BOVINA, TEXAS

VOL. IV, NO. 40

Whittlin'

By Dolph Moten

It's time again, we feel, to put in a good word and a glad hand for The Blade's own weatherman -- Willie Williams. While it's true that Willie may have had more than his share of publicity in regard to his predicting of the weather, it is also true that he's plenty good. Take last week for instance. Willie's Blade report pointed out there was a good chance for moisture by the weekend. He admitted it might be the first of the week before it got here, but it was "shaping up."

And shaping up it was! Friday's wind brought moisture -- rain, sleet, and snow -- and while the weather was a mite disagreeable, we sure were proud of our weatherman. Mr. Williams operates his hobby, as far as the Blade is concerned, under somewhat of a handicap. An early deadline forces him to have his prediction ready almost two full days prior to the time it's even seen in print. And besides that, his prediction is for an entire week, not just for one afternoon or one day.

If you have any doubt as to whether his predictions are reasonably accurate, check them with the weather for a six weeks period. You'll see.

One more state tournament yarn: A stranger was conversing with Johnny Horn at Austin during a rest period between games. Explaining how rough his team and its fans had it, he said, with a bit of awe in the tone of his voice, "We have to come 200 miles to the state tournament." Emphasis was on the 200.

That was good for Johnny to let slip by, of course. After an appropriate pause, he replied, "Man, if we weren't any further than that from home, we'd go home at night!"

More weather. Troy Fuller said during Monday's sunny warmth, "This is the kind of days that allows you to stand days like Friday." We hadn't thought of it that way, but he's sure got a good point.

W. H. Graham, Jr., the Parmer County newspaperman, wrote a couple or so years ago that it was high time we stopped bragging about what wonderful weather we had here, what a large percentage of days the sun shines, how cool the summer nights are, etc.

Graham's idea--and we'll go along with it, too--was that this is the kind of weather it takes to "put hair on a man's chest." And he believed we should advertise it as such. It would be just as effective, he thought, and a lot more truthful.

Understand we're not complaining about the weather--we love it--we're just talking about it. And Mark Twain himself left the impression that was acceptable.

Talked to Arlin Hartzog during Friday's blow. He said with smiling sarcasm, "This would certainly be a fine day to be a member of the chamber of commerce."

We try to make it a point not to tell him so to his face, but we're proud of the advisor of Bovina FFA Chapter, Roy Crawford.

This is his fourth year here and we feel more-than-expected progress has been made in the chapter each of those years. Understand we're not an authority on the work of Future Farmers, but we did spend as much time as anybody and more than most in an FFA chapter. Therefore, the department has a soft place in our heart . . . or maybe it's our head, but anyway, we think ag departments are good things.

We do think it's a shame that by the time a boy gets to be a junior or senior, he has a tendency to become too smart to learn any more about farming . . . or the future of it. This is especially true if he doesn't have one or more projects with which he is sincerely trying to make show a profit.

That's beside the point. We've noticed it as we've gone along. Noticed it in ourselves first

(Continued on Page 6)

FIRST IN BOVINA HIGH HISTORY --

Four Fillies Make All - State Team

Richards, Ezell, Hartzog, Estes Earn Honors

Bovina Fillies placed two girls on the all-state girls basketball teams. Two others earned honorable mention ratings.

Forward Janice Richards and Guard Nita Beth Estes were the members of the state champion runners-up squad which were named to the first team. Forward Joanie Ezell and Guard Kay Hartzog received honorable mention. These four were the first girls from Bovina High to be so honored.

Richards and Estes were also named to the all-regional team following the regional tournament.

North Hopkins, the team which beat the Fillies in state tournament finals, dominated the all-state with four members. Skidmore - Tynan, the team which helped Coach Charles Don Smith's girls set tournament records in the tourney semi-finals, also had two players on the mythical squad.

Richards, the Fillies leading scorer who lacked only six points of setting an individual scoring record in the tournament, was a unanimous choice. All four of the girls are seniors.

The Fillies finished the season with a record of 26 wins and seven losses. This compares with a 30-9 mark of a year ago, when they also went to the state tourney but lost in the opening round.

The big difference in the record, Coach Smith explains, is that they played more games last year than this.

Facts and figures released this week by Coach Smith show the Fillies hit 38 per cent of their field goals and 64 per cent of their free throws during the season.

Richards led the point-making with 1019 for an average of 31 per game. Ezell averaged 13 per game with a total of 440. Nancy Cumpton, the third starting forward, made 261 points for an average per game of eight.

Richards made 44 per cent of her field goals and 76 per cent of the attempted field goals. The team average 56 points per game. Total points made were 1840.

The next four high scorers over the season were Joy Redden, 38; Mildred Young, 31; and Carolyn Crump and Cynthia Patterson, 15 each.

Richards With AAU Team

Janice Richards, Bovina Fillies' all-state forward, is a member of Dowell's Dolls, Amarillo AAU basketball team.

The team will play in national AAU tournament next week at St. Joseph, Mo. It is made up of outstanding seniors from the Panhandle and South Plains.

The team played two warm-up games last week -- one at Tulia Tuesday night and one Saturday night at Sudan.

Miss Richards, who has earned four letters with the Fillies, will leave for the Dolls for Missouri from Amarillo Saturday morning.

Highway Boys Clear Roads

Men of Parmer County division of State Highway Maintenance Department worked overtime last weekend keeping highways clear of snow.

Ice glaze and blowing snow blocked highway 60, east of Friona for several hours Friday night. Other highways in the county were reported dangerous but weren't closed to traffic.

Men from the Bovina unit were out clearing roads until "after 1:30 a.m." Saturday.

"GOT 'EM AGAIN!"---Dogs belonging to Sam Sudderth and Truman Gaines do a coyote chewing exhibition for the photographer. Several weeks ago, the hunters brought a live coyote to town which had been run down by their dogs. Last week, they were back with a dead one to prove they had acquired a fighting dog to go with the running dogs. This coyote was an extra large one. Gaines estimated he weighed "over 40 pounds."

AT FIRST NATIONAL --

Bank Deposits Show Increase

Deposits at First National Bank of Bovina show an increase over a year ago.

Statement of condition at the close of business March 12 shows deposits to be \$1,091,454.19. March 4, 1958, they were \$887,861.69. This is an increase of \$203,592.50.

Loans this year are up to \$412,305.83 from \$261,756.58 of a year ago.

Businesses Change Location

A pair of Bovina businesses have changed location recently. Great Western Co., owned by Lou Marot, has been moved into his building on Highway 60. That location was formerly occupied by Farrell Motor Co.

O. W. Rhinehart Real Estate has moved into Great Western's former location, northeast corner of Third and North Streets intersection. Rhinehart's office was formerly located in the Masonic Hall on North Street.

Rhinehart's move is announced in an advertisement in this issue of The Blade. Marot is planning a grand opening in the future for the new home of his business.

FOR DISTRICT MEET --

Track Team Working Out

With basketball season at last wrapped up, the athletic picture at Bovina High was turned to track.

Coach Bob Willis has some 25 boys, including about 10 lettermen, working out for the team. Practice began two weeks ago in preparation of the district meet.

It is scheduled for Saturday, April 11, at Lazbuddie.

The thinly-clad have participated in two practice meets to date--one at Farwell and one at Vega. The team is scheduled to go to Friona for another such meet this week.

"We'll run some more practice meets before district meet time," Coach Willis says, "but that's the big thing we're pointing toward."

Baseball, second of the spring sports, will get underway next week. Practice is expected to begin Monday. A schedule of

This year's March call shows, however, a decrease in the amount of deposits since December. At the close of the year, deposits totaled \$1,120,552.87. Loans have increased since that time also.

Deposits are usually less at the March call than in December, Alfred Moody, First National cashier, says.

The bank's official statement of conditions appears elsewhere in this issue.

Damages Minor In Two Wrecks

There was little damage and no injuries in a pair of automobile accidents here Friday.

About 7 p.m. on Main Street, a '59 Pontiac driven by Mrs. T. P. Griffith backed into a '57 Chevrolet driven by Mike O'Hair.

Deputy Henry Minter estimated damage to the O'Hair car at \$85 and to the Griffith car at \$15.

