TWENTY-SECOND WEEK

## ODDS & ENDS

In this week's mail came a letter from Max Justice of Fox, Oregon saying:

"Could you please tell me something of your town? I lived near there when I was a youngster and have lost touch with it."

Would like to return some day and wish you would send me a road map and a few copies of your newspaper. I remember it was the county seat at that time and the newspaper the Sonora Sun.

Thank you.

Max Justice.

-oan-

And here is our answer: Dear Mr. Justice, We appreciate your letter and herewith attempt to answer it.

Some facts about Sonora can be found in the Texas Almanac which gives the population as 2,633 and cites Sonora as the county seat of Sutton County, population 3,746. It tells of our annual wool and mohair show which it calls one of the nation's outstanding exhibitions.

That's what the Texas Almanac can tell you. What it can't tell you is about the city's intangible assets—its location in a valley formed by four draws with houses nestled against the surrounding hills, or its steadily building business district or its lovely churches or its excellent and well-equipped schools.

But the principal thing about Sonora is those 2,633 people—every one of whom will be glad to see you and to welcome you back and to do their best to find your old friends and to fill you in on what has happened since

## Masons Hear Senator Kelley

Senator Roger Kelley spoke to a meeting of the Dee Ora Lodge Tuesday on the history and development of the Texas public schools during the 100 years since its founding.

Senator Kelley's appearance was sponsored by the Citizen's Committee of the Lodge.

About 100 attended the meeting and a barbecue supper.

You left. And they'll soon have you feeling that you never really went away at all.

We hope you can come back soon. And when you do, come by the Devil's River News, which was probably edited by a Murphy when you were here, will be happy to see you.

Yours very truly,  
The Editor.

Louis Davis's definition of watercress: "You know-it's that stuff that looks like frustrated lily pads."

-oan-

Fishing stories were flying thick and fast just before the cold snap Wednesday. Bob Vicars probably catches the most appetizing fish but Bob and Phoebe Kelley and R. A. McCulloch come by their hardest and lose them easiest. Their trip rang up three unexpected dips into the lake and tangling their string of fish in the outboard motor. Always excuses!

-oan-

Kites are really the rage. Jack Mackey's jet job comes knocked down for 98 cents. Or he'll esemble it for \$4.98. We assembled our own and we figure his price is cheap. Our casualties amounted to one stuck finger (an extra small brad), one popped wrist (a willful rubber band), two lost tempers (guess whose) and four very stiff, very small necks. (kites are no fun unless you can watch!).

Our thought for the week: The golden age of parenthood is when the children are Too old for baby sitters, but Too young to drive the car.

## MEET YOUR TEACHER

James G. Robbins, high school speech and English teacher, does some last-minute coaching with Vicki Savell and Shannon Ratliff as they prepare for participation in the Sonora Invitational Speech tournament to be held here this weekend.

The busiest teacher this week is James G. Robbins, high school English and speech teacher. Although he is always busy, what with teaching and coaching debate teams, individual speakers, radio speech, and coaching both school and community plays, Robbins is really in high gear now making arrangements and finishing his students for the Speech Tournament now underway at the school.

Robbins was raised in Perrin, Texas and is a graduate of the schools there. He holds a Bachelor of Arts degree in English and speech from Hardin-Simmons University and has done graduate work at Texas Technological College.

Robbins is spending his sum-

mers in Boulder, Colorado, where he is completing work toward a Master of Arts degree from the University of Colorado. He credits his choice of that school not only to its excellent speech department but to its nearness to trout streams where he can indulge his hobby of flyfishing.

Mr. and Mrs. Robbins and their three children, Ava, 12, James 8, and Paul, 6, came to Sonora in 1954. Prior to that Robbins had taught in Rochester, Abilene and Wilson. Mrs. Robbins was formerly a teacher and still does substitute work in the local schools.

Robbins is rightly proud of his speech students who he says are unusually well-qualified and fully capable of competing with students from any Texas school.

## Davis On State Committee For Study Of Graduation Requirements

Norman S. Davis

Norman S. Davis, principal of Sonora High School, has been named by Texas Commissioner of Education J. W. Edgar to an advisory committee to assist a committee of the State Board of Education with a study being made of graduation requirements of accredited school systems in Texas.

