## Oaths, Statements Not Required, Says Benson

The Sutton County PMA committee, which received a telegram this week from the Department of Agriculture in Washington advising that the purpose of the drouth feed program is to aid ranchmen who do not have the finances to buy feed at prevailing prices and maintain foundation herds and stay in the livestock business with reasonable chance of success, met Tuesday and concluded:

1. To date there have been no unreasonable requests for feed from Sutton County ranchmen and the committee does not expect to get any.

2. The committee will continue to use reasonable discretion as requested in the telegram, but as far as the committee can interpret the telegram, all Sutton County ranchmen who have applied for feed have been eligible according to the terms of the telegram.

The text of the wire follows: CHAIRMAN SUTTON COUNTY PMA COMMITTEE. THE FOLLOWING WIRE RECEIVED FROM WASHINGTON OFFICE TODAY: "ADVISE COUNTY DROUTH COMMITTEES IMMEDIATELY AS FOLLOWS: PURPOSE OF DROUTH FEED PROGRAM IS TO MAINTAIN BASIC FOUNDATION HERDS FOR THOSE BONAFIDE FARMERS AND STOCKMEN WHO DO NOT HAVE THE FINANCES TO PURCHASE FEED AT PREVAILING MARKET PRICES TO MAINTAIN SUCH HERDS AND REMAIN IN LIVESTOCK BUSINESS WITH REASONABLE CHANCE FOR SUCCESSFUL OPERATIONS. FOR THIS PURPOSE, BASIC FOUNDATION HERDS WILL CONSIST OF BULLS, COWS, NURSING CALVES AND SUCH HEL-

FERS AS MAY BE KEPT TO REPLACE UNDESIRABLE CATTLE CULLED FROM THE HERDS. TO BE ELIGIBLE FOR FEED AT REDUCED PRICES A FARMER OR STOCKMAN MUST (1) HAVE LESS THAN A 30-DAY SUPPLY OF FEED TO SUPPLEMENT THE ROUGHAGE FOR THE FOUNDATION HERD TO BE MAINTAINED, EXCEPT THAT SUCH FEED MAY BE MADE FOR CATTLE OTHER THAN THOSE IN FOUNDATION HERD WHEN SUCH CATTLE, OTHER THAN FEEDERS IN FEED LOTS, WILL BE MARKETED NOT LATER THAN SEPT. 30, 1953; (2) NOT HAVE THE FINANCIAL ABILITY TO REMAIN IN BUSINESS AND MAINTAIN HIS HERD IN A RELATIVELY SATISFACTORY CONDITION IN VIEW OF PRESENT DROUTH CONDITIONS, UNLESS HE CAN PURCHASE FEED AT PRICES SUBSTANTIALLY BELOW THE PREVAILING MARKET PRICES. FEEDERS IN FEED LOTS ARE NOT ELIGIBLE. TO AVOID ANY UNDUE HARDSHIPS, COUNTY COMMITTEES SHOULD USE REASONABLE DISCRETION IN CARRYING OUT THESE INSTRUCTIONS."

CLAUDE H. McCANN, CHAIRMAN

Thursday a wire was received from Secretary of Agriculture Benson via Claude McCann, state drouth chairman. The wire, addressed to the PMA committee, stated: "Eligibility requirements contained in telegram of July 16 do not contemplate giving of oath of any kind or even require any financial statement to obtain feed under drouth emergency program. We feel sure most farmers who have the financial ability to re-

main in business and maintain their herds in a relatively satisfactory condition will not apply. It was intended that county drouth committees use sufficient discretion to handle all applications on their individual merit." McCann adds that he interprets this to mean that county drouth committees have wide discretion in determining eligibility of applicants to receive feed.

## City Council To Consider Budget Monday Night

The city commission will meet at 7:30 o'clock Monday night at the City Hall to consider the budget for fiscal year beginning October 1, 1953.

The public is cordially invited to attend and to participate in this meeting.

## Eary Turman Buried Monday

Funeral services for Eary Turman, 43, were held here Monday afternoon at the First Baptist Church. Turman died Friday in a San Antonio hospital following a spinal operation.

The Rev. J. E. Eldridge officiated. Burial was in Sonora Cemetery. Pallbearers included George E. Smith, H. B. Smith, Russell Franks, all of Sonora, and Walter Merritt, Byron Crowder and Talbert Garvin, all of Mountain Home.

Born October 10, 1910 in Junction, Turman had made his home here since 1920. He had completed a fencing contract for the county. Survivors include his mother, Mrs. Annie Turman of Uvalde; two sisters, Mrs. Lewis P. Spragins of Sonora and Mrs. Frank White of Oroville, California; and two brothers, Otto and Monroe Turman of Sonora.

