**LIBRARY CLUB NEWS**

By Nancy Reed

"Walter Lippman and His Times", edited by Marquis Childs and James Weston, is the biography of the great critic of the politics, morals and manners of the world around him. Walter Lippman has kept a clear and steady vision throughout the struggles of Western civilization. Lippman has drawn his share of scorn and accusers during his career, yet he has risen to eminence. He is a thinker and people are usually happier when a thinker confines himself to thinking only of the beauty in the world and not what is wrong with it.

Lippman's career divides itself into three distinct phases. He was first the young intellectual in whom everyone saw a wonderful promise. He seemed to be blessed in fortune. The middle phase of his life was his journalistic achievements as an editor. The last phase was his attention to world affairs and an approaching world war. His influence began to grow. For 50 years of his writing career, Walter Lippman found refuge in cynicism which sounded above the hectic world affairs.

## 1960 Bad Year

For Measles,

Says Health Dept.

This year is already shaping up as a bad one for measles, but state health officials aren't surprised. A survey of the state's measles pattern for the past 20 years shows the disease usually is up one year and down the next.

This is slated to be the "up" year, since 1959 was comparatively mild with only 37,000 cases reported for the entire 12 months. For the week ending February 20 the State Health Department tallied an aggregate of 1,664 cases, bringing the 1960 total to date to 11,708 compared with less than 5,000 cases for the same period last year.

Mrs. E. B. M. Cook's problem wasn't automation. It was the lack of it.

Mrs. Cook is in charge of biological production at the Texas State Department of Health, which annually distributes some 300,000 sealed vials of smallpox vaccine and 300,000 separately sealed smallpox vaccine needles. Filling and sealing used to be done by hand, but those tedious, time-consuming days are gone forever.

A machine to do the job was not available commercially, so Mrs. Cook explained her problem to the department's shop staff, Grover Kenyon and Pete Ezba. A few days ago they delivered their brain child—a device which in one hour duplicates the work

## Major Crimes Up

In Texas For '59

Major crime in Texas during 1959 showed a marked increase according to figures released today by the Texas Department of Public Safety.

In a report from Col. Homer Garrison, director of the Texas DPS, aggravated assault gained the most with a 22 per cent increase over the year 1958. Crime in all categories increased 3.9 per cent over the previous year.

Of the remaining six major crimes—murder, rape, robbery, burglary, theft and auto theft—only robbery showed a decline. According to the estimates, there were 45,827 burglaries in 1959 as compared with 44,822 in 1958, an increase of 2.2 per cent. Offenses in the automobile theft category totaled 15,830 as compared with 15,402 in 1958.

The crime report showed that on each day of the year 1959 there were 125 burglaries, 43 automobiles stolen, 266 thefts other than automobile, 32 aggravated assaults, 7 robberies, 3 rapes and 3 murders.

On a ten year basis crime in Texas percentage-wise by far out-gained population. During the last decade the population of our state increased 24.4 per cent while crime increased 73.2 per cent.

Of other information in the report, the department's Identification and Criminal Record Section received 172,434 sets of criminal fingerprints in 1959, compared with 110,531 last year—an increase of 52.59 per cent. In the year 1950 identifications were made on 35,649 fingerprints, while 66,961 were identified in 1959; this was an increase of 87.83 per cent.

As was true in all phases of law enforcement work, activities in the department's chemical laboratory showed tremendous gains. In 1950, 2,500 chemical examinations were completed last year there were 10,179.

Texas Press Association  
AUSTIN, TEX.- We may have a muddy spring this year . . . but will there be enough water for Texans in 2010?

This is not a fantastic question, but one that Texas' state and local officials, engineers and water planners are grappling with now. Out of their efforts came these items of news and views:

1. Gov. Price Daniel told a farm convention in Austin that Texas has made great progress in statewide water management in the past three years. But, he said, "much more remains to be

done."

Water planning and development, said the governor, is essential to the state's growth and prosperity in the years ahead.

2. A series of three meetings will be held during March along the Colorado River and its tributaries to discuss water needs of those areas for the next 50 years.

Meetings will be held in conjunction with the U. S. Commission studying Texas' major river basins. They will be in Wharton March 8; Big Spring, March 15; and Austin, March 17.

Colorado River Industrial Development Association (CRIDA) will sponsor the Austin and Wharton meetings, and the West Texas Chamber of Commerce the Big Spring Meeting.

3. State Board of Water Engineers called for a "time out" of three people working eight hours a day for two days. Using a jet stream of air it fills and seals 9,000 capillary tubes per hour, all automatically.

