

City Buys S. H. Allison Land For New Trash Disposal Location

A nine acre tract located south of the Santa Fe stockyards was purchased by the City of Sonora from S. H. Allison Friday for use as garbage and trash disposal location. Purchase price was \$400 per acre to be paid in four \$900 installments.

By Tuesday the tract had been fenced in, ditched, and put into use. The city will use the trench or ditch system of disposal, a method comparatively new and which is seeing widespread use in larger cities. In using this system a deep trench is bulldozed and trash is dumped in. Trash is packed in, generally by a bulldozer, at given intervals, and the trench is covered over with dirt when full. Then another trench is dug and filled until the whole tract is used. By that time material in the first trench has decomposed enough to warrant reopening of the trench.

Under discussion at present are plans for a city-operated garbage collection system. If the project looks feasible, it will be brought before the people for a vote.

APPLICATIONS FOR VETERANS LAND STILL ACCEPTED

Although the \$25,000,000 principal of the Veterans' Land Program was committed by March 18, Land Commissioner Bascom Giles stated today that additional applications are still being accepted "under certain conditions."

"Where both seller and veteran understand that we cannot guarantee there will be money available to complete the purchase," said Giles, "we are putting the application on file."

The \$25,000,000 fund is a revolving one and thus additional purchases can be made from time to time as veterans make their semi-annual payments, Giles pointed out. Some veterans are also retiring their indebtedness at a faster rate than their contract demands. One tract in Dickens County has already been paid for in full.

"Also," Giles explained, "every withdrawal enables us to process one of the applications accepted on this conditional basis. We will act upon these new applications, if and when money is available, in order they are received."

The down payments accompanying a "conditional" application will be deposited in the State Treasury, Giles said, and will be returned if the transaction is not completed. No application has been accepted since March 18 except this "conditional basis," Giles stated.

Jean Derebery, cashier of the First National Bank, left Friday for Goodfellow Field, where he is spending two weeks on active duty with the Air Force. Derebery holds the rank of captain.

Sonoran Finds Flying Trip To Saudi Arabia Full Of Thrills

When we heard that Mrs. Sam Logan was to accompany her husband to Saudi Arabia, we asked her to write an account of the trip from San Angelo to Dhahran. We received her letter this week and hope our readers will enjoy it as much as we did. Ed.

We left San Angelo at 6:30 a.m. the eighth of March by Trans-Texas Airways. Their service is excellent and the hostess looked cute in her cowboy regalia and boots. Arriving in Dallas at 8:30 we took a Braniff plane at 9:30 a.m. for Chicago. We landed briefly in Kansas City and found icy winds and snow flurries. Got into Chicago at 1:30 PM, to find more of the same kind of weather. Caught a non-stop TWA into New York City that left at 3:30 PM. I think I have never seen anything quite as lovely as flying above the clouds. The sun shone on all those soft fluffy clouds and looked like miles and miles of gleaming snow. We circled La Guardia for two hours in a thunder storm and it got a bit rough. Just between us girls Sam got a little pale around the gills. We landed at 9:30 PM and it had rained of course. It had some old college buddies and home town friends whom we stayed with on Long Island so we were very fortunate.

The ninth we took a subway into town by way of the bottom of the East River and it's a bit dark under there. Climbing out into Grand Central Station is no small feat in itself. Sam made the typical remark of a rancher when we got into the main part of Grand Central, "Sure would hold a lot of hay." We lunched on Park Ave. and then to the Aramco

Dr. E. H. Steelman Speaks Tonight

Dr. E. H. Steelman is expected to arrive in Sonora today to fill his appointment in the Methodist Church tonight, under the sponsorship of The Women's Society of Christian Service, in a lecture on "Women of Scripture."

While in Sonora, Dr. Steelman will be the guest of Mr. and Mrs. Joe Brown Ross. Both Mr. and Mrs. Ross and their daughter, Kathryn, are ex-students of Southwestern University, where Dr. Steelman is Professor of Bible.

Following the lecture tonight at 7:30 o'clock, a reception honoring Dr. Steelman is being held in the church dining room. The public is cordially invited to attend both the lecture and the reception. All ex-students of Southwestern University are to be given special recognition at the affair.

BUILDING PERMITS SHOW HOUSTON GROWING FASTEST

Texas building permits in 46 cities totaled \$46,523,450 in February, or 72 per cent more than in February 1949, the Texas Bureau of Business Research reported.

Houston permits totaled \$13,054,400; Dallas, \$6,610,001; San Antonio, \$4,410,472; Fort Worth, \$3,547,492; and Austin, \$3,297,550.

February permits were functionally lower than in the previous month, but Paris turned in the largest increase, 277 per cent. Other notable monthly gains were in Kenedy, 210 per cent; Lockhart, 167 per cent; Pampa, 159 per cent; and Plainview, 88 per cent.

In the February-February comparison McAllen led with a 554-per-cent gain; Texas City had gained 502 per cent; Marshall, 469 per cent; Pampa, 437 per cent; Sweetwater, 357 per cent; Big Spring, 323 per cent; Laredo, 318 per cent; and Tyler, 280 per cent.

Sonora Coaching Staff Named

Buddy Hawkins, former assistant coach at Sonora High School, was named Saturday by Supt. A. E. Wells, as high school athletic director.

New head football coach will be Billy Willard also an assistant coach last year under P. B. Moody, who will be head coach at Athens High School next year.

Willard coached at Stephen F. Austin, and Hawkins at Rice Institute before coming here last year.

City Commission Re-elected In Contested Race

The city commission composed of Alfred Schwiening, mayor, and Alton Hightower and Clay Puckett, commissioners, were re-elected Tuesday at the biennial election held at the City Hall. Final results are as follows:

For Mayor —
Alfred Schwiening 215
B. H. (Sam) Crites 43
Tom Ratliff 2
Johnny Hamby 1
For Commissioners (2) —
Alton Hightower 222
Clay Puckett 221
John Fields 43
Loy Gulley 41
Joe B. Ross 2
John Eaton 2

The names of the incumbents were the only ones filled prior to the election and therefore the only names on the ballot. All others were written in.

Horse Show Set April 29-30 In San Angelo

With one evening show in the performance classes planned for the 1950 Show, Horse Show officials in San Angelo this week were making plans for their eighth annual Horse Show scheduled for April 29 and 30 at the San Angelo Fairgrounds.

Percy Turner, rancher and a Quarter Horse breeder from Water Valley, is general chairman.

Entry deadline for both Halter and Performance Classes has been set for April 15. All horses expected to be shown at the 1950 Show must be on the grounds before midnight Friday, April 28.

An open jack-pot roping event and an open ladies' barrel race have been set as added features of the performance shows on Saturday night and Sunday afternoon. Entry deadline for these special contests will be Saturday, April 29, at 5 o'clock. A purse of \$100 will be added in each event. Entry fee is \$10 for each performance.

Four divisions have been set for judging in the Halter Classes during the two-day event. These divisions are: Quarter Horse Division, Palomino Pleasure-Type Division, Palomino Stock Horse Division, and the Halfbred and Thoroughbred Division.

In the performance show, there will be reining classes for the Quarter Horse, Palomino and Thoroughbred and Halfbred with finals on Sunday afternoon. Other classes will be the Western Pair Class, Western Equipment Class, Palomino Three-Gaited Class, and Junior Class for riders 12 years of age and under. Another special event will be the ladies' clover-leaf barrel race.

