Grass Fires Take Big Toll On Sutton County Ranches

Local Flyers Lead The Fight But Had No Direct Radio

Odds And Ends

Our airport has been a great help, not only to business, but to many individuals. When Mr. Bill Miers suffered an accident recently a specialist was flown in to operate. We're glad the air field was available to be of help to one of our most distinguished senior citizens.

A customer in Jessie Barton's service station recently was one Al Smith, presently of Backus, Minnesota, but formerly of Sonora, Texas. Smith was football coach here in 1933-34 and trained such sterling athletes as Jesse Barton, George Ory, Ernest Smith, G. W. Archer, Herbert Fields, Wess Hill, and Harold Friess. If any of his former students of the grid would like to send him greetings, he can be reached by mail at Backus, Minnesota.

One of the most joyful tasks this journal of news is able to perform is to revive friendships that have been dormant for years. We received a letter this week from one who once lived here years ago and who now would like to hear from anyone who knows him. His name is Emmet E. Huffman, and in his letter he mentions the Rouch boys, Claud Keen, Murdock McDonald, and Ruby Davis as former acquaintances. His address is 714 North Elwood, Cleveland, Texas.

Seven Teachers Newly Hired Here

Seven teachers for Sonora were elected by the school board Tuesday.

Replacing Charles Lamb as basketball coach and science teacher will be Kenneth Cleveland, a native of Coleman and a graduate of the University of Texas. Cleveland is promising material for a basketball coach, having been All Southwest Conference Guard at the University.

Milby Sexton, Houston, will teach physical education, driver training, and history. A graduate of Sam Houston State College, Sexton is also a former athlete, having been on an all-conference football team.

Jessie Joe Jabour, another graduate of the University of Texas, will teach history, commercial work, and sponsor the high school paper.

W. L. Sewell, son of the owner of the Mexia daily newspaper, will teach mathematics. He is a graduate of Baylor University.

In the primary school Mrs. Kathleen Hollmer, who has taught in Colorado and El Paso, will teach the sixth grade.

Mrs. Libby Cleveland, wife of the new basketball coach, will be in charge of the third grade.

Mrs. James Wilson of Sonora will teach two classes in Spanish at the high school. She graduated with honors from the Univer-

LIONS ROAR

After a delicious fried chicken dinner served by the Parsonage Committee, Sonora Lions crossed their legs, lit cigars and listened to an interesting account given by Miss Jane Neill of her recent European Tour.

Miss Neill told of visiting several Western European countries. She dealt especially with her experiences at the worlds fair in Brussels and with being thrown out of a first class train compartment in Italy (she had a second class ticket).

Visitors were Mrs. G. H. Neill and her sister, Miss Bertha Harris of Cuero, Lion E. W. Brooks of Eldorado and Claude Erwin of Rocksprings.

After Miss Neill's talk Lion Prugel announced that the Sonora Lions had paid ten dollars to get themselves incorporated (the reason for this is not clear) and E. B. Keng gave a short rundown on the flood control situation and invited questions from interested Lions (there were none).

Then everybody went back to work.

Fred Montgomery Rites In Arizona

Fred Montgomery, 70, former resident of Sonora, died in a hospital in Springerville, Arizona, Sunday, August 3. Funeral services were held Wednesday in the Springerville First Baptist Church, where he had been a Deacon and superintendent of Sunday Schools. Burial was in the Springerville Cemetery.

He is survived by his wife, who is a sister of Mrs. J. P. Smith. Mr. and Mrs. Smith attended the services.

BRONCO MEETING

A meeting of all prospective Broncos and their parents will be held Sunday, August 24, at 1:30 in the high school to discuss insurance arrangements. Boys who have not previously taken part in high school athletics must have their birth certificates. At least one parent or guardian of each boy must attend. All boys must have physicals.

NOTICE—Marching Band Rehearsal will begin Monday, August 18 at 8:00 o'clock in the Band Hall.

Fires have destroyed an estimated four sections of pasture in Sutton County since last Friday. The worst of the blazes was reported about 5:00 p.m. Tuesday on the Gordon Stewart Ranch south-east of town. It burned well into the night, taking over two sections of pasture, observers estimate. It spread to the Vander Stucken, Morrison and Hull, and Bill Wade ranches before it was brought under control about 9:00 p.m.

