

Sunday's The Day -- 1100 Is The Goal

"Get It Done In '71 - March 7 -- 1 of 1100." Sunday marks the day Bovina has set to fill its churches in a move supported by city, school and civic leaders. Plans are to have 1100

residents of the area attend services in the churches of their choice here in a layman-backed effort to focus attention on attendance.

The project began here several weeks ago when Bovina Woman's Study Club

voted to act as a steering committee this year in the second such campaign. The steering committee met with Mayor Charles Flynn, Bovina High Student Council representatives and civic leaders to discuss such a project.

Since that time, organizations have become involved and an all-out effort is underway.

Lapel tags and hat bands bearing the words "Get It Done In '71 1 of 1100" are expected to be worn by

supporters and residents of Bovina.

Posters have been distributed by Student Council members and elementary classes in Bovina Schools. They are on display in various stores around town.

Some outside publicity has also been received since the project began, both in daily and weekly newspapers.

In the first such campaign here, held last year, the goal was set at 1,000 and over

1,100 turned out in area churches that day. The project was considered successful and many people expressed interest in making the event an annual promotion here.

THE NEWSPAPER THAT WORKS FOR A BIGGER, BETTER BOVINA

WEDNESDAY, MARCH 3, 1971

Bovina, Texas

VOL XIV, NO 36

WHITTLIN'

By DOLPH MOTEN

Good news it is that General Telephone Co. plans to build a new building and install a new, highly-modernistic system in Bovina.

There's a story in this week's paper about it.

Plans call for the work to get underway this winter and be complete by next spring.

The system which will be installed here is a completely new, and possibly revolutionary, concept in the telephone business, according to Jerry Kehoe of Littlefield, General's district manager here.

The phone business is one of many we don't know much about, but we're willing to take Jerry's word for it because it sounds like such a great deal for Our Town and This Area, both of which are highly important from where we sit.

And while we don't know much about the phone business, we have heard of \$370,000. That's the amount the building and the equipment are estimated to cost. Broken down, that's \$120,000 for the building and a cool quarter of a million for equipment.

The new system will be installed here, Kehoe tells us, because Bovina was slated for a new one, anyway, and this new type is the kind which is now being installed.

Had the construction come about earlier, as it was once scheduled to, it wouldn't have been this modernistic. Looks from here as if there may really be something to the old theory about "being in the right place at the right time."

Another couple of advantages included in the announcement will be a part of the new set-up and there is "no planned rate increase" in connection with it.

All put together, it certainly sounds good.

There are more details about the project in the aforementioned story.

***** The big news coming out of Austin of late that will affect each and every Texan has to do with increased taxes.

Here are some of the tax increase proposals which we're quoting from Vern Sanford's column, HIGHLIGHTS AND SIDELIGHTS FROM YOUR STATE CAPITAL:

* A raise in the sales tax rate from 3.25 per cent to four per cent (good for \$300 million in additional biennial revenue). * An increase in motor vehicle sales tax from three to four per cent (for another \$70 million).

Also to possibly be considered are these:

* An increase of 50 cents (to \$3.75) per \$1,000 in the corporation franchise tax rate, \$26 million.

* Extension of the sales tax to repairs, laundry, dry cleaning, haircuts and beauty shop services, \$100 million.

* Sales tax on amusements, including professional sports and tourists attractions, \$35 million.

* An increase in hotel room tax from three to four per cent, \$4 million.