The advisory committee is composed of 29 members chosen from Texas colleges, the State Board of Education, the state PTA, the organization of school board members, the Association of Secondary School Principals, the State Superintendents Association and the president and immediate past-president of the Texas State Teachers Association.

At a meeting in Austin Tuesday Dr. Edgar told committee members that graduation requirements have not been changed in many years and that a change is required in order best to prepare and train young people to meet the demands of industrial development in the world today.

The committee will be called later in the spring to report on the findings of individual members and to map out the proper approach to such revisions as seem advisable.

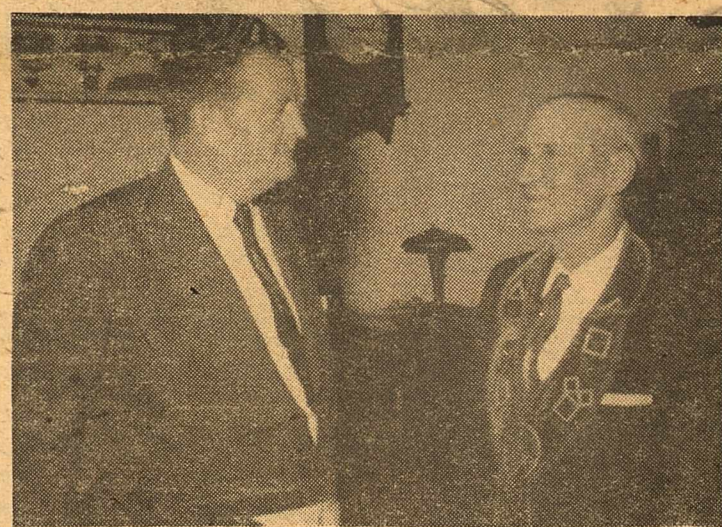

College students who spent the weekend at home with their parents were Billy Scott and Albert Ward from Waco, Tracy Crites and Turney Friess from Lubbock and Oscar Carpenter from College Station.

## Sonoran Cleared In Ozona Death

OZONA, March 7—Aubrey Chadwick, 27, of Sonora was released and cleared Wednesday of suspicion or implication in the death of a 19 year old El Paso woman here Sunday night.

Chadwick was released after testimony of witnesses and a lie detector test held Wednesday in Austin, verified his innocence, Crockett County Sheriff V. O. Earnest said.

The dead woman, Mrs. Elizabeth Ann Foster, was found shot in the stomach with a 30-40 caliber bullet about 2:30 a.m. Sunday near a welding shop.

Senator Rogers Kelley and Paul Turney are shown here just before Senator Kelley spoke to Masons Tuesday night. Senator Kelley filled three speaking engagements here Tuesday as a part of the observance of Public School Week in Texas.

## Broncs Take First Place At Eldorado Relays Saturday

Sonora High School's Broncos racked up a total of 43 points to take first place in Eldorado's first annual Plateau Relays Saturday. Robert Lee High School placed second with a 23-point total.

James McLaughlin placed first in the discus throw with a distance of 124 feet, 1 1/4 inches. In the shot put event the Broncos took three of the first four places with George Johnson placing first with a distance of 47 feet, 4 1/2 inches followed by McLaughlin, second, and Ted Joy, fourth.

In the 880 relay Sonora's team of Juan Favela, Harold Garrett, Tommy Adams and Vivian Vasquez came in first with a time of 1:39.1.

Preston Love took top honors in the 440 yard dash with a time of 51.9 seconds.

The Bronco 440 relay team of Garrett, Love, Adams and Vasquez stepped into first spot after the Eldorado Eagles were disqualified by a faulty handoff.

In the pole vault event, Sonora's Pete Badillo vaulted 10 feet, 3 inches to place first.

Juan Favela came in fourth in the 220-yard dash and Chris Hernandez and Eddie Sosa placed third and fourth, respectively, in the mile run.

The mile relay team of George Ed Hill, Frank Joe Potmesil, Vasquez and Love came in first

in that event with a time of 3:46.5.

Teams participating in the meet were Ozona, Bandera, Robert Lee, Richland Springs, Rochelle, Mason, Rankin, Menard, Brackettville, Paint Rock, Melvin, Bronte, Eldorado and Sonora.

## Services Held In San Angelo For Mrs. Groff

Funeral services for Mrs. Ida Groff, 83, were held Monday afternoon in Johnson's Funeral Chapel. Mrs. Groff died Friday in Shannon Memorial Hospital.

