## Sonoran's Brother Dies In Junction

Funeral services for Wesley Freeman, 63, retired ranchman and native of Kimble County, were held at a Junction funeral home Friday morning, March 4. Freeman died March 2 at his home on the Llano River after a long illness. Survivors include a son, two daughters, two sisters and two brothers including Beal Freeman of Sonora.

Schedule of events in the 13th Annual Speech Tournament to be held here Friday and Saturday, March 11 and 12 was announced this week. Students from Menard, Eldorado, Odessa, Ector High of Odessa, Crystal City, Tivy of Kerrville, Central of San Angelo, New Braunfels, Alice, Denton, Andrews, Knippa and Sonora will participate in the events. The tourney will get underway at 8:30 Friday morning with the first round of boys' and girls' debate. At ten o'clock judges will hear boys' and girls' divisions of humorous declamation, original oratory and Bible Reading. Senior girls' poetry reading is slated for 12:00 noon. At one o'clock the second round of both boys' and girls' debate will be held and both divisions of after-dinner speaking, dramatic interpretation, junior poetry reading, and senior boys' poetry reading. Finals in girls' debate will be held at 2:15 as will the third round of boys' debate. At three o'clock boys' and girls' divisions of oratorical declamation and extemporaneous speaking will be heard as will duet acting. Finals in boys' debate is slated for 3:30. One Act Plays will be presented at eight o'clock Friday night in the high school auditorium. Everyone is invited to attend and no admission is charged. Three schools have entered this event. They are: Denton with "Odine" Alice with "Berkeley Square" and Sonora with "The Old Lady Shows Her Medals". Awards will be presented Saturday night at a barbecue to be held at the Wesley Sawyer Ranch under the sponsorship of the Sonora Chamber of Commerce.

# 19 Track Teams Entered So Far In 6th Annual Relays

Nineteen teams are scheduled to compete in this year's Sonora Relays scheduled to be held here Saturday, March 19, and Track Coach Joe Turner says there is a strong possibility that still more teams will be entered by meet time. Although the meet is only five years old, it has risen to become the largest event of its kind for Class A and B schools in Texas. Accepting the invitation to participate are Junction, Big Lake, Eldorado, Ozona, Sanderson, Rochelle, Stanton, Iraan, Rocksprings, Mertzon, Mason, Menard, Southland, Robert Lee, Bronte, Coahoma, Bandera, Alpine and host Sonora. Turner states they are still in the process of securing officials but that the meet will be started by the renowned Jimmy Jacks of Eden. Albert Ward will handle the public address system as he has done for the entire history of the event. E. B. Keng will again serve as clerk of the meet. Seventeen events are on the agenda and will begin at 1:30 Saturday afternoon with finals to be held that night beginning at seven o'clock.

Starting at the top and working down is the key to development of the caverns. Jack Burch, left, waits his turn at the airhammer which Jim Papadakis, right, is using to enlarge the caverns entrance. Just above the entrance is the iron-barred cover which has been placed over the mouth of the cave to prevent vandalism.

chance to get on with shearing. Mothers are greeting the pretty days gleefully as they have a chance to hang out the laundry and as for the kids—they're pretty nearly beside themselves at the chance to play outside.

## Red Cross Fund Drive Moving Slowly As Only \$202 Received By March 9

Only about one-fourth of Sutton County's Red Cross fund quota of \$840 has been raised, according to Mrs. Nelson Stubblefield, drive chairman. Mrs. Stubblefield reported Wednesday total receipts of \$202 as the drive neared the half-way mark of its time schedule. The drive which begins March 1 each year is slated to continue through the month of March and is the charitable organization's only fund raising campaign. Mrs. Stubblefield said she plans a canvass of the business district as time permits. Contributions may be made to her or to anyone at the First National Bank.

Folks involved in the speech meet—and who isn't—were happy about the weather, too, and 4-H'ers were hoping it would hold out for showing their animals. Contractors and construction workers were breathing a sigh of relief as the opportunity to get back on the job arose. And it hasn't been but three years when we all sighed and looked down in the mouth if we waked up to a clear sky. All in all we suspect folks in West Texas would choose the cold damp over the warm dry days of the drouth.

