Sutton GOP Headquarters To Open Tomorrow

Sutton County Republicans will open their headquarters in the building formerly occupied by the Home Gas Co. Saturday, October 13.

The day has been designated "Ike Day" in celebration of the President's birthday.

Everyone is welcome to attend the opening and cake and coffee will be served.

M Y F TO HOLD BAKE SALE

The Methodist Youth Fellowship will hold a bake sale Saturday, October 20, in the building formerly occupied by the Hamilton Grocery.

Proceeds from the sale will be used to complete payment for the movie projector bought by the organization.

ODDS & ENDS

The GOP's are opening their headquarters here Saturday, on Ike's birthday. The quarters are to be located next door to us, in the building where the Home Gas Co. used to be.

Understand they're serving cake and coffee and inviting everyone to come by. They're extended a most cordial invitation to "the press" but we want it strictly understood that it'll take more than a piece of cake and a cup of coffee to bribe the members of the fourth estate. We expect to get the "outside" of that chocolate layer number and we further demand real cream in our java, linen napkins, silver fork and spoon, friendly smiles and kind words.

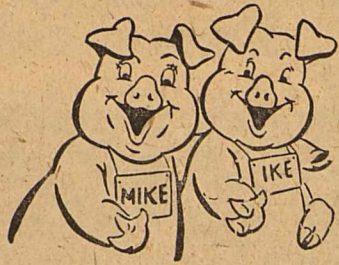

Game time tonight is 7:30 in Mason. This is a full half hour earlier than usual and we point it out to make sure everybody gets there for that all-important opening kickoff.

We may be minus some of our regulars tonight. Gildardo Favila is still out, taking care of that head injury. Pete Badillo suffered a separation in his knee last Friday night and won't be among the active. Shannon Ratliff has been under the weather, too, and it's questionable if he'll be available for service.

If you can't make the trip to Mason to boost our boys, the speakers will be set up outside Casey's.

The Kansas University Witan gives some terse precepts to those of teen age, under the caption of "Ten Things I Wish I Had Known Before I Was 21". We pass them along:

1. What I was going to do for a living—exactly what my life-work would be.
2. That my health after 30 depended in a large degree on what I put into my stomach before I was 21.
3. How to take care of money.
4. The commercial asset of being neatly and sensibly dressed.
5. That habits are mighty hard to change after you're 21.
6. That worth-while things require time, patience, and work.
7. That the world would give me just about what I deserved.
8. That a thorough education not only pays better wages than hard labor, but it brings the best of everything else.
9. The value of absolute truthfulness in everything.
10. That my parents weren't old fogies after all.

FURIOUS BATTLE FRONT

Broncos Breeze By Bulldogs 41-13 Friday Night On Coahoma Field

Taking to the air the Sonora Broncos chalked up their fifth win of the season by dowing the Coahoma Bulldogs 41 to 13 on their home field.

In the first quarter a series of downs took the Sonora team some 70 yards to the Coahoma six yard line and Johnson plunged the line for the score. The try for point was no good and the score stood at 6 to 0 at the end of the quarter.

The Bulldogs held a temporary lead during the early minutes of the second quarter when they crossed the Bronco goal line to score and a Bulldog pass was good for the extra point, and the

