### Boy Has Narrow Escape In Truck Mishap Monday

Ronnie Cocnran, 5-year-old son of Mr. and Mrs. Cleburn Cochran, narrowly escaped serious injury about 6:30 o'clock Monday evening, when a truck, swerving to avoid a collision, knocked him onto the Ford Allen yard and pinned his clothing beneath a rear tire. The boy was taken to Hudspeth Memorial Hospital for observation and was released Tuesday.

The accident happened at the intersection of College Street and S. 290. The truck, driven by Walter R. Windham, 34, Rankin, was going west on U. S. 290. As he approached the caution light at the intersection, another truck Windham to the left. Ronnie and two little girls were playing in the street and the truck blocked them from Windham's view.

"Had I seen the children, did see them it was too late," he Mrs. Norman J. Gordon, Eldorado meetings.

Moore exonerated Windham from all blame, stating, "investigation and reports from witnesses Rathy O'Harrow, Eldorado X indicate that the driver did all he ould to avoid an accident."

Meanwhile the Highway Patrol I. M. Rollins, Snyder is conducting a search for the truck which ran the stop light. The truck which ran the stop light. The truck is believed to be from out of town.

M. W. Jones, Eddorado X X X South with over 7,000 members.

# No other light trucks have all this

You don't expect polo-pony agility response and better mileage are squeezed from regular fuel.

Many chassis advances too add to

You'd like to have passenger-car pace and economy on the highwayand you'll get it from the 1953 GMC's.

For there are two great advances that step the new GMC's ahead of all previous truck performance: One: Dual-Range Hydra-Matic

Drive\*-the fully automatic shift with 3 speeds for traffic, 4 for the open road -available on 19 models through the 1/2-, 3/4- and 1-ton capacity range. Two: a new line of engines of progressive design, with compression ratios of 7.5 to 1 and 8.0 to 1-the highest of any gasoline truck engine ever

built. Here's pile-driver power behind every piston stroke – flashing

the extra-value features that make GMC's, point for point, the biggest dollar's worth in the light-truck field as well as in the heavier lines.

We confidently tell you—these great new GMC's will do your job better, easier, and at the lowest over-all cost. They have stamina beyond their size, because they're "built like the big ones"—the heavy-duty GMC's that lead the world in sales.

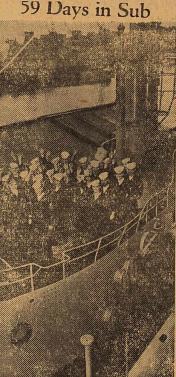

That's saying a lot. But just come in -and we'll prove it. \*Standard equipment on Package Delivery model;

optional at moderate extra cost on the others

# Talking Dog Chats With His Mistress

SALT LAKE CITY, UTAH.—Mr. Lucky II strikes a "chatting" pose with his mistress, Mrs. J. T. Davis, to show newsmen that he can "talk." A newspaper copyrighted article said the pooch even uses sentences.

YOUR SHARE OF AMERICA IS GROWING BIGGER!

# Now the Value of Your Maturing Series E Bonds Grows For Ten More Years...at 3% Interest

Do you have any United States Series E Defense Bonds maturing this month? Now they can still go on earning interestat 3% compounded semiannually—for ten more years! And you need not do anything at all with your Bonds. The continued earning period is automatic.

The Bond you got for \$18.75 can now pay you \$33.67 ... a \$37.50 Bond will be worth \$67.34 . . . and so on. Your return may amount to as much as 80% on your original investment!

This applies to all Series E Bonds—those you already own and those you're now investing in. Every Bond you invest in now starts earning interest sooner and matures earlier, too.

Any Series E Bond may still be redeemed at any time after you have held it for two months. But the smart thing to do is to hold on to your Bonds, as you hold on to savings in any form.

Are you one of the 71/2 million Americans who are saving regularly with Defense Bonds through the Payroll Savings Plan? Doing something concrete to make their dreams of the future come true? If not, why not start now? Invest in Bonds regularly through the Payroll Savings Plan in the shop or office where you work. It's one sure way to save because it saves something out of every check before you have a chance to spend it.

You may ask your pay office to save as little as 25c a week for you, or as much as you are able. If you can save just \$5 a week regularly through the Plan, in five years you will have \$1,367.90 :.. in 9 years and 8 months, you'll have \$2,850.70 ... in 19 years and 8 months, \$6,872.45! All in safe, sure Series E Bonds.

