FORTY-SIXTH WEEK

Proclamation

WHEREAS, in true Texas tradition, Texas leads all other states of the Nation in the raising of sheep and goats; and,

WHEREAS, the wool and mohair industry is a vital and important part of our State and National economy, adding greatly to our National income, providing a livelihood for thousands of citizens and contributing comfort and pleasure to the American Way of Life; and

WHEREAS, The Honorable Allan Shivers, Governor of Texas, has designated this same period as TEXAS WOOL WEEK;

BE IT THEREFORE RESOLVED THAT I, Alfred Schwiening, Mayor, City of Sonora, do hereby proclaim the week of August 29-September 3, 1955, as

TEXAS WOOL WEEK IN SONORA.

In official recognition whereof, I hereby affix my signature this 24th day of August, 1955.

Alfred Schwiening, Mayor.

10,000 Families Need Your Help, Red Cross Says

Mrs. Maysie Brown received the following telegram from the National Red Cross Headquarters:

"Needs continue to grow in the disaster affected areas. Estimate number of families who will register with the Red Cross for rehabilitation assistance exceeds 10,000 and continues to mount. This will require funds in excess of \$8,000,000. Your chapter has been given a rock bottom quota of 90 dollars and expect you will make every effort to have it substantially oversubscribed."

Signed E. Roland Harriman. Please leave your donations with Mrs. Maysie Brown at the First National Bank.

County To Halt Maintenance Of Private Roads

The Sutton County Commissioners Court voted at their meeting Saturday morning, August 20, to discontinue for the time being maintenance and rebuilding of private roads.

This move was taken as an economic measure. As a result of the drought, caliche has blown off roads involving a large expenditure for putting water on the roads. Therefore the county road and bridge fund is running short of money and in order to conserve funds, it was agreed to confine maintenance and rebuilding to county roads until such time as funds are available for all roads.

Since The Days Of Moses

The use of mohair has been traced back to 1500 BC when Moses commanded the children of Israel to "bring white silk and goat's wool" to weave altar cloths for the temple.

We know mohair today as it is used in fine drapery fabrics, upholstery for autos, trains,

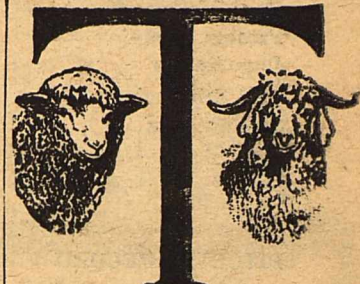

planes, household furniture, and in clothing.

Local Growers Reject 708

Sutton County wool growers rejected Section 708 of the National Wool Act in the referendum ending August 19. Returns of the referendum, released through the local ASC office, show that 19 producers representing 39,936 sheep voted in favor of the agreement. Twenty-five producers representing 40,337 sheep voted against the agreement.

The referendum was on an agreement between the American Sheep Producers Council and Secretary of Agriculture Ezra Taft Benson providing for deductions from wool incentive payments made to producers. If the referendum carries nationally, the deductions will be used to finance advertising and promotional campaigns for wool.

TEXAS WOOL WEEK

Final results of the nation-wide referendum will be announced early in September. Ballots were sent to 150 eligible voters in Sutton County.

ODDS & ENDS

Since this issue of the "Devil" is devoted primarily to wool and mohair, we believe it entirely fitting that this column cover a few "Odds and Ends" about the twin wonder fibers which lend so much to the economic support of Sutton County.

Few people realize the progress that has been made in the last two decades toward the improvement of wool and mohair, both in the fibers themselves and also methods of preparation for market.

Probably the most important instrument working toward these ends in this area in the Sonora Wool and Mohair Show.

The Show was organized in 1937 by Fred T. Earwood, W. J. Fields, Jr. and H. C. Atchison. Atchison was county agent at that time. In the first show, only single wool fleeces were judged. Each year since it was founded, the Show has shown steady growth, new classes of wool and mohair, livestock, and plant judging have been added until today it is the largest show of its kind in the world.

—Texas Wool Week—

Before the drought, there were 211,138 sheep in Sutton County which supplied a yearly revenue of \$3,160,070.00 or over 80 per cent of county income.

