The name of Sonora's newest business is El Renoc. Formerly the S Bar S Cafe, El Renoc is being opened Sunday by Mrs. Maxine Ellingson as a confectionery, news stand and sundry store. The name Renoc is not Spanish.

If anybody needs a first-class stilt walker, just let us know and we'll get them in touch with George H. Neill. Don't know how fancy he is, but do know he can walk a dollar's worth. Jack Mackey happened to note Neill was not holding the stilt properly and bet him a dollar he couldn't walk on them. Neill promptly called the wager, switched his hands around the other way and clumped around the store long enough to collect. Louis Davis says that's the first time the business has lost a dollar since Jack's been there.

More Wagering- Latest rain bet is for a case of beer that it rains plenty in April and if it doesn't- another case says it will in May. We promised not say who made the bet, but Henry Decker might remember the fellow's name.

Leon Payne and His Lone Star Buddies will play at the KaBar Saturday. Leon is one of the few blind orchestra leaders we know; he's a good man and plays good music.

Western Union telephone number, 23451 has been discontinued. To phone Western Union call 21241, which is the News phone.

Well, baseball season started Sunday with the locals taking a slight 14-2 trimming from Glenmore Shopping Center in San Angelo. The two teams will play here again Sunday at 3 o'clock.

Pat Lyles is managing the Sonora team and Wallace Johnson will play first base and be assistant manager. Bob Teaff and helpers have built a concession stand and are now busy covering and strengthening the grandstand.

The Sunday game was a practice bout to try out various players at different posts. The biggest kick we got out of the game was watching Old Toro (Bud Smith) set the visitors down in the last inning. Jack Henderson pitched 6 innings and gave 4 runs, two of them unearned. The Lee Thompson pitched the seventh and eighth, but a sore arm gave him trouble and he gave up ten runs. So Old Toro came in to hold Glenmore scoreless in the last.

## OUR DEMOCRACY — by Mat

"WITHIN THE CONTINENTAL LIMITS" 100 YEARS AGO THIS JUNE, A HALF-CENTURY AFTER THE GREAT LOUISIANA PURCHASE, A TRACT OF LAND WAS BOUGHT BY THE U.S. FROM MEXICO — CONTAINING 45,535 SQUARE MILES AND NOW MAKING UP PARTS OF ARIZONA AND NEW MEXICO. THIS WAS CALLED THE GADSDEN PURCHASE, FOR THE SOUTH CAROLINIAN WHO WAS THEN MINISTER TO MEXICO.

THIS PURCHASE HELPED TO ROUND OUT THE BOUNDARIES OF THE CONTINENTAL UNITED STATES AS THEY EXIST TODAY. WITHIN THESE BOUNDARIES, WE HAVE STEADILY DEVELOPED A VAST AGRICULTURE AND INDUSTRY AND A NETWORK OF COMMUNICATION AND TRANSPORTATION, WHICH HAVE TURNED AN UNDEVELOPED COUNTRY INTO A UNIFIED NATION WITH A COMMON CULTURE AND A COMMON DEDICATION TO THE IDEALS OF OUR DEMOCRACY.

## TO MY FELLOW CITIZENS OF SUTTON COUNTY-

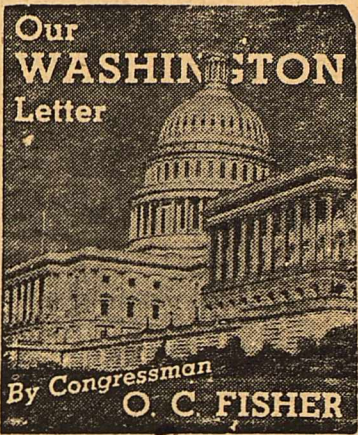

Because of failing health I think it best that I withdraw my name as a candidate for sheriff, tax assessor and collector of Sutton County in the July primaries.

It has been a real pleasure to have been your sheriff for a total of 32 years. Since the days I first took office back in 1915, I have seen Sonora and the county grow and prosper through two wars, through good times and bad, and I am proud to have served the fine people who live in our community. Better people never lived anywhere.

I know that you will give my successor, whoever he might be, all the help and cooperation needed; knowing this, I know he will succeed.

