

Bull Town Bulletins

By
Bill Ellis

THE DISASTER PROGRAM, announced last Thursday by the Reagan Administration and Secretary of Agriculture John Block, may turn out to be the salvation of hundreds of High Plains farmers in 1982.

Of course, the program can never take the place of a growing and harvested crop, because all of the service industries, workers, truckers, etc., are denied the revenue they might otherwise have had.

But it was heart-warming to see the administration step in and make an attempt to help our farmers during their time of need. As one Lamb County farmer was quoted as saying "We may have cried 'wolf' at times in the past, but this time we were serious."

The farmers should appreciate the work of virtually all of their elected officials in getting the disaster program approved. This includes our "West Texas" delegation in Washington, led by Kent Hance and also including Jack Hightower and Charles Stenholm.

Governor Bill Clements also used his political power to get the program established, as did Senator John Tower. Even Sen. Lloyd Bentsen spoke in favor of the program, which proves that the age of miracles has not passed.

Congressman Hance lauded the program, and credited its creation by the ability of everyone concerned working together to see it materialize.

As it has been stated by Hance and others, now, while the nation's farmers have the attention of their elected officials, would be an excellent time to pass a new farm bill, to hopefully include provisions which would help the prices on farm commodities.

Even with the disaster payments, most farmers are facing the prospects of a second consecutive "losing" year, and unless something can be done to improve the prices they receive for their crops, then the future of the small to medium-sized farm operator may still be in jeopardy.

Getting the necessary farm legislation passed may be a hard fight with a small stick, because as Congressman Kent Hance pointed out at his last Town Hall meeting, the problem in passing legislation dealing with agriculture is that you can't always get even the various sectors of agriculture to agree on what's best for them, plus the fact that less than one-fifth of the legislators have any type of farming in their home districts.

ON THE LIGHTER side, those of us with small children, grandchildren, and even an abundance of people who don't have either of these categories but just want to see a good movie for a change, have been praising the hit movie of the summer, "E.T."

The movie has been showing in Clovis, N.M., recently, and almost everyone has had the opportunity of seeing the movie.

It is refreshing to have proof that the motion picture industry can still produce a quality movie, without sex, violence, blood or strong language, that causes such an appeal to moviegoers as to produce lines at the movie theatre.

It's a credit to the producer, Steven Spielberg, to have the "guts" to produce such a movie. It should be an award-winner, but even if it's not, the movie should be making Spielberg and his studio a bundle of money this summer.

Fire Call Monday

Last Monday, July 19, Gaylen Carson was cutting wheat for Gary Gober about three miles south of Bovina when his combine caught fire. Bovina's fire department was notified and the blaze was quickly put out.

James Ritchie, local fire chief, said damages to the combine were repairable. No one was injured in the incident.

BABE RUTH TEAM... Bovina's entry in Friona's Babe Ruth league are shown above: back row, left to right, Johnny Villarreal, Jose Salinas, Joe

Luis Salazar, Jessie Lambreau, Andrew Ortiz, Roy Lambreau and Coach Edward Terry. Front: Juan Gonzales, Bernard Koelzer, Michael Shepherd,

Valente Bazaldua, Shorty Guevara. Not present for photo were Keven Smith and Jose Gomez.

Court Okays Grant To Senior Citizens

Following a lengthy discussion, the County Commissioners Court, acting on a request by the Bovina Senior Citizens group, agreed to pay the group \$1,200 out of this year's revenue sharing check, which the organization plans to use to help pay utility costs for its senior citizens' center.

The remainder of the General Revenue Sharing Funds are to be divided equally among the four precincts in the county, for maintenance of county roads.

Also meeting with the court were Don Spring and Dick Richards, discussing the equipment needed by Bovina Ambulance Service after Spring completes his paramedic training course, which will be in December.

The court indicated it would try to help, but asked Spring and Richards to check other sources for aid in the interim.

The county's quarterly report was approved unanimously, with the provision that it be published in the three newspapers within Parmer County.

Approval was granted Friona State Bank, which had asked permission to substitute securities pledged against county funds. The request was to substitute a later U.S. Treasury note for one maturing in August. The request was approved.

Motion was passed to advertise for bids on a new tractor and backhoe for precinct 3, with a used 480B Case tractor and backhoe to be taken in as trade. Bids will be opened at the court's meeting July 26.

Also, County Judge Porter Roberts was given approval to seek bids on a good used truck-tractor for use by Precinct 1, with no trade-in. These bids also are due July 26 (see bid specifications elsewhere in this issue).

County Agent Seth Ralston reported that 12 county 4-H Club members took part in a horse show in Lubbock, with one member

Meeting Set On Farm Aid

A meeting has been scheduled for Tuesday, July 27 at the Bailey County Civic Center in Muleshoe, beginning at 2:30 p.m., to help explain the disaster program.

Officials from the National Cotton Council, the USDA in Washington, FmHA, etc. will be on hand to speak and answer questions. All area farmers are urged to attend the meeting.

