

Bull Town Bulletins

By
Bill Ellis
THE FOOTBALL seasons just completed by both the Friona Chieftains and Bovina Mustangs have to be described as "forgettable" at best, since both teams suffered through winless seasons.

However, when you compare their seasons to the situation at Houston's Jeff Davis High School, suddenly they didn't seem quite so bad.

The Houston school likewise suffered through a winless season. However, in their case, it was the seventh consecutive 0-10 season, and their 73rd consecutive loss last Thursday set a new national record for losses.

During the current losing streak by the Houston school, the team has been shut out 38 times. Their largest margin of defeat was 77-0 to Houston Yates in 1988, and their closest game to a win has been a 22-18 loss to Houston Milby.

The Houston team last tasted victory when it beat Houston Austin, 7-0 on October 11, 1985. The school last won district in football in 1943.

The Houston I.S.D. has a complicated system, whereby potential players have been able to avoid Jeff Davis High School through transfers out of their district, making it harder for current coach Chuck Arnold to get warm bodies for their program.

So, when the 1993 season rolls around, we'll not only be rooting for a change in fortune for our two favorite Parmer County teams, but we'll be keeping an eye out for scores of the Panthers at Jeff Davis. Can you imagine going through the better part of a decade with just one game that you "almost" won??

THE UIL HAS passed a couple of recent rulings that has us concerned about the sanity of those members who vote on such things.

One is the measure it passed that would allow girls to compete with boys in high school football.

Although some teams may need more "bodies" in their program, we don't think opening high school football up to girls is the answer.

Most people have trouble picturing girls, generally considered to be more fragile than boys, competing on the same field with 240 and 280-pound linebackers. The picture just doesn't make sense.

From this standpoint, it appears that the UIL has jumped in with their decision, saying they "feared legal problems arising from gender discrimination." If there is a great public outcry for girls to play football, we are not aware of it. It certainly has not manifested itself in the Panhandle of Texas.

The State Board of Education is to follow up on this matter sometime this month. We hope they send this matter back to the UIL with an appropriate veto, and ask the UIL, while they're at it, to "get real."

SPEAKING OF DUMB rulings, a new rule now says that a school's band cannot compete for the right to advance to area and state in the marching contests two years in a row.

Friona's band, for example, beat out several class AAA bands and advanced to the regional competition in El Paso last month.

In 1993, it won't matter if Jim Parker comes up with 100 members that look and sound as well on the field as the Texas Tech Red Raider marching band. They won't be eligible to compete in marching. And if you'll notice, Mr. Parker has a good program, year in and year out.

Is that fair?
Then why not extend the rule to athletics? Friona would like to see the likes of Tulia and Littlefield limited to one year in advancing in the playoffs. And Dimmitt in basketball. Not a bad idea. Bovina could have Nazareth, Hart or Sudan put on the shelf, by the same token.

Why pick on the band programs? It's a wonder they didn't eliminate the UIL literary meet while they were at it.

Give us a break folks. Football isn't the only thing going.

City Hires Two New Policemen

The City Council met Monday night, November 9, and decided that two policemen would be hired for the City of Bovina. The city had 26 applicants and had narrowed that down to four men who they thought were the most qualified.

Mayor Keith Knight announced that they have hired two men: Leon Saddler from Seminole and Richard Bonham from Bovina. Leon and his family will be moving to Bovina in about two weeks.

The council has decided after a three-month period, they will then decide which man will be Chief and which one will be the Deputy.

Grisham Winner In Grid Contest

Picking a high-scoring game for the Dallas Cowboys turned out to be the thing to do for Richard Grisham, who was the weekly winner in the Bovina Blade Football Contest.

Grisham was one of seven contestants to correctly pick 11 of the 14 contest games correctly. He claimed the weekly cash prize of \$10 after missing the Dallas-Detroit game score by only 14 points. Grisham picked the Cowboys to win, 42-12, and the score was 37-3.

His misses on the regular contest were Tulia-Littlefield, Tascosa-Palo Duro and Georgia Tech-Baylor.

Second and third placed turned out to be a dead heat between Jessica Stowers and Cheryl Howell, as both missed the tie-breaker score by 21 points.

Jessica picked Dallas 30, Detroit 27, and Cheryl picked the Cowboys to win, 27-14.

