Sonora, Texas, Friday, April 27, 1956

TWENTY-NINTH WEEK

ODDS & ENDS

Dr. W. T. Hardy was a mite peeved with us last week when we listed him as one who would vaccinate dogs and cats against rabies. The doc says it's strictly outside his province. Sorry if we caused you any inconvenience, Dr. Hardy.

So-if your pet hasn't been inoculated, please call on Oscar Wright, Cash Taylor or Si Loeffler.

Thank you.

Pure Texas weather this week-overcoat in the morning, sundress in the afternoon.

-oae-
Here's one that probably happened:

"Could I have tomorrow off, sir, to help my wife with the spring house cleaning?"
"No. We're much too busy."
"Thank you, sir. I knew I could rely on you."

-oae-
And another:

Betty, the farmer's daughter, was milking a cow when the bull suddenly charged toward her across the meadow. Betty did not move. Summer boarders who had dashed to safety saw, to their astonishment, that the bull stopped within a few yards of Betty, then turned and walked meekly away.

"Weren't you afraid?" Someone asked the girl.

"No. I wasn't, but I'll bet HE was," Betty laughed. "You see, this cow is his mother-in-law."

The Big IF Of Cancer

IF cancer had been conquered only a dozen years ago, the nation would not have lost to cancer such outstanding personalities as Senators Taft, McMahon, and Vandenberg, such military figures as Generals Stillwell and Vandenberg and Admiral Towers, or a newspaper executive of the caliber of Julius Ochs Adler.

The sports world would not have lost to cancer such notable figures as Babe Ruth, Ed Barrow, Walter Johnson, and Chief Bender.

We might still be entertained by the talents of Eddy Duchin, Gertrude Lawrence, Jane Croul, Suzan Ball, Grace Hartman, and many other artists.

Bond is a dental student at the college.

It takes time, patience, a good strong fence and lots of feed but Blacktail deer can be raised in Sutton County. Mack Cauthorn has proved it as the picture above testifies. These deer were procured through the state game department several years ago when several area ranchers were interested in trying to maintain a herd of black-tails on their ranches. Cauthorn erected special fences and fed the deer continuously.

The game department tagged the animals and has been interested in Cauthorn's experiment. By and large the deer do not do well in this area and no more are available to ranchers outside their native habitat.

Q—Can you tell me when the Naval and Army Military academies were started?

A—The military academy at West Point was authorized by an Act of Congress March 16, 1802. First students were five officers and ten cadets of an engineering corps. West Point is the oldest U. S. military establishment, first being occupied by troops in January, 1778. The Naval Academy was founded in 1845 by the then Secretary of the Navy at Annapolis on the site occupied by Fort Severn.

Q—Is the exclusion of Communists or others with views considered subversive to the best interest of this country a violation of our constitution?

A—No. The Supreme Court has rejected such an argument. The Congress has power over immigration and by Act of Congress may prohibit absolutely or restrict immigration as it sees fit. So a person thus excluded, or attempting to enter in defiance of restrictions, is not protected by the constitutional guarantees of free speech, etc.

Q—Does a naturalized citizen have the same privilege as native born Americans under the law and the constitution.

A—Yes. Naturalized citizens are on the same footing as native Americans, but they may have their citizenship revoked on conviction of certain crimes.

Q—Can an alien invoke the due process clause of the constitution?

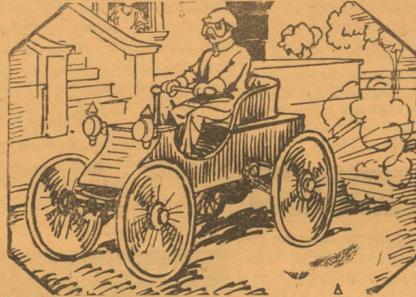

A—Yes. All inhabitants may invoke protection of the fifth and fourteenth amendments to the constitution.

Q—On what theory does the Post Office permit newspapers to be mailed in the county of publication post-free?

A—On a theory which originated with George Washington that it was in the public interest for newspapers to be distributed post free for the dissemination of knowledge.

Another fine rain has fallen in the Sonora country which insures early grass where there are any roots left. The precipitation at Sonora was more than an inch and extended more generally than any rain in several months. Practically all of the range district of Texas got a good soaking. The downpour was probably too hard but all now think we will have more and more gentle, soaking ones later.

*Of course we haven't actually counted all the Joneses. But it seems a safe guess. Because this year—as they have year after year—more people are buying Chevrolets. And 2 million more people drive Chevrolets than any other car. Maybe you ought to come in and see why this is so.