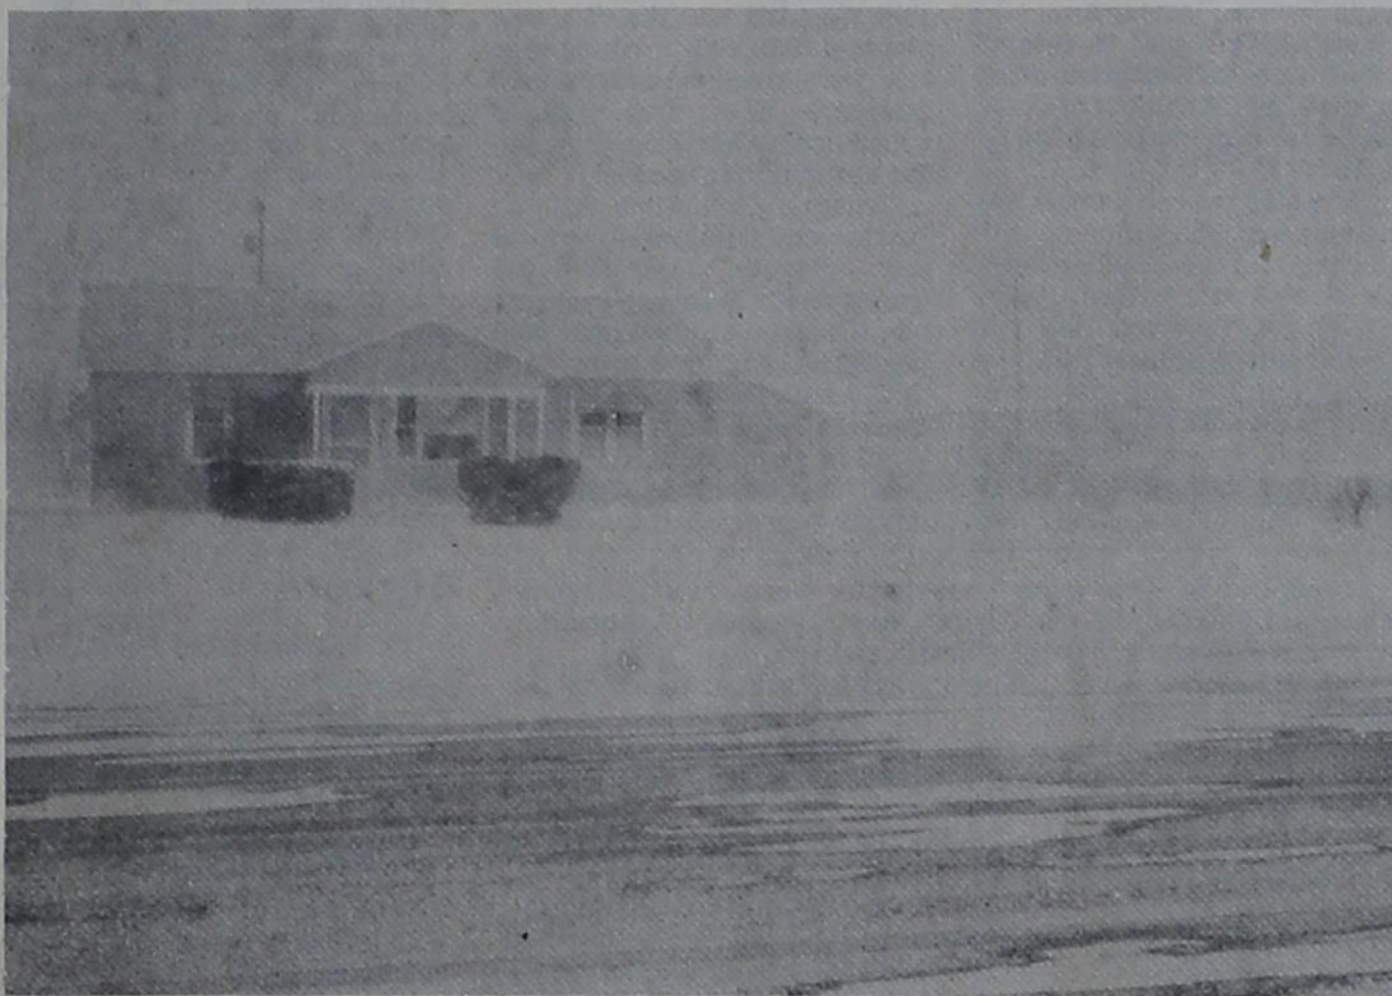

* Sales tax on telephone and telegraph bills, \$40 million.

As we said to start with, most all Texans will be subjected to additional taxes by these increases which are needed to balance a record state budget.

***** Up until the time this was written early this week, there was powerful little interest in forthcoming local elections, city and school.

Deadline for filing in the races is Wednesday, March 3. The school had just the right number of candidates --- three --- to fill the openings on the board

Neves is expected to arrive here at 10 a.m. and will meet with interested veterans at the City Hall, announces Billie Sudderth, Parmer County veterans service officer.

"All veterans are welcome to meet with Neves Friday about any problems they have or about any information they're interested in," Sudderth says.

