SEVENTEENTH WEEK

## Leave Your Porch Light On Mothers March On Polio Tonight From 7 To 10 P.M.

One of the biggest crowds in the history of the annual 4-H Club show and sale was on hand Saturday in spite of the cold, damp weather. The accompanying picture shows a portion of the lines at the free barbecue which was served at noon by the 4-H parents. It was estimated that over 300 persons were on hand for the barbecue.

### Final Rites For Mrs. Joe Lancaster Set For Friday

Funeral services for Mrs. Joe Lancaster, 70, will be held at ten o'clock Friday morning, January 29, at the First Baptist Church here with the Rev. Alvin Loiry, minister, officiating. Ratliff-Kerbow Funeral Home will be in charge of arrangements.

Mrs. Lancaster died suddenly at her home here Wednesday afternoon, January 27. Survivors include her husband; one daughter, Mrs. R. L. Munson of Midland; a brother, R. E. Risinger of Corona, New Mexico; two sisters, Mrs. O. B. Featherston of Novice, Texas and Mrs. B. B. Harrel of Roswell, New Mexico; and five grandchildren. Names of pallbearers were not available at press time. A more complete obituary will appear next week.

### Odds And Ends

This week's column had been planned very carefully ever since we had heard about Rex Merriman's six-pound bass caught on a fishing outing with Louis Davis and J. W. Neville. We were going to ask Rex to give us his account of "how it happened". This we anticipated would be a fishing tale to rival the battle with the great white whale as it is told in "Moby Dick". It would also, naturally, involve a glowing account of the proper methods of using the proper equipment. Then we would interview Louis on the episode. This, we knew, would bring on diatribes, insults and breast-beating to the effect that "blind luck and rank amateurs, and so forth". Davis could tell us how gross misuse of the rod and reel always works for Merriman. J. W. Neville, we hoped, could give us the straight story, in-

### HOWELL NEW MANAGER OF LUCKY DOLLAR STORE

New manager of the Lucky Dollar store here is Calvin Howell. Howell comes here from Ballinger and has had years of experience in the grocery business including five years with Safeway.

Mrs. Howell and their three children, 12-year-old son, a 10-year-old daughter and a new baby, expect to join him here shortly.

### JO BESS VANDERSTUCKEN TO STATE BAND CONTEST

Jo Bess VanderStucken, a junior student at Sonora High School, will compete in the state band contest to be held in Austin. Jo Bess won first chair clarinet honors in state competition last year. She studied music last summer at Interlochen, Michigan. She is the daughter of Mr. and Mrs. J. M. VanderStucken.

including, we expected, several un-

the landing of the monster.

That, as we said, is the way we had it planned. What actually happened was this-Wednesday afternoon we began to try to contact our sources and found J. W. out of town. The other two were also out of pocket-gone fishing.

Devil's River, and work will be started on two additional structures very soon. The remaining two structures are expected to be started about mid year.

Sonora mothers will join mothers all over the United States from 7:00 to 10:00 Thursday night, January 28, when they make the annual Mothers' March on Polio. All residents are requested to leave their porch lights burning so that mothers may stop and pick up contributions to the annual fund raising campaign of the National Foundation for Infantile Paralysis.

Chairman for this year's march is Mrs. A. E. Lowe. Working with her will be Mrs. W. B. McMillan, Mrs. Bill Fields, Mrs. D. C. Langford, Mrs. Louis Wardlaw, Mrs. Marion Elliott, Mrs. Leroy Whitworth and Mrs. T. K. Nevill.

Since the discovery of the Salk vaccine has led to comparative prevention of paralytic polio, funds raised for the National Foundation are being diverted to greater use. Included in the Foundation's program now are therapeutic treatment of polio victims and research and treatment of arthritis and birth defects.

The Foundation recently has announced a multimillion dollar scholarship program designed to assist students of medicine, nursing, physical therapy, occupational therapy and medical social work. The program is designed to encourage a younger age group to select a career in one of the professions at a time when they are looking to their future. Twenty such scholarships will be awarded this year in Texas, four in each of the above health professions.

Leave your porchlight burning and give generously to the mother who calls.