My sincere thanks to all my friends through these many years,

B. W. HUTCHERSON

## GETTING A CONCIENCE

By W. H. Marshall  
The average man spends so little time on himself that it is difficult for him to see what is lacking in life. A good question for all of us to ask ourselves is this: What about MY OUT GO? Not what comes into my life, but what do I let GO OUT?

If a man is a man, he can pretty well handle what comes into his life, whether good or bad. It all depends upon whether he is a MAN or not.

A good question at this point for all of us is: What have I to offer my community in the way of moral strength and a faith in goodness? If a man expects something from his community he should be in position to offer something of good to his community. Human welfare is not to be overlooked. It is the supreme good of human hearts everywhere. Every true parent wants it for his child, for his home. He will pay any price in order to get it. He will order his life after the good and true, so that his family may know the blessings of human welfare; of peace and protection for his children. In every REAL MAN'S eye and heart the child COMES FIRST.

SAY THAT AGAIN MISTER- There is a BIG crowd that will back you UP! "And he took a child, and set him in the midst of them; and when he had taken him in his arms, he said unto them, Whosoever shall receive one of such children in my name, receiveth me." St. Mark 9:36. Look it up in your Bible.

Ward said at the Duluth base planes are always manned, and pilots and air crewmen takes turns sleeping in the hangers with the planes. He said the planes are airborne within two minutes after an alert has sounded. He also explained fundamental jet flying terms and described the equipment worn by pilots.

Lt. and Mrs. Ward were here visiting his parents, Mr. and Mrs. J. A. Ward, Jr. Lt. Ward is a 1948 graduate of Sonora High School and took his BA degree at the University of Texas. He also completed his first year of law school at the university before entering the Air Force.

## IT'S THE LAW in Texas

A public service feature of the State Bar of Texas

### QUARTERLY HOUSEHOLD WORKERS TAX DEADLINE NEAR

April 30 is the deadline on which social security payments for household workers for the first quarter off 1954 are due at the office of the Director of Internal Revenue in your district.

The federal law brings household workers under the old-age and survivors insurance system went into effect January 1, 1951. However, lawyers say that many persons who employ help in their home are still in the dark about requirements of the law.

Here are some provisions everyone should know. Household workers covered by law include maids, laundresses, housekeepers, cooks, nursemaids, gardeners, handymen, valets, bootmen, grooms, chauffeurs of privately owned cars, practical nurses, and others.

Whether or not a household worker is included in the law depends on how many days she works and how much money she is paid. If the person works 24 days and earns \$50 during any one three month periods into which the calendar years has been divided, a tax report must be filed and payment made.

Only cash wages are considered, which includes bus fare if paid in cash, but does not include bus tokens, clothing room and board, or other non-cash items furnished the employee. A domestic worker does not have to put in a full day to county on the 24 day rule—any portion of the day counts as a full day.

The rule is different for domestic workers on farms operated for profit. In such cases the domestic is considered a farm worker and is covered only if he or she meets the test for farm

labor. The tax in all amounts to 4% of the cash wages paid. You, as an employer, must deduct 2% from your household worker's cash wages if the person meets the 24 day, fifty dollar test. You then include another 2% which is the

return envelope, which can be obtained from your Director upon request. Just ask for Form 942. (This column, based on Texas law, is written to inform-not to advise. No person should ever apply or interpret any law without the aid of an attorney who knows

the facts, because the facts may change the application of the law.)

## THE DEVIL'S RIVER NEWS

era of the game, according to Bobby Wallace, old-time pitcher and shortstop, in the first of a two part story appearing in The Sporting News.

He calls the slider "a disappointed curve," and insists that the screwball, employing arm muscles in reverse twist, takes more out of a modern pitcher's arm than do the conventional fast ball, curve and change-up.

"For my dough," says Bobby, "in the big pinch I'd rather have a pitcher out there with the 11-fire-ball and dizzy twisters than all your modern knucklers and dippy-do artists."

Still, as an ex-pitcher himself, he doesn't want to be too dogmatic about it. "It could be this rabbit ball is bringing in a new theory of pitching," Wallace says. "As pitchers know they can't throw this rabbit ball by the

batters for nine full innings, maybe the strategy now is based on the hope of fooling the batter by a mere eighth or quarter of an inch. Such a scant margin is enough to result in a big fly in a ball hit above the bat center or a grounder below bat center. It is by such tiny fractions of inches that batters become

heroes or bums.