Serving on the executive committee for the 1950 show are: Turner, James F. Grote, Secretary-Manager, Joe B. Blakeney, B. E. Brooks, H. B. Cox, D. L. Haralson,

airport. I drooled over the beautiful big Edam cheeses. The ground hostesses kept Linda, at their insistence, and you'd have laughed to hear them cooing to her in Dutch. We took a four hour tour of the city and I saw the two things I'd always wanted to see, a Dutch windmill and wooden shoes. In fact, I saw a seven or eight year old girl jumping the rope in wooden shoes, which I'd imagine would make quite a clatter. Every street and alley is spotless, the window panes glisten in the sunlight and every home has flower arrangements in their picture windows. Amsterdam is a mass of canals and I understood our guide to say the city streets are built in circles around Queen Juliana's palace. It's a beauty too, as well as the church in which she was crowned Queen in 1947. Both were built in 1673 and have huge wooden pillars that go down very deep for foundation at 14 feet below sea level, you can imagine they need a good foundation. I understand the river was called Amsterwell and when the dam was built they called the city Amsterdam.

We saw many very large ships, lots of small vessels and ferry boats. Everyone has a bicycle and also one for Sunday. The guide told us there are 12,000,000 people in Holland and 19,000,000 bicycles! We had a delicious supper and left on our plane at 6:00 PM. Flew to Nice, France by 11:30 PM, where we had refreshments and an hour rest. Left at midnight for Damascus Syria, and about until near time to land at 8:00 AM of the 12th. We were, or at least I was a bit shocked at the change in atmosphere -- robes,

Red Cross Boxes Yield \$340 At End Of Week

Collection boxes placed at several stores and at Sonora schools, yielded \$340.50 toward the Sutton County Red Cross goal of \$556, according to Joe M. Vander Stucken drive chairman.

Vander Stucken said boxes have been placed at the Sonora Drug and Corner Drug Stores, Home Gas Company, Sonora Gas Company, Home Hardware and Furniture Company, all schools, First National Bank, Perez Brothers Barber Shop and Garage and Devil's River News.

The drive will continue, Vander Stucken said, without personal solicitation, in the hopes that the collection box system will raise the needed amount.

Return From Houston

Mr. and Mrs. Joe Norris returned this week from a two-weeks visit to Houston, where they were guests of their sons and families, Mr. and Mrs. Woodrow Norris and Mr. and Mrs. J. C. Norris.

Bill Karnes, young son of Mr. and Mrs. Sam Karnes, underwent an emergency appendectomy Saturday night in a San Angelo hospital.

Max Darrell Murray, former Sonora student now making his home with Mr. and Mrs. W. W. Wendt in Galveston, was recently elected to the National Honor Society at Ball High School, where he is a senior.

Election to the society is the highest honor given to students at the school. Murray and five other seniors were elected.

Miss Anne deBerry, daughter of Dr. E. M. deBerry, is making her home on the ranch here following completion of a course at San Angelo business college. Miss deBerry took her BA degree from Radcliffe College at Cambridge, Mass. last year.

In 1949, 1,564,000 Americans were injured in traffic accidents.

Jess Koy, John P. Lee and Gilbert Sanders.

Other committees include: Quarter Horse Committee, Jess Koy, Chairman, B. E. Brooks, J. W. Field, and Foster Sims Price; Palomino Committee, D. L. Haralson, Chairman, Gilbert Sanders, Leroy Clarke, H. B. Poe and Roy Bond; Thoroughbred and Halfbred Committee, John P. Lee, Chairman, Fred Roe, Jr., Joe B. Blakeney, and Len M. Mertz.

A copy of the rules and regulations for the 1950 Show may be obtained by writing James F. Grote, Secretary-Manager, San Angelo Horse Show, Box 712, San Angelo.

veils, turbans and a prevailing odor that I did not care for. The natives clamored to carry Linda but Sam hung on to her. The music inside was weird and melancholy and left me feeling rather creepy. We had a 3 hour delay and tried to get in touch with Edward and Gertrude Tipton, but no luck, they were out of town. We flew out at 11:30 AM for Dhahran and I must say we saw lots of desert. I got to go into the cockpit and have a look around. I saw a camel caravan which looked like story book material. We landed at 4:30 PM and were glad to be on the ground again. Linda loved the journey and never even cried. I'm sure the passengers were pleasantly surprised at her behavior. She had a crib on the plane which made it very comfortable. I laughed at the Arab custom officers in Dhahran, my powder puff was a mystery to them. Linda's sack of balloons had to be closely examined. I think out of curiosity and the electric iron just stumped them.

Dhahran is lovely, beautiful buildings, trees, shrubs and flowers of all kinds. Lawns are green and well kept. The weather is delightful in this season but it's best to keep the windows closed unless you yearn to clean house. I can see the sparkling Persian Gulf from my back door. Sam leaves Thursday by plane for a week or so at Al Kharij. The minister of the Middle East is to be there, also the Ambassador to Arabia from the U. S. and King of Afghanistan (bet you can't spell it either). (Yes we can 'Afghanistan' - Ed.) Col McCormick of Chicago Tribune has been here in Dhahran. All in all it's a nice place. Hope this will furnish you with some news for our friends.

Sincerely,
Mildred Logan.

Warner Gets Go Ahead Signal On Hospital Construction Job

School Trustees Renamed Saturday

Bryan Hunt, Mrs. W. R. Cusenbary and George D. Chalk were re-elected school trustees Saturday. There was no opposition. Hunt, board president, received 69 votes, Mrs. Cusenbary 66, and Chalk 65.

Ben Mittel was named county board member from Precinct 1 and Joe Brown Ross member-at-large, also without opposition.

W. B. Ross Funeral Held Sunday

Funeral services for Vollen Bruno Ross, 80, pioneer Hill County ranchman who died at 2:02 o'clock Sunday morning in Rock-springs, were held at 4 o'clock the same day from the Rock-springs Baptist Church. He was a brother of Mrs. Ella Wallace of Sonora. Burial was made in the Rock-springs cemetery.

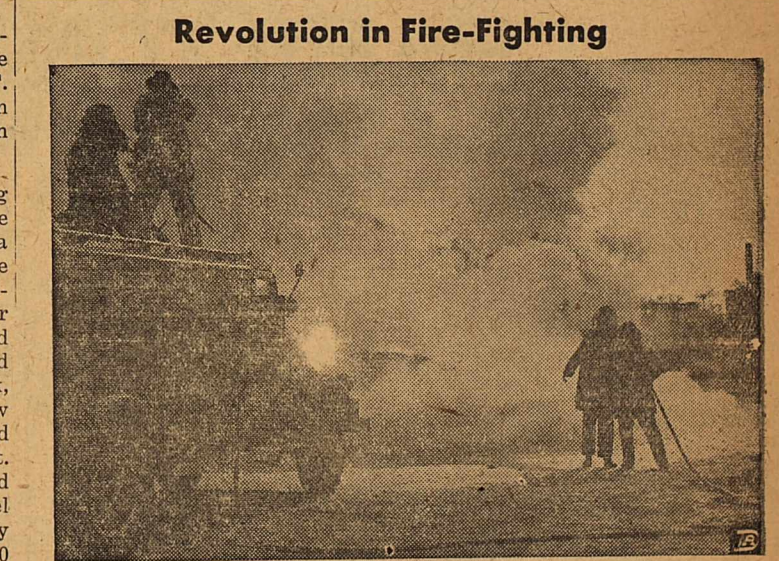

Mr. Ross first came to Edwards County from Llano with a herd of cattle in 1879. Seven years later he returned with Brown and Epperson with whom he grew up as an orphan boy. He lived in Edwards County 64 years and was active until shortly before his death although ill health curtailed his activities the past few years. He had been confined to his bed for three weeks.

A native of Arkansas, Mr. Ross was born February 14, 1870. He was a member of the Rock-springs Masonic Lodge and the Rock-springs Baptist Church. His wife died in 1948.

Survivors include two daughters, Mrs. L. B. Trengrove of San Antonio and Mrs. T. M. Wright of Buffalo, New York; three sons, Fred, Dan and Guss of Rock-springs; eight grandchildren and one great-granddaughter; one sister, Mrs. Wallace of Sonora and one brother, Dan Ross of Dryden. Masons were pallbearers. They included Monte Kirkland, Ed Draper, Frank Adams, Milton Smith, W. E. Alexander and H. W. Bierschwale.