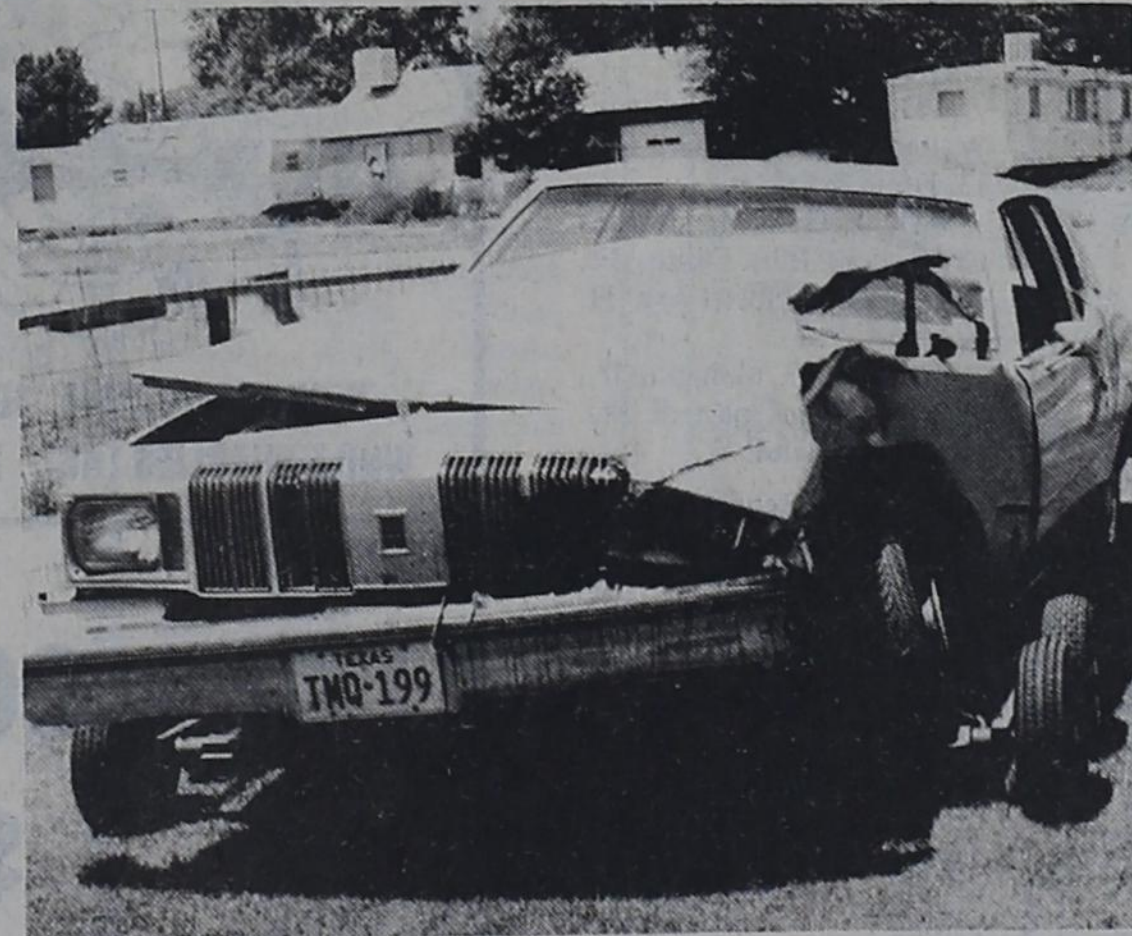

qualifying for the state show. Also, seven members took part in a trap shoot, placing third.

Extension Agent Laura Jacobs reported on the fashion revue held in Farwell. Four county girls were to attend the District Revue July 14. Miss Jacobs is to attend a camp at Cloudcroft, N.M., July 19, sponsored by Southwestern Public Service Co.

Representative Sets Visit In Farwell July 21

State Comptroller Bob Bullock has announced that Raymond Bogus from his Lubbock field office will be at the Parmer County Courthouse in Farwell on Wednesday, July 21 from 2 to 3:30 p.m.

A comptroller's representative is available to assist local residents at the Courthouse the third Wednesday of each month.

WRECK VICTIM... This is the 1979 Oldsmobile driven by Betty Veronikas of Amarillo, which was in collision with a car driven by Baldomero Garcia Sunday evening at the Highway 86-Third Street inter-

section. Both vehicles were extensively damaged, although occupants escaped with minor injuries.

Store Has New Line Of Feeds

Parmer Liquid Fertilizer (Larry Manuel) announced this week that Norbert Schueler, owner of Rhea Feed & Grocery, has moved his Purina feeds to the Parmer Liquid Fertilizer location on East Highway 60 in Bovina.

Schueler will be handling all types of Purina Feeds, including horse feed, hog feed, poultry feed, dog and cat chow in large quantities, as well as other pet foods and liquid supplements.

"I am looking forward to serving more people, from the Bovina-Friona area, from my new location, and invite everyone to come in and look around," Schueler said.

GARCIA VEHICLE... This is the 1972 Chevrolet driven by Baldomero Garcia of Bovina, which collided with a car driven by an Amarillo woman, Betty

Farmers Eligible For Hail Relief

Area farmers, who had their crops wiped out by devastating hail, were made eligible for a portion of a \$400 million disaster relief package which was implemented by Secretary of Agriculture John Block, who announced the program Thursday.

The plan includes four parts: *Disaster assistance through grants; *Inclusion of federal crop insurance policy owners in both the disaster program and the FCIC claims; *Emergency disaster loans through the Farmers Home Administration; and *Emergency conservation funds to meet erosion problems.

The special disaster payments will include:

*Cotton, 20.5 cents per pound for crop losses in excess of 25 per cent of the crop;

*Wheat, \$1.75 per bushel for wheat losses in excess of 40 per cent of the crop.

*Feed grains, 15 cents per bushel for corn; 18 cents per bushel for grain sorghum and 15 cents per bushel for barley for any losses in excess of 40 per cent of these three crops.

Farm leaders applauded the announcement, feeling it may save some farmers from going bankrupt.

Congressman Kent Hance, who worked feverishly on the program, said it was accomplished "Because everyone who was affected worked together. He praised the disaster plan, but said only the short-term problem has been addressed. We need to write a new farm bill to do something about inadequate commodity prices," Hance said from Washington.

Claims for the disaster program will be handled through the county ASCS office, Prentice Mills, county executive director of the ASCS, says that the program should work the same as the "one we had in 1981 and a few years before that."

"You must file your claim for disaster program benefits before you destroy evidence of the affected crop. The ASCS people need to have the chance to inspect the acreage before it is put to other use. Also, you need to report the acreage of the crop affected and what use will subsequently be made of the land," Mills said.

Mills added that "You are not any place unless you file your acreage report on time. Your farm's program eligibility depends upon you filing an accurate and timely acreage report.

The final date for filing is August 2, 1982, unless a farmer has applied for measurement service, in which case they will have five working days to certify their correct acreage.

Those who have had hailed-out crops and re-planted to other crops need to inform the ASCS office as to what their follow-up crop is.

As to when to expect payments, the ASCS spokesman said that they would be made at the earliest possible date, but that they could not be made until all of the county's acreage determination has been made.

Since the announcement of the relief program, corn and grain sorghum producers have protested the disparity of the relief formula between cotton and feed grains.