## Ellenburger Shows Gas At Wallace Well

Ashland Oil & Refining Co., at No. 1 W. D. Wallace Estate, 17 miles southeast of Sonora, recovered 120 feet of slightly gas-cut mud on a 90-minute drillstem test between 6,476 - 6,526 feet in Ellenburger.

Gas surfaced in eight minutes. There was a steady blow throughout the test. No fluid surfaced. Flowing pressure was zero; 20-minute shutin pressure, 2,450 pounds; hydrostatic pressure, 3,375 pounds. Earlier, the project recovered 185-feet of mud on a 1 1/2-hour drillstem test between 6,485-508 feet in the Ellenburger.

Gas surfaced in eight minutes. There was a strong blow for the remainder of the test. No fluid surfaced while tool was open. Flowing pressure was zero; 20-minute shutin pressure, 2,475 pounds.

The Ellenburger was topped by samples at 6,465 feet on derrick floor elevation of 2,290 feet. This is minus datum point of 4,175 feet. Operator's representative estimates that the project is running approximately 100 feet high structurally on top of the Ellenburger to the same marker in nearby wells that found the Ellenburger.

## SIX SONORA GIRLS AT McMURRY BAND SCHOOL

Six young musicians from Sonora are among the more than 200 participants in the fifth annual Vacation Band School being held July 19 through August 1 at McMurry College in Abilene.

The Sonora students are Tommy Espy, who is studying flute; Nancy Hunt, clarinet and twirling; Jan Keng, twirling; Mary Jack Puckett, flute, twirling; Delores White, clarinet; and Wanda Sue Mackey, twirling.

The two-week band school, under direction of Raymond T. Bynum, McMurry College band director, will run through August 1. Participants are studying music theory and solo instrument work in addition to their actual practice with the training band or the concert band.

About 60 of them are receiving special instruction in baton twirling.

Two public concerts, faculty and student recitals, and numerous social and recreational activities are on the band school's agenda. Participants are being housed in the McMurry College dormitories. Bynum's staff for the band school includes a large group of well-known specialists in instrumental music and twirling instruction.

Gail Cox of Canyon has been the guest of his sister, Mrs. Pat Stephenson, for the past month.

## Services Held Wednesday For Mrs. Glasscock

Funeral services for Mrs. W. E. Glasscock, 62, were held Wednesday morning at 10 o'clock from the First Baptist Church here. Mrs. Glasscock died Tuesday morning at Hudsph Memorial Hospital.

Mrs. Glasscock was born January 6, 1891, near Cumby in Hopkins County. She and Mr. Glasscock were married December 24, 1911. Mrs. Glasscock was a member of the First Baptist Church here and a member of the Order of the Eastern Star.

Survivors include two sons, Edgar and Travis Glasscock, and two daughters, Miss Lillian Belle Glasscock and Mrs. Wallace Renfro, all of Sonora. A brother, Bob Odom, Sonora, and seven grandchildren also survive.

Pallbearers were John Fields, Paul Turney, Vernon Hamilton, W. L. Davis, Fred T. Earwood, and Bryan Hunt. Burial was in Sonora Cemetery.

## MAX MURRAY UNDERGOING MARINE OFFICERS TRAINING

Midshipman Max D. Murray, grandson of Mrs. B. C. McGilvray, Sonora, is among 330 seniors of the Naval Reserve Officers Training Corps undergoing six weeks summer training at the Marine Corps Base, Quantico, Va.

Midshipman Murray is a student in the NROTC program. Preparing for a commission in the Marine Corps, he must gain a college degree, attend summer training and complete a four year Naval Science course.

The Sonora Midshipman is attending the University of Texas, one of fifty-two colleges and universities throughout the country with an NROTC unit. He was graduated from Sonora High School.

Designed to complement their college work, the six weeks summer training here will enable the midshipmen to apply in the field, theory that has been studied throughout the year. Amidst historic Virginia battlefields they will be instructed in military tactics, leadership and military organization. Following graduation and commissioning they will return to Quantico for further intensive study in Marine Corps Officers Schools.

## Gas Turned On Today

The Lone Star Gas Company will turn gas into the first completed section of its distribution system this afternoon at 3 o'clock. E. L. Beulow, division superintendent, announced Wednesday.

