunites Garbo with John Gilbert after a screen separation of five years and brings him out of retirement for a triumphal return to pictures.

It is the picture that Garbo has wanted to do all her life because Queen Christina of Sweden is her favorite historical character.

It is the most ambitious film production with sets that rival the Field of the Cloth of Gold for their size and beauty that is to be seen in recent years.

Miss Garbo in the title role devoted many months of laborious research in Swedish museums to collect data, all information available, and hundreds of old plates and engravings to make the picture authentic.

Spanish Ambassador John Gilbert, who left films to devote himself to directing and writing, emerged from screen retirement at Miss Garbo's request

actress, was chosen by Director Rouben Mamoulian to play the only other important feminine part in the picture—that of Ebba, Christina's lady-in-waiting.

Others in the carefully chosen cast are C. Aubrey Smith, as the queen's loyal bodyguard and servant; Reginald Owen, as Prince Charles, Christina's unsuccessful suitor; Georges Renevent, as the French Ambassador; David Torrence, as the Archbishop; Gustav Von Seyffertitz, as a Swedish general, and Ferdinand Munier, as an innkeeper.

Rouben Mamoulian Directs Rouben Mamoulian, whose last achievement was the direction of Marlene Dietrich in "Song of Songs," was chosen by Miss Garbo to guide the destinies of the "Queen Christina" production.

The picture is based upon the glamorous life of Sweden's famous Queen Christina who reigned three hundred years ago, and its filming taxed the capacities of all M-G-M departments—the wardrobe department for thousands of authentic costumes of the period, the art department and construction departments for the massive sets of Christina's Stockholm palace, the research department for eighteen months of labor while gathering authentic information for the picture, the property department for the manufacture of every article used in the production from a tiny footstool to palace furnishings and military armour of the period.

A new streamline train made a record speed of 104 miles an hour, in a recent test run. But it will still arrive late, we'll bet.

Miner Rescues Pal Accused of Murder In 'Lucky Texan'

In the fourth of his entertaining series of Lone Star Productions, John Wayne will ride across the screen of the Columbia theatre Saturday in "The Lucky Texan."

In "The Lucky Texan," Wayne plays the role of a college graduate who, heeding his father's dying request, goes out West to help Jake Benson, his father's old partner in the past, in his few remaining years.

After numerous escapades with a couple of "sharps" who are trying to steal Jake's ranch and also his newly discovered gold mine, Wayne is arrested and about to be tried for Jake's murder, but Jake appears to save the day.

Wayne is supported by an excellent cast, including Barbara Sheldon, George Hayes, Yakima Canutt, Lloyd Whitlock, Earl Dwire and John Ince.

Wayne, the star, is a former University of Southern California football player, who first distinguished himself in "The Big Trail" and subsequently appeared in a series of western pictures for Warner Bros.

Ann Harding Is Plastic Surgeon In 'Right to Romance'

The love experience of a lady beauty doctor who could change women's faces from old to new but could not change men's loves from new to old, provides the intriguing and novel theme of "The Right to Romance," Ann Harding's latest stellar vehicle for RKO-Radio pictures, which comes to the Arcadia Sunday.

The lovely star of "When Ladies Meet" and "Double Harness" is said to have the finest and most human role of her entire career in this appealing drama of the search for romance of a famous lady plastic surgeon who tires of her career and years for the love which is every woman's right.

Her marriage to a gay and irresponsible young playboy brings her heartache and disillusionment when she observes his renewed interest in a former sweetheart.

A stirring emotional climax is reached when the surgeon is forced to choose between restoring the beauty of her rival, whose face has been scarred in an airplane accident with the husband, or leaving her forever unattractive—never again to steal love from another woman as she had stolen it from the surgeon.

Featured roles in the film are carried by Robert Young, as the siren, and Nils Asther who appears as the serious young doctor with whom the surgeon eventually finds true love and happiness in her career. The strong supporting cast includes Alden Chase, Irving Pichel, Delmar Watson and Helen Freeman.

"The Right to Romance" has been directed with subtlety and skill by Alfred Santell.

Scene From Arcadia Film Today

Jesse L. Lasky considers "I Am Suzanne!" the outstanding production of his career. Lillian Harvey has the featured role with Gene Raymond in the masculine lead. "I Am Suzanne!" is at the Arcadia Friday only.

Fireless Locomotive Switches Freight Cars
ERIE, Pa.—A fireless steam locomotive has just been completed in Erie.

This locomotive, resembling an overgrown boiler on trolley car wheels, does not stop at a coaling dock for coal. It just pulls up to the nearest boiler and takes on a load of steam.

The principle of operation is not new. The boiler is merely a reservoir for steam, which is produced by blowing live steam, under at least 100 pounds pressure, through the partially filled tank. When all the water in the boiler has been converted into steam, the engine has been fueled, ready to go.

The boiler is heavily insulated. The locomotive will be used for switching, as the application of the principle is not practical for long distance or heavy work. One load of steam will take the engine 95 miles, or will tow three cars 21 miles.

Retail Sales Show A 57 Per Cent Increase In State

AUSTIN, Tex.—Retail sales during March in 86 Texas establishments representing all parts of the State were 57 per cent greater in dollar volume than in March, 1933, and 41 per cent above February of the current year, according to the University of Texas Bureau of Business Research. Dollar sales for the first three months of the year were 40 per cent above those of the corresponding period last year. The average in sales from February to March during the past seven years has been 25 per cent.

Cities whose increase over March last year was above the average of 57 per cent were: Beaumont, Corsicana, Galveston, Houston, Port Arthur, Temple, Tyler, and Waco. Stores in the group or cities classed as "all others" including some of the smallest places, showed an increase of 63 per cent.

For the first quarter cities showing sales above the 40 per cent average increase were: Houston, Port Arthur, Tyler and Waco. The miscellaneous group showed an increase of 47 per cent.

Men's clothing stores showed the largest increase over March last year, namely, 85 per cent, followed by department stores with annual sales below \$500,000, 59 per cent; women's specialty shops, 56 per cent; department stores with annual sales above \$500,000, 55 per cent; and dry goods and apparel, 47 per cent.

"Easter purchasing was done in March this year whereas last year it came in April, and retail prices have increased in the neighborhood of 20 per cent, thus affecting dollar value of sales," the bureau's report said. "But after allowing for these factors, improvement in retail sales over last year has been substantial.

"Further evidence of improved purchasing power is shown by the fact that in March 37 per cent of outstanding accounts was collected while in March, 1933, 28 per cent was collected."

Seal and Other Skins Bought Bob For Savage Boys

SANTIAGO, Chile—How a Dutch-American cabaret singer became hairdresser to a tribe of savages on a desert island became known when Freddy Rey reached civilization again at Magallanes.