Born August 10, 1872, in Germany, she came to this country when 2 years old and settled with her parents at Brenham. She had lived in the Grape Creek Community in Tom Green County for 50 years.

Mrs. Groff was buried beside her husband in Fairmont Cemetery. The Rev. Kenneth C. Greer, Grape Creek Baptist pastor, officiated.

Survivors include five sons, E. F., H. J., L. S. and George Groff, all of San Angelo; Oscar Groff of Sonora; two daughters, Mrs. Minnie Teagarden of San Angelo, and Mrs. Francis Barker of Fort Worth.

## S.H. Host To Seven Schools For 8th Speech Meet

### Local Students Attend Meeting In Midland

Shannon Ratliff, Vicki Savell, Nancy Hunt and Rus Chalk attended a meeting of the Association of High School Student Councils in Midland last weekend.

Features of the meeting were a general meeting Thursday afternoon for leaders of discussion groups followed by a mixer. Another mixer was held Thursday night in order to acquaint delegates with each other.

Friday morning Dr. William Alexander, pastor of the First Christian Church of Oklahoma City, addressed the general session and discussion groups were held throughout the day.

Candidates for officers were presented at a political barbecue Friday night and made their campaign speeches. Nominating and acceptance speeches followed.

Delegates were guests at a formal dance at the Scarbrough Hotel ballroom and at an informal dance in the Midland Community Center Friday night following the barbecue.

Officers were elected at a general meeting Saturday morning.

Delegates were housed in private homes. Norman Davis accompanied the local delegates.

### SOCIAL SECURITY NOW APPLIES TO RANCHERS

Farmers and ranchers who have net earnings of \$400.00 or more from their 1955 operations are now eligible for protection under the federal old-age and survivors insurance provisions of the Social Security Act. The years 1955 will be the first time that earnings from operating a farm or ranch can be reported for this protection, which applies to self-employed operators and share-croppers.

Participants in the program may find themselves qualifying for benefits under this program when they reach age 65. Should they die insured under the program, their survivors may also qualify for benefits.

## Is Your Child's Life Worth \$2.00?

Is your child or the child down the block worth \$2.00? That's all it costs to have your dog inoculated against rabies and tagged.

City officials continue to express alarm at reports of rabid animals and rabies-suspected dogs near and within the city limits.

Manager of City Utilities R. M. McCarver again urges all dog owners to comply with city ordinances requiring all dogs to be vaccinated and tagged, thus enabling city employees to distinguish between pets and strays, vaccinated, and unvaccinated dogs.

McCarver recounted an experience of last week when he saw three children playing in a yard with seven dogs. Only one of the dogs was tagged! The possibility of any one of these dogs having been bitten by a rabid animal is much greater than is generally realized.

Invest now! It's an investment in insurance for the lives of our children.

Mr. and Mrs. Boyd Lovelace had as their guests for the weekend their children and their families, Mr. and Mrs. Don McGara, Paul Wayne, Mickey Jim and Bonnie Lassie of McCamey, Mr. and Mrs. Robert Lovelace of Dallas and Mr. and Mrs. Joseph Seale and Jim Bob of Sonora.

### Speech Tournament Opens Today

Sonora High School's eighth annual invitational speech tournament will get underway at 9:20 this morning (Friday) with 107 students from seven schools participating. At that time the first round of debate will take place in the elementary and high school buildings. The second round in debate will begin at 10:35.

### INDIVIDUAL PRELIMINARIES

From 1:00 to 2:30 p.m. preliminaries in individual speaking events will be held in both buildings. Classes in individual speaking will be girls' and boys' declamation, girls' and boys' impromptu speaking, girls' and boys' original oration, boys' and girls' radio speaking, junior boys' and girls' poetry reading and senior boys' and girls' poetry reading.

Third round debate will be heard at 4:30 Friday afternoon.

At 2:45 individual events in boys' and girls' dramatic interpretation, humorous declamation, extemporaneous speaking and after speaking will be heard.

Four one-act plays will be presented at the high school auditorium at 7:00 Friday night.

### FINALS SATURDAY

Finals will be held Saturday morning at 8:30 in individual events. Saturday's debate schedule will have the fourth round at 10:30, quarter finals at 1:00, semi-finals at 2:30 and finals at 4:30.

Participants will be guests at an informal presentation banquet and dance at the Bryan Hunt ranch Saturday night.