Some members of the Sonora Fire Department were in Mason at the firemen's convention when the fire broke out but the fire equipment was rushed to the scene of the fire, and dozens of ranchers and other volunteer fire-fighters responded to succeeding calls until there were dozens of

fire-fighters and sprayers available from all over the county. **Better Communication Needed**

Strategy in fighting the fire was directed by Gay Copeland and R. M. McCarver from the air. But a complicated process of communication with the fire-fighters hindered the fighting. Copeland pointed out that an air-to-ground radio system is needed.

"Local ranchers will have to chip-in, in order to pay the cost for the system", Copeland said. "It could easily pay for itself in a few years through saving range land".

Leo Merrill of the Sonora Experiment Station estimates that the loss from the burning of one section of pasture would amount to \$1,000.00 in the short run, and

if weather conditions brought on erosion "the sky would be the limit in cost to the ranchman", he said.

Wallace Ranch Burns

Another serious fire took an estimated section and a half of pasture on the Gene Wallace ranch last Friday afternoon.

About four hours were required to get the fire under control.

This fire too became so serious that more help was sent for and ranchmen responded generously as usual.

Rain Thursday afternoon was the best fire fighter and fire preventer of all. But it did not come until the Tuesday's blaze in the area of the Vander Stucken ranch area reached such serious proportions that the fire department was called again for help.

RODNEY DAVIS AT A. & M. ADJUNCT

Attending the Texas A. & M. Adjunct at Junction this term is Rodney Davis, son of Mr. and Mrs. Tom Davis.

Approximately 235 boys who plan to enter A. & M. College this fall have taken advantage of the summer educational program designed to bridge the gap between high school and college life. It includes special courses as well as a program of athletics and recreation.

A. A. BLAKEWAY SUCCEEDS ARCHER IN PATROL POST

Albert R. Blakeway recently replaced G. W. Archer as Senior Inspector of the U. S. Border Patrol in this area.

Blakeway comes here from Eagle Pass and has also lived in San Angelo.

His wife and daughter will join him here soon.

WALLACE ANTHONY ACCIDENTALLY SHOT

Wallace Anthony, 17, son of Mr. and Mrs. W. C. Anthony, was wounded in the leg Monday night when a .22 Caliber hand-gun was accidentally discharged. Anthony was hunting rabbits with

Hamilton, Smith In Runoff August 23

In the state Democratic primary runoff election August 23, Sutton County voters will vote in only one contest, the runoff between Robert W. Hamilton, Midland County, and J. Edwin Smith, Harris County, for Associate Justice of Supreme Court, Place No. 1.

Hamilton, a former resident of Sonora and former coach of Bronco All-Stars, led in election returns in the county as well as the state in the first primary of July 26. Smith came in second and Wilmer B. Hunt, Harris County, was eliminated. Hamilton was not able to obtain the necessary majority to win without a runoff.

Voting is expected to be light in the state, and a small but organized group of voters could swing the election toward either Candidate.

Jon Barton Dungan and Joe Luttrell when the accident occurred. The wounded youth was taken to Hudspeth Memorial Hospital, but it was not necessary to remove a bullet because it passed completely through his lower leg without hitting bone.

Airport Activities Create Need For New Funds

"Increased Sutton County Airport activities, including the Sonora stop of the All-Texas Air Tour, October 6, and the official opening of the airport, October 12, make the need for new funds for the airport more obvious," says Vestel Askew, chairman of the local airport committee.

The airport committee met this week at the Gay Copeland residence with members of the Lions Club to discuss airport finances and plans for coming events.

Purchasing of land, grading, paving, lighting, fencing and construction of present facilities have been secured through financing by the Sutton County Commissioners Court, the City of Sonora, and a limited number of individuals and business firms.

"We are grateful and pleased

that present facilities have been made possible without bond issues or further taxation," Askew continued. "But because our city and county are not now able to provide additional funds it is hoped local individuals and business firms will contribute to a fund-raising drive to be initiated in the next two weeks to further develop the field".

Funds secured in the forthcoming drive will be used chiefly to alleviate some drainage problems, increase plane parking facilities, and perhaps to provide additional lounge or office space.

Askew also gave thanks to the city and county commissions and to the following individuals and businesses for the help they have already given:

Dan J. Harrison, First National

Bank, Sonora Wool and Mohair Co., Fred T. Earwood, Elliott Motor Co., Joseph's Store, Greenhill Service Station, Devil's River News, George Brockman, Bill Fields, Stockmen's Feed Co., Joe M. Teachers-Budget Approved By Sonora School Board

The Sonora school board met in Superintendent E. A. Brodhead's office Tuesday and approved an operating budget of \$284,525, several thousand dollars less than last year's budget. The budget is designed to provide education for 849 students.