Mrs. Fambrough died at her home Friday morning. She was born in Fort McKavett, 1875, the former Miss Benina Balch. The Balch family moved to Sonora in 1880 and she married A. C. Fambrough in 1918. Mr. and Mrs. Fambrough lived in San Antonio a few years and then returned to Sonora.

Survivors include four step-children, Leslie Fambrough of McCamey, Claude Fambrough of San Angelo, Mrs. T. E. Burford of San Antonio and Mrs. H. C. Rinehart of Germany; and five step-grandchildren.

Pallbearers were John A. Martin, Jr., Wess Hill, J. T. Ratliff and Jack Kerbow.

Football Field Gets New Lights

The addition of 15,000 Watts to the lighting of the football field will bring total Wattage up to 75,000. Other innovations will make the field one of the best lighted in this area.

The new installations will include the addition of one light to every pole for a total of five lights to the pole and wide spacing of lights for more uniform lighting.

New reflectors and a new transformer have been installed. The cost of the lighting project is not to exceed \$1,300 on the part of the school and the City is to spend about \$1,200 on the new transformer bank and structure.

PAST, PRESENT, FUTURE

Past, present, and future of the wool industry in Sutton County is exemplified by the pictures above. The past by the wrinkly sheep of 1923, then considered the ideal wool type. The present by the smooth type fine wool sheep now being observed in the ram progeny tests conducted at Experiment Station. The future of the industry rests in the hands of such active youngsters as these 1955 4-H Club Show winners.

Earwood To Wash. For Wool Talks

Fred T. Earwood, Sutton County ranchman-warehouseman, left Sunday to attend meetings in Chicago and Washington for the discussion of methods of disposing of CCC accumulated wools and incentive price level for the 1956 wool marketing year.

TEXAS WOOL WEEK
AUG. 29 - SEPT. 3

A Tribute To The Wool Industry

DURING TEXAS WOOL WEEK WE WOULD LIKE TO PAY TRIBUTE TO THE WOOL AND MOHAIR INDUSTRY IN SUTTON COUNTY BY POINTING OUT ITS CONTRIBUTION TO OUR WAY OF LIFE.

The growing of wool and mohair, Sutton County's principle industry, forms the backbone of county economy.

Texas leads the nation in the production of wool and mohair. The Texas wool industry is the fourth largest industry in the state, ranking next to oil, agriculture and cattle.

The United States is the third largest wool-growing nation in the world, possessing the largest and most modern apparel wool textile industry in the world.

IN ITS CONTRIBUTION TO THE ECONOMY OF THE COUNTY, THE STATE AND THE NATION, WOOL IS TRULY "THE GOLDEN FLEECE."

LET'S TALK LIVESTOCK BY TED GOULDY

FORT WORTH—There was the usual effort on the part of the buyers to lower livestock stock prices on the market at Fort Worth Monday, and the usual resistance on the part of the salesmen. The result was about a steady market compared with the close last week.

Fat steers and yearlings, stockers and feeders, and canner and cutter cows were most active. Comparative prices: Slaughter steer and yearling of good and choice kinds \$19 to \$23.50, the top for steers that were feedlot mates to the New Mexico cattle at that price last week. Unusual

features was that the two loads sold Monday weighed 941 pounds, exactly the same as those last week. Common and medium beef cattle \$12 to \$18. Fat cows \$10.50 to \$12; canners and cutters \$7 to \$10.50. Bulls \$10 to \$13.50. Good and choice slaughter calves \$16.50 to \$18.50, some baby beef yearlings weight creeds \$19 to \$20. Common and medium \$12 to \$15.50; culis \$9 to \$12. Stocker steer calves \$16 to \$21, yearling stockers \$19 down. Stocker cows \$8 to \$12.50.

Slaughter ewes 50 cents higher and sold mostly at \$4.50 to \$5.50 at Fort Worth Monday. Other kinds of sheep and lambs were steady. Fat lambs topped at \$18, but something strictly choice or prime could probably sell above that easily enough. Feeders sold readily at \$14 to \$16, and load lots of choice feeders could bring more.

Old wethers drew \$7 to \$12. Yearlings muttons were quoted from \$8 to \$16. Old bucks around \$4.50.

The West Texas sheep country continues to get rains and some observers there say some sections look "like Spring". Restocking is already very active, will increase

as the cooler weather approaches. Stocker cows dealers on the yards report activity in their pens the greatest in a long, long time. Despite the continued relatively low prices on finished cattle, the stocker and feeder demand remains good.