### Poll Tax Sales Reach 840 As Deadline Nears

With the deadline for paying poll taxes only three days away a total of 840 poll taxes had been sold at the office of the Tax Assessor-Collector on Wednesday of this week. The number of eligible voters in the county is estimated at something in excess of 1,000.

The Tax-Assessor's office will remain open all day Saturday and Sunday, January 30 and 31 so that all eligible persons may purchase poll taxes and pay county and school taxes before the deadline is reached.

### NOTICE

The city office will remain open all day Saturday, January 30, for the purpose of receiving last minute payments of taxes.

### STUDENTS WIN AT ODESSA SPEECH MEET

Four Sonora High School students and their teacher, Miss Joyce Boedeker, attended a speech meet in Odessa Friday and Saturday, January 22 and 23. Students making the trip were Betty Ann Patrick, Gene McCarver, Carol McGregor and Sarah Lu Hardy.

Betty Ann and Gene were in finals of competition and Gene won second place in poetry reading.

## Lowrey Draw Dam Sites 9 And 10 Officially Accepted By County

Flood prevention structures at Sites 9 and 10, Lowrey Draw, were checked out completed, and were accepted by Sutton County this week. Four of the five structures being built on Lowrey Draw are now completed.

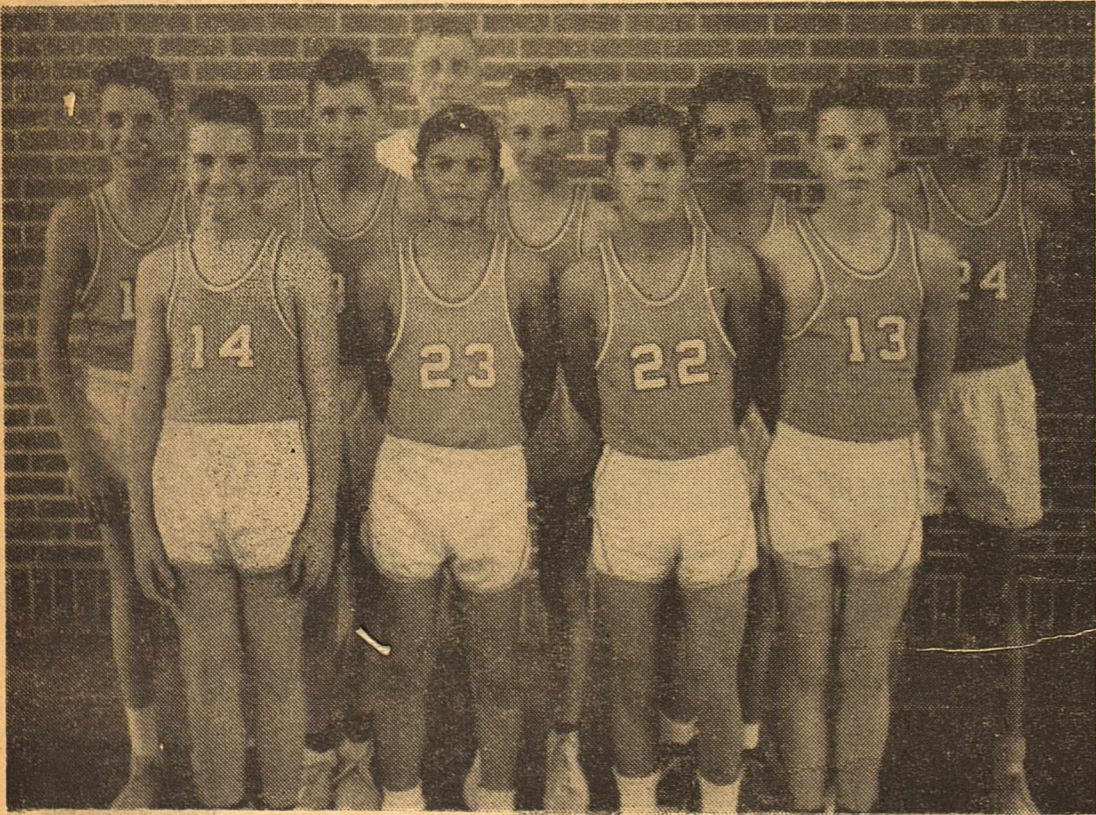

Site 9 on the James and Nancy Hunt ranch will impound 637

acre feet of floodwater at emergency spillway level. Site 10 on Mrs. Ada Wynn's ranch will impound 2,125 acre feet of flood water. Both structures were built by Cage Brothers, with R. L. McQuatters as construction superintendent.