## County Receives Extension On Drought Emergency Feed Program

### Senator Kelley Addresses PTA

Senator Rogers Kelley of Edinburg addressed the Sonora PTA Tuesday on the subject of Texas Public School Week.

Senator Kelley gave as the objectives of Public School Week: To focus statewide attention upon, and make all the people of Texas conscious of our public schools by setting aside and dedicating one week of the year for this purpose.

To give all the people of Texas a better understanding of the various problems affecting our schools and the outstanding success that is being achieved by the administration of our public school system in the training of our youth, by urging personal inspections of and visits to our various school plants throughout the state during the week.

To acquaint all the people of Texas with the costs of our public school system and how and where our tax dollars are being spent in the operation of our schools.

Mrs. Marie K. Ellis, office manager for the Sutton County ASC, has received word from G. C. Carothers, Jr., State ASC administrative officer, that the Emergency Feed Grain Program has been extended in all counties currently designated as eligible.

The extension allows for acceptance of applications up to and including March 16, 1956, for a supply of feed grain sufficient to carry eligible livestock to April 15, 1956 inclusive.

Applications should be made to the Sutton County ASC office.

To inform all the people of Texas that public-spirited men and women are willing to devote their lives to the teaching of our youth and that it is of paramount importance that this civic interest be supported and encouraged in their efforts.

To obtain all possible suggestions and recommendations from the informed people of Texas relative to the best possible improvement of our school program as a whole and the operation of our schools in particular.

Senator Kelley was introduced by Paul Turney.

## Sutton Exhibitors In San Angelo For Stock Show This Weekend

Sutton County 4-H Club members and several adult exhibitors will show livestock in the San Angelo Fat Stock Show this weekend.

Fat lambs will be shown at 8:30 Friday morning by Carlos Loeffler, Claire Jones, Bene Brodhead, Jo Bess Vander Stucken, Daon Locklin, Marion T. Glasscock, Preston Love, Jim Frank Richardson, John Friess, Mack Mayhew, Roger Fawcett, Johnny Fields, Herbert Fields, Jr., Tom Glasscock and Joe Friess.

Seventeen breeding sheep will be exhibited at the same hour by Carlos Loeffler, Anna Rose Glasscock, Jan Vander Stucken and Daon Locklin.

Carlos Loeffler will show his fat steer in that class Friday morning.

The 4-H Livestock Judging Team composed of Carlos Loeffler, Tommy Love, Preston Love and George Ed Hill will judge at 8:00 Saturday morning.

Adult exhibitors are Connie Locklin who will show four registered Rambouillet sheep, Eddie

Farrell Smith who will exhibit six registered Rambouillet sheep and Robert Mayer who will show one Angus bull.

Adult sheep were judged Thursday.

### FIRE AT HOLLMIG HOME DAMAGE WAS SLIGHT

Sonora Volunteer Firemen answered a call at 9:00 p.m. Tuesday to the L. D. Hollmig residence, where a fire had started in the electric range and threatened to spread.

The fire was soon brought under control and damage was confined to smoke damage to kitchen and living room and fire damage to the stove.

### MRS. WILSON WILL HEAD PARENT-TEACHERS IN '56

Looking Through The Windows Of Life

By W. H. Marshall

The meanest, most contemptible kind of praise is that which first speaks well of a man, and then qualifies it with "but." -Beecher. Great people are not affected by each puff of wind that blows from the east. Like great ships, they sail serenely on, in a calm sea or a great tempest. -Washington.

Faith ends where worry begins, and worry ends where faith begins. -George Mueller. A big person is not one who makes no mistakes, but one who is bigger than any mistake he makes. -Sunshine Magazine. Seven deadly sins: politics without principle, wealth without

work, pleasure without conscience, knowledge without character, business without morality, science without humanity, and worship without sacrifice. -E. Standley Jones.

Nothing is so infectious as example. -Charles Kingsley. If all the people in the United States would do a few simple things they know they ought to do, most of our problems would take care of themselves. -Calvin Coolidge.

