Sonora Feed and Supply is starting a new warehouse (4,450 square feet) and its completion will give Sonora a solid two blocks of warehouses on Santa Fe siding, plus a little extra near the depot. Construction will be wood frame and tin siding and the new building will house the company office. Foxworth-Galbraith has the contract. Building cost was not officially released, but if you had a lot and 200,000 nickels you could build one just about like it.

This & That Dept.- Game Warden Ted Wheelis found that making the arrest and appearing at the trial doesn't always end a game warden's job. Last week, he loaned lunch money to two deer hunters who were awaiting trial. One of the nicest things about the Iraan game here was the prayer given by the Rev. Fr. Cyril Hermann before the opening whistle. It is the request of the district committee that all games be preceded by a prayer. Joe Morrison is a new member of the Baylor University band. Halbert & Fawcett have entered nine head of cattle in the Polled Hereford Division at the American Royal in Kansas City. J. In Belgium 90% of the people vote in national elections. In Italy 89% vote. In England 83% vote. In the United States 51% voted in 1948.

There have been few years in our history when an election was as important as this one. In 1880, 78% of the eligible American men cast a ballot, yet in 1948, with both men and women eligible to vote, a little over half of them took the trouble.

On November 4 we Americans are going to make the most important presidential decision since Washington was elected. Won't you take the trouble to vote?

### Elaborate Preparations In Making For Miss Wool's Coronation Nov. 10

A scene of rolling hills with a large golden moon, beautiful girls walking along a winding stone path no this is not a description of a dream, it is the scene you will see when you attend the State Wool Fashion Revue.

Visitors to the Revue to be held in San Angelo November 10-12 will have the opportunity to see the most elaborate stage setting ever to be unveiled in the City Auditorium. This setting will be used to show the public the many garments of the Wool Revue and to introduce Miss Wool and Her Ten Pretty Maids.

The \$6,000 stage will take seven men approximately six weeks to complete. Pat Henderson designed the setting especially for the State Wool Revue being held in conjunction with the Texas Sheep and Goat Raisers' Association Convention. Mr. Henderson has been in the Display business in San Angelo for the past five years.

Materials for the stage include papier-mache, hundreds of yards of woolen fabrics from the woolen-mills of America, and \$800 turntable and several hundred pounds of stone, all in order to give the audience the effect of a beautiful outdoor scene.

This is just another of the many projects planned to make the State Wool Revue and the first "Miss Wool" contest an outstanding success.

Any girl between the ages of 18-25, unmarried, 5'5" in heels, and able to wear a size 12 dress, is eligible to enter the contest.

A \$2,000 wardrobe is awaiting the winner along with a tour of Texas and an all-expense paid trip to Chicago in December to the National Wool Convention.

Deadline for entries in the contest, which is October 10, is drawing near and all girls wishing to enter are ask to write immediately to "Miss Wool", Box 712, San Angelo, Texas.

### Wool House To Handle Loans Under Program

Sonora Wool and Mohair Company has been approved to handle loans under the 1952 wool support price program according to an announcement made by C. H. Moseley, southwest area commodity director, U. S. Department of Agriculture's Production and Marketing Administration, Dallas. Southwest commodity office helps handle price support loan programs for farmers and ranchers in Texas, New Mexico and Oklahoma.

As an approved handler, Sonora Wool and Mohair Company will act as an authorized agent for Commodity Credit Corporation in approving loans on wool. Also, the company will act as agents for growers in obtaining loans on their wool.

Freedom is not a right that just happens. There is no magic way to freedom. We have to work, sacrifice and sometimes fight to keep it alive. We, in America, have lived so long in freedom, that we are prone to take all of our liberties for granted, and when that happens, there is grave danger of losing them.

### Soil Conservation District News

The recent heavy rains that fell in Fredericksburg area again prove in soil and moisture conservation. The value of good cover of grass. Soil Conservation Service technicians at Fredericksburg made moisture penetration studies following the 20 inches of rainfall on the Otto Schumann ranch at Aylbert, Texas. The first 8 inches of rainfall came slowly, but was followed by an additional 12 inches that came at the rate of inch per hour.

The amount of grass cover and surface crusting of the soil are primary factors regulating the amount of moisture that enters the soil. A poor cover of threeawn (needlegrass) with surface crusting of soil used 4 of the 20 inches of moisture received and penetrated to a depth of 24 inches. A poor cover of buffalograss with surface crusting of soil used 3 inches of moisture and penetrated to a depth of 20 inches.

Threeawn (needlegrass) with a fall litter and grass cover with no surface crusting of soil took in 8 inches of the twenty received and penetrated to a depth of 48 inches. A fair cover of buffalograss gave the same results as the threeawns

**Mrs. Cusenbary To Head Local Vote Campaign**

The Sonora Woman's Club has named Mrs. B. H. Cusenbary as local chairman of the Americanism Campaign for the General Federation of Women's Clubs.