"We are screaming discrimination," said Carl King of Dimmitt, president of the Texas Corn Growers Association. "We are proud for the cotton farmer. We just want a fair shake for the corn and grain sorghum producers."

The corn association, and Grain Sorghum Producers Assn., headquartered in Abernathy, have launched a letter-writing and phone-calling campaign to urge reconsideration of the matter.

In a letter to Block, the corn organization said "Due to an apparent error, we request reconsideration of the corn disaster level to make it equitable to cotton."

It was pointed out that the formula proposed to figure losses on grain crops, based on last year's yields, would have paid \$1.35 per bushel for corn, \$1.30 per bushel for grain sorghum and barley.

The following counties are included in the contiguous area designated by Block:

Texas: Andrews, Archer, Armstrong, Bailey, Baylor, Borden, Briscoe, Carson, Castro, Childress, Cochran, Collingsworth, Cottle, Crosby, Dallam, Dawson, Deaf Smith, Dickens, Donley, Fisher, Floyd, Foard, Gaines, Garza, Gray, Hale, Hall, Hansford, Hardeman, Hartley, Haskell, Hemphill, Hockley, Howard, Hutchinson, Jones, Kent, King, Knox, Lamb, Lipscomb, Lubbock, Lynn, Martin, Mitchell, Moore, Motley, Nolan, Ochiltree, Oldham, Parmer, Potter, Randall, Roberts, Scurry, Shackelford, Sherman, Stephens, Stonewall, Swisher, Taylor, Terry, Throckmorton, Wheeler, Wichita, Wilbarger, Yoakum and Young.

Three Escape Serious Injuries In Wreck

Three persons escaped injury in a two-vehicle wreck Sunday at the intersection of U.S. Highway 86 and Third Street.

City Marshal Ron Avirett,

investigating officer, said that Baldomero Garcia, 26, drove his 1972 vehicle through the stop sign at the end of Third Street, and hit a vehicle driven by Betty Veronikas, 42, of Amarillo.

Mrs. Veronikas, driving a 1979 Oldsmobile, was headed east, and was in the process of turning. Garcia was also attempting to turn left.

Both vehicles were extensively damaged by the impact. In fact, Mrs. Veronikas, her husband Phillip, who was a passenger in her vehicle, and Garcia were taken to Parmer County Community Hospital in Friona where they were treated for lacerations and minor injuries and then released.

Garcia was charged with driving while intoxicated, no driver's license, no insurance and running a stop sign. He is being held in Parmer County Jail in Farwell. Avirett said that Garcia has been visiting in Bovina, and gave Albany, Oregon, as his home address. He reportedly was wanted on a felony theft charge in Oregon.

Mr. and Mrs. Veronikas were said enroute back to Amarillo after having attended a family reunion on Sunday. The accident happened at about 8 p.m. that evening.

Both vehicles sustained extensive damage. Avirett said both were probably total wrecks from the near head-on collision.

Veronikas, this past Sunday. Garcia was cited for DWI, no driver's license, no insurance and running a stop sign.

REFLECTIONS From The Blade

25 YEARS AGO—JULY 17, 1957

Bob Kelly, Bovina's contribution to professional football, and son of Mr. and Mrs. Odis White, left Bovina Monday with his wife and son. He will report to the Philadelphia Eagles July 29 to begin training for the coming football campaign.

A hunch paid off for Sheriff Chas. Lovelace Saturday morning which led to the arrest of two young men, Edward Ortiz and Napoleon Lopez of Clovis, for theft of a gasoline motor and other items from the H.W. Hardage place in Oklahoma Lane.

Bedford Caldwell and J.T. Hammonds left today (Wednesday) for Purdue University, Lafayette, Ind., to attend the Second National Conference of Methodist Men. Going with the two Bovina men was Clarence Christian, Oklahoma Lane.

General Telephone Company of the Southwest has moved its equipment in Bovina into a new building across the alley from the one which was used in the past.

Bovina's water supply was almost seriously short Monday and Tuesday. The shortage came about as a result of an electric motor burning out on one of the city's two wells.

20 YEARS AGO—JULY 18, 1962

Wendell Garner, Bovina farmer who was seriously burned in a wheat stubble fire three weeks ago, was transferred to a Galveston hospital Monday.

Friends and neighbors plowed some 300 acres of Garner's wheat land at a workday Thursday.

Friday, the thirteenth, proved to be as unlucky as its reputation from a car accident standpoint in Bovina. There were two auto accidents here that day. And as perhaps a warning as to what was to come, there was one collision Thursday afternoon.

Fire did an estimated damage of \$6,000 to \$7,000 to the home of Mr. and Mrs. Warren Queen Monday morning. The Queens were gone from home when the fire broke out and more damage was done than probably would have been had it been discovered sooner.

A special week to alert rural residents to the hazards of farm life has been set by the President and the Governor, and an intensive campaign

is being conducted in Texas to call public attention to this serious problem.

15 YEARS AGO—JULY 19, 1967

The community's drive to raise \$50,000 for construction of a medical clinic is continuing at a non-spectacular rate, unofficial reports indicate.

This is a wet country. That statement was made more true with more rainfall last week and this. Wednesday night of last week saw rainfall in Bovina of .85 of an inch. Before that had soaked in, .80 fell Sunday night and Monday morning.

August 1 is the deadline for men of the area to purchase a Bull Town Days shaving permit, having a satisfactory growth of whiskers or suffer the consequences.

Otis Spears, superintendent of Bovina Schools, is hospitalized in Lubbock. He underwent surgery there and is expected to remain in the hospital for about a week.

10 YEARS AGO—JULY 19, 1972

Lloyd Halbrooks, who was named to the Bovina High School coaching staff early last week, submitted his resignation to the board of trustees the latter part of the week.

"Encounter '72" is slated for the week of July 23-30 at Friona's Chieftain Field. Involving six Bovina and Friona churches, the project is one of the most ambitious area-wide evangelistic endeavors ever undertaken in Parmer County.

Andy Garza began duties as water and sewer superintendent this week, replacing Darrel Read, who resigned to accept a similar position at Dumas.