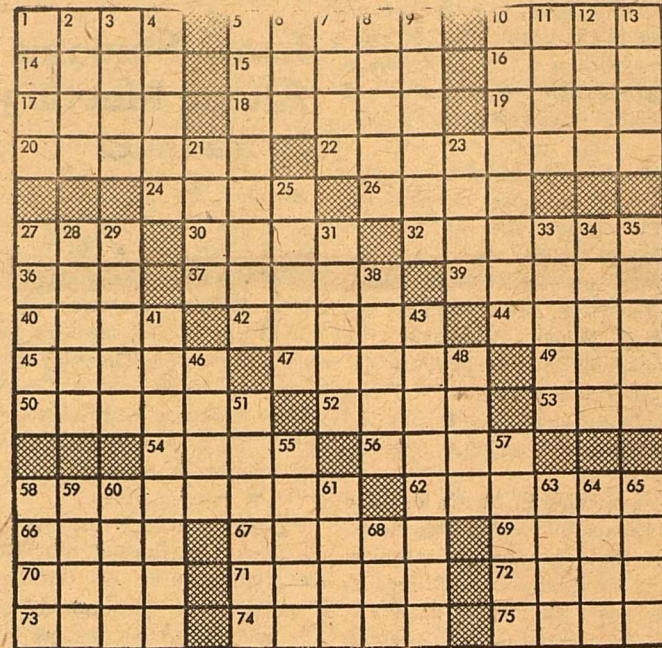

"What a privilege and what a burden to be the church every hour of the day. Sometimes my shoulders sag under its weight until I remember that the burden of the church rests not only upon its ministry but upon every lay person within its walls. -Christian Advocate.

"The people who sit in the pews of our churches Sunday after Sunday need to have a much deeper understanding and appreciation of the life of the average minister—not so much his work as his life. Such understanding would work wonders! -Christian Advocate.

"It comes as a surprise to many people when they are told that ministers share in relatively few of the joys of their people. For the most part, they hear only about their parishioner's problems and difficulties. They become priests to everyone else and seldom have one of their own. Like every one else the preacher was born a human being; and one day, like every one else, he will die a human being. As a human being, he wants what every other normal person wants—to love and to be loved; and again like every one else, he wants to be loved for what he is as a PERSON and not primarily as a minister or preacher. He wants to be appreciated quite as much for his mistakes and failures as for his successes. He wants to be treated as a friend among friends, without ever being OWNED or POSSESSED. He wants to be helped, at the same time he helps. "He wants his people to feel that the ministry is an all-inclusive experience, shared by people and pastor."

As one preacher says: "If laymen are sometimes dissatisfied with the quality of ministry they are receiving, they might try expressing gratitude for their minister's efforts, inadequate as they so often are; recognizing some small contribution he is making in his preaching and pastoral work; showing him the affection which sheep show to the shepherd who leads to the brook from which they may drink life-giving water. Unfortunately, there are many who have never learned to say 'Thank you,' or 'You did a grand job.' -The Christian Advocate.

IN CITY TRAFFIC where tensions usually mount, Chrysler's cat-like flexibility brings a wonderful sense of calm. And those admiring glances confirm your judgment that this is America's biggest fine car buy.

THEY'LL THINK YOU PAID \$1,000 MORE when you drive the year-ahead car!

The only cars with which you can compare a Chrysler Windsor V-8 are the other luxury cars . . . because that's what the Chrysler Windsor V-8 is. But you can own this car for the cost of a medium-priced car! And at this price, it simply defies comparison. Take the way it handles in city traffic. Something quite wonderful happens. Instead of feeling tense, you're utterly relaxed—thanks to Chrysler's full-time Power Steering System and a host of other brand new Chrysler exclusives. You're handling a big, powerful car that

responds like a mind reader. It does the work for you. Your Chrysler is beautifully balanced between the forward thrust of its mighty airplane-type engine and the most powerful brakes in the industry. This car flows! Yet, if you can afford any car in the medium-priced field, you can afford to step up to a Chrysler Windsor V-8. Compare its year ahead new-car features with the other leading cars in its price class. We think you'll agree that it looks and acts like a car that costs \$1,000 more than it does!

# Cadillac

## At Home... Among Strangers !

You're going to get a wonderful thrill when you take the wheel of your first Cadillac and head out into the country—a long, long way from home.

We're not just talking about the car's wonderful performance and its extraordinary riding and handling ease—satisfying and inspiring though these are bound to be.

No, we're talking about something more...

We're talking about the *friendliness* you're going to encounter—how you'll be driving among people who seem to know something about you, and who are ready to trust and respect you as if they had known you for a long, long time.