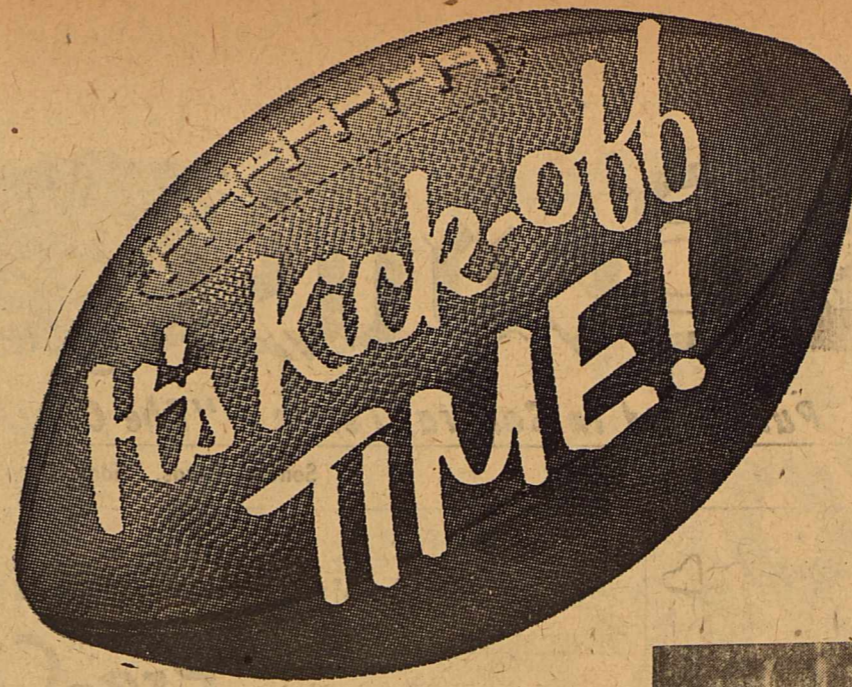

Sonora team trailed by a score of 7 to 6. But the Bronco's passing team of Johnson and Ratliff clicked for a 25 yard touchdown pass, climaxing an 80-yard march and the Broncos led by 12 to 7. The extra point was good and the score remained 13 to 7 as the half ended.

Early in the second half, a Johnson to Ratliff pass was good for 42 yards and the extra point raised the tally to 20 to 7 for the Broncos. In a whirlwind offensive, the Bulldogs retaliated with a 65 yard push ending in another TD raising the score to 20 to 13. But again the Broncos began their march which the Bulldogs could

not stop and Johnson carried over from the two yardline. The point after was good and the Sonora lead was raised to 27 to 13.

The fourth quarter saw plenty of passing with Johnson hitting Ratliff twice for passes each good for about 15 yards. Conversion was good too and the score read Sonora 34, Coahoma 13.

With only seconds left to play in the final period, Guard Tommy Adams intercepted a Coahoma pass and made his interception good for a touchdown by carrying 57 yards across the goal line. Johnson's point was good and the final score showed 41 for the Sonora Broncos, 13 for Coahoma.

**SHE KNOWS...
IT'S FEEDING TIME!**

This cow's telling you something you probably know... it's time to start feeding. Grass is brown, tough, and doesn't have much food value. If her owner wants her to drop a husky calf come spring, then he'd better start supplementing her range.

She'd like Purina Range Checkers. They're easy to feed, tasty, contain a variety of proteins and carbohydrates and carry vitamins and minerals that the tough grass doesn't have. Cows must have these materials to build the unborn calves.

Next time you're in town, drop in and let us tell you more about Purina Range Checkers. They're proved right, made right, priced right.

**Varmints Raid
Farm Feed Bin**

Reports of the great loss to varmints from starvation and lack of water during the unbroken Texas drought, was noted by the Executive Secretary of the Game and Fish Commission.

He said field men agree that the toll to the fur bearers has been particularly heavy. In areas where the heavy raccoon population previously had been described as out of line and damaging to other game species, the torrid spell seems to have restored a more desirable balance.

"At 1 a.m. on September 18, on patrol, Kohleffel shined his light in the area of a barn on Oaks Ranch, owned by Jess Wegenhoft, two miles northwest of Rock Island. His beam picked up the eyes of at least twenty raccoons, tearing the sacks and eating range nuggets and cotton seed cake. Kohleffel killed ten raccoons, crippled five or six and also shot one opossum. The next night Wegenhoft killed five more raccoons. We are having reports of raccoons raiding chicken coops as their natural food is gone. Raccoons have cleaned up most cottontails and swamp rabbits in the brush."

To commercial fishermen who "pump" their catches on board, separating the fish from the sea water is highly important operation. The separating mechanism which delivers the fish to the ship's hold and the water back to the sea is exposed continuously to corrosion from salt water. For this reason many of these mechanisms are made of nickel-copper alloy because of its excellent resistance to corrosion from this source.