A '58 Ford owned and driven by Dolph Moten turned over on its side a mile southwest of town after sliding on icy Highway 60 about 10 p.m.

Damage to the automobile was negligible.

games will possibly be announced next week. Charles Don Smith is baseball coach.

Two Day Holiday Planned

Warren Morton, Bovina Schools superintendent, announces a two day Easter holiday for students here.

School will be dismissed Friday and Monday, he reports. The longer-than-usual holiday will enable Bovina families to visit out of town if they wish.

Thursday afternoon classes will be dismissed at the regular time.

Mrs. Margaret Caldwell reports that Kiddieland Kindergarten will also be closed for the four day holiday.

FUND RAISING DRIVE CANCELLED --

Swimming Pool Project Splashes

A fund-raising drive to build a swimming pool in Bovina has been cancelled.

Leon Grissom, president of Bovina Lions Club, which was sponsoring the project, announced this week that a "lack of interest" has killed the drive. Lions Club members considered the project for several weeks before beginning the drive. The drive was in progress for about a month.

An amount in the neighborhood of \$17,500 was needed for the project. Grissom did not announce how much money was raised.

When the drive began, it was hoped by workers the pool would be ready for use by June. However, Grissom feels the pool would not "get off the ground." Money which was given has been refunded.

When the idea was new, there was much discussion about where the pool would be located. Lions requested use of the city park. However, the city commission vetoed this idea. Later, it was decided the city would furnish the land on Eighth Street.

Some feel the location change hurt the fund-raising drive.

Grissom contributed the lack of interest in the pool project to the price of maize, interest in basketball, and the time of

year.

"I expect something to come of the idea," the Lions president says, "but the Lions Club has dropped it as a project."

We need a swimming pool here and one can be built in Bovina."

Some feel it would be better to finance the pool with city bonds. The objection to this

method is that the bonds would have to be paid with city taxes while the entire community would benefit from the pool.

ADVISOR ANNOUNCES

FFA Show Set April 4

Fourth Annual Bovina FFA Project Show is slated for Saturday, April 4.

Announcement of the show's date was made this week by Roy Crawford, chapter advisor. It will, as it has in the past, be at the ag lots in East Bovina.

Crawford expects the number of exhibits to be smaller than usual. Reason for this, he explains, is because the show is set a month later than it has been previously. The date was set to correspond with the date of the county show, which follows the next week.

Crawford expects 40-45 head of livestock, mostly hogs, to be entered. A list of entries is expected next week.

Robert Morton, Farwell FFA chapter advisor, will be the judge. Judging will begin at 10 a.m. Exhibits will be brought to the show site earlier that morning, Crawford says.

Don Caldwell, chapter president, will be general superintendent of the show. He will be assisted by Bobby Spier, president of the Green Hand (freshman) Chapter.

Bovina Lions sponsor the show. Prize money will be awarded

in each class. A first place will be worth \$5; second place, \$3; third place, \$2; and fourth place, \$1.

Many animals which are shown in the local show will be in the county show, which will be in Friona, April 10 and 11.

SENIOR PLAY --

'Desperate Ambrose' Now In Rehearsal

Jerry Strawn, as "Desperate Ambrose," will be the leading actor of the senior play here.

The play, of the same title, will be presented by Bovina High Seniors Friday evening, April 3, in school auditorium. It will begin at 8.

Play practice has been underway for the past several weeks and class sponsors, James McLeroy and Bob Willis, report much progress has been made in the play's preparations. The play centers around

"Desperate" and his side-kick, Bert Miller, and their struggle with mistaken identity, outlaws, crooked sheriffs and a hotel-owning heroine.

Advance tickets are now on sale, report class sponsors, and may be obtained from any senior. Advance tickets are 40¢ apiece for seventh grade students and younger. High School and adults, 85¢.

Tickets will also be sold at the door. Prices there will be 50¢ and \$1.00.

The play has 15 characters. Other members of the class will be in charge of backstage arrangements. Seniors are Billy Burnam, Donald Jones, Ramey Brandon, Garland Dalton, Jerry Strawn, Ronnie Isham, Ferman Kelson, James Lawlis, Duane Rea, Kent Glasscock, Don Bandy and Loy Harris.

Juniors To Have Two Hobo Days

Two "hobo" days will be sponsored by members of junior class during April. Dates set to do odd jobs are Saturdays, April 4 and 11. Work will begin at 8 a.m. each day.

Any job, from ironing to yard work, will be accepted by the class. Also, they will work for business firms. Maximum charge will be 50 cents an hour. Money raised will finance a junior-senior banquet.

A hobo day was sponsored by the juniors last fall, with excellent results reported. Approximately \$90 was raised.

Those wishing to hire juniors are asked to call Lexie Stevenson, ADams 8-4141. Miss Stevenson stresses the importance of advance reservations.

Also, Nancy Cumpton, Arlene Clayton, Joan Kay Ezell, Kay Hartzog, Mary Morris, Nickie Woelfel, Janice Richards, Barbara Taylor, Avis Williams, Nita Beth Estes, Frieda Downs, Mildred Young, Julia Ann Moody, Gladys Dean, and Marjorie Dane.

A hobo day was sponsored by the juniors last fall, with excellent results reported. Approximately \$90 was raised.

Those wishing to hire juniors are asked to call Lexie Stevenson, ADams 8-4141. Miss Stevenson stresses the importance of advance reservations.

Pool Hall Will Open In Bovina

A new pool hall is scheduled to be open in Bovina the latter part of this week.

Location of the recreation hall will be in Emmett Tabor's building on North Street, next door southwest of Bovina Beauty Shop.

Manager of the business will be Harold Woods, who has been operating a pool hall in Post.