5 YEARS AGO—JULY 20, 1977

The recent housing survey in Bovina, demonstrating a definite need for additional, adequate housing facilities in the city, ties in neatly with a projected increase in the number of new employees to be hired at MBPXL when the additional floor space, now under construction, at the plant, is completed.

Big Nick's Machinery downed five straight opponents this past weekend to take first place in the Mixed Slow Pitch Softball tournament at Tucumcari, N.M.

MASONIC OFFICERS....New officers for Farwell Lodge No. 977 AF&AM in Bovina were installed at a public ceremony Tuesday evening, July 13, in the Lodge room. Officers for the ensuing Masonic year were, left to right, front row: Wendol Christian, Installing Officer; Allen Forbis, Worshipful Master; John Getz, Senior Warden; Prentice Mills, Junior Warden; back row: I.W. Quickel, Secretary; Leslie McCain, Chaplain; Hubert Ellison, Senior Deacon; and R.T. Langston, Junior Deacon. Not present are Harry J. Charles, Treasurer; Pat Kunselman and Reagan Looney, Stewards; and O.B. Johnston, Tiler.

Ringling Bros. Opens July 27 In Lubbock

The dazzling new 111th Edition of Ringling Bros. and Barnum & Bailey Circus featuring over a dozen new acts and five production spectacles will be in Lubbock, July 27 and 28 for four performances only at the Lubbock Municipal Coliseum. The traditional animal walk down Broadway is scheduled for 10 a.m. Tuesday, July 27 following the unloading of the menagerie from the silver 42-car train at the Santa Fe Depot. Performances are scheduled for 2:30 p.m. and 7:30 p.m. on Tuesday and Wednesday.

Produced by Irvin and Kenneth Feld, *The Greatest Show On Earth*, this year is resplendent with three million dollars in costumes and special effects. Internationally renowned animal trainer, Gunter Gebel Williams, headlines each performance with his mastery over tigers, horses and elephants. This season he has added a 12 foot tall

baby giraffe to his training repertoire.

Other headliners include Colombia's wire-walking Carrillo Brothers, the Flying Farfans, the Flying Vazquez and Dolly Jacobs, daughter of Lou Jacobs, one of the world's most outstanding clowns.

Other productions include the Globe of Death, motorcycle riders on a collision course inside a metal-mesh globe, an uncaged bear act, dog and chimp acts. Spectacles include a street parade with 42 children of the audience participating, a Gilbert and Sullivan Aerial ballet and a jungle theme elephant production. Showgirls and clowns top off the performance.

Tickets are on sale at Municipal Coliseum Box Office and Flipside Records (Central Plaza) or can be had by calling (806) 762-4616. All seats \$6, \$7 and \$8 reserved.

Blood Centers Need Donors

Several years ago a member of our community was very ill. He needed a number of blood transfusions. In order to replace the blood given to him, the Baptist Church held a blood drive. Many, many Bovina citizens turned out. Because it was someone they knew, they met the need.

Not knowing who will receive the blood we give shouldn't make a difference. Blood is needed by people in our area every day. In the past year Bob Owen, Reagan Looney and Grady Sorley have all had open heart surgery, requiring the transfusion of somebody's blood...somebody who didn't know them.

People in our area have been involved in serious accidents away from home and were given blood, by someone they didn't know. It takes at least six hours to process blood after it is given, so waiting to show up after the need arises just won't do the job. It's like looking for a job to earn money after we become hungry.

Next Sunday afternoon you will be given an opportunity to donate blood. When we read in the paper of the need for blood in Lubbock or Amarillo, often we think we'd give if it weren't so far away. This time, it's not so far away. You may come to the Fellowship Hall of First Methodist Church any time between 12:00 noon and 3 p.m. and give a pint.

There are a few people who are not eligible to give blood. They include those under 17 and over 65; those who weigh less than 110 pounds; those who have given in the past eight weeks; those who have ever had hepatitis; those who have had cancer within the past ten years; those with active diseases of the heart, lungs, kidney, liver, or stomach; those with diabetes requiring insulin; and those addicted to drugs.

In addition, those who have flu, colds or have had dental surgery in the past three days, tattoos in the past six months, major surgery or blood transfusion in the past six months, pregnancy in the past six weeks; those who have received a vaccination in the past 24 hours, and those who have been in close contact with a person who has had hepatitis in the past six months or have lived in a malaria area in the past six months cannot

give.

These things prevent your giving blood this time, but perhaps you can give six months from now. There are some other things that might prevent your giving blood, and there might be exceptions to these listed. The personnel who will come to take blood will know the answers to these and any other questions you may have.

"So when church is over and the minister has talked about love, why not show your love for your fellowman? Come by and give a pint of blood. I'll bet you will feel better afterwards because you've put yourself into your beliefs about love," says a spokesman for the blood drive.

Bank/Lawlis Nine Unbeaten

The Little League team sponsored by the First State Bank of Bovina and Lawlis Gin Company was undefeated in the 1982 baseball season. They ended the season with five wins and no losses.

Coach of the Little League team was Ronnie Cary. Members of the team included: Santos Guerrero, Brian Neal, Billy Scott Sudderth, Vidal Gomez, Billy Marceez, Randy Stone, Bud Venable, Jimmy Don Gilbreath and Vince Meza.

In their last battle against Agri-Sprayers/Bovina Supermarket, the team won the game by ten runs.

Labor, Fuel Saved By Use Of Reduced & No-Tillage

Growers can make money switching to reduced- and no-tillage since labor and fuel are saved and yields are increased. Texas Agricultural Experiment Station and USDA researchers at the Research Center at Bushland have developed reduced tillage methods for several cropping systems. Using no-tillage in a wheat-to-sorghum sequence increases yield up to 1000 pounds per acre and saves 10 dollars per acre in tillage cost. Less and smaller equipment is required resulting in depreciation savings of another 10 to 15 dollars per acre.

Researchers Paul Unger, Allen Wiese and Jack Musick developed this cropping practice for the Southern High Plains. In this system, atrazine and 2,4-D at 3 and 1 pound per acre active ingredient are sprayed on standing stubble after wheat harvest to kill weeds and volunteer until sorghum planting next spring. If grass weeds are present after wheat harvest, sweep plowing, applying 1 quart of paraquat or 1.5 pints of Roundup will control the pests. In cotton country, either Roundup or paraquat must be used instead of 2,4-D. Care must be taken to avoid damage from drift anywhere. Igran or propazine can be used preemergence or atrazine postemergence to control weeds in the sorghum.