Funeral services for Jake Charles Duske, 50, Sonora construction worker, were held Friday afternoon, March 4, at Calvary Baptist Church here with the Rev. Lonnie A. Baker, pastor, officiating. Duske died suddenly at his home here Thursday morning, March 3, after suffering a heart attack. Born January 24, 1910 at Salado, Duske was married to the former Miss Alene Stegall at Bronte in 1939. They had made their home in Sonora for about seven years. Duske was employed with Reg McQuatters, contractor. Survivors include his wife and two sisters, Mrs. L. A. Snyder of Sierra Blanca and Mrs. Joe Stewart of San Angelo. Pallbearers were Ford Allen, L. E. Holland, C. D. Fincannon, Herb McKee, A. M. Cunningham and Mat Adams. Burial was in Sonora Cemetery under the direction of Ratliff-Kerbow Funeral Home.

## Sonora Girl Scouts, Brownies Observing National Girl Scout Week

Sonora Girl Scouts and Brownies are joining with Girl Scouts all over the United States in observing Girl Scout Week Sunday, March 6 through Saturday, March 12. This year the organization celebrates its 48th anniversary. "You Can Count on Her to Be Prepared" is the theme for 1960. Sonora Scouts and Brownies are divided into five groups. Mrs. Bill Whitehead and Mrs. Bill Stewart are leaders for the First Year Brownies. Mrs. Bill Wade, Mrs. Louis Wardlaw and Mrs. Louie Trainer have the Second Year Brownies and Mrs. Bill Galbraith is leader of the Third Year Brownies. Mrs. Lois W. Young and Mrs. Preston Love are leaders for the Fifth and Sixth Grade Scouts and Mrs. A. E. Lowe leads the Seventh Grade Scouts. Mrs. Armer Earwood is Neighborhood Chairman. Local Scouts are observing Girl Scout Week by having their annual cookie sale. The Sonora group's portion of funds raised by the sale will go toward development of the permanent camp sit, Camp Jo-Jan-Van. Some 82 girls are in the Scouting program here and plan an Outdoor Day and a banquet for later in the spring.

## Carroll Abbott Candidate For Representative

Carroll Abbott, newspaperman and civic leader of Kerrville, will bring his campaign for State Representative from the 78th District to Sonora Saturday. The 33-year-old Kerrville man

has represented Kerr County in the past two state Democratic conventions. He has been a director and committee chairman of the Kerr County Livestock shows for five years. A director in both the Kerrville Jaycees and the Kerr County Chamber of Commerce, Abbott is also a member of the Baptist church, the BPOE and has been active in Boy Scout work. He is married and has three sons, Texas, 10, Mark 5, and Patrick 3.

## Services Held For J. C. Duske, 50, Friday Afternoon

Funeral services for Jake Charles Duske, 50, Sonora construction worker, were held Friday afternoon, March 4, at Calvary Baptist Church here with the Rev. Lonnie A. Baker, pastor, officiating. Duske died suddenly at his home here Thursday morning, March 3, after suffering a heart attack. Born January 24, 1910 at Salado, Duske was married to the former Miss Alene Stegall at Bronte in 1939. They had made their home in Sonora for about seven years. Duske was employed with Reg McQuatters, contractor. Survivors include his wife and two sisters, Mrs. L. A. Burial was in Sonora Cemetery under the direction of Ratliff-Kerbow Funeral Home.

# Annual Lions Broom Sale Set For Next Tuesday, March 15

Sonora Lions will hold their annual Broom Sale Tuesday, March 15, offering for sale brooms, mops and cleaning aids manufactured in Texas by the Texas blind, according to Joe Nance, sale chairman. Funds raised by the sale serve a two-fold benefit since funds are divided between the Texas Blind Workshops and the sponsoring Lions organizations for work in local aid to the visually handicapped. Zone Chairmen were named at Tuesday's meeting of the club. Named by President Harold Scherz were Jerry N. Shurley, Joe W. Hardgrave, W. J. Thompson, Charles Lee Haines and George E. (Bud) Smith. These chairmen will appoint assistants and will canvass both the residential and business district of Sonora. The caravan from the blind workshop will, as usual, be parked by the First National Bank Building and workers may pick up merchandise for sale there.