The objective of such a campaign is to revive a greater interest in our way of life, to conduct a campaign to GET-OUT-THE-VOTE, to return to family prayers, grace at meals and to the ideals of our pioneer forefathers.

Mrs. Charles F. Browne, President of the club, said, "Freedom is not a right that just happens. There is no magic way to freedom. We have to work, sacrifice and sometimes fight to keep it alive. We, in America, have lived so long in freedom that we are prone to take all of our liberties for granted. When this happens, we are in danger of losing our freedom."

"We believe that the time has come when we must urge our people to stop, take stock of our great heritage and then go out with a religious fervor to do all in our power to preserve the American Way of Life—our priceless possession. Every American should join us in this crusade."

**QUESTIONS AND ANSWERS FROM VETERANS ADMINISTRATION**

Q - - May I attend a foreign school under the new Korean GI Bill?

A - - Yes, so long as you meet the eligibility requirements of the new law, and so long as the school is an approved institution of higher learning. VA has the right to deny or discontinue a veteran's foreign training, if it finds that the training "is not for the best interest of the veteran or the Government."

Q - - A veteran and his wife were both killed in an automobile accident. He had a \$10,000 National Service Life Insurance, with his wife as beneficiary. He had named no secondary beneficiaries. What happens to his insurance?

A - - The proceeds of his insurance policy would normally be paid, in one sum, to his estate.

Q - - How much can a veteran borrow on his permanent National Service Life Insurance policy? Also, what's the annual interest charged on such loans?

A - - A veteran may borrow up to 94 percent of the reserve value of his policy if the policy has been in force for a year or more. The interest rate is four percent per year.

Q - - I am a World War II veteran, and I expect to get my degree in Business Administration, which I studied under the GI Bill. After I finish, may I take a course in accounting at a business school? Would such a course be considered a "normal progression" from my Business Administration training? The July, 1950, GI cut-off-date applied to me, by the way.

A - - You would not be permitted to take the accounting course under the GI Bill. The reason is that completion of your Business Administration course is not a prerequisite to enrollment in the second course.

**YOUR HEALTH**

Poor eyesight can make a child "slow" in school. Uncorrected visual defects can cause a normally bright youngster to dislike school, fall behind in his class and become self-conscious about playing sports and games, says Dr. Geo. W. Cox, State Health Officer.

A child will rarely complain about poor vision. It may be blurred, he may see double, yet in three cases out of four, he will not tell anyone because he does not know how well he should see. That is why it is so important for parents and teachers to know the symptoms of eye trouble. An intelligent child may be victimized by poor vision both at school and with his playmates.

Too often a youngsters' eyes are neglected because no one knows that they will need care, Dr. Cox points out. For this reason, visual tests should be continued throughout the child's school career.

Some of the symptoms which may mean that a youngster has eye trouble are:

1. Rubs eye often, attempts to brush away blur.
  2. Becomes irritable when doing close work.
  3. Blinks more than usual, stumbles or trips over small objects.
  4. Is over-sensitive to light; can't play games requiring distance vision.
  5. Red-rimmed, encrusted or swollen eye lids.
- When any of these symptoms are present, those responsible for the child's condition should have his eyes examined at once. Early correction will save many days of unpleasantness and possibly blindness.

**Appreciate America!**

The first pre-requisite in preserving our representative form of government is to exercise our right of the franchise. Go out to vote. Elect men and women who not only believe in representative government, but who practice it. Do not complain about laxity in government, yet sit idly by doing nothing about it. Vote! Elect those whom you know and believe in and can count on.

## IT'S THE LAW in Texas

A public service feature  
of the State Bar of Texas

### CHECK LIST FOR RETURNING SERVICEMEN

Have you put your affairs in order since your were released from military service? Here is a partial list of this to check.

Have you filed the original copy of your discharge papers with your County Clerk? This is important to insure that a record of your discharge papers always will be available. It protects you against future loss from theft, fire or negligence. Should you lose your discharge papers, the government will give you only a certificate stating that you were in service, but giving no other pertinent information. County Clerks throughout the state accept your discharge papers for filing without cost, and thereafter you may obtain certified copies whenever the need arises.

When you entered military service, did you execute a power of attorney so that someone would be able to act for you during your absence? If you now want complete control of all of your affairs,

you must cancel any contract which gives certain powers to someone else.

If you have had a will prepared, has it been revised to suit changed conditions? For example, if you have married or if another child has been born to you and your spouse, you will want to check your will to make sure that all of your dependents are provided for. Changes in tax law, judicial decisions and administrative actions by the Treasury Department, too, could affect the provisions in your will. Especially is this true if the government has passed a new revenue act since your will was prepared.

Are the beneficiaries named in your life insurance policies now correct? Is the amount adequate now in the light of the present deflated dollar? It is important to note that, unlike World War II veterans, Korean veterans must act within 120 days after release from duty in order to continue their government insurance.

Did you change your automobile license and insurance to the name of another person? If your car was not used for business purposes

during your absence, you perhaps were granted a reduced premium. Is the insurance you carry now adequate for the purposes for which you use your car?