"If there is a slow evolution in the theory of pitching, I'm sure today's variety is playing havoc with a lot of salary sources. I think it was the late Dr. Robert Hyland of St. Louis who claimed that these stuff pitchers are putting such unnatural strain on their pitching muscles that some careers were being shortened by years."

According to The Sporting News, it is reassuring to Bobby's personal outlook that the great pitchers of today, such as Robin Roberts and Allie Reynolds, are still in the classic Johnsonian mold.

**MIL0 JOHNSON GETS FIRST TEST AT 33-**

Four months short of his thirty-fourth birthday, Milo Johnson is getting his first big league trial and this with the Detroit Tigers. He is a thin-faced, red-haired righthander of Viking ancestry, eager to prove that his chance has not come too late.

Fred Hutchinson, Tiger manager, plans to give him a shot as

a relief pitcher since Johnson has excellent control. Milo has pitched for Little Rock in the Southern Association for the past seven seasons, and quitting Hutchinson, "Certainly, he has had experience enough."

"The first Florida trial I ever had," said Johnson slyly, "was with the Army at Ft Drew near Tampa."

"I must've made good in that one. They shipped me to England as a gunner with the 8th Air Force."

**YANKEES GO TO GENERAL MOTORS FOR SAIN-**

In order to get Johnny Sain back, the New York Yankees had to meet two conditions. First, it had to go to General Motors and get permission for Sain to leave his Chevrolet car and truck agency at Walnut Ridge, Ark. Then it had to life his salary ten grand, to \$30,000.

Sain had been warned by the GM people that, if he wanted to retain the agency he would have to stay home and stick to business. Apparently there had been some difficulty during the 1953 season, when John's pitching with the Yankees prevented his personal participation in the business during the season.

**SHORT NOTES FROM THE**

## SPORTING NEWS-

You can look for a trade between Hank Greenberg of the Indians and the Yankees. Hank, huddling with Dan Topping at Miami Beach last week, wasn't talking about Miami's delightful climate. . . . Willie Shantz, kid brother of Bobby Shantz, is one of the catchers in the A's camp and one of the best-unfortunately, he can't hit as well as his brother Bobby. . . . Do you know that last season 34 different players performed at third base in the American League? National League clubs employed 26. . . . During the winter the Washington Senators turned down offers for Julio Bequer, Cuban first baseman, that ran as high as \$50,000 from Cleveland, White Sox and Dodgers. He's only 21 and will be the Washington first baseman in a couple of years. The catching situation on the Detroit Tigers is so unsettled there are rumors of a switch with Buffalo for Al Lakeman, 34-year-old receiver who failed in three national League trials.

The Reverend and Mrs. W. H. Marshall were in Galveston on business last week.

Dr. and Mrs. Tom White, Dr. and Mrs. Joe B. Logan, and Mrs. Carl Peebles attended the Permian Basin dental clinic in Big Spring. They were accompanied by Mrs. Reed Trotter of Water Valley and Mrs. C. A. Tyler.

Mr. and Mrs. B. H. Cusenbary had as their guests last week their son and family, Mr. and Mrs. Jimmy Cusenbary and daughter, Susan of Ballinger.

Mr. and Mrs. W. T. Magee had as their guests last week his mother Mrs. Elsie Magee of Midland.

Mr. and Mrs. Bennie Babb were in Galveston on business last week.

Mr. and Mrs. W. O. Critter were in Waco last week visiting her mother, Mrs. Carnes, who is ill.

Presenting the

# 1954 CADILLAC

Styled to be Copied for Years to Come...

...and as Thrilling to Drive as to See!

The new "Standard of the World" is now on display in our showroom. It is not just a new model, but a wholly restyled and re-engineered Cadillac—new from its more massive grille to its more distinctive rear deck.

It is lower and longer in silhouette . . . more modern and graceful in its body lines . . . and with greater majesty and dignity in every detail. Beyond question, it is destined to influence the design of motor cars for years to come.

Matching this greater exterior beauty are Cadillac's luxurious new interiors—more generously proportioned and more beautifully

appointed than ever before . . . and executed in a dazzling array of gorgeous new fabrics and leathers.