The improved pasture and water conditions in the Southwest has put most sheep and cattle in very strong hands, and efforts of Northern buyers to weaken prices have been unavailing so far this season.

Capt. Wallace, who is visiting his son, Dee Wallace on the ranch, was in Sonora Tuesday. The Captain gets along very well considering his 87 years.

Mrs. W. B. Adams of the north Llano sent the News some tomatoes Friday which we very much appreciate. As an illustration of the productiveness of the soil, two weighed 19 ounces each and another 12 ounces. Kind of patterns after the big hearted people who raised them.

Lost Saturday the 17th, a pearl brooch. Style two wings, a crown and a heart with a small diamond in the heart. Please leave at New office. Mrs. D. H. Wood.

Mrs. Marvin Alley returned from the revival at Christoval Friday.

G. A. Killis of Sonora sold to Tol Cauley of San Angelo, 60 head of cows and calves at \$35 per cow and calf.

Mr. and Mrs. J. G. Barton and children, after a most successful trip and enjoyable visit to San Antonio, arrived home Thursday. Little Red 46 Sonora took them 150 miles out the first day but the children were tired and they stopped all night in Comfort. He was pleased after they stopped

because the roads kept getting better and when they struck the oiled roads of Bexar County it was all he could do to keep 46 from running away. The double trip was made without even a puncture.

Miss Wynona Grimland entertained a few of her friends with progressive 42 Thursday night.

Those present were Misses Sallie Wardlaw, Blanch Ward, Ray Davis, Ethel Adams, Elsie Adams, Mattie Martin, Gussie Worrell, Messrs Christian Myers, Fred Simmons, Russel Martin, Arthur McDonald, Grady Lowrey, Rector Cusenbary, and J. E. Grimland.

Music was rendered by several. Ice cream and cake were served after the games were finished.

Soil Conservation District News

Prepared by Local SCS Personnel
News of Edwards Plateau Soil Conservation District

Grass seed of choice grasses are maturing rapidly in areas favored by rainfall. Much cane and silver bluestem has shattered but sidecoats grama is making a terrific seed crop.

A number of ranchmen are harvesting native grass seed. Two men with hand seed strippers harvested 20 pounds of sidecoats grama seed in one day on the Alvis Johnson ranch. Texas grown sidecoats is very scarce and sells for \$1.25 per pound and up, so \$25 worth of seed per day "ain't hay."

Tom Davis has been harvesting grass seed, too. In addition to hand stripping several pounds, Tom and E. B. Keng, SCS, tried the Edwards Plateau SCD grass stripper on about four miles of roadside this week. About five sacks of good seed material were obtained. Ben Cusenberry is planning to do some harvesting, too. A dozen hand seed strippers have been ordered by the District.

They can be very effectively used in rough areas where grass seed are usually the thickest. Bobby Martin gets two strippers, and Alvis Johnson two, and the rest will be sold to cooperators at cost (approximately \$4). Whistle if you want one.

Wool And Mohair Improved By 4-H Club Program

By D. C. Langford

Since Sutton County is situated in the center of the sheep and goat producing area a large part of the 4-H Club program is built around sheep and goat production. 4-H Club members feed out around 125 to 150 fat lambs and 30 to 35 breeding sheep for the county and major shows each year. In this program 4-H Club members are taught the type of lambs that feed well. The most desirable type of breeding sheep and the amount of feed that a sheep will consume in a day, the types of rations for developing both fat and breeding animals, the proper feeding and handling of sheep, the fitting and showing of accounts records on feeding demonstration. During the past year 4-H Club members exhibited 86 lambs in major shows without having a single lamb sifted for lack of type or finish. Over 50 of the lambs placed in the money. 4-H Club members from Sutton County have exhibited champion breeding sheep at every major show that they have participated in which includes The Stare Fair of Texas, The Houston Fat Stock Show, The San Antonio Livestock Show, and The San Angelo Fat Stock Show which indicates the quality of breeding sheep being produced in Sutton County.

The real heart of the 4-H program is the range sheep and goat demonstrations that 4-H Club members carry on. 4-H Club members are taught to select outstanding sheep and goats for the production of meat, wool and mohair. They are taught to prepare wool and mohair for market in the proper way, to grade both wool and mohair according to length of staple and fineness, to judge fleece of both wool and mohair according to their value to the grower.