Estimated cost of the machine if it could be purchased commercially: \$3,000. Cost to the department: About \$400, plus labor.

\*\*\*  
Texas' first case of Hansen's disease (leprosy) for 1960 has been reported to the State Health Department. The department says some 14 cases can be expected to develop during the year if the annual median holds.

Communicable disease specialists say Hansen's disease is only mildly communicable from person to person. Its mode of transmission is not definitely known. Most cases occur in the tropics and sub-tropics. China and India have about half the estimated world total of 3-4 million cases.

In addition to Texas, states reporting occasional cases are Louisiana, Florida and California.

until March 8 on the longest-ever water hearing. At issue in the hearings which began Nov. 2 is whether the Trinity River Authority and City of Houston shall be granted permits to build two downstream reservoirs on the Trinity.

Water Board, apparently getting short on patience, advised opponents to get together and solve their problems cooperatively. Hearing has been given to long, bitter arguments and frequent flare-ups among participants.

San Jacinto River Authority has been chief objector to granting of the permits. SJRA contends that Houston will shortly need more water for domestic use but that Trinity water, because it contains sewage from Dallas and Fort Worth, is not suitable. San Jacinto officials say Houston should work with SJRA to meet the city's domestic water needs.

In the far-ranging testimony, water engineers discussed the probable water needs of Houston, Dallas and Fort Worth in 2010, and the possibility that Texas might be subjected before 2010 to a drought worse than that of 1950-57.

4. Texas is losing the battle for industry because of inadequate water supply, the director of UT's Balcones Research Center told an Austin meeting.

"Central Texas is in good shape," said Dr. J. Neils Thompson, "but the rest of the state is in sorry shape."

Texas has an average annual rainfall of 27 inches compared to an average of 30 inches for the U.S. as a whole, said Dr. Walter Moore, also a UT engineer. But he said Texas has a special problem—an evaporation rate 50 to 100 per cent higher than for the U.S. as a whole.

## Devil's River Philosopher Says People In Town Depending On Him Should Re-Study Farm Problem

Editor's note: The Devil's River Philosopher on his bitter-weed ranch on Devil's River views the farm problem again this week, but whether he sheds any light, is hard to say.

Dear editor:  
I read an editorial in a newspaper the other day, I've forgotten the name of the paper but it was from a big city because I remember it was heavy, which solved the farm problem.

This disturbed me because the farm problem has always been something you could rely on, like restlessness in Europe. Regardless of how many other problems were solved, you always figured the farm problem and restlessness in Europe would be around, but this paper said the farm problem will solve itself.

"When so many farmers and ranchers move to town that the ones left in the country have to hustle to raise enough to feed and cloth their town customers, the farm problem will be solved," the editorial said.

However, when I say solved, I mean only in the newspaper editorial writer's mind, not in mine.

In the first place, he implies that the main purpose of a rancher, even one that's not hustling, is to feed and clothe people in town, whereas most ranchers I know have as their main concern the feeding and clothing of themselves and their immediate families, with occasionally a son-in-law thrown in.

In the second place, hustling is not the answer for the rancher. It's hustling that has brought on all the surpluses.

And in the third place, if that big city editorial writer thinks when the time comes, if it ever does, when he doesn't have

## Miss Nancy Bryan Hunt, James L. Powell Married In Garden Ceremony February 27

The marriage of Miss Nancy Bryan Hunt and James L. Powell, son of Mr. and Mrs. Virgil L. Powell of San Angelo, was solemnized Saturday evening, February 27, in the garden at the home of the bride's parents, Mr. and Mrs. Bryan Hunt. The Right Reverend Everett H. Jones, Bishop of the Diocese of West Texas, read the double-ring ceremony assisted by the Reverend Alanson Brown, rector of St. John's Episcopal Church.

Vows were exchanged before an altar backed with screens of length. Lace extended down the Salal and white pompom chrysanthemums. Wedding baskets of

white gladioli, stock and carnations were placed in front of the screens.

Mrs. W. T. Hardy, organist, played traditional wedding music and accompanied Mrs. Albert C. Ward, vocalist, who sang "O Perfect Love".

Entering on the arm of her father, the bride wore a gown of ivory peau de soie and Alecon lace encrusted with pearls and iridescent sequins accented the portrait neckline and fitted bodice. Sleeves were three-quarter length. Lace extended down the semi-sheath skirt onto the full cathedral train. Her ivory veil of

Brussels lace, worn mantilla-fashion, extended beyond the train. She carried a white prayer book topped with phalaenopsis orchids and a shower of lily-of-the-valley.