This week, Duke Wilson is planting his Llano and New Mill Fields to Hubam clover. This clover planting is designed to improve the organic matter and fertility of the soil.

Revolution in Fire-Fighting

Turret nozzle atop new-type fire truck ejects a stream of chemically treated sodium bicarbonate that snuffs out huge gasoline, chemical and electrical fires in matter of seconds.

MARINETTE, WIS. — Petroleum and electrical fires last year caused more than \$113 million in property damage in the United States, mostly in industrial plants and stores. In addition, many thousands of workers were laid off or made unemployed as a result of the temporary closing of plants.

Leading fire fighting authorities say this figure should be sharply reduced this year as a result of increasing industrial use of a revolutionary new method of fighting fires with dry chemicals.

The chemical used is sodium bicarbonate—otherwise known as plain baking soda—which many housewives already use in their kitchens. The baking soda used in fire extinguishers, however, is chemically treated so that it is water-repellent, free flowing, and immune to deterioration because of time or weather changes.

Carrying 2,800 lbs. of Chemicals Dry chemical extinguishers are made in various sizes, from hand units to the ten-ton fire truck pictured above. Produced by the Ansul Chemical company here, this truck has been found especially useful in fighting large flammable liquid or gas fires in industrial plants. It is capable of carrying 2,800 pounds of dry

A work order giving the Warner Construction Company the go-ahead signal to build the Lillian M. Hudspeth Memorial Hospital in not more than 240 calendar days, was issued Wednesday by architect John G. Becker, San Angelo.

The last kink in arrangements which have been held up for more than a year was ironed out last Wednesday when L. W. Elliott, vice-president of the hospital organization, and Becker conferred with state and federal hospital survey authorities in Austin Wednesday.

Friday Elliott received the following telegram: "Judge L. W. Elliott, Sonora, Texas.

Project construction application for the Lillian M. Hudspeth Memorial Hospital approved as of March 31, 1950, by U. S. Public Health Service and State Agency.

General Dean F. Winn, M. D., Director Hospital Survey and Construction Division.

Elliott acted in behalf of R. A. Halbert president, who has been attending a stock show in Illinois.

Federal aid will amount to \$156,164.61, according to a telegram received Monday from Congressman O. C. Fisher. The contract issued to Warner was for \$248,672 and is a general contract only. Total cost, including building site, building, furniture and equipment is to be \$319,329.22, considerably over earlier estimates, but in accordance with the wish of the directors to make it the finest hospital for its size in this area.

Architect Becker has stated on several occasions that the structure will be second to none in this area.

To be finished on the outside much like the new Elementary School, the hospital will have 27 beds. Every room will either have a private bath or share a bath with another room. Also to be included in the two-story building is an operating room, delivery room, laboratory, pharmacy, emergency room, and offices. The hospital will be equipped with an elevator.

So far, only rough excavation work has been done at the building site adjoining the city limits on old U.S. 290, but Warner expects to have a full crew working here next week.

A small grass fire was reported Monday afternoon in the vicinity of the Methodist Church. All three trucks answered the call.

... Son of a gun ...

Sixty-five 4-H and FFA boys and their sponsors attended the wool, mohair, and grass practice judging contests here Saturday at the Sonora Wool and Mohair Co. warehouse. Nine county agents were present. Although no results were given to anyone other than the team's own agent, judges said overall scores were exceptionally good, thus promising some close contests this summer.

Mertzson pulled a surprise when their county agent entered an all-girl team, the first we recollect having entered any of our shows here.

Sonora boys competing were Joe David Ross, Oscar Carpenter, John Mittel, Billy Bob Ellington, Carlos Loeffler, Turney Friess, Raymond Darrow, Connie Locklin, Corky Schwiening, Ben R. Mittel. Clubs attended from San Angelo, Sterling City, Junction, Eldorado, Garden City, Menard and Mertzson.

George D. Chalk and Clint Langford left Tuesday for the Bluebonnet Experiment Station at McGregor, where they get together some grades samples of wool and mohair for the show here June 21 and 22.

The Texas Aberdeen-Angus Association reports that a number of West Texans joined its ranks in March. Included were Hiram Price & Sons of Eden, Alice Karnes of Sonora, C. E. Stites of Sonora, Homer Rudasill of Rock-springs, J. H. Rose, Jr. of London, N. B. Garrett of Richland Springs, H. A. Hartgrove of Big Lake, F. Luckenbach Jr. of Menard, and G. W. Shultz of Abilene.

One of the sorriest symbols of our times is America's automobile accident record.

The summing up for 1949 has just reached us from The Travelers Insurance Companies who each year publish an almanac of crash data. Of all the facts about auto accidents in their booklet, the most significant, it seems to us, is this: More than 400,000 casualties in 1949 were the direct result of speeding. One out of every three Americans who lost their lives in last year's wrecks were killed because someone was driving too fast.

Speed has been causing a greater percentage of accidents year after year. In 1949, speed was a greater factor in traffic casualties than at any time in history.

Traffic laws and law enforcement are part of the answer. Engineering will help some. But with perfect roads and perfect police work, the man behind the wheel can still exceed the limit if he wants to or if he isn't thinking.

Keep this in mind when you drive. Stay within speed limits and you'll be doing your full part in a crusade to reduce automobile accidents by one third.

Crusade Against Cancer Opens

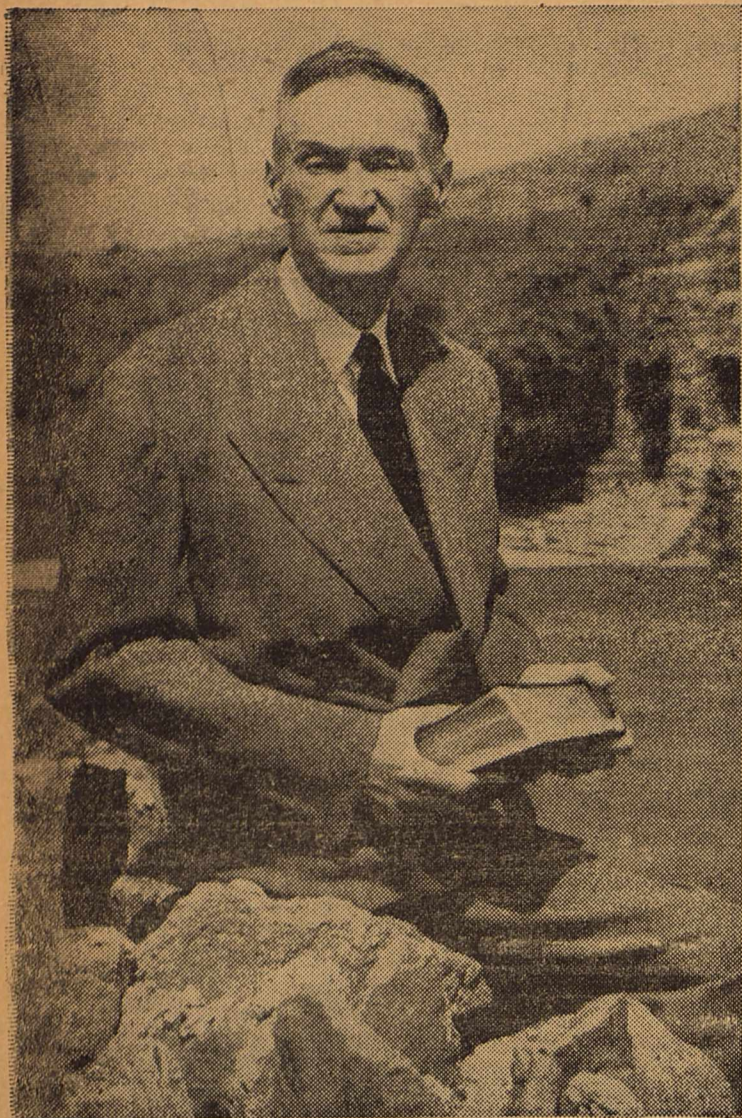

Cancer Control Month in Texas opened April 1 as the American Cancer Society began its statewide Cancer Crusade.