Finding night life here was too dull to finance his imitations of Maurice Chevalier, Rey signed as extra hand on the American-owned freighter, Mount Taygetus, in Valparaiso. The ship was bound for Europe.

Threading her way through the treacherous southern channels, the Mount Taygetus lost her rudder during a stormy night, and at 3 a. m. was carried on to a dim, dark shore by the strong currents. When daylight came, the sea was full of bobbing heads, which the sailors at first thought to be seals, but which proved to be a tribe of Alacalufe Indians.

They swarmed on deck and used the only words to Spanish they knew, "tobacco" and "brandy." Rey took a keen interest in them, and in spite of warnings from the Greek crew, who distrusted the naked savages, went on shore to visit their camp.

He found the village barber at work. His victims sat no a round stone, while he chewed at their hair with his teeth until it was the right length. Rey pulled out a pair of scissors. The natives shouted with delight as he neatly trimmed and shaped the coarse heads into boyish bobs and shingles. They queued up for days while

Copper Country Is Optimistic

PHOENIX, Ariz.—The copper mining industry is talking in terms of 12-cent metal, despite the fact that prices are holding around 8 cents.

The great copper mining camps, which during the past 18 months have dwindled to almost ghost cities, are talking of better times in the offing and of the higher prices. Considerable optimism is surrounding the possibility of limited resumption of production at the New Cornelia Mine in Ajo, scheduled for July. This is one of the biggest producers of the Phelps Dodge Corporation, and between 500 and 800 men are expected to go back on the payrolls there.

It is agreed that prices must rise before employment figures will show any decided increase as compared to the more prosperous periods of the past. Only two or three of the major mines of this section can operate on 8-cent metal, it is said.

It is generally agreed that many producers could go on regular schedule with a 12-cent copper market.

In the hopes of boosting prices, Arizona, which produces more than 40 per cent of all the copper in the United States, has appealed to the government and NRA administration to purchase all surplus stock and place a prohibitive embargo on foreign copper.

RANGER, TEXAS, FRIDAY, APRIL 27, 1934

NUMBER 16

President Signs Bankhead Cotton Measure

LOCAL LABOR TO BE USED ON HIGHWAY AS SOON AS DIRT WORK IS FINISHED

C. T. Morgan of the Morgan Construction company, successful bidder on the building of the new location of Highway 1 through the city of Ranger, Monday unloaded four cars of machinery to be used in constructing the new roadway. When interviewed Monday, Mr. Morgan stated that he had not yet received his work order from the state highway department at Austin, but expected to have it within the next few days, or within the next week at the latest. In the meantime he is getting his equipment unloaded and spotted ready to start work just as soon as the order is received. Until that time he will be unable to start work on the highway.

"We will use local labor entirely," he said this morning, "with the exception, of course, of a few office men, foremen and key men, which we have brought with us. We used our own men to unload the machinery since we had them here and the contract work has not yet begun. We informed Wesley Hall, highway engineer for this district, that as soon as the highway work was started we would use only local labor, as our contract provides.

"For the first 45 to 50 working days we will be doing bridge work and the dirt work on the contract. During that period we will require very little labor, but as soon as this preliminary work is completed we will use quite a number of laborers. These will be selected from Ranger."

Mr. Morgan stated that he had brought his own rock crusher, which would be located on Eastland hill, behind the standpipe, and the rock for the work would be crushed there and hauled. When the crusher starts working and the

hauling for the topping is begun more jobs will be available.

A scale for the various kinds of labor has been worked out by the highway department and the Morgan Construction company must pay this scale. They have no option as to the amount paid.

Common labor will get 35 cents an hour, with some skilled labor getting around 45 cents, Mr. Morgan said, though he was not sure about the exact amounts without checking his contract to see what the scale would be.

Truck drivers will also be hired locally, though the company will use their own trucks, hiring the drivers here, it was stated.

New Officers Are Elected By P.T.A.

The Olden Parent-Teacher association met Wednesday afternoon in regular session. The meeting was opened by the president.

The P.T.A. finished paying for the rhythm band instruments and made plans for the association to sell pop and candy at the May Day fête the first day of May.

After all the old business was tended to the rest of the meeting was turned over to election of the following officers:

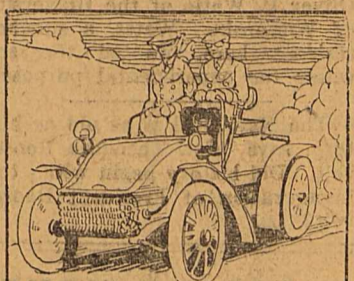

Mrs. Richards, president; Mrs. Nix, treasurer, Mrs. O. M. White, vice president, and Mrs. Vermilion, corresponding secretary.

TRIPLETS 75 YEARS OLD

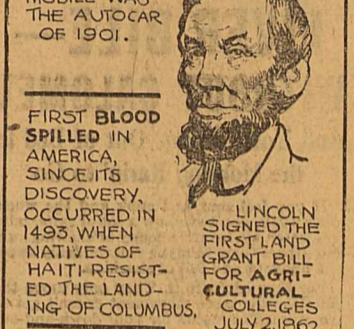

CAMDENTON, Mo.—The three Ezard triplets recently celebrated their 75th birthday anniversaries here at the home of Abe Ezard. The three, Abe, Isaac and Jacob, have lived in this community for 66 years. They came here from Canada.

WHO WAS FIRST IN AMERICA

By Joseph Nathan Kane Author of "Famous First Facts"

FIRST SHAFT DRIVE AUTO MOBILE WAS THE AUTOCAR OF 1901.

LINCOLN SIGNED THE FIRST LAND GRANT BILL FOR AGRICULTURAL COLLEGES JULY 2, 1862.

THE Autocar, shown above, was driven from Philadelphia to New York, 90 miles, in 6 hours and 15 minutes. Columbus and his men tried to land in the dominion of Mayabonex, chief of the Chiniquenes of Haiti, on one of their later voyages to America, when they were repulsed. The Spaniards wounded several natives. The bill that President Lincoln signed had been vetoed by President Buchanan.

ROBIN ON THIRD VISIT

LOGAN, O.—A white robin, for the third consecutive year, made its appearance here near the residence of George L. Wright. The bird keeps company with other robins of regular markings and annually constructs a nest and raises a family, all of them regular "redbreasts."

PROCEEDINGS IN COURT OF CIVIL APPEALS

The following proceedings were had in the Eleventh Court of Civil Appeals at Eastland:

Affirmed—Fowler E. McDaniel vs. F. H. Woodard, Mitchell.

Reversed and Remanded—Page-way Coaches, Inc., et al. vs. J. H. Bransford, Eastland; Texas Employers Insurance association vs. L. L. Wallace, Taylor; Texas & Pacific Railway Co. vs. A. E. Rumpy, Eastland.