Miss Betsy Ross of Shiner was maid of honor and Mrs. Charles E. Shannon, Jr., of San Angelo the bride's cousin, was matron of honor. Bridesmaids were Miss Ann Baggett of Ozona, Miss Mary Alice Cowan of Shawnee, Oklahoma, Miss Jen Tomlinson of Houston, Miss Jean Rogers of San Antonio, Miss Sharon Hall of Sherman, Mrs. Paul F. Law of Georgetown, and Mrs. Clifton H. McCall and Mrs. Vernon Elledge, both of Austin.

They wore street-length gowns of Wedgwood blue lace over powder blue satin fashioned with sleeveless, fitted bodices and full skirts accented with a sash of the satin. A wide flat bow at the waist-line extended into wide streamers down the skirt front. They wore wide bandeaux of the satin with a flat bow and short circular veils of powder blue net. Their crescent bouquets were of pink Aristocrat roses with pink velvet leaves and velvet tubing.

Virgil L. Powell of San Angelo attended his son as best man. Groomsmen were Mort Mertz of Big Lake and Joe Bean of Ozona, brothers-in-law of the groom; Howard Derrick of Eldorado, Charles Noble of San Antonio, James Jackson of Houston, George Brown of Brooklyn, New York, J. Willis Johnson III and Phillip Templeton of San Angelo, Charles Jackson of Houston and James Hunt of Sonora, brother of the bride.

Len Mertz of Big Lake was ring bearer and train bearer were Mort Mertz, Jr., of Big Lake and David Bean of Ozona. All are nephews of the groom.

Dick McMillan and Andrew F. Moore, Jr., both of Sonora, lighted candles.

Following the ceremony a reception was held at the bride's home. The bride's table was covered with an imported linen cloth with cutwork in a heart motif. The tiered cake centered the table and garlands of Smilax, white rosebuds and white orchids extended from the cake to the silver punchbowls at either end of the table. A large mirror behind the table reflected an arrangement of white gladioli, stock, carnations and roses in an antique cut-glass bowl. Serving at the table were Mrs. Joe Bean of Ozona, Mrs. Mort Mertz of Big Lake, Mrs. W. J. Bradley of Falls Church, Virginia, Miss Linda Link of Weslaco, Miss Libba Shatto of Columbus, Mrs. George H. Neill, Mrs. Fred T. Earwood, Mrs. Miers Savell and Mrs. Bill Savell.

The groom's table was laid with an ecru cutwork cloth centered with a silver and crystal epergne of talisman roses. The double-ring groom's cake and the silver coffee service were placed at either end of the table. Serving at the table were Mrs. Clifton Brooks of San Angelo, Mrs.

## Brunch Honors Bridal Attendants Saturday Morning

Mrs. Miers Savell, Mrs. Charles E. Shannon, Jr., and Mrs. Bill Savell were hostesses to a brunch honoring Miss Nancy Hunt and her bridal attendants in the Miers Savell home Saturday morning, February 27.

The serving table was laid with a white Madeira cloth centered with an anniversary candle in the bride's chosen colors of blue and white. Guests were seated at quartet tables where places were marked with miniature fan-shaped bride's bouquets of white sweetheart rosebuds.

Floral arrangements in blue and white were used in decorating the party rooms.

Those attending were Miss Hunt, Mrs. Bryan Hunt, Miss Ann Baggett of Ozona, Miss Betsy Ross of Shiner, Miss Mary Alice Cowan of Shawnee, Oklahoma,

Lucile McKnight of Odessa, Mrs. Damon White of Carrizo Springs, Mrs. Fay Ball of San Angelo, Mrs. Carroll White of Eldorado, Mrs. Lora Stewart of San Antonio, Mrs. Howard Derrick of Eldorado and Mrs. Stella Keene of Sonora.

The register table was decorated with an arrangement of spring flowers and a hurricane lamp. Presiding at the bride's book were Mrs. Richard Cooper of San Antonio, Miss Tom Elaine Espy and Miss Martha Valliant.

Others in the house party were Mrs. Tillman Hunt of Brackettville, Mrs. F. H. Whitehead and Mrs. E. V. Jarrett of Del Rio, Mrs. L. P. ### CHAMBER OF COMMERCE COMMENTS

**UNDERGROUND-** A lot of people here are wishing the Carners of Sonora was open for business. Imagine, stepping down to 70 degree weather. The only better time than now for such is during dust storms of which we have few.

Work is starting this week on the Cave and it is still planned to open in July. Many newspapers over Texas are running stories on this project and every one indicates much interest.