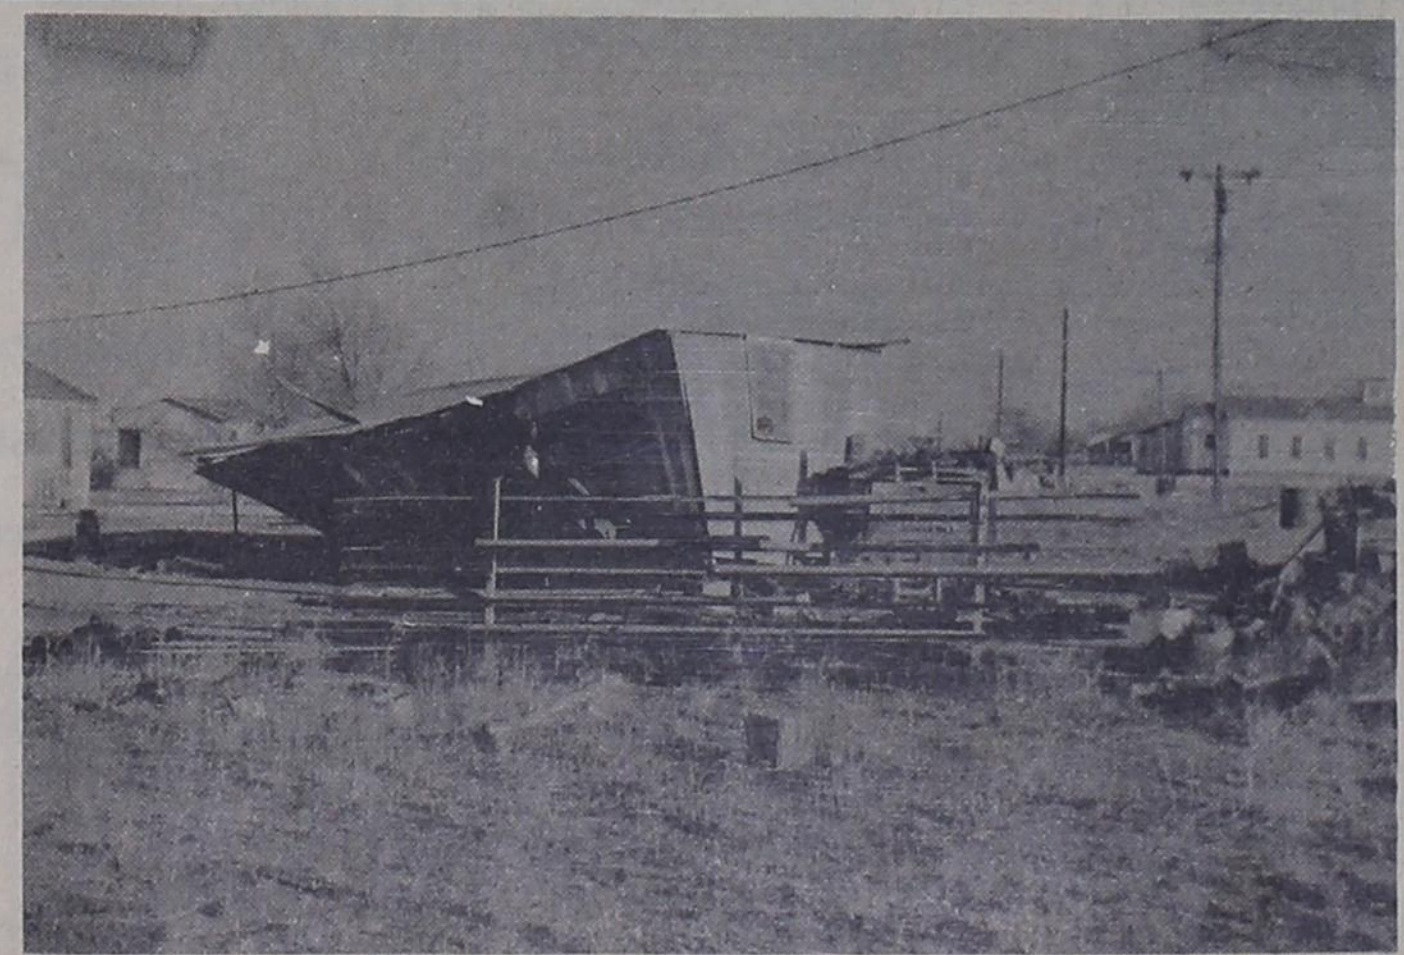

Available for use will be five snooker tables and one scratch table. The equipment was moved here Friday and is being assembled this week.

The community has been without a pool hall since one operated by L. L. Boatman was closed a couple of years ago.

WEATHER

BY WILLIE

Hot, cold, blustery. Some rain or snow or both. Willie

WIND DAMAGE--Friday's winds were fierce. This garage-shop belonging to Alva J. Hudson was blown out of position and into this mangled mess. Many TV antennas were damaged also by the strong winds.

Rainbows Report Success

Recent sale of candy by members of Bovina's chapter of Rainbow for Girls are encouraging. That is the report given last week at a regular, semi-monthly meeting of members in Masonic Hall. Each member of the organization was allotted a number of boxes of candy to sell several weeks ago and Mrs. Evelyn Crawford, Mother Advisor, announces almost all has been sold. Money derived from the candy sales will be used to send representatives to the annual Grand

Assembly of Texas. The statewide meeting of Rainbows will be in San Antonio later in the spring. Recent bake sales also were a source of money for the project. Present were Margaret Taylor, Verma Marie Estes, Ann Lynn Wilson, Vicki Strawn, Patricia Crawford, Harriette Lou Charles, Judy Crawford, Betty Stevens, Kay Looney, Judy Meacham, Patsy Richards, Janice Leake and Mrs. Crawford, Roy M. Crawford, Rainbow Dad, also attended.

Circle Meets For Social

Members of Bovina First Baptist Church's Golden Circle Sunday School class met recently for a social. Early in the evening, they attended a movie together and afterwards, were guests of Mrs. Art Mast. The hostess served coffee and cookies. Those attending were Mrs. Howard Looney, Mrs. Richard Vaughn and daughters, Mrs. Marion

Carson, Mrs. A. B. Kent and Miss Milly Holden. One guest, Mrs. F. D. Carter, was also present.

ATTEND DEDICATION

Mr. and Mrs. Warren Morton were in Lake Jackson, near Freeport, last weekend. They were guests of his brother Rev. Weldon Morton, and attended dedication services of the Lake Jackson Methodist Church. Rev. Morton is pastor. The Bovina couple returned home Monday morning.

TO SCIENCE FAIR

Among those attending the area science fair in Amarillo over the weekend were Mr. and Mrs. Hilton Terry and son, Lee, Mr. and Mrs. Roy Crawford and family, Mrs. Elmo Dean and daughters and Ann Lynn Wilson. The Terry and Crawford families also visited relatives and friends in Amarillo Sunday.

Congratulations

Mr. and Mrs. Alton Wily became parents of a daughter Sunday, March 15. The little girl was born in Medical Center Hospital, Plainview, and was named Teresa Gayle. She weighed 6 pounds, 14 ounces. Grandparents are Mr. and Mrs. C. H. Diuguid of Plainview and Mrs. Minnie Wily of Lubbock. The couple have another daughter, Beth.

Mrs. Eldon May Honored Thursday

Mrs. Eldon May was honored with a surprise pink and blue shower Thursday evening. Friends gathered in the home of Mr. and Mrs. Lloyd Killough and presented Mrs. May with a number of gifts.

OES Memorial Program Given

A program titled "In Memory of Those Who Have Gone Before" was given Thursday evening at the regular, semi-monthly meeting of Bovina's chapter of the Order of Eastern Star. Mrs. Hazel Rigdon was in charge of ceremonies and Mrs. Loucile Foster gave a reading.

Mrs. Mary Ruth Martin and W. E. Williams sang a duet, "Abide With Me," accompanied at the piano by Mrs. Leta Reahimer. Following the services, refreshments of cake, sandwiches and coffee were served in the dining hall by Mrs. Jewel Barry. About 15 members attended.

A call meeting is planned for tomorrow evening (Thursday). At that time, a study will be presented as preparation work for the OES School of Instruction. The school will be later this spring in Plainview.

Congratulations

A son, Randall Bruce, was born Thursday morning to Mr. and Mrs. Mark Charles. The little boy was born in Clovis Memorial Hospital and weighed nine pounds. Mother and baby were released Saturday afternoon.

Maternal grandparents are Mr. and Mrs. W. A. Nixon of Clovis. Paternal grandparents are Mr. and Mrs. Wilbur Charles, Bovina.

Guild To Meet

A continuation of the study "Isaiah Speaks" will be the program topic for a meeting of the Wesleyan Service Guild tomorrow evening (Thursday). The meeting will be in the parlor of Bovina Methodist Church at 7:30. Mrs. Loucile Foster will be in charge. Hostesses will be Mrs. Margaret Caldwell and Miss Rita Caldwell.

FROM FORT WORTH

Visiting in Bovina Sunday were Mr. and Mrs. Clyde Purnoy and family, Cheryl and Gary, of Fort Worth. They were guests in the home of his uncle and aunt, Mr. and Mrs. A. R. McCutchan, and also visited with her parents, Mr. and Mrs. Lester Simms of Black.

Party Honors

H. R. Denney

Five-year-old H. R. Denney, son of Mr. and Mrs. Bill Denney, was honored with a birthday party Friday morning.

Friends gathered in the Denney home for games and refreshments. A cake, in the shape of a rabbit, and punch were served by Mrs. Denney. Balloons were given as favors.

Guests were Gail Dixon, Rocky Steelman, Corky and Michael Litscher, "Little Al" Kerby, and the honoree's sister, Darlene.

Club Honors Mrs. Ware

Mrs. Jimmie Ware was honored with a pink and blue shower last week by members of Afternoon Bridge Club.

Members gathered in the home of Mrs. Durward Bell. Games of bridge were played and refreshments of party salad and coffee were served.

The table was laid with a white cloth. Numerous baby rattles and other toys arranged on the table suggested the theme of the meeting. A floral arrangement, in a diaper-shaped container, was the focal point of table decorations.

Attending were Mesdames Bedford Caldwell, Tom Caldwell, Vernon Willard, Robert Wilson, Don Sides, Pearl Sin glettery, Dean McCallum, the hostess and honoree.

Weekend Visitors

In Bovina Homes

A number of out-of-town families spent several days last week in Bovina. They were here to attend funeral services Friday for Mrs. Ronald Berggren. Many of them were guests in homes of relatives here.