Motions Submitted—The Pacific Mutual Life Insurance Co. of California vs. Louis Landau, appellee's motion to strike out assignment of error in appellant's brief, passed to be considered with main case; A. M. Ferguson et al. Joe Lee Ferguson, plaintiff in error's second motion for rehearing; A. M. Ferguson et al. vs. A. S. Mauzey et al., plaintiff in error's second motion for rehearing; A. M. Ferguson et al. vs. A. S. Mauzey et al., relator's motion for rehearing.

Motions Overruled—Abilene & Southern Railway Co. vs. J. C. Bagwell et al., appellee's motion for rehearing; The Swisher-Orrison Co. vs. W. E. Rogers & Son, plaintiff in error's motion for rehearing; S. Nelson Baggett vs. Texas Employers Insurance Co., appellant's motion for rehearing.

Cases Submitted—Texas Employers Insurance Association vs. R. G. Burnett, Eastland; John Hancock Mutual Life Insurance Co. vs. Fred N. Warren et al., Knox; Millie Blackburn et al. vs. The State of Texas, ex rel. Pate Echols et al., Stephens; W. S. Daniel vs. Mrs. M. J. Cook et al., Taylor.

Cases to be Submitted Friday, April 27—C. A. Scott et al. vs. Exchange Petroleum Corporation, Taylor; J. R. Headrick et al. vs. John S. Roach, Taylor.

Triumph Class Has Picnic On Friday

Miss Oleta Moseley, who is teacher at Triumph, sponsored a "free-and-easy" picnic for her pupils and patrons, Friday, April 20, at Butler springs.

After exploring the surroundings and tramping through a cave, a delicious lunch consisting of salads, sandwiches, pickles, fried chicken, potato chips, pies, cakes and ice cream was enjoyed.

The afternoon was spent in games, contests and swimming.

CAT OPENS DOOR

MELROSE, Mass.—Albert A. Carlton's three-year-old pet cat doesn't have to meow when it wants to go outdoors. It merely clings to the door with one paw and turns the knob with the other.

FROG EGGS IN STORAGE

NEW YORK.—About 70 quarts of frog's eggs, which mean a potential pond population of from five to six thousand frogs, recently have been acquired by the American Museum of Natural History. These eggs are kept in cold storage to retard their growth until they are needed, but are greatly in demand for nature study.

JOBLESS GET GARDEN PLOTS

RACINE, Wis.—Garden spaces are being allotted here to hundreds of unemployed men who will raise vegetables for their families during the summer. Last year 2,800 plots were worked.

A Long Range Home Plan to Aid Thousands

WASHINGTON, April 23.—The government is spending \$25,000,000 to promote purchase of land and building of new homes for thousands of its citizens in the long-range program for "Resettlement of America."

A special emergency division of government known as "The Division of Subsistence Homesteads" has been created for this purpose and already has begun preparations on 32 sites in 20 states.

The purpose of this enterprise is to place portions of the population now economically "stranded" by shifting tides of business, or farm development on tracts of land where they largely can be self-supporting.

As the title of the work indicates, they are expected to secure at least "subsistence" from garden, cow, poultry and other food which they can raise. The "homestead" tracts average about four acres in size.

This program is only a part of the sweeping readjustment of population to the land undertaken by President Roosevelt and his "New Deal" advisers. Other aspects include the return to nature of 40 to 100 million acres of land now producing surplus crops, the reforestation of denuded watersheds and creation of new timber reserves, grazing lands and national parks.

By mid-April the government had launched resettlement homesteads for 4,310 families, selecting for the 17,240 acres of land. About 20 other projects were under consideration with announcement expected imminently.

Communities "stranded" by the closing of industries or mines, are examples. Secretary of Interior Ickes, whom this work proceeds, said that approximately 200,000 coal miners have little prospect of ever attaining permanent work again in their communities, because of the exhaustion or closing of mines.

Large numbers of persons attached to copper, lead, zinc and petroleum production communities are in a similar situation, officials said. Likewise some industries dependent upon timber are in a similar situation.

PICKFORD BIRTHPLACE IS NOW A TEA ROOM

TORONTO, Ont.—The birthplace of Mary Pickford, a humble dwelling on University avenue, has been turned into a tea room. For years the house stood as one of the landmarks of the city and was visited by thousands annually.

OREGON SEEKS \$507,400

TILLAMOOK, Ore.—The county court will send to Washington, D. C., an application for a \$507,400 PWA grant to build a road up the Wilson river to salvage fire damaged timber where 300,000 acres were burned in a huge forest fire last summer.

W. Z. DISHEROON'S CONDITION IMPROVES

W. Z. Disheroon, employee of the Lone Star Gas company Plant 108, who was seriously injured in an automobile accident Friday and whose condition was reported as grave Saturday, today was reported as better and chances being about even for his recovery.

PIONEER EDITOR DEAD

BAKER, Ore.—I. B. Bowen Sr., 85, pioneer Oregon editor, died here from injuries suffered when struck by an automobile. Bowen began work in the newspaper trade in 1875 in Portland. He retired in 1928 after serving 41 years as editor of the old Morning Democrat here.

S. W. BOBO OF RANGER DIES AT AGE OF 73

S. W. Bobo, pioneer citizen of Eastland county, died at his home in Ranger Friday afternoon at 2 o'clock after a long illness. Funeral services were conducted at his home Sunday afternoon at 2:30 with interment in Evergreen cemetery following the services. The Masonic lodge was in charge.

The decedent was born in Paduca county, Mississippi, Feb. 26, 1862, and came to Texas in 1873. He settled first in Wise county, later moving to Stephens county in 1891. He moved to Ranger in 1901 and had been a resident of the city since that date.

He was first associated with the Walker Bros. Hardware company, later buying the store, which was run under the name of Bobo Hardware company. He retired in 1925, though the business was continued by Charles Bobo.

He became associated with the Baptist church in early manhood and was married to Miss Zelon Watson. They celebrated their fifty-first wedding anniversary last December.

He is survived by his widow and six children, Charles A. Bobo of Ranger, E. H. Bobo of Ranger, M. H. Bobo of Lacasa, Mrs. Susan Hunt of Ranger, Mrs. Park Weaver of Fort Worth, and Mrs. Howard Cole of Pasadena, Calif.; two brothers, Zack Bobo of Rhomb, Texas, and Dr. Charles Bobo of Norman, Okla., and one sister, Mrs. Charles Poe of Fort Worth.

All will likely be present at the funeral except Dr. Charles Bobo, who is past 82 years of age. He is survived by four grandchildren.

During his more than 30 years as a resident and merchant of Ranger he had become one of the best known and most beloved of the pioneer citizens of this section of the country and leaves a host of friends to mourn his passing.