Monday Deadline For Filing With TEC Office

Several thousand Texas employers are apparently letting a new tax deadline of April 30 creep up unheeded, the Texas Employment Commission warned today.

After that date the employers of four or more people in twenty weeks during the last half of 1955 face possible penalties if they have not filed wage returns with the TEC and paid unemployment taxes for January, February and March.

Forms are available at any local TEC office, the warning added, or can be secured by writing the Texas Employment Commission at Austin.

Those who had four or more people employed for as many as twenty weeks last year became subject to the Texas Unemployment Compensation Program this year. Previously, only employers

Applications Being Taken For Highway Patrol

The Texas Highway Patrol is accepting applications between now and June 10 for appointment as State Patrolmen.

Col. Homer Garrison, Jr., Director of the Texas Department of Public Safety, said that statewide examinations would be given late in June and that successful candidates will be selected to begin training in September to fill the remaining original vacancies authorized by the last Legislature when the Patrol strength was increased by 200 men.

The Public Safety Director invited all young men who are interested in a career of law enforcement to make application as early as possible. He pointed out that they must be between 21 and 35 years of age, inclusive; have a high school education, or equivalent; be at least 5 feet 8 inches in height; and weight must be in proportion to height. Applicants must have been residents of Texas for at least a year prior to the date of examination and they must be of good moral character and in perfect physical condition and able to withstand a rigid character investigation. Rookie patrolmen are paid during training. Also provided is two weeks paid vacation annually; sick leave, if necessary; and the benefits of both the State Retirement Act and Federal Social Security. Applications may be obtained by writing to W. J. Elliott, Chief, Texas Highway Patrol, Austin; or by visiting the nearest Patrol District Office. Jack Johnson, accompanied by Billy Ragsdale of Junction, spent last weekend in Sonora visiting friends and relatives. Both boys are attending school in San Marcos.

Soil Conservation Service

Dr. Gerald Thomas, professor of range management at Texas A. & M. College, and 21 senior range management students, checked conservation work Friday afternoon on the Edwards Plateau SCD trial area. The group spent Saturday on the Texas Agricultural Experiment Station observing pasture grazing studies being conducted by Leo Merrill.

The week of May 6-12 has been designated as Soil Stewardship Week. Local ministers have agreed to relate their sermons on May 6 of May 13 to our stewardship of the land. Watch for the date and be sure to attend Church.

Cattle were removed from the SCD trial area on April 20. Average gain for the three calves was 79 pounds per head. The three yearlings gained 50 pounds per head. The cattle grazed the 350-acre trap for 172 days. The calves

averaged 523 pounds when weighed into the pasture and 602 pounds when weighed out. The yearlings were weighed in at 775 pounds and out at 825. No supplemental feed was used and no effective rain was received during the period. Goats will be taken out of the pasture this week.

Approximately 1,200 acres of land is now seeded to range grasses and ready for rain. Several other ranchmen are planting now. Most ranchmen are planting a mixture of one pound sideoat grama, one pound blue grama, one-half to one pound blue panic per acre. Some are adding enough cane bluestem or buffelgrass to establish a seed source.

The continued lack of rainfall is discouraging but ranchmen should remember that the first rain last year fell on May 10. Grass seeded on pitted land made wonderful growth and produced two seed crops before frost.

TS&GRA Joins In Forming Texas Water Committee

Sheep and goat men joined with cattlemen and dry land and irrigation farmers in Austin last week when six state-wide agricultural associations representing these groups, organized the Texas Agricultural Water Committee.

R. W. Hodge, Del Rio, immediate past president of the Texas Sheep & Goat Raisers Association, was named chairman of the new organization and Ernest Williams, Executive-Secretary of the TS&GRA, was elected temporary secretary. Glenn White, a Texas Farm Bureau member from the Lower Rio Grande Valley, was named vice-chairman.

The new organization had its start in San Angelo several weeks ago. Its purpose is to give Texas agricultural interests a chance to aid in the formulation of a positive state-wide water program, the new chairman said.

The Committee adopted a report that "any adequate water program should provide for reduction of flood waste through a program of sound conservation, through upstream watershed protection and flood prevention, through a program of reservoirs on major streams for flood control and for storage of water for domestic, municipal, agricultural, industrial and miscellaneous uses."

Organizations represented were the Texas Farm Bureau, Association of Texas Soil Conservation Districts, Texas State Grange, Texas Farmers Union, Texas and Southwestern Cattle Raisers Association and the Texas Sheep and Goat Raisers Association.

The Committee's next meeting date will be set after the individual organizations representing the Committee meet with the Texas Water Resources Committee in Austin May 17-18, it was announced.