Brrr! Blizzard Blasts Bovina

A blizzard, the second in as many weeks, struck the area early Tuesday morning. This spell, which included snow, wind and freezing temperatures as considered, in its beginning, to be as severe

was the storm which struck Sunday, February 21.

Classes in Bovina Schools were cancelled Tuesday because of the blizzard and hazardous driving conditions. Roads in the area remained open Tuesday, but driving was discouraged unless necessary. Tuesday's storm lacked

some of the fierceness which the one nine days earlier had. Drifting, straying cattle turned out to be a major problem resulting from the February 21 storm. Winds were less intense here Tuesday, and the temperatures weren't as low and cattle weren't drifting

For Bovina --

General Reveals New Phone System Plans

A new telephone system, including a new building, has been announced for Bovina by General Telephone of the Southwest.

Plans for the new set-up, which will cost an estimated \$370,000, were revealed by

Jerry Kehoe, the company's manager for the Littlefield District, of which Bovina is a part.

The new system will feature an electronic office with a computer as the center, Kehoe says. It will be the only one of its type within "hundreds of miles," the manager explains.

In explaining the unusuality of the system and how modern it will be, Kehoe says, "There is

not a system such as this in Texas now."

In technical terms, the office will be a C-1 E-A-X.

The highly modern facilities are expected to provide better service for the community and direct distance dialing will be a part of the system. Also, Kehoe says, there is a possibility that push button phone dialing will also be made available.

Plans now call for construction to begin in December with the completion date set for April of next year.

Cost of the proposed building will be \$120,000. This includes a complicated air conditioning system which is needed to take

care of the equipment. Estimated cost of the equipment which will be installed in the building is \$250,000.

The new building will be constructed on Third Street on a lot owned by the phone company. The site is between the American Legion Hall and the home of Mr. and Mrs. C. R. Elliott. The brick building will face Third, Kehoe says.

Kehoe points out there is "no planned rate increase" in connection with the modernizing of the system here.

New equipment was scheduled for the Bovina plant earlier this year. However, this was (Continued on Page 2)

Election Interest Lagging

With the deadline for candidates to file or be petitioned today (Wednesday), little interest is being shown in forthcoming elections for school trustees and city council positions.

Three vacancies will occur on the seven-man board of trustees. As of Tuesday morning, only three candidates, the incumbents, were in the running.

The three, Lawrence Jamerson, Leon Ware and Leslie McCain, are farmers and are competing three-year terms.

Also as of Tuesday morning, no candidates had been filed for two positions on the city council. The terms of Vernon Estes and Vernon Willard are expiring.

Elections for both the city and school district is Saturday, April 3.

Open House Here --

School Week In Progress

Patrons of Bovina Independent School District are invited to attend open house Thursday night in observance of Texas Public Schools Week.

Displays will be set up in various classrooms and teachers will be on hand to meet and visit parents and others attending.

Today (Wednesday) parents were given a special invitation to eat in the cafeteria and the invitation has been extended to Thursday also due to bad weather this week, according to L. F. Jacobs, school superintendent.

Jacobs points out, however, that parents are invited to visit school any day this week.

Texas Public Schools Week is sponsored annually by Masonic Lodges of Texas. This year marked the 117th birthday of public schools in this state.

Loud Explosion Here --

Air Base Unit Detonates Bomb

A loud explosion here about 11:30 Thursday night came about through unusual circumstances. The explosion was

loud -- but harmless, according to Ronald Mitchell, city marshal.

Ronnie Patton of Bovina was

working on the plumbing underneath a house belonging to W. F. Bartley, his father-in-law, near West Camp, when he came across the live bomb.

Patton brought it into Bovina and asked Mitchell to examine the bomb. They carried it to a field about three miles southwest of Bovina near Highway 60.

From there, they contacted Army officials in Ft. Sill, Okla., who have jurisdiction of ordinances found in civilian territory. In the interest of time, Ft. Sill contacted Cannon Air Force Base in Clovis and that base dispatched an Air Force explosive ordinance disposal team to the site.

Highway patrol officers and Mitchell blocked off the area after the Air Force unit examined the bomb and decided it was too dangerous to transport the bomb back to the base. It was detonated by the bomb disposal unit without further complications.

Anyone finding an object which they may suspect as an explosive device should contact the sheriff's office or highway patrol as soon as possible, according to Mitchell. And above all, do not handle the device, he stated.