73 cents from each tax dollar, or \$206,380, will be paid in salaries for teachers, janitors, bus drivers, and clerks. Another 12 cents on each dollar will be spent on debt service (bonds and interest). The other 15 cents will go for supplies, utilities, transportation, and several other costs.

age, is \$338.72. This is only \$93 per day and \$28 per hour. "That's less than a baby sitter gets," remarks Brodhead.

The revenue from the state that is based on attendance is 92 cents per pupil per day. In other words, everytime your child is absent for a day the school loses 92 cents.

But if your child's absence causes total attendance to fall so that it is in a lower bracket, the cost could jump from 92 cents to as much as \$4,000.

THE SOURCES

But where does this money come from?

State and local sources will share the burden for providing estimated receipts of \$284,712, local sources providing 52% and the state 48%.

Revenue from local sources is estimated at \$147,400. The biggest bite locally will be the maintenance tax, \$111,250. Other local funds will come from debt service tax, kindergarten tuition, county funds available (\$1,162), and other minor sources.

The state is to provide \$136,150.

PERTINANT FIGURES

Brodhead also supplied some interesting facts "to start you thinking."

The total cost of operation per day amounts to a sizable \$1,625.86. \$242.27 of tax payers' money is consumed every hour.

The yearly cost of educating each student, according to aver-

Registration For New Students Monday

Registration for students who have moved into the community during the summer months will be held on Monday and Tuesday, August 25 and 26, between 9:00 a.m. and 12:00 a.m. This registration will be held only for those students who will be in the first through seventh grades and who will attend Central Elementary School. Students who were registered for the first grade last spring need not re-register. In other words, the school is attempting to secure the names of all students who will attend the Central Elementary School the coming school year who were not enrolled when school closed last May. This is highly important in stabilizing grade sections, and the school is asking all its par-

Sonorans Work In Junction 4-H Camp

Junction, August 11 — The fourth annual Range Camp for outstanding 4-H and FFA boys of Texas opened this morning at the A. & M. Adjunct near here. The camp is sponsored by the Texas Section of the American Society of Range Management.

The boys were selected on the basis of outstanding 4-H and FFA work and interest in or projects with range management. Among them is Freddy Fields, son of Mr. and Mrs. Bill Fields, Sonora, who is being sponsored by the Edwards Plateau Soil Conservation District.

The week's camp is designed to give outstanding range and ranch boys an opportunity for additional training in range management, leadership and recreation.

Among the instructors at the range camp and on the field trip will be E. B. Keng and local people from the Sonora Experiment Station including Leo Merrill, Dr. C. V. Livingston, and F. R. Campbell.

Rev. Alanson Brown of St. John's Episcopal Church is also an instructor as well as a director of the camp.

rons to ask anyone they know who may not see this announcement and who is new in the community to come by and register at the Central Elementary School

on the above dates.

Pre-registration will not be held for kindergarten students; they will register September 2, the first day of school.

Rex Ann Baker Bride Of Turney Friess In Candlelight Ceremony August 9

Miss Rex Ann Baker, daughter of Mrs. Dorothy Baker, became the bride of Harold Turney Friess, son of Mr. and Mrs. Harold Friess, in a double ring ceremony performed by Mr. E. T. McKelvain, minister of the Church of Christ, and the Rev. Doyle W. Morton, pastor of the Methodist Church, Saturday night, August 9.

The marriage vows were exchanged in the Methodist Church before an arch entwined with emerald and flanked by two pairs of seven branch candelabra and large baskets of white asters and white gladioli.

Given in marriage by her uncle Jack L. Jarvis of Del Rio, the bride wore a dress of white embroidered silk organdy with long

sleeves and a wide square neckline. The empire effect was created with satin bands extending into a back bow and streamers. Miniature silk buttons fastened the back and long tapered sleeves. The full skirt was intermission length in front with a chapel length train.

Her elbow-length illusion veil was attached to a small Chantilly lace coronet. She carried a crescent bouquet of feathered carnations and stephanotis centered with a white orchid corsage.