Active pallbearers were: W. W. Paschall, L. H. Hagaman, C. E. May, Jack Blackwell, V. V. Cooper, Jr., and Roy Jameson.

The honorary pallbearers will be: The honorary pallbearers were: J. Lee Walker, B. B. Walker, S. F. Dean, J. F. Drienhofer, V. V. Cooper, Sr., C. F. Thompson, W. H. Bradford, T. E. Barefield, M. H. Magnolia Agent

J. E. Meroney, postmaster of Ranger, who has purchased the local Magnolia agency. He will continue as postmaster until the expiration of his appointment, leaving the agency management to an assistant until he can take over the active-operation himself.

J. E. MERONEY BUYS MAGNOLIA AGENCY HERE

J. E. Meroney, postmaster of Ranger, has announced that he had purchased the local Magnolia wholesale agency from C. W. Blacklock, who has been operating it for the past few years.

Mr. Meroney is at present on his annual vacation and will, upon the expiration of his leave, retain his postmastership until the expiration of his term, leaving the management of the gasoline agency to an assistant and devoting his time to his position with the post office until he is relieved of these duties by the post office department.

The new Magnolia agent has been an employee of the post office department stationed in Ranger for the past 14 years, having been employed as night clerk on May 9, 1920. He took office as postmaster June 1, 1926, in which capacity he has served since that date.

In announcing the purchase of the Magnolia agency, Mr. Meroney stated that he was going to try, as soon as his postmastership ended, to build up the business and attempt to have as many people as possible in Ranger using the Magnolia products.

Not only has he been postmaster of Ranger for eight years, but in that time he has served as a director of the Chamber of Commerce, a director of the West Texas Chamber of Commerce, is at present president of the Lions club and scout commissioner for Ranger. He has been active in Red Cross work and has taken an active interest in every civic movement in Ranger for a number of years.

WILL LIMIT CROP TO TEN MILLION BALES

WASHINGTON, April 21.—President Roosevelt signed the Bankhead Cotton Control Bill today and embarked the nation on its first experiment in compulsory crop limitation.

The act restricts this year's cotton crop to 10,000,000 bales by levying a tax of 50 per cent on production in excess of quotas assigned by the agricultural adjustment administration. Exemption certificates will be issued to cover amount within quota limits.

Senator Bankhead and Representative Bankhead, were present as Mr. Roosevelt signed the bill. The President presented the pens he used to the Bankhead brothers.

Critics charged that the Bankhead plan involves "regimentation" and is a step toward national "collectivism." It is an arbitrarily imposed padlock on the right of an individual to grow as much as he chooses, they said. The bill's supporters replied the cotton belt demanded such legislation, at no thought had been given to implying the compulsion provisions to other commodities, and that it will be in force only this year unless growers chose to continue it.

An early court test is expected. Secretary of Agriculture Henry Wallace supported the measure only after questionnaires distributed by the AAA demonstrated the feeling of the Cotton Belt. Wallace is not certain the producers fully realize what they are asking.

"I can see a multiplicity of suits and claims that might arise," he said.

Wallace also is afraid the high value of the tax exemption certificates may foster a "tendency to short the emphasis on cotton production to an emphasis on the procuring of exemption certificates."

Recital Is Presented At Staff Thursday

The Staff Baptist church was artistically decorated in ferns and spring flowers Thursday evening, April 19, when Miss Oleta Moseley presented her expression class.

The recital opened with a song by Frances Hazard and Jack Crawley. Iris Crawley then read "The Kod." "In Old Nantuckett" was sung by Billie Burl Garrett and Iris Crawley. Baulah Fay White gave a reading, followed by a playlet in which Iris Crawley and Frances Hazard took part. Billie Clyde Moseley read a witty piece next. A musical reading and an encore by Frances Hazard was followed by two clever readings by Jack Crawley, "Pussy-Cat and Bow-Wow" was given by Iris Crawley and Billie Burl Garrett.

Following a delightful reading given by Cora Lou Gregg, Warford and Fred Moseley presented a dialogue which caused many laughs. Clarice and Cora Lou Gregg beautifully sang a song, then Billie Burl Garrett read "A Boy's Mother." A song by the class was followed by "Gimlet and Corkscrew," and an encore read by Miss Moseley, which ended the delightful program.

NOSE WORTH \$3,000

CINCINNATI.—The beauty of a feminine nose was appraised at \$3,000 by a jury in John H. Druffe's common plea court here. That amount was awarded Helen Zlatin, 14, as damages for an accident in which her nose, in the language of the suit, was "deflected to the right."

THE BUICK MOTOR COMPANY

congratulates

THE STREET MOTOR COMPANY

on having already sold, in 1934, more Buicks than during all of 1933

At the same time, Buick thanks the new Buick buyers in this community, and extends to them a sincere welcome as members of its loyal family of owners.

Intelligent and progressive salesmanship by Buick dealers . . . traditional sound, reliable building on the part of Buick . . . and a keen appreciation of values on the part of the public have given the new Buick for 1934 a sales impetus which bids fair to result in a record-building year.

Crop Reduction Contracts Should Be Read Carefully

Crop reduction contracts should be carefully read by producers who have executed contracts. Each signer should have a copy of the contract according to County Agent J. C. Patterson. In the rush of preparing the data for the contracts many producers have failed to observe the regulations governing the performance of the producer. It has already come to the attention of the county control committees that individuals are violating the conditions of their contracts unknowingly or based on hearsay from someone who is misinformed as to the contractual requirements.

In executing a corn-hog reduction contract producers must have listed on contract description and location of all other farms owned, operated or controlled by all parties to the contract and are bound to not increase the corn acreage on any other farm not covered by contract above the 1932-1933 average acreage produced on that farm. Producer is bound to have no interest whatsoever in any hogs not located on the farm covered by his contract, and further agrees to pay to the government \$20 per head for every hog he produces above his contracted allotment. Naturally it is not expected that producer will receive pay for reducing on one farm and be permitted to increase production on another.

Producer in executing a contract is bound to not increase production of "basic commodities" (wheat, corn, cotton, hogs and dairy products, for this area) above the annual average for the past two years. He agrees to not increase on this farm in 1934 the total acres cultivated above 1932 or 1933 whichever is higher. He agrees to not plant on the contracted acres any crop for harvest, which includes grazing, excepting that he is urged to plant permanent pasture and soil building crops. He agrees to not purchase more hogs than the average purchased in 1932 and 1933.

Tokio may surpass New York in population by 1955, says a scientist. It's more than one a minute in Japan.

LENGTH —O. K.!