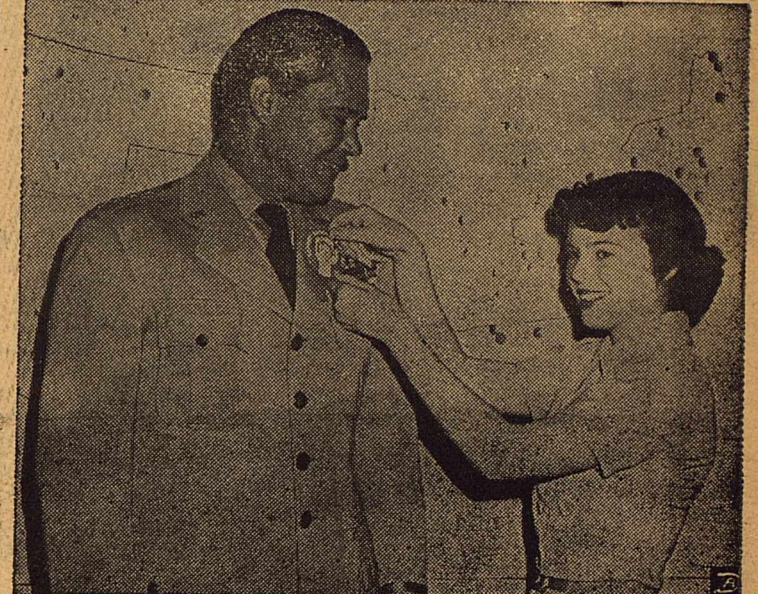

Opening ceremonies, which will be attended by city and Lions Club officials, will take place at the recently completed control station a half-mile east of town on the old McKavett road.

Mayor Alfred Schwiening will

open the valve to officially inaugurate use of natural gas in Sonora. Also expected to be present are members of the citizens committee who took charge of signing natural gas users, and officials of the company.

The first loop of the system will serve about 150 customers, according to Leon Neeley, local manager. Neeley said he expected the remainder of the system to be completed in about four weeks.

### LET'S TALK LIVESTOCK

BY  
**TED GOULDY**

Fort Worth—Strong point of the market Monday at Fort Worth was the demand for calves. Both stocker buyers and the packer buyers were competing strongly for the supply and the result was a strong \$1 higher market. Both replacement and fat calves topped at \$20 to \$21 on Monday and were considered quotable over that in lots of the proper kinds.

Cows were uneven, selling on steady to easier basis, with price about in line with last week's close. Bulls were off \$1 per hundred.

Very small numbers of fat steers and yearlings arrived, and grain-fed were very scarce. Some broadening inquiry is noted for suitable feeders and indications are that sizable numbers of these fleshy grassers and supplementally fed steers and yearlings will wind up in feedlots.

Sheep and lambs were fully steady. Fat lambs topped at \$22 to \$23.50, and feeders drew \$12 to \$16.50, and were quotable to \$17 or better in loads and of suitable quality and weights.

Hogs moved at strong to 50 cents higher prices and again topped at \$27, the year's best levels, and equalling the best price in 7 years here. Sows were steady at \$23 down. Pigs sold at \$22 down.

Good and choice fed steers and yearlings sold at \$18 to \$22.50 and are quotable to \$23.50 and above. Common to medium sorts sold from \$12 to \$17 with some rannian yearlings \$9 to \$12.

Fat cows drew \$10.50 to \$14 while canners and cutters drew \$6.50 to \$10.50. Bulls sold for \$8 to \$14.

Good and choice fat calves sold from \$17 to \$21, and common and medium butcher calves drew \$12 to \$16. Cull sorts sold from \$8 to \$12.

Good and choice stocker calves sold from \$16 to \$21, and plain to medium sorts sold at \$12 to \$16. Good and choice stocker steer yearlings sold from \$15 to \$18.50, and heifer calves drew \$19 down, and heifer yearlings sold from \$16.50 down. Stocker cows cashed at \$10 to \$16. Older replacement steers cashed at \$12 to \$17.50.

Good and choice fat lambs sold at \$20 to \$23.50, while cull, and medium offerings sold for \$8 to \$18. Stockers and feeders drew \$10 to \$16.50. Fat yearlings sold at \$12 to \$15, and feeder yearlings sold at \$10 to \$12. Slaughter ewes \$3.50 to \$5.50, stocker ewes \$6 to \$9. Old wethers \$6 to \$9 yearlings ewes \$13 down. Two-year-olds \$10 down.

## Retail Sales In West Texas For 1952 Total Third Of Texas Sales

With 33 per cent of Texas' population, West Texas retail sales in 1952 amounted to 34 per cent of the state's total, although the three largest metropolitan centers with more than one-seventh of the population are outside it borders.

This is disclosed by a survey study made by the West Texas Chamber of Commerce.

West Texas retail sales totaled \$3,032,069,000 (b) of Texas' \$8,925,203,000.

West Texas had 16.5 persons per square mile, according to the 1950 census. The State average was 29.4.

West Texas' net effective buying income, as computed by the magazine sales management, totaled \$3,814,069,000 (b) in 1952. This was 20 per cent of the state total of \$19,260,388,000.

