ST. PATRICK'S Day signals the end of winter in Ireland. Here? Most consider Easter (April 16, this year) the turn-around date in our part of the world ... To be in Ireland this week is apparently equivalent to our July 4th: even bigger, maybe with all kinds of celebration... Think we'll fly our flag of Ireland for St. Pat's on Friday.

FIVE OF the 10 leading causes of death -- cancer, kidney disease, heart disease, stroke and diabetes -- are related to nutrition, says a major insurance company. Dietetic Association says following help treat, and/or head off these maladies: beans cut cholesterol; buckwheat or oatmeal helps pressure; celery helps high blood blood pressure; cinnamon helps blood sugar levels, cranberries fights bladder infections, fish prevents heart attacks, garlic and onions fight stomach cancer, ginger settles the stomach, broccoli, peppers, citrus fruits and brussel sprouts can protect against cancer...We don't attest, except to suggest that eating good is preferable to taking medicine.

Famous Sports Artist, Vernon Wells, To Be At Ranger College March 20

He will discuss his work, show examples and be guest of honor at a reception in his honor, according to President Joe Mills, who extended an invitation to all throughout this area to enjoy this outstanding, free program of the college.

Vernon Wells was a student at Ranger College from 1973 to 1975. While at Ranger he was an outstanding wide receiver on the Rangers football team, was named first team All American and Most Valuable Player. He had a unique talent

for finding the open spot in an opponent's pass defense and a great pair of hands that caught just about everything that was thrown in his direction. He went on to TCU where he continued to star at that position for the Horned Frogs.

Sunday, March 12, 1995

Although his degree from TCU was in Radio-Television-Film, he had a natural talent for illustration and after working as a commercial artist, a graphics director for a television station, and art director for a publishing company that produced magazines for a number of professional and college programs, he went on his own, doing paintings of professional athletes for the players themselves. By Richard Kurklin John Marlow, an aid to U. S. Senator Phil Gramm who has announced his candidacy for President of the United States, told the crowd at the Cisco Chamber of Commerce Quarterly Breakfast that a new congress was elected the last time with 87 changes in the House and 11 changes in the Senate. And the new congress has a reforming spirit.

Much of the congressional activity has been based the on Republican Party's Contract with America, and has been designed to give working people more of their own money to spend and to return more governmental functions to the local level of control. Congress started the

changes within itself by eliminating some tax funded committees

or carry out the requirements imposed by unfunded governmental mandates. In other words the government, on an average, told every household in America how to spend \$600 of their income. And they were ordered to spend the money for what governmental bureaucrats wanted rather than how they wanted to spend it. A bill has been passed to make it more difficult to pass unfunded mandates in Congress.

GETTING OFF birds briefly, when we recently commented on some of the unintelligible song lyrics popular today, we were asked by one who considers us, well, 'older' how many of the following tunes we remember from 'our'time, and we're injecting that which we do remember: Mairzy Doats, (And Does Eat Oats), Aba DabaHoneymoon (something about a big baboon), Rag Map (our 1st piano recital piece), Chickery Chick (Cha La, Cha La), Too Fat Polka (She's too fat for me), I'm My Own Grandpa (remember, but not how it figured out), The Thing (?), Pistol Packin' Mama, Huggin'and Chalkin' (?), Bell Bottom Trousers, Across the Alley from the Alamo, Mule Train, Feudin' 'n Fightin', I'm a Lonely Little Petunia (in an onion patch), Hey! Ba-Ba-Re-Bop, Three Little Fishies, I Never Saw Maggie Alone and Donin' What Comes Naturally. Now these were songs with real messages. How many do you recall?

County Crop Insurance Eastland County 4-H Deadline Set March 15

A new requirement for 3. 1995 requires all producers to obtain at least the () Catastrophic (CAT) level of crop insurance coverages to be eligible for any . USDA benefits. Crop in-A surance in Eastland County is available for peanuts, cotton, wheat, o oats, grain sorghum, a peaches and container : grown nursery crops. This means that any producer in Eastland County growing these crops must obtain crop insurance by the sales closing date of March 15, 1995.