Gibb Gilchrist, chancellor of the Texas A&M College System and state Crusade chairman, said that county units throughout the state are beginning their annual campaign for two purposes. "First," he said, "they strive to tell every Texan the true facts about cancer—that cancer must be discovered and treated in time if it is to be curbed, and that cancer often gives warning signs which, if heeded, may save a person's life.

"Second, cancer control volunteers are accepting contributions with which to carry on cancer research, public education and service throughout the state."

The Crusade chairman announced a statewide broadcast which officially opens the campaign. Originating in the Senate chamber at Austin, it featured Governor Allan Shivers, and was broadcast at 9:30 o'clock Monday night (April 3) on six stations of the Texas Quality Network.

Last year, 31,800 Americans were killed in traffic accidents.

Rev. Mark Wallock, founder of the Wichita Mountain Easter Pageant, held yearly at Lawton, Oklahoma. Until his death in December, 1948, Rev. Wallock directed and staged the yearly pageant.

Millard Coody in his portrayal of Jesus Christ

Millard Coody, civilian Bank Teller of Lawton, Oklahoma

Christmas, 1948, 10 days after the final scene of the picture "Prince of Peace," depicting his pageant, was finished. The "Prince of Peace" was produced by Hallmark Productions, Inc., of Wilmington, Ohio. The local Pageant Association receives a definite sum from every engagement of the picture throughout the world. All funds the non-profit religious group receives are being soundly invested in bonds to provide adequate financing for perpetuating the "American Oberammergau."

More than 3,000 Lawton and Southern Oklahoma people play biblical roles in the pageant each Easter morn. Millard Coody, local bank teller, portrays the role of Christ, which for many years was played by Rev. Wallock himself.

A total of 385,000 tourists have visited "Holy City" in the nearby Wichitas since the release of the motion picture "Prince of Peace" last April, accurate caretaker's records show. Last year's pageant attendance reached nearly a half million with an even larger crowd anticipated this year. Lawton, with a population of 30,000, is busily preparing to play host to the hundreds of thousands of people who will pilgrimage this April to witness the great Easter Sunrise Service.

Present this year to see the great pageant for the first time will be Kroger Babb, who made Rev. Wallock's dream come true

Kroger Babb, Producer, President Hallmark Productions, Inc.

when he produced the film "Prince of Peace."

The pageant association, according to Fred Larrance, its president, and Reece L. Russell, the secretary, will continue to present the pageant each year in memory of the beloved minister who moved to Oklahoma for his health when physicians advised him he had but one year to live. His death 24 years later was a great blow to the many friends he had made in his religious work.

LAWTON, OKLA.—Easter Sunday, April 9th, will see the presentation of the great Easter Pageant, The Prince of Peace, for the 26th consecutive year by the Wichita Mountain Easter Sunrise Service Association of this city. This non-profit and non-sectarian religious organization stages its annual pageant on the slopes

of the Wichita Mountains near here on government-built stages of native rock.

The Rev. Mark A. Wallock, who originated the annual pageant and produced and directed it for many years, did not live to see his dream of filming the Life of Christ for all the world to see, come true. Rev. Wallock died on

My Soil Conservation District

By J. R. Caldwell
Winner of Fifth Place in SCS Essay Contest
A soil conservation district is a democratic legal sub-division of the State designed to promote the development and administration of a soil and water conservation program.

The Edwards Plateau Conservation District was formed by a petition signed by fifty landowners requesting the State Soil Conservation Board to set up a district in this area. The State Board called an official hearing at Sonora to hear the opinions of land-

owners as to the need for a district. To create a district, two-thirds of the votes of the ranchers must be favorable.

Five landowners are elected by the people to run the district. These district supervisors, as they are called, can call upon the state of federal agencies for technical, financial or any other available assistance that they might desire.

The district supervisors with help from local people and with the conditions and problems of the district in mind, design their program and plan of work. They endeavor to correct and solve each problem, but the entire program is wholly a voluntary one and only the landowners who desire help submit application to the Board of Supervisors for assistance. The aid is given on a basis

of what the rancher needs as in running terrace lines, irrigation work, grass seeding, etc.

Soil conservation is necessary around Sonora because there is a great need to produce more desirable grasses. There is a need to decrease the abundance of weedy vegetation such as oak, cedar and mesquite.

There is also a need to decrease the amount of bitterweed and to improve watersheds to reduce the amount of water lost through runoff.

The need for soil conservation exists not only in this area, but everywhere in the State, the Union and the world.

All life is dependent upon the soil for existence. The lives of not only trees, plants, flowers, and grasses, but also the lives of ani-

mals and people are dependent upon the soil either directly or indirectly for their subsistence.

The need for Soil Conservation Districts everywhere cannot be expressed in full in two, three, four or even fifty pages of writing. It must be expressed by the widespread realization of the importance of the land and by the cooperation of landowners and every individual citizen.

We must remember that the soil cannot remain intact without our efforts to preserve it and we certainly cannot exist without the soil.

SOUTHERN BAPTISTS MADE SIGNIFICANT GAINS IN 1949

Southern Baptist gained 463 new churches last year. They now have 27,285 churches and 6,761,265 members, according to an announcement made by Porter Routh, secretary of survey and information for the denomination. They baptized 334,892 new members last year. This was 24,666 more than in 1948.

Net gain in church membership for the year was 272,044. Sunday School enrollment was up eight per cent to 4,643,650. Training Union enrollment was up 14.5 per cent to 1,235,438. Woman's Missionary Union enrollment was up 10.1 per cent to 943,135. Brotherhood enrollment was up 19.4 per cent to 142,412.

Southern Baptist built \$97,772,047 worth of new church property to bring total value to more than

one half billion dollars. They gave \$178,337,207 for the support of their churches last year. This was \$22,762,803 more than in 1948. Mission gifts last year were \$31,316,818.

Electric arc welders are safe only so long as the operator observes proper safety precautions. All electric farm welders should have safety controls and the frames should be effectively grounded.

Son of a gun

By R. W. Rowley
Investigators at the Texas Agricultural Experiment Station, at Spur, working with a new plant hormone type material for the control of mesquite, found that one of their mixtures showed very definite promise for controlling

prickly pear. C. E. Fisher and his associate, Dale W. Young, made a practice of trying all mixtures they made up for their work on mesquite on other noxious plants in the area and last spring while working with Easter formulations of 2 4 5-T they made up an oil water emulsion that when applied to pear showed quick early action on this plant.

2 4 5-T, like 2 4-D, is a plant hormone and its use as a weed killer was developed to control certain type plants that had not been susceptible to 2 4-D action.

Chemically it may be considered a big brother to 2 4-D and its action when applied to plants is very similar in that it is taken into the plant by absorption and is translocated throughout the plant by normal functions and kills the plant by upsetting the normal growing processes. 2 4 5-T has proven especially useful in controlling briars and brambles and other woody type plants and now is recommended for controlling prickly pear and other cacti.

Fisher and Young recommend that the mixture for pear control be made up by adding enough Easter Formulation of 2 4 5-T to oil to make a 1 percent solution after water is added to the mixture at the rate of one part water to four parts oil. Using commercial preparations the mixture can be made by mixing one gallon 2 4 5-T Ester (containing 3.34 pounds 2 4 5-T acid equivalent) with 32 gallons of oil by stirring

thoroughly and then adding 8 gallons of water and stirring vigorously. Adding components of the mixture as directed, 2 4 5-T to the oil and then adding the water, is essential since the Ester Forms of 2 4 5-T has the necessary agents to make the water emulsify with the oil. Any type oil may be used, however, No. 2 Desil is as a rule the most readily available. If the new 2 4 5-T Ester containing 4 pounds of 2 4 5-T per gallon is used the components are changed to one gallon 2 4 5-T 40 gallons oil and 10 gallons water. Either form of the 2 4 5-T Ester may be used since both have been proven for pear control and the cost is based on the acid content so there should be no variation in final cost to the rancher.