Cage Bros. and McQuatters are also building the dam at Site 11

on the W. A. Miers ranch. This is a large structure which will impound 5,189 acre feet of floodwater. Good progress is being made on this structure, and with good weather the dam should reach an effective stage before the expected flood season in May. Construction work is in progress on four structures on Dry

## Junior High Tournament Opens Today With 11 Cage Teams Participating

Eighth grade members of the Junior High School basketball team will be seeing plenty of action this weekend as they host ten guest teams from this area. Pictured here are, back row, left to right: Gil Trainer, Johnny Merck, Larry Bob Moore, Joe Favila, and Robert Bermea. Front row, Dick McMillan, Tino Noriega, Ruben Castillo and Jack David Wardlaw. Coach Oliver West is at the rear.

The third annual Sonora Junior High School basketball tournament will get underway at 3:30 Thursday afternoon, January 28, with Junction and Ozona scheduled in the opening game of the 16-game tourney in which 11

noon with Lee vs. Mason. Iraan High, defending champion, will meet Big Lake at 4:45 and Eldorado will take on Menard at 6:45, and host Sonora meets Christoval at eight o'clock Thursday night. The first round of play concludes at 2:30 Friday after-

draw a bye in the first round.

The second round will begin at 3:45 Friday and other games are scheduled for five o'clock and 6:15 in the tournament. At eight o'clock a conference game between the Sonora varsity and Big Lake varsity.

Tourney play will resume Saturday at nine o'clock to be followed by other games at 10:15, one o'clock, 2:15 and 3:30. Consolation finals are slated for seven o'clock Saturday night with the championship to take place at 8:15.

### Final Rites For H. L. Taylor, 61, Held Monday

Funeral services for Henry L. Taylor, long-time resident of Sonora, were held Monday afternoon, January 25, at the First Methodist Church here with the Rev. Alvin Loiry, pastor of the First Baptist Church, officiating. The Rev. Doyle W. Morton, Methodist pastor, and the Rev. Dan Sebesta, pastor of the First Presbyterian Church of Eldorado, assisted.

Taylor died at his home here Sunday, January 24, after an extended illness.

Born in Teague, Texas September 10, 1898, Taylor came to Sonora in 1924. He was maintenance engineer for the State Highway Department here for 24 years prior to his illness. He was a member of the Baptist Church and held a life membership in the Masonic Lodge.

Survivors include his wife, the former Dorothy Smith of Sonora; two daughters, Mrs. Bill

Whitehead of Sonora and Mrs. Sam E. Jones, Jr., of Eldorado; one brother, Horace Taylor of Mexia; one sister, Mrs. Wylie Akins of Chicago, Illinois; and four grandchildren.

Pallbearers, all nephews, were: Homer Akins of Fort Worth, Arthur Smith of Mertzon, Odus Matlock of Brownwood, and Charles Howard, James D. Trainer and Eddie F. Smith, all of Sonora.

Burial was in Sonora cemetery under the direction of Ratliff-Kerbow Funeral Home.

For a long time Rex Merriman has been telling people in Sonora (those who would listen) about his prowess as a fisherman. This past week he and his fishing friends Louis Davis and J. W. Neville went down to the upper lake and Rex caught a good one—a six pound bass. He said he was afraid it was so big that the picture wouldn't fit on one page of the paper. It didn't! The other portion will be found elsewhere in this week's issue.

### Hospital License Law In Effect As Of January 1

The year 1960 sees the beginning of a new law established to add still another safeguard to the health of Texans.

The law, Senate Bill 121, enacted during the regular ses-

sion of the 56th Legislature, became effective August 1, 1959, but was implemented January 1, 1960. It is called the Texas Hospital Licensing Law.