And, what is even more remarkable, this wonderful new Cadillac is as thrilling to drive as it is to see!

A great new 230-horsepower engine has added new power and responsiveness. A vastly improved Hydra-Matic Drive provides even greater smoothness and flexibility. Advanced Cadillac Power Steering, now standard equipment on every model, brings with it a whole new concept of steering and handling ease. And new Cadillac Power

Braking\* has introduced wonderful new motoring safety and convenience.

This greater Cadillac beauty—and this finer Cadillac performance—are available for 1954 in three brilliant new series of motor cars . . . the remarkable Series 62, the distinguished Fleetwood Series 60 Special and the magnificent Fleetwood Series 75. And, of course, there is also the supremely beautiful Cadillac Eldorado.

These inspiring creations are in our showroom now—awaiting your critical inspection. We cordially invite you to see and drive them at your earliest opportunity.

\*Optional at extra cost.

Everyone Is Cordially Invited

The Look of Tomorrow is in every '54 BUICK Today. With completely new "years-away" styling—keynoted by the dream-car design of the panoramic sweep-back windshield.

# Take it Easy

you don't have to prove a thing!

Let's be sensible about this subject of horsepower.

An all-American tackle doesn't go around tackling people in everyday life.

A world-record sprinter doesn't have to demonstrate his prowess on city sidewalks.

The better you are, the less you have to prove it.

And that's how it is with a Buick CENTURY.

Of course it's a spectacular performer—a car with instantly responsive action.

It has to be, for this one combines a

high-compression 200-horsepower V8 engine with a nimble weight of only 3866 pounds as it comes off the assembly line.

That's a power-to-weight ratio that chalks up a new record—a ratio that no other Buick has ever reached before.

It can spin your wheels on a dry pavement if you give it the gun, but why waste rubber?

If some show-off wants to get the jump on you at a traffic light, why not let him have fun? He isn't kidding anyone but himself, when the name on your car is CENTURY.

The real pride of owning such a car is

simply this: You know so well what it can do that you never have to prove it.

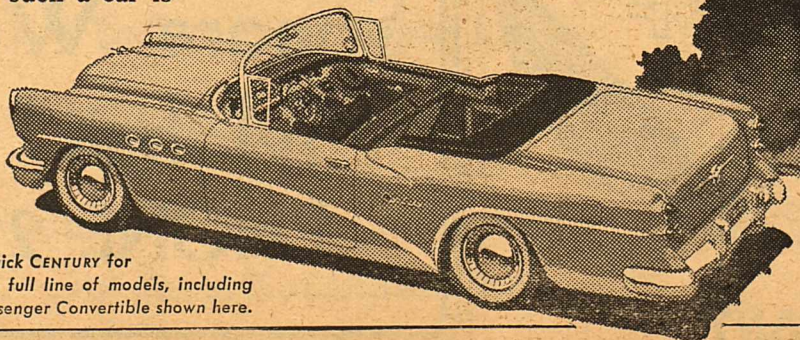

That lets you enjoy the tireless ease of its gait in ordinary driving, when only a fraction of its eager power is working. It gives you a quick reserve for breaking a hill—and the happy knowledge that there's still more to come in a sudden emergency.

Sure, this is more power than most people really have to have. But you can hardly call it extravagant, when you are buying more horsepower per dollar in a CENTURY than you get in any other car in America.

**Johnny Appleseed Honored**

Dedication of a monument to John Chapman, widely known as Johnny Appleseed, pioneer Ohio apple nurseryman, took place during a recent sesquicentennial program in Mansfield, Ohio. The tall, impressive monument of Select Barre Granite was made by Cook, Watkins & Patch, Inc., Barre, Vt., for LeRoy McGinty & Son in Mansfield, Ohio. This permanent memorial was executed by craftsmen of the Barre Guild. The Richland County Historical Society sponsored this Barre Guild monument and erected it in South (Sherman Heineman) Park, Mansfield, Ohio.

Johnny Appleseed was born in Massachusetts in 1776. He died near Fort Wayne in 1843 where he had arrived about 1800 in a craft consisting of two canoes lashed together, bearing a cargo of 16 bushels of apple seeds to plant nurseries.