WHEN we cut and hem a HANES Shirt, we always think of your thighs. And we leave enough to go way below the belt—down so deep in your shorts that it can't creep out at your waist! Mister, it's length—plus. And wait till you feel the springy knit of HANES, snuggled across your chest. It's the most comfortable feeling in the world! Tight, soft, and cool—you want to stick out your chest, and thump it like a gorilla!

And there's no let-down in comfort, when it comes to HANES Shorts. They have ample "seating capacity"—nothing rips or grips at the crotch. Colors guaranteed! See your HANES dealer today. P. H. Hanes Knitting Co., Winston-Salem, N. C.

Weekly Sunday School Lesson Christ's Standard of Greatness

Text: Matt. 20:1-34
The International Uniform Sunday School Lesson for April 29.
BY WM. E. GILROY, D. D.,
Editor of Advance

THERE were incidents in the life of Jesus that brought out the full contrast of his teachings and the values that he set upon life, as against the worldly motives and ideals of power and success that for the most part influence men in worldly conduct. There were two disciples, James and John, who had a very ambitious mother. She appears in the New Testament record as the "mother of Zebedee's children." Zebedee, apparently, was only incidental in that family life. The mother was the strong determining influence, and she had inculcated in these two sons the intense passion to be foremost that she herself had for them.

Jesus perceived this quality in the two brothers, and he playfully nicknamed them "Boanerges," which means the sons of thunder. Once he rebuked their fiery spirit when they urged him to call down fire from heaven and consume some villagers who had treated their Master disrespectfully.

BUT Jesus evidently perceived in these ambitious, fiery-spirited men the qualities of strength and the power of action that could make them mighty pillars upon which to build his church, once their lives were purged of selfishness and worldly ambition.

Here in our lesson the mother had come to him with an urgent request concerning her sons. She asked that one should sit upon the right hand and the other on

the left when he should come into his kingdom. She had as deep a misconception of the nature of Christ's Kingdom and power as had the young men themselves. But the young men were true to the spirit of their mother. When Jesus pointed out to them the hardships and the sacrifices, they did not flinch. They declared themselves able to drink of the cup that he should partake of and to be baptized with the baptism that he was to be baptized with. They feared nothing, and they held back from sacrificing nothing, for the attainment of their purpose and what their mother had in view.

HOW different it was all to be in the actual result! These men so full of fire became full of love and zeal for righteousness. Where they had aspired to become great through lordship it over others, they were to learn the Master's lesson that greatness is through character and love and service, that the greatest of all men is the minister.

Not necessarily the man who bears a "D. D." or before whose name "Rev." is placed, but the man, wherever he is found, who gives his heart and life in simple sincerity to the purpose of Jesus in serving his fellow men.

Fortunately this is a ministry and a greatness within the reach of us all. We do not have to be born to it.

We do not need wealth or favor or influence to secure it, but where even the lowliest of God's children will devote himself to simple tasks and duty and to a life of ministry and service, he will find that he has entered Christ's hall of fame and the places of the great.

Candidate Claims Million Texas Votes

STEPHENVILLE, Texas.—Terminating the progress of his campaign as sensational, W. W. Nance, candidate for governor and a resident of Fort Worth, sees an overwhelming victory for himself.

"Out of the 1,400,000 votes to be cast in Texas, I expect to get a full million," the former produce dealer said here.

Nance came through here on his way to San Angelo, where he continued his campaign. He said his mission is to overthrow the rule of professional politicians.

Master Plumbers to Meet in Washington

GALVESTON.—Clayton Lee of Houston and W. H. Kuhn of Dallas will represent the Associated Master Plumbers of Texas at the national convention to be held in Washington May 28. They were elected delegates at the recent state convention here.

Officers re-elected at the meeting were:

C. Ormond of San Antonio, president; Kuhn and W. H. Warren of Houston, vice presidents; E. H. Jordan of San Antonio, secretary-treasurer, and R. G. Thomas of San Antonio, national committeeman.

Few People Know Why San Jacinto Was So Named

AUSTIN.—Surprisingly few persons at the state capitol know why April 21 is San Jacinto Day. Asked, they reply it is the anniversary of the battle of San Jacinto. Pressed further, they say the battle was so named because of the proximity of the San Jacinto river. But when asked how the river received that name, they are stumped.

Volumes in the historical section of the state library show that it was named for Saint Hyacinth, Spanish for hyacinth is Jacinto.

Dominican friars from San Augustine named it. Pushing along the Texas coast in 1751, they found the Trinity river free for their craft, but another stream whose waters enter into Galveston bay resisted their efforts. They found it blocked with water hyacinths. They named it for another missionary, Saint Hyacinth, or in the Spanish, San Jacinto.

Celebration of the anniversary of the battle on April 21 and its declaration as a state holiday has caused popular supposition that April 21 is really San Jacinto Day. Religiously the feast of Saint Hyacinth or San Jacinto is Aug. 18.

Saint Hyacinth was one of the early dominicans. He received his habit from St. Dominic personally soon after the founding of the order.

The San Jacinto river continued a hyacinth blocked stream for many years. As late as 1907 congress made an appropriation to clear the bulbous plants from the stream as they impeded navigation.

Columbia University physicists find a neutron is one ten-trillionth of an inch in diameter. With their instruments they might be able to measure the size of an NRA violator.

Russia is planning to abolish its secret police force. Now the OGPU might find a job as another New Deal bureau.

Floyd Hamilton Is Charged In Break At Prison Farm

CROCKETT, April 24.—Floyd Hamilton was charged here today with assisting in the escape of his notorious brother, Raymond Hamilton, and four other prisoners from the Eastham farm near here last Jan. 16.

The charges cite him as an accomplice in the slaying of Guard Major Crawford, killed in the gun battle, purportedly lead from the outside by Clyde Barrow and with abetting the escape of five prisoners.

Floyd Hamilton was charged specifically with planting the guns used by the convicts during the break.

He will go to trial in Dallas Monday in connection with the \$1,500 robbery of the Grand Prairie State Bank on March 19.

Northwestern University professor calls congressional investigators "scototropists." That's the advantage professors have over those who know only how to swear.

Political Announcements

This paper is authorized to announce the following candidates for office, subject to the Democratic Primary Election in July, 1934:

- For County Judge: W. D. R. OWEN, CLYDE L. GARRETT
- For County School Superintendent: CLAIBORNE ELDRIDGE, T. C. WILLIAMS
- For County Treasurer: JOHN WHITE, MRS. MAE HARRISON
- VIRGE FOSTER
For Sheriff:
- For Commissioner, Precinct No. 1: HENRY DAVENPORT

Ready For Asphalt On Breck Project

All concrete base work on the Walker street project in Breckenridge is completed, according to information received from the office of the state highway resident engineer in Eastland, and contractors will start Wednesday of next week laying the asphalt surface.

The project, it is estimated, will be completed by May 15. Supervision of the work is being made by the resident engineer, who at frequent intervals goes to Breckenridge and inspects the projects.