Amendments To Constitution To Be Voted On

This is the third in a series of articles designed to acquaint voters with the proposed constitutional amendments to be voted on in elections on November 4 and November 11.

H.J.R. 11, Article 1 of the Constitution of Texas is the Bill of Rights. Section 16 of Article 1, after stating that the right of trial by jury shall remain inviolate, permits the Legislature to provide for temporary commitment for a period of not to exceed ninety days, by order of the County Court without necessity of a trial by jury, of mentally ill persons not charged with a criminal offense. The commitment is for observation and treatment.

The proposed amendment would add a new Section 15-a, specifically providing that no person shall be committed as a person of unsound mind except on competent medical or psychiatric testimony.

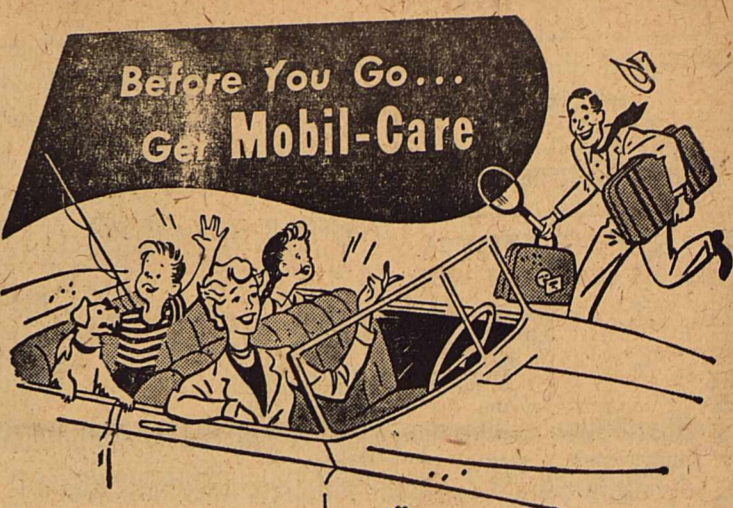

Briefly stated is this amendment would require competent medical or psychiatric testimony before a person of unsound mind may be committed, and it would allow waiver of trial by jury under the protection of an attorney ad litem appointed by the court where no criminal offense is charged. It could improve the ad-

ministration of State laws relating to the insane, save the State the expense of jury trials, and relieve the person under inquiry and his family from embarrassment and humiliation. Payment for the attorney ad litem would be a new State expense, and there are some counties where competent medical testimony would be a substantial new cost because no such expert resides in the county or nearby.

H.J.R. 9 provides that a judge or magistrate may deny bail to a person accused of a felony less than capital, if he has been convicted of two previous felonies.

Bail could be denied pending trial only after a hearing and upon evidence substantially showing the guilt of the accused. The accused would have to have been convicted of a felony two times before, the second conviction subsequent to the first both in point of time of commission and of conviction for the offense. The accused person would have a right to appeal to the Court of Criminal Appeals for a review of the refusal of bail, and in addition, if he was not accorded a trial within 60 days from the date of his imprisonment, the order denying bail would be automatically set aside unless a continuance was obtained upon his own motion or request.

The crushed taffeta of the bodice was repeated in the back, forming a flat inset to the hemline. She carried an arm bouquet of Happiness red roses.

taffeta. Bridesmaids were Miss Nancy Hunt, cousin of the bride, and Miss Martha Jean Valliant. The Devil's River News

43 YEARS AGO

On Saturday, October 18, 1890, the first issue of the Devil's River News appeared. The 1,190 copies that have since that time chronicled the history of the Sonora country are on file in this office, with the exception of one issue. The News has been under the same management for that length of time and it does not see where any material benefit could have been achieved by change of policy. The interests of the News has always been with (as we say it) the progressive unit. The same policy will continue.

Ike Can't Make It Rain, But He's Still Best Man

The other day I asked a farmer if it was dry out his way. He said it sure was. "Looks like we just can't get any rain," he said. "Why, when Noah had his 40-day flood, we didn't get over half an inch."