The mixture as made up for pear control is known as an oil-water emulsion and resembles buttermilk in appearance. Application to the pear plant should be made by hand operated spray equipment to assure overall effective coverage and economy of material. Power sprayers may be used, however, care must be used in operating the hand nozzle to get effective coverage without wasting spray material. Since the material is a heavy emulsion the continuous pump, liquid pressure type knapsack sprayer has proven best for the work. The three gallon air pressure pump-type sprayers have not proven

too successful because the nozzles clog and maintenance of the sprayer is costly. The pear plant should be sprayed to get fairly complete coverage of at least one side of every leaf. It is not necessary to completely wet the plant, however, leaves not sprayed may fall to the ground and sprout.

Business Failures Increase

Twenty-one businesses failed in Texas during February as compared with 21 in January and 12 in February 1949, Dun and Bradstreet reports to the Texas Bureau of Business Research showed. Liabilities per failure averaged \$76,000 in February, \$31,000 in January, and \$35,000 in February 1949.

YOUR HEALTH

Deaths from cancer in Texas reached a total of 7,271 during the past year, indicating that a warning against cancer quacks and so-called cancer cures is justified by the State Health Department. Early diagnosis and competent treatment could have prevented many of these deaths, states Dr. Geo. W. Cox, State Health Officer.

"There are but two ways of treating cancer. First, by surgery and second, by the use of radium or x-ray. Treatment must be started early and in the hands of a competent surgeon. Surgery is relied upon to remove cancerous tumors and is used in nearly two-thirds of the cases. X-ray or radium is used to advantage for the remaining group. Frequently the two methods are combined. Self-medication, serums, colored lights, pastes, salves, and diets are valueless.

"The great protection against cancer is early diagnosis. Every case is an emergency and it is unfortunate that the majority of those with cancer do not seek medical advice early in the first stages of the disease. No hope should be placed in fake cancer cures or treatments. Rather, the annual physical examination and an immediate reporting to your

46 Years Ago

County Attorney L. J. Wardlaw and Mrs. Wardlaw arrived in Sonora last Friday from Ballinger and will make their home in Sonora.

R. H. (Bob) Flutsch, one of the best fixed stockmen in Sutton County, was in from his ranch in the Breesy Bluff neighborhood this week serving on the grand jury; his sister, Miss Judy, was also here visiting friends.

Pat Sullivan, the butcher, returned from a visit to his home in San Saba Monday and says he had a fine time.

Ruben Caruthers and family moved to Del Rio Tuesday where they will make their future home. We wish them success in their new home.

Halbert Brothers sold their m-hair at 40 cents for kid, 33 cents for mutton and 31 for doe wool. Their clip was 12 months from 2,600 goats including 1,300 kids and netted \$2,132.04.

Services will be held at the Episcopal Church on Sunday, April 5, both morning and night. At the close of the morning service the Holy Communion will be celebrated. At night Mr. Mercer will take for his subject "What Must We Do To Be Saved?"

physician of any symptoms which may be suspected to be the beginning of cancer should be relied upon. These symptoms are: any unusual bleeding from any body opening, any lump in the breast or other part of the body, any persistent sore, particularly on the face or mouth, and chronic indigestion. These conditions may not be cancer, but sometimes they are forerunners of the more common types of this disease. When cancer is suspected, do not delay, but consult your physician at once."

THE DEVIL'S RIVER NEWS

**McCarvers Hosts
At Rehearsal
Dinner**

Mr. and Mrs. R. M. McCarver entertained Wednesday night at their home with a dinner for members of the McCarver - Ward wedding party.

The meal was served buffet style from a table laid with a gold cloth and centered with arrange-

ments of yellow daisies in crystal holders. Tapers in silver holders were at each end of the table.

Those present besides the hosts and honorees were the Rev. and Mrs. J. E. Eldridge, Mr. and Mrs. J. A. Ward, Mrs. W. J. Shirley of Lubbock, Miss Glenda Shirley of Lubbock, Miss Peggie Reiley, Miss Patricia Ward, Norman Crites, Miss Lena Lanier and Jimmy Ward and Tracy Crites.

Mrs. M. E. Genrich received a broken arm last week when she slipped and fell on the sidewalk in front of the First National Bank.

Charles Genrich, son of Dr. and Mrs. M. E. Genrich, is ill at home this week.

Mrs. Thomas Espy was hospitalized in San Angelo early this week, but has since returned home and is reported greatly improved.

Attend SOME Church Sunday.

**McCarver - Ward
Nuptials Read
Thursday Noon**

In a ceremony performed Thursday at high noon at the First Baptist Church, Miss Helen Jean Ward, daughter of Mr. and Mrs. A. J. Ward, became the bride of Robert McCarver, son of Mr. and Mrs. R. M. McCarver. The Reverend J. E. Eldridge read the nuptial service. Miss Peggy Sue Reiley sang "Because," accompanied by Miss Edith Eldridge.

The bride, who was given away by her father, wore a traditional white satin gown with elbow-length veil of illusion and carried a bridal bouquet of white lilies and white roses. For "something borrowed" she carried a white prayer book, and for "something old" she wore a pair of pearl earscrews.

Matron of honor was Mrs. E. R. Hoover of Lubbock who wore a pale green gown. Bridesmaids were Patricia Ward, who wore pink, Glenda Shirley who wore blue and Lena Lanier who wore orchid. The bridesmaids' dresses were styled alike and all carried white carnations.

Best man was Norman Crites, and Jimmy Ward and Tracy Crites were ushers.

Mrs. Ward, the bride's mother, wore a navy blue frock with pink accessories and pink carnations, and Mrs. McCarver, mother of the groom, wore black with pink accessories and a pink carnation corsage.

Following the marriage ceremony, a reception was held in the basement rooms of the church. Sixty guests attended.

After a wedding to Galveston, the couple will be at home here.

**MRS. LOWE ENTERTAINS
CLASS WITH EGG HUNT**

Mrs. Shelley Lowe entertained her Methodist Church Sunday School class with an Easter Egg hunt Wednesday afternoon on the Court House lawn. Sandwiches, cold drinks and cookies were served.

Cindy Galbreath won a prize for finding the golden egg.

Present were Gil Allison, Diana Cahill, Allison Espy, John David Fields, Cindy Galbreath, Mary Lou Glascock, Jan McClelland, Judy Lancaster, Sandra Newton, Kara Lynn Rogge, Linda and Bubba Thompson, Judy and Johnny Mc-

The bride is a junior in the high school here. The groom attended the Baird schools and served as gunners mate in the Navy during the war.

Out of town guests included Mrs. W. J. Shirley and daughter, Glenda of Lubbock, Mrs. E. R. Hoover and Ronny and Cheryl of Lubbock, Mr. and Mrs. R. L. Ward of Rankin, Mrs. George Stringer and daughter of Tacoma, Wash., and Guy Young of New Deal.

Mrs. Birdie Rutledge has returned from a six weeks' stay in El Paso.