**HIGHWAY-** This writer attended the meeting in Uvalde Saturday at which an association was formed to boost for the proposed highway from the Midland-Odesa area to Corpus vis Sonora, Rocksprings, Uvalde. Much interest is being shown for this route as it is the shortest and most scenic. Much work must be done and to discuss this and the matter of designation a committee is meeting with the Highway Engineer during this month to lay plans.

**SPEECH MEET-** March 11-12. Several hundred high school students, mostly from City Schools, will be in our midst. ROOMS are needed. We plan to feed them on Saturday evening, old fashioned barbecue, both lamb and Spanish kid. You can make the San Angelo Rodeo and this speech meet both. Try.

**HOST-** By now many people are arriving in Sonora for the annual Fling Ding Dance. This is the one and only. The thousand visitors for this occasion tax our hospitality but we are loaded with hospitality so the situation

is well in hand. Jan Garber is the fiddler for this year's affair and it should be a fling ding.

**INQUIRY-** The following is typical of many letters received by this office:

Receiving and Processing Co. USATAC  
Fort Knox, Kentucky  
Sunday, 22 February 1960  
Sonora Chamber of Commerce,  
Sonora, Texas.

Gentlemen:

I am planning a trip of the United States this summer, and would appreciate any tourist information that you could give me dealing with the vicinity around Sonora, as your city is to be one of my stops. I would like information dealing with motel accommodations, places of scenic interest, and mainly data concerning the ranches in your vicinity. Could you furnish me information dealing with some of your prominent ranch owners, as I would like to pay a visit to a few of them. Thanking you for any help you can give me, I am,

Sincerely yours,  
Henry V. B. Flagg

PS: I am planning to fly my private plane to Sonora. Are there any airstrips in vicinity?

Speaking of Air ports, do you have any idea how much our airport is used and how important it is to our community? A town without an airport today is in the same fix as the town the highway missed.

**CLEAN UP-** James Hunt and Ralph Mayer attended the hearing on Brucellosis Control held in Austin Monday morning. It is pointed out that this program is mandatory because most of the feeder States have already clean-

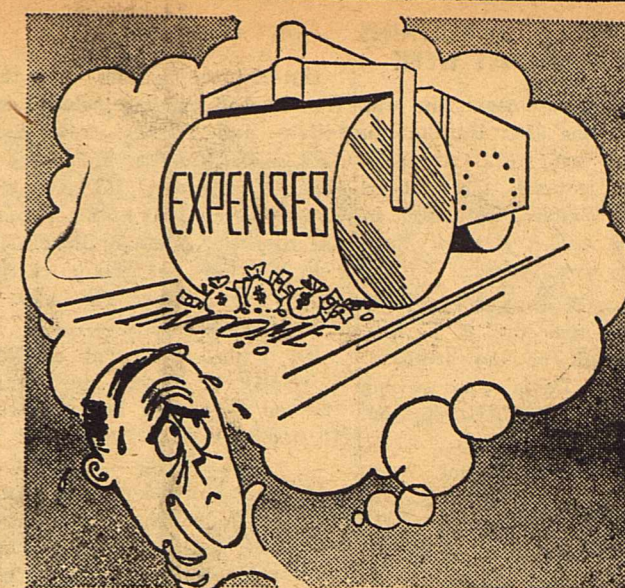

ed up and are imposing embargoes on unclean States. Eight counties in Texas have been certified as clean and it is found that the inspection program is practical and disrupts normal ranching practices very little.

**DISGUST-** It is reported around town that Hub Hale and Spec McClelland are hanging up their fishing tackle and are going in for tiddly-winks. They say when amateurs like Geo. Allison bring in six pound bass while nigger fishing it is time for them to quit.

**BUSY-** One of the busiest men in Sonora, these days, is Mark Wallace. Wallace came to Sonora to do a small curb and gutter job and has found things to his liking to the extent that he has moved his family here and calls Sonora headquarters. We have never seen so much work of this nature which spells paving for the future. And there is nothing that gives a town a lift like paved streets, curbed and with gutter.

**LIONS ROAR-** The members of the Lions Club dined with the school Tuesday, in celebrating National school week, and were we well fed? We were not fed without competition however, those several hundred hungry brats from all grades but they were no match for those robust Lions. We finally put the kids back on the second table, as of old.

**WANTED-** A name for a highway from Midland-Odesa to Corpus. From sand to water and from oil to water has been suggested so just skip them. What about "West Texas to Corpus Christi Route, shortest-most scenic." But where does West Texas begin, Waco, Fort Worth? What about Northwest Texas, huh? Give us your idea.