Some publications are ... erroneously reporting

that the sales closing date has been extended to April 28, 1995. USDA is providing that under certain strict conditions, producers may request a latefiled application until April 28, 1995. The final date for 1995 to obtain crop insurance is March 15, 1995 and producers without extenuating circumstances will not be

American

Eastland County Resources Assoc. Meeting Held

The Eastland County **Resources** Association met Thursday at Eastland Memorial Library. Patricia Hardin, Director, was in charge.

Mrs. Hardin reported that a CPR class will be held at Eastland High School on the week of March 20. Rhonda Pipkin, R.N. and Emergency Medical Technicians from Eastland Memorial Hospital will be instructors.

Students who wish certificates on the course may attend on Thursday night as well as daytimes.

Sponsors of the CPR class will be Advance Home Care, Shonda's Floral, Pizza Inn, Eastland Memorial Hospital and the County Resources Association.

In other reports, the Eastland County Resources Association and Eastland County Crisis Center told of an increase in the number

of calls for assistance this month. The Eastland County

Food Pantry also had an increase in the number of families they have served. Currently the Pantry needs canned meat, canned fruit, macaroni and cheese, rice, crack-

ied. Medicare grew twelve percent last year with most of the increase due to increased paper work, so Medicare spending might be reduced without cutting benefits by cutting paperwork. And an effort to repeal the tax on Social Security benefits was also promised.

We have seen federal taxes rise from one dollar out of every \$50. we earn going to the federal government to one out of every four dollars. And unless changes are made, it will soon be one out of every three dollars. Gramm is saying we should let the people who make the money spend most of it, rather than the government taking and spending so much of it.

The Senate is taking action to limit the President's power to send American soldiers overseas under the command of foreign officers.

America must decide where its priorities are, says Marlow. Our government is so far in debt that the interest payments on that debt are the second biggest federal expenditure behind Social Security benefits. It may hurt to cut some social programs, but we cannot continue to spend more than we have without inviting disaster. Congress will be looking for places where cuts may be made everywhere. And in answer to some questions, Marlow stated that they believed that the value

of the dollar had dropped because of Congress' failure to pass the balanced budget amendment. That the Gramm team is looking forward to Wendi Gramm, Phil Gramm's wife, being in the national spotlight, and that they think she will steal the hearts of the American people. She is a very successful professional lady, and an American of Korean descent. Some media who claim to be champions for minority races have reportedly been treating her ancestry in a negative way. Marlow also aid that control of our schools should be returned to the local level where people have a better feel for what is happening and what is

the Ag From Building we moved to the old Rockwell Lumber Yard on East 5th, where every year before festival we worked long and hard cleaning and painting.

When the Rockwell sold, Cisco Junior College invited us to move the festival up on the hill. We give thanks to Emma Watts, and Dr. Roger Schusteriet for this opportunity. Our first festival there at the college was in 1993 and was a big success. All of the help from the college certainly made Cisco Civic League's pre-festival jobs much easier.

All of the money that Civic League makes goes back to Cisco, and we do appreciate all of the community support.

Here are some of the areas to which we have contributed time and money through the years. CHIROPRACTIC FOR BETTER HEALTH

STEPHEN G. BARRY D.C.

CHIROPRACTOR

MEDICAL RESEARCH SUPPORTS CHIROPRACTIC

The British Medical Journal reports that Chiropractic treatment of low back pain, which affects 75 million Americans, is superior to the standard regimen administered by medical doctors.

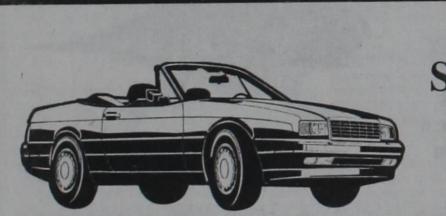

The study, published in the summer of 1990, indicated that chiropractic manipulation can relieve severe back pain quicker and at lower cost than medical treatment! Chiropractic patients experienced less pain and disability and missed fewer days work.