MONHEGAN, Me.—Earl Field made an unusual shipment recently when he sent a gallon of water from the Atlantic ocean to Prof. Oliver P. Watts of the University of Wisconsin. Watts, a summer resident here, wanted the sea water for experimental purposes.

The New Deal is as old as history, says Col. Theodore Roosevelt. Did history begin with the inauguration of President Roosevelt?

WAKE UP YOUR LIVER BILE— WITHOUT CALOMEL

And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sour and sunk and the world looks punk, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine.

For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily.

If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You have a thick, bad taste and your breath is foul, skin often breaks out in blemishes. Your headaches and you feel down and out. Your whole system is poisoned.

It takes those good, old CARTER'S LITTLE LIVER PILLS to get these two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely. But don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. Reconstituted. 25c at drug stores. ©1931 C. M. Co.

BULLET-SCARRED CLOCK STILL RUNS

SPRINGFIELD, Mo.—A clock made over a hundred years ago, and which was perforated by gunfire during the Battle of Springfield here in 1863, continues to run and keep accurate time. The clock was standing in the home of John McCher, grandfather of the present owner, when the house was fired upon.

STORM KILLED 500 DUCKS

ULYSSES, Kan.—More than

500 wild ducks were killed here recently by a dust storm. Earl Lytal and Jerry Sullivan found the fowls, which evidently had smothered in the thick dust that filled the air.

MARRIED IN HOSPITAL

COQUILLE, Ore.—Coun by Judge D. F. Thompson wasn't too ill to officiate at the wedding ceremony of Walter Lilienthal and Myrtle Hunt, Marshfield, in his own sick room. Two nurses of the hospital witnessed the unusual ritual.

The clean Center Leaves are the mildest leaves They Taste Better!

Luckies are all-ways kind to your throat

WHEREVER the finest tobaccos grow—in our own Southland, in Turkey, in Greece—all over the world, we gather the very Cream of the tobacco Crops for Lucky Strike. And that means only the clean center leaves. The center leaves are the mildest leaves—they taste better and farmers are paid higher prices for them. These clean center leaves are the only ones used in making Luckies. Then "It's toasted"—for throat protection. And every Lucky is fully packed with these choice tobaccos—made round and firm, free from loose ends—that's why Luckies "keep in condition"—why you'll find that Luckies do not dry out—an important point to every smoker. Naturally, Luckies are always in all-ways kind to your throat.

Fishing Season to Open Tuesday; All Anglers Are Ready

The fishermen of Ranger are looking forward to the opening of the 1934 season on Tuesday, May 1, with much anticipation, as indications are that this will be one of the best fishing seasons since Lake Hagaman was opened. Jim Ingram has the fishing rights for the 1934 season and season permits are now on sale.

Prizes have been offered by Killingsworth, Cox & Co., Joe Harness and Montgomery Ward & Co., for the largest fish caught the first week of the season and the Gholson Coffee shop has offered to cook the prize winning fish free and serve it with all the trimmings. Jim Ingram pointed out today that year before last 24,000 fish had been put in the lake and last

year an additional 8,000 had been added, which really overstocks the lake, so the fishing should be exceptionally good. In addition, he pointed out, the lake has not had enough water in it to run over the spillway for two years and the fish have had no way of getting out of the lake.

A man has been engaged to sell minnows and he will be located near the pump station at the minnow tanks at all times so that plenty of minnows will be available. It is expected that between 15,000 and 20,000 minnows will be added to the pond during the season so there will be an ample supply on hand at all times. Several boats are also available to those who want to rent boats from which they can fish.

Crosses Delaware 2,000 Times Before He Receives Notice

NEW YORK.—George Washington crossed the Delaware once, making it the most publicized trip, along with Paul Revere's ride, in history.

Now comes H. P. Little, United Air Lines' pilot, who just made his 2,000th flight over the Delaware, on the New York-Cleveland route, with a claim of recognition.

Travelers on the three-mile-a-minute planes flown over the New York-Cleveland air route fly over the Delaware near Easton, Pa., where the river divides Pennsylvania and New Jersey.

Little, who has 6,500 hours flying experience, began his aerial career 15 years ago. He was one of the first pilots on the Detroit-Cleveland and Cleveland-New York routes.

BORROWED MONEY TO STRETCH HAT

GLOUCESTER, Mass.—A fellow borrowed a hat from Carl Cameron, restaurateur. Later the same chap borrowed 25 cents from Cameron. When the hat came back it was disclosed that the borrower had used the 25 cents to stretch the hat to fit him.

Try a Want Ad it Pays

Lions Clubs to Meet At Mineral Wells In District Meeting

MINERAL WELLS.—The sixteenth annual state convention of the five district Lions clubs of Texas will be held here on June 4 and 5, it was decided here at a meeting of the five district governors and the state secretary. More than 800 Lions are expected to attend the two-day session.

Dr. W. J. Danforth of Fort Worth, governor of district 2-E, announced that his district would meet here June 3. He urged all Lions in his district to attend the meeting and to remain here for the state convention.

Local arrangements are in charge of a committee headed by George D. Barber, manager of the Mineral Wells Chamber of Commerce and a member of the Lions club.

Sterling Gets His Third Oil Strike In Past 16 Months

HOUSTON, April 24.—Former Governor Sterling admittedly broke when he left the governor's mansion 16 months ago, announced his third new oil sand discovery within a year here today.

A new deep well in his Hogg Brothers farm No. 2 well gave the old West Columbia field at Brazoria county, hopes for a new boom today. The 700 barrel well was brought in at 5,200 feet, 2,200 feet lower than the old sand which made the field the third largest in the state.

Sterling organized his corporation early last year in an effort to recoup his fortune, allegedly lost while he was governor.

Wilbur Glenn Voliva, famous overseer of Zion, may believe the earth is still flat, but he's bound no one will ever catch him flat.

Garden and Yard Hints From Club Women of County

Get Rid of Cut Worms
Mrs. Henry Collins, farm food supply demonstrator of the Olden home demonstration club, gives the following information on garden hints. Mrs. Collins finds these are good to use every season. "Get rid of cut worms by using the following: 2 pounds dry bran, 2 ounces white arsenic or Paris green and 1 pint molasses. Mix thoroughly and add enough water to make the bran particles hold together. Apply in the late evening along the rows, placing in piles about the size of a 25 cent piece. "Using this poison bran has helped make a higher yield in my tomato and cabbage crops. when using this poison be sure the chickens are fastened out of the garden or they may get the worms."

Another remedy I find worth while and is not expensive is to dissolve 1 pound of soap in two or three gallons of water and spray the plants every ten days. This will not kill the bugs, but will keep them off the plants.