Jessica's misses were Friona-Muleshoe, Nazareth-Hart and Georgia Tech-Baylor. Cheryl missed Tulia-Littlefield, Nazareth-Hart and Houston-SMU.

Also picking 11 games but missing out on the winner's circle due to the tie-breaker system were Al Kerby, Jr., Irma Hernandez, Tyson Kerby and Dorothy Stowers.

Nine contestants correctly picked ten games, just one away from a shot at one of the weekly prizes. They were Jason Kerby, Netia Hunter, Carmen Porras, Dennis

Power Outage No Deterrent

Fate almost smiled on the Bovina Mustangs in their season-ending game at Sudan last Friday when a power outage hit the Sudan stadium and left the game in darkness.

But alas--the outage was corrected after over an hour, and the Hornets went on to rack up a 66-7 victory.

Playoff-bound Sudan had a 47-0 lead at the half, and coasted from there. The Hornets' defense shut down Bovina until late in the fourth quarter, when Melecio Marrufo ran 15 yards for Bovina's only score. Brian Stanley kicked the PAT.

Marrufo came up with a fairly decent night, all things considered, with 100 yards rushing.

"Sudan had a very talented

Clean-Up Effort Is Lauded

The week designated as Clean-Up, Fix-Up, Paint-Up has just passed, but there is yet much to be done in Bovina. The Bovina Woman's Study Club, the Bovina Chamber of Commerce and Agriculture and the City of Bovina appreciate all that the citizens have done to make Bovina a better place to live. These organizations ask that each citizen continue to do all he or she can in this effort.

The 4-H boys and girls worked hard Saturday afternoon to clean up some areas that were unsightly. Those working on the project were: Jason Kerby, Tyson Kerby, Josh Kerby, D'Ann Jones, Jimmie Dawn Jones, Montana Jones, Melanie Stanberry, Travis Stanberry, Amber Lide and Dustin Ward. Their sponsors, Susan Kerby and Denise Jones, also worked very hard.

Students in the elementary grades at Bovina Schools cleaned the playgrounds of trash. The fourth and fifth grades made posters that were placed in the city's businesses.

Won't you continue your efforts to beautify Bovina? We have a great town. Let's show people how proud we are of it!

ALEXANDER HONORED....Dr. Robert Alexander was named Physician of the Year by the Texas Academy of Physicians, Panhandle Chapter, at the group's annual banquet held recently in Amarillo. Students Win Awards

Each year students across the country are given the Presidential Physical Fitness Test. This test consists of five tests: the mile run, push-ups, sit and reach, shuttle run, and sit-up test.

These test respectively measure these fitness components: endurance, arm strength, flexibility, agility, and abdominal strength.

Two awards can be obtained from this testing program. One, the Presidential Physical Fitness Award, is earned by those that score on the 85th percentile or above on each test.

This top award is extremely hard to earn says Coach Rundell. The second award, the National Physical Fitness Award, is earned by those scoring on the 50th percentile or above on each test.

LOOKING UP!

BY RICHARD L. GRISHAM
This 1992 football season has been a "hard row to hoe" for the Bovina Mustangs!

Last Friday evening marked the end of a long, rough season for the maroon-jerseyed young men and their coaches.

Although their won-lost record would look better reversed, Coach Stanley and his charges are to be commended for their perseverance and refusal to give up.

These boys never quit, even when down by large margins, and never asked any quarter against some of the best teams in the Lone Star state.

