FORTY-FIRST WEEK

Explorers Leave Sunday For Yellowstone Trip

Seven Explorer Scouts from Sonora's Post 19, two adult leaders mory. Each boy paid a nomial and two "stowaways" posed obligingly just before leaving Sunday travel expenses, with the Post morning for Yellowstone Park. Left to right are Post Advisor supplying the rest of the cost. Weldon Nusbaum, Dick Karnes, Paul Lippman, Adrian McCoy, a Park Ranger in Yellowstone Hank Hull, Mike Evans, Bill McClelland, and Assistant Advisor Leonard J. Wall. The "stowaways" visible inside the bus are the experience in camping and travel-Advisors' young sons, Jimmy Wall and Steven Nusbaum, who were lucky enough to be taken along.

By Rev. Allan Guthrie

Seven Exploror Scouts of Post 19 sponsored by The Church of the Good Shepherd left Sunday for a three week trip to Yellowstone National Park.

Boys making the trip were Mike Evans, Paul Lippman, Bill McClelland, Adrian McCov, Philip Chalk, Bill Karnes and Hank Hull. They were accompanied by the Explorer Advisor, Weldon Nusbaum, and Assistant Advisor, Leonard J. Wall. Also making the trip were the young sons of the adult leaders, Steven Nusbaum and Jimmy Wall.

The Explorers are traveling by a bus generously furnished by Cahill. The first night was to be spent in Palo Duro Canyon, the at Moran, Wyoming. Plans are to tains and Yellowstone Park. nelio Hernandez. While there the boys will see all the sights and take several pack trips into little seen parts of the Park. The pack trips will take several days at a time. The Ex- For Asa G. Farmer Park. The pack trips will take plorers plan to spend much time in trout fishing. Each night will entire trip. On the return trip Farmer in Junction Saturday.

The Explorers earned money to Junction Cemetery. buy equipment for this trip, Survivors include a son, Norwhich has been in the planning man Farmer; two brothers, J. Dr. Young was one of the range enthusiasts instrumental in establishing the American Society of partment of Range and Fores- Range Management, of which the

A special dinner and recognition ceremony is scheduled in honor of Dr. Young the night of July 25 at the college.

No official announcement has been made as to the successor for Dr. Young. Leo B. Merrill, Range Specialist with the Texas A. & M. College System, who has been at the Sonora Experiment Station since 1945, has been mentioned frequently as a likely successor and will qualified for the position. Merrill, a native of Arizona, attended Stafford Junior College in Arizona, received his Bachelor of Science Degree at Utah Agricultural College and his Master of Science Degree from Texas A. & M. He served in the Naval Air

Corps from 1942 to 1954. Merrill's work the last 14 years in range research, especially on stocking rates and grass conservation, has been rather spectacular. His influence along this line has been widely recognized and his judgement based upon field experience and results gained by actual application of this experience has made him accepted authority on the needs of Texas range land agriculture.

Many ranchmen point to Leo Merrill as a man who changed their way of ranching. In addition to his ability to work hand in hand with range people, Merrill has been able to achieve high esteem from technicians, and varialysis of the effect of wildlife late Sam Hull. on the rates of stocking the Bill's father, who was county like a father to me," Drennan Angelo by Model T truck. Since a new law \$1,508 to \$1,68 a gallon, wine up moves primaries up by two 20 per cent, for \$6,000,000. months, campaigning will begin long before the dogwood is outmaybe while the Christmas lights are up.

Many candidates may be wary of lighting into an issue on which it's almost impossible to take an all-round popular stand. But who ever gets elected and comes to Austin in 1961 will find the old tax monster waiting, bigger and tax collecting would bring an esfiercer than ever.

This Legislature will likely enact just barely enough new taxes, mostly on "old favorite" sources, to cover the budget. But the 1961 budget will have to be bigger. For some time population growth and other factors have kept budgets going up by about 10 per cent every two years.