The 60MM mortar shell had been made in 1942, according to Mitchell, and had probably been underneath the house since a short time after World War II.

PROCLAMATION --- Mayor Charles Flynn signs "Support Your Church Day" proclamation in presence of presidents of various civic organizations. Shown from left to right, Mrs. Earl Whitten, president of Woman's Study Club; Neal Mager, president of Chamber of Commerce and Agriculture; Mayor Flynn; Vernon Estes, president of Lions Club; and Edwin Lide, president of Roping Club.

Letters To The Editor

February 17, 1971
Dear Dolph,
Many times when I was a civilian I often read of protesters against the war in Vietnam, of how they rioted and paraded through the streets waving Viet Cong flags and calling the American soldiers murderers and killers.
I myself always wondered how the American soldier here in Vietnam felt after reading and hearing of such trash. Now that I am an American soldier and have spent seven months in the jungles of Vietnam, I can truthfully say that every soldier here is working, not towards the end of destruction and devastation, but in pursuit of the goal of permitting the people of South Vietnam to manage their own affairs, a principle our country has upheld for 200 years. It is an experience none will forget.
The effort in Vietnam has been highly controversial and may not be seen in proper perspective for many decades, when the younger generation of today is the older generation. It has been an effort to preserve, not destroy, and has faced squarely the reality of man in the international environment.
Many a corner of life has been turned by the men who have served in Vietnam. Boys came here, and left men. Some came indecisive and left decision makers. Some found death, God rest them; others found life, God bless them. Worth and sense of values have been proven time and again in the lives of young soldiers. The will to adjust to adverse conditions has been manifested many times over. Each in his own heart knows the depth of his contribution, the extent of his service. To those who have fallen, we owe an unpayable debt.
Those who depart Vietnam have much to remember. Those who remain have much to defend in the cause of freedom.
I once read an article by John Stuart Mills that I think

Whittlin' --

of trustees and the city didn't have any candidates for two positions on the council. These statements could be out of date, of course, by the time they appear in print.
More interest in local politics would probably be healthy?

Collision Vehicles Damages

About \$500 damage was the result of a two-car collision Tuesday afternoon of last week on Third Street in front of Wilson's Super Market.
Alfano Delgado, driver of a 1968 Chevrolet, struck a 1968 Ford pickup driven by Earl (Possum) Richards. Both vehicles were going south on Third Street at the time.
Delgado was issued a ticket by Ronald Mitchell, city marshal.
Richards was taken to Parmer County Community Hospital by private car where it was determined he was suffering from whiplash.

holds and tells a lot of truth, it goes like this:
"War is an ugly thing, but not the ugliest thing. The decayed and degraded state of moral and patriotic feeling, which thinks nothing is worth a war is worse, far worse . . . a man who has nothing which he cares more about than his personal safety is a miserable creature who has no chance of being free, unless made and kept so by exertions of better men than himself."
We know why we are in Vietnam, it's not to murder or be killed, it's to share freedom and to stay free, for we are "Americans."
Sincerely,
Sp/4 Ronnie Wines

Epilepsy -- No Longer "Mystery" Malady

Epilepsy--last of the "hush-hush" physical disorders--has been largely controlled by medical science, but public misunderstanding of the affliction still hurts the epileptic in many ways, according to Charles O'Brien, executive director of the National Epilepsy League.
"So long as there are people who shun and fear the epileptic," said O'Brien, "he will face serious problems--even though the basic medical problem may no longer exist for him."
"For example, it was only a year ago that the last state which had laws forbidding epileptics to marry repealed that archaic legislation. School teachers, policemen, and other public officials have not been taught to recognize epilepsy for what it is--and, as a result, epileptic children have been needlessly placed in classrooms for the mentally retarded--and adults have been jailed, in error, for drunkenness," O'Brien said.
MEDICAL DISCOUNT AVAILABLE
Because such medicines are expensive, the League, a not-for-profit organization to help people with epilepsy, maintains a co-operative pharmaceutical program through which any victim can secure medicine at a substantial discount. All he need do is send his doctor's prescription to the National Epilepsy League, 116 South Michigan Avenue, Chicago, Illinois 60603. The highest ethical and professional standards in pharmacy are maintained. Medicines are mailed promptly in a plain wrapper. No narcotics, liquid medicines, or medicines for anything other than treatment of epilepsy are available.
The United States will spend an estimated \$73.6 billion--about \$1,250 per student--to educate its children this school year, the Office of Education has reported. Back-to-school enrollment is expected to climb to 59.2 million--about 800,000 more than last year.