Miss Alice Lee Daughtrey was maid of honor and bridesmaids were Miss Edwina Hawkins and Miss Aline Schwiening. Martha Ross Jarvis of Del Rio, cousin of the bride, was junior bridesmaid. The maid of honor carried a white colonial bouquet of carnations, net, loops of satin tubing and streamers. The bridesmaids carried colonial bouquets of pink and white carnations, loops of white satin tubing, pink net and white satin streamers. The Junior bridesmaid carried a small colonial bouquet identical to those of the bridesmaids. Holly Jarvis of Junction, cousin of the bride, was flower girl, and Ronny Jones was ringbearer.

Bridesmaids and flower girls wore dresses of pale pink silk organdy with short sleeves, round necklines and full skirts. They were belted with wide taffeta cummerbunds, in two shades of pink ending in a bow in the back.

Joe Thomas Friess served as his brother's best man and groomsmen were Tracy Crites and Albert Ward, Carlos Loefler, Reed Jennings, George Wright were ushers as well as Rob Roy Spiller of Junction and Charles Kothman of Menard.

Mrs. Friess, a 1958 graduate of Sonora High School, was a member of the student council, Future Homemakers of America, Girl Athletic Association and editor of the Sonora Bronco. Her husband, also a graduate of Sonora High School is attending Texas Technological College in Lubbock.

At the reception, held in the church dining room, Mrs. Baker, mother of the bride, Mr. and Mrs. Harold Friess, parents of the groom, Jack Jarvis, the bride and groom, and the bridesmaids received guests. Miss Jan Keng presided at the register and Mrs. Jack Jarvis and Mrs. Mlarence Grobe served.

Mrs. Baker wore a pink lace

dress, pink veil headdress, pink shoes and gloves. Her corsage was of vanda orchids. Mrs. Friess, mother of the groom, was attired in a mauve dress of lace and chiffon. Her hat, of satin and pearls, shoes and gloves were also mauve, and her corsage was vanda orchids.

The table was covered with a white net cloth and centered with five-branch, silver candelabra garlanded with smilax and white asters.

When the couple left on their wedding trip to New Mexico and Colorado the bride wore a raspberry-red faille suit and black accessories. Her corsage was a white orchid. Following the trip they will live in Lubbock where they will be students at Texas Tech.

Mr. and Mrs. Rip Ward were hosts at a rehearsal dinner at their ranch home Friday night.

Co-hosts included Mrs. J. A. Cauthorn, Mrs. C. T. Jones, Jr., Mr. and Mrs. E. B. Keng, Miss Jan Keng and G. H. Hall.

Mrs. Baker, mother of the bride, and Mrs. Autrey Bridges entertained with a Bridesmaids' dinner Wednesday night in the Baker home.

Darcy Carroll was host at the bachelors' dinner in the Arthur Carroll home Thursday evening.

Out-of-town relatives who attended the wedding and reception included Mr. and Mrs. C. P. Friess, Rochelle, Miss Janis Parker, Lamesa, Mr. and Mrs. Alfred Moellering, Fredericksburg, Mr. and Mrs. Steve Brown and Horace Brown, Rocksprings, Mr. and Mrs. C. F. Motion

A Community Economy is not a perpetual motion machine which, once started, goes on forever without any further care or feeding.

Like other American communities, this one of ours was built by people with faith in themselves and in their neighbors . . . people who used their money over and over again to create the trade volume it took to establish the homes and businesses, schools and churches, and other civic facilities . . . which make this the pleasant place that it is to live, and to bring up our children.

Obviously the degree of growth and prosperity which any community area can reach and main-

tain . . . its attainable and continuing social and economic momentum . . . is determined almost wholly by the volume of trade that it earns . . . and gets.

No community has ever been built . . . none can be kept functioning at a satisfactory economic level . . . by confirmed out-of-town shoppers, mail-order fans, and peddler-pushovers.

1,000 License Applications Returned Each Week Because Information Not Sufficient For Identification

The Texas Department of Public Safety reported today that it is returning applications and fees for renewal of Texas Driver Licenses at the rate of one-thousand per week because of information insufficient to identify the applicant.

The wholesale return of DL applications is brought on by the omission of a number of factors that must be included for the proper identification of the person desiring to renew his driver license. The department reported that it must have the full name of the individual, the person's birth date and current address. The number of the old license is a quick means of identification.

Most of the information needed is already included on the renewal notice that is sent by the department to the motorist prior to the expiration of his license. A space is provided for that license owner to change his address.