Basically it provides for licensing of all hospitals in Texas, including general and pediatric hospitals. Excluded are state and federal hospitals.

The program is self-financing from fees received for registration. A minimum fee of \$25 and a maximum of \$300 is charged per year, based on a standard

fee of one dollar per year per bed.

A nine-member advisory council is now in the process of making recommendations for minimum standards which are then to be reviewed by the State Board of Health for approval. The rules and regulations must also be approved by the Attorney General as to their legality and then filed with the Secretary of State.

The advisory council is composed of three hospital administrators, three physicians and three members representing the general public.

Royce L. Ashcraft, an experienced hospital administrator formerly of Wichita Falls, has been appointed as director of the State Health Department's newly established Division of Hospital Licensure.

The division will be directly responsible under the law for surveying, registering, and licensing of hospitals. Temporary licenses are being issued pending final approval of rules and regulations.

### MINISTER SAYS

By Rev. William T. Mitschke  
"BE YE ALSO READY" Matt. 24:44. "Are you ready?" This question is asked many times every day. We get ready to go to church, to work, to school. We get ready to eat, play, to study, and many other things. Now Jesus asks us, "ARE YOU READY?"

Ready. Ready for what? Ready to stand before God in the final judgment, ready to enter with Jesus into the Father's house of many mansions, ready to go to heaven.

Many people who think it perfectly natural to get ready to do things of lesser importance never think of getting ready for the most important things in the world, such as dying, appearing before God in the final judgment, entering eternal life.

Therefore Jesus admonishes us: "BE YE ALSO READY." We are wise if we listen and get ready for these most important events.

Jesus has also given us directions how we might get ready. He uses the picture of the faithful servant who works for his master, and the five wise virgins who remain watchful and supply their lamps with oil. The oil in brightly burning lamps represents living faith in Jesus as our Savior, and the faithful servant teaches us that we must do the Lord's work faithfully.

We shall always be ready for His coming if we keep our faith in Him bright and pure and if we faithfully serve Him.

Dear Lord, make us truly wise that we may ever be prepared for Thy coming. Amen.

### Census Office Established For This District

Establishment of a district office for the 1960 Census of Population and Housing at the Welfare Building, San Angelo, was announced today by Director James W. Stroud of the Census Bureau's regional office at Dallas.

William G. Stacy will be supervisor of the district office. He will direct a force of 15 crew leaders and 230 census takers in the following counties: Bandera, Brown, Coke, Coleman, Concho, Edwards, Uvalde, Val Verde, Gillespie, Irion, Kendall, Kerr, Kimble, Kinney, Lampasas, Llano, McCulloch, Mason, Menard, Mills, Runnels, San Saba, Schleicher, Sutton and Tom Green.

Taking the 1960 Census nationally will require the services of 160,000 enumerators, 10,000 crew leaders, and 400 district supervisors, all temporary workers. The district supervisors, working under the general direction of the permanent regional field directors, are responsible for all phases of the census in their districts. Duties of the district supervisor include the recruiting of the crew leaders, obtaining space for crew leader training, recruiting and training a small office staff, reviewing the completed questionnaires, and direct supervision of the field canvass which begins on April 1.

Prior to the start of the census, all households will receive in the mail an Advance Census Report Form, a new census-taking device which is designed to speed up the field canvass and provide more accurate statistics. Distribution of this form contains the basic population and housing questions, gives the family a chance to assemble information about each member in advance of the census taker's visit.

### Broncos Down Ozona 48-44 Tuesday; First Victory Over Lions In 11 Years

The Sonora basketball team defeated Ozona Tuesday night for the Broncos first win over the Lions in eleven years. The final score was 48 to 44. The game was close the first half with Sonora leading at half time 22 to 16. The Broncos increased their lead in the second half to 12 points at one time. In the last quarter Jerry Baldwin and Gene West fouled out and Sonora played a stalling game. This is when Ozona cut the lead to the final score of 48 to 44.