Lanehart will be at the Security State Bank (Community Room) in Farwell from 9 a.m. until noon and at the City Hall in Friona from 1 until 5 p.m.

For this reason, I have made arrangements for Mr. Lanehart to be in each county in the 18th

MR. AND MRS. KENNY BAILS

Cook's Corner

Mrs. Joe Wilson earned her reputation of being a good cook by making birthday cakes for her many friends in Bovina, according to some of the recipients of her cakes.

Mrs. Wilson, known to most people as Nettie Lea, was born in Canadian and moved to Bovina in 1930 and lived in the house just behind the Masonic Lodge Hall. She says Joe was her "next-block neighbor" and they just kind-of started going around together and eventually married. Joe is a native Parmer County boy, being the second boy born in Parmer County.

Joe and Nettie Lea were married in 1936. They moved out on their farm five miles north of Bovina in 1937 and stayed there 28 years before moving into town. They lived in Mrs. Jerry Ware's apartment while building their present home on Boyce Street.

Joe is engaged in farming and ranching activities, while Nettie Lea holds down the housekeeping chores and works in their business, Wilson and Brock Insurance Agency.

They have a daughter, Nancy Nix, who lives at Hereford and one granddaughter, Tana Jo. Nettie Lea is a member of the 39'ers Club and bowls in two leagues at Clovis with a group of Bovina women.

"Bowling and entertaining my granddaughter is about all I do outside of work anymore," Nettie Lea says. She is eager for summer to arrive so she can start work in her flower garden again.

Mrs. Wilson is sharing four of her favorite recipes with Blade readers this week.

BEWARE OF THE GRUDGE

A grizzly bear lumbered into an open field where garbage had been dumped. A group of tourists nearby noticed that the bear would let only one animal eat with him -- a skunk. No doubt he resented the skunk's brazen impudence. He could have easily won a fight with the little skunk. But why did he not wish to do so? Because he knew the high cost of getting even.

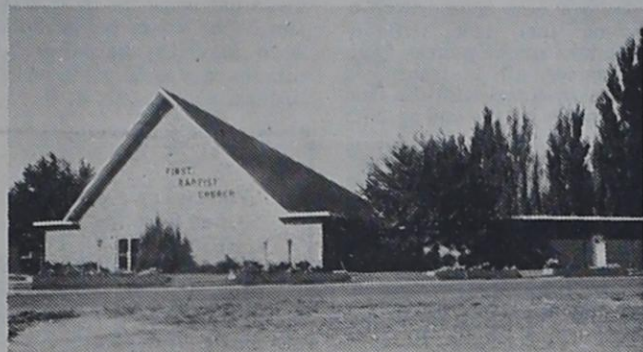

Thousands of humans spend weary days and sleepless nights brooding over resentments and inventing ways to "get even." Many people ridicule Jesus and his advice, "love your enemies." Now psychiatrists are recommending it as a remedy for many of man's ills. When Jesus, the Great Physician, said, "Forgive seventy times seven," he prescribed good medication not only for our souls, but for our bodies too.

Booker T. Washington, who became famous in spite of the prejudice against him and his color, was insulted times without number, but he had the sense to say, "I will not let any man reduce my soul to the level of hatred." The moment we start hating a man we become his slave. No matter where we go, our hate is with us. Not only do we become his slave, but we also put our soul in danger. Paul says, "But now ye also put off all these; anger, rage, malice, slander . . . be clothed therefore as the elect of God, holy, beloved, bowels of mercies, kindness, humbleness of mind, meekness, long-suffering, forbearing one another and forgiving one another, if any man have a quarrel against any: even as Christ forgave you, so do you. At Home In Farmer County

by Janice Miller Fant

Your attitude toward money is likely to influence the attitude of your small child, reminds Mrs. Doris Myers, Extension home management specialist.

Boys and girls develop their attitudes concerning making and receiving money and its use at an early age. Parental values and goals are most often the ones children will adopt. Young people must acquire a philosophy and a pattern of spending from experience, Mrs. Myers says. They need money for necessities as well as for extras. By making choices in the way money is used, children grow in their ability to manage it.