"It's slow work," Seco Mayfield concludes and wonders seriously if they'll ever manage to get the caverns open for the summer tourist trade. Seco does his bit, though, by removing small stones and chips cut away by the pavement breaker.

## Devil's River Philosopher Claims Round-The-Clock Senate Sessions Are Like Round-The-Clock Ranching

Editor's Note: The Devil's River  
Philosopher on his bitterweed  
ranch on Devil's River may be  
misconstruing what's been hap-  
pening in Washington, his letter  
this week reveals.

Dear editor:  
A man can go along for years  
without getting recognition for  
an idea, but when the United  
States suddenly adopts his idea,  
he feels like his efforts haven't

and Mr. and Mrs. John A. Mar-  
tin, Jr., will leave Thursday for

points of interest.

been in vain.  
What I'm talking about is the  
Senate's round-the-clock working  
sessions which have been in the  
newspapers and on television  
lately.

That's exactly the system I'm  
been using out here on this bitter-  
weed ranch for years, and I con-  
gratulate the Senate.

As I understand it, the Senate  
had an unusually hard problem  
to tackle, so it decided to stay  
in session till it was solved. And  
the first thing it did was bring  
in a lot of cots and mattresses,  
ordered the Senate restaurant to  
stay open all night, rolled up its  
sleeves, and went to work.

This almost parallels the sys-  
tem I've used out here for  
years, with the exception of the  
restaurant; that's a refinement

that's one up on me.

But the general idea, that you  
can work around the clock and  
still take time out to stretch out  
and rest, sleep, and eat, is part  
of my basic procedure. Now, when  
I get tired of going up one fence  
line and down another and get  
out of my pickup and stretch out  
under a shade tree later on this  
year, and somebody says, look  
at him, out there loafing when he  
ought to be working, I will point  
out that he's not just criticizing  
me, he's criticizing the Senate  
of the United States of America.  
The idea that a rancher has to  
be out with his sprayer if he's  
working, or a Senator has to be  
on his feet talking if he's Sena-  
toring, is now out of date.

Me and the United States  
Senate both have discovered a  
man can work around the clock  
and still lie down and rest when  
he feels like it. Year-around  
ranching and around-the-clock ses-  
sions of Congress are like all-  
night sessions of fishing—you  
don't have to be running your  
lines all the time.

Yours faithfully,  
J. A.

## Steve Preslar Comments

In our prior discussions in this column we have  
seen how important the decisions of a Judge are to  
each of us and how such decisions affect us, both  
directly and indirectly, even though we are not our-  
selves before the Court. We saw how the Judge in-  
terprets and construes the Constitution, statutes and  
the common law, so that the decisions made by the  
Judge determine what the law is. This all adds up  
to the fact that the office of the trial judge is a  
very important one, and brings us around to look-  
ing at the method by which we fill that important  
office. In the early formation of our government,  
there was much debate about whether judges should  
be appointed by the Executive or elected by the  
people. One group, composed of the aristocracy who  
believed in something of a ruling class, ruled-by-  
the-few, favored judges appointed by the head of  
government, while another group, led by Thomas  
Jefferson, argued that the people should select the  
men who sat in judgment on them.

That debate is still going on today in our various  
states, with some states having the elective system  
and some states the appointive system, with those who favor the appointive system  
doing so largely on the basis that the man who sits in judgment should not have to be  
a politician and beholden to anyone. For the elective system it is said that the people  
should have a right to select the man who sits in judgment on them, and that it is  
better that he be beholden to the many within his district than to be indebted to one  
man for his appointment, when that man may not even live in the District, nor vote  
there, nor be affected by the Judge's decisions made there.

In Texas the matter is covered by our Constitution, which provides that judges shall  
be elected. In fact, so zealously do we Texans guard our right to select our judges that  
our State Constitution provides that in the event of a vacancy the Governor shall have  
the power to appoint a temporary judge, only until the next election. Appointments are  
not made for the unexpired term of the departing judge, but only until the next elec-  
tion when the people shall exercise their choice of one among them to be their  
judge.

It is well that a judge should be elected from among the people, by the people, be-  
cause justice involves the people as well as the cold letter of the law.