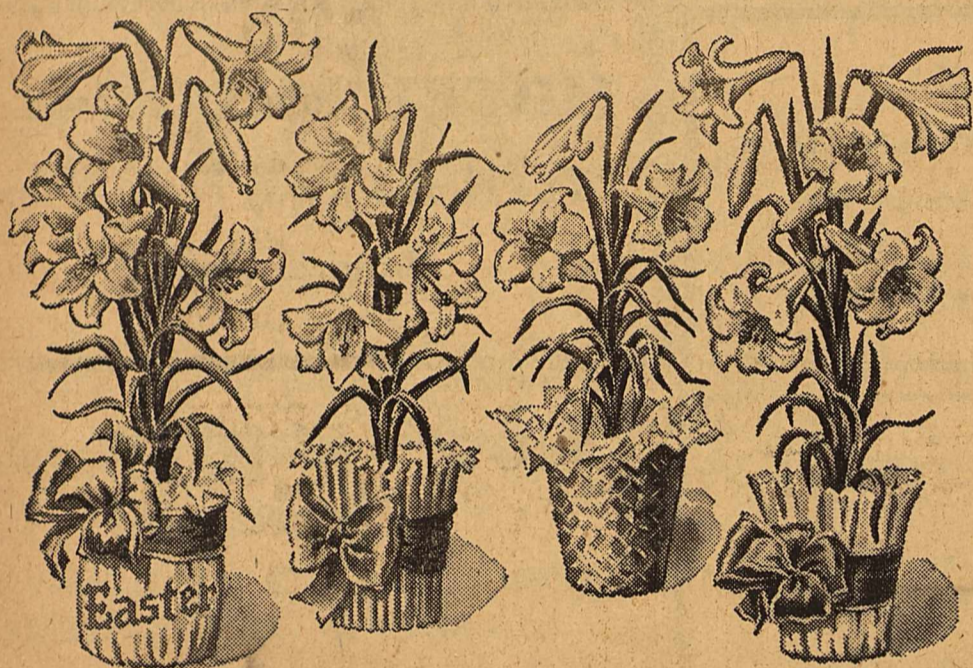

Calmont, Joe Ann Lowe, Jimmy Wilson, Randy Fawcett, Karen Trainer, Claire Margaret Schwiening, Sandra Jean Scott, Donnie and Carolyn Hay, Janet Johnson, Robert Kelley, Jr., Libb Mills Wallace and Arthur Trainer.

Mr. and Mrs. W. R. Emmons spent the weekend in Madisonville, where they visited her mother, Mrs. J. A. Risinger.

Lee Patrick was taken to a San Angelo hospital Sunday night suffering from influenza. He is improving.

**White Starched Neckwear Hailed
As 1950's Leading Easter Fashic**

Starched whiteness will be the fashion theme on Easter. Collars, cuffs and blouses of white pique or organdy, inspired in Paris and executed in America, will grace church-going suits and dresses with the distinction of stately lilies.

Pierre Balmain's permastarched organdies started it all in mid-winter by appearing in the biggest collars and cuffs in recent couture history. Since then, Pierre has designed the originals of many more lingerie-fabric trimmings and blouses which, along with Jacques Fath's restrained versions of tailored neckwear and Christian Dior's dramatic white pipings running the full length of stalk-slim dresses, have set the American fashion stage for the most flattering but practical mode in decades.

"One swallow doesn't make a summer," said poet Heywood, but "one starching makes a spring" is the paraphrase adopted by American designers, to whom practicality is an indispensable factor. In 1950, the wardrobe category known as "neckwear" has ceased being a fashion out-cast because of the laundry upkeep which used to be involved. Thanks to three modern washing techniques — residue-free detergents, Perma Starch which stays in fabric through a season's washings, and efficient steam irons which glide like magic — keeping collars and cuffs immaculate is as easy as "doing up" pocket handkerchiefs.

Virtually every well-dressed woman going to Easter services, from Fifth Avenue to Elm Street, will have a face-flattering touch

Pat Quinlan models one of spring's most dramatic starched collars, a shoulder-reaching, line-cape design with braid trim, perfect for suits and simple frocks of white pique, linen or organdy under her chin. The new spring neckwear ranges from minimum tailored bands to shoulder-reaching models trimmed with braid and lace. Some collars button high, others dip with the neckline, and still others wear flowers. And for those who want to spice their Easter navy or brown with exceptionally eye-catching results, there are many of the same collars, with equal launderability, in daffodil yellow. Yes, the theme song used to be: "In your Easter bonnet..." Now it's milady's collar which leads the holiday boulevard parade.

**MISS WARD HONORED
AT TEA SATURDAY**

Miss Helen Jean Ward, bride-elect of Robert McCarver, Jr. was feted Saturday with a gift tea given by Mesdames J. A. Letsinger, W. O. Crites and B. H. Crites.

Receiving with the hostesses and honoree were Mrs. J. A. Ward, mother of the bride-elect, and Mrs. Robert McCarver, mother of the bride-groom-to-be. Miss Flora Dell Davis registered guests, and

Charles Oatman, Jr. of Hobbs, N. M. visited his father, Charles Oatman, and Mrs. Oatman, Tuesday and Wednesday.

Misses Beverly Smith, Peggy Sue Reiley and Peggy Ann Willman presided at the tea table.

Pink and white carnations were used, the tea table being centered with an arrangement of pink gladioli. Pink daisies decked party rooms. About 90 called during the tea hours.

**CHURCH GROUP TO OPEN
ANTIQUUE SHOW MONDAY**

The First Annual San Angelo Antiques Show and Sale will be held in the St. Angelus Hotel ballroom next Monday, Tuesday and Wednesday, according to Mrs. Ed Willoughby, representative of St. Catherine's Guild of Emmanuel Episcopal Church, sponsors of the show.

The show and sale will be open from ten o'clock in the morning until 10 o'clock at night each of the three days, Mrs. Willoughby said.

LITTLE THINGS about the Stars
TELEVISION - RADIO - HOLLYWOOD

By GEORGE LILLEY

NEW YORK, N. Y.—Bob Shaw, 33, is among the most successful script writers in radio. For the last five years he has teamed with producer-director Ed Byron in getting out NBC's top-flight Wed. nite

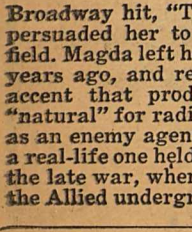

Bob Shaw ... on the road

(15-million listeners) "Mr. District Attorney." Shaw, from Milwaukee, the home-town of the show's star, Jay Shostyn (they had never met), crashed radio in an unique manner. He had a local printer make up copies of a page simulating the press section of Time magazine. Across the top of a story about himself, Shaw scrawled such notes as "Niles"—or "Bill"—"have you seen this kid?" sent them to 200 radio executives. Sixty offered him jobs. Currently the writer is on a national lecture tour giving a backstage picture of radio. This includes some straight talk on the much maligned effects of crime prevention programs on children.

GIRL SPY

Magda Gabor, eldest of three glamorous sisters, is the latest to enter show business. The vivacious Hungarian girl has been signed to play the role of a foreign secret agent ("Anna Zekelli") on CBS' popular daytime "The Second Mrs. Burton." Married to a prominent New York attorney, Magda is somewhat the socialite of a beautiful family. Her sisters, Sari, wife of actor George Sanders, and Eva, currently in the Broadway hit, "The Happy Time," persuaded her to enter the acting field. Magda left her homeland three years ago, and retains a charming accent that producers consider a "natural" for radio spying. Her role as an enemy agent is the reverse of a real-life one held by Magda during the late war, when she worked with the Allied underground in Hungary.

Magda Gabor ... reverse role

ON THE CAVALCADE

Richard Widmark: Prolific radio-theater actor turned movie star. As sadistic gangster "Tom Udo" in "Kiss of Death," Widmark became an overnight hit in one film. In real-life the tall, slender actor is a reticent, quiet-spoken ex-dramatic teacher from Sunrise, Minn. Recognized early for his radio ability by Du Pont's "Cavalcade of America" (Tuesday nights, NBC), Widmark returns as star of that program's end-of-the-month

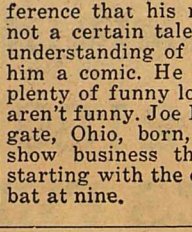

Richard Widmark ... Sunrise boy

drama, "General Forrest Rides Again." He'll play the role of "Maury Reynolds," third mate, Liberty ship "Bedford Forrest," who strived to see that his ship lived up to its famed Civil War namesake, General Nathan Bedford Forrest. The General authored that classic prediction of the military victor—the one who gets there "first with the most."