Average income per capita and per family was presented by counties in the magazine's annual Survey of Buying Power.

The average per capita income for West Texas (132 counties) was \$1,381, while that for all of the state's 254 counties was \$1,077 and for all counties of the United States it was \$1,477.

Average per family income of West Texas' 132 counties was \$4,864; that is Texas' 254 counties \$3,864 and of entire country \$5,086.

Retail sales in West Texas per capita totaled \$1,275 in 1952. The Texas average was \$1,622 and the national average \$1,041.

Population of West Texas has grown since the census was taken. The 1950 enumeration showed population was 2,364,088 in West Texas; 7,111,194 for Texas.

Within West Texas, Lubbock county topped all others except Tarrant and El Paso in retail sales and in average net effective buying income, with its \$182,172,000.

Five West Texas counties ranked in the top 200 of the U. S. in 1952 retail sales, the survey disclosed. Beside Tarrant (Fort Worth, with \$1,132,562,000, which ranked 15th, and El Paso County and City), in 119th place, they were: Lubbock (County and City), \$178,086,000 in 142nd place; Potter (Amarillo), \$160,521,000, in 167th place; and McLennan (Waco), \$152,925,000, in 178th place.

For average effective buying income per family, three counties of WTCC territory ranked among the top 200 in the entire country. They

## AMERICA'S NEW RAILROAD

15 of these big icing machines are in operation at ice-servicing points along the Santa Fe.

# Ever see so much fuss just to chill an orange?

It's the best way there is today to refrigerate a "reefer"—but Santa Fe is developing an even newer and better way to do the job

In 60 seconds flat, the giant ice-crushing machines Santa Fe recently installed can fill the bunkers of a refrigerator car with five tons of ice!

They are the newest and fastest machines for icing cars yet devised. And Santa Fe "reefers" are the

most efficient type of refrigerator cars now on the rails.

These refrigerator cars and icing machines have carried the technique of ice refrigeration to the ultimate of present day knowledge.

### WHAT ABOUT TOMORROW?

We can't be sure, BUT—Santa Fe is now experimenting with a newer way to refrigerate cars automatically for hauling foods which may require temperatures as low as 25° below zero.

30 new experimental refrigerator cars designed by Santa Fe, built in its own shops and each with a capacity of 128,000 pounds of frozen foods, are now being utilized in the movement of frozen foods.

Each of these new cars has its

own thermostatically-controlled diesel-driven compressor-type refrigerator unit. It carries 400 gallons of fuel (almost the exact amount Lindbergh used to fly the Atlantic). It can maintain sub-zero temperatures all the way from California to New York.

### BENEFITS FELLT ALL ALONG THE LINE

All along the line, people and communities feel the benefits of this building new wherever it actually occurs on the Santa Fe—and day-after-day, something new is done to make "America's New Railroad" a little better.

The millions of dollars this newness costs Santa Fe doesn't cost you a single penny in the taxes you pay,

**EARNEST MONEY CONTRACT OFTEN MISTAKEN FOR "RECEIPT"**

An all too common trap for the prospective home buyer is a sales contract signed under the delusion that he is merely signing a "receipt" for his earnest money payment. Once the buyer has signed such a contract, he is bound by its provisions. Many unfortunate entanglements have been announced by clients to lawyers with the words, "I have just signed a receipt for a house on Blank Street. Will you take over now and see that everything is O. K.?"

Sales contracts are often called by other names, such as earnest money contracts, binders, receipts, etc. All of them are for the same purpose and almost without exception involve the deposit of money by the buyer. Some require the seller to put up a good faith deposit. The fact that such deposited sums are usually to be forfeited in event the depositor later fails to go through with his specified contractual obligations lends additional weight to the often stated admonition that no contract should be signed without complete understanding as to its terms.

But many home purchasers (and sellers) rush to sign a hastily prepared contract with very little knowledge of its contents. The pressure of time, the informality of the occasion, the casual appearance of the contract, and perhaps the fact that a partially printed form is used may contribute in causing the true importance of the act to be overlooked. At any rate, many are lulled into a lapse of good business judgment.

Every significant detail of the bargain should be crystallized in unmistakable terms in the contract of sale. Land and fixtures being sold should be clearly described. A complete legal description of the property by lot and block, or by metes and bounds, is a must, the street number being inadequate by itself.

Articles and fixtures included in the sale but not always sold with houses generally should be specifically listed. Included in this category are such items as venetian

**LINES BY SOGLOW**

Do you honestly know anyone who has won the Irish Sweepstakes? Who has left a fortune? Or who struck it? No friend of mine has! Nor I! And, I bet you never will, Friend! The chances are millions to one against such fabulous luck! So, if you are splurging your way through life, waiting for a windfall to support your old age or buy off the mortgage — sorry! It's mighty unlikely!