H. C. Smith, manager of the DPS License Issuance and Driver Record section reports that most of the difficulty comes when a person applies for renewal without returning a renewal notice. In this type of renewal application the individual simply writes a letter and includes the fee.

Insufficient information in renewal applications received by the DPS sets up a chain reaction of processes for identification of the individual asking for a new license. But in many instances the search is hopeless.

When a man gives the name of A. B. Smith in his renewal application, file clerks of the Driver License service of the state police organization set to work in an attempt to identify the individual by birth date, address, or other information contained in his permanent file. However, if all identifying information does not correspond, the application must be returned to the individual.

You can imagine the task that awaits a DL clerk who must search through a file that contains more than five-million individual records, and more specifically, to look for the name of A. B. Smith in 35 trays with each containing 700 personal record files. There are 36,400 files in the department's massive record

REFRIGERATOR-FREEZER that needs NO DEFROSTING

MADE BY FRIGIDAIRE

FROST-PROOF FOOD KEEPING — WHERE YOU NEVER DEFROST AGAIN

In the Flowing - Cold Refrigerator...

Flowing Cold means super-fast, more uniform chilling for all your fresh foods no matter where you store them—in the refrigerator section or on the door—regardless of outside temperatures.

And Flowing Cold means no more frost! Here's how it works:
Fresh warm air enters the refrigerator section every time you open the door—and is drawn by a fan up and over the hidden Refrig-o-Plate that cools it and removes the excess moisture after which it comes back in at the top as Flowing Cold.

Best of all, the moisture removed is evaporated automatically—there's nothing you have to do!

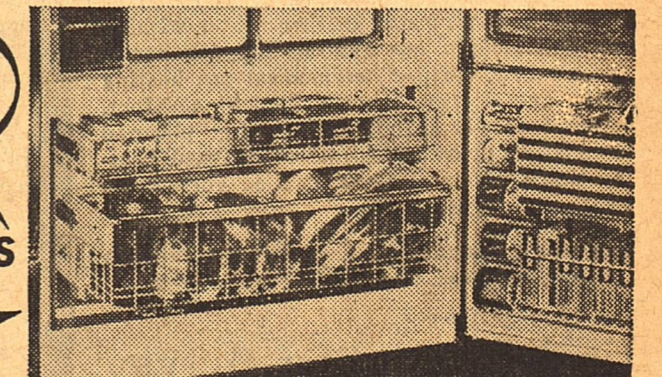

FROSTED-UP! Ordinary freezer chest after 30 days. Everything has liberal coating of frost! Some types demand do-it-yourself defrosting. Others apply electric heat to freezer to melt frost. Sometimes frost water drips down on food—refreezes on packages. Foods may thaw, then refreeze—lose flavor and vitamins!

In the Frost-Proof Freezer...

Completely new and revolutionary—completely different from so-called "automatic" defrosting systems. Frigidaire patented Frost-Proof Freezing actually whisks away heat and moisture before frost can form!

Frost-Proof Cold enters at the top, rear, cooling and removing moisture from the entire freezer. Then this warmer, moist air is drawn out of the freezer across sub-zero freezing plate underneath and completely separate from the freezer, where the air is re-chilled, changing warm air into dry, sub-zero Frost-Proof Cold!

And the moisture, of course, evaporates automatically. Frost never accumulates on freezer walls or on food. No more chipping, scraping at a stubborn ice crust. No more melting frost, no more pans to spill!

FROST-PROOF! Frigidaire Frost-Proof Freezer after months or even years! Not a whisker of frost in sight! The secret is a new kind of circulating cold—dry, sub-zero cold—that's hungry for heat and thirsty for moisture. Carries away warm air and moisture before frost can form! Freezes foods faster—keeps them frozen.

CARD OF THANKS
We are very grateful to you, our friends, for your many acts of kindness and your thoughtfulness during our illnesses. We couldn't begin to list all the things you have done for us, but to each of you we feel humble and thankful to have such wonderful friends. May God's richest blessings be with you.
Bob and John Ed Neville.
Donnie Letsinger.

CARD OF THANKS
I wish to express my appreciation to the people of Sonora who have been so good to us during my husband's illness.

I am especially grateful to Dr. Browne and the hospital staff, Judge George Wynn, Web Elliott, Carl Harris and the county commissioners.

Dollie Glascock and family.

CARD OF THANKS
I want to extend my sincerest thanks for the kindnesses and concern show my son, Donnie, during the time of his accident and stay in the hospital.
Mrs. Melba Letsinger.