At Barry Chiropractic Clinic we are committed to not only getting

you free of back pain but treating those conditions which cause your pain. No symptom can be more depressing than persistent back pain. Don't delay treatment when help is readily available.

Winter weather did come our way. Ice began to form on the trees, grass and roads on Wednesday and did not completely thaw until late on Friday evening. It was a beautiful sight to see - if you didn't have to get out in it. What little moisture it brought was welcome.

Lee Rudder, a ministerial student at Hardin-Simmons University at Abilene was the guest speaker at the Kokomo Baptist Church on Sunday morning. He is from Colleyville. Sylvia Buchanan of Stephenville was also a visitor. Happy Birthday was sung to Justin Little who was 3 Sunday, March 5 and to Norma Webb, who has just had a birthday and Naoma Morrow who will have a birthday on March 11.

Anna Laura Clearman reminded us that March 5 - 12 is designated as the week of prayer for Home Missions. The theme is Win All. She stated that there are 181,000,000 people in our country without Christ, and we need to pray, witness and give our offerings in an effort to try to win them all to Christ. If we don't know Jesus Christ as our Savior, wouldn't we want someone to tell us how to be saved and have that

ly and becoming a woman, Louisa May Alcott opened the door of the Orchard House for many generations of readers. Through her spirited fictionizing of her own highly individualistic family. Alcott told the saga of

the March family. This was a mother and four daughters in Civil War New England, with the young people in the enchanting years between girlhood and womanhood. About 126 years later

Columbia Pictures has re-opened the doors on this classic. This new film, like the book, relates the dramas and adventures of Mrs. March's four "Little Women" - spirited Jo, beautiful Meg, fragile Beth and romantic Amy.

Bringing this story to life again is the collective effort of a group of women filmmakers and actors. Australian Armstrong directed the film, with Ryder as Jo, Alvarado as Meg. Samantha Mathis as Amy at 16, Kirsten Durst as Amy at 12, Claire Danes as Beth, Mary Wickes as Aunt March and Susan Sarandon as Marmee.

Some notable men are also in the cast: Gabriel Byrne as Professor Bhaer, Christian Bale as Laurie and Eric Stoltz as John Brooke.

The film's story borrows from certain aspects of Alcott's life, including her parent's transcendental beliefs, her mother's practice of homeopathy and the seeds of suffrage, temperance, abolition, and social work.

To prepare the cast for their time travel back to the 1860's, the actresses were given lessons in needlework, knitting, darning and pen and ink calligraphy.

ACCOUNT OF 1798 **REPUBLISHED** (A Release)

Now available for the first time since 1802, Sir Richard Musgrave's Memoirs of the Irish Rebellion of 1798 is the classic loyalist account of the pivitol event in Ireland's most dramatic decade. The book features a text and numerous appendices packed with vivid eyewitness accounts, sworn affidavits and maps, as well as detailed lists of massacre victims and rebel and loyalist participants. A new index of 10,600

references provides immediate access to many of the people and places involved in the struggle.

Genealogists descended from rebel and loyalist exiles, or whose families left later in the aftermath of the famine, will find Musgrave's detailed history of particular interest. If your ancestor or ancestral village is mentioned

in Musgrave, you will be gram is now out, and sure to gain a vivid vigwhat a line-up! There are nette for your family his-

Seniors aren't lacking in brainpower - just in confidence in their mental abilities, a Pennsylvania State University study found. What's important is regular mental exercise: crossword puzzles, reading, and continuing-education courses.

Doctors still can't cure the common cold, but they're finding ways to treat it. Doctors at the Medical University of South Carolina have isolated interleukin-8, which the body makes in response to infection. By short-circuiting IL-8, they hope to stop the cold from starting.

March 22-25, B.A.S.S. it was opened to the public as a swimming pool. When I was a kid we did not have as many fine swimming pools for youngsters to enjoy themselves in, on hot summer afternoons as we have now

Thefirstswimmingpool in Eastland was just behind the present fire station. This pool went back to before the oil boom, I think. It was ahead of my time and I never went swimming in it and the only person of my age group who did was Windell Williams, so he told me recently.