This is true, of course, because Cadillac quality and goodness have made it the overwhelming preference of people of judgment and discrimination—and the whole world has come to know and

understand this and to appreciate what it means.

Yes, your best foot is forward when it rests on the throttle of a 1956 Cadillac.

This great personal benefit is strictly a plus value when you take the title of the "car of cars." It comes in addition to the long-known Cadillac virtues: matchless beauty and luxury and comfort, and safety and long life.

Why not consider a Cadillac for *your* next car?

It is a logical choice—not only for quality and goodness and prestige—but for economy of ownership and operation as well.

We suggest that you come in soon and see for yourself. We'll be happy to give you a personal demonstration at the wheel... and to explain why this is such a wonderful time to make the move from every standpoint.

#### OZONA STOCKMAN -

A new telephone building which will eventually house dial system equipment is under construction in Ozona.

Ted Maxwell, district manager for General Telephone Company of the Southwest, said the 28 by 38 foot masonry building is being constructed facing Avenue F off 10th Street in back of the present telephone exchange. The building will be air-conditioned and have central heating.

The building is being constructed ahead of dial conversion date requirements in order to house equipment to tie in the Air Defense Command radar station in Ozona in the National Aircraft Control and Warning Network. Ozona is not slated for dial conversion until 1957.

#### BIG BEND SENTINEL -

A new business house for Marfa, to be operated under the firm name "The Fabric Shop" will be opened Wednesday, March 7, by Mrs. Margaret Mills. The shop will be located in the Humphris building on Highland Avenue formerly occupied by Flowerland.

Decorating and remodeling work is being completed this week, and on the opening date, Mrs. Mills will hold open house from 2 to 5 p.m., giving everyone an opportunity to view her shop.

#### KERRVILLE MOUNTAIN SUN -

The Centennial season will start in Kerr County Tuesday, and the various committees are planning a big "Kick-off drive" to bolster enthusiasm and sales of the souvenirs.

The Program and Parade Committee will be in Kerrville Tuesday in their full Centennial costumes, riding in buggies and old automobiles, and will visit as many retail stores as possible to give people ideas on their costumes.

"If every resident will look upon this as his celebration, and will take a personal interest in promoting the Centennial, we will have the finest birthday party ever," commented Morgan.

#### BIG LAKE WILDCAT -

Twelve outstanding band clinicians from over the state are expected to be in Big Lake for Reagan County High School's first annual band clinic-festival slated for Tuesday, March 6, in the new high school building.

High school bands to compete in the day's event will be Eldorado, Iranan, Rankin, McCamey, Fort Stockton, Alpine and Reagan County.

#### BRONTE ENTERPRISE -

A hilarious hour of entertainment was enjoyed in the school gym last Monday night when the Faculty Blondes bucked against the school board brunettes and red heads in a basketball game. The men were attired in women's clothes and played the game by girl's rules.

A total of \$88.25 was donated to the rest room project at the football field. The Boy Scouts donated \$49.16 to this project also.

#### FORT STOCKTON PIONEER -

Edwards Plateau Soil Conservation District News By E. B. Keng Soil Conservation Service

As the population increases more than enough to supply the and industry continues to grow, day's personal needs for a city more and more emphasis is being of half a million. It takes from placed on the importance of 600 to 1,000 times as much water water. Water is a prime necessity for human and livestock consumption, for grass and forage production, and in practically all industries. Each ranchman has the first opportunity to use water falling on his land, and his management program can greatly influence the efficiency of water use. Water falling on bare land or very short grass is largely lost by runoff or evaporation. Water for plant protection must be held and soaked into the soil. From 400 to 600 pounds of water is required to produce a pound of dry grass, while 1,600 to 2,500 pounds of water is required to produce a pound of dry liveoak or mesquite brush. A recent article in Soil Conservation Magazine, entitled "Why Water is Precious" should make us think further on the importance of wise use of water. "Would you believe that every cutting of alfalfa requires about 325,000 gallons of water per acre to grow it? Or that an acre of cotton needs 800,000 gallons of water to mature one annual crop? "In other ways, too, our consumption of water is staggering: A large paper mill requires 50 million gallons of water per day-

### O. C. Fisher Tells Of Trip On Sub "Nautilus"

IN THIS NUCLEAR AGE it is difficult for the human mind to understand the wonders of science and the revolution that is taking place before our very eyes.