Among those were Mrs. H. A. Nichols and Mr. and Mrs. Bob Berggren of Amarillo, Mr. and Mrs. Elmer Vassey, Mr. and Mrs. Mac McKnight, Mrs. Luke Tallent and Mrs. Cage Crain, all of Odell; Mrs. Alma Vassey of Vernon, Mr. and Mrs. J. B. Vassey of Beeville, Mr. and Mrs. Max Wade of Groom, Mrs. Hall Looney of Lubbock and Mrs. Lawrence Pranto of Pampa.

Also, Mr. and Mrs. James Anglin of Dumas and Mrs. Florence Golladay and Mr. and Mrs. John Armstrong, all of Farwell.

Attending from out-of-state were Mr. and Mrs. Robert Vassey of Bangor, Wis.; Mr. and Mrs. Walter Simpson of Lansing, Mich.; Mr. and Mrs. Eiland Johnson of Nebraska; and Mr. and Mrs. Byron Work and children of Rapid City, S. D.

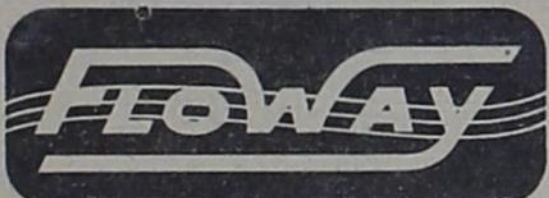

Mr. and Mrs. Odis White visited Sunday in Dimmitt. They were guests in the home of his niece, Mr. and Mrs. Troy Schuter. A family dinner was given by the Schuter family in honor of Melton White, a nephew of the Bovina man.

Literary League To Meet April 10

Plans for the annual district Interscholastic League Literary contests have been completed, reports Warren Morton, Bovina Schools superintendent. The contests will be in the school here all day, Friday, April 10.

Competition in declamation, spelling, poetry reading, arithmetic, speaking, and many other categories will be featured throughout the day. Students from all grades will be participating.

Morton invites parents and other interested adults to visit the school during the oral contests, such as declamation. All such areas of competition will take place in the school auditorium.

Schools participating will be Happy, Lazbuddie, Nazareth, Amberst and Bovina. Qualified judges will also attend, report school authorities.

Saturday, April 11, the athletic division of the meet will take place at Lazbuddie. Morton also invites the public to attend the sports competition.

Winners of the district meet in each division will compete for regional honors.

Keith Battey Tank Driver

FORT KNOX, KY. — Army Pvt. Keith D. Battey, son of Mr. and Mrs. Lloyd Battey, Bovina, completed eight weeks of advanced individual armor training recently at Fort Knox, Ky.

During this phase of training, Battey qualified as a driver of the Army's medium tank, passed proficiency tests with the .30 and .50 caliber machine guns and qualified as a gunner with the 90 millimeter tank gun. Battey received basic training at Fort Chaffee, Ark., before

arriving at Fort Knox. The 22-year-old soldier is a 1953 graduate of Friona High School.

Two Place In Bee

Two students of Bovina Schools placed in last week's spelling bee in Friona.

Margie Carter, fifth grade, daughter of Mr. and Mrs. F. D. Carter, took second place in county competition. Judy Strawn, sixth grade, daughter of Mr. and Mrs. Norvell Strawn, won third place. First place was taken by Karen Osborn, sixth grader of Friona.

The spelling bee was county-wide competition for the eventual National Spelling Bee contest to be this summer. Winners from the county level compete in district, regional, state and national contests. Last week's competition was sponsored by the Amarillo Globe News.

Bovina Schools superintendent Warren Morton announced that he is very proud of Margie and Judy. He reports the competition was "stiff" and all but Margie and the winner were "spelled down" within 15 minutes of the start. It was only after 45 more minutes of spelling that the winner was announced.

The contest was in the Junior division. No Bovina students participated in the senior, or seventh and eighth grade contest.

Also on the spelling team was Billy Minter. Alternates were Alice Del Toro and Irene Thornton. Mrs. Fleta Terry, sixth grade teacher here, accompanied the contestants.

Students To Speak Thursday

A number of Bovina High School students will participate in a program planned for a meeting of Bovina Woman's Study Club tomorrow (Thursday) afternoon.

The meeting will be in the clubhouse and Mrs. L. H. Pesch

will be in charge. Mrs. Arlin Hartzog is hostess.

James Polk was the only speaker of the House of Representatives to become president. According to research experts of the World Book Encyclopedia, Polk ran against Henry Clay in 1844. It was the only campaign in which both candidates were former speakers.

Barbara Rea Blade Employee

Barbara Rea began work last week for The Bovina Blade. She will serve as receptionist and will write youth activity stories.

A junior in Bovina High, Miss Rea is a daughter of Mr. and Mrs. Gene Rea.

Has Surgery

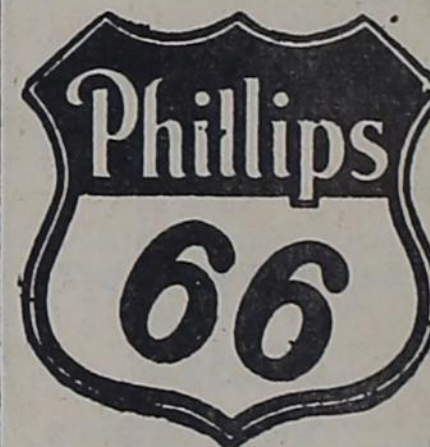

Jimmie Charles underwent major surgery in Parmer County Community Hospital, Friona, Tuesday morning. He entered the hospital Monday evening and was released the first part of this week. Relatives report that he is "just fine."

J. H. Steelman was released from Parmer County Community Hospital in Friona Sunday morning. He had been confined there for almost six weeks following a severe stroke.

Bovina Places In Contests
 Bovina High Schools' presentation of "Lost Victory" placed third in annual district one-act play competition Friday. Five schools competed for honors here in the Interscholastic League One-Act Play contests. Happy High School was named winner with its presentation of "The Old Lady Shows Her Medals." Second place was taken by Nazareth High School with "Senor Freedom."
 All plays competing were dramas and acting ability of each cast was of primary con-

sideration in judging. Mrs. W. A. Moore of West Texas State College in Canyon was in charge of the judging team.
 Joan Kay Ezell, Bovina, was named a member of the honorary all-star cast. Six actors and actresses from the competing schools were chosen for their outstanding acting ability. Others taking part in Bovina's play were Kay Hartzog, Verna Marie Estes, Lexie Stevenson, and Nickie Woelfel.
 Schools participating included Happy, Nazareth, Lazbuddie, Amherst and Bovina.
 The winner will compete for regional honors later in the spring.

Teachers Meet In Farwell
 Bovina teachers attended a regular County Teachers' Meeting in Farwell Schools cafeteria Thursday evening. A business meeting was conducted following dinner. Guest speaker was Dr. Herman T. Decker, professor of humanities at Eastern New Mexico University, Portales. He gave a number of humorous literary readings. A musical group, also from ENMU, provided choral entertainment.

Cafeteria Menu
 The following menu is being served this week in Bovina Schools. It is subject to change.
 Monday, March 23: Macaroni and cheese, green beans, pickled beets, marble cake, milk, hot rolls and butter.
 Tuesday, March 24: Steak, gravy, creamed potatoes, lettuce wedges with French dressing, rolls, butter, milk and grapefruit sections.
 Wednesday, March 25: Red beans, fried potatoes, cabbage and carrot salad, cornbread, butter, apple pie and milk.
 Thursday, March 26: Meat loaf, frozen corn, spring salad, cornbread, butter, milk and oatmeal cookies.

Assembly Planned Thursday
 Tomorrow (Thursday) morning, 10:45, a general assembly will be presented in Bovina Schools auditorium. Harold Coates, a trampoline artist, will appear in a combination comedy, humor and athletic ability performance. Adults and students are urged to attend. Admission will be 15¢ for students through sixth grade and 25¢ for high school students and adults.

Baptists Fly To Arkansas
 Two members of Bovina First Baptist Church's building committee and the pastor went to Arkansas by plane this week. Leaving here Tuesday, they will return late tonight (Wednesday). The trip is to see and consider purchase of furniture for the Baptist Church to be built here soon. Making the trip are Don Murphy, J. D. Kirkpatrick and Rev. Jack Jeter.
 The Naval Research Laboratory employs a radio tracking system known as "Minitrack" to track the earth-circling satellite.