Remedy for Tomato Bugs and Lice
Lice have bothered my garden plants for all these years and now I have a remedy for ridding such plants as mustards, turnips, cucumbers, cantaloupes and water-melons of them. I spray the plants thoroughly with nicotol, using one and one-half teaspoonful of this solution to one gallon of water. Spray the plants every five to seven days to insure keeping down these pests. Lice are sucking insects and the poison (as arsenic) will not kill them, because they do not get that when only sucking the juices from the leaves and stems.

You can get rid of the tomato bugs by dusting the plants with one part of lead arsenate to four parts of lime or spray with one and a half teaspoons of lead arsenate to one gallon of water.

Mrs. B. F. Dempsey, farm food supply demonstrator of Bullock home demonstration club, has found these remedies helpful in her garden.

A few cents spent for bug dope may save a hundred dollars worth of vegetables. Don't delay spraying, as insects which work day and night can cause serious damage in a very short time.

Perfect 48 Year Record

BOSTON.—For 48 consecutive years, Miss Mary E. Elliot, 81, of Somerville, has not missed a day at the Boston headquarters of the Woman's Relief corps, where she is department secretary.

A D. A. R. member from Hartford, Conn., says we should deport all aliens, arguing probably that steam shovels can do the ditch digging now.

Large cucumbers for sour pickles and small cucumbers for sweet pickles should be grown in all gardens. Mrs. J. W. Parrish, farm food supply cooperater of the Ranger co-workers club finds that the Davis Perfect or the Stay Green cucumbers are good for the large ones. The Chicago Pickling variety for the small ones.

Pickles cured in brine make better pickles and this method will take the bitterness out of the cucumbers if there is any there.

The best cantaloupes for home use, plant Perfect or Hale's Best. These varieties have thick, tender sweet flesh with small seed cavities that make them very desirable.

Adequate Storage Space

Mrs. D. M. Jacobs, clothing demonstrator of the North Star demonstration club says: "All families should have plenty of storage space for the clothing and this is possible with very little cost if one will look around and use the material on hand. I have a closet made of an old wardrobe. This wardrobe was not wide enough and to remedy this the back was taken out, a one by twelve plank put in between the wall and the wardrobe which makes it very satisfactory. The wardrobe is on the floor and with scrap lumber the top is built to the ceiling, making storage space for quilts and boxes or anything of the kind. Shelves are built in the end for the flat garments or hats and a rod across for hanging garments. Shoes are to be taken care of on a shoe rack or nail nailed into the wall and the shoes hung over them. The inside of the closet is to be papered, the paper was donated by Mr. Wilcox, one of the cooperating Rising Star merchants. The cost of the adequate storage space in this case is practically nothing. A complete report will be given at the council meeting as to the cost of the closet."

TO CONSTRUCT FLORAL CLOCK FOR CEMETERY

SPRINGFIELD, Mass.—A floral clock, soon to be constructed at Hillcrest Park cemetery, will be the only one of its kind in the United States. The clock will be 16 feet in diameter and faced with flowers. The only four similar clocks are in Canada and Europe.

Ten out of 19 prisoners on a hunger strike at Holmesburg, Pa., quit at the end of a week, when they got hungry.

A Body Builder

Mr. P. N. Barnes of 1017 E. Cannon St., Fort Worth, Texas, says: "I have had much experience with Dr. Pierce's Golden Medical Discovery as a body builder of good health. This tonic was originally prescribed by Dr. K. V. Pierce for his patients, 60 years ago. Write Dr. Pierce's Clinic, Buffalo, N. Y. New size, tablets 50 cts., liquid \$1.00. Large size, tabs. or liquid, \$1.35. "We Do Our Part."

DOCTOR BRINGS DOG TO LIFE AFTER 11 DAYS

BERKLEY, Calif., April 24.—A small black and white dog, partially revived from apparent death by a young experimenter, today held the key to discoveries which may solve science's ageless search for a means of restoring life.

Success of the experiment by Dr. Robert Cornish, 28-year-old University of California graduate, depended upon the return to full consciousness of Lazarus IV, the fox terrier he restored to partial consciousness after asphyxiation 11 days ago.

Locked in a barn-like laboratory, he watched patiently and hopefully as the dog fought its way back to a normal state. The pale faced young scientist rejoiced as breathing resumed, the heart began beating and vision returned. The dog responded to ordinary reflexes, sought feebly to brush a fly off its body and accepted food.

Many Violating Codes Are Ignorant Of Their Provisions

HOUSTON, April 23.—The National Recovery Administration has established offices in every State, staffed them with specialists in the various phases of codes (as Labor, Trade Practice), so that in addition to the organizations of industry itself, such as Local Code Authorities, there may be available to interested parties a governmental agency to care for the general public's interest in code compliance. In Texas there are two such offices, Houston and Dallas. These offices cannot know of a violation unless a complaint is filed with them. To attain the success which you expect of NRA, it will be necessary for these offices to receive the cooperation of the preponderant majority of persons in Texas. Whether you are an employer, employee or a layman, you should, if you know the facts concerning a violation report those facts or file a complaint with one of these offices. The object in receiving these complaints of violations is that the violator may be acquainted with the provisions of his code and proceed to adjust the violations and comply in the future.

In many cases it is found the violator is ignorant of the fact that he is not complying with the particular code regulating his trade or industry. In most of such cases, a speedy adjustment is had and the objects of the Code are attained at once. Violations which are wilful, and therefore impossible to adjust, are forwarded to the enforcement branches of the Federal Government.

It is important to bear in mind that in no cases are the names of the person making the complaint made known except with their express permission. All of the officers and employees handling these complaints have taken the oath of the Federal Government; of the hundreds of complaints handled so far, the name of no complainant has yet been disclosed except in a few isolated cases where permission was given to do so by the person filing the complaint. This fact you should make known as widely and as rapidly as possible.

An increasing number of complaints are being received. This is interpreted as a wholesome indication that the public is decidedly in favor of strict compliance with the codes governing trade and industry. Complete indifference to the functioning of these codes in your area would certainly not indicate strict compliance in your city or community. The filing of a complaint is a reminder that you favor code compliance, and that you favor enforcement if necessary.

Chamber of Commerce officials, Trade Association secretaries and members, Compliance Board officers and newspapers can lend their cooperation and active assistance toward the program of recovery by reporting to us any cases of non-compliance with the provisions of the various codes under which business is conducted.

Blank forms to use in filing complaints may be obtained from your local post office.

Henry Ford

PIONEERING A SERVICE TO FORD OWNERS

ENGINES AND OTHER UNITS RECONDITIONED AT THE FORD FACTORY

HENRY FORD believes that the engine overhaul should be a factory job. For in the Ford factory are the men and the machines which produced the engine originally. Engine overhaul should have the same advantage of our precision equipment and methods which engine manufacture had. That is our proposal to you.