That fact was brought home to me the other day when I, upon invitation from the Navy, boarded the atomic-powered submarine NAUTILUS for an overnight cruise from its home base of New London, Conn.

It was the most amazing experience I have ever had. Aboard were experts, people who directed

the development of the world's first nuclear-powered boat, who explained as much as they could, but that wasn't much because the average mind is not capable of comprehending what it is all about. It can be said that the performance of the Nautilus exceeds the most optimistic expectations. We were submerged for 12

hours during which time the Nautilus did about everything except jump over the moon. Much of the detail is still classified, but here are some general statements that can be made: Whereas the conventional submarine travels relatively slowly, must come up for air every few hours, can submerge to only

a limited depth, and must be refueled at comparatively brief intervals—the nuclear-powered sub travels at fast speed, faster than most surface ships, can remain submerged for months without refueling, and can maneuver at much deeper levels. The Nautilus can traverse the globe without once coming up for air or refueling!

The SEA WOLF, which will be commissioned this summer, is an improvement over the Nautilus. We authorized six additional atomic subs to be built immediately. We can be fairly certain that in this important respect, the United States is far ahead of the Soviets. The latter with more than 300 modern subs, is believed not to have achieved the nuclear-power technique as we have done.

Want some Fun and Fast Action?

## Come join Buick's THRILL-A-MINUTE CLUB

HERE'S the why of it:

There's so much excitement at the wheel of a '56 Buick, we had to do something to accommodate all the folks who want to get in on it.

So we set up a little Club to handle matters—and it's for fun and for free.

All you do to join is drive a new Buick—that makes you a member. And all you do to drive this beauty is ask.

From that point on it's pure thrill all the way.

Because then you'll feel the sheer bliss of cradled travel in the best riding Buick yet built—and of a wonderful handling ease in the car with the truest sense of direction yet...

Because then you'll tingle with the flash-fast power response that's yours from Buick's big 322-cubic-inch V8 engine—where horsepower and compression ratios hit lofty new peaks, and road command hits a soaring new level...

Because then—and only then—will you feel the absolute smoothness and the electrifying action of today's new

Variable Pitch Dynaflo\*—where the first inch of pedal travel does new wonders for getaway and cruising and gas mileage—and where flooring the pedal switches the pitch for the most spectacular safety-surge in America today.

So if you want some fun and fast action—if you want to see what it's like to call signals on the most performance-packed automobile in all Buick history—come join our Thrill-A-Minute Club.

As we said, there's nothing else to do for membership except drive a new Buick. And, as we'll gladly show you, there's nothing to match this beauty as a bedrock buy—for we're making the best deals ever on the best Buick yet.

Drop in on us today or tomorrow—press that pedal—and let the thrills fall where they will.

\*New Advanced Variable Pitch Dynaflo is the only Dynaflo Buick builds today. It is standard on Roadmaster, Super and Century—optional at modest extra cost on the Special.

**NOTAS DE LA COLONIA LATIN AMERICANA**  
 Por Elpidio Torres

El primero de Marzo, es el dia que entra la primavera, como de costumbre todos los ciudadanos del Estado se prestan para cumplir las ordenes del Dr. Henry A. Holle Comisionado de la Salubridad Publica de Estado. Quien hace una recomendacion muy especial a todos los Ciudadanos para que se cumpla tanto en el Estado como en los Municipios la orden de que cada propietario como arrendatario hagan el esfuerzo por limpiar lo mejor que puedan todos los solares de sus respectivas comunidades. Y de esta manera estamos cooperando con el sector de higiene que nos corresponda como un requisito indispensable para tener un lugar mas limpio y mas seguro para vivir, dentro de toda nuestra comunidad. Uno de los beneficios de los beneficios de la limpiezas la eliminacion de grandes peligros que causan la muerte de muchas vidas Infantiles asi como el amontonamiento de cosas inservibles en los solares y que por anos no las usan ni se mueven causando de esta manera un mal aspecto para el resto de los residentes y que con un poco de esfuerzo de todos en general podemos eliminar, y de esta manera cooperamos al desarrollo de limpieza que recomienda la salubridad del Estado para beneficio de todos los Ciudadanos en general.

*Nobody "spared the horses" in the '56 Chevrolet!*

It looks high priced—but it's the new "Two-Ten" 4-Door Sedan, with Body by Fisher—one of 20 new Chevrolet beauties.