Pheasant Fever Strikes

Eight more men from the Bovina area were stricken with cases of pheasant hunting fever this weekend. Five Bovina men and three from Hub left Sunday morning for Hurricane Creek Hunting Lodge, near Anna. They planned to return home today (Wednesday). All were guests of Bill Sherley of Sherley Grain Company here. Hunters were A. B. Kent, Homer Kelley, Lloyd Gober, Marion Carson and Bill Whitesides, all of Bovina; and Eddie Hall, M. J. Stacy and Billy Sides, of Hub.

Circle Plans New Study

Plans for initial services for a new series of study were made last week by members of Marzie Lynn Circle. The meeting was in the parlor of Bovina Methodist Church.

The study, titled "Isaiah Speaks," will begin this week, with Mrs. Henry Ivy leading discussions. There will be a series of six meetings.

Tuesday's program was on the "World Federation of Methodist Women." Mrs. John Dixon was in charge and spoke of what the organization was accomplishing throughout the world.

Korean members' efforts were the main theme of discussion and Mrs. Warren Morton portrayed a woman of that country, reporting improvements made through the Federation.

Mrs. Dixon also gave brief background facts about the Federation. Informal discussion among members was also directed by Mrs. Dixon.

Attending were Mrs. George Turner, Mrs. L. M. Grissom, Miss Lola Grissom, Mrs. Morton, Mrs. C. F. Hastings, Mrs. E. M. Ware and Mrs. Dixon.

Make not your sauce until you have caught your fish.

Things won are done; joy's soul lies in the doing.

Club Meets In J. T. Jones Home

Members of Bovina Thrifty Club met Wednesday afternoon of last week in the home of Mrs. J. T. Jones.

Ways in which jewelry may be worn was discussed and a demonstration of jewelry for different occasions was given. One guest, Mrs. Jerry Rogers of Hereford, was present.

Members attending were Mesdames L. M. Grissom, George Turner, Wilbur Charles, Clarence Gauntt, C. R. Brandon and Miss Lola Grissom. The hostess served refreshments of coffee, tea, doughnuts, cheese crisps and salted nuts.

The next meeting will be Wednesday, March 25, with Mrs. J. D. Stevens.

Sunday Guests In Gaines Home

The home of Mrs. J. Sam Gaines was the site of a birthday dinner Sunday for Mrs. S. A. Barbee of Lubbock. The dinner was given by Mrs. Gaines and her daughter, Mrs. Troy Armstrong, for Mrs. Armstrong's daughter-in-law.

Relatives present were Mrs. Gaines' daughter, Mrs. Neal Mager of Spokane, Wash., Mrs. Viola Loftin of Tulsa, Mr. and Mrs. Guy Saunders and son, Gary, of Portales and the honoree and family, Mr. and Mrs. Barbee, Rhonda and Sheila.

Mrs. Smith Visits Sisters

Mrs. Mattie Smith of Amarillo spent last week visiting with relatives in the area. She was a guest in the home of her sister and husband, Mr. and Mrs. Mel Gunn and also visited with another sister, Mrs. John Stagner of Clovis.

Mrs. Smith, Mr. and Mrs. Gunn and another sister and husband, Mr. and Mrs. Mark Day of Lubbock, were Sunday dinner guests in the Stagner home.

WHITTLIN ---

... two or three years after it was too late to do anything about it.

Here's the point. Crawford is making plans to hold an arc welding short course for adults. Plans aren't complete yet and the whole deal may fall through, Crawford points out. There's some question as to how much response there would be to such matters. And we're not criticizing them for either of those three things.

If the course materializes, announcement will be made concerning details. Crawford feels that if seven or eight are interested that will be enough to justify the course though he would like to have more.

Another FFA project just around the corner is the annual project show. We said it before, but it needs mentioning again, this project needs the support of the community. Livestock, the people who know will say, will play an increasingly more important role in our economic picture here and this project show is the best step, we think, that can be taken in the right direction.

Ketch-all Korner

By Sally Whitesides

Although basketball season is now a thing of the past, there's the little story that husband Bill keeps reminding me of.

A couple of weeks ago, he and I attended a tournament in Clovis, where we watched my hometown school of House, N. M., bite the dust. They played excellent ball, but were under competition with a school that simply played better ball than even that.

The game was one of those nerve-tinglers all the way through; with only a matter of a few points difference from quarter to quarter. Therefore, who but Sally, after almost ten years' absence from the basketball stands, all but lost her voice in her enthusiasm.

Now Bill is one who, in the height of excitement, usually merely grins his approval of a good play. With me it's different and that night was certainly no exception. And it came as only a slight surprise to me when I looked around to mention something to Bill, only to find him edged away a few feet down the bench.

He didn't put it into words, but his desire was plainly visible. My husband was sincerely hoping that other spectators didn't think I belonged to him.

Mother received a card from my grandmother in Wisconsin last week. Said she was getting nothing accomplished for watching the neighbors. Don't get me wrong, Grandma isn't nosy; she was just allowing herself to be entertained by the labors of those nextdoor. Seems the snow is still so deep in

"Take It Easy" Sesame Theme

With seedbed preparation going full steam ahead and the time for deciding what to put into those seedbeds fast approaching, the subject of sesame is being tossed about considerably in Farmer County quarters.

General speaking, the mood is "Take it easy." The performance of this "new" oilseed crop during the past four years in the Farmer County area would give reason enough for enthusiasm, but the shadow of overproduction, which plagues so many of the nation's crops, is appearing on the horizon of this specialty crop this year for the first time.

The biggest sesame harvest in the six-year history of commercial production of the crop in the U. S. produced almost one million dollars in income for the farmers of Texas in 1958.

Texas Sesame Growers, Inc., a farmers' corporation organized to help grow, harvest and sell the new oilseed crop, reports the harvest of 10,023,486 pounds of sesame brought a total income to farmers of \$980,127. The average price on No. 1 quality seed was 9.88 cents per pound. The average on No. 2 quality seed was 8.09 cents per pound.

National production of sesame is centered in Texas—the counties of the Panhandle and High Plains and the Blacklands counties of Lamar, Delta, Fannin, Red River and Ellis.

Robert L. Parker, executive vice-president of Texas Sesame Growers, reports that the 1958 crop was produced by some 400 growers on approximately 12,500 acres. The 9,000 acres on the Plains produced nearly 9,000,000 pounds of the total 10,023,486 pounds grown.

He added that although the price of sesame was somewhat

lower in 1958 than in 1957, the crop probably is in a better competitive position with milo and other crops because of lowered support prices for the other crops.

It was a year of high yields for sesame on the irrigated land of the High Plains and an average year for dryland farmers, Parker reported.

The 1958 crop of 10,023,486 pounds was nearly one-third larger than the 7,000,000 crop of 1957.

Parker expressed the belief that sesame reached a kind of plateau in production last year with production having temporarily overtaken demand. He added, however, that he believes sesame consumption is on the verge of expanding into big new areas in addition to the present needs of the bakery trade.

He pointed out that the market in the U. S. has increased from some 10,000,000 pounds for domestic and foreign sesame seed in 1953 to approximately 25,000,000 pounds in 1958, an average increase of nearly 3,000,000 pounds per year.

With the reduction in the support price of maize and the excellent showing of sesame in the area in 1958, there is little question but that Sesame Seed Growers will have little difficulty getting the same or more acreage this spring.

Seed dealers in the area report that there may be more new growers than would be desirable for the most favorable markets. For these reasons both farmers and association seem to be agreeing that it would be mutually advantageous to "take it easy" until sesame sees where it's headed.

Most old growers will be returning to plant about the

Growers To Meet

Sesame growers meetings have been set for Farmer County next week. The first will be Wednesday evening at the Farwell City Hall. Texas Sesame Seed Growers and Henderson Grain & Seed Co., Inc., are sponsors.

Thursday night Cummings Farm Store and the Association will hold a meeting at the Friona Clubhouse at 8.

Both meetings are for the same purpose: to help farmers

plan their 1959 sesame crop. Robert L. Parker, executive vice-president of the seed group, has scheduled the meetings, and will be on hand to supply information to those who attend.