Gene Brodhead led the scoring for Sonora with 13 points. Brodhead played his best game of the year. Besides being high point man, Brod controlled both backboards on rebounds and was a

major factor in the stall at the end of the game.

The victory was a team effort. Every boy who saw action did an outstanding job. Jerry Baldwin his usual steady defensive game and scored nine points. Six of these points were made in the vital third period when they were needed most.

Richard Noriega and Melvin Glasscock, who made 24 and 20 points respectively in the "B" game, did a very good job in the varsity game. "Silky" Glasscock hit a long set shot for the varsity and it caused Ozona to abandon their zone defense.

Noriega, a freshman, did a very good job of controlling the ball in the last few minutes stall.

Chris Berger, son of Mr. and Mrs. W. F. Berger, showed the Champion Group of Three Commercial Ewes at Saturday's 4-H Show. The ewe which 10-year-old Chris is holding was also judged Grand Champion Commercial Ewe of the Show. Jerry Shurley and Buck Bloodworth are holding the other ewes.

### NOTICE

All persons interested in the Sonora Little League program are urged to attend a meeting at seven o'clock Monday night, Feb-

ruary 1, at the First National Bank. According to Harold Scherz, League president, the meeting is being called for the purpose of organizing for the 1960 season.

Parents of eligible boys, League managers, and all others interested are asked to be present to discuss the League set-up and formulate plans for the coming season.

John Bell is vice-president of the League and Clayton Hamilton treasurer.

Primo Gonzales, another freshman, made nine points and turned in a fine game also.

Something could be said about every boy on the team as an individual. It was good team work and desire to beat Ozona that finally won after 11 long years.

Sonora also won the "B" game by a score of 66 to 54. Noriega and Glasscock led scoring with 24 and 20 points respectively.

The largest home crowd of the year attended the game. The crowd was mostly the Sonora student body with a few adults present. It would be nice if more adults would support the Broncos. Ozona had more adults followers at the game than Sonora.

### Cub Scouts Set Annual Banquet

Cub Scouts of Sonora's Pack 19 will hold their annual Blue and Gold Banquet at the elementary school cafeteria at seven o'clock Thursday night, February 4.

Melton Wyatt of San Angelo, executive director of the Concho Valley Council of the Boy Scouts of America, will be the guest speaker.

Tickets for adults may be obtained at \$1.50 per plate.

## FASHIONS- FADS- FANCIES- GET THE FACTS ABOUT Electric CLOTHES DRYING

Here is a fact to think about for just a second — you can dry more than 500 loads of clothes electrically for the difference in the initial cost of an electric dryer and any other type automatic dryer. It's a fact — check it.

And here is another fact — Electric Clothes Drying is quite economical. It's safe, clean and the actual cost is only about a nickel a load.

Electric Dryers cost considerably less to purchase and there is free wiring installation in any home served by WTU. These are facts you can check with your favorite appliance dealer.

Last Friday, the first Savings Stamps day, \$36.00 in stamps was sold to children. Members of the committee are Mrs. James D. Trainer, Mrs. George Brockman and Mrs. Gene Shurley.

Books for keeping the stamps are available free of charge and may be left in the principal's office for safe keeping or may be taken home by the children.

### Plane Crashes Get Attention In Washington

By Congressman O. C. Fisher PLANE CRASHES claimed head-line attention in Washington last week.

With Congress taking a close look at the alarming number of commercial airline tragedies, methods of tightening safety and security methods were being explored. But even at that it was announced that the airline fatality rate last year was only .68 persons per million passenger miles. The railroad rate was .26, but for commercial highway and taxi travel it was 2.4 persons per million passenger miles.