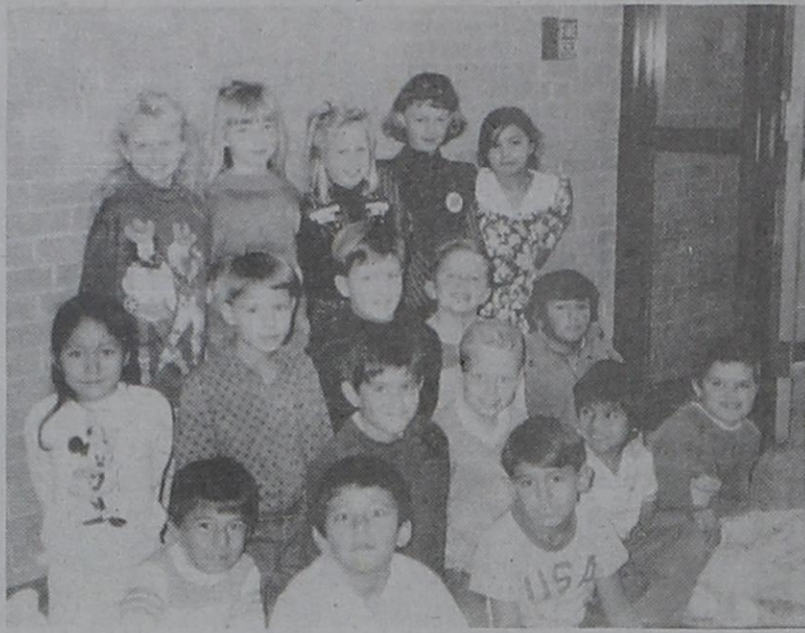

Neither have they sought any sympathy from their fans or made excuses, although they have had more than their share of injuries, ineligibilities, and adversity.

Even when outmanned physically, they have played hard, given their best, and held their heads high. Thankfully, many of them are underclassmen who will have another shot at a better season next year.

To the 1992 Mustangs and their coaches, "Congratulations for sticking out a tough season! And keep looking up!"

NEWS OF THE WEEK
I talked with Coy Walker, our UPS man, and he is getting better every day. He was critically injured in a two-vehicle accident at Friona on August 17 and has had a long hard road of recovery.

Coy has had over two hundred stitches in his head and said now that it is healing it felt like something is tingling beneath the scalp and he can't scratch it. His shoulder and arm are slowly getting better but this has bothered him most of all.

He said the days are rather long but he has a dog that keeps him company and he has learned to cope with being in most of the time.

Screening Clinic Is Scheduled In Friona

The Breast Cancer Screening Program of the Don and Sybil Harrington Cancer Center and High Plains Baptist Hospital of Amarillo will continue community outreach clinics for early detection of breast cancer.

Funding is available through the Texas Department of Health for screening mammography for Texas residents qualifying for financial assistance.

Early detection of breast cancer is the major goal of cancer control for each woman seen in the clinic. The clinic provides low cost screening which includes a breast exam by a Registered Nurse trained in breast cancer detection, teaching of breast self-examination and a mammogram.

Currently, the most effective method known to win the battle against breast cancer is early detection. Early detection is best done by following the guidelines recommended by the American Cancer Society for breast screening for women who have no signs or symptoms of breast cancer.

The guidelines are: (1) Learn and perform breast self-examination; (2) Have a physical examination every year; (3) Have a mammogram according to the recommendations by age. Age 35-40, one baseline mammogram; 40-50, a mammogram every 1-2 years; over 50, yearly mammograms.

A clinic will be held in Friona on Wednesday, December 16, from 10 a.m. to 2:30 p.m. at Parmer County Community Hospital, 1307 Cleveland. Exams are done by appointment only.

For more information, please call

this time.

Nelline Spicer was hospitalized at the West Plains Hospital in Muleshoe on Saturday suffering from pneumonia. She said the doctor said he would keep her for four or five days and will probably be home by the time the paper is out. She is in room 123 and you may want to check on her.

We congratulate John and Margaret Kelley on the birth of their first child, John Spencer, who was born on Halloween Day. At birth he weighed nine pounds and six ounces.

The baby's grandparents are Glen and Kay Kelley of Roswell, New Mexico, former Bovina residents. His great-grandparents are Homer and Drucella Kelley of Pleasant Hill. John and Margaret live in

Lubbock and John is a lawyer there.

Mendy Rhodes was in Bovina visiting with friends and attended church. Mendy is the daughter of Gaylon and Shelby Rhodes of Abilene, former residents. Mendy also visited her grandmother, Maybian Rhodes of Friona. Mendy grew up in Bovina and while here visited several friends, including Freda and Buck Lloyd.

Our sympathies to Jesus Arias, whose brother passed away. He was Rey Arias, Sr. of Friona. Mr. Arias was survived by his wife, two daughters, three sons, and two grandsons. He was 56 years old and died after a brief illness at Northwest Texas Hospital in Amarillo.

Gwen Pryor is still on a walker following a broken leg October 7, but is continually improving. Gwen went out in the yard for her newspaper and when she started back in the house the wind caught the door and threw her into the yard.

She broke the 'knob' bone on her ankle completely off and then the same ankle was broken on the inside. She called her daughter Lavoia Hawkins after she crawled back into the house. They went to the emergency room at Clovis and she was treated and released the same day. Lavoia said her mother would be on the walker for ten weeks, according to the doctor.