No matter how small your income, you can't afford not to put something aside for yourself. So join the Payroll Savings Plan where you work today. Or, if you are self-employed, start the Bond-A-Month Plan where you bank. Strengthen your own future and that of your country by saving your money through Bonds.

Pineapple Pie Wears A Fluffy Meringue Topping

A wedge of this delicious dessert will give a lift to a simple dinner menu.

Meringue pies look so festive they lift a simple budget dinner into a special occasion. This delicious dessert is guaranteed to do just that, for beneath the fluffy meringue topping is a cream filling combined with the always popular, delicate flavor of pineapple.

This recipe calls for crushed pineapple, but if you prefer larger pieces of fruit, substitute the same amount of undrained, plump pineapple tidbits.

apple tidbits.

You can make this dessert in a matter of minutes as the combination of ingredients is very simple. You'll find it a satisfying finale because it's not too sweet or too rich.

PINEAPPLE MERINGUE PIE

2 cups crushed pineapple, undrained 1 tbsp. cornstarch

½ cup sugar

1 tsp. grated lemon peel 1 tbsp. butter or margarine 2 eggs, separated % cup sugar 8-inch baked pie shell

Combine crushed, undrained pineapple, cornstarch, sugar and lemon peel in sauce pan and cook over very low heat until thick and clear. Add butter. Beat egg yolks slightly and add a little of the hot mixture to the egg yolks and blend well. Return to remainder of mixture in sauce remainder of mixture in sauce pan and cook over low heat 1

minute longer, Cool thoroughly. Pour filling into baked pie shell. Beat egg whites until stiff and gradually beat in remaining ¼ cup sugar. Continue beating until mixture will stand in peaks. Swirl meringue over filled pie. Bake in a moderately slow oven (325° F.) for 10 to 15 minutes or until lightly browned, Serves 6.

FOR THE FOURTH TIME in seven years I voted for a Tidelands oill last week. A tidal wave of public support swept the legislation through the House by a whop-285-to-108 margin. And it looks like a certainty the Senate will follow suit, though with a closer ratio and a slightly different version.

Legislation to vacate the grab of the States' offshore lands was begun back in 1946, when the Federal Government was pressing its claim and shortly before the Supreme Court acted in the California case. The House then passed a bill by a vote of 186-to-67, with the Senate margin being 44to-34. But President Truman veto-

Then, in 1948 the House again acted, that time by a vote of 257-The Senate failed to act on that bill, and nothing more was done until 1951 when again the House took the initiative and pass-265-to-109. But again the Senate failed to act.

SOC CA

Paydays come and paydays go! But . . . after they're gone how much of your pay has been tucked away where it'll provide paydays for you after you've quit working?

What better time than now to start socking away part of your pay in United States Savings Bonds. The dollars you save in Savings Bonds new earn interest at the rate of three percent compounded semi-annually when held to maturity. For regular systematic saving, use the Payroll Savings Plan where you work. Or, if you're your own boss, use the Bond-A-Month Plan where you bank. Savings Bonds are now even better.

lation was forever dead. The leftcularly vocal on the subject.

title to the States in their own in effect, legislating.

Last year, by an overwhelming submerged lands, this time by the majority of 247-to-89, the House 285-to-108 verdict. The Senate is rammed through another bill, and now debating the issue, and it the Senate concurred by a voted of looks like a cinch that at last an-50-to-35. Again Truman vetoed, other bill will go to the White ed a quit-claim bill by a vote of their claim that Tidelands legisproved by President Eisenhower. You're looking at a very discouraged hill!

Ever since that ribbon of paving outlined it, it has been a challenge to motor cars.

For miles and miles it winds up the side of a mountain; and it has sharp curves, and steep grades that spring out of the curves so a driver can't get

Half-way up, there's a watering place—put there so drivers can stop and refill their radiators. Yes-it has been quite a hill. But not any more!

The driver of the car in the picture above took off at the base and sailed right up to the top-and never gave it a thought.

You see, he's driving a 1953 Cadillac—with its great high compression 210-horsepower engine—and its vastly improved Hydra-Matic Drive.

We heard recently of two men who drove from Florida to Detroit—in a 1953 Cadillac.

The driver had made this trip before—and as they left Knoxville he said to his passenger: "Man, are we going to find a hill between here and Lexington!'

After an hour or so, the passenger said: "Where is the hill?"

And the driver said: "Just wait!"

So they waited-and presently they saw a sign which read: "Lexington."

The driver was dumbfounded.

"I can't understand it!" he said. "There used to be a hill there—a big one! I know from experience.'

Naturally, this great car gives you more than the ability to master hills.