You be my judge . . . I ask to be yours

## YOUR MINISTER SAYS

By Rev. Alvin Loiry

Man is created by God with a  
great destiny which lends dignity  
to his existence. This dignity is  
realized only as man is found  
living in a new dimension. Man  
by nature, and not by essence,  
is a rebellious creature. Man by  
natural birth is a sinner. The  
entire message of the Bible is  
centered upon this fact of our  
being in need and the fact that  
God desires to supply the answer  
to this need.

The entire message of the New  
Testament states that Jesus  
Christ, through his life on earth,  
his death, and his resurrection,  
has brought reconciliation be-  
tween God and man. This minis-

try of Christ also gives man a  
new relationship with man. Those  
who accept Christ as Lord live  
in a new dimension and a new  
community in which love and  
unity are regnant. This new di-  
mension and community is not  
only spiritual; it pervades life  
in all its relationships.

This new dimension finds its  
expression, at least in part, in  
this world in which we live as  
Christian citizens. The greatest  
hope of this new dimension lies  
beyond. Christians today, as  
they who are mentioned by the  
writer of the Epistle to the  
Hebrews, are looking forward to  
the fulness of this new dimension  
in that city, a heavenly city whose  
founder and builder is God.

## Edwards Plateau Soil Conservation District News

By E. B. Keng  
Soil Conservation Service

With the calendar indicating the approach of spring, many ranchmen in the Edwards Plateau soil conservation district are planning their conservation activities.

One of the first jobs requiring attention should be range seeding. Old fields, soil bank land, or root plowed areas should be seeded in March and April. With a good supply of moisture in the soil, good stands of grass should be obtained this spring.

Interest is growing in controlling mesquite by chemical spray. R. A. Halbert sprayed some 1,400 acres last spring, and obtained a good top kill. The area will be checked this spring to determine root kill, and if results are satisfactory Robert plans to spray some more.

Ben and W. R. Cusenbary, Thomas Morriss and Billy Galbreath plan to spray several sections along the Cusenbary Draw.

### LOCAL NEWS BRIEFS

Mr. and Mrs. Sears Sentell and Kelly Sue had as their guests last weekend Mr. and Mrs. John Sentell of Snyder and Mr. and Mrs. Marvin Sentell of Austin.

Efforts will be made to control mesquite and sunflowers with the same application of chemical.

Mesquite, for best control, should be sprayed about 40 to 60 days after leafing out. When the light green new leaves are changing to a dark green color seems to be the best time to spray.

Deferred grazing is always important, but particularly so in April, May and June. Range plants are weakened after a cold winter, and some early rest from grazing lets the plants put out green leaves and get a good start. The green leaf is the manufacturing part of the plant. Continuous close cropping of green leaves limits food production, and both root and forage growth is curtailed.

Ranchmen should check "deep soil" pastures to see if annual broomweed is present. The young broomweed plants are palatable and can be controlled by heavy grazing with sheep or goats during March and April.

Other timely conservation jobs include root plowing mesquite, chaining oak, chopping or dozing cedar, fence construction for better livestock management, and pipelines or wells for better water distribution. All of these practices are eligible for cost-sharing assistance from the Sutton County ASC committee.

Soil Conservation Service technicians are always happy to assist in planning and applying conservation practices.

## I Give You Texas

By Boyce House

On the subject of memory: You can know a man and know him fairly well and still have difficulty in immediately calling his name.

It may be that you haven't seen him in a good while; or it is on the street in Fort Worth and he lives 200 miles away. If you saw him in his home town, "association" would help you. (We speak of not being able to "place" someone.)

Sometimes you might know a man very well and still your memory refuses to come up with the name.

Fred Korth is one man who realizes this and so he supplies his name when he greets you. He is impressive in size and appearance, has an excellent voice, formerly was Assistant Secretary of the Army and recently became president of the Central National Bank of Fort Worth—all in all, a man who because of achievement and appearance certainly can have every right to expect to be remembered, yet he considerately supplies his name.

Pat Neff was introduced to someone as "ex-governor of Texas." Neff quickly said, "No-former governor. A former governor is one who retired; and ex-governor is one who got beat."

Neff was the finest speaker in Texas in his era. I heard him speak at the State Democratic Convention in Austin (in 1942, if my memory serves me a-right). He spoke for half an hour, perhaps a little longer; his language was elevated; his thoughts were stirring. Afterward, newspapermen asked for a copy of his speech. He produced a single piece of paper on which a few notes were written.