If your child has an allowance or a job that pays some money, he will have the opportunity to learn. Even if you dole money out to your child as he requests it, he should have some freedom in the way it is spent in order to learn to make wise choices.

When a child first begins to handle money, limits should be set on the amount. If he faces situations with not enough money, he will realize when he makes a mistake in judgement.

A child will make many mistakes, Mrs. Myers says, but these are learning experiences. The lessons are necessary early in life to avoid wrong decisions later that could become disasters.

Help your child learn that there are some expenditures he must take, and that he has obligations to himself and others. If you let a child learn through experience, Mrs. Myers suggests, he will grow up to be happy about his money management skills.

This recipe is a favorite of Mrs. Larry Potts of the Rhea Community.

RIPE CUCUMBER PICKLES
8 lbs. cucumbers (large one peeled, seeded and sliced in finger-sized pieces)
Place in stone jar and cover with a solution of 2 cups slacked lime to 2 gal. water. Soak 24 hours. Rinse well (3 times at least). Cover with cold water and soak 3 hours. Drain well and cover with the following solution:

- 2 qts. white vinegar
 - 10 cups sugar
 - 1 tablespoon salt
 - 2 tablespoons mustard seed
 - 1 table spoon celery seed
- Do not heat. Cover pickles and let stand 12 hours. Simmer 40 minutes and can.

A big change is taking place in the home sewing scene. What sewing early homemakers did out of necessity, you the modern H

ern homemaker now does of your own choosing. According to pattern company estimates, almost 44 million homeseamers make 500 million garments a year. These homeseamers spend \$2 billion on fabrics and \$400 million to purchase 2 million new sewing machines annually.

There are many reasons for the home sewing boom. Economy is an important one as the woman who sews at home can save 60 to 70 per cent on most garments she makes.

Although economy is a strong incentive, many of you have other reasons for sewing at home.

Clothing made at home is of better quality. For those family members that are hard to fit, the clothing is more satisfactory. And today's simpler fashions make the sewing job easier, with more individuality possible.

One of the most compelling reasons, however, is psychological. With more leisure time, you may find sewing a satisfying outlet for self-expression and creativity.

LEFTOVERS -- Thin slices of day-old bread spread with softened butter, then sprinkled with Parmesan cheese and toasted until crisp make an excellent accompaniment for soups or salads.

The USDA March Plentiful Foods List features - Citrus fruits and juices and peanuts. Others include - Pork, canned peached, prunes, potatoes, eggs.

If you haven't tried Broiled Grapefruit, you'll be surprised at how the heat mellows the flavor. It's easy to prepare,

LOCATING VEGETABLE GARDEN IS CRITICAL CHOICE
Raising a vegetable garden can save on grocery money as well as supply an abundance of

fresh, crisp and nutritious food. But before planting those vegetable crops this spring, carefully consider the location of your plot.

Too often vegetable gardens are located next to a field of cotton or grain sorghum. And problems arise when that crop is sprayed for insects during late spring and summer. In many cases the garden may be directly sprayed when the cotton and grain sorghum is treated.

Also, insecticides can easily drift onto the vegetables and contaminate them. These vegetables can be consumed safely if the particular insecticide that was used is also labeled for use on the vegetables involved. However, often the consumer may not know when the vegetables were contaminated or what material was used. Certain insecticides labeled for use on cotton or grain sorghum are not labeled for use on vegetables.

So, to avoid the possibility of contaminating garden produce the family garden should be planted as far as possible from field crops which may require insecticidal treatment during the growing season. Especially avoid planting gardens immediately adjacent to grain sorghum or cotton.

Consideration should also be given to the direction of the prevailing wind (south to southwest) when locating a garden near field crops. The garden is much less likely to receive spray drift if it is located upwind from the crop being sprayed.

If you are unable to relocate your garden, keep a close check on it when spraying surrounding fields and keep an accurate record of the date and the insecticide used. If the applicator knows the location of a garden in relation to the field crop being treated, excessive drift onto the garden can usually be prevented.

EVERYBODY IS WEARING DENIM practically everywhere, Miss Thurber says, making it the chief raw material for the "fancy pants revolution."