Karen Kirkpatrick had surgery this week at the Northwest Texas Hospital in Amarillo to fuse three vertebrae in her neck. She will probably be home by press time and we hope everything goes well. Early Tuesday report was that Karen came through the surgery just fine.

Rita Mast is living back in Bovina and we're happy she finally came back home. She lived in California for several years and then in Friona until recently and is now back in the Mast house on Avenue D.

Ron Procter called to say his dad, James Procter, was getting along fine after undergoing heart surgery a week ago Friday at the VA hospital in Albuquerque.

Joe and LaVerne Black have just returned recently from Beaver, Oklahoma where they visited with Joe's mother, Mary Brooks who is in a rest home.

The Blacks spent time at Booker, Oklahoma with Joe's brothers, Jim Black of Booker, and Tom of Channing, Oklahoma. The Blacks went to Oklahoma a week ago Friday and returned home the following Sunday.

Ex-Friona Resident Writes Computer Program For Perot

From the Hugo (Okla.) Daily News

When Ross Perot announced he was back in the presidential race his supporters were ecstatic. They were high on hopes and had a contagious case of campaign-fever. They were ready to man the phones, paint banners and wave posters. What they were not ready for was an unfriendly computer program..... especially when time was limited and volunteers didn't even have time to change a typewriter ribbon, much less take a crash course in software.

What they needed was a program that was as easy to use as sitting down, pressing the power button, and following a couple of one-finger steps to get into the desired mode. In essence, the Oklahoma headquarters for Perot for President needed a program in the form of a clone of Ross Perot himself. Simple, no-nonsense and ready for business. John Atkisson, treasurer of the Oklahoma State Campaign, found what he needed in MGW Software of Fort Towson, Oklahoma.

Joe Menefee and Rodney Wren, custom software experts and owners of MGW, wrote a program that not only is easy to use, but above expectations in efficiency.

"Rodney had called and said he was interested in Perot," said Atkisson. "We got to talking. At that time I didn't know he was into computers. We were trying to find a user-friendly database and I mentioned that we were having a problem," he continued.

"They had an expensive program and found it was not user

friendly," said Menefee of the Perot campaign team.

"Other people write software that has all the particulars, but we write software that is extremely easy to operate," added Wren.

"When we got together to tell them what we wanted, we had no idea they could actually write us a custom program. We just hoped they could help us out with what we had," said Atkisson, delighted with his discovery.

Because a stream of different volunteers use the computer system each day, Perot headquarters needed something that was uncomplicated and took a minimum of time to enter information. At times a volunteer might be working with little or no supervision. In effect, nobody to come to the rescue when they yell "HELP."

"The other program was real complicated," explained Atkisson, suddenly retracting. "No, that's not the right word. Complicated isn't it." He thought for a moment before hitting on the word he wanted to use. "Too intellectual! We have people who come in here who are not illiterate, I don't mean to imply that. They're smart people. They just are not familiar with a computer."

"We developed a computer program written to their particular specifications," Wren proudly explained of the Perot program. "It lists all of the Zip Codes in the United States. Or, they can go by cities or congressional districts if desired."

"We think it's great!" exclaimed Atkisson. "They gave us

exactly what we asked for. They did an outstanding job!"

It took over 200 hours for Menefee and Wren to write the campaign program. They consider it to be the highlight of their career in programming thus far. They also consider it their contribution as volunteers to the Ross Perot Presidential Campaign.

Two years ago the pair developed a program called Church Business Manager Plus, which they debuted at the Oklahoma State Evangelism Conference in January 1992. They sold 15 of the software programs the first year, and 20 churches in the Oklahoma area are using this program now, Menefee said.

"It was designed for small to medium churches that can't afford to spend \$800 to \$1,000 like larger churches can," he said.

A church in Oklahoma City with a membership of 5,000 had purchased a program for \$10,000 from a large, well-known software company. The operators found it difficult, time consuming and impossible to use independently and on a daily basis. They complained.

The program was custom written for a local minister to store individual member data. It wound up being an invaluable asset to the church office with storage capabilities such as information on choir members, deacons, church positions and talents a member may possess.

"It offers a mini-word processor and spreadsheet like screen that shows a yearly breakdown of each member's contributions," said Wren. "And some areas are password protected for privacy," he emphasized, "meaning only those assigned a password can enter to retrieve confidential information."