Along with their range type demonstrations 4-H Club members are taught that a successful selecting and breeding program cannot be carried on without proper range management. To give 4-H Club members a little basic knowledge of range management they are taught to identify the various range plants that grow in their area, to classify them according to their grazing value and season of growth. They are also taught to judge range plants based on their knowledge of plants.

The Sonora Wool and Mohair Show has probably done more to stimulate the interest of 4-H Club and F.F.A. members in the improvement of sheep and goats and wool and mohair than any other event. Here the top 4-H and F.F.A. judging team in the state vie for top honor in sheep, goat, wool, mohair and range

management contests. The competition is very keen with some 60 or 70 boys and girls taking part in the contest. Probably two or three times this number of boys and girls are trained back in the home counties before the teams are selected to represent each county 4-H Club and F.F.A. chapter. 4-H and F.F.A. members also exhibit wool and mohair in the Sonora Wool and Mohair Show and have found that the competition is the toughest that can be encountered in a wool show in this country.

During the past seven years the Sutton County 4-H Club has won the Group Participation Trophy based on number of entries, placing of entries, judging team scores and miles traveled every year. The local 4-H Club has also won the judging contest outright three times and tied for first one time in the last seven years at the wool show and never placing lower than fourth.

At the State Wool and Mohair contest the Sutton County 4-H Club members have won many honors having the state champion team two times in the past five years. The club has had three individual state wool and mohair judging champions during the time.

Sutton County 4-H Club members have exhibited wool at practically every major wool show in the country and have won top honor at the California Wool Show at Sacramento, The National Western Wool Show at Denver, The International Livestock Ex., at Chicago, The Kan-

FACTS I BELIEVE
By W. H. Marshall

A man has no more right to an opinion for which he cannot account than to a dollar he is not entitled to.

Our deeds determine us our deeds.

What your home is not teaching, don't ask your church to teach.

If your home is not Christian, don't ask the church to make your child Christian.

If you send your child to church and do not go yourself you are only fooling your child.

Your Christianity is determined by your actions and not by how you can look while at church.

Jesus never did let the other fellow make a devil out of Him.

It must be wholesome feeling to be able to say, and know in your heart it is true, "I refuse to lower myself in an attempt to belittle another person."

Your religion is not what you think you've got, it is what makes you act like you do.

The chances are that the first man I meet on the street in the morning will be a better man than I am.

I wouldn't give a hang for a religion that cannot make a man act like a man.

All of us have the honor of living in the time of the greatest world events that have ever taken place.

Not to keep step with the demand our world is making on us today, is to prove ourselves unfit to live in the world.

I have always thought an old dog who will eat one bone and then go and bury the other one is a selfish dog. There are some things the world has a right to ask of every man who claims to be a man. I owe my fellowman something of my best self.

If you are ahead of the other fellow you cannot kick him from behind.

Remember, your opinions may not be any better than that of the other fellow.

You are never smart when you think you cannot be wrong. When you have to keep your opinions on the defensive you better work your opinions over with kind judgment.

If you feed an old cow bitter weeds you will get bitter milk. In part, I am responsible for the kind of neighbors I have. For the kind of person you are, many persons must take some responsibility.

I want to be judged by friends who make mistakes, and not by those who are so pious as to never make a mistake, or to be wrong in their judgment.

You may have a high opinion of yourself, but you are no bigger than you act.

I am responsible unto God for my own acts, therefore, I will not, if I can help it, let another man make me less a man than I want to be.

Ever wonder what "Santa Fe" means?

Back in 1901, about 40 years after the Santa Fe Railway was founded, the ancient Indian Cross-within-a-Circle design was placed in a square and the assembly was adopted as the official trademark of the young railroad.

The words "Santa Fe" means Holy Faith. Today, that faith and vision in America's future have built the Santa Fe Railway System into a vital network of steel, linking the West,

Southwest and East with fast, efficient transportation services. These rails serve your town; help it grow and prosper.

And, no matter what your shipping or travel problems may be, Santa Fe will solve them. Your local Santa Fe agent is right here in your town to help you.

You can depend on him, as you can depend on the vast system he represents.