Windell now lives in Arizona where he moved back before the Depression. He says his father used to operate a meat market with Mr. Burgumy in one of the smaller buildings that were just south of the old garage building which was de-Eastland County Team stroyed in favor of the present First Baptist Church. He said it was only a few yards to this pool and he used it several times.

> If one will notice the lay of land at the fire station he will see that the drainage there is to the north and to the east down a little gulley that goes along the back side of the property lines that would be formed by sites on Plummer and Valley. This swimming pool was right between the sites of C.E. Lafon's place and the Reed place where James Reed

the time I was in high school. This was a very popular place for teenagers to spend their hot summer afternoons. It was on the east side of Olden north of Highway 80 and if one knows where to look he can easily see the old rim of this old swimming pool still standing in place. It has not been in use for at least 50

years.

After Lake Eastland filled up and before Lake 🛫 Cisco swimming pool was completed we did not have 3 a beach on the south shore of Lake Eastland. Our family only used it one time. My dad did not think it was much of a swimming pool and beach and my mother even thought it was less than that. Its bathhouse was located on the same site as part of the land used by the Four H Clubs for their annual Livestock Show. But as I have said this was not much of beach nor swimming pool. It did not last long. It might have been in operation just the one season.

Probably the best of the lot when one does not consider Lake Cisco was Bass Lake, just east of Gorman. It was located about a mile or so south of Highway 6 and was serviced by a county road. Many people did not know that such a fine swimming pool was in existance. This was a very nice spring feed stream and it had ample bathhouses to take care of 12 many people. The water

pool went out of operation ... and was surprised that Windell Williams had gone swimming in this place.

In Olden we had a swimming pool that was in the form of a circle. This was a big round pool with the bathhouse on the west side of the pool. I have gone swimming in this pool many times and at

place to go for a swim in this part of the country at least at that time. The Ranger and Eastland pools were not built until sometime afterd the Depression. They Ranger pool opened up about 1930 - give or take a couple of years. I remember going to play in a band concert there about that time. But for the life of me I do not remember when the Eastland pool at the City Park was built. I feel sure it was after I got out

Proclamation

To meet the economic and social challenges of the future, Texas must conserve and nurture our natural resources. Among the most valued of resources in our state are the skills, talents, and abilities of our age-worthy men and women. Older Texans want to stay in the mainstream of our state's economic and social development, they want to be active partners in the labors of tomorrow.

The older workers and older job seekers of our great state must be given the opportunity to share their years of experience, hard work, and dedication. Texas must invest in their talents and resourcefulness and recognize their contributions as productive members in our society.

For thirty years, the Senior Community Service Employment Program, through organizations such as Green Thumb, Inc., has provided senior Texans with training and employment opportunities to maintain their dignity and remain as vital contributors to the welfare of their communities. their state, and their nation.

1927 - Connellee Hotel - 1995

This project involves the historic restoration and total renovation of the old **Connellee Hotel property** in Eastland. Texas. The development will result in the conversion of the property into 42 units of elderly housing in Eastland's downtown core. It will also include significant common area space for tenant activities, seniors programs, and recreational facilities, using the former roof-level ballroom, the first floor lobby area, and other spaces left over from the Connellee's grander days as a premier hotel facility in West Texas. All apartments will have full kitchen facilities. Individual basement storage units for the tenants will be provided. The project will create 28 Home units using the Home formula rents, plus 14 units which will use Section 42 tax credit rents.

In addition to providing affordable housing to elderly residents, the property will be rehabilitated in compliance with the Secretary of the Interior's historic preservation guidelines, for eligibility for the Historic Tax Credit.

The developer for the property is Community **Development** Properties Eastland, Inc. ("CDP Eastland"), a 501(c) (3) corporation and a pending CHDO. CDP Eastland was recently formed to affiliated nonprofit corpowas rescued from the ration, through the use of wrecker's ball in the tax credits, a bank loan, 1970's, when a civicminded local family HOME dollars, and CDBG financing. Since "saved" it at the courthouse steps, with the hope Eastland is a much smaller city (population that the community could 3690), it does not have the one day bring the buildsame level of resources, ing back to life. The City is also providing general administrative assistance to the project, including assistance with gathering information for project feasibility, assisting with data and material for the submission of this HOME application, and general project predevelopment assistance.