### Sutton County Brucellosis Petition Due Austin Hearing Monday, February 29

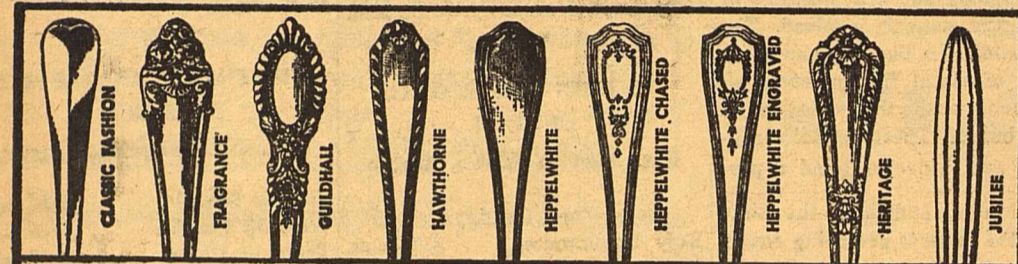

Sutton County ranchmen met Friday night, January 22, at the auditorium of Central Elementary School for discussion of several topics of interest to livestock raisers.

Ralph P. (Buddy) Mayer, chairman for the Chamber of Commerce's Agriculture Committee, reported that the petition for a program of brucellosis prevention and control in the county has been presented in Austin with total of 125 cattle raisers. This represents more than 90 percent of the cattle owners in the county. The petition will be heard before the Texas Health Commission at nine o'clock, Monday morning, February 29 in Austin. The commission is expected to give the go-ahead to a program of testing within the county.

Mayer also gave a report on the financial condition of the ranchmen's fire equipment fund. It was decided that any surplus in the fund should be used to maintain and improve the fire fighting equipment purchased last year for use in controlling range fires.

Representatives of the Lederle Laboratories showed pictures and explained cures their company has developed for various livestock diseases including milk colic of lambs (clabberbelly).

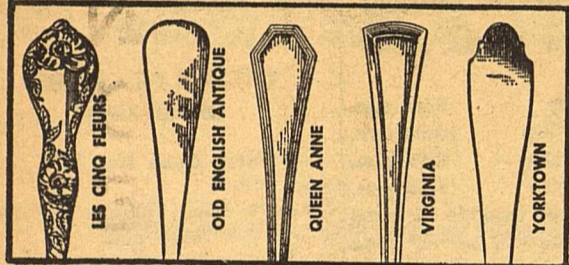

Members of the Edwards Plateau Livestock Protective Association voted to continue their program by unanimous vote and also voted to contact every ranchman in the area by mail informing them of the objectives of the association.

## Devil's River Philosopher Takes New Slant On Idea We're Piling Up U. S. Debt For Children To Pay

Editor's Note: The Devil's River Philosopher on his bitter-weed ranch on Devil's River comes to the defense of parents this week, his letter reveals. Dear editor:

Like most people, I haven't spent much time worrying about the national debt, it's sort of like worrying about the weather three states away while the kind you've got at home is giving you fits, but I'll admit this isn't exactly far-sighted or statesman-like.

What set me to thinking about this though was an article I read in a magazine last night which some publisher sent me in the hopes I'd subscribe to it. This article quoted President Eisenhower on the importance of holding the national budget down. "I believe our people have the determination to hold expenditures in check, to pay their own way without borrowing from their children," the President said.

Now I don't know about the national budget, but what throws most people's budget out of balance is not the parents, but the children, and the number of parents who are borrowing from their children is mighty scarce in this vicinity.

Of course, I understand what the President is saying, he means the debt we run up will have to be paid off by our children and grandchildren, and he's right, but just in defense of us adults I'd like to underscore the fact that a lot of these debts we're running up can be traced directly to the children.

Take schools. When you go into debt to build a school, it's not for the parents' benefit. Most parents I know are already educated about as far as they intend to go. It may not be far enough, but most of them seem satisfied with it.

Or take roads. Of course parents use roads, provided their teen-age children are tied up with

## Blasting Caps Not Playthings, Says Safety Assn.

The Texas Safety Association issued a warning this week against blasting caps which each year blind or maim many youngsters in the United States.

These caps which are used to detonate charges of dynamite may appear to a boy or girl to be harmless, but in the hands of an inexperienced person they are extremely dangerous.

Anyone finding a cap should not touch it, but should immediately report it to the police or some other law enforcement officer. These officers know how to dispose of them without harm to anyone.

Some boys and girls do not know a blasting cap when they see one. Others know the caps will explode but are unaware of the grave danger involved. The detonation of a blasting cap sends pieces of metal flying out in all directions with the speed of a rifle bullet. These metal fragments can injure or blind a person.