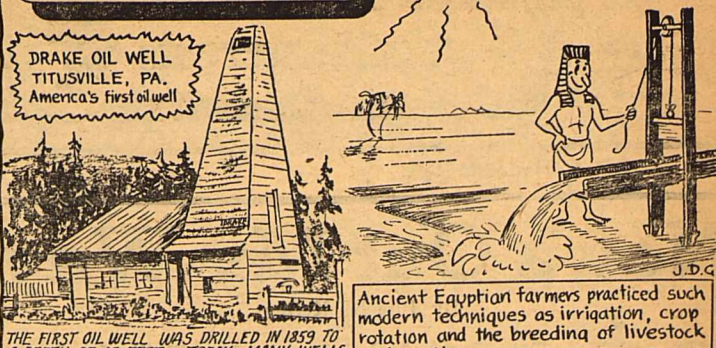

For more than 40 years he wandered over the growing

West, carrying a New Testament and a bag of apple seeds. His price for a seedling apple tree was "a flip penny bit" (8 1/2c each) and some seedlings planted over 100 years ago still bear fruit. One of Mansfield's first citizens, historians say he helped save a small band of pioneers during the War of 1812 when he ran most of the way to Mount Vernon to summon aid during an Indian attack.

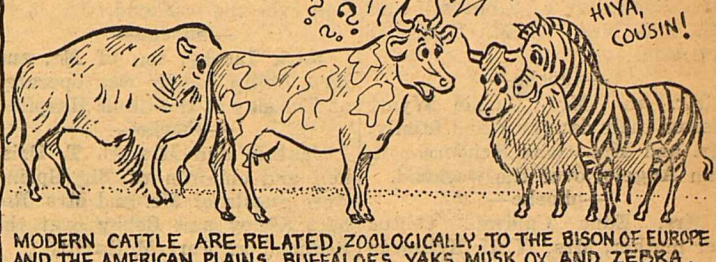

Johnny Appleseed never killed an animal or fought a man. He was closely associated with the Indians and personally acquainted with well-known chiefs, living in their village for months at a time. Considered a friend of humanity, he was instrumental in organizing one of the first religious societies in Richland County, Ohio. He slept on any handy floor at night, never indoors, after first reading aloud what he called "news from Heaven" in his Bible.

**How Well Do You Know Coffee?**

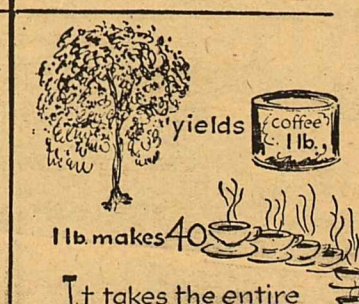

Coffee trees bear white flowers which resemble orange blossoms and have a heavy, jasmine-like fragrance. A coffee farm in full flower is a scene of breathtaking beauty.

Because ideal coffee growing climate is between 65 and 75 degrees, the plants are extremely sensitive to frost. They also need plenty of water and moderate sunshine. Last July, millions of trees were destroyed by freakishly low temperatures in Brazil.

The fruit of the coffee tree is called a "cherry" and resembles our edible cherry. It takes 5 years before the tree matures. It then bears about 2000 cherries, each of which must be hand-picked!

It takes the entire crop of one coffee tree to produce a single pound of roasted coffee!

**OUR DEMOCRACY** — by Mat

"WHAT'S THE YOUNGER GENERATION COMING TO?"

EXASPERATION...TOLERANCE...UNL ERSTANDING...ACCEPTANCE. THIS IS OFTEN THE CYCLE OF THE OLDSTERS FEELING TOWARD THE YOUNGSTER—EVEN AS HE WAS ONCE REGARDED BY HIS SENIORS.

ESPECIALLY IN A PROGRESSIVE, DYNAMIC ENVIRONMENT LIKE OUR DEMOCRACY'S, THERE IS EVER THE PROBLEM OF EACH GENERATION ADAPTING TO THE NEXT—BUT IT ALWAYS DOES. FOR OUR HERITAGE OF FREEDOM, OF INITIATIVE, ENTERPRISE AND THRIFT REPRESENTS AN AMERICAN TRADITION—CHERISHED BY BOTH FATHER AND SON.