The conversion of the Connellee into decent, quality elderly housing requires the complete renovation and reconstruction of an eight story building that is in fair shape on the exterior, but inside is dilapidated, partially gutted, and full of debris.

granted CDP

Costs are on the high side for a combination of reasons. As an old building, it has a significant asbestos problem that has to be remediated. Large amounts of debris (which has asbestos mixed in with it) will have to be carted. Also, the historic features of the building have largely deteriorated, and will be restored. As a vertical building, construction costs are high. As a building located

downtown commercial district, special construction issues arise which impact cost. Many of the contractors will not be available locally, and will have to be recruited from around the region. Also impacting cost are the large amounts of common space in the first floor, and in the old "penthouse" roof garden. These will be renovated for seniors program areas, activity centers, and office/conference spaces for the local senior citizens programs. A large part of the cost is offset by private deferred loans and the availability of historic tax credits and low income housing tax credits. In addition, further cost saving may be achieved as the scope pricing documents are completed and final construction bids are negotiated. It is estimated that the impact of Davis Bacon, which will be used for the project, is a 10% increase

in the overall construction budget. That is based on a 55% labor factor, and a 19.8% labor cost increase with Davis Bacon. The sponsor has also added a

15% contingency, because

this is a particularly difficult and often unpredictable type of renovation. NDC-HEDC has retained the services of Good Fulton & Parrell, a Dallas-based firm providing architectural and construction services. Good Fulton & Parrell has provided assistance to NDC-HEDC in the predevelopment phase of the project, including cost programming and schematic design. The firm will also provide ongoing project management and liaison with NDC-HEDC from their Dallas base. Good Fulton & Parrell extensive experience with commercial and residential renovation and reuse, elderly housing, and with historic renovation construction standards.

The property will serve 100% elderly residents. When completed, the first floor of the hotel (formerly the hotel lobby) will be restored with a serious common area and some street-side commercial space. The cost allocatable to the commerical space has been separated in the project development budget. The "penthouse" level, which includes the

former roof garden, will be restored and renovated as an activity/common room. All residential units will have full kitchen facilities. The basement will include a storage area for individual tenants, general building maintenance space, and general "back of the house" space. The residents of the Connellee will have the

benefit and convenience of the nearby supermarket (1 block), movie theatre (1 block), drug store (same block), county courthouse (across the street), restaurants (within one block), and other services within walking distance of the building. The owner will coordinate with the county and the West Central Texas Council of Governments to extend available senior citizen service programs to the

Connellee. HOME funds needed for the project represent 38% of the total cost of project development. Private equity funds represent 55% of the funding, and deferred and subordinated private sector loans represent 7%.

Housing and **Economic** Development Corporation ("NDC-HEDC"). It has a purchase option for the property. For financing purposes, CDP Eastland will become the managing general partner of a limited partnership, which will be formed for the purpose of syndicating the historic tax credits and low income housing tax credits ("tax credits") for the project.

CDP's sponsor, NDC-HEDC and its parent organization, the National Development Council ("NDC") are national 501 (c) (3) nonprofit organizations that have created hundreds of affordable housing units for low and moderate income persons. They work extensively with units of government and other community non-profit organizations. NDC and its nonprofit financing resources, program experience, financial analysis skills, and access to the public private partnerships that cause affordable housing projects to get built and into successful operations.

In the summer of 1994, The City of Eastland, the Eastland Industrial Foundation and the Eastland Economic Development Committee asked the National Development Council and NDC-HEDC to assist them with the Connellee. For many years, the city was vitally interested in preserving the building, but did not have the answer to what to do with the building, nor the resources to do anything about it. The community had been aware of the progress of the nearby Windsor Hotel in Abilene, which was fully renovated and converted to affordable housing in 1994, by an NDC-