And so it goes. Hospitals, parts, even national defense, whatever it is that goes with our national budget, the children are getting a pretty good slice of it and I for one am glad to be able to shift a little of the cost on to them when they grow up. One of the troubles with children now is that they expect everything to be handed to them free of charge. If we keep piling up the national debt, it looks like we'll get that notion out of their heads one of these days.

Yours faithfully,  
J. A.

## Women Play Key Role In 'Dimes' Research

Growing a killer virus in a laboratory test tube to see what makes it tick may not seem like an ideal pastime for women. Yet in recent years an increasing number of women have attained top-rank recognition as medical research scientists, many of them under grants supplied by The National Foundation with New March of Dimes funds.

The researches of these women have enlarged the body of new medical information and helped solve a wide variety of health problems. Not least among these was the conquest of a virus that killed and crippled its victims in wave after wave of epidemics—polio.

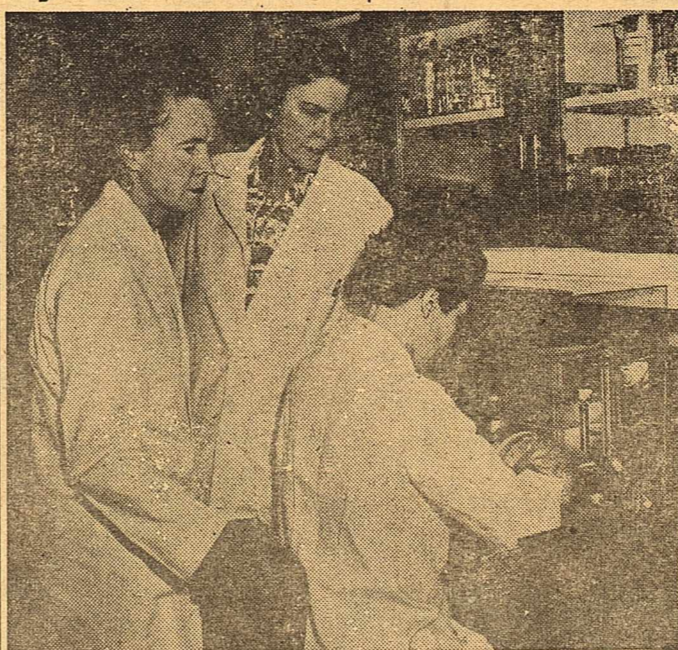

**Pioneer in Protection**  
Dr. Isabel Morgan Mountain is one of the most famous of these women scientists. As a member of the Johns Hopkins research group some years ago, she won medical recognition for demonstrating that animals could be protected against polio by a vaccine. This was a giant step toward the development of the Salk vaccine for humans, which—like Dr. Mountain's work—was done under grants financed by the March of Dimes.

Dr. Mountain's parents, Dr. and Mrs. Thomas Hunt Morgan, were both well-known geneticists. Her father won a Nobel Prize in 1933 as the originator of the gene theory of heredity. Dr. Mountain, who is married to a prominent surgeon in New York, is included in the Polio Hall of Fame at the Georgia Warm Springs Foundation.

Until recently Dr. Mountain has been collaborating with two other well-known women research scientists at Columbia University's College of Physicians and Surgeons. They are Dr. Hattie Alexander and Dr. Katherine Sprunt, both notable for their work in contagious childhood diseases. The March of Dimes-supported grant under which Dr. Alexander and Dr. Sprunt work calls for studies in the possible control of the hereditary factors of polioviruses. The findings of this team have added new knowledge to the whole field of virus research.

At Yale University, Dr. Dorothy Horstmann has won fame for her researches in poliovirus, in epidemiology (the science of epidemic diseases) and in the newer viruses only recently discovered. She is on the research team of Dr. John Paul under a National Foundation grant.

**Nun Studies Proteins**  
At St. Louis University, Sister Mary Celeste of the Order of the Immaculate Heart of Mary and a doctor of medicine, is involved in studying the role proteins may play in virus reproduction. Her research project, headed by Dr. Norman E. Melechen, one of the most advanced scientists in the virus field, is also financed by New March of Dimes funds.