*This new beauty's got power. Big, deep-breathing power that's panther-quick and silk-smooth. Power that puts new kick in your driving and makes passing far safer.*

Feather-touch the gas pedal—and you find out right quick that nobody spared the horses here!

A flick of your toe is all it takes to unleash a hoodful of power. Power that makes passing far safer by saving seconds when they really count! Power that's smooth as silk—and as full of action as a string of firecrackers. Power that ranges up to 225 h.p.!

But power's just one of the things that

make for safer, happier driving in a Chevy.

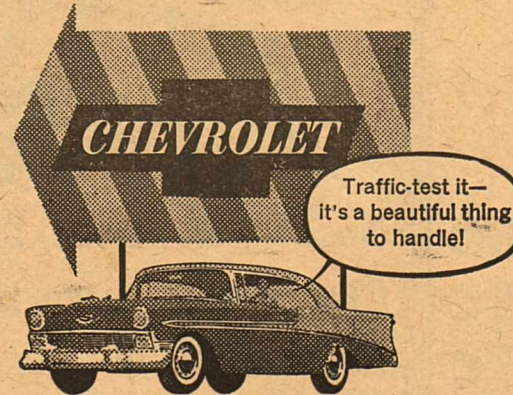

For instance, you get safety door latches in all models. Directional signals, too, are included as standard equipment in every new Chevrolet. And Chevrolet alone in its field offers the security of a sound and solid Body by Fisher—plus the nailed-down stability of a real road car!

Come on in and see how the hot one handles. Why not make it soon?

*Air conditioning—temperatures made to order—at new low cost. Let us demonstrate!*

### Symbol Of Integrity

Not so familiar today is the ornate glass jar that used to appear in every pharmacist's window. Yet the integrity it symbolized is still reflected in the quality drugs and carefully compounded prescriptions of your Sonora Drug Co. pharmacist.

## Community Responsibilities

A GUEST EDITORIAL

By Louis F. Lucas

Acting Executive Director National Rifle Association

Most Americans have strong feelings concerning their individual rights. They are proud to live in the United States of America and to enjoy "life, liberty, and the pursuit of happiness". In no other group is this attitude more prevalent than among those who have learned to appreciate the values of natural resources and the pleasures of participation in outdoor recreation. They realize that the rights of life, liberty and the pursuit of happiness are not tangible things. They understand that these rights exist only in our determination to achieve them and in our willingness to assume the responsibilities of community living which make them possible.

### MARINE RECRUITER TO BE HERE MARCH 13

Marine Sergeant Jack Deaton will be in Sonora Tuesday Morning, March 13, from 9:30 to 11:00 to interview prospective applicants desiring to enlist in the Marine Corps.

Young men and women between the ages of 17 and 28 years, mentally and physically qualified will be considered for enlistment in the Marine Corps. Sergeant Deaton can be contacted at the Post Office.

Mr. and Mrs. Bobby Scott of Arlington spent the weekend in Sonora visiting their parents, Mr. and Mrs. M. C. Scott and Mr. and Mrs. Bill Smith.

Mr. and Mrs. Lloyd McMullen have had as their guests for the past week, Mr. and Mrs. Larry Hitchcock of St. Ignace, Mich.

Members of the shooting fraternity have special responsibilities. With the possible exception of fishing, no single sport has greater individual participation than hunting and shooting. This natural enthusiasm to partake of the rewards of close association with nature brings with it problems which can be solved only by those of us who share the benefits. Our belief that reputable citizens have the right to own and use firearms for lawful purposes carries with it a responsibility for safe and proper gun handling. The fact that wildlife belongs to the public imposes upon us the duty to practice sound conservation measures. Permission to hunt or shoot on private property demands full protection for the rights of the landowner. The privilege of hunting and shooting in public recreation areas imposes upon us an obligation to prevent fires and to avoid unsightly litter.

There is no easy solution to the problems connected with outdoor recreation. Conscientious leaders, through investigation and experimentation, are developing sound policies. To implement these policies there is a need for more education in the home, in the school, in youth groups, and in the field. Experienced sportsmen must share their knowledge with the uninformed. We must meet our responsibilities and insist upon the same attitude from others who participate.

Those of us who cherish the values of hunting and shooting must practice the rules of good sportsmanship and influence others to do the same. We must support, with funds and personal services, those organizations which promote our interests. By so doing, we will better fulfill our community responsibilities.