You'd better sign up for Payroll Savings where you work. Start putting a few dollars each payday in Savings Bonds. Then, one bright day you'll have a true windfall! A solid collection of United States Savings Bonds!

**LINES BY SOGLOW**

We all hope to take it easy when we're too old to work. Smart men build for that retirement when they're young... with United States Savings Bonds. Savings Bonds are safe... SOLID... backed up by our government... strong as our country. And they're actually protected against loss and theft. What's more, Series "E" Savings Bonds now give you an even better return than before... three percent interest compounded semi-annually when held to maturity. Join the Payroll Savings Plan where you work or the Bond-A-Month Plan where you bank. Invest in United States Savings Bonds REGULARLY... SYSTEMATICALLY.

**QUESTIONS AND ANSWERS FROM VETERANS ADMINISTRATION.**

Q - I'm a World War II veteran back on active duty, and my National Service Life Insurance policy is under waiver. Will I get my insurance dividends all the same?  
A - No. National Service Life Insurance policies do not participate in dividends during the period when such premium waiver is in effect.

Q - Will my service at the U. S. Military Academy at West Point count toward my entitlement for Korean GI Bill training?  
A - No. The time you spent as a cadet at West Point does not count toward your entitlement for training under the Korea GI Bill. The same rule applies to those who attend the U. S. Naval Academy in Annapolis and the U. S. Coast Guard Academy in New London, Connecticut.

Q - I am a disabled World War II veteran, and I've just finished Public Law 16 training. Will VA now find me a job?  
A - The law does not give VA responsibility for finding employment for disabled veterans. However, if you wish VA will refer you to an appropriate State or Federal employment agency for this purpose.

Q - What happens if a Korean veteran doesn't apply for GI term insurance within 120 days after his separation from service. Is there any chance of his getting it after that time?  
A - No. Under the law you must apply and pay your first premium within 120 days after you leave the service. If you wait longer than that, your chances of getting the insurance are gone for good.

**We're growing pullets on less than 50¢ worth of GROWING CHOW, plus grain**

You can do it too. On the Purina Program the cost is low—less than 50¢ worth of Purina Growing Chow—plus your grain—to raise a good production-type pullet. We're doing it right at the ranch. After a Chick Startena start, pullets just naturally race to the nest on Purina Growing Chow and grain.

But come out and see for yourself. Our pullets and their records are on display. You'll see why it pays to feed a Purina pullet growing ration to your pullets for economical, early fall eggs.

**Chevrolet's farther ahead than ever!**

The striking new Bel Air Sport Coupe. With 3 great new series, Chevrolet offers the widest choice of models in its field.