MGW has written custom programs for small individually-owned businesses as well as larger corporations such as Weyerhaeuser.

"They have to keep a record of seedlings, classification of trees and their generations," Menefee explained with a glint in his eye.

"We have several expansion ideas and new projects in the works," announced Wren. "We are at the design stage for an MSDS (Material Safety Data Sheet) for a personal computer-Employees Have a Right to Know."

And their friends in Oklahoma and Texas have a right to know that two down-home boys like Menefee and Wren have found their niche in the personal computer software world with their product and personal contact.

JOE MENEFEЕ, left, Friona native, and Rodney Wren, discuss the fine points of one of their custom computer programs. Owners of MGW Software of Fort Towson, Okla., the duo designed software for the recent Perot presidential campaign.

Pecan Recipes

BY CARLA MCKEOWN

Every time my husband, Tony, and I visit my grandparents, Mr. and Mrs. C.W. Vick of Breckenridge, we come home with a bag full of goodies. Granny packs up everything from antique handkerchiefs with edges embroidered by my great-grandmother to cartons of just-laid eggs.

Last week, in addition to the eggs and hot peppers, they gave us a grocery bag full of pecans that Grandpa had gathered from the big

tree in their yard. The pecans will come in handy when I do my holiday baking.

Pecans stay fresher in the freezer; and, the best news for people with many pecans is that the nuts can be frozen in the shell and shelled when needed.

In-shell pecans will stay fresh for four months in the pantry, for nine to 18 months in the refrigerator and for two years or more in the freezer, according to information provided by the Texas

Department of Agriculture. Shelled pecans have a slightly shorter shelf life: three months in the pantry, six months in the refrigerator and two years in the freezer.

For freezing, pack pecans in a sealable freezer bag or in glass jars with tight-fitting lids. Pecans tend to absorb odors, so store away from onions, apples, oranges or other strong smelling items. Frozen pecans do not need to be thawed before they are used in a recipe.

Pecans are a good source of protein and fiber. A one-ounce serving of pecans includes 195 calories, 2.6 grams of protein, 20.2 grams of fat, 4.1 grams of carbohydrate, 21 milligrams of calcium, 82 milligrams of phosphorus, 171 milligrams of potassium and a trace of sodium.

When baking keep in mind that a pound of in-shell pecans yields about 2 1/4 cups of pecan nutmeats and about four ounces of shelled pecans equal one cup.

Try the following pecan recipes this fall.

DIANA'S PECAN PIE

- 3/4 cup sugar
- 3/4 cup corn syrup
- 1 teaspoon vanilla
- 3 tablespoons margarine, melted
- 3 eggs, slightly beaten
- 1 cup broken pecans or enough pecan halves to cover the bottom of the pastry shell

1 9-inch pastry shell, unbaked
Line the pastry shell with the pecans. Add sugar, corn syrup, margarine and vanilla to the slightly beaten eggs. Mix well. Pour mixture into the pecan-lined pastry shell. Bake at 350 degrees for 50 minutes or until brown. Cool and serve as is or with ice cream or whipped cream.

PECAN CHEESE CRISPS

- 1/2 cup butter
- 8 ounces grated cheddar cheese
- 1 tablespoon worcestershire sauce
- 1 1/4 cup flour
- 1/2 teaspoon salt
- 1/8 teaspoon red pepper (cayenne)

1/8 teaspoon hot pepper sauce
1 cup finely chopped pecans
Cream butter and cheese. Add remaining ingredients to cheese mixture and mix well. Chill the dough until firm enough to form into rolls 1-inch thick. Place rolls in the freezer until well frozen. (Note: these may be frozen for several weeks.) Defrost the frozen rolls and slice into thin rounds. Place the rounds on an ungreased cookie sheet and bake for 10 minutes at 350 degrees. Makes 4 to 5 dozen crisps.

PECAN PRALINES

- 1 cup sugar
- 1 cup firmly packed brown sugar
- 1 cup buttermilk
- 1 teaspoon baking soda
- 1/4 teaspoon salt
- 1 tablespoon margarine
- 2 cups chopped pecans
- 1 teaspoon vanilla

Combine the sugars, buttermilk, baking soda, salt and margarine in a 2-quart glass mixing bowl. Microwave the mixture, uncovered, on high for 7 minutes, stirring twice. Stir in the pecans. Microwave the mixture again on high for 11 to 12 minutes or until the candy reaches the soft-ball stage, stirring every 4 minutes. Stir in the vanilla. Stir until the mixture begins to thicken. Drop by teaspoonfuls onto waxed paper. Cool until set.