There's no mistake about it, Texas is having itself a real drouth. Some of the farmers and ranchers in our county are in such bad shape that they may vote for Stevenson.

Old Man Jones, from across the river, said he wasn't going to go to any such extreme. He said he needed rain as bad as anybody else. He claimed water was so scarce in his community that the preacher was baptizing new members with a wet handkerchief. But he was holding out awhile longer, anyway.

"I may be stubborn," said Old Man Jones, "but I just ain't been convinced that President Eisenhower is keeping it from raining."

He said he knew that Stevenson and Kefauver acted like they thought so, and they had a right to their opinion. Lyndon Johnson, he figured, knew better, but he was sticking with Adlai and Estes for the sake of unity. He said he didn't figure Mr. Sam Rayburn had known whether it was raining or not for the last 25 years.

He hate not to go along with such a widely known crowd of weather observers," Old Man Jones said. "If there's anybody

who keeps up with which way the wind is blowing, generally speaking, it's Stevenson, Kefauver and Johnson."

Then he went on to say that he realized the national farm program hadn't pleased everybody—including him. If he was in the White House, he would do things different, at least in our county. He allowed that the \$61,000,000 spent by the Eisenhower administration for drought relief in Texas could have been doubled and still not made all the farmers happy and prosperous.

"But," said Old Man Jones, "I keep remembering that the main reason for our troubles, besides the drouth, is the fact that we are not at war. Now, if Adlai and Estes really want to jump on President Eisenhower, there is a real issue. They've sure got the goods on Ike in that respect. If he hadn't stopped that Korean War, farm prices would be higher, no doubt. I wonder why they never mention that."

Old Man Jones was kidding a little, of course, in his usual way, but I think he had something there. We have got to adjust to peace-time, which is taking awhile but, President Eisenhower is working at it. And meanwhile our boys aren't fighting and dying on foreign soil. It's worth thinking about.

Yours truly, Tex

(Pol. Adv. Paid for by Texas Democrats for Eisenhower, Weldon Hart, Director)

"Teamwork And Morale Paid Off Against McCamey," Says Turner

"Teamwork and morale paid off Friday night," Bronco Coach Joe Turner said Saturday morning when interviewed about the game with McCamey. "Our boys were smaller but were plenty scrappy in handling that McCamey line. They were out-weighted 16 pounds in the line."

Turner continued, "The relentless pace Sonora set in the first quarter set the pace for a fast game."

"As for our defensive players, it's hard to single out any one because so many of the younger linemen show definite improvement with each game. But Junior Castro, the 180 pound guard we brought up from the B team was a standout. This is Junior's first year of football of any sort."

"Primarily the B team is a school for training boys for varsity ball and it really paid off in this case."

"In the backfield Gildardo Favila played a creditable game and was almost loose for several touchdowns. His pass reception (two) was excellent and he has plenty of ability as a runner. Favila is the best all around wing back we've had since I've been here. He can run inside and outside and he's a good blocker and pass receiver. Favila was not in the game against Coahoma because of a head injury he received when blocking for that quick kick by Johnson, but he'll be back in for the Mason game."

"Big Bill Fish was able to don the pads and scrimmage for the first time against McCamey. He is showing vast improvement and will show even more now that he is able to take part in contact work."

"Eddie Sosa, a sophomore line-backer is improving with every game and is one of the mainstays in our defensive secondary."

"Wallace Anthony is doing a good job at center. Although he gave away 75 pounds to the man in front of him last week his snaps were always accurate."

"Luther Chalk, who played a great game at Wink, was out for this game but will be seeing service."