Did you take advantage of certain provisions in the Soldiers and Sailors Civil Relief Act to protect you from further liability for leases or contracts after you entered service? This act provides for immunity from court action only during the time you serve in the armed forces. Did you miss any payments on your home while you were in service- You now are liable for interest which occurred on the unpaid balance during the years that payments were postponed. These debt were not forgiven and that you are a civilian again, you must take up your postponed responsibilities.

Have you applied for reemployment in your old job? Application must be made within 90 days after you are released from service. If you do not return to your former job, it will be helpful to your former employer if you notify him as to your decision. The 86 local offices of the Texas Employment Commission and the Federal Bureau of Veterans Reemployment Rights are equipped to protect your rights and assist in returning you to your pre-service employment status. No charge is made for this service.

A pamphlet explaining procedures to safeguard your reemployment rights can be obtained by writing the Bureau of Veterans' Reemployment Rights, Room 222 Commercial Building, 1100 Main Street, Dallas 2, Texas.

(This column, based on Texas law, is written to inform-not to advise. No person should ever apply or interpret any law without the aid of an attorney who knows the facts, because the facts may change the application of the law.)

A growing paralysis of irresponsibility is creeping through the United States today. We think only of rights and privileges-not responsibilities.

Vote! Vote American. Preserve our great heritage.

The desire to be free does not depend upon boundary lines or treaties. Freedom depends upon the people.

We, in America, have lived so long in freedom that we take our liberties for granted.

The Democracy in our Republic is built on a religious foundation—yet many of our young people receive no religious training. How can we make the rest of the world believe in our way of life unless we believe in it ourselves?

Today, too many hesitate to display patriotism because they are afraid of being called isolationists.

Religion to be true and practical must imbue the individual with a desire to do good for his fellowmen.

The founders of this great nation accepted their responsibilities without equivocation. They did not shirk their duties as citizens.

If we are to preserve our representative form of government, we can do so only if the character of our people is developed to a very high degree. Under dictatorship, the dictator thinks and acts for the people.

Cruelty toward others emanates from leaders whose education lacked true spiritual guidance.

### Want A Bargain Basement RX?

A friend of ours brought in a prescription recently and asked, "How much to throw it together, doc?" Almost bent a flask around his neck!

While prescription shopping may not cheat the doctor out of a patient, it certainly doesn't help. When I explained the years of scientific training needed, the purity of the drugs, the cost of some of the "wonder" drugs and the time required in compounding—all necessary to back up the doctor in his treatment—I can't tell you what my friend said.

Anyway, we filled the prescription and included a small but fair profit which I understand everyone (in America) is entitled to (before taxes).

Predictions For Saturday's  
Collegiate Games  
By Ed Mayer, Jr.

There is no joy in the Southwest  
Conference except at Waco. In one  
of the most dismal showings ever,  
the boys from the Lone Star State  
fell by the wayside. As with the  
weather, only a fool or a stranger  
would try to predict the Southwest  
Conference. Our weekly average  
fell to .684 and our yearly average  
to an even .750. This week we  
start all over with the big game  
in Dallas. This fool doesn't know  
which way to jump, so we'll start  
at home first with the Sonora  
Broncos. We've been assured that  
the boys are going to have plenty  
of glue on their fingers so we say  
that Sonora will beat Menard 19-  
14. As for the rest? ? ? ?

# SOLDIERS THREE

HERE ARE THREE champions of defense... two marines and  
their mascot, "Head Space"! And don't say the puppy does  
count. He does. For little "Head Space" takes the place of  
beloved pets these boys have left at home. He's a morale bui-

And you're doing a defense job every day by your purchase  
United States Defense Bonds. For you know that by Bonds and  
other forms of saving you are making yourself and your family  
financially secure. And when you are strong financially our  
country has the strong economy that must go hand in hand with  
military strength to make us all safe. In these restless times re-  
member—Peace is only for the strong!

So today, where you work, sign up to buy Bonds through Pay-  
roll Savings—the easy plan that saves for you before you even  
draw your pay. Thousands have found it one sure way to save.

#### HERE'S HOW E BONDS NOW EARN MORE MONEY FOR YOU!

Now safe, sure U. S. Series E Defense Bonds pay an even better  
return than ever before...thanks to 3 brand-new money-earning  
features announced by the U. S. Treasury.

1. Now every Series E Bond you buy begins earning interest after only 6 months. It earns 3%, compounded semiannually, when held to maturity. It reaches full maturity value earlier (9 years 8 months) and the interest it pays is now bigger at the start!
2. Every Series E Bond you own can now go on earning interest for 10 more years after it reaches the original maturity date—without your lifting a finger!
3. During the 10-year extension period, every un-matured bond earns at the new, higher interest (average 3% compounded semiannually). Your original \$18.75 can now repay you \$33.67. \$37.50 pays back \$67.34. And so on.

Start now! Invest more savings in better-paying Series E Bonds—  
through the Payroll Savings Plan where you work or the Bond-  
A-Month Plan where you bank!