- SPICY PECANS
- 3 tablespoons butter or margarine
- 2 cups pecan halves

Local Couple Nominated For WT Honor

The highlight of the 15th Annual Parents Day at West Texas State University was the presentation of Parents of the Year. The 1992 Parents of the Year were announced Saturday, October 17 at the WTSU football game.

The honor, awarded annually since 1978, went to Wendell and Susan Brown of Happy. The two were nominated by daughter, Kara, a junior elementary education major and resident assistant at Hudspeth Hall.

Francisco and Evangelina Renteria of Bovina were nominees for the honor. They were nominated by son, Hugo, a freshman chemistry major.

- 3 tablespoons worcestershire sauce
- 1/2 teaspoon salt
- 1/2 teaspoon cinnamon
- 1/4 teaspoon garlic powder
- 2 to 3 dashes hot pepper sauce

Melt butter in a 13-inch-by-9-inch baking dish in a 300-degree oven. Add the pecans and stir until they are coated with butter. Bake for 15 minutes. Mix the remaining ingredients and pour over the pecans; stir gently until the pecans are well coated. Return to the oven and bake an additional 20 to 30 minutes or until the pecans are crisp. Makes 2 cups.

It's Windbreak Tree Time Again

Living in the Texas Panhandle, everyone knows the wind never stops blowing. That's why there are many values to having a properly planned windbreak. An effective windbreak may provide protection from the hot, dry winds of summer to the icy winds of snow and winter.

A windbreak may reduce wind speed to one-third its normal velocity, thus saving up to 30 percent on home heating and cooling costs. Not only will the fuel bill be less costly, a windbreak will also be helpful in preventing wind damage by protecting homes, gardens, and even lawns, as well as livestock.

A windbreak is an excellent method of protecting livestock from the icy blasts of winter winds and snow.

Location and arrangement are important considerations in planning an effective windbreak. A windbreak is most effective when placed in a shape of an "L", "U", or "E" around that which is to be protected. By planting a windbreak,

this will also furnish a nesting place for numerous types of birds as well as other wildlife.

In short, an effective windbreak is an inexpensive way to not only beautify a home, but also to reduce home heating costs by providing protection.

The Parmer County Soil and Water Conservation District can assist you in planning and designing your windbreak. This free technical assistance provides you with a design and cost estimate. To keep your windbreak growing healthy, full and beautiful, a trickle watering system is easily installed and can be used for flower beds and gardens, as well as windbreaks.

Windbreak trees and trickle systems can be ordered through the Parmer County S.W.C.D. All services are offered regardless of sex, race, creed, color, national origin or handicap.

For more information, call (806) 247-2220 or come by 1306 West Ninth Street in Friona.

Deadline for ordering trees is March 1, 1993.

ACTIVATING A BATTLE

BEFORE ENTERING BATTLE THE ISRAELITES GENERALLY HAD A NUMBER OF PREPARATIONS TO BE COMPLETED. SPIES HAD TO BE SENT INTO ENEMY TERRITORY TO SEEK OUT THEIR WEAKNESS. THE SOLDIERS WHO WOULD BE LIABLE FOR DUTY HAD TO BE CHOSEN FROM THE ONES WHO WERE EXEMPT FROM THIS PARTICULAR BATTLE SUCH AS, THOSE WHO WERE FAINTHEARTED, THOSE WHO HAD BUILT A NEW HOUSE AND HAD NOT LIVED IN IT YET, PLANTED A VINEYARD BUT HAD NOT HARVESTED IT, BETROTHED A WIFE BUT NOT MARRIED HER. (DEUT. 20:2-9, II CHRON. 20:23, 27, 28), INVOKING THE DEITY'S HELP BY PRAYER AND SOMETIMES BY SACRIFICE. THEN AND ONLY THEN.....

...A SUDDEN COMMAND IS SHOUTED—AND THE TROOPS RUSH FORWARD.

THE BATTLE IS JOINED, AS FOE MEETS FOE, AND THE AIR BECOMES THICK WITH WAR CRIES, THE CLANG OF SWORD UPON SHIELD, AND THE SCREAMS OF THE WOUNDED....