When he was president of Baylor University, Governor Neff invited me to address the student body and he introduced me. My scholarly contribution was "How I took Hollywood by Storm," an

### Here's A Good Value

For less than 3¢ the average family served by WTU can cook a complete meal the modern electric way... and enjoy the cleanliness and convenience of Electric Living.

"Who owns the electric company?"

### "Here's who—"

The answer is that thousands of people own it. People like you, people who invest money in the electric company and help it grow. They become an investor... this is the reason we are known as an investor-owned company.

It is a good question—especially since surveys show a lot of our own customers don't know the answer.

This electric company is not owned by the city. It is not owned by the state. It is not owned by any kind of government agency or co-op. It is owned by investors.

This is one of the reasons why we can give you the best possible service and just about the best bargain you can buy.

## April 15 Deadline For Obtaining Inspection Labels

Col. Homer Garrison, Jr., di-  
rector of the Texas Department  
of Public Safety, said today that  
more than two-million motor ve-

hicles remain to be inspected be-  
fore the April 15 deadline. He  
urged all Texas motorists to ob-  
tain their new inspection stickers  
at an early date.

Garrison reported that more  
than 4,300,000 will be inspected  
in Texas this year. To date only  
about half that number have  
gone through inspection lines at  
some 4,400 inspection stations  
located throughout the state.

The DPS director pointed out  
that inspection stations cannot  
inspect vehicles during wet,  
rainy weather, a condition nor-  
mally prevailing during last win-  
ter and early spring. To make  
sure every vehicle owner is able  
to obtain his 1960 inspection  
sticker in time, Garrison sug-  
gested that plans be made now  
to visit an inspection station, be-  
fore inspection lines grow long.

**CHAMBER OF COMMERCE COMMENTS**

**TIRED-** Many tired ladies in Sonora are tired of ringing door bells of tired housewives, asking for contributions to the various and sundry worthy causes, a drive of some kind is on most of the time. They suggest a one-drive campaign, a community chest, one huge, hilarious drive in which finances for all the worthy causes can be raised and prorated.

No one should say no to a solicitor for the Heart Fund, the Cancer Fund, the Polio Fund and many of the other special funds but the mechanics of gathering in these funds are cumbersome, duplicating and often frustrating. A COMMUNITY CHEST might work in Sonora.

**14TH-** The Speech Meet now in progress is the fourteenth consecutive for Sonora High School. It is unique and very worthwhile. It is of inestimable value to students the experience and the contacts with upper bracket students from all over Texas.

The big, final party will be at the Wesley Sawyer ranch again this year and this organization is honored in having the privilege of feeding the throng. Drive carefully.

**GOING UP-** The building program in Sonora is in full swing with the unusual good building weather. The dam builders have caught it this winter, weather-wise, but are making hay now. The Lowrey Draw project is now being finished and work is progressing on four Devil's River Dams.

The Edith McIlwaine home is about ready for occupancy, Santos Lopez has moved in and is now landscaping. The Bill Morris home is all indoors and approaching the finish. Work is going ahead on the Norman Roussetot and the Dona Stites homes as well as the Jack Kerbow home.

The 4-H Club building is going up fast now, the walls are up and the roof going on. Looks big. The Highway Dept. office and laboratory building is almost ready for use and work on the Presbyterian Church is going forward rapidly, being in the inside finishing stage. This is to be a beautiful structure, very Church like.

**QUIET AT CITY HALL-** Gay Copeland, hissoner, has been

knocked out some two weeks with the flu. Alton Hightower and Bob McCarver are down with it now. That makes W. B. McMillan the top brass. All are over the hump and will be back on the job soon.

**BIG-** The next big event facing Sonora is the race meet the last of April and in early May. This event brings hundreds of people to our community and with them some of the best horse flesh in Texas. The Futurity will be bigger and better this year as will the Quarter Horse Halter Futurity. Don't miss this, Saturday morning, 9:00 a.m. April 30th. The Futurity final should be for a purse of over five thousand smacklers, which ain't hay.