County Agent Joe Jones will preside at the sessions. All farmers interested in the growing and handling of sesame this year are urged to attend these special meetings.

Farmers Eye Pinto Beans

(Editor's note: This is the first in a series of articles on new crop possibilities in the Farmer County area. More interest in cash crop diversification is being shown this year than ever before. Next week's story will be on soybeans.)

Pinto beans, that lowly but loved food of the Southwest, may come up as a cash crop possibility deserving more than passing mention in this year of slim chances for new crops.

Many Farmer County area farmers are checking into dry beans and have found that they

appear to have several interesting features, not the least of which is the ability to produce a profit for the successful grower.

County Agent Joe Jones says varieties farmers are eyeing with favor are Idaho Bush No. 111 and New Mexico 295 and San Juan. The former is the most popular hereabouts.

The usual seeding rate for standard rows ranges from 35 to 40 pounds per acre. As the beans are planted in late June and harvested in September or early October they fit this growing season well.

Their response to water and fertilizer has been compared to cotton. The county agent recommends both nitrogen and phosphorus. Yields seem to vary greatly as farmers have had little experience with them, but 2000 pounds per acre is usually considered a good crop.

A support price of \$5.35 per hundred pounds is available on pinto beans in Farmer County, and although some have been grown here previously and have been put into the loan the favorable market has in the past always meant their redemption. Ag officials say the market is usually enough above the loan to do that.

The catch to this good price—or one of the catches, anyway—is that pinto beans are not delivered in bulk to the marketplace as is grain sorghum or many other crops. They must be cleaned and bagged in 100 pound bags. That means extra expense. It usually costs about \$1 to clean, bag, insure, and store 100 pounds of beans. Prentice Mills, ASC office manager, figures the net to the farmer is somewhere around \$4.14 a hundred.

same acreage as in 1958, and there are sure to be some new ones. If good weather prevails, the production could easily meet or exceed that of last year, which was considered slightly more than ample from a marketing standpoint.

THE HIGH PLAINS FARM AND HOME

THE HAPPY HOMEMAKER

BY JUNE FLOYD

1/2 pint heavy cream
1 quart strawberries
Cream shortening; add beaten egg; add part of flour, baking powder and salt which have been sifted together, then part of milk. Mix well and add remainder of flour and milk. Add flavoring. Bake in a shallow greased pan in moderate oven 20 to 30 minutes.

When cold, split in half and spread whipped cream and crushed sweetened strawberries between layers. Cover top with whipped cream and whole berries.

apples and apricots. Fresh canned fruits may be used.

APRICOT-APPLESAUCE PIE
1 no. 2 can apricot halves
1/4 cup raisins
1/2 cup sweetened applesauce
1 teaspoon flour
3/4 cup sugar
1/4 teaspoon salt
1/2 teaspoon cinnamon
1 tablespoon butter
1 recipe of plain pastry or pie crust mix

Combine apricots, raisins and applesauce. Mix flour, sugar, salt and cinnamon. Sprinkle one-half of dry ingredients over pastry shell. Add apricot mixture. Sprinkle with

remaining dry ingredients. Dot with butter.

Cover with top crust. Slash in 2 or 3 places to allow steam to escape. Brush top of crust with cream and sprinkle with sugar. Bake in hot 450 degree oven for about 35 minutes. Cool and serve.

For trimming for any of the new drip dry or specially treated cottons that are available in so many pretty colors this spring, ask for the new bias tape which is made of fine pima cotton. The tape has a smooth rich appearance and is easy to apply as a binding, facing or piping.

Mothers of diaper size children should keep a few of the new "snap-on" type on hand at all times so that when it is necessary for the man of the house to change the diapers he will have no difficulty. This will prevent safety pin pricks and the child will be properly diapered, too.

Perhaps hinders folk from lying.

"I want a car that's BUILT FOR PEOPLE"

"Just like a woman! I want a car BUILT FOR SAVINGS"

"Dave, I've found exactly the right car for us! It'll make driving ever so much more comfortable."

"Comfort's fine, Nancy, but we've got to consider savings, too. And I've found just the car for that!"

"But the car I've found is so easy to get in and out of... and so comfy to sit in."

"Yes, but my car will save us as much as \$1.00 on every tankful of gas because it uses regular. How about that?"

"Well, that's nice, but what about my fuzzy hats? We'll have hat room, not just head room in my car. And you're no shorty, either... you'd bump your head in a lot of those new cars."

"Not in this one. And it only needs oil changes each 4000 miles. Its muffler is aluminized to normally last twice as long, too."

"In the car I want, everybody enjoys a soft comfortable seat... even the folks in the middle! This car's built just right for us... and besides, I think it's cute."

"Sure, looks are important... and my car will keep on looking good 'cause its finish is so bright and durable it never needs waxing."

"Well, the nice man at the Ford Dealer's told me..."

"Did you say FORD?... that's the car I want, too! And we can save as much as \$102.75 on purchase price alone! What are we waiting for?"

"Darling, you're a genius!"

It's fun to make up with

How Much Is Your Irrigation Water Worth?

Proper management of irrigation water is becoming more and more important to all the farmers in this area especially to those who have a limited supply of irrigation water. They are interested in applying the water in such a manner that most of it will be absorbed by the soils for use by the crops as well as utilizing all the rainfall that they can.

Crops usually produce the highest yields when they can easily obtain moisture from the soil throughout the entire growing season. An application of water before it is needed will result in extra irrigation costs, excessive leaching of plant food

and in some cases harmful effects on the crops. On the other hand, allowing the soil to dry out until the crop suffers for lack of moisture will result in lower, low quality yields.

Some factors to be considered that will bring about more efficient use of irrigation water are, the storage capacity of the soil, the kind of crop that is being grown, the stage of growth of the crop and weather conditions. Good irrigation management depends on the farmer's knowledge of the factors which determine the amount of water and when it is to be applied.

As soon as time and weather

conditions will permit, the SCS plans to conduct some more irrigation studies here in Parmer County. The purpose of these trials is to obtain information on irrigation that will be of some use to the farmers in this county.

Cover is the most efficient method of getting water in the ground and the spade is the most accurate gauge of rain effectiveness.

NEWS FROM THE

FARM BUREAU

BY RAYMOND EULER

The Farm Bureau office will be closed Saturday (day before Easter.) President Gilbert Kaltwasser, Herman Gerles and Vernon Symcox, directors, attended a meeting in Dallas last Thursday, called by the Texas Agricultural Employer's Association.

Purpose of the meeting was to discuss means of avoiding encroachment of the labor department and CIO-AF of L upon agricultural and retail stores employment practices.

Presidents of Texas County Farm Bureaus will be in another meeting in Amarillo Thursday discussing the same problem. The application of the Wage and Hours Act to farmers and retailers would be a catastrophic move, particularly in rural areas like this.

One of the things pointed out regarding regulations is that if one farmer in the county should see fit to pay a bonus to an outstanding employee, that bonus would be included in any calculations determining the "customary wage" for the county. It doesn't take an expert to see what this would do to employers of the area.

Legislative director, H. P. Hamilton has been working with school people and other individuals to get their support in opposing proposed legislation for federal aid to education. This legislation has features that indicate a great desire, on the part of its supporters, to control American schools.

It would empower another bureaucracy to tell schools how, when and what kind of buildings to build, what books to use, how to teach them, etc. We have actually heard of no one outside of the halls of congress, except

leftist and Communist groups that want this kind of thing. We hope there are enough congressmen who will oppose it. Your letter can help increase the number.

Raymond Schueler, Chairman of the Farm Bureau weed committee, called that group together for reorganization and planning for action this year. There is no way to know how many thousands of dollars the activities of this committee have been worth to Parmer County farmers in the past four years.

We hope you will count the blessings made possible by God and the founders of the American heritage of individual freedoms during this Resurrection Season.

Consider this: "And Jesus came and spake unto them, saying, "All power is given unto me in heaven and in earth." Matthew 28:18

COUNTY 4-H CLUB NEWS

STRETCH SPRING WARDROBE DOLLARS

Are you good at stretching clothing dollars? -- Outfitting the family with spring and summer clothing represents quite an investment. Extension clothing specialists say that careful planning before you buy will pay off in savings and satisfaction.