Additionally, there will be, as always, demand for new programs, new buildings, new spending. Hale-Aikin school improvement program along would call for at least a \$100,000,000 tax

Only hope for avoiding an even hotter tax battle in '61 is for 1960 voters to give their elected officials clear instructions on what they want an how they're willing to pay for it.

BATTLE LINES-Show-down fight of the second called session came on a \$90,000,000-a-year tax bill based on about three-fourths selective sales taxes, one-fourth business taxes.

It was in line with expressed sentiments of the Senate, but many House members regarded it as "another insult". All the five Senators and five House members on the conference committee that worked out the bill signed the report and recommended adoption.

It was designed to get revenue from these sources over a 2-year

Governor Daniel pointed out hat the poll is still open. "These opinions from the grass roots level will serve as a guide for the Committee members when they attend the White House Conference next March," the Governor stated.

Wise Parents Are Preparing Now For Opening Of School

"School days, school days. Good ol' golden rule days!"

Here they come again, and if your're a wise parent you'll get ready ahead of time.

There is lots to do-buy clothes, fit shoes-and if your child is entering the first grade, chances are you need a birth certificate

School districts in Texas require that entering students be six years old before September 1. Otherwise they must wait

until the following year. The best means of proving your child's age and birth date is to

have a certified copy of his birth certificates. In many areas of Texas, copies are available from local registrars of vital statistics in health

departments or county court

houses. You may also obtain a birtl certificate copy from the Division of vital Statisitics of the Texas State Department of Health

To do so, you must send one dollars requesting a copy. Be sure to include the child's name, date and place of birth and the parent's name.

It is important that parents take care of this chore as early as possible.

During August and September the Division of Vital Statistics is swamped with literally thousands of requests each week for birth certificate copies.

If you want to be sure your child has his birth certificate when school starts, request it

Rough estimates place the number of upcoming first graders at about 250,000. That makes for a lot of birth certificate copies.

In addition to birth certificates, it would be wise to check with your school district regarding any vaccinations that may be required.

It would be a good idea-if you have not already done soto get your child started on his series of three Salk polio shots before school starts.

Also, a fourth shot or "booster" is generally recommended for added protection, a minimum of one year after the initial series.

Another smart idea that will pay off, is adjusting your child's schedule to approximate that of school time including bedtime, meals and especially waking time. (This is a weekly feature of the Division of Public Health Education, Texas State Depart ment of Health.)

Mrs. Jack Fletcher and sons, Jody, Jon, Jeff and Jim, of San Antonio spent last week in Sono a the guests of Mr. and Mrs G. T. Rode.

NO MOUNTAIN CAT, MISTER ...

That's a Chevy with Positraction!

That 3134 Fleetside has the sure-footed ways of a big western bobcat. Roams through high brush country that would buck the life out of most trucks. Crosses streams without benefit of a bridge. Climbs talus grades where piñon won't even grow. But that's all routine for this Chevy, equipped with Positraction* rear axle. It's hard at it every day for the Utah Fish and Game commission. Figure about 60,000 miles of mountaineering before this Chevy is traded. And yet the district officer who drives it would bet his badge the tie rods

won't even need replacing!
Out in that wild, climbing Utah
country, Chevy's suspension and
frame and brakes, its Positraction rear axle and Thriftmaster 6 power are proving themselves under rougher conditions than most test engineers could dream up. They're proving that Chevrolet's advanced engineering and design ideas pay off-in spadeswhen the going gets especially mean and dirty.

Positraction, of course, is a big plus on this job, providing the sure grip needed to dig through mud, snow, loose sand, whatever comes along. Could be that a Positraction-equipped ½-ton pickup is the answer for your area of operation. Or maybe a 4-wheel drive Chevy. We've got trucks that specialize in and out of any kind of county. in and out of any kind of country. Talk to your dealer about your needs. He'll show you what tough trucks are made of.

No job's too tough for a Chevrolet truck! CHEVROLET