THE THREE "L's"

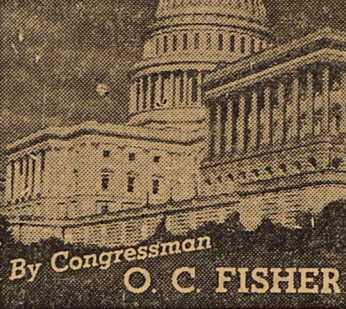

Joe E. Brown: Serious minded comedian. He told a Fri. nite NBC radio-TV "We the People" audience that "the three R's are all right, but better are the three L's—Love, Learn and Laughter." For his four years of wartime overseas USO work, Joe was the second person to receive the U. S. Army's highest award to civilians, the Bronze Star (the first: Ernie Pyle). Famed for his wide-mouthed grin, Joe is sometimes miffed by the in-

Joe E. Brown ... miffed

ference that his mouth alone, and not a certain talent, liking and an understanding of people, has made him a comic. He says he has seen plenty of funny looking people who aren't funny. Joe Evan Brown, Holgate, Ohio, born, 57, has been in show business the last 48 years, starting with the circus as an acrobat at nine.

Our WASHINGTON Letter

By Congressman O. C. FISHER

After a week of House debate, the ECA bill was passed last Friday; the House heard news of the signing of the cotton and peanut bill by the President at Key West, and braced itself for a 10-day review of the \$29 million omnibus tax bill. The latter bill will be interrupted by a few days' rest during the annual Easter holiday period.

The European aid bill will cost \$2.7 billion, a considerable reduction from a year ago, and was cut to that figure by an amendment on the floor of \$250 million— for which I voted. But in addition a hundred million was carried for Korean aid, and, of all things, \$27 million for the relief of Arab refugees who have been uprooted from their homes in Palestine. For technical aid under Point Four (aid to backward areas) the bill included \$25,000,000.

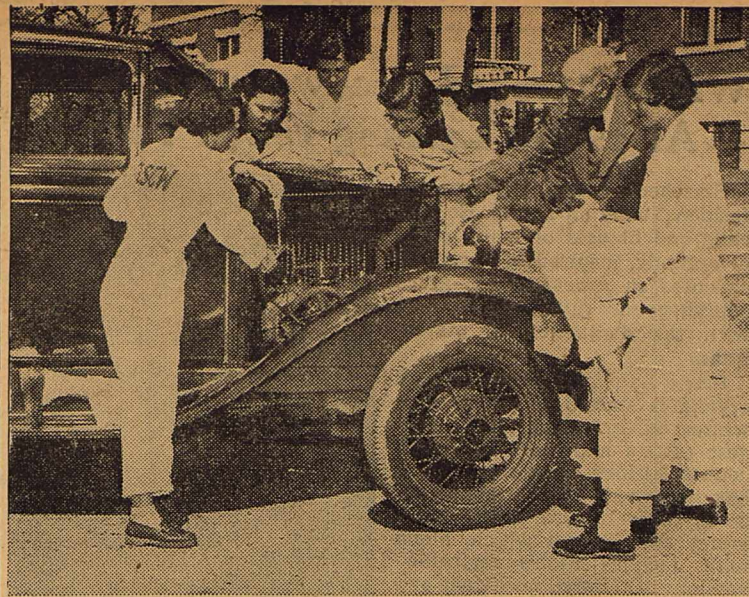

Many of us felt the latter to be non-essential but the best we were able to do was to reduce the amount to that figure. The trouble is it will probably be the beginning of more demands for the same purpose, year after year.

The measure was finally adopted by a vote of 287 to 86. I voted for the bill as amended.

NATURAL GAS BILL PASSED

The House also took an hour to debate and pass the bill exempting independent gas producers from Federal price regulation. It was a photo-finish victory, the vote being 176 to 174. For about the first time since the Speaker was elected, all Texans in the House voted together in support of this measure.

Actually, it was an important States' rights bill, leaving the individual States the right to regulate the price of gas purchased from independent producers before it reaches the pipe lines. A provision to this effect was written into the 1938 Natural Gas Act. But the Supreme Court indicated in a decision that the Federal Power Commission might have jurisdiction over the whole field—both interstate and intra-state. This measure, which now goes to the President, will remove any

doubt about that. It will leave control over the small independent producers—including many small farmers who have a gas well or two—to the States and avoid more concentration of power in Washington. That's the way it has been all through the years.

ODDS AND ENDS
The current Senate race in Florida is the most talked about subject around Capitol Hill these days. The election is only a month off and the decision will be final, Florida being a one-party State. A week ago the dopesters were picking Rep. Smathers. Now they say it's a toss-up, and that Senator Pepper is gaining due to CIO activity down there. A huge CIO task force with money pockets bulging was called in, according to reports, to get the Negro voters registered before the deadline on April 1. The inducement is said to be up to \$3 a voter. And thousands of the colored folks flocked in to beat the deadline. They'll every one vote for Pepper, of course.

Young Smathers has a lot of good-will around the House where

NOTHING A GOOD HAIRPIN CAN'T FIX

President L. H. Hubbard of Texas State College for Women in Denton explains the intricacies of a car, vintage unknown, which these six TSCW students recently purchased. The vehicle was one of the first to appear on the campus following a ruling to allow senior students to keep cars at the college. Corporation owners from left to right are Misses Juanita Nash, Ryan, Oklahoma; Janell Kaderli, San Marcos; Jennie Krudys, Wallington, New Jersey; Jane Richardson, New Orleans, Louisiana; Jonel Rogers, Galena Park; and Norma Lou Jones, Camp Hood.

he has served and made friends for four years. He voted for the Taft-Hartley law, against the FEPC, and has shown other evidences of independence against the domination by pressure groups where the public interest was involved.

MISSOURI usually gets about what it wants around Washington these days—and did again last week, at the expense of the Lone Star State.

At stake was a place on the House Agriculture Committee, previously filled by Rep. Worley of Amarillo, recently resigned to accept a Federal Judgeship. A committee caucus snatched the spot away from Texas and gave it to a Member from the Mule State. The Ways and Means Committee makes all committee assignments. But the Committee usually reflects the wishes of the party leaders in such instances. J. M. Combs of Beaumont, successor of Martin Dies, represents Texas on the Ways and Means group. This action upsets an arrangement of some 20 years' standing whereby Texas with its tremendous diversified agriculture empire has rated two on the farm Committee of the House. One Texan, Bob Poage, of Waco, will remain. He is able and energetic, and aside from looking after the purely farming interests, has gone to bat repeatedly for the cattle, sheep and goat raisers.

More Miles per Hour
—More Hours per Day!

We are not talking here about excessive speed. Sensible people, regardless of the power they have at their command, obey the laws of the highway and the rules of safety. We are talking about *distance*—about the miles you can cover at the wheel of a 1950 Cadillac—entirely within the legal limits. First, let's consider an hour . . . You settle yourself comfortably into the deep-cushioned seat, touch the soft-throated engine into action—and within a matter of minutes, you begin to understand what we mean. When the light turns green, your rightful place in the traffic line is definitely assured. You take easy advantage of every opening that presents itself. On the hills and grades, you merely give the engine a little throttle—and float on up without the slightest loss of speed. Braking is so certain, steering so easy, power so abundant—that you move instinctively ahead at every opportunity. And at the end of an hour, you can scarcely believe the odometer. Did we say an *hour*? It seems little more than *half* that time! You're so relaxed and at ease that not until the sun shows red in the west do you realize that you've been sitting behind the wheel for a *much* longer time than you'd planned on driving today. And how wonderful you feel! Both you and your passengers are carefree and happy as you decide to call it a day. Maybe just a little bit hungry—because you probably forgot to stop for lunch! And where did you get to? Most owners say it's a *good one hundred miles* beyond their expectation. Better come in and see about this. You'll need only an hour—because an hour will reveal what a day would be like.