Careful planning also is the secret of having a wardrobe of costumes or outfits that go well together instead of a collection of miscellaneous items that never seem quite right.

Begin by taking careful stock of clothes on hand. Make necessary alterations of clothes you plan to keep, bring them up to date or put them in first-class condition.

Then plan what clothes you will need to supplement what you have. Keep in mind your activities as you make this list. Each family member should have a part in planning. This makes for better understanding of what happens to clothing dollars and the family budget.

Other pointers for planning are given in the extension bulletin, "Clothing Dollars and Sense." Get a copy from your county home demonstration agent's office.

WHEN YOU BUY A HAT Do you sit or stand when you try on a new hat? -- It pays to do both, according to extension clothing specialists.

Others will see the effect of the hat in relation to your whole silhouette. An honest look in a full-length mirror will help you to study the hat in relation to your height, width of shoulders and hips.

The mature women usually looks better in hats with some brim or an effect of irregular, which softens and flatters. Picture hats, halos, off-the-face hats, small brow-revealing turbans and toques are for younger faces that do not have mature lines. A hat that is slightly tilted on the head may subtract years from a woman's age.

Remember that your hat is a frame for your face. Choose a color that flatters your complexion, and at the same time

harmonizes with your costume.

ORANGE PECAN CUSTARD PIE

3 whole eggs plus 3 egg yolks
2/3 cup sugar
1/2 teaspoon salt
2 3/4 cups milk, scalded
1 tablespoon grated orange rind
1 9-inch baked pie shell, cooled
3 egg whites
6 tablespoons sugar

Beat eggs and yolks slightly; add sugar and salt. Gradually stir in scalded milk. Add grated orange rind. Pour into ungreased 9-inch pie pan. Set in pan of hot water and bake in moderate oven (350 degree F.) 35 to 40 minutes, or until set about 1 inch from edge. (Mixture continues to cook as it cools.) Cool to lukewarm; loosen edge with knife and slip custard into cooled baked pie shell.

Beat egg whites until foamy; gradually add sugar and continue beating until mixture stands in stiff peaks. Spread over custard, sealing edges well. Sprinkle with chopped pecans.

Bake in hot oven (450 degree F.) 5-8 minutes or until browned. Yield: 9-inch pie (6-8 servings).

He who endures with patience is a conqueror.

The better part of valor is discretion.

Stage Is Being Set For Lower Beef

It appears that beef prices in 1959 may not be greatly different from those of 1958, though the average price in 1959 could be a little lower, predicts John G. McHaney, Extension economist.

However, he adds, increases in cattle inventory are setting the stage for a price decline some time in the next few years. Any increase in cattle numbers sets the stage for a future price decline and one is very probable in some early year after 1959. But if the rate of expansion can be kept within bounds the drop will not be too severe.

McHaney says the average price received for slaughter cattle in 1959 may be slightly below that of 1958 and profits from feeding cattle may average less than in 1958 when returns

were the largest of recent years.

The greatest price strength in 1959 will be in feeder and breeding stock, just as in 1958, the economist points out. The bumper 1958 feed harvest, the second in consecutive years, should keep the demand for feeders at a high level. The strong demand for young cat-

tle, both for feeding and herd expansion, also will help keep the price of feeder and breeding cattle high relative to slaughter and fed cattle.

Consumers will have more meat to eat in 1959 than in 1958, McHaney says. It has been estimated that about six per cent more red meat will be produced in 1959. Most of the increase will be in pork

and a sizeable increase in pork supplies will tend to hold down cattle prices.

Higher grade beef from fed cattle will remain fairly abundant but lower grades will continue scarce. The price spread between grades will continue to be unusually narrow as cattle feeders bid for the lighter, unfinished animals, he believes.

Halfway Tests Corn Hybrids

One hundred and forty-seven varieties of white and yellow corn hybrids were included in the 1958 corn research program at the High Plains Station of the Texas Research Foundation at Halfway. The tests were under the supervision of Lawrence Gundy, corn breeder from the Foundation. Three hybrid corn yield tests, each containing 49 entries, were conducted. The average yields on these tests were 77 to 97 bushels per acre while individual entries ranged from 56 to 135 bushels per acre. The

tests included hybrids now available in the High Plains plus a number of midseason and early commercial and experimental hybrids.

Nine yellow hybrids out of 50 tested produced yields above the test average of 97 bushels per acre. The top yielding yellow hybrids were: Texas 28, 134.8 bu.; Asgrow 104, 122.4 bu.; Watson III, 121.6 bu.; Conrad 3, 121.3 bu.; Texas 30, 116.3 bu.; Texas 26, 116.1 bu. and Conrad #1, 115.5 bu. The high yielding white corn hybrids were: G779w, 132.9 bu.; Asgrow 105w, 121.3 bu.; Asgrow 101w, 114.2 bu.; TRF 9w, 105.2; Asgrow 107w, 102.3 bu. and P. A. G. 633w, 101.4 bu.

White corn acreage increased in 1958 in the High Plains. White corn buyers discovered that the Angoumois grain moth, a serious problem for corn in storage in the corn belt, had not yet heavily infested corn storage in this area. This has increased the market for white corn especially in the Muleshoe area.

The variety tests were planted April 25 with 26 pounds of nitrogen and 78 pounds of phosphorus applied in bands at planting time. This was followed by 150 pounds of nitrogen applied as a side dressing on May 5.

COUNTY 4-H CLUB NEWS

Members of the county-wide Junior 4-H Leaders Club met, Monday, March 16, in the Gene Rea home.

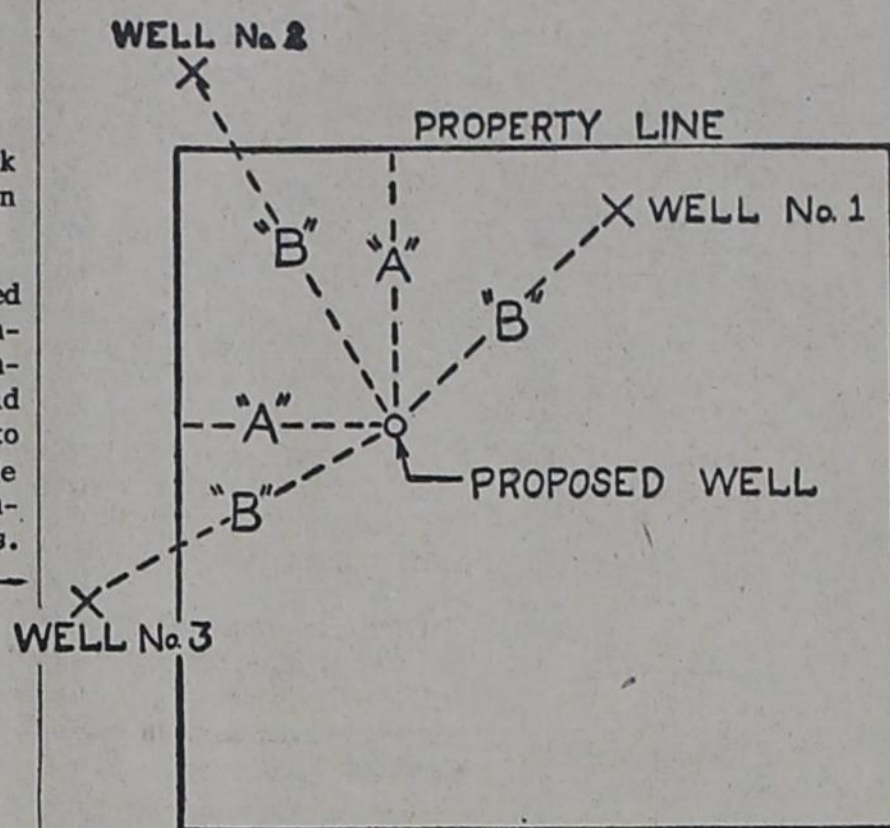

Plans were made for a Demonstration Day to be Saturday, April 18. Demonstrations will be given in Parmer County court house, in Farwell. Miss Jimmie Lou Wainscott, home demonstration agent and Joe Jones, Agriculture Agent, will be in charge.

Barbara Rea, Bovina and Janice Hillock, Farwell, will cooperate in a demonstration of dairy foods and Virginia Rea, Bovina, and Judy Billingsley, Farwell, will work together on a demonstration of electrical appliances.