This is a favorite recipe of Mrs. Herbert (Gertrude) Potts of Farwell.

ENGLISH PEA SALAD
1 can English peas
2 hard-cooked eggs, chopped
2 diced pickles (sour, dill or sweet-your preference)

3 T. onion, chopped
2 T. chopped pimiento
1/2 c. mayonnaise
1/4 t. salt (I prefer Season-All Salt)

Pepper to taste (seasoned pepper adds flavor)
Drain English peas and add other ingredients. Serve on lettuce leaf. Serves six.

too. Just sprinkle each grapefruit half with sugar and a dash of spice -- cinnamon, mace or nutmeg. Then dot with bits of butter or margarine and broil 10 to 15 minutes with the broiler rack set 3 to 4 inches from the heat.

When the grapefruit halves are just slightly browned and heated through, serve them hot. You may also want to try Baking the grapefruit halves for 15 minutes in an oven set at 400 degrees.

Back-to-nature, earthy --- that describes the trend in denim fabrics this spring, according to Miss Joanne Thurber, Extension consumer education specialist in textiles and clothing.

Miss Thurber adds that this trend is making denim perhaps the hottest fabric on the market.

Denim has many substitutes and imitations, along with tremendous varieties of the real thing, she explains. You can choose from textured dobby stripes, argyles, heathers, plaids and solids in stretch and non-stretch fabrics. The rugged yet beautiful denim is available in both all cotton and cotton/polyester blends, and even polyester knit.

Everybody is wearing denim practically everywhere, Miss Thurber says, making it the chief raw material for the "fancy pants revolution."

TEXAS CALF CROP UP -- Calves born on Texas farms and ranches during 1970 totaled 5,378,000 head, up 2 per cent from 1969. The increased calf crop, says the Texas Crop and Livestock Reporting Service, was due primarily to the greater number of cows since the calf crop percentage remained stable, 88 per cent compared to 89 per cent '69. Cows and heifers 2 years and older numbered 6,118,000 head, up 3 per cent.

RURAL HOUSING FUNDS INCREASED -- Secretary of Agriculture Clifford M. Hardin has announced that Farmers Home Administration rural housing program level has been increased to \$1.47 billion for this year. Current mortgage market conditions enabled the

Advanced helicopter designs offer a solution to congested city-center to city-center passenger transportation. Experts estimate that by 1975 just 40 compound helicopters operating in the Northeast Corridor could carry nearly 8,000,000 passengers annually.

The aerospace and air transport industries, working under a voluntary program, have developed a new combustor for burning fuel that virtually eliminates smoke plumes from jet engines. All jet transports will be equipped with the new combustors by the end of 1972.

which is designed to raise agriculture income one billion dollars by 1976. Featured on the program will be discussions of minimum tillage, double cropping, improved cropping practices, cattle crossbreeding and semi-confinement cow-calf operations. This program should be of interest to both the farmer and the livestock producer in this area.

WHAT'S AHEAD FOR GRAIN SORGHUM -- That's what the 7th biennial Grain Sorghum Research and Utilization Conference is all about. It will be held March 2-4 at the KOKO Inn in Lubbock. There is something on the program for every person interested in the grain sorghum industry. It is sponsored by the Grain Sorghum Producers Association and Texas A&M and Texas Tech Universities.

SCREW WORM ALERT --- The first 1971 screw worm case in the southwest has been confirmed. It was found in Hidalgo County on Feb. 8. Stockmen are advised to keep a close check on their livestock and collect samples when worms are found in wounds. Samples should be sent immediately to the Mission Lab for identification. Warmer weather has increased fly activities in areas just south of the Rio Grande River.

Choosing crop chemicals can be confusing. There are any number of look-alike labels . . . similar claims . . . but different results. Let CFS give you a hand. We compare the leading chemicals point by point, and observe them in actual field use. The ones that do the best job are marked "CFS Approved". Then we go a step farther. We test your soil for organic matter, texture and pH, because all of these can affect herbicide performance. The "CFS Approved" chemicals we recommend will give the best control . . . at the lowest cost . . . on your land. CFS is the only retail supplier to balance all these factors in recommending a chemical protection program. Before you buy, be sure to look for the "CFS Approved" seal. Call or stop in today.

Track, Volleyball, Tennis Season Begins This Week

With the completion of basketball season recently, track and field events, tennis and volleyball are now underway in Bovina schools.