Dr. Wyatt Harman, Texas Agricultural Experiment Station Research Economist, says growers stand to gain up to 60 dollars per acre

by using the no-tillage system compared to conventional disk tillage. He points to seven years of study by Dr. Unger, USDA Soil Scientist, who found that sweep tillage in the fallow period from wheat harvest to sorghum planting increased dryland sorghum yield 450 pounds per acre over disking. In the same study, no-tillage increased yields another 600 pounds per acre over sweep tillage. The researchers say similar yield increases could be expected with corn.

Jack Musick, USDA Irrigation Engineer, found the same 1000 pound per acre yield advantage for sorghum that was given two summer irrigations. Musick says, "Keeping stubble from an irrigated wheat crop on the soil surface is like a pre-irrigation." "Both add about 2.5 inches of water to the soil profile," he continued. With dryland wheat, less stubble is produced and with a smaller amount of surface mulch, soil water storage is not as good.

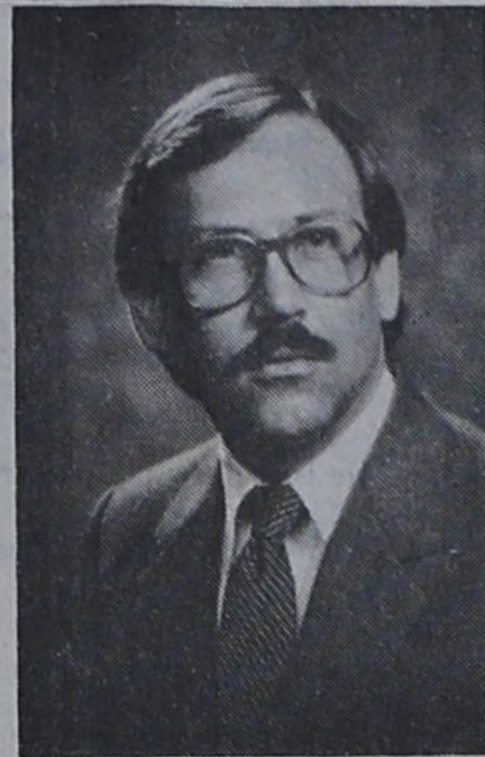

Double cropping sorghum after wheat harvest is another no-tillage system that works. Sorghum is seeded directly into standing stubble immediately after wheat harvest. Ron Allen, USDA Agricultural Engineer, says a straw chopper on the combine is a must because it eliminates piles of straw that plug planters. Allen says a grain drill will plant the sorghum if there is 5000 pounds per acre of stubble or less on the surface. With higher amounts of straw from wheat that yields more than 50 bushels per acre, planting is easier with disks in front of unit planters. Seed should be about 1 inch deep for fast emergence.

After planting, irrigation will germinate sorghum, wheat volunteer and weeds. Volunteer and weeds are controlled by spraying 2 pounds per acre of atrazine in an oil-water emulsion spray carrier when the sorghum is 6 inches tall. In five years of research, Allen found sorghum double cropped using no-tillage yielded 500 pounds per acre more than sorghum planted after conventional tillage of disking and rebedding.

Glean, a new herbicide released in 1982, can help growers reduce tillage

in continuous wheat or wheat that is going to be fallowed. Applying the herbicide at 0.66 ounce per acre with paraquat or Roundup will control weeds in the stubble and prevent broadleaf weeds from emerging in the summer. Volunteer wheat is not killed by Glean. Wheat that emerges and has not tillered can be controlled with one pint of paraquat or 0.66 pint of Roundup according to Dr. A.F. Wiese, Texas Agricultural Experiment Station Weed Scientist. These systems will work under dryland, furrow irrigation or sprinkler irrigation. According to Wiese beds have to be rebuilt about every two crops with furrow irrigation. He says this can be done quickly by shredding stalks or stubble and rebuilding beds with a disk bedder or sweep rod weeder. Tight soils can be broken up at this time by chiseling anhydrous ammonia into the middles.

The scientists all agree that no- or limited-tillage can play a big part in reducing production costs and increasing yields. Conventional disk or sweep tillage dries the soil to six inches. No-tillage will help save soil moisture from recent rains that fell during June. Reggie Jones, a USDA Soil Scientist who studies conservation of soil and water at Bushland, says saving an extra inch of soil water is worth 300 to 400 pounds sorghum grain or two to three bushels of wheat on the next crop.

J. Steinhilper Is Economic Research Mgr.

James D. Steinhilper has been promoted to manager of economic research for Southwestern Public Service Company, announced Sam Hunter, vice president, rates and economic research. Steinhilper joined SPS in May 1977 as a rate analyst. He was promoted to senior rate analyst in 1979. He assumed his new duties on June 1.

In his new position, he analyzes economic conditions as they relate to rate and regulatory matters.

He is a native of Elmira, New York. He earned a bachelor of arts degree in psychology in 1971 from Syracuse University, and a master of business administration degree in 1977 from West Texas State University.

He, his wife Diantha, and children Marissa and Alanna and James Egan, live at 3308 Gramercy, Amarillo.

Plant Fire-Up To Be Announced

A short-lived "smoke signal" soon will announce the firing-up of Southwestern Public Service Company's giant new coal-fired power plant near Muleshoe.

There is no reason to be concerned about the "smoke" which will be seen coming from the plant's 400-foot tall boiler stack, said Ben Green, manager of Tolk Station.

The emissions will be harmless fly ash, Green said, and will puff from the stack "for only a very few days." Thereafter, there will be no fly ash "smoke."

Fly ash is the unburnable mineral content of coal, Green said. "It is material that will be collected with greater than 99 per cent efficiency by our environmental containment equipment," under routine operating conditions.

But SPS's environmental containment equipment will not be in use during the preliminary firing, Green said. So there will be a visible emission for a few days from the boiler stack.