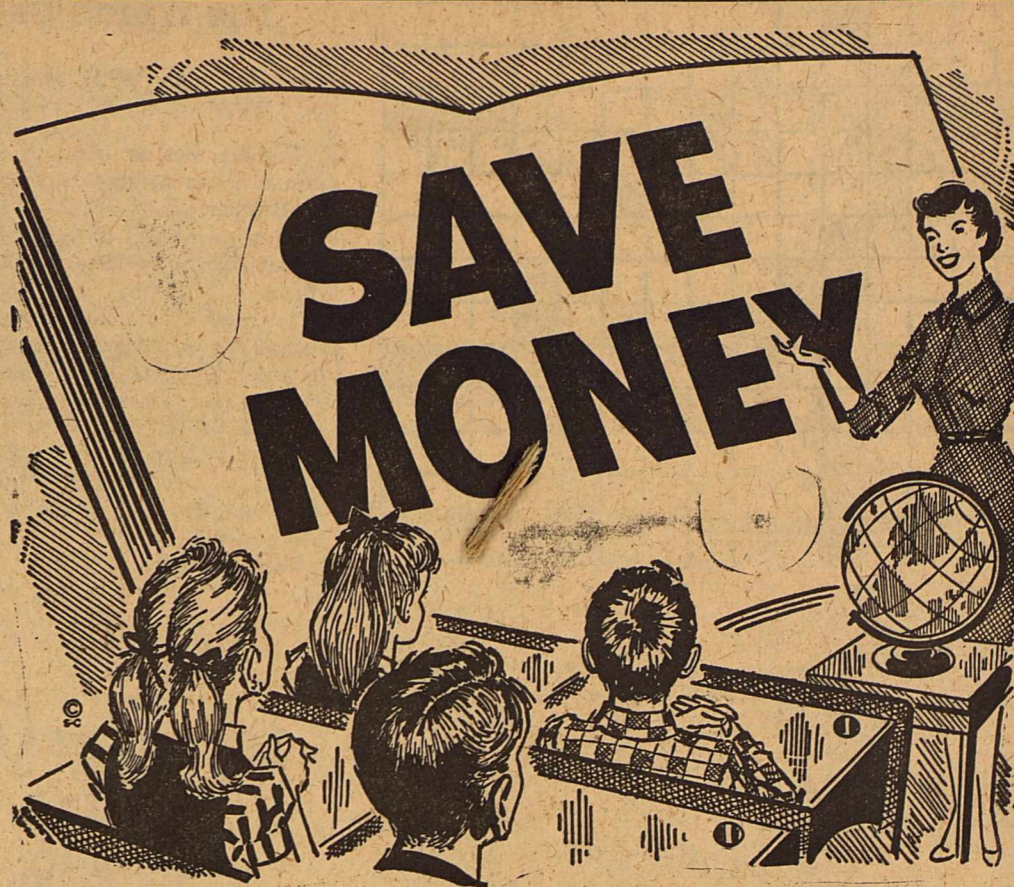

Giving credit where it's due we also had excellent scouting reports and the preparatory work done by Charles Lamb, Royce Franklin and Oliver Wuest."

San Antonio To Have Wool Show

The San Antonio Livestock Exposition and Rodeo, to be held in San Antonio February 8 thru 17, 1957, will include the first State Wide Wool and Mohair Show, according to Exposition officials.

W. L. Jones, Secretary-General Manager of the 8th Annual San Antonio show stated that the rules and regulation governing the Wool and Mohair Show will be included in the 1957 premium list, which is now available to all sheep and goat raisers. Classes will be provided for Purebred wool Fleeces of the following: Rambouillet, Delaine and Columbia, Range Fleeces for finewool and half blood. There will also be classes for the best group of five Fleeces from one breeder and the best County exhibit. Classes will also be provided for Purebred Mohair Fleeces of Angora Buck and Buck Kids. Range Fleeces for Mohair Range exhibits will be the same as for Purebreds. The Mohair division will also contain classes for the best group of five Fleeces from one breeder and the best County exhibit. In both the Wool and Mohair Show, each exhibitor will be limited to two entries in any single class, both of which may place. Livestock officials further announced that while each Fleece may be entered in only one class for single Fleeces, they may also be shown in the best group of five Fleeces from breeders and in County groups.

Total premium for this Wool and Mohair show will amount to approximately \$800.00 plus banner and ribbon awards. The San Antonio show has prepared specific housing facilities, including special lighting, exhibit platforms and tables where Fleeces will be shown and exhibited for the 10 day show.