**MRS. HOUSEWIFE-** During the past month how many times have you answered the door bell and found a solicitor, peddler or magazine salesman standing there? Some men claim they get indigestion, then ulcers, because their wives can't cook properly anymore, spending all their time answering the door bell, aggravating ain't it?

This is a ticklish problem. It isn't against the law for reputable people or companies to sell, house to house. There should be some way to weed out the fakers and to reduce the overall number. And then, the citizenship would have to really cooperate or a chain is just as strong as its weakest link. All we can advise right now is, don't use old Betsy as you would like to do. A vicious dog might help.

**HOLE IN THE GROUND-** Is being made larger and work is progressing nicely on the CAVERNS OF SONORA. We are anxious to go down in this Cave for to go into this one and one more will make two we have been in. People over Texas are evidencing great interest in this colossal project. It is destined to do for Texas what Carlsbad Caverns has done in New Mexico. Jim Papadakis and Jack Burch are living at one of Zola's Apartments until lamb marking permits moving their house to the site. To expedite the project they have taken into partnership another Spelunker. More on this next week.

**GUESS-** The CC directors voted Tuesday night to offer a \$50.00 savings bond to the one or ones

**Speech Students, Former FBI Agent Speaks To Lions**

A brief talk on the Federal Bureau of Investigation fingerprint files was heard by Sonora Lions at their Tuesday meeting at the Methodist Church this week. Steve Presslar of McCamey, candidate for district judge and a former fingerprint expert with the FBI, gave a short run-down on the international clearing house for crime operated by the FBI through its fingerprint files.

Presslar said some 13 million criminal prints are on file with the bureau and that there is a total of over 130 million fingerprints in the file. In four and a half minutes a set of criminal prints can be identified.

Presslar further said that he fears for the time when J. Edgar Hoover can no longer head the FBI since it is such a power and operates in such secrecy that it might be misused.

Superintendent of Schools Rex W. Lowe then introduced Miss Joyce Boedeker and her speech students from junior high and high school, who presented the program.

Tommy Dock Rape, a junior high student, read "House by the Side of the Road". Other readings were presented by: Diana Cahill, "Touch of the Master's Hand"; Herbert Fields, Jr., "Annabel Lee"; and Debra Cooper, "Somebody's Mother". All are junior high students.

**CARD OF THANKS**

We express our sincere appreciation to our loved ones and friends during the illness and at the death of our beloved father, Oscar H. Wright, for the prayers, kind words, letters, cards, telegrams, memorials, the beautiful floral offering, the food and the faithful friends who gave their service and love, and the other acts of kindness.

Through you in our hour of need we are reminded that the deepest sorrow is relieved by a trustful faith in God.

Mr. and Mrs. C. W. Taylor and Family.  
Mr. and Mrs. Palmer West.

**CLEAN UP-** The City crew is really doing a clean up job in Sonora this week and we hope this is a key to trigger individuals into the spirit of the thing. Spring is right around the corner, moisture in the ground, Sonora could be made to look beautiful, everybody cooperating. How do you want to work it, house to house, block to block or just have everybody pitch in and CLEAN UP, SPRUCE UP, PAINT UP.

High school students then recited: Candace Cauthorn, "Face Upon the Floor"; Betty Jack Cooper, "Cinderella in Red"; Gene McCarver, "The Creation"; Johnny Fields, "The Judgment Day"; and Mary Wilson, "Number Three on the Docket".

Guests present were Steve Presslar of McCamey, Wayne McAndrew and Collier Shurley.

**TRACK MEET**

Defending champion Ozona is again favored with a team led by hurdler Joe McMullin plus well balanced relay teams. Menard with Sie Rhea Ellis in the sprints and Curtis Leggett in field events will help split the Ozona points, Turner said. He continued, saying that Sanderson brings Felix Valles who is sure to break the 880-yard record. Both Valles and Sonora's Ram Castillo have been timed under the record this year.

Eldorado has the defending record holder in the mile returning, Resor, who will have to battle Joe Garcia of Sonora to hold his crown. These boys have met twice this year, each one coming up with a victory.

Turner reports his team, lacking strength in the field and sprints, will depend on the distance runs and relays to gather their points. The local team plus Mason, Menard and Eldorado will be scrapping for the runner-up spot.

Weather has hampered workouts in all schools and most coaches are still in the process of organizing their squads.