L. to r., Drs. Hattie Alexander, Isabel Morgan Mountain and Katherine Sprunt.

Another woman scientist who can be found hard at work in a laboratory is Dr. Matilda Melnick, at Baylor University Medical School, Houston, Tex. She and her famous scientist

husband, Dr. Joseph L. Melnick, are conducting experimental studies in the Sabin live-virus anti-polio vaccine which, like the Salk vaccine, was developed under March of Dimes funds.

These projects are aimed primarily against three major crippling diseases: birth defects, arthritis and polio. But every new discovery made by these women and other scientists with New March of Dimes support adds to the great body of our medical knowledge and contributes to man's health and well-being.

### MOTHERS' DOOR COUNT TOPS MARCH OF DIMES

The 1960 New March of Dimes campaign for funds to support research, patient aid and the training of experts in the three health areas of birth defects, arthritis and polio is climaxed by a Mothers' March of two million volunteers. The Marching Mothers are also conducting a nationwide "door count" at some 30 million homes to collect facts concerning the problems of crippling diseases in their communities. The local New March of Dimes office has also appealed to all donors who have not already done so to send in their contributions in the "mailer appeal" envelopes distributed at the beginning of the year.

Sister Mary Celeste Frey, M.D.

son even at a distance of 200 feet or more.

Blasting caps are copper or aluminum cylinders about as big around as a lead pencil and from one to six inches long. There are two kinds of caps. The ordinary cap is exploded by a burning fuse inserted in the open end. The other kind is an electric blasting cap. It has wires coming out one end. When electric current is applied to the wires the cap explodes. Blasting caps are used in mining, quarrying and construction work, land clearing, oil prospecting, pipe line laying, and many other necessary jobs in industry and agriculture.

Skilled blasters who work with caps handle them with as much care as they use with dynamite. Some boys and girls, however,

think of them as fascinating toys. Blasting caps sometimes are lost or stolen. Youngsters find them and think it would be fun to hit one with a stone or pick at it with a nail or knife. This is almost sure to explode the sensitive charge in the cap.

The only safe advice for a boy or girl is "Don't Touch Blasting Caps."

Richard Mayer, student at San Angelo College, spent the weekend with his parents here, Mr. and Mrs. E. S. Mayer.

Mr. and Mrs. Jerry Larremore of Midland were weekend guests of her parents, Mr. and Mrs. D. L. Locklin.

There's nothing like a new car—and no new car like a Chevrolet. This is the Impala Sport Coupe!

# GO '60 GO CHEVY!

**NOW- THE CAR THAT STARTS THE SIXTIES  
WITH SO MUCH THAT'S NEW,  
SO MUCH THAT'S DIFFERENT  
...AND SETS THE PACE WITH LOWER PRICES!**

Chevrolet speaks of the Sixties like  
no other car—with a broad accent on  
spaciousness, stirring new concepts in  
styling and strong emphasis on spirit  
and thrift.

Step inside this superlative '60 and  
look at the worlds of room around  
you: head room, hip room, shoulder-  
squaring room. Note how Chevrolet's  
engineers have further flattened and  
narrowed the transmission tunnel to  
give the middle man more foot room.  
Chevrolet's greater roominess is inside  
where you want it—not outside in  
useless body overhang.

You'll find economy teamed with  
performance in a new standard V8,  
engineered to deliver up to 10% more  
miles for every gallon, or the strapping  
Hi-Thrift 6.

And riding comfort in the new one  
is a never-ending treat, thanks to Full  
Coil spring suspension. There are also  
thicker, newly designed body mounts  
that filter noise and vibration to the  
vanishing point, more rigid frame and  
many other engineering advances.

But you'll have to drive the Sixty  
sizzler yourself—that's the clincher.

Why not see your Chevrolet dealer  
now—for a drive  
and the happy de-  
tails on Chevy's  
new lower prices.

See The Dinah Shore Chevy Show in color Sundays, NBC-TV—the Pat Boone Chevy Showroom weekly, ABC-TV.