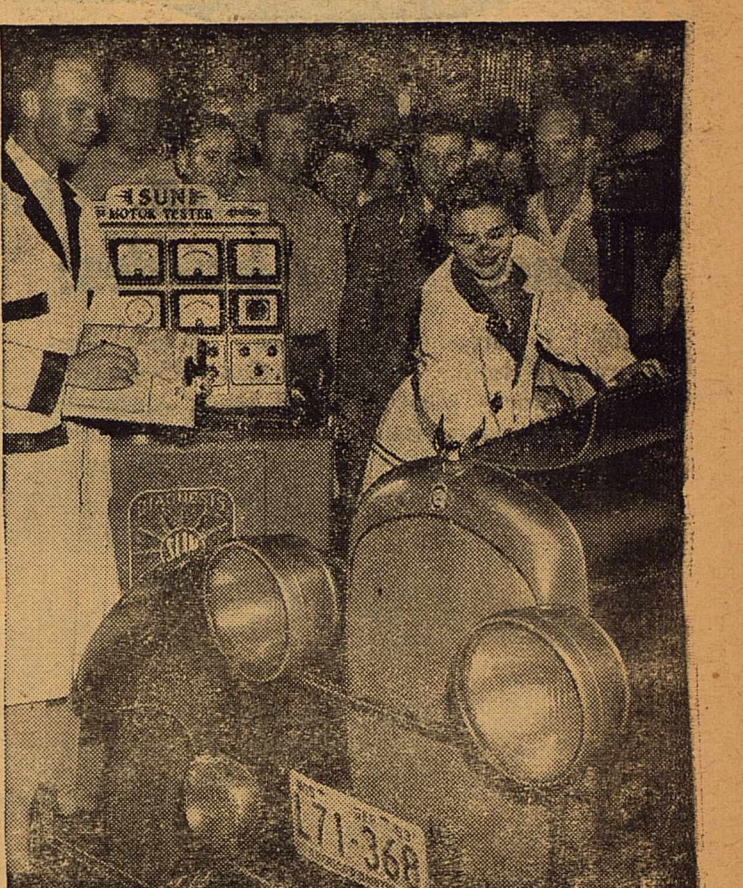

<b>... IN POWER AND PERFORMANCE</b>	<b>... IN STYLE AND LUXURY</b>	<b>... IN EASE OF DRIVING</b>	<b>... IN ECONOMY AND VALUE</b>	<b>... IN FIRST PLACE POPULARITY</b>
Chevrolet's entirely new 115-h.p. "Blue-Flame" engine (teamed with Powerglide*) is the most powerful in the low-price field in gear-shift models, you get the advanced 108-h.p. "Thrift-King" engine. Both give brilliant new performance and greater economy.	The sleek, low-slung beauty of this fine new car provides one more reason for Chevrolet's truly amazing popularity. The new Fisher Body provides roomy luxury interiors, modern appointments and colorful, fine-fabric upholstery that can be matched only in costlier cars.	Entirely new Powerglide automatic transmission, with faster getaway and greater economy, eliminates the clutch pedal completely. And Chevrolet's new Power Steering* does 80% of the work... lets you squeeze in or out of tight spaces with wonderful new ease.	Chevrolet now brings you the most important gain in gasoline economy in its history! And, you save substantial amounts on overall upkeep, too. Yet with all its wonderful new things, Chevrolet remains the lowest priced line in the low-price field!	Again this year—as in every single postwar year—more people are buying Chevrolets than any other car. In fact, latest official registration figures show Chevrolet over 25% ahead of the second-place car. Nearly 2 million more people now drive Chevrolets than any other make.

Lucille Pieti, woman engineer with Chrysler Corporation's "New Worlds in Motion" automotive show, proves she understands the practical side of her profession. As judge of an old-car contest, staged in connection with the traveling styling and engineering show when it played in Milwaukee recently, Miss Pieti expertly analyzed the motor of the winning car with the latest scientific equipment. The contest was designed to discover the oldest Chrysler-built car still operating in Milwaukee. The winner was a 1928 Chrysler with 63,000 miles on its odometer. Miss Pieti found the 25-year-old car "mechanically sound." The engineering exhibit is scheduled for Omaha, Minneapolis and Dayton in the next three months.

**MAGAZINE ARTICLE SAYS RIVIERA PICKUP FASTEST**

"Added horsepower and increased torque have really paid off in the new Buick Super Riviera. Independent performance tests show that traffic range acceleration speeds were the fastest yet recorded of any cars tested."

In an announcement made today, Pat Lyles, local Buick dealer, pointed out that these independent tests, revealed for the first time in the August edition of Science and Mechanics magazine, showed that design changes in this year's Buick transmission and power plant have produced a faster pickup in acceleration speeds of 10 and 20 to 60 miles per hour. And, on top speed runs the Riviera held 98.25 mph.

In order to show how changes in design actually affected the performance of the new model, the Science and Mechanics tests compared results of the new 1953 V-8 series Buick, equipped with Twin Turbine Dynaflo, against the results of their independent tests on last year's model. Their reports on these two cars is one of a continuing series designed by this magazine to provide prospective buyers with practical information based on independent and scientific information.

**COLD WAR IN KOREA**

Below the Russian border Korea is the spot. We're doomed to serve our time in the land that God forgot. Fighting the mosquitoes, Digging our way with picks, Doing the work of hoboes, And too darn tired to kick. Down with the bees and buzzards, Down where I got so blue. Right in the middle of nowhere. And ten thousands miles from you. We huddle, we freeze, we shiver. It's more that I can stand; Still we are not convicts—Just guardians of the land. We are soldiers of the Infantry Earning our meager pay. All of two-forty a day And living with our memories. Just waiting to see our gals, And writing to keep them true; Hoping that when we get thru—They haven't married our pals. But when our work is finished, And we get to the place you-know-well: Saint Peter will say "They are welcome" 'Cause they served time in hell.' —Jesus Hernandez.

He's Driving His Cares Away!

There's a great industrialist in Detroit, and a well-known scientist in New York, and a famous statesman in Washington who will tell you that the best way to relax from the cares of the day is to get behind the wheel of a 1953 Cadillac.

And there are also thousands upon thousands of other Cadillac owners throughout America who will gladly add supporting testimony to these revealing statements.

For these motorists know, from their own personal experience, that there is no faster or surer way to relax and refresh than to take to the highway with a smooth, comfortable, quiet Cadillac car.

It makes a man feel good just to sit behind the wheel. As he glances about his Cadillac's gracious

interior, he's reminded that he has made something out of his years—and that, in itself, gives a lift to his spirits.