A LOOK AT THE BOOK

By DR. BOB JONES, JR.

PRESIDENT OF BOB JONES UNIVERSITY GREENVILLE, SOUTH CAROLINA

The King of Glory entered the gates of Jerusalem riding upon the foal of an ass. Before Him the populace laid their garments in the way and with the waving of palm branches and with shouts of hosannas, they welcomed Him into the City of David. The Pharisees, jealous and fearful of His power over the people, beholding the scene, said among themselves, "Perceive ye how ye prevail nothing? behold, the world is gone after Him" (John 12:19). Crowds thronged to Him, drawn by the miracles which He performed. A woman who has suffered much at the hands of physicians and whose illness was still uncured touched Him for healing as He moved through the streets of a city with the throngs surging about Him, and the touch of faith brought health flowing into her through the hem of His garment. He drew by the wisdom of His words. He drew them by the force of His

divine personality. Strange, sad sights the crowds must have presented. They came; and there is no record that any having faith went away with need unmet.

But Christ who drew the crowd, lost the crowd. He spoke of a cross, of suffering, and death. Some who had followed for loaves and fishes had no desire to drink of that cup or eat of that bread. They came to take blessing and healing from His touch, but shrank from the curse of the cross. It has ever been so. Down the years there have been many who professed themselves followers of Christ, when there was something to be gained by a connection with His Church and an association with His name, but whose profession was retracted and whose devotion failed when persecution raged and the enemies of Christ were in power. But the crowd will be regained. Because He "endured the cross, despising the shame," the Kingdom shall be His. Because He suffered, He shall reign. Because He as a sheep before the shearers was dumb and opened not His mouth, every tongue shall confess that Christ is Lord.

He draws them now—not the bultitudes—but some hungry-hearted, needy ones, some who are willing to walk a narrow way and bear the shame of His cross. He draws them, some out of every "kingdom and tongue and nation"; but the day is coming when all the hosts of men shall acclaim Him, when the words which His enemies, the Pharisees, spoke in bitterness that day amid the swelling hosannas shall have become the truth—"Behold the world is gone after Him!"

SUBSCRIBE TO THE NEWS

HORNFLIES APPEARING NOW MEAN LOSS OF DOLLARS TO RANCHMEN

A tiny fly, grayish to black in color and about 3/8 of an inch long about this time of the year or a little later begins to rob the livestock producer of pounds of beef and dollars that could be profits. This small bloodsucker, according to James A. Deer, assistant extension entomologist of Texas A&M College, is the hornfly.

It is seen principally on the head, neck and shoulders of cattle often in great numbers and if permitted to multiply, they may cover 50 percent of an animal's body, says Deer. The hornfly has a very short life cycle -- 10 to 14 days. This factor, points out Deer, makes it possible for very heavy infestations to build up in the spring before the producer notices their presence. Control measures should be used early to check the multiplication in the first generation. The first spraying is very important and may reduce the total number of sprayings needed during the summer. Animals should be given the first treatment when the fly population reaches an average of about 25 flies per animal.

Deer says there are two insecticides which will give very effective control against the hornfly. DDT has been successfully used for several years and a 5 percent spray or dip will give excellent results. Toxaphene is the other recommended material and it is also used at a .5 percent strength.

It is recommended only for use as a spray. Deer adds that toxaphene has given equal or superior results when compared to DDT for hornfly control.

He points out that numerous tests have shown that cattle kept free of hornflies gained from 10 to 20 pounds more per month than those not treated. Ten pounds of 40 percent wettable toxaphene or eight pounds of 50 percent wettable DDT in 100 gallons of water and used as a spray will protect cattle for a period of 20 to 45 days says Deer.

PAMPHLET ON BUG CONTROL AVAILABLE FROM AGENT

Home gardeners and truck crop producers in many sections of the state are already busy at the job of keeping destructive bugs out of their vegetable crops. The fight will soon be general over the entire state and chances are good the bugs will put up a stiff scrap for their share of the products raised on the farm and in the garden. A show of weakness on

the part of the producer may be fatal for the vegetables.

James A. Deer and Allen C. Gunter, extension entomologists of Texas A&M College, have prepared a circular, C-264, VEGETABLE INSECT CONTROL that is full of useful information on insects and insecticides. They point out the need for complete control and describe the insecticides that have given the best results. Recommended control measures are listed for all of the more common vegetable insects found in the state.

The entomologists suggest that you visit your local county extension agent's office and ask for a copy of C-264. It is free for the asking.

Ten pounds of 40 percent wettable toxaphene or eight pounds of 50 percent wettable DDT in 100 gallons of water used as a spray will protect cattle for a period of 20 to 45 days.

Come treat your Buick to our big Spring Special!

Here's rollicking good news for you! We can take that noble Buick of yours, and in a few short hours we'll put new life—new pep—new spring zing into it!

You'll hardly know your own car. You'll have to lay a gentle toe on that gas treadle—or look for your hat in the back seat.

Because our mechanics are Buick specialists right to their fingertips—men who know your car and its needs from long experience. Because they use Buick methods, special Buick tools, factory-engineered parts, to bring out the best in your Fireball baby. And because that big 17-step maintenance and tune-up routine we show below is just about the finest, most complete way to get your motor ready for really lively spring driving!

Just check those 17 big items in your mind. How long since your Buick has had these important attentions? And how about coming in this week?

These Spring Services will save GAS—OIL—WEAR—AND MONEY!

1. Drain crankcase and refill with summer grade oil.
2. Clean and adjust spark plugs.
3. Clean and adjust distributor points.
4. Clean carburetor screen; adjust carburetor.
5. Scientifically time ignition.
6. Adjust valve tappets for proper clearance.
7. Completely tune engine for peak performance and mileage.
8. Adjust generator charging rate.
9. Test battery; clean and coat terminals; add water.
10. Repack and inspect front wheel bearings.
11. Inspect brake linings and drums.
12. Drain and flush out cooling system.
13. Tighten all hose connections.
14. Adjust fan belt tension.
15. Tighten cylinder head bolts with special torque wrench.
16. Fill steering gear housing with lubricant.
17. Complete LUBRICARE chassis lubrication and inspection.

SPECIAL EASTER SERVICES
We invite you to worship with us at The Methodist Church Sunday morning at 10:50 o'clock. The Pastor will bring the Easter sermon at that time. Bring your friends with you.

There will be those present who will be coming into the membership of the church. We welcome them, and also others who may want to find a church home with our people and church.

Last Sunday we had four additions to the membership of The Methodist Church. The little son of Dr. and Mrs. Joe B. Logan and the little daughter of Mr. and Mrs. Ariel E. Newton were baptized at the morning service. Those joining the church were Ariel E. Newton, Joe Friess, Marsha Ann Kerbow and Barbara Chalk.

The Methodist Church is a church of friendly people. We are here to serve the community in any way we can. If you are not attending Sunday School or church at some other church, we would be glad to have you worship with us. If we can render you a service in any way, call 22791, if no answer, please call 21821. And you can call us any time, any hour of the day, and we will be glad to help.

Into thin air...

As any woman knows, even the best perfume will evaporate into thin air if the stopper isn't replaced properly.

It's the same way with money. On payday, you feel so wonderfully wealthy — but suddenly, if you don't watch out, your cash seems to be vanishing into thin air.

There's one good way to put a stopper on money-evaporation. All you do is sign up for the Payroll Savings Plan where you work (or if you work for yourself, join the Bond-A-Month Plan at your bank) and a certain amount is deducted automatically from your salary.

It's painless — you'll never miss the money. It's safe — you've got Uncle Sam backing up your investment. It's profitable — \$4 for every \$3 after ten years.

And what a happy feeling to know that a part of your salary is tucked away for the future!

Automatic saving