When you float along with a tremendous reserve like this, you have the easiest ride imaginable.

It gives you confidence, too—and helps you to relax-for you know you have the power for any emergency that may arise.

It makes the whole car a symphony in motion. In fact, the ride is so smooth and soothing that, not infrequently, passengers sleep as they ride.

Come in and try it for yourself. The car is waiting -and it's an experience you ought not to forego.

CARD OF THANKS

IT'S THE LAW \* in Texas \* A public service feature of the State Bar of Texas

> INDIVIDUAL RIGHTS PROTECTED BY COURTS OF APPEAL

The institution of appellate courts, of which the U.S. Supreme Court is the highest, illustrates how America has tackled the problem of attaining justice. Plato long ago showed the idea of justice is difficult to come by. It is perhaps even more difficult to translate into human conduct and apply in the settlement of individual cases.

How does a case come before an appellate court? If you and your neighbor have dispute over the property line between your two property line between your two lots, you would be foolish to go Yvonne De Carlo - Rock Hudson to court for a settlement if you did not believe that right was on your side. Therefore, practically every civil action that comes before a trial court originates in an honest difference of opinion as to what the law or the facts of that case are.

But right cannot be on both sides; so one or the other of the litigants must be mistaken. When you seek legal counsel on such a question, it frequently happens that your lawer will advise you not to go to court. Only a relatively small percentage of cases reach trial. The law is clear enough so that among the millions of transactions taking place in the country only a relatively few ever result in lawsuit.

But suppose you and your law- Tuesday & Wednesday yer have decided that your case has enough merit to warrant going to court. The facts on both Rancho Notorious sides are presented, the lawyers on both sides argue the merits of their clients' cases and the court is then called upon to render a decision. In some cases this decision will be based on findings of a jury. The vast majority of the cases are settled then and there with the decision of the trial judge.

But judges, like all of us, are human, and the law is complicated and subject to varied interpretation. At times the trial judge may err in admitting or evaluating the facts, or in interpreting the law applicable to the facts. Under such circumstances your case may be appealed to an ap-

A MESSAGE FROM THE FIRST LADY-Mrs. Dwight D. Eisenhower, as Honorary Chairman of the National Women's Advisory Committee on United States Savings Bonds, presents to Mrs. George M. Humphrey (center), wife of the Secretary of the Treasury, and Mrs. Ivy Baker Priest (left), Treasurer of the United States, a message to the women of America. The message urges all women to join in the April campaign for the increased purchase of Savings Bonds through the Bond-A-Month Plan.

A SUBSCRIBER PER MEMBER-Twenty-one national women's organizations are spearheading a "Women's Crusade for Security" during April in an effort to sign up new subscribers to the Savings Bond-A-Month Plan. Two national presidents with headquarters in Des Moines have worked long hours at the Iowa State Savings Bonds Office in getting word of the project to their combined 181,000 members. Shown signing some of the thousands of letters to their clubs are (left to right): Mrs. Elsie M. Fenton, President of the American Federation of Soroptimist Clubs, and Miss Helen G. Irwin, President, National Federation of Business and Professional Women's Clubs

HASTILY strung telephone wires serve the additional purpose of supporting this American soldier's rudely washed clothes as they "freeze dry" on a snowy Korean hillside. It all looks like a rugged life, doesn't it? And soldiering is.

But it's something that some of us have to do to keep America militarily strong and safe. It's true, we don't all have to serve in uniform. But there is something important every one of us can do. That's to help keep our country economically secureby investing in United States Defense Bonds. For by Bonds and other forms of saving, we are building up not only our own personal security, but the security and the strong economy of America. And we all know, now, that peace is only for the strong.

Why don't you join the millions who invest in Bonds regularly through the Payroll Savings Plan where you work? It's one sure way to save-because it saves something out of every check before you have a chance to spend it.

So join the Payroll Savings Plan today where you work. Or invest through the Bond-A-Month Plan where you bank. Help your country and yourself to a secure future—by saving your money through Bonds.

#### HERE'S HOW E BONDS NOW EARN MORE MONEY FOR YOU!

Now safe, sure U. S. Series E Defense Bonds pay an even better return than ever before . . . thanks to 3 brand new money-earning features announced by the U. S. Treasury.

1 Now every Series E Bond you get earns 3% compounded semiannually, when held to maturity.

2 Every Series E Bond you own can now go on earning interest for 10 more years after it reaches the original maturity date-without your lifting a finger!

3 During the 10-year extension period, every unmatured Bond earns at the new, bigher interest (average 3% com-