Judges will be selected from county adults leaders.

Plans for a county party were discussed. The party will be Saturday evening, April 4 in Hub community house. Festivities will begin at 7:30.

Games leaders named were Virginia Rea and Barbara Rea, Bovina; Dick Chitwood, Pat Chitwood, and Cooper Young, Lazbuddie. Also Janice Hillock and Judy Billingsley, Farwell.

A - Measured distance to two nearest property or quarter-section lines
B - Measured distance to three nearest wells within one-fourth mile

If You Plan To Drill You Should Know This:

Do you plan to drill an irrigation or commercial water well? If you do, and you expect to produce more than 69 gallons per minute from the well, you should read the following paragraphs.

The rules of the High Plains Underground Water Conservation District provide that wells drilled within its bounds of jurisdiction and produce in excess of 69 gallons per minute be spaced certain minimum distances from wells in the immediate vicinity.

4-inch well must be a minimum distance of 200 yards from

the nearest well. 5-inch well must be a minimum distance of 250 yards from the nearest well.

6-inch well must be a minimum distance of 300 yards from the nearest well.

8-inch well must be a minimum distance of 400 yards from the nearest well.

10-inch well must be a minimum distance of 440 yards from the nearest well.

The district's rules further provide that a person who desires to drill a well must first obtain a well drilling permit. To assist either the land-

owner or his agent in filing an application for a well drilling permit, each county has an office and a secretary.

Before contacting his local county secretary, the well-drilling applicant will need the following information:

1. Name and mailing address of the owner of the land on which the well will be drilled.
2. The legal description of the land.
3. The measured distance from the proposed drilling site to the two nearest property lines or quarter-section lines. (Shown as lines "A" on drawing)
4. The measured distance from the proposed drilling site to the three nearest wells. Distances to well that are over 440 yards from the proposed drilling site are not required. (Shown as lines "B" on drawing)

has been determined by the applicant, he is then prepared to contact his local county secretary and file his drilling permit application.

A deposit of \$10 is required with the filing of each application. When the application form is filled out completely and correctly, the applicant must then make certain that it is signed by three members of the local county committee. This is most important, and it must be done before drilling operations are commenced.

When signed by the committee, the permit is valid for the drilling of one well only, and only at the location specified on the permit.

The drilling permit is valid for a period of 4 months from the date of filing.

When the well is completed and the log of the underground information is supplied to the county office on forms.

TWO Bales per Acre With Ammo-Phos for Grow Power

Bud Crump, Manager of Parmer County Farm Supply, and J. B. Sudderth

In 1958 I had 80 acres of cotton. I fertilized this cotton with 200# of Mathieson's water soluble Ammo Phos 13-39-0 and got 2 bales per acre except on the hail damaged part, where I got 1 3/4 bales per acre.

I always have my soils tested to show me what fertilizers are needed. I break my land 9-11" deep and plant as soon after April 15th as weather will permit. In 1958 I used 200# of Mathieson's 13-39-0 and an early season insecticide program to set and hold the early crop. I irrigated the first time when the crops started fruiting heavily, and the last time on August 20th.

The hail on July 4th damaged 25 acres very badly. It tore the cotton down from knee high to about 4" high, and yet it produced 1 3/4 bales per acre.

THE PHOSPHORUS IN THIS WATER SOLUBLE 13-39-0 HASTENED MATURITY FROM 7-12 DAYS AND THIS IS IMPORTANT TO ME. I WILL USE MATHIESON'S 13-39-0 THIS YEAR.

Water Cotton Now

Pre-irrigation of cottonland, which almost all farmers agree is a definite requirement for top yields in this dry year of 1959, should be gotten underway at an early date, suggests County Agent Joe Jones.

The main benefit to be gained from an early pre-watering is that water applied far enough ahead of planting time gives the soil a chance to warm up after it has been chilled by the cold discharge of the wells.

Soil temperature is a vital element in determining just

when that first cottonseed can go into the ground, especially in this latitude, so the farmer can always use a few extra days of grace at this season of the year.

"The chances are that we'll get enough showers between now and planting time to replenish the top moisture if it tends to dry out," says Jones, "but even if we don't, then another 'quickle' irrigation will do the job and won't cool the land nearly so much as a heavy watering."

Many farmers are taking this advice and much land is being watered this week. Farmers report that the irrigating is going very slowly this spring, and that both top and subsurface moisture is in very short supply, requiring longer sets and consequently much more water.

M. Lien - E. M. Ware - Gifford - Hill - Western - N/2 Sec. 12 Synd A

All human power is but comparative.

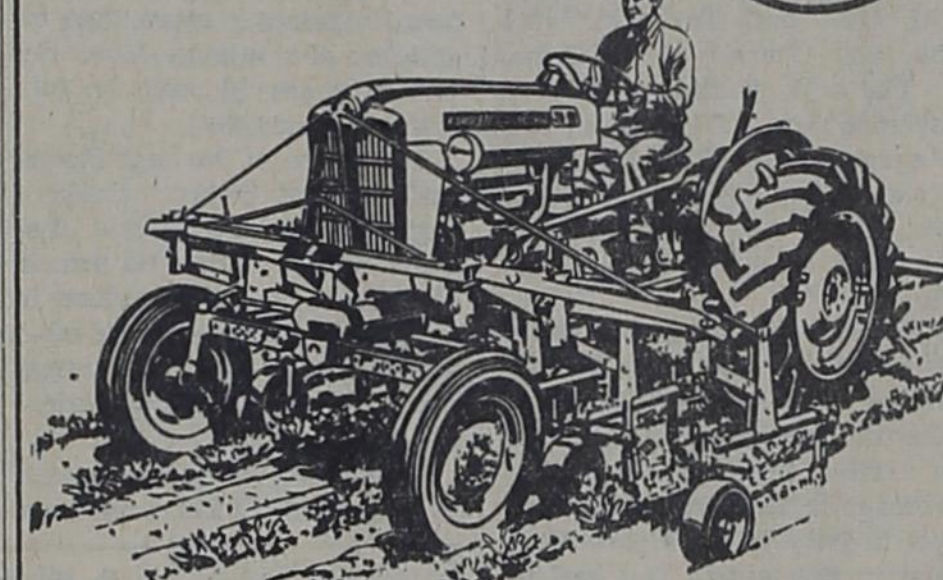

TRACTOR FACTS are what these boys are soaking up from Rene Snead, adult instructor in the county 4-H tractor maintenance school program. Classes are being held all over the county and James Mabry, in charge of the project, says enthusiasm from the boys is running high. Farmer County has the most active program of this type in the state, according to County Agent Joe Jones.

You'll put more "GO" into ROW CROP FARMING with Ford SELECT-O-SPEED!

Select-O-Speed permits finger-tip clutchless shifting throughout entire range of 10 forward, 2 reverse speeds while on-the-go and under load! You'll save a lot of time-wasting stops, get a lot more work done.

Yes, shift up or down with a touch of the finger to match pull-power and speed exactly, instantly, to changing field or crop conditions. And with completely independent PTO, you can engage and disengage the PTO shaft while on-the-go... all for the easiest, most efficient tractor performance you've ever seen.

STOP IN - see and drive a new Ford Select-O-Speed Tractor!

Power Co-Op Has Beauty Queen Contest

Many Parmer County girls are eligible to enter the Deaf Smith Electric Cooperative's 1959 beauty contest which will be held in connection with the co-op's annual meeting April 30. The contest is held in co-operation with the state and national associations of Rural Electric Cooperatives, and the winner of the local event will compete in a statewide contest in Houston in August. The state winner will go on to national competition. Candidates for the title may be sponsored by any organization, club, or school. Each sponsor receives \$25. Any single girl between 16 and 21 whose parents are members and are receiving service from the Deaf Smith Co-Op is eligible.

ELECTRIC clothes drying keeps your clothes "FLOWER FRESH!"

Fresh, clean and fluffy - that's the way clothes should be after drying. And, that's the way they come out of your electric clothes dryer. Gentle electric drying heat removes moisture without yellowing, without hardening delicate fibers. Electric clothes dryer construction keeps out dust, dirt and other contamination - keeps clothes flower fresh.