The environmental containment facility, which under routine operating conditions will collect Tolk's fly ash, is called a "baghouse," Green said.

The baghouse, which contains 13,000 fiberglass filter bags, serves as a kind of mammoth vacuum cleaner. It filters the fly ash out of the flue gas passing from the plant's boiler to the boiler stack.

The fly ash later is sold, Green said, for use as an additive to concrete, as a soil conditioner, or as

an additive to "drilling mud" for petroleum recovery.

A dust cake of fly ash layered on the baghouse filter bags--not the fiberglass cloth itself--actually stops and collects the "smoke," Green said.

The dust cake of fly ash must be layered on the filter bags under initial "very carefully controlled conditions," he said. "Unless the layering is done carefully, the fly ash is forced into the weave. It just plugs up the filter bag."

If the 13,000 fiberglass bags were "plugged," they would have to be replaced, Green said.

"Therefore, the boiler operation needs to be stabilized for some few days on burning coal prior to routing the flue gases through the bag filter," he concluded. "We'll get the boiler lined out, operating reliably, before we begin the coating process on the bags."

Construction on the No. One unit of Tolk's Station began in October, 1978. When unit No. One begins operating at capacity, it will be able to provide electricity for approximately 225,000 people. A second unit, the same size as the first, will come on line in 1985.

Southwestern Public Service Company primarily provides electric utility service to a population of more than 1 million in a 45,000-square-mile area of the south plains and Panhandle of Texas, eastern and southeastern New Mexico, the Oklahoma Panhandle and southwestern Kansas.

Shower Fetes Mrs. Ken Sorley

Mrs. Ken (Terry) Sorley will be honored with a baby shower Friday, July 23, in the Community Room of the First State Bank in Bovina, from 4 until 5:30 p.m.

Hostesses for the shower will include Judy Hodnett, Carolyn Pruitt, Martha Garner, Scooter Russell, Shelby Rhodes, Phyllis Steelman, Susan Kerby, Sabina Schilling, Esther Steelman, Sue Barrett, Twyla Lusk, Juanda Murphy, Judy Hromas and Laquita Garner.

Scooter's Scoops

By Scooter Russell

Parents Are Hosts For L.L. Outing

Members of the Sherley Grain Little League baseball team and their families were feted to a hotdog supper last Saturday, July 17 at the roadside park west of Bovina.

All of the players attended the cookout, and each member of the team received their ribbons for having won their division of the local Little League.

Parents serving as hosts included Mr. and Mrs. Ronnie Sudderth, Mr. and Mrs. Ruvalcaba, Mr. and Mrs. Sonny Brito, Mr. and Mrs. Bruce Caldwell, Mrs. John Ortiz, Mr. and Mrs. Manuel Hernandez, Jr., and Mrs. Jeanie King and family.

Other parents included Mr. and Mrs. Joe Acosta, Mrs. Eddie Meza and John Ortiz.

Jerry and Elyse Ward and baby daughter Taryn made a trip to Limon, Colorado recently. Elyse said they had a real good time and the baby made her first trip just fine. They returned home a week ago Friday.

Gene and Barbara Lowe and son Richard spent the Fourth of July weekend with their daughter Sue in Abilene. While there they visited with their other daughter Cathy who came from Lubbock where she lives.

Their son Richard came home a little early but Gene and Sue visited relatives in Garland and Rockwall. They visited Barbara's mother, Gladys Nichols, in Rockwall. On their return trip they spent the night at Sue's in Abilene. Barbara said their son Bill had other plans and was not with the family at this time.

The Jack Pattersons have had lots of company recently. Visiting from Georgia was Jack's sister and nephew, May and Calvin Dunn. Mrs. Dunn and Calvin were in Bovina visiting their daughter Nancy. While here the family made a trip through the Rockies and had a good time together.

Other visitors in the Patterson home and dinner guests were Jack's cousin and his son, Bob Patterson and son; another cousin, Sally Chandler of Farwell and her son Fred; a cousin, Nellie Gillis of Clovis; cousins, Robert and Patricia Moulisa and daughter Janie of Bellevue, New Mexico.

The Pattersons hosted dinner a week ago Sunday for fourteen guests. Jack said they had a lot of fun and

enjoyed a good time being together.

Donnie Blackstein of Amarillo was in Bovina for a week visiting his grandparents, Jack and Ona Patterson. Donnie is the son of Carl and Sandy Blackstein of Amarillo.

Bobby and Erma Jo Englant and daughter Devanee have recently returned from a trip to Wisconsin to visit their son, daughter and her family. Accompanying the Englanths were Irma Jo's parents, Mr. and Mrs. Homer Kelly of Pleasant Hill.

They visited their son Bobby Wayne and their daughter Carissa and family, her husband Don Caillouet and their son Donnie in Menomonia, Wisconsin. The family went June 23 and returned home July 10.

J.T. and Tessie Jones returned home after being in McAllen to attend funeral services for their nephew, Lelan Davis, 51, who passed away after suffering a heart attack.

On their way home they spent time in San Antonio Veteran's Hospital with Tessie's brother Ray Martin who is a patient there.

J.D. Terry will enter the Veteran's Hospital in Amarillo Thursday and will undergo surgery to correct torn ligaments and muscles in his shoulder. His wife said he would have surgery next week but would have tests run this week. He will be in the hospital about three weeks.

We reported that Emmagne Calaway's brother-in-law was new postmaster at Hereford. Got it

wrong. He is the new postmaster of Friona and his name is Bill Wells. Bill moved from Plains, Texas. Sorry, about that.

Geneva and O.B. Johnston went to Albuquerque, New Mexico and attended Karen Johnston's wedding. She is O.B.'s niece.