Mustang tracksters, some 50 strong, reported for workouts recently under direction of Gib Hough and Corky Criswell. Girls reported for track workouts last week with approximately 20 girls participating. Dalton Morrison and Roy Donaldson will coach girl's track team this year.

In the junior high division, nearly all seventh and eighth grade girls and boys are out under Donaldson, who is also heading up the elementary track program.

Several track meets have already been lined up, but Hough and Morrison report they expect to schedule some dual meets in Bovina with area schools as well.

Mustangs are slated to enter the Idalou track meet Saturday, and Springlake-Earth track meet Saturday, March 13. Also on the slate is a meet in Here-

ford, Friday, March 19. District track meet will be held in Vega Saturday, April 3.

Fillies' first track meet of the season is set for Saturday, March 27, at Panhandle. They will enter the Idalou meet Saturday, April 10, and district

meet will be held Tuesday, April 20, at West Texas State or Vega. Girls' regional track meet will be held at Panhandle Tuesday, April 27.

Annual elementary track day has been set for Friday, April 30, here.

The first meet for junior high tracksters has been set for Thursday, April 8, at Vega. Other meets are expected to be scheduled later.

Mustangs placed third in district track meet last year held at Kress. Freshman team took fourth place in that division behind Kress, Springlake-Earth and Vega.

Four Mustang tracksters went to the regional track meet-Stuart McMeans in the 330 hurdles and 100 yard dash; Randy Barrett, discus; Jackie Hall, shot put; and Gary McCormick, pole vault. McCormick is the only returning letterman on this year's track squad to qualify for regional meet last year. He won second in district in pole vault with 11-0 feet.

Fillies brought home second place in district track meet in Panhandle last year, only two and one-half points behind Happy, the winner. Bovina set two district records. The 880-relay team posted a time of 1:54.2 and Loy Christian went four feet, eight inches in high jump. The 880-yard relay team was composed of Twyla Hutto, Loy Christian, Barbara Griffith and Nena Spicer, all returning lettermen on this year's squad.

Bovina also won second in 440-relay with a time of 53.2, a new school record. Twyla Hutto, Jan Gromowsky, Nena Spicer and Barbara Griffith made up the relay team. Bovina had a total of nine entries in regional competition with Loy Christian in the high jump being the only Filly to qualify for state track meet. She set a new school record of four feet, 10 inches at Abilene in the state meet and placed 10th.

Other Filly tracksters making the trip to the regional track meet were Irene Pearson, third in 100 yard dash; Sherry Haney, second in 880 run; Chrissy Mast, third in dis-

cus; Twyla Hutto, third in high jump; and Barbara Griffith, second in triple jump and third in 60 yard dash.

The Fillies are seeking to return to the state girl's track meet for the fourth consecutive year. Girl's track program began here four years ago.

Twenty-two girls are enrolled in the volleyball program under the direction of Mrs. Janie Sudderth. Varsity volleyballers won third in district last year, with the freshman team placing fourth in that division.

Members of the varsity volleyball team returning are Linda Stanberry, Lea Looney, Yolanda Serna and Christine Garza.

Roger Ezell, tennis coach, reports that he has about 20 girls out for tennis. In last year's district competition, Sandra Bowman took third in district singles, Vici Stallings and Becky Jacobs placed fourth in district doubles and Debbie Sorley and Kim Langer took second in freshman division doubles.

Tony Foster is the only returning tennis player in boy's division who won a district title last year. He and his brother, Carroll, teamed up to win doubles in district competition.

Compete In Solo, Ensemble At Lubbock

Eight members of Bovina Mustang Band competed Saturday in University Interscholastic League solo and ensemble contests at Lubbock and made "a good showing," according to Bryant Harris, band director. Those making the trip to Lubbock were Debbie Mills, David Dixon, Kay Spicer, Jane Russell, Kim Langer, Cindy Morrison, Evanna Johnston, and Anna Barrett.

Mustang Band will go to Hale Center Saturday, March 13, for a pre-contest concert prior to the band contest in Dimmitt March 31.

Working depth of the Mulch Ox is controlled hydraulically with your hydraulic cylinder. The Mulch Ox requires no additional power. Some users of the Mulch Ox even say it takes less power than the Chisel alone.