When the time comes for the engine to be overhauled—that will be normally after 40,000 or 50,000 miles—the Ford owner simply gets from the local Ford dealer an engine that has been completely reconditioned in the Ford Motor Company plant at Dearborn, Michigan. The cost is far below the usual cost of overhauling—and there is a great saving in time, as your car is tied up for only a few hours instead of days. Besides that, the price is not guesswork—it is a fixed, known price.

This reconditioning service is further extended to such units as the distributor, carburetor and brake shoe assembly. Worn or obsolete parts are replaced with new ones. Every reconditioned unit installed by the Authorized Ford Dealer has passed the closest factory inspection. In every detail it is ready for thousands of miles of trouble-free service.

Ask any Ford dealer about this new money-saving service for owners of Models A and B and eight-cylinder Ford cars and trucks. This is an exclusive Ford service. It is one of the important reasons why you should own a Ford V-8—the only V-8 under \$2500—the car which hundreds of thousands of owners say is the most economical Ford car ever built.

TUNE IN—FORD DEALERS' RADIO PROGRAM. FRED WARING and HIS PENNSYLVANIANS. Glorious music. Every Sunday night at 8:30, and every Thursday night at 9:30 (E. S. T.). Columbia Broadcasting System. And in the meantime—"Watch The Fords Go By."

PRICES FOR EXCHANGE OF FACTORY - RECONDITIONED UNITS

Engine (V-8)	\$49.50*
Engine (4-cyl. A and B)	46.50*
Distributor	1.90
Carburetor	1.85
Shock Absorber	2.00
Fuel Pump	1.65
Clutch Disc Assembly	2.75
Clutch Pressure Plate	3.80
Brake Shoe (each)	.55

* Includes installation. Slightly higher west of the Rockies.

Ohio Circus Folk On Annual Exodus

CANTON, O.—Annual migration of Canton's winter circus colony is beginning. For years, Canton has been known as the home of more circus folk than any other town of its size in the United States.

For many decades, it has contributed both performers and executives to the outdoor show profession.

The Flying Harolds and Flying Concellos, headline acts with Ringling Bros. and Barnum & Bailey circuses, completed three weeks' training here. Others here for training and wintering, now leaving or recently departed include: Sterling Drukenbrod, sideshow executive, of Hagenbeck-Wallace; Charles Seigrist, "daddy" of the Seigrist troupe of aerialists, now in his 70's; Charlotte Shive, ladder performer; S. F. Trudelle, who will be responsible for 30 head of ponies, dogs, monkeys and bears in a new circus; Howard Peters, owner of freak wild animals; and Buck Maughman.

A WORD TO THE WEARY

Are you sick and discouraged and so weary of it all? . . . Would you like to just relax in a place that has a friendly, restful atmosphere coupled with all the conveniences—an ultra-modern hotel? . . . We have reserved a light, airy, comfortable room especially for you at just the place you've been looking for.

CRAZY WATER HOTEL

Just take a few weeks or even a few days off from the old grind, and see what a completely new person you'll feel like when you leave here.

The mineral baths under courteous, efficient masseurs are refreshing, rebuilding. . . . Drinking all the Crazy Mineral Water you can, at the noted Crazy Bar, or served to you in your room, will give you back your old pep and "go". . . . And the meals! If you haven't had much of an appetite for a long time, the food here, planned and prepared especially to whet lazy appetites, will surely tempt you. . . . What first attracts the attention of our guests is the comfort of the big, beautiful lobby and the drinking pavilion.

CRAZY WATER HOTEL

located in the heart of a beautiful, scenic country, can be reached from all sides by paved highways and by train. You can get all this luxurious comfort for as low as \$20.00 a week. Write for further details.

THE HOME OF CRAZY WATER
Mineral Wells, Texas

AGAIN IN DEMAND... THE WORLD OVER

In the last eight months, more and more requests for BUDWEISER have been received from every civilized country in the world. . . . In the fourteen years that American beers were off the market, the foreign countries still had their own good beer. Yet, after fourteen years, they again single out BUDWEISER among American brews, because it has an unforgettable personality—identified with the fine art of living the world over. . . . The biggest-selling bottled beer in history and the demand for BUDWEISER quality built the world's largest brewery.

For those who make living a fine art

Budweiser
KING OF BOTTLED BEER

ANHEUSER-BUSCH, ST. LOUIS

BEN E. KEITH COMPANY, Distributors, Fort Worth, Texas

The way tobacco is cut has a lot to do with the way Chesterfield burns and tastes

There are many different ways of cutting tobacco.

A long time ago, it used to be cut on what was known as a Pease Cutter, but this darkened the tobacco, and it was not uniform.

The cutters today are the most improved, modern, up-to-the-minute type. They cut uniformly, and cut in long shreds.

The tobacco in Chesterfield is cut right—you can judge for yourself how Chesterfields burn and how they taste.

Everything that science knows is used to make Chesterfield the cigarette that's milder . . . the cigarette that tastes better.

Chesterfield
the cigarette that's MILDER
the cigarette that TASTES BETTER

League Is Urging More Public Works

GENEVA.—The international labor office has issued an appeal to governments to institute construction of public works in order to alleviate the unemployment crisis.

In a resolution recently adopted by its governing body, the text of which has been mailed to all member governments, the labor office stated "The persistence of the unemployment crisis is increasingly affecting the workers throughout the world."

The resolution also appeals "to all governments to institute schemes without delay or to continue without interruption the execution on their own territory, national or colonial, of schemes of public works calculated to give a fresh impetus to economic activity and to reduce the number of unemployed."

At the same time the governing body expressed the hope that the committee created by the London economic and monetary conference to study the question of public works and other means of alleviating unemployment "may be convened as early as possible."

In its communication to the different governments the labor office further stated that it is at the present time preparing for submission to the next session of the international labor conference in June a report on public works which are in progress or are contemplated in the various countries.

22 MILLION FISH "PLANTED"
HELENA, Mont.—Montana streams were planted with more than 22,000,000 fish during 1933. Superintendent of Fisheries Kenneth MacDonald expects 1934 plantings to be even larger.

RADIO CONNECTS SCHOOL
MENOMINEE, Mich.—With five children, all members of the same family, as pupils, Michigan's most isolated school on Isle Royale maintains communication with the mainland by radio. Messages are relayed by members of the Copper Country Amateur Radio league. The winter population of the island consists of four families, a caretaker and the school teacher, Miss Margaret Opal of Laurium.

VANDALIA, O.—Jimmy Robinson, Minneapolis, Minn., a member of the staff of the magazine Field and Stream, has been chosen publicity director for the Amateur Trapshooting Association, with headquarters here.