And then, once he's out on the highway—well, in no time at all, he's as happy and contented and trouble-free as it's possible for a motorist to be.

He is surrounded with comfort—and his driving is so relaxing and effortless and enjoyable that his mind clears, as the miles go by—and his heart grows gay and his outlook bright and hopeful.

He has literally driven his cares away!

You really ought to try it sometime. Come to think of it, you ought to try it today . . . after your day's work is done.

The car is waiting—and so are we.

## Blanche Lavon Taylor Bride Of Ralls Royce Regeon Sunday Evening

In a double ring ceremony performed at the First Methodist Church, Sonora, last Sunday evening, Miss Blanche Lavon Taylor of Sonora became the bride of Corporal Ralls Royce Regeon of Fort Bliss, El Paso. The bride is the daughter of Mr. and Mrs. Cashew W. Taylor of Sonora, and the groom is the son of Mrs. W. K. Regeon, also of Sonora, and the late Mr. Regeon. The Rev. W. H. Marshall was the officiating minister.

Baskets of white gladioli, majestic and Ester Reed daisies, feverfew and greenery and tall white tapers in white floor candelabra were used in the chancel and before it. The traditional wedding music was played by Mrs. S. M. Loeffler at the organ, who also accompanied Miss Betty Sue Allen, soloist, who sang "Because" and "The Lord's Prayer."

The bride, given in marriage by her father, wore an original model wedding gown of Chantilly lace, satin and nylon tulle, featuring a tunic of the lace with molded bodice and long sleeves ending in points over the hands. The bouffant ballerina skirt was of tulle over satin. Her fingertip veil of imported silk illusion fell from a scalloped bonnet of the lace embroidered with seed pearls. She carried a white satin Bible, a family heirloom, topped with white rosebuds, surrounded by satin leaves and lace, from which fell tiny white satin streamers knotted with stephanotis.

Miss Riedale West of Eldorado, who attended her cousin as maid of honor, wore a ballerina-length gown of orchid and blue net over orchid taffeta. With it she wore a stole and half hat of the same material and carried a Colonial bouquet of Ester Reed daisies, orchid tulle and satin streamers.

The bridesmaids, Mrs. Dan Stacy of Smyrna, Tenn., and Miss Mary Alice Morgan of Athens, wore gowns styled like that of the maid of honor. Mrs. Stacy's gown was of blue and yellow net over blue taffeta, and Miss Morgan's was of blue and orchid net over blue taffeta. Both wore matching half hats and carried Colonial bouquets.

W. K. Regeon, Jr., brother of the groom, served as best man, and groomsmen were Billie Wright Taylor, brother of the bride, Dan Stacy of the Stewart Air Force Base, Smyrna, Tenn. and David Shurley of Sonora and Waco.

**STOCKMEN'S FEED CO.**

By Congressman O. C. FISHER

WOOL GROWERS got a break last week when the House refused to tamper with Section 303 of

the Tariff Act, a provision which has been in the law since 1913. It provides that where a foreign country subsidizes a commodity is exported, it shall be the duty of the Customs to impose a countervailing duty-over and above any tariff that is paid-in a sum equivalent to the amount of the export subsidy.

American wool growers have suffered considerably during the past four years from the effects of subsidies that have been paid to wool exporters from Uruguay and Argentina. To obtain American dollars, which are readily exchangeable in any foreign currency and are very much sought after in international trade, Peron and Uruguay have given their wool exporters a subsidy in amounts that

have enabled these people to pay the duty and still be able to sell their wool in this country at prices below our cost of production. This practice has displaced the normal market for some of our own wool and has placed our growers in an unfavorable competitive situation. Import of wool tops from those countries during the past four years has increased more than 1,000% because of the advantage of the export subsidy. Wool top is raw wool which has been cleaned, scoured and partially processed preparatory for spinning.

So last week an amendment was offered to a customs bill which would have, in effect, repealed Section 303. Already that protective provision has been applied to Uruguay and is being considered in respect to Argentina. Therefore, as applied to those two countries and as applicable to other similar practices that crop up now and then, the retention of Section 303 is highly important to our domestic wool growers in order to deter unfair, subsidized competition from abroad. After the dangers of the amendment were explained by a number of us the House overwhelmingly defeated the attempt to scuttle Section 303.

On the drought relief front, a number of us have protested restrictions on eligibility for feed at the emergency prices-restrictions announced by the Secretary of Agriculture. Although the government has acted promptly and effectively as applied to many localities in providing credit and feed at moderate prices, an announcement has prohibited a good many people from feed purchase unless they take what is virtually a "pauper's oath", attesting to the fact they are unable to purchase feed otherwise. We think all should be treated alike in this feed program in order to keep more livestock off the markets, stabilize prices and bolster the sagging economy in the disaster area.