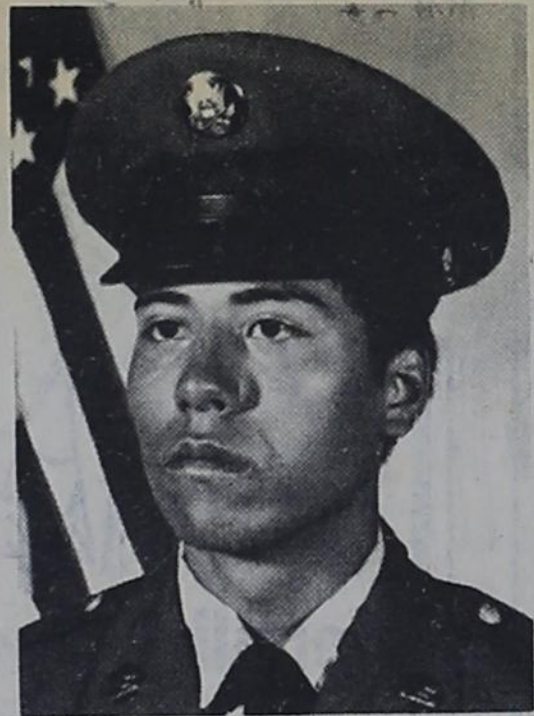

While there they had a good time visiting other members of his family: his brothers, Roy and Edwin and their families and his sister Hazel Starr; and had a good time with O.B.'s mother, Goldie Johnston.

Geneva and O.B. went to New Mexico June 9 and returned home June 12.

The Wendell Garners hosted dinner June 11 honoring their daughter-in-law Joyce and their son-in-law Bobby Hix. About fifteen members of the family were present and Wendell's mom, Leora Garner of Plainview was with the Garners to help Bobby and Joyce celebrate their birthdays.

Alan and Casey Carson have been in Bovina visiting with their family. They left a few days ago and are planning an extensive trip in a big sail boat. Alan was in the office and visited with Janet and I and was telling us about their plans. Said he'd keep in touch and we hope he will drop us a line once in awhile. It's been interesting watching the Carson boys grow up, they rather live like most of us only dream of living. Sounds as though their sister Joany is having fun too.

Lowell Primrose is hospitalized in Friona following an accident last Friday on his mother's farm outside of Bovina. He was on a tractor moving when his foot was caught in the PTO. His mother said it completely cut his boot away from his foot, then slashed muscles, ligaments and nerves to the bone. He underwent surgery Friday night in the Parmer County Community Hospital. She said he is getting along real well and he is in room 18.

RICARDO VILLARREAL R. Villarreal Is Promoted To Sergeant

In view of special qualities and his demonstrated leadership potential and dedicated service to the US Army, Ricardo Villarreal, is promoted from SP4 to Sgt. MOS 63H20.

The promotion was effective June 1, 1982 with a date of rank of May 23, 1982.

The Secretary of the Army has reposed special trust and confidence in the patriotism, valor, fidelity and professional excellence of Villarreal and his service in the Army.

Elyse Ward entered the Parmer County Community Hospital in Friona Tuesday morning of this week for minor surgery.

Willie Mae Ross is home in Bovina now after being in Oklahoma City for four weeks with her daughter Mary Evans and her family.

Hugo and Rosa Espinoza went last Tuesday to Uvalde where they visited Rosa's mother and brothers, Lupe, Roy and George Ramirez, and also their pastor, Brother Moreno.

Accompanying the Espinozas on their trip were their children, Victor, Arther, Dena and Rout, and their nephew Ben Meza of Bovina. Rosa said it was "plenty hot" in that part of the country, also.

Talked Tuesday with Beverly Barrett and she was telling me of the fun time they had spent in Ruidoso last week. Beverly, her mother and sister, Bonnie and Cindy; Carl Willard, Joe Bradburn and daughter Courtney went last Tuesday to Ruidoso, New Mexico, and stayed at the Inn of the Mountain of the Gods, played golf, swam, rode in canoes and paddle boats. They returned to Bovina Thursday.

Dick and Joany Horn are back in the States. I talked with Dick's mother, Mina Horn and she said they returned to the States July 2. They spent time in Portland, Oregon, held a revival in Burley, Idaho and should be home in a day or so and will be spending several weeks.

Twyla Lusk was in the office Tuesday morning. She is one of the Chamber of Commerce directors working to put the activities together for Bull Town Days. She has asked that you call her if you are interested in having a booth during the Bull Town Days August 20 and 21. You can reach her during the days at 238-1475, nights, 238-1163.

Visiting over the weekend with Joe and Dorothy Harris were their son and family, Carl and Cathy Harris of Amarillo and their children, Mark and Tamara.

SMILE: Someone tried to get Prince Charles and Lady Diane to name their baby Up. Then they could have signed their Christmas cards... Merry Christmas, Up, Chuck and Di.

Have a beautiful week, thank you for helping with the Scoops... Scooter.

Do it yourself!

Howard Rhodeses Are Named Missionaries

The Rev. and Mrs. Howard L. Rhodes were among 88 people named missionaries by the Southern Baptist Foreign Mission Board July 13 at Grove Avenue Baptist Church, Richmond, Virginia.

The Rhodeses will work in Malawi, where he will be a general evangelist and she will be a church and home worker. He has served as pastor of Oklahoma Lane Baptist Church until recently.

Born in Plainview, Texas, Rhodes is the son of Mr. and Mrs. O.C. Rhodes of Friona. He considers Friona his hometown and First Baptist Church there his home church.

He received the bachelor of science administration degree from West Texas State University, Canyon, Texas, and the master of divinity degree from Southwestern Baptist Theological Seminary, Fort Worth, Texas.

He has served as pastor of First Baptist Church, Sanford, Texas. He also worked at a freight company in Irving, Texas, and as a dormitory parent at a boys' ranch in Amarillo, Texas.

Born in Friona, Mrs. Rhodes, the

former Belinda Mabry, is the daughter of Mr. and Mrs. W.R. Mabry of Marble Falls, Texas. Reared in Friona, she considers First Baptist Church there her home church.

She has attended several colleges, most recently Wayland Baptist College, Plainview, Texas. She has worked as a secretary in Fort Worth, and receptionist and bookkeeper at a medical clinic in Farwell.

The Rhodeses have three children: Amber Lynette, born in 1969; Jeffrey Howard, 1973; and Gregory Allen, 1977. The family will go to Pine Mountain, Georgia in September for a 12-week orientation before leaving for the field.

50th Wedding Fete Slated

The 50th wedding anniversary for Mr. and Mrs. E.E. Woelfel will be held Sunday, July 25 at the Fellowship Hall of the Bovina Church of Christ.