**Your Health**

A farm-to-farm, ranch-to-ranch survey of Texas water resources is now underway in an effort to gauge drought effect on public health. The State Department of Health conducted a similar survey earlier this year on incorporated cities and towns, but it failed to show the status of privately owned water sources, such as farm and ranch tanks and private wells.

Information is being sought by questionnaires sent from the State Health Department to all county judges. When complete, Dr. George W. Cox, state health chief, says a compilation sheet will be made showing:

Towns with ample water supplies; towns with impending shortages; number of wells and tanks and the amount of water available from them; how much water is being hauled and from where; steps rural organizations are taking to relieve their shortages; to what extent is land being irrigated; and what outside help is necessary to relieve shortages in individual communities.

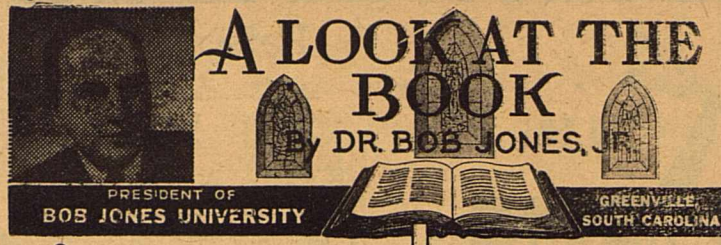

National attention has been directed to Texas in view of the drought-caused plight of West Texas cattlemen, but "there's more to this thing than just cattle," Dr. Cox said.

"When a drought become as widespread and is prolonged as this one, it affects every factor of state operation, including the public's health."

He said sanitation is the most serious threat posed by drought conditions.

"There's some typhoid in Texas now," he indicated. "Did contaminated water cause it? We're in the process of finding out."

He said the bulk of the questionnaires are due in "soon," and that a copy of the compiled data would be turned over to the State Office of Defense and Disaster Relief.

One of the most arresting truths in all the Bible is the truth of our own personal accountability to God. "Everyone of us shall give an account of himself to God." In the fourteenth verse of the fifth chapter of Ephesians, God is speaking to the individual, "Awake, thou that sleepest, and arise from the dead, and Christ shall give thee light." "Awake thou," man or woman, asleep and dead. Here we have a sinner addressed, a sinner described, and salvation offered to a sinner. God's message is a personal message.

Fathers have tried to take upon themselves the blame for the failures and sins of their children here on this earth. Wives have tried to take upon themselves the responsibility for the failures and sins of their husbands; but as far as the individual's eternal destiny is concerned at the judgment bar, each one of us stands alone personally, individually, and solely accountable to God for himself. And so the message here is a message to the individual. Today we are prone to overlook the fact that each individual must make his own peace with God. We have preached a social Gospel in this last generation and have tried to build a perfect world out of imperfect men. We have tried to build a perfect world with imperfect men. We have tried to build a godly world with godless men. Of course, we have failed. Mankind cannot be changed by any shower bath of reform. The individual man must be cleansed by a personal application of the blood of the Lord Jesus Christ to his own life and soul.

The sinner is asleep under the hypnotic spell of the Devil. He is

not only asleep; he is dead in trespasses and sin. He is sleeping on the brink of everlasting ruin. He is sleeping in a world that God visited in the person of His Son Who hung, bled, and died on a cross, bearing the sins of all sleeping sinners in His own holy-body. The sinner is sleeping in a world where Jesus conquered death, and to which He is coming again some day in judgment. "Awake, thou that sleepest, and arise from the dead, and Christ shall give thee light."

HAVE YOU EVER HEARD A STORY about someone that made you want to meet him? Well, I've just heard one. A story

about a sincere, patriotic citizen who is doing something practical about his future and the peaceful future of his country. Investing in U. S. Savings Bonds. A story about you! And one that ought to make you feel proud.

I felt good, too, when I heard what a great success story the Savings Bond Program has turned out to be. For you see, I'm a Bond owner, too! And when you stop to think about how you and I and millions of our friends and neighbors all over America now own more than 49 billion dollars worth of our country's interest-earning Bonds—it makes you proud to be an American!

**Great News!**

New money-earning features for U. S. Savings Bonds!

**FIRST**—Thanks to new Treasury regulations, every Series E Bond you invest in begins earning interest after only 6 months. It earns 3% interest compounded semiannually when held to maturity.

**SECOND**—Every Series E Bond you own can now go on earning interest for 10 more years after it reaches the original maturity date.

**THIRD**—All maturing E Bonds automatically earn interest at the new rate (average 3% compounded semiannually) for 10 more years.

**FOURTH**—If you want to be paid the interest your Bonds are earning every six months, ask at your bank about the new Series H Bonds.