The reception will be held from 2-4 p.m. All friends of the couple are invited.

Rev. and Mrs. Howard Rhodes

THE STATE OF TEXAS COUNTY OF PARMER
 Before me, the undersigned authority, on this day personally appeared Benna Felts, County Treasurer of Parmer County, who being by me duly sworn, upon oath, says that the within and foregoing report is true and correct.
 Benna Felts, County Treasurer.
 Sworn to and subscribed before me, this 12th day of July, 1982.
 Bonnie Warren, Clerk
 County Court Parmer County, Texas

did you know?

The first unit of Roy Tolk Station, Southwestern Public Service Company's new coal-fired generating plant near Muleshoe, Texas, will begin manufacturing electricity this month. The unit has the capacity to generate 561,000 kilowatts of electric power—it's Southwestern's largest. A second unit, the same size as the first, is being built next to the one which will be fired up this month. The units cost more than \$200 million apiece. They can each provide enough electricity to supply a city of 225,000 people.

Ben Green, Plant Manager, Muleshoe.

Tolk Station will burn coal — ground as fine as talcum powder — to produce electricity. The coal SPS uses comes from mines near Gillette, Wyoming. It is a low-sulfur coal. Tolk Station Unit No. 1 will burn approximately 315 tons of coal per hour. That's about 7,560 tons per day. The coal is delivered by 110-car trains directly from the Wyoming mines. Coal-fired plants are significantly more economical to operate than natural gas-fired plants.

Morris Rantz, Fuel Administration Manager, Amarillo.

The "stack" at Tolk Station is 400 feet high. The "smoke" it emits, however, is "smokeless." Although burning coal naturally produces "smoke" (flue gas and fly ash), our state-of-the-art environmental protection equipment cleans up the emissions long before they get into the air. The protection system, called a baghouse, contains 13,000 fiberglass bags. They filter the boiler's emissions and remove the ash residues, making the coal "smokeless."

Jim Martin, District Manager, Clovis.

Knowing what electricity is worth is worth knowing. For answers to your questions, call or write your SPS manager.

SOUTHWESTERN PUBLIC SERVICE COMPANY

P&G Denies Rumors; Takes Legal Action

The Procter & Gamble Company today announced that it is taking legal action to stop the spread of rumors associating the company with satanism or devil worship. The company today filed suits in Atlanta, Georgia and Pensacola, Florida against a corporation and several individuals who are charged with "libeling the character" of Procter & Gamble by circulating "false and malicious" statements about the company and by calling for a boycott of its products.

Suits were filed against Mike Campbell in Atlanta, and against Mr. and Mrs. William J. Moore, Jr. in Pensacola. In the suits, P&G charges that each individual made statements or distributed literature which stated that P&G supported satan and that its trademark was a satanic symbol. They also encouraged others to stop buying P&G products, the company claimed. P&G is asking the courts to stop the individuals from further activity and for compensatory and punitive damages.

Griffin Bell, former U.S. Attorney General, will represent Procter & Gamble in the Atlanta suit. Patrick G. Emmanuel will represent the company in the Pensacola suit.

Today's action follows an announcement last week from P&G that it is taking aggressive steps to

stop the rumor. The rumors typically report that the company's "moon and stars" trademark is a symbol of satanism and devil worship and that a P&G executive discussed satanism on nationally televised talk shows. Producers of the shows mentioned and P&G have confirmed that these stories are totally false.

P&G said it is receiving more than 12,000 calls each month about the rumor and has picked up copies of materials being handed out at stores and churches encouraging a boycott of P&G products. The high number of calls and the use of the reproduced handout materials suggests this is more than rumor mongering by individuals, the company said. P&G said it is investigating the possibility of additional lawsuits and that it will follow up aggressively on leads of organizations or individuals spreading the rumors.

The trademark is a circular design featuring a man-in-the-moon figure looking out over a field of thirteen stars. It has been used since 1850 and was officially registered in 1882. The symbol started as simple markings on crates of Star Candles, an early Procter & Gamble product, and evolved over the years to a formal design showing a man-in-the-moon, a popular figure of the 1800's, and thirteen stars representing the original colonies.

Around The House

By LAURA JACOBS
Wycrc. Wykyr. Wykker.
Wicker.

It's spelling has changed over time, but its meaning hasn't.

Wicker, one of today's "fashion furnishings" is something that's woven, mostly from rattan, which includes cane, pole, reed, and peel. It's also made with willow, straw, rush, raffia, palm, dried grasses, spun wood pulp (fiber) buri, or bamboo.

Wicker comes to consumers worldwide as headrests, floor mats, hats, shoes, tea strainers, spice containers, all styles of boxes and baskets—even houses and hearses.

But the way we know wicker best—what we think of when we "think wicker"—is furniture.

Wicker furniture has had its fashion ins and outs over the history of home furnishings, but it reached a popularity pinnacle during Victorian times.

People were wild about wicker. They put it into every room in the house.

They're doing it again today—probably for the same reasons: wicker is natural, homemade, comfortable.

Wicker is new and, at the same time, old. It's rustic, yet exotic. And although it may take the most simple or the most elaborate forms to reflect the taste of the times, it always maintains an integrity of its own.

Wicker is homey—simple, practically, naturally, comfortably homey, and that appeals to everyone.

An important part of keeping that "forever-new" look in your wicker furniture is keeping it clean.

Go over it thoroughly with a soft brush and warm soapy water. Use a toothbrush for hard-to-get-at places.

Wicker pieces made of reed and willow (both natural and painted) should be periodically wiped off with a soft wet cloth.

It this type of wicker becomes brittle, take it outside and hose it off. The water will "feed" the reeds and ensure greater flexibility.

Wicker made of either fiber (twisted paper) or sea grass should never be hosed off because water will weaken the weave as well as the individual fibers. To clean this type of wicker furniture, use a damp cloth only.

Very diluted domestic bleach will whiten soiled reed and willow pieces that have been left in their natural state, but this procedure should be used with great caution and only if scrubbing with warm soapy water does not do the job.

Wicker furnishings, kept clean and in good condition, will continue to give any decor the international flavor and feeling of comfort they have graced the world with for centuries.
